

Walter R. Hepner
was the third president of
San Diego State University,
serving from 1935 to 1952.
Hepner became the master architect
of this institution's development
from a teachers' training school to
a state college providing a broad
spectrum of programs in business,
technical and liberal arts fields
as well as professional preparation
in education. During his tenure
the enrollment increased from
1250 to 4000, course offerings
from 404 to 1431, and faculty
from 63 to 222.

(Please Note: This is not to be construed as an employee work calendar.)

Schedule of Fees

1990-1991

Fees and tuition are subject to change without advance notice by the Trustees of The California State University.

FEES MUST BE PAID AT TIME OF REGISTRATION. CHECKS OR CHARGE SLIPS ACCEPTED FOR EXACT AMOUNT OF FEES. OVERPAYMENTS OF \$5.00 OR LESS ARE REFUNDED ONLY UPON REQUEST. IF YOUR CHECK OR CHARGE SLIP IS RETURNED BY THE BANK FOR ANY REASON, YOUR REGISTRATION MAY BE CANCELED AND YOU WILL BE BILLED \$20.00 (*Dishonored payment charge and late fee of \$10.00 each*). PAYMENT OF FEES FOR ADVANCE REGISTRATION OR LATE REGISTRATION SHOULD BE MADE BY CHECK, MONEY ORDER, OR CHARGE CARD. THE UNIVERSITY RESERVES THE RIGHT TO REFUSE PAYMENT BY PERSONAL CHECK FROM THOSE INDIVIDUALS WHO HAVE PREVIOUSLY HAD ITEMS RETURNED UNPAID BY THEIR BANK. REFUNDS MAY BE APPLIED AGAINST OTHER AMOUNTS DUE THE UNIVERSITY. CHECKS TO BE MADE PAYABLE TO SDSU. DO NOT ENCLOSE CASH.

ADMINISTRATIVE/FINANCIAL HOLDS

All administrative and financial holds must be cleared prior to submittal of payment for registration or other University services. See "Debts Owed to the Institution" below. Acceptance of payment by the University does not constitute completion of registration or guarantee of services if any kind of administrative or financial hold exists.

Payments to clear financial holds must be made by cash, money order, or certified check. Personal checks or charge cards will NOT be accepted.

REGISTRATION FEES — ALL STUDENTS:

(On basis of units carried.)

Auditors pay same fees as students carrying courses for credit. Nonresident and foreign students pay additional fees — see information below.

Units Attempted	Registration Fee
0 units — 6.0 units	\$304.00
6.1 or more units	\$463.00

The above fee also includes a Student Activity Fee of \$10.00, a Student Union Fee of \$63.00, a Facilities Fee of \$3.00, an Instructionally Related Activities Fee of \$15.00, and a State University Fee of either \$213.00 or \$372.00, depending on unit load.

Imperial Valley Campus students pay a Student Union Fee of \$16.00. See Imperial Valley Campus bulletin for details.

The total fee paid per term will be determined by the number of units taken, including those in excess of fifteen.

No fees of any kind shall be required of or collected from those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act.

Legal residents of California are not charged tuition.

TUITION FOR NONRESIDENT STUDENT (Foreign and Domestic)

Tuition will be charged for all units attempted.

Per unit	\$189.00
(Tuition is payable in addition to registration fees listed above. For fee-paying purposes, zero unit and half-unit courses are counted as one unit. See Liability for Payment section for additional important information.)	
Health insurance (mandatory for foreign students)	
Per year, approximately	331.00

PARKING FEES

Nonreserved parking space, per semester	\$72.00
Car pool—see Cashiers Office.	
Less than four-wheeled, self-propelled vehicle (motorcycle, moped)	18.00

MISCELLANEOUS FEES

(Fees payable when service is rendered.)

Application for admission or readmission (nonrefundable), payable by check or money order at time application is made	\$55.00
Late registration (nonrefundable) (Refer to Class Schedule for dates when this fee will be assessed.)	25.00
Failure to meet administratively required appointment or time limit (late fee)	10.00
Photo-identification card (One-time cost to both new undergraduate and graduate students at time of registration. Valid only when accompanied by current semester validation card.)	3.00
Lost identification card	
Photo I.D. card only	2.00
Registration validation card only	2.00
Photo I.D. card and validation card	4.00
Transcript of record (official or unofficial)	4.00
Second through tenth transcript, prepared at the same time as the first	each 2.00
Additional copies over ten, prepared at the same time	each 1.00
AFROTC deposit (Unexpended portion is refundable.)	50.00
Check or charge slip returned for any cause*	10.00
Loss of or damage to library materials	Replacement cost plus \$8.00 service charge
Commencement fee	16.00
(Paid only once at time of initial filing of graduation application at Cashiers Office.)	
Graduation evaluation and diploma fees	16.00
(Paid each time a graduation application is filed at Cashiers Office.)	
Diploma replacement fee	\$12.00
Credential application fee	60.00
Credential evaluation fee	25.00
Musical instrument repair fee	20.00
Lock and locker fee (optional)	1.00
Towel fee (optional)	2.00
Lost key fee (per key)	10.00
Miscellaneous course charge (optional)	As established and approved

* Late fee also charged when applicable.

MISCELLANEOUS INSTRUCTIONAL COURSE CHARGES

Miscellaneous instructional course charges are payable at the option of the student for the following courses:

Accountancy	312.
Art	225, 325, 425, 525, 526, 625, 627, 700D.
Educational Technology	404, 471, 532, 540, 541, 544, 553, 572, 644, 671, 775.
Family Studies and Consumer Sciences	205, 301, 302, 405, 605.
Geological Sciences	508.
Industrial Technology	115, 121, 131, 140, 151, 161, 171, 181, 315, 321, 331, 341, 351, 361, 371, 381, 422, 432, 443, 444, 452, 462, 472, 482, 498A-498B, 499, 517, 523, 533, 542, 553, 573, 583.

Music 151, 345.

Physical Education 116A-116B, 119A-119B, 124, 138, 145, 146, 147, 150A-150B.

CREDIT CARDS

Only VISA and MasterCard bank credit cards may be used for payment of Student Fees. Bank card payments are validated through the bank terminal system prior to acceptance by the University.

LIABILITY FOR PAYMENT

Whether or not an invoice is received from the University, students are liable for payment of all registration fees related to **units held on or added after the close of business on the fourteenth day** following the commencement of instruction. Foreign and nonresident students are liable for tuition related to all units held, except as provided for by the refund policy.

With the exception of doctoral students and students enrolling for 799A or 799B only, foreign graduate students must pay or sign an installment agreement for a minimum of 6 units at time of registration. (Students participating in Advance Registration must make payment or submit an installment agreement to Cashiers prior to the first day of class.) Foreign students wishing to pay for fewer than 6 units at registration must submit to Cashiers written approval to do so from the International Students Office or Graduate Division and Research, as applicable.

IT IS THE STUDENT'S RESPONSIBILITY TO BE AWARE OF TOTAL FEES AND TUITION DUE. (Legal residents of California are not charged tuition.) Additional fees which may become due as a result of units added during the semester must be paid at the Cashiers Office at the time the units are added. Note fee schedule above. LATE PAYMENTS FOR FEES AND TUITION ARE SUBJECT TO AN ADDITIONAL LATE FEE.

DISHONORED CHECK OR CHARGE SLIP

If your check or charge slip is returned by the bank for ANY REASON, the following action will be taken:

Advance Registration Payments. You will be disenrolled from all classes received through Advance Registration; it will then be necessary to re-register during Late Registration. You will be notified that this action was taken and billed for the \$10.00 dishonored payment charge by Cashiers.

Other Registration/Miscellaneous Fee Payments. You will be billed for the \$10.00 dishonored payment charge, and the \$10.00 Late Fee when applicable. Nonpayment of fees or tuition may result in cancellation of your registration and withholding of further services until all financial liabilities have been resolved.

REFUND OF FEES

Details concerning fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained by consulting Section 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, **California Code of Regulations**. In all cases it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be obtained from the Cashiers Office.

Refund of Registration Fees

REFUNDS ARE NOT AUTOMATIC. WHETHER OR NOT YOU RECEIVE CLASSES THROUGH THE REGISTRATION PROCESS, YOU MUST APPLY FOR THE REFUND BY THE REFUND DEADLINE. Refunds may be applied against other amounts due the University.

Complete Withdrawal. To be eligible for refund of registration fees, a student withdrawing completely from the University (from **all** classes) MUST file a refund application with the Office of Admissions and Records at the time the withdrawal is requested, not later than 14 days following the commencement of instruction (Refund Deadline). All but \$5.00 will be refunded less any amount due to the University. YOUR REGISTRATION VALIDATION CARD MUST BE RETURNED AT THE TIME YOU FILE YOUR REFUND APPLICATION. (See Class Schedule for deadline dates. Note that the refund deadline is **prior to** the deadline set by Admissions and Records for Official Withdrawal.)

Fees Based on Unit Load. A student dropping from 6.1 units or more to 6.0 units or less, or a student who paid maximum fees but never

obtained over 6.0 units, or a student who paid fees but never obtained **any** units, MUST file a refund application with the Cashiers Office, CL-108, not later than 14 days following the commencement of instruction (Refund Deadline). All but \$5.00 will be refunded less any amount due to the University. FOR ADDITIONAL INFORMATION, CONTACT THE CASHIERS OFFICE OR TELEPHONE 594-5253.

Disqualified and Leave of Absence Candidates. If your registration has been canceled due to disqualification or by obtaining an approved leave of absence, registration fees will be refunded upon (1) notification from Admissions and Records that appropriate action has been taken and (2) return of your registration validation card and **application for refund** to the Cashiers Office.

Refund of Nonresident and Foreign Student Tuition

REFUNDS ARE NOT AUTOMATIC. WHETHER OR NOT YOU RECEIVE CLASSES THROUGH THE REGISTRATION PROCESS, YOU MUST APPLY FOR THE REFUND.

Tuition paid for a course scheduled to continue for an entire semester may be refunded less any amount due to the University in accordance with the following schedule, if application is received by the Cashiers Office within the following time limits:

Time Limit	Amount of Refund
(1) Before or during the first week of the semester	100 percent of fee
(2) During the second week of the semester	90 percent of fee
(3) During the third week of the semester	70 percent of fee
(4) During the fourth week of the semester	50 percent of fee
(5) During the fifth week of the semester	30 percent of fee
(6) During the sixth week of the semester	20 percent of fee

Refund of Parking Fees

This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins.

Nonreserved space per semester:

Period	Amount of Refund
1—30 days	75 percent of fee
31—60 days	50 percent of fee
61—90 days	25 percent of fee
91—end of term	None

Your parking permit or a receipt indicating that the permit was removed from the vehicle by a University Police Officer (Information Booth, Campanile Drive) must be turned in to the Cashiers Office at the time you file your refund application. Refund applications are available at the Cashiers Office. The amount of refund is rounded down to the nearest dollar. No refund is made for amounts of \$5.00 or less. Refunds may be applied against other amounts due to the University.

LATE REGISTRATION FEE

The Late Registration fee (\$25) pertains to those students who register during Late Registration. Newly admitted students and those registering for block classes through their college may be exempted from this fee. See registration materials provided by Admissions and Records for details. The registration process is not complete until all fees due are paid and you are officially enrolled in classes through Admissions and Records.

APPEALS PROCESS — CASHIERS OFFICE

An appeals process exists for students who believe that individual circumstances warrant exceptions from published policy. Students should file a "Petition for Special Consideration" obtainable at the Cashiers Office. Petitions must be filed with the Cashiers Office prior to the end of the twelfth week of classes.

Petitions for refunds filed beyond the appropriate refund deadline are approved only when the applicants are unable to continue their enrollment for one of the following reasons: compulsory military service; administrative error; campus regulation; or physical disability or death.

SUMMER SESSION FEES

Refer to Summer Sessions Bulletin for schedule of fees.

Parking fees (nonreserved spaces)

EXTENSION COURSE FEES

Refer to Extended Studies Bulletin for schedule of fees.

EXEMPTIONS

Students under Public Law 894, 87-815, California state veterans' dependents, or state rehabilitation programs will have tuition and fees paid under provisions of these respective programs.

ALAN PATTEE SCHOLARSHIPS

Children of deceased public law enforcement or fire suppression employees, who were California residents and who were killed in the course of law enforcement or fire suppression duties, are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, **Education Code**, Section 68121. Students qualifying for these benefits are known as Alan Pattee scholars. For further information contact the Admissions and Records Office, which determines eligibility.

Procedure for the Establishment or Abolishment of a Student Activity Fee

The law governing The California State University provides that a student activity fee may be established by student referendum with the approval of two-thirds of those students voting. The Student Activity Fee was established at San Diego State University by student referendum in 1955. The same fee can be abolished by a similar two-thirds approval of students voting on a referendum called for by a petition signed by 10 percent of the regularly enrolled students. (**Education Code**, Section 89300.) The level of the fee is set by the Chancellor. An increase in the student activity fee may be approved by the Chancellor only following a referendum on the fee increase approved by a majority of students voting. Student activity fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

Debts Owed to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, **California Code of Regulations**, Sections 42380 and 42381). For example, the institution may withhold permission to receive official transcripts of grades from any person owing a debt. If a student believes that he or she does not owe all or part of an unpaid obligation, the student should contact the campus Cashiers Office. The Cashiers Office, or another office on campus to which the student may be referred by the Cashiers Office, will review the pertinent information, including information the student may wish to present, and will advise the student of its conclusions with respect to the debt.

Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, 594-6323.

1. Student financial assistance programs available to students who enroll at San Diego State University;
2. The methods by which such assistance is distributed among recipients who enroll at San Diego State University;
3. The means, including forms, by which application for student financial assistance is made and requirements for accurately preparing such application;

4. The rights and responsibilities of students receiving financial assistance; and
5. The standards the students must maintain to be considered to be making satisfactory academic progress for the purpose of establishing and maintaining eligibility for financial assistance.

The following information concerning the cost of attending San Diego State University is available from the Financial Aid Office, 594-6323.

1. Fees and tuition;
2. Estimated costs of books and supplies;
3. Estimates of typical student room and board costs or typical commuting costs; and
4. Any additional costs of the program in which the student is enrolled or expresses a specific interest.

Information concerning the refund policy of San Diego State University for the return of unearned tuition and fees or other refundable portions of costs is available from the University Cashiers Office, 594-5253.

Information concerning the academic programs of San Diego State University may be obtained from the Office of the Vice President for Academic Affairs, HH-114, 594-6542, and may include:

1. The current degree programs and other educational and training programs;
2. The instructional laboratory, and other physical plant facilities which relate to the academic program;
3. The faculty and other instructional personnel; and
4. Data regarding student retention at San Diego State University and, if available, the number and percentage of students completing the program in which the student is enrolled or expresses interest; and
5. The names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its program, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

Information regarding facilities and services available to handicapped students may be obtained from the Director of Disabled Student Services, telephone 594-6473.

Cost of Living

To ensure equity, San Diego State University establishes standard student budgets in coordination with The California State University system. Student budgets, updated annually for inflation are currently:

Estimated Expenses for the 1990-91 Academic Year

	Living off Campus	Living on Campus	Commuting from Home
Registration fee for materials, service, student activity, student union, facilities	\$ 926	\$ 926	\$ 926
Books and supplies	504	504	504
Room and board	5554	4436	1512
Transportation	648	354	648
Personal	1548	1548	1268
Total	\$9180	\$7768	\$4858

In addition to the registration fee, foreign students and out-of-state students will pay tuition of \$189.00 per unit in 1990-91. **All fees and costs are subject to change without notice.**

PART ONE

San Diego State University

San Diego State University

San Diego State University was founded on March 13, 1897 for the training of elementary school teachers. The seven faculty and ninety-one students of the then Normal School's first class met on November 1, 1898 in temporary quarters downtown while the first unit of the main building of the campus was under construction at Park Boulevard where El Cajon Boulevard begins.

The curriculum was limited at first to English, history and mathematics, but it broadened rapidly under the leadership of Samuel T. Black, who left the position of State Superintendent of Public Instruction to become the first President (1898-1910).

Under the vigorous administration of the second president, Edward L. Hardy (1910-1935), the School was reorganized as a four-year State Teachers' College in 1921, and control was transferred from a local board of trustees to the State Board of Education. In the same year, the two-year San Diego Junior College, the antecedent institution to the present Community Colleges, was incorporated as a branch of San Diego State, where it remained through 1946.

It became clear early that the only collegiate institution in San Diego would soon outgrow its 17-acre site, and a campaign was begun in the 1920s to build a new campus. The Legislature agreed, provided the city furnish a new site and buy the old one. In 1928 the present campus, on what was then the far eastern border of the city, was approved by the electorate.

In February 1931, the college moved to the seven mission-style buildings of the present campus, surrounding what is still called the Main Quad. In 1935, the Legislature removed the word "Teachers" from the name of the institution and authorized the expansion of degree programs into areas other than teacher preparation. In the same year, Walter R. Hepner (1935-1952) was appointed president, and the institution entered a period of slow growth and then, with the coming of war, of contraction. At the end of World War II, enrollment had fallen to 1,918.

In the next quarter century, under Dr. Hepner and subsequently under Malcolm A. Love (1952-1971), enrollments increased phenomenally and, with over 35,000 students, San Diego State is today one of the largest

institutions in the State. In 1960, the College became a part of the newly created California State College system, under a statewide Board of Trustees and a Chancellor. In 1971, recognizing that the institution had in fact achieved the status of a university, the Legislature renamed the system The California State University and Colleges, and shortly afterward renamed this institution San Diego State University.

Acting President Donald E. Walker (1971-1972), President Brage Golding (1972-1977), and Acting President Trevor Colbourn (1977-1978) were followed by the sixth president Thomas B. Day (1978-) who faces problems and opportunities of a magnitude undreamed of 80 years ago.

To accommodate the steadily increasing enrollment, the campus continued to grow in terms of physical facilities as well. It currently encompasses over 4.5 million square feet in 44 academic buildings. Included are Aztec Center, the first student union building in the CSU system; the Dramatic Arts building with one of the finest theaters in the nation; the Music building, with its Recital Hall; and the 320,000 square foot Malcolm A. Love Library. The Health Services facility, Art and Humanities classroom buildings, and additional dormitory and parking facilities make up the core of buildings added in the 1970s. Several renovation projects have improved facilities for nursing, physical education, public health, and the sciences in the 1980s. Currently in the construction and planning stages are new buildings to house Student Services, a student financed Activities Center, additional student housing, parking and major additions to the Engineering building and the Library.

The University now offers bachelor's degrees in 76 areas, the master's in 56, and the doctorate in 7. A remarkable 88 percent of the teaching faculty possess the doctorate in those disciplines where it is the standard terminal degree.

There are five multidisciplinary honor societies on campus that help to reinforce the high academic standards of the campus. They include Golden Key, Mortar Board, Phi Beta Kappa, Phi Eta Sigma, and Phi Kappa Phi. In addition, there are a number of disciplinary honor societies that recognize superior scholarship and leadership in specific academic fields.

Mission and Goals of San Diego State University

San Diego State University is a multipurpose institution of higher education located in a large and diverse urban setting. The University recognizes its obligations to serve in the several capacities of teaching, research, and service. The fundamental aim of the University is excellence and distinction in these pursuits.

The University seeks to provide an environment that encourages the intellectual development of students. Through its program in the liberal arts and sciences the University aspires to have students understand themselves and their world; learn about their cultural, social, physical, and institutional surroundings; and understand the ways in which people of this and other societies, past and present, interact with each other and their environments. The professional programs of the University are designed to prepare students for the proficient and successful practice of a profession. At the graduate level the University is concerned with developing potential leaders in a wide spectrum of social, economic, scientific, technical, educational, and cultural fields.

Closely related to its teaching mission are the University's diverse research efforts. Student and faculty involvement in research exemplifies the manner in which knowledge is obtained and also expands the boundaries of our collective understanding. Graduate study at San Diego State University, both at the master's and doctoral levels, places particular

emphasis on creative scholarship, original research, and the development and utilization of research techniques.

Located in the heart of a large and diverse metropolitan center, the University makes use of the vast social, cultural, scientific, and technical resources of this region to enrich its programs and spur its research. Conversely, through its teaching, research, and various services, the University endeavors to identify and be responsive to the needs of the regional, national, and international communities that it serves. Furthermore, San Diego State University seeks cooperative efforts and programs with other institutions of higher education.

In sum, the mission of San Diego State University is to provide the best possible education for its undergraduate and graduate students, to contribute to knowledge and the solution of significant problems through its research, and to serve the people of California and the nation.

Accreditation

San Diego State University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges. It is also approved to train veterans under the G.I. Bill.

San Diego State University's programmatic accreditation is through membership in the following associations:

- Accrediting Council on Education for Journalism/Mass Communication
- American Chemical Society
- American Dietetic Association
- American Speech-Language-Hearing Association, Educational Standards Board and Professional Services Board
- California Commission on Teacher Credentialing
- Council on Education for Public Health
- Council on Education of the Deaf
- Council on Rehabilitation Education
- Council on Social Work Education
- Foundation for Interior Design Education Research
- National Association of Schools of Art and Design
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- National Association of Schools of Theatre
- National Council for Accreditation of Teacher Education
- National League for Nursing
- National Recreation and Parks Association

The College of Business Administration and the School of Accountancy are accredited by the American Assembly of Collegiate Schools of Business at both the undergraduate and graduate levels. Several College of Business Administration programs are registered with the International Board of Certified Financial Planners. The Interior Design area in the Department of Art has been granted provisional status by the Foundation for Interior Design Education Research.

The College of Engineering undergraduate programs in aerospace, civil, electrical and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc.

The School of Nursing is accredited by the California Board of Registered Nursing.

In addition, preparation for many other professions is provided. It is suggested that the student refer to the various courses of study listed in the catalog. The bachelor's degree is offered in 76 areas, the master's degree in 56 areas, and the doctorate in 7 areas.

Administration

Principal Officers of Administration

President of the University Thomas B. Day
 Vice President for Academic Affairs Albert W. Johnson
 Vice President for Business and
 Financial Affairs William L. Erickson
 Vice President for Student Affairs Daniel B. Nowak
 Vice President for University Relations
 and Development Leslie F. Yerger
 Director of University Telecommunications Paul J. Steen

President's Advisory Board

Thomas F. Carter, Chair	Lee A. Grissom
Frederick P. "Pat" Crowell	Albert Kercheval
Lawrence Cushman	Arthur Madrid
Edward Fike	Ed Quinn
Ron L. Fowler	Elizabeth Yamada
Murray Galinson	

Academic Administration

GRADUATE DIVISION

Dean of the Graduate Division and Research James W. Cobble
 Associate Dean Brad N. Bartel
 Associate Dean Lawrence B. Feinberg
 Assistant Dean Arthur W. Schatz

THE GRADUATE COUNCIL

The Graduate Council of San Diego State University consists of the Dean of the Graduate Division and Research (chairman), the Vice President for Academic Affairs, the Associate and Assistant Deans of the Graduate Division, members of the faculty from the various schools and colleges, and two classified graduate students. For the academic year 1989-90, the membership of the Council was as follows:

James W. Cobble	Dean of the Graduate Division and Research
Albert W. Johnson	(ex officio) Vice President for Academic Affairs
Don L. Bosseau	(ex officio) University Librarian
Brad N. Bartel	Associate Dean of the Graduate Division
Lawrence B. Feinberg	Associate Dean of the Graduate Division
Arthur W. Schatz	Assistant Dean of the Graduate Division
James H. Banks	Department of Civil Engineering
Joseph J. Bellinghiere	Department of Drama
Mark C. Butler	Department of Management
Boyd D. Collier	Department of Biology
John B. Conway	Graduate School of Public Health
Valerie J. Cook	Department of Counselor Education
Janet B. Esser	Department of Art
Mary J. Gregor	Department of Philosophy
Steven J. Kramer	Department of Communicative Disorders
John Lantz	School of Nursing
Joseph M. Mahaffy	Department of Mathematical Sciences
Douglas A. Stow	Department of Geography
Gordon M. Thompson	Department of Counselor Education
Larry D. Thompson	Department of Mechanical Engineering
Penny L. Wright	Department of Management
	Student Representative
	Student Representative

(Membership for 1990-91 will be determined prior to the beginning of the academic year.)

ACADEMIC DEANS

College of Arts and Letters	Paul J. Strand
College of Business Administration	Allan R. Bailey
College of Education	Ann I. Morey
College of Engineering	George T. Craig
College of Health and Human Services	Peter A. Dual
College of Professional Studies and Fine Arts	Joyce M. Gattas
College of Sciences	Donald R. Short
College of Extended Studies	William P. Locke
Division of Undergraduate Studies	Bonnie H. Neumann
Imperial Valley Campus	David Ballesteros

 Requirements for Master's Degrees

Graduate Division

intellectual skills and the demonstration of creativity that can only be achieved through dedicated and persistent scholarship. The University has the necessary faculty and facilities to offer such opportunities in over 50 different areas of knowledge.

Authorized Graduate Degrees

DOCTOR OF PHILOSOPHY

Biology	Education
Chemistry	Engineering Sciences/Applied
Clinical psychology	Mechanics
Ecology	Public Health

MASTER OF ARTS

The Master of Arts degree is offered in the following fields:

American studies	Liberal arts
Anthropology	Linguistics
Art	Mathematics
Asian studies	Music
Biology	Philosophy
Chemistry	Physical education
Communicative disorders	Physics
Drama	Political science
Economics	Psychology
Education	Public history
English	Radio and television
French	Russian
Geography	Sociology
History	Spanish
Industrial and technical studies	Special major
Latin American studies	Speech communication

MASTER OF SCIENCE

The Master of Science degree is offered in the following fields:

Accountancy	Geological sciences
Aerospace engineering	Mass communication
Applied mathematics	Mechanical engineering
Astronomy	Microbiology
Biology	Nursing
Business administration	Nutritional sciences
Chemistry	Physics
Child development	Psychology
Civil engineering	Radiological health physics
Computer science	Rehabilitation counseling
Counseling	Special major
Electrical engineering	Statistics

Master of Business Administration
Master of City Planning
Master of Fine Arts in Art
Master of Fine Arts in Creative Writing
Master of Fine Arts in Drama
Master of Music
Master of Public Administration
Master of Public Health
Master of Social Work

Certificate Programs

The advanced certificate at the postbaccalaureate entry level gives students a program of coursework leading to a specific applied goal. The general educational background of a bachelor's degree with a major in the appropriate field(s) of study is prerequisite to such a certificate.

The advanced certificate at the postmaster's entry level also gives students a program of coursework and supplemental practical experience leading to a specific applied goal. The theoretical and methodological subject matter obtained from the master's or doctoral degree is prerequisite to such a certificate. A certificate at this level is an endorsement of the specialized competence beyond that obtained in the student's graduate degree program.

Nondegree Postbaccalaureate Study

In addition to specific programs of graduate study, the Graduate Division offers to individuals holding the bachelor's degree the opportunity to pursue postbaccalaureate study for reasons other than acquiring an advanced degree, credential, or certificate. By selecting from the variety of academic experiences provided by the seven colleges of the University, the postbaccalaureate student may seek to satisfy intellectual curiosity, to upgrade professional skills, or perhaps to prepare for a change in career.

Not bound by a prescribed course of study or a time limit, the postbaccalaureate student is eligible to enroll in all courses for which he or she meets the prerequisites. Additionally, greater choice in the selection of grading systems (such as opting for "credit" grades or "audit") gives the postbaccalaureate student more academic flexibility than students seeking degrees.

Enrollment in postbaccalaureate status does not preclude a student from later admission to a degree program. Often some of the coursework completed as a postbaccalaureate student can be applied toward an advanced degree, subject to the requirements of the particular degree program and the regulations of the Graduate Division.

Further information about nondegree postbaccalaureate study, including advanced academic certificates, may be obtained by contacting the Graduate Division.

Graduate Teaching Assistantships

Graduate teaching assistantships may be obtained by qualified graduate students in the areas of anthropology, art, astronomy, biological sciences, business administration, chemistry, communicative disorders, drama, economics, educational technology, engineering, English, family studies and consumer sciences, French, geography, geological sciences, industrial studies, journalism, linguistics, mathematical sciences, microbiology, music, physical education, physics, psychology, sociology, Spanish, speech communication, and telecommunications and film.

Qualifications for appointment include admission to San Diego State University with classified graduate standing for the purpose of obtaining an advanced degree, and enrollment each semester in not less than six units on the official program of study, except during the terminal semester.

Appointment to a graduate teaching assistantship is for a period of either one semester or the academic year. Reappointment following an appointment of one semester or one academic year is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, departmental need for the continued service in the department, and upon satisfactory teaching performance.

The combined teaching assignment and coursework permitted during one semester is 15 units unless an excess of this amount is authorized by the Graduate Dean.

Information concerning an appointment as a graduate teaching assistant may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the master's degree. A *Handbook for Graduate Assistants, Graduate Teaching Assistants and Graduate Teaching Associates* is published by the Graduate Division.

Graduate Assistantships

Graduate assistantships not involving teaching duties and permitting up to 20 hours of service per week for full-time appointment are available in most of the departments and schools. Applicants for graduate assistantships must be admitted to San Diego State University with classified graduate standing, and enroll in and complete at least six units each semester on the official program of study.

Appointment to a graduate assistantship is for a period of either one semester or the academic year. Reappointment following an appointment of one semester or one academic year is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, and upon departmental need for the continued service in the department.

Information concerning an appointment as a graduate assistant may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the master's degree.

Graduate Teaching Associates

Some departments may offer to qualified graduate students appointments as graduate teaching associates. Graduate students appointed as teaching associates must be admitted to a doctoral program or hold a doctorate and be pursuing further graduate study as a matriculated student. Doctoral students who do not hold a master's degree in the discipline of their appointment must have completed one academic year of doctoral study to be eligible for appointment as a graduate teaching associate.

Graduate teaching associates are appointed for a semester or an academic year. Reappointment is dependent upon satisfactory performance in graduate studies, as determined by the Graduate Division, departmental need for continued service in the department, and upon satisfactory teaching performance. Reappointment will also be governed by the departmental determination that the student is making satisfactory progress toward completion of the program in which the student is enrolled.

The combined teaching assignment and coursework permitted during one semester is 15 units unless an excess of this amount is authorized by the Graduate Dean.

Information about appointment as a graduate teaching associate may be obtained from the head of the department, school, or college in which the applicant intends to pursue advanced study.

Graduate Scholarships and Awards

A scholarship is a monetary award given to outstanding students to recognize them for their academic excellence, leadership, achievements, and promise.

They are provided by private donors, corporations, professional associations, and alumni.

Students apply on their own initiative. Occasionally, scholarships with requirements and deadlines other than those established for the general University scholarship program are designated for specific majors. Eligible students will be notified through a faculty announcement or, if time permits, by the Scholarship Office through the mail.

Competition is based on outstanding academic achievement, campus and extracurricular activities, employment, and an essay. Graduate and postbaccalaureate students must have a 3.50 overall graduate GPA for work completed after the bachelor's degree or in the absence of completed postbaccalaureate units, a 3.50 overall undergraduate GPA or a 3.70 in the last 30 units of university work.

Applications for the SDSU scholarship program are available in the Scholarship Office and all department secretaries. You may also write or call the SDSU Scholarship Office, San Diego, CA 92182, (619) 594-6180.

Applications are available each year during one application period November through mid-February. The SDSU scholarship application must be filed or postmarked not later than the established mid-February deadline. Students need to submit only one application for the SDSU

scholarship program. Individual results will be mailed to all applicants during May for the following academic year.

The average SDSU scholarship award is \$500. There is no limit to the number of scholarships for which a student may be considered.

In addition to SDSU scholarships, the Marshall, Fulbright, Rhodes, and Rotary scholarships are prestigious international scholarships that are given annually to students pursuing educational goals outside the United States. Eligibility standards for these scholarships are closely related to those established for the SDSU scholarship program, but application forms and deadlines are separate from the program. Students may seek advisement regarding application at the SDSU Scholarship Office during the spring semester.

Fellowships

The San Diego State University Scholarship Office receives the annual announcements on the Fulbright, Marshall, Kent, Rotary and other similar fellowship programs. Since limitations are placed on each college and university as to the number of applications it may endorse, students interested in fellowships of this type are encouraged to discuss their applications with the Scholarship Director and members of the University faculty who have themselves in the past received these fellowships. Since scores from the Graduate Record Examination General Test are required in applying for most fellowships, students should take this examination no later than the early fall of their senior year. The examination may be scheduled through the University Test Office.

Graduate Equity Fellowship Program

California residents who are members of underrepresented groups at the graduate level (ethnic minority, female, disabled) may apply for this grant administered through the Graduate Division. Applicants must file a Student Aid application for California (SAAC) by the stated deadline (see below, "Applying for Aid.") They must also file an application with the Graduate Division by June 29 for the annual award that begins with the fall semester.

California State Graduate Fellowship Program

California residents may apply for grants administered by the California Student Aid Commission, 1410 Fifth Street, Sacramento, California, 95814. Applications are available in the Financial Aid Office during the annual application period (December to early February). The deadline to submit applications for the 1990-91 academic year is March 2, 1990.

Financial Aid

Student financial aid programs are intended to provide assistance to students who do not have the necessary financial resources to meet educational costs. For scholarships recognizing academic excellence and not generally based on financial need, see the Scholarships section. Only United States citizens and permanent residents are eligible to apply for financial aid.

San Diego State University makes every effort to advise students of all available financial aid programs. Financial aid is available in the form of loans, grants, and part-time employment for eligible students. Since funds

are limited and there are program deadlines, not all eligible applicants are awarded aid.

Information about all state, federal, and institutional aid programs is available from the Financial Aid Office, (619) 594-6323. A financial aid brochure, which describes the available programs and the eligibility requirements, is available from the Financial Aid Office.

Applying for Aid

To be considered for first priority funding, aid applicants must file a **Student Aid Application for California (SAAC)** by March 1, and submit all required supporting documents to the Financial Aid Office by April 15 of the calendar year prior to the academic year for which aid is being requested. An application and supporting documents received after these dates will be processed and funds will be awarded to high-need applicants if funds are available. SAACs may be obtained from high schools and any college financial aid office in California.

An additional application form is required for the Guaranteed Student Loan which is a student loan made available from a participating lender.

Graduate Study in the Summer Sessions

In San Diego State University summer sessions, a graduate student may earn credit in residence that may be used to satisfy the requirements for an advanced degree or for credentials. Students planning to offer work taken in a summer session only to satisfy the requirements for an advanced degree, must apply for admission to the University with classified graduate standing at the Office of Admissions. No more than 12 units of coursework earned in each summer may be included on a program of study for an advanced degree. Students pursuing an advanced degree in summer only must attend for a minimum of three summers to complete a degree.

The acceptance of courses taken in the summer sessions by other colleges or by a teacher's local school board for salary schedule purposes is entirely optional with the college or school board concerned.

The regular *Summer Sessions Bulletin*, which includes the registration form and all necessary information about the summer sessions, is available for distribution after March 15.

Graduate Study for Foreign Students

The facilities of San Diego State University for graduate study are available to qualified graduates of foreign universities on the same basis and under the same regulations as apply to graduates of colleges and universities in the United States.

Admission procedures for foreign graduate students are stated in the section on Admission of Graduate Students in this bulletin.

Veterans and Graduate Study

San Diego State University is approved to train veterans under the G.I. Bill. Veterans who are interested in graduate work should visit the campus Veterans Affairs Office located in Admissions and Records on the first floor of the Administration Building for information and counseling regarding veterans' benefits prior to the date of registration.

Admission to Postbaccalaureate and Graduate Study

academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, *California Code of Regulations*). This requirement is effective from initial contact with the University and throughout the period the academic record is maintained.

Requirement and Use of Social Security Account Number

Applicants are required to include their social security account number in designated places on applications for admission pursuant to the authority contained in Title 5, *California Code of Regulations*, Section 41201. The social security account number is used as a means of identifying records pertaining to the student as well as identifying the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution.

Measles and Rubella Immunizations Health Screening Provisions

All new and readmitted students born after January 1, 1957 must comply with The California State University requirement to present proof of measles and rubella immunizations. This is **not** an admissions requirement but shall be required of students by the beginning of their **second term** of enrollment in CSU. San Diego State University students who have not complied with this CSU mandate will receive an "I" hold on their second term registration materials. The "I" hold restricts students from enrolling in classes until the requirement is fulfilled.

Because of recent changes in the character of measles epidemics on college campuses nationwide all students are encouraged to consider **receiving a second immunization for measles prior to enrollment.**

In addition to demonstrating immunity to measles and rubella at Student Health Services, some students may be further required to present documentation to other campus officials.

Students subject to this additional screening include:

- Students who reside in campus residence halls;
- Students who obtained their primary and secondary schooling outside the United States;
- Students enrolled in dietetics, medical technology, nursing, physical therapy, and any practicum, student teaching, or fieldwork involving preschool-age children and/or school-age children or taking place in a hospital or health care setting.

Immunization documentation should be mailed or brought to SDSU Student Health Services, Immunization Program, 5300 Campanile Drive, San Diego, CA 92182. For those students unable to obtain acceptable proof of immunizations, Student Health Services will provide immunizations at no cost.

Application Procedures

All applicants for any type of postbaccalaureate status (doctoral degree applicants, master's degree applicants, those seeking credentials or advanced certificates, and those interested in taking courses for personal or professional growth) must file a complete application within the appropriate filing period. A complete application for postbaccalaureate status includes all of the materials required for undergraduate applicants (Part A) plus the supplementary graduate admissions application (Part B). Postbaccalaureate applicants who graduated from San Diego State University the preceding term are also required to complete and submit an

Admission to San Diego State University for postbaccalaureate study is open to those applicants judged by the University to be fully qualified and to those who can benefit from the experience. The requirements listed below are the **minimum** required for admission to the University. For many programs, the departments have established additional requirements. Prospective applicants should refer to the Graduate Division Bulletin under the departmental listings. Students are also advised to contact the departmental offices as soon as graduate work is contemplated in the final baccalaureate year for advice as to how to proceed. Some departments stop reviewing applications earlier than others because limited space is available.

Importance of Filing Complete, Accurate, and Authentic Application for Admission Documents

San Diego State University advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous

application and the \$55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternative campuses or later changes of campus choice will be minimal. In the event that a postbaccalaureate applicant wishes to be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the Admissions and Records Office or the Graduate Division of any California State University campus.

Application and Admission Process

Students seeking classified admission to graduate programs at San Diego State University must submit all of the required documentation in a timely manner to ensure proper processing and evaluation by the Office of Admissions and Records, the school or department, and the Graduate Division. Please consult the specific departmental listing for the admission requirements. After all the documents are received by the Office of Admissions and Records, they are sent to the specific department for an admission recommendation. Even though a student may meet the minimal general standards for admission stated herein, each department reserves the right to recommend a denial or conditional acceptance based upon the evaluation of documentation supplied by the applicant as well as the standing of the applicant relative to others who have applied to the specific graduate program.

The recommendation of the department or school is then sent to the Graduate Dean for an independent evaluation and the actual decision to admit. Where a department's recommendation conflicts with the judgment of the Graduate Dean, consultation will ensue between the Dean and the department, but the final decision remains with the Graduate Dean.

The student will be notified of the decision by the Graduate Dean through the Office of Admissions and Records.

Individuals who apply to certain graduate programs for admission may petition to waive the designated standard examination (e.g. GRE) if the student has received a professional doctoral degree from an institution whose professional program is accredited by an association that is recognized by the Council on Postsecondary Accreditation (COPA). The petition for waiver is reviewed by the graduate adviser and the recommendation is sent to the Dean of the Graduate Division and Research for approval. The petitioner must demonstrate that the professional degree is integrally related to the degree program to be pursued at San Diego State University.

General Admission Requirements

All applicants for any type of postbaccalaureate study at San Diego State University must: (a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Graduate Dean; (b) have attained a grade point average of at least 2.5 (when A equals 4) in the last 60 semester (90 quarter) units attempted; and (c) have been in good standing at the last institution attended. Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Graduate Dean determines that there is other academic or professional evidence sufficient to warrant such action.

Members of the faculty of San Diego State University holding appointments at or above the rank of instructor or lecturer may not be admitted to degree programs at this University. Faculty may register for courses as unclassified students.

Special Action Admissions

Determination of the admissibility of students by special action shall be governed by the following guidelines when applicable. All applicants for admission by special action must submit at least two letters of recommendation from faculty at the baccalaureate degree granting institution.

1. Students holding baccalaureate degrees from accredited institutions that award credit primarily on a pass-fail basis may be admitted providing that:
 - a. At least 60 semester units of letter-graded coursework with a grade point average of 2.5 are included on the student transcripts. Half of these must be at the upper division level.

- b. If the student transcripts include less than 60 semester units of letter-graded coursework as described above, the applicant may be considered for admission on the basis of the following two criteria: A combined GRE General Test score (verbal and quantitative) of not less than 1025 and a minimum mean score of not less than the 30th percentile in each category, and determination by the appropriate faculty unit at San Diego State that any written documentation of classroom performance the student submits reflects academic achievement equivalent to at least a grade point average of 2.5. Such documentation should include written coursework evaluations by the faculty of the institution awarding the degree and may include other documentation such as baccalaureate theses, etc. A relative weakness in one of these criteria may be offset by a strong performance in the other.
2. Students holding baccalaureate degrees from accredited institutions that award credit for prior experiential learning may be admitted providing that:
 - a. The student meets the 60-unit requirement as described in 1. above when general admission requirements are not met.
 - b. At least 24 semester units of credit in the major field are awarded for classroom and laboratory study during a period of matriculation at the degree-granting institution.
 - c. The student provides from the institution granting the credit full documentation showing how the experiential learning was evaluated and the basis on which such credit was awarded.
 3. In some circumstances, students holding a baccalaureate degree from an institution with limited accreditation (generally includes special purpose institutions) may be admitted to postbaccalaureate study provisionally for the purposes of validating the degree. At the determination of the Graduate Dean, the degree may be validated if the student completes or has completed a general education program comparable in scope to the general education requirements of San Diego State University. Students who expect to enter an advanced degree program must have completed all the prerequisites prior to admission to the program. Students in this category may not enroll in 600- or 700-numbered courses; no units completed prior to validation of the baccalaureate degree may be included subsequently on an advanced degree program.

TOEFL Requirement

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Individual degree programs may prescribe a higher minimum score.

Admission Categories

All applicants seeking admission to postbaccalaureate study at San Diego State University must apply and be accepted in one of the following categories:

Postbaccalaureate Standing (Unclassified)

A student wishing to enroll in courses at the University for personal or professional reasons, but not necessarily with an objective of an advanced degree, credential, or advanced certificate may be considered for admission with postbaccalaureate standing (unclassified) when the student meets the criteria specified under General Admission Requirements. Admission with postbaccalaureate standing (unclassified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula. Students with postbaccalaureate standing (unclassified) may not enroll in 600- and 700-numbered courses except by special permission.

Postbaccalaureate Standing (Classified)

A student wishing to be admitted to a program leading to a credential only or to an advanced certificate only (not an advanced degree) must meet the criteria specified under General Admission Requirements. Additionally, all students in advanced certificate programs must achieve a

satisfactory score on the GRE General Test. (Students holding an advanced degree from an institution that is a member of the Council of Graduate Schools are exempted from this requirement.) A student must also meet the professional, personal, scholastic, and other standards prescribed by the appropriate department. The applicant should contact the department involved for information concerning specific admission requirements and should submit a departmental application during the appropriate filing period. Admission with postbaccalaureate standing (classified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula.

Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree must meet the criteria specified under General Admission Requirements and, in addition, must:

1. Achieve a satisfactory score on the GRE General Test. (Students holding an advanced degree from an institution which is a member of the Council of Graduate Schools are exempted from this requirement; students applying to the College of Business Administration will take the Graduate Management Admissions Test; students applying to the Concentration in Health Services Administration, Graduate School of Public Health, can take either the Graduate Management Admissions Test or the Graduate Record Examination.)
2. Have completed an undergraduate major appropriate to the field in which the student desires to earn an advanced degree.
3. Satisfy the special departmental or college requirements as stated in Part Three of the Graduate Bulletin under "Fields of Study and Courses of Instruction."
4. Meet the professional, personal, and scholastic standards for graduate study established by the department and the Graduate Council.

Students admitted with graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

Conditional Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree who meets the criteria specified under General Admission Requirements but who has deficiencies in the criteria for graduate standing (classified) may be granted conditional graduate standing (classified), if the deficiencies can be met by specific additional preparation, including qualifying examinations. Not more than 15 semester units may be assigned to satisfy undergraduate deficiencies in the major and all course conditions must be met within five semesters from the time of initial enrollment. Students admitted with conditional graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Once the conditions established by the department, school, or college have been met, the student should request that the program graduate adviser file a change of status form with the Graduate Division.

Continuing Students

Students enrolled in the University with postbaccalaureate standing may request acceptance into an advanced degree curriculum with graduate standing (classified or conditionally classified). Applications for such continuing students are available in the Graduate Division. Except in special circumstances, reports of the scores of the GRE General Test must be on file at the University before continuing students may apply for graduate standing (classified).

Second Bachelor's Degree

Second bachelor's degrees are awarded by most departments. Currently Business Administration, Liberal Studies Option I, Mexican American Studies, and Telecommunications and Film do not participate in the second bachelor's degree program. A student wishing to earn a second bachelor's degree must apply for admission to San Diego State University during the filing period for undergraduate applicants, unless already enrolled at the University as a postbaccalaureate student. In addition, applicants to the impacted majors (Criminal Justice Administration, Jour-

nalism, Nursing, and Public Administration) must apply during the first month of the undergraduate application filing period. Upon receipt of the admission application, students will be sent a separate application for a second bachelor's degree.

Admission to a second bachelor's degree program is based on a review of the second bachelor's degree application and the applicant's academic record. Applicants must be eligible for admission as a postbaccalaureate student, meet all undergraduate admission subject requirements, show strong promise of success in the new field, and have a clearly indicated change in educational objective.

Classified graduate students are not eligible to apply for a second bachelor's degree. Credit earned while a second bachelor's candidate may not be applied toward an advanced degree at a later date. Candidates for a second bachelor's degree are ineligible to enroll in 600- and 700-numbered courses.

To receive a second bachelor's degree, the student must complete a minimum of 30 postbaccalaureate units in residence with a minimum grade point average of 2.0; at least 15 units must be upper division in the new major. Up to six upper division units from the previous major may be used in the new major provided the student completed the same number of units above minimum requirements for the first degree. The student must fulfill all current requirements for the bachelor's degree, including but not limited to General Education, major, upper division writing, and foreign language if required by the major. Students are subject to undergraduate policies and procedures, including rules governing deadlines, course forgiveness, and academic probation and disqualification.

The second bachelor's degree is not granted automatically. When eligible for graduation, students must submit an application for graduation with the Office of Admissions and Records, AD-127. The Class Schedule each semester specifies the exact dates for filing. (Refer to the section on Application for Graduation of the bulletin for additional information and regulations.)

For additional information and second bachelor's degree applications, contact the Office of Admissions and Records.

Filing of Records

The applicant must file promptly with the Admissions and Records Office official transcripts from EACH college attended (including all extension, correspondence, summer session, or evening courses), even if no courses were completed. Graduate students must file transcripts in duplicate if they plan to enter an advanced degree program.

A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to San Diego State University by the institution attended. The applicant must request the school or college to send the transcript to the Admissions Office, San Diego State University. All records or transcripts received by the University become the property of the University and **will not be released nor will copies be made.**

Timely filing of official transcripts is absolutely essential. Failure to furnish such records will delay or preclude consideration for admission to postbaccalaureate and graduate study at the University.

Applicants are advised to send additional copies of transcripts to the school or department in which they are seeking an advanced degree to facilitate early departmental consideration.

Determination of Residence for Nonresident Tuition Purposes

The campus Admissions and Records Office determines the residence status of all new, returning, and continuing students for nonresident tuition purposes. Responses on the Application for Admission and, if necessary, other documentation furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by The California State University is found in Education Code Sections 68000-68090,

68121, 68123, 68124, 89705-89707.5, and 90408, and in Title 5 of the **California Code of Regulations**, Sections 41900-41912. A copy of the statutes and regulations is available for inspection at the campus Admissions and Records Office.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Steps must be taken at least one year prior to the residence determination date to show an intent to make California the permanent home with concurrent relinquishment of the prior legal residence. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one's permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator's license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in military service.

The student who is within the state for educational purposes only does not gain the status of resident regardless of length of the student's stay in California.

In general, the unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of a minor cannot be changed by the minor or the minor's guardian, so long as the minor's parents are living.

A married person may establish his or her residence independent of spouse.

An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.

Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning financial independence.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a "resident student" for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are September 20 for fall and January 25 for spring. Questions regarding residence determination dates should be directed to the Legal Residence Office in the Admissions and Records Office which can give you the residence determination date for the term for which you are registering.

There are exceptions for nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues for one year to enable the student to qualify as a resident student.
2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time.
3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Such adult must meet California residency requirements.
4. Dependent children and spouses of persons in active military service stationed in California on the residence determination date. The exception, once attained, is not affected by retirement or transfer of the military person outside the state, if the student is continuously enrolled.
5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education.
6. Dependent offspring of a California resident. The offspring cannot have previously been a California resident. This exception continues until the student has resided in the state the minimum time necessary to

become a resident, so long as continuous residence is maintained at an institution.

7. Graduates of any school located in California that is operated by the United States of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

8. Certain credentialed, full-time employees of California public school districts.

9. Full-time State University employees and their children and spouses; State employees, assigned to work outside the State, and their children and spouses. This exception applies only for the minimum time required for the student to obtain California residency and maintain that residence for one year.

10. Certain exchange students.

11. Children of deceased public law enforcement or fire suppression employees, who were California residents, and who were killed in the course of law enforcement or fire suppression duties.

Any student, following a final campus decision on his or her residence classification only, may make written appeal to:

The California State University
Office of General Counsel
400 Golden Shore
Long Beach, California 90802-4275

within 120 calendar days of notification of the final decision on campus of the classification. The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for further review. Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the **California Code of Regulations**. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Admissions and Records Office. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.

International (Foreign) Student Admission Requirements

San Diego State University must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold US visas as students, exchange visitors, or in other nonimmigrant classifications. SDSU uses separate requirements and application filing dates in the admission of foreign students.

Applicants for admission as either graduates or undergraduates whose education has been in a foreign country should file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended several months in advance of the opening of the semester in which the applicant expects to attend. If certificates and transcripts are not in English, they should be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to San Diego State University.

All applicants whose major education has been in a language other than English must score 550 or more on the Test of English as a Foreign Language (TOEFL). This test is administered in most foreign countries and the University must receive test scores before admission can be granted. Information as to the time and place at which this test is given

may be obtained by writing to: Educational Testing Service (TOEFL), Princeton, New Jersey, 08540, USA.

Upon arrival at San Diego State University, further tests of English may be given for the purpose of placing students in an English language program commensurate with their linguistic ability in English, and for use by advisers to assist students in planning an appropriate course of study. Depending upon students' performance on the placement test and their academic background, they may be required to enroll in one or more English language courses during their first semester at San Diego State University. This requirement must be completed as a condition for classified graduate standing. Foreign students admitted to the University will be subject to the same competency and placement examinations and standards that govern the rest of the student population.

Students who do not have an adequate command of English or the required TOEFL score to qualify for admission to the University may enroll in the American Language Institute. The American Language Institute (ALI) offers preparation in the English language reading, writing and listening skills necessary for university success. For those students who are enrolling in the American Language Institute, a program called conditional admission is available. It is for those students who require acceptance to a university in order to obtain a passport, a US visa, or government sponsorship. After transcripts of their academic work have been evaluated by SDSU staff, students may receive an official letter of conditional admission which states that the student has met all University requirements **except** English language proficiency and may enter the University after appropriate training at the American Language Institute and the achievement of acceptable TOEFL scores.

Health insurance coverage is mandatory for international (foreign) students. Acceptable health insurance is available on campus at approximately \$331 per year.

Arrangements for housing should be completed well in advance of the student's arrival on the campus. Detailed information regarding housing may be obtained from the Housing and Residential Life Office, San Diego State University. Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country. Further information regarding scholarships will be found in the section of this catalog on Financial Aid.

Upon arrival at San Diego State University the student should contact the Office of International Student Services.

Limitation of Enrollment

Admission to the University must be restricted to the number of students for whom an adequate education can be provided by the staff and facilities available. San Diego State University limits graduate enrollment on the basis of field and aptitude of the applicant.

Members of the faculty of San Diego State University holding appointments at or above rank of instructor or lecturer may not be candidates for degrees on this campus. Faculty may register for courses as unclassified students.

Registration

San Diego State University students are afforded the opportunity to participate in an Advance Registration system. On-campus registration is also held just prior to the beginning of each semester for certain specified students. The Class Schedule and Student Information Handbook, issued each semester and obtainable at the University bookstore prior to the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for registration. Fees are due and payable at the time of registration and depend on the number of units selected. Failure to pay fees will result in cancellation of registration. For policies governing registration after classes begin, consult the current Class Schedule.

Changes in Class Schedule

Students are responsible for any change in their semester's schedule of classes after the official study list has been filed. Forms for changes in the official study list may be obtained at the Office of Admissions and Records.

A change in schedule of classes includes the following: withdrawal from a class; adding a class; adding or reducing units to a class for which the student is already registered; changing sections of the same course, and changing from letter grade to credit/no credit or audit. Consult the current Class Schedule for deadline dates for change of schedule.

Concurrent Master's Degree Credit

The bachelor's degree must be completed at the end of the semester or term in which the concurrent credit is earned.

A senior who has met all of the required competencies in writing and mathematics and who is within 12 units of completing requirements for the bachelor's degree and whose grade point average in the last 60 semester units attempted is 3.0 or above may petition the Graduate Council to take for concurrent master's degree credit 500-numbered courses listed in the Graduate Bulletin as acceptable for master's degree programs, and certain 600- and 700-numbered courses approved by the department, with the remaining requirements for the bachelor's degree. Petitions may be obtained from the Graduate Division and must be submitted to the Evaluations Office of Admissions and Records by the end of the third week of classes of the semester or term in which the concurrent credit is earned and the student must have on file a current graduation application for the bachelor's degree. The maximum number of units that may be earned as concurrent master's degree credit is determined by the difference between the number of units remaining for the bachelor's degree and 15.

Concurrent Postbaccalaureate Credit

Applicable to the "Fifth Year" Credential Requirement only

Concurrent postbaccalaureate credit may be earned during the final semester or summer session by seniors admitted to the College of Education who meet all of the following qualifications:

1. Have a minimum grade point average of 2.5 on the last 60 units attempted;
2. Complete coursework in excess of graduation requirements during the semester (or summer session) when graduation occurs;
3. Attempt no more than 18 units during the final undergraduate semester (or 15 units during summer session);
4. Request no more than a maximum of 12 units of 300-, 400-, or 500-numbered courses for postbaccalaureate credit;
5. Submit petition before the end of the first week of classes (or the first week of summer term A) of the final undergraduate semester (or term) when graduation occurs;
6. Petition the Dean of the College of Education;
7. Graduate at the end of the semester (or summer session) the petition is made.

Extension courses are not acceptable for concurrent postbaccalaureate credit. Concurrent postbaccalaureate credit will not be granted retroactively.

Petition forms are available in the Evaluations Office, AD-127.

Second Master's Degree

A student desiring to work for a second master's degree must petition the Graduate Council for permission to enter a curriculum leading to the second master's degree. A student may be admitted into only one advanced degree program at a time.

Regulations of the Graduate Division

Graduate students are individually responsible for complying with the procedures, regulations, and deadlines as set forth in the General Catalog of the University and in the Graduate Bulletin. All questions concerning graduate study at San Diego State University should be referred to the Graduate Division.

All students beginning graduate study at San Diego State University after August, 1990 will be required to follow the procedures and regulations stated in the 1990-91 edition of the Graduate Bulletin. A student who was admitted to a graduate degree curriculum at this university prior to that date and who has been enrolled in one or more courses during each consecutive semester since first enrolling as a graduate student, or whose attendance has not been interrupted by more than two consecutive semesters, will be held responsible for the regulations in effect at the time the official master's degree program of study was approved.

Student Responsibility for Catalog Information

Students are individually responsible for the information contained in this bulletin. Although the Graduate Division attempts to preserve requirements for students subject to this bulletin, information contained herein is subject to change from year to year as university rules, policies, and curricula change. Failure to keep informed of such annual changes will not exempt students from whatever penalties they may incur.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this bulletin should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of The California State University, by the Chancellor or designee of The California State University or by the President or designee of this institution. Further, it is not possible in a publication of this size to include all of the rules, policies and other information which pertain to the student, San Diego State University, and The California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office. Each semester, the Class Schedule and Student Information Handbook outlines changes in academic policy and procedure and current deadlines which are of importance to students.

Nothing in this bulletin shall be construed, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of The California State University, the Chancellor of The California State University, or the President of San Diego State University. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This bulletin does not constitute a contract or the terms and conditions of a contract between the student and San Diego State University or The California State University. The relationship of the student to this institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized designees.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) and California Education Code Section 67100 et seq, set out requirements

designed to protect the privacy of students concerning their records maintained by the campus. Specifically, the statute and regulations govern access to student records maintained by the campus, and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions. The institution has adopted a set of policies and procedures concerning implementation of the statutes and the regulations on the campus. Copies of these policies and procedures may be obtained at the Office of the Vice President of Student Affairs. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records and the information contained therein; (2) the official responsible for the maintenance of each type of record; (3) the location of access lists which indicate persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) the access rights of students; (6) the procedures for challenging the content of student records; (7) the cost which will be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. An office and review board have been established by the Department to investigate and adjudicate violations and complaints. The office designated for this purpose is The Family Educational Rights and Privacy Act Office (FERPA), U.S. Department of Education, 330 "C" Street, Room 4511, Washington, D.C. 20202.

The campus is authorized under the Act to release "directory information" concerning students. "Directory information" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student. The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying information which the student requests not be released. Students shall be given an opportunity to restrict the release of "directory information" about themselves at the time of registration.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons are those who have responsibilities in connection with the campus' academic, administrative, or service functions and who have reason for using student records connected with their campus or other related academic responsibilities.

Nondiscrimination Policy Handicap

The California State University does not discriminate on the basis of handicap in admission or access to, or treatment or employment in, its programs and activities. Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder prohibit such discrimination. The Office of Student Affairs has been designated to coordinate the efforts of San Diego State University to comply with the Act in its implementing regulations. Inquiries concerning compliance may be addressed to this office at AD-231; telephone 594-5211.

Race, Color, or National Origin

The California State University complies with the requirements of Title VI of the Civil Rights Act of 1964 and the regulations adopted thereunder.

No person shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program of The California State University. Inquiries concerning the application of Title VI to program activities of San Diego State University may be referred to the Affirmative Action Officer, ED-156, 594-6464.

Sex

The California State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination on the basis of sex in education programs and activities operated by San Diego State University. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of San Diego State University may be referred to the Affirmative Action Officer (594-6464), the campus officer assigned the administrative responsibility of reviewing such matters, or to the Regional Director, Office of Civil Rights, Region 9, 221 Main Street, 10th Floor, San Francisco, California 94105.

Numbering of Courses

Courses numbered 80-99 are nonbaccalaureate level and are not acceptable for a bachelor's degree or General Education; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are strictly graduate courses; and those numbered 800 through 899 are doctoral courses.

Courses numbered X-01 through X-79 and X-397 are those offered only through Extension to meet specific academic needs of community groups. Courses numbered X-01 through X-79 are applicable as general elective credit toward an undergraduate degree at SDSU. Courses X-01 through X-49 are designated as lower division and X-50 through X-79 and X-397 are designated as upper division. It is the prerogative of the academic department/college to determine if X-01 through X-79 level courses are applicable to a major, a minor, or toward specified electives. The X-01 through X-79 level courses are offered in conjunction with certificate programs only. Courses at the X-01 through X-79 level are not acceptable on advanced degree programs. Courses offered as X-397 are not acceptable toward an undergraduate or graduate degree.

Grading System

At the end of each semester or summer session in which a student is enrolled, a report of courses taken showing units and grades earned is sent to the student. Grades and grade points per unit used in reporting are as follows: Grade of A (outstanding achievement; available only for the highest accomplishment), 4 points; B (praiseworthy performance; definitely above average), 3 points; C (average; awarded for satisfactory performance), 2 points; D (minimally passing), 1 point; F (failing), 0 points; SP (satisfactory progress), not counted in the grade point average; W (withdrawal), not counted in the grade point average; AU (audit), no credit earned and not counted in the grade point average; Cr (credit), signifying units earned, but not counted in the grade point average; NC (no credit), no credit earned and not counted in the grade point average; I (authorized incomplete), no credit earned and not counted in the grade point average until one calendar year has expired at which time it will count as an "F" for grade point average computation; U (unauthorized incomplete), counted as "F" for grade point average computation.

Plus/Minus Grading

A plus/minus grading system is utilized at San Diego State University. Plus/minus grading is not mandatory but is utilized at the discretion of the individual instructor. The grades of A+, F+ and F- are not issued. The

decimal values of plus and/or minus grades are utilized in the calculation of grade point averages as follows:

A = 4.0	C+ = 2.3	D- = 0.7
A- = 3.7	C = 2.0	F = 0
B+ = 3.3	C- = 1.7	U = 0
B = 3.0	D+ = 1.3	I = 0 (when counting as an "F")
B- = 2.7	D = 1.0	

Satisfactory Progress Grade — "SP"

The "SP" symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Work is to be completed within a stipulated time period not to exceed one calendar year except for graduate thesis (799A), or dissertation (899). Failure to complete the assigned work within one calendar year except for courses 799A, 899 and Academic Skills 90A, 94 and 97A will result in the course being computed into the grade point average as an "F" (or a "NC" if the course was taken for a credit/no credit grade). Graduate courses for which the "SP" symbol is appropriate are specifically designated in the departmental listings of this bulletin.

Candidates for graduation whose record carries a grade of SP will be graduated provided they are otherwise eligible for graduation. However, the SP cannot be made up after the degree has been granted. If students do not wish to be graduated with the grade of SP on their record, they must officially cancel their application for graduation.

Withdrawal Grade — "W"

The symbol "W" indicates that the student was permitted to drop a course after the first four weeks of instruction because of a verified serious and compelling reason and has obtained the signature of the instructor and the approval of the college dean or designee.

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks of instruction is permissible only for serious and compelling reasons. Permission to drop a class during this period is granted only with the signature of the instructor, who indicates the student's status in the class, and the approval of the college dean or designee. Approvals are made in writing on prescribed forms. Students are not permitted to drop a class during the final three weeks of instruction, except in cases such as accident or serious illness where the cause of dropping the class is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. All such requests must be accompanied by appropriate verification. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except that credit, or an Incomplete, may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Requests to withdraw under such circumstances must be approved by the Graduate Dean or designee.

Auditing — "AU"

Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Failure to meet required class attendance may result in an administrative drop of the course. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the end of the fifteenth day of instruction. A student who is enrolled for credit may not change to audit after the end of the fifteenth day of instruction.

Credit/No Credit Courses "Cr/NC"

Students may enroll for credit/no credit only in those courses designated in the Graduate Bulletin for credit/no credit only.

The symbol "Cr" is used to report the satisfactory completion of Courses 797, 798, 799A, and certain 500- 600- 700- and 800-numbered courses specifically designated in the Graduate Bulletin and Class Schedule. Failure to complete satisfactorily such courses will result in the assignment of "NC." No other 600-, 700-, or 800-numbered courses may be taken for credit/no credit. No 500-numbered courses graded credit/no credit, except those offered only for credit/no credit, are acceptable on a master's degree program.

A grade of "Credit" in graduate level courses is awarded for work equivalent to all grades which earn 3.0 or more grade points (A through B). "No Credit" is awarded for work equivalent to all grades which earn less than 3.0 grade points (B- through F).

Some specified sections of graduate level topics courses may be offered for credit/no credit provided the following statement is included in the course description in the Graduate Bulletin: "Specified sections of this course may be offered for credit/no credit. Refer to the Class Schedule."

Authorized Incomplete Grade "I"

The symbol "I" (Incomplete Authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. The conditions for removal of the Incomplete shall be reduced to writing by the instructor and given to the student with a copy placed on file with the department chair until the Incomplete is removed or the time limit for removal has passed. An Incomplete shall not be assigned when the only way the student could make up the work would be to attend a major portion of the class when it is next offered. A final grade is assigned when the work agreed upon has been completed and evaluated. Contract forms for Incompletes are available at department offices.

An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work within one calendar year will result in an Incomplete being counted as equivalent to an "F" (or an "NC" if the course has been taken Cr/NC) for grade point average computation. An Incomplete may not be removed by reenrollment in the course.

Candidates for graduation whose record carries a grade of Incomplete will be graduated provided they are otherwise eligible for graduation. However, the Incomplete cannot be made up after the degree has been granted, and it will be counted as an "F" for grade point purposes at the time of graduation. If students do not wish to be graduated with the grade of Incomplete on their record, they must officially cancel their application for graduation.

Unauthorized Incomplete Grade "U"

The symbol "U" indicates that an enrolled student did not withdraw from the course but failed to complete course requirements. It is used when, in the opinion of the instructor, the number of completed assignments or course activities or both was insufficient to make possible normal evaluation of academic performance. For purposes of grade point average computation this symbol is equivalent to an "F". If a student attends a portion of a course and then, after receiving failing grades, withdraws without explanation, that student should normally receive a final grade of F.

Assignment of Grades and Grade Appeals

1. Faculty have the right and responsibility to provide careful evaluation and timely assignment of appropriate grades.
2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.
3. Students who believe that an appropriate grade has not been assigned should first seek to resolve the matter informally with the instructor of record. If the matter cannot be resolved informally, the student may present the case to the Office of the Ombudsman for advice on appropriate procedures.

Computation of Grade Point Average

To compute the grade point average, divide the total number of grade points earned by the total number of units attempted in courses in which letter grades are assigned. Units earned with a Cr (credit) are not included in the computation. A grade of "I" (authorized incomplete) is not counted in the grade point computation until one calendar year has expired, at which time it will count as an "F". For details see the section of this bulletin under Basic Requirements for the Master's Degree.

Uncompleted Theses

A student who registers for Course 799A, Thesis, but does not complete the thesis by the end of the semester or summer session in which the student registers for it, upon the recommendation of the Thesis Committee Chair, will receive an SP (satisfactory progress) grade. This grade symbol will remain on the student's record until the thesis is completed. **A second registration in Course 799A, Thesis, is expressly prohibited.**

A student who has been assigned the grade symbol SP for the thesis is required to register for Course 799B (0 units, Cr/NC) in any semester or term in which the student expects to use the facilities and resources of the University; also the student must be registered in the course when the completed thesis is granted final approval.

Withdrawals

A graduate student who has been admitted to a graduate degree curriculum but has completed no courses at this University for two consecutive semesters is considered to have withdrawn from the curriculum. The student will be required to file application for readmission to the Graduate Division upon resumption of graduate study. A student who withdraws from a graduate curriculum will be required to comply with regulations and requirements in effect at the time of readmission to the Graduate Division.

Official Withdrawal

Students who wish to withdraw from the University must initiate action formally through the Admissions and Records Office. Failure to file will result in a failing grade in all courses. A student who is not enrolled in at least one class (other than for audit) at the end of the fourth week of instruction (census date) is considered to have withdrawn from the University for that semester. Refunds are obtainable only for the first 14 days after the semester begins. In order to receive a refund, the student must file an official withdrawal form and refund request at the Office of Admissions and Records within the first 14 days of the term.

Withdrawal from the University is permitted without restriction or penalty before the end of the fifteenth day of classes. No courses will appear on the permanent record.

Dropping a course, or courses, after the end of the tenth day of classes and prior to the last three weeks of instruction is permissible only with the signature of each instructor and the approval of the college dean or designee. Withdrawal from the University after the end of the fifteenth day of classes and prior to the last three weeks of instruction is permissible only with the signature of each instructor and the approval of the college dean or designee of the student's major. Postbaccalaureate (unclassified) students wishing to withdraw from the University must have the signature of each instructor and the approval of the Graduate Dean or his designee. To be permitted to drop from a course or courses, or withdraw from the University during this period, the student must have serious and compelling reasons and documentation of those reasons must be provided. Poor academic performance is not an acceptable reason for dropping a course or for withdrawal from the University.

Dropping a course shall not be permitted during the final three weeks of instruction except in cases such as accident or serious illness where the cause of dropping the course is due to circumstances beyond the student's control and the assignment of an Incomplete is not practicable. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except where sufficient work has been completed to permit an evaluation to be made. Requests for permission to withdraw under these circumstances must be approved by the Graduate Dean or designee.

Improper Registration in Graduate Courses. The unauthorized registration of undergraduate students in all courses numbered in the 600 and 700 series, and the registration of graduate students who have not met the stated prerequisites for Course 799A, Thesis, at the time of registration, may be canceled.

Retroactive Withdrawal. After the last day of the semester, a graduate student who wishes to change assigned grades to "W" should request to withdraw from the full semester's work. Such requests may be granted only in verified cases such as accident or serious illness where the cause for substandard performance was due to circumstances clearly beyond the student's control. Ordinarily, requests for changes in individual classes will not be accepted.

Unofficial Withdrawal

Students withdrawing unofficially from class or from the University will receive failing grades in all courses that they stop attending. An unofficial withdrawal is one in which a student stops attending classes without filing official withdrawal forms within the established deadlines.

Veterans unofficially withdrawing will have veteran's allowances immediately suspended and will be subject to full repayment of allowances received after date of unofficial withdrawal.

Leaves of Absence

One-Semester Stop Out

With certain exceptions, graduate students may stop out of San Diego State University one semester in a calendar year and maintain continuing student status. Continuing status includes the maintenance of bulletin requirements for graduation. Disqualified students, students absent for more than one semester without an approved leave of absence, and those who attend another institution for more than one semester must apply for readmission should they wish to return to San Diego State University.

Educational Leave of Absence

Students are permitted to take up to four consecutive semesters of approved leave of absence. An educational leave application is appropriate in those cases where students will be engaged for the majority of the leave time in an activity, other than attending an accredited college or university, that is directly related to their formal academic careers or otherwise contributes to specific academic goals. Students must apply for the particular semester(s) they wish to be absent from school. If they wish to extend a leave for additional semesters, a separate application must be filed previous to the deadline for submitting leaves as outlined in the Academic Calendar.

A student must file an application for the leave at the Admissions and Records Office. Requests will be reviewed by appropriate officials designated by the Vice President for Academic Affairs. Students wishing to cancel a leave must do so prior to the first day of classes. The Class Schedule and Student Information Handbook contains specific procedures and deadlines. For students participating in the CSU visitors' program, units completed at the visitor campus will be considered resident units; they will not, however, be calculated into the San Diego State University grade point average.

Approval for educational leaves of absence will be granted only to graduate students who have completed a minimum of one semester at San Diego State University and who are in good academic standing. Leaves will not be granted to students on probation, students who have been disqualified, or students who qualify for a change from undergraduate to graduate status.

Readmission

An enrolled student is eligible (if not disqualified) to stay out one semester without penalty. No application is necessary and advance registration materials will automatically be mailed to the last address on file.

A student who withdraws from the University for more than one semester must file an application for readmission with a \$55 application fee. If the student was enrolled at another institution subsequent to the last attendance at San Diego State University, an official transcript showing work completed must be sent by the transfer institution directly to the Office of Admissions and Records before readmission can be completed. SDSU students in good standing (not academically disqualified) retain their original catalog status if they are absent from the University for no more than one semester.

Repeated Courses

Ordinarily, a graduate student may not repeat courses which have been taken as part of the official master's degree program. With prior permission of the graduate adviser, a graduate student may repeat one course on the official program of study in which a grade of C, D, F or U has been received. When a graduate student in any category of admission repeats a course in which a C, D, or F has been earned, both grades will remain on the student's permanent record and both grades will be calculated in the grade point average.

If a student repeats a course in which a U has been earned, the original U grade will remain on the permanent record, but only the second grade will be used in computation of the grade point average. A course in which a U has been earned may be repeated only once. Repeated courses may not be taken for credit/no credit. This policy applies only to coursework taken in spring 1981 and after. Students who have successfully repeated a "U" graded course should notify the Office of Admissions and Records if they wish immediate adjustment of their grade point average.

Probation and Disqualification

Scholastic Probation

A graduate student in any admission category shall be placed on academic probation if the student fails to maintain a cumulative grade point average of at least 2.5 in all units attempted subsequent to admission to the university.

A graduate student in any admission category shall be subject to disqualification if, while on probation, the student fails to earn sufficient grade points to remove himself or herself from probationary status.

Students in a graduate degree program in conditional or classified standing should consult the section of this bulletin entitled "General Requirements for Doctoral Programs" and "Basic Requirements for the Master's Degree" for grade point average requirements for degree-seeking students.

Scholastic Disqualification

Any postbaccalaureate student who has been admitted to a graduate degree curriculum and whose performance therein is judged to be unsatisfactory with respect to scholastic or professional standards as judged by the Graduate Council will be required to withdraw from all graduate degree curricula and his official status will be changed from classified graduate standing to unclassified postbaccalaureate standing.

Departments or schools of the University may recommend that the Graduate Dean dismiss from the University any graduate student whose performance in a degree, credential, or certificate program is judged unsatisfactory with respect to the academic or professional standards of the program.

Administrative Academic Probation and Disqualification

Administrative Academic Probation

A student may be placed on administrative academic probation by action of appropriate campus officials for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms.
2. Repeated failure to progress toward the stated degree or objective or other program objective when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (examples: failure to list all colleges attended on the application for admission, failure to take placement tests, failure to complete a required practicum).

Administrative Academic Disqualification

A student who has been placed on administrative academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative academic probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative academic probation.
3. The student becomes subject to administrative academic probation for same or similar reason for which the student has been placed on administrative academic probation previously, although not currently in such status.

Petition for Readmission

A postbaccalaureate student disqualified from the University under the foregoing regulations may be readmitted to the University by the Graduate Dean. Application for readmission must be made on forms available at the Office of Admissions and Records.

Student Discipline and Grievances

Inappropriate conduct by students or by applicants for admission is subject to discipline on the San Diego State University campus. The Office of Judicial Procedures coordinates the discipline process and establishes standards and procedures in accordance with regulations contained in Article 1.1, Sections 41301 through 41304 of Title 5, *California Code of Regulations*. These sections are as follows:

41301. Expulsion, Suspension and Probation of Students.

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

- Cheating or plagiarism in connection with an academic program at a campus.
- Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
- Misrepresentation of oneself or of an organization to be an agent of a campus.
- Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.
- Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.
- Theft of, or nonaccidental damage to, campus property, or property in the possession of, or owned by, a member of the campus community.
- Unauthorized entry into, unauthorized use of, or misuse of campus property.
- On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis.
- Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president.
- Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.
- Abusive behavior directed toward, or hazing of, a member of the campus community.
- Violation of any order of a campus president, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.
- Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section.
- For purposes of this Article, the following terms are defined:
 - The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.
 - The term "campus property" includes:
 - real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and
 - all campus feeding, retail or residence facilities whether operated by a campus or by a campus auxiliary organization.

(3) The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, sling-shot, billy, sandclub, sandbag, metal knuckles; any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm; any knife having a blade longer than five inches; any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.

(4) The term "behavior" includes conduct and expression.

(5) The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger or physical or emotional harm to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.

(o) This Section is not This Section is not adopted pursuant to Education Code Section 89031.

(p) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this Article as in effect immediately prior to such effective date.

41302. Disposition of Fees; Campus Emergency; Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of The California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission.

Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for The California State University.

The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for The California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid

eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board actions taken under this section.

Student Grievances

If a student believes that a professor's treatment is grossly unfair or that a professor's behavior is clearly unprofessional, the student may bring the complaint to the proper University authorities and official reviewing bodies by following the *Procedures for Handling Student Grievances Against Members of the Faculty*, adopted by the Faculty Senate. A copy of the procedures may be obtained from the Ombudsman's Office in Aztec Center.

Plagiarism

Plagiarism is formal work publicly misrepresented as original; it is any activity wherein one person knowingly, directly, and for lucre, status, recognition, or any public gain resorts to the published or unpublished work of another in order to represent it as one's own. Work shall be deemed plagiarism: (1) when prior work of another has been demonstrated as the accessible source; (2) when substantial or material parts of the source have been literally or evasively appropriated (substance denoting quantity; matter denoting qualitative format or style); and (3) when the work lacks sufficient or unequivocal citation so as to indicate or imply that the work was neither a copy nor an imitation. This definition comprises oral, written, and crafted pieces. In short, if one purports to present an original piece but copies ideas word for word or by paraphrase, those ideas should be duly noted.

Lindey, Alexander. *Plagiarism and Originality*. 1952.

San Diego State University is a publicly assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. The President and faculty of this University are therefore obliged not only to society at large but to the citizenry of the State of California to guarantee honest and substantive knowledge in those to whom they assign grades and whom they recommend for degrees. Wittingly or willfully to ignore or to allow students' ascription of others' work to themselves is to condone dishonesty, to deny the purpose of formal education, and to fail the public trust.

The objective of university endeavor is to advance humanity by increasing and refining knowledge and is, therefore, ill served by students who indulge in plagiarism. Accordingly, one who is suspected or accused of disregarding, concealing, aiding, or committing plagiarism must, because of the gravity of the offense, be assured of thorough, impartial, and conclusive investigation of any accusation. Likewise, one must be liable to an appropriate penalty, even severance from the University and in some cases revocation of an advanced degree, should the demonstrated plagiarism clearly call into question one's general competence or accomplishments.

Transcripts of Record

A student may obtain an official academic transcript by filing an application at the Cashiers Office. A fee is charged for all transcripts and must be paid in advance. Five to ten days should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this University and will not be released or copied.

Unofficial Transcripts

Students may obtain an unofficial copy of their SDSU transcript by paying the unofficial transcript fee at Admissions and Records. These transcripts are usually available on an immediate basis. However, during peak periods, Admissions and Records reserves the right to offer a 48-hour turnaround. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made ONLY of the SDSU transcript.

Final Examinations

No final examination shall be given to individual students before the time specified in the Class Schedule. Any student who finds it impossible to take a final examination on the date scheduled must make arrangements with the instructor to have an incomplete grade reported and must take the deferred final examination within the time allowed for making up incomplete grades.

Transfer or Extension Course Credit

Subject to lower limitations for individual programs, as indicated in Part Three of this bulletin, the maximum amount of transfer and San Diego State University extension course credit acceptable on master's degree programs is 9 units. Exceptions are the Master of Public Health degree, which permits 6 units; Master of Science degree in Nursing, which permits 12 units (including a maximum of 12 units of extension credit); Master of City Planning degree, which permits 27 units (including a maximum of 9 units of extension credit); the Master of Fine Arts degree in Art and the Master of Fine Arts degree in Drama, which permits 30 units (including a maximum of 9 units of extension credit); the Master of Fine Arts in Creative Writing which permits 18 units (including a maximum of 9 units of extension credit); the Master of Social Work degree which permits 28 units (including a maximum of 9 units of extension credit); and the Master of Science degree in Rehabilitation Counseling which permits 30 units (including a maximum of 9 units of extension credit). All credit earned in other colleges and universities or in San Diego State University extension courses is subject to approval by the appropriate graduate adviser and the Graduate Dean. Credit earned by correspondence, by examination, or by extension at other institutions is not accepted as satisfying advanced degree requirements.

Credit earned by first-time students through one semester of enrollment in Open University may be considered residence credit for the master's degree. Such enrollment allows nonmatriculated students, who have completed individual course prerequisites and who meet the standards for regular enrollment, to enroll in regular campus classes on a space-available basis with the approval of the course instructor and department chair. Enrollment in 600- and 700-numbered courses also requires approval of the departmental graduate adviser. Matriculated students are ineligible for enrollment in Open University.

Study List Limits in the Graduate Division

"Full-time enrollment" means that a student is enrolled for not less than 12 units per semester. For purposes of computing units for graduate level courses taken by graduate students, a weighting factor of 1.5 shall be applied to each unit. Enrollment in Thesis (799A) or Doctoral Dissertation (899) is also considered full-time enrollment.

Graduate students are advised that 12 units of 600-800 numbered courses or 15 units of a combination of 500-, 600-, 700-, 800-numbered courses are the recommended maximum for one semester. Graduate students who are employed full time should not attempt to earn more than 6 units per semester.

Graduate students who are employed as graduate teaching assistants or associates at San Diego State University are limited to 15 units of combined teaching assignments and coursework unless a request for excess load is approved by the Graduate Dean. Graduate teaching assistants who enroll for more units than authorized will not receive credit on their official degree programs for the excess number of units completed.

Graduate students employed as graduate assistants are limited to 20 hours of work per week combined with a maximum of 8 units of coursework. Any excess load must be approved by the department chair and the Graduate Dean. Graduate assistants who enroll for more units than authorized will not receive credit on their official programs for the excess number of units completed.

Graduate teaching assistants and graduate assistants are advised to consult the *Graduate Teaching Assistant's Handbook* for further information on unit limitations.

General Requirements for Doctoral Degrees

The degree Doctor of Philosophy (Ph.D.) is offered jointly by San Diego State University and cooperating universities in biology, chemistry, clinical psychology, engineering sciences/applied mechanics, and public health with the University of California, San Diego; in ecology with the University of California, Davis; and in education with the Claremont Graduate School. The general requirements in these programs are identical; however, each program has some specific requirements that will be found in Part Three of this bulletin under Biology, Chemistry, Ecology, Education, Engineering, Psychology, and Public Health.

Students who wish to become candidates for the degree Doctor of Philosophy in Biology, Chemistry, Clinical Psychology, Ecology, Education, Engineering Sciences/Applied Mechanics, or Public Health should understand that the degree is granted for original, independent, imaginative, and self-critical research rather than for the fulfillment of residence or course requirements alone. For those candidates who wish to prepare for a career in an academic institution the degree is also oriented toward excellence and enthusiasm in teaching. Students with acceptable baccalaureate degrees will normally spend at least three years of full-time study in earning the degree. Except for those in the Education program, doctoral students must be enrolled on at least one of the cooperating campuses each term they are in the program unless granted an official leave of absence.

Admission to Graduate Study

An applicant for admission to a doctoral program must first be admitted to regular graduate standing in the appropriate campus of the University of California or the Claremont Graduate School and to San Diego State University. Fees and regulations governing the doctoral programs are found in the Graduate Division Bulletin of San Diego State University and in the Graduate Studies Bulletins of each of the cooperating campuses of the University of California or of Claremont Graduate School. Formal admission to the two universities with appropriate graduate standing occurs when the student is formally accepted by the graduate deans of each of the two universities. Applicants are advised to consult the program adviser at San Diego State University for specific details on application procedures.

Residency Requirements

After formal admission to a doctoral program, the student must spend at least one year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the university cooperating with SDSU. At San Diego State University the minimum of one year of full-time residence consists of registration in and completion of at least six semester units each semester of the required year's residence. Except for the program in education, students must be enrolled at one campus or the other each semester or quarter in order to maintain good standing.

Qualifying Examinations, Advancement to Candidacy, and the Dissertation

Although the procedural details of each doctoral program vary somewhat within the different programs, the general requirements are:

1. The student is examined by a committee representing the faculty of the cooperating institutions for knowledge of the field of study. This examination, called a Qualifying Examination, ordinarily consists of both written and oral parts. The purpose of this examination is to satisfy the faculty of the cooperating departments that the student is adequately prepared in the discipline to warrant continuation in the program.
2. After passing the Qualifying Examination the student must apply to the graduate dean at the cooperating campus with which the

student is associated for advancement to candidacy. After approval by both graduate deans, the student will be notified of advancement to candidacy by the graduate dean, University of California campus or Claremont Graduate School.

3. A dissertation (or thesis) on a subject chosen by the candidate and approved by a committee chosen by the Graduate Councils of the cooperating institutions is required of every candidate. Approval of the dissertation by this committee affirms that the candidate has conducted an organized, independent investigation that has added significantly to the body of knowledge in the particular field and that has been reported in a satisfactory manner. Upon completion of the dissertation, the candidate must pass an oral examination conducted by a joint committee in which the student is required to show the relationship of the dissertation to the general field in which the subject lies and to answer specific questions concerning the investigations. In addition to meeting the dissertation filing requirement of the cooperating campus, doctoral students are required to provide one bound copy of the dissertation for deposit in the San Diego State University library. Binding must meet the ALA library standard.

Award of Degree

The degree Doctor of Philosophy in Biology, Chemistry, Clinical Psychology, Ecology, Education, Engineering Sciences/Applied Mechanics, or Public Health will be awarded jointly by the Regents or Trustees of the cooperating institution and the Trustees of The California State University in the names of San Diego State University and the appropriate cooperating university campus. Students may participate in the commencement ceremonies of both institutions providing they have completed all degree requirements, including the submission of copies of the approved dissertation to the two graduate offices, by the deadlines of the respective institutions. The deadline dates of the cooperating institutions will vary. Students who intend to participate in the commencement ceremonies at San Diego State University should consult the academic calendar for the last date to submit an approved copy of the dissertation to the Graduate Division. San Diego State University also requires that the students must apply for graduation in any term they intend to graduate. Consult the academic calendar for the deadline date.

Procedures

Doctoral students are expected to make steady progress toward completion of requirements for the degree. The time required is not expressed as units of credit or semesters of attendance but rather depends on the mastery of the subject matter field and completion of a satisfactory dissertation. Doctoral students must maintain a 3.0 grade point average in all coursework attempted to remain in good standing.

Information on records, transcripts, fees, details of registration, petitions, and rules and regulations governing graduate students enrolled in the doctoral program is available from the graduate dean at each of the two cooperating institutions for each degree program.

Financial Support

Doctoral students are eligible to apply for financial aid through the Financial Aid Office at San Diego State University. The SDSU Foundation provides scholarship funds to cover all or part of the fees and tuition required by each institution for students in many of the doctoral programs. These funds are partially derived from the Richard G. Ahrens Memorial Scholarship and Reuben C. Marks Endowment Funds. In addition, most programs offer doctoral students financial support by providing them with appointments as research assistants, graduate assistants, or graduate teaching assistants or associates.

Basic Requirements for the Master's Degrees

To receive the master's degree at San Diego State University, the candidate must have completed the following general requirements of the Graduate Division and the specific requirements listed in the appropriate sections of Part Three of this bulletin.

Examinations

As part of the admission procedure, all students desiring an advanced degree must take the Graduate Record Examination General Test. Students holding a master's or higher degree from an institution that is a member of the Council of Graduate Schools of the United States are exempt from this requirement. The College of Business Administration requires the GMAT, without regard to the attainment of a previous master's degree. The concentration in Health Services Administration, Graduate School of Public Health, requires either the GMAT or the GRE General Test.

Examinations required in the various subject matter fields of study are listed in the appropriate sections of Part Three, Courses and Curricula under Specific Requirements for the Master's Degree. (See below for the foreign language examinations and for the comprehensive examination required in lieu of thesis under Plan B.)

Official Programs of Study

Official programs of study are to be submitted to the Graduate Division for approval after the student has been granted full classified graduate standing. The program must be submitted prior to the time the student wishes to be considered for advancement to candidacy. The requirements governing the official program will be those specified in the bulletin in effect at the time the program is approved in the Graduate Division.

Official master's degree programs of study, as signed or revised by the graduate adviser and approved by the Graduate Council, are binding unless the student withdraws from the University. Withdrawal is defined as having taken no courses during a calendar year.

A student who withdraws from the University and is later readmitted with classified graduate standing may, with the consent of the graduate adviser and the Graduate Council, continue his/her original official program of study or may be required to submit a new program that complies with the requirements of the current *Graduate Bulletin*.

When course requirements listed on an official master's degree program deviate from those prescribed in the *Graduate Bulletin*, the department concerned must submit to the Graduate Dean a petition for adjustment of academic requirements.

It is the student's responsibility to complete the specific courses listed on the official program of study. No changes will be permitted unless approved by the graduate adviser and the graduate dean. No course can be deleted from an official program of study after the course has been completed. This includes a course for which a student has registered and received an "Incomplete" or "SP" grade.

Foreign Language Requirement

Departments that require students to pass a foreign language examination may direct a student to complete one of the following options or a combination thereof: a departmental examination administered either by the department or by the appropriate foreign language department; the appropriate part or parts of the MLA-Cooperative Foreign Language Test; or the Graduate School Foreign Language Test (GSFLT). Students may not attempt the MLA test or GSFLT more than twice.

Advancement to Candidacy

A student who holds classified graduate standing at San Diego State University and who meets its scholastic, professional, and personal stan-

dards may be considered for advancement to candidacy for the master's degree provided an official program of study has been filed and approved by the graduate adviser and the graduate dean. For the Master of Arts, the Master of Science, the Master of Business Administration, the Master of Music, the Master of Public Administration, and the Master of Public Health degrees, a student may be advanced to candidacy after completing at least 12 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the Master of City Planning, the Master of Science in Counseling, the Master of Science in Rehabilitation Counseling, and the Master of Social Work degrees, the student must have earned at least 24 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Art, or the degree of Master of Fine Arts in Drama, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Creative Writing, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.25.

In addition to having classified graduate standing and the grade point averages specified above, the student must (1) have maintained the grade point averages listed below in this section; (2) have completed all the undergraduate deficiencies and the special requirements of the department or school concerned; (3) have passed the foreign language examination if required; (4) have been recommended for advancement to candidacy by the department or school concerned; and (5) have been approved for advancement by the Graduate Council. Written notification of advancement to candidacy will be sent to the student from the Graduate Division.

A minimum of nine units of courses listed on the official program of study must be enrolled in and completed **concurrent with or after** advancement to candidacy for the Master of Arts, the Master of Science, the Master of Public Administration, the Master of Public Health, and the Master of Business Administration degrees. A minimum of 24 units on programs of study for the Master of City Planning, the Master of Fine Arts, the Master of Science in Rehabilitation Counseling, and the Master of Social Work degrees must be enrolled in and completed **concurrent with or after** advancement to candidacy. Removal of incomplete grades does not meet this requirement. A student may not enroll in 799A or take a Plan B comprehensive examination until advanced to candidacy.

Unit Requirements

Credit earned by correspondence or by examination is not acceptable on advanced degree programs. Courses applied toward one advanced degree may not be used to fulfill the requirements of another advanced degree.

Master of Arts, Master of Music, Master of Science, and Master of Public Administration Degrees

Thirty units (60-62 units for the Master of Science in Counseling degree; 36 units for the Master of Public Administration and the Master of Science degree in Psychology; 42 units for the Master of Science in Nursing) of approved 500-, 600- and 700-numbered courses earned in graduate standing, at least 21 of which must be completed in residence. At least half of the units required must be in 600- and 700-numbered courses. Not more than a total of nine units in approved extension and transfer courses may be used to satisfy the minimum units required for the degree. Courses required to remove undergraduate deficiencies are in addition to the minimum 30 units required for the degree. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Business Administration Degree

Between 30 and 60 units (depending upon the student's background) of 600- and 700-numbered courses specified by the College of Business Administration, at least 21 of which must be completed in residence. Not more than nine units of approved transfer credit are acceptable for this degree. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of City Planning Degree

Fifty-seven units of approved 500-, 600- and 700-numbered courses earned in graduate standing, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 57 units for the degree. **Not more than a total of nine units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Art Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Art at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **No more than a total of nine units in course 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Creative Writing Degree

Fifty-four units of 500-, 600- and 700-numbered courses specified by the Department of English and Comparative Literature, at least 36 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 54 units for the degree. **No more than a total of six units in course 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Drama Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Drama, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **Not more than a total of six units in course 798 will be accepted for credit toward the degree.**

Master of Public Health Degree

Forty-eight units (55 units for Health Services Administration) of approved 500- 600- and 700-numbered courses earned in graduate standing, at least 39 (except for the Maternal and Child Health concentration) of which must be earned in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 48 units required for the degree. The concentration in Maternal and Child Health requires 36 units of residence credit. Twelve additional units of field experience are required unless the student has previous equivalent experience as determined by the graduate adviser. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for degree credit.**

Master of Science in Rehabilitation Counseling Degree

Sixty units of 600- and 700-numbered courses specified by the Rehabilitation Counselor Program, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **Not more than a total of nine units in course 744 will be accepted; not more than a total of nine units in courses numbered 743 and 745 will be accepted.**

Master of Social Work Degree

Fifty-six units of 500-, 600- and 700-numbered courses specified by the School of Social Work at least 28 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 56 units for the degree.

Degree Time Limitations

In all advanced degree curricula offered at San Diego State University, any course completed more than seven years prior to the date on which all requirements for the degree are completed cannot be used to satisfy unit requirements of the official program of study. This includes a course for which a student has registered and received an "Incomplete" or "SP"

grade. On the recommendation of the department or school concerned, the Graduate Council may extend the time for students who pass a comprehensive examination in the relevant course or courses. With the approval of the graduate adviser and the Graduate Dean, an outdated course may be repeated, a more recently completed course substituted, or additional coursework of equal unit value assigned. Specifically required courses must either be repeated or validated by examination. In some instances, the graduate adviser and the Graduate Council may authorize students in Plan A to validate outdated courses by passing a comprehensive examination over the entire subject field of the degree.

Students validating by examination either individual courses or an entire program will be required to specify a date certain by which all requirements for the degree will be completed. Only in exceptional circumstances will this time limit exceed one calendar year from the date of validation. A course or program may be validated by examination only once.

A course completed prior to seven years of the date that the official master's degree program is approved cannot be listed on the program.

Thesis, Plan A and Non-Thesis, Plan B

Satisfactory completion of a thesis, project, or comprehensive examination, is defined as follows:

(a) A thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and the methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization and format, high level of writing competency, and thorough documentation. Normally, an oral defense of the thesis is required.

(b) A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

(c) A comprehensive examination is an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. The results of the examination evidence independent thinking, appropriate organization, high level of writing competency, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of The California State University.

Plan A, requiring a thesis or project, may be selected by a student seeking the master's degree provided the department or school concerned approves the listing of Course 799A, Thesis, on the official program of study. Three units of "Cr" are granted for the satisfactory completion of the thesis or project following its acceptance by the student's thesis committee, the department or school concerned, and the Graduate Council. Assigning of "Cr" grade for the thesis is the responsibility of the Graduate Division. Registration in Course 799A, Thesis, is required; however, students will not be permitted to register for this course until they have received official notification of advancement to candidacy from the Graduate Division and have an officially approved thesis or project committee form on file in the Graduate Division. The student must obtain clearance for registration in Thesis from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment in 799A.

Two microfiche copies and one bound copy of all master's theses or projects are accessioned by the library of San Diego State University and are subject to the regulations of the library with respect to the circulation or duplication of its cataloged materials. Students are advised to purchase a current edition of the *Manual of Instruction for the Preparation and Submission of the Master's Thesis or Master's Project* at the Aztec Shops.

Plan B, requiring a comprehensive written examination in lieu of a thesis, may be followed in certain graduate degree curricula as indicated in Part Three of this bulletin. Dates on which comprehensive examinations in lieu of theses are given are determined by the department or

school concerned. Results of comprehensive examinations must be reported to the Graduate Division by the department or school. Refer to the academic calendar in Part One of this bulletin for deadline dates. To be eligible to take the Plan B comprehensive examination, the student must have been advanced to candidacy.

Thesis Research Involving Human Subjects and Animal Subjects

Students conducting thesis research involving human subjects must submit a protocol to the departmental Human Subjects Committee (where applicable) and then to the University's Committee on Protection of Human Subjects (CPHS). Students should allow two weeks for CPHS review. Certain categories of research with human subjects may qualify for exemption from full committee review. Guidelines and forms for protocols or claims of exemptions can be obtained from the CPHS Office, Physics 343B, 594-6622.

Upon written CPHS approval or certification of exemption from CPHS review, students can register for thesis and initiate the activity with human subjects. (Literature review and other work not involving human subjects may be conducted prior to CPHS review.)

Students planning to conduct research involving live animals housed on campus must receive approval of the research from the Animal Welfare Coordinator. Upon written approval of the coordinator, students may begin their research and register their thesis.

Theses in Foreign Languages

As presentations of original research to the academic community, theses are ordinarily prepared for the University in the English language. In certain cases, however, a student's thesis in the history and literary analysis of non-English languages and literatures may be presented in the subject language. When this is deemed academically appropriate for the specific research topic by the departmental graduate adviser and the proposed thesis committee, the appointment of the student's thesis committee and authorization of the thesis research by the Graduate Dean shall be based on the provisions that (1) an abstract of the thesis shall be presented in English; (2) all members of the thesis committee shall be fluent in the subject language; and (3) student competency in standard written English shall be demonstrated through satisfactory completion of graduate courses in research methodology and bibliography.

Submission of Theses

Completion of the academic process for final acceptance of a thesis requires that the thesis be approved by a formally appointed committee of the faculty and by the Graduate Dean, that the thesis conform to the format and presentation requirements stipulated by the sponsoring department and approved by the Graduate Council; and that the thesis be deposited in the University Library. In conformity with this policy, the following procedures shall apply to the submission of theses:

The University requires that the student be enrolled in 799A, Thesis, or 799B, Thesis Extension, in the term in which the thesis is granted final approval. Students will not be required to reregister for Thesis in any subsequent term if the thesis is approved and signed by all members of the thesis committee, cleared by the Graduate Division, and submitted to the Thesis Review Service by the end of the last working day of the semester or summer session in which the student is enrolled in 799A or 799B. Consult the academic calendar in Part One of this bulletin for specific deadline dates. A "credit" grade will not be recorded or the degree awarded, however, unless the thesis has been approved by the Thesis Review Service and arrangements made to deposit the required copies in the University Library (this can be done most conveniently through the Copy Center of the Aztec Shops). If this final process is not completed by noon of the day preceding the last working day of the term, the student will be required to reapply for graduation in any subsequent term in which he or she expects to graduate.

Grade Point Averages

Grade point averages of at least 3.0 (B) must be maintained in:

1. All courses listed on the official degree program required to complete undergraduate deficiencies.
2. All courses listed on the official degree program.
3. All courses, 300-level and above, taken at San Diego State University concurrently with or subsequent to the earliest course listed on the official degree program, including courses accepted for transfer credit.

No transfer or extension credit may be used to improve the grade point average of units completed at San Diego State University whether computed to determine the average on the official degree program or the overall average.

Grade Restrictions for Master's Degree Programs

No course in which a final grade below "C" (2.0) was earned may be used to satisfy the requirements for an advanced degree. No 500-numbered courses graded Credit/No Credit except those offered for Credit/No Credit only are acceptable on a master's degree program. No undergraduate courses graded Credit/No Credit may be assigned to the deficiencies listed on a master's degree program. At least 70 percent of the units used to fulfill the minimum requirements on a master's degree program shall be graded on an A, B, C basis.

Units graded Credit/No Credit earned in required practica, field experiences, and internships explicitly stated as specific requirements for a graduate degree, will not be included in the determination of the number of non-lettergraded units allowable on the program of study.

Final Approval

The student's official program of study as approved by the graduate adviser and the Graduate Council and all required examinations must be completed in a satisfactory manner in order for the student to be recommended for the degree by the Graduate Council.

Writing Competency

The University requires that all candidates for an advanced degree demonstrate writing competency in the English language. This requirement may be met by successful completion of the written comprehensive examination in Plan B or final approval of a thesis or project in Plan A.

In cases of organic disorder that make it impossible for the student to fulfill the ordinary obligations of writing competency, alternative modes will be used (Sec. 504 of the Rehabilitation Act).

Application for Graduation

Graduation is not automatic on the completion of degree requirements. An application must be filed in the Graduate Division during the semester or term in which the student expects to be graduated. Refer to the academic calendar preceding Part One of this bulletin for deadline dates.

There is a \$16 commencement fee and a \$16 graduation evaluation and diploma fee. Students who do not graduate in the semester or term for which they have applied must reapply (and pay the \$16 graduation evaluation and diploma fee) in the subsequent semester or term in which they expect to be graduated.

Award of Degrees

The Board of Trustees of The California State University, upon recommendation of the faculty of San Diego State University, awards the appropriate degree to a student who has completed the prescribed course of study.

Diploma

The Graduate Division will mail the appropriate diploma to the student approximately eight to ten weeks after the date of graduation.

PART THREE

Courses and Curricula

Courses and Curricula

This section contains the specific requirements for all graduate degrees authorized at San Diego State University by the Board of Trustees of The California State University. These specific requirements of departments or schools supplement and are in addition to the basic requirements for advanced degrees as stated in Part Two of this bulletin. All official master's degree programs must be prepared in conformity with the basic and specific requirements for the degree in question.

In addition, courses acceptable for credit toward an advanced degree are listed under major fields and areas of concentration. Each course is listed by department number, title, and units. Not all courses are offered every semester or every year. Ordinarily each listed course will be offered not less than once during a two-year period. Refer to the **Class Schedule** or the Summer Session Bulletin for a listing of course offerings.

San Diego State University reserves the right to withdraw any course listed in the class schedule for which the enrollment is not sufficient to warrant the organization of a class.

Postbaccalaureate (Unclassified) Enrollment

A postbaccalaureate student (unclassified) is not eligible to enroll in 600-, 700-, and 800-numbered courses except by special permission. All credit earned by a postbaccalaureate student (unclassified) is subject to evaluation as to its acceptance for graduate credit in a master's degree curriculum. Classified or conditionally classified students whose status is changed to postbaccalaureate (unclassified) for any reason may not enroll in any 600-, 700-, or 800-numbered course in the program in which they were previously classified. Students who enroll in such courses may be administratively disenrolled or, if they complete any courses, those courses may not be used subsequently to meet any degree requirements.

Prerequisites for Graduate Courses

Graduate level (600-, 700-, and 800-numbered) courses require, as general prerequisites, graduate standing, and competence in the specified field as indicated by a substantial amount of upper division study in the field or in a closely related field. Unless otherwise specified in the course description, graduate level courses are open to classified graduate students with the permission of the instructor. Undergraduate students are not permitted to enroll in 600-, 700-, and 800-numbered courses except under special circumstances (see section "Concurrent Master's Degree Credit"). Unauthorized enrollment of undergraduate students in 600-, 700-, and 800-numbered courses may be canceled or, if the course is completed before graduate standing is attained, only undergraduate credit will be earned for the course.

Prerequisites for each course are stated in the course description. Students must complete a course prerequisite (or its equivalent) prior to registering for the course to which it is prerequisite. Students who have not completed the stated prerequisite must notify the instructor by the end of the second week of class in order for the instructor to determine if the student has completed the equivalent of the prerequisite.

Special Prerequisites for Registration in 798 and 799A

Registration in course 798, Special Study, must be arranged by the student through the instructor, the major adviser, and the chair of the department concerned. Forms for this purpose are available in the departmental offices.

Only those students who have been advanced to candidacy and who have an officially appointed thesis committee are permitted to register for course 799A, Thesis. The student must obtain clearance for registration in this course from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment.

Thesis Extension (799B)

This course is intended solely for those graduate students who have had prior registration in Thesis 799A with an assigned grade symbol of SP. Students are required to register in 799B (0 units, Cr/NC) in any semester or term following assignment of SP in course 799A in which they expect to use the facilities and resources of the University; also, they must be registered in the course when the completed thesis is granted final approval.

Unit or Credit Hour

In the listing of courses that follows, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester.

OFFICE: Adams Humanities 4158
TELEPHONE: (619) 594-5237

Faculty

Faculty members participating in the degree program are listed in the American Studies Handbook, available from the College of Arts and Letters Student Advising Center, SH-132.

Committee on American Studies

The American Studies program is administered through the American Studies Committee. Faculty assigned to teach courses in American Studies are drawn from departments in the College of Arts and Letters. Student advisers and committee members are listed below:

Francine Deutsch, Ph.D., Professor of Family Studies and Consumer Sciences
Thomas S. Donahue, Ph.D., Professor of Linguistics
Lawrence R. Ford, Ph.D., Professor of Geography
Jerome J. Griswold, Ph.D., Professor of English
Theodore Kornweibel Jr., Ph.D., Professor of Afro-American Studies
Howard I. Kushner, Ph.D., Professor of History, Graduate Coordinator
Lawrence F. McCaffery, Ph.D., Professor of English and Comparative Literature
Dan D. McLeod, Ph.D., Professor of English and Comparative Literature (Chair of Committee)
Eddie S. Meadows, Ph.D., Professor of Music
Lynn H. Peters, Ph.D., Professor of Management
Michael R. Real, Ph.D., Professor of Telecommunications and Film
Larry A. Samovar, Ph.D., Professor of Speech Communication
Gennaro A. Santangelo, Ph.D., Professor of English and Comparative Literature
David W. Strom, Ed.D., Professor of Teacher Education
Clifford E. Trafzer, Ph.D., Professor of American Indian Studies
Pershing Vartanian, Ph.D., Professor of History
Carey G. Wall, Ph.D., Professor of English
James W. Coleman, Ph.D., Associate Professor of English
David V. DuFault, Ph.D., Associate Professor of History (Graduate Adviser)
Patricia Huckle, Ph.D., Associate Professor of Women's Studies
Harlan J. Lewin, Ph.D., Associate Professor of Political Science
Lynda L. Koolish, Ph.D., Assistant Professor of English
Eve Kornfeld, Ph.D., Assistant Professor of History
Paul Ganster, Ph.D., Director, Institute for Regional Studies of the Californias

General Information

The American Studies program at San Diego State University is one of thirty-three in the nation and one of six in California that offer an advanced degree. The Master of Arts degree in American Studies is an interdisciplinary degree administered by the American Studies Committee. Even though the American Studies idea is nearly fifty years old, its interdisciplinary approach has kept it flexible. Students are encouraged to accentuate courses which develop their experiences and their interests. While there are specific degree requirements, diversity characterizes the program and no one pattern or approach exists to which students are expected to conform.

American Studies

In the College of Arts and Letters

The program is designed to offer systematic training for students desiring an interdisciplinary study of American Civilization. It is intended to meet the needs of students who (1) plan to continue their study in doctoral or other advanced programs in American Studies or in disciplines emphasizing areas of American orientation, (2) plan a career in secondary or community college teaching, or (3) are seeking a broad background for professional degrees, or business or government service.

The student body is drawn from many states outside of California as well as abroad which lends the program a cosmopolitan atmosphere. An active student association publishes its own newsletter, provides its own activities, and participates in the administrative functions of the American Studies Committee. As a result, students in the academic program share a significant sense of identity and community.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present a Bachelor of Arts degree with a major in American Studies, or a Bachelor of Arts degree which includes a minimum of 24 upper division units in American culture. In addition, the American Studies program requires a GPA of 3.0 in the last 60 undergraduate units attempted. A student whose preparation is deemed insufficient by his graduate adviser or by the American Studies Committee will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students will be required to pass a written examination, details of which are available from the graduate adviser.

Specific Requirements for the Master of Arts Degree

(Major Code: 03131)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a minimum of 30 units, at least 24 of them from courses listed below as acceptable on master's degree programs. In special circumstances and with the approval of the adviser substitutions may be made for the courses listed. At least 18 units must be in 600- and 700-numbered courses. Required courses are at least two seminars, methodological courses in one or more disciplines related to the study of American culture, as recommended by the American Studies Committee, and American Studies 798. The program must include a specialization of at least 12 (but not more than 15) units, excluding Thesis 799A, in one of the following fields:

American Literature and Philosophy
Social Sciences and Education
American History
Fine Arts

The remaining units must be chosen from the other fields, with approval of the adviser.

In addition, students will be required to (1) demonstrate a reading knowledge of a language other than English, or (2) complete six units in linguistics, chosen from American English courses (Linguistics 410, 520, 524, 551 or 552), or (3) complete six units in quantitative techniques selected from Economics 201*, 441; Geography 585; Information and Decision Systems 301, 302, 366; Political Science 515A-515B; Psychology 342; Sociology 201*, 406, 407.

To complete the requirements for the M.A. degree in American Studies, students may select either Plan A or Plan B. Plan A requires the writing of a thesis, for which the student will be registered in American Studies 799A. The American Studies thesis will employ an interdisciplinary approach in addressing an aspect of American culture. Plan B requires a written comprehensive examination and the submission of three "starred" research papers; these will be papers originally completed for courses and rewritten under the supervision of the graduate adviser. A comprehensive oral examination on the subjects of these papers will be required; the questions will emphasize method and theory of the cross-disciplinary approach to American Studies. For more specific details, students should consult the American Studies Graduate-Faculty Handbook and should confer with their American Studies adviser.

* Students may take no more than three of the six units for the requirements in lower division work. These courses are not to be included as a part of the minimum 30-unit program if completed by the student as the option for the fulfillment of the foreign language requirement.

Courses Acceptable on Master's Degree Programs in American Studies

UPPER DIVISION COURSES American Studies Courses

501. Study of American Culture (3) II

Prerequisite: Major in American studies; open to other students with interdisciplinary interests.

American studies as a discipline, the important methods of the field, and variety of materials for interdisciplinary study.

580. Topics in American Studies (1-3) I, II

Topics dealing with cultural images and myths, social protest, folklore; themes focusing upon fear, alienation and nationalism; problems around racism, minorities and countercultures. See Class Schedule for specific content. May be repeated once with new content; and with the approval of the adviser, more than once by American studies majors. Maximum credit six units applicable to a master's degree in American studies.

Literature:

American Studies Course

9580. Topics in American Studies (3)

English Courses

- 522. American Literature, 1800 until 1860 (3)
- 523. American Literature, 1860 until 1920 (3)
- 524. American Literature, 1920 until 1950 (3)
- 525. American Literature, 1950 until Present (3)
- 526. Topics in American Literature (3)
- 527. Genre Studies in American Literature (3)

Linguistics Courses

- 520. Fundamentals of Linguistics (3)
- 524. American Dialectology (3)
- 551. Sociolinguistics (3)
- 552. Psycholinguistics (3)

History:

History Courses

- 530. Colonial America (3)
- 531. The American Revolution (3)
- 532. The Early Republic (3)
- 533A. The Jacksonian Era (3)
- 533B. Civil War and Reconstruction (3)
- 534. The Rise of Modern America, 1868-1900 (3)
- 535A. The Age of Reform (3)
- 535B. The Age of Roosevelt (3)
- 536. The United States Since World War II (3)
- 537A-537B. The Westward Movement (3-3)
- 540. Environmental History of the United States (3)
- 541A-541B. California (3-3)
- 545A-545B. Constitutional History of the United States (3-3)
- 546A-546B. Development of American Capitalism (3-3)
- 547A-547B. Intellectual History of the American People (3-3)
- 548A-548B. Social History of the United States (3-3)
- 596. Selected Studies in History (when content relates to American Studies) (1-4)

Social Sciences and Education:

Anthropology Course

- 520. Ethnological Field Methods (3)

Geography Courses

- 572. Land Use Analysis (3)
- 573. Geography as Human Ecology (3)
- 575. Geography of Recreational Land Use (3)

Journalism Courses

- 500. Current Problems in Mass Communication (3)
- 503. History of Mass Communication (3)

Political Science Courses

- 522. Urban Politics (3)
- 531. Interest Groups and Political Movements (3)

Religious Studies Course

- 522. Religion in America (3)

Sociology Courses

- 522. The Family in Comparative and Historical Perspective (3)
- 555. Immigrants and Refugees in Contemporary American Society (3)
- 557. Urban Sociology (3)

Fine Arts:

Art Course

- 560. History of American Art (3)

GRADUATE COURSES American Studies Courses

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May be repeated with new content. Maximum credit three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis, 799A, with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Literature and Philosophy:

English Courses

(The English courses listed are acceptable when content relates to American Studies.)

- 604. A Literary Period or Movement (3)
- 606. A Literary Type (3)
- 625. American Literature (3)
- 696. Special Topics (3)
- 700. Seminar: A Major Author or Authors (3)

American History:

History Courses

- 630. Directed Reading in United States History (3)
- 635. Seminar in United States History (3)

Social Sciences:

Geography Courses

(The geography seminars listed are acceptable when content relates to American Studies.)

- 720. Seminar in Regional Geography (3)
- 750. Seminar in Urban Geography (3)

Political Science Course

- 620. Seminar in American National Government (3)

Sociology Courses

- 700. Seminar in Social Theory (3)
- 730. Seminar in Social Institutions (when relevant to American Studies) (3)

Fine Arts:

Art Courses

(The art seminars listed are acceptable when content relates to American Studies.)

- 760. Seminar in Twentieth Century Art (3)
- 761. Seminar in American Art (3)
- 767. Seminar in Art of Native America, Africa and Oceania (3)

Drama Course

- 647B. Seminar in History of Theatre and Drama-American Theatre (3)

Music Course

- 652E. Seminar in Music History-American Music (3)

Speech Communication Course

- 780. Seminar in Public Address (3)

Teacher Education Course

- 655. Social Foundations of American Education (2 or 3)

All 798 (Special Study) courses in named departments, when relevant, are also applicable upon approval of the Graduate Program Coordinator.

Anthropology

In the College of Arts and Letters

OFFICE: Storm Hall 143B
TELEPHONE: (619) 594-5527

Faculty

Joseph W. Ball, Ph.D., Professor of Anthropology
Bradley N. Bartel, Ph.D., Professor of Anthropology, Associate Dean,
Graduate Division and Research
Victor Goldkind, Ph.D., Professor of Anthropology
Edward O. Henry, Ph.D., Professor of Anthropology
Ronald S. Himes, Ph.D., Professor of Anthropology, Graduate
Coordinator
Larry L. Leach, Ph.D., Professor of Anthropology
Lois K. Lippold, Ph.D., Professor of Anthropology
Wade C. Pendleton, Ph.D., Professor of Anthropology
Vivian J. Rohrl, Ph.D., Professor of Anthropology
Gary O. Rollefson, Ph.D., Professor of Anthropology
Lawrence C. Watson, Ph.D., Professor of Anthropology
Dan Whitney, Ph.D., Professor of Anthropology, Chair of Department
Philip J. Greenfield, Ph.D., Associate Professor of Anthropology
Mary Jane Moore, Ph.D., Associate Professor of Anthropology
Alexander Sonek Jr., Ph.D., Assistant Professor of Anthropology

Assistantships

Several sources of financial aid are available to qualified graduate students in anthropology each academic year, including two Norton Allen Scholarships, the Paul Ezell Internship in Archaeology, graduate teaching assistantships. Application forms and additional information may be obtained from the chair of the department.

General Information

The Department of Anthropology, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Anthropology. The Master of Arts degree in Anthropology is designed to provide systematic training through two specializations. (1) General Anthropology specialization, with a strong theoretical component, for students who anticipate additional work leading to the doctoral degree in Anthropology, or direct placement in an academic setting. (2) An Applied Anthropology specialization primarily for those who plan to seek employment in the nonacademic sector. This specialization is concerned with the application of anthropological method and theory to practical problems in business, government, and other settings.

Research and special instructional facilities provided by the Department of Anthropology include laboratories for California Archaeology, Ethnology, Linguistics, Physical Anthropology, and World Prehistory. Additional facilities available in the community include the Museum of Man, the San Diego Zoo, and various internship sites for applied research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Anthropology must have completed or complete at least 15 upper division units including Anthropology 301, Principles of Physical Anthropology; Anthropology 302, Principles of Archaeology; Anthropology 304, Principles of Anthropological Linguistics; and Anthropology 305, History of Anthropological Theory, or the equivalent to those required for an undergraduate major in anthropology at San Diego State University. The student must have an overall 3.0 (B) grade point average in undergraduate courses or consent of the department.

Copies of transcripts and GRE General Test scores are to be sent to the Admissions Office. In addition to these and the University admission forms, students applying to the department are asked to submit (1) at least

three letters of recommendation from persons in a position to judge academic ability; and (2) at least one typewritten example of their previous work (e.g., a term paper or an original experiment). Materials should be submitted by December 1 for admission for spring semester and May 1 for the fall semester.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students completing the General Anthropology specialization must: (1) satisfactorily complete all four core seminars (601, 602, 603, and 604) with a minimum grade point average of 3.0, and no less than a B- grade in each of the four core seminars, and (2) according to the specific recommendation of the Department of Anthropology, pass either an examination demonstrating working knowledge of an appropriate foreign language, or complete a sequence of at least one lower division and one upper division course (with a grade point average of 2.0 or better) in either:

- (a) foreign language recommended by the department, or
- (b) Anthropology 580 (Anthropological Data Analysis) or one of the following sequences in statistics: Sociology 201 and 406 or 407; Psychology 270 and 570; Biology 215 and 597B; Mathematics 250 and 350A.

Those students who choose the Applied Anthropology specialization must: (1) satisfactorily complete three core seminars (601, 602, 603, or 604) selected with the approval of the Graduate Coordinator with a minimum grade point average of 3.0, and no less than a B- grade in each of the three core seminars; (2) satisfactorily complete Anthropology 701 (Seminar in Applied Anthropology); and (3) satisfactorily complete a lower division course in quantitative methods (Biology 215, Psychology 270, Sociology 201, or Mathematics 250) and Anthropology 580 (Anthropological Data Analysis) with no less than a B- in each course. After having been advanced to candidacy, students in either the General Anthropology or Applied Anthropology specializations must submit a thesis proposal for approval by the Departmental Graduate Advisory Committee.

Specific Requirements for the Master of Arts Degree

(Major Code: 22021)

In addition to meeting the basic requirements for the Master of Arts degree as described in Part Two of this bulletin, students selecting the General Anthropology specialization must complete a graduate program of at least 30 units of which at least 24 units must be in 600- and 700-numbered courses in anthropology, to include:

1. Anthropology 601, 602, 603, and 604 (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars);
2. Anthropology 797, Research (3) (to be taken after advancement to candidacy);
3. Anthropology 799A, Thesis (3).

Students selecting the Applied Anthropology specialization must complete a graduate program of at least 30 units, of which at least 21 units must be in the 600- and 700-numbered courses in anthropology, or with the approval of the Graduate Coordinator, in related disciplines. The coursework for this specialization must include:

1. Nine units of core seminars chosen from Anthropology 601, 602, 603, or 604 with the approval of the Graduate Coordinator (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars);

2. Anthropology 580 (3) and Anthropology 701 (3) (both courses to be taken prior to advancement to candidacy and prior to internship placement).
3. Anthropology 795 (6) (to be taken after advancement to candidacy);
4. Anthropology 799A, Thesis (3).

All graduate students must take a final oral examination on the general field of the thesis which must be passed as a requirement for the degree. Only Plan A, requiring the thesis, is permitted for the Master of Arts degree in Anthropology.

Courses Acceptable on Master's Degree Programs in Anthropology

UPPER DIVISION COURSES

500. Primate Social Behavior (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101.

Analysis of modes of primate socialization. Development of social behavior with emphases on communication, group structure, aggression, and sex. Various methods of analysis and observation practiced utilizing primate collection at the San Diego Zoo.

501. Paleoanthropology (3)

Prerequisite: Anthropology 101. Recommended: Anthropology 301.

Fossil evidence for human evolution. Comparative and functional anatomy of fossil human and infrahuman primates; geochronology, paleoecology, and cultural associations; taxonomic implications.

502. Microevolution (3)

Prerequisite: Anthropology 101. Recommended: Anthropology 301.

The evolution of human populations over a short period of time. Interaction of the evolutionary forces of mutation, selection, drift and gene flow with the cultural systems of human populations.

503. Human Variation (3)

Prerequisite: Anthropology 101.

Morphological, physiological and genetic aspects of human variability. Significance of this diversity in the biological adaptations of human populations.

504. Primate Anatomy (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101.

Primate anatomy both regional and systemic, including skeletal, cardiovascular and digestive systems; the integument and otolaryngology of primates.

505. Human Osteology (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101. Recommended: Anthropology 301 and/or Biology 150.

Identification of individual bones and teeth; sex, age, and racial variation; stature reconstruction; continuous and discontinuous morphological variations; paleopathology. Training in observations, measurements, and analyses.

506. Physical Anthropology of the Living (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101. Recommended: Anthropology 301.

Theory and practice of techniques in measurement and description of biological variations in modern populations.

507. Genetic Markers and Anthropology (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101.

Use of genetic markers in the study of human population. Biology of blood groups, serum proteins, enzymes, etc., and analyses of gene frequencies. Significance of genetic markers in evolutionary studies.

508. Medical Anthropology (3)

Prerequisite: Anthropology 101 or 102.

Evolution and ecology of disease, medical beliefs and practices in non-Western cultures, and complexities of health care delivery in pluralistic societies.

509. Culture and Biological Aging (3)

Prerequisites: Anthropology 101 or 102.

Do different cultures age at different rates? Theories of biological aging, genetics of longevity and cultural influences on biological aging. Process of aging and roles of the aged in various cultures.

520. Ethnological Field Methods (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 102.

The problems and techniques of obtaining data in ethnological and social anthropological fieldwork; preparation, gaining and maintaining rapport, evaluating data, participant observation. A review of literature followed by work with informants.

526. Cultural Change and Processes (3)

Prerequisites: Anthropology 102 and six upper division units in anthropology.

Patterns of change in subsistence, social structure, and belief systems. Processes of change including diffusion, acculturation, individual innovation, and directed change among contemporary and historic peoples. (Formerly numbered Anthropology 426.)

529. Urban Anthropology (3)

Prerequisites: Anthropology 102 and six upper division units in anthropology.

Urban adaptations of past and present societies. Descriptive topics and applied concerns regarding urban origins, migrations, kinship, family, ethnicity, stratification, and change. Ethnographic examples drawn from Western and non-Western societies. (Formerly numbered Anthropology 429.)

531. Applied Anthropology (3)

Prerequisite: Anthropology 102.

Application of anthropological concepts to solution of practical problems of culture change in community development, complex organizations, and interdisciplinary and cross-national programs.

532. Culture and Personality (3)

Prerequisite: Anthropology 102.

The relationship of individual personality to culture in a variety of cultures. A consideration of various theories and studies in the social and personality sciences.

560. Advanced Archaeological Field Methods (3)

One lecture and six hours of laboratory.

Prerequisite: Anthropology 312.

Advanced projects in excavation and stabilization of ruins; archaeological surveys, laboratory analysis and preparation of reports.

561. Archaeological Laboratory Methods (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 560.

Application of palynology, paleontology and technologies. Individual laboratory research project required. (Formerly numbered Anthropology 561A.)

580. Anthropological Data Analysis (3)

Two lectures and three hours of laboratory.

Prerequisites: Anthropology 101 or 102 and a statistics course. Recommended: Psychology 270 or Sociology 201.

Computer oriented data analysis class utilizing anthropological data sets. Special section of the SPSS[®] computer workshop is required.

582. Regional Anthropology (3)

Prerequisite: Anthropology 102.

Study of ethnographic societies of a major geographical region of the world such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

583. Topical Anthropology (3)

Prerequisite: Anthropology 102.

Study of a major subdiscipline such as applied anthropology, economic anthropology, political anthropology, psychological anthropology, social anthropology, cultural ecology, anthropological genetics, or environmental archaeology. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

GRADUATE COURSES**600. Seminar (3)**

An intensive study in advanced anthropology. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

601. Seminar in Physical Anthropology (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory in physical anthropology stressing the significant literature on such topics as functional anatomy, human paleontology, population genetics, and primatology.

602. Seminar in Archaeology (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory in archaeological data collection, analysis, and interpretation.

603. Seminar in Ethnology (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory in ethnology stressing the significant literature on such topics as cross-cultural comparison, structural-functional analysis and description, personality and culture, and sociocultural change.

604. Seminar in Linguistics (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory of linguistics stressing the significant literature on such topics as cultural cognition, descriptive linguistics, lexicostatistics, and transformational analysis.

620. Seminar in Regional Anthropology (3)

Prerequisite: Twelve upper division units in anthropology.

Study of a major world region such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. Maximum credit six units applicable to a master's degree. May be repeated with new content. See Class Schedule for specific content.

621. Seminar in Topical Anthropology (3)

Prerequisite: Twelve upper division units in anthropology.

Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, race and variation, or environmental archaeology. Maximum credit six units applicable to a master's degree. May be repeated with new content. See Class Schedule for specific content.

701. Seminar in Applied Anthropology (3)

Prerequisite: Classified graduate standing.

Applied research, social impact assessment, policy analysis, planning, teaching, and decision making. Practical knowledge gained by doing applied research in nonacademic settings.

795. Internship in Anthropology (3-9) Cr/NC

Prerequisites: Classified graduate standing and/or consent of staff.

Students will be assigned to various government and private agencies in which anthropological theory can be applied. Supervision will be shared by departmental graduate advisory committee and on-the-job supervisor. Maximum credit nine units; three units applicable to a master's degree.

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.

Independent investigation in the general field of the thesis.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study directed toward the preparation of a paper on a specific problem. May be repeated with variable topic, with a maximum credit of three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis, 799A, with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Jesus Y. Dominguez, M.F.A., Professor of Art
Janet B. Esser, Ph.D., Professor of Art
Arline M. Fisch, M.A., Professor of Art
Darryl G. Groover, M.F.A., Professor of Art
Allan W. Miller, M.F.A., Professor of Art
Fredrick J. Orth, M.F.A., Professor of Art, Chair of Department
Eugene Ray, M.F.A., Professor of Art
Ida K. Rigby, Ph.D., Professor of Art
Gail C. Roberts-Fields, M.A., Professor of Art, Graduate Coordinator, Studio Arts

John J. Rogers, M.S., Professor of Art
Helen Z. Shirk, M.F.A., Professor of Art
Richard J. Baker, M.F.A., Associate Professor of Art
Gerald C. Dumlao, M.F.A., Associate Professor of Art
Stuart Flaxman, M.S., Associate Professor of Art
Joanne Hayakawa, M.F.A., Associate Professor of Art
Robert A. Mansfield, M.F.A., Associate Professor of Art
Richard A. Burkett, M.F.A., Assistant Professor of Art
Janet L. Cooling, M.F.A., Assistant Professor of Art
Susan C. Merritt, M.A., Assistant Professor of Art
Eric R. Moaney, M.F.A., Assistant Professor of Art
Kerry Ann Nelson, M.S., Assistant Professor of Art
Tina Marie Yapelli, M.A., Assistant Professor of Art

Assistantships

Graduate teaching assistantships in art are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Art, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Fine Arts degree in Art and the Master of Arts degree in Art. The objectives of the graduate program in all areas of specialization are to provide the essential education, technical training and creative experience necessary for professional activity or college-level teaching in the visual arts.

The Master of Arts degree is a 30-unit graduate program requiring one to two years to complete. The M.A. degree in studio arts is designed to prepare students for proficient and successful practice as professional artists and is offered in the following areas: applied design, environmental design, graphic design, interior design, painting, printmaking, and sculpture. The M.A. degree with an emphasis in art history is designed to prepare students for professional positions in galleries and museums and for doctoral degree programs.

The Master of Fine Arts degree requires an additional 30 units in the area of specialization and professional seminars, with the expectation that the student will achieve a higher level of excellence and distinction in the chosen area of specialization. The M.F.A. degree requires 60 units and can be completed in three years. The degree is offered in applied design, environmental design, graphic design, painting, printmaking, and sculpture.

The Art building has expansive facilities offering the student excellent studio space and equipment. In addition, the San Diego Museum of Art, the La Jolla Museum of Contemporary Art, the Putnam Foundation

Art

In the College of Professional Studies and Fine Arts

collection in the Timken Gallery, and the Museum of Man in Balboa Park offer valuable original materials as well as specialized libraries for research. There are also numerous community college galleries and commercial galleries with a wide variety of offerings.

Master of Fine Arts Degree in Art**Admission to Graduate Study**

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, the student must have completed a bachelor's degree in studio art or the equivalent from an accredited institution, including twelve units of art history, six units of which comprise a survey of the history of Western art. A grade point average of 3.25 or better in upper division art courses is required.

Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. This requirement will be measured by a formal presentation of a portfolio of work to the graduate faculty in the area of emphasis.

Students seeking admission for the fall semester must submit Graduate Review Applications to the Graduate Coordinator by March 28, and submit portfolios by the first week in April. Applications for the spring semester are due October 28 and portfolios are due by the first week in November.

Advancement to Candidacy

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students must have (1) completed a minimum of 30 units on the official program with a minimum grade point average of 3.0 [B]; and (2) been reviewed by the graduate faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of emphasis.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10022)

Candidates for the M.F.A., in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a minimum of 45 units at the 600- and 700-level. Art 694, 760, 791, and 792 are required. Normally, a student will focus on one of the studio art fields (applied design, painting, environmental design, graphic design, sculpture, and printmaking). With approval of the Chair and Graduate Coordinator a student may focus on a program of study combining two studio art fields. Six units must be included in art history, art criticism, and aesthetics courses. Nine units must be included on the program from studio electives outside the area of emphasis or electives in other departments. Art 799A, Thesis must be included on the program. In addition, there will be an oral examination of each candidate by the graduate faculty of the Department of Art. This examination will occur at the time of the candidate's master's exhibition, and will encompass an in-depth discussion of the candidate's thesis project.

No more than 15 units of graduate work may be transferred from another institution. Requests for more than six units must be approved by a committee of representatives from the area of emphasis. Applicants holding an M.A. degree in studio art from an accredited institution may transfer up to 30 units upon review and recommendation of the faculty in the area of emphasis, and approval of the Graduate Coordinator of the

Art Department. Candidates must be prepared to spend at least two semesters (24 units) in residence as full-time students. Coursework taken as a graduate student to fulfill undergraduate deficiencies may not be used to satisfy any unit requirement for the M.F.A. degree program. A 3.0 grade point average must be maintained at all times. Continuation in the program will be determined by a review of each candidate by the graduate faculty in the emphasis area. This review will be held upon completion of 30 units in the M.F.A. program, or at any time upon request of the Graduate Coordinator.

Master of Arts Degree in Art Admission to Graduate Study

Studio Arts

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, students must have completed an undergraduate major in art with a minimum of 24 upper division units, including two semesters' work in the general history of art, before they will be permitted to enter the graduate program. Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. In studio areas this requirement will be measured by a formal presentation (the Graduate Review) to the emphasis area faculty of a portfolio of examples of the candidate's undergraduate or postbaccalaureate work. The range should be great enough to give the committee a knowledge of the candidate's strengths and weaknesses. A statement of the candidate's objectives in the graduate program should accompany this presentation. If it is determined that the student is capable of doing graduate art work, he/she may be permitted to begin such work even though he/she has not completed an appropriate undergraduate major in art. Those students whose work is insufficiently advanced for classified graduate standing may enroll for courses with postbaccalaureate unclassified standing, under guidance from the department, in order to meet the standard requirements. Students seeking admission for the fall semester must submit Graduate Review Applications to the Graduate Coordinator by March 28, and submit portfolios by the first week in April. Applications for the spring semester are due October 28 and portfolios are due by the first week in November.

Art History

In addition to meeting the requirements for admission to the University, students wishing to be admitted to the art history graduate program with a classified graduate standing must complete the equivalent of the graduation requirements as specified in the current General Catalog (a minimum of 39 units of art history to include Art 593), with a GPA of 3.0 on a 4.0 scale in the last 60 units attempted.

Students who do not meet the requirements for admission to the graduate program in art history but meet the requirements for graduate admission to the University, may, at the discretion of the art history faculty, be accepted with postbaccalaureate unclassified standing.

Art history applications, obtainable from the graduate coordinator, are due on March 28 or October 28 for the following semester and should be accompanied by transcripts of all undergraduate or postbaccalaureate work.

Advancement to Candidacy

Studio Arts

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students will be required to pass a comprehensive examination covering the fields of history of art of western civilization, the principles of art appreciation, and the techniques and materials of the artist, or to have completed a year units of art history.

Students with an emphasis in studio arts must have: (1) completed at least 12 units listed on his/her official program with a minimum grade point of 3.0 (B); and (2) been reviewed by the tenured and tenure-track

faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of specialization.

Art History

Classified graduate students working for the Master of Arts degree in the field of art history must pass a comprehensive examination in art history (western and nonwestern) no later than the second semester as classified graduate students before advancement to candidacy. Classified graduates should contact the graduate adviser to sign up for the comprehensive examination and to discuss their individual graduate programs before their third week of the first semester.

Before advancement to candidacy graduate students in art history must have completed four semesters of French or German, with an overall average grade of "B" (3.0) or better. Alternatively, with the consent of the graduate adviser, students may demonstrate a reading knowledge of the appropriate language by passing either the Graduate School Foreign Language Examination, the Modern Language Association Examination (the French MLA examination is given by the Test Office during the beginning of each semester; contact the Art Department for permission to take the examination) or under exceptional circumstances a reading proficiency examination administered by the art history area. The language requirement must be met before the add/drop date of the student's first semester as a classified graduate student, or the student must enroll for appropriate language courses.

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, all students must complete a graduate program of a minimum of 30 units which includes at least 24 units in art from courses listed below as acceptable on master's degree programs in art, of which at least 16 units must be in 600- and 700-numbered courses.

Studio Arts

(Major Code: 10021)

Those electing studio arts must complete a minimum of 18 units in the area of specialization. One course in the Art 760 or 770 series, Art 694, and Art 799A are required. Not more than a total of six units in Art 798 will be accepted. A creative project accompanied by a written report is required as fulfillment of Art 799A. In conjunction with this project, each candidate for the degree must present an exhibition of representative graduate work.

Art History

(Major Code: 10031)

Those electing art history must complete at least 18 units from the 600- and 700-numbered courses in art history to include Art 799A, selected in consultation with the art history adviser. Students may select up to 12 units of 500-level courses in art, nine units of which must be in art history and approved by the graduate adviser. A written thesis is required as fulfillment of Art 799A. Master's candidates in art history will also be required to give an open lecture on their thesis subject, to be scheduled with the approval of the thesis chair.

Thesis and Projects in Art

The thesis required for the Master of Fine Arts degree or the Master of Arts degree in Art is a written document; the project is an original work of creative art, accompanied by a written report. All theses and written reports accepted in satisfaction of a requirement for the master's degree are cataloged and accessioned in the library. Color slides of the project must be provided by the candidate and are retained in the slide library. One copy of art history theses must be given to the Department of Art.

Courses Acceptable on Master's Degree Programs in Art

UPPER DIVISION COURSES

500. Advanced Drawing (3)

Six hours.

Prerequisites: Art 203 and 204.

Drawing emphasizing the qualitative aspect of visual subject matter. Maximum credit six units.

501. Professional Orientation in the Arts (3) I, II

Prerequisite: Twelve units of upper division art or graduate standing in art.

Conditions met in professional art world as well as opportunities available: Exhibitions, marketing system, legal and tax responsibilities, public and private collections, grants, fellowships and professional positions investigated.

502. Inter-Media (1-3) I, II

Two hours for each unit of credit.

Prerequisites: Art 102 and 103.

Process and materials in plane and space. Maximum credit six units.

503. Life Drawing and Painting (3) I, II

Six hours.

Prerequisites: Art 204 and 403.

Drawing and painting from nude and costumed models. Maximum credit six units.

504. Advanced Painting (3) I, II

Six hours.

Prerequisite: Art 404.

Approaches to contemporary concepts in painting. Maximum credit six units.

505. Advanced Waterbase Media (3) I, II

Six hours.

Prerequisite: Art 405.

Approaches to contemporary concepts in waterbase painting. Maximum credit six units.

506. Contemporary Issues for Studio Artists (3) I

Prerequisites: Upper division or graduate standing in art and consent of instructor.

Theory, practice, and philosophy of being an artist. Independent research on current art concepts and issues. Material will encompass the past five years. Field trips.

509. Relief Printmaking (3) I, II

Six hours.

Prerequisites: Art 203 and 210.

Woodcut, wood engraving, gessocut, linoleum, collograph, and relief printmaking processes. Emphasis on fine print quality and technical development using mixed media. Maximum credit six units.

510. Intaglio Printmaking in Color (3) I, II

Six hours.

Prerequisite: Art 410.

Advanced creative intaglio printmaking in color, including zinc and copper plate; etching, drypoint, aquatint, engraving, embossing and color variations. Emphasis on fine print quality and technical development in the color process unique to this medium. Maximum credit six units.

511. Lithography Printmaking in Color (3) I, II

Six hours.

Prerequisite: Art 411.

Advanced creative lithography printmaking in color. Emphasis on fine print quality in color process and color technology unique to this medium. Maximum credit six units.

516. Advanced Sculpture (3) I, II

Six hours.

Prerequisite: Art 416.

Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Maximum credit six units for Art 516.

A. Ceramic sculpture

D. Handmade paper sculpture

B. Plastic sculpture

E. Wood sculpture

C. Foundry/metal sculpture

517. Advanced Figurative Sculpture (3) I, II

Six hours.

Prerequisites: Art 216 and 217.

Figurative study with emphasis on individual exploration. Maximum credit six units.

523. Advanced Furniture Design (3) I, II

Six hours.

Prerequisite: Art 423.

Advanced individual design; exploration of materials, process and function. Maximum credit six units. Maximum combined credit of nine units in Art 323, 423, and 523.

525. Advanced Ceramics (3) I, II

Six hours.

Prerequisite: Art 425.

Study of ceramic design through creative projects of clay forms. Maximum credit six units.

526. Clay and Glaze Technology in Ceramic Design (3)

Six hours.

Prerequisite: Art 425.

Experimentation and application of research concerning the use of ceramic materials and techniques as an integral part of the design process. Maximum credit six units.

529. Design in Enamels (3) I, II

Six hours.

Prerequisite: Art 429.

Design and production of vitreous enamels. Maximum credit nine units; six units applicable to a master's degree.

531. Advanced Jewelry and Metalwork (3) I, II

Six hours.

Prerequisite: Art 431.

Problems involving fabrication processes already studied in order to increase technical competence while exploring personal design statements; specialized techniques such as photoetching and electroforming. Maximum credit six units.

532. Advanced Metalsmithing (3) I, II

Six hours.

Prerequisite: Art 431.

Advanced problems involving metalsmithing processes already studied in order to increase technical competence while exploring personal design statements. Maximum credit six units.

533. Textile Techniques in Metal (3)

Six hours.

Prerequisite: Art 331 or 435.

Textile structures as applied to precious and nonprecious metals. Individually designed projects utilizing information acquired through samples and documentation. For students of fiber, metal and sculpture.

534. Advanced Weaving (3) I, II

Six hours.

Prerequisite: Art 334.

Advanced individual problems in weaving. Maximum credit six units. Maximum combined credit of nine units in Art 234, 334, and 534.

535. Advanced Nonwoven Textile Construction (3) I, II

Six hours.

Prerequisite: Art 435.

Advanced study in nonloom techniques. Techniques to include: looping, braiding, plaiting, and special fabricating techniques. Experimentation with new man-made fibers and with synthetic commercial dyes. Maximum credit six units.

536. Advanced Textile Design (3) I, II

Six hours.

Prerequisite: Art 436.

Application of design for the textile surface, appropriate for both the individual designer and commercial reproduction. Maximum credit six units.

540. Advanced Graphic Imagery (3) I, II, S

Six hours.

Prerequisite: Art 240 or 340.

Investigation of experimental photographic and technical reproductive media.

541. Advanced Graphic Design – Communication Systems (3) I, II

Six hours.

Prerequisite: Art 341. **Proof of completion of prerequisite required:** Grade report or copy of transcript.

Symbolic processes, materials and structures, visual communications systems relating to corporate and visual identification programs. Maximum credit six units.

542. Advanced Professional Problems in Graphic Design (3) I, II

Six hours.

Prerequisite: Art 441 or 541; or consent of instructor by portfolio review.

Refinement of personal visual imagery and the application of design concepts to production situations. Study of professional responsibilities, conduct and business procedures. Development of a professional level portfolio.

543. Advanced Drawing and Illustration for Graphic Design (3) II

Six hours.

Prerequisite: Art 443.

Refinement of visual imagery and advanced illustration problems.

544. Advanced Visual Communication Media (3)

Six hours.

Prerequisite: Art 444.

Experimental, creative and practical exploration of contemporary communication as related to advanced sequential visual imagery in multi-media formats.

547. Environmental Theory (3) I, II

Prerequisite: Art 247 or 347.

Survey of alternative solutions to the problem of design of the physical environment.

550. Environmental Prototypes (3) I

Six hours.

Prerequisites: Art 247, 250 and 450.

Research and development of creative architectural concepts with emphasis in space enclosure systems and cybernetics.

552. Interior Design IV (3) I, II

Six hours.

Prerequisites: Art 451, 453, and completion of portfolio requirement. **Proof of completion of prerequisites required:** Grade report or copy of transcript.

Projects in architectural interiors involving the use and perception of enclosed spaces. Space planning systems analysis. Maximum credit six units.

553. Interior Design V (3) I, II

Six hours.

Prerequisite: Art 552. **Proof of completion of prerequisite required:** Grade report or copy of transcript.

Projects in interiors involving space planning analysis, specification writing, materials selection and furnishing design appropriate to commercial needs. Maximum credit six units.

557. Art of the Nineteenth Century (3) I, II

Prerequisites: Art 258 and 259.

Development of painting, sculpture, and architecture from the French Revolution to 1900.

558. Twentieth Century European Art to 1945 (3) I, II

Prerequisite: Art 259.

Major developments in the visual arts and art criticism from 1880 to 1945 (Post-Impressionism through Surrealism).

559. Twentieth Century European and American Art Since 1945 (3) I, II

Prerequisite: Art 558.

Major developments in the visual arts and art criticism since 1945.

560. History of American Art (3)

Prerequisites: Art 258 and 259.

Development of painting, sculpture, and architecture from the Native American Art and Colonial Period to the present.

561. Art of Pre-Hispanic America (3)

Prerequisite: Upper division standing.

Art of ancient Meso-America, Central America, Caribbean and South America from earliest times until contact with Europe.

562. Art of Latin America (3)

Prerequisite: Upper division standing.

Art and architecture of Latin America from the colonial period to the present. Field trips included.

564. Art of China (3) II

Prerequisite: Art 263.

History of Chinese art from prehistoric times through the Ching Dynasty.

565. Art of Japan (3) II

Prerequisite: Art 263.

History of Japanese art from prehistoric times to the Meiji Restoration.

567. Art of the Ancient Near East (3)

Prerequisite: Art 258.

Development of painting, sculpture, architecture and crafts from pre-historic times to the fourth century B.C.

568. Art of Crete, Mycenae, Greece, and Rome (3)

Prerequisite: Art 258.

Development of painting, sculpture, architecture, and crafts from pre-historic times to the fifth century A.D.

569. Art of Sub-Saharan Africa (3)

Prerequisite: Upper division standing.

Form and content of the art of Sub-Saharan Africa viewed within its cultural context.

572. Coptic and Byzantine Art (3)

Prerequisites: Art 258 and 259.

The art of the Eastern Church from the reign of Justinian to the Russian Revolution.

573A. Early Renaissance Art in Italy (3)

Prerequisites: Art 258 and 259.

Italian arts, architecture, artists, and patrons from fourteenth century Proto-Renaissance period through fifteenth century revival of classical humanism in city states of Florence, Siena, Bologna, Mantua, and Padua.

573B. Late Renaissance Art in Italy (3)

Prerequisites: Art 258 and 259.

High Renaissance in Florence and Rome, followed by disintegration of classical principles and domination of Mannerism in Central and Northern Italy and history of arts of Venice in sixteenth century.

574. Northern Renaissance Art (3)

Prerequisites: Art 258 and 259.

Architecture, sculpture, and painting north of the Alps during the Renaissance period.

575. Baroque and Rococo Art (3)

Prerequisites: Art 258 and 259.

Architecture, sculpture, and painting of the Baroque and Rococo periods.

576. Arts of Native North America (3)

Prerequisite: Upper division standing.

Form and content of the arts of North American Indians viewed within a cultural context. Field trips.

577. History of Architecture (3)

Prerequisites: Art 258 and 259.

Architecture from primitive times to the present.

581. History and Theory of Environmental Design (3) II

Prerequisites: Art 258 and 259.

Environmental arts in the nineteenth and twentieth centuries.

582. The Decorative Arts (3)

Investigations into the arts of ceramics, enamelling, furniture, glass, jewelry, metalwork and textiles. Analyzing the aesthetic basis which determines their forms in various times and places. Field trips to museums and ateliers.

586. Art Practicum Seminar (3) I

Prerequisites: Twenty upper division units in art and concurrent assignment to student teaching.

Discussion, readings, and research study related to art presentation strategies.

590. Principles and Elements of Visual Aesthetic Organization (3)

Three hours.

Prerequisites: Art 157; or Art 258 and 259.

Visual aesthetic materials and the psychological principles involved in aesthetic organization.

591. Gallery Exhibition Design (3) I, II

Six hours.

Prerequisite: Fifteen units of art.

Fundamental art elements and principles applied to the theories and techniques of gallery exhibition design.

592. Gallery Exhibition Design (3) I, II

Six hours.

Prerequisite: Art 591.

Advanced problems in the theories and techniques of gallery exhibition design.

593. History and Methodology of Art History (3)

Prerequisites: Upper division standing; art history major or minor.

Readings and discussions on the historiography of art and on modern methodologies for art historical research.

596. Advanced Studies in Art and Art History (1-4)

Prerequisites: Twelve units of art and art history and consent of instructor.

Advanced topics in art and art history. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Drawing (3)

Six hours.

Prerequisite: Art 500.

Concepts and approaches to drawing. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

604. Painting (3)

Six hours.

Prerequisites: Art 405, 504 and 506.

Issues and concepts relating to contemporary painting. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

609. Printmaking (1-3)

Two hours for each unit of credit.

Advanced creative work in selected printmaking media based upon the analysis of the history and philosophies of printmaking from its inception through contemporary concepts. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

616. Sculpture (3)

Six hours.

Prerequisite: Art 516.

Aesthetic organization of selected subject matter in the media of sculpture. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

623. Advanced Furniture Design (3)

Six hours.

Prerequisite: Art 523.

Problems in the design and construction of furniture. Projects determined by the individual students in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

625. Crafts (1-3)

Two hours for each unit of credit.

Prerequisite: Six units completed in upper division courses in sculpture or ceramics or printmaking or a combination of these courses.

Advanced creative work in selected craft media. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

627. Advanced Clay and Glaze Technology in Ceramic Design (3)

Six hours.
Prerequisite: Art 425.
Experimentation with the use of ceramic material and techniques as an integral part of the design process. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

629. Enamel Workshop (3) I, II

Six hours.
Prerequisite: Art 529.
Workshop in enamel technology and its application to the craft. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art. (Formerly numbered Art 628.)

631. Seminar in Jewelry and Metalwork (3)

Prerequisite: Art 331.
Problems in the design and execution of works in precious metals. Projects will be determined by the individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

634. Seminar in Textile Design (3)

Prerequisite: Art 334.
Problems in textile design and technology. Projects will be determined by the individual student in consultation with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

641. Graphic Communication (1-3)

Two hours for each unit of credit.
Prerequisite: Art 541.
Advanced individual study in graphic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

650. Creative Environmental Design (1-3)

Prerequisite: Six upper division units in interior design, architecture or city planning.
Creative work in interior design, architecture and civic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

694. Seminar in the Principles of Design in the Space Arts (3)

Prerequisite: A semester course in art appreciation.
An intensive study of the activity of creative expression and aesthetic appreciation in the area of visual experience. The aesthetic analysis of original works of art. Maximum credit six units applicable to the M.A. degree.

700. Studio Art Experience (3)

Six hours.
Independent research in specified areas, which may require the presentation of a paper with its oral defense.
Each course may be taken to a maximum of six units. Maximum credit six units of 700 applicable to the M.A. degree; nine units of 700 applicable to the M.F.A. degree in art.

| A. Studio Art in Painting | E. Studio Art in Crafts |
| B. Studio Art in Sculpture | F. Studio Art in Graphic Communication |
| C. Studio Art in Printmaking | G. Studio Art in Environmental Design |
| D. Studio Art in Ceramics | |

716. Individual Research Problems in Sculpture (3)

Prerequisite: Art 616 (six units).
Graduate research problems including independent research in sculpture. Projects will be determined by the individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

760. Seminar in Twentieth Century Art (3)

Prerequisites: Art 558 and 559.
Visual arts and art criticism since 1900.

761. Seminar in American Art (3)

Prerequisite: Art 560.
Problems in the development of art styles or important artists in America.

767. Seminar in Art of Native America, Africa and Oceania (3)

Studies in problems of the development of art styles, concepts, imagery, and artists within one of the following areas: Art of the Americas, Africa, or Oceania.

768. Seminar in the Art of Crete, Greece, and Rome (3)

Prerequisite: Art 568.
Selected topics in advanced studies of art in the areas of ancient Aegean (Cycladic, Minoan), Greek and Roman civilizations.

771. Seminar in Medieval Art (3)

Prerequisites: Art 258 and 259.
Studies in problems of the development of art styles or important artists within broad limits of medieval art.

773. Seminar in Renaissance Art (3)

Prerequisites: Art 258 and 259.
Studies in problems of the development of art styles or important artists within broad limits of renaissance art.

775. Seminar in Baroque and Rococo Art (3)

Prerequisites: Art 258 and 259.
Studies in problems of the development of art styles or important artists within broad limits of baroque and rococo art.

790. Seminar in Bibliography and Research Methods (2)

Research methods and materials, compiling of a specialized bibliography, preparatory to writing a master's thesis.

791. Seminar in Professional Practices (3)

Reading and discussion about subjects of direct concern to the professional artist. Open only to classified graduate students in studio art. This is an art forum for the practicing artist.

792. Seminar in Professional Problems (3)

Reading and discussion pertinent to professional activities in specific media. Open only to classified graduate students.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of the staff; to be arranged with department chair and the instructor.
Individual study. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for a master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

General Information

The Master of Arts degree in Asian Studies is an interdisciplinary degree offered by designated faculty members in the Departments of Anthropology, Art, Business Administration, Classics and Humanities, Comparative Literature, Economics, Education, English, Geography, History, Linguistics and Oriental Languages, Philosophy, Political Science, Religious Studies, and Sociology. It is administered by the Center for Asian Studies through a Graduate Committee consisting of the Director, the Graduate Adviser, and representatives from the several departments.
The program is designed to offer systematic advanced training (a) for those planning to enter educational, business, government, or community service involving Asian studies; (b) for those in a specific academic discipline who have regional interest in Asian studies and wish to promote more effective understanding of the cultures, societies, peoples, and social forces at work in the Asian/Pacific world; and (c) for those who plan to pursue further graduate study in Asian studies beyond the Master of Arts degree.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present a Bachelor of Arts degree with a major in Asian Studies or its equivalent, as approved by the Graduate Committee of the Center for Asian Studies. A student whose preparation is

Asian Studies

In the College of Arts and Letters

deemed inadequate by the Graduate Committee will be required to complete specific courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, all students must demonstrate a reading knowledge, at least at the intermediate level, of a relevant foreign language approved by the Graduate Committee of the Center for Asian Studies. If Chinese or Japanese is required, the requirement may be fulfilled by completing 16 units of coursework in the particular language, the last four units with a grade of C (2.0) or better.

Specific Requirements for the Master of Arts Degree

(Major Code: 03011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a minimum of 30 units from courses acceptable on master's degree programs, including Asian Studies 600 and 799A, with not less than 24 units in courses of Asian content, distributed as shown below.

	600- and 700-level Courses	500-, 600- and 700-level Courses
Asian Studies	6 units	3 units
Department A	6 units	3 units
Department B	3 units	3 units
	15 units	9 units

The remaining six of the total of 30 units will be elective, subject to Graduate Committee approval. The total program may not include more than nine units in 500-level courses.

Only Plan A, requiring the thesis, is offered for the Master of Arts degree in Asian Studies. A final oral examination on the general field of the thesis must be passed as a requirement for the degree.

All programs will be approved by the Graduate Committee of the Center for Asian Studies.

Courses Acceptable on Master's Degree Programs in Asian Studies

UPPER DIVISION COURSES

Asian Studies Courses

560. History of Japanese Business and Trade (3) I, II

Prerequisites: Upper division standing and consent of instructor.
Japanese business and trade from 1600 to present. Emphasis on Japan's rapid economic development since 1868, interplay of social and economic forces, structure of Japanese business system, and problems of international trade.

596. Selected Studies in Asian Cultures (3)

Topics on various aspects of Asian studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Anthropology Course

582. Regional Anthropology (3)*

Geography Course

540. Regional Geography (3)*

History Courses

- 561A-561B. Asia and the West (3-3)
562. Civilization of India: The Great Traditions (3)
563. Modern India and Its Neighbors (3)
564A-564B. Southeast Asia (3-3)
565. Revolution and Social Change in Asia (3)
566. Chinese Civilization: The Great Traditions (3)
567. China's Century of Modernization (3)
568. Communist Party and the Chinese Revolution (3)
569. Japanese Civilization (3)
570. Modern Japan (3)
596. Selected Studies in History (1-4)*

Philosophy Course

575. A Major Philosopher (3)*

Religious Studies Courses

506. Spiritual Traditions of India (3)
580. A Major Figure (3)*
581. A Metaphysical Doctrine (3)*

Sociology Course

556. Topics in Comparative Societies (3)*

GRADUATE COURSES Asian Studies Courses

600. Seminar in Interdisciplinary Methods (3)
Theory and practice of interdisciplinary studies. Bibliography, research tools and presentation of findings in Asian studies.

690. Seminar in Asian Studies (3)
Intensive study of an aspect of Asian studies. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Research in one of the aspects of Asian studies. Maximum credit six units applicable to a master's degree.

- 799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

- 799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

- Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Courses

600. Seminar (3)*
620. Seminar in Regional Anthropology (3)*

Economics Courses

720. Seminar in Development and Planning (3)*
750. Seminar in Economic History and Institutions (3)*

Finance Course

654. Seminar in International Business Finance (3)*

Geography Courses

701. Seminar in Development of Geographic Thought (3)*
720. Seminar in Regional Geography (3)*

History Courses

601. Seminar in Historical Method (3)**
650. Directed Reading in Asian History (3)
655. Seminar in Asian History (3)

Linguistics Course

795. Seminar in Linguistics (3)*

Management Courses

723. Seminar in International Strategic Management (3)*
728. Seminar in Business Planning (3)*

Marketing Course

769. Seminar in International Marketing (3)*

Philosophy Course

696. Seminar in Selected Topics (3)*

Political Science Courses

655. Seminar in General Comparative Political Systems (3)*
658. Seminar in Communist Political Systems (3)*
661. Seminar in the Political Systems of the Developing Nations (3)*
675. Seminar in International Relations (3)*

Sociology Course

770. Seminar in Population and Demography (3)*

Teacher Education Course

656. Comparative Education (3)

All 797 (Research) and 798 (Special Study) courses in named departments, when relevant, are also applicable upon approval by the Graduate Committee.

* Acceptable when of relevant content.

** Required of all students who offer history as Department A.

Faculty

Ronald J. Angione, Ph.D., Professor of Astronomy, Chair of Department, Director of Mount Laguna Observatory
C. T. Daub Jr., Ph.D., Professor of Astronomy (Graduate Adviser)
Arthur Young, Ph.D., Professor of Astronomy
Freddie D. Talbert, Ph.D., Associate Professor of Astronomy
Paul B. Etzel, Ph.D., Assistant Professor of Astronomy
Allen W. Shafter, Ph.D., Assistant Professor of Astronomy
Robert Leach, Ph.D., Associate Staff Scientist (equivalent rank of Associate Professor)

Adjunct Faculty

William S. Kovach, Ph.D., Astronomy
Edward Olson, Ph.D., Astronomy
Kenneth N. Yoss, Ph.D., Astronomy
Andrew T. Young, Ph.D., Astronomy

Assistantships

Graduate teaching assistantships in astronomy are available to a few qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Astronomy, in the College of Sciences, offers graduate study leading to the Master of Science degree in Astronomy. The degree is designed to prepare students either for further graduate work leading to the doctorate, or for a professional career in teaching or in industry.

San Diego State University operates the Mount Laguna Observatory which is located 45 road miles east of the campus at an elevation of 6100 feet. The research telescopes at the Observatory include three reflectors with apertures of 40, 24 and 16 inches. The 40-inch telescope is operated jointly with the University of Illinois. Auxiliary equipment for the telescopes includes photoelectric photometers, spectrographs, and photographic and CCD cameras for direct imaging. A dormitory for observers and a shop-laboratory building complete the main research facilities at the Observatory. Additionally, each telescope dome has an AT&T 6300 PC for data collection and on-line reduction. A central, general-purpose, AT&T 3B2/400 computer provides on-line data bases as well as reduction and analysis capabilities. Associated with the Observatory is the Awona Harrington Visitor Center which provides facilities for educational programs and for visiting astronomers.

On campus are a Grant measuring engine, Joyce/Loebl isodensitracer, and an iris photometer/microdensitometer. In addition there are three domes housing small telescopes, six to sixteen inches in aperture, for student training. Campus computing facilities include a Vax 11/780. There is also access to the statewide Cyber 730/760 computer. The Astronomy Department has both CRT and graphics terminals and a plotter for use with these computers. The department's on-campus Image Processing Facility consists of a Sun 4/280C file server, with graphics peripherals, connected via Ethernet to a large, general-purpose, AT&T 3B2/600 computer. In addition, approximately 20 AT&T 6310 PCs are connected to the 3B2 via STARLAN.

A main research interest in the department is the study of the structure and evolution of stars derived from the investigation of eclipsing and interacting binary stars. These studies make use of both photometry and spectroscopy at the Observatory. Stellar evolution is further studied with photometry of star clusters. Information on the late stages of stellar evolution comes from both theoretical and observational studies of plane-

Astronomy

In the College of Sciences

tary nebulae. Galaxies are investigated through surface photometry using direct photography and the isodensitracer. Theoretical and observational studies are underway on planetary atmospheres and the optical properties of the earth's atmosphere.

Graduate students are extensively involved in many of these research programs. Students also may make use of Observatory facilities in support of their own research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the university with classified graduate standing, as described in Part Two of this bulletin. In addition, the student must have an overall grade point average of at least 2.75 in the last 60 units of his undergraduate work and must have preparation in astronomy and related sciences substantially equivalent to that required for the bachelor's degree in astronomy at San Diego State University. Applicants transferring to San Diego State University must submit two letters of recommendation.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as specified in Part Two of this bulletin. In addition, students may be required to take a qualifying examination during their first semester of residence.

Specific Requirements for the Master of Science Degree

(Major Code: 19111)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must also meet the following departmental requirements in a 30-unit program:

1. Complete at least 18 units of 600- and 700-numbered courses in astronomy including 799A (Thesis, 3 units).
2. Complete at least 12 additional units of graduate level or approved 500 level courses in astronomy or related fields as approved by departmental committee.
3. Pass a final oral examination on thesis.
4. A reading knowledge of scientific French, German, or Russian is recommended. Facility with a scientific computing language is desirable.

Courses Acceptable on Master's Degree Programs in Astronomy

UPPER DIVISION COURSES

510. Astronomy Research Literature (1) I, II Cr/NC

Prerequisite: Credit or concurrent registration in Astronomy 440.
Reading and discussion of recent research papers from major astronomical and astrophysical journals. Topic(s) to be specified by instructor. Maximum credit three units.

530. Celestial Mechanics (3)

Prerequisite: Physics 350A.
Fundamental dynamics of celestial bodies, the central force motion, two-body motion, restricted 3-body and n-body problems. Orbit calculations. First order perturbations of orbital elements and the motion and dynamics of earth satellites.

596. Advanced Topics in Astronomy (2 or 3) I, II

Prerequisite: Consent of instructor.

Selected topics in theoretical astronomy or astrophysics. May be repeated with new content upon approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (2 or 3)

Prerequisite: Consent of instructor.

An intensive study in advanced astronomy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

610. Binary Stars (3)

Prerequisite: Astronomy 450.

An intensive study of visual, spectroscopic, and eclipsing binaries, including the determination of orbits. Process of mass transfer.

617. Astronomical Photometry (3)

Prerequisites: Astronomy 350 and 450.

Theory and techniques of photographic and photoelectric photometry in ground-based astronomy. Emphasis on problems of precise measurement and use of modern high speed equipment in photon counting and data acquisition systems.

620. Galactic Structure (3)

Prerequisite: Astronomy 450.

Survey of basic observational data for determining the structure of the Milky Way Galaxy; luminosity functions, stellar distributions in and near the galactic plane, solar motion, kinematics and dynamics of stellar motions, and galactic rotation; introduction to stellar dynamics.

630. Stellar Interiors (3)

Prerequisite: Astronomy 450.

Structure of the interior of stars including the details of the reactions by which energy is obtained and the evolution of stars.

640. Interstellar Matter (3)

Prerequisites: Astronomy 450 and Mathematics 537.

Interstellar absorption and polarization, theory of interstellar grains, physics of a low density gas in a dilute radiation field, nebulae, interstellar

absorption lines, dynamics of the interstellar medium, and radio observations of the interstellar medium.

650. Stellar Atmospheres (3)

Prerequisite: Astronomy 440.

Emission and absorption of radiation, continuous spectra, spectral lines, model stellar atmosphere calculations, and non-L.T.E. problems.

660. Extragalactic Structure (3)

Prerequisite: Astronomy 450.

The individual and collective properties of normal and peculiar galaxies. Topics include classification, spectra, masses, luminosity distributions, distance indicators, clustering, and redshifts.

670. Astrophysical Spectroscopy (3)

Prerequisites: Mathematics 252 and credit or concurrent registration in Astronomy 440.

Interpretation of astronomical spectra in terms of atomic theory and radiative transfer. Optics of spectrograph design; line identification, spectral classification, radial velocity measurement, and line profile analysis.

797. Research (1-3) Cr/NC/SP

Prerequisite: Classified graduate standing.

Research in one of the fields of astronomy. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Institute, the San Diego Natural History Museum, and the Naval Underseas Center. San Diego State University also operates a marine laboratory on Mission Bay and has access to research sites in the Chihuahua Valley, Fortuna Mountain, and Temecula (Riverside County).

Section I: Master's Degree Programs

The Master of Arts degree in Biology is considered to be essentially an academic degree which is planned to serve as a stepping stone to a higher degree, if the student so desires. The Master of Science degrees in Biology and Microbiology are applied or more technical degrees, but are also acceptable as preparatory to many more advanced degree programs. Study concentration for degrees in biology must be completed in one of the research programs listed below.

Admission to Graduate Study

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before he will be recommended for admission to a program with classified standing:

1. Meet the requirements equivalent to a baccalaureate degree in biology or microbiology at San Diego State University.
2. Have a grade point average of 2.75 or better on work taken for the baccalaureate degree.
3. Have a grade point average of 3.0 or better in upper division courses (at least 24 units) acceptable for the major.
4. Have a score of 1100 or better on the GRE General Test (combined verbal and quantitative).
5. Have a score above the 60th percentile rank on the GRE Subject (Advanced) Test in Biology. The student should take this test during the last semester in his undergraduate major. Applicants for the master's degree in microbiology must pass the departmental test in microbiology or the GRE subject examination in biology.
6. Be considered as capable of graduate work in the biological sciences by two references submitted to the Graduate Coordinator (Biology) or to the Graduate Adviser (Microbiology).
7. Be accepted by a research program and be sponsored by a faculty member of the area.

NOTE: Admission to a research program within the biology graduate program will be limited to the number of students for which adequate facilities and faculty sponsorship are available. Students should therefore be as specific as possible in their indication of research interests and career goals. Individual research programs will admit students solely on the basis of merit in relation to space and faculty availability.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the research program. Students so admitted will be advised as to the nature of their deficiency and the time to be allowed to achieve full classified graduate standing.

Biology

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the master of arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts Degree in Biology

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected, with the approval of the graduate adviser, from the biological sciences as listed below or from closely related fields. At least 15 of the units selected must be in 600- and 700-numbered courses including course 799A, Thesis. A maximum of six units of the required 30 units may be selected from acceptable courses offered in the College of Education. A reading knowledge of scientific French, German, Russian, or Spanish, and a final oral examination on the field of the thesis and its implications in the broad fields of biology are also required.

Specific Requirements for the Master of Science Degree in Biology

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected, with the approval of the graduate adviser, from the biological sciences as listed below or from closely related fields. At least 15 of the units selected must be in 600- and 700-numbered courses including course 799A, Thesis. A maximum of six units of the required 30 units may be selected from acceptable courses offered in the College of Education. A final oral examination on the field of the thesis and its implication in the broad fields

of biology is also required. The department expects students to complete all degree requirements within seven years. The graduate adviser, in some circumstances, may permit a student to validate a course for recency only by repeating the outdated course or an equivalent course (see section of this Bulletin on "Time Limits").

Master's Degree Research Programs

Ecology (Major Code: 04201): The overall program emphasizes quantitative approaches to ecological research and the framing of problems within the general context of ecological theory. Faculty and student research currently falls into the areas of limnology, marine ecology, plant community ecology and primary productivity, physiological plant ecology, marine aquaculture and fisheries ecology, animal population ecology and energetics, ecological genetics, ecosystems management, and systems ecology. Program adviser, Farris.

Genetics (Major Code: 04221): The genetics program offers an opportunity for graduate study in population genetics, biochemical and molecular genetics, developmental genetics, cytogenetics, and mutagenesis. Program adviser, Daugherty.

Microbiology (Major Code: 04111): A separate graduate degree is offered in microbiology. Graduate adviser, Steenbergen.

Molecular Biology (Major Code: 04161): The program area is concerned with approaches which aim to explain biology at a molecular level, with particular emphasis on the correlation of structure and function of macromolecules, catalysis and control, molecular genetics and regulation of gene expression, and the molecular basis of cellular architecture, cell movement, bioenergetics and membrane function (administered through Molecular Biology Institute). Program adviser, Dahms.

Physiology (Major Code: 04101): The major subareas of interest represented by the faculty in the physiology program area include comparative cellular physiology (especially osmoregulation, endocrinology and sensory physiology) photobiology, radiation biology and radioisotope technique, nerve and muscle physiology, and plant ecophysiology. Program adviser, Brandt.

Plant Sciences (Major Code: 04021): The areas of emphasis for graduate study in the botany program include plant morphology, plant physiology, mycology, plant pathology, phycology, plant evolution, and plant systematics. Program adviser, K. Johnson.

Systematics and Evolutionary Biology (Major Code: 04071): This research program is broadly concerned with the biology, systematics, and evolution of whole organisms. The student has a wide variety of research areas from which to choose, including morphology, systematics, paleontology, natural history, behavior, comparative physiology, developmental biology, population genetics, coevolution, and evolutionary theory. Many groups of organisms are studied, including marine and terrestrial invertebrates, vertebrates, and plants. Program adviser, Futch.

In addition to the emphases described above, a number of faculty have active research programs in marine biology and accept graduate students in this area.

Microbiology

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Science Degree in Microbiology

(Major Code: 04111)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected, with the approval of the graduate adviser, from the biological sciences and closely related fields.

Not less than 18 units must be selected from courses in the area of microbiology to include not less than 15 units of 600- and 700-numbered courses. Among the 600- and 700-numbered courses selected, the student's program must include courses Biology 790, Bibliography; 799A, Thesis or Project; and at least four units of seminar. A maximum of six units of the required 30 units may be selected from acceptable courses offered in other related areas including the College of Education.

A final oral examination on the field of the thesis and its implication in the broad fields of microbiology is required.

Section II: Doctoral Programs Biology (Cell and Molecular)

(Major Code: 04011)

The cooperating faculties of the Departments of Biology at the University of California, San Diego and at San Diego State University offer a Joint Doctoral Program in Biology (cell and molecular). The research interests of the participating faculty members cover a wide range of biological problems which represent the interdisciplinary nature of modern biology.

At SDSU, the major areas of research at the graduate level and the participating faculty members include:

Membrane transport and energy transduction: A. Dahms, R. Sabbadini.

Biochemical genetics and gene expression: G. Johnson, H. Leberer.

Molecular biology of RNA viruses and bacteriophage: M. Breindl, J. Perrault.

Regulation of metabolic pathways: M. Abbott, S. Krisans.

Regulation of plant growth and development: S. Clouse, D. Rayle.

Substructure and function in motile cells: P. Paolini, R. Weiss.

Cloning and gene mapping: S. Bernstein, W. Stumph, J. Zyskind.

Cell and molecular immunology: C. Tsoukas.

Molecular endocrinology: C. Barnett, C. Glembofski.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program offered jointly by UCSD and SDSU must present evidence of adequate preparation and capacity for advanced work in biology. There are no inflexible requirements for entrance to graduate study in this program, but a strong background in biology, mathematics, chemistry, and physics is recommended. The applicant must have a bachelor's degree or the equivalent from an accredited institution of higher learning with training comparable to that provided by the University of California's and San Diego State University's undergraduate programs. Admission to the program requires acceptance by each institution on recommendation of the participating departments at UCSD and SDSU. It is understood that acceptance of a student into the joint program by each of the departments will be conditioned by their respective standards for graduate admissions and also by available facilities.

Application

Students seeking admission to the Joint Doctoral Program in Biology should write directly to the Doctoral Program Adviser, Department of Biology, requesting application materials. A complete application requires that the following information be provided:

The appropriate application form.

Three letters of recommendation (send directly to the Doctoral Program Adviser, SDSU).

Transcripts of academic work already completed.

Results of the Graduate Record Examination scores (including

Advanced Biology, Chemistry or Physics Test score).

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, San Diego, and San Diego State University.

Advising Committee

Upon admission to the program the Joint Doctoral Graduate Advisers of the two institutions will establish an Advising Committee for the student. This committee will consist of three faculty members chosen jointly from the two cooperating institutions. In consultation with the student, the committee will develop the student's course of study and will establish the student's Joint Qualifying Committee. At least one member of the advising committee must be from SDSU and one from UCSD.

Course Requirements

There is no specific number of courses required for the doctoral program in Biology, except a one-year graduate course including genetics, cellular and molecular biology. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern biological principles. Usually students will be expected to complete a set of at least four laboratory rotations, and such rotations may be fulfilled on either campus.

Coursework may be selected from offerings at either UCSD or SDSU.

Qualifying Examinations

Joint Qualifying Committee

A five-member committee, composed of appropriate numbers of faculty members from each of the cooperating institutions, will be recommended by the Advising Committee for each student and approved by the Graduate Deans from each institution. The student's dissertation adviser cannot be a member of the Joint Qualifying Committee.

The Joint Qualifying Committee will conduct an oral comprehensive qualifying examination, which will evaluate the student's understanding of modern biological principles. The examination will focus on four areas related to the major research interest of the student. These topics will be selected in consultation with the Advising Committee. The purpose of this examination is for the student to demonstrate competence not only in the major research field but also in related areas of biology.

The Joint Qualifying Committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the Graduate Division at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the Graduate Deans on both campuses, the student will be notified of his advancement to candidacy by the UCSD Graduate Division.

Joint Dissertation Committee

After a student is admitted to candidacy, a Joint Dissertation Committee consisting of at least three faculty members is nominated by the Graduate Advisers and appointed jointly by the Graduate Deans at SDSU and UCSD. The student's dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member from UCSD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCSD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in Biology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both cooperating institutions.

Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students, so that full time can be devoted to research, training, and study. During 1989-90, the support package include tuition support, a stipend for the year, and funds for research supplies. All students are required to obtain teaching experience, which normally means that a student will perform limited duties as a graduate teaching assistant.

Faculty

The following faculty members of the cooperating institutions participate in the Joint Doctoral Program being available for direction for research and as members of Joint Doctoral Committees.

San Diego State University:

Graduate Adviser: S. Krisans

Faculty: Abbott (Chemistry Department), Barnett, Bernstein, Breindl, Clouse, Dahms (Chemistry Department), C. Glembotski, G. Johnson, Krisans, Leberz (Chemistry), Paolini, Perrault, Rayle, Sabbadini, Stumph, Tsoukas, Weiss, Zyskind.

University of California, San Diego:

Graduate Adviser: D.L. Lindsley

Faculty: Brody, Carpenter, Chrispeels, Firtel, Forbes, Green, Hayashi, Helinski, Holland, Howell, Lindsley, Loomis, Nesbitt, Newport, Pinon, Posakony, Saier, Scheffler, Smith, Spector, Stern, Subramani, Wang, Wills, Yaffe.

Ecology

(Major Code: 04201)

The cooperating faculties of the Department of Biology, San Diego State University and the Graduate Group in Ecology, University of California, Davis offer a Joint Doctoral Program in Ecology. The research interests of the participating faculty members cover a wide range of problems and represent the interdisciplinary nature of modern biology. At SDSU, the major areas of research include:

- Systems ecology:** The application of mathematical modeling to ecosystem studies, especially primary production processes in terrestrial and aquatic environments.
- Coastal marine ecology:** Emphasizing population dynamics of invertebrates, community ecology of rocky and sandy beaches.
- Estuarine ecology:** Including study of salt marshes and tidal channels, especially the community structure of algal mats and salt marsh vegetation and their productivity, and the impact of human disturbance on estuarine functioning.
- Animal population ecology:** The dynamics of competitive and predator-prey interactions and their significance in community organizations.
- Public policy:** Studies concerned with applying ecological principles to managing natural resources and regional development.
- Plant ecology:** Including the study of chaparral and desert species in relation to environmental variability.
- Aquaculture:** Of marine plants and animals.

A complete list of the participating faculty from SDSU can be obtained from the coordinator of the program.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program must present evidence of adequate preparation and capacity for advanced work in ecology. Preparation should include a strong background in biology, physics, chemistry, and mathematics. Applicants must have a bachelor's degree from an accredited college or university. Acceptance of a student into the joint program by each institution depends on meeting the standards of admission of the respective institutions and by available facilities for research and instruction.

Application

Application for admission must be made simultaneously to the Graduate Division at San Diego State University and to the Graduate Division at the University of California, Davis. A complete application requires:

- Three letters of recommendation (send directly to Graduate Coordinator, SDSU).
- Transcripts of academic work already completed.
- Results of the Graduate Record Examination, including the Advanced Biology Test score.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, Davis, and San Diego State University.

Advising Committee

Upon admission to the program the Joint Doctoral Graduate Advisers of the two institutions will establish an Advising Committee for the student. This committee will consist of three faculty members chosen jointly from the two cooperating institutions. In consultation with the student, the committee will develop the student's course of study and will establish the student's Joint Qualifying Committee. At least one member of the advising committee must be from SDSU and one from UCD.

Course Requirements

There is no specific number of courses required for the joint doctoral program in ecology. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern biological principles, and to be conversant with several areas of ecology. Students are expected to fulfill course requirements in human ecology and physico-chemical ecology, as well as in biological ecology.

Coursework may be selected from offerings at either UCD or SDSU.

Qualifying Examinations

Joint Qualifying Committee

A five-member committee, composed of appropriate numbers of faculty members from each of the cooperating institutions, will be recommended by the Advising Committee for each student and approved by the Graduate Deans from each institution. The student's dissertation adviser cannot be a member of the Joint Qualifying Committee.

The Joint Qualifying Committee will conduct an oral comprehensive qualifying examination, which will evaluate the student's understanding of modern biological principles. The examination will focus on four areas related to the major research interest of the student. The purpose of this examination is for the student to demonstrate competence not only in the major research field but also in related areas of ecology.

The Joint Qualifying Committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination, the student must make application to the Graduate Division at UCD for advancement to candidacy. Upon payment of the candidacy fee to UCD, and after approval by the Graduate Deans on both campuses, the student will be notified of his advancement to candidacy by the UCD Graduate Division.

Joint Dissertation Committee

After a student is admitted to candidacy, a Joint Dissertation Committee consisting of at least three faculty members is nominated by the Graduate Advisers and appointed jointly by the Graduate Deans at SDSU and UCD. The student's dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member from UCD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in Ecology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both cooperating institutions.

Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students, so that full time can be devoted to research training and study. During 1989-90, the support package included tuition support, a stipend for the year, and funds for research supplies. All

students are required to obtain teaching experience, which normally means that a student will perform limited duties as a graduate teaching assistant.

Courses Acceptable on Master's and Doctoral Degree Programs in Biology

UPPER DIVISION COURSES

506. Special Topics in Entomology (3-4)

Two lectures and three hours of laboratory.

Prerequisites: Biology 356 or 462.

Treatment of some aspect of entomology, such as biological control, microbial control or forest entomology, not covered in regularly scheduled courses. See Class Schedule for specific content. Maximum credit nine units. Maximum credit six units applicable to a master's degree.

Format of course to vary according to the nature of the selected topics.

A. Lecture course.

B. Lecture and laboratory course. See Class Schedule for lecture/lab format.

513. Marine Microbiology (2)

Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.

Microbiological population of estuary and ocean waters; interrelationships with other organisms and the physical and chemical environment.

513L. Marine Microbiology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 513.

514. Phycology (4)

Three lectures and three hours of laboratory.

Prerequisite: Biology 200B.

Morphology and phylogenetic relationships of the algae.

515. Marine Invertebrate Zoology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

Structure and function, ecology, behavior, physiology and phyletic relationships of marine invertebrate animals.

517. Biological Oceanography (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 354 or 515.

Ecological concepts as applied to pelagic and benthic marine organisms and their environment. Field and laboratory experience in oceanographic techniques, particularly the coastal environment.

518. Fisheries Biology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354.

Fisheries of commercial importance. The dynamics of exploited populations.

519. Aquaculture (3)

Prerequisite: Biology 200B.

Principles and practices of the farming of aquatic organisms.

520. Ichthyology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

Identification, systematics, evolution, structure, physiology, behavior and ecology of fishes.

521. Advanced General Microbiology (2)

Prerequisite: Biology 350 or an introductory course in microbiology and consent of instructor.

Taxonomy, comparative physiology and ecology of representative microorganisms found in various natural environments.

521L. Advanced General Microbiology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 521.

Methods and procedures for the selective isolation and characterization of important groups of soil and water bacteria.

522. Evolution of Vertebrate Structure (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

Structural changes that have occurred in organ systems of vertebrates during the course of evolution.

523. Herpetology (4)

Three lectures and three hours of laboratory.

Prerequisites: Biology 200B and consent of instructor.

The origin, evolution, distribution and systematics of amphibians and reptiles of the world.

524. Ornithology (4)

Two lectures, six hours of laboratory or field excursions, and a field project.

Prerequisites: Biology 200B and consent of instructor.

The study and identification of birds, especially those of the Pacific coast and the San Diego region.

525. Mammalogy (4)

Two lectures and six hours of laboratory.

Prerequisites: Biology 200B and consent of instructor.

The evolution, systematics, distribution and ecology of mammals of the world.

527. Animal Behavior (4)

Two lectures and six hours of laboratory.

Prerequisites: Biology 215; Biology 200B or Psychology 211 and 260 for psychology majors.

Biological bases of animal behavior with emphasis on the ethological approach, including the evolution and adaptive significance of behavior.

528. Mycology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

The structure, food relations, and classification of fungi.

530. Plant Systematics (4)

Two lectures and six hours of laboratory, field trips.

Prerequisite: Biology 200B.

Plant description, identification, classification and nomenclature with emphasis on evolutionary patterns, interdisciplinary data acquisition, and phylogenetic analysis.

532. Genetics and Evolution (3)

Prerequisites: Biology 352 and 354.

Contributions of genetics to theory of evolution. Processes of microevolution and speciation. Topics include cytogenetics and population, quantitative, molecular and behavior genetics.

533. Plant Structure and Function (3)

Two lectures and three hours of laboratory.

Prerequisites: Biology 200B.

Relationships between plant structure and function. Morphology and anatomy of vascular plants considering specific function of plant organs. Approaches to solve plant morphological problems. Techniques of plant anatomy.

534. Plant-Soil Ecology (3)

Prerequisite: Biology 200B. Recommended: Geography 505.

Plant-soil relationships from an ecological perspective. Biotic interactions controlling soil fertility and plant growth.

536. Plant-Microbe Interactions: From Molecules to Ecosystems (3)

Prerequisites: Biology 352, 354; Chemistry 361A.

Current theories of plant-microbe interactions including recognition, specificity, and regulation of ecosystem structure and function. Emphasis on modern molecular and population theories.

539. Restoration Ecology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354.

Ecological concepts pertaining to the restoration of disturbed ecosystems, including plant establishment, stability of man-made ecosystems, below-ground biota, mineral cycling, succession, and other organisms and processes on disturbed lands.

540. Conservation Ecology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354.

Human impacts on ecosystems, the resultant endangerment and extinction of plant and animal species, and strategies for the protection and recovery of threatened forms.

542. Ecology of Genetically Engineered Organisms (3)

Two lectures and one hour of colloquium.

Prerequisites: Biology 200A-200B. Recommended: Biology 350 and 354.

Engineered organisms in agriculture and pollution abatement, basic procedures used to develop engineered organisms, and ecological and sociological implications of their use.

543. Ecological Methods (1-3)

Three hours of laboratory per unit.

Prerequisites: Biology 215 and 354 or 454.

Modular course in vegetation sampling, ecophysiological methods, plankton sampling, benthic community/population analysis, and ecological data analysis. See Class Schedule for specific content. Maximum credit three units.

544. Ecology of Renewable Resources (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354 or 454.

Ecological principles in exploitation and management of forest, range, watershed, and recreation lands for sustained human benefit.

545. Limnology (4)

Three lectures and three hours of laboratory.

Prerequisite: Biology 354.

Biological, chemical, and physical considerations of inland waters.

547. Regional Field Studies in Biology (1-3)

One- to three-week periods during vacations and summer sessions; may be combined with class meetings during academic year.

Prerequisites: At least twelve units in the biological sciences, including Biology 200B, and consent of instructor.

Extended field studies of the flora, fauna, and biotic communities of major natural regions of western North America. May be repeated with new content. Maximum credit six units.

548. Systems Ecology (4)

Three lectures and three hours of laboratory.

Prerequisites: Biology 354 and 354L, Mathematics 122 or 150, and consent of instructor.

Theory and techniques of systems analysis and mathematical modeling as applied to ecological problems.

549. Microbial Genetics and Physiology (2)

Prerequisites: Biology 350, 352; Chemistry 361A.

Physiology of microbial growth, bacterial structure and function, genetics of bacteriophages and bacteria.

549L. Microbial Genetics and Physiology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 549.

Experimental techniques in microbial genetics and physiology.

550. Prokaryotic and Eukaryotic Molecular Biology (4) I, II

Prerequisites: Biology 352 and 356; Chemistry 361A and 361B.

Gene structure, organization and regulation in prokaryotes and eukaryotes. Mechanisms of RNA and protein synthesis. Dynamic aspects of the genome.

551. Recombinant DNA (3) I, II

Prerequisites: Chemistry 361A; Biology 350, 352, 356, 550.

Theory and practice of recombinant DNA techniques.

551L. Recombinant DNA Laboratory (2) I, II

Six hours of laboratory.

Prerequisites: Biology 350 and 550.

A laboratory course in recombinant DNA techniques.

552. General Virology (2)

Prerequisite: Biology 350. Recommended: Biology 585 and 589.

Viruses, their structure, function, culture, and methods of study.

552L. General Virology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 552.

The culture, isolation, and characterization of viruses.

553. Molecular Approaches in the Medical Laboratory (3) I

One lecture and six hours of laboratory.

Prerequisites: Biology 350 and 356; Chemistry 361A, 361B.

Application of recombinant DNA and molecular cell biology techniques in modern medical laboratory: theory and practice.

561. Radiation Biology (3)

Prerequisites: Biology 100 or 200B; Physics 180B and 182B. Recommended: Biology 356.

Principles underlying radiological reactions of ionizing radiations. Effects of ionizing radiations at the biochemical, cell, organ, and organism levels.

561L. Radiation Biology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 561.

The laboratory determination of the effects of ionizing radiation on biological systems.

563. Plant Physiology (3)

Prerequisites: Biology 200B; Chemistry 230 or 231.

Activities of plants, including photosynthesis, ion transport, translocation, water relations, growth and development.

564. Topics in Cellular Biology (3)

Prerequisite: Biology 356 or Chemistry 361A-361B or Chemistry 560A-560B.

Topics selected from chromatin structure function and regulation; cell cycle analysis and regulation; cellular membrane formation, structure and function. Other topics irregularly scheduled. Maximum credit six units.

567. Molecular Endocrinology (3)

Prerequisite: Biology 356.

Molecular mechanisms of endocrine hormone biosynthesis, secretion, and actions.

569. Molecular Pharmacology (3)

Prerequisite: Biology 356. Recommended: Biology 567.

Molecular mechanisms of pharmaceutical agents. Emphasis on drugs that interact with nervous and endocrine systems.

576. Developmental Biology (3)

Prerequisite: Biology 352.

Analysis of development with emphasis on embryonic differentiation.

577. Embryology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

Studies in comparative gametogenesis, morphogenesis, and reproductive physiology.

578. Immunohematology (2) II

Prerequisite: Biology 350. Recommended: Biology 585.

Theory of blood grouping and typing with emphasis on recent advances. Procedures for identification of immune disorders and tests to determine compatibility.

580. Advanced Human Anatomy (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 150 or 522.

Comprehensive dissection and study of human cadavers with major emphasis on the regional approach.

582. Hematology (4) I, II

Two lectures and six hours of laboratory.

Prerequisite: Biology 350.

The study of normal and pathological blood with chemical, physical and microscopic methods.

584. Immunochemistry (3)

Prerequisite: Chemistry 361A.

Structure and function of the immunoglobulins and the chemical and physical nature of the antigen-antibody reaction.

585. Immunology (2) I, II

Prerequisites: Chemistry 361A and one upper division biological science course.

Immunology of antigens and antibodies; their interactions *in vitro* and *in vivo*. Cellular immune mechanisms. Immunopathologies.

585L. Immunology Laboratory (2) I, II

Six hours of laboratory.

Prerequisites: Biology 350 and credit or concurrent registration in Biology 585.

Cellular immunological techniques.

586. Medical Entomology (4)

Three lectures and three hours of laboratory. See Class Schedule for lecture/lab format.

Prerequisite: Biology 200B.

The role of insects and other arthropods in the transmission and causation of human diseases and the important diseases of domesticated animals.

587. Medical Mycology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 350.

Mycotic agents of disease in human and other animals. Consideration of the biology of fungi; concepts of host-parasite relationships, including factors affecting virulence and immunity. Experience in systematic identification.

588. Parasitology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 200B.

Study of animal parasites with special reference to those of humans. Laboratory including identification of important human parasites, and collection and preservation of local forms.

589. Pathogenic Bacteriology (4) I, II

Two lectures and six hours of laboratory.

Prerequisites: Biology 350 with a minimum grade of C; Chemistry 250 or 251. Recommended: Chemistry 361A.

Bacterial and rickettsial agents of disease in man and other animals. Consideration of host-parasite relationships, the biology of the inciting agents and mechanisms of host resistance. Laboratory experience in isolation and identification of bacterial pathogens.

590. Physiology of Human Systems (4)

Three lectures and one hour of discussion.

Prerequisites: Physics 180B and 182B; Biology 200B. Recommended: Chemistry 361A and 361B or Biology 356.

Human physiology presented at cellular and organ system levels: membrane transport, nerve excitation, muscle contraction, cardiovascular physiology, kidney function, hormone function, reproduction and digestion. For students majoring in a natural science or engineering.

591. Advanced Immunology (3) I

Prerequisites: Biology 356 and 585; Chemistry 361B.

Cellular and molecular aspects of the immune response. Genetics of immunoglobulins, major histocompatibility complex, lymphocyte activation and its manifestations on the immune response, and contemporary immunological research techniques.

593. Introduction to Scanning Electron Microscopy (2)

One lecture and three hours of laboratory.

Prerequisite: Biology 200B.

Theory and use of a scanning electron microscope for biological research. Laboratory is project oriented.

594. Radioisotope Techniques in Biology (4)

Two lectures and six hours of laboratory.

Prerequisites: Physics 180B and 182B; Biology 100 or 200B. Recommended: Biology 356 and Chemistry 250 or 251.

The principles and application of radioisotopes in biology. Radio-nuclide measurement, safe handling, tracer and radioautography techniques.

595. Computers in Biomedical Research (3)

Prerequisite: Biology 356 or 590. Recommended: Computer Science 107.

Application of micro- and minicomputers to tasks encountered by biomedical scientists in research laboratory (data acquisition and reduction, experiment control) and by physicians in medical care delivery (noninvasive imaging, clinical laboratory automation, patient file processing).

596. Special Topics in Biology (1-3)

Prerequisite: Consent of instructor.

Advanced selected topics in modern biology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 with three units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

597A. Univariate Statistical Methods in Biology (3)

Two lectures and three hours of laboratory.

Prerequisites: Biology 215 and 350 or 352 or 354 or 356.

Application of univariate statistical techniques to biological sciences. (Formerly numbered Biology 597.)

597B. Multivariate Statistical Methods in Biology (3)

(Same course as Mathematics 555.)

Two lectures and three hours of laboratory.

Prerequisites: Biology 215 and 350 or 352 or 354 or 356.

Application of multivariate statistical methods in biological sciences.

598. Cardiovascular Physiology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 356. Recommended: Biology 590.

Physiology of human heart and circulatory system in health and disease; processes are considered at molecular, cellular, and systemic levels. Topics include cardiac cell ultrastructure, cell energetics, vascular and cardiac dynamics, electrophysiology, pathology, diagnosis and treatment of disease.

GRADUATE COURSES**600. Seminar (2-3)**

Prerequisite: Consent of instructor.

An intensive study in advanced biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

604. Seminar in Aquatic Ecology (2)

Prerequisite: Biology 354.

Ecological concepts as applied to the fresh water and marine environment. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

644. Seminar in Genetics (2)

Prerequisite: Biology 352.

See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

647. Ecological Field Research in San Diego County (2) Cr/NC
Six hours of fieldwork.
Prerequisite: Biology 354.
Ecology of San Diego region and research questions appropriate to region. May be taken for credit only during the first or second semester as a graduate student.

648. Seminar in Immunology (2-3)
Prerequisite: Biology 585 or 591.
May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

652. Seminar in Marine Zoology (2-3)
Prerequisites: Biology 200B and consent of instructor.
Recent developments in marine zoology. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

660. Seminar in Microbial Physiology (2)
Prerequisite: Biology 549.
May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

684. Seminar in Systematic Botany (2)
Prerequisite: Biology 530.
Current problems in the systematics of vascular plants. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

688. Seminar in Terrestrial Ecology (2)
Prerequisite: Biology 354.
Ecological concepts as applied to the terrestrial environment. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

694. Seminar in Virology (2)
Prerequisite: Biology 552.
May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

696. Advanced Topics in Biology (1-3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

710. Advanced Topics in Ecology (2-4)
Prerequisites: Biology 354 and consent of instructor.
Selected topics in ecology. May be repeated with new content and consent of the graduate adviser in ecology. Maximum credit six units applicable to a master's degree.

725. Aquatic Ecology (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 354 and consent of instructor. Application for collecting permit must be made at least six weeks before class begins at the Center for Marine Studies (CG-403).
Ecological concepts as applied to benthic and pelagic populations and communities in fresh water and marine environments.

730. Behavioral Ecology (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 354, 354L and consent of instructor. Recommended: Biology 527.
Behavioral mechanisms relating animals to their physical and biotic environment.

735. Biogeography (3)
Prerequisite: Biology 354 or 532.
Concepts and principles of the distributional history of plant and animal groups, and the origins and dispersal of modern faunas and floras.

750. Molecular Biophysics (3)
Prerequisites: Biology 356; Chemistry 410A or 561.
Description and analysis of biological processes and systems in terms of properties of molecules and of basic principles.

755. Physiological Ecology (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 354 and consent of instructor.
The comparative physiological characteristics of natural plant and animal populations in relation to their habitats and environments.

765. Population and Community Ecology (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 354.
Formulation, analysis and experimental testing of the theories of the structure and dynamics of ecological systems at the population and community level.

790. Bibliography (1)
Exercises in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

792. Investigation and Report (3)
Analysis and research techniques in biology.

795. Laboratory Techniques (2) Cr/NC
Six hours of laboratory.
Prerequisite: Consent of instructor.
Current laboratory techniques and procedures in various biology disciplines. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Research in one of the fields of biology. Maximum credit six units of 797 and 798 applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units of 797 and 798 applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

897. Doctoral Research (3-6) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-6) Cr/NC/SP
Prerequisite: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

Molecular Biology

Faculty

Mitchel T. Abbott, Ph.D., Professor of Chemistry
Carol A. Barnett, Ph.D., Professor of Biology
Sanford I. Bernstein, Ph.D., Professor of Biology (MBI Associate Director)
A. Stephen Dahms, Ph.D., Professor of Chemistry (MBI Director)
Terrence G. Frey, Ph.D., Professor of Biology
Christopher C. Glembotski, Ph.D., Professor of Biology
Gerald G. Johnson, Ph.D., Professor of Biology
Kenneth D. Johnson, Ph.D., Professor of Biology
Skaidrite Krisans, Ph.D., Professor of Biology
Richard J. Laub, Ph.D., Professor of Chemistry
Robert P. Metzger, Ph.D., Professor of Natural Science
Paul J. Paolini Jr., Ph.D., Professor of Biology
Jacques Perrault, Ph.D., Professor of Biology
David L. Rayle, Ph.D., Professor of Biology
Edward P. Riley, Ph.D., Professor of Psychology
Roger A. Sabbadini, Ph.D., Professor of Biology
Charles J. Stewart, Ph.D., Professor of Chemistry
William E. Stumph, Ph.D., Professor of Chemistry (Graduate Adviser)
Richard L. Weiss, Ph.D., Professor of Biology
Judith W. Zyskind, Ph.D., Professor of Biology
Michael Breindl, Ph.D., Associate Professor of Biology (Graduate Adviser)
Constantine Tsoukas, Ph.D., Associate Professor of Biology
Steven D. Clouse, Ph.D., Assistant Professor of Biology (Graduate Adviser)
Greg L. Harris, Ph.D., Assistant Professor of Biology

Adjunct Faculty

Robert A. Bohrer, J.D., LL.M., Professor of Law, California Western School of Law

General Information

The Molecular Biology Institute (MBI) administers the Master of Arts and Master of Science degrees in Biology with an emphasis in Molecular Biology. The MBI is currently composed of members from the Departments of Biology, Chemistry, and Natural Science and is designed to serve these departments in the coordination, support and enhancement of research and training in the molecular biological sciences.

Graduate teaching assistantships in biology and chemistry are available to qualified students. Application blanks and additional information may be obtained from the Coordinator of the Biology Graduate Program.

Admission to Graduate Study

Candidates for admission may come from a variety of disciplines in the biological and physical sciences. Ultimately, the research program of individuals wishing to pursue master's degree work in molecular biology will be carried out under the supervision of MBI members.

In addition to the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, a student must satisfy the following admission requirements before being recommended for admission with classified standing.

1. Possess a bachelor's degree with a major in a biological or physical science equivalent to that offered at San Diego State University.
2. Have a grade point average of 2.75 or better in work taken for the baccalaureate degree.

3. Have a score of 1100 or better on the GRE General Test (quantitative and verbal).
4. Have a score in the 60th percentile or better on the GRE Subject (Advanced) Test in Biochemistry, Cell and Molecular Biology.
5. Supply three letters of reference that describe the applicants potential for graduate work and research capabilities.
6. Completion of one course in physical chemistry.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the MBI faculty. Students so admitted will be advised as to the nature of their deficiency and the time allowed to achieve full classified graduate standing.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the master of arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research proposal will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts or Master of Science Degree

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and the graduate courses selected, with the approval of the MBI graduate adviser, from the courses listed below. At least 15 units of the courses selected must be in 600- and 700-numbered courses including 799A, Thesis. The student must complete at least three units of Molecular Biology 600, three units of Molecular Biology 601 and at least two units of Molecular Biology 610. With the approval of the graduate adviser of molecular biology, a student may substitute for Molecular Biology 610 another two unit 600 or 700 numbered course. A final oral examination on the thesis will be administered by the thesis committee; in addition, a formal public presentation of the thesis will be required.

Emphasis in Molecular Biology

Courses Acceptable for the Emphasis in Molecular Biology

UPPER DIVISION COURSES

Biology

549. Microbial Genetics and Physiology (2)
550. Prokaryotic and Eukaryotic Molecular Biology (4)
551. Recombinant DNA (3)
- 551L. Recombinant DNA Laboratory (2)
552. General Virology (2)
- 552L. General Virology Laboratory (2)
553. Molecular Approaches in the Medical Laboratory (3)
561. Radiation Biology (3)
563. Plant Physiology (3)
564. Topics in Cellular Biology (3)
567. Molecular Endocrinology (3)
569. Molecular Pharmacology (3)
576. Developmental Biology (3)
577. Embryology (4)

584. Immunochemistry (3)
 585. Immunology (2)
 585L. Immunology Laboratory (2)
 590. Physiology of Human Systems (4)
 591. Advanced Immunology (3)
 593. Introduction to Scanning Electron Microscopy (2)
 594. Radioisotope Techniques in Biology (4)
 595. Computers in Biomedical Research (3)
 596. Special Topics in Biology (1-3)
 597A. Univariate Statistical Methods in Biology (3)
 597B. Multivariate Statistical Methods in Biology (3)
 598. Cardiovascular Physiology (3)

Chemistry

510. Advanced Physical Chemistry (3)
 550. Instrumental Methods of Chemical Analysis (2)
 560A-560B. General Biochemistry (3-3)
 567. Biochemistry Laboratory (2)
 596. Advanced Special Topics in Chemistry (1-3)

GRADUATE COURSES

Biology

600. Seminar (2-3)
 644. Seminar in Genetics (2)
 648. Seminar in Immunology (2-3)
 660. Seminar in Microbial Physiology (2)
 694. Seminar in Virology (2)
 750. Molecular Biophysics (3)
 790. Bibliography (1)
 792. Investigation and Report (3)
 795. Laboratory Techniques (2) Cr/NC
 797. Research (1-3) Cr/NC/SP
 798. Special Study (1-3) Cr/NC/SP

Chemistry

711. Chemical Thermodynamics (3)
 712. Chemical Kinetics (3)
 751. Separations Science (3)
 760. Advanced Topics in Biochemistry (1-3)
 762. Enzymology (2)
 763. Cellular Regulation (2)
 764. Membrane Biochemistry (3)
 790. Seminar (1-3)
 791. Research Seminar (1)
 792. Bibliography (1)
 797. Research (1-3) Cr/NC/SP
 798. Special Study (1-3) Cr/NC/SP

GRADUATE COURSES IN MOLECULAR BIOLOGY

600. Seminar in Molecular Biology (1-3)

Prerequisite: Consent of instructor.

Evaluation of current literature in molecular biology. May be repeated with new content. Maximum credit six units applicable to a master's degree.

601. Colloquium in Molecular Biology Research (1) Cr/NC/SP

Recent research advances in selected areas of modern molecular biology presented by faculty of the molecular biology Institute and established outside investigators. May be repeated with new content. Open only to students admitted to the Molecular Biology program or by permission of the graduate adviser for molecular biology. Maximum credit six units, three of which are applicable to a master's degree.

610. Advanced Topics in Molecular Biology (1-4)

Prerequisite: Graduate standing in a life or physical science.

Intensive study in specific areas of molecular biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Molecular Biology 696.)

Business Administration

A Member of the American Assembly of
Collegiate Schools of Business

OFFICE: Business Administration/Mathematics 441

TELEPHONE: (619) 594-6479

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships in business administration are available to a limited number of qualified students. Application blanks and additional information may be secured from the Dean of the College of Business Administration.

General Information

The College of Business Administration offers graduate study leading to the Master of Business Administration degree, Master of Science degree in Business Administration and the Master of Science degree in Accountancy. The major goals in the master's degree curriculum are to educate the students for general management positions, for management of the functional areas of business, and for executive responsibilities in organizations having close relationships with business activities. The College of Business Administration is a member of the American Assembly of Collegiate Schools of Business.

The Master of Business Administration degree is designed to provide a broad education in business for the student with either a business or a nonbusiness undergraduate degree. The Master of Science degree in Business Administration is designed to provide additional education and specialization in business subjects for the student who has an undergraduate degree in one of the business subject fields.

The objective of the Master of Science degree in Accountancy is to prepare students for careers as professional accountants in financial institutions, government, industry, nonprofit organizations, and public practice. The basic conceptual knowledge of accounting and business can be obtained through an undergraduate degree or by otherwise meeting the prerequisites for the M.S. degree in Accountancy. The program offers the opportunity for greater depth of education by allowing the students to concentrate their education in courses of specialized study in accounting. The master's degree programs have been accredited by the American Assembly of Collegiate Schools of Business.

Entrance requirements for any master's degree curricula are the same. Any degree is available to any student regardless of previous education, provided the requirements of the degree are met.

All students considering graduate work in business are advised to seek further details from the Director of Graduate Programs in the College of Business Administration prior to applying for admission.

Close contacts with large and small firms, both local and national, enhance the business student's education. The generous cooperation of local business and government organizations provides opportunities for research and observation for graduate students. The continued professionalization of the business executives' responsibilities has created many opportunities for the student with an advanced degree in business administration.

Bureau of Business and Economic Research

The Bureau of Business and Economic Research is an organized research activity serving the needs of the College of Business Administration and the Department of Economics. Operationally, it is a part of the College of Business Administration, with a director and a policy committee. The principal objectives of the Bureau are to (1) conduct research in the areas of economics and business, with special reference to local and regional problems; (2) facilitate research in these areas by the faculty and students; (3) seek cooperative arrangements with outside individuals and organizations for conducting specific research projects; (4) compile local and regional data; (5) publish the results of Bureau research investigations

and aid the faculty in publication of research. Graduate students are encouraged to make use of Bureau facilities.

Admission to the Graduate Program in the College of Business Administration

A student seeking admission to any of the master's degree curricula offered in the College of Business Administration should make application in the manner set forth in Part Two of this bulletin.

Admission will be based upon the applicant's ranking based on the formula: 200 times the overall GPA as an undergraduate plus the Graduate Management Admission Test (GMAT) score, the quality and field of undergraduate study, and other factors. The student must meet minimum University grade point requirements.

Transcripts and test scores must be on file at San Diego State University sufficiently in advance of the expected date of registration for a decision to be made. For fall admission the GMAT must be taken prior to April 1 and for spring admission, prior to August 1. Details concerning the GMAT may be obtained from the Test Office, San Diego State University, or by writing to the Educational Testing Service, CN 6101, Princeton NJ 08541.

Master of Business Administration Degree

Admission to the Degree Curriculum

Regulations governing admission to the University and to the College of Business Administration are outlined above and in Part Two of this bulletin. For admission to the curriculum for the Master of Business Administration degree a three unit course in calculus is a prerequisite.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Business Administration Degree

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an approved program of studies containing between 30 and 60 units of 600- and 700-numbered courses. No 500-numbered courses may be included. The exact number of units for each student will depend on the extent of the previous coursework in business administration. Students with no previous coursework in business administration or related fields will normally be expected to complete 60 units. Students with an undergraduate degree in business administration from a professionally accredited school will normally be expected to complete 30 units. Up to nine units of coursework may be accepted for transfer. Transfer courses must be strictly graduate courses taken in a professionally accredited graduate program.

At least 21 of the total units required must be completed in residence at San Diego State University, and at least nine units of program courses must be completed after advancement to candidacy.

The requirements for the degree are as follows:

1. Complete each of the following core of twelve courses for which an equivalent has not been satisfactorily completed. Satisfactory completion means that the student's grade in each equivalent

course must be "B" (3.0) or better and that the course must have been completed within seven years prior to the first course completed on the master's degree program.

- Accountancy 600 Financial Accounting (3)
- Accountancy 610 Managerial Accounting (3)
- Economics 603 Economic Analysis (3)
- Finance 604 Law for Business Executives (3)
- Finance 615 Financial Principles and Policies (3)
- Information and Decision Systems 602 Statistical Analysis for Business (3)
- Information and Decision Systems 609 Management Information Systems (3)
- Information and Decision Systems 612 Production and Operations Management (3)
- Management 601 Management of Organizations (3)
- Management 611 Organizational Behavior and Human Resources Management (3)
- Management 626 Seminar in Policy Formulation (3)
- Marketing 605 Marketing (3)

2. Complete 30 units in the following two categories of specialization and electives. For students that would be required to complete more than 60 units of 600- and 700-numbered courses at San Diego State University for the degree because of this requirement, up to six units of coursework will be waived.

a. Specialization: No more than 15 units in one of the specializations listed below, three units of which must include Business Administration 799A, Thesis (Plan A), or Directed Readings in Business Administration, in the appropriate department. Students choosing the Directed Readings option must then pass a comprehensive examination in their last semester of coursework in lieu of the thesis (Plan B).

Specializations

Specializations	Major Code
Accountancy	(05021)
Finance	(05041)
Financial Services	(05043)
Human Resource Management	(05151)
Information Systems	(07021)
International Business	(05131)
Management	(05061)
Management Science	(05072)
Marketing	(05091)
Production and Operations Management	(05064)
Real Estate	(05111)

b. Electives: At least 15 units in coursework outside the specialization and the core, no more than nine units in any one field. Additional electives may be needed to total the minimum 30 units required for the degree.

3. Not more than a total of six units in courses 797, Research, and 798, Special Study, combined, will be accepted for credit toward the degree.

4. For regulations concerning grade point averages, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled "Basic Requirements for the Master's Degree," in Part Two of this bulletin.

5. Candidates for the Master of Business Administration degree with specialization in Information Systems must complete Information and Decision Systems 280, COBOL Programming, with a grade of "C" (2.0) or better before advancement to candidacy. Units earned in Information and Decision Systems 280 or equivalent may not be counted toward the master's degree under any circumstances.

Master of Science Degree in Business Administration

Admission to the Degree Curriculum

In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed the following courses or their equivalents before enrolling in 600- and 700-numbered courses listed on the official master's degree program:

- Accountancy 201 Financial Accounting Fundamentals (3)
- Accountancy 202 Managerial Accounting Fundamentals (3)
- Economics 101 Principles of Economics (3)
- Economics 102 Principles of Economics (3)
- Economics 201 Statistical Methods (3), or
- Mathematics 119 Elementary Statistics for Business (3)
- Finance 140 Business Law (3)
- Finance 323 Fundamentals of Finance (3)
- Information and Decision Systems 180 Principles of Information Systems (3)
- Information and Decision Systems 301 Statistical Analysis for Business (3), or
- Information and Decision Systems 302 Introduction to Production and Operations Management (3)
- Management 350 Management and Organization (3)
- Management 405 Business Strategy and Integration (3)
- Marketing 370 Marketing (3)
- Mathematics 120 Calculus for Business Analysis (3)

Satisfactory completion means that the student's grade in each course must be "B" (3.0) or better and that the course must have been completed within ten years prior to the first course completed on his master's degree program. In addition, the student's adviser may request satisfactory completion of additional prerequisite courses in the student's proposed field of specialization.

Notice of admission to a curriculum with classified graduate standing will be sent to the student upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division and Research.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

In addition to meeting the requirements for classified graduate standing as described above and the general requirements for master's degrees as described in Part Two of this bulletin, the student must complete a graduate program of 30 approved units including at least 21 units in 600- and 700-numbered courses. Business Administration 799A, Thesis, required. Finance 616, Managerial Economics, is required unless the student has completed sufficient advanced economics courses as a part of his/her undergraduate preparation. At least 24 units must be in business administration and economics. Not more than a total of six units in courses 797, Research, and 798, Special Study, may be accepted for credit toward the degree.

Candidates for the Master of Science degree with concentration in

Information Systems must complete Information and Decision Systems 280, COBOL Programming, with a grade of "C" (2.0) or better before advancement to candidacy. Units earned in Information and Decision Systems 280 or equivalent may not be counted toward the master's degree under any circumstances.

Concentrations	Major Code
Finance	(05041)
Financial and Tax Planning*	(05043)
Human Resource Management	(05151)
Information Systems	(07021)
International Business	(05131)
Management	(05061)
Management Science	(05072)
Marketing	(05091)
Production and Operations Management	(05064)
Real Estate	(05111)

For regulations concerning grade point averages, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled "Basic Requirements for the Master's Degree," in Part Two of this bulletin.

* Under Plan A, Business Administration 799A, Thesis is required. Under the optional Plan B, a comprehensive examination and three units of additional coursework may be substituted for the thesis requirement.

Courses Acceptable on Master's Degree Programs in Business Administration

GRADUATE COURSES

Classified graduate standing is a prerequisite for all 600- and 700-numbered courses.

GENERAL

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Master of Science Degree in Accountancy

General Information

The objective of the Master of Science degree program in Accountancy is to provide students with greater breadth and depth in accounting education than is possible in the baccalaureate degree. The program allows students to focus their accounting studies in an area of specialization within the field of accounting and to gain a greater breadth in their knowledge of business and accounting. In order to provide the opportunity for specializing one's accounting knowledge, the M.S. program provides three areas of specialization: corporate accounting, professional accounting, and taxation. Each area consists of a series of selected courses which students take upon the recommendation of their adviser. Specialization within the M.S. degree is intended to give students the necessary academic background and research experience to advance their careers in public accounting, private accounting or government.

Admission to the Degree Curriculum

In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed the following courses or their equivalents

OFFICE: Business Administration/Mathematics 304
 TELEPHONE: (619) 594-5310

before enrolling in 600- and 700-numbered courses listed on the official master's degree program:

Accountancy 201	Financial Accounting Fundamentals (3)
Accountancy 202	Managerial Accounting Fundamentals (3)
Accountancy 310	Intermediate Accounting I (4)
Accountancy 311	Intermediate Accounting II (4)
Accountancy 312	Managerial Cost Accounting Systems (4)
Accountancy 320	Accounting Information Systems (4)
Accountancy 410	Federal Income Tax I (4)
Economics 101	Principles of Economics (3)
Economics 102	Principles of Economics (3)
Economics 201	Statistical Methods (3), or
Mathematics 119	Elementary Statistics for Business (3)
Finance 140	Business Law (3)
Finance 323	Fundamentals of Finance (3)
Information and Decision Systems 180	Principles of Information Systems (3)
Information and Decision Systems 301	Statistical Analysis for Business (3)
Information and Decision Systems 302	Introduction to Production and Operations Management (3)
Management 350	Management and Organization (3)
Management 405	Business Strategy and Integration (3)
Marketing 370	Marketing (3)
Mathematics 120	Calculus for Business Analysis (3)

Satisfactory completion means that the student's grade in each course must be "B" (3.0) or better and that the course must have been completed within seven years prior to the first course completed on the master's degree program. In addition, the student's adviser may request satisfactory completion of additional prerequisite courses.

Notice of admission to a curriculum with classified graduate standing will be sent to the student only upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division and Research.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Accountancy

(Major Code: 05021)

In addition to meeting the requirements for classified graduate standing as described above and the general requirements for masters' degrees as described in Part Two of this bulletin, the student must complete a graduate program of 30 approved units including at least 21 units in 600- and 700-numbered courses, of which at least 15 units must be in accountancy courses at San Diego State University. The accountancy courses must include at least 12 units in accountancy courses numbered 635 and above. Under Plan A, Business Administration 799A, Thesis, is required. Under the optional Plan B, a comprehensive examination and three units of additional coursework may be substituted for the thesis requirement.

In the graduate and undergraduate program the student must complete at least 30 semester units beyond principles of accounting in the accounting discipline.

Accountancy 518, Macro Accounting Issues; Accountancy 534, Auditing; and Finance 616, Managerial Economics, are required unless the students have completed the equivalent course(s) as a part of their undergraduate preparation.

The program must include at least 24 units in business administration and economics. Not more than a total of six units in courses 797, Research, and 798, Special Study, may be accepted for credit toward the degree.

The following specializations are available for the Master of Science degree in Accountancy:

Corporate Accounting
 Professional Accounting
 Taxation

For regulations concerning grade point average, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled "Basic Requirements for the Master's Degree," in Part Two of this bulletin.

Courses Acceptable on Master's Degree Program in Accountancy

UPPER DIVISION COURSES

511. Federal Income Tax II (3) I, II

Prerequisite: Accountancy 410.

Taxation of corporations, partnerships, estates, and trusts. Gift and estate tax. (Formerly numbered Business Administration 411.)

512. Advanced Managerial Accounting (3) I, II

Prerequisite: Accountancy 312.

Use of accounting information systems for managerial decision making. Introduction to decision-making situations which use accounting information for full or partial resolution. Consideration of uncertainty, decision theory and specific decision contexts. (Formerly numbered Business Administration 412.)

514. Advanced Accounting Problems (4)

Prerequisite: Credit or concurrent registration in Accountancy 311.

Problems involved in partnerships, consignments, consolidations, receiverships, foreign exchange, fund accounting, and other specialized areas. (Formerly numbered Accountancy 314 and 632.)

515. Accounting for Not-For-Profit Organizations (3) I, II

Prerequisite: Accountancy 310.

Principles of fund accounting useful in state and local governmental units, hospitals, colleges, and universities. Comparisons with commercial accounting emphasized. Includes study of budgetary accounting, appropriations, encumbrances, internal checks and auditing procedures. (Formerly numbered Business Administration 415.)

518. Macro Accounting Issues (4)

Prerequisites: Accountancy 311, 312, 320, 410; concurrent registration in Accountancy 534.

Macro-accounting issues. Political environment under which financial statements are prepared. Economic consequences of accounting standards. Ethical and social issues in financial reporting. Objectives and economic consequences of tax policy. Regulation of auditors. Management control systems. (Formerly numbered Accountancy 418.)

534. Auditing (4)

Prerequisites: Accountancy 311, 320; Information and Decision Systems 301.

Internal control in the design of accounting systems; flow-charting techniques; duties, ethics and responsibilities of the auditor; operational auditing; procedures for verification of financial statements; auditor's reports. (Formerly numbered Accountancy 414.)

596. Contemporary Topics in Accounting (1-3) I, II

Prerequisites: Consent of instructor, upper division or graduate standing, accounting major.

Contemporary topics in modern accounting. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Financial Accounting (3)

Basic concepts and principles of financial accounting; accounting as a data processing system; measurement of business income; financial statements.

610. Managerial Accounting (3)

Prerequisite: Accountancy 600.

Accounting in relation to the decision-making process; various cost systems; relevancy of various cost concepts; direct costing, flexible budgets, distribution costing; break-even analysis; capital budgeting; and other techniques of management planning and control.

620. Financial Accounting Practice and Theory (4)

Prerequisite: Accountancy 600.

Theories, principles and concepts underlying financial statements. Income measurement and asset valuation; special problem areas in reporting of corporate assets, liabilities, and stockholders' equity. (Formerly numbered Accountancy 630.)

622. Managerial Accounting and Decision Making (4)

Prerequisite: Accountancy 600.

Preparation and use of accounting information to support and assist management in its major responsibilities internal to the firm: planning, controlling the firm's activities, and motivating employees. Not open to students with credit in Accountancy 312 or 610.

629. Audit Systems (4)

Prerequisites: Accountancy 610 or 622; and 620.

Design and internal control perspectives of accounting information systems. Systems analysis, decision support systems, and implementation are investigated. Duties, responsibilities, and ethics of the auditor; auditor's reports and procedures for verification of financial statements.

633. Tax for Managers (4)

Prerequisite: Accountancy 600.

Application of federal income tax laws on selected management decisions (e.g., buy/lease decisions, sell/trade decisions, current and deferred compensation planning). Recognition of tax hazards and tax savings.

635. Seminar in Taxation Topics (3)

Prerequisite: Credit or concurrent registration in Accountancy 640.

Theoretical treatment of selected topics in taxation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

636. Seminar in Corporate Tax (3)

Prerequisite: Credit or concurrent registration in Accountancy 640.

Corporate tax problems involving distributions, liquidations, reorganizations, redemptions, personal holding companies, accumulated earnings tax, and thin capitalization.

637. Seminar in Accounting Information Systems (3)

Prerequisites: Accountancy 610 or 622; and Information and Decision Systems 612.

Design of accounting systems. Current trends as discussed in the literature. Computerized procedures for internal and external reporting.

638. Seminar in Managerial Accounting (3)

Prerequisite: Accountancy 610 or 622.

Managerial cost accounting concepts and procedures, including budgetary planning, cost control, advisory functions, measurement of divisional profitability, product pricing, and investment decisions.

639. Seminar in Accounting Theory (3)

Prerequisite: Accountancy 514.

Historical development of accounting principles and theory; problems in valuation, income determination, and statement presentation.

640. Seminar in Tax Research and Planning (3)

Prerequisite: Credit or concurrent registration in Accountancy 511.

Tax research with emphasis on solving tax planning problems. Introduction to statutory, administrative, and judicial sources of tax law.

641. Seminar in International Accounting (3)

Prerequisite: Accountancy 600.

Theories, practices, and concepts which underlie development of standards of financial reporting for enterprises engaged in international trade and business.

642. Seminar in Auditing (3)

Prerequisite: Accountancy 534.

Selected conceptual issues in auditing.

644. Seminar in Federal Estate and Gift Tax (3)

Prerequisite: Credit or concurrent registration in Accountancy 640.

Estate and gift tax problems. Income taxation of trust and estates.

645. Seminar in Tax Practice (3)

Prerequisite: Credit or concurrent registration in Accountancy 640.

Tax practice procedures as they affect the practitioners' dealing with the IRS; statute of limitations, ethical problems, penalties, interest, tax fraud.

646. Seminar in Partnership Taxation (3) I, II

Prerequisite: Credit or concurrent registration in Accountancy 640.

Partnership tax problems involving partnership formation, operations, distributions and liquidations.

647. Seminar in Compilation and Review Services (3)

Prerequisite: Accountancy 534.

Applications cases on engagements to compile or review financial statements of nonpublic entities under accounting and review services standards.

675. Financial Statement Analysis (3)

Prerequisite: Accountancy 600.

Illustrative cases and problems to analyze methods for communicating information about financing and operating activities of corporate firms, and techniques for evaluating the information.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of accountancy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

790. Directed Readings in Accountancy (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for the M.S. program or the M.B.A. program under Plan B. (Formerly numbered Business Administration 790.)

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.

Research in the area of accountancy. Maximum credit six units applicable to a master's degree. (Formerly numbered Business Administration 797.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Faculty

Lawrence J. Gitman, Ph.D., Professor of Finance
William H. Hippaka, Jur.D., Professor of Finance
Robert C. Hutchins, D.B.A., Professor of Finance (Graduate Adviser)
William A. Nye, Ph.D., Professor of Finance
William W. Reints, Ph.D., Professor of Finance (Graduate Adviser)
Mehdi Salehizadeh, Ph.D., Professor of Finance
James L. Short, Ph.D., Professor of Finance (Graduate Adviser, Real Estate)
William E. Sterk, Ph.D., Professor of Finance, Chair of Department
Pieter A. Vandenberg, D.B.A., Professor of Finance
Thomas M.D. Warschauer, D.B.A., Professor of Finance (Graduate Adviser, Financial and Tax Planning), Associate Dean for Academic Affairs, College of Business Administration
Russell L. Block, J.D., Associate Professor of Finance
John C. Bost, J.D., Associate Professor of Finance
Antony C. Cherin, D.B.A., Associate Professor of Finance (Graduate Adviser, Financial Services)
Kamal M. Haddad, Ph.D., Associate Professor of Finance
Edward Omberg, Ph.D., Associate Professor of Finance
Kanwal S. Sachdeva, D.B.A., Associate Professor of Finance
Nikhil P. Varaiya, Ph.D., Associate Professor of Finance
Robert W. Wilbur, Ph.D., Associate Professor of Finance
David P. Ely, Ph.D., Assistant Professor of Finance (Graduate Adviser)
Robert C. Hanson, Ph.D., Assistant Professor of Finance
Linda C. Hittle, Ph.D., Assistant Professor of Finance
Arthur L. Houston Jr., Ph.D., Assistant Professor of Finance
Tong Suk Kim, Ph.D., Assistant Professor of Finance
Moon H. Song, Ph.D., Assistant Professor of Finance
Richard R. Weaver, D.B.A., Assistant Professor of Finance

Courses Acceptable on Master's Degree Programs in Business Administration**UPPER DIVISION COURSES**

(Not Acceptable toward the Master of Business Administration Degree)

521. Individual Insurance Management (3) I

Prerequisites: Undergraduate: Completion of lower division requirements for the major. Graduate: Completion of the prerequisite core.

Economic and social aspects of individual insurance, and nature of life and health insurance and annuities. Theory of probabilities, premiums, reserve and nonforfeiture values. Company and agency operations and management, including legal aspects and relationship to personal financial planning.

525. Employee Benefits and Retirement Planning (3) II

Prerequisite: Finance 323 with minimum grade of C.

Nature, construction, administration, and evaluation of employee benefit plans. Disability plans. Use of retirement plans. Social security and its integration with employee plans. Tax treatment of retirement plans.

Finance

In the College of Business Administration

589. Personal Financial Planning (3)

Prerequisites: Finance 327 and credit or concurrent registration in Accountancy 410.

Financial planning process. Relationships with clients and other professionals. Plan formulation and implementation. Cash flow and debt considerations. Integration of investments, insurance, estate, tax, and retirement planning. Practice management, ethics, and regulation. (Formerly numbered Finance 389.)

GRADUATE COURSES**604. Law for Business Executives (3)**

Law pertaining to business; ethical, social and governmental influences on domestic and foreign law.

615. Financial Principles and Policies (3)

Prerequisite: Accountancy 600.

Acquisition, maintenance and divestment of real assets; capital structure, cost of capital, acquisitions and disbursement of capital. Risk analysis; valuation; working capital management; international aspects of the decision process.

616. Managerial Economics (3)

Prerequisite: Economics 603.

Role of economic theory in management analysis and decision. Study of demand, cost, and supply theories from a business viewpoint.

650. Seminar in Business Finance (3)

Prerequisite: Finance 615.

Application of principles of finance to current problems in financial management, with emphasis on planning and development of tools for use in decision making. Consideration of case materials, study of the literature, and development of individual student reports.

651. Seminar in Investments (3)

Prerequisite: Finance 615.

Examination of firms from an investment point of view; historical and current developments affecting investment values; sources of information; techniques of analysis; measurement of risks, returns, and investment values.

652. Seminar in Security Analysis and Portfolio Management (3)

Prerequisite: An upper division or graduate course in investments.

Security valuation, alternative instruments, portfolio theory, active and passive management techniques, asset allocation, performance measurement, use of derivative instruments in portfolio management, debt portfolio management techniques, ethical standards.

653. Seminar in Quantitative Analysis for Financial Decisions (3)

Prerequisites: Finance 650, Information and Decision Systems 609 and 612.

Quantitative techniques and the computer as employed to optimize financial decisions.

654. Seminar in International Business Finance (3)

Prerequisite: Finance 615.

International finance applied to the business firm.

655. Seminar in Financial Markets (3)

Prerequisite: Finance 615.

Analysis of money and capital markets. Emphasis on factors of influence and sources and uses of data. Survey of literature in the field.

656. Seminar in Financial Institutions (3)

Prerequisite: Finance 615.

Change in financial institution management thought. Trends in asset management theory and liability management theory. Current events in financial institutions, changes likely to occur and proposed changes in laws and regulations.

657. Seminar in Financial Counseling (3)

Prerequisites: Advancement to candidacy and Finance 651.

Financial needs of the individual. The decision-making process and theory relative to those needs. Planning and implementation of programs that will aid in growth, accumulation and distribution of family assets.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of finance. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

705. Seminar in Estate Planning (3)

Prerequisite: Finance 615.

The scope and nature of estate planning. Identification and analysis of the environmental factors and those aspects of federal and state law affecting estate planning and taxation. Estate taxation and social policy.

780. Seminar in Real Estate and Urban Development (3)

Prerequisite: Finance 616 or Economics 603.

Real estate market functions and operations. Real estate finance and appraisal theories and approaches. Models of urban land use and urban development. Issues in real estate decision making.

783. Seminar in Real Estate Finance and Investment (3)

Prerequisite: Finance 780.

Theories and factors governing the financial functions of lenders, business and governmental agencies in real estate lending operations. Analysis of real estate investment by financial institutions, corporations, individuals and government.

784. Seminar in Real Property Valuation (3)

Prerequisite: Finance 780.

Economic principles of valuation. Data collection, analyses and correlation. The cost, market, and income approaches. New appraisal technology. Special purpose appraising.

785. Seminar in Urban Land Policy (3)

Prerequisite: Finance 780 or Geography 572.

Relationship between private and public role players in urban land allocation and utilization. Problems arising from private market land use decisions. Current and future policy alternatives such as land use controls, urban growth policies and housing programs.

790. Directed Readings in Finance (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for those students in the M.B.A. program under Plan B. (Formerly numbered Business Administration 790.)

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.

Research in the area of finance. Maximum credit six units applicable to a master's degree. (Formerly numbered Business Administration 797.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Information and Decision Systems

OFFICE: Business Administration/Mathematics 128

TELEPHONE: (619) 594-5316

In the College of Business Administration

Faculty

James R. Beatty, Ph.D., Professor of Information and Decision Systems
Milton M. Chen, Ph.D., Professor of Information and Decision Systems
(Graduate Adviser)

Marie E. Flatley, Ph.D., Professor of Information and Decision Systems
Oliver Galbraith III, Ph.D., Professor of Information and Decision Systems

Richard A. Hatch, Ph.D., Professor of Information and Decision Systems

James R. Lackritz, Ph.D., Professor of Information and Decision Systems, Chair of Department

John M. Penrose, Ph.D., Professor of Information and Decision Systems

William R. Sherrard, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)

Norman E. Sondak, D.Eng., Professor of Information and Decision Systems

Gretchen N. Vik, Ph.D., Professor of Information and Decision Systems

William R. Feeney, Ph.D., Associate Professor of Information and Decision Systems

Alexis Koster, Ph.D., Associate Professor of Information and Decision Systems (Graduate Adviser)

Ronald J. Norman, Ph.D., Associate Professor of Information and Decision Systems

Feraidoon Raafat, Ph.D., Associate Professor of Information and Decision Systems

Robert J. Schlesinger, Ph.D., Associate Professor of Information and Decision Systems

Carolena L. Smith, Ph.D., Associate Professor of Information and Decision Systems

Theophilus Addo, Ph.D., Assistant Professor of Information and Decision Systems

Gail F. Corbitt, Ph.D., Assistant Professor of Information and Decision Systems (Graduate Adviser)

Annette C. Easton, Ph.D., Assistant Professor of Information and Decision Systems

George K. Easton, Ph.D., Assistant Professor of Information and Decision Systems

Yeong-Ling Yang, M.S., Assistant Professor of Information and Decision Systems

Courses Acceptable on Master's Degree Programs in Business Administration

GRADUATE COURSES

(Information and Decision Systems courses previously listed under the rubric of Information Systems)

602. Statistical Analysis for Business (3)

Measure of central tendency and variation, sampling and various statistical tests such as analysis of variance, *F* test, *t* test and chi square. Simple and multiple correlation.

609. Management Information Systems (3)

Role of information in organizational management. Typical management information subsystems. Design and management of management information systems.

612. Production and Operations Management (3)

Prerequisite: Information and Decision Systems 602.

Scheduling operations to include master scheduling, material requirements planning, inventory management, capacity planning, production activity control, location analysis, automation computerized systems, layout planning, linear programming, queuing, simulation, quality control, project planning.

680. Information Systems Hardware and Software (3)

Prerequisite: Information and Decision Systems 609.

Computer architecture, programming languages, programming systems, and operating systems.

683. Program, Data, and File Structures (3)

Prerequisite: Information and Decision Systems 609.

Program structures and data structures commonly used in business processing. File organization and processing strategies. Improving storage and processing efficiencies.

684. Small Computer Systems for Business (3)

Prerequisite: Information and Decision Systems 609.

Features of small computer systems, microcomputers, minicomputers, peripheral devices for small systems. Programming languages, operating systems, and software packages for small systems.

686. Database Management Systems (3)

Prerequisite: Information and Decision Systems 609.

Applications of database management systems in business. Design and administration of database processing systems applications.

687. Data Communications and Distributed Data Processing (3)

Prerequisite: Information and Decision Systems 680.

Applications of data communications hardware, software, and services in business data processing. Design and implementation of network applications and distributed processing systems.

688. Information Systems in Organizations (3)

Prerequisite: Information and Decision Systems 609.

Organizing and administering the information systems function. Information and its relationships to business decision making. Managing the computer center and information center. (Formerly numbered Information Systems 698.)

691. Decision Support Systems (3)

Prerequisite: Credit or concurrent registration in Information and Decision Systems 688.

Design, implementation, and integration of computerized decision support systems into business management. Problem representation, modeling, and simulation.

695. Information Analysis (3)

Prerequisite: Information and Decision Systems 609.

System development life cycle. Life cycle methodologies with emphasis on analysis of requirements using structured methodology and automated tools. Feasibility study, developmental strategies, needs management, and prototyping. (Formerly numbered Information Systems 682.)

696. Seminar in Selected Topics (3)

Intensive study in specific areas of information systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

697. Systems Design (3)

Prerequisite: Information and Decision Systems 695.
Business information systems design, installation, and implementation as part of the systems development life cycle. Structured design, prototyping, controls, the make vs. buy decision, selection of hardware and software. (Formerly numbered Information Systems 689.)

700. Artificial Intelligence Applications for Business (3)

Prerequisite: Information and Decision Systems 609.
Applications of artificial intelligence techniques to business. Strategies for representing knowledge. Knowledge engineering, knowledge base and inference. Use of consultation paradigms, languages, tools, and artificial intelligence environment. Developing expert systems for business.

705. Administrative Communication (3)

Prerequisite: Information and Decision Systems 609.
Development of advanced written, oral, and interpersonal communication strategies for the business environment.

740. Seminar in Operations Research: Deterministic Systems (3)

Prerequisites: Information and Decision Systems 609 and 612.
Mathematical optimization techniques for deterministic systems. Advanced topics in linear programming; nonlinear, dynamic, and integer programming; selected examples of application.

741. Seminar in Operations Research: Stochastic Systems (3)

Prerequisite: Information and Decision Systems 612.
Use of probability and statistical decision theory for decision making under conditions of uncertainty. Markov processes, queuing theory, and the theory of games.

742. Seminar in Computer Simulation for Business (3)

Prerequisites: Information and Decision Systems 609 and 612.
Computer simulation techniques for analysis of complex decision problems. Implementation of optimization algorithms through use of the digital computer.

744. Seminar in Quality and Productivity (3)

Prerequisite: Information and Decision Systems 602 or 612.
Application of quality control, just-in-time systems, and other operations research techniques to industrial problems. Comprehensive approach formulated by current techniques in field. Cases and examples from Japanese and American companies.

745. Business Forecasting (3)

Prerequisite: Information and Decision Systems 612.
Forecasting for the firm. Models for forecasting short term, intermediate and long term business horizons.

748. Seminar in Applied Multivariate Statistics for Business (3)

Prerequisite: Information and Decision Systems 602.
Applications of various multivariate techniques such as factor analysis, multiple regression, judgment analysis, hierarchical grouping, multiple discriminant analysis, multivariate analysis variance, canonical correlation.

749. Seminar in Applied Behavioral Measurement (3)

Prerequisite: Information and Decision Systems 602.
Measurement procedures useful in analyzing such areas as leadership, job satisfaction, attitudes, motivation, etc. Development and use of scaling strategies including Likert, Thurstone, Guttman, paired-comparison, forced-choice, semantic-differential, and review of existing instruments used in business-related settings.

750. Project Management (3)

Prerequisite: Information and Decision Systems 612.
Managing projects. Includes network modeling, defining activities and events, cost estimating and reporting, single and multiple resource allocation and leveling. Computerized project management software will be used.

751. Seminar in Scheduling Systems (3)

Prerequisite: Information and Decision Systems 612.
Scheduling systems. Capacity requirements management, production activity control, inventory control and project management.

752. Seminar in Materials Requirement Planning (3)

Prerequisite: Information and Decision Systems 612.
Product structure, master scheduling and materials requirement planning (MRP).

754. Seminar in Production and Operations Management (3)

Prerequisite: Information and Decision Systems 612.
Integration of manufacturing and operations functions through case studies, plant visits, and class projects. Computerized simulation package used to facilitate student understanding of production scheduling systems.

790. Directed Readings in Information and Decision Systems (3) Cr/NC

Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examination for those students in the M.B.A. program under Plan B. (Formerly numbered Business Administration 790.)

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.
Research in the area of information and decision systems. Maximum credit six units applicable to a master's degree. (Formerly numbered Business Administration 797.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

OFFICE: Business Administration and Mathematics 403A
TELEPHONE: (619) 594-5306

Faculty

Thomas J. Atchison, Ph.D., Professor of Management (Graduate Adviser)
James A. Belasco, Ph.D., Professor of Management
F. Neil Brady, Ph.D., Professor of Management
Jaisingh V. Ghorpade, Ph.D., Professor of Management
David R. Hampton, Ph.D., Professor of Management
Michael L. Hergert, Ph.D., Professor of Management
Daryl G. Mitton, Ph.D., Professor of Management
Lynn H. Peters, Ph.D., Professor of Management
Stephen P. Robbins, Ph.D., Professor of Management
Mark C. Butler, Ph.D., Associate Professor of Management (Graduate Adviser)
Alex F. De Noble, Ph.D., Associate Professor of Management (Graduate Adviser)
Sanford B. Ehrlich, Ph.D., Associate Professor of Management
Mary Jo Hatch, Ph.D., Associate Professor of Management
Kenneth E. Marino, Ph.D., Associate Professor of Management
Penny L. Wright, Ph.D., Associate Professor of Management, Chair of Department
Lawrence C. Rhyne, Ph.D., Associate Professor of Management (Graduate Adviser)
Mary B. Teagarden, Ph.D., Assistant Professor of Management (Graduate Adviser)

Courses Acceptable on Master's Degree Programs in Business Administration**UPPER DIVISION COURSE****596. Advanced Topics in Management (3)**

Prerequisite: Six upper division units in management.
Advanced special topics in management. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**601. Management of Organizations (3)**

Managerial perspectives on organization in domestic and multinational arenas. Emphasis on organizational environments, strategy, goals, control, culture, structure, and technology.

611. Organizational Behavior and Human Resources Management (3)

Theories, practice, and legal considerations of dealing with people in organizations. Analysis of organizational systems and managerial actions for accomplishing work through individuals and groups.

Management

In the College of Business Administration

**619. Organizational Research Methods (3)**

Prerequisites: Information and Decision Systems 602, Management 601 and 611.
Historical, ethical, and quantitative contributions to field research in organizational settings. Theoretical and applied presentation of common research methods. Development of techniques related to data collection and management, analysis, and interpretation in applied business settings.

626. Seminar in Policy Formulation (3)

Prerequisites: Management 601, Finance 615, Information and Decision Systems 602, Marketing 605.
Building and maintaining enterprises in our society; determining objectives; developing policies and plans for achievement; measuring and controlling organizational activities; reappraising objectives and policies on the basis of new developments. (Formerly numbered Management 726.)

670. Seminar in Personnel Planning and Staffing (3)

Prerequisites recommended: Management 601, 611 or equivalent course in the behavioral sciences and Information and Decision Systems 602.

Theories and models of manpower planning; inventorying and forecasting of manpower needs and requirements; labor force analysis; recruitment; the staffing process; measurement tools and techniques.

671. Seminar in Regulation of Employment Relationship (3)

Prerequisites: Management 601 and 611.

Study of industrial relations systems in varied organizational and cultural settings. Public policy and law governing the employment relationship in both union and non-union settings. Examples from worldwide industrial societies.

672. Seminar in Compensation (3)

Prerequisites recommended: Management 601 and 611 or equivalent course in the behavioral sciences, and Information and Decision Systems 602.

The organizational process of compensating employees. Compensation theory from economics, psychology, and sociology. Compensation systems and their effects on organizations and individuals.

679. Seminar in Human Resource Management Strategies (3)

Prerequisites: Credit or concurrent registration in two of the following: Management 670, 671, and 672.

Current issues in human resource management to include job design, staffing, training, evaluation, and compensation. Correlations among organizational strategies, environmental pressures, and human resource strategies and practices.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of management. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

710. Seminar in World Business Environment (3)

Prerequisite: Economics 603.

The nature, dimensions and motives of international business. Impact of environmental factors. The nature of the multinational corporation, the importance of national and multilateral controls and policies for international business management.

720. Seminar in Behavioral Sciences for Management (3)

Prerequisites: Management 601 and 611.

Applications of findings from behavioral sciences to management problems and decisions. Study of organization cultures and subcultures. Impact of human behavior on the enterprise.

721. Seminar in Group Processes and Leadership (3)

Prerequisites: Management 601 and 611.

Perceptions and processes in work groups. Experience in interpersonal networks, influence and rewards, stereotypes; managing differences and conflicts.

722. Seminar in Business Ethics and Social Institutions (3)

Prerequisites: Management 601 and 611.

Ethical and social aspects of current issues in business and society. The changing role of stakeholders including consumers, shareholders, and employees. Assessment of the operation, functioning and regulation of the market system.

723. Seminar in International Strategic Management (3)

Prerequisites: Management 601 and 611.

Strategic decision making in managing international enterprises. General management problems in directing and controlling transnational companies, including entry, acquisitions and joint ventures. Cases and readings to acquaint students with worldwide business practices.

724. Seminar in the Entrepreneur (3)

Prerequisites: Management 601 and 611.

Examination of the entrepreneurial approach; concepts, theory and techniques of managerial innovation and implementation; analysis of entrepreneurial skills.

725. Seminar in Industry Analysis and Competitive Strategy (3)

Prerequisites: Management 601, Finance 615 and 616, Marketing 605.

Concepts and tools for studying the structure of industries and implications for strategy formulation. Competition in different market environments: high technology, global, mature, and declining.

727. Seminar in Organizational Change and Development (3)

Prerequisites: Management 601 and 611.

Process of developing human resources and organizations. Theories of organizational development; tools and techniques, analysis of manpower and organizational development programs. (Formerly numbered Management 673.)

728. Seminar in Business Planning (3)

Prerequisites: Management 601, Finance 615, Marketing 605, and advancement to candidacy.

Strategic decision making, long-range forecasting, and corporate planning with major emphasis on product-market relationships.

729. Seminar in Organizational Issues (3)

Prerequisites: Management 601 and 611.

Issues in organizations in modern society: organization design, environmental interface, and political processes.

790. Directed Readings in Management (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for those students in the M.B.A. program under Plan B. (Formerly numbered Business Administration 790.)

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.

Research in the area of management. Maximum credit six units applicable to a master's degree. (Formerly numbered Business Administration 797.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

OFFICE: Business Administration/Mathematics 445P

TELEPHONE: (619) 594-5317

Faculty

William F. Barber, Ph.D., Professor of Marketing, Director of Graduate Programs, College of Business Administration

George E. Belch, Ph.D., Professor of Marketing, Chair of Department

Michael A. Belch, Ph.D., Professor of Marketing

Robert W. Haas, D.B.A., Professor of Marketing

Kathleen A. Krentler, D.B.A., Professor of Marketing (Graduate Adviser)

Thomas R. Wotruba, Ph.D., Professor of Marketing

L. Eugene Apple, Ph.D., Assistant Professor of Marketing (Graduate Adviser)

Rajesh Kanwar, Ph.D., Assistant Professor of Marketing

Linda Rochford, Ph.D., Assistant Professor of Marketing

Massoud M. Saghaei, Ph.D., Assistant Professor of Marketing

Courses Acceptable on Master's Degree Programs in Business Administration

GRADUATE COURSES**605. Marketing (3)**

Role and function of marketing in the organization and society. Planning, implementation, and evaluation of marketing strategies and programs. Not open to students with credit in Marketing 370.

620. Research and Reporting (3)

Prerequisite: Information and Decision Systems 612.

Principles of research design and data accumulation. The analysis and effective presentation of data related to business and industry. (Formerly numbered Business Administration 620.)

696. Seminar in Selected Topics (3)

Intensive study in specific areas of marketing. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Marketing 795.)

760. Seminar in Consumer Behavior (3)

Prerequisite: Marketing 605.

The study of consumer behavior in relation to marketing strategy and the changing environment of business.

761. Seminar in New Products Marketing (3)

Prerequisite: Marketing 605.

The study of new products management in relation to planning and implementation of marketing strategy.

762. Seminar in Advertising Management (3)

Prerequisite: Marketing 605.

Advertising and sales promotion in relation to the planning and implementation of marketing strategy.

763. Seminar in Sales Management (3)

Prerequisite: Marketing 605.

Sales management and personal selling decisions and strategies in business organizations.

764. Seminar in Marketing Price Policy (3)

Prerequisite: Marketing 605.

Study of pricing strategy and price determination in business organizations.

766. Seminar in Market Analysis and Research (3)

Prerequisites: Information and Decision Systems 612 and Marketing 605.

Application of statistical and mathematical methods to market problems, consumer research, and product analysis.

767. Seminar in Industrial Marketing Management (3)

Prerequisite: Marketing 605.

The management of marketing decisions and strategies peculiar to the industrial market.

768. Seminar in Industrial and Government Procurement Management (3)

Prerequisites: Management 601 and Marketing 605.

Procurement methods used in industry and government; internal departmental operations, interrelationships with other departments; supplier selection, pricing/cost analysis; contract negotiations, special characteristics of government procurement.

769. Seminar in International Marketing (3)

Prerequisite: Marketing 605.

The impact of cultural, social, political, economic, and other environmental variables on international marketing systems and the decision-making process of multinational marketing operations.

779. Advanced Marketing Strategy (3)

Prerequisites: Marketing 605 and advancement to candidacy.

Development, implementation and evaluation of marketing strategy and planning. Role of marketing planning in overall corporate strategic planning process. Use of contemporary techniques and models in strategic planning process.

790. Directed Readings in Marketing (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for those students in the M.B.A. program under Plan B. (Formerly numbered Business Administration 790.)

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy.

Research in the area of marketing. Maximum credit six units applicable to a master's degree. (Formerly numbered Business Administration 797.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Vincent J. Landis, Ph.D., Professor of Chemistry
Richard J. Laub, Ph.D., Professor of Chemistry
Herbert G. Leberherz, Ph.D., Professor of Chemistry
Jim G. Malik, Ph.D., Professor of Chemistry
Michael M. Malley, Ph.D., Professor of Chemistry
James H. Mathewson, Ph.D., Professor of Chemistry
H. Edward O'Neal, Ph.D., Professor of Chemistry
William H. Richardson, Ph.D., Professor of Chemistry
Morey A. Ring, Ph.D., Professor of Chemistry, Chair of Department
Stephen B. W. Roeder, Ph.D., Professor of Physics and Chemistry
Clay M. Sharts, Ph.D., Professor of Chemistry
Charles J. Stewart, Ph.D., Professor of Chemistry (Graduate Adviser)
William E. Stumph, Ph.D., Professor of Chemistry
William G. Tong, Ph.D., Professor of Chemistry
Earl P. Wadsworth Jr., Ph.D., Professor of Chemistry
John H. Woodson, Ph.D., Professor of Chemistry
Dale A. Chatfield, Ph.D., Associate Professor of Chemistry
Thomas E. Cole, Ph.D., Associate Professor of Chemistry

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships in chemistry are available to a limited number of qualified students. Application blanks and additional information may be secured from the Graduate Adviser in the Department of Chemistry.

General Information

The Department of Chemistry in the College of Sciences offers graduate study leading to the Master of Arts, the Master of Science and the Doctor of Philosophy degrees in Chemistry. The Ph.D. degree is offered jointly with the Department of Chemistry at the University of California at San Diego. Thesis research in all graduate programs is offered in the five traditional areas of chemistry, i.e., analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry.

The department provides a substantial inventory of modern chemical instrumentation for support of the many active research programs. Included are systems for the performance of nearly all major types of chemical separations; moderate- and high-resolution GC-mass spectrometric systems; 90, 100 (FT) and 200 (FT) MHz nuclear magnetic resonance spectrometers; CW and FT infrared spectrometers; ultraviolet-visible spectrometric instruments for both atomic and molecular emission and absorption studies; electrochemical instrumentation for potentiometric, voltametric and coulometric measurements; radiochemical instrumentation; laser systems for spectroscopy and a variety of microcomputers.

Section I. Master's Degree Programs

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, classified standing may be subject to satisfactory performance on orientation examinations which are administered by the Department of Chemistry. The student with a major in chemistry from another accredited institution should have met all requirements for certification of the baccalaureate degree by the American Chemical Society (statement available on request).

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, the student must pass orientation examinations in chemistry. These examinations should be taken during the first semester in residence.

Specific Requirements for the Master of Arts Degree

(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master's degree programs. At least 15 of these units must be in 600- and 700-numbered courses, excluding Chemistry 792, 797 and 798. Chemistry 711 and 791 are required. Subject to departmental approval, the student may elect Plan A with the thesis (in which case the program must include Chemistry 792 and 799A), or Plan B with the written comprehensive examination in lieu of the thesis. A student electing Plan A must pass a final oral examination on the thesis.

Specific Requirements for the Master of Science Degree

(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student must also complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master's degree programs. At least 15 of these units must be in 600- and 700-numbered courses, excluding Chemistry 792, 797 and 798. Chemistry 711*, 791, 792 and 799A are required. A student must pass a final oral examination on his/her thesis.

* Chemistry 762 may be substituted for Chemistry 711, with approval of the graduate adviser, by students whose thesis project is in the area of biochemistry.

Section II. Doctoral Program

(Major Code: 19051)

The cooperating faculties of the Departments of Chemistry at the University of California, San Diego and at San Diego State University possess complementary specialties that enable the doctoral student to gain familiarity with most areas in chemistry and to find research activity and direction in a great variety of specific problems.

In order that the student may participate effectively in this program, the entering student will be required to have a mastery of the subjects usually presented in the undergraduate curriculum: physical, organic, analytical, and inorganic chemistry. All applicants will be expected to present the equivalent of one year of physics and of mathematics at least through integral calculus. Students should be prepared to take placement examinations which will be administered by a joint committee and will cover the fields of inorganic, organic and physical chemistry.

On admission to the program, the student is guided by Requirements for the Doctoral Degree Program given in Part Two of this bulletin. The student will normally spend his/her first year in the program completing his/her year of residency at the University of California, San Diego. It is desirable for the student to complete his/her qualifying examination by the end of his/her fifth semester and to be advanced to candidacy.

Faculty

The following faculty members of the Departments of Chemistry of the cooperating institutions participate in the joint doctoral program, being available for direction of research and as departmental members of Joint Doctoral Committees.

University of California, San Diego:

Graduate Adviser: R. Fahey
Committee Members: Allison, Perrin, Tragler, Weare

San Diego State University:

Graduate Adviser: C. J. Stewart
Committee Members: Abbott, Bennett, Chatfield, Cobble, Coffey, Dahms, Grubbs, Hellberg, Jensen, Jones, Laub, Leberherz, Malley, O'Neal, Richardson, Ring, Roeder, Sharts, Stewart, Stumph, Tong

Courses Acceptable on Master's and Doctoral Degree Programs in Chemistry

UPPER DIVISION COURSES

500A-500B. Principles of Chemical Engineering (3-3)

(Same course as Mechanical Engineering 584A-584B.)

Prerequisite: Credit or concurrent registration in Mechanical Engineering 350 or Chemistry 410A.

Industrial stoichiometry; fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, drying, and others. Problems, reports, and field trips.

501. Chemical Oceanography (3)

Three lectures and occasional field trips.

Prerequisites: Chemistry 201 and 231. Strongly recommended: Chemistry 250 or 251. Recommended: Chemistry 410B and Oceanography 320 or 541.

The application of the fundamentals of chemistry to the study of oceans.

510. Advanced Physical Chemistry (3)

Prerequisite: Chemistry 410B.

Mathematical tools essential to solving problems in chemical thermodynamics, statistical mechanics, chemical kinetics, quantum chemistry and molecular structure and spectroscopy, with applications.

520A. Inorganic Chemistry (3) I

Prerequisite: Credit or concurrent registration in Chemistry 410B.

The physical basis of the periodic system, complex inorganic compounds, and the nature of the chemical bond.

520B. Inorganic Chemistry (3) II

Prerequisite: Chemistry 520A.

An advanced systematic study of representative and transition elements and their compounds.

530. Theoretical Organic Chemistry (3)

Prerequisites: Chemistry 410A and 431. Recommended: Credit or concurrent registration in Chemistry 410B.

Electronic and physical properties of organic molecules; structure-reactivity correlations: Electronic structure of molecules (qualitative molecular orbital theory); stereochemistry; and linear free energy relationships.

537. Organic Qualitative Analysis (4)

Two lectures and six hours of laboratory.

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A. Recommended: Chemistry 417 and 457.

Chemical, physical, and spectral methods discussed and employed to determine structure of organic compounds. Purification and separation techniques stressed.

550. Instrumental Methods of Chemical Analysis (2) I

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410B; concurrent registration in Chemistry 457 for undergraduate students only.

Theory and application of those instrumental methods of chemical separation and analysis most frequently used in all subdisciplines of chemistry.

551. Advanced Analytical Chemistry (3) II

Prerequisite: Chemistry 550.

Expanded treatment of instrumental methods for separation and quantification not covered in Chemistry 550. Non-instrumental separations, quantitative organic microanalysis, sampling theory and techniques, reaction rate applications and interpretation of experimental data.

560A-560B. General Biochemistry (3-3)

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A.

The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 361A-361B.

561. Physical Biochemistry (3)

Prerequisites: Chemistry 201, 431, 361B or 560B; Physics 182B.

Fundamental principles of physical chemistry, including thermodynamics and kinetics as applied to the field of biochemistry. Not open to students with credit in Chemistry 410A-410B.

567. Biochemistry Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Chemistry 361A or 560A.

Theory and practice of procedures used in study of life at molecular level. Includes purification and characterization of enzymes, isolation of cell components, and use of radioactive tracer techniques.

596. Advanced Special Topics in Chemistry (1-3)

Prerequisite: Consent of instructor.

Advanced selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

710. Advanced Topics in Physical Chemistry (1-3)

Prerequisite: Chemistry 410B.

Selected topics in physical chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

711. Chemical Thermodynamics (3)

Prerequisite: Chemistry 410B.
Chemical thermodynamics and an introduction to statistical thermodynamics.

712. Chemical Kinetics (3)

Prerequisite: Chemistry 410B.
Theory of rate processes; applications of kinetics to the study of reaction mechanisms.

713. Quantum Chemistry (3)

Prerequisite: Chemistry 410B.
Quantum mechanics of atomic and molecular systems; applications to chemical bonding theory.

721. Mechanisms of Inorganic Reactions (3)

Prerequisite: Chemistry 520A.
Mechanisms in inorganic reactions with an emphasis on coordination chemistry.

722. Chemistry of the Nonmetals (3)

Prerequisite: Chemistry 520A.
An advanced systematic study of the nonmetallic elements and their compounds.

730. Advanced Topics in Organic Chemistry (1-3)

Prerequisite: Chemistry 431.
Selected topics in organic chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

731. Mechanisms of Organic Reaction (3)

Prerequisites: Chemistry 410B and 431. Recommended: Chemistry 530.
Reactivity and mechanism in organic reactions.

732. Advanced Organic Chemistry (3)

Prerequisite: Chemistry 431.
Applications and limitations of organic reactions from the viewpoint of synthesis.

750. Advanced Topics in Analytical Chemistry (1-3)

Prerequisite: Chemistry 550.
Selected topics from the field of analytical chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

751. Separations Science (3)

Prerequisites: Chemistry 550 and 711.
Theoretical bases for separation techniques important in analytical chemistry. Chemical and physical interactions between components of different classes of separation systems, including selection and optimization of operational parameters.

753. Analytical Spectroscopy (3)

Prerequisite: Chemistry 550.
Theory and application of atomic and molecular absorption, emission and fluorescence methods. Modern optical instrumentation and methods of analysis. Nonlinear laser spectroscopic methods in chemical analysis.

760. Advanced Topics in Biochemistry (1-3)

Prerequisite: Chemistry 560B.
Selected topics in biochemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

762. Enzymology (2)

Prerequisite: Credit or concurrent registration in Chemistry 410B.
Theory and techniques used in the study of the mechanism of action of enzymes.

763. Cellular Regulation (2)

Prerequisites: Chemistry 361A-361B or 560A-560B.
The biochemistry of cellular regulatory mechanisms in eucaryotic cells. The regulation of gene transcription, in mRNA translation and post-translational processes, including the mechanism and regulation of intracellular protein turnover.

764. Membrane Biochemistry (3)

Prerequisites: Chemistry 361A-361B or 560A-560B.
Membrane structure and function. Biophysical and biochemical properties of membranes from procaryotic and eucaryotic cells and animal cell viruses; biosynthesis and assembly of membrane components; molecular basis of solute transport, energy coupling, cell surface transformation, and cellular recognition, adhesion and fusion.

790. Seminar (1-3)

An intensive study in advanced chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

791. Research Seminar (1)

Prerequisite: Consent of department chair.
Discussions on current research by students, faculty, and visiting scientists. Each student will make a presentation based on the current literature.

792. Bibliography (1)

Exercise in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of instructor.
Research in one of the fields of chemistry. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

897. Doctoral Research (1-3) Cr/NC/SP

Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-6) Cr/NC/SP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

City Planning

Refer to the section on Public Administration and Urban Studies.

Communicative Disorders

In the College of Health and Human Services

OFFICE: Communications Clinic 118

TELEPHONE: (619) 594-6774

Faculty

Elizabeth J. Allen, Ph.D., Professor of Communicative Disorders
Eric M. Muller, Ph.D., Professor of Communicative Disorders
Alan C. Nichols, Ph.D., Professor of Communicative Disorders
Richard M. Riedman, Ph.D., Professor of Communicative Disorders
Michael R. Seitz, Ph.D., Professor of Communicative Disorders, Graduate Coordinator and Adviser
Edmund L. Thile, Ph.D., Professor of Communicative Disorders
Li-Rong Cheng, Ph.D., Associate Professor of Communicative Disorders, Assistant Dean for Student Affairs, College of Health and Human Services
Kathie M. Christensen, Ph.D., Associate Professor of Communicative Disorders
Barry W. Jones, Ph.D., Associate Professor of Communicative Disorders, Chair of Department
Steven J. Kramer, Ph.D., Associate Professor of Communicative Disorders
Robert E. Novak, Ph.D., Associate Professor of Communicative Disorders
Donna J. Thal, Ph.D., Associate Professor of Communicative Disorders
Darlene G. Davies, Ed.S., Assistant Professor of Communicative Disorders
Vera Gutierrez-Clennen, Ph.D., Assistant Professor of Communicative Disorders
Ronald N. Hamilton, M.A., Assistant Professor of Communicative Disorders
Diane R. Williams, M.A., Assistant Professor of Communicative Disorders

General Information

The Department of Communicative Disorders, in the College of Health and Human Services, offers graduate study leading to the Master of Arts degree in Communicative Disorders, and to the credentials described below. The master's degree program is accredited by the Educational Standards Board of the American Speech-Language-Hearing Association; the clinical services are accredited by Professional Services Board of the American Speech-Language-Hearing Association, and the training program for teachers of the hearing impaired is accredited by the Council on Education of the Deaf. The department offers advanced study in speech and hearing science, speech-language pathology, audiology, and education of the hearing impaired (deaf).

The programs utilize the facilities of the Communications Clinic, which includes observation rooms, departmental reference collection, and speech and hearing science laboratories. In the laboratories, students use personal computers, microprocessor based diagnostic audiometers, Coulbun Modules, microprocessor controlled evoked response instruments, Fonix real ear analyzer, Dynamic spectral signal analyzer, acoustic immittance equipment, hearing aid analyzer, digital spectrograph, Visipitch, phonic mirror, state-of-the-art ENG and evoked potential equipment, monofonators, audiometric response simulators, laryngoscopic manikin, and audio and video recording equipment with ongoing new acquisitions.

In addition, the department shares the facilities of the Interdisciplinary Center for Health and Human Services, an on-campus multidisciplinary diagnostic and rehabilitation center. In the Interdisciplinary Center for Health and Human Services students and faculty participate in providing direct delivery of clinical services to clients, jointly participate in Central intake activities (a multidisciplinary assessment program) and the assistive devices assessment program, which evaluates, selects and trains multi-handicapped individuals to help them communicate more effectively. Field experience is offered in the public schools and community agencies.

Practicum and observation experiences are possible at various hospitals, schools, community agencies, convalescent homes, and rehabilitation agencies.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin.

Candidates for admission to classified graduate standing, including credential candidates are reviewed by the faculty as a whole, and by a faculty committee from one of the three areas of the department: speech-language pathology, audiology, and education of the hearing impaired (deaf). To initiate this review, a candidate for admission indicates which of these programs he or she intends to enter. The criteria for admission that guide the review committee are as follows:

1. In considering the candidate's **statement of purpose**, content, style and clarity of presentation are primary points.
2. Three **letters of recommendation** from appropriate persons who can and do attest to the candidate's high potential for graduate study are required by the reviewing faculty.
3. A **grade point average** of 3.0 overall or 3.5 during the last 60 units of college or university study will be necessary for consideration for admission.
4. A **GRE General Test** score of 950 (combined verbal and quantitative) is a criterion for admission. Candidates with high grade point averages, 3.5 or above, may be admitted conditionally if the 950 criterion is not met. In such cases, the condition of admission is that the candidate take and pass the GRE with a total score of 950 or above during the first semester of residence in the department. Continuation in the program may be contingent upon fulfilling this condition.

In cases where these criteria are not met, exceptional strength in one area may balance a deficit in another area. Such candidates may be admitted conditionally, subject to faculty review at the end of the first semester of residence.

A postbaccalaureate level credential candidate must be reviewed for classified or conditionally classified postbaccalaureate standing prior to enrollment in clinical practicum. The following courses are controlled for this purpose: Communicative Disorders 526, 545, 546, 556.

All transfer students planning a program to include clinical practica must enroll in the appropriate practicum as specified for their field of interest (Communicative Disorders 357, 518, 526, 545, 546, 556) prior to enrollment in graduate practica.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Communicative Disorders are required to have completed Communicative Disorders 600.

Specific Requirements for the Master of Arts Degree

(Major Code: 12201)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units. A student must complete Communicative Disorders 799A, Thesis for Plan A. If Plan B is elected, the student must complete a

research project as approved by the department; complete two units of Communicative Disorders 797, Research; and pass a written comprehensive examination (which may be repeated only once). Students enrolled in Communicative Disorders 797 or 799A must participate in the Department's Professional Development Seminar unless excused by the Coordinator of the Graduate Program. No more than six units of coursework outside the Department acceptable on the graduate level may be applied to the master's degree.

The Department of Communicative Disorders offers four concentrations leading to the Master of Arts degree. Each concentration requires completion of a specific pattern of graduate units described below:

A. Concentration in Speech-Language Pathology. This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Speech-Language Pathology from the American Speech-Language-Hearing Association and for licensure from the State of California.

Undergraduate Preparation. Communicative Disorders 106, 205, 320, 321, 322, 340, 340L, 423, 500, 501, 511, 512, 513, 517, 524, 539; Physics 201; Psychology 260, 270.

Graduate Program. Required courses (20-21 units) to include: Communicative Disorders 600, 601 or 654, 602 (either Child or Adult emphasis), 605, 606, 607, Plan A (Communicative Disorders 799A-3 units) or Plan B (Communicative Disorders 797-2 units and 798-1 unit).

Electives (9-10 units) selected from Communicative Disorders 500, 600 and 700 level courses. Clinic practica, i.e., 518, 519, 526, 546, 566, 626 and 646 are not part of the 30 units.

Students electing to pursue the Certificate of Clinical Competence should complete in addition to the required courses listed above: Communicative Disorders 602 (adult), 603, 604 and the required clinic courses or clinic hours.

B. Concentration in Audiology. This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Audiology from the American Speech-Language-Hearing Association and for licensure from the State of California.

Undergraduate Preparation. Communicative Disorders 106, 205, 320, 321, 340, 340L, 423, 500, 511, 512, 513, 517, 524, 526, 542, 545, 546, 547. Communicative Disorders 358 and 501 may be substituted for Communicative Disorders 543 and/or 547 at the undergraduate level. Physics 201, Psychology 260, 270.

Graduate Program. Required courses (22-24 units) to include: Communicative Disorders 542, 543, 600, 640, 644, 647, 648, and 658* or other habilitation course at the 500, 600 level; Plan A (Communicative Disorders 799A-3 units) or Plan B (Communicative Disorders 797-2 units and 798-1 unit).

Electives (9-10 units) selected from Communicative Disorders 500, 600 and 700 level courses selected with consent of the student's adviser.

Students electing to pursue the Certificate of Clinical Competence should complete in addition to the above courses the required clinic courses or clinic hours.

C. Concentration in Education of the Hearing Impaired (Deaf). This concentration has a clinical and educational focus and may be used to satisfy some of the academic preparation for certification by the Council on Education of the Deaf and for a credential from the State of California.

Undergraduate Preparation. Communicative Disorders 106, 205, 320, 321, 340, 340L, 357, 358; Physics 201; Psychology 101, 260, 270.

Graduate Program. Required courses (18 units minimum) to include: Communicative Disorders 600, 654, 657, 658, 659 and Plan A (799A-3 units), or Plan B (797-2 units and 798-1 unit).

Electives (12 units) selected from 500, 600 and 700 level courses selected with consent of the student's adviser. Minimum of nine units of electives must be selected from Communicative

Disorders courses. Maximum of three units of Communicative Disorder 596 may be chosen.

Competency in communication with the hearing impaired must be demonstrated, including oral and manual modes and combinations thereof.

D. Concentration in Communicative Sciences. This concentration has research and theoretical foci in the area of communicative disorders. Students interested in study with a research environment requiring a strong scientific foundation may avail themselves of this concentration.

Undergraduate Program. Communicative Disorders 106, 205, 320, 321, 340, 340L, 512, 539, 547; Physics 201; Psychology 260, 270.

Graduate Program. Required courses (15 units minimum) to include Communicative Disorders 600, 601, 640, 654, Plan A (Communicative Disorders 799A-3 units) or Plan B (Communicative Disorders 797-2 units and 798-1 unit).

Electives (15 units) selected from 500, 600 and 700 level courses with consent of the student's adviser. Recommended options include Communicative Disorders 543, 602, 603, 604, 605, 606, 607, 644, 647, 648, 657, 798; six units from 500, 600 and 700 numbered courses from psychology, physics, linguistics, or other departments may be selected with the approval of the department's graduate committee.

Credentials

The Department of Communicative Disorders offers academic and practica coursework applicable to two credentials in the Ryan Credential Program. Students desiring to work in the public schools with speech, language, or hearing impaired pupils may choose the Special Education Specialist Credential for the Communication Handicapped (CH) or the Clinical-Rehabilitative Services Credential (C-RS). Each credential is competency based, that is, specified competencies have been identified as requirements for areas of specialization by the Commission for Teacher Credentialing. Candidates may satisfy institution requirements, therefore, by either satisfactory completion of required courses or their equivalency, or by demonstrating equivalent competencies by experience or examination. Candidates may enter the CH or C-RS credential programs at undergraduate or graduate level.

Each credential has designated areas of specialization. Students wishing to prepare to be Teachers of the Deaf or Deaf-Blind are obliged to meet the requirements of the CH credential. Students preparing to serve as School Audiologists must follow the C-RS credential program. Students desiring preparation as itinerant Language, Speech and Hearing Specialists or as Classroom Teachers of Severe Language Handicapped (or Aphasic) (Special Class Authorization-SCA) pupils may pursue either the CH or C-RS Credential Program.

Special Education Specialist Credential for the Communication Handicapped (Credential Code: 00461)

The Special Education Specialist Credential for the Communication Handicapped prepares students for an emphasis in one or more of the following areas of handicap:

- Deaf and Severely Hard of Hearing
- Deaf-Blind
- Severe Oral Language (including aphasia) (Special Class Authorization) (SCA)
- Speech and Hearing

The Specialist Credential for the Communication Handicapped specifies a sequence of communicative disorders courses plus a sequence of education courses.

Admission Requirements

1. Formal application to the Department of Communicative Disorders.
2. Interview with a faculty member in the Department of Communicative Disorders.

3. Admission to the program for the Single Subject Credential (Secondary) or Multiple Subject Credential (Elementary).

- or -

A basic teaching credential.

Students should consult with appropriate advisers in the College of Education for specific requirements.

4. Students applying to the program at the postbaccalaureate level must satisfy the admission requirements of the department for classified graduate standing.
5. Completion of Special Education 500 and 501.

Program

Persons interested in the Special Education Specialist Credential shall:

1. Concurrently or prior to completion of the specialist credential, complete the single subject credential (preliminary or clear) or the multiple subject credential (preliminary or clear). Students may choose to:
 - (a) Major in Liberal Studies (offered by the College of Education) in conjunction with specified communicative disorders courses.
 - (b) Pursue a departmental major; complete specified prerequisites for the College of Education; pass the National Teacher Examination prior to entering the College of Education professional education sequence.
2. Complete a minimum of one year of study, including:
 - (a) The Special Education generic coursework: Special Education 500, 501.
 - (b) Courses outside of the Department of Communicative Disorders, including: Psychology 101, 260; Physics 201.
 - (c) Advanced work in the area of specialization in the Department of Communicative Disorders, including:
 - (1) Communication Handicapped Specialization generic coursework Communicative Disorders 106, 205, 320, 321, 340, 340L, 358, 453*, 500, 511, 512, and 513.
 - (2) Additional coursework required for the specific area of emphasis within the Credential (Severe Oral Language, Deaf, Deaf-Blind, Speech and Hearing) selected by the student in conjunction with adviser.
3. A postbaccalaureate year (minimum of 30 semester units which may include courses applicable toward the master's degree if approved by the candidate's adviser) is required of all candidates.

Clinical-Rehabilitative Services Credential

(Credential Code: 00900)

Clinical-Rehabilitative Services (C-RS) Credentials are available in the following areas:

- Language, Speech and Hearing (LSH)
- Audiology
- Severe Language Handicapped/Aphasic (SLH) (Special Class Authorization) (SCA)

A postbaccalaureate year (minimum of 30 semester units which may include courses applicable toward the master's degree if approved by the candidate's adviser) is required of all candidates. The following generic courses in Communicative Disorders are required: Communicative Disorders 106, 110, 205, 320, 321, 322, 340, 340L, 341, 423, 500, 511, 517, 524, 526, 530, and 546. Courses from other departments include Psychology 101 or Sociology 101; Psychology 260 or Biology 150; Family Studies and Consumer Sciences 271 or 697; Physics 201; and Special Education 500 and 596+.

The Advanced Specialization Program in Language, Speech and Hearing (LSH) requires the following additional courses: Communicative Disorders 422, 433, 501, 512, 513, 518, 519, 529, 546, 554, and 626. Courses from other departments include Linguistics 553.

- * Additional prerequisites required for this course.
- ** Consent of instructor.

+ See Department Credential Coordinator for options.

The Severe Language Handicapped (SLH) credential requires the following courses within the department in addition to those required for the LSH credential: Communicative Disorders 529, 555, and 433 (SLH class placement). Courses in other departments include Teacher Education 410A, 430A, 637, 638A; Special Education 501.

In addition to the generic program, the Advanced Specialization Program in Audiology requires the following courses within the Department of Communicative Disorders: Communicative Disorders 358, 433 (Audiology class placement), 512, 513, 529, 542, 542L, 543, 545, 547, 550, 600**, 644, 647, 648 (Pediatrics), 656** and 657.

Certificates and Licensure

Preparation Leading to the Certificate of Clinical Competence from the American Speech-Language Hearing Association

Students may complete the academic and clinical practice requirements leading to the Certificate of Clinical Competence in Speech-Language Pathology (CCC-Sp) or to the Certificate of Clinical Competence in Audiology (CCC-A) given by the American Speech-Language-Hearing Association (ASHA). The certificate requires 60 units of coursework, 30 units of which must be completed at the graduate level; 300 clock hours of supervised clinical experience; 150 hours of which must be completed at the graduate level; a clinical fellowship year; and a national examination. The academic and practica requirements must meet certain specifications. Consult an adviser in the area in which certification is desired for specific information.

Preparation Leading to the Professional Certificate from the Council on Education of the Deaf

Students may complete the academic and practica requirements leading to the Professional Certificate given by the Council on Education of the Deaf. The Professional Certificate requires a specific pattern of courses and teaching experiences. Consult an adviser in the Program for Education of the Hearing Impaired for more information.

Preparation Leading to State Licensure in Speech Pathology or Audiology

Students may complete the academic and clinical practicum requirements leading to California State Licensure in Speech Pathology or in Audiology, a legal requirement for all individuals professionally employed in non-public school settings. The Speech Pathology and Audiology Examining Committee which operates within the California State Board of Medical Quality Assurance requires evidence of completion of 24 semester hours of coursework in the area (Speech Pathology or Audiology) in which the license is to be granted, 275 clock hours of clinical experience, nine months of full-time experience (Required Professional Experience), and a national examination. Most Licensure and ASHA Certification requirements may be fulfilled concurrently. Consult an adviser in the area in which licensure is desired for specific information.

Liability Insurance

Students enrolled in Communicative Disorders 340L, 341, 433, 526, 545, 546, 556, 626, 645, 646, 656 are required to purchase professional liability insurance.

Courses Acceptable on Master's Degree Programs in Speech Pathology and Audiology

UPPER DIVISION COURSES

500. Language Structure (3)

Prerequisites: Communicative Disorders 106 and 320.
Systematic study of the design features of language as they relate to communication behavior. The primary focus is the role of language structure in disordered communication. (Formerly numbered Communicative Disorders 531.)

501. Voice Disorders: Children (3)

Two lectures and three hours of laboratory.
Prerequisite: Communicative Disorders 321.
Theory and practice in the remediation of voice disorders. Laboratory involves measurements of vocal dimensions and perceptual training for diagnosis and remediation of voice disorders. (Formerly numbered Communicative Disorders 401.)

511. Speech Reading and Auditory Training (3)

Prerequisites: Communicative Disorders 320 and 340; competency examination. Recommended: Communicative Disorders 357, 500 and 513.
Theory and methods of speech reading; auditory rehabilitation methods including survey of amplification systems. (Formerly numbered Communicative Disorders 551.)

512. Articulation Disorders and Methods (3)

Prerequisites: Communicative Disorders 320, 321, 340, 500.
Significant theories and research in prevention and remediation of articulatory disorders. Includes emphases on speech habilitation of hearing impaired, cognitive and motor processing. (Formerly numbered Communicative Disorders 552.)

513. Language Disorders and Methods (3) I, II

Prerequisites: Communicative Disorders 320, 321, 340, 500.
Theories and research in language acquisition and language disorders. Assessment of, and intervention with, language impaired children, including hearing impaired individuals. (Formerly numbered Communicative Disorders 553.)

517. Diagnostic Methods in Speech-Language Pathology (3)

Prerequisites: Grade of C or better in Communicative Disorders 423, 512, 513. Credit or concurrent registration in Communicative Disorders 524.

Principles and procedures in assessing communication disorders in children and adults. Includes case histories, testing, materials, interviewing, clinical reporting and practice with selected assessment tools. Twelve hours of observation of diagnostic practicum required. (Formerly numbered Communicative Disorders 527.)

518. Diagnostic Practicum in Speech-Language Pathology (1)

Six hours of supervision.
Prerequisites: Grade of C or better in Communicative Disorders 517 and 526.
Supervised clinical practice in diagnostic methods. (Formerly numbered Communicative Disorders 528.)

519. Diagnostic Practicum in Communicative Disorders: Multidisciplinary Assessment (1)

Prerequisites: Grade of C or better in Communicative Disorders 517; credit or concurrent registration in Communicative Disorders 526.
Participation in central intake process of SDSU Interdisciplinary Center for Health and Human Services, including diagnostic team assessments and staffings. (Formerly numbered Communicative Disorders 528L.)

524. Clinical Procedures in Communicative Disorders (2) I, II

Prerequisites: Grade of C or better in Communicative Disorders 322, 423, 512, 513; credit or concurrent registration in Communicative Disorders 517.
Remediation models and clinical approaches, procedures, and techniques. Integration of theoretical information and clinical applications.

526. Clinical Practice in Speech-Language Pathology (1) I, II, S

Three hours of laboratory.
Prerequisites: Consent of department, Communicative Disorders 110, and grade of C or better in Communicative Disorders 512, 513, 517, and 524.
Supervised practice with representative speech and language problems. Up to three units may be taken concurrently; maximum credit three units. One unit represents 26 hours of direct clinical practice. Qualified transfer students must enroll in at least one unit of 526 prior to 626.

529. Orientation to Public School Practicum (1)

Prerequisites: Communicative Disorders 517 and 524. Minimum of 100 hours of supervised clinical practicum, and departmental approval. Concurrent registration in Communicative Disorders 433 or 453.
Goals, materials and procedures for organizing and administering speech, language and hearing programs in the school.

530. Family Communication Dynamics (3)

Prerequisites: Communicative Disorders 322 and 526.
The communication environment in the home. Parent-child interaction in relation to the origin and alleviation of functional and organic speech disorders.

539. Neuropathologies of Speech, Hearing and Language (3)

Prerequisites: Communicative Disorders 321 and 340. Recommended: Communicative Disorders 423.
Research and theory concerning the nature, etiologies and principles of treatment of disorders of speech, hearing and language resulting from pathologies of the nervous system.

540. Hearing Conservation and Audiometry for School Nurses (3)

Prerequisite: Registered nurse.
Builds on registered nurse's knowledge of anatomy, physiology, and medical surgical treatment of disease as it relates to auditory mechanism. Designed to give background in hearing screening (pure tone and impedance) and awareness of ramifications of hearing loss in children necessary for referral and follow-up. Fulfills three-unit requirement for the School Nurse Credential and may be used toward the six-unit State Audiometric Certificate requirement. Not open to students with credit in Communicative Disorders 205, 340, 341.

542. Audiometry: Application (3)

Prerequisites: Communicative Disorders 340L and concurrent registration in 542L.

Pure tone and speech audiometry; masking; impedance audiometry; tests for nonorganic and for sensorineural hearing loss; reporting test results; audiometer calibration.

542L. Audiometry: Laboratory (1)

Prerequisites: Communicative Disorders 340L and concurrent registration in 542.
Laboratory experience in administering audiometric test batteries and in calibrating audiometric equipment.

543. Hearing Amplification (3) I

Prerequisites: Communicative Disorders 340, 542.
Hearing aid components, functions, trouble shooting and client orientation. Hearing aid evaluations, fittings, and electroacoustical hearing aid analysis.

545. Clinical Practice in Audiologic Assessment (1-3) I, II, S

Three hours of laboratory.
Prerequisites: Grade of C or better in Communicative Disorders 542 and 542L.
Supervised practicum with pure tone, speech, and special audiologic testing and with hearing aid evaluation. One unit represents two hours of clinical contact and one hour of staffing per week. Up to three units may be taken concurrently; maximum credit three units.

546. Clinical Practice with Hard of Hearing (1) I, II, S

Three hours of laboratory.
Prerequisites: Grade of C or better in Communicative Disorders 511, 512, 513.
Supervised practicum in aural habilitation with hard of hearing clients. One unit represents two hours of clinical contact and one hour of staffing per week. Up to three units may be taken concurrently; maximum credit three units.

547. Hearing Conservation (2-3) II

Prerequisite: Communicative Disorders 340L.
Module I: Core information (noise measurement, analysis, reduction; its effect on hearing conservation); application to school hearing conservation programs. (2 units.)
Module II: Damage risk criteria and methods of hearing protection; application of core information to industrial settings. (1 unit.)
Students may elect Module I (2 units) or Modules I and II (3 units).

550. Education of the Hearing Impaired (3) II

Prerequisite: Communicative Disorders 106.
Educational programs, services and resources for hearing impaired; historical background, philosophy, sociological and psychological problems.

554. School Age Language: Development and Disorders (3)

Prerequisite: Communicative Disorders 526.
Contrastive study of normal and disordered language development in children five years through adolescence, including syntax, semantics, pragmatics figurative language and metalinguistics. Integration of assessment and intervention for language disorders and associated speech and language based reading and writing disorders. Not open to students with credit in Communicative Disorders 554A-554B-554C.

555. Curriculum for the Communicatively Handicapped (3)

Prerequisites: Communicative Disorders 512 and 513; 526 or 556.
Application of cognitive processing theory to the development and evaluation of curriculum, materials, and procedures; selection of learning modalities and appropriate modification of curriculum. (Formerly numbered Special Education 575.)

556. Clinical Practice with the Deaf (1) I, II, S

Three hours of laboratory.
Prerequisites: Communicative Disorders 357, 358; credit in two of the following and concurrent registration in the third: Communicative Disorders 511, 512, 513. Admission to clinical practicum includes successful completion of competency examination.
Supervised therapy with representative problems found in the hearing impaired population. Maximum one unit first semester; maximum credit two units.

558. Advanced Sign Language (2) I, II

Prerequisite: Communicative Disorders 458.
Theory of sign language for the classroom interpreter. Emphasis on conceptual sign, signed idioms and appropriate usage for the academic setting.

560. Motor Speech Disorders (3)

Prerequisite: Communicative Disorders 539.
Dysarthrias and apraxia of speech. Techniques of differential diagnosis and treatment of these motor speech disorders.

562. Oral Communication for the Hearing Impaired (3)

Prerequisites: Communicative Disorders 512 and 550.
Current methods for developing oral/aural communication skills with hearing-impaired children and youth. Differential problems of acquisition of communicative competence. Assessment and intervention procedures for classroom and clinical settings.

565. Augmentative Communication (3)

Prerequisites: Communicative Disorders 500 and 526 or 556 or 12 units of upper division coursework in major and approval of instructor.
Communication needs of severely physically impaired. Nonvocal communication approaches and assistive devices. Criteria for assessing communication needs and competencies, selecting and evaluating appropriate systems. Project required.

566. Assistive Device Assessment Program for Communicatively Handicapped (2) I, II

One lecture and two hours of activity.
Prerequisite: Communicative Disorders 518.
Assessment of communication skills of disabled individuals, environmental needs and appropriateness of augmentative communication aids. Remediation recommendations. Maximum credit four units.

568. Multicultural Perspectives in Communication with Deaf Individuals (2)

Prerequisite: Demonstrate intermediate competence in American sign language, spoken Spanish or spoken Mandarin.
Review and analysis of research in multicultural lifespan communication processes in deaf individuals. Emphasis on communication needs in health care, public school and informal social settings.

571. Assessing the Bilingual Child with Communicative Disorders (3)

Prerequisites: Communicative Disorders 500 and Linguistics 553.
Assessment procedures applicable for bilingual child with communicative disorders. Consideration of available instruments, appropriateness for target populations and validity of adaptations.

572. Remediation of Communicative Disorders in the Bilingual Population (3)

Prerequisite: Communicative Disorders 571.
Intervention strategies and procedures for bilingual individual with communicative disorders. Selection criteria, factors influencing planning, program models and specific procedures for different ethnic groups and types of communicative disorders.

580. Communication Problems of the Aging (3)

Prerequisite: Twelve upper division units in an appropriate major.
Normal communication processes and aging, including memory and cognition for speech and language, and physiological changes; speech and language pathologies; hearing problems and rehabilitation, including hearing aids, psychosocial aspects of communication, including family dynamics; and resources available within the community. Open to majors and nonmajors.

596. Selected Topics in Communicative Disorders and Science (1-4) I, II, S

Prerequisite: Twelve units in communicative disorders and science courses.

Specialized study of selected topics from the area of speech-language pathology, audiology, education of the hearing impaired, and speech and hearing science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**600. Research and Bibliography (3)**

Two lectures and three hours of laboratory.
Prerequisites: Undergraduate major or equivalent in Communicative Disorders or Communicative Sciences; Psychology 270; and concurrent enrollment in SPSS® workshop or other comparable computer workshop.
Bibliographic techniques, Methods and exposition of research in the fields of speech pathology, audiology, deaf education and speech and hearing sciences. Recommended for the first semester of graduate work, and prerequisite to advancement to candidacy.

601. Seminar in Speech and Hearing Science (3)

Prerequisite: Classified graduate standing.
Instrumentation and measurement techniques in communicative disorders and sciences. Techniques applied to the specific clinical and research areas of speech, hearing and language.

602. Seminar in Language Disorders (3)

Prerequisites: Communicative Disorders 423 and 539. Recommended prerequisite: Communicative Disorders 500 and 513 and concurrent registration in Communicative Disorders 626.
Review and analysis of research in diagnosis and therapy for persons with disorders of symbolization. May be repeated with new content. See Class Schedule for specific content related to children or adults. Maximum credit six units applicable to a master's degree.

603. Seminar in Neuromotor Disorders (3)

Prerequisites: Communicative Disorders 524 and 539. Recommended: Concurrent registration in Communicative Disorders 626.
Review of research in diagnosis and theories of treatment for persons with speech and language disorders associated with cerebral palsy and other neuromotor disorders.

604. Seminar in Craniofacial Disorders (3)

Prerequisites: Communicative Disorders 321, 340; and 50 hours of supervised practicum. Recommended: Concurrent registration in Communicative Disorders 626.
Review of research in diagnosis and therapy for persons with cleft palate and other craniofacial disorders.

605. Seminar in Fluency Disorders (3)

Prerequisite: Communicative Disorders 322. Recommended: Concurrent enrollment in Communicative Disorders 626.
Differential diagnosis of stuttering. Individual and group therapy for children and adults with dysfluency problems.

606. Seminar in Voice Pathology (3)

Prerequisites: Communicative Disorders 321, 501, and 524. Concurrent registration in Communicative Disorders 626.
Study of voice problems of structural and functional etiologies. Differential diagnosis of vocal anomalies. Theories and therapy for vocal problems.

607. Phonological Disorders (3)

Prerequisites: Communicative Disorders 512, 517, 526. Recommended: Concurrent registration in Communicative Disorders 626.
Applications of phonological principles and procedures for evaluation and remediation of unintelligible speech patterns in children.

626. Advanced Clinical Practice in Speech-Language Pathology (1) Cr/NC

Three hours of supervision.
Prerequisites: A minimum of three units of Communicative Disorders 526 and/or 546; Communicative Disorders 340; departmental approval; credit or concurrent registration in seminar associated with clinical assignment.

Supervised work with representative advanced speech and language disabilities. Twenty-six hours practicum required per unit. Maximum credit four units. Up to three units may be taken concurrently. Students must have completed or be currently enrolled in the seminar associated with the categories (A-G) that follow in order to register for this course; otherwise, students should register for a unit of Communicative Disorders 526. Transfer students must enroll in one unit of Communicative Disorders 526 prior to 626.

- A. Aphasia: Communicative Disorders 602 (Adult).
- B. Cerebral Palsy and Neuromotor Anomalies: Communicative Disorders 603.
- C. Cleft Palate and Cranio-Facial Anomalies: Communicative Disorders 604.
- D. Stuttering: Communicative Disorders 605.
- E. Articulation: Communicative Disorders 607 or 654.
- F. Language Disorders: Communicative Disorders 602 (Child).
- G. Voice Pathologies: Communicative Disorders 606.

627. Advanced Field Clinical Practice in Speech-Language Pathology (1) Cr/NC

Three hours of laboratory.
Prerequisite: Communicative Disorders 626.
Supervised practice with representative speech and language problems. One unit represents 26 hours of direct clinical practice. Qualified transfer students must enroll in at least one unit of Communicative Disorder 626 prior to 627.

640. Seminar in Psychoacoustics (3)

Prerequisites: Communicative Disorders 542 and credit or concurrent registration in Communicative Disorders 600.
Psychophysical concepts underlying clinical audiology. Relationship of audiologic test results to the conditions under which they were obtained.

644. Medical Audiology (3)

Prerequisites: Communicative Disorders 542 and credit or concurrent registration in Communicative Disorders 600. Recommended: Communicative Disorders 640.
Problems of diagnosis, referral and report writing. Testing in medical setting and medically significant hearing pathologies.

645. Advanced Clinical Practice in Audiologic Assessment (1-2) Cr/NC

Three hours of laboratory.
Prerequisite: Communicative Disorders 545.
Advanced casework in hearing evaluation. Maximum credit four units. Up to two units may be taken concurrently.

646. Advanced Clinical Practice with Hard of Hearing (1) Cr/NC

Three hours of laboratory.
Prerequisites: A minimum of two units in Communicative Disorders 526, 546 and/or 626. Recommended: Credit or concurrent registration in Communicative Disorders 512, 513, and 543 (Module I).
Supervised practice with problem hearing cases. Maximum credit four units. Up to two units may be taken concurrently.

647. Auditory Evoked Potentials and Electronystagmography (3)

Prerequisite: Credit or concurrent registration in Communicative Disorders 600.
Theoretical and practical aspects of auditory evoked potentials, e.g., ABR, MLR, late potentials, and electronystagmography (ENG). (Formerly numbered Communicative Disorders 649.)

647L. Applications of Electrophysiologic Techniques (2)

Six hours of supervised laboratory experience.
Prerequisite: Communicative Disorders 647.
Supervised experience in performing electrophysiologic tests, e.g., auditory evoked potentials and ENG. Emphasis on equipment operation, test procedures, and interpretation of responses. Applies material covered in Communicative Disorders 647.

648. Pediatric Audiology (3)

Prerequisite: Credit or concurrent registration in Communicative Disorders 600.
Auditory assessment techniques for infants and young children. Embryology of auditory system; development of auditory behavior. (Formerly numbered Communicative Disorders 649.)

654. Seminar in Physiological Phonetics (3)

Prerequisite: Communicative Disorders 512.
Physiology underlying the production of continuous speech, including transitional movements, based on a syllabic concept.

656. Advanced Clinical Practice with the Deaf (1) Cr/NC

Three hours of laboratory.
Prerequisites: Communicative Disorders 511, 512, 513, 556.
Supervised clinic practicum at an advanced level with representative deaf cases. Maximum two units per semester; maximum credit four units.

657. Seminar in Differential Diagnosis of the Hearing Impaired (3)

Prerequisites: Communicative Disorders 511, and 626, 646, or 656. Recommended: Concurrent registration in Communicative Disorders 656.
Diagnosis of multiple-handicapped, hearing impaired children; including clinical teaching, critical overview of assessment methods, materials and equipment, prognosis, current philosophies and trends.

658. Seminar in Problems of Deafness (3)

Prerequisites: Communicative Disorders 546 or 556. Recommended: Communicative Disorders 543, 657.
Problems of deafness, evaluation of research, interdisciplinary approach to aural habilitation. Offered every other year. See Class Schedule for specific content and semester offered.

659. Seminar in Education of Deaf-Blind Children and Youth (3)

Prerequisite: Communicative Disorders 656.
Interdisciplinary approach to education of deaf-blind children and youth. Development of communicative competence. Offered in alternate years. See Class Schedule for specific content and semester offered.

670. Seminar in Professional Issues in Communicative Disorders (3)

Prerequisite: Communicative Disorders 626, 645, or 656.
Ethical and legal issues, practice standards, employment and business consideration (including hearing aid dispensing), supervision, and private practice.

696. Selected Topics in Communicative Disorders and Sciences (1-3)

Prerequisite: Graduate standing.
Intensive study in specific areas of audiology, education of hearing impaired, speech and hearing science, and speech-language pathology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

797. Research (2) Cr/NC/SP

Prerequisites: Advancement to candidacy and consent of the graduate adviser.
Research in speech-language pathology, deaf education or audiology. Maximum credit two units applicable to a master's degree. Participation in the department's Professional Development Seminar is required unless waived by the coordinator of the graduate program.

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Communicative Disorders 600 and consent of staff, to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree. Participation in the department's Professional Development Seminar is required unless waived by the coordinator of the graduate program.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval. Participation in the department's Professional Development Seminar is required unless waived by the coordinator of the graduate program.

Computer Science

In the Department of Mathematical Sciences
In the College of Sciences

Faculty

Kasi Anantha, Ph.D., Professor of Mathematical Sciences
Sara Baase, Ph.D., Professor of Mathematical Sciences
Leland L. Beck, Ph.D., Professor of Mathematical Sciences
John L. Carroll, Ph.D., Professor of Mathematical Sciences
Edmund I. Deaton, Ph.D., Professor of Mathematical Sciences
John D. Donald, Ph.D., Professor of Mathematical Sciences
John D. Elwin, Ph.D., Professor of Mathematical Sciences, Chair of Mathematical Sciences
Nenad Marovac, Ph.D., Professor of Mathematical Sciences
Roman W. Swiniarski, Ph.D., Professor of Mathematical Sciences
Marko Vuskovic, Ph.D., Professor of Mathematical Sciences
Carl F. Eckberg, Ph.D., Associate Professor of Mathematical Sciences (M.S. Computer Science Graduate Adviser)
Vernor S. Vinge, Ph.D., Associate Professor of Mathematical Sciences
Roger E. Whitney, Ph.D., Associate Professor of Mathematical Sciences
Kris W. Stewart, Ph.D., Assistant Professor of Mathematical Sciences

Assistantships

Graduate teaching assistantships in computer science are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the Department of Mathematical Sciences.

General Information

The Department of Mathematical Sciences, in the College of Sciences, offers graduate study leading to the Master of Science degree in Computer Science. The areas in which courses are offered include software, systems, architecture, artificial intelligence, and computer science theory.

Master's level research projects are available in the following areas of computer science: distributed systems, multiprocessing, operating systems, graphics, neural networks, formal languages, numerical methods, robotics, signal processing, and computational complexity. Specialized laboratories exist for microprocessor architecture, graphics, and robotics and intelligent machines.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in his/her area.

Specific Requirements for the Master of Science Degree in Computer Science

(Major Code: 07011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following departmental requirements:

1. Complete a minimum of 30 units of courses chosen from computer science and mathematics graduate courses (600-700) and

OFFICE: Business Administration/Mathematics 203
TELEPHONE: (619) 594-6191

approved 500-level courses satisfying the following requirements:

- a. At least 15 units of computer science and mathematics graduate (600-700) courses (excluding 797, 798, 799A).
 - b. At least one course from each of the following:
Programming and Formal Languages: Computer Science 520, 524, 532, 620A, 620B, 624, 632.
Operating Systems and Architecture: Computer Science 572, 574, 576, 670, 672, 674, 678.
Algorithms and Complexity: Computer Science 562, 564, 660, 662, 664, 760.
Applications and Other Topics: Computer Science 514, 550, 552, 554, 556, 558, 566, 650, 656; Mathematics 541, 542, 693A, 693B.
2. Students selecting Plan A must select 799A, Thesis, and meet departmental and University regulations for completion of a thesis. An oral examination on the subject of the thesis is required.
- Students selecting Plan B must pass written comprehensive examinations as determined by the department, complete three units of Computer Science 797, and pass a final oral examination.

Courses Acceptable on Master's Degree Programs in Computer Science

UPPER DIVISION COURSES

514. Database Theory and Implementation (3)

Prerequisites: Computer Science 310 and Mathematics 245.
Database systems architecture. Storage structures and access techniques. Relational model, relational algebra and calculus, normalization of relations, hierarchical and network models. Current database systems. (Formerly numbered Mathematics 582.)

520. Programming Languages: Alternative Designs (3)

Prerequisites: Computer Science 237 and 310.
Formal definition of programming languages including specification of syntax and semantics. A selection of languages from general purpose, functional, object oriented, logic and vector oriented languages. Programming assignments in several languages.

524. Compiler Construction (3)

Prerequisites: Computer Science 237, 310, and either 320 or 520.
Syntactical specification of languages. Scanners and parsers. Precedence grammars. Run-time storage organization. Code generation and optimization. (Formerly numbered Mathematics 575.)

530. Systems Programming (3) I, II

Prerequisites: Computer Science 237 and 310.
Design and implementation of systems software. Relationship between software design and machine architecture. Topics from assemblers, loaders and linkers, microprocessors, compilers, debuggers, editors. Introduction to software engineering. Large project required. (Formerly numbered Mathematics 580.)

532. Software Engineering (3)

Prerequisites: Computer Science 310 and either 320 or 520.
Theory and methodology of programming complex computer software. Analysis, design, and implementation of programs. Team projects required. (Formerly numbered Mathematics 586.)

550. Artificial Intelligence (3)

Prerequisites: Computer Science 108 and either Mathematics 245 or 523.

Heuristic approaches to problem solving. Systematic methods of search of the problem state space. Theorem proving by machine. Resolution principle and its applications. (Formerly numbered Mathematics 576.)

552. Advanced Artificial Intelligence (3)

Prerequisites: Computer Science 310, 550, and either 320 or 520.
Presentation of logic based programming languages and their usefulness in artificial intelligence, including areas such as expert systems and natural language translation. Implementation and use of chaining, recursion, lists. Substantial programming practice. (Formerly numbered Mathematics 577.)

554. Aspects of Interactive Computer Graphics (3)

Prerequisites: Computer Science 310 and Mathematics 254.
Theoretical and practical concepts and software requirements related to use of interactive computer graphics. Mathematical functions used in 3D graphics; data structures and languages both for programming graphical systems and for communication between a user and a graphical system. (Formerly numbered Mathematics 584.)

556. Robotics: Mathematics, Programming, and Control (3)

Prerequisites: Computer Science 320 or 520; Mathematics 254; knowledge of the C programming language.
Robotic systems including manipulators, actuators, sensors, and controllers. Algebraic methods for spatial description of solid objects, manipulator kinematics and control. Robot programming languages and robot programming systems.

558. Computer Simulation (3)

Prerequisites: Computer Science 310 and Mathematics 550.
Methodology of simulation for discrete and continuous dynamic systems. State-of-the-art programming techniques and languages. Statistical aspects of simulation. Students will design, program, execute, and document a simulation of their choice. (Formerly numbered Mathematics 583.)

560. Algorithms and Their Analysis (3) I, II

Prerequisites: Computer Science 310 and Mathematics 245.
Algorithms for solving frequently occurring problems. Analysis techniques, lower bounds. Sorting, merging, graph problems (shortest paths, depth-first and breadth-first search), and others. NP-complete problems. (Formerly numbered Mathematics 578.)

562. Automata Theory (3)

Prerequisite: Mathematics 245 or 521A.
Definition of finite automata. Classification of finite automaton definable languages. Minimization of finite automata. Nondeterministic finite automata. Sequential machines with output. Regular sets and expressions. Introduction to grammars. (Formerly numbered Mathematics 573.)

564. Introduction to Computability (3)

Prerequisite: Mathematics 245 or 523.
Definition of algorithm by abstract (Turing) machines. Universal Turing machines. Primitive recursive and recursive functions. The equivalence of the computational power of Turing machines and recursive functions. Limitations and capabilities of computing machines; the halting problem. (Formerly numbered Mathematics 574.)

566. Queueing Theory (3)

Prerequisites: Computer Science 108 and Mathematics 550.
Performance prediction of computer networks and other systems (e.g., inventory control, customer service lines) via queueing theory techniques. Operational analysis. (Formerly numbered Mathematics 571.)

570. Operating Systems (3) I, II

Prerequisites: Computer Science 310, 370, and knowledge of the C programming language.
File systems, processes, CPU scheduling, concurrent programming, memory management, protection. Relationship between the operating system and underlying architecture. (Formerly numbered Mathematics 585.)

572. Microprocessor Architecture (3)

Prerequisites: Computer Science 370 and knowledge of the C programming language.
Organization and applications of microcomputers. Software aspects and detailed descriptions of several popular microcomputers. Hands-on experience with microcomputers. (Formerly numbered Mathematics 581.)

574. Computer Security (3)

Prerequisites: Computer Science 310; Mathematics 245, 550; and credit or concurrent registration in Computer Science 570.
Principles of computer security and application of principles to operating systems, database systems, and computer networks. Topics include encryption techniques, access controls, and information flow controls.

576. Computer Networks and Distributed Systems (3)

Prerequisite: Credit or concurrent registration in Computer Science 570.
Local area networks and wide area networks; mechanisms for inter-process communication; rules for distribution of data and program functions. (Formerly numbered Mathematics 588 and 682.)

596. Advanced Topics in Computer Science (1-4) I, II

Prerequisite: Consent of instructor.
Selected topics in computer science. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

For additional courses useful to computer scientists, see:

Mathematics 541. Introduction to Numerical Analysis and Computing
Mathematics 542. Introduction to Numerical Solutions of Differential Equations
Mathematics 561. Applied Graph Theory
Mathematics 579. Combinatorics

GRADUATE COURSES

620A. Formal Languages and Syntactic Analysis I (3)

Prerequisites: Computer Science 310, 320 or 520, and 562.
Regular, context-free, context-sensitive, and general grammars. Corresponding machine model recognizers. Chomsky and Greibach normal forms. Closure, decidability and undecidability properties. (Formerly numbered Computer Science 691A.)

620B. Formal Languages and Syntactic Analysis II (3)

Prerequisite: Computer Science 620A.
Properties of deterministic context-free languages. Backtrack and matrix based general parsing techniques. LL(k) and LR(k) based parser generators. Precedence grammars. (Formerly numbered Computer Science 691B.)

624. Advanced Compiler Construction (3)

Prerequisite: Computer Science 524.
LR parsing. Attribute grammars and multipass translation. Intermediate representations. Global optimization. Global data flow analysis. Table compaction techniques. Syntactic error recovery and repair.

632. Advanced Software Engineering (3)

Prerequisite: Computer Science 532.
Theoretical and practical concepts associated with the specification, design, testing, and maintenance of large software systems. Use of automated tools in engineering such systems.

650. Seminar in Artificial Intelligence (3)

Prerequisite: Computer Science 550.

General problem-solving programs, expert problem solving, game-playing programs, pattern recognition and natural language processing. Understanding vision, manipulation, computer decision. May be repeated with new content with approval of graduate adviser. Maximum credit six units applicable to a master's degree. (Formerly numbered Computer Science and Mathematics 676.)

656. Advanced Robotics (3)

Prerequisite: Computer Science 556.

Computer-based techniques for low-, medium-, and high-level robot control including sequential and parallel schemes for robot dynamics, robot programming and robot task planning.

660. Combinatorial Algorithms and Data Structures (3)

Prerequisite: Computer Science 560.

Algorithm design techniques. Network flow and matching. Complexity analysis. NP-completeness, reductions among NP-complete problems. Approximation algorithms for NP-complete problems such as the traveling salesman problem. (Formerly numbered Computer Science 690B.)

662. Theory of Parallel Algorithms (3)

Prerequisites: Computer Science 560 and Mathematics 254.

Models for parallel computation. Parallel algorithms for several common problems including sorting, searching, graph problems, and matrix problems. Complexity of parallel algorithms. Lower bounds on parallel complexity.

664. Theory of Computability (3)

Prerequisite: Computer Science 562 or 564.

Turing machines and other formal models of computation. Recursive function theory. The Ackermann function. Solvable and unsolvable problems. (Formerly numbered Computer Science 690A.)

670. Advanced Operating Systems (3)

Prerequisite: Computer Science 570.

Survey of advanced operating systems including distributed systems. Associated design issues. Case studies. (Formerly numbered Computer Science 692A.)

672. Microcomputer Software (3)

Prerequisite: Computer Science 572.

Design and implementation of a real time operating system for a state-of-the-art microprocessor. Applications of the operating system. (Formerly numbered Computer Science 681.)

674. Advanced Computer Architecture (3)

Prerequisite: Computer Science 570.

Advanced computer architecture, including parallel and distributed architecture, and accompanying software and algorithmic issues. (Formerly numbered Computer Science 692B.)

678. Computer Performance Evaluation (3)

Prerequisite: Computer Science 558. Recommended: Computer Science 566.

Performance evaluation of several aspects of computer systems. Measurement principles and techniques. System models. System optimization. (Formerly numbered Computer Science 695A.)

696. Selected Topics in Computer Science (3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of computer science. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Applications of Computer Science (3)

Prerequisite: Classified graduate standing in mathematics or computer science.

Topic to be chosen from such applications as theorem proving, simulation, learning theory, graphics definition languages. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Mathematics 700.)

720. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced computer science. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

760. Topics in Algorithms (3)

Prerequisite: Computer Science 560.

Topics in algorithms, complexity, and computability. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP

Prerequisite: Six units of graduate level computer science courses.

Research in computer science. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

For additional courses useful to computer scientists, see:
Mathematics 693A-693B. Advanced Numerical Analysis

Faculty

Alicia M. Annas, M.F.A., Professor of Drama, Chair of Department
Anne-Charlotte Harvey, Ph.D., Professor of Drama, Assistant Dean for Academic Affairs, College of Professional Studies and Fine Arts
Michael L. Harvey, Ph.D., Professor of Drama
Margaret McKerrrow, Ph.D., Professor of Drama
Terry L. O'Donnell, D.M.A., Professor of Drama
Mack Owen, Ph.D., Professor of Drama
Beeb Salzer, M.F.A., Professor of Drama
Clarence E. Stephenson, Ph.D., Professor of Drama
Peter F. Latham, Ph.D., Associate Professor of Drama
William N. Reid, M.F.A., Associate Professor of Drama
R. Craig Wolf, M.F.A., Associate Professor of Drama
Joseph J. Bellinghiere, Ph.D., Assistant Professor of Drama, Graduate Coordinator
Paula Kalustian, M.F.A., Assistant Professor of Drama

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships are available to a limited number of qualified students. Application forms and further information may be obtained from the department.

General Information

The Department of Drama, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree and the Master of Fine Arts degree. The Master of Arts degree may be completed in any one of the following areas: acting, theatre history, directing, children's drama, and theatre research. The Master of Fine Arts degree is offered in the areas of costume design, lighting design, scenic design, technical theatre, and musical theatre. The M.A. is a 30-unit program; the M.F.A. a 60-unit program. San Diego State University has one of the best equipped educational theatre plants in the United States. The Dramatic Arts building contains a proscenium-style University Theatre seating 500, with state-of-the-art computer lighting control, and a flexible Experimental Theatre seating 200, rehearsal and recording areas, a scene design drafting room, paint shop, wagon house, spacious scene shop, and fully equipped costume laboratory. The Department of Drama is a member of the National Association of Schools of Theatre (N.A.S.T.).

Master of Arts Degree in Drama**Admission to Graduate Study**

General requirements for admission to the University with classified graduate standing are described in Part Two of this bulletin. In addition, the Graduate Coordinator, along with the specific recommendation of the area adviser, must judge the applicant capable of graduate work in drama. The judgment will be based on (1) the applicant's transcripts of prior academic work; (2) three current and relevant letters of recommendation from individuals familiar with the applicant's academic ability; (3) the applicant's scores on the GRE General Test, and (4) an interview, when appropriate, revealing the applicant's ability to succeed in the chosen area.

Drama

In the College of Professional Studies and Fine Arts

Advancement to Candidacy

All students in the Master of Arts program must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Drama (regardless of area of specialization) are required to have completed Drama 600, and to have removed any deficiencies assigned. It is recommended that all graduate students take Drama 600 during their first semester.

Specific Requirements for the Master of Arts Degree

(Major Code: 10071)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of a minimum of 30 units. Eighteen of the 30 units must be in 600- and 700-numbered courses in drama; an additional 6 units from 500-, 600- or 700-numbered drama courses; and the remaining 6 units may be selected from 500-, 600- or 700-numbered courses in drama or outside departments. PLEASE NOTE: Drama 600, 610, 621, 647A or 647B, and 799A are required courses for all Master of Arts candidates, regardless of area of specialization.

Master of Fine Arts Degree in Drama**Admission to Graduate Study**

In addition to meeting the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for classified graduate standing:

1. Achieve a score of not less than 1000 on the GRE General Test (combined verbal and quantitative).
2. Possess a baccalaureate degree in drama or an approved affiliated field with a grade point average of not less than 2.5 overall in the last 60 units of study attempted, with a 3.0 undergraduate average in the major, and a 3.5 average in those theatre classes considered prerequisites for the M.F.A. emphasis in design, technical theatre, or musical theatre.
3. Complete undergraduate requirements commensurate with the proposed concentration in the M.F.A. program.
4. Complete a minimum of six units of theatre history.
5. Satisfy additional special emphasis requirements listed below.

Students who have not met certain criteria or demonstrate deficiencies in undergraduate preparation or basic skill development, may be granted conditional admission with the understanding that remedial coursework, in addition to the 60 unit M.F.A. program, will be completed prior to advancement to classified standing. Students who do not satisfy the requirements for an M.F.A. degree will not automatically be considered for an M.A. degree. A student holding an M.A. degree in Drama from San Diego State University or any other institution of higher learning must formally apply for the M.F.A. degree. PLEASE NOTE: Applicants holding an M.A. or M.F.A. degree from an accredited institution may transfer up to 30 units upon review and recommendation of the faculty in the area of specialization, and approval of the Graduate Coordinator of the Drama Department.

Students already accepted into the program who request a change of specific concentration at a later date, will be required to meet the admission requirements for the new concentration.

Concentration in Design and Technical Theatre

In addition to meeting the admission requirements listed above, a student must demonstrate outstanding abilities in a particular area of dramatic arts by submitting the following items.

1. Those students primarily interested in design must submit a design portfolio which contains sketches, renderings, graphics, floor plans, elevations, plots, color/fabric swatches, and photographs of productions, revealing the applicant's creative ability in the chosen area or areas of design.
2. Those students primarily interested in technical theatre must submit a portfolio which contains evidence of technical direction and management experiences in scenic, lighting, or costume technology and design.
3. A resume which contains documentation of participation in not less than five full-length theatrical productions.
4. Three letters of recommendation attesting to the candidate's academic, professional and personal qualifications from academic or professional theatre sources.

Concentration in Musical Theatre

In addition to meeting the admission requirements listed above, a student must demonstrate unusual artistic talent in the musical theatre area by providing:

1. A resume of musical theatre accomplishments.
2. An audition, either in person or via videotape, which would include two contrasting vocal selections, two contrasting monologues, and a dance/movement piece.
3. Three letters of recommendation attesting to the candidate's academic qualifications, and level of competence in musical theatre performance in the areas of acting, singing, and dancing.

For specific audition dates and locations, write to the Director, Musical Theatre Program, Department of Drama, San Diego State University, San Diego, CA 92182-0219.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. must have completed 30 units within their official program with a minimum grade point average of 3.0. A minimum of 24 units in the official program must be enrolled in and completed concurrently with or after advancement to candidacy. Students in each concentration must have successfully completed Drama 600 and removed any deficiencies noted by the faculty.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10072)

Concentration in Design and Technical Theatre

Candidates for the M.F.A. with a concentration in Design and Technical Theatre, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a core of courses totaling 30 units as follows: Drama 600, 610, 621, 643, 645, 646A, and 646B. Of these 30 units, 3 units of Drama 643 (Collaborative Studies in Design) must be taken each semester up to the maximum of 12 units. The student must complete 15 units of practicum, internship, and thesis/project under the course numbers: Drama 642, 746, 795, and 799A.

Fifteen elective units are to be selected from additional courses acceptable for graduate credit in the following areas: art, drama, education, English and comparative literature, family studies and consumer sciences, history, industrial studies, linguistics, mass communication,

speech communication, telecommunications and film. In special circumstances courses acceptable for graduate credit in other departments may be selected with the approval of the student's adviser and the Drama Department graduate coordinator.

Candidates will prepare a production thesis project approved by their thesis committee. This project will be supported by a written analysis/apologia. Forty-five of the sixty units required for this program must be completed in courses numbered 600 or above. The remaining units may be selected from 500-, 600-, or 700-numbered courses in drama or outside departments.

At least 30 units of the student's program must be completed in residence at San Diego State University, and the student must be in residence not less than two semesters. No more than six units in 798 will be accepted for credit toward the degree.

Concentration in Musical Theatre

Candidates for the M.F.A. with a concentration in Musical Theatre, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a core of courses totaling 25 units as follows: Drama 520, 555A, 555B, 559, 600, 610, 621, 623, and 650. The student must complete 25 units of studio, voice, internship, practicum, and thesis/project under the course numbers Drama 627, 746, 795, 799A, and Music 650D. The 25 units must include 12 units of Drama 627. One unit of Music 650D must be taken each semester for a maximum of four units.

Ten additional units are to be selected from courses acceptable for graduate credit in the following areas: art, drama, education, English and comparative literature, history, linguistics, mass communication, music, physical education, speech communication, telecommunications and film. In special circumstances courses acceptable for graduate credit in other departments may be selected with the approval of the student's adviser and the Drama Department graduate coordinator.

Candidates will prepare an adjudicated performance thesis project established and approved by their thesis committee. This project will be supported by a written analysis/apologia.

Courses Acceptable on Master's Degree Programs in Drama

UPPER DIVISION COURSES

511. Styles in Creative Drama (3)

Prerequisite: Drama 310.

Advanced techniques and procedures in the teaching of creative drama. Lectures and reading on the application of creative drama with emphasis on the different styles of creative drama available to the practitioner. Practical experience through work with children.

515. Directing for Children's Theatre (3) II

Prerequisite: Drama 315.

Staging and technical problems relative to the production of plays for children; casting procedures, blocking and characterization principles, rehearsal and scenic techniques.

520. History of Musical Theatre (3) I

Prerequisite: Drama 460A.

Musical theatre from early Viennese operettas to musicals of modern times; representative works.

523. Stage Combat (2) II

Four hours of activity.

Prerequisite: Drama 232 for undergraduates. Admission to M.F.A. acting program for graduate students.

Skills and choreography of armed and unarmed stage combat. Performance application to selected scenes from world drama.

532. Advanced Acting and Directing (3) I

Prerequisite: Drama 231.

Acting students admitted by audition only; directing students by interview. Problems in characterization in contemporary drama, and in plays of Ibsen, Strindberg, Chekhov, and Shaw.

533A-533B. Theory and Styles in Acting and Directing (3-3)

Prerequisite: Drama 231.

Acting and directing problems in theory and style related to the production of plays from great periods in theatre history, with attention to characterization, dramatic values, creative directing and production approaches. Semester I: Shakespearean tragedy and history, melodrama, and farce. Semester II: Greek tragedy, Shakespearean comedy.

540. Styles in Scenic Design (3) II

Prerequisites: Drama 420 and 440.

History of scenic design and the application of contemporary styles to various types of dramatic production for stage, television and cinema.

545A-545B. Stage Lighting (3-3) I, II

Two lectures and three hours of laboratory.

Prerequisites: Drama 245. Drama 545A is prerequisite to 545B.

Light, color, lighting instruments, and control equipment, including the design and planning of lighting for plays.

546. Computer Systems and Special Effects Techniques in Stage and Television Lighting (3)

Two lectures and three hours of laboratory.

Prerequisite: Credit or concurrent registration in Drama 545B.

Functional study of computer systems in stage and television lighting with emphasis on realizing effective methods of using such systems in production.

551. Costume, Movement, and Manners (3) I

Prerequisite: Drama 130 or 250.

Interrelationship of period costumes and the movement and manners of the time; and their application on the stage.

552. Costume History and Design for the Theatre (3) II

Two lectures and three hours of laboratory.

Prerequisite: Drama 452.

A continuation of Drama 452 to include chronological study of clothing and theatrical dress from the Restoration period to 1930, with practical applications in terms of contemporary costume design for the theatre.

554. Costume Construction Techniques (3)

Two lecture-demonstrations and three hours of laboratory.

Prerequisite: Drama 250.

Period pattern drafting, draping, cutting, construction. Wig, millinery, armor, mask, accessory construction. Costume paint and dye techniques.

555. Musical Theatre Dance (2) I, II

Four hours of activity.

Prerequisite: By audition only prior to beginning of semester.

Musical theatre dance styles and forms for actor, singer, dancer and director as they pertain to arranged composition of a musical theatre production. (Formerly numbered Drama 555.)

A. Musical Theatre: Ballet

B. Musical Theatre: Jazz and Tap

559. Musical Theatre Stage Direction (3) II

One lecture and four hours of activity.

Prerequisite: Drama 459.

Experience and group evaluation in performance and direction of musical theatre scenes; attendance at musical theatre performances and other selected musical presentations. Problems confronting a musical theatre stage director.

560. Rendering for Theatrical Designer (1)

Prerequisites: Drama 250, 440.

Development of skills necessary for theatrical designer to complete successful set and costume renderings. Techniques, media, and portfolio presentation. Maximum credit three units.

589. Playwriting: The Full Length Play (3)

Two lectures and two hours of activity.

Prerequisite: Drama 420 or English 578. Recommended: English 588.

Format and techniques of writing the full-length play. Problems in characterization, plot, and dialogue. Reading and analysis of full-length plays written by students.

596. Selected Topics in Drama (1-3) I, II

Prerequisite: Twelve units in drama.

A specialized study of selected topics from the areas of drama. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Research and Bibliography (3)

Basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research as it relates to the various areas of theatre. Recommended for first semester of graduate work, and prerequisite to advancement to candidacy.

610. Aesthetics for the Stage (3)

Prerequisites: Drama 600 and admission to M.A. or M.F.A. program in drama.

Selected aesthetic theories (i.e., aesthetic distance, empathy, illusion) and their significance in contemporary theatre. Class presentations in techniques of conceptual thought including stylistic approaches, unity of design, and textual communication.

621. Seminar in Theories of the Theatre (3)

Prerequisites: Drama 420, 600.

Theories of dramatic literature and performance, reflecting major stylistic movements and aesthetic philosophies of the stage from the classical Greeks to today (e.g., Aristotle, Lessing, Appia, Brecht, and Grotowski).

623. Seminar in Musical Theatre Script and Score Analysis (3)

Prerequisite: Credit or concurrent registration in Drama 420.

Representative works from the musical theatre spectrum analyzed in terms of dramatic and musical content, environment, action, character and style.

627. Musical Theatre Studio (4)

Eight hours of activity.

Prerequisite: Open to M.F.A. musical theatre students. Others by audition.

The integration of acting, singing, and dancing skills with emphasis on individual problems. Maximum credit twelve units applicable to the M.F.A. degree.

635. Seminar in Children's Dramatics (3)

Prerequisites: Drama 310 and 515.

Modern developments and trends in children's theatre and creative drama in educational, civic and professional programs in the United States and England.

642. Theatre Practicum Skills (3) Cr/NC

Prerequisite: Admission to the M.F.A. program.

Twelve hours per week in laboratory and workshop experience in three design areas (lighting, scene design, costume).

Investigation and application of those skills necessary to the function of a theatrical design artist in theatrical scene design, lighting design or costume design.

Experience and instruction in drafting, painting, color mixing, costume and pattern cutting, lighting and projection techniques, slide preparation, construction and use of equipment and materials. (Formerly numbered Drama 746A.)

643. Collaborative Studies in Design (3)

Prerequisite: Admission to M.F.A. program in Design. This course must be repeated each semester by the M.F.A. Design student for a maximum of 12 units.

Design of theatrical productions with emphasis on artistic collaboration and integration of scenery, costumes and lights. Attention to graphic presentation techniques as well as designs produced.

644. Seminar in Stage Direction (3)

Prerequisite: Drama 457.
Research projects in the aesthetic principles and practices of stage direction with an emphasis on theory, technique and historical development.

645. Seminar in Lighting for Stage and Television (3)

Prerequisite: Drama 545A or 545B.
Projects concerned with the aesthetic and technical problems of stage lighting.

646. Seminar in Design for Stage and Television (3)

The principles of design in the theatre with an emphasis on the historical development of theatrical costume or scenic environment. The investigation of recent tendencies in styles and their evolution. Each section may be taken once for credit.

A. Costume Design

Prerequisite: Drama 452 or 552.

B. Scenery Design

Prerequisite: Drama 448 or 540.

647. Seminar in History of Theatre and Drama (3)

Prerequisites: Drama 420, 460A and 460B.

A. British and Continental Theatre

B. American Theatre

648. Seminar in Producing the European Play (3)

Prerequisites: Drama 420, 460A, 460B, and 600.
Problems in producing works of such playwrights as Ibsen, Strindberg, Chekhov, Shaw. Maximum credit six units applicable to a master's degree.

649. Topics in World Theatre (1-3)

Prerequisite: Admission to M.A. or M.F.A. program in drama.
Intensive study in specific areas of world theatre. Forms, technologies, genres, cultural expressions, and contemporary developments. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to the M.A. or M.F.A. degree in drama.

650. Seminar in Musical Theatre Dance Repertory (3)

Prerequisites: Drama 555A, 555B, 623.
Intensive study of the various choreographic styles of the musical theatre from the viewpoint of the choreographer and director.

746. Theatre Internship (3) Cr/NC

Prerequisites: Drama 600 and consent of Graduate Coordinator and Program Director.

Twenty-four hours per week in laboratory and workshop field experience in one of three design areas (lighting, scene design, costume design) or musical theatre at an approved professional theatre. (Formerly numbered Drama 746B.)

795. Practicum in Theatre Arts (1-6)

Prerequisite: Drama 600.

Faculty supervised projects in scene design, costume design, lighting design, musical theatre, performance or direction leading to public performance of a full-length play. Maximum credit six units.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Project/assignment to be arranged with Graduate Coordinator and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and Advancement to candidacy. Drama 795 (Practicum in Theatre Arts) is a prerequisite if the student elects the preparation of a project.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Norris C. Clement, Ph.D., Professor of Economics
Roger S. Frantz, Ph.D., Professor of Economics
Louis C. Green, Ph.D., Professor of Economics
Renatte K. Hageman, Ph.D., Professor of Economics
Arthur E. Kartman, Ph.D., Professor of Economics
J. William Leasure, Ph.D., Professor of Economics
Murugappa C. Madhavan, Ph.D., Professor of Economics (Graduate Adviser)
Woo Hyun Nam, Ph.D., Professor of Economics
Dean O. Popp, Ph.D., Professor of Economics, Associate Vice President for Faculty Affairs
Mark A. Thayer, Ph.D., Professor of Economics, Chair of Department
Yiannis P. Venieris, Ph.D., Professor of Economics
Shoshana A. Grossbard-Shechtman, Ph.D., Associate Professor of Economics
John W. Hambleton, Ph.D., Associate Professor of Economics
Michael C. Naughton, Ph.D., Associate Professor of Economics
Harinder Singh, Ph.D., Associate Professor of Economics
Douglas B. Stewart, Ph.D., Associate Professor of Economics
James B. Gerber, Ph.D., Assistant Professor of Economics
Danny Steinberg, Ph.D., Assistant Professor of Economics
Walter H. Vogt, Ph.D., Assistant Professor of Economics

Assistantships

Graduate assistantships in economics are available to a limited number of qualified students. Application forms and additional information may be obtained from the Graduate Adviser of the Department of Economics.

Scholarships

Annually the Center for Public Economics awards the \$1000 Henry Cramer scholarship, the \$600 Sidney Evans scholarship, the \$500 Walter Weiss scholarship, the \$600 Henry George scholarship, and a general \$500 scholarship.

General Information

The Department of Economics, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Economics. After completing the core analytical courses, students may elect general economic applications or focus on (1) microeconomic behavior and public economics or (2) macroeconomic performance and development policy. Courses in the graduate program are designed to provide advanced training in economics both for students who plan to terminate their graduate studies at the master's level and for those who plan additional graduate studies leading to the doctoral degree in economics or related fields. Special research facilities include the Center for Public Economics and the Social Science Research Laboratory of the College.

Admission to Graduate Study

General requirements for admission to the University with classified graduate standing are described in Part Two of this bulletin. In addition, the Graduate Committee of the Department must judge the applicant capable of graduate work in Economics. The Committee's judgment will

Economics

In the College of Arts and Letters

be based on (1) the applicant's transcripts of prior academic work; (2) three letters of recommendation from individuals familiar with the applicant's academic ability; and (3) the applicant's scores on the GRE General Test (combined verbal and quantitative). The letters of reference should be addressed directly to the Graduate Adviser of the Department of Economics. Official transcripts must be received by the Admissions Office directly from the institutions attended. All documents should be on file by March 31 for fall admission and by November 30 for spring admission. Normally students should attempt to enter for fall semester.

Applicants will be expected to have completed Economics 307, 320, 321, and 341 or the equivalents. Applicants whose preparation in economics and mathematics is judged inadequate by the Graduate Committee may be admitted with Conditional Graduate Standing (classified). Students so admitted will be required to remove the deficiency by satisfactory performance on placement examinations or by additional coursework within an amount of time specified by the Graduate Adviser.

Advancement to Candidacy

In addition to the general requirements to candidacy described in Part Two of this bulletin, the student must have satisfactorily completed Economics 610, 620, 630, and 640 with a GPA of 3.0 and no grade less than a B-.

At the time of advancement to candidacy, students selecting Plan A must have a thesis proposal including an oral defense approved by the Department Graduate Committee.

Specific Requirements for the Master of Arts Degree

(Major Code: 22041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units. Each program must include Economics 610, 620, 630, and 640. No program may contain more than a combined total of six units of 500-level Economics courses or approved courses outside economics.

Written comprehensive examinations covering the core fields of mathematical economics, macroeconomics, microeconomics, and econometrics are required for Plan B students. Students selecting Plan A must include Economics 799A in their program and complete a master's thesis. No program may contain more than six units from Economics 795, 797, 798, and 799A. Students selecting Plan B must take Economics 740A and 740B.

As an alternative to electing a general program, the student may choose to specialize in (1) microeconomic behavior and public economics or (2) macroeconomic and development policy. To specialize in (1) the student must select at least nine units from the seminar electives listed under Economics 700, 710, and 750 below. To specialize in (2) the student must choose at least nine units from Economics 720, 730, and 750.

Microeconomic Behavior and Public Economics Specialization

Economics 700. Seminar in Microeconomic Applications
A. Seminar in Industrial Organization and Firm Behavior (3)
B. Seminar in Labor Economics (3)
C. Seminar in Economic Issues in Demography (3)
D. Seminar in Experimental Economics (3)

- Economics 710. Seminar in Public Economics**
 A. Seminar in Environmental Issues (3)
 B. Seminar in Public Expenditures (3)
 C. Seminar in Urban and Regional (3)
 D. Seminar in Regulation (3)
 E. Seminar in Tax Policy (3)

Macroeconomic and Development Policy Specialization

- Economics 720. Seminar in Development and Planning**
 A. Seminar in Development Economics (3)
 B. Seminar in Development Planning (3)
 C. Seminar in International Trade and Commercial Policy (3)

- Economics 730. Seminar in Macroeconomic Policy**
 A. Seminar in National Monetary Institutions (3)
 B. Seminar in International Monetary Policy (3)
 C. Seminar in Business Cycles (3)
 D. Seminar in Macroeconomic Modeling and Prediction (3)

- Economics 750. Seminar in Economic History and Institutions**
 (either specialization)
 A. Seminar in U.S. Economic History (3)
 B. Seminar in Economic Growth in Historical Perspective (3)
 C. Seminar in Contemporary Economic Systems (3)

Courses Acceptable on Master's Degree Programs in Economics

UPPER DIVISION COURSES

- 502. Public Economics (3)**
 Prerequisite: Economics 321.
 General equilibrium. Externalities of consumption and production, their impact on allocative efficiency. Theory of social wants and public goods supply. Theoretical treatment of individual and community preference ordering and decision making. Proposals for improving the allocation of resources.
- 505. Welfare Economics (3)**
 Prerequisite: Economics 321.
 Theories of individual and social well-being; economic and ethical bases of optimum welfare arrangements; individual values and social decision making; tests of improvement; interdependence and externalities; public and private sectors; properties of social welfare functions.
- 520. Advanced Economic Theory (3)**
 Prerequisite: Economics 320.
 Recent contributions to the advanced theory of the firm, consumer demand, employment and growth.
- 555. Economic Analysis of Environmental Quality (3)**
 Prerequisites: Economics 321 and Mathematics 121 or 141 or 150.
 Examination of materials balance, interface between economic and ecological systems, and comprehensive waste residuals management. Economic analysis of population growth and environmental degradation, preservation vs. development issues, global environmental problems and international law.
- 561. International Trade Theory (3)**
 Prerequisites: Economics 320 and 321.
 The pure theory of international trade and commercial policy.
- 562. International Economic Expansion and Dependence (3)**
 Prerequisite: Economics 313 or 365 or 464.
 Explores various theories of imperialism and dependence, the behavior of multinational corporations, and role of state from Marxian and other perspectives. Theories examined in terms of experience of specific countries (e.g., Mexico).

- 565. U.S.-Mexico Economic Relations (3)**
 Prerequisite: One course in economics.
 Mexico's socioeconomic development since World War II. Problem areas affecting the U.S. including foreign trade, multinational corporations, energy, migration patterns and border relations.
- 592. International Monetary Theory and Policy (3)**
 Prerequisite: Economics 320 or 490.
 Balance of payments, international capital movements and foreign exchange in relation to current theories and policies.
- 596. Experimental Topics (3)**
 Prerequisite: Consent of instructor.
 Intensive study in specific areas of economics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

- 603. Economic Analysis (3)**
 Prerequisite: Classified graduate standing.
 Economic analysis of the firm in a market economy and the economics of national income determination. Not open to students with credit for Economics 320 or 321. Not applicable toward a master's degree in economics.
- 610. Mathematical Economics (3)**
 Prerequisites: Economics 307 and credit or concurrent registration in Economics 320 and 321.
 Static and dynamic modeling of linear and nonlinear economic systems. Optimization techniques, matrix algebra, quadratic forms, and difference equations. Cost functions, production functions and duality.
- 620. Macroeconomic Theory (3)**
 Prerequisites: Economics 320, 321, and credit or concurrent registration in Economics 610.
 Static and dynamic theories of income, employment, and inflation in open and closed economies with emphasis on policy analysis. Alternative theories of investment and consumption and the role of expectations in the short and long run.
- 630. Microeconomic Theory (3)**
 Prerequisites: Economics 307, 320, 321, and credit or concurrent registration in Economics 610.
 Theories of the consumer, the firm, and the market. Topics in welfare and general equilibrium. Duality and uncertainty.
- 640. Econometrics (3)**
 Prerequisites: Economics 341 and 610.
 Measurement in economics. Use of economic models involving multiple regression analysis, simultaneous equation systems, and time series analysis.
- 696. Experimental Topics (3)**
 Prerequisite: Consent of instructor.
 Intensive study in specific areas of economics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.
- 700. Seminar in Microeconomic Applications (3)**
 Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.
 Microeconomic applications to individual, firm, or government. Maximum credit six units of Economics 700A, 700B, 700C, 700D applicable to a master's degree.
 A. Seminar in Industrial Organization and Firm Behavior
 B. Seminar in Labor Economics
 C. Seminar in Economic Issues in Demography
 D. Seminar in Experimental Economics
- 710. Seminar in Public Economics (3)**
 Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.
 Government in a market economy. Impact on individual and firm behavior. Maximum credit six units of Economics 710A, 710B, 710C, 710D, 710E applicable to a master's degree.
 A. Seminar in Environmental Issues
 B. Seminar in Public Expenditures
 C. Seminar in Urban and Regional
 D. Seminar in Regulation
 E. Seminar in Tax Policy
- 720. Seminar in Development and Planning (3)**
 Prerequisites: Economics 620 or classified standing in another department and consent of instructor.
 Development process and policies. Planning techniques. Relations among developing and developed countries. Maximum credit six units of Economics 720A, 720B, 720C applicable to a master's degree.
 A. Seminar in Development Economics
 B. Seminar in Development Planning
 C. Seminar in International Trade and Commercial Policy
- 730. Seminar in Macroeconomic Policy (3)**
 Prerequisites: Economics 620, credit or concurrent registration in Economics 640, or classified standing in another department, and consent of instructor.
 Applications of macroeconomics to open economics. Maximum credit six units of Economics 730A, 730B, 730C, 730D applicable to a master's degree.
 A. Seminar in National Monetary Institutions
 B. Seminar in International Monetary Policy
 C. Seminar in Business Cycles
 D. Seminar in Macroeconomic Modeling and Prediction
- 740A. Seminar in Applied Economic Research (3)**
 Prerequisites: Advancement to candidacy and 15 units credit from the approved program, including Economics 610, 620, 630, and 640. Concurrent registration in Economics 740B.
 Advanced treatment of research design and methodology. Application of empirical techniques to selected problems.
- 740B. Workshop in Applied Economics Research (3)**
 Prerequisites: Advancement to candidacy and 15 units credit from the approved program, including Economics 610, 620, 630, and 640. Concurrent registration in Economics 740A.
 Application of economic research techniques. Each student will choose, develop, and present an original research project.
- 750. Seminar in Economic History and Institutions (3)**
 Prerequisites: Economics 620, credit or concurrent registration in Economics 640, or classified graduate standing in another department, and consent of instructor.
 Economic development in historical perspective. Maximum credit six units of Economics 750A, 750B, 750C applicable to a master's degree.
 A. Seminar in U.S. Economic History
 B. Seminar in Economic Growth in Historical Perspective
 C. Seminar in Contemporary Economic Systems
- 795. Internship in Economics (3) Cr/NC**
 Prerequisites: Economics 610, 620, 630, 640 and approval of graduate adviser.
 Students will be assigned to various jobs in which economics theory can be applied to decision making. Supervision will be shared by the graduate adviser and on-the-job supervisor.
- 797. Research (3) Cr/NC/SP**
 Prerequisites: Classified graduate standing and consent of instructor.
 Independent research project in an area of economics.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
 Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
 Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
 Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Education

In the College of Arts and Letters

General Information

The College of Education offers graduate study leading to the Master of Arts degree in Education with concentrations in the following: community college curriculum and instruction, counseling, educational technology, elementary curriculum and instruction, reading education, secondary curriculum and instruction, administration and supervision, special education, educational research, and policy studies in language and cross-cultural education. Some of these concentrations are designed to permit concurrent completion of the requirements for the correspondingly named advanced credentials.

Graduate study is also offered leading to the Master of Science degree in Counseling and the Master of Science degree in Rehabilitation Counseling.

The Ph.D. degree in Education with a Multicultural Component is offered cooperatively with The Claremont Graduate School. Inquiries concerning this program should be addressed to the Director of Doctoral Programs, College of Education.

Section I. Doctoral Program

Admission to Doctoral Study

To be considered for admission to the joint SDSU/CGS program, students must meet the general requirements for admission to both institutions with classified (full) graduate standing as outlined in the current respective bulletins. These include a baccalaureate degree from an accredited institution, good academic standing in the last institution attended, and an acceptable score on the Graduate Record Examination. Normally, applicants are expected to hold a master's degree in education from an acceptable accredited institution. Experience in the field is desirable. Students are admitted only in the fall of each academic year. Applicants must submit copies of all transcripts of previous college work, three letters of recommendation, a 1000-word personal statement and results of the Graduate Record Examination. Personal interviews are conducted for the most promising applicants.

Specific Degree Requirements for the Doctor of Philosophy Degree in Education

(Major Code: 08011)

The cooperating faculties at San Diego State University and The Claremont Graduate School represent diverse research and teaching interests. Under their stewardship students may prepare themselves for qualifying examinations and for dissertation research in many areas including organization and administration, curriculum and instruction, special education, learning theory, human growth and development, applied linguistics reading and higher education. In addition to the traditional concerns of advanced study in education, the program seeks to explore the effects of culture on learning and teaching and to investigate ways to meet the needs of all students in a pluralistic society.

A minimum of 48 semester units of residency, 24 at each institution, is required before a student is eligible to take qualifying examinations. In addition to these residency units, additional coursework may be needed before the student is competent to conduct dissertation research. After successful completion of qualifying examinations, the student is advanced to candidacy and enters the dissertation phase of the program.

Students seeking admission to the Joint Doctoral Program in Education should write directly to the Director of the program, Dr. W.E. Piland,

requesting application materials. Upon admission to the program, the student is guided by the requirements for the doctoral program given in Part Two of this bulletin and those listed under Education in The Claremont Graduate School Bulletin.

Faculty

The following members of the cooperating institutions participate in the Joint Doctoral Program in Education and are available for direction of research and as members of joint doctoral committees:

San Diego State University

Director: William E. Piland

Faculty: Berg, Espinosa, Flood, Kuhlman, Lapp, Lewis, Lynch, Ochoa, Rossett, Santa Cruz

The Claremont Graduate School

Coordinator: Philip Dreyer

Faculty: Briner, Douglass, Drew, Hale, Kerchner, Poplin, Regan, Schuster, Smith, Weeres

Section II. Master's Degree Programs

Master of Arts Degree in Education

Admission to Graduate Study

The student must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, the student must have completed a minimum of 12 units in professional education courses, and must either be admitted to the program of teacher education or hold a valid California credential, other than an emergency or provisional credential, before he or she will be recommended by the school for classified graduate standing. (This is not applicable to students in the Departments of Administration, Rehabilitation and Postsecondary Education, Counselor Education, and Educational Technology.)

Advancement to Candidacy

A student desiring a Master of Arts degree in Education with a concentration in community college curriculum and instruction, counseling, educational research, educational technology, elementary curriculum and instruction, reading education or secondary curriculum and instruction may be advanced to candidacy upon completion of the basic requirements as described in Part Two of this bulletin. A student desiring a concentration in administration and supervision must, in addition to the above, meet specific requirements for admission to the appropriate advanced credential program. A student desiring a master's degree concentration in counseling, policy studies, or in special education must also meet specific admission requirements. (For further information, refer to the College of Education, Office of Graduate Programs, Room Education 100K, or to the coordinators of the respective programs. Students in Counselor Education should go directly to the department for further information.)

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for admission to the University with classified graduate standing and the credential requirements as applicable, the student must satisfy the basic requirements for the master's degree described in Part Two of this bulletin. In addition, the student must

meet the requirements specified for one of the concentrations in Education (described below). Courses common to all concentrations are Education 690 and Plan A, which requires Education 799A, or Plan B in which two options are available, Education 791A-791B or Education 795A-795B. All applicants for the Master of Arts degree in Education must pass a comprehensive examination.

The Comprehensive Examination

This examination, designed to evaluate the achievement in the specific area of the student's concentration, is required of all candidates for the master's degree in education. A student is eligible to take the comprehensive examination only after advancement to candidacy.

The examination is offered near the midpoint of each semester. Reservation must be made at least one week in advance of the examination. For information on exact dates, and for a reservation, check with the Office of Graduate Programs, College of Education, Room Education 100K, or with the coordinators of the respective programs.

Selection of Plan A or Plan B

In general, applicants will be programmed for Plan B, the seminar plan. After the student is approximately half way through the program, has secured an adviser and established a thesis plan, permission to transfer to Plan A may be requested. Plan A is designed for students who have a particular research problem they wish to investigate in some detail. Requests for transfer to Plan A must be prepared as an official change in program for the master's degree, countersigned by the faculty adviser, and submitted to the Office of Graduate Programs in the College of Education.

Both Plan B options provide students the opportunity (1) to have two experiences which emphasize research or evaluation and writing, (2) to participate actively in the projects of the other members of the seminar, and (3) to subject their own work to critical evaluation by the other seminar members. Both plans require the ability to formulate and define research or evaluation problems, to assemble data pertinent to the problem, to draw conclusions, and to present the study in acceptable written form. It is expected that the two seminars will be at least as demanding as the thesis with respect to the difficulty and quantity of work required. Selection of one of the Plan B options must be made with the approval of the departmental faculty adviser.

Course Requirements

Note: Students are requested to consult with the appropriate master's degree adviser prior to taking any coursework leading to the master's degree. Students are urged to take Education 690 (3 units) as early as possible in their first graduate year.

Concentrations

Administration and Supervision (Major Code: 08271)

The Master of Arts degree in Education with a concentration in educational administration and supervision is designed to provide increased knowledge and skill for the prospective administrator or supervisor. The program is intended for those who wish to pursue administrative or supervisory positions in schools or training programs.

In order to apply for this concentration, a student will complete an application for admission to both the University and the Educational Administration program. All applications should include two letters of recommendation from school district or agency where employed. All applicants should note that academic degree and experience required varies with the career goal of the student. All students will discuss the degree curriculum with the graduate adviser during the first semester in the program.

Students in this concentration may earn a degree without an Administrative Credential or in combination with the California Preliminary Administrative Services Credential. The degree without the credential is designed for foreign school administrators, school business managers, administration of educational programs in private industry, civil services, or the nonprofit sector, administration of technical and vocation programs, or those who have other administrative objectives in educational

fields. Candidates who intend to pursue administrative careers in California public schools, grades K-12, will need to obtain the Preliminary Administrative Services Credential and then the Professional Administrative Services Credential. Credential candidates are advised to satisfy the requirements for the master's degree in conjunction with the credential.

Specialization in the Administration of Occupational and Technical Education: Students specializing in the Administration of Occupational and Technical Education should complete a core sequence of Administration, Rehabilitation and Postsecondary Education 600, 610, 655; Educational Technology 544. Recommended electives to be approved by the program adviser include Administration, Rehabilitation and Postsecondary Education 680, 760; Educational Technology 572, 684, 775 and Industrial Technology 721, 723, and 724.

Specialization prerequisites include Educational Technology 540, and teaching experience or other related experience with the approval of the adviser.

Requirements for the Master of Arts degree in Education with a Concentration in Educational Administration and Supervision:

1. Core program (6 units)
 - ARP 600 Principles of Educational Administration (3)
 - ARP 610 Educational Leadership (3)
2. Electives selected with the approval of the graduate adviser (12-15 units)
3. ED 690 Procedures of Investigation and Report (3)
4. ARP 655 Administering Educational Organizations (3)
Must be taken after advancement to candidacy.
5. Research (3-6 units)
 - ED 791A-791B Evaluation (3-3 units) or
 - ED 795A-795B Seminar (3-3 units) or
 - ED 799A Thesis (3 units)

Requirements for the Preliminary Administrative Services Credential (Credential Code: 00501) (Academic coursework and experience required vary with the career goal of the student - see adviser):

1. Prerequisites:
 - a. An application for admission to the Educational Administration program.
 - b. Basic Skills Examination (CBEST).
 - c. Two letters of recommendation from school district or agency where employed and last two annual performance reviews.
 - d. A counseling interview with a program area faculty.
 - e. Valid California credential for teaching, pupil personnel services, school nursing, speech pathology, or librarianship.
 - f. Three years of successful, full-time K-12 school experience.
 - g. Students must have completed at least 1 unit (or the equivalent) of coursework dealing with computers in education.
2. Possession of a master's degree in Educational Administration or another field related to educational practice.
3. ARP 600 Principles of Educational Administration 3
- ARP 610 Educational Leadership 3
- ARP 630 Curriculum Design and Management 3
- ARP 652 Seminar in Instructional Improvement and Evaluation 3
- ARP 655 Administering Educational Organizations 3
- ARP 660 Field Experience in Educational Administration 10
- Electives selected with approval of adviser 3
- 28

4. All students must meet the state mandated requirement for competencies needed to serve the handicapped. Consult with a program adviser in the Department of Special Education for coursework and waiver requirement.

Requirements for the Professional Administrative Services Credential: (Credential Code: 00502) Candidates pursuing the Professional Administrative Services Credential can complete up to one-half of their program of study prior to employment in a credentialed administrative position. The remaining half of the credential **must** be completed both while holding an administrative position and within a three year

period of time of starting the program. Prerequisites to the credential program:

1. Admission to graduate status at SDSU.
2. Admission to the Educational Administration program.
3. Possession of a valid Preliminary Administrative Services Credential or a Clear Administrative Service Credential.
4. Two letters of recommendation from knowledgeable field references.
5. Two most recent performance evaluations.
6. Letter of recommendation from superintendent or designee, and formal commitment of participating school district to provide release time for internship requirement.
7. Minimum grade point average of 3.25 in graduate study.

Program

Successful completion of a program of studies consisting of 24-30 units which includes the following courses or approved equivalents:

	Units
ARP 701 School Law and Legal Issues for Administrators	3
ARP 715 School Finance and Fiscal Management	3
ARP 720 Educational Personnel Management and Practices	3
ARP 747 Instructional Leadership in a Multicultural Society	3
Administrator Competency Evaluation and Assessment requirement:	12
ARP 798 Special Study in Assessment	4
Field Experience Requirement:	
ARP 760 Internship in Educational Administration	8-12
Total	24-28

Notes:

1. The program of study leading to this credential is the result of collaborative planning among the candidate, candidate's school district representative, Administrative Services Credential Coordinator, and faculty adviser.
2. This professional evaluation activity will result in forming the framework for an individualized course of study for the internship experience.
3. Upon faculty advisement, students may be required to complete an additional six units of coursework.
4. Issuance of the Professional Administrative Services Credential also requires completion of two years of successful, full-time, K-12 administrative experience earned while holding the Preliminary Administrative Services Credential.

Community College Curriculum and Instruction (Major Code: 08061)

The Master of Arts degree in Education with a concentration in Community College Curriculum and Instruction is designed as the base for applicants to increase professional competence in the form of more breadth, depth and technical skill in curriculum and instruction; either generally or in selected subject areas of specialization in the Community College. The program is intended for those educators who wish to develop their own professional competence as faculty as well as those who wish to become instructional supervisors, department chairpersons or other supervisory instructional personnel in postsecondary education or in other settings involved with adult education.

1. Prerequisites:
 - a. A basic background in education (B.A., B.V.Ed. or teaching credential).
 - b. Experience in the community college setting.
2. Community College Core Program (12 units)
 - ARP 605 The Community College (3)
 - ARP 611 Curriculum Theory and Development in Postsecondary Education (3)
 - ARP 631 Seminar in Instructional Methods and Materials: Community College (3)
 - ARP 730 Seminar in Adult Learning (3)
3. Electives (9-12 units) selected with adviser approval. Six units may be in cognate area.
4. ED 690 Procedures of Investigation and Report (3)

5. Research (3-6 units)
 - ED 791A-791B Evaluation (3-3 units) or
 - ED 795A-795B Seminar (3-3 units) or
 - ED 799A Thesis (3 units)

Counseling (Major Code: 08261)

The Master of Arts degree in Education with a concentration in Counseling provides a sequential and integrated program of study in the theories, research, and practice of counseling. The program, usually with Plan A, is designed to provide the student with the education and experiences necessary to prepare for doctoral studies in counseling. The program, usually with Plan B, is intended for individuals who seek to increase their understanding of human behavior and improve their interpersonal skills in their current profession or occupation. This program does not lead to credentials or licensure in counseling. Individuals seeking California credentials in school counseling or school psychology or licensure in marriage, family, and child counseling are referred to the description of the Master of Science in Counseling program provided in the Counselor Education section of this bulletin. For further information, see the Graduate Adviser in the Department of Counselor Education.

1. Prerequisite: Admission to the Department of Counselor Education (see Counselor Education section of this bulletin).
2. Education 690 Procedures of Investigation and Report (3).
3. Core program (minimum of 15 units):
 - a. Common Core (3 units):
 - CNED 600 Counseling Communication Skills (2)
 - CNED 600L Counseling Prepracticum (1) Cr/NC
 - b. Foundations (minimum of 6 units):
 - CNED 610A Determinants of Human Behavior: Personality (3)
 - CNED 610B Determinants of Human Behavior: Social and Cultural (3)
 - CNED 610C Determinants of Human Behavior: Development (3)
 - CNED 610D Determinants of Human Behavior: School Learning (3)
 - CNED 615 Seminar in Multicultural Dimensions in Counseling (3)
 - c. Theory, Research, and Techniques (minimum, of 6 units):
 - CNED 640 Theory and Process of Appraisal (3)
 - CNED 650 Theory and Process of Career Development (3)
 - CNED 651 Counseling for Sex Roles in Transition (3)
 - CNED 660 Theory and Process of Counseling (3)
 - CNED 662 Counseling Interventions with Children and Adolescents (3)
 - CNED 670 Theory and Process of Group Counseling (3)
 - CNED 680 Theory and Process of Consultation (3)
 - CNED 685 Theories of Marriage and Family Counseling (3)

4. Electives (6-9 units).
5. Research (3-6 units)
 - Ed 799A Thesis (3) or Ed 795A-795B Seminar (3-3)
 - or Ed 791A Evaluation Techniques (3),
 - Ed 791B Practicum: Evaluation (3)

Educational Research (Major Code: 08241)

The Master of Arts degree in Education with a concentration in educational research is designed to prepare students having a basic background in education to conduct measurement, research, and evaluation activities at a professional level. Emphasis is upon preparation for research activities at the school district level.

1. Prerequisite: A basic background in education (a minimum of 12 units of professional education) including at least one course in tests and measurement
2. ED 690 Procedures of Investigation and Report (3 units)

3. Core program (9 units): Teacher Education 546, Quantitative Methods in Educational Research (3 units); Teacher Education 646, Seminar in Educational Measurement (3 units); and 3 units of educational research design selected with the approval of the adviser
4. Electives (15 units) selected with adviser's approval
5. ED 799A, Thesis (3 units)

Educational Technology (Major Code: 08992)

The Master of Arts degree in Education with a concentration in educational technology enables students to prepare for careers as instructional technologists, educational specialists, instructional designers, trainers, and experts in educational computing. State-of-the-art coursework and internships in companies, agencies and schools prepare candidates to analyze performance problems and design, develop and evaluate instructional strategies and products. Students graduate with a portfolio including educational computer software, instructional print materials, video, and interactive video programs. For further information, see the Coordinator of Educational Technology. Course requirements follow:

1. Prerequisite: Varies with the career goal of the student. Students use educational technology skills in settings as diverse as the San Diego Zoo, UCSD Medical Center, and IBM. For most students, Educational Technology 540 and 541 are prerequisites. See adviser.
2. ED 690 Procedures of Investigation and Report (3 units).
3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student's interests and goals. A minimum of nine units must be taken in courses at the 600 and 700 level.
4. Electives (6-9 units) selected with the approval of the adviser.
5. Research (3-6 units)
 - ED 791A-791B Evaluation (3-3 units) or
 - ED 795A-795B Seminar (3-3 units) or
 - ED 799A Thesis (3 units)

Specialization in Educational Computing within Educational Technology Concentration: Students specializing in Educational Computing must include among their 15 core units Educational Technology 544 and 572. Recommended electives to be approved by the program adviser include Educational Technology 553, 596, 644, 670, 671, 684, 775, and Special Education 650. Specialization prerequisites are Educational Technology 540 and 541.

Elementary Curriculum and Instruction (Major Code: 08021)

The Master of Arts degree in Education with a concentration in elementary curriculum and instruction is designed to increase professional competence in the form of more breadth, depth, and technical skill in curriculum and instruction, either generally or in selected areas of specialization.

1. Prerequisite: A basic background in education (minimum of 12 units) to include curriculum and methods, growth and development, educational psychology, and history and philosophy of education.
2. Education 690, Procedures of Investigation and Report (3 units).
3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student's interests, professional needs and goals. The core program will include:
 - a. Teacher Education 600, Curriculum Development in Education (3 units).
 - b. Teacher Education 626, Advanced Educational Psychology; or Teacher Education 655, Social Foundations of American Education; or Teacher Education 656, Comparative Education; or Teacher Education 657, Philosophy of Education (3 units).
 - c. Teacher Education 610A, Seminar in Mathematics Education - Elementary School; or Teacher Education 610C, Seminar in Science in Elementary Education; or Teacher Education 630, Seminar in Reading Education; or Teacher Education 631, Seminar in Language Arts in Elementary Education; or related courses with approval of the adviser (3 units).

- d. 500/600/700-numbered courses in Teacher Education with the approval of the adviser (3-6 units).
 - e. 500/600/700-numbered courses in education or related fields selected with the approval of the adviser (up to 6 units).
4. Electives (6-9 units) selected with the approval of the adviser.
 5. Special Study and Research (3-6 units): Education 791A-791B, Evaluation (3-3 units); or Education 795A-795B, Seminar (3-3 units); or Education 799A, Thesis (3 units).

The program of study must include at least 15 units of 600- and 700-level courses.

Policy Studies in Language and Cross-Cultural Education (Major Code: 08994)

The Master of Arts degree in Education with a concentration in Policy Studies in Language and Cross-Cultural Education is designed to provide special knowledge and training for three diverse audiences with different career goals. Plan I, the curriculum development, is geared for the classroom teacher or resource specialist who will be working directly with language minority students. Plan II, the research and policy study area, is geared for those who may work with school districts or other agencies, focusing on research questions and issues which affect the achievement of language minority students. Plan III has been developed to allow students to specialize in areas outside of the Policy Studies in Language and Cross-Cultural Education Department. The nine unit specializations may be in other College of Education departments or in departments across campus, with permission of the department adviser and the cooperating department. This allows for career options in a variety of settings with an emphasis in a noneducational discipline, to provide classroom teachers, researchers, and other specialists with a different orientation in examining policy research.

Students in each specialization will take a core of nine units in the Policy Studies in Language and Cross-Cultural Education Department. All students will also take a comprehensive examination* covering coursework for the M.A. degree.

* It is recommended that students enroll in PLC 686 in preparation for the comprehensive examination.

Prerequisites: PLC 602 (3) and PLC 653 (3)

M.A. Plans 9 Units Total

Plan I: PLC 612 (3), 613 (3), 650 (3) or

Plan II: PLC 612 (3), 614 (3), 623 (3) or

Plan III: PLC 612 (3) and 6 units from: PLC 553, 613, 614, 623, 650 with approval of adviser.

Research: 6-9 Units Total

ED 690 Procedures of Investigation and Report (3) and

ED 791A-791B Evaluation Techniques (6) or

ED 795A-795B Seminar (6) or

ED 799A Thesis (3)

Electives: 3-6 units selected with approval of adviser.

Specializations: Select 9 units from one of the following areas with consent of adviser.

1. Curriculum
 - PLC 552 Teaching Writing in Multilingual Settings (3)
 - PLC 553 Oral Language Assessment Techniques (3)
 - PLC 575 Computer Applications in the Bilingual Classroom (3)
 - PLC 596 Special Topics in Bilingual and Multicultural Education (3)
 - PLC 651 Multicultural Methods and Curriculum in Content Areas (3)
 - PLC 652 Language Arts in the Multicultural Education Curriculum (3)
 - PLC 686 Seminar in Multicultural Education (1-6)
2. Research and Policy
 - PLC 596 Special Topics in Bilingual and Multicultural Education (3)
 - PLC 613 Organizational Strategies and Staff Development for the Multicultural School-Community (3)

- PLC 622 Analysis and Issues in Race and Ethnic Relations: Theory, Research and Action (3)
 PLC 686 Seminar in Multicultural Education (1-6)
 PLC 798 Special Study (1-6)
 3. Outside Specialization
 With consent of department adviser and a cooperating department or program

Reading Education (Major Code: 08301)

The Master of Arts degree in Education with a concentration in Reading Education is designed to provide increased knowledge and skill for those who are or wish to become reading specialists in public or private schools and clinics. The program prepares candidates to teach, tutor, develop curriculum, offer in-service instruction and administer reading centers for students ranging from kindergarten through community college, university, and adult levels. This degree is often earned concurrently with a California Reading Specialist Credential, which has a number of common requirements.

1. Prerequisite: Completion of a minimum of 12 units of professional coursework in education, including a basic course in methods and materials for teaching reading.
2. ED 690 Procedures of Investigation and Report (3)
3. Core program (24 units)
 - TE 530 Children's Literature in Elementary Education (3)
 - TE 631 Seminar in Language Arts in Elementary Education (3)
 - TE 633 Seminar in Research in Reading (3)
 - TE 636 Advanced Diagnosis in Reading (3)
 - TE 637 Reading Clinic (3)
 - TE 638 Topics in Reading Education (minimum of 3)
 - TE 639 Literacy and Language (3)
4. ED 791A-791B Evaluation (3-3 units) or
 ED 795A-795B Seminar (3-3 units) or
 ED 799A Thesis (3 units)

Secondary Curriculum and Instruction (Major Code: 08031)

The Master of Arts degree in Education with a concentration in Secondary Curriculum and Instruction, is designed as the base for applicants to increase professional competence in any of the fields typically taught in secondary schools, and for obtaining those competencies and technical skills in curriculum and instruction either generally, or in selected areas of specialization.

1. Prerequisite: A basic background in education (12 units).
2. ED 690 Procedures of Investigation and Report (3 units)
3. Core program (6 units): to include TE 600, Curriculum Development in Education (3 units) and three units from TE 604, Advanced Problems in Instruction; or TE 607, Seminar in Research in Curricular Problems.
4. Electives (15 units) selected with the approval of the graduate adviser on the basis of the student's interests, goals and needs. A minimum of three units must be in 600- or 700-numbered courses. A maximum of six units may be selected from cognate fields outside the College of Education.
5. ED 791A-791B Evaluation (3-3 units) or
 ED 795A-795B Seminar (3-3 units) or
 ED 799A Thesis (3 units)

A Master of Arts degree in Education with a concentration in curriculum and instruction in the area of occupational or adult education is also offered. Each student is urged to consult with the program adviser as to the specific course content of the program. With the adviser's approval in this 30-unit program, up to 12 units of electives may be selected in the appropriate fields related to the major occupational field.

Special Education (Major Code: 08081)

The Master of Arts degree in Education with a concentration in Special Education provides the professional educator with advanced knowledge and skills in Special Education. This degree is often earned concurrently with a California Specialist Credential in Special Education

as there are many requirements in common between the programs. The master's degree can include specialization in the areas of Learning Handicapped, Severely Handicapped, Physically Handicapped, and Gifted, as well as Early Childhood Special Education, and the Seriously Emotionally Disturbed. These programs of study are individually planned with the Graduate Adviser. This M.A. program is open to individuals with undergraduate degrees in a wide range of disciplines and need not be linked to a teaching credential.

1. Prerequisites:
 - a. Admission to the University with classified graduate standing as described in Part Two of this bulletin.
 - b. Admission to the appropriate program within the Department of Special Education.
 - (1) Complete application to department as well as to the University.
 - (2) Complete GRE General Test (a minimum verbal and quantitative score total of 950 is required).
 - (3) A minimum GPA of 2.5 for the last 60 undergraduate units attempted.
 - (4) Admissions interview with faculty.
 - c. A basic California Teaching Credential or a minimum of 12 units of Education coursework.
 - d. Completion of prerequisite coursework: For Gifted Education, Special Education 502 and 508. For all other programs, Special Education 500, 501.
2. Core program (15-18 units)
 - SPED 644 The Gifted Student (3); or
 - SPED 650 Special Topics in Special Education (3) or
 - SPED 677 Educational Management of Severe Behavior Disorders (3) or
 - SPED 696 Advanced Topics in Special Education (3) (see adviser).
 - SPED 670 Seminar in Education of Exceptional Children (3)
 - SPED 681 in area of specialty (3) (SPED 644 meets this requirement for students in the Gifted Specialization)
 - * ED 690 Procedures of Investigation and Report (3)
 - * ED 791A-791B Evaluation (3-3 units) or
 - * ED 795A-795B Seminar (3-3 units) or
 - ED 799A Thesis (3 units)
3. Electives (12-15 units)
 Coursework selected with the approval of the Graduate Adviser. This may include coursework completed as part of the Specialist Credential Requirements.

* In departmentally approved sections of these courses.

Master of Science Degree in Rehabilitation Counseling General Information

The Rehabilitation Counselor Program has the primary objective of preparing rehabilitation students to enter the field of vocational rehabilitation, and provides rehabilitation counseling services to physically, emotionally, and cognitively disabled persons. Expanded curriculum in computer technology, rehabilitation of deaf clients, vocational assessment, administration of rehabilitation programs, and work within the public and private sectors are highlighted. A limited number of graduate stipends from the Rehabilitation Services Administration are available to (1) students who are committed to entering vocational rehabilitation after graduation, and (2) students with a financial need. Graduates qualify for CRC, CIRS, and CWAVES certification.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin.

Students seeking admission to the graduate program which leads to a Master of Science degree in Rehabilitation Counseling should address their inquiries to the coordinator of the program. Detailed instructions

concerning application procedures will be sent to the applicant along with all necessary forms. As there are specific requirements for the program, it is not sufficient merely to file the general university admission forms.

STUDENTS ARE ADMITTED ONLY IN THE FALL SEMESTER EACH YEAR. PREFERENCE IS GIVEN TO APPLICATIONS THAT ARE COMPLETED AND SUBMITTED BY MAY 1.

The student must file an application for admission to San Diego State University with both the Office of Admissions and the Rehabilitation Counselor Program.

Criteria for admission require that students submit evidence in written form and through interviews demonstrating personal, professional, and academic adequacy for the Master of Science degree in Rehabilitation Counseling. Only students who show reasonable promise of success in rehabilitation counseling as a career will be admitted to this curriculum. In order to continue in the program, the student must demonstrate ongoing academic, professional, and personal growth.

A student may transfer a maximum of 30 semester units from a CORE accredited graduate program in rehabilitation counseling. Evaluation of transfer credits will be made at the time of acceptance to the program. Approval of graduate transfer credit from other programs will be at the discretion of the coordinator and subject to final approval by the Graduate Division.

Advancement to Candidacy

To be eligible for advancement to candidacy the student must, in addition to holding classified graduate standing, have completed at least 24 units of the coursework listed on the official program, maintain good standing in the Rehabilitation Counselor Program, and otherwise comply with the regulations of the Graduate Division as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Rehabilitation Counseling

(Major Code: 12221)

In addition to meeting the requirements for classified graduate standing, and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete a minimum of 60 graduate units of 500-, 600- and 700-numbered courses, to include:

40 units of required courses:

- ARP 645 Assessment and Vocational Development (6)
- ARP 648 Group Dynamics in Rehabilitation (3)
- ARP 684 Introduction to the Rehabilitation Process (3)
- ARP 685A-685B Medical and Psychological Aspects of Disability (3-3)
- ARP 687 Placement of the Disabled (3)
- ARP 710A-710B Seminar in Rehabilitation (3-3)
- CNED 610A Determinants of Human Behavior (3)
- CNED 615 Seminar in Multicultural Dimensions in Counseling (3)
- CNED 660 Theory and Process of Counseling (3)
- CNED 660L Counseling Practicum Laboratory (1) Cr/NC
- ED 690 Procedures of Investigation and Report (3)

12-15 units selected from the following:

- ARP 743 Fieldwork in Rehabilitation (3-6) Cr/NC
- ARP 744 Practicum in Rehabilitation (3-9) Cr/NC
- ARP 745 Internship in Rehabilitation (2-6) Cr/NC

5-8 units of electives as determined by consent of the faculty adviser.

Comprehensive Examination

A written comprehensive examination is required. The student must demonstrate satisfactory performance on a written comprehensive examination, in lieu of thesis, prepared by the Rehabilitation Counselor Program. Reservations for the examination must be made in advance in the Rehabilitation Counselor Program Office, North Education Building, Room 279.

Program Structure

The Rehabilitation Counselor Program offers a two-year, full-time format that leads to the Master of Science in Rehabilitation Counseling. Students are also accepted on a part-time basis.

Master of Science Degree in Counseling General Information

The Department of Counselor Education offers graduate study leading to either the 30-unit Master of Arts degree in Education with a concentration in Counseling or the 60-unit Master of Science degree in Counseling.

The Master of Science degree in Counseling provides an integrated sequence of study in the theories, research, and practice of counseling. This program prepares the student for the profession of counseling as applied in the schools, human services agencies, and industry. The program is based on the premise that there is a generic core of competencies and experiences appropriate for counseling in a variety of settings with specialized study and experiences provided, including immersion in an appropriate fieldwork setting. Defined specializations are offered in Marriage, Family, and Child Counseling; School Counseling; and School Psychology. Within these specializations, individual needs are met through opportunities for student-initiated seminars and independent study. Students not seeking a defined specialty are encouraged to organize their course selections thematically to support such professional roles and functions as substance abuse counseling, college student personnel work, community college counseling, multicultural counseling, career counseling, human resource development, and employee assistance programs.

The Department of Counselor Education offers courses which may be applied to either degree program. Course offerings are organized in three ways: full time or part time in the regular program and full time in the Community Based Block.

Within the regular program the majority of courses are available in the late afternoons or evenings thus accommodating students who intend to work or who have fieldwork placements. With careful planning and possible summer session courses, full-time students can complete the Master of Science degree in Counseling in two years. Part-time students who take at least two courses a semester and in summer session may expect to double the time needed to complete the degree. Student planning must be done with the adviser and should take into account the following guidelines: Education 690 should be taken as early as possible and must be completed prior to Counselor Education 640, and 640 prior to 650; Counselor Education 600 and 600L are to be completed prior to 660, 660 prior to 740, and 740 prior to 710B.

The Community Based Block (CBB) is a special unit within the Department of Counselor Education. The CBB is community based in two senses of the word "community." The basic approach to learning is the development of a total, self-contained "learning community" - a group of approximately 30 full-time graduate students and at least three core faculty members committed to working and learning together. The word "community" also refers to the locale of the program (most all of the program is off-campus) and to its special focus on the inner-city and people of difference. The CBB deliberately recruits an extremely diversified group of students. Although the CBB places special emphasis on working in innercity settings with multiethnic populations, admission to the program is not limited to students committed to working with these populations. The program is designed for students who intend to work in a variety of settings and includes appropriate fieldwork placements.

Financial Assistance

The department sponsors the Counselor Education Loan Fund honoring Professors Leonard Strom and John Schmidt which along with other university-wide programs, is administered by the Financial Aid Office of the university. Other forms of financial assistance administered by the University are presented elsewhere in this bulletin.

Accreditation

The National Council for the Accreditation of Teacher Education (NCATE) has accredited the specializations in school counseling and, in conjunction with the National Association of School Psychologists (NASP), in school psychology. These national accreditations, however, do not guarantee certification or credentialing as school counselors or school psychologists outside of California. It is the student's responsibility to be aware of other states' requirements, and to arrange adjustment in the program accordingly if credentials are to be sought elsewhere.

Admission to Graduate Study

In seeking admission to graduate study in counseling, the student should write directly to Dr. Gordon M. Thompson, Chair, Department of Counselor Education, requesting appropriate application materials. Degree, program, and specialization information and detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. All application materials become the property of the department and will not be returned to the applicant.

In addition to application with the Department of Counselor Education, the student must file an application for admission to San Diego State University with the Office of Admissions and Records.

It is essential that the following application materials be submitted to the Department of Counselor Education by March 1 for fall admission.

1. Completed application form.
2. At least three letters of recommendation.
3. Transcripts of all collegiate work (official copies to the Graduate Division, photocopies to the Department).
4. Graduate Record Examination (GRE) scores - Aptitude portion (official copies to the Graduate Division, photocopies to the Department).
5. Applicants whose GRE scores and/or grade point averages fall below the University standard must supply additional data to support consideration for admissions.

Recommendations are made by the Admissions Committee to the department faculty and chair who make the final recommendation for admission to the University.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by the faculty. A student may be advanced to candidacy when the official program has been filed and after having earned a minimum grade point average of 3.0 in at least 24 units listed on the official program. A minimum of 18 units listed on the official program must be completed after advancement; coursework in progress at time of advancement can count as part of these 18 units.

Specific Requirements for the Master of Science Degree in Counseling (Major Code: 08261)

In addition to meeting the requirements for admission to the University with classified graduate standing, the student must satisfy the basic requirements for the master's degree described in Part Two of this bulletin. In addition, the student must meet the requirements specified below.

Selection of Plan A or Plan B

The selection of Plan A, the thesis or project or Plan B, the comprehensive examination plan, is made in consultation with the adviser at the time the official program of study is filed. Plan A thesis is designed for students who have a particular research problem they wish to investigate in some detail. The Plan A project is expected to be a rigorous application of research and theory in a professional endeavor, e.g., designing an elementary school counseling program. The comprehensive examination option for Plan B requires demonstration of the integration and application of theory, research, and techniques. It is expected that the student will take the comprehensive examination concurrent with or following Counselor Education 710B. The examination is offered near the end of each semester. Information is available from the Counselor Education office.

Course Requirements

Students are expected to consult with their adviser prior to taking any coursework leading to the master's degree. Selections of courses have been designated for the specializations and must be reviewed with the adviser. Students are urged to take Education 690 and Counselor Education 600 and 600L as early as possible in their first graduate year.

The student must complete a minimum of 60 units (62 units for the Specialization in School Psychology) of 500-, 600-, 700-numbered courses, including:

1. Common Core (6 units):
ED 690 Procedures of Investigation and Report (3)
CNED 600 Counseling Communication Skills (2)
CNED 600L Counseling Prepracticum (1) Cr/NC
2. Foundations (a minimum of 9 units):
CNED 610A Determinants of Human Behavior: Personality (3)
CNED 610B Determinants of Human Behavior: Social and Cultural (3)
CNED 610C Determinants of Human Behavior: Development (3)
CNED 610D Determinants of Human Behavior: School Learning (3)
CNED 615 Seminar in Multicultural Dimensions in Counseling (3)
3. Theory, Research, and Techniques (a minimum of 12 units):
CNED 640 Theory and Process of Appraisal (3)
CNED 650 Theory and Process of Career Development (3)
CNED 651 Counseling for Sex Roles in Transition (3)
CNED 660 Theory and Process of Counseling (3)
CNED 662 Counseling Interventions with Children and Adolescents (3)
CNED 670 Theory and Process of Group Counseling (3)
CNED 680 Theory and Process of Consultation (3)
CNED 685 Theory of Marriage and Family Counseling (3)
CNED 686 Seminar: Advanced Studies of Marriage and Family Therapy (3)
4. Integration and Application of Theory, Research, and Techniques (a minimum of 6 units):
CNED 730 Fieldwork in Counseling (2-6) Cr/NC
CNED 740 Practicum: Individual Counseling (3) Cr/NC
CNED 741 Practicum: Group Counseling (3) Cr/NC
CNED 750 Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC
CNED 780 Internship (2-12) Cr/NC
5. Research (a minimum of 3 units):
CNED 799A Thesis (3) Cr/NC/SP or
CNED 710A Professional Seminar (3)
6. Electives: 24 units selected with adviser's approval.

Specialization in Marriage, Family, and Child Counseling

The Master of Science in Counseling with a specialization in Marriage, Family, and Child Counseling, is designed to satisfy the coursework requirements for the California License for Marriage, Family, and Child Counselors. The student must design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 60 units of 500-, 600-, and 700-numbered courses, including:

1. Prerequisite:
Admission to the University and the Department of Counselor Education for specialized study in marriage, family, and child counseling.
2. Common Core (6 units):
ED 690 Procedures of Investigation and Report (3)
CNED 600 Counseling Communication Skills (2)
CNED 600L Counseling Prepracticum (1) Cr/NC
3. Foundations (12 units):
CNED 610A Determinants of Human Behavior: Personality (3)
CNED 610B Determinants of Human Behavior: Social and Cultural (3)

CNED 610C Determinants of Human Behavior: Development (3)

CNED 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (minimum of 12 units):

CNED 640 Theory and Process of Appraisal (3)

CNED 660 Theory and Process of Counseling (3)

CNED 662 Counseling Interventions with Children and Adolescents (3)

CNED 670 Theory and Process of Group Counseling (3)

CNED 685 Theory of Marriage and Family Counseling (3)

CNED 686 Seminar: Advanced Studies of Marriage and Family Therapy (3)

5. Integration and Application of Theory, Research, and Techniques (minimum 9 units).

Six units selected from:

CNED 740 Practicum: MFCC (3) Cr/NC and/or

CNED 750 Advanced Seminar and Practicum MFCC (3-6) Cr/NC

Minimum of three units selected from:

CNED 730 Fieldwork in Counseling: MFCC (2-6) Cr/NC

CNED 740 Practicum: Individual Counseling (3) Cr/NC

CNED 740 Practicum: MFCC (3) Cr/NC

CNED 750 Advanced Seminar and Practicum: MFCC (3-6) Cr/NC

CNED 780 Internship: MFCC (2-12) Cr/NC

6. Additional requirements for the specialization (9 units):

CNED 585A Human Sexuality for Counselors (3)

CNED 585B Dynamics of Adjustment Behavior (3)

CNED 605 Seminar in Ethical and Legal Issues for Counselors (3)

7. Research (3 units):

CNED 710A Professional Seminar (3) or

CNED 799A Thesis (3) Cr/NC/SP

8. Electives (9 units): Selected with approval of adviser.

For additional information related to the Marriage, Family, and Child Counselor Specialization and licensure, contact the Department of Counselor Education or the Director of the Specialization.

Specialization in School Counseling

The Master of Science in Counseling with a specialization in School Counseling includes coursework and experiences designed to meet the competencies required for the California Pupil Personnel Services Credential (Credential Code: 00800). This credential authorizes the holder to function as a counselor or other pupil personnel specialist in grades K through 12. Additional information may be obtained from the Department of Counselor Education office or the Director of the School Counseling Specialization. The student must design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 60 units of 500-, 600-, and 700-numbered courses, including:

1. Prerequisites:
 - a. Admission to the University and the Department of Counselor Education for specialized study in school counseling.
 - b. California Basic Educational Skills Test (CBEST) scores to be reported to the department prior to beginning this sequence of study. A photocopy will suffice.
 - c. The student should apply for a Certificate of Clearance prior to beginning the sequence of study. Consult the Center for Careers in Education, ED-100.
2. Common Core (6 units):
ED 690 Procedures of Investigation and Report (3)
CNED 600 Counseling Communication Skills (2)
CNED 600L Counseling Prepracticum (1) Cr/NC
3. Foundations (minimum 9 units):
CNED 610A Determinants of Human Behavior: Personality (3)
CNED 610B Determinants of Human Behavior: Social and Cultural (3)

CNED 610C Determinants of Human Behavior: Development (3)

CNED 610D Determinants of Human Behavior: School Learning (3)

CNED 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (18 units):

CNED 640 Theory and Process of Appraisal (3)

CNED 650 Theory and Process of Career Development (3)

CNED 660 Theory and Process of Counseling (3)

CNED 662 Counseling Interventions with Children and Adolescents (3)

CNED 670 Theory and Process of Group Counseling (3)

CNED 680 Theory and Process of Consultation (3)

5. Integration and Application of Theory, Research, and Techniques (minimum 9 units):

CNED 730 Fieldwork in Counseling: PPS (2-6) Cr/NC

CNED 740 Practicum: Individual Counseling (3) Cr/NC

CNED 780 Internship: PPS (2-12) Cr/NC

6. Additional requirements for specialization (minimum 3 units):

CNED 620 Guidance Services in Public Education (3)

CNED 745 Program Development for Pupil Services (3)

7. Research (a minimum of 3 units):

CNED 710A Professional Seminar (3) or

CNED 799A Thesis (3) Cr/NC/SP

8. Electives (12 units):

Selected with approval of adviser.

Students must receive a grade of B or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the Pupil Personnel Services Credential. Students not meeting this requirement must immediately consult the department chair or the director of the School Counseling Specialization. In addition to the required courses and experiences, the student must pass all components of the CBEST to be eligible for the credential.

Students already holding a master's degree in counseling or in a related area may apply for non-degree credential preparation in School Counseling. These students must follow the regular application procedures and requirements. An individualized program of study may be designed on approval of the School Counseling Committee.

Specialization in School Psychology

The Master of Science in Counseling with a specialization in School Psychology includes coursework and experiences designed to meet the competencies leading to the California Pupil Personnel Services Credential (Credential Code: 00800) and the credential in School Psychology (Credential Code: 00950). The credential authorizes the holder to function as a school psychologist or other pupil personnel specialist in grades K through 12. Additional information may be obtained from the office of the Department of Counselor Education or the director of the School Psychology Specialization. The student should design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 62 units of 500-, 600-, and 700-numbered courses, including:

1. Prerequisites:
 - a. Admission to the University and the Department of Counselor Education for specialized study in school psychology.
 - b. California Basic Educational Skills Test (CBEST) scores must be reported to the department prior to beginning this sequence of study. A photocopy will suffice.
 - c. The student should apply for a Certificate of Clearance prior to beginning the sequence of study. Consult the Center for Careers in Education, ED-100.
2. Common Core (6 units):
ED 690 Procedures of Investigation and Report (3)
CNED 600 Counseling Communication Skills (2)
CNED 600L Counseling Prepracticum (1) Cr/NC
3. Foundations (a minimum of 12 units):
CNED 610B Determinants of Human Behavior: Social and Cultural (3)

- CNED 610C Determinants of Human Behavior: Development (3)
 CNED 610D Determinants of Human Behavior: School Learning (3)
 CNED 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (a minimum of 15 units).
 Required courses:

- CNED 640 Theory and Process of Appraisal (3)
 CNED 660 Theory and Process of Counseling (3)
 CNED 680 Theory and Process of Consultation (3)
 Six units from the following:
 CNED 620 Guidance Services in Public Education (3)
 CNED 650 Theory and Process of Career Development (3)
 CNED 662 Counseling Interventions with Children and Adolescents (3)

- CNED 670 Theory and Process of Group Counseling (3)
 CNED 685 Theories of Marriage and Family Counseling (3)

5. Integration and Application of Theory, Research, and Techniques (a minimum 6 units):

- CNED 730 Fieldwork in Counseling: School Psychology (2-6) Cr/NC
 CNED 740 Practicum: Individual Counseling (3) Cr/NC

6. Additional requirements for specialization (a minimum of 14 units):
 CNED 642A and 642B Individualized Appraisal of Learning Characteristics (4-4)
 CNED 752 Seminar and Practicum: School Psychology (3-6) Cr/NC

7. Research (a minimum of 9 units).
 Required:

- CNED 710A Professional Seminar (3)
 CNED 760 Advanced Seminar in School Psychology (3)
 Three units from:
 CNED 710B Professional Seminar (3)
 CNED 799A Thesis (3) Cr/NC/SP

In addition to the courses required for the Master of Science in Counseling with a specialization in School Psychology, the following courses or equivalents are required for the California School Psychology Credential:

- SPED 500 Exceptional Individuals (3)
 CNED 621 Introduction to School Psychology (3)
 CNED 760 Advanced Seminar in School Psychology (3)
 CNED 780 Internship (12-12) Cr/NC

Students must receive a grade of B or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the Pupil Personnel Services and School Psychology credentials. Students not meeting this requirement must immediately consult with the department chair or the director of the School Psychology Specialization. In addition to the required courses and experiences, the student must pass all components of the CBEST for eligibility for the credential.

The school psychology program, including degree and credentials requirements, requires three years of full-time study (or expanded time for part-time study). The final year, Counselor Education 760, 780, and either 710B or 799A, is strongly recommended as a full-time experience. Students will be eligible for the Pupil Personnel Services Credential immediately preceding this final year of study.

Students already holding a master's degree in counseling, psychology, or a related area may apply for non-degree credential preparation in School Psychology. These students must follow the regular application procedures and requirements. An individualized program of study may be designed on approval of the School Psychology Committee.

After receiving the School Psychology Credential and completing one year of post-internship, full-time service as a school psychologist in the public schools, the school psychologist is eligible to take the standardized examination for licensure as an Educational Psychologist in California.

Selecting a Specialization

Students intending to pursue one of the three defined specializations should consult with the director of the specialization regarding application

or declaration procedures. Students must declare their intent to specialize prior to filing the official program of study.

Section III. Other Programs Teaching/Service Credentials and Certificates

The College of Education offers programs which lead to teaching, specialist, and services credentials. Students who desire to seek a credential should consult with departmental advisers in order to determine their status and needed requirements. Information on these credentials is available in the offices of the several departments of the College of Education and in the Center for Careers in Education, ED-100.

The College of Education has obtained approval for programs leading to the following credentials:

Approved Credential Programs	School Service Authorized
*1. Multiple subject credential.....	Teach in any self-contained classroom, kindergarten through twelfth grade.
*2. Single subject credential.....	Teach single subject area in grades kindergarten through twelve.

* Refer to the General Catalog for a description of this program.

Specialist Credentials

- Bilingual/Cross-cultural
 Reading Specialist
 Special Education:
 Communication Handicapped (Dept. of Communicative Disorders)
 Physically Handicapped
 Learning Handicapped
 Severely Handicapped
 Gifted

Service Credentials

- Administrative Services
 Clinical Rehabilitative Services (Dept. of Communicative Disorders)
 Pupil Personnel
 School Psychology
 Health - School Nurse (School of Nursing)

Specialist Certificates

- Language Development Specialist
 Resource Specialist

Bilingual/Cross-Cultural Specialist Credential

(Credential Code: 00440)

Candidates in the credential program must possess a valid California Teaching Credential, must have completed Policy Studies in Language and Cross-Cultural Education 451 or equivalent, and must successfully complete the following 24 units and a comprehensive examination. Also, demonstrated prior to completion of the credential program. Candidates must have approval of their adviser for their course of study, and must apply for the credential through the Center for Careers in Education, ED-100, upon successful completion of program.

	Units
PLC 553 Oral Language Assessment Techniques	3
PLC 602 Cross-Cultural Experience in Classroom Interaction	3
PLC 613 Organizational Strategies and Staff Development for the Multicultural School-Community	3
PLC 650 Bilingual/Cross-Cultural Curriculum Development and Teaching Strategies	3
PLC 651 Multicultural Methods and Curriculum in Content Areas	3
PLC 652 Language Arts in the Multicultural Education Curriculum	3
ED 690 Procedures of Investigation and Report	3
Linguistics 550 Theory and Practice of English as a Second Language	3

Reading Specialist Credential

(Credential Code: 00410)

San Diego State University offers a program leading to a Reading Specialist Credential. This credential authorizes the holder to function as a reading specialist in grades K through 12.

Requirements for Admission

1. A valid California basic teaching credential applicable within the range of grades kindergarten to 12.
2. Admission and planning interviews with a program adviser.
3. An approved basic course in methods and materials for teaching reading.

Program

	Units
ED 690 Procedures of Investigation and Report	3
TE 536 Reading Diagnosis	3
TE 633 Seminar in Research in Reading	3
TE 636 Advanced Diagnosis in Reading (Must be taken concurrently with TE 638B, Interpersonal/Interdisciplinary Communication Skills)	3
TE 637 Reading Clinic (Must be taken concurrently with TE 638A, Linguistic/Cultural Difference and Reading)	3
TE 638 Topics in Reading Education. Three required categories:	3
TE 638A Linguistic/Cultural Difference and Reading.	
TE 638B Interpersonal/Interdisciplinary Communication Skills.	
TE 638C Children/Young Adult Literature; Oral and Creative Responses to Reading.	
TE 736 Field Experience as a Reading Specialist	4
Electives	8

Additional Requirements

1. A minimum of one year of full-time teaching experience (or the equivalent) within the range of grades kindergarten to 12.
2. Satisfactory completion of a comprehensive examination covering the program coursework.
3. Satisfactory completion of the GRE General Test.

A master's degree is not a requirement for this credential; however, courses in the program described above may be acceptable also for the Master of Arts in Education degree with a concentration in Reading Education. The eight units of electives for this credential must be selected with the approval of a reading program adviser. Education 795A and 795B may be taken as elective units for the credential, as may up to two additional units of Teacher Education 638, Topics in Reading Education.

Resource Specialist Certificate of Competence

The Department of Special Education offers coursework leading to the California Resource Specialist Certificate. This certificate authorizes the holder to function as a Resource Specialist in special education settings. To be recommended for this certificate by San Diego State University, the candidate must hold a valid special education specialist credential, have completed three years of teaching in regular and special education settings, and must have satisfied the competencies specified in the three Resource Specialist courses: Special Education 651, 652, 653.

Special Education Specialist Credentials

San Diego State University offers programs leading to the following Special Education Specialist Credentials: Learning Handicapped (Major Code: 00463), Severely Handicapped (Major Code: 00464), Physically Handicapped (Major Code: 00462), and Gifted (Major Code: 00465). These credentials authorize the holders to teach in the special education setting designated. There are many common requirements between the Specialist Credential programs and the Master of Arts degree; coursework completed for the credential may count toward the M.A. degree.

Requirements for Admission

1. Admission to the appropriate program within the Department of Special Education.
 - a. Complete application to department as well as to the University.
 - b. Meet all requirements for classified graduate standing as described in Part Two of this bulletin.
 - c. Complete GRE General Test (a minimum verbal and quantitative score total of 950 is required).
 - d. A minimum grade point average of 2.5 for the last 60 undergraduate units attempted.
 - e. Admissions interview with faculty.
2. A valid basic California Teaching Credential.
3. Completion of prerequisite coursework: For Gifted Education, Special Education 502 and 508. For all other programs, Special Education 500 and 501 (6 units).
4. Evidence of successful experiences in educational settings with handicapped children and youth.

Program

1. Core Course
 Special Education 553 (3) (Not required for the Gifted Specialization.)
2. Specialization Courses
 - a. Learning Handicapped - Special Education 480A (4-6 units), 524, 534, 544, 547, and six units from the following: 527, 528, 529, 560, 562, 563 (22-24 units).
 - b. Severely Handicapped - Special Education 480B (4-6 units), 525, 526, 528, 535, 545, 560, 564 (25-27 units).
 - c. Physically Handicapped - Special Education 480C (4-6 units), 526, 534, 544, 547, 560, 562 (22-24 units).
 - d. Gifted - Special Education 542, 644, three units of Special Education 650 (approved by adviser), 771 (2-4 units), and four units of approved electives (15-17 units).

Rehabilitation Administration Certificate

The purpose of this certificate program is to provide the individual with administrative knowledge and skills needed to develop and supervise rehabilitation programs and services for clients in a variety of settings. This academic training is designed for individuals who currently function or aspire to function as program coordinators and administrators in state rehabilitation agencies and affiliated programs.

This is an advanced academic certificate at the postbaccalaureate level. Admission requirements are a bachelor's degree in rehabilitation or a related field and relevant work experience in a rehabilitation agency or program. The program is intended to focus on a variety of specific client populations representative of the trainee's area of career interest. Examples are: Deaf and hearing impaired clients, clients with traumatic brain injury, and clients injured in the work site. A master's degree in Rehabilitation Counseling, as well as leadership experience in rehabilitation programs is strongly encouraged. Relevant work or academic training experience may be substituted in lieu of the above admission criteria at the discretion of the program director, except that a bachelor's degree is required. Students who do not have a master's degree must achieve a score of 950 (combined verbal and quantitative) on the Graduate Record Examination (GRE) and must also have a GPA of at least 2.5 in the last 60 semester units attempted.

This is a 21 unit program consisting of the following courses and sequence:

1. Summer, On-Campus Study Experience
 ARP 680 Seminar in Educational Administration (6)
 ARP 710B Seminar in Rehabilitation (3)
2. Fall, Fieldwork Experience
 ARP 745 Internship in Rehabilitation (3) Cr/NC
 ARP 798 Special Study in Rehabilitation Administration (3)
3. Spring, Fieldwork Experience
 ARP 745 Internship in Rehabilitation (3) Cr/NC
 ARP 798 Special Study in Rehabilitation Administration (3)

Contact the Director of Deafness Rehabilitation programs at (619) 594-6406 (V/TTY) for further information.

Students must maintain a minimum grade point average of 3.0 in all certificate coursework with no less than a "C" in any course. Only three units of coursework with a grade of "C" will count towards a certificate. Maximum of three units of coursework repeatable.

Bilingual (Spanish) Special Education Certificate

This certificate program provides specialized preparation for teachers of learning handicapped children whose primary language is Spanish. Prerequisites for admission include the following:

1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Learning Handicapped).
2. Special Education 527.
3. Spanish language proficiency at the S-3 (FSI 3) level.
4. Knowledge of the target culture and bilingual teaching strategies. Will satisfy prerequisites for Policy Studies in Language and Cross-Cultural Education 602. Proficiency may be demonstrated by passing the "Test of Culture and Teaching" used by the College of Education bilingual emphasis programs.

Certificate program requirements include the following: Policy Studies in Language and Cross-Cultural Education 553, 602, Special Education 546, and demonstration of competence in teaching learning handicapped students whose primary language is Spanish.

A grade point average of 3.0 must be obtained in the four courses. Contact the Department of Special Education for further information.

Instructional Microcomputer Software Design Certificate

The purpose of this certificate is to prepare specialists who can develop or assist in the development of microcomputer software to meet specific instructional, training or management needs. There are two competency areas incorporated in the certificate: instructional design and educational computing. Students must complete a minimum of 18 units with a 3.0 (B) grade point average and no less than a "C" in any course. For application or further information, see the Director of the program in the Department of Educational Technology.

Prerequisites: A bachelor's degree from an accredited institution with a grade point average of at least 2.5 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A combined score of at least 950 on the verbal and quantitative sections of the GRE General Test, and Educational Technology 471 Educational Computing (2).

Required Courses (18 units):
 ETEC 540 Instructional Technology (3)
 ETEC 541 Media Production (3)
 ETEC 544 Instructional Design (3)
 ETEC 572 Computer Solutions to Instructional Problems (3)
 ETEC 671 Advanced Instructional Software Design (3)
 Electives (3) To be selected with the approval of the program director.

Instructional Technology Certificate

Refer to General Catalog.

Language Development Specialist Certificate

The Language Development Specialist Certificate provides an interdisciplinary approach in linguistics and policy studies to train teachers in theory and application of English as a second language methodology for linguistically diverse students in grades K-12.

Requirements to exit the program:

1. Valid California teaching credential.
2. Six units of an appropriate foreign language at the college level.

The certificate program includes Linguistics 520, 550, 551, 552, and Policy Studies in Language and Cross-Cultural Education 553, 602, 650*, 651.

* Prerequisites waived for students in this program.

A grade point average of 3.0 must be obtained in the eight courses. Students who complete the certificate program are not eligible to receive the Basic Certificate in Applied Linguistics and English as a Second Language (ESL). This is a California State Department of Education approved program. Students who complete the program are eligible for the Language Development Specialist examination for Commission on Teacher Credentialing certification.

Supported Employment and Transition Specialist Certificate

The purpose of this certificate is to prepare specialists who can develop and implement programs in supported employment and adult community living for youth and young adults with handicaps. A student may elect to emphasize programs for moderately and mildly handicapped youth or programs for severely and multiply handicapped youth. Students must complete a minimum of 21 units with a 3.0 (B) grade point average. For application or further information, see the program advisers for the Supported Employment and Transition Certificate program in the Department of Special Education.

Prerequisites: A bachelor's degree from an accredited institution with a grade point average of at least 2.5 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A total of at least 950 (verbal and quantitative) on the Graduate Record Examination. Special Education 471 and 500.

Required courses (12 units)

- SPED 501 Special Education Procedures and Interpersonal Processes (3) or
 ARP 684 Introduction to the Rehabilitation Process (3)
 SPED 563 Career and Vocational Education for Exceptional Youth (3)
 SPED 564 Supported Employment: Training and Placement Techniques (3)
 SPED 771 Directed Internship: Special Education (3) Cr/NC or
 ARP 744 Practicum in Rehabilitation (3) Cr/NC or
 CNED 730 Fieldwork in Counseling (3) Cr/NC
 Nine units from the following:
 SPED 545 Curriculum and Instruction for Severely Handicapped Students (3)
 SPED 547 Adaptive School Behavior Instruction for Low Achieving Students (3)
 SPED 650 Special Topics in Special Education (3)
 SPED 798 or ARP 798 Special Study (3)
 ARP 645 Assessment and Vocational Development (6)
 ARP 687 Placement of the Disabled (3)
 CNED 650 Theory and Process of Career Development (3)
 TE 522 Substance Abuse in the Schools (3)

Program advisers will meet with each certificate student to design an individualized program of study based on the student's educational background and professional experience. Student may enroll in certificate program and master's degree program concurrently. No more than three units of the certificate program may be applied to a master's degree.

Teaching the Emotionally Disturbed/Behaviorally Disordered Certificate

This certificate provides specialized preparation for teachers of children with severe emotional disturbance who have been labeled as severely emotionally disturbed/behaviorally disordered in the school setting. Including those children labeled as seriously emotionally disturbed. Prerequisites to admission to the certificate program include the following:

1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Learning Handicapped) or Severely Handicapped).
2. A graduate grade point average of 3.0.
3. Interview with program faculty.

Program requirements for the Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered include the following: Special Education 529, 534, 544, 547, 677, 771 (3 units, adviser approved section), and demonstrated competence in teaching emotionally disturbed/behaviorally disordered students.

A grade point average of 3.0 is required for certificate coursework. Contact the Department of Special Education for further information.

Courses Acceptable on Master's and Doctoral Degree Programs in Education

GRADUATE COURSES

Students without classified graduate standing are not admitted to 600- and 700-numbered courses in Education.

Twelve units of professional education are prerequisite for enrollment in all graduate courses.

GENERAL

690. Procedures of Investigation and Report (3)

Research methods in education. Location, selection and analysis of professional literature. Methods of investigation, data analysis and reporting. Required of all applicants for advanced degrees in education.

696. Selected Topics in Community Influences on Learning and Curriculum Planning (1-3)

Prerequisite: Teaching experience.
 Intensive study in specific areas of education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of any 596 or 696 offered by the College of Education applicable to a master's degree.

791A. Evaluation Techniques (3)

Prerequisites: Education 690 and advancement to candidacy for the master's degree.
 Theory and practice of instructional program and product evaluation.

791B-791C. Practicum: Evaluation (1-3)

791B: One lecture. 791C: Independent study.
Prerequisites: Education 791A and advancement to candidacy for the Master of Arts degree in Education. Concurrent registration in Education 791B and 791C.
 Supervised experience in conducting a program or product evaluation, strategy selection, procedures, reporting methods, culminating in a written project.

795A-795B. Seminar (3-3)

Prerequisites: Education 690 and advancement to candidacy for the Master of Arts degree in Education.
 An intensive study in selected areas of education culminating in a written project. Limited to students following Plan B for the Master of Arts degree in Education.

797. Research (1-3) Cr/NC/SP

Prerequisites: Education 690 and advancement to candidacy for the master's degree.
 Research in one of the fields of education. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy for the master's degree.
 Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
 Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

DOCTORAL COURSES

801. Seminar on Social and Cultural Foundations of Multicultural Education (3-4)

Prerequisite: Admission to the doctoral program or consent of the Graduate Coordinator. Students are required to have a background in the social sciences or humanities relevant to such educational issues as social behavior and minority cultures.

Social and cultural parameters that have contributed to the shaping of American society and affected developments in education in the last two decades. Emphasis on the impact on multicultural education and human social behavior in pluralistic societies.

804. Bilingual Education: Models and Current Research Trends (3-4)

Prerequisites: Education 801, a background in sociolinguistics or social anthropology and admission to the doctoral program or consent of Graduate Coordinator.

Analysis of existing models of bilingual education based on previously identified needs of linguistic minority students. Demonstrated needs from current research in classrooms by ethnographers. Significance of linguistic/cultural competencies for academic performance and validity of existing impact studies.

805. Practicum in Education of Ethnically Diverse Learners (1) Cr/NC

Two hours of activity.
Prerequisite: Concurrent registration in Education 806.
 Culturally defined variables such as styles of communication, interaction, values, cognition and learning. Case studies, simulations and field experience.

806. Ethnically Diverse Learners: Public Policy and Classroom Practice (3-4)

Prerequisites: Education 801 and admission to the doctoral program or consent of the Graduate Coordinator. Background in psychological foundations of education and educational policy is required.

National, state, and school policy directed at providing the minority learner with equal educational opportunity. Discussion of legislation for desegregation, bilingual education, school implementation cases and classroom practices as these relate to equal educational opportunity.

810. Seminar in Curriculum Development (3-4)

Prerequisites: Administration, Rehabilitation and Postsecondary Education 630, Policy Studies in Language and Cross-Cultural Education 650, Teacher Education 600, and consent of Graduate Coordinator.

Examination of curricular issues with emphasis on the processes of decision making, curricular development, implementation and evaluation. Attention given to innovative programs and to role and process of legislation in curricular change.

811. Handicapped Individuals in Society: Issues in Practice and Policy (3-4)

Prerequisite: Admission to the doctoral program or consent of the Graduate Coordinator.

Issues relating to handicapped individuals in society. Current and historical practices in education and treatment and impact of public policy on service systems. Maximum credit four units.

812. Planning and Supervising Programs for Persons with Special Needs (3)

Prerequisites: Admission to doctoral program or consent of Graduate Coordinator; Education 811 or extensive background in special education or related field.

Program planning and development in settings serving special populations. Policy analysis, systems modeling, normalization, change theory, needs assessment, personnel development, supervision, manpower and resources development. Emphasizing services to the handicapped, adjustment to family living.

820. Advanced Educational Statistics (3-4)

Prerequisites: Education 690, Teacher Education 546, 646, or equivalent graduate level courses and consent of Graduate Coordinator. Theory and practice of statistical inference for research in education. Probability and sampling theory, data collection and organization, computer applications in educational research, statistical significance testing and prediction, use of statistical computer program libraries.

825. Reading Research (3)

Prerequisites: Master of Arts degree in reading or related language area, and two years of teaching experience. Analysis of existing literature in reading research and its application to the field. Exploration of areas of research need.

890. Advanced Seminar: Processes of Reading (3)

Prerequisite: Admission to doctoral program or consent of Graduate Coordinator and Education 825. Linguistic, cognitive, and affective factors that influence a reader while processing texts. Models of reading process, discourse analysis of written text, and models of reading instruction.

895. Seminar (1-8)

Prerequisite: Admission to the doctoral program or consent of the Graduate Coordinator.

Investigation of a particular topic or issue, emphasis on empirical research in education. See Class Schedule for specific content. Maximum credit eight units applicable to an advanced degree.

897. Doctoral Research (1-3) Cr/NC/SP

Prerequisite: Admission to the doctoral program. Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-6) Cr/NC/SP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral program. Enrollment is required during the term in which the dissertation is approved.

General

UPPER DIVISION COURSE

596. Topics in Administration, Rehabilitation and Postsecondary Education (1-3)

Selected problems in administration, rehabilitation and postsecondary education. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Education 596; Educational Technology and Librarianship 596; and Development, Administration and Technology 596.)

GRADUATE COURSES

696. Advanced Topics in Administration, Rehabilitation and Postsecondary Education (1-3)

Prerequisite: Twelve units in Administration, Rehabilitation and Postsecondary Education. Intensive study in specific areas of administration, rehabilitation and postsecondary education. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Development, Administration and Technology 696.)

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor. May involve fieldwork. Individual study. Maximum credit six units applicable to a master's degree. (Formerly numbered Development, Administration and Technology 798.)

Community College/Vocational Education

UPPER DIVISION COURSE

565. Psychological Foundations of Adult and Vocational Education (3) I, II, S

Prerequisite: Administration, Rehabilitation and Postsecondary Education 380 or 381.

Learning processes of adult and vocational education students in relation to theories of learning and methods of teaching. (Formerly numbered Education 565 and Development, Administration and Technology 565.)

GRADUATE COURSES

605. The Community College (3)

Overview of philosophy, history, aims, scope, function, outcomes, principles and problems of the community college. Relation of the community college to secondary and higher education. Fieldwork required. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 681; Development, Administration and Technology 681; and Education 680.)

611. Curriculum Theory and Development in Postsecondary Education (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 605 or appropriate experience.

Process of curriculum change and improvement. Development and evaluation of curricula in postsecondary education and selection of appropriate teaching strategies to meet learning needs of students. (Formerly numbered Education 610 and Development, Administration and Technology 611.)

631. Seminar in Instructional Methods and Materials: Community College (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 611 or appropriate experience.

The teaching process at the community college level addressing lesson planning, individualization of instruction, use of learning centers, interactive instruction, other audiovisual methods and procedures of evaluation.

705. Directed Teaching: Community College (4) Cr/NC

Prerequisite: Administration, Rehabilitation and Postsecondary Education 631.

Systematic observation, participation, and teaching under supervision in a community college. A weekly seminar or conference is required. Application to take this course must be made in the preceding semester by preregistration with the Community College Program Coordinator.

730. Seminar in Adult Learning (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 611.

Patterns and implications for adult life-long learning.

Educational Administration GRADUATE COURSES

600. Principles of Educational Administration (3)

Educational administration and leadership as a profession. Related organizational concepts and management theories. Principles and competencies for leadership and administrative practice as each relates to the aspiring school administrator.

610. Educational Leadership (3)

Concepts and techniques of leadership, analysis of the factors and practice in the procedures of individual and group leadership as applied to educational environments.

630. Curriculum Design and Management (3)

Prerequisites: Administration, Rehabilitation and Postsecondary Education 610 and classified graduate standing.

Administrator's role in curriculum leadership and management in elementary, middle, and secondary school; emphasis on interrelationships within levels; supervision of curricular and supervisory personnel; use of research in curriculum development and implementation.

652. Seminar in Instructional Improvement and Evaluation (3)

Prerequisites: Administration, Rehabilitation and Postsecondary Education 630 and classified graduate standing.

Improvement of instruction through application of principles and practices in assessment of teaching competency; development of teaching profiles; leadership skills in working with teachers to improve performance.

655. Administering Educational Organizations (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 610.

Principles and practices in the administration and leadership of elementary, middle, junior high, and secondary schools and other educational organizations. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 651.)

**660. Field Experience in Educational Administration (1-6)
Cr/NC/SP**

Prerequisites: Nine units of required coursework in Administration, Rehabilitation and Postsecondary Education; classified graduate standing in the educational administration program.

Supervised field experience in schools or other educational settings. Monthly sessions with university faculty. Application to take this course must be made during preceding semester. Maximum credit 10 units of which 4 units are applicable to a master's degree. (Formerly numbered Educational Administration 660A and Development, Administration and Technology 660.)

680. Seminar in Educational Administration (1-6)

Prerequisite: Consent of instructor.

Study of educational administration in a specialized field, such as community college, school district, a subject field, or designated services. Field experience when appropriate. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Educational Administration 680 and Development, Administration and Technology 680.)

701. School Law and Legal Issues for Administrators (3)

Prerequisites: Completion of a graduate degree and approval of department.

Impact of school law on administrative roles and processes including due process for policy formation in educational personnel, student, and instructional areas.

715. School Finance and Fiscal Management (3)

Prerequisites: Completion of a graduate degree and approval of department.

Financial practices and problems including state and federal support plans, school plant planning, school business management, resource allocation, budgeting, and educational accountability.

720. Educational Personnel Management and Practices (3)

Prerequisites: Completion of a graduate degree and approval of department.

Human resource management in educational administration including selection and evaluation of staff, contract management, and staff development. Personnel managerial styles, staff leadership, and motivation techniques as to morale and productivity. Analysis of educational personnel systems and employee assistance programs.

740. Advanced Seminar in Educational Administration (3)

Prerequisite: Consent of instructor.

Study of a selected area in educational administration, such as educational law, finance, supervision, personnel procedures, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units applicable to a master's degree. (Formerly numbered Educational Administration 740 and Development, Administration and Technology 740.)

747. Instructional Leadership in a Multicultural Society (3)

Prerequisites: Completion of a graduate degree and approval of department.

Current theory and practice in meeting needs of diverse learners. Leadership and administration of educational organizations as political complex systems requiring consensus-building dynamics in a multicultural society.

750. Educational Organizational Behavior and Development (3)

Prerequisites: Completion of a graduate degree and approval of department.

Organizational theory and research; educational management and aspects of educational leadership; improvement of educational organizational efficiency and effectiveness.

755. Educational Governance and Policy Development (3)

Prerequisites: Completion of a graduate degree and approval of department.

Development of educational policy and impact of politics in governance and administration; control functions of federal, state, and local agencies; influence of lay citizens and special interest groups; roles of judiciary, employee organizations and students.

**760. Internship in Educational Administration (2-6)
Cr/NC/SP**

Prerequisite: Consent of instructor.

Internship for prospective educational administrators. Application to take this course must be made in the preceding semester by pre-registration with the credential program coordinator. Released time may be required. May be repeated. Maximum credit 12 units applicable to the Professional Administrative Services Credential. (Formerly numbered Educational Administration 760 and Development, Administration and Technology 760.)

**Rehabilitation Counseling
GRADUATE COURSES**

645. Assessment and Vocational Development (6)

Four lectures and six hours of laboratory.

Prerequisite: Admission to graduate program in Rehabilitation Counseling.

Rehabilitation assessment, labor market information, and vocational planning implications. Current assessment approaches and vocational theories related to the disabled. (Formerly numbered Development, Administration and Technology 645.)

648. Group Dynamics in Rehabilitation (3)

Prerequisite: Admission to graduate program in Rehabilitation Counseling.

Theory, dynamics, process and leadership function as applied to group work in rehabilitation. Development and application of group leadership skills/techniques for adjustment, support, skill training, organizational problem solving and team-building groups in rehabilitation. (Formerly numbered Development, Administration and Technology 648.)

684. Introduction to the Rehabilitation Process (3)

Two lectures and three hours of laboratory.

Background and legislation related to vocational rehabilitation; overview of client services and role and function of the rehabilitation counselor as a professional person. Orientation to community rehabilitation agencies. (Formerly numbered Counselor Education 680A and Development, Administration and Technology 684.)

685A-685B. Medical and Psychological Aspects of Disability (3-3)

Prerequisite: Open to rehabilitation graduate students and practitioners.

Disabling conditions, covering disabilities from perspective of medical and psychological implications for successful rehabilitation. Each disability is viewed in terms of functional limitations imposed and rehabilitative services needed. Administration, Rehabilitation and Postsecondary Education 685A not open to students with credit in Administration, Rehabilitation and Postsecondary Education 685; Administration, Rehabilitation and Postsecondary Education 685B not open to students with credit in Administration, Rehabilitation and Postsecondary Education 686. (Formerly numbered Development, Administration and Technology 685A-685B.)

687. Placement of the Disabled (3)

Two lectures and three hours of laboratory.

Prerequisite: Admission to Rehabilitation Counselor Program.

Determination of employment needs of disabled clients, case study method. Follow-through to placement. Continuous survey of employment needs and opportunities in the wider community. (Formerly numbered Counselor Education 680D and Development, Administration and Technology 687.)

710A-710B. Seminar in Rehabilitation (3-3)

Prerequisite: Completion of at least 24 units leading to Master of Science in Rehabilitation Counseling.

Selected areas with emphasis in research in rehabilitation counseling. See Class Schedule for specific content. (Formerly numbered Development, Administration and Technology 710A/710B.)

743. Fieldwork in Rehabilitation (3-6) Cr/NC

Prerequisite: Admission to graduate program in Rehabilitation Counseling.

Orientation to the rehabilitation process including agency goals, operating strategies, responsibilities and ethics, employee role expectations, and nature of rehabilitation client needs. Maximum credit six units applicable to a Master of Science degree in Rehabilitation Counseling. (Formerly numbered Development, Administration and Technology 743.)

744. Practicum in Rehabilitation (3-9) Cr/NC

Prerequisite: Admission to graduate program in Rehabilitation Counseling.

Clinical supervision of the rehabilitation process as it relates to outreach and referral, job development, placement, counseling, and caseload management. Maximum credit nine units applicable to a Master of Science degree in Rehabilitation Counseling. (Formerly numbered Development, Administration and Technology 744.)

745. Internship in Rehabilitation (2-6) Cr/NC

Prerequisite: Admission to graduate program in Rehabilitation Counseling.

Supervised internship during final semester in rehabilitation setting which involves application of rehabilitation counseling experiences. Maximum credit six units applicable to a Master of Science degree in Rehabilitation Counseling. (Formerly numbered Development, Administration and Technology 745.)

746. Seminar in Vocational Rehabilitation with Severely Handicapped Deaf Clients (3)

Prerequisite: Consent of instructor.

Characteristics and needs of severely handicapped deaf rehabilitation clients. Procedures for coordinating and providing rehabilitation services including vocational and psychological diagnosis, supported employment, independent living and cross-cultural counseling through American sign language. (Formerly numbered Development, Administration and Technology 746.)

Counselor Education

In the College of Education

OFFICE: North Education 179
TELEPHONE: (619) 594-6109

Faculty

James P. Carnevale, Ph.D., Professor of Counselor Education
John D. Chamley, Ed.D., Professor of Counselor Education, Associate Dean of the College of Education
Valerie J. Cook, Ph.D., Professor of Counselor Education
Emery J. Cummins, Ph.D., Professor of Counselor Education
Lawrence B. Feinberg, Ph.D., Professor of Counselor Education, Associate Dean of the Graduate Division and Research
Ralph Llewellyn Miller, Ph.D., Professor of Counselor Education
Maria Nieto Senour, Ph.D., Professor of Counselor Education
Colette L. Ingraham, Ph.D., Associate Professor of Counselor Education
Carol A. Robinson-Zañartu, Ph.D., Associate Professor of Counselor Education
Gordon M. Thompson, Ph.D., Associate Professor of Counselor Education (Graduate Adviser), Chair of Department
Sharon Grant-Henry, Ph.D., Assistant Professor of Counselor Education
Roberto Velasquez, Ph.D., Assistant Professor of Counselor Education

Courses Acceptable on Master's Degree Programs in Counseling

UPPER DIVISION COURSES

585A. Human Sexuality for Counselors (3)
Prerequisite: Upper division course in human sexuality.
Dimensions of human sexuality that bear directly on the role and function of helping professions. Human sexual development, sexual variations, sexual dysfunctions, intimate life styles, treatment modalities and sexual ethics. Fulfills MFCC licensure requirements.

585B. Dynamics of Adjustment Behavior (3)
Prerequisite: Upper division course in abnormal psychology.
Philosophies and dynamics of adjustment behavior, patterns and types of abnormal behavior, and treatment modalities. Fulfills MFCC licensure requirement.

596. Selected Studies (1-3)
Prerequisite: Consent of instructor.
A series of lecture and discussion sessions centering on current problems in counseling and guidance. Designed to serve the needs of any person desiring to keep informed of developments in this area. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered and entitled Counselor Education 506, Guidance Conference.)

GRADUATE COURSES

600. Counseling Communication Skills (2)
Prerequisite: Concurrent registration in Counselor Education 600L.
Introduction to counseling. Fields utilizing discipline, and concepts underlying effective counseling practice and interpersonal communication.

600L. Counseling Prepracticum (1) Cr/NC
Three hours of practicum.
Prerequisite: Credit or concurrent registration in Counselor Education 600.
Development of self-understanding. Communication skills needed for becoming an effective counselor.

605. Seminar in Ethical and Legal Issues for Counselors (3)
Prerequisite: Credit or concurrent registration in Counselor Education 600.
Ethical and value issues. Code of ethics and professional standards of major professional mental health associations from a case study perspective. Legal obligations, constraints, and privileges of marriage, family, and child counselors, school counselors, and psychologists.

610. Determinants of Human Behavior (3)
Implications of theory and research in behavioral sciences for the understanding of human behavior.
A. Personality C. Development
B. Social and Cultural D. School Learning

615. Seminar in Multicultural Dimensions in Counseling (3)
Issues, insights and techniques for improving effectiveness in working with culturally different populations.

620. Guidance Services in Public Education (3)
Historical, philosophical and legal bases of pupil personnel services; staff roles and relationships in a variety of organizational patterns.

621. Introduction to School Psychology (3)
Introduction to school psychology: roles (assessing, counseling, consulting); skills (innovative techniques, consultation); and issues (modifying the system, multicultural impact).

640. Theory and Process of Appraisal (3)
Prerequisite: Education 690.
Measurement theory and procedures, including interpretation of test results. Not open to students with credit in Counselor Education 645.

640L. Appraisal Laboratory (1) Cr/NC
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Counselor Education 640.
Directed laboratory activity focusing on topics presented in Counselor Education 640.

642A-642B. Individualized Appraisal of Learning Characteristics (4-4)
Three lectures and three hours of laboratory.
Prerequisite: Counselor Education 640. Counselor Education 642A is prerequisite to 642B.

Administration and interpretation of instruments and techniques for assessing learning characteristics of children from multicultural settings.
642A: Individualized intellectual assessment of school-aged children.
642B: Scholastic status, learning aptitudes, social maturity, interpersonal relations and behavioral adjustment.

650. Theory and Process of Career Development (3)
Vocational choice theory, occupational and educational materials used in career planning. Not open to students with credit in Counselor Education 645.

650L. Career Development Laboratory (1) Cr/NC
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Counselor Education 650.

Directed laboratory activity focusing on materials and processes used in career planning and other topics presented in Counselor Education 650.

651. Counseling for Sex Roles in Transition (3)
Development of counseling skills in career development, educational, psychological and social forces affecting contemporary women and men. Impact of these forces upon relationships between the sexes and personal definitions of femininity and masculinity.

660. Theory and Process of Counseling (3)

Prerequisites: Counselor Education 600, 600L, and 610A or 610C.
Counseling process theories, approaches to and techniques for counseling, and research concerning counseling effectiveness. Not open to students with credit in Counselor Education 667.

660L. Counseling Prepracticum Laboratory (1) Cr/NC

Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Counselor Education 660.
Supervised practice in and critique of counseling and other topics presented in Counselor Education 660.

662. Counseling Interventions with Children and Adolescents (3)

Prerequisites: Counselor Education 610C and 660.
Counseling theories, processes and approaches appropriate to children and adolescents in multicultural school and community settings. Application of theories and research for individual, group, and systems interventions.

670. Theory and Process of Group Counseling (3)

Prerequisites: Counselor Education 600, 600L, and 610B.
Group process, theories of group interaction, and group leadership techniques with children, adolescents, adults, couples, and families. Not open to students with credit in Counselor Education 667.

670L. Group Counseling Laboratory (1) Cr/NC

Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Counselor Education 670.
Supervised practice in group counseling, group leadership, and other topics presented in Counselor Education 670.

680. Theory and Process of Consultation (3)

Prerequisites: Counselor Education 600 and 600L.
Consultation theory, process, and research for counselors and school psychologists. Emphasis on mental health and problem-solving consultation in education and mental health settings. (Formerly numbered Counselor Education 616.)

685. Theories of Marriage and Family Counseling (3)

Prerequisite: Counselor Education 660.
Counseling modalities, family intervention strategies and techniques of co-counseling in marriage and family therapy. Systems approaches and behavioral contracting. Fulfills MFCC licensing requirement.

686. Seminar in Advanced Studies of Marriage and Family Therapy (3)

Prerequisites: Counselor Education 685 and 740.
In-depth study of the seminal literature and research of major theories of marriage and family therapy.

696. Selected Topics in Counselor Education (1-3)

Prerequisite: Consent of instructor.
Intensive study in specific areas of counselor education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

710A-710B. Professional Seminar (3-3)

Prerequisites: Education 690. Six units from Counselor Education 640, 650, 660, and 670. Counselor Education 710A and 740 are prerequisite to 710B.

Study of selected areas in counseling culminating in a written project with emphasis on counseling as a profession. See Class Schedule for specific content.

730. Fieldwork in Counseling (2-6) Cr/NC

Prerequisite: Counselor Education 660 or 662 or 670.
Application of concepts and procedures of counseling or school psychology services in appropriate school or agency setting. Daily observation and practice. Weekly seminar sessions with university staff. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master's degree in counseling.

740. Practicum: Individual Counseling (3) Cr/NC

Prerequisite: Counselor Education 660.
Supervised experience in individual counseling and career planning. May be repeated with new content. Maximum credit six units applicable to a master's degree in counseling.

741. Practicum: Group Counseling (3) Cr/NC

Prerequisite: Counselor Education 670.
Supervised experience in group counseling and career planning. May be repeated with new content. Maximum credit six units applicable to a master's degree.

745. Program Development for Pupil Services (3)

Prerequisites: Counselor Education 620, 730, and Education 690.
Development, management, and evaluation of pupil services in schools. Analysis of models and practice in planning.

750. Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC

Prerequisite: Counselor Education 740.
Supervised experience in individual counseling and study of problems, issues, and research. May be repeated. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree in counseling.

752. Seminar and Practicum: School Psychology (3-6) Cr/NC

Nine hours of practicum for three units.
Prerequisites: Counselor Education 730, credit or concurrent registration in Counselor Education 642A-642B.
School psychology in multicultural school settings; implications for standard and innovative school psychology practices.

760. Advanced Seminar in School Psychology (3)

Prerequisites: Counselor Education 621, 710A, and 752.
Study of selected areas in school psychology which culminates in a written project with emphases on research, problems and/or issues. See Class Schedule for specific content.

770. Advanced Seminar in Counseling (3)

Prerequisite: Advancement to candidacy or counseling experience.
Selected areas in counseling culminating in a written project with emphasis on research, problems, and issues. See Class Schedule for specific content.

780. Internship (2-12) Cr/NC

Prerequisite: Counselor Education 730.
Supervised internship experience in counseling or school psychology activities. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master's degree. Maximum credit 24 units applicable to the specialization in School Psychology. (Formerly numbered Counselor Education 720.)

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree. May involve fieldwork.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the Master of Science degree in Counseling.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Thesis 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Educational Technology

In the College of Education

OFFICE: North Education 280
TELEPHONE: (619) 594-6718

Faculty

Patrick J. Harrison, Ph.D., Professor of Educational Technology, Chair of Department
Allison Rossett, Ed.D., Professor of Educational Technology
Brockenbrough S. Allen, Ph.D., Associate Professor of Educational Technology
Bernard J. Dodge, Ph.D., Associate Professor of Educational Technology
Farhad Saba, Ph.D., Associate Professor of Educational Technology
Michael D. Williams, M.A., Assistant Professor of Educational Technology

UPPER DIVISION COURSES

532. Production of Instructional Materials (3) I, II

Six hours of activity.
Instructional media production for professionals in organizational settings such as hospitals, law offices, accounting firms, publishing companies. Use of videotape, laser disc, multi-image and digital telecommunications for training. Not open to students in educational technology degree and certificate programs or to students with credit in Educational Technology 541. (Formerly numbered Development, Administration and Technology 532.)

540. Instructional Technology (3) I, II, S

Six hours of activity.
Role of instructional systems development in education and training. Issues in instructional technology, self-instructional programs, competency-based instruction, new technologies of instruction and training. (Formerly numbered Development, Administration and Technology 540.)

541. Media Production (3) I, II

Nine hours of laboratory.
Prerequisite recommended: Educational Technology 404.
Design and production of instructional materials. Use of computers for graphics, scriptwriting, production management, and control systems for media presentations. Audio recording techniques with digital control. Not open to students with credit in Educational Technology 532. (Formerly numbered Development, Administration and Technology 541.)

544. Instructional Design (3) I, II

Six hours of activity.
Prerequisite recommended: Educational Technology 540.
Systematic approach to instructional design. Review of research and theory in instructional strategy development. Analysis, design and development of instructional and training products and programs. (Formerly numbered Development, Administration and Technology 544.)

553. Workshop in Educational Television (3) I, S

Nine hours of laboratory.
Prerequisite: Educational Technology 541.
The procedures and theories of television production as it pertains to closed circuit and instructional use of television. The selection and utilization of program content and the method of presenting material through the television medium will be discussed and demonstrated. Not open to students with credit in Telecommunications and Film 320. (Formerly numbered Development, Administration and Technology 553.)

572. Computer Solutions to Instructional Problems (3) I, II

One lecture and six hours of laboratory.
Prerequisites: Educational Technology 541; admission to a credential program or a teaching credential or experience in teaching.
Using the computer, especially the microcomputer, as an instructional tool.

596. Topics in Educational Technology (1-3)

Selected problems in educational technology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Development, Administration and Technology 596.)

GRADUATE COURSES

644. Advanced Instructional Design (3)

Two lectures and three hours of laboratory.
Prerequisites recommended: Educational Technology 540 and 544.
Examination of roles and concerns of persons in instructional design. Problem solving on current design issues. Instructional product development, use and evaluation. (Formerly numbered Educational Technology and Librarianship 676 and Development, Administration and Technology 676.)

653. Interactive Video Instruction (3)

Six hours of activity.
Prerequisites: Educational Technology 544, 553 and 572.
Interactive video as a training and educational medium. Design and production principles appropriate to interactive video. Review of present research and applications. (Formerly numbered Development, Administration and Technology 653.)

670. Simulation and Games (3)

Prerequisites: Educational Technology 540 and 541.
Design, evaluation and use of simulations and games for education and training. Instructional applications of computer-based simulations, interactive fiction, board games and role play. (Formerly numbered Development, Administration and Technology 670.)

671. Advanced Instructional Software Design (3)

One lecture and six hours of laboratory.
Prerequisite recommended: Educational Technology 572. Strongly recommended: Educational Technology 544.
Advanced techniques for designing of computer-assisted instruction, screen design, user friendliness, graphics, animation, instructional and motivational strategies. (Formerly numbered Development, Administration and Technology 671.)

684. Seminar in Management of Educational Technology (3)

Prerequisite recommended: Educational Technology 544.
Research reviewed and the findings related to current practices. Relationships of educational technology to educational philosophies and current issues. Recent trends evaluated. (Formerly numbered Development, Administration and Technology 674.)

700. Seminar in Educational Technology (1-3)

Prerequisite: Educational Technology 540.
Selected areas, topics in educational technology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Development, Administration and Technology 700.)

775. Directed Internship in Educational Technology (2-6) Cr/NC

Supervised internship in an educational setting. Application to take course must be made during preceding semester. (Formerly numbered Development, Administration and Technology 775.)

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree. (Formerly numbered Development, Administration and Technology 798.)

Policy Studies in Language and Cross-Cultural Education

In the College of Education

OFFICE: Education 152
TELEPHONE: (619) 594-5155

Faculty

Ruben W. Espinosa, Ph.D., Professor of Policy Studies in Language and Cross-Cultural Education
Alberto M. Ochoa, Ed.D., Professor of Policy Studies in Language and Cross-Cultural Education
Richard Pacheco, Ph.D., Professor of Policy Studies in Language and Cross-Cultural Education
Natalie A. Kuhlman, Ph.D., Associate Professor of Policy Studies in Language and Cross-Cultural Education, Chair of Department
Lilia I. Bartolome, Ph.D., Assistant Professor of Policy Studies in Language and Cross-Cultural Education
Yvonne Caballero-Allen, Ph.D., Assistant Professor of Policy Studies in Language and Cross-Cultural Education
My Luong Tran, Ph.D., Assistant Professor of Policy Studies in Language and Cross-Cultural Education

UPPER DIVISION COURSES

515. Bilingual Teaching Strategies (3)

Prerequisite: Teaching experience or enrollment in the bilingual emphasis credential program.
Legal and historical developments leading to bilingual teaching in the United States. Interactive and individualized techniques appropriate for bilingual students. Language assessment methods for grouping and evaluating bilingual students. Fieldwork required. Taught in Spanish.

552. Teaching Writing in Multilingual Settings (3)

Methodologies in teaching primarily expository writing to students from various language backgrounds, focusing on skills such as those needed to avoid syntactic, semantic and stylistic language interference.

553. Oral Language Assessment Techniques (3)

Theoretical and applied linguistics; language functions in the bilingual classroom; implications of sociolinguistics for diagnosis and classification of bilingual children; analysis and application of language assessment instruments; comparison of diverse linguistic systems associated with different cultures.

575. Computer Applications in the Bilingual Classroom (3)

Two lectures and three hours of laboratory.
Prerequisite: Educational Technology 471.
Computer applications for bilingual instructional setting including examination and evaluation of instructional software and authoring systems for developing curriculum for limited English proficient (LEP) students.

596. Special Topics in Bilingual and Multicultural Education (1-3)

Prerequisite: Consent of instructor.
Selected topics in bilingual, cross-cultural education and policy studies. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

602. Cross-Cultural Experience in Classroom Interaction (3)

Prerequisite: Consent of instructor.
Analysis of teacher's verbal and nonverbal communicative strategies; teacher's classroom management style; and children's sociolinguistic repertoire within learning situation.

612. Ethnographic Approach to Classroom Interaction (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.
Interpersonal interaction in classrooms via analysis of linguistic, paralinguistic, kinesic, and proxemic behaviors of teachers and students; levels of communicative competence and teach/learning patterns.

613. Organizational Strategies and Staff Development for the Multicultural School-Community (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 653.
Leadership skills and change strategies for designing and implementing instructional programs, staff development approaches, and establishing a structural and functional organizational school climate that promotes culturally pluralistic educational services.

614. Strategies for Educational Change: Development and Implementation of School Site Programs for Multicultural Education (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 653.
Legal and educational framework for developing educational programs reflective of the sociocultural characteristics of the school determinants; assessment of school site program effectiveness, development of educational strategies for implementing school site programs.

622. Analysis and Issues in Race and Ethnic Relations: Theory, Research and Action (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 653.
Race and ethnic relations from theoretical, research, and action-based perspectives; investigates social, political, economic, and educational factors that hinder or promote cultural relativism and interracial harmony, domestically and internationally.

623. Action-Oriented Policy Research (3)

Prerequisite: Education 690.
Policy research aimed at educational reform for the poor and ethnic minority child; major equity issues including school segregation, school finance and bilingual-bicultural education. Offers writing and computer skills to critically conduct action-oriented policy research.

650. Bilingual/Cross-Cultural Curriculum Development and Teaching Strategies (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.
Bilingual/cross-cultural teaching materials and methodologies for implementation in the multicultural classroom.

651. Multicultural Methods and Curriculum in Content Areas (1-3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 650.
Variety of instructional areas (mini-courses), each focusing on a single topic dealing with multicultural education. Of three required units at least one must be taken from basic content areas, such as social studies, science or mathematics. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree.

652. Language Arts in the Multicultural Education Curriculum (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 650.

Research and teacher curricular strategies related to English literacy and oral language development for bilingual and limited English proficient student.

653. Language Policies and Practices (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.

Historical and present day analysis of how non-English speakers have been educated, including methodologies, relevant legislation, formal and informal policies, teaching practices, and the implications for schools and society.

686. Seminar in Multicultural Education (1-6)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.

Topics dealing with current issues in multicultural education. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

UPPER DIVISION COURSES

All 500-level courses in Special Education, with the exception of Special Education 500 and 501, are reserved for students officially admitted to one of the programs in Special Education.

500. Exceptional Individuals (3) I, II, S

Three lectures/fieldwork.

Principles, procedures and techniques in identifying and programming for exceptional students. Historical, philosophical and legal background which affect current special education practices.

501. Special Education Procedures and Interpersonal Processes (3) I, II, S

Introduction to procedures, legal requirements, and interpersonal processes in the identification, prescription, teaching and evaluation of instructional programs for handicapped students.

502. Exceptionality and Giftedness (3) I, II

Prerequisite: Twelve units in education or any upper division course in teaching reading or mathematics.

Principles, procedures, and techniques for identifying and educating gifted individuals who may have handicapping conditions. Not open to students with credit in Special Education 500 and 501.

508. Characteristics and Identification of the Gifted (3) I, II

Prerequisites: Credit or concurrent registration in Special Education 502 and 12 additional units in education.

Historical and philosophical foundations of education for the gifted, including review of research on characteristics screening and identification procedures.

524. Characteristics and Education of Learning Handicapped Students (3) I, II, S

Prerequisites: Credit or concurrent registration in Special Education 500 and 501.

Historical and philosophical perspectives of programs related to learning handicapped students including review of research, educational programs, curricular approaches and characteristics of learning handicapped individuals.

525. Characteristics and Education of Severely Handicapped Students (3) I, II, S

Prerequisites: Credit or concurrent registration in Special Education 500 and 501.

Historical and philosophical perspectives of programs related to severely handicapped students including review of research, educational

programs, curricular approaches and characteristics of severely handicapped individuals.

526. Characteristics and Education of Physically Handicapped Students (3) I, II, S

Prerequisites: Credit or concurrent registration in Special Education 500 and 501.

Historical and philosophical perspectives of programs related to physically handicapped students including review of research, educational programs, curricular approaches and characteristics of physically handicapped individuals.

527. Characteristics and Education of Multicultural Learning Handicapped Students (3) I, II, S

Prerequisites: Credit or concurrent registration in Special Education 500 and 501.

Historical and philosophical perspectives of programs related to multicultural learning handicapped students including review of research, educational programs, curricular approaches and characteristics of multicultural learning handicapped individuals.

528. Early Intervention for Handicapped Infants, Children, and Their Families (3) I

Prerequisites: Special Education 500 and 501 or equivalent coursework in another discipline.

Historical and philosophical perspectives of programs related to handicapped infants and preschool students including review of research, educational programs, curricular approaches and characteristics of handicapped infants and preschooler individuals.

529. Characteristics and Education of Seriously Emotionally Disturbed Students (3) I, II, S

Prerequisites: Special Education 500 and 501.

Historical and philosophical perspectives of programs related to emotionally disturbed/behaviorally disordered students including review of research, educational programs, curricular approaches, and characteristics.

534. Assessment and Evaluation of Learning Handicapped Students (3) I, II, S

Prerequisite: Special Education 524.

Tests and procedures for assessing, evaluating and monitoring progress of learning handicapped individuals to meet their physical, intellectual, social, and emotional needs. Psychoeducational diagnosis, appraisal, and assessment procedures.

535. Assessment and Evaluation of Severely Handicapped Students (3) I, II, S

Prerequisite: Special Education 525.

Tests and procedures for assessing, evaluating and monitoring progress of severely handicapped individuals to meet their physical, intellectual, social, vocational and emotional needs. Psychoeducational diagnosis, appraisal and assessment procedures.

542. Curriculum and Instruction for the Gifted (3) I, II

Prerequisites: Special Education 502 and 508.

Current practices, research, issues and trends regarding development of programs and curricula appropriate for gifted and talented learners.

544. Basic Skill Instruction for Low Achieving Students (3) I, II

Prerequisite: Special Education 524.

Application of systematic instruction to the unique academic needs of learning handicapped and low achieving students in basic skill areas. Emphasis on program planning, delivery of instruction, selection of materials, and monitoring student progress.

545. Curriculum and Instruction for Severely Handicapped Students (3) I, II, S

Prerequisite: Special Education 525.

Utilization of data for determining general and specific objectives to meet the needs unique to severely handicapped individuals. Developing and selecting materials and establishing procedures for monitoring and evaluating pupil progress.

546. Curriculum and Instruction for Multicultural Learning Handicapped Students (3) I, II, S

Prerequisite: Special Education 500.

Utilization of data for determining general and specific objectives to meet needs unique to multicultural learning handicapped individuals. Developing and selecting materials and establishing procedures for monitoring and evaluating pupil progress.

547. Adaptive School Behavior Instruction for Low Achieving Students (3) I, II

Prerequisites: Special Education 500 and 501.

Instructional strategies in adaptive school behaviors, social skills, study skills, learning strategies and prevocational skills. Focus on systematic instruction in these areas for low achieving students.

553. Dynamics of Behavior Change of the Exceptional Individual (3) I, II, S

Prerequisites: Special Education 500 and 501.

Management and treatment of individuals with exceptional needs. Current theories and programs in behavioral change studies, analyzed with reference to their applications for the educational environment.

560. Applications of Technology for Exceptional Learners (3) I

Prerequisite: Special Education 500.

Educational applications of current technologies for handicapped and gifted learners. Selection, modification, and classroom use of technologies to improve or bypass physical, sensory, communicative, learning, and social disabilities and for environmental control.

562. Teaching Partnerships in Special Education (3) I, II, S

Prerequisites: Special Education 500 and 501.

Theory and process of school-based collaboration for the special education teacher and other related professionals; interpersonal processes, communication skills, conflict resolution; decision-making models, team function; collaboration models for working with aides, parents, administrators, and other professionals.

563. Career and Vocational Education for Exceptional Youth (3) I, II, S

Prerequisite: Special Education 471 or 500.

Historical and modern view of vocational development for handicapped youth; current legislative thrusts; practical application of strategies in assessing and teaching vocational and community living skills; developing community-based worksites, employer contacts, and parent involvement.

564. Supported Employment: Training and Placement Techniques (3) I, II, S

Prerequisites: Special Education 500 and 501.

Theory and process of supported employment programs for handicapped students. State-of-the-art research and applied skills related to implementing supported employment programs in the mainstream. Intensive experiential component.

571. Assessment and Programming: Handicapped Infants and Preschoolers (4) I, II, S

Prerequisites: Special Education 501 and 528.

Tests, techniques, and procedures for assessing handicapped infants and preschoolers. Developing, implementing, monitoring, and evaluating educational programs in home-based and center-based programs. Communicating assessment and program objectives and data to parents and other professionals.

596. Selected Topics in Special Education (1-4) I, II, S

Specialized study of selected topics in special education. May be offered as either a workshop or lecture/discussion. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

644. The Gifted Student (3)

Prerequisites: Special Education 502 and 508.

The abilities and characteristics of the intellectually gifted or talented, related problems of curriculum, teaching, administration and guidance.

650. Special Topics in Special Education (1-4)

Prerequisites: Special Education 471, 500, 501.

Instructional sequences (mini-courses) focusing on a single topic or competency dealing with special education. Topics differ each semester to adjust to current literature in the field, training needs, and resource availability. Maximum combined credit of nine units for Special Education 650A, 650B, 650C, 650D applicable to a master's degree. Offered in four categories:

- | | |
|--|---|
| A. Consultant Skills/
Multidisciplinary Teams | C. Specialized Assessment
Techniques |
| B. Affective and Social
Development | D. Instructional Programming |

651. Legislation and Management of Special Education Services (3)

Prerequisites: Special Education 500 and 501, and 15 additional units of coursework in special education.

Implementation of laws, regulations and compliance requirements in special education. Requirements to and approaches for managing school and delivery of school and related services within a multidisciplinary context. Meets competencies for Resource Specialist Certificate.

652. Parent Education and Staff Development in Special Education (3)

Prerequisites: Special Education 500 and 501, and 15 additional units of coursework in special education.

Issues relating to and development of skills for working with parents and school staff to develop skills and competencies needed to optimize the educational progress of handicapped students. Meets competencies for Resource Specialist Certificate.

653. Advanced Programming and Consultation in Special Education (3)

Prerequisites: Special Education 500, 501, a course in special education curriculum and instruction and behavior management, and 15 additional units of coursework in special education.

Education programming and consultation for working with teachers in instructional delivery for handicapped students. Skills in behavior management, assessment, programming, evaluation, and vocational plans. Meets competencies for Resource Specialist Certificate.

670. Seminar in Education of Exceptional Children (3)

Prerequisites: Special Education 524 or 525 or 526.

Principles, trends and research in the education of exceptional children.

677. Educational Management of Severe Behavior Disorders (3)

Prerequisite: Special Education 553.

Nature and educational treatment of severe behavioral problems in handicapped students. Review of research on effectiveness of various interventions and development of skills needed to implement appropriate strategies to evaluate, manage and treat these behaviors.

681. Advanced Seminar in Special Education (3)

Prerequisites: Special Education 524 or 525 or 526.

Nature and educational needs of students in area of exceptionality. Current educational theories and philosophies, research findings, and of educational problems. May be taken in each of the areas of:

- A. Learning Handicapped
- B. Severely Handicapped

696. Advanced Topics in Special Education (3)

Prerequisite: Twelve units in special education.

Intensive study in specific areas of special education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

771. Directed Internship: Special Education (1-4) Cr/NC

Prerequisite: Permission of graduate adviser. Application to be made during previous semester.

Extensive daily participation or teaching in public schools and preparation for teaching of exceptional individuals.

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

Teacher Education

In the College of Education

OFFICE: Education 151, (619) 594-5777

Monroe K. Rowland, Ph.D., Professor of Teacher Education
Larry J. Shaw, Ed.D., Professor of Teacher Education

General UPPER DIVISION COURSES

- 508. Teaching in the Middle School (3) I, II, S**
Prerequisite: Completion of or admission to a credential program in elementary or secondary education.
Developmental characteristics of early adolescents that affect teaching and learning, rationale for organizational features unique to middle schools, and interdisciplinary curriculum development.
- 522. Substance Abuse in the Schools (3)**
Prerequisite: Health Science 574.
Development of school policy and school plan to include substance abuse prevention, identification, intervention, referral, and aftercare. Collaboration with parents, schools, agencies, and local communities.
- 525. Discipline and Classroom Management (3) I, II**
Prerequisite: Six upper division units in education, psychology or sociology.
Analysis of research and theories of classroom discipline, management, and teaching effectiveness, with practical application to the elementary and secondary classroom setting.
- 526. Teaching the Special Child in the Regular Classroom (2)**
Prerequisite: Teaching credential or admission to multiple subject credential program.
Knowledge, skills, and instructional programs for teaching handicapped students in the regular classroom. Meets the mainstreaming requirements for the California Multiple Subject Credential (clear). Not open to students with credit in Special Education 550, Teaching the Special Child in the Regular Classroom.
- 546. Quantitative Methods in Educational Research (3) I, II**
Basic tests of statistical significance with special reference to the interpretation of educational data.

Robert D. Smith Jr., Ph.D., Professor of Teacher Education (Graduate Adviser)
Sigurd Stautland, Ph.D., Professor of Teacher Education
Mark J. Steckbauer, Ed.D., Professor of Teacher Education
David W. Strom, Ed.D., Professor of Teacher Education
Gerald H. Treadway Jr., Ed.D., Professor of Teacher Education
David H. Ford, Ed.D., Associate Professor of Teacher Education
James M. Kaatz, Ed.D., Associate Professor of Teacher Education
Jaime L. Lujan, Ph.D., Associate Professor of Teacher Education
Ida M. Malian, Ph.D., Associate Professor of Teacher Education
Joyce Morris, Ph.D., Associate Professor of Teacher Education
Cynthia Darche Park, Ph.D., Associate Professor of Teacher Education
Jane E. Reel, Ph.D., Associate Professor of Teacher Education
Pamela J. Ross, Ph.D., Associate Professor of Teacher Education
Rafaela Santa Cruz, Ph.D., Associate Professor of Teacher Education
Barbara Armstrong, Ph.D., Assistant Professor of Teacher Education
Nadine Bezuk, Ph.D., Assistant Professor of Teacher Education
Carolyn A. Colvin, Ph.D., Assistant Professor of Teacher Education
Ronald W. Evans, Ed.D., Assistant Professor of Teacher Education
Nancy Farman, Ph.D., Assistant Professor of Teacher Education
Linda R. Kramer, Ph.D., Assistant Professor of Teacher Education
Cheryl L. Mason, Ph.D., Assistant Professor of Teacher Education
Carla S. Mathison, Ph.D., Assistant Professor of Teacher Education
Jesus Nieto, Ph.D., Assistant Professor of Teacher Education
Valerie O. Pang, Ph.D., Assistant Professor of Teacher Education
My Luong Tran, Ph.D., Assistant Professor of Teacher Education

596. Topics in Teacher Education (1-6) I, II SP*

Designed to meet the needs of individuals or groups of teachers who wish to develop or continue the study of some problem. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

* Specified sections.

General GRADUATE COURSES

- 600. Curriculum Development in Education (3)**
Prerequisite: Credit or concurrent registration in Education 690.
Advanced study of the research in curriculum development, construction and evaluation. (Formerly numbered Secondary Education 610 and Teacher Education 603.)
- 625. Instruction in Mathematical Problem Solving (3)**
Two lectures and three hours of laboratory.
Prerequisite: Teaching credential.
Design, implementation, and evaluation of mathematical problem-solving programs in elementary and secondary grades. Use of microcomputers and hand-held calculators to solve mathematical problems. (Formerly numbered Education 625.)
- 626. Advanced Educational Psychology (3)**
Prerequisite: Teacher Education 323 or valid teaching credential.
Advanced study of the research in educational psychology and its application to learning and human growth.

646. Seminar in Educational Measurement (3)

Problems in educational testing. Emphasis on construction, administration and validation of teacher-made tests.

650. Seminar in International Education (3)

Prerequisites: Teaching experience and consent of instructor.
Major themes and issues in international education as they relate to classroom instruction.

652. Change in Education (3)

Prerequisite: Valid teaching credential.
Examination of the process of change in education, analysis of recent major changes and study of techniques for effecting change.

653. Values in Education (3)

Prerequisite: Valid teaching credential or enrollment in a credential program.
Analysis of various strategies that promote clarification of values and moral dilemmas. Development of classroom strategies to measure values and implement value clarification.

654. Schools and Changing Sex Roles (3) I

Prerequisite: Open to teachers and those enrolled in education credential programs.
Impact of schools upon the role of males and females and the role the educational systems play in maintaining traditional roles.

655. Social Foundations of American Education (2 or 3)

Prerequisite: Admission to teacher education.
Sociological, historical, and philosophical foundations of American education and their influences on present-day educational practices.

656. Comparative Education (3)

The contemporary educational ideas and practices of various countries of the world and their impact on our culture and education.

657. Philosophy of Education (3)

Advanced study of philosophical backgrounds of educational thought; a study of comparative philosophies, and an analysis of selected current trends and problems.

696. Selected Topics in Community Influences on Learning and Curriculum Planning (1-3)

Prerequisite: Teaching experience.
Intensive study in specific areas of teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of any 596 or 696 offered by the College of Education on a master's degree.

798. Special Study (1-6) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

Elementary Education UPPER DIVISION COURSES

511. Diagnosis and Remediation of Difficulties in Mathematics (3)

The assessment and remediation of underachievers in mathematics. Techniques in determining difficulties in mathematics and prescribing remedial work; for use by elementary and secondary classroom teachers and mathematics education specialists.

512. Arts and Crafts for Teachers: A Multicultural Approach (3)

One lecture and four hours of activity.
Prerequisite: Twelve units in education.
Art histories and craft traditions from world cultures. Creation of instructional materials from different cultural sources.

Elementary Education GRADUATE COURSES

610A. Seminar in Mathematics Education — Elementary School (3)

Prerequisite: Credit or concurrent registration in Education 690.
Factors affecting the elementary school mathematics curriculum; recent trends and current research in the teaching of elementary school mathematics.

610C. Seminar in Science in Elementary Education (3)

Prerequisite: Credit or concurrent registration in Education 690.
Advanced study of the problems of teaching science in the elementary school with emphasis on the literature of science education.

Secondary Education GRADUATE COURSES

604. Advanced Problems in Instruction (3)

Prerequisites: Teaching experience and consent of instructor.
Scientific research and philosophical principles which underlie school instruction.

605. Innovations in Instruction (1-3)

Prerequisite: Teaching experience or enrollment in the Single Subject Credential Program.
Exploration of innovative instructional practice in the public and private schools, with emphasis on innovative teaching strategies. An evaluation of the motivational effect and structural validity of promising instructional practices. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree.

607. Seminar in Research in Curricular Problems (1-3)

Prerequisites: Consent of the Director of the School of Teacher Education and instructor.
Individual study by graduate students who have demonstrated exceptional ability. Maximum credit three units applicable to a master's degree.

613. Seminar in Mathematics Education — Secondary School (3)

Factors affecting the secondary school mathematics curriculum; recent trends and current research in the teaching of secondary school mathematics.

790. Seminar in Teacher Education (3)

Prerequisite: Advancement to candidacy.
Intensive consideration of selected topics of current importance in teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

Reading and Language Arts UPPER DIVISION COURSES

530. Children's Literature in Elementary Education (3) I, II

A survey of children's literature; the selection and use of material in the elementary classroom.

531. Storytelling (3)

Prerequisites: Basic language arts course, children's literature.
Art of storytelling, including planning of the story hour, locating suitable materials, techniques for learning and presenting various story types. Selection of literature appropriate for oral presentation to different groups and age levels.

536. Reading Diagnosis (3)

Prerequisites: Valid teaching credential and consent of instructor.
Formal and informal diagnosis of reading difficulties.

Reading and Language Arts GRADUATE COURSES

630. Seminar in Reading Education (3)

Prerequisite: Credit or concurrent registration in Education 690.
Advanced study of trends in reading instruction. Topics include developmental sequences in reading skills and abilities, reading in the content fields, individual differences and interests. Students will develop individual projects or problems.

- 631. Seminar in Language Arts in Elementary Education (3)**
Prerequisite: Credit or concurrent registration in Education 690.
Advanced study of problems in teaching language arts. The study of the scientific research and application in the field.

- 633. Seminar in Research in Reading (3)**
Prerequisite: Education 690.
Research in reading including review of classic studies, broad topics in field of reading, identification of research trends and needs.

- 636. Advanced Diagnosis in Reading (3)**
Prerequisite: Teacher Education 536.
Principles and techniques of individual and group diagnosis of reading difficulties. Experience in administration and interpretation of individual and group instruments in diagnosis. (Formerly numbered Elementary Education 621.)

- 637. Reading Clinic (3)**
Two lectures and three hours of laboratory.
Prerequisites: Teacher Education 536 and 636.
Supervised clinical experience in the utilization of remedial techniques in an individual and small group setting.

- 638. Topics in Reading Education (1-6)**
Prerequisite: California Teaching Credential.

A variety of instructional sequences (mini-courses), each focusing on a single topic or competency dealing with reading instruction. Topics differ each semester to adjust to current literature in the field, inservice needs and resource availability. Of three required units, at least one must be taken from each of the three required categories (A, B and C). Students may elect to take more than three from these same categories. See Class Schedule for specific content.

- A. Linguistic/Cultural Difference and Reading
- B. Interpersonal/Interdisciplinary Communication Skills
- C. Children/Young Adult Literature; Oral and Creative Responses to Reading

- 639. Literacy and Language (3)**

Prerequisite: Teacher Education 430A or 433.
Theories of literacy and methods for developing literacy in language, reading and writing. Instructional methods and assessment techniques for children and adults.

- 736. Field Experience as a Reading Specialist (4)**

Prerequisite: Eighteen units of core courses.
Individually designed practicum for the reading specialist.

Engineering

In the College of Engineering

OFFICE: Engineering 426B
TELEPHONE: (619) 594-6061

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships in engineering are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the appropriate department.

General Information

The College of Engineering offers graduate study leading to the Ph.D. degree in Engineering Science/Applied Mechanics and Master of Science degrees in Aerospace, Civil, Electrical, and Mechanical Engineering. The Ph.D. degree is offered jointly with the University of California, San Diego. These curricula are designed to augment the student's undergraduate training by advanced study in one of the various fields of engineering. Recognizing the increasing importance in modern technology of the engineer-scientist team, San Diego State University has developed an academic pattern which offers to one holding a first degree in engineering an opportunity to pursue advanced study in a specialized area of knowledge.

The undergraduate curricula in engineering, with degrees in aerospace, civil, electrical, and mechanical engineering, are accredited by the Accreditation Board for Engineering and Technology, Inc.

Section I. Master's Degree Programs Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing as described in Part Two of this bulletin. Candidates for admission to Aerospace Engineering, Civil Engineering, Electrical Engineering and Mechanical Engineering programs must have attained a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted in the undergraduate degree program. In addition, the student must have a bachelor's degree in a field of engineering appropriate to the field in which he/she desires to earn an advanced degree or in a field closely related thereto from an institution acceptable to the College of Engineering. If undergraduate preparation is deemed insufficient, the student will be required to take specified courses for the removal of the deficiency. Such courses, taken as an unclassified student, are in addition to the minimum of 30 units for the master's degree in engineering.

To be admitted to the electrical engineering program, students must have a score of no less than a 600 on the quantitative part of the GRE.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, which are described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degrees

In addition to meeting the requirements for classified graduate standing as stated above, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. With the approval of the appropriate department the student working toward the master of science degree may elect either Plan A, requiring a thesis, or Plan B, requiring a comprehensive written examination. In either case, a final oral examination will be required.

Students shall arrange their course pattern, in conference with their graduate adviser, according to the following requirements for the specific degree.

Aerospace Engineering

(Major Code: 09021)

General information: The Department of Aerospace Engineering and Engineering Mechanics offers graduate study leading to the Master of Science degree in Aerospace Engineering.

Students are encouraged to engage in thesis research or special study projects. Available areas of research include experimental, theoretical and computational aerodynamics and fluid mechanics, structural mechanics, fracture mechanics, composite structures, random vibrations, fluid-structure interactions, acoustics, and aircraft and spacecraft stability and control.

Specific requirements for the degree: The student's program prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Twenty-one units of 600- and 700-numbered courses in aerospace engineering and/or engineering mechanics. At least one course must be outside the student's area of specialization.
2. Nine additional units of 500-, 600- and 700-numbered courses approved by the graduate adviser.

Areas of Specialization in Aerospace Engineering and Engineering Mechanics

1. **Aerodynamics/Astronautics**
 - AE 600. Seminar (1-3)
 - AE 612. Compressible Fluid Flow (3)
 - AE 620. Incompressible Aerodynamics (3)
 - AE 643. Laminar Flow (3)
 - AE 644. Turbulent Flow (3)
2. **Structural Mechanics**
 - EM 600. Seminar (1-3)
 - EM 601. Advanced Dynamics (3)
 - EM 611. Vibration of Elastic Solids (3)
 - EM 621. Theory of Elasticity (3)
 - EM 703. Theory of Vibrations (3)
 - EM 711. Structural Acoustics (3)
 - EM 725. Theory of Plates (3)
 - EM 726. Theory of Shells (3)
 - EM 727. Theory of Elastic Stability (3)

Civil Engineering

(Major Code: 09081)

General information: The Department of Civil Engineering offers graduate study leading to the Master of Science degree in Civil Engineering. Available areas of research include geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. Programs of study may also include combinations of the above areas and related courses from other disciplines subject to the approval of the graduate adviser.

Specific Requirements for the Degree: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Eighteen units of 600- and 700-numbered courses in civil engineering. A minimum of four courses should be selected from one of the specialty areas listed below; in exceptional cases, this requirement may be waived at the discretion of the graduate adviser, provided the combination of courses selected is coherent and can be related to a specific professional goal.
2. At least twelve additional units of 500-, 600- or 700-numbered courses, approved by the graduate adviser.

Areas of Specialization in Civil Engineering

- Geotechnical Engineering**
 - CE 640. Advanced Soil Mechanics (3)
 - CE 641. Advanced Foundation Engineering (3)
 - CE 642. Seepage and Earth Dams (3)
 - CE 643. Soil and Site Improvement (3)
- Structural Engineering**
 - CE 605. Prestressed Concrete Structures (3)
 - CE 607. Dynamics of Structures (3)
 - CE 608. Earthquake Engineering (3)
 - CE 610. Finite Element Analysis of Structures (3)
 - CE 780. Seminar in Structural Engineering (2-3)
- Transportation Engineering**
 - CE 620. Traffic Engineering (3)
 - CE 621. Transportation Demand Analysis (3)
 - CE 622. Mass Transit Engineering (3)
 - CE 781. Seminar in Transportation Engineering (2-3)
- Water Resources Engineering**
 - CE 632. Computational Hydraulics and Hydrology (3)
 - CE 634. Surface Water Hydrology (3)
 - CE 635. Water Quality Engineering (3)
 - CE 636. Water Quality Processes (3)
 - CE 638. Sedimentation and River Engineering (3)

Electrical Engineering (Major Code: 09091)

General information: The Department of Electrical and Computer Engineering offers graduate study leading to a Master of Science degree in Electrical Engineering. The program provides balanced opportunities to study practical engineering design and research. Research assistantships are available in the research areas which include computer engineering and digital system design, digital signal processing and communications, electro-optic system design and instrumentation, applied electron and molecular spectroscopy, automatic control and robotics, power systems, and biomedical engineering.

Specific Requirements for the Degree: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

- Eighteen units of 600- and 700-numbered courses in electrical engineering.
 - At least six additional units of 500-, 600- or 700-numbered courses in the College of Engineering or, with the approval of the graduate adviser, in the College of Sciences.
 - Six elective units of 500-, 600- or 700-numbered courses approved by the graduate adviser.
 - Prerequisites for all courses taken for the degree must be completed with a grade of C or better.
 - As a breadth requirement, each classified graduate student is required to complete with prior approval of the Graduate Adviser at least one course from four of the following disciplines: Communications, Computers, Electronics/Networks, Physical Electronics, Power/Control Systems. If the course content is appropriate, the Graduate Adviser may approve certain Electrical Engineering 596 and 600 courses to satisfy part of the breadth requirement.
- Disciplines and related courses:
- Communications: Electrical Engineering 553, 555, 556, 557, 558, 647, 650, 651, 652, 653, 658.
 - Computers: Electrical Engineering 571, 576, 578, 579, 675, 676, 677, 678, 679.
 - Electronics/Networks: Electrical Engineering 530, 554, 570, 631, 634.
 - Physical Electronics: Electrical Engineering 534, 540, 541, 546, 642, 644, 645.
 - Power/Control Systems: Electrical Engineering 520, 521, 580, 581, 582, 622, 625, 680.
6. Students selecting Plan B must pass a written comprehensive examination. The examination tests the student's understanding and mastery of *fundamental principles* and their ability to apply them to engineering problems. Members of the ECE faculty will grade the comprehensive examination for technical correctness, completeness and clarity of expression. After two unsuccessful attempts, the student may not take the examination again without specific, written permission from the department chair. The chair, at this time, may require the student to successfully complete certain courses before taking the comprehensive examination a third and final time.

Mechanical Engineering (Major Code: 09101)

General information: The Department of Mechanical Engineering offers graduate study leading to the Master of Science degree in Mechanical Engineering.

Available opportunities for thesis research and special study projects include heat transfer, thermodynamics, fluid mechanics, mechanical design which includes vibration, controls, CAD/CAM and robotics, materials, optimization and bioengineering.

Specific Requirements for the M.S. Degree: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

- Twenty-one units of 600- and 700-numbered courses in mechanical engineering to include 12 units in one area of specialization (designated as Group A and Group B) and Mechanical Engineering 797.

- Nine additional units of 500-, 600- and 700-numbered courses approved by the graduate adviser.

Areas of Specialization in Mechanical Engineering

Group A: Thermal Sciences

- ME 651. Analytical Thermodynamics (3)
- ME 661. Gas Dynamics (3)
- ME 663. Boundary Layers in Internal Flows (3)
- ME 671. Conduction Heat Transfer (3)

- ME 645. Mechanical Metallurgy for Engineers (3)

Section II: Doctoral Program Engineering Sciences/Applied Mechanics (Major Code: 09012)

The cooperating faculties of the Department of Applied Mechanics and Engineering Sciences (AMES) at the University of California, San Diego and the College of Engineering at San Diego State University offer a Joint Doctoral Program in Engineering Sciences/Applied Mechanics. The Doctor of Philosophy degree in Engineering Sciences/Applied Mechanics will be awarded jointly by the Regents of the University of California and the Trustees of the California State University in the names of both cooperating institutions.

The Ph.D. degree in Engineering Sciences/Applied Mechanics is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. It is not awarded solely for the fulfillment of technical requirements such as academic residence and coursework. A typical student with an appropriate Bachelor of Science degree in engineering may complete the joint program in four to five years of full-time study and research. A student with advanced standing may complete the program in a shorter period of time.

The research interests of the participating faculty members cover a wide range of mechanics including: acoustics, biomechanics, boundary layer separation, boundary layer stability, computational fluid mechanics, experimental fluid mechanics, finite element methods in structural analysis, flow field acoustic interaction, gas physics, hydrology, hypersonic flow, low speed aerodynamics, soil mechanics, structural fluid interaction, and two phase flows.

At SDSU, the major areas of research at the graduate level and the participating faculty members include:

- Fluid Mechanics:** J. Hoyt, J. Katz, N. Nosseir, A. Plotkin, K.C. Wang
- Aerodynamics:** J. Katz, A. Plotkin
- Computational Mechanics:** J. Katz, V. Ponce, N. Sharabi, K.C. Wang
- Structural Fluid Interactions:** M. Pierucci, B. Westermo
- Hydrology:** H. Chang, V. Ponce
- Bioengineering:** J. Pinto, A. Szeto
- Acoustics:** M. Pierucci
- Engineering Physics:** G. Massey
- Thermal Sciences:** H. Güven
- Structural Mechanics:** M. Pierucci, N. Sharabi, B. Westermo
- Soil Mechanics:** I. Noorany, B. Westermo

Financial Support

Students admitted to the program will be eligible for teaching assistantships, associateships, and graduate assistantships. It is the policy of SDSU College of Engineering to support doctoral students during their entire tenure as long as they are in good standing and are making satisfactory progress toward their degree and are in residence at one of the two institutions.

For further information, the student should write to the Director of the Engineering Sciences/Applied Mechanics Joint Doctoral Program at the College of Engineering, San Diego State University, San Diego, CA 92182.

Program

Preparation for Admission

Applicants must have an acceptable bachelor's degree or master's degree and must meet the requirements for admission to the Graduate Division of UCSD and SDSU. Students are expected to have engineering degrees in the classical applied mechanics areas (i.e., aerospace, civil, mechanical, engineering science). Students with degrees in one of the allied fields (i.e., physics, mathematics, electrical engineering, and engineering physics) will be required to remove any academic deficiencies by completing a series of courses normally required of the students who have academic degrees in the applied mechanics areas.

APPLICATIONS MUST BE RECEIVED NOT LATER THAN FEBRUARY 15 FOR THE PH.D. PROGRAM ENGINEERING SCIENCES/APPLIED MECHANICS.

Application

Students seeking admission to the Joint Doctoral Program in Engineering Sciences/Applied Mechanics should write directly to the Doctoral Program Adviser, Dr. M. Pierucci, requesting application materials. A complete application requires that the following information be provided:

- The appropriate application forms.
- Three letters of recommendation.
- An official transcript of academic work completed at all institutions attended. A minimum grade point average of 3.0 in the major field for students with the B.S. degree or 3.4 for students with the M.S. degree.
- Acceptable scores on both the qualitative and the quantitative sections of the Graduate Record Examination General Test (GRE).

The applicant must be recommended to the Deans of the Graduate Divisions at SDSU and UCSD by the faculty of the Joint Doctoral Program on each campus. Entry occurs when the student is formally accepted by both graduate deans.

Residency Requirements

The student must spend at least one academic year in full-time residence at each of the two institutions. The definition of such residence must be in accord with the regulations of the Graduate Divisions of UCSD and SDSU.

Advising Committee

When a student is admitted to the joint doctoral program, the chairs of the Department of Applied Mechanics and Engineering Sciences at UCSD and of the Graduate Group in Applied Mechanics at SDSU will appoint a three-member advising committee consisting of at least one member from each institution. It is the responsibility of this committee to develop in consultation with the student a course of study and a plan of preparation for the Joint Doctoral Qualifying Examination, which should be taken as soon as possible after the two years of study at the two institutions. Students with advanced standing may be capable of taking the examination earlier. Upon the student's successful completion of the examination the advising committee will recommend to the chairs of the Department of Applied Mechanics and Engineering Sciences and of the Graduate Group in Applied Mechanics the membership of the student's Joint Doctoral Committee, which, upon appointment, will supersede the advising committee and be responsible for the student's program of study and dissertation research. The Joint Doctoral Committee will consist of three members from each institution; one of the three will be from outside of the Department of Applied Mechanics and Engineering Sciences and one outside the Graduate Group in Applied Mechanics.

Course Requirements

The Doctor of Philosophy degree in Engineering Sciences/Applied Mechanics is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. Therefore, no specific course requirements for the joint doctoral program exist; however,

the Joint Doctoral Program Qualifying Examination is based on a certain level of competence in the general areas of: (1) fluid mechanics, (2) solid mechanics, and (3) applied mathematics.

Qualifying Examinations

Joint Qualifying Committee

The Joint Doctoral Program Qualifying Examination is administered by the student's advising committee supplemented, if appropriate, by faculty appointed by the chairs of the Department of Applied Mechanics and Engineering Sciences and the Graduate Group in Applied Mechanics. The examination will be oral, will cover at least four areas selected to ensure appropriate competence in the general area of applied mechanics, and will be at the level and content of the UCSD and SDSU courses. The specific areas will be approved in advance by the chair of the Department of Applied Mechanics and Engineering Sciences and the Graduate Group in Applied Mechanics. One of the areas may be satisfied by completing a series of courses in the area with at least a B grade in each course.

Joint Dissertation Committee

Upon successful completion of the Joint Doctoral Qualifying Examination, a Joint Doctoral Committee shall be appointed by the Deans of the Graduate Divisions of UCSD and SDSU upon the recommendation of the chairs of the Department of Applied Mechanics and Engineering Sciences and the Graduate Group in Applied Mechanics. The doctoral committee shall supervise the study and research programs of the student. The chair of the committee may be from either the Graduate Group in Applied Mechanics from SDSU or the Department of Applied Mechanics and Engineering Sciences at UCSD.

Senate Qualifying Examination

The major requirement for the doctorate under the Joint Doctoral Program in Engineering Sciences/Applied Mechanics is the completion of a dissertation, based on original research, that contributes new knowledge to the fields. The Senate Qualifying Examination consists of a presentation of initial dissertation results and plans for future research. The chair of the Joint Doctoral Committee will determine in consultation with the student when the Senate Qualifying Examination will be held. Approval of a student's dissertation topic by the Joint Doctoral Committee implies that the committee believes that the work will contain the potential for one or more articles publishable in refereed journals.

Dissertation

The Joint Doctoral Committee will administer the final examination, which will consist of the student's presentation and defense of the dissertation, with particular emphasis on the principal findings and areas of future research. The first part of this examination is open to the public; a concluding portion involves appropriate questioning of the student by the committee.

The detailed requirements concerning the preparation of the dissertation, the number of copies, the editorial style, etc., are set forth in the UCSD document entitled "Instructions for the Preparation and Submission of Doctoral Dissertations and Masters' Theses." Acceptance of the dissertation by the University Librarian at UCSD and the Graduate Division at SDSU represents the final step in completion of the student's degree requirements.

Satisfactory Progress

The students admitted to this program are expected to make continuous, satisfactory progress and to remain in good standing at both institutions.

Award of the Degree

The Doctor of Philosophy degree in Engineering Sciences/Applied Mechanics will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both cooperating institutions.

Faculty

The following faculty members of the cooperating institutions participate in the Joint Doctoral Program in Engineering Sciences/Applied Mechanics and are available for direction of research and as members of joint doctoral committees.

San Diego State University:

Program Director: M. Pierucci

Committee Members:

J. Katz, N. Nosseir, M. Pierucci, A. Plotkin, K.C. Wang (Aerospace Engineering and Engineering Mechanics)
H. Chang, I. Noorany, V. Ponce, N. Sharabi, B. Westermo (Civil Engineering), G. Massey, A. Szeto (Electrical Engineering and Computer Engineering), H. Güven, J. Hoyt, J. Pinto (Mechanical Engineering).

University of California, San Diego:

Program Director: D.A. Gough

Committee Members:

H. Aref, P.C. Chau, Y.C. Fung, M. Gharib, C.H. Gibson, D.A. Gough, G.A. Hegemier, R.K. Herz, M. Intaglietta, S.C. Lin, P.A. Libby, J.E. Luco, S. Middleman, D.R. Miller, H. Murakami, W. Nachbar, S. Nemat-Nasser, D.B. Olfe, S.S. Penner, S. Rand, B.D. Rao, G.W. Schmid-Schoenbein, A.M. Schneider, F. Seible, K. Seshadri, H.W. Sorenson, D.D. Swarder, J.B. Talbot, F.E. Talke, C.S. Van Atta, F.A. Williams (Department of Applied Mechanics and Engineering Sciences).

Courses Acceptable on Master's and Doctoral Degree Programs in Engineering

UPPER DIVISION COURSES

510. Methods of Analysis (3) I, II

Prerequisite: Engineering 310 with a minimum grade of C.

Selected topics from vector calculus, partial differential equations, and complex analysis, with engineering applications.

511. Digital Solutions of Engineering Problems (3)

Prerequisites: Engineering 120 or Computer Science 107, and Engineering 310.

Digital solution of classes of engineering problems. Application of numerical methods with consideration of limitations imposed by computer and programming language characteristics.

Aerospace Engineering and Engineering Mechanics

In the College of Engineering

OFFICE: Engineering 308
TELEPHONE: (619) 594-6074

Faculty

John F. Conly, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics (Graduate Adviser)
Sangiah Nadar Dharmarajan, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Joseph Katz, D.Sc., Professor of Aerospace Engineering and Engineering Mechanics
Govindarajulu Krishnamoorthy, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Robert D. McGhie, Ph.D., P.E., Professor of Aerospace Engineering and Engineering Mechanics
Balbir S. Narang, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Nagy Nosseir, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Mauro Pierucci, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Allen Plotkin, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics, Chair of Department
Kuo Chang Wang, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Constantinos S. Lyrintzis, Ph.D., Assistant Professor of Aerospace Engineering and Engineering Mechanics

UPPER DIVISION COURSES IN AEROSPACE ENGINEERING

501. Computational Fluid Mechanics (3)

Prerequisites: Engineering 120 and Engineering Mechanics 340. Finite difference methods of solution to fluid dynamics equations of the potential flow, boundary layer theory and the Navier-Stokes formulation. Study of the convergence and stability of the difference equations.

520. Intermediate Aerospace Flight Mechanics (3)

Prerequisite: Aerospace Engineering 320. A continuation of Aerospace Engineering 320 to include orbit determination techniques, general and special perturbations, artificial satellites, rocket dynamics and transfer orbits, earth-moon trajectories, and interplanetary trajectories.

530. Rocket and Space Propulsion (3)

Prerequisite: Aerospace Engineering 430. Equilibrium combustion thermodynamics. Performance of rocket propelled vehicles. Rocket propulsion fundamentals. Topics in chemical (solid and liquid) and electrical propulsion systems.

540. Aircraft Stability and Control II (3)

Prerequisite: Aerospace Engineering 440. Dynamic stability and control of rigid aircraft; general equations of unsteady motion, stability derivatives, perturbed state thrust forces and moment, special problems in dynamic stability and response.

550. Viscous Flow (3)

Prerequisites: Credit or concurrent registration in Engineering Mechanics 340, and Engineering 510. Kinematics of fluid motion. Conservation of mass, momentum and energy. Navier-Stokes equations; exact solutions. Boundary-layer approximations, turbulent flow. (Formerly numbered Engineering Mechanics 540.)

596. Advanced Aerospace Engineering Topics (3)

Prerequisite: Consent of instructor. Modern developments in aerospace engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Aerospace Engineering or Engineering Mechanics 496, 499, and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Aerospace Engineering or Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.

UPPER DIVISION COURSES IN ENGINEERING MECHANICS

510. Finite Element Methods in Aerospace Structures (3)

Prerequisite: Aerospace Engineering 310B. Static and dynamic analysis of aerospace structures utilizing finite element methods. (Formerly numbered Aerospace Engineering 510.)

530. Composite Structural Analysis (3)

Prerequisites: Engineering 310 and Civil Engineering 301. Strength of composite materials; lamination theory; strength analysis of laminates; bending, buckling and vibration of composite plates.

596. Advanced Engineering Mechanics Topics (1-3) I, II

Prerequisite: Consent of instructor. Modern developments in engineering mechanics. See Class Schedule for specific content. Maximum credit of six units for any combination of Engineering Mechanics 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES IN AEROSPACE ENGINEERING

600. Seminar (1-3)

Prerequisite: Consent of the graduate adviser and instructor. Intensive study of one of the following topics: Incompressible aerodynamics, aeroelasticity, aerodynamic noise, aerothermal structural analysis, hydrodynamic stability, hypersonic flow theory, magnetofluid mechanics, rarified and real gas flows, electromagnetic propulsion, boundary layers, and other areas of aerospace engineering. See Class Schedule for specific content.

612. Compressible Fluid Flow (3)

Prerequisites: Aerospace Engineering 302 and credit or concurrent registration in Engineering 510. Theory of flow at supersonic speeds. Linearized theory, three-dimensional wings in steady flight, slender-body theory, methods of characteristics.

620. Incompressible Aerodynamics (3)

Prerequisites: Aerospace Engineering 301 and Engineering 510. Theory of incompressible aerodynamics; airfoil and wing theory; computational methods.

643. Laminar Flow (3)

Prerequisites: Engineering Mechanics 340 and credit or concurrent registration in Engineering 510. Fluid kinematics and dynamics. Governing equations in general coordinate systems. Navier-Stokes equations; exact solutions, approximations including boundary layer. Three-dimensional flows. Numerical methods. Vector and tensor notation will be used. (Formerly numbered Engineering Mechanics 643.)

644. Turbulent Flow (3)

Prerequisites: Engineering Mechanics 340 and Engineering 510. Nature of turbulence based on simple flow observations and a theoretical basis for interpreting and predicting the behaviors of specialized turbulent flow problems.

696. Advanced Topics in Aerospace Engineering (2 or 3)
Intensive study in specific areas of aerospace engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

GRADUATE COURSES IN ENGINEERING MECHANICS

600. Seminar (1-3)

Prerequisite: Consent of the graduate adviser and instructor.
Intensive study of one of the following topics: Nonlinear vibrations, random vibrations, continuum mechanics, anisotropic elasticity, energy methods, plasticity, and other areas of engineering mechanics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

601. Advanced Dynamics (3)

Prerequisites: Engineering Mechanics 220 and Engineering 310.
Kinematics and kinetics of systems of particles and rigid bodies with special reference to engineering problems. Moving reference axes, generalized coordinates, Lagrangian equations, Hamilton's principle and variational methods.

611. Vibration of Elastic Solids (3)

Prerequisites: Engineering 510 and Aerospace Engineering 310B or Mechanical Engineering 520.

Vibrational characteristics of elastic media. Vibration of plates, longitudinal and transverse wave motion in infinite, semi-infinite and finite thickness media.

621. Theory of Elasticity (3)

Prerequisites: Civil Engineering 301 and credit or concurrent registration in Engineering 510.

Analysis of stress and strain: stress-strain relations; the equations of elasticity; uniqueness theorem; compatibility conditions; flexure and torsion.

703. Theory of Vibrations (3)

Prerequisites: Engineering Mechanics 601 and credit or concurrent registration in Engineering 510.

Linear and nonlinear periodic phenomena as applied to discrete systems and continuous media with application to physical problems.

711. Structural Acoustics (3)

Prerequisites: Engineering 510 and Engineering Mechanics 611.

Acoustic radiation from different sources. Vibration of and acoustic radiation from beams, plates, and other solids. Effect of fluid loading.

725. Theory of Plates (3)

Prerequisite: Engineering Mechanics 621.

Bending and buckling theory of plates; application of small deflection and large deflection theories to plates with various boundary conditions; use of approximate methods and exact methods in solution.

726. Theory of Shells (3)

Prerequisite: Engineering Mechanics 621.

Membrane and bending theory of shells of revolution and shells of arbitrary shape; exact and approximate methods of solution of shells subjected to axisymmetric and arbitrary loads.

727. Theory of Elastic Stability (3)

Prerequisite: Engineering Mechanics 621.

Stability of elastic systems. Differential equations of stability by summation of forces and moments, and by the variational method. Applications.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units applicable to a master's degree.

OFFICE: Engineering 424

TELEPHONE: (619) 594-6071

Faculty

James H. Banks, Ph.D., Professor of Civil Engineering
Howard H. Chang, Ph.D., P.E., Professor of Civil Engineering
Fang-Hui Chou, Ph.D., P.E., Professor of Civil Engineering, Assistant Dean for Student Affairs, College of Engineering
Iraj Noorany, Ph.D., P.E., Professor of Civil Engineering
Victor M. Ponce, Ph.D., Professor of Civil Engineering, Chair of Department
Frank E. Stratton, Ph.D., P.E., Professor of Civil Engineering
Janusz C. Supernak, Ph.D., Professor of Civil Engineering
Bruce D. Westermo, Ph.D., Professor of Civil Engineering (Graduate Adviser)
M. Nazmi Sharabi, Ph.D., Associate Professor of Civil Engineering
Timothy D. Stark, Ph.D., Assistant Professor of Civil Engineering

UPPER DIVISION COURSES

521. Structural Analysis II (3) I

Prerequisite: Civil Engineering 321 with minimum grade of C.
Analysis of statically indeterminate structures by virtual work. Advanced treatment of slope deflection, moment distribution. Arch analysis, secondary stresses in trusses. Advanced treatment of influence lines. Introduction to matrix analysis of structures.

525. Design of Steel Structures (3) II

Prerequisite: Civil Engineering 321 with a minimum grade of C.
Mechanical behavior of structural steel. Design of steel beams, girders, columns and members subjected to combined stresses. Design of various types of connections of steel structures; plate girders, continuous beams and rigid frames.

530. Open Channel Hydraulics (3) I, II

Prerequisite: Civil Engineering 444 with minimum grade of C.
Open channel flow theory, analysis and problems, including studies of critical flow, uniform flow, gradually varied and rapidly varied flow—all as applied to the design of channels, spillways, energy dissipators, and gravity pipelines.

555. Water and Wastewater Engineering (3) I

Prerequisite: Civil Engineering 355 with minimum grade of C.
Water and wastewater. Physical, chemical and biological methods of treatment. Advanced waste treatment processes. Water reclamation.

596. Advanced Civil Engineering Topics (1-3) I, II

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
Modern developments in civil engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Civil Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Civil Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

605. Prestressed Concrete Structures (3)

Prerequisite: Civil Engineering 421 with minimum grade of C.
Fundamental concepts of prestressed concrete theory. Design applications to various types of structures.

Civil Engineering

In the College of Engineering

607. Dynamics of Structures (3)

Prerequisite: Civil Engineering 521 with minimum grade of C.
Dynamic disturbances, structures with variable degrees of freedom, free vibrations of slender elastic beams; continuous beams, rigid frames, floor systems. Energy methods in structural dynamics.

608. Earthquake Engineering (3)

Prerequisite: Civil Engineering 607.
Elements of seismology. Methods of analysis for earthquake loads. Procedures and code provisions for the design of earthquake-resistant structures.

610. Finite Element Analysis of Structures (3)

Prerequisites: Engineering 120 and Civil Engineering 521 with minimum grade of C.

General procedure, various types of finite elements; analysis and design of isotropic and orthotropic plates and shells, deep beams, and shear walls using finite element technique; use of digital computers for solutions. Application to civil engineering structures.

620. Traffic Engineering (3)

Prerequisite: Consent of instructor.
Traffic characteristics and studies. Control and regulation of street and highway traffic. Parking facilities, mass transportation, traffic engineering administration.

621. Transportation Demand Analysis (3)

Prerequisite: Civil Engineering 481 or Geography 559 or City Planning 625.

Travel demand modeling with emphasis on application to growing metropolitan areas; four-step travel demand forecasting; disaggregate, behavioral, and activity-based approaches; recent methodological developments; transportation-land use interactions.

622. Mass Transit Engineering (3)

Prerequisite: Consent of instructor.
Urban transportation and land use, characteristics of urban travel patterns, estimation of transit usage, planning of transit systems, economic problems of mass transportation. Case studies of existing and proposed systems.

632. Computational Hydraulics and Hydrology (3)

Prerequisite: Civil Engineering 444.
Computational methods applied to hydraulics and hydrology. Explicit and implicit schemes for solving hyperbolic problems. Method of characteristics. One- and two-dimensional nonsteady open channel flow simulation.

634. Surface Water Hydrology (3)

Prerequisite: Civil Engineering 445.
Hydrologic systems. Physical hydrology. Kinematic wave theory. Diffusion and dynamic wave theories. Watershed and stream channel routing. Hydrologic simulation.

635. Water Quality Engineering (3)

Prerequisite: Civil Engineering 555 with minimum grade of C.
Development of water quality criteria. Survey of current methods of water treatment, wastewater treatment and water renovation. Economic considerations of water quality management.

636. Water Quality Processes (3)

Prerequisite: Civil Engineering 555 with minimum grade of C.
Two lectures and three hours of laboratory.
Theoretical and laboratory study of the chemical and microbiological processes which govern modern water and wastewater treatment.

638. Sedimentation and River Engineering (3)

Prerequisite: Civil Engineering 444 with a minimum grade of C.
Hydraulics of sediment transport and related erosion and sedimentation problems in natural streams. River mechanics and morphology. Design of alluvial channels. Mathematical modelling of erodible channels.

640. Advanced Soil Mechanics (3)

Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.

Advanced theories of soil mechanics and their applications to design, including physicochemical behavior of soils, theories of compaction, consolidation, stress distribution, shear strength, settlement analyses, lateral pressures, and bearing capacity of soils.

641. Advanced Foundation Engineering (3)

Prerequisite: Civil Engineering 640.

Advanced theories of soil bearing capacity and stress distribution in soils. Analysis and design of foundations and retaining walls. Shallow foundations, piles, piers and caissons. Design of foundations for dynamic loads. Dewatering and other field problems.

642. Seepage and Earth Dams (3)

Prerequisites: Civil Engineering 462 and 463.
Seepage and flow nets in earth dams and dam foundations. Stability analysis and design of earth and rock fill dams.

643. Soil and Site Improvement (3)

Prerequisite: Civil Engineering 640.
Soil and site improvement techniques used in geotechnical engineering.

696. Advanced Topics in Civil Engineering (2 or 3)

Intensive study in specific areas of civil engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Civil Engineering 596 and 696 applicable to a 30-unit master's degree.

780. Seminar in Structural Engineering (2 or 3)

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.

An intensive study in structural engineering. Maximum credit six units applicable to a master's degree.

781. Seminar in Transportation Engineering (2 or 3)

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.

An intensive study in transportation engineering. Maximum credit six units applicable to a master's degree.

797. Independent Research (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.
Independent research in civil engineering. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

David A. Wright, Ph.D., Lecturer in Electrical and Computer Engineering

UPPER DIVISION COURSES

502. Electronic Devices for Rehabilitation (3) II

Two lectures and three hours of laboratory.
Prerequisite: Electrical Engineering 303 or 330.
Recent developments in electronic assistive devices and microcomputers for persons with various disabilities; assessment of disabled persons for suitable technological assistive devices.

503. Computer Hardware (3) II

Prerequisites: Computer Science 237 and Mathematics 245.
Digital electronics, sequential networks, digital arithmetic, integrated circuit components, microprocessor-based systems. Not open to electrical engineering majors.

520. Feedback Control Systems (3) I

Prerequisite: Electrical Engineering 410; 420 recommended.
Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability; Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

521. Advanced Feedback Control Systems (3) II

Prerequisite: Electrical Engineering 520.
A continuation of Electrical Engineering 520 to include feedback compensation, advanced compensation techniques, signal flow theory, state-variable techniques, introduction to nonlinear and sampled-data control systems.

530. Analog Integrated Circuit Design (3) I, II

Prerequisite: Electrical Engineering 430.
Advanced treatment of transistor pairs, device mismatches, differential amplifiers, current mirrors, active loads, level shifting, and output stages. Parasitic and distributed device parameters. Economics of IC fabrication and impact on design.

534. Solid-State Devices (3)

Prerequisite: Electrical Engineering 430.
Conduction theory of solids. Characteristics of tunnel, backward, breakdown, multilayer and varactor diodes; silicon controlled rectifiers and switches, unijunction transistors, hot electron devices. Lasers and laser applications.

540. Microwave Communications (3) II

Prerequisite: Electrical Engineering 340; Engineering 510 recommended.
Applications of Maxwell's equations to wave propagation; skin effect, circuit impedance elements; vector potential, and other time-varying electrical phenomena; waveguides and resonators, strip line circuits, electromagnetic radiation.

540L. Microwave Measurements Laboratory (1) II

Three hours of laboratory.
Prerequisites: Credit or concurrent registration in Electrical Engineering 430L and 540.
Experimental study of microwave generation including klystrons, Gunn and IMPATT oscillators. TWT and microwave transistor amplifiers. Microwave modulation and detection. Microwave transmission and antennas.

541. Electro-Optics (3) II

Prerequisite: Electrical Engineering 340.
Optical/electronic devices and systems; wave beams; light-matter quantum interactions; incoherent and laser light sources; modulators and detectors. Applications in data transmission, measurement, and materials processing.

546. Optical Fiber Communications Systems (3)

Prerequisite: Electrical Engineering 434.
Optical fiber attenuation and dispersion, light-emitting diodes and laser diodes, pin diodes and avalanche photodiodes, receiver designs, optical power budgets and rise time budgets, applications in digital and analog communication systems.

553. Stochastic Signals (3) I

Prerequisite: Engineering 310.
Random signals, correlation functions, power spectral densities, the Gaussian process, narrow band processes. Applications to communication systems.

554. Communication Principles and Circuits (3) II

Prerequisite: Electrical Engineering 430.
Signal transmission in linear networks; modulators and detectors; wide-band and narrowband amplifiers; oscillators; AM, FM, and phase modulation; transient response of amplifiers.

554L. Communication Circuits Laboratory (1)

Three hours of laboratory.
Prerequisite: Electrical Engineering 430L.
Regulated power supply systems; oscillator, modulator, detector, and switching circuits; superheterodyne receivers and television circuitry.

555. Modulation Theory (3) I

Prerequisite: Electrical Engineering 410.
Theory and performance characteristics of modulation and demodulation; spectral characteristics and noise performance of carrier systems: amplitude, frequency and phase, pulse coded, and compound modulation.

556. Digital Signal Processing (3)

Prerequisite: Electrical Engineering 410 or Physics 516A.
Digital signal processing. Discrete-time signals, transform techniques, and digital filters. Design of FIR and IIR filters, FFTs, and finite-length effects on digital systems.

557. Two-Dimensional Digital Signal Processing (3) II

Prerequisite: Electrical Engineering 410 or Physics 516A.
Two-dimensional analysis of signals and systems in areas of signal representation, enhancement and restoration, processing of images, radar signals and other two-dimensional information. Experiments in image processing.

558. Digital Communication Systems (3) II

Prerequisite: Engineering 310.
Foundations and interrelationships of subsystems in modern digital communication systems. Regulatory considerations, channel descriptions, modems, error rates, digital coding of speech, line coding, intersymbol interference, networking, error control and cryptography.

570. Advanced Digital Circuits (3)

Prerequisite: Electrical Engineering 470.
Digital applications of linear devices, the digital/analog interface, and ultra high speed logic devices.

571. Bit-Slice Digital Systems (3) I

Prerequisites: Electrical Engineering 373 and 470.
Design of high-speed microprogrammable bit-slice digital systems. Case studies of CPU and controller designs.

576. Microprocessor Systems Development (3) I

Prerequisite: Electrical Engineering 373.
Design of microprocessor-based systems using modern development systems. Hardware and software development. Assembly language and PASCAL. Testing by emulation and realtime analysis.

578. Design of Very Large Scale Integrated Circuits I (3) I

Prerequisites: Electrical Engineering 330 and 371.
Digital integrated circuit design based on NMOS and CMOS technologies; characterization of field effect transistors, design and circuit level simulation (using SPICE) of logic gates and subsystems, wafer processing, design rules and chip layout, bit-slice chip architecture.

579. Design of Very Large Scale Integrated Circuits II (3) II

Prerequisite: Electrical Engineering 578.
VLSI system design; chip design methodology and architecture; computer-aided design of custom and semicustom chips; circuit, gate and behavioral level simulation; testing wafers and chips; design for special applications.

580. Modern Power Systems I (3) I

Prerequisites: Engineering 310, Electrical Engineering 310 and 380.
Modern power system elements; calculation of load flow, fault currents, and system stability.

581. Modern Power Systems II (3) II

Prerequisite: Electrical Engineering 580.
Transient response of modern power system elements; positive, negative and zero sequence impedance; subharmonic effects.

582. Power Relay Systems (3) I

Prerequisite: Electrical Engineering 380.
Power relays including metering and control as used in modern power systems. Characteristics of operations and applications of equipment. Demonstrations on individual component relays. Basic relay calculations.

596. Advanced Electrical Engineering Topics (1-3) I, II

Prerequisite: Consent of instructor.
Modern developments in electrical engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Electrical Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**600. Seminar (1-3)**

Prerequisite: Consent of instructor.
An intensive study in advanced electrical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

605. Seminar in Communications Systems (1-3)

Prerequisite: Consent of instructor.
An intensive study in communication theory and systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

606. Seminar in Computer Engineering (1-3)

Prerequisite: Consent of instructor.
Intensive study in computer engineering topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

622. Sampled-Data Systems (3)

Prerequisite: Electrical Engineering 520.
Analysis and synthesis of sampled-data and digital control systems; techniques for the design of time optimal sampled-data control systems; z-transform calculus and difference equation synthesis techniques for determining stability and system response.

625. State Space Analysis of Control Systems (3)

Prerequisite: Electrical Engineering 410. Recommended: Electrical Engineering 520.
State space representation of control systems, state transition flow graphs, methods of solution of the state equation, controllability and observability, and introduction to optimal control systems.

631. Integrated Circuit Technologies (3)

Prerequisite: Electrical Engineering 430 or 470.
Modern industrial practice in BJT, MOS, and GaAs technologies: systematic layout rules, scaling, layout topology, fabrication techniques and circuit structures for VLSI and buffers.

634. Semiconductor RF Circuit Design (3)

Prerequisite: Electrical Engineering 540.
Wide band amplifiers, low level RF amplifiers and mixers, IF amplifiers, AGC, tuning and stability problems, unilateralization and mismatching techniques, harmonic oscillators, VHF power amplifiers including varactor multipliers.

642. Optical Communications (3)

Prerequisite: Electrical Engineering 340.
Advanced topics of interest in electro-optical communications, including lasers, background light sources, modulators, receivers, optical fiber and atmospheric channels, and adaptive techniques.

644. Optical Data Processing (3)

Prerequisites: Electrical Engineering 340 and 410.
Electro-optical systems for processing electronic data or images. Spatial frequency analysis, filtering, convolution, and correlation based on light diffraction. Film as a recording medium. Acousto-optic and electro-optic processing devices and their applications.

645. Antennas and Propagation (3)

Prerequisite: Electrical Engineering 540.
Impedance characteristics and radiation patterns of thin linear antenna elements; field intensity calculations. Tropospheric and ionospheric propagation; propagation anomalies.

647. Radar Systems (3)

Prerequisite: Electrical Engineering 540.
Radar equation, range and Doppler resolution, design principles, signal processing, waveforms, synthetic aperture radar and target imaging.

650. Modern Communication Theory I (3)

Prerequisite: Electrical Engineering 553 or Mathematics 550.
Probability theory, random variables, random processes, Gaussian process, random signals through linear systems, noise considerations, optimum receiver design, applications to digital and wave-form communication.

651. Modern Communication Theory II (3)

Prerequisite: Electrical Engineering 650.
Estimation of signal parameters in noise. Estimation of spectral densities and correlation functions. Intersymbol interference. Adaptive and feedback systems.

652. Principles and Applications of Information Theory (3)

Prerequisite: Electrical Engineering 553 or 555 or 558.
Measure of information; digital communication systems, Shannon theorems, channel coding for applications in interference, noise combatting and jamming; source encoding for data compression. Multichannel and multi-user information theory with applications to diversity, multipath and other environments.

653. Coding Theory (3)

Prerequisite: Electrical Engineering 553.
The theory of coding to combat noise over communication channels. Redundancy added to messages to assure arbitrarily small error rates at a given information rate. Discussion of channels and capacity. Block codes, cyclic codes, BCH codes, convolutional code.

658. Advanced Applications of Digital Signal Processing (3)

Prerequisite: Electrical Engineering 556 or 557.
Concepts of spectral analysis. Applications of DSP to speech encoding. Image coding, fast algorithms applied to speech, image, radar, sonar and geophysical signal processing.

675. Advanced Microprocessors (3)

Prerequisite: Electrical Engineering 475.
Program development, circuit design, direct-memory access, multi-processing, co-processing, and standardized bus design for a 32-bit microprocessor.

676. Fault Tolerant Computing (3)

Prerequisite: Electrical Engineering 373.
Redundancy in computer design. Reliability modelling for digital systems. State-of-the-art in fault tolerant computers. Testing and diagnostics of digital systems. Designing for testability.

677. Topics in Logic Design (3) II

Prerequisite: Electrical Engineering 571.
Review of current technical periodic literature in logic design and digital systems. Stress on specialized synthesis techniques and recent theoretical developments.

678. Advanced Computer Design (3)

Prerequisite: Electrical Engineering 373.
Design principles for high performance computers. State-of-the-art in parallel computer systems, including pipelined computers, array processors and multiprocessor systems.

679. Real-Time Software Engineering (3)

Prerequisite: Electrical Engineering 675.
Principles of real-time programming and software engineering for microprocessor systems. Concurrent programming and multitasking. Structured programming. Software validation. Team programming projects.

680. Computer Methods in Advanced Power System Analysis (3)

Prerequisite: Electrical Engineering 580.
Computer modeling and analysis techniques applied to large power systems.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of department chair.
Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of department chair.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Mechanical Engineering

In the College of Engineering

OFFICE: Engineering 323M
TELEPHONE: (619) 594-5527

Faculty

Robert L. Bedore, M.S.M.E., P.E., Professor of Mechanical Engineering (Graduate Adviser)
George T. Craig, Ph.D., Professor of Mechanical Engineering, Dean of the College of Engineering
Richard A. Fitz, Ph.D., Professor of Mechanical Engineering
Jack W. Hoyt, Ph.D., Professor of Mechanical Engineering
Nihad A. Hussain, Ph.D., Professor of Mechanical Engineering, Associate Dean of the College of Engineering
George A. Mansfield Jr., M.S.M.E., P.E., Professor of Mechanical Engineering
Robert J. Murphy, Ph.D., P.E., Professor of Mechanical Engineering
Basil Ohnysty, M.S., P.E., Professor of Mechanical Engineering
John G. Pinto, Ph.D., Professor of Mechanical Engineering, Chair of Department
Halil M. Güven, Ph.D., Associate Professor of Mechanical Engineering
Alvin E. Lybarger, Ed.D., Associate Professor of Mechanical Engineering
Larry D. Thompson, Ph.D., Associate Professor of Mechanical Engineering
D. Preston Lowrey III, Ph.D., Assistant Professor of Mechanical Engineering

UPPER DIVISION COURSES

- 510. Advanced Machine Design (3) I, II**
Prerequisites: Mechanical Engineering 314 and 340.
Application of advanced topics in strength of materials to the design of mechanical elements. Energy methods, stress concentrations, curved beams, and thick-walled cylinders. Practical application of principles through case studies or design projects.
- 512. Simulation of Engineering Systems (3) I, II**
Two lectures and three hours of laboratory.
Prerequisites: Mechanical Engineering 314 and 395.
Analysis and design of engineering systems using modern analog and digital computers. Simulation of dynamic systems. Application to problems in mechanics, heat transfer, thermodynamics, and control systems.
- 516. Engineering Design: Mechanisms (3)**
Prerequisite: Mechanical Engineering 512.
Design of linkages, cams, and gears wherein displacement, velocity and acceleration are paramount considerations.
- 520. Introduction to Mechanical Vibrations (3)**
Prerequisites: Mechanical Engineering 512 and Civil Engineering 301.
Analysis of mechanical vibration; single- and multi-degree of freedom systems; free and forced vibrations; vibration isolation; vibration absorbers. Theory of vibration measuring instruments.
- 521. Vibration, Shock and Noise Measurements (3)**
Prerequisites: Mechanical Engineering 512 and Civil Engineering 301.
Experimental problems utilizing vibration excitation equipment, recording systems, transducers, sound analysis systems and analog computers.

- 530. Automatic Control Systems (3)**
Prerequisites: Engineering 310 and credit or concurrent registration in Mechanical Engineering 512.
Analysis of the dynamic characteristics of control components and systems. Stability and response of closed loop systems. Design of control systems.
- 540. Nonmetallic Materials (3)**
Prerequisite: Mechanical Engineering 340.
Fundamentals of plastics, reinforced plastics, and ceramics. Analysis of effect of physical properties upon selection of a material for use in design.
- 542. Production Engineering (3)**
Prerequisites: Mechanical Engineering 340 and Engineering 310.
Quantitative techniques including regression analysis, linear programming, network and simulation methods as applied to planning, forecasting, scheduling and maintaining of modern production and manufacturing systems.
- 544. Advanced Manufacturing Processes (3)**
Prerequisites: Mechanical Engineering 195, 314, 340, 350 and Engineering 310.
Theory and techniques of metal cutting, forming, non-cutting metal removal, computer controlled machining.
- 546. Computer Aided Manufacturing (3)**
Prerequisites: Mechanical Engineering 195, 340 and Engineering 120, 310.
Computer controlled manufacturing and assembly techniques and devices. Data bases and special languages.
- 570. Thermal Systems Analysis and Design (3)**
Prerequisite: Mechanical Engineering 470.
Analysis, design and optimization of thermal systems using microcomputers. Modeling of thermal systems and components. Thermal system component characteristics and their effect on overall system performance. Relationship among thermal sciences in design process. Introduction to thermoeconomic optimization.
- 580. Elements of Energy Conversion (3)**
Prerequisite: Mechanical Engineering 350.
Principles of physics and chemistry applied to the analysis of a broad spectrum of energy conversion devices from an engineering point of view.
- 582. Thermal Environmental Engineering (3)**
Prerequisite: Mechanical Engineering 470.
Psychrometrics. Mass transfer. Two-phase flow. Heat transfer. Thermoelectric refrigeration. Change of phase.
- 584A-584B. Principles of Chemical Engineering (3-3)**
(Same course as Chemistry 500A-500B.)
Prerequisite: Credit or concurrent registration in Mechanical Engineering 350 or Chemistry 410A.
Industrial stoichiometry; fluid flow and heat transfer as applied to unit operations such as evaporation, distillation, extraction, filtration, gas-phase mass transfer, drying, and others. Problems, reports, and field trips.

- 586. Solar Energy Conversion (3)**
Prerequisites: Mechanical Engineering 450, 470 and Engineering Mechanics 340.
Application of thermodynamics, fluid mechanics and heat transfer to the thermal design of solar energy conversion systems. Computer simulations utilized.
- 590. Biomechanics (3)**
Prerequisites: Civil Engineering 301 and Engineering Mechanics 340.
Application of engineering methodologies for quantitative understanding of biological/physiological phenomena. Continuum mechanics principles. The cardiovascular systems and its components viewed from a mechanistic standpoint.
- 596. Advanced Mechanical Engineering Topics (1-3) I, II**
Prerequisite: Consent of instructor.
Modern developments in mechanical engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Mechanical Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

- 610. Finite Element Methods in Mechanical Engineering (3)**
Prerequisites: Engineering 310 and Mechanical Engineering 510.
Development of finite elements and an introduction to solution methods. Problems from various fields of study in mechanical engineering such as stress analysis, vibrations and heat transfer. Introduction to finite element programs such as NASTRAN.
- 614. Engineering Design: Analytical Methods (3)**
Prerequisites: Mechanical Engineering 512 and Engineering 510.
Classical optimization techniques, digital computer methods of optimization, design decision theory, reliability in design.
- 621A-621B. Mechanical Vibrations (3-3)**
Prerequisites: Mechanical Engineering 512, 520 and Engineering 510.
Topics in vibration relating to mechanical design such as nonlinear vibrations, distributed mass systems, random vibrations, mobility analysis, isolator design.
- 632. Advanced Topics in Automatic Controls (3)**
Prerequisite: Mechanical Engineering 530.
Analysis and synthesis of sample data systems. State space analysis of multivariable systems, optimal control systems.
- 642. Corrosion (3)**
Prerequisite: Mechanical Engineering 340.
The destructive attack of a metal by chemical or electrochemical reaction with its environment. Thermodynamics of cells, E-pH diagrams, and electrode kinetics; corrosion resistant metals, polymers and composites.
- 643. Failure Analysis (3)**
Prerequisite: Mechanical Engineering 510.
Behavior of materials in mechanical design. Analysis, prediction and prevention of failure.
- 645. Mechanical Metallurgy for Engineers (3)**
Prerequisites: Mechanical Engineering 340 and 350.
Fundamentals of plastic deformation of crystalline solids; elementary theory of statics and dynamics of dislocations, deformation, fracture and metallurgical variables on mechanical properties; environment-failure interactions.
- 651. Analytical Thermodynamics (3)**
Prerequisite: Engineering 310.
Advanced concepts of macroscopic thermodynamics. Application of thermodynamics to special systems.
- 661. Gas Dynamics (3)**
Prerequisites: Mechanical Engineering 450 and Engineering 510.
Thermodynamics of high velocity compressible fluid flow. Adiabatic and diabatic flow; shock phenomena; imperfect gases; multidimensional flow. Applications to the propulsive duct and turbomachinery.
- 663. Boundary Layers in Internal Flows (3)**
Prerequisites: Mechanical Engineering 470 and Engineering 510.
Conservation laws applied to boundary layers in viscous, heat conducting fluids; analysis of the boundary layer equations; applications to internal flows.
- 671. Conduction Heat Transfer (3)**
Prerequisites: Mechanical Engineering 470 and Engineering 510.
Conduction heat transfer; multidimensional and transient processes; analytical and numerical models of conduction phenomena.
- 673. Convection Heat Transfer (3)**
Prerequisites: Mechanical Engineering 470, Engineering 510. Concurrent registration in Mechanical Engineering 663.
Convection heat transfer processes under laminar and turbulent flow conditions. Analytical and numerical modeling of processes.
- 675. Radiation Heat Transfer (3)**
Prerequisites: Mechanical Engineering 470 and Engineering 510.
Radiation heat transfer processes. Radiative properties of surfaces and gases. Multimode heat transfer in thermal systems. Numerical modeling.
- 696. Advanced Topics in Mechanical Engineering (2 or 3)**
Intensive study in specific areas of mechanical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master's degree.
- 700. Seminar (1-3)**
Prerequisite: Consent of the graduate adviser and instructor.
An intensive study in advanced mechanical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable on a master's degree.
- 797. Research (1-3) Cr/NC/SP**
Prerequisites: Consent of graduate adviser and advancement to candidacy.
Research in engineering. Maximum credit six units applicable to a master's degree.
- 798. Special Study (1-3) Cr/NC/SP**
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master's degree.
- 799A. Thesis or Project (3) Cr/NC/SP**
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.
- 799B. Thesis or Project Extension (0) Cr/NC**
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

English and Comparative Literature

In the College of Arts and Letters

OFFICE: Adams Humanities 4158
TELEPHONE: (619) 594-5237

Faculty

Elsie B. Adams, Ph.D., Professor of English and Comparative Literature
Jackson J. Benson, Ph.D., Professor of English
Roberta F. Borkat, Ph.D., Professor of English
Howard C. Brashers, Ph.D., Professor of English
Jerry D. Bumpus, M.F.A., Professor of English
Gerald J. Butler, Ph.D., Professor of English and Comparative Literature
Glover T. Davis II, M.F.A., Professor of English
John W. Dickinson, Ph.D., Professor of English
Gerald H. Farber, Ph.D., Professor of English and Comparative Literature
Maurice S. Friedman, Ph.D., L.L.D., Professor of Religious Studies, Philosophy and Comparative Literature
Jay H. Gellens, Ph.D., Professor of English
Ronald J. Gervais, Ph.D., Professor of English
Jerome J. Griswold, Ph.D., Professor of English
Suzanne Henig, Ph.D., Professor of English
James C. Hinkle, M.A., Professor of English
Harold Jaffe, Ph.D., Professor of English
Dorothea E. Kehler, Ph.D., Professor of English
Lois R. Kuznets, Ph.D., Professor of English
Lawrence F. McCaffery, Ph.D., Professor of English and Comparative Literature
Dan D. McLeod, Ph.D., Professor of English and Comparative Literature, Associate Chair of Department Studies
Fred S. Moramarco, Ph.D., Professor of English (Director of Graduate Studies)
Thomas A. Nelson, Ph.D., Professor of English
Peter F. Neumeyer, Ph.D., Professor of English and Comparative Literature
William N. Rogers II, Ph.D., Professor of English and Comparative Literature

Assistantships and Scholarships

Graduate teaching assistantships in English are available to a limited number of qualified students. Application blanks and additional information may be secured from the Graduate Coordinator.

General Information

The Department of English and Comparative Literature offers graduate study leading to a Master of Arts in English and the Master of Fine Arts in Creative Writing. The M.A. student can choose one of four areas of specialization: American Literature, British Literature, Comparative Literature, or Rhetoric and Writing. The M.A. is a 30-unit degree program particularly well suited for students who anticipate further graduate work in a literature or rhetoric Ph.D. program or who intend to teach English in a community college or a secondary school. The M.F.A. in Creative Writing is a 54-unit program which offers study in poetry or fiction with a balance between studio and academic, traditional and experimental, commercial and aesthetic approaches. The program has two stages — graduate seminars followed by intensive study with one or more professors in tutorials and thesis preparation. The M.F.A. is a professional program intended for full-time students who wish to receive a terminal degree in creative writing. Each year, in addition to the resident faculty, the department invites approximately twenty writers and editors to the campus for readings and residencies.

The department offers a wide range of courses and approaches to the study of literature and writing, many of which are outlined in English 600,

James Rother, Ph.D., Professor of English and Comparative Literature
Gennaro A. Santangelo, Ph.D., Professor of English and Comparative Literature
Minas Savvas, Ph.D., Professor of English and Comparative Literature
Ira G. Sheres, Ph.D., Professor of English and Comparative Literature
Donald A. Shojai, Ph.D., Professor of English and Comparative Literature
Harry C. Stiehl, Ph.D., Professor of English
Carey G. Wall, Ph.D., Professor of English, Chair of Department
Kingsley Widmer, Ph.D., Professor of English and Comparative Literature
Sandra B. Alcosser, M.F.A., Associate Professor of English, Director of Creative Writing Program
Alfred F. Boe, Ph.D., Associate Professor of English and Comparative Literature
James W. Coleman, Ph.D., Associate Professor of English
Sinda J. Gregory, Ph.D., Associate Professor of English
Sherry B. Little, Ph.D., Associate Professor of English
Lynn Luria-Sukenick, Ph.D., Associate Professor of English
Shirley K Rose, Ph.D., Associate Professor of English, Director of Composition
James L. Wheeler, Ph.D., Associate Professor of English and Comparative Literature
Thomas Aninger, Ph.D., Assistant Professor of English
Clare E. Colquitt, Ph.D., Assistant Professor of English (Graduate Adviser)
D. Emily Hicks, Ph.D., Assistant Professor of English and Comparative Literature
Lynda L. Koolish, Ph.D., Assistant Professor of English
Susan L. Wyche-Smith, Ph.D., Assistant Professor of English
William Zeiger, Ph.D., Assistant Professor of English

Introduction to Graduate Study, required of all entering M.A. students. Faculty publications in literature and rhetoric are similarly diverse. They include major literary biographies, historical studies, critical analysis from various current perspectives, reviews of and interviews with contemporary writers, as well as a broad spectrum of original poetry and fiction. The department also sponsors a number of literary periodicals including *Fiction International* and *The Pacific Review*.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students may be admitted to the graduate program in literature in one of two categories:

1. Classified Graduate Standing
To be considered for admission, students must meet the following minimal requirements:
 - a. 24 units of upper division work in English
 - b. 2.75 overall on a 4.0 Grade Point Scale
 - c. 3.0 grade point average in the English major
 - d. 1000 on the GRE General Test (combined verbal and quantitative score, minimum 500 verbal)
2. Conditional Classified Graduate Standing
 - a. Conditional acceptance will be considered for a candidate who is below requirements in one of the above. A student may be granted conditional acceptance if there is a deficiency in any of the above requirements. A student accepted conditionally must

achieve an average of 3.25 in nine units of English or comparative literature courses with no grade less than B- before proceeding to further study and is limited to 12 units. Any units taken above this quota will not count toward the 30 units for the master's degree in English.

- b. English major unit deficiencies. Students who lack 24 units of credit in upper division courses in English will be considered for conditional standing if they meet the requirements of 2.75 overall and 1000 on the GRE General Test (combined verbal and quantitative). After the completion of 24 units for the undergraduate major, students will be considered for classified graduate standing if they meet the other requirements. Students choosing a comparative literature specialization may substitute, with the approval of the graduate adviser, foreign language literature or comparative literature courses for part of this requirement.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement, as stated in Part Two of this bulletin. Each candidate, with the approval of the graduate coordinator, may fulfill the foreign language requirement in one of several ways: (1) by passing the Graduate School Foreign Language Test or the Modern Language Association Reading Examination, (2) by passing a local examination administered by one of the University's foreign language departments, (3) by completing one three-unit upper division foreign language literature course with readings in the original language with a grade of C (2.0) or better, or (4) by passing an examination to be determined by the graduate adviser if the chosen language is not one taught in a department at San Diego State University.

Specific Requirements for the Master of Arts Degree

(Major Code: 15011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program, approved by the department's Director of Graduate Studies, which includes a major consisting of 30 units, with at least 18 units of 600- and 700-numbered courses. The major includes a specialization in one of four program areas: American Literature, British Literature, Comparative Literature, or Rhetoric and Writing. Students specializing in literature may choose Plan A (thesis) or Plan B (oral and written examination). Students specializing in Rhetoric and Writing may only select the thesis option (Plan A).

Specialization in American Literature

Core Courses (9 units):
English 600 Introduction to Graduate Study (3)
English 601 Literary Study in a Multicultural World (3)
English 602 Literary Theory and Critical Practice (3)
American Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:
English 604A American Literary Period or Movement (3)
English 606A American Literary Type (3)
English 625 American Literature (3) or
English 700 Seminar: A Major Author or Authors (3)
English 725 Seminar: Issues in American Literature (3)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and Comparative Literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

Plan A: (Thesis or Project) — 799A (3 units)
Plan B: (Comprehensive Examination) — Additional 3 units of 700-level coursework in English.

Specialization in British Literature

Core Courses (9 units):
English 600 Introduction to Graduate Study (3)
English 601 Literary Study in a Multicultural World (3)
English 602 Literary Theory and Critical Practice (3)

British Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:

English 604B British Literary Period or Movement (3)
English 606B British Literary Type (3)
English 624 British Literature (3)
English 700 Seminar: A Major Author or Authors (3)
English 724 Seminar: Issues in British Literature (3)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and Comparative Literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Plan A (Thesis or Project) — 799A (3 units)
Plan B (Comprehensive Examination) — Additional 3 units of 700-level coursework in English.

Specialization in Comparative Literature

Core Courses (9 units):
English 600 Introduction to Graduate Study (3)
English 601 Literary Study in a Multicultural World (3)
English 602 Literary Theory and Critical Practice (3)

Comparative Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:
Three units acceptable for graduate credit, in a foreign language literature read in the original language.

Six units from the following:
English 604C Comparative Literature Literary Period or Movement (3)
English 606C Comparative Literature Literary Type (3)
English 626 Comparative Literature (3)
English 700 Seminar: A Major Author or Authors (3)
English 726 Seminar: Issues in Comparative Literature (3)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and Comparative Literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

Plan A (Thesis or Project) — 799A (3 units)
Plan B (Comprehensive Examination) — Additional 3 units of 700-level coursework in English.

Specialization in Rhetoric and Writing.

Core Courses (9 units):
English 600 Introduction to Graduate Study (3)
English 601 Literary Study in a Multicultural World (3)
English 602 Literary Theory and Critical Practice (3)

Rhetoric and Writing Research Focus (9 units):

English 741 Seminar in Classical Rhetoric and Composition (3)
English 742 Seminar in Modern Rhetoric and Composition (3)

Three units selected from:

English 744 Seminar: Issues in Rhetorical Theory and Practice (3)
English 745 Advanced Seminar: Research Methods in Rhetoric and Writing (3)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and Comparative Literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:
Plan A (Thesis or Project) — 799A (3 units)

Master of Fine Arts Degree in Creative Writing

Admission to Graduate Study

STUDENTS WILL BE ADMITTED TO THE M.F.A. IN CREATIVE WRITING ONLY IN THE FALL SEMESTER AND COMPLETE APPLICATIONS MUST BE RECEIVED NOT LATER THAN MARCH 1.

In addition to meeting the general requirements for admission to San Diego State University with classified graduate standing, as described in

4. The applicant normally must achieve a minimum score of 950 on the Graduate Record Examination, with a minimum of 500 on the verbal section. The results of the GRE should be sent directly to the Office of Admissions and Records, San Diego State University.

Students who submit especially compelling samples of creative work, but who have not met certain criteria or who demonstrate deficiencies in undergraduate preparation or basic skill development may be granted conditional classified admission to the program. The Graduate Coordinator shall specify the conditions for such admission with the proviso that any remedial coursework assigned must be completed with a minimum grade point average of 3.0 and no grade less than a B-.

A student holding an M.A. degree in English with a specialization in Creative Writing from San Diego State University, or any other acceptable accredited institution of higher learning, must formally apply for admission to the M.F.A. program. Applicants holding an M.A. or pursuing an M.F.A. at an acceptable accredited institution may transfer up to 18 units upon review and recommendation by the creative writing faculty in the area of focus, the Graduate Coordinator of the English Department, and the approval of the Dean of the Graduate Division and Research. Students unable to satisfy the requirements for the M.F.A. degree will not automatically be considered for an M.A. degree.

Students already accepted into the M.F.A. program at San Diego State University who request a change of focus (poetry or fiction) at a later date will be required to reapply to the Creative Writing Committee.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. degree must have completed 30 units within their official program of study, including transfer credit, with a minimum grade point average of 3.25 and have no grade less than B-. Students will be permitted to repeat only one course to achieve these levels.

In addition, the department graduate committee must have recommended appointment of a thesis adviser from the student's area of focus (poetry, fiction) and the Creative Writing Committee must have approved a thesis topic. Applicants for advancement should submit a portfolio of their creative work to the Creative Writing Committee for a recommendation for advancement. Aspects to be reviewed include artistic achievement, ability to function in situations that writers and teachers usually encounter, and demonstration of skills in the focus area.

After advancement to candidacy, a student must enroll in and complete a minimum of 24 units from the official program to include English 789, 797, and 799A.

Specific Requirements for the Master of Fine Arts Degree in Creative Writing

(Major Code: 15071)

In addition to meeting the requirements for classified graduate standing, candidates for the M.F.A. in Creative Writing must complete a 54-unit graduate program, 39 of which must be in courses numbered 600 and above as follows:

1. **Core Requirements.**
English 689 Advanced Tutorial in Creative Writing (3)
This course must be taken prior to advancement to candidacy.
English 789 Directed Writing for M.F.A. Students (3)
This core course must be taken after advancement to candidacy.
2. **Creative Writing Research Focus.** Student to select one 18-unit research focus as follows:
 - A. **Poetry**
English 680 Poetry Writing (6)
English 780 M.F.A. Seminar: Poetry (6)
Six units of electives in another creative writing research focus with the approval of the M.F.A. adviser.
 - B. **Fiction**
English 681 Fiction Writing (6) and six units to be selected from
English 781 M.F.A. Seminar: Fiction (3-6)

English 783 M.F.A. Seminar: Novel (3-6)
Six units of electives in another creative writing research focus with the approval of the M.F.A. adviser.

3. **Literature Research.** An 18-unit literature research component divided as follows:
 - A. Three units selected from the following:
English 630 Form and Theory of Poetry (3)
English 631 Form and Theory of Fiction (3)
 - B. Nine units in American, British, or Comparative Literature, or an appropriate modern language literature selected with the approval of the M.F.A. adviser.
 - C. Six units selected from the following:
English 700 Seminar: A Major Author or Authors (3)
English 709 Seminar in Teaching of Creative Writing (3)
English 724 Seminar: Issues in British Literature (3)
English 725 Seminar: Issues in American Literature (3)
English 726 Seminar: Issues in Comparative Literature (3)
English 730 Seminar: Perspectives in Critical Analysis (3)
English 741 Seminar in Classical Rhetoric and Composition (3)
English 742 Seminar in Modern Rhetoric and Composition (3)
English 744 Seminar: Issues in Rhetorical Theory and Practice (3)
English 745 Advanced Seminar: Research Methods in Rhetoric and Writing (3)
4. **Correlative Study in Another Discipline.** Six units in a correlative study related to the student's interest and selected with the approval of the M.F.A. adviser.
5. **Thesis.** Six units in preparation of the thesis; a book-length creative work.
English 797 Thesis Research (3)
English 799A Thesis (3)

Courses Acceptable on the Master's Degree Programs in Creative Writing and English

UPPER DIVISION COURSES IN ENGLISH

Prerequisite for all 500-level courses: Six lower division units in courses in literature and/or creative writing.

500W. Advanced Composition (3) I, II
Prerequisites: Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. **Proof of completion of prerequisites required:** Test scores or verification of exemption; grade report or copy of transcript.

The theory and practice of expository writing, including the contributions of semantics, rhetoric, and logic.

501. Literature for Children (3)
Critical analysis of literature intended for children. Study of texts and illustrations.

502. Adolescence in Literature (3)
Prerequisite: Six units in literature.
Works centrally concerned with an adolescent protagonist. Includes both traditional novels of development (bildungsroman) or education and contemporary young adult novels.

503W. Technical Writing (3)
Prerequisites: English 200. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. **Proof of completion of prerequisites required:** Test scores or verification of exemption; grade report or copy of transcript.

Principles and practices of writing required in technical and scientific fields of professions, including technical writing style and rhetorical strategies of designing technical documents. (Formerly numbered English 304W.)

504. Problems in Technical Communication (3) I, II

Prerequisite: English 503W. Recommended: Graphics or drawing course.

Problems in technical writing, including graphics, printing, and reproduction of technical documents; types of technical communication, including reports, manuals, and proposals; manuscript editing and proof-reading; audience analysis and readability; writing and recognition of clear technical prose.

506. Writing Internship (3) I, II, S Cr/NC

Prerequisite: Consent of instructor and successful completion of a 500-level writing course with a grade of B or better.

Intensive experience in writing and editing documents while student is under the joint supervision of an academic instructor and a professional coordinator.

507. The History of Literary Criticism (3)

Principles and practices of literary criticism from Greek times to the twentieth century.

508W. The Writing of Criticism (3)

Prerequisites: Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. **Proof of completion of prerequisites required:** Test scores or verification of exemption; grade report or copy of transcript.

Theory and practice of literary criticism. Emphasis on the work of important critics and on development of student's own critical writing.

509. Introduction to the Teaching of Composition (3) I, II

Prerequisite: Consent of instructor based on writing sample and/or test.

Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

519. American Ethnic Literatures (3)

Prerequisite: Six units in literature.

Works from American ethnic literatures, with emphasis on formerly excluded traditions as African-American, Hispanic and Chicano, Asian-American, and American Indian.

520. African-American Literary Tradition (3)

Prerequisite: Six units in literature.

African-American literature from its eighteenth century beginnings to the present. Early political and social concerns and concomitant utilitarian forms; aesthetic concerns and forms in nineteenth and twentieth centuries.

522. American Literature, 1800 until 1860 (3)

Representative works by American writers from 1800 until 1860; likely to include works by Emerson, Hawthorne, Melville, Poe, H. B. Stowe, Thoreau, Whitman, others.

523. American Literature, 1860 until 1920 (3)

Representative works by American writers from 1860 until 1920; likely to include works by Kate Chopin, Stephen Crane, Emily Dickinson, Henry James, Carl Sandburg, Mark Twain, Edith Wharton, others.

524. American Literature, 1920 until 1950 (3)

Representative works by American writers from 1920 until 1950; likely to include works by Willa Cather, T. S. Eliot, William Faulkner, F. Scott Fitzgerald, Ernest Hemingway, Eugene O'Neill, K. A. Porter, Ezra Pound, John Steinbeck, others.

525. American Literature, 1950 until Present (3)

American writers from 1950 until the present; likely to include works by Edward Albee, Saul Bellow, Allen Ginsberg, Joseph Heller, Norman Mailer, Toni Morrison, Sylvia Plath, Adrienne Rich, Kurt Vonnegut, Eudora Welty, others.

526. Topics in American Literature (3)

Topics in American literature to include The Literature of the South; Black Writers in America; The Frontier and American Literature; The History of American Literature; The Outcast in American Literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

527. Genre Studies in American Literature (3)

Study of a specific literary genre: overview of the genre's development in American literature (The American Novel, The American Short Story, American Poetry) or focus on a narrower period (The Modern American Novel, The Contemporary American Novel, American Autobiographies, others). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

528. Individual American Authors (3)

Works of a major American author or, if useful comparisons and juxtapositions warrant it, the works of two or three authors: Melville, Twain, James, Faulkner, Steinbeck, Nabokov; or Pound and Eliot, Emerson and Thoreau, Vonnegut and Barth, others. See Class Schedule for specific content. May be repeated with new title and content. Maximum credit six units.

530. Chaucer (3)

Chaucer's works, with emphasis on *The Canterbury Tales* and *Troilus and Criseyde*.

531. Renaissance Literature (3)

English poetry and prose from 1485 to 1603.

533. Shakespeare (3) I, II

An introduction to the writings of Shakespeare. This course cannot be used in place of English 302 to satisfy General Education requirements.

534. Study of Shakespeare (3)

Prerequisite: English 533.

Advanced study of Shakespeare's achievement as a poet and playwright.

536. Seventeenth Century Literature (3)

English poetry and prose from 1603 to 1660.

537. Milton (3)

Milton's writings, with emphasis on *Paradise Lost*.

538A-538B. Restoration and Eighteenth Century Literature (3-3) I, II

English literature in the neoclassical era. Semester I: Dryden, Swift, Pope, and their contemporaries. Semester II: Writers of the middle and late eighteenth century.

540A-540B. English Fiction (3-3)

The development of English fiction from its beginnings to the end of the nineteenth century. Semester I: The eighteenth century. Semester II: The nineteenth century.

541A-541B. English Drama (3-3)

English dramatic literature from its beginnings to the nineteenth century. Semester I: The period from the beginning to 1642. Semester II: The period following reopening of the theatres in 1660.

542. Romantic Literature (3)

Representative British works from the 1790's to the 1830's by such writers as Wollstonecraft, Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Austen, and Scott. (Formerly numbered English 542A.)

543. Victorian Literature (3)

Representative British works from 1837 until 1890 by such writers as Carlyle, Tennyson, Ruskin, Browning, Dickens, Arnold, Eliot, and Pater. (Formerly numbered English 542B.)

544. British Literature, 1890-1918 (3)

Representative British works from 1890 until 1918 by such writers as Hardy, Gissing, Shaw, Conrad, Yeats, Wells, Forster, and the World War I poets.

547. British Literature, 1918-1950 (3)

Representative British works from 1918 until 1950 by such writers as Joyce, Woolf, T. S. Eliot, Lawrence, Mansfield, Huxley, Bowen, Greene, Auden, Orwell, and Thomas.

548. British Literature, 1950 until Present (3)

Representative British works from 1950 until the present by such writers as Golding, Amis, Murdoch, Lessing, Pinter, Hughes, Fowles, Stoppard, and Drabble.

549. Topics in English Literature (3) I, II

The Works of Spenser, The Metaphysical School of Poetry, The English Satirists, Major Movements in Contemporary English Fiction, and the like. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

560A. British Literature, Beginnings through the Eighteenth Century (3)

Survey of major British writers, with emphasis on reading of complete works. From the beginnings to the neoclassical period. Especially appropriate for those students who have not satisfied the lower division survey requirements, for those who will teach British literature, and for those proceeding on to graduate study.

560B. British Literature, Romanticism to the Present (3)

Survey of major British writers, with emphasis on reading of complete works. Begins with the Romantic writers. Especially appropriate for those students who have not satisfied the lower division survey requirements, for those who will teach British literature, and for those proceeding on to graduate study.

570. Techniques of Poetry (3) I, II

Prerequisite: English 280.

Techniques of poetry from the creative writer's point of view, introduction to critical and theoretical literature on poetry. Includes a creative writing workshop.

571. Techniques of the Short Story (3) I, II

Prerequisite: English 280.

Techniques of the short story, from the writer's point of view. Introduction to critical and theoretical literature on the short story. Includes a creative writing workshop.

573. Techniques of the Novel (3) I, II

Prerequisite: English 280.

Techniques of the novel from the writer's point of view. Introduction to the critical and theoretical literature on the novel. Includes a creative writing workshop.

574. Techniques of Informal Essays (3) I, II

Prerequisite: English 280.

Techniques of the essay as an art form. Introduction to critical and theoretical literature on the essay. Includes a creative writing workshop.

576. Literary Editing and Publishing (3) I, II

Prerequisite: English 280.

Principles and practices of editing and literary publishing. Workshop on small press publishing. Includes editing and publishing workshop.

577. Techniques of Screenwriting (3) I, II

Prerequisite: English 280 or Telecommunications and Film 110 or 510 for telecommunications and film majors.

Techniques of screenwriting. Introduction to the critical and theoretical literature on screenwriting. Includes a creative writing workshop.

578. Techniques of Drama (3)

Prerequisite: English 280.

Techniques of drama written for the stage, from writer's point of view. Introduction to the critical and theoretical literature on drama. Includes a creative writing workshop. (Formerly numbered English 572.)

579. Topics in Creative Writing (3)

Prerequisite: English 280.

Techniques of creative writing focusing on a specialized genre such as comedy, science fiction, and biography. Study of the critical and theoretical literature on the genre. Includes a creative writing workshop. See Class Schedule for specific content. Maximum credit six units.

580. Writing of Poetry (3) I, II

Prerequisite: English 570.

A creative writing workshop in poetry. Continuation of English 570. Maximum credit six units.

581W. Creative Writing of Fiction (3) I, II

Prerequisites: English 280. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the

Writing Competency requirement, and completed the General Education requirement in Written Communication. **Proof of completion of prerequisites required:** Test scores or verification of exemption; grade report or copy of transcript.

A creative writing workshop in fiction. Continuation of English 571. Maximum credit six units.

583. Writing Long Narrative (3) I, II

Prerequisite: English 573.

A creative writing workshop in long narrative, especially the novella and/or novel. Continuation of English 573. Maximum six units.

584W. Writing Informal Essays (3)

Prerequisites: English 574. Satisfies University upper division writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Written Communication. **Proof of completion of prerequisites required:** Test scores or verification of exemption; grade report or copy of transcript.

A creative writing workshop in nonfiction, especially the essay as an art form. Maximum credit six units. (Formerly numbered English 582W.)

587. Writing the Screenplay (3) I, II

Prerequisite: English 577 or Telecommunications and Film 110 or 510 for telecommunications and film majors.

A creative writing workshop in screenwriting with emphasis on the feature film. Continuation of English 577. Includes playwriting and revising a television script or short film. Maximum credit six units.

588. Playwriting: The One-Act Play (3) II

Prerequisite: English 578 or Drama 420.

A creative writing workshop in planning, writing, and revising a one-act play. Selected plays will be submitted to the Drama Department for production in the One-Act Program. May be repeated with new content. Maximum credit six units.

589. Senior Workshop in Creative Writing (3)

Prerequisites: Three units from English 570, 571, 573, 578, or 579; six units from English 580, 581W, 583, 584W, 587, or 588. Not applicable to a master's degree.

Advanced workshop for students who have an extensive background in creative writing, and who wish to prepare a senior project in poetry writing, fiction writing, or other special topics. See Class Schedule for specific content. Maximum credit six units.

UPPER DIVISION COURSES IN COMPARATIVE LITERATURE

Prerequisite for all 500-level courses: Six units in literature or three units in literature and three units in a related area appropriate to the course in question.

510. Medieval Literature (3)

Representative selections from authors of the Middle Ages.

511. Continental Renaissance (3)

Representative selections from authors of the Renaissance period in continental Europe.

512. Seventeenth and Eighteenth Century European Literature (3)

Selected works by European writers prior to 1800.

513. Nineteenth Century European Literature (3)

Selected works by European writers between 1800 and 1900.

514. Modern European Literature (3)

Selected works by European writers of the twentieth century.

526. Modern Jewish Literature (3)

Prerequisite: Upper division standing.

Selected works by Jewish authors from the last half of the nineteenth century to the present, with emphasis on the Jewish literary tradition in Europe.

530. Topics in Asian Literature (3) I

Specialized study of a selected topic in Asian literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

560. The Epic (3)

Selected epic poems from world literature; emphasizes the Western epic tradition from Homer to the present.

561. Fiction (3)

A comparative approach to themes and forms in fiction (novel and short story). Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

562. Drama (3)

Forms and themes in drama. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

563. Poetry (3)

A comparative approach to themes and forms in poetry. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

571. Literary Use of Legend (3)

Literary treatment of such legendary figures as Don Juan, Faust, and Ulysses, in a wide range of literature and genres. See Class Schedule for specific content.

577. Major Individual Authors (3)

In-depth study of the works of a major author, such as Sophocles, Dante, Cervantes, Goethe, Dostoyevsky or Proust. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

580. Concepts in Comparative Studies (3)

Basic concepts in comparative studies in literature (e.g., influence, movement, figure, genre, etc.); their validity, usefulness and limitations. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

581. Literary Uses of Languages (3)

Function of languages in literary writing. May take the form of translation workshop, stylistic studies, semiotic analysis, etc. See Class Schedule for specific content.

582. Contemporary Literary Theory (3)

Prerequisite: Six upper division units in literature. Comparative study of literary theory since Russian formalism and Anglo-American "New Criticism." Emphasis on current developments in Europe and North America.

594. Topics in Literature and the Arts (3) I, II

Prerequisite: Six upper division units in literature or any of the other arts.

Comparative study of literature and other arts such as painting, sculpture, architecture, music, dance and film. See Class Schedule for specific content. Maximum credit six units applicable to the M.F.A. in creative writing.

595. Literature and Aesthetics (3) I, II

Prerequisite: Six upper division units in literature or any of the other arts.

Theoretical and experiential investigation of relationships between literature and the other arts; literary works in context of an inquiry into aesthetics.

596. Topics in Comparative Literature (3)

An intensive study of a topic to be selected by the instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

GRADUATE COURSES IN ENGLISH**600. Introduction to Graduate Study (3)**

Prerequisite: Twelve upper division units in English. Introduction to research methods and critical approaches common in the graduate study of literature and expository writing, with attention to basic reference works, bibliographical techniques, analytical strategies, scholarly frames of reference, and pedagogy. Recommended for first semester graduate students.

601. Literary Study in a Multicultural World (3)

Prerequisite: Credit or concurrent registration in English 600. Relationship of literature to gender, race, class, and nationality. Changing conceptions of literary canons. Exploration, through literary texts, of values in literature and the constituents of literary value.

602. Literary Theory and Critical Practice (3)

Prerequisite: Credit or concurrent registration in English 600. Major issues in the history of literary criticism as well as contemporary approaches. Study of criticism and theory accompanied by writing practice. Students will write in several critical modes and build graduate level proficiency in analyzing literary issues. Prerequisite to 700-level seminars.

604. A Literary Period or Movement (3)

Prerequisites: An appropriate upper division or graduate level background course; credit or concurrent registration in English 600. Advanced study, through its literature, of a literary period such as the Renaissance, or a movement such as American Modernism. May be repeated with new content. Maximum credit six units. (Formerly numbered English 710.)

- A. American Literary Period or Movement
- B. British Literary Period or Movement
- C. Comparative Literature Literary Period or Movement

606. A Literary Type (3)

Prerequisite: Credit or concurrent registration in English 600. Advanced study of a specific literary genre, such as the novel, tragic drama, lyric poetry, the personal essay, autobiography. May be repeated with new content. Maximum credit six units. (Formerly numbered English 730.)

- A. American Literary Type
- B. British Literary Type
- C. Comparative Literature Literary Type

624. British Literature (3)

Prerequisite: Twelve upper division units in English. Selected works of an author, period, or subject in English literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

625. American Literature (3)

Prerequisite: Twelve upper division units in English, with courses in American literature strongly recommended. Selected works of an author, period, or subject in American literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

626. Comparative Literature (3)

Prerequisite: Twelve upper division units in English, comparative literature, or a foreign language literature. Comparative approaches to literature: study of a theme, geographical region, external relationship, or of selected authors. May be repeated with new content. Maximum credit six units.

630. Form and Theory of Poetry (3)

Prerequisite: Twelve upper division units in English. Poetry as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in Creative Writing.

631. Form and Theory of Fiction (3)

Prerequisite: Twelve upper division units in English. Fiction as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in Creative Writing.

680. Poetry Writing (3)

Prerequisites: English 580 and at least 12 units in upper division and graduate English courses. Strongly recommended: English 570 and/or 630. Writing original poetry; guided practice in various forms and techniques. May be repeated with new content. Maximum credit six units applicable to a master's degree.

681. Fiction Writing (3)

Prerequisites: English 581W and at least 12 units in upper division and graduate English courses. Strongly recommended: English 571, 578, and/or 631.

Writing original fiction. Students may emphasize short story, novel, or a combination. Guided practice in narrative techniques. May be repeated with new content. Maximum credit six units applicable to a master's degree.

689. Advanced Tutorial in Creative Writing (3)

Prerequisite: English 680 or 681. Class sessions and individual consultations in creative writing. May be repeated with new content. Maximum credit six units applicable to a master's degree. (Formerly numbered English 642.)

696. Special Topics (3)

Prerequisite: Twelve upper division units in English. Intensive study in specific areas of English. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 526, 549, or 696 applicable to a 30-unit master's degree.

700. Seminar: A Major Author or Authors (3)

Prerequisites: English 600 and 602. Critical study of a major author or authors such as Shakespeare, Emily Dickinson, Charles Dickens, Virginia Woolf, Edith Wharton, Marcel Proust, and others. May be repeated with new content. Maximum credit six units.

709. Seminar in Teaching of Creative Writing (3)

Prerequisite: English 509. Techniques for teaching and evaluation of written work in major genres, focusing on fiction and poetry. Theories of creativity and major genres.

724. Seminar: Issues in British Literature (3)

Prerequisites: English 600 and 602. Advanced study of issues within the development of the novel in Great Britain colonial literatures in English, the British lyrical tradition and others. May be repeated with new content. Maximum credit six units.

725. Seminar: Issues in American Literature (3)

Prerequisites: English 600 and 602. Advanced study of such issues in regionalism, ethnicity, the urban experience, gender, the political novel in American literature. May be repeated with new content. Maximum credit six units.

726. Seminar: Issues in Comparative Literature (3)

Prerequisites: At least two courses selected from English 600, 601, and 602.

Advanced study of an issue such as translation, negritude, poetic language, or literature and censorship. May be repeated with new content. Maximum credit six units.

730. Seminar: Perspectives in Critical Analysis (3)

Prerequisites: English 600 and 602. Advanced study of analytical perspectives such as contemporary literary theory, feminist poetics, canon and exclusion, literature and other arts, literature and other disciplines.

741. Seminar in Classical Rhetoric and Composition (3)

Selected major works on rhetoric, from antiquity to the nineteenth century. Relationship between the rhetorical tradition and modern approaches to the teaching of writing and literature.

742. Seminar in Modern Rhetoric and Composition (3)

Twentieth century rhetoric: composition theory, reading theory, psycholinguistics, sociolinguistics, language philosophy, and literary theory. Relationship between rhetorical theory and modern approaches to teaching of writing and literature.

744. Seminar: Issues in Rhetorical Theory and Practice (3)

Prerequisites: English 600 and 602. Problems in the teaching of rhetoric and writing, both practical and theoretical. Advanced study of topics such as teaching practices, genres, stylistics, or a major figure. May be repeated with new content. Maximum credit six units. (Formerly numbered English 740.)

745. Advanced Seminar: Research Methods in Rhetoric and Writing (3)

Prerequisites: English 741 or 742 and 744. Research methods and critical approaches common to advanced graduate study of rhetoric and writing, with attention to basic reference works, scholarly journals, bibliographical techniques. Recommended for students planning a thesis within the rhetoric and writing emphasis. (Formerly numbered English 743.)

780. M.F.A. Seminar: Poetry (3)

Prerequisite: English 680; open only to students admitted to M.F.A. in Creative Writing.

Advanced poetry writing for M.F.A. candidates. Students will be expected to do considerable work on a collection of poems in progress, as well as to participate in critiques of others' work. May be repeated with new content. Maximum credit six units applicable to the M.F.A. degree in Creative Writing.

781. M.F.A. Seminar: Fiction (3)

Prerequisite: English 681; open only to students admitted to M.F.A. in Creative Writing.

Fiction writing for M.F.A. candidates. Emphasis on forms of short fiction. May be repeated with new content. Maximum credit six units applicable to the M.F.A. degree in Creative Writing.

783. M.F.A. Seminar: Novel (3)

Prerequisites: English 583 and 681; open only to students admitted to the M.F.A. in Creative Writing.

Novel writing for M.F.A. candidates. Students will be expected to do considerable work on a novel in progress, as well as participate in critiques of others' work. May be repeated with new content. Maximum credit six units applicable to the M.F.A. in Creative Writing.

789. Directed Writing for M.F.A. Students (3)

Prerequisite: English 780, or 781, or 783 and advancement to candidacy for the M.F.A. in Creative Writing.

Directed, individual practice in a particular genre or problem in writing with emphasis on critical evaluations and revision within problem areas of the students' work.

796. Internship (3) Cr/NC

Prerequisites: Advancement to candidacy for the Masters of Arts degree in English and Comparative Literature or admission to the Master of Fine Arts program and consent of the graduate adviser and supervising professor.

Work experience with a practicing professional or company in the community, such as working as editorial assistant or teacher intern.

797. Thesis Research (3)

Prerequisite: Advancement to candidacy in the M.F.A. degree in Creative Writing.

Independent work in general field of candidate's thesis project.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Family Studies and Consumer Sciences

In the College of Professional Studies and Fine Arts

OFFICE: Family Studies and Consumer Sciences 102

Faculty

Carolyn K. Balkwell, Ph.D., Professor of Family Studies and Consumer Sciences
Gwen C. Cooke, Ph.D., Professor of Family Studies and Consumer Sciences
Francine Deutsch, Ph.D., Professor of Family Studies and Consumer Sciences, Director of School
Dorothy W. Hewes, Ph.D., Professor of Family Studies and Consumer Sciences
Ronald V. Josephson, Ph.D., Professor of Family Studies and Consumer Sciences
Joan L. Martin, Ed.D., Professor of Family Studies and Consumer Sciences
Helen Warren Ross, Ph.D., Professor of Family Studies and Consumer Sciences (Graduate Adviser, Child Development)
Audrey A. Spindler, Ph.D., R.D., Professor of Family Studies and Consumer Sciences (Graduate Adviser, Nutritional Sciences)
Jane L. Hoover-Plow, Ph.D., R.D., Associate Professor of Family Studies and Consumer Sciences
Kathleen F. Mikitka, Ph.D., Associate Professor of Family Studies and Consumer Sciences
Michele W. Chadwick, Ph.D., Assistant Professor of Family Studies and Consumer Sciences
Jill R. Ellis, Ph.D., R.D., Assistant Professor of Family Studies and Consumer Sciences
Michael J. Kelley, Ph.D., R.D., Assistant Professor of Family Studies and Consumer Sciences
Rebecca J. Matheny, Ph.D., R.D., Assistant Professor of Family Studies and Consumer Sciences
Nancy K. Murray, Ph.D., Assistant Professor of Family Studies and Consumer Sciences

Assistantships

Graduate teaching assistantships and graduate assistantships in child development, home economics and nutritional sciences are available to a limited number of qualified students. Application blanks and additional information may be secured from the Director, Family Studies and Consumer Sciences.

General Information

Family Studies and Consumer Sciences, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Science degree in Child Development and the Master of Science degree in Nutritional Sciences. A limited number of graduate assistantships, primarily to aid instruction of the upper division, undergraduate laboratory courses, and to facilitate faculty research efforts are available.

Master of Science Degree in Child Development

General Information

The School of Family Studies and Consumer Sciences offers graduate coursework and research experience leading to a Master of Science degree in Child Development. The general program of study may include coursework in life-span development, early intervention, administration and program evaluation for human development services, and family violence with research directed toward one of those areas. The Institute for the Study of Family Violence provides opportunities to conduct research under the supervision of the graduate faculty who work with

programs that affect multicultural populations such as Afro-American, American Indian, Asian, and Hispanic families, children in foster care, special needs and gifted children, victims of child abuse, abusive parents, and the homeless. In addition, the Interdisciplinary Training Program on Early Intervention offers students internships with transdisciplinary teams in hospitals, schools, and agency settings. Other off-site internships offer students research opportunities and supervised work in community agencies, child development programs, family services, and hospitals. On-site internships can be completed at the SDSU Child Study Center which admits developmentally delayed and physically handicapped children (infants, toddlers, and preschoolers) in conjunction with the City and County Schools which enables students to observe, work, and conduct research.

Graduates with the M.S. degree in Child Development can continue their education for the doctoral degree in Human Development or a related field or are employed as administrators, coordinators, or service providers of diverse community programs that include child care, employer sponsored day care, battered women's shelters, foster care, drug rehabilitation, hospice centers, administrative program evaluators, children's social workers, case managers, child life specialists, family life specialists, and community college instructors.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, the student must have a bachelor's degree in home economics or a related field, and satisfy the prerequisites of the courses selected. If a student's undergraduate preparation is deemed insufficient, the student will be required to complete specified courses in addition to the minimum of 30 units required for the master's degree in child development. The student must have a grade point average of 3.0 in the last 60 semester units attempted, and a minimum score of 950 on the GRE General Test (combined verbal and quantitative). The applicant must submit a letter to the area adviser stating reasons for choosing graduate work at San Diego State University, professional goals, special interests in the discipline, and background preparation. The student must be recommended for admission by graduate faculty of Family Studies and Consumer Sciences and approved by the Dean of the Graduate Division and Research.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Child Development

(Major Code: 08231)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units including at least 24 units from courses listed as acceptable to master's degree programs in child development. At least 18 units must be in 600- and 700-numbered courses.

Students must complete a core sequence of four courses: Family Studies and Consumer Sciences 670, 671, 790 and Psychology 570 or Public Health 602. Recommended electives to be approved by the program adviser include Family Studies and Consumer Sciences 536, 537, 570, 577, 579, 596, 631, 634, 637, 697. All students will be expected to include Family Studies and Consumer Sciences 799A, Thesis.

Master of Science Degree in Nutritional Sciences

General Information

The School of Family Studies and Consumer Sciences offers graduate coursework and research experience leading to a Master of Science degree in Nutritional Sciences. The general program of study may include coursework in human nutrition, food science and food systems management with research directed toward one of those areas. Research activity of the faculty currently includes: nutritional status of children and elders; metabolic studies on cholesterol, Vitamin B-6, and energy balance; and factors affecting human lactation, body composition and obesity, athletic performance and fitness, composition of human milk and composition and stability of foods. Laboratories, including animal facilities and equipment, at SDSU support research conducted under the direct supervision of the nutritional sciences graduate faculty. In addition, students may conduct research at other facilities in the community in conjunction with collaborative studies pursued by nutritional sciences faculty and researchers at other institutions in San Diego.

Graduates with the M.S. degree in Nutritional Sciences are employed as clinical and administrative dietitians, administrators or service providers of community nutrition programs, food service supervisors, and community college educators, as well as, in administrative, research, or quality control positions within industry and government.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the university with classified graduate standing as described in Part Two of this bulletin. In addition, the student must have a bachelor's degree in foods and nutrition or a related field and satisfy the prerequisites of the courses selected. A course in computer and data processing (e.g., FSCS 207 or equivalent) taken as a part of the student's undergraduate work or

demonstrated proof of competency in computers and data processing, as approved by the nutrition graduate adviser, is required as a prerequisite to taking program coursework. If a student's undergraduate preparation is deemed insufficient, the student will be required to complete specified courses in addition to the minimum of 30 units required for the master's degree in nutritional sciences. The student must have a grade point average of 3.0 in the last 60 semester units attempted, and a minimum score of 950 (combined verbal and quantitative) on the GRE General Test. The applicant must submit a letter stating reasons for choosing graduate work at San Diego State University, professional goals, special interests in the discipline, and background preparation. The student must be recommended for admission by faculty of Family Studies and Consumer Sciences and approved by the Dean of the Graduate Division and Research.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin, and have identified a thesis research adviser.

Specific Requirements for the Master of Science Degree in Nutritional Sciences

(Major Code: 13061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units including at least 21 units from courses listed as acceptable to the master's degree program in nutritional sciences. At least 18 units must be in 600- and 700-numbered courses.

Required courses include six units selected from Family Studies and Consumer Sciences 605, 606, 607, 608, 609; three units selected from

Family Studies and Consumer Sciences 600 and 700; Family Studies and Consumer Sciences 790; and one unit of Family Studies and Consumer Sciences 791. All course selections for the graduate program must be approved by the nutritional sciences graduate adviser.

In Plan A, all students will include Family Studies and Consumer Sciences 799A, Thesis.

In Plan B, students will (a) pass a comprehensive examination; and (b) complete Family Studies and Consumer Sciences 797, Research. Reservations must be made six weeks in advance of the examination, which is given mid-semester.

Courses Acceptable on Master's Degree Programs in Child Development and Nutritional Sciences

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

508. Advanced Food Systems Management (3)
Prerequisite: Family Studies and Consumer Sciences 404.
Analysis of current topics in food systems management. Application of management principles in individual special projects.

510. Nutrition and Community Health (3)
Two lectures and three hours of activity.
Prerequisites: Family Studies and Consumer Sciences 302 and 302L.
Nutritional problems in the community with consideration of their resolution. Field placement experience required.

520. Clothing and Human Behavior (3) II
Prerequisites: Family Studies and Consumer Sciences 217; Psychology 101; Sociology 101; Economics 201 or Psychology 270 or Sociology 201. **Proof of completion of prerequisites required:** Grade report or copy of transcript.
Concepts and theories of human behavior as they apply to clothing usage. Significance of impressions of individuals that result from their attire in the dynamics of social interaction of contemporary Western societies.

536. Family Study (3)
Prerequisites: Family Studies and Consumer Sciences 335 and Sociology 101.
Dynamics of family living; attitudes, practices, social and psychological interaction and family life patterns in different cultures, social classes and ethnic groups.

537. Child Abuse (3)
Prerequisite: Family Studies and Consumer Sciences 437 for majors; completion of the General Education requirement in Explorations for non-majors; consent of instructor for graduate students.
A multidisciplinary approach to child abuse including study of child maltreatment and mistreatment, child neglect, and sexual abuse.

541. Consumer Interest (3) II
Prerequisite: Family Studies and Consumer Sciences 240 or 440.
Analysis of consumer legislation, consumer information and consumer protection programs.

570. Infant/Toddler Development (3) I, II
Prerequisites: Family Studies and Consumer Sciences 270 or Psychology 330; Psychology 260. Recommended: Biology 350.
Physiological, psychological, social and cultural development of the human organism from birth through three years of age.

577. Advanced Administration of Child Development Programs (3) II
Prerequisite: Family Studies and Consumer Sciences 477.
Problems of organization in conducting programs for young children; interrelationships of staff; personnel practices; communication with teaching staff, parents, and community; records and reports.

578. Parent-Child Relationships Across the Life Span (3)

Prerequisites: Family Studies and Consumer Sciences 335 and 370.
Multidisciplinary approach to the parent-child relationship as it continues and changes throughout the life of the dyad, including study of normative and nonnormative life events.

579. Advanced Child Study (3)

Prerequisite: Nine units in child development courses.
Physical, social, and psychological factors that determine the direction of child behavior. Readings and interpretations of scientific literature that contribute to an understanding of theories of human development.

580. Program Evaluation for Human Development Services (3) I

Prerequisite: Twelve units in the child development major.
Principles of human development services program evaluation to enhance management and the quality of services to children and their families.

590. Developmental Dysfunctions (3) II

Prerequisites: Family Studies and Consumer Sciences 270 or Psychology 330, and twelve upper division units in family studies and consumer sciences.

Adaptive and maladaptive processes throughout the life span with emphasis on emotional, psychological, and physical childhood disorders. Etiology, development, and adjustment to these disorders.

596. Advanced Studies in Family Studies and Consumer Sciences (1-6)

Prerequisite: Nine upper division units in family studies and consumer sciences.

Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

597. Child Development and Family Studies Field Experiences (1) I, II

Prerequisites: Twelve units in the child development major and concurrent registration in Family Studies and Consumer Sciences 597L.
Developmental theories and techniques in child development. (Formerly numbered Family Studies and Consumer Sciences 439.)

597L. Child Development and Family Studies Field Experiences Laboratory (2) I, II

Prerequisites: Twelve units in the child development major and concurrent registration in Family Studies and Consumer Sciences 597.
Directed experiences in the practical application of developmental theories and techniques in various community agencies. (Formerly numbered Family Studies and Consumer Sciences 439.)

GRADUATE COURSES GENERAL

697. Advanced Field Experiences (3) Cr/NC

Prerequisite: Family Studies and Consumer Sciences 670 or 671.
Advanced application of human developmental theories and techniques in various community settings. (Formerly numbered Family Studies and Consumer Sciences 576.)

790. Research Methods (3)

Prerequisite: Approval of graduate program adviser.
Analysis of research in the area of family studies and consumer sciences; criteria and procedures for conducting research.

791. Research Seminar (1)

Prerequisite: Consent of graduate faculty.
Discussion of current research by students, faculty and visiting scientists. Each student will participate and presentations will be based on current literature and research projects. Maximum credit three units applicable to a master's degree.

797. Research (3) Cr/NC/SP

Prerequisites: Family Studies and Consumer Sciences 790 and approval of graduate program adviser.

Research in one of the areas of family studies and consumer sciences. Completion of Plan B Project.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with the director and instructor and approval of graduate program adviser.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University, also student must be registered in the course when the completed thesis is granted final approval.

CHILD DEVELOPMENT

631. Family Life and Sex Education (3)

Prerequisite: Six upper division units in child development and family relations.

Content, resources and alternative methods of presentation of family life and sex education for schools, colleges, churches and social agencies.

634. Seminar: Marriage Adjustment (3)

Prerequisite: Family Studies and Consumer Sciences 335.

Individual study, seminar reports, and group discussion of selected topics in marriage adjustment.

637. Child Sexual Abuse (3)

Prerequisite: Family Studies and Consumer Sciences 537.

Theory and method of child sexual abuse from ecological, societal, familial, developmental, and intrapersonal perspectives. Study of social policy and prevention.

670. Seminar: Child Development and Guidance (3)

Prerequisite: Six upper division units in family studies and consumer sciences.

Emphasis on personality theories and on research and clinical findings relevant to systematic study of human development and the guidance of children.

671. Seminar in Advanced Readings in Human Development (3)

Prerequisite: Six upper division units in family studies and consumer sciences.

Analysis of selected research in human development.

NUTRITIONAL SCIENCES

600. Seminar: Foods and Nutrition (3)

Prerequisites: Family Studies and Consumer Sciences 301 and 302.
Introductory seminar of research and research publications in foods and nutrition.

605. Assay for Nutrients in Foodstuffs and Tissues (3)

Two lectures and three hours of laboratory.
Prerequisites: Family Studies and Consumer Sciences 301 and 302.
Determination of energy values, organic nutrients, and minerals in foodstuffs and tissues by chemical, biological, and microbiological methods.

606. Physiological Bases of Diet Therapy (3)

Prerequisite: Family Studies and Consumer Sciences 406. Recommended: Chemistry 361B or 560B.

Biochemical and/or physiological lesions in pathological states and modifications of diet that should accompany medical treatment to prevent or alleviate patient symptoms.

607. Child Nutrition (3)

Prerequisite: Family Studies and Consumer Sciences 302.

Nutrition, health, and biochemical growth in children. Conditions leading to malnutrition, prevention, and correction.

608. Geriatric Nutrition (3)

Prerequisite: Family Studies and Consumer Sciences 302.
Biomedical and psychosocial aspects of aging that affect food habits, nutritional status, nutrient needs and dietary management of chronic disease states in the elderly.

609. Advanced Studies: Food Proteins (3)

Prerequisites: Family Studies and Consumer Sciences 302 and 405.
Availability, composition, structure, and physical chemical properties of conventional and new food proteins and protein-based products; methods of analysis; nutrition evaluation; processing-induced changes; and food project functionality.

700. Seminar in Nutrition (3)

Prerequisite: Family Studies and Consumer Sciences 302.
Reading and analysis of basic and applied research in nutrition.

French

In the College of Arts and Letters

Faculty

Alvord G. Branan, Ph.D., Professor of French
Thomas J. Cox, Ph.D., Professor of French
Janis M. Glasgow, Ph.D., Professor of French (Graduate Adviser)
Edith J. Benkov, Ph.D., Associate Professor of French, Chair of Department
Laurie D. Edson, Ph.D., Associate Professor of French
James L. Schorr, Ph.D., Associate Professor of French
JoAnne Cornwell-Giles, Ph.D., Assistant Professor of French

Assistantships

Graduate teaching assistantships in French are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of French and Italian Languages and Literatures, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in French.

The faculty in charge of the graduate program in French is composed of professors whose native tongue is French, or who have studied and traveled extensively in France and in other French-speaking areas, enabling them to represent authoritatively the French language and culture. Research areas of the graduate faculty cover all periods of French literature as well as French linguistics. In particular, the department includes specialists on Louise Labé, Racine, Justus van Effen, Flora Tristan, George Sand, and in fields such as Romanticism, modern French poetry, theatre, Francophone literature, novel, and applied French linguistics. The library collection provides up-to-date research resources—books, periodicals, microfilms and video materials in all of these areas. A foreign language laboratory with modern equipment is available to both undergraduate and graduate students.

Admission to Graduate Study

The student must satisfy the general requirements for admission to the University with classified standing, as described in Part Two of this bulletin. In addition, the student must satisfy the following requirements: (1) an undergraduate major in French, or its equivalent, including 24 upper division units, at least six units of which must be in a survey course in French literature; (2) a GPA of 3.0 (on a 4-point scale) in all upper division French courses; (3) three letters of recommendation from professors, at least two of which should be from professors of French at the institution where the degree was granted.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin, and students will be required to pass a qualifying examination in French given by the Department of French and Italian.

Specific Requirements for the Master of Arts Degree

(Major Code: 11021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units which includes a major consisting of at least 24 units in

OFFICE: Library East 326
TELEPHONE: (619) 594-6491

French, of which at least 18 units must be in 600- and 700-numbered courses in French, including French 799A, Thesis, for those following Plan A.

Students, with the consent of the graduate adviser, may elect Plan A, which includes French 799A, Thesis, or Plan B, which includes a written comprehensive examination in lieu of the thesis.

Courses Acceptable on Master's Degree Programs in French

Related courses (500 and graduate level) in other departments may be taken for a total of six units credit with prior approval of the Graduate Adviser.

UPPER DIVISION COURSES

501. Translation (3)

Prerequisite: French 302.
Stylistic comparison of French and English through translation of a variety of prose styles from English to French and from French to English.

521. Seventeenth Century French Literature (3)

Prerequisites: French 302 and either 305A or 305B.
Major authors of the seventeenth century.

531. Eighteenth Century French Literature (3)

Prerequisites: French 302 and either 305A or 305B.
Major eighteenth century writers of fiction, with emphasis on Voltaire, Diderot and Rousseau.

541. Nineteenth Century French Novel (3)

Prerequisites: French 302 and either 305A or 305B.
Major novelists of the nineteenth century.

543. Modern French Theatre (3)

Prerequisites: French 302 and either 305A or 305B.
Major dramatists of modern France.

545. Modern French Poetry (3)

Prerequisites: French 302 and either 305A or 305B.
Representative French poets of the modern era.

551. Twentieth Century French Novel (3)

Prerequisites: French 302 and either 305A or 305B.
Major novelists of twentieth century France.

560. Applied French Linguistics (3)

Prerequisites: French 302 and 401.
Phonemics, morphemics, syntax and semantics of present day French. Taught in English. (Formerly numbered French 431.)

561. Methods in Teaching French as a Second Language (3)

Prerequisite: French 560.
Teaching of French as a second language; contemporary theory and methods. Not open to students with credit or concurrent enrollment in Spanish 561. Taught in English.

596. Topics in French Studies (1-4)

Prerequisite: French 302.
Topics in French language, literature and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

621. Critical Methods (3)

Prerequisite: Eighteen upper division units in French.
Methods and theories of critical analysis and their application to the works of a major French author or literary genre.

696. Topics in French Studies (3)

Prerequisite: Eighteen upper division units in French.
Intensive study in specific areas of French. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

701. Seminar in Medieval French (3)

Prerequisite: Eighteen upper division units in French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

711. Seminar in Literature of the French Renaissance (3)

Prerequisite: Eighteen upper division units in French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

721. Seminar in Seventeenth Century French Literature (3)

Prerequisite: Eighteen upper division units in French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

731. Seminar in Eighteenth Century French Literature (3)

Prerequisite: Eighteen upper division units in French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

741. Seminar in Nineteenth Century French Literature (3)

Prerequisite: Eighteen upper division units in French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

751. Seminar in Twentieth Century French Literature (3)

Prerequisite: Eighteen units of upper division French.
Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

761. Seminar in Francophone Literatures (3)

Prerequisite: Eighteen units of upper division French.
Works by noncontinental French authors. Connections among literature, politics, and cultural identity. Critical responses examined in terms of their cultural relativity and relationship to French literary tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Advancement to candidacy and approval of graduate adviser.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Geography

In the College of Arts and Letters

OFFICE: Nasatir Hall 233
TELEPHONE: (619) 594-5437

Faculty

Lawrence R. Ford, Ph.D., Professor of Geography
Ned H. Greenwood, Ph.D., Professor of Geography
Ernst C. Griffin, Ph.D., Professor of Geography, Chair of Department
Warren A. Johnson, Ph.D., Professor of Geography
David S. McArthur, Ph.D., Professor of Geography
Bob R. O'Brien, Ph.D., Professor of Geography
Philip R. Pryde, Ph.D., Professor of Geography
Imre E. Quastler, Ph.D., Professor of Geography
Frederick P. Stutz, Ph.D., Professor of Geography
Richard D. Wright, Ph.D., Professor of Geography
Edward Aguado, Ph.D., Associate Professor of Geography (Graduate Adviser)
Barbara E. Fredrich, Ph.D., Associate Professor of Geography
Allen S. Hope, Ph.D., Associate Professor of Geography
John F. O'Leary, Ph.D., Associate Professor of Geography
Douglas A. Stow, Ph.D., Associate Professor of Geography
Stuart C. Aitken, Ph.D., Assistant Professor of Geography
Janet Franklin, Ph.D., Assistant Professor of Geography

Assistantships

Graduate teaching assistantships and graduate research assistantships in geography are available to highly qualified students. Applications and additional information may be secured from the department. The deadline for submitting applications for teaching assistantships or research assistantships is March 15. Applications for assistantships must include transcripts, three letters of recommendation, and Graduate Record Examination (GRE) scores.

Doctoral Program

A new Ph.D. program in geography offered jointly with the University of California, Santa Barbara, is awaiting final approval by the universities and State funding. The department anticipates the first students will be admitted for 1991-92. The program will offer work in the following areas (Group A) with supporting development of skills in spatial techniques (Group B) as follows:

Systematic Areas (Group A)

Human Geography: Spatial behavior; comparative urbanization; urban structure and transportation.

Environmental Geography: Natural resources management and policy.

Physical Geography: Biogeography; physical and hydroclimatology; coastal processes.

Spatial Techniques (Group B)

Remote sensing and image processing; geographic information systems and computer cartographics; quantitative spatial analysis.
For further information contact the department.

General Information

The Department of Geography, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Geography. In addition to the standard program, it is possible to pursue a concentration in either conservation of environmental quality or transportation.

The Master of Arts degree is designed to provide advanced training for (a) students who plan to terminate their graduate studies at the master's level, and (b) those who anticipate additional work leading to the doctoral degree in geography or related fields.

Research and instructional facilities provided by the Department of Geography include an excellent map library, a research center, laboratories for physical geography, soils, cartography, meteorology, GIS, and remote sensing and aerial interpretation and equipment for field studies. The Social Science Research Laboratory provides specialized data collections in the social sciences and a well equipped data processing center.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified standing as described in Part Two of this bulletin. Normally to be considered for admission to graduate study, the department requires a minimum grade point average of 3.0 in the last sixty units taken as an undergraduate and a minimum combined score of 1000 on the verbal and quantitative sections of the Graduate Record Examination (GRE). Candidates whose preparation is deemed insufficient by the graduate advising committee will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for candidacy, as stated in Part Two of this bulletin. In addition, the student must submit a written thesis proposal to the department and make an oral defense of the approved proposal to the department.

Specific Requirements for the Master of Arts Degree

(Major Code: 22061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected with the approval of the Graduate Advising Committee.

Standard Program

Students electing the standard geography program must complete at least 30 units, of which at least 24 units shall be selected from courses in geography listed below as acceptable on master's degree programs. The student's program must include a minimum of 18 units in 600- and 700-numbered geography courses including Geography 700 and 701.

Students must follow Plan A option which requires the writing of a thesis under Geography 799A as part of the program. Plan B is not an available option.

Concentration in Conservation of Environmental Quality

The requirements for students electing a concentration in conservation of environmental quality are as follows:

1. A minimum of 30 units, including 18 units of 600- and 700-numbered courses.
2. Geography 670, 700, 701, and 770.
3. Twelve units of courses numbered 500 or above as approved by the Geography Department Graduate Advising Committee. A maximum of nine of these units may be in departments other than Geography.
4. Three units of 700-level independent study in a department and on a subject approved by the Graduate Advising Committee. Geography 595, Geographic Internship, may be included.

5. Geography 799A Thesis (3) Cr/NC/SP.
6. A student should have completed a quantitative methods course prior to initiating the program, or take Geography 585, Quantitative Methods in Geographic Research (3), or an equivalent course, concurrently.

Concentration in Transportation

The requirements for students electing a concentration in transportation are as follows:

1. A minimum of 30 units including 15 units of 600- and 700-numbered courses.
2. Geography 658, 700, 701, and at least nine additional units to be taken from 500- and 600-level geography courses, as approved by the Graduate Advising Committee.
3. At least six units selected from:
Civil Engineering 620 Traffic Engineering (3)
Civil Engineering 622 Mass Transit Engineering (3)
Civil Engineering 781 Seminar in Transportation Engineering (2 or 3)
City Planning 730 Seminar in Urban Transportation Planning (3)
Geography 798 Special Study (3) Cr/NC/SP

Graduate or 500-level courses in other departments that are not listed above may be taken if approved by the Graduate Advising Committee.

4. Geography 595 Geographic Internship (3)
(Must be in approved transportation activity.)
5. Geography 799A Thesis (3) Cr/NC/SP.
6. A student should have completed a quantitative methods course prior to initiating the program, or take Geography 585, Quantitative Methods in Geographic Research (3), concurrently.

Courses Acceptable on Master's Degree Programs in Geography

UPPER DIVISION COURSES

504. Coastal and Submarine Physiography (3)

Prerequisite: Geography 378 or 401.

Analysis of marine waves, of their modification in shallow waters, of coastal currents and tides. Interpretation of coastal and submarine relief in relation to environmental processes and their modification by man. Field trips may be arranged.

505. Geography of Soils (3) II

Prerequisite: Geography 101.

The nature, properties and distribution of soils and their relationships to the influence of climates, landforms, and human activity. Field trips may be arranged.

507. Geography of Natural Vegetation (3) I, II

Prerequisite: Geography 101.

The natural vegetation associations of the world, their distribution, classification and development, including relationship to human activities. Field trips may be arranged.

508. Physical Climatology (3) I

Prerequisites: Geography 103; Mathematics 121 or 150.

Physical processes of energy transfer to and from the atmosphere. Solar and thermal radiation, turbulent heat transfer, soil heat transfer, global distributions of energy balance components, and bioclimatology.

509. Regional Climatology (3) II

Prerequisite: Geography 103.

The causes of climatic types as they occur throughout the world. Principles of several climatic classifications.

510. Advanced Meteorology (3) II

Prerequisites: Geography 103; Mathematics 121 or 150.

Physical characteristics of the atmosphere including thermodynamics, moisture and condensation, atmospheric aerosol, and cloud processes.

511. Hydroclimatology (3)

Prerequisites: Geography 101 or 103; Mathematics 121 or 150; Physics 180A or 195.

Hydrologic cycle, energy and mass fluxes from the earth to the atmosphere and land-atmosphere interactions. Agricultural and hydrologic significance of spatial variability of energy and mass fluxes.

540. Regional Geography (3)

Prerequisite: At least one upper division course in the subject region. Intensive study of a major country or subregion. May be repeated with different course content for a maximum of six units. See Class Schedule for specific content.

545. Arid Lands (3)

Prerequisites: Geography 101 and 370; Biology 100 or 200B.

Physical geography and human use of arid lands. Traditional and modern land use systems in context of technological and economic development. Environmental and social impacts of development including desertification.

554. World Cities: Comparative Approaches to Urbanization (3) II

Prerequisite: Geography 354.

Worldwide trends in urbanization. Case studies of selected cities from various culture areas with focus on international variations in city structure and urban problems.

555. Historic Preservation and Urban Design (3)

Prerequisite: Geography 102.

Processes of growth and change in cities. Techniques of preserving, renovating, rehabilitating, and recycling valued buildings and neighborhoods. International comparisons of preservation policies and practices and analyses of urban patterns resulting from them.

556. Location and Spatial Structure of Cities (3)

Prerequisite: Geography 354 or three units of upper division coursework in a related field.

Principles and characteristics of urban growth and settlement; the internal structure and functioning of urban centers; spatial models of urban land use; growth management, transportation problems, and sociopolitical urban problems. Field trips may be arranged.

558. Intermediate Transportation Geography (3)

Prerequisite: Geography 358 or 559.

Topics in the spatial analysis of transportation, e.g., spatial interaction patterns, diffusion process, models in spatial analysis. Field trips may be arranged.

559. Urban Transportation Geography (3)

Prerequisite: Three units of upper division urban or transportation coursework in geography or related field.

Urban transportation networks and their effects, past, present and future, on the economy and physical structure of the urban region. Field trips may be arranged.

560. Behavioral Geography (3)

Prerequisites: Geography 102, Psychology 101, and Geography 385 or Psychology 270.

Contemporary behavioral theories and methods in human geography. Environmental perception and spatial behavior. Problems of empirical research.

569. Environmental Resource Conservation (3)

Prerequisite: Geography 370.
Management of environmental and natural resources. Effective programs and the institutional frameworks in which they occur.

571. Energy Resources and the Environment (3)

Prerequisite: Geography 370. Recommended: Physics 107 or 301.
Location and distribution of conventional and renewable energy resources, their environmental effects, and policy questions regarding future development and use of energy resources.

572. Land Use Analysis (3)

Prerequisite: Geography 370.
Problems of maintaining environmental quality in the process of land conversion from rural to urban uses with emphasis on land capability and suitability studies. Field trips may be arranged. (Formerly numbered Geography 570.)

573. Geography as Human Ecology (3)

Prerequisite: Geography 370.
Human ecology related to resource geography. Field trips may be arranged.

574. Water Resources (3) I

Prerequisite: Geography 370.
Occurrence and utilization of water resources and the problems of water resource development. Field trips may be arranged.

575. Geography of Recreational Land Use (3) I, II

Prerequisite: Geography 101 or 102.
Importance of location and environment in the use, management, and quality of recreation areas. Field trips may be arranged.

576. Geography of Marine Resources (3)

Prerequisite: Geography 101 or 102.
Spatial distribution, use, and management of marine resources. Field trips may be arranged.

577. Geography of the National Parks (3)

Prerequisite: Geography 370.
Human and land relationships in the national parks of the United States. Emphasis on problems arising from the preservation and use mandate under which parks are managed.

581. Intermediate Cartography (3)

Two lectures and three hours of laboratory.
Prerequisite: A three-unit course on mapping.
Advanced laboratory instruction and practice in cartographic techniques including computer-mapping applications.

582. Automated Cartography (3)

Two lectures and three hours of laboratory.
Prerequisite: Three units from Geography 380, 381, 382, 385, 488, or 585, or in computer programming.
Computerized methods of graphically presenting and analyzing spatial data; examination of existing automated mapping systems.

583. Geographic Information Systems (3)

Two lectures and three hours of laboratory.
Prerequisite: Three units from Geography 380, 381, 382, 488, 585, or 589, or from computer programming.
Procedures for encoding, storage, management, and display of spatial data; theory of computer-assisted map analysis; examination of important geographic information systems.

585. Quantitative Methods in Geographic Research (3)

Prerequisite: Geography 385.
Application of statistical techniques to geographic research including simple regression and correlation, multiple regression, classification, factor analysis, and computer applications.

588. Intermediate Remote Sensing of Environment (4) II

Three lectures and three hours of laboratory.
Prerequisites: Geography 488 and 585.
Multispectral remote sensor systems and interpretation of imagery selected world cities. Research component relates urbanization theories to cultural content. May be repeated. See Class Schedule for specific content. Maximum credit six units.

589. Field Geography (3) II

Two lectures and three hours of laboratory.
Prerequisites: Senior or graduate standing and the completion of at least 12 units in geography, including Geography 101 and 102, and consent of instructor.

Field techniques for data acquisition: interviewing, landscape interpretation, environmental analysis, use of topographic maps, land use mapping, surveying, climatological instrumentation, landform analysis, soil and vegetation sampling.

595. Geographic Internship (3) I, II

Prerequisites: Six upper division units in geography and consent of instructor.

Students will be assigned to various government agencies and industries and will work under the joint supervision of agency heads and the course instructor. Maximum credit six units. (Formerly numbered Geography 795.)

596. Advanced Topics in Geography (1-3)

Prerequisite: Six units in upper division geography.
Advanced special topics in geography. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

604. Coastal Morphodynamics (3)

Prerequisite: Geography 504.
Analysis of ocean waves including shallow water transformations, tides, coastal currents and sediment transport. Geomorphic response to ocean, wind, biotic and human influences.

607. Advanced Geography of Natural Vegetation (3) II

Prerequisites: Geography 385 and 507.
Biotic and abiotic factors influencing plant distributions at various scales. Major global vegetation associations, their distributions, classification and development.

608. Advanced Physical Climatology and Meteorology (3)

Prerequisite: Geography 508 or 510.
Radiation exchange and turbulent heat transfer between the earth's surface and atmosphere. Spatial variations in the energy balance components. Thermodynamics and cloud processes.

611. Advanced Hydroclimatology (3)

Prerequisite: Geography 511.
Processes controlling flows of water through soil-plant-atmosphere system. Spatial variability of evapotranspiration and its calculation including recent developments in biophysical remote sensing and numerical modeling. Relevance to basin hydrology and agriculture.

612L. Physical Geography Laboratory (1 or 2) I, II

Three to six hours of laboratory.
Prerequisites: Concurrent registration in Geography 604, 607, 608, or 611.
Collection, preparation and manipulation of physical geographic data. May be repeated. Maximum credit three units applicable to a master's degree.

654. Topics in Comparative Urbanization (3)

Prerequisite: Geography 554.
Dynamics of urban growth and change in a variety of cultural, economic and political contexts. Case studies illustrating processes impacting selected world cities. Research component relates urbanization theories to cultural content. May be repeated. See Class Schedule for specific content. Maximum credit six units.

655. Urban Design and Preservation (3)

Prerequisite: Geography 555.
Major theories of urban form and aesthetics with emphasis on preservation and rehabilitation.

656. Internal Structure of Cities and Location Theory (3)

Prerequisites: Geography 385 and 556.
Models of city structures and their theoretical bases. Location theory and decision making in the urban context.

658. Advanced Transportation Geography (3)

Prerequisites: Geography 385, 558 or 559.
Aggregate and disaggregate models of spatial interaction with emphasis on mobility in the urban context. Analytical behavioral models of movement systems.

660. Advanced Behavioral Geography (3)

Prerequisite: Geography 560.
Recent advances in analytical behavioral geography. Spatial behavior in urban settings with emphasis on scientific and analytical approaches.

670. Environmental and Resource Conservation Theory (3)

Prerequisite: Graduate standing.
Theories and principles involved in natural and environmental resources management.

672. Advanced Land Use Analysis (3)

Prerequisite: Geography 572.
Processes of land conversion from rural to urban uses. Methods of assessing capability and suitability of land for urban purposes.

674. Advanced Water Resources (3)

Prerequisite: Geography 574.
Water resource development, organization and utilization.

676. Marine Resources (3)

Prerequisite: Geography 576.
Theories and models of marine biotic and mineral resource availability and utilization.

682. Advanced Automated Cartography (3)

Prerequisite: Geography 582.
Automated cartography in geographic problem solving. Contouring algorithms, trend surface fitting, digital elevation modeling, residual mapping.

682L. Advanced Automated Cartography Laboratory (1 or 2)

Three to six hours of laboratory.
Prerequisite: Concurrent registration in Geography 682.
Data processing and analysis in automated cartography. Applications of digitizing systems, line graphers, contouring algorithms and network analysis in cartographic modeling.

683. Advanced Geographic Information Systems (3) II

Prerequisite: Geography 583.
Geographic information systems in geographic problem solving including data structures, project designs, and vector graphics.

683L. Geographic Information Systems Laboratory (1 or 2) II

Three to six hours of laboratory.
Prerequisite: Concurrent registration in Geography 683.
Data processing and analysis in geographic information systems. Applications of overlay functions in spatial analysis.

685. Advanced Quantitative Methods in Geography (3) I

Prerequisite: Geography 585.
Statistical techniques and quantitative models applied to spatial problems. Multiple regression, discriminant analysis, factor analysis and spatial modeling.

688. Advanced Remote Sensing (3) II

Prerequisite: Geography 588.
Sensor systems, image interpretation and geographic applications in thermal infrared and microwave remote sensing. Principles of digital image processing.

688L. Advanced Remote Sensing Laboratory (1 or 2) II

Two or four hours of laboratory.
Prerequisite: Concurrent registration in Geography 688.
Processing and analysis of remotely sensed data. Laboratory training in sensor systems and digital image-processing methods including thermal infrared and microwave data analysis.

689. Advanced Field Research (1-3) Cr/NC I, II

Prerequisites: Graduate standing and consent of instructor.
Advanced techniques in field research and reporting. May be repeated with new content. Maximum credit three units applicable to a master's degree.

690. Teaching of Geography (1) I, II

Two hours of activity.
Prerequisite: Graduate standing. Required of all graduate teaching assistants.
Teaching methods in geography. Use of specialized equipment and facilities.

700. Seminar in Geographic Research Design (3)

Prerequisite: Graduate standing.
Definition of spatial problems, hypothesis formulation and testing, selection of appropriate methodology. Development of research proposals, conduct of research, written and oral presentations. (Formerly numbered Geography 600.)

701. Seminar in Development of Geographic Thought (3)

Prerequisite: Graduate standing.
Evolution of concepts concerning the nature, scope, theories, and methodologies of geography. (Formerly numbered Geography 610.)

710. Seminar in Physical Geography (3) I, II

Prerequisite: Six units of upper division or graduate level courses in physical geography.
Intensive study of an aspect of physical geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

720. Seminar in Regional Geography (3)

Prerequisite: Six units of upper division or graduate level courses in the topical area under consideration.
Intensive study of a spatial system using the regional content or regionalization methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Geography 620.)

740. Seminar in Human Geography (3) I

Prerequisite: Six units of upper division or graduate level courses in human geography.
Intensive study of a spatial aspect of human geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

750. Seminar in Urban Geography (3)

Prerequisite: Six units of upper division or graduate level courses in urban geography.
Intensive study of a spatial aspect of urban geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Geography 654.)

760. Seminar in Behavioral and Social Geography (3) II
Prerequisite: Six units of upper division or graduate level courses in behavioral or social geography.
Intensive study of a spatial aspect of behavioral or social geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Seminar in Environmental and Resource Conservation (3)
Prerequisites: Geography 670 and six units of upper division or graduate level courses in environmental or resource conservation.
Natural and environmental resource conservation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Geography 671.)

780. Seminar in Techniques of Spatial Analysis (3) II
Prerequisite: Six units of upper division or graduate level courses in spatial analytic techniques.

A specific spatial analytical technique, such as image processing, remote sensing, geographic information systems, or quantitative methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP

Research in one of the fields of geography. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Geological Sciences

Faculty

Patrick L. Abbott, Ph.D., Professor of Geological Sciences
Richard W. Berry, Ph.D., Professor of Geological Sciences
Kathe K. Bertine, Ph.D., Professor of Geological Sciences
Steven M. Day, Ph.D., The Eckis Endowed Chair in Seismology
Clive E. Dorman, Ph.D., Professor of Geological Sciences
R. Gordon Gastil, Ph.D., Professor of Geological Sciences
David Huntley, Ph.D., Professor of Geological Sciences
George R. Jiracek, Ph.D., Professor of Geological Sciences
J. Philip Kern, Ph.D., Professor of Geological Sciences, Chair of Department
C. Monte Marshall, Ph.D., Professor of Geological Sciences
Richard H. Miller, Ph.D., Professor of Geological Sciences
Gary L. Peterson, Ph.D., Professor of Geological Sciences
Thomas K. Rockwell, Ph.D., Professor of Geological Sciences
Michael J. Walawender, Ph.D., Professor of Geological Sciences (Graduate Adviser)
Eric G. Frost, Ph.D., Associate Professor of Geological Sciences
Gary H. Girty, Ph.D., Associate Professor of Geological Sciences
Anton D. Ptacek, Ph.D., Associate Professor of Geological Sciences
David L. Kimbrough, Ph.D., Assistant Professor of Geological Sciences

Adjunct Faculty

Ronald Blom, Ph.D., Geological Sciences
Victor E. Camp, Ph.D., Geological Sciences
Ricardo Fernandez, Ph.D., Geological Sciences
Donn L. Marrin, Ph.D., Geological Sciences
Mario Martinez, Ph.D., Geological Sciences
Glenn R. Roquemore, Ph.D., Geological Sciences
Frederick R. Schram, Ph.D., Geological Sciences

Assistantships

Graduate teaching assistantships in geology are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate adviser of the department.

General Information

The Department of Geological Sciences, in the College of Sciences, offers graduate study leading to the Master of Science degree in Geological Sciences. The program emphasizes research and an advanced set of courses. Faculty research activities comprise a broad spectrum of expertise, including both theoretical and applied interests. Opportunities exist for integrated field and laboratory research. The department is equipped to support research in geophysics, groundwater hydrology, oceanography, and geochemistry as well as the classic areas of mineralogy, petrology, structural geology, stratigraphy and paleontology. Laboratories devoted to Geochronology, Isotopes, Clay Mineral Analysis, Soils, Paleomagnetism, and Whole Rock Analysis, as well as the Allison Center (paleontology), support the graduate research program. Cooperation with Mexican scientists and institutions facilitates research at an international level.

The San Diego area enjoys a mild climate which permits year round field activity. An interesting and diverse geological environment provides many opportunities for research in the local area. Many graduate students are supported in their work by grants and contracts from government and industry.

Admission to Graduate Study

All students must satisfy the general requirements for admission to classified graduate standing as described in Part Two of this bulletin. In addition, all students should satisfy the following requirements in order to achieve classified standing and enroll in graduate courses.

1. Have preparation in geological sciences, mathematics, chemistry, and physics at least equivalent to the minimum required for the bachelor's degree in geological sciences at San Diego State University. Undergraduate grade point average should be at least 2.5, with a 2.75 in the last 60 units. Students with degrees in majors other than geological sciences may be admitted with postbaccalaureate standing while deficiencies are being remedied.
2. Have successfully completed all courses listed as deficiencies.
3. Have a minimum GRE General Test combined verbal and quantitative score of 1000, with no less than 450 in either verbal or quantitative sections.
4. Have a minimum Advanced GRE Subject (Advanced) Test (Geology) score of 650.
5. Have a minimum grade point average of 3.0 in any courses taken as a postbaccalaureate student at San Diego State University.
6. Have two letters of reference submitted by individuals familiar with their professional background. Letters should be sent to the Graduate Adviser, Department of Geological Sciences.

All student applications are evaluated competitively and no fixed numerical standards automatically qualify or disqualify a student for graduate study in the Department of Geological Sciences. Students will be admitted on the basis of merit in relation to space and faculty availability.

NOTE: Some students with bachelor's degrees in geological sciences may be admitted with postbaccalaureate standing for one semester only during which time they must take senior-level classes and earn at least a 3.0 grade point average and complete any missing qualifications for graduate study (e.g. GRE scores).

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 19141)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student's graduate program must include 24 units of approved 600- and 700-numbered courses must include Geological Sciences 797 (3 units Cr/NC/SP), and courses to include Geological Sciences 799A, Thesis (3 units Cr/NC/SP), and six units of upper division or graduate electives approved by the departmental adviser. With approval of the graduate adviser, students specializing in geophysics or hydrogeology may include 18 units of approved 600-700 numbered courses and 12 units of upper division graduate electives, with no more than 6 units of units of upper division graduate electives taken from courses in the Department of upper division graduate electives taken from courses in the Department of Geological Sciences. Geological Sciences 308 and 508 or their equivalent as approved by the graduate adviser, are required as prerequisite to the program if they were not a part of the student's undergraduate work. The student is required to pass a final oral examination on the thesis. All students are required to complete Geological Sciences 601.

Courses Acceptable on Master's Degree Program in Geological Sciences

UPPER DIVISION COURSES

502. Geology of North America (3) I

Prerequisite: Geological Sciences 105.

A regional analysis of North American geology, its structural, stratigraphic, and tectonic patterns and hypotheses concerning their origin and evolution.

505. Photogeology (3) II

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 305 and 314.

Geologic interpretation of aerial photographs, elementary stereoscopy and stereometry applied to structural and stratigraphic problems, and compilation of geologic maps from annotated aerial photographs.

506. Paleontology (3) I, II

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 105 and either Biology 100-100L or 110-110L.

Principles and methods, exemplified by a study of the morphology, classification, habit, and geologic significance of fossil invertebrates.

Vertebrate Paleontology, see Biology 526.

507. Stratigraphy (3) II

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 105 and 224.

Stratigraphic principles and practices. Consideration of the North American stratigraphic record.

508. Field Geology (4) II (4 or 6) S

One lecture and three hours of laboratory and seven weekend field sessions.

Summer: Twenty-four days in the field (4 units); ten additional days of field and laboratory work (6 units).

Prerequisites: Geological Sciences 308. Summer: Geological Sciences 308 and 524.

Geologic investigation of an assigned area with preparation of an individual report and a geologic map.

Summer: Geological investigation of an assigned area with preparation of an individual report and a geologic map. Students enrolling for six units will undertake additional petrographic and geochemical studies as part of their report. A fee covers transportation and meals.

510. Petroleum Geophysics (3) I

Two lectures and three hours of laboratory. Occasional field trips.

Prerequisites: Geological Sciences 305, Mathematics 252, Physics 195, 196, 197. Recommended: Physics 195L, 196L, 197L.

Airborne, surface, and bore-hole geophysical techniques as presently used in oil exploration.

512. Mining Geophysics (3) II

Two lectures and three hours of laboratory or occasional field trips.

Prerequisites: Geological Sciences 305, Mathematics 252, Physics 195, 196, 197. Recommended: Physics 195L, 196L, 197L.

Airborne, surface, and bore-hole geophysical techniques used for delineation of ore bodies.

516. Micropaleontology (3) II

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 506.

The morphology, classification and geologic significance of the various microfossils.

520. Ore Deposits (3) I

Prerequisites: Credit or concurrent registration in Geological Sciences 224 and 305.

Geologic relations, origin, distribution, and economics of metallic and nonmetallic mineral deposits.

521. Petroleum Geology (3) II

Prerequisites: Geological Sciences 224 and 305.

Geologic occurrence of petroleum and the application of geologic principles in exploration and production.

524. Optical Mineralogy (3) I

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 221.

Theory and use of the polarizing microscope for determining optical properties of minerals as an aid to their identification.

525. Petrography (3) II

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 524.

A study of rocks with the polarizing microscope; identification of mineral constituents; interpretation of textures; classification of rocks; problems of genesis.

526. Sedimentology (3) I

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 105 and 224.

Origin, description, and interpretation of sedimentary rocks and structures.

528. Seismic Stratigraphy (3) I

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 230, 305, and 507.

Principles involved in shooting, processing, and interpreting seismic reflection profiles. Laboratory exercises with stratigraphic interpretations from reflection data.

530. Geochemistry (2) I, II

Prerequisites: Geological Sciences 224; Chemistry 201; Mathematics 121 and 122, or 150.

The relationship of basic chemical principles to geologic phenomena and environments, including applications to geologic exploration problems.

530L. Geochemistry Laboratory (1) I, II

Prerequisite: Credit or concurrent registration in Geological Sciences 530.

Laboratory methods of analysis for determination of elemental concentrations in waters, sediments and rocks, as well as x-ray diffraction methods for mineralogy.

540. Marine Geology (3) I

Prerequisites: Geological Sciences 105, and either Geological Sciences 224, 314, 502, or 506.

Plate tectonic origin and history of the ocean basins. Formation and distribution of sediments in response to biological, chemical, and geological processes.

545. Descriptive Physical Oceanography (3) I

Prerequisites: Mathematics 121 and 122 or 150; Physics 180A or 195.

Physical environment of oceans including heat, water, and salt budgets, physical properties of sea water, sea ice, air-sea relationships, effects of light and sound, distribution of temperature, salinity, density, surface current, deep circulation, water mass formation, instruments and methods of study.

548. Coastal and Estuarine Physical Oceanography (3) II

Prerequisites: Mathematics 121 and 122 or 150; Physics 180A or 195.

Physical processes of marine coastal areas and estuaries. Includes longshore currents, rip currents, real waves in shallow water, wave refraction and diffraction, mechanics of sediment transport, forces and dynamics of estuarine circulations and tides.

550. Engineering Geology (3) II

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 305.

Relationships between geologic processes and works of humans. Topics include rock and soil mechanics, ground water flow, slope stability, seismicity, land subsidence, and evaluation of geologic materials with respect to dam sites, tunnel alignments, and building foundations.

551. Hydrogeology (3) I

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 305 and Mathematics 150.

Theory of ground water flow. Exploration for and development of the ground water resource. Aquifer tests, water quality, and water resource management. Occurrence of water in alluvial, sedimentary, volcanic, plutonic, and metamorphic terrains.

596. Advanced Topics in Geology (1-4)

Prerequisite: Consent of instructor.

Advanced special topics in the geological sciences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (1-3)

Refer to Class Schedule for lecture/laboratory format.

Prerequisite: Consent of instructor.

An intensive study in advanced geology. May be repeated with new content. Topic to be announced in the Class Schedule. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

601. Investigations in Earth Science (3)

Prerequisites: Postbaccalaureate standing with B.S. or B.A. in Geology or equivalent.

Review of major geologic concepts, and processes. Relationships of research to advances in the understanding of modern earth processes and the geologic history of the earth.

609. Igneous Petrology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 525.

Investigation of problems in igneous petrology, using petrography, geochemistry, and experimental methods.

611. Metamorphic Petrology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 525.

Investigation of problems in metamorphic petrology using petrography, geochemistry, and experimental methods.

612. Carbonate Depositional Systems (3)

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 507 and 524.

Nature of carbonate deposition in marine environments. Examination of thin sections, hand samples, and outcrops. Literature examples of regional aspects of modern and ancient carbonate deposition. Mandatory field trip.

615. Geology of Clays (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 526 or 530.

Systematic mineralogy of clays and routine methods of identification. Geologic interpretation of clay minerals with respect to environmental conditions or origin, deposition and diagenesis.

620. Biostratigraphy (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 507.

Development of concepts and practices in stratigraphic and geochronologic synthesis critically reviewed in context of current knowledge of the fossil record.

625. Paleogeology (3)

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 506 and Biology 354.

Problems and methods in the study of relationships between fossil organisms and their environment: interpretation of paleoenvironment, paleoclimate, and biologic relationships among fossil organisms.

629. Seminar: Advanced Studies in Stratigraphy (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 507.

Regional stratigraphic patterns in North America and their historical implications.

630. Selected Topics in Geophysics (3)

Prerequisites: Geological Sciences 510 or 512 and consent of instructor.

Research topics in seismic, gravity, magnetic, electrical, and electromagnetic methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

633. Quaternary Geology (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 314.
Quaternary climate, geochronometric dating and soil stratigraphy.

635. Petrology of Terrigenous Rocks (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 524.
Thin-section and hand-specimen description and classification of sandstones, conglomerates, and mudrocks. Emphasis on mineralogy, provenance, diagenesis, and paleogeographic reconstructions.

640. Geotectonics (3)

Prerequisite: Geological Sciences 305.
A consideration of topics on continental genesis and evolution, orogeny, plate tectonics theory, and a survey of classic geologic provinces.

642. Neotectonics (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 305 and 314.
Observation, interpretation and significance of late Quaternary crustal deformation.

645. Advanced Structural Geology (3)

Prerequisite: Geological Sciences 305.
Topics in advanced structural geology in the light of petrographic, geophysical, and experimental data, combined with classic field observations.

648. Plate-Tectonic Development of California (3)

Prerequisite: Geological Sciences 305.
Analysis of sequential genesis of major tectonic terranes of California and adjacent states. Problem-oriented literature study will integrate structural, stratigraphic, and geochronologic development.

651. Numerical Modeling of Ground-Water Flow (3)

Prerequisites: Geological Sciences 551 and experience in computer programming.
Finite difference approximations of ground water and mass transport equations. Direct and iterative solutions to simultaneous equations. Calibration, verification and application of numerical models to analyze ground water hydrologic problems.

653. Exploration Techniques in Ground-Water Geology (4)

One lecture, three hours of laboratory, and twelve Saturday field sessions.
Prerequisites: Geological Sciences 551 and either 230, 510 or 512.
Practical techniques of ground-water exploration and resource evaluation. Topics may include geophysical techniques, field aquifer testing, hydrochemistry, surface hydrologic measurements, photo interpretation, surface mapping, and subsurface correlation.

655. Paleomagnetism and Plate Tectonics (3)

Prerequisites: Geological Sciences 100 and Physics 180B or 196.
Contribution of paleomagnetism to origin and current models of plate tectonics, estimating paleolatitude, magnetostratigraphy, and structural deformation. Review of rock magnetism, magnetic mineralogy, and the geomagnetic field.

660. Isotope Geology (3)

Two lectures and three hours of laboratory.
A survey of isotopic and geochronologic topics with individual projects in isotopic analysis.

669. Terrigenous Depositional Systems (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 506, and 507 or 526.
Analysis of sedimentary structures, facies relationships, and geometries of sedimentary rock bodies to achieve recognition and understanding of ancient depositional environments and geologic history.

675A. Groundwater Geochemistry and Contaminant Transport (3)

Prerequisites: Geological Sciences 530 and 530L, 551; concurrent registration in Geological Sciences 675B.
Processes affecting solute acquisition and deposition in groundwaters. Applications to contaminant transport. (Formerly numbered Geological Sciences 675.)

675B. Groundwater Geochemistry and Contaminant Transport (3)

Prerequisites: Geological Sciences 530 and 530L, 551; concurrent registration in Geological Sciences 675A.
Theories of contaminant transport in groundwaters. Applications to contaminant delineation, modeling and retardation. Solution of solute transport problems using lumped and distributed parameter analytic and numerical models. (Formerly numbered Geological Sciences 675.)

680. Sedimentary Geochemistry (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 530.
Topics in low temperature geochemistry, in particular diagenesis.

685. Genesis of Ore Deposits (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 525; and Geological Sciences 530 or four units of physical chemistry.
Application of mineralogy, petrography, and chemistry to an understanding of the origin of ore deposits.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of the department.
Supervised research in an area of geology. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

German

In the College of Arts and Letters

OFFICE: Library East 468B
TELEPHONE: (619) 594-6313

Faculty

Harry W. Paulin, Ph.D., Professor of German (Graduate Adviser)
Steven C. Schaber, Ph.D., Professor of German and Classics
Julian H. Wulbern, Ph.D., Professor of German, Chair of Department
Erich W. Skwara, Ph.D., Associate Professor of German
Mary M. Wauchope, Ph.D., Assistant Professor of German

General Information

The Department of German and Russian Languages and Literatures, in the College of Arts and Letters, offers advanced coursework in German. Graduate courses in German may be used to fulfill requirements for advanced degrees in other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES

505. Applied German Linguistics (3)

Prerequisites: German 301 and 302.
Linguistic study of modern German; integration of modern linguistic theory with the language classroom.

510. German Phonetics (3)

Prerequisites: German 200A; 200B or 200C; 211.
Sounds and intonation of German.

540. German Literature from Its Beginning to the Baroque Period (3)

Prerequisite: German 310.
Literature from the eighth century to about 1700.

545. German Literature of the Eighteenth Century (3)

Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the eighteenth century.

555. German Literature of the Nineteenth Century (3)

Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the nineteenth century.

561. German Literature of the Twentieth Century (3)

Prerequisite: German 310.
Reading and discussion of representative works of significant authors and movements of the twentieth century.

596. Topics in German Studies (3)

Prerequisite: German 310 (for literary topics) or 505 (for linguistic topics). **Proof of completion of prerequisites required:** Grade report or copy of transcript.

Topics in German language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

696. Topics in German Studies (1-3)

Prerequisite: Eighteen upper division units in German.
Intensive study in specific areas of German. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Eighteen upper division units in German and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Health Science

In the College of Arts and Letters

Faculty

Stephen J. Bender, H.S.D., M.P.H., Professor of Health Science
 William C. Burgess, Ed.D., Professor of Health Science
 Aubrey C. McTaggart, Ph.D., Professor of Health Science
 David A. Sleet, Ph.D., Professor of Health Science
 Walter D. Sorochan, H.S.D., M.P.H., Professor of Health Science
 Warren D. Boskin, Ed.D., Associate Professor of Health Science
 Lois P. Kessler, M.A., Associate Professor of Health Science
 James V. Noto, H.S.D., Associate Professor of Health Science
 Karen L. Senn, Ed.D., M.P.H., Associate Professor of Health Science,
 Chair of Department
 Catherine J. Atkins-Kaplan, Ph.D., Assistant Professor of Health
 Science

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships in health science are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Health Science, in the College of Health and Human Services, offers advanced coursework in health science. Graduate courses in health science may be used to fulfill requirements for advanced degrees in other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES

521. Health Education for School Nurses (3)

Prerequisite: Nursing 504.

School nurse's function in different aspects of school health program; emphasis on planning and presentation of health instruction material, community resources and relationships, and disease prevention and health promotion.

560. Introduction to Public Health (3)

Prerequisite: Health Science 290.

Philosophy, development, organization, administration, and legal aspects of public health in the United States. Disease prevention and control, health education, and the other functions and activities of official health departments, voluntary agencies, private physicians and others engaged in professional health work.

561. Health and Medical Care (3) I, II

Prerequisite: Senior or graduate standing with a major or minor in health education or a closely related area.

Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences on health and medical care; professional contributions, relationships, and careers; national and international health programs.

573. Health in Later Maturity (3) I

An approach to the conservation of human resources, with emphasis on understandings, attitudes, and practices related to health in later maturity. Designed for those with a personal or professional interest in the field.

OFFICE: Hepner Hall 136
 TELEPHONE: (619) 594-5528

574. Habit-Forming Substances (3) I, II

Tobacco, alcohol, and other drugs; their use, misuse and abuse.

575. Sex Education (3) II

Prerequisite: Health Science 475.

Philosophy, current procedures, and materials needed for development of healthy attitudes and scientific knowledge appropriate for the understanding of human sexuality.

596. Workshop in Health Science (1-3)

Selected problems in health science are used as a basis for workshop experiences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596; maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSE

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department special study adviser and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Master of Arts Degree in History

Scholarships

The K. W. Stott Scholarship, in the amount of \$100, is awarded each June to a student who has attended San Diego State University for at least two years and who is being graduated or who has been graduated by San Diego State University with a major in history. The recipient must continue work at San Diego State University, or at any other accredited college or university, toward a higher degree or credential. The selection is made by the Department of History with approval of the Committee on Scholarships.

General Information

The Department of History, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in History. The Master of Arts degree is designed to provide advanced training for (1) students who plan to terminate their graduate studies at the

History

In the College of Arts and Letters

master's level, and (2) those who anticipate further study leading to a doctoral degree in history or related fields.

Research facilities include a substantial library of well over one million titles and an impressive periodical collection. The library is the depository for the documents of the United States and the state of California, and receives all publications of the United Nations and the Organization of American States. The library also houses 1,500 linear feet of manuscript materials as well as audiotapes, films, oral histories, and photographs of the greater San Diego area. The College of Arts and Letters houses the Social Science Research Laboratory which includes a well-equipped data processing center. The San Diego Historical Society and the San Diego Public Library contain many manuscript collections pertinent to local history. Located north of San Diego is the National Archives and Records Administration at Laguna Niguel.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. As an additional requirement, the student must have completed a bachelor's degree with an undergraduate major in history or have taken enough units in history and related fields that would demonstrate sufficient preparation for the program. The grade point average required for admission to the M.A. program in history is 2.75 for the last 60 units of the student's undergraduate work and 3.0 in the major (not necessarily history), plus a score of 950 on the GRE General Test (combined verbal and quantitative). Students with a grade point average in the major of 2.75-3.0 will be admitted if their score on the GRE General Test is 1050 or better. Conditional admission is possible pending the taking of the GRE General Test during the first semester of enrollment and the attainment of a satisfactory score.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin, as well as the specific requirements of the department. All students should consult the graduate adviser. Students may not be advanced to candidacy until they have met the foreign language requirement or an approved substitute.

Specific Requirements for the Master of Arts Degree in History

(Major Code: 22051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in history from courses listed below as acceptable on the master's degree programs, at least 18 units of which must be in 600- and 700-numbered courses. Students may elect either Plan A, the normal option, requiring a thesis, or, in special circumstances and with the prior approval of the graduate adviser and the student's major professor, Plan B, requiring a comprehensive written and oral examination in both a major and minor field of history chosen in consultation with the graduate adviser. Required courses are History 601; six units selected from History 620, 630, 640, 650, or 680; three units selected from History 625, 635, 655; History 797; and History 799A for those students electing Plan A. Students approved for Plan B shall meet the same course requirements as those enrolling in Plan A, except that they must enroll in History 795 (three units) and one additional three-unit history course numbered from 620 to 680 in lieu of History 797 and 799A.

Candidates for this degree must demonstrate knowledge of either a relevant foreign language or an approved substitute in computer language or statistical methods. Other substitutes may be approved where the skills involved are directly related to the student's research interests. Course selection and programs must be approved by the graduate adviser prior to the student's registration.

Courses Acceptable on Master's Degree Programs in History

Field (a). Ancient, Medieval and Early Modern Europe UPPER DIVISION COURSES

500A-500B. Ancient History (3-3)

Semester I: Greece to the Roman Conquest. Semester II: Rome to the fifth century A.D.

501. History of Ancient Near Eastern Civilizations (3)

Major civilizations of Near East from the origin of civilization to Roman Conquest, including Egyptians, Babylonians, Hebrews and Persians. Social, political, and religious problems.

503A-503B. Europe in the Middle Ages (3-3)

European social, cultural, and political developments from the fall of Rome to the Renaissance.

504. Medieval Spain (3)

Survey of the Spanish regions to the early sixteenth century. Social and economic developments.

506. The Renaissance (3)

The intellectual, artistic, and social transformation of Europe from the fourteenth through the early sixteenth century.

507. The Reformation (3)

Continental Europe in the sixteenth century; split of Christendom, the religious wars, national rivalries, the expansion of Europe and the beginnings of the scientific revolution.

513A. Early Scandinavia (3)

The formation and development of the Scandinavian kingdoms from the Viking Age to the end of Napoleonic Wars.

Field (b). Modern Europe

UPPER DIVISION COURSES

509. Europe in the Seventeenth Century (3)

Continental Europe from 1600 to the death of Louis XIV. Shift of power from southern and central Europe to northern Atlantic countries; the growth of the state, and the expansion of commerce.

510A-510B. Europe's Age of Enlightenment (3-3)

Semester I: Monarchies and monarchs at peace and war; economic and social transformations; the Baroque and the growth of the Enlightenment from 1690 to 1760. Semester II: Despots, dreamers and enlightened reformers in the last generations of Europe's "Old Regime," 1760-1789.

511A. The Age of European Revolution (3)

Major economic, social, intellectual, and political changes in Europe from 1789 to 1848. Effects of French Revolution, Industrial Revolution, and Romanticism on European history.

511B. The Age of Nationalism in Europe (3)

Economic, social, and intellectual developments in Europe from 1848 to 1890 that contributed to the age of nation building.

512A. The Great War: A Turning Point in European History (3)

Forces and events that shaped Europe in period prior to and during World War I, 1890-1919.

512B. The Age of Dictators and Contemporary Europe (3)

Europe in the age of dictatorship, world war, decline, and recovery.

513B. Modern Scandinavia (3)

Major political, social and economic developments in Scandinavia from 1814 to the present, with emphasis on contemporary society.

514A. The French Revolution and Napoleonic Era (3) I

Prerequisites: History 105 and 106.
France on the eve of the Revolution; the Great Revolution, 1789-1799, the Napoleonic Era.

514B. Modern France (3)

Prerequisites: History 105 and 106.
The development of France since 1815.

515. Modern Spain (3)

Social, economic and political developments from the sixteenth century to the present. Overseas expansion.

517A-517B. Modern Germany (3-3)

Political, social, and economic history of Germany. Semester I: From the Reformation to the outbreak of World War I. Semester II: 1914 to the present.

518A-518B. Russia and the Soviet Union (3-3)

Semester I: Political, social and economic development of Russia in Europe and Asia from the earliest times to the close of the nineteenth century. Semester II: Emphasis on the twentieth century.

519. Modern Italy (3)

The development of Italy from 1815 to the present.

521. History of the British Constitution (3)

Prerequisites: Upper division standing and six units in history.
Historical development of British political institutions which are a reflection of the constitution from Anglo-Saxon period to present. (Formerly numbered History 521A-521B.)

522A-522B. Tudor and Stuart England (3-3)

Semester I: The Age of the Tudors. Semester II: England during the Stuart Dynasty, 1603-1714.

523A-523B. Modern Britain (3-3)

Semester I: The development of constitutional and social patterns from the Glorious Revolution to the French Revolution, emphasizing the immediate background to the American Revolution. Semester II: From the nineteenth century to the present, including the rise of Parliamentary democracy, imperialism and the Victorian age, and political thought from the Utilitarians to the Fabians.

524. History of Ireland (3) I, II

Social and cultural history of Ireland from earliest historical times to the present, including formation of a national character, literature from the Saga Cycles to the modern literary renaissance, and various movements to achieve independence from Cromwell through World War I.

526. Ideas and Attitudes of Modern Europe (3)

Selected problems in European intellectual history beginning with the seventeenth century, with attention to social and political thought. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

527. Diplomatic History of Modern Europe (3)

Diplomatic relations of the various European states with European and non-European powers. The diplomatic backgrounds and results of World Wars I and II. (Formerly numbered History 527B.)

528. Social History of Modern Europe (3)

Historical survey of European society emphasizing changes in the family, health, diet, the standard of living, urbanism, crime, migration, and literacy, from 1350 to the beginning of the Industrial Revolution. (Formerly numbered History 528A.)

Field (c). United States

UPPER DIVISION COURSES

530. Colonial America (3)

Settlement and development of the English colonies in North America through the mid-eighteenth century. Contact of cultures, social structure, labor systems, religion, popular values, problems of imperial control, and political culture.

531. The American Revolution (3)

Explores how "revolutionary" the American Revolution was. Causes, dynamics, and results of the American Revolution, from imperial reform and colonial resistance after 1760, through ratification of the Federal Constitution of 1787. Meets the requirements in United States Constitution.

532. The Early Republic (3)

Political, economic, and social development of United States from Washington through John Quincy Adams. This course meets the requirements in United States Constitution.

533A. The Jacksonian Era (3)

Territorial expansion, democratic politics, revivalism, and the slavery controversy.

533B. Civil War and Reconstruction (3)

The Civil War and Reconstruction, emphasizing political affairs and the role of Lincoln.

534. The Rise of Modern America, 1868-1900 (3)

Economic, social, political, and intellectual developments from the end of the Civil War to the close of the nineteenth century.

535A. The Age of Reform (3)

The United States from the 1890s to the Crash of 1929.

535B. The Age of Roosevelt (3)

The United States in Depression, War, and Cold War.

536. The United States Since World War II (3) I, II, S

Major foreign and domestic issues confronting the United States, and the government policies and popular movements generated in response.

537A-537B. The Westward Movement (3-3)

The American frontier: Expansion, exploration, settlement and building of the new states, with emphasis on frontier problems of defense, communications, finance, etc.; the development of cultural institutions. The causes, effects and results of the frontier experiences of the American people. This year course meets the graduation requirement in American history, institutions and ideals.

538. The American Southwest (3)

Development of the Southwest from the Spanish colonial period to the present. Emphasis on social, economic, and cultural forces which have shaped the character of the border states. (Formerly numbered History 538A-538B.)

540. Environmental History of the United States (3)

The relationship of Americans to their environment from colonial times to the present with emphasis on how attitudes and values have affected personal behavior and public policy toward the land.

541A-541B. California (3-3)

Political institutions; social, cultural, economic and intellectual development; international background. Semester I: To 1850; Spanish and Mexican heritage. Semester II: 1850 to the present. History 541B will fulfill the requirement in California state and local government.

543. American Involvement in Vietnam 1941-75 (3)

Prerequisites: Upper division standing and six units in history.
Causes and costs of America's longest war: the war's beginning, United States' involvement, role of media and antiwar movement, United States withdrawal, impact of war on Southeast Asia and the United States.

544A-544B. American Foreign Policy (3-3)

Semester I: The development of American foreign policy from the Colonial Period to the First World War. Semester II: Developments from the First World War to the present. This year course meets the graduation requirements in American history, institutions, and ideals.

545A-545B. Constitutional History of the United States (3-3)

American constitutional history since the establishment of the federal government. This year course meets the graduation requirement in U.S. Constitution and in American history, institutions, and ideals.

546A-546B. Development of American Capitalism (3-3)

The changes in agriculture, industry, labor, banking, transportation and commerce in a capitalist society with emphasis on the prominent personalities who made the changes possible.

547A-547B. Intellectual History of the American People (3-3)

Survey of American thought from 1620 to the present, focusing on the ideas of individuals, groups and movements in religion, politics, society, the arts and reform. Emphasis on liberal and conservative impulses and their role in the making of the modern American mind. This year course meets the graduation requirements in American institutions, U.S. Constitution, and California state and local government.

548A-548B. Social History of the United States (3-3)

Historical survey of American society emphasizing demographic trends, the changing role of the family, social structure, immigration patterns, religious movements, developments in education, the economy, and entertainment.

549. History of San Diego (3)

Prerequisites: Upper division standing and six units in history.
Development of San Diego from European contact to the present.

Field (d). Latin America

UPPER DIVISION COURSES

551A-551B. Mexico (3-3)

Prerequisite: History 115A-115B or 415A-415B.
Semester I: Colonial and modern Mexico. Semester II: Emphasis on the twentieth century.

552. Brazil (3)

Survey of history of Brazil from Portuguese backgrounds to present. Brazil as a tropical society. Recommended for students minoring in Portuguese.

553. Caribbean Island Nations (3)

History of island nations of Caribbean with emphasis on Cuba, Haiti, and Dominican Republic in the nineteenth and twentieth centuries.

554. The Andean Republics of South America (3)

The historical development of Chile, Bolivia, Peru and Ecuador with emphasis on race relations and social revolutions in the twentieth century.

555. Modernization and Urbanization in Latin America (3)

Historical treatment of the phenomena of urbanization and modernization in Latin America with attention to pre-Columbian and Iberian traditions and influence of education, church, military, and foreign investment.

556. Guerrilla Movements in Latin America (3)

History of sociopolitical conditions which culminated in guerrilla movements in twentieth century Latin America. Use of guerrilla writings and accounts as well as recent Latin American films and U.S. Defense Department counterinsurgency training films.

557. History of Latin American Popular Culture and Social Thought (3)

Examination of the ways Latin Americans have historically viewed their cultures and societies from the dual perspective of elites and the masses.

Popular culture—the Latin American self-image reflected in family

relations, folklore, myth, legend, popular music and art and mass expression.

558. Latin America in World Affairs (3)

History of Latin America's political and economic relations with Europe, the Soviet Union, the United States, and the Third World.

559. Central America (3)

Prerequisites: Upper division standing and six units in history.
Historical development of the republics of Central America with emphasis on twentieth century. Contemporary revolutionary movements and role of United States in Central American affairs.

Field (e). South, Southeast and East Asia

UPPER DIVISION COURSES

561A-561B. Asia and the West (3-3)

History of Asian-Western relations with emphasis on China and Japan. Semester I: Through the nineteenth century. Semester II: The twentieth century.

562. Civilization of India: The Great Traditions (3)

From earliest times to the eighteenth century including Hindu, Buddhist, and Muslim contribution to Indian society, changing political ideas and institutions, and historic trends in art and literature.

563. Modern India and Its Neighbors (3)

British conquest and colonial policy, Hindu and Muslim nationalism, Gandhi's significance, and the emergence of independent India, Pakistan, and Bangladesh.

564A-564B. Southeast Asia (3-3)

Semester I: Cultural traditions of Southeast Asian peoples. Indigenous institutions and the influence of China, India, and Islam. Semester II: Southeast Asia in the modern world. Patterns of foreign stimulus and local response among the peoples of the area.

565. Revolution and Social Change in Asia (3)

Comparative study of contemporary problems in Asia emphasizing how indigenous peoples responded to the challenges of nationalism, reform, revolution, modernization, and neo-colonialism. Topics include social structure, education, peasant movements, urbanization, search for cultural identity, and national integration.

566. Chinese Civilization: The Great Traditions (3)

China's institutional and cultural development from ancient to pre-modern times. Emphasis on traditional philosophy, religions, literature, and the arts.

567. China's Century of Modernization (3)

China's modernization process from the early nineteenth century Opium War through the People's Republic of China.

568. Communist Party and the Chinese Revolution (3)

Mao and the evolution of Chinese Communist Party since 1920, including Red Army, rural soviets, socialist economic and cultural systems, and foreign policy.

569. Japanese Civilization (3)

Japanese internal history and institutions during the period of indigenous development and Chinese influence including religions, philosophy, literature, and the arts.

570. Modern Japan (3)

Japan's development as a modern state, particularly in the nineteenth and twentieth centuries.

Field (f). Africa and Middle East

UPPER DIVISION COURSE

574. The Arab-Israeli Question, Past and Present (3)

Arab-Israeli conflict over Palestine in perspective of Zionism, Arab nationalism, and Great Power relations from nineteenth century to present.

Field (g). Topical Subjects

UPPER DIVISION COURSES

580. Great Historians and Historical Literature (3) I, II

Prerequisite: History 100, 105, or 120.
History of historical writing and works of major historians. Recommended for history and social science majors.

590. Archives (3)

Prerequisite: Six upper division units in history.
Archival methods for collection, preservation, management, and use of written, visual, and aural materials. (Formerly numbered History 720.)

596. Selected Studies in History (1-4)

Topics in the various fields of history, such as biography, war, science, technology, urbanization, minority groups, immigration, and capitalism. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

All graduate courses in the Department of History have a prerequisite of 12 units of upper division courses in history, or consent of the instructor.

601. Seminar in Historical Method (3)

General historical bibliography. The use of libraries and archives. Methods of critical historical investigation. The interpretations of history.

620. Directed Reading in European History (3)

Prerequisite: Six upper division units in European history.
Selected readings in source materials and historical literature in a designated area of European history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

625. Seminar in European History (3)

Prerequisites: Six upper division units in European history and History 601.
Directed research on topics selected from a designated area of European history. Maximum credit six units applicable to a master's degree.

630. Directed Reading in United States History (3)

Prerequisite: Six upper division units in United States history.
Selected readings in source materials and historical literature in a designated area of United States history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

635. Seminar in United States History (3)

Prerequisites: Six upper division units in United States history and History 601.
Directed research on topics selected from a designated area of United States history. Maximum credit six units applicable to a master's degree.

640. Directed Reading in Latin American History (3)

Prerequisite: Six upper division units in Latin American history.
Selected readings in source materials and historical literature in a designated area of Latin American history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

650. Directed Reading in Asian History (3)

Prerequisite: Six upper division units in Asian history.
Selected readings in source materials and historical literature in a designated area of Asian history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

655. Seminar in Asian History (3)

Prerequisites: Six upper division units in Asian history and History 601.
Directed research on topics selected from a designated area of Asian history. Maximum credit six units applicable to a master's degree.

680. Directed Reading in Selected Topics (3)

Prerequisite: Consent of the instructor.
Selected readings in source materials and historical literature of various fields of history such as war, science, technology, urbanization, minority groups, immigration, capitalism, conservation, and imperialism. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

705. Seminar in Local History (3)

Prerequisite: History 601.
Theories, sources and methods of local history, using San Diego as an example. Includes research paper on a local history topic.

715. Seminar in Public History (3)

Prerequisite: History 705.
Group research and writing on a topic typical of public history.

724. Historical Editing (3)

Prerequisite: History 601.
Principles and techniques of historical editing.

730. Internship in Public History (3) Cr/NC

Prerequisites: Eighteen units of Master of Arts in Public History program and consent of instructor.

Students will work in a public history position under supervision of agency head and course instructor. No units applicable toward any other history degree.

795. Area Studies in History (1-3) Cr/NC

Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examinations in the major and minor fields of history for those students taking the M.A. under Plan B. Maximum credit three units applicable to a master's degree.

797. Research (3) Cr/NC/SP

Prerequisite: Advancement to candidacy and written approval of the History Department graduate adviser.
Independent research in a specialized subject in history.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Industrial Studies

In the College of Professional Studies and Fine Arts

OFFICE: Engineering 208
TELEPHONE: (619) 594-6813

Faculty

Gerald D. Bailey, Ed.D., Professor of Industrial Studies, Chair of Department
Dennis A. Dirksen, Ed.D., Professor of Industrial Studies
William D. Guentzler, Ph.D., Professor of Industrial Studies
Gerald K. Hammer, Ed.D., Professor of Industrial Studies (Graduate Adviser)
G. W. Bailey, Ed.D., Associate Professor of Industrial Studies
Harold L. Marsters, M.A., Associate Professor of Industrial Studies
R. Harold McEowen, Ph.D., Associate Professor of Industrial Studies

Assistantships

Graduate teaching assistantships in industrial studies are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Industrial Studies, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in Industrial and Technical Studies. The Master of Arts degree in Industrial and Technical Studies provides for the needs of people in two specializations: those already in or entering the technical teaching profession or those in the industrial/technical workplace. Typical candidates hold bachelor's degrees in appropriate technical, vocational or engineering subject areas. The curriculum offerings aid graduates in developing and extending expertise in the teaching, technical and managerial areas of manufacturing and visual communications.

In the Industrial Studies Department, several laboratories provide an atmosphere conducive to graduate level exploration and independent research in such technical areas as CAD/CAM, CIM, manufacturing processes, thermoplastics and composites, graphics, hydraulics and pneumatics, electronics, materials processing, photography, power systems, facilities planning and robotics. Each technical area and laboratory is managed by a member of the full-time teaching faculty. Visiting professors and part-time faculty from industry provide depth and specialized expertise upon which the master's candidates can build and enhance their professional program.

The faculties' active involvement with local industry provides opportunity for research, grant development and internship to enhance the graduate's program.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, the student must have completed a bachelor's degree with an undergraduate major in industrial technology or vocational education. Applicants who do not have an undergraduate major in industrial technology or vocational education may be admitted to conditionally classified graduate standing on the recommendation of the department, but they will be held responsible for completing the minimum requirements for the equivalent of an undergraduate major in industrial technology at San Diego State University.

Graduate classes in Industrial Studies are scheduled on a two year cycle. If a student plans to complete the degree in less than two years, the GRE General Test must be taken and the graduate adviser consulted prior to admission to the program.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 08393)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units which includes a major consisting of a minimum of 24 units in industrial technology from courses listed below as acceptable on the master's degree program. The program must contain at least 24 units of 600- and 700-numbered courses. Required courses include Industrial Technology 720 and 790; six units selected from Industrial Technology 721, 723, and 724; three units from Industrial Technology 600, 696, 722, and 725, English 504, or another approved graduate course outside the department; and Industrial Technology 799A. Only Plan A, requiring the thesis, is permitted for the Master of Arts degree in Industrial and Technical Studies.

Courses Acceptable on Master's Degree Programs in Industrial Technology

UPPER DIVISION COURSES

517. Thermoset Plastics (3) II

Six hours of laboratory.
Prerequisites: Industrial Technology 115 and Chemistry 100 or higher.
Composition and selection of materials; evaluation of physical and mechanical properties of various thermoset plastics, special techniques for processing and production of thermoset plastics. (Formerly numbered Industrial Arts 517.)

523. Industrial Arts Drawing (3) II

Six hours of laboratory.
Prerequisite: Industrial Technology 320.
Practice in and analysis of modern industrial drafting techniques and theories. (Formerly numbered Industrial Arts 523.)

533. Applied Metal Forming Operations (3) I

Six hours of laboratory.
Prerequisite: Industrial Technology 131.
Theory of conventional and high energy industrial forming processes augmented with laboratory forming experiences. (Formerly numbered Industrial Arts 533.)

542. Commercial/Industrial Photography (3) I

Six hours of laboratory.
Prerequisites: Industrial Technology 140 and upper division standing.
Theory and laboratory techniques, composition and lighting with emphasis on large format photography. Industrial applications, architecture, illustrative, advertising, portraiture, and commercial photography. (Formerly numbered Industrial Arts 542.)

553. Residential Building Construction (3) II

Six hours of laboratory.
Prerequisite: Industrial Technology 351.
Residential building construction principles encompassing the study of state and national building codes, foundation systems, framing techniques, and waterproofing applications. Estimating labor and material costs. (Formerly numbered Industrial Arts 553.)

563. Industrial Control Circuits (3) I

Six hours of laboratory.
Prerequisite: Industrial Technology 361.
Advanced problems in industrial electronics circuit development, analysis, theory and application. (Formerly numbered Industrial Arts 563.)

573. Power Systems Technology (3) II

Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Industrial Technology 371.
Power systems and technological innovations in education and power related industries. Emphasis on product development, testing, and reporting. (Formerly numbered Industrial Arts 573.)

583. Industrial Arts Graphic Arts (3) II

Six hours of laboratory.
Prerequisite recommended: Industrial Technology 381.
Advanced techniques involved in graphic arts. (Formerly numbered Industrial Arts 583.)

596. Experimental Topics in Industrial Technology (1 or 2)

Prerequisite: Consent of instructor.
Individual laboratory work on complex projects on an experimental basis. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Industrial Arts 596.)

GRADUATE COURSES

600. Seminar (3)

An in-depth study of contemporary industrial and technological methods, practices and procedures. See Class Schedule for specific content. (Formerly numbered Industrial Arts 600.)

601. Research (3)

Prerequisite: Consent of instructor.
Research in specific industrial and technical areas, such as manufacturing products, processes and quality assurance or industrial education curricula and programs. May be repeated with new content. Maximum credit six units applicable to a master's degree. (Formerly numbered Industrial Arts 601.)

696. Selected Topics in Industrial and Technical Studies (1-3)

Prerequisite: Consent of instructor.
In-depth study concerning specific industrial and technical subjects. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Industrial Arts 696.)

720. History and Philosophy of Industrial Education and Technology (3)

Historical and philosophical foundations and development of industrial education and technology and its continuing role in American culture. (Formerly numbered Industrial Arts 720.)

721. Curriculum for Industrial Personnel Development (3)

Selection of teaching content with regard to analysis, objectives, methods, learning theory and development of instructional devices related to educational and industrial situations. (Formerly numbered Industrial Arts 721.)

722. Techniques of Technical Communication and Presentation (3)

Development, organization, application, and evaluation of appropriate instructional materials for technical utilization in education and industry. (Formerly numbered Industrial Arts 722.)

723. Evaluation Methods for Industrial and Technical Studies (3)

Principles, methods, and criteria of evaluation for measuring growth, achievement, performance and quality systems in education and industry. Emphasis on accountability. (Formerly numbered Industrial Arts 723.)

724. Managing Industrial and Technical Studies Programs (3)

Principles, objectives, methods, and techniques employed in the administration and supervision of educational and industrial personnel. (Formerly numbered Industrial Arts 724.)

725. Technical and Vocational Education (3)

Prerequisite: Admittance to M.A. program in Industrial and Technical Studies.
Federal and state legislation and funding of technical and vocational education. (Formerly numbered Industrial Arts 725.)

790. Research Methods in Industrial Technology (3)

Location, selection, and documentation of professional, scientific, and technical literature. Procedures of investigation. Treatment and analysis of data. Methods of reporting technical research. (Formerly numbered Industrial Arts 790.)

796. Field Work in Industrial Technology (3)

Prerequisite: Consent of instructor.
Study of the principles of facilities requirements with emphasis on facilities planning processes and alternative plans in industrial and technical settings. (Formerly numbered Industrial Arts 796.)

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of instructor and graduate adviser.
Individual study. Maximum credit six units applicable to a master's degree. (Formerly numbered Industrial Arts 798.)

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis in industrial arts for the master's degree. (Formerly numbered Industrial Arts 799A.)

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval. (Formerly numbered Industrial Arts 799B.)

Michael S. Doyle, Ph.D., Associate Professor of Spanish
Philip F. Flemion, Ph.D., Associate Professor of History
Barbara E. Fredrich, Ph.D., Associate Professor of Geography
Lawrence A. Herzog, Ph.D., Associate Professor of Mexican American Studies
Will C. Kennedy, Ph.D., Associate Professor of Sociology
José R. Villarino, Ph.D., Associate Professor of Mexican American Studies
Raymond D. Weeter, Ph.D., Associate Professor of Spanish
Ronald R. Young, Ph.D., Associate Professor of Spanish, Associate Dean of Undergraduate Studies
D. Emily Hicks, Ph.D., Assistant Professor of English and Comparative Literature
Margarita G. Hidalgo, Ph.D., Assistant Professor of Spanish
Paul Ganster, Ph.D., Director, Institute for Regional Studies of the Californias
Iliana L. Sonntag, M.L.S., M.A., Librarian, Latin American Studies Bibliographer
Wayne Stromberg, Ph.D., Director, Foreign Language Laboratory

General Information

Since 1976 the Center for Latin American Studies has been designated a National Resource Center for Latin American Studies (one of only eleven in the nation) by the United States Department of Education and funded through a Title VI grant. The Master of Arts degree administered by the Center is an interdisciplinary program drawing on the expertise of an outstanding Latin Americanist faculty from the following departments: Anthropology, Art, Comparative Literature, Economics, Geography, History, Political Science, Public Administration and Urban Studies, Sociology, Spanish and Portuguese Languages and Literatures, Women's Studies, and the College of Business Administration. Emphasis in the program is placed on the central issue of "Modernization and Urbanization" in Latin America and offered through nine courses from nine different departments.

Research interests and areas of expertise of the faculty include: demography, drama, economic development, folk art, Indians and peasants, land tenure systems, the Latin American press, mental health and aging in Mexico, militarism and guerrilla warfare, Spanish American prose, poetry and criticism, U.S.-Latin American relations, and the U.S.-Mexico border.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present the Bachelor of Arts degree with not less than 18 units of courses of Latin American content in three areas. A student whose preparation is deemed insufficient by his graduate adviser or by the Latin American Studies Committee will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy described in Part Two of this bulletin. Moreover, students must demonstrate an oral and reading proficiency in Spanish through either the satisfactory completion of an oral and a written examination, or (1) satisfactory completion of Spanish 100C and 202, and a reading examination administered by the Department of Spanish and Portuguese Languages and Literatures, or (2) satisfactory completion of three units of 500-level or graduate coursework in Spanish. In addition, students must complete satisfactorily (with a grade of B or better) Portuguese 101 with 212 recommended. Coursework at or above the 500 level may be included as a part of the official program with the approval of the graduate coordinator.

Specific Requirements for the Master of Arts Degree

(Major Code: 03081)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete at least 30 units of in Part Two of this bulletin, the student must complete at least 30 units of upper division and graduate coursework with not less than 24 units in courses of Latin American content selected from those listed below and distributed as follows:

	600- and 700-numbered Courses	500-, 600- and 700-numbered Courses
Department A	6 units	6 units
Department B	3 units	3 units
Department C	3 units	3 units
	12 units	12 units

The total program shall include a minimum of 18 units in 600- and 700-numbered courses. Students may select either Plan A or Plan B in consultation with the graduate adviser. In addition to meeting the distribution requirements given above, students electing Plan A must complete the 799A (Thesis) course offered by the department selected for the 12-unit concentration (Department A). Students electing Plan B must pass a comprehensive written and oral examination in lieu of the thesis.

All programs will be approved by the Latin American Studies Committee.

Courses Acceptable on Master's Degree Programs in Latin American Studies

UPPER DIVISION COURSES

Latin American Studies Courses

560. **Latin America After World War II (3) II**
Prerequisites: Latin American Studies 101, History 115A, 115B, and either Political Science 566 or consent of the instructor.
Major socioeconomic and political changes in Latin America since World War II and inter-American relations during the same period. Includes guest lecturers.

580. Special Topics (1-4)

Prerequisite: Six upper division units in Latin American content courses.

Interdisciplinary study of selected Latin American topics. Credit will vary depending on the scope and nature of the topic. Whenever appropriate, the course will be taught by a team of instructors representing two or more disciplines. May be repeated with different content. See Class Schedule for specific content. Maximum credit eight units.

Anthropology Courses

529. Urban Anthropology (3)*

582. Regional Anthropology (3)*

Art Courses

561. Art of Pre-Hispanic America (3)

562. Art of Latin America (3)

596. Advanced Studies in Art and Art History (1-4)*

Economics Courses

562. International Economic Expansion and Dependence (3)

566. U.S.-Mexico Economic Relations (3)

592. International Monetary Theory and Policy (3)

596. Experimental Topics (3)*

English Course (Comparative Literature)

596. Topics in Comparative Literature (3)*

Geography Course

596. Advanced Topics in Geography (1-3)*

History Courses

541A. California (3)

551A-551B. Mexico (3-3)

562. Brazil (3)

563. Caribbean Island Nations (3)

564. The Andean Republics of South America (3)

565. Modernization and Urbanization in Latin America (3)

566. Guerrilla Movements in Latin America (3)

567. History of Latin American Popular Culture and Social Thought (3)

568. Latin America in World Affairs (3)

569. Central America (3)

596. Selected Studies in History (1-4)*

Law

With the permission of the graduate adviser and the approval of the Graduate Division and Research, classified graduate students may take a maximum of nine units of law at California Western School of Law

through an affiliation agreement between the two institutions. San Diego State students must be enrolled for graduate courses at San Diego State University in the semester they are taking courses at California Western School of Law.

Please consult with the graduate adviser for a listing of the specific law courses offered.

Political Science Courses

566. Political Change in Latin America (3)

567. Political Systems of Latin America (3)

568. The Mexican Political System (3)

577. Principles of International Law (3)

Portuguese Course

535. Brazilian Literature (3)

Public Administration Course

580. Comparative Public Administration (3)

Sociology Courses

555. Immigrants and Refugees in Contemporary American Society (3)

556. Topics in Comparative Societies (3)

596. Current Topics in Sociology (1-3)*

Spanish Courses

515A-515B. Mexican Literature (3-3)

520. Caribbean Area Countries Literature (3)

522. Andean Countries Literature (3)

524. Contemporary Argentine Literature (3)

570. Spanish American Poetry (3)

571. Spanish American Short Story (3)

572. Spanish American Theater (3)

596. Selected Studies in Spanish (3)*

Telecommunications and Film Courses

562. Documentary and Propaganda Film/Television (3)

590. International Broadcasting (3)

596. Selected Topics in Telecommunications and Film (1-3)

GRADUATE COURSES

Latin American Studies Course

798. **Special Study (1-3) Cr/NC/SP**

Prerequisite: Consent of staff, to be arranged with the director and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Anthropology Courses

600. Seminar (3)*

620. Seminar in Regional Anthropology (3)*

797. Research (3) Cr/NC/SP

798. Special Study (1-3) Cr/NC/SP

799A. Thesis (3) Cr/NC/SP

799B. Thesis Extension (0) Cr/NC

Art Courses

798. Special Study (1-3) Cr/NC/SP

798. Special Study (1-3) Cr/NC/SP

Economic Courses

720. Seminar in Development and Planning (3)

730. Seminar in Macroeconomic Policy (3)

797. Research (3) Cr/NC/SP

* Acceptable when of relevant content.

798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Geography Courses

720. Seminar in Regional Geography (3)*
750. Seminar in Urban Geography (3)*
797. Research (1-3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

History Courses

640. Directed Reading in Latin American History (3)
795. Area Studies in History (1-3) Cr/NC*
797. Research (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Political Science Courses

655. Seminar in General Comparative Political Systems (3)*
661. Seminar in the Political Systems of the Developing Nations (3)*
667. Seminar in Latin American Political Systems (3)
675. Seminar in International Relations (3)*
795. Problem Analysis (3)*
797. Research in Political Science (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Public Administration and Urban Studies Course

798. Special Study (1-3) Cr/NC/SP

Sociology Courses

770. Seminar in Population and Demography (3)
798. Special Study (1-3) Cr/NC/SP

Spanish Courses

601. Seminar in Hispanic Literary Theory (3)
640. The Spanish American Novel (3)
650. The Gaucho Epic (3)
660. Modernism (3)
690. The Spanish American Essay (3)
695. Contemporary Spanish American Prose Fiction (3)
710. Images of Women in Spanish American Literature (3)
750. Seminar in Spanish American Literature (3)
755. Seminar in Spanish American Culture and Thought (3)
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Telecommunications and Film Course

798. Special Study (1-3) Cr/NC/SP

Women's Studies Courses

696. Selected Topics in Women's Studies (3-6)*
798. Special Study (1-3) Cr/NC/SP

* Acceptable when of relevant content.

Cynthia Lewis, Ph.D., Lecturer in Biology

Committee on Graduate Liberal Arts

The Master of Arts degree in Liberal Arts is administered through the Graduate Liberal Arts Committee. Faculty assigned to teach courses in the program are drawn from departments throughout the University.

General Information

The College of Arts and Letters offers a Graduate Liberal Arts program that is one of the few in the western United States. The Master of Arts degree in Liberal Arts is an interdisciplinary program administered by the Graduate Liberal Arts Committee. Even though this approach to graduate education is over thirty years old in the United States, its interdisciplinary nature has kept it vital and flexible. Students are encouraged to customize their degree by selecting coursework relevant to their interests.

The Master of Liberal Arts degree is an interdisciplinary program intended to provide an alternative approach to continued adult learning by offering a program that crosses departmental boundaries and aims for breadth and scope. It provides the unique combination of a highly individualized program of study centered around personal interests combined with a strong grounding in interdisciplinary methods for problem solving.

The student body is drawn from diverse backgrounds, thus adding to the unique character of the program.

Admission to Graduate Study

Applicants seeking admission to the program leading to the Master of Arts degree in Liberal Arts should contact the Director of Graduate Liberal Arts Committee requesting appropriate application materials. Detailed information concerning application procedures will be sent to the applicant along with the appropriate application forms.

In addition to satisfying the requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, the student seeking admission must: (1) have a grade point average of 3.0 or better on work completed during the last 60 units for the baccalaureate degree, (2) have a score of 950 or better on the GRE General Test (combined verbal and quantitative) or an equivalent score on the Miller Analogies Test, and (3) complete a statement of purpose essay. A personal interview with a member of the Graduate Liberal Arts Committee is recommended.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditional classified graduate standing upon the recommendation of the MALA Director and Committee. Students so admitted will be advised as to the nature of their deficiency and the time to be allowed to achieve full classified graduate standing.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the students must (1) satisfactorily complete 12 units, with a minimum grade point average of 3.0, including 9 units of core seminars as stipulated (MLA 600A, 600B, 600C, 600D) and (2) if selecting Plan A, have a thesis or project proposal which has received the approval of the Graduate Liberal Arts Committee and its Director.

Specific Requirements for the Master of Arts Degree in Liberal Arts

In addition to meeting the basic requirements for the Master of Arts degree in Liberal Arts as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units in residence at San Diego State University in the MALA program, of which at least 15 must be in 600- and 700-numbered courses. The total program must include:

1. Three units each of MLA 600A, 600B, 600C, or 600D for a total of nine units.
2. Three units of MLA 601.
3. A theme of study composed of 15 units of graduate coursework, selected with the approval of the MALA Director which normally must be in at least two of the following areas: Social Sciences, Humanities, Natural Sciences, and Fine Arts, with no more than six units in any given department. Some 500 level courses may be used in partial fulfillment of this requirement, if approved by the MALA Director. MLA 798, where applicable, may be included as satisfying 3 of the 15 units for the thematic component. Under special circumstances, and with permission of the MALA Director, a student may compose a theme that deviates in structure from the criteria stipulated above. This theme may include up to a maximum of 12 units of 600A, 600B, 600C, and 600D, in any combination.

Students may select either Plan A or Plan B in consultation with the MALA Director. In addition to meeting the distribution requirements given above, students electing Plan A must complete MLA 799A (Thesis or Project). Students electing Plan B must complete MLA 795 (Studies in the Liberal Arts) and pass a written comprehensive examination in lieu of the thesis.

All programs will be approved by the MALA Director in consultation with the Graduate Liberal Arts Committee.

GRADUATE COURSES

600A-600B-600C-600D. Interdisciplinary Study in the Liberal Arts (3-3-3-3)

Prerequisites: Admission to the Master of Arts degree in Liberal Arts program and consent of MALA Director.
Interdisciplinary seminars to explore issues that require integration of the perspective of various areas of the liberal arts. Each course may be repeated with new content. See Class Schedule for specific content. Maximum credit twelve units of MLA 600A, 600B, 600C, 600D applicable to a master's degree.

- A. Social Sciences and Humanities
- B. Social Sciences and Natural Sciences
- C. Humanities and Natural Sciences
- D. Fine Arts and Social Sciences, Humanities, or Natural Sciences

601. Liberal Arts Colloquium (1)

Prerequisite: Admission to the Master of Arts degree in Liberal Arts program or graduate standing.

Issues in interdisciplinary studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree.

696. Advanced Topics in Liberal Arts (1-3)

Prerequisite: Admission to the Master of Arts degree in Liberal Arts program or graduate standing.

Intensive study in specific areas of liberal arts. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

795. Studies in the Liberal Arts (1-3) Cr/NC

Prerequisite: An officially appointed examining committee and advancement to candidacy.

Individual preparation for comprehensive examination for students taking the Master of Liberal Arts under Plan B. Maximum credit three units.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Advancement to candidacy and consent of MALA director

Individual study on a given topic through interdisciplinary perspectives. Maximum credit three units.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the Master of Arts degree in Liberal Arts.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in MLA 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.

Linguistics and Oriental Languages

OFFICE: Campanile Drive 174A
TELEPHONE: (619) 594-5268

In the College of Arts and Letters

Faculty

Zev Bar-Lev, Ph.D., Professor of Linguistics
Thomas S. Donahue, Ph.D., Professor of Linguistics, Associate Dean,
College of Arts and Letters
Ann M. Johns, Ph.D., Professor of Linguistics (Graduate Adviser)
Robert Underhill, Ph.D., Professor of Linguistics
Jeffrey P. Kaplan, Ph.D., Associate Professor of Linguistics
Orin D. Seright, Ph.D., Associate Professor of Linguistics
Charlotte Webb, Ph.D., Associate Professor of Linguistics, Chair of
Department
Soonja Choi, Ph.D., Assistant Professor of Linguistics

Assistantships

Graduate teaching assistantships in linguistics are offered each semester to a limited number of qualified students to teach the composition courses for International Students. Those interested should send a letter of application to the Graduate Adviser.

General Information

The Department of Linguistics and Oriental Languages, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Linguistics. The interdisciplinary program provides broad educational opportunities through two specializations: 1) General Linguistics, for those planning to pursue a doctorate in theoretical areas (e.g., syntax or phonology) or for those who plan to work in a language-related field in industry or education (e.g., computer programming); and 2) ESL/Applied, for students planning to pursue a doctorate in applied linguistics, or intending to teach or design curriculum for ESL/EFL classrooms. In addition to completing coursework for one of the specializations and demonstrating proficiency in a foreign language, students are required to submit a thesis (Plan A) or pass a comprehensive examination (Plan B).

All students who complete the required program will receive a Master of Arts degree in Linguistics. If requested, the department will provide a letter designating a student's specialization for purposes of employment or application for further study. The specializations and language research interests of faculty members in this program are:

Zev Bar-Lev — ESL, Discourse Analysis, Linguistics and Computers; Hebrew, Arabic, and Russian.
Soonja Choi — Psycholinguistics, First and Second Language Acquisition, Cognition and Language, ESL, Materials Development; Korean, French.
Thomas S. Donahue — American Dialectology, Sociolinguistics, Historical Linguistics; Old English, Middle English.
Ann M. Johns — ESL Methodology, Materials Development, Discourse Analysis, Psycholinguistics; Arabic and Chinese.
Jeffrey P. Kaplan — Syntax, Semantics, ESL, Bilingualism; Swahili.
Orin D. Seright — Comparative Morphology, Historical Linguistics; Latin, Romance languages, Northern Germanic languages.
Robert Underhill — Descriptive Linguistics, Phonology, Syntax; Turkish, Native American languages, Southeast Asian languages.
Charlotte Webb — Phonology, Psycholinguistics, Sociolinguistics; Spanish, Chinese, Lapp.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present the Bachelor of Arts degree in Liberal

Arts and Sciences at San Diego State University, or its equivalent with a grade point average of 3.0 in the last 60 semester units attempted. A student whose preparation is deemed insufficient by his graduate adviser will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All candidates must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition to the requirements listed, students must demonstrate reading or speaking knowledge of at least one foreign language prior to advancement to candidacy.

Specific Requirements for the Master of Arts Degree

(Major Code: 15051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of 500-, 600-, and 700-level courses including Linguistics 621, Phonology; Linguistics 622, Advanced Syntax; and Linguistics 795, Seminar in Linguistics.

Students selecting the Specialization in General Linguistics must complete nine units from the following: Linguistics 610, Indo-European; Linguistics 611, Early English; Linguistics 640, Field Methods in Linguistics; Linguistics 651, Sociology of Language; and Linguistics 660, History of Linguistics.

Students selecting the ESL/Applied Specialization must complete at least six units from the following: Linguistics 623, Immigrant Languages; Linguistics 650, Materials Development in Applied Linguistics; Linguistics 652, Second Language Acquisition; and Linguistics 653, ESL Reading and Writing. An internship, Linguistics 740, is required of all students selecting this specialization who have not taught ESL previously.

Students selecting one specialization may enroll in courses from the other specialization as electives.

Plan A or Plan B

With approval of the Graduate Adviser, a student may choose either Plan A, which requires a thesis, or Plan B, which requires a comprehensive examination. Plan A students must select a committee of three faculty, two of whom are from the department, to supervise the thesis. In consultation with the Graduate Adviser, students select one of two options upon completion of an official program and advancement to candidacy.

Applied Linguistics and English as a Second Language (ESL) Certificate

The Department of Linguistics and Oriental Languages offers a Basic and an Advanced Certificate in Applied Linguistics and English as a Second Language (ESL). The Advanced Certificate requires 12 units to include Linguistics 525, 621, 622, and 650. The prerequisite to the Advanced Certificate is the Basic Certificate or its equivalent. Under certain circumstances comparable courses taken at other institutions may count towards the Certificate. Such courses must be evaluated and approved by the Certificate adviser. For information on the Basic Certificate, please see the *General Catalog*.

Courses Acceptable on Master's Degree Programs in Linguistics

UPPER DIVISION COURSES

520. Fundamentals of Linguistics (3) I, II, S

Prerequisite: Upper division standing.
Principles of modern linguistics, with attention to English grammar (syntax, morphology, phonology). Language change, dialects, sociolinguistics, psycholinguistics, language acquisition.

521. Phonology (3) I, II

Prerequisite: Linguistics 420 or 520.
Introduction to the theoretical principles of transformational-generative phonology.

522. Syntax (3) I, II

Prerequisite: Linguistics 420 or 520.
Introduction to the theoretical principles of transformational-generative syntax.

523. Phonemics and Morphemics (3)

The study of procedures for arriving at the phonetic inventory of languages and the structuring of sound units (both linear and intonational) into phonemic systems; the study of morphemic hierarchies and their arrangements in forming words.

524. American Dialectology (3) I, II

Prerequisite: Upper division standing.
Development of American English. Regional, social, and ethnic differences in pronunciation, grammar, and vocabulary. Differences in men's and women's language. Black English.

525. Semantics and Pragmatics (3)

Prerequisite: Linguistics 420 or 520.
Advanced semantic theory; systematic analysis of the interaction of sequences of language with real world context in which they are used.

530. English Grammar (3)

Prerequisite: Six upper division units in linguistics.
English morphology, syntax, and discourse structure, including simple and complex sentence structure; lexical categories and subcategories; discourse functions of selected constructions. Problems and solutions in teaching English grammar.

550. Theory and Practice of English as a Second Language (3) I, II

Prerequisite: Linguistics 420 or 520.
The nature of language learning; evaluation of techniques and materials for the teaching of English as a second language.

551. Sociolinguistics (3) I, II

Prerequisite: A course in introductory linguistics.
Investigation of the correlation of social structure and linguistic behavior.

552. Psycholinguistics (3) I, II

Prerequisite: A course in introductory linguistics.
Psychological aspects of linguistic behavior.

553. Bilingualism (3)

Prerequisite: Linguistics 420 or 520 or Communicative Disorders 500.
Bilingual societies; language choice by bilinguals; bilingual language acquisition; effects of bilingualism on language structure and use.

560. Historical Linguistics (3)

Prerequisites: Linguistics 410 and 520 or 521.
Methods and principles used in historical study of language; processes of language change in phonology, morphology, syntax, and semantics; linguistic reconstruction; origin of language; language families; development of writing; examples from various language families.

596. Selected Topics in Linguistics (1-3)

Prerequisite: Upper division standing.
Advanced study of selected topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

German Courses

505. Applied German Linguistics (3)

510. German Phonetics (3)

Russian Courses

580. Russian Syntax and Stylistics (3)

581. Russian Phonetics and Morphology (3)

GRADUATE COURSES

610. Indo-European (3)

Prerequisite: Anthropology 304 or Linguistics 622.
Phonology, morphology, and syntax of the Indo-European language community, with special attention to "Centum" and "Satem" relationships.

611. Early English (3)

Phonology, morphology and syntax of Old and/or Middle English. Reading and analysis of selected texts. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

621. Phonology (3)

Prerequisite: Linguistics 520 or 521.
Phonetics, phonetic transcription, theories of phonology and phonological description.

622. Advanced Syntax (3)

Prerequisite: Linguistics 522.
Advanced study of linguistic theory and its application to the analysis of English.

623. Immigrant Languages (3)

Prerequisite: Linguistics 420 or 520.
Contrastive structure of selected languages representing significant immigrant populations in San Diego; emphasis on phonological, orthographic, morphological, lexical and syntactic features.

640. Field Methods in Linguistics (3)

Prerequisites: Three units of linguistics, including some knowledge of phonetic transcription and consent of instructor.
Principles and techniques of linguistic analysis working directly with native informants, including phonemic, grammatical, and syntactic analysis and text collection and interpretation.

650. Materials Development in Applied Linguistics (3)

Prerequisite: Linguistics 550.
Materials development and adaptation for teaching English as a second language and foreign language. Reading and composition in a variety of approaches.

651. Sociology of Language (3)

Prerequisite: Linguistics 551.
Public and private reasons for planned language behavior. Creoles, personal speech interaction patterns, bilingualism, cultural diversity in language use, social-theoretical background, language planning, and social uses of sexism in language.

652. Second Language Acquisition (3)

Prerequisites: Linguistics 552 or 452; and 550.
Analyses of theories of second language acquisition; theoretical and empirical bases of current second language teaching methodologies.

653. ESL Reading and Writing (3)

Prerequisite: Linguistics 420 or 520.
Application of discourse and reading theory to the teaching and testing of ESL reading and writing. Issues of coherence, process-product, genre studies.

660. History of Linguistics (3)

Prerequisite: Two courses in linguistics or equivalent background.
Background and development of modern linguistic theory.

740. Internship in English as a Second Language and Foreign Language Teaching (3) Cr/NC

Prerequisites: Linguistics 650 and classified graduate standing.
Internship in teaching English as a second language and English as a foreign language, offering work experience with practicing professionals or with a company in the community.

750. Directed Language Study (3)

Prerequisite: Consent of instructor.
Directed independent study of a foreign language not offered within the course structure at San Diego State University with the aim of applying the techniques of intensive linguistic analysis to the syntax, phonology and/or semantic structure of that language. No instruction in speaking or understanding the spoken language is included in this course. Maximum credit six units applicable to a master's degree.

795. Seminar in Linguistics (3)

Prerequisite: Completion of three units of 600- and 700-numbered courses in the master's program for linguistics.
Research in linguistics, course content varying according to instructor. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Course

604. Seminar in Linguistics (3)

Russian Courses

610. History of the Russian Language (3)

650A-650B. Old Church Slavic (3-3)

680. Seminar in Slavic Linguistics (3)

Spanish Courses

610. Seminar in Medieval Spanish (3)

770. Applied Spanish Linguistics for Teachers (3)

Mass Communication

For faculty members in other departments participating in the degree program (Journalism, Psychology, Sociology, Speech Communication, and Telecommunications and Film), see the appropriate sections of this bulletin.

Faculty Committee for Mass Communication

Peter A. Andersen, Ph.D., Professor of Speech Communication
Hayes L. Anderson, Ph.D., Professor of Telecommunications and Film
David M. Dozier, Ph.D., Professor of Journalism, Chair of Committee and Graduate Coordinator
Mohamed M.E. El-Assal, Ph.D., Professor of Sociology
Susan A. Hellweg, Ph.D., Professor of Speech Communication
Donald G. Sneed, Ph.D., Professor of Journalism
John P. Witherspoon, M.A., Professor of Telecommunications and Film
Judy S. Reilly, Ph.D., Assistant Professor of Psychology

General Information

The Master of Science degree in Mass Communication is an interdisciplinary degree offered by designated faculty members of the Departments of Journalism, Psychology, Sociology, Speech Communication, and Telecommunications and Film. It is administered by the Mass Communication Committee.

The program is designed to offer systematic training for students (1) who plan to continue their study in doctoral or other advanced programs in Mass Communication or in disciplines emphasizing areas of Mass Communication; (2) who plan a career in secondary or community college teaching; or (3) who seek a broad background for careers in the mass media, business, or government service.

Research interests in Mass Communication include studies of media organizations and professionals, new technologies, message and program strategies, audience uses of media, and individual and social effects. Approximately one-quarter of the students completing the program do thesis research on a topic related to their professional interests.

Admission to Graduate Study

Students will be admitted to the graduate program in Mass Communication only after careful consideration of their qualifications by the Mass Communication Committee. Initial applications should be received prior to March 1 for the fall semester, and November 1 for the spring semester, in order to be considered.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in Mass Communication must meet the following requirements:

1. A bachelor's degree in journalism, radio-television, advertising, communications, sociology, or psychology or consent of the Mass Communication Committee.
2. A grade point average of not less than 2.75 overall, and 3.0 in the last 60 units of the undergraduate program.
3. A minimum score (verbal and quantitative) on the GRE General Test of 950.

To be considered for admission to the graduate program in Mass Communication, an applicant must submit the following in addition to the common admissions form:

1. Two copies of all undergraduate transcripts as required by Part Two of this bulletin.
2. Three letters of recommendation, one of which must be from an academic reference and another from an occupational reference.

3. A written personal statement by the applicant discussing background, interests, abilities, and career goals as they apply to the applicant's desire for an advanced degree, and in particular a graduate degree in Mass Communication.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 06011)

In addition to meeting the requirements for the Master of Science degree as described in Part Two of this bulletin, the student must complete a minimum of 30 units in coursework acceptable on master's degree programs. At least 18 units of the total program must be in courses numbered 600-799. Twenty-four units must be distributed between two of the departments cooperating in the degree program, with 15 units in one department (Department A) and nine units in another (Department B). The remaining six units can be taken in any department (including Department A and Department B), provided the units are acceptable for graduate credit in the department in which they are taken and approved by the student's graduate adviser and the Mass Communication Committee.

Of the 15 units taken in Department A, at least 12 units must be at the 600 and 700 levels. At least six units in Department B must be numbered 600 to 799.

A student whose preparation is deemed insufficient by his adviser or by the Mass Communication Committee for graduate level study in his selected A and B departments will be given conditionally classified graduate standing. Students with conditionally classified graduate standing will be required to complete specified courses to remove any deficiencies in addition to the minimum of 30 units required for the degree. All such deficiencies must be completed within one year after admission to the graduate program and with a minimum grade average of "B" before the student will be given full classified graduate standing.

Candidates may elect to follow Plan A, requiring a thesis, or Plan B, which requires a written comprehensive examination agreed upon by the Mass Communication Committee in lieu of the thesis.

All programs must be approved by both the A and B departments, and the Mass Communication Committee.

Courses Acceptable on Master's Degree Programs in Mass Communication

UPPER DIVISION COURSES

Journalism Courses

500. Current Problems in Mass Communication (3)
Prerequisites: Journalism 220 or Telecommunications and Film 100 or Economics 100 or Political Science 101 or Sociology 101; upper division standing; and satisfactory score on departmental grammar, spelling, and punctuation test.

Forces affecting American mass communication today: government restrictions, economics, pressure groups, censorship, mechanical developments, interrelationships of the media and society; professional ethics.

502. Law of Mass Communication (3)

Prerequisites: Journalism 220 or Political Science 102 or Telecommunications and Film 100; upper division standing; and satisfactory score on departmental grammar, spelling, and punctuation test.

Libel, invasion of privacy, censorship, contempt of court, pornography. Constitutional guarantees affecting print and broadcast media. Government restrictions.

503. History of Mass Communication (3)

Prerequisites: Journalism 220 or History 110B; upper division standing; and satisfactory score on departmental grammar, spelling, and punctuation test.

American journalism from colonial times to the present, with special attention to twentieth century trends and developments, including the emergent concept of social responsibility.

509. Research Methods in Mass Communication (3)

Prerequisites: Journalism 320 or 450 or 460 or 470 or 480 or graduate standing and concurrent registration in SPSS[®] workshop.

Exploratory and evaluation methods for mass media research programs; depth interviews, experimental designs, questionnaire construction, telephone surveys, computerized statistical analysis.

529. Investigative Reporting (3)

One lecture and four hours of activity.

Prerequisites: Journalism 320; upper division standing; and satisfactory score on departmental grammar, spelling, and punctuation test.

Development of articles of substance and depth in specialized areas. Research, analysis and interpretation of complex issues in the news. Special problems of the sustained, reportorial effort. Field and laboratory practice.

530. Media Management (3)

Prerequisites: Senior standing and twelve upper division units in journalism.

Role of manager in journalism and journalism-related organizations. Interaction of news, entertainment, advertising, circulation, production and promotion functions as related to economic demands.

585. Problems and Practices in Public Relations (3)

Prerequisites: Journalism 481; upper division standing; and satisfactory score on departmental grammar, spelling, and punctuation test.

Current public relations practices and problems in a wide variety of commercial, industrial, financial, governmental, cultural and social organizations.

Sociology Courses

General Sociology Area

531. Working and Society (3)
537. Political Sociology (3)

Family and Intimate Relations Area

527. Aging and Society (3)

Social Change Area

556. Topics in Comparative Societies (3)
557. Urban Sociology (3)

Speech Communication Courses

530. Language Analysis (3)
535. Theories of Human Communication (3)
580. Communication and Politics (3)
584. Communication in Law and Medicine (3)
589. Ethical Issues in Communication (3)
590. Quantitative Methods in Communication (3)
592. Persuasion (3)

Telecommunications and Film Courses

500. Broadcast Management (3)
505. Government and Broadcasting (3)
530. Radio Programming (3)
535. Television Programming (3)
540. Broadcast Advertising (3)
562. Documentary and Propaganda Film/Television (3)
575. Technological Trends in Telecommunication (3)
590. International Broadcasting (3)

GRADUATE COURSES

Journalism Courses

600A-600B. Seminar in Theory and Method of Mass Communication (3-3)

Preparation in theory and research methods applicable to studies of the press, journalism and mass communication. Analysis of previous research, concepts, models and theory construction. Research design, observation, measurement and data analysis. (Formerly numbered Journalism 600.)

700. Seminar: Media Problems (3)

Prerequisites: Journalism 500, and 600A or 600B.

Reading, investigation, and research concerning current topics in problems of mass media.

702. Seminar: Mass Media and the Law (3)

Prerequisites: Journalism 502 or Telecommunications and Film 505; Journalism 600A or 600B.

Case studies of legal restrictions and guarantees affecting radio, television, motion pictures, advertising, and printed media.

703. Seminar: History of Journalism (3)

Prerequisites: Journalism 503, and 600A or 600B.

Directed research on topics of history of American journalism.

705. Seminar in International Journalism (3)

Prerequisite: Journalism 600A or 600B.

In-depth exploration of the foreign press and cross-cultural communication; the place of the press in national development and international stability; national images and world opinion; censorship, propaganda and other barriers to international understanding.

707. Seminar in Mass Communication and Public Opinion (3)

Prerequisites: Journalism 509, and 600A or 600B.

Analysis of media and their opinion-shaping role; methods and effects of pressure groups; propaganda analysis; creation and perpetuation of images and stereotypes.

708. Seminar: Mass Communication and Society (3)

Prerequisite: Journalism 600A or 600B.

Rights, responsibilities and characteristics of mass media and mass communication practitioners; characteristics and responsibilities of audiences and society.

740. Major Projects in Mass Communication (1-6)

Prerequisite: Journalism 600A or 600B.

Design and execution of an in-depth project in one of these areas: advertising campaign, series of detailed expository articles or news stories, or model public relations campaign. May be repeated with new content. Maximum credit six units applicable to a master's degree.

782. Seminar in Public Relations (3)

Prerequisites: Journalism 585, and 600A or 600B.

Analysis and critique of contemporary public relations programs and theory. Development of a comprehensive public relations project involving original research.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with the department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Psychology Courses

- 621. Seminar in Personnel Psychology (3)
- 622. Seminar in Organizational Psychology (3)
- 700. Seminar (3)
- 745. Seminar in Social Psychology (3)
- 798. Special Study (1-3) Cr/NC/SP
- 799A. Thesis (3) Cr/NC/SP
- 799B. Thesis Extension (0) Cr/NC

Sociology Courses

- 602. Advanced Research Methods: Core Course (3)
- 603. Advanced Social Psychology (Sociological Approaches): Core Course (3)
- 700. Seminar in Social Theory (3)
- 740. Seminar in Social Psychology: Sociological Approaches (3)
- 760. Seminar in Research Methods (3)
- 797. Research (3) Cr/NC/SP
- 798. Special Study (1-3) Cr/NC/SP
- 799A. Thesis (3) Cr/NC/SP
- 799B. Thesis Extension (0) Cr/NC

Speech Communication Courses

- 696. Special Topics in Speech Communication (1-3)
- 700. Seminar in Research and Bibliography (3)
- 706. Seminar in Organizational Communication (3)

- Mary S. Koehler, Ph.D., Associate Professor of Mathematical Sciences

Assistantships

Graduate teaching assistantships in mathematics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Mathematical Sciences, in the College of Sciences, offers graduate study leading to the Master of Arts degree in Mathematics, the Master of Arts degree for teaching service with a concentration in Mathematics, the Master of Science degree in Applied Mathematics, the Master of Science degree in Statistics, and the Master of Science degree in Computer Science. (See the Computer Science section of this bulletin for a description of the Computer Science program.)

Faculty active in research direct theses and research projects in most general areas of the mathematical sciences: in approximation theory, complex analysis, differential equations, differential geometry, graph theory, group theory, matrix theory, number theory, numerical analysis, operator theory and ring theory within mathematics; in cognitive science, computer education and problem solving within mathematics education; in control theory, mathematical physics, modeling and optimization within applied mathematics; in biostatistics, data analysis, inference, stochastic processes, survival analysis and time series within statistics; in algorithms, computability, formal language, numerical analysis, and system software (artificial intelligence, database management, distributed processing, graphics and operating systems) within computer science.

Research facilities of the System Ecology Research Group provide opportunities for research in applied mathematics. Opportunities for research in mathematics education are available through research facilities in the Center for Research in Mathematics and Science Education. Research facilities of the department include the Robotics and Intelligent Machines Laboratory which provides opportunities for research in computer science (see Computer Science section).

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in his/her area.

Specific Requirements for the Master of Arts Degree in Mathematics

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. Complete 30 units of 500-, 600-, and 700-numbered courses in mathematical sciences (including computer science), of which at least 21 units must be at the 600 level or above. Mathematics 600, 601, and 602 may not be part of this degree. No more than six units of Mathematics 797 and 798 will be accepted toward the degree.
2. Among the 30 units of coursework, students must include at least two courses in the area of algebra chosen from courses 621, 622, 624, and at least two courses in analysis chosen from courses 630A, 630B, 631A, 631B.

- Students must present evidence that they have completed French 200A, German 200A, Russian 200A, or Spanish 100C or equivalent; or demonstrate a reading knowledge of French, German, Russian, or Spanish.
- Students must pass the departmental qualifying examinations in the areas of algebra and analysis. The algebra examination is based on material in Mathematics 521A, 521B, and 524, and the analysis examination is based on material in Mathematics 532, 534A, and 534B.
- With departmental approval, students may select Plan A and complete Mathematics 799A or Plan B requiring a written comprehensive examination, and complete three units of Mathematics 797 and prepare a paper on some aspect of mathematics under the supervision of a faculty adviser.

Specific Requirements for the Master of Science Degree in Applied Mathematics

(Major Code: 17031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree described in Part Two of this bulletin, the student must meet the following requirements:

- Have completed before entering the program, the following courses or their equivalents: Mathematics 524, 534A, 534B, 541, 551A, and programming proficiency in a computer language. Admission to the program as conditionally classified may be granted without some of the coursework above, contingent on the student removing any deficiencies by the end of the first year in the program. (These courses will not count toward the degree course requirements.)
- Complete a minimum of 30 units of approved 500-, 600- and 700-numbered courses. All programs must include at least 21 units in mathematical sciences (with the possible exception of a student who shows an interest in mathematical modeling) and at least 18 units selected from 600- and 700-numbered courses. No more than six units in Mathematics 797 and 798 will be accepted for credit toward the degree. A program of study must be approved by the Graduate Adviser.
- With departmental approval, the student may select Plan A, and complete Mathematics 799A, Thesis. The student must have an oral defense of their thesis or research, open to the public. If Plan B is elected, the student must complete three units of Mathematics 797, Research, and pass the written Comprehensive Examination in Applied Mathematics.

Courses Acceptable on Master's Degree Programs in Applied Mathematics, Computer Science, Mathematics, and Statistics

UPPER DIVISION COURSES

GENERAL

509. Computers in Teaching Mathematics (3)

Two lectures and three hours of laboratory.
Prerequisite: Mathematics 252 or 312.
Solving mathematical tasks using an appropriate computer language. Using software for teaching mathematical concepts. Developing problem-based curricula. Intended for those interested in middle or high school mathematics teaching.

510. Introduction to the Foundations of Geometry (3) II

Prerequisite: Mathematics 122 or 151.
The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

511. Projective Geometry (3) I

Prerequisite: Mathematics 254.
Concurrence of lines, collinearity of points and other properties of figures not altered by projections; homogenous coordinates and analytic properties of projective transformations.

512. Non-Euclidean Geometry (3)

Prerequisite: Mathematics 122 or 151.
History of attempts to prove the fifth postulate; emphasis on plane synthetic hyperbolic geometry; brief treatment of other types of non-Euclidean geometry.

521A. Abstract Algebra (3) I, II

Prerequisites: Mathematics 245 and 252.
Abstract algebra, including elementary number theory, groups, and rings.

521B. Abstract Algebra (3) II

Prerequisite: Mathematics 521A.
Continuation of Mathematics 521A. Rings, ideals, quotient rings, unique factorization, noncommutative rings, fields, quotient fields, and algebraic extensions.

522. Number Theory (3) I

Prerequisites: Mathematics 245 and 252.
Theory of numbers to include congruences, Diophantine equations, and a study of prime numbers.

523. Mathematical Logic (3)

Prerequisites: Mathematics 151 or Philosophy 120, and Mathematics 245.
Propositional logic and predicate calculus. Rules of proof and models. Completeness and the undecidability of arithmetic. Not open to students with credit in Philosophy 521.

524. Linear Algebra (3) I, II

Prerequisites: Mathematics 245 and 254; or 342A.
Vector spaces, linear transformations, orthogonality, eigenvalues and eigenvectors, normal forms for complex matrices, positive definite matrices and congruence. Not open to students with credit in Mathematics 520A-520B.

531. Partial Differential Equations (3) I

Prerequisite: Mathematics 337.
Boundary value problems for heat and wave equations; eigenfunction expansions, Sturm-Liouville theory and Fourier series. D'Alembert's solution to wave equation; characteristics. Laplace's equation, maximum principles, Bessel functions. Not open to students with credit in Mathematics 340B.

532. Functions of a Complex Variable (3)

Prerequisite: Mathematics 252.
Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent series, calculus of residues.

533. Vector Calculus (3)

Prerequisite: Mathematics 254 or 342A.
Scalar and vector fields; gradient, divergence curl, line and surface integrals; Green's, Stokes' and divergence theorems. Green's identities. Applications to potential theory or fluid mechanics or electromagnetism.

534A. Advanced Calculus I (3) I, II, S

Prerequisites: Mathematics 245 and 254; or 342A.
Completeness of the real numbers and its consequences, sequences and series of real numbers, continuity, differentiability and integrability of functions of one real variable.

534B. Advanced Calculus II (3) I, II

Prerequisite: Mathematics 534A.
Series and sequences of functions and their applications, functions of several variables and their continuity, differentiability and integrability properties.

535. Introduction to Topology (3)

Prerequisite: Mathematics 534A.
Topological spaces. Functions, mappings, and homeomorphisms. Connectivity, compactness. Metric spaces.

537. Ordinary Differential Equations (3)

Prerequisite: Mathematics 337.
Theory of ordinary differential equations: elementary existence and uniqueness, dependence on initial conditions and parameters, linear systems, stability and asymptotic behavior, plane autonomous systems, series solutions at regular singular points. Not open to students with credit in Mathematics 530.

541. Introduction to Numerical Analysis and Computing (3) I, II, S

Prerequisites: Mathematics 254 or 342A; and Computer Science 107 or Engineering 120.
Solution of equations of one variable, direct methods in numerical linear algebra, least squares approximation, interpolation and uniform approximation, quadrature. (Formerly numbered Mathematics 541A.)

542. Introduction to Numerical Solutions of Differential Equations (3) II

Prerequisites: Mathematics 337 and 541.
Initial and boundary value problems for ordinary differential equations. Partial differential equations. Iterative methods, finite difference methods, and the method of lines. (Formerly numbered Mathematics 541B.)

556. Computer Mathematics and Symbolic Programming (3)

Prerequisites: Computer Science 107 and Mathematics 254.
Use of mathematical and symbolic computer packages such as MAC-SYMA, SMP, MAPLE, REDUCE, and MUMATH to analyze problems in various branches of mathematics and computer science.

561. Applied Graph Theory (3)

Prerequisite: Mathematics 245 or 254.
Undirected and directed graphs, trees, Hamiltonian circuits, classical problems of graph theory including applications to linear systems.

579. Combinatorics (3)

Prerequisite: Mathematics 245.
Permutations, combinations, generating functions, recurrence relations, inclusion-exclusion counting. Polya's theory of counting, other topics and applications.

596. Advanced Topics in Mathematics (1-4) I, II

Prerequisite: Consent of instructor.
Selected topics in classical and modern mathematical sciences. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

GENERAL

621. Theory of Groups (3)

Prerequisite: Mathematics 521B.
Permutation groups, isomorphism theorems, Sylow theorems, solvable groups, fundamental theorem of finitely generated Abelian groups.

622. Theory of Fields (3)

Prerequisite: Mathematics 521B. Recommended: Mathematics 621.
Galois theory, finite fields, cyclotomic and cyclic extensions, solvability by radicals, transcendence degree, Hilbert's Nullstellensatz.

623. Linear Algebra and Matrix Theory (3)

Prerequisite: Mathematics 524.
Characteristic and minimal polynomials, Cayley-Hamilton theorem, canonical forms, hermitian matrices, Sylvester's law, norms, singular values, stability, non-negative matrices.

624. Rings and Ideals (3)

Prerequisite: Mathematics 521B. Recommended: Mathematics 621.
Rings and ideals; unique factorization: modules, chain conditions, Wedderburn's theorem, Jacobson radical. (Formerly numbered Mathematics 620.)

630A-630B. Functions of a Real Variable (3-3)

Prerequisites: Mathematics 524 and 534B. Mathematics 630A is prerequisite to Mathematics 630B.
Lebesgue measure and integration, metric spaces, Banach spaces, Hilbert spaces, spectral theory.

631A-631B. Functions of a Complex Variable (3-3)

Prerequisites: Mathematics 532 and 534B. Mathematics 631A is prerequisite to 631B.
Theory of analytic functions. Elementary functions and power series, Cauchy's theorem and its consequences. Entire functions, conformal mappings, Riemann mapping theorem. Harmonic functions.

633. Combinatorial Topology (3)

Prerequisite: Mathematics 535.
Introduction to combinatorial topology. The fundamental group, plane homology and Jordan curve theorem. Vector fields and Poincaré index theorem.

636. Mathematical Modeling (3)

Prerequisites: Mathematics 524, 537, and 551A.
Advanced models from the physical, natural, and social sciences. Emphasis on classes of models and corresponding mathematical structures.

637. Theory of Ordinary Differential Equations (3)

Prerequisites: Mathematics 524, 532, 534B, and either Mathematics 531 or 537.
Existence, uniqueness, and continuation of solutions from an advanced standpoint. Linear systems and their stability and asymptotic behavior, regular and irregular singularities, and regular boundary value problems.

642. Partial Differential Equations (3)

Prerequisites: Mathematics 531 and 663.
Elliptic boundary value problems; parabolic and hyperbolic initial boundary value problems. Nonlinear conservation laws.

662. Advanced Optimization Theory (3)

Prerequisites: Mathematics 362 and 524.
Formulating the optimization problem and constructing proper models. Sequential optimization: linear programming, integer programming, dynamic programming, nonlinear programming. Duality theory and sensitivity analysis. Sample applications and numerical implementation. (Formerly numbered Mathematics 662A.)

663. Methods of Applied Analysis (3)

Prerequisite: Mathematics 630A.
Functional analysis with applications to applied mathematics. Metric and normed linear spaces, bounded and compact operators, inner product and Hilbert spaces, self-adjoint operators and orthogonal expansions.

664. Methods of Applied Algebra (3)

Prerequisites: Mathematics 524 and either Mathematics 521A or two courses with algebraic content such as Mathematics 245, 542.
Canonical forms, matrix groups, matrix inequalities, nonnegative matrices. Multilinear algebra, tensors. Group representations, characters, invariants. Coding theory.

666. Algorithms for Mathematical Programming (3)

Prerequisite: Mathematics 662.
Computational complexity of algorithms. Efficient algorithms for network flow, matching, spanning trees and matroids.

667. Mathematical Aspects of Systems Theory (3)

Prerequisites: Mathematics 524 and 537.
Linear and nonlinear systems, nonlinear differential equations, equilibrium equations. Linearization, state transition matrix, stability theory, feedback control systems.

668. Applied Artificial Intelligence (3)

Prerequisite: Mathematics 667.
Computer vision systems, expert systems, intelligent robotics, man-machine communication, sensor integration.

693A. Advanced Numerical Analysis (3)

Prerequisites: Mathematics 524 and 542.

Numerical optimization, Newton's methods for nonlinear equations and unconstrained minimization. Global methods, nonlinear least squares, integral equations.

693B. Advanced Numerical Analysis (3)

Prerequisites: Mathematics 531, 537, and 693A.

Methods for differential equations. Elliptic and parabolic partial differential equations. Stiff ordinary differential equations.

696. Selected Topics in Mathematical Sciences (3)

Prerequisite: Graduate standing.

Intensive study in specific areas of mathematical sciences. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

720. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced mathematics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP

Prerequisite: Six units of graduate level mathematics.

Research in one of the fields of mathematics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

GRADUATE COURSES MATHEMATICS EDUCATION

600. Geometrical Systems (3)

Prerequisites: Mathematics 521A and an upper division course in geometry.

Ordered and affine geometries, decompositions, dilations. Projectivities and projective space. Absolute geometry, isometrics, groups generated by inversions.

601. Topics in Algebra (3)

Prerequisites: Mathematics 521A and 534A.

Unique factorization domains, rings and ideals, groups, algebraic field extensions. A course designed for secondary school teachers.

602. Topics in Analysis (3)

Prerequisites: Mathematics 521A and 534A.

Topics in analysis, including the real number system, convergence, continuity, differentiation, the Riemann-Stieltjes integral, complex analysis, designed to give the secondary teacher a broad understanding of the fundamental concepts.

For additional courses applicable to Mathematics Education see:

Assistantships

Graduate assistantships in Mathematical Sciences are available to qualified students. Support for qualified candidates may also be available through the Center for Research in Mathematics and Science Education or through employment on faculty research grants. Applications are available from the appropriate campus offices.

General Information

The Department of Mathematical Sciences in the College of Sciences offers two specializations in its program of graduate study leading to a Master of Arts degree for Teaching Service. The Specialization for Community College Teaching offers candidates a program designed to provide them with the mathematical breadth necessary to teach a wide variety of lower-division collegiate mathematics courses, while also providing them with a better understanding of the issues involved in teaching and learning mathematics. The Specialization for Secondary Teaching offers coursework designed to strengthen the mathematical background of secondary teachers, to provide teachers with a deeper understanding of learning and teaching mathematics in Grades 7-12, and to allow teachers the opportunity to analyze curriculum and evaluation efforts in a manner that can lead them to make reasoned judgments about curricular, testing, and instructional issues in Grades 7-12 mathematics.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students must have passed a qualifying examination in either mathematics education or in mathematics.

Specific Requirements for the Master of Arts Degree for Teacher Service in the Department of Mathematical Sciences

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the students must complete a graduate program of at least 30 units, 24 of which must be from the Department of Mathematical

Sciences. At least 15 of the 24 must be 600- and 700-numbered courses. The student must complete Mathematics 799A, Thesis. A student's program must be prepared in conference with and approved by the graduate adviser.

The two specializations leading to the Master of Arts for Teaching Service require completion of a specific pattern of graduate units described below.

A. Specialization in Mathematics for Community College Teaching. This specialization is designed to satisfy the requirements for teaching mathematics at the community college level. Students shall have completed a bachelor's degree in mathematics (or equivalent) before entering the program and must have completed two courses selected from Mathematics 521A, 524, and 534A. The third course can be taken prior to entrance to the program or as part of the 30-unit degree requirements. The 30-unit program includes Mathematics 600, 601, 602, 799A, Thesis or Project, Mathematics Education 603, and at least one course selected from Mathematics Education 604, 605, 606.

B. Specialization in Mathematics for Secondary Teaching. This specialization is designed to strengthen the mathematical background of secondary teachers, while providing coursework to better understand the learning and teaching of mathematics in grades 7-12. Students should have the equivalent of a bachelor's degree in mathematics before entering the program. The 30-unit program includes Mathematics 521A, 524, 534A (or their equivalents), 799A, Thesis or Project, Mathematics Education 603, and at least two courses selected from Mathematics Education 604, 605, 606.

Courses Acceptable on the Master's Degree Programs in Mathematics Education

GRADUATE COURSES

603. Seminar on Research in Mathematics Learning and Instruction (3)

Prerequisite: Consent of instructor or graduate adviser.

The learning and teaching of mathematics, with emphasis on applications of current psychological theories to mathematics learning, and research on mathematics teaching.

604. Seminar on Curriculum and Evaluation Issues in Mathematics (3)

Prerequisite: Consent of instructor or graduate adviser.

Curriculum projects in mathematics, and evaluation as it pertains to mathematics curricula, to programs, and to mathematics students and teachers.

605. Algebra in the 7-14 Curriculum (3)

Prerequisite: Consent of instructor or graduate adviser.

Curricular change in algebra, with attention to experimental curricula, to research on learning of algebra, and to influences of technology. Implications for instruction.

606. Geometry in 7-14 Curriculum (3)

Prerequisite: Consent of instructor or graduate adviser.

Curricular change in geometry, with attention to experimental curricula, to research on learning and teaching of geometry, and to influences of technology. Implications for instruction.

For additional courses applicable to the Master of Arts degree for Teaching Service see:

- Mathematics 600: Geometrical Systems
- Mathematics 601: Topics in Algebra
- Mathematics 602: Topics in Analysis

(Graduate Adviser)
Bill Yeager, M.M., Associate Professor of Music
Karen J. Follingstad, D.M.A., Assistant Professor of Music

Applied Music Instruction

Piano: Bruderer, Follingstad, Kolar
Harpsichord: Paul
Organ: Fall, Spelman
Voice: Allman, Chambers, Chase, Genzlinger, MacKenzie, Westbrook
Flute: Lukas
Oboe: Michel
Clarinet: Liebowitz
Saxophone: Rotter
Early Instruments: Peterman
Bassoon: Michel
French Horn: Cable, Lorge
Trumpet: Siebert, Williams
Trombone: Friedrichs, Hogg, Yeager
Baritone Horn: Dutton
Tuba: Dutton
Percussion: Carter, Mitchell
Violin: Almond III, Brunson, Hill
Viola: Elaine, Liu
Cello: Stauffer
Contrabass: G. Biggs
Harp: Hays
Classical Guitar: Estes, Kilmer, Romero
Composition: Dutton, Hogg, Stauffer, Ward-Steinman
Non-Western Instruments: Specialists from specific cultures as available each semester
Jazz Studies: Helzer, Yeager
Opera: Chambers, Eaton, O'Donnell

Scholarships

Information on music scholarships may be obtained by writing to the Chair, Music Scholarship Committee, Music Department, San Diego State University.

Music

In the College of Professional Studies and Fine Arts

General Information

The Department of Music, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in Music and the Master of Music degree. The department is a member of the National Association of Schools of Music.

With approval of the department, students electing to pursue the Master of Arts degree may specialize in one of the following fields: composition; ethnomusicology; music education; music history and literature; musicology; piano, voice and Suzuki string pedagogy and theory. Master of Music students may specialize in performance, composition and choral or instrumental conducting. Research opportunities are also available in the areas of ethnomusicology; music education; music history and literature; musicology; piano, voice and Suzuki string pedagogy; and music theory.

Specializations of the music faculty include:

Composition and theory: Aesthetics; comprehensive musicianship; contemporary music; electronic music; interrelationships among the arts; music and instruments of Harry Partch.

Conducting: Literature and score analysis, hand techniques, rehearsal techniques, general preparation and performance in both the choral and instrumental areas.

Ethnomusicology: African, Afro-American, American folk, East Asian, European, South Asian, and Southeast Asian musics. Students may elect research in other areas with approval of the faculty adviser.

Music history/literature, and musicology: Early music, French baroque, classical, Czech music, romantic, contemporary. Students may select (with the approval of the faculty) a topic in Medieval, Renaissance, Baroque, Classical, Romantic, twentieth century music, or American music.

Performance: Performance studies are offered on all instruments.

Piano pedagogy: Techniques in training the piano teacher for the child, adolescent and adult.

Voice pedagogy: Training the singing teacher through physiological and empirical methods.

Suzuki string pedagogy: This field is under the direction of a Suzuki Association of the Americas Registered Teacher Trainer.

The 78,000 square foot music building, completed 1970, includes a 200-seat recital hall, rehearsal rooms for instrumental and choral organizations, an electronic music studio, three class-piano rooms, a listening library with a collection of over 13,000 titles available for faculty/student study and 21 listening rooms, 71 individual practice rooms, and approximately 160 pianos and 800 other musical instruments. The University library contains an extensive collection of over 75,000 music books and scores.

The Department of Music has established a new 12 station student computer lab located in the Record Listening Library. This lab will provide facilities for computer assisted instruction in music theory and ear training, word processing programs for essays and term papers, programs for graphics and composing music, a program for a MIDI sequencer from an electric keyboard, and programs for printing music.

The Electronic Music Studio has been completely renovated and includes the latest electronic music equipment available.

The Department of Music houses the unique collection of music and instruments by Harry Partch as well as the numerous instruments, scores, and books owned by the Center for World Music. This collection includes 10 Balinese and Javanese Gamelans and numerous other musical instruments of the world. The department's holdings also include an extensive collection of early Western musical instruments.

The Department of Music has the following scholarship funds and endowments: Nadine Bolles Piano, Chinese Violin Fund, Elsie Hiland Fox

Memorial, M. H. Golden Memorial, Lois Greeno Memorial, Joseph E. Johnson, Kiwanis Club, Lieber-Flower, Jan Lowenbach Musicology, Music Department Fund, Bessie S. Purdy Memorial, Edith Savage Memorial, SDSU Opera Theatre, Sigma Alpha Iota Alumni, SPEBQSA, Paul C. Stauffer Memorial, University Band, Ellen Woolley Orchestra; Marvin Yerkey Memorial.

Admission to Graduate Study

1. As a part of the application for admission to the University, applicants will submit a one-page statement to set forth aims and goals in their graduate studies.
2. Applicants admitted to the department will be accepted with conditional graduate standing. Placement examinations will be administered in Western music history, Western music theory, and performance studies. Normally two semesters will be allowed to remove deficiencies indicated by the examinations through no-credit remedial work in the form of undergraduate courses or other projects and instruction.

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, students must satisfy the following requirements before they will be recommended for classified graduate standing:

1. Complete a bachelor's degree with a major in music including full preparation in performance, theory, music history and literature, or hold a bachelor's degree from an accredited institution and present sufficient evidence of study and experience in music to demonstrate the equivalency of a bachelor's degree with a major in music.
2. Satisfactorily complete placement examinations in Western theory, Western music history and literature, and performance. Details may be obtained from the Department of Music.
3. Be accepted in the degree and emphasis of their choice by the departmental graduate committee.

Master of Music Degree

In addition to meeting the admission requirements listed above, students who seek a performance specialization must submit musical scores of their original work. Those seeking a conducting specialization must submit evidence (programs, videotape) of their conducting expertise.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin, and must have removed any deficiencies assigned on the basis of the placement examinations.

Specific Requirements for the Master of Arts Degree

(Major Code: 10051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a 30-unit graduate program which includes the following core: Music 613A, 613B, 613C, 613D, 613E or 613F; 652A, 652B, 652C, 652D, 652E or 652F; and 690. The M.A. student may choose either Plan A or B.

Plan A is required of those students electing programs in composition, theory, and musicology. Students are required to enroll in Music 799A, Thesis or Project, and to pass a final oral comprehensive examination on the thesis. Students whose field is composition will submit an original composition with analysis.

Plan B is for students in the music history and literature program. These students are required to give a lecture-recital presented to the Department of Music. Students are required to enroll in Music 650 (4 units). A final oral comprehensive examination and a written document are required of all students electing Plan B. Students should check the department's guidelines, rules, and procedures.

Students whose field is ethnomusicology, voice or piano pedagogy, Suzuki string pedagogy, or theory may choose either Plan A or Plan B. Master of Arts candidates in ethnomusicology, music history and literature, and musicology must have a reading ability in at least one foreign language, preferably German or French.

In addition to the requirements stated above, students must complete requirements in the specific program selected.

Composition: Music 607 (2 units); 613A, 613B, 613D (6 units); 650Y (4 units); 658; three units of electives.

Ethnomusicology: Music 561 (6 units); 562 (2 units); 614; 650Z (4 units); 656.

Music History and Literature: Music 650 (4 units); at least twelve units selected from Music 652, 655, 658, 660, 665, 670; five units electives. (Candidates in this program will select Plan B.)

Musicology: At least three units selected from Music 652, 656; at least nine units from Music 655, 658, 660, 665, 670; six units of electives.

Music Theory: At least six units selected from Music 562 or 569, 570, 580, 613F, 655; Music 613A, 613B, 613C (9 units); Music 658, 660 (6 units).

Piano Pedagogy: Music 541A, 542A, and either 641 or 642; at least three units selected from Music 652, 655, 660, 670; four units of 650A; three units of electives.

Suzuki String Pedagogy: Music 541B, 542B, 600A; 650 (4 units); six units of electives.

Vocal Pedagogy: Music 541C, 542C, 643; at least three units selected from Music 652, 655, 660, 670; four units of 650D; three units of electives.

Refer to Student Handbook for further details.

Admission to Master of Music

Students who seek a performance specialization must pass an audition. Students seeking a composition specialization must submit musical scores of their original work. Those seeking a conducting specialization must submit evidence (programs, videotape) of their conducting expertise. Please consult the Department of Music for further information concerning admission.

Specific Requirements for the Master of Music Degree

(Major Code: 10041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units from courses listed below as acceptable on master's degree programs in music, of which at least 18 must be in 600- and 700-numbered courses. Music 650 (9 units, 6 units for students specializing in conducting) and Music 767 (3 units) are required. In addition, Music 648A or 648B is required for students in the conducting specialization.

Completion of at least one seminar in music theory and at least two music history seminars are required. Vocal students to be advanced to candidacy must satisfy either a departmental foreign language examination, or attain a satisfactory grade in an introductory course in an appropriate foreign language selected with approval of the graduate adviser. A final oral comprehensive examination is required for all Master of Music candidates.

In addition to the requirements stated above, students must complete requirements in the specific program selected.

Composition: Music 613B; Music 652D or 652E; Music 690; at least six units from Music 613A or 613C or 613D; Music 652D or 652E, Music 660; three units of electives.

Conducting (Instrumental): Music 613B or 613C; Music 648B; Music 652A, or 652B, or 652C, or 652D; at least three units from Music 613B or 613C, 655, 660; Music 690; seven units from Music 554A or 554B; Music 570, 607, 648A.

Conducting (Choral): Music 600B; Music 613B or 613C; Music 648A; Music 652A, or 652B, or 652C, or 652D; at least three units from Music 613B or 613C, Music 655, 660, 670; Music 690;

at least four units from Music 541C, Music 554D or 554F; Music 570 (1-3), Music 648B.

Performance (Instrumental): Music 613; Music 652A or 652B or 652C or 652D; Music 690; at least six units from Music 607, 655, 656, 658, 660, 665, 670; three units of electives.

Performance (Voice): Music 613; Music 652A or 652B or 652C or 652D; Music 690; at least six units from Music 607, 655, 656, 658, 660, 665, 670; three units of electives.

Courses Acceptable on Master's Degree Program in Music

UPPER DIVISION COURSES

507. Composition Laboratory (1)

Three hours of laboratory.

Prerequisites: Music 207 and consent of instructor.

Continuation of Music 207. Maximum credit two units.

510. Advanced Electronic Music (3)

Two lectures and three hours of laboratory.

Prerequisite: Music 310.

Complex waveform generation, remote voltage control generation, and historic aspects of electronic music.

541. Performance Studies Pedagogy (3)

Two lectures and three hours of laboratory.

Prerequisite: Consent of instructor.

Teaching beginning and intermediate applied music. Survey and evaluation of teaching materials. Observation of individual or group lessons.

A. Piano

B. Strings

C. Voice

542. Performance Studies Laboratory (2)

One lecture and three hours of laboratory.

Prerequisite: Music 541A is prerequisite to 542A and 541B is prerequisite to 542B.

Practical experience in the teaching of individual or group lessons.

A. Piano

B. Strings

C. Voice

543. Diction (1)

Principles of pronunciation and enunciation.

Application to song and opera in English, Italian, German, and French.

554. Music Literature (2) I, II

Prerequisite: Music 258B.

A concentrated study of the literature in the several areas listed. Analysis of scores and recordings. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

A. Chamber Music Literature

B. Symphonic Literature

D. Song Literature

E. Choral Literature (Cantata, Mass, Oratorio)

F. Opera Literature

G. Keyboard Literature (Seventeenth Century through

Beethoven) (Formerly numbered Music 554C.)

H. Keyboard Literature (Schubert to the Present)

555. Proseminar in Music History (3)

Prerequisites: Six units from Music 452A, 452B, or 452C.

Research in music history. Problems presented in specific historical style periods.

556. Proseminar in Ethnomusicology (3)

Prerequisite: Music 258B.

Ethnomusicological theory and methodology, including history of the field and its relation to such disciplines as anthropology and linguistics. (Formerly numbered Music 553.)

558. Modal Counterpoint (3)

Prerequisite: Music 258A.

Modal counterpoint in the Renaissance. Composition in liturgical and secular forms. Origins and evolution traced with reference to contemporary uses of modal or pandiatonic counterpoint.

561. Area Studies: Ethnomusicology (3)

Prerequisites: Music 351E and 351F.

Music of a specific culture. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

562. World Music in Context (2)

One lecture and two hours of activity.

Prerequisites: Music 351E or 351F and consent of instructor.

Practical experience in the performance of specialized traditional genres of world music, social and environmental context in which they exist. Relationship of music, dance, and theater. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

566A-566B. Jazz Arranging and Composition (2-2)

Prerequisite: Music 258B.

Analysis of jazz compositions and arrangements; arranging and composing for large and small jazz ensembles.

569. Advanced Collegium Musicum (1) I, II

Prerequisite: Music 369.

Preparation and performance of representative works by a specific medieval or renaissance composer on historical instruments. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

570. Advanced Chamber Music (1) I, II

Three hours.

Prerequisite: Consent of instructor.

Study and public performance of established repertory as well as new compositions. Sections for string, woodwind, brass, piano and mixed ensemble groups. May be repeated with new course content. See Class Schedule for specific content. Maximum credit four units.

576. Symphonic Band (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

580. Analogs in Music, Art, and Literature (3)

Prerequisite: At least one survey course in music history or appreciation, art history, or comparative literature.

Cross-influences and correspondences in the arts from the standpoints of style, texture, rhythm, and form.

581. Symphony Orchestra (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

585. Concert Choir (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

589. Jazz Ensemble (1) I, II

Three hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

591. Theory and Practice of Musical Expression and Interpretation (2)

Prerequisite: Music 258B.

Musical perception as it pertains to expressive aspects of performance. Theories of interpretation and ways in which performers can create the impulse to shape its inherent architectonic structure.

596. Special Topics in Music (1-3)

A specialized study of selected topics from the several areas of music. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**600. Seminar in Music Education (3)**

Prerequisite: Consent of instructor.

Seminars in music education are offered to provide an opportunity for concentrated study in the several areas listed.

- A. Development and Teaching of Strings
- B. Choral and Vocal Techniques
- C. General Music

601. Seminar in Foundations of Music Education (3)

History and philosophy of music education in relation to current trends in the teaching of music.

604. Seminar in Comparative Music Education (3)

Various international philosophical and technical approaches to teaching music to include the Orff, Kodaly, Suzuki and other systems.

607. Seminar in Composition (2-3)

Three hours of laboratory and public performance of an extended original work as a project.

Prerequisite: Music 507.

Advanced composition for various media, development of original idiom, intensive study of modern music.

613. Seminar in Music Theory (3)

Prerequisite: Music 553 is prerequisite to 613F.

Current advanced analytic techniques in various areas of music.

- A. History and Development of Music Theory
- B. Problems in Analysis
- C. Functional Harmony and Schenkerian Analysis
- D. Electronic Music: Analysis and Composition
- E. Ethnomusicology: Organology
- F. Ethnomusicology Notation and Transcription (Formerly numbered Music 609A.)

614. Field Research Methods in Ethnomusicology (3)

Prerequisites: Music 556 and 613F.

Field recording, interviews, operation of audiovisual equipment. Analysis of collected materials. (Formerly numbered Music 609B.)

641. Piano Pedagogy: The Adolescent (3)

Two lectures and three hours of laboratory.

Prerequisite: Music 542A.

Study of music through the piano for the adolescent with analysis and application of appropriate teaching procedures and learning theories. Analysis of literature with corresponding techniques, musical skills and creativity. Supervised teaching.

642. Piano Pedagogy: The Adult (3)

Two lectures and three hours of laboratory.

Prerequisites: Music 541A and 542A.

Study of music for teaching the advanced teenager, college student or adult student. Analysis of solo and ensemble literature. Problem solving and practice. Supervised fieldwork.

643. Seminar: History of Vocal Pedagogy (3)

Prerequisite: Music 541C.

Techniques and practices used to train the human voice in music from the seventeenth century to the present.

648A. Seminar in Advanced Choral Conducting (2)

Prerequisite: Music 448A.

Course designed to develop skills at professional level; study of different styles of choral literature and their relationship to conductor's art; score analysis and experience in conducting.

648B. Seminar in Advanced Instrumental Conducting (2)

Prerequisite: Music 449A.

Course designed to develop skills at professional level; study of conducting style as related to band and orchestra literature score analysis and experience in conducting.

650. Advanced Performance Studies (2) (1-3 units for 650D) (3 units for Master of Music candidates)

Fifteen one-hour private lessons (2 units); twenty-two hours private lessons (3 units).

Prerequisite: Audition before music faculty. Music 650D for one unit limited to M.F.A. in Drama students.

Advanced studies in technical, stylistic, and aesthetic elements of artistic performance culminating in a graduate recital. Maximum credit nine units, four of which are applicable to a master of arts degree. Music 650X will include regular ensemble conducting experience.

- | | |
|------------------------------------|--|
| A. Piano | N. Baritone Horn |
| B. Harpsichord | O. Tuba |
| C. Organ | P. Percussion |
| D. Voice | Q. Violin |
| E. Flute | R. Viola |
| F. Oboe | S. Cello |
| G. Clarinet | T. Contrabass |
| H. Saxophone | U. Harp |
| I. Medieval or Renais. Instruments | V. Classical Guitar |
| J. Bassoon | X. Conducting (Instrumental or Choral) |
| K. French Horn | Y. Composition |
| L. Trumpet | Z. Non-Western Instruments |
| M. Trombone | |

652. Seminar in Music History (3)

Prerequisites: Music 452B and consent of instructor. Music 351F is prerequisite to 652F.

Seminars in music history are offered for intensive study in each of the historical eras as listed below.

- A. Music of the Middle Ages and Renaissance
- B. Music of the Baroque Era
- C. Music of the Eighteenth and Nineteenth Centuries
- D. Twentieth Century Music
- E. American Music
- F. History of Asian Music

655. Seminar in Musicology (3)

Prerequisite: Music 452B.

Problems and research in musicology. Projects in bibliography, source materials, music history, criticism, aesthetics and related fields. Writing and presentation of a scholarly paper.

656. Seminar in Ethnomusicology (3)

Prerequisite: Music 556.

Variable topics. Maximum credit nine units applicable to a master's degree.

658. Advanced Practicum in Music (3)

One lecture and six hours of activity.

Prerequisites: Completion of undergraduate requirements in an area related to one of the specializations in the M.A. or M.M. degrees, and consent of instructor in the area.

Students will be assigned to appropriate class sections within selected undergraduate area as instructional assistants under staff supervision. Maximum credit six units applicable to a master's degree.

660. Seminar: A Major Composer (3)

Prerequisite: Music 452B. Completion of a seminar in Music 652A is recommended.

The life, milieu, and works of a major composer, such as Bach, Mozart or Schubert will be studied. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

665. Seminar: Notation of Polyphonic Music (3)

Prerequisite: Music 452B. Completion of Music 652A is recommended.

Selected problems related to the notation of Medieval, Renaissance, and Baroque music: scores and tablatures; White mensural notation; Black notation to the end of Franconian notation; French, Italian, mixed and mannered notation. Examples will be transcribed into modern notation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

670. Seminar: Interpretation of Early Music (3)

Prerequisites: Completion of Music 652A and 652B is recommended.

Performance practice in Medieval, Renaissance and Baroque music; projects in music editing; reports; performance on historical instruments. Participation in the Collegium Musicum required.

690. Seminar in Research Procedures in Music (3)

Reference materials, bibliography, investigation of current research in music, processes of thesis topic selection and techniques of scholarly writing.

696. Special Topics in Music (1-3)

Prerequisite: Graduate standing.

Intensive study in specific areas of music. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

767. Graduate Recital (3)

Prerequisites: Advancement to candidacy. Consent of department chair.

Selection of literature for recital program of at least one hour in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before a graduate committee of music department faculty. Conductors must conduct a public performance.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for a master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.

Assistantships

Graduate teaching assistantships in natural science are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Natural Science, in the College of Sciences, offers advanced coursework in natural science and science education. Graduate courses in natural science and science education may be used to fulfill requirements for advanced degrees in other departments with the approval of the student's graduate adviser.

TELEPHONE: (619) 594-5157

UPPER DIVISION COURSES

500. Seminar in Curriculum and Instruction in Science (3)
Prerequisite: Teacher Education 453.
Factors directing the changing science curriculum in secondary schools; recent trends and current research in the teaching of science in secondary schools and in science curriculum development; current practices in science teaching in secondary schools.

596. Special Topics in Natural Science (1-4) I, II, S
Prerequisite: Minimum 10 units of natural science.
Selected topics in natural science for preservice and inservice elementary and secondary teachers and candidates for the M.A. in Education. May be repeated with consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar in Science Education (3)
An intensive study in advanced science education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

General Information

The School of Nursing in the College of Health and Human Services offers a two-year graduate curriculum leading to the Master of Science degree in Nursing.

Graduates of the program will be prepared to function as executive-level nursing administrators or clinical specialists. There are three concentrations: Nursing Systems Administration, Community Health Nursing, and Critical Care Clinical Specialist. Students in Critical Care may specialize in Pediatric Critical Care Nursing and students in Community Health Nursing may specialize in Cross-cultural Nursing. The graduate program requires a minimum of 42 units. All students complete a master's thesis. The program is designed for either full- or part-time study. All graduates of the program will be prepared for beginning roles as nurse researchers and will be prepared for further educational opportunities in doctoral studies.

A multitude of research opportunities are available to students in the program. The School of Nursing has clinical contracts with all of the leading research and clinical teaching health care agencies within the county. Furthermore, all graduate faculty are doctorally prepared, and students may have the opportunity to be involved in ongoing faculty research projects.

Application for Admission

Appropriate application materials to obtain tentative admission to the program leading to the Master of Science degree in Nursing can be secured by writing directly to the School of Nursing. Detailed instructions including information concerning application procedures will accompany the application form.

STUDENTS ARE ADMITTED IN THE FALL AND SPRING SEMESTERS OF EACH YEAR. THE APPLICANT MUST FILE AN APPLICATION FOR ADMISSION TO THE SAN DIEGO STATE UNIVERSITY OFFICE OF ADMISSIONS AND RECORDS.

Nursing

In the College of Health and Human Services

Admission to Graduate Study

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for admission to a program with classified standing:

1. Have a baccalaureate degree with a major in nursing from a program accredited by the National League for Nursing. Graduates from baccalaureate programs not having an upper division major in nursing or who have deficiencies will be considered on an individual basis and may be required to enroll in designated undergraduate courses and graduate courses beyond the minimum credits necessary for advanced degrees.
2. Have a minimum cumulative grade point average of 3.0 in undergraduate upper division nursing courses.
3. Have a minimum score of 950 on the GRE General Test (verbal and quantitative sections).
4. Have a license to practice registered nursing.
5. Have a minimum of one year full-time nursing experience in a hospital, ambulatory care facility, or public health agency.
6. Have satisfactorily completed Nursing 500, Client Assessment, or equivalent.
7. Have satisfactorily completed a course in statistics. (Mathematics 250 or equivalent.)
8. Submit three references attesting to capability to do graduate work in nursing.
9. Submit a personal statement.

Conditional Admission

Students who do not satisfy all admission requirements to the School of Nursing may, with special consideration, be admitted in a conditionally classified graduate standing. At the deadline date specified on the conditional form (at time of acceptance), the faculty of the School of Nursing shall recommend to the Graduate Dean that the student:

1. Be disqualified from further study in the program, or
2. Be continued in conditionally classified status, or
3. Be granted full graduate classified standing.

Special Instructions

Students enrolled in the graduate program in nursing are required to provide their own professional liability insurance (minimum \$200,000-\$600,000) and transportation to off-campus health care agencies.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must satisfactorily complete all four core courses (Nursing 602, 604, 606, and 608) with a minimum grade point average of 3.0, and no less than a B- grade in each of the four core courses, and be recommended by the graduate faculty.

Students enrolled in the cross-cultural specialization must demonstrate Spanish competency through a score of 2 or better on the Oral Proficiency Examination. Testing will be conducted by a member of the Department of Spanish and Portuguese Languages and Literatures who will also counsel students on appropriate courses to assist in achieving desired score on the Oral Proficiency Examination.

Specific Requirements for the Master of Science Degree

(Major Code: 12031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete an officially approved 42-unit course of study. The program includes:

1. Fifteen units of core courses, Nursing 602, 604, 606, 608, and 740.
2. A minimum of 18-21 units of graduate courses in the area of concentration.
3. Three to six units of electives.
4. Nursing 799A, Thesis.

The student is required to pass a final oral examination in defense of the thesis. Up to 12 semester units may be accepted in transfer from an accredited School of Nursing.

Community Health Nursing Concentration

Required courses for the Master of Science degree with a concentration in Community Health Nursing are as follows:

Core Courses	
NURS 602	Issues in Nursing and Health Care
NURS 604	Theory Development and Nursing Theories
NURS 606	Research Methods in Nursing
NURS 608	Nursing Care System as an Organization
NURS 740	Advanced Research Methods in Nursing
	Units
	3
	3
	3
	3
	3
	15

Area of Concentration Courses

PH 601	Epidemiology
NURS 630	Community Health Nursing Theory
NURS 631	Community Health Nursing Practicum
NURS 730	Advanced Community Health Nursing
NURS 732	Advanced Community Health Nursing Practicum
NURS 736	Seminar in Community Health Problems
	Three units of electives selected at 600-level or above from Nursing, Anthropology, Public Health, or Sociology.
	Units

Health Services Credential

(Credential Code: 00600)

San Diego State University offers curricula leading to the Health Services Credential. This authorizes the holder to serve as a School Nurse. For information concerning the credential, the student is referred to the School of Nursing Office, HT-58.

The Health Services Credential has been approved by the Commission on Teacher Credentialing.

Standards for Admission

1. Baccalaureate degree in Nursing or related field (including community health nursing).
2. Current California Registered Nurse License.
3. Required admission and planning interview with program adviser.

Program

The following program elements are required of all health services credential candidates: (31 units).

NURS 500	Client Assessment
NURS 502	School Nursing Management Practices
NURS 504	Primary Health Care of the School-Aged Child
NURS 504L	Primary Health Care of the School-Aged Child Practicum
NURS 506	Current Concepts in Community Health Nursing
HS 521	Health Education for School Nurses
*PH 601	Epidemiology
C DIS 540	Hearing Conservation and Audiometry for School Nurses
SPED 500	Exceptional Individuals
Electives:	3 units selected from Nursing 610*, Health Science 574, 575*, Special Education 501.
	Units
	4
	3
	3
	3
	3
	3
	3
	3

	3

* Prerequisites waived for students in this program.

Courses Acceptable on Master's Degree Program in Nursing

UPPER DIVISION COURSES

500. Client Assessment (4)

Three lectures and three hours of laboratory.

Prerequisite: Consent of graduate adviser.

Physical diagnosis and psychosocial assessment of clients with health problems. Nursing process emphasis to include biopsychosocial health history and nursing diagnosis.

502. School Nursing Management Practices (3) II

Prerequisite: Nursing 412.

Professional and organizational systems and structures which influence health care practices of the school nurse. Health services administration; legal responsibility; role and function of the school nurse in the school, home, and community. Current practices in school health setting.

504. Primary Health Care of the School-Aged Child (3) I

Prerequisites: Baccalaureate degree in nursing or related field; current California Registered Nurse License.

Primary health care of the school-aged child and adolescent. Major health problems, chronic illnesses, communicable diseases, traumatic injuries, learning and behavior disorders.

504L. Primary Health Care of School-Aged Child Practicum (3) II

Twelve hours of practicum.

Prerequisites: Nursing 500 and 504.

Application of theory to a select population of school-aged children and adolescents. Provides direct experience in clinical nursing management of common health problems and developmental disabilities.

506. Current Concepts in Community Health Nursing (3)

Prerequisite: Consent of instructor.

Contemporary roles of community health nurse. Appropriate use of community resources for program development, strategies for inter-agency communication, networking, ethnic issues, family and systems theory, and major stressors affecting school community and families of the school-aged child and adolescent.

596. Special Topics in Nursing (1-3)

Prerequisites: Completion of 30 upper division units in nursing or graduate status; 3.0 grade point average.

Selected topics in the practice of nursing. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

602. Issues in Nursing and Health Care (3)

Analysis of current issues and trends in the profession of nursing and the health delivery system.

604. Theory Development and Nursing Theories (3)

Development of theory; critique of current nursing theories and theories used by nursing such as interaction, systems and developmental theories; process of developing a theoretical framework.

606. Research Methods in Nursing (3)

Prerequisite: Mathematics 250.

Research process in nursing including identification of research problems, research design, data analysis and reporting. Adaptations of methodology to nursing care systems and ethical issues involving human subjects.

608. Nursing Care System as an Organization (3)

Principles of organizational structure and function in nursing care systems. Uses of human resources, motivation, power, and values within these organizations.

610. Social and Cultural Dynamics of Health Care (3)

Prerequisite: Consent of graduate adviser.
Impact of culture on attitudes, behavioral norms and health/illness activities. Implication of cultural attitudes for planning of health programs and nursing care modalities for ethnic groups.

620. Current Nursing Clinical Practice (3)

Prerequisite: Nursing 500.
Recent nursing developments in acute and ambulatory care.

622. Nursing Systems Administration (3)

Prerequisites: Nursing 604 and 608.
Administrative theories and concepts within organizations of nursing. Nature of nursing care systems administration, role of nurse administrator and administrative process in nursing care agencies.

624. Nursing Care Systems and Personnel Management (3)

Prerequisites: Credit or concurrent registration in Nursing 604, 608, and Management 611.

Issues related to personnel resources, staff development, staff utilization and collective bargaining in health care agencies and nursing care systems.

630. Community Health Nursing Theory (3)

Prerequisites: Nursing 604 and 606.
Family and systems theory, group dynamics, change process, application of ethnoscience to nursing process in the community setting.

631. Community Health Nursing Practicum (3-6)

Nine hours per week for 3 units; eighteen hours per week for 6 units.
Prerequisite: Concurrent registration in Nursing 630.
Experience working with individuals and families of a selected community group applying theoretical knowledge within framework of nursing process. May be repeated with different client populations. Maximum credit six units applicable to a master's degree.

642. Cross-Cultural Nursing Theory (3)

Prerequisites: Nursing 604, 606, 610, Public Health 601. Concurrent registration in Nursing 644.
Application of ethnoscience to nursing process with ethnic people. Development of cultural assessment tool; systems and family theory in delivery of nursing care. Delivery of nursing care to the family unit.

644. Cross-Cultural Nursing Practicum (3)

Nine hours of clinical experience.
Prerequisite: Concurrent registration in Nursing 630.
Guided experience with individuals and families in selected ethnic groups in community; development of skill in use of interpreters in delivery of care, design and application of cultural assessment tool; application of cross-cultural theory in the nursing process.

650. Critical Care Nurse Specialist (3)

Prerequisites: Nursing 604 and 608. Credit or concurrent registration in Nursing 602 and 606.
Roles of critical care nurse specialist.

651. Psychosocial Aspects of Critical Care Nursing (3)

Prerequisites: Nursing 604 and 608. Credit or concurrent registration in Nursing 602, 606 and 650.
Psychosocial phenomena of concern when caring for critically ill adults. Identification, utilization, and evaluation of theoretical frameworks in clinical nursing practice.

652. Critical Care Nursing (3)

Prerequisites: Nursing 606, 650 and 651. One year critical care nursing experience.
Care of adults experiencing acute alterations in cardiovascular, respiratory and renal function. Clinical decision making, variables altering client response to care.

653. Critical Care Nursing Practicum (3)

Nine hours of laboratory.
Prerequisite: Credit or concurrent registration in Nursing 652.
Guided clinical experiences specific to practitioner role of critical care nurse specialist.

660. Pediatric Clinical Nurse Specialist (3)

Prerequisites: Nursing 604 and 608; credit or concurrent registration in Nursing 602 and 606.
Roles, stressors, professional organizations, and implementation strategies for a pediatric clinical nurse specialist. Legal and ethical issues that impact pediatric nursing care and the theoretical basis for therapeutic play.

661. Psychosocial Aspects of Pediatric Nursing (3)

Prerequisites: Nursing 604 and 608; credit or concurrent registration in Nursing 602, 606, and 660.
Advanced application, analysis and synthesis of physical, psychosocial, cognitive, moral, psychosexual, and parenting theories pertinent to pediatric nursing care.

663. Pediatric Nursing Practicum (3)

Nine hours of laboratory.
Prerequisites: Nursing 661 and concurrent registration in Nursing 652.
Guided clinical experiences for the application of concepts learned in Nursing 652, 660, and 661 to complex pediatric clinical situations.

684. Computer Applications for Human Services and Health Care Professionals (3)

Emerging trends in health care computer systems including applications to biological monitoring, quality assurance programs, research, budgeting and staffing patterns. Ethics of computer use and influence of technology on client care. User skills.

696. Seminar in Selected Topics in Nursing (1-3)

Intensive study in specific areas of nursing. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

724. Nursing Systems Administration Practicum (3)

Nine hours of laboratory.
Prerequisites: Nursing 622; Accountancy 600, and concurrent registration in Nursing 624.
Provides observation and guided administrative experience specific to the role and function of the first level nurse manager in a selected health care system. Needs and individual objectives of the student are integrated into the experience. May be repeated for elective credit in a different health care system. Maximum credit six units applicable to a master's degree.

726. Advanced Nursing Systems Administration Practicum (3)

Nine hours of laboratory.
Prerequisites: Nursing 724 and concurrent registration in Nursing 740.
Provides observation and guided administrative experience specific to the role and function of the executive level manager in a selected health care system. Individual needs and objectives of the student are integrated into the experience. May be repeated for elective credit in a different health care system. Maximum credit six units applicable to a master's degree.

730. Advanced Community Health Nursing (3)

Prerequisite: Nursing 630.
Nursing assessment and analysis of community characteristics, including social, cultural and economic factors. Design of programs which meet the needs of particular ethnic groups and health aggregates for health promotion and disease prevention.

732. Advanced Community Health Nursing Practicum (3)

Prerequisite: Concurrent registration in Nursing 730.
Leadership role and planning function of a community health nurse specialist in a selected community setting.

736. Seminar in Community Health Problems (3)

Prerequisite: Advancement to candidacy in health related disciplines.
Interdisciplinary analysis of community based health practice problems.

740. Advanced Research Methods in Nursing (3)

Prerequisites: Nursing 604, 606, and six units in area of concentration.
Utilization of research process in selected areas of nursing. Application of advanced design, measurement and data analysis technique to health care problems.

742. Advanced Cross-Cultural Nursing Theory (3)

Prerequisites: Nursing 642, 644. Concurrent registration in Nursing 744.

Consumer education and consumer involvement in health care for ethnic groups; legislation affecting health delivery; change process and nursing practice; conceptual models for health delivery to ethnic groups. Delivery of nursing care to community groups.

744. Advanced Cross-Cultural Nursing Practicum (3)

Nine hours of clinical experience.
Prerequisite: Concurrent registration in Nursing 730.
Design and implementation of nursing care to particular ethnic groups in the community. Design of educational modalities for health promotion with ethnic groups; design of strategies to increase access to care for ethnic population.

752. Advanced Critical Care Nursing (3)

Prerequisites: Nursing 652 and 653.
Nursing care of adults experience acute alterations in neurological, endocrine, immunological, and gastrointestinal function. Clinical decision making, variables altering client response to care.

753. Advanced Critical Care Nursing Practicum (3)

Nine hours of laboratory.
Prerequisite: Credit or concurrent registration in Nursing 752.
Observation and guided experiences specific to educator and consultant roles of critical care nurse specialist.

797. Research (1-3) Cr/NC/SP

Prerequisite: Advancement to candidacy.
Independent research in a specialized subject. Maximum six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of instructor.
Independent study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in the course, Thesis 799A, in which the student expects to use the facilities and resources of the University. Also student must be registered in the course when the completed thesis is granted final approval.

Oceanography and Marine Studies

Administered by the Dean of the College of Sciences

OFFICE: Life Sciences 105
TELEPHONE: (619) 594-5142

Faculty Committee for Marine Studies

Frank T. Awbrey, Ph.D., Professor of Biology
John B. Conway, M.P.H., Ph.D., Professor of Public Health
Richard F. Ford, Ph.D., Professor of Biology
James H. Mathewson, Ph.D., Professor of Chemistry
Ira J. Noorany, Ph.D., Professor of Civil Engineering
Charles F. Phleger, Ph.D., Professor of Natural Science
Douglas A. Stow, Ph.D., Associate Professor of Geography

General Information

San Diego State University provides preparation for ocean-oriented careers by offering marine-related coursework, research opportunities and oceanographic experience within regular degree programs in the Departments of Biology, Chemistry, Economics, Civil and Mechanical Engineering, Geography, Geological Sciences, Natural Science, Physics, and Public Health. Master's degrees with research focus on marine problems may be earned in these departments. Degrees in general oceanography or marine studies are not offered by the University. However, a Master of Arts or Master of Science degree may be earned as a special major (see the appropriate section in this bulletin).

The Center for Marine Studies coordinates work in the area of marine studies and provides special supporting services to the faculty, staff, and students which includes student advising, assistance in research and publication, operation of the University's marine laboratory at Mission Bay, and a boat operations program. The University also operates the Pacific Estuarine Research Laboratory for the study of estuarine and wetland ecology. (See the General Information section of this bulletin.)

Specific courses in oceanography (listed below) are offered with the cooperation of faculty from the participating departments. Advanced coursework and research in geological and physical oceanography are conducted in the Geological Sciences Department. The Chemistry Department offers work in chemical oceanography. Advanced courses and research in biological oceanography, marine biology, marine botany, and marine zoology are in the Department of Biology. The major areas of research under the joint doctoral program in ecology include coastal marine ecology, estuarine ecology and aquaculture. Similar marine-related coursework and research are offered in the Departments of Economics, the Graduate School of Public Health, Geography and in the College of Engineering. Students who require advising in these areas should inquire at the Center for Marine Studies.

UPPER DIVISION COURSES

Oceanography Courses

541. Oceanography (3) I, II

Prerequisites: Chemistry 200; Mathematics 121 and 122 or 150; Physics 180A or 195, 195L.

Multidisciplinary examination of the physical, chemical, biological and geological aspects of the marine environment and the relationship of man with the sea. Intended for science majors only.

561. Deep Sea Oceanography (3) I, II

Prerequisites: Biology 515 and Chemistry 361A.

Concepts of deep sea oceanography including abyssal biology, physics and chemistry, instruments and methods of deep sea research, biogeochemistry of oceanic ridges, and high-pressure biochemistry.

Biology Courses (Adviser: Ford)

- 513. Marine Microbiology (2)
- 514. Phycology (4)
- 515. Marine Invertebrate Zoology (4)
- 517. Biological Oceanography (4)
- 518. Fisheries Biology (3)
- 519. Aquaculture (3)
- 520. Ichthyology (4)
- 604. Seminar in Aquatic Ecology (2)
- 608. Seminar in Aquatic Microbiology (2)
- 652. Seminar in Marine Zoology (2-3)
- 725. Aquatic Ecology (3)

Chemistry Course (Adviser: Mathewson)

- 501. Chemical Oceanography (3)

Economics Courses (Adviser: Hageman)

- 555. Economic Analysis of Environmental Quality (3)
- 696. Experimental Topics (3)*

Civil Engineering Courses (Adviser: Noorany)

- 632. Computational Hydraulics and Hydrology (3)
- 641. Advanced Foundation Engineering (3)

Geography Courses (Adviser: Stow)

- 504. Coastal and Submarine Physiography (3)
- 508. Physical Climatology (3)
- 510. Advanced Meteorology (3)
- 576. Geography of Marine Resources (3)
- 588. Intermediate Remote Sensing of Environment (4)
- 670. Seminar in Environmental and Resource Conservation Theory (3)
- 770. Seminar in Environmental and Resource Conservation (3)

Geological Sciences Courses (Adviser: Kern)

- 540. Marine Geology (3)
- 545. Descriptive Physical Oceanography (3)
- 548. Coastal and Estuarine Physical Oceanography (3)
- 612. Carbonate Depositional Systems (3)
- 615. Geology of Clays (3)
- 625. Paleogeology (3)
- 640. Geotectonics (3)
- 680. Sedimentary Geochemistry (3)

Public Health Courses (Adviser: Conway)

- 634. Environmental Protection (3)
- 637. Biological Mechanisms of Environmental Toxicants (3)
- 639. Water Quality Investigation (3)

* Acceptable when of relevant content.

OFFICE: Adams Humanities 4142
TELEPHONE: (619) 594-5263

Faculty

Michael J. Carella, Ph.D., Professor of Philosophy
Andrew L. Feenberg, Ph.D., Professor of Philosophy
Maurice Stanley Friedman, Ph.D., Professor of Philosophy
Mary J. Gregor, Ph.D., Professor of Philosophy
Jack McClurg, Ph.D., Professor of Philosophy
Leon Rosenstein, Ph.D., Professor of Philosophy and Humanities
Stanley N. Weissman, Ph.D., Professor of Philosophy, Chair of Department
Thomas S. Weston, Ph.D., Professor of Philosophy (Graduate Adviser)
Deborah G. Chaffin, Ph.D., Associate Professor of Philosophy
Eugene A. Troxell, Ph.D., Associate Professor of Philosophy
John A. Zupko, Ph.D., Assistant Professor of Philosophy

General Information

The Department of Philosophy, in the College of Arts and Letters, offers a program of graduate studies leading to the Master of Arts degree in Philosophy. This curriculum is designed to provide advanced study in the field of philosophy as a basis for further graduate work and to meet the needs of students who plan to teach in colleges or hold other positions of leadership.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. Students may be considered for admission to the graduate program in philosophy in one of two ways.

1. Admission with classified graduate standing requires:
 - a. An undergraduate major in philosophy or a minimum of 24 units of upper division work in philosophy.
 - b. A minimum grade point average of 3.0 in upper division work in philosophy.
2. Admission with conditional classified graduate standing requires:
 - a. Twelve units of upper division work in philosophy.
 - b. A minimum grade point average of 3.0 in upper division work in philosophy.

Students admitted with a grade point average below 2.0 acquire classified graduate standing by completing sufficient units of upper division work in philosophy to yield a total, with previous work, of at least 24 such units. Units earned to complete this undergraduate requirement do not fulfill unit requirements for the master's degree. A minimum grade point average of 3.0 is required for all units attempted after admission.

Units earned to satisfy requirements for a major do not fulfill unit requirements for the master's degree. Other units may fulfill such requirements if earned in courses acceptable on master's degree programs in philosophy.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 15091)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a program of at least 30

Philosophy

In the College of Arts and Letters

units of upper division and graduate courses selected with the approval of the graduate adviser.

Students must complete a minimum of 24 units from courses in philosophy listed below as acceptable on master's degree programs. The 24 units shall include (1) either 796 or 799A and (2) a minimum of 12 units in 600-numbered courses which must include Philosophy 600 and 610 or 620.

Students in the program may elect one of two plans, A or B, to complete the requirements for the degree. Plan A requires the writing of a thesis under Philosophy 799A as part of the outlined course program. If Plan B is elected, the student must pass a comprehensive examination, consisting of two written and one oral, and complete three units in Philosophy 796.

The master's examination shall be conducted by a committee of at least three members selected by the graduate adviser after consultation with the student. Each of the written parts of the examination will be based on a bibliography drawn up by the committee administering the examination after consultation with the student. The oral part of the examination will be in a specific problem area or on a major philosopher. At least three weeks prior to the end of the semester preceding the semester of the examination, the student will consult with his or her committee to determine the bibliographies for the written exams and the subject matter for the oral exam. This consultation must be completed no later than three days after the official close of the semester. A student will not be permitted to enroll in Philosophy 796 if this consultation has not been completed. The master's examination may be repeated only once.

Courses Acceptable on Master's Degree Programs in Philosophy

UPPER DIVISION COURSES

506. Twentieth Century Continental Philosophy (3)

Prerequisite: Six upper division units in philosophy.
Major figures and movements in European philosophy from Husserl to the present.

507. Twentieth Century Anglo-American Philosophy (3)

Prerequisite: Six upper division units in philosophy.
Major figures and movements in Anglo-American philosophy since World War I.

508. Existentialism (3)

Prerequisite: Six units in philosophy.
The philosophical aspects of existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

510. Philosophy of Law (3)

Prerequisites: Three units in philosophy and three units in political science.

The nature of law and the logic of legal reasoning. An exploration of certain key legal concepts such as causation, responsibility, personality and property.

512. Political Philosophy (3)

Prerequisite: Philosophy 101, 102 or 103.
Selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

521. Deductive Logic (3)

Prerequisite: Philosophy 120.
Principles of inference for symbolic deductive systems; connectives, quantifiers, relations and sets. Interpretations of deductive systems in mathematics, science and ordinary language. Not open to students with credit in Mathematics 523.

522. Inductive Logic (3)

Prerequisite: Philosophy 120.

Definition, classification and division. The logic of experimentation and statistics. Formation and validation of hypotheses. Probability theories.

523. Theory of Knowledge (3)

Prerequisite: Six units in philosophy.

The major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

525. Metaphysics (3)

Prerequisite: Six units in philosophy.

Prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

527. Values and Social Science (3)

Prerequisite: Six units in philosophy.

Analysis and discussion of the nature of values and value-judgment with particular reference to the social sciences. Among relevant issues: the naturalistic fallacy, facts and values; authoritarianism, emotivism, objective relativism; the individual and the community.

528. Theory of Ethics (3)

Prerequisite: Six units in philosophy.

Significant and typical value theories and systems and the concrete problems such theories seek to explain. Emphasis will be on moral values.

531. Philosophy of Language (3)

Prerequisite: Six units in philosophy.

An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy and analyticity; related epistemological and ontological problems.

532. Philosophy of History (3)

Prerequisite: Six units in philosophy.

The nature of history and historical inquiry. As metaphysics: A study of theories of historical development. As methodology: history as science, truth and fact in history, historical objectivity, the purpose of history.

535. Philosophy of Religion (3)

Prerequisite: Six units in philosophy.

Philosophical examination of issues raised by the religious impulse in man.

536. Philosophy of Mind (3)

Prerequisite: Three upper division units in philosophy.

Analysis of the concept of mind, intention, behavior, etc. Developments generated by works of such philosophers as Wittgenstein, Wisdom, and Ryle.

537. Philosophy of Science (3)

Prerequisite: Six units in philosophy.

The basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the universe as a whole.

541. History of Aesthetics (3)

Prerequisite: Philosophy 101, 102 or 103.

Major documents in the history of aesthetics.

542. Philosophy of Art (3)

Prerequisite: Six units in philosophy.

The nature of aesthetic experience. Principal contemporary theories of art in relation to actual artistic production and to the function of art in society.

543. Philosophy and Literary Theory (3)

Prerequisites: Three upper division units in philosophy and three upper division units in literature.

Relations between philosophy and literary discourse. Strategies of interpretation offered by major contemporary thinkers.

575. A Major Philosopher (3)

Prerequisite: Six upper division units in philosophy.

The writings of one major philosopher. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to the major. Maximum credit six units applicable to a master's degree.

596. Selected Topics (3)

Prerequisite: Six upper division units in philosophy.

A critical analysis of a major problem or movement in philosophy. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to the major in philosophy. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**600. Seminar in the History of Philosophy (3)**

Prerequisite: Twelve upper division units in philosophy.

A major philosopher, school, or problem. Their historical roots and subsequent historical significance. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

610. Seminar in Philosophy Problems: Values (3)

Prerequisite: Twelve upper division units in philosophy.

Problems in such fields as ethics, politics, aesthetics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

620. Seminar in Philosophical Problems: Knowledge and Reality (3)

Prerequisite: Twelve upper division units in philosophy.

A problem or group of problems in metaphysics, epistemology and logic. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

630. Seminar in Current Philosophical Issues (3)

Prerequisite: Twelve upper division units in philosophy.

Problems in current philosophical publications. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

696. Seminar in Selected Topics (3)

Prerequisite: Twelve upper division units in philosophy.

Intensive study in specific areas of philosophy. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

796. Studies in Philosophy (1-3) Cr/NC

Prerequisites: An officially appointed examining committee and advancement to candidacy.

Preparation for the comprehensive examination for students taking the M.A. under Plan B. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Twelve upper division units in philosophy and consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Patricia Patterson, Ph.D., Assistant Professor of Physical Education

Assistantships

Graduate teaching assistantships in physical education are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department or the graduate adviser.

General Information

The Department of Physical Education, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in Physical Education.

The degree permits the selection, under advisement, of a program of study which may either be oriented towards a generalist approach or with a specialization in one of five areas. The generalist approach encompasses theoretical foundations provided by various relevant disciplines and their application to professional aspects of contemporary physical education. This program is appropriate for individuals who require a broad theoretical foundation that might be applied to teaching, coaching and administration in fields that involve the acquisition of gross motor skills and the enhancement of physical fitness. The five areas of specialization offered by the department are Adapted Physical Education, Applied Exercise Physiology, Kinesiology, Sports Psychology, and Teaching and Coaching Effectiveness. Each specialization has a strong theoretical component that provides a basis for students who anticipate employment in the academic, public or private sectors, or who intend to pursue a doctoral degree within the area of specialization.

The faculty includes researchers who have been professionally active in each of the areas of specialization. The department also has several clinical facilities that provide the opportunity for students and faculty to work with students, patients and subjects. In addition, newly renovated laboratories for exercise physiology, biomechanics, motor control, teaching and coaching, and kinanthropometry are available for teaching and for student and faculty research. A variety of other health and education-related projects are routinely conducted in conjunction with local educational and medical institutions.

Physical Education

In the College of Professional Studies and Fine Arts

Admission to Graduate Study

Students will be admitted to the graduate program in physical education only after careful consideration of their qualifications by the physical education graduate adviser. Complete applications must be received by the Office of Admissions and Records prior to March 1 for the fall semester and November 1 for the spring semester.

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in physical education must meet the following requirements:

1. A bachelor's degree in physical education. Applicants who do not have an undergraduate major in physical education may be admitted to conditionally classified graduate standing on the recommendation of the departmental graduate adviser. They will be required to complete the minimum requirements for an undergraduate major in physical education (i.e. up to 18 units of upper division physical education coursework) in addition to the minimum of 30 units required for the master's degree.
2. A grade point average of not less than 3.0 in the last 60 units attempted.
3. A total score on the GRE General Test (verbal and quantitative) of at least 950.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 08351)

In addition to meeting the requirements for classified graduate standing the student must satisfy the basic requirements for the master's degree, described in Part Two of this bulletin. The 30-unit program includes a minimum of 21 units in physical education selected from courses listed in this bulletin as acceptable on master's degree programs, of which at least 18 units must be in 600- and 700-numbered courses. Physical Education 791, Seminar in Research Techniques, and Physical Education 799A, Thesis or Project are required.

Students seeking a Master of Arts degree in Physical Education are required to develop and sign a formal plan of study which must be approved by the graduate adviser before being forwarded to the Graduate Division. The approved plan of study should include coursework preparing the student to complete the required thesis. Therefore, the plan of study should be developed in consultation with a faculty member who teaches graduate coursework of interest to the student. The student is required to pass a final oral examination on the thesis.

The generalist program allows a student to combine courses that best fit his/her interests. The department's graduate coordinator counsels students in the general degree program before suggesting a program adviser. Students are required to take mandated core courses as well as being able to select a number of electives. The offerings in a specialization allow a student to identify certain curricula and competencies that have been achieved once the degree has been completed.

Specialization in Adapted Physical Education

This area is predicated on a broad-based knowledge approach to working with diverse, disabled individuals in a variety of school, community, and clinical settings. The student may also achieve the California Adapted Physical Education Credential through this specialization.

Required courses (12 units):

- PE 640 Clinical Practices in Adapted Physical Education (3)
- PE 667 Seminar in Adapted Physical Education (3)
- PE 672 Perceptual Motor Learning (3)
- PE 684 Behavior Change in Sport and Physical Education (3)

Electives (12 units): Twelve units to be chosen in consultation with a specialization adviser.

Specialization in Applied Exercise Physiology

The role of exercise in health, aging, and disease prevention and rehabilitation is studied by providing in-depth theoretical knowledge and practical experiences related to the field. Students are prepared for preventive and/or rehabilitative certification from the American College of Sports Medicine.

Required courses (15 units):

- PE 663 Seminar in Exercise Electrocardiography (3)
- PE 666 Adult Fitness: Exercise Prescription (3)
- PE 668 Adult Fitness: Exercise Leadership and Administration (3)
- PE 669 Cardiopulmonary Physiology, Pathology and Exercise (3)
- PE 796 Exercise Specialist Internship (3) Cr/NC

Electives (9 units): Nine units to be chosen in consultation with a specialization adviser.

Specialization in Coaching and Teaching Effectiveness

Effectiveness and knowledge of coaching and/or teaching will be developed through techniques that affect the behavior of students and athletes in more productive and beneficial ways. Persons who have experience as a coach or teacher will find the content and field experience of particular relevance.

Required courses (9 units): A student must take at least three of the following six courses:

- PE 684 Behavior Change in Sport and Physical Education (3)
- PE 685 Seminar in Evaluating Teaching and Coaching Effectiveness (3)
- PE 686 Contemporary Coaching (3)
- PE 687 Coaching Models for Superior Performers (3)
- PE 690 Principles of Movement Instruction for Children (3)
- PE 691 Application and Movement Instruction for Children (3)

Electives (15 units): Fifteen units to be chosen in consultation with a specialization adviser.

Specialization in Kinesiology

This area serves students who are interested in teaching, coaching, corporate health programs, and medically related fields and who wish to improve their abilities to analyze human performance through the application of kinesiological, biomechanical, and motor control principles.

Required courses (15 units): A student must take at least five of the following courses:

- PE 630 Advanced Biomechanics: Human Motion Analysis (3)
- PE 631 Advanced Biomechanics: Kinetics of Human Movement (3)
- PE 660 Advanced Kinesiology (3)
- PE 664 Seminar in Anthropometry and Motor Performance (3)
- PE 670 Seminar in Motor Learning and Motor Performance (3)
- PE 673 Advanced Principles of Motor Control (3)

Electives (9 units): Nine units to be chosen in consultation with a specialization adviser.

Specialization in Sport Psychology

The study of the psychology of sport and physical activity includes both theoretical and applied sport psychology. Students select courses that reflect their interests and background. A primary focus of this area is its emphasis on laboratory and practical experience.

Required courses (9 units):

- PE 671 Seminar in Advanced Sport Psychology (3)
- PE 688 Applied Psychology of Effective Coaching (3)
- PE 689 Applied Psychology for Superior Performance (3)

Electives (15 units): Fifteen units to be chosen in consultation with a specialization adviser.

Exercise Leadership Certificate

This program is designed to prepare individuals interested in working in preventive and rehabilitative exercise programs for the certifications of 1) exercise technologist, 2) fitness instructor, and 3) exercise specialist which are awarded by the American College of Sports Medicine (ACSM). Prerequisites for the program are an undergraduate degree in any major and previous work in physical activity programs. Applications should be made to the director of the certificate program.

Thirty units are required to include Biology 590, Physical Education 562, 663, 666, 668, 669, 796 (6 units with SDSU Adult Fitness Program), and 798 (6 units). With the approval of the Graduate Adviser the units may be applied to a graduate degree program in physical education.

Recommendations for application to the American College of Sports Medicine for ACSM Certifications will be made based on completion of coursework with a grade point average of 3.0 or better and fulfilling basic requirements for specific certification set by ACSM.

Adapted Physical Education Credential

(Credential Code: 00980)

Admission Categories

Level I: Physical Education major with an interest in adapted physical education, completion of a minimum of 45 units with a grade point average of 2.5 or better, and official application to the Coordinator of Adapted Physical Education.

Level II: Physical Education major with a minimum of 2.75 after 90 units including the completion of Physical Education 371, 560, 561, 567, 568, and at least two units of Physical Education 368, and official application to the Coordinator of Adapted Physical Education.

Level III: Certified. Completion of all courses required for physical education major in the single subject teaching credential major, all classes for the certification including completion of the entire student teaching experience. (Preliminary credential.) The student must have a 3.0 average and no grade lower than C in all the academic classes required to be certified. A required course in which a grade lower than C is earned may be repeated only with prior approval of the coordinator.

Pre-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.

1. **Adapted Program:** Minimum 15 units. Physical Education 398* (1 unit), 567, 568, 667, 672, and Special Education 501.
2. **Practical Experience and Student Teaching:** The candidate must complete four units of Physical Education 368 and a full-time student teaching experience in adapted physical education.

* Approved by Coordinator, Adapted Physical Education

In-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.

1. **Adapted Program:** Minimum 15 units. Physical Education 398* (1 unit), 567, 568, 667, 672, 684.
2. **Practical Experience and Student Teaching:** The candidate must complete four units of Physical Education 368 and a full-time student teaching experience in adapted physical education or equivalent experience.

* Approved by Coordinator, Adapted Physical Education.

Courses Acceptable on Master's Degree Programs in Physical Education

UPPER DIVISION COURSES

560. Applied Anatomy and Kinesiology (3) I, II

Prerequisites: Biology 150, 336.
Arthrology, syndesmology and myology, with emphasis on movement analysis. Muscle groups and their functional relationships. Application of simple mechanical principles to movement analysis.

561. Physiology of Exercise (3) I, II

Prerequisites: Biology 150, 336.
Effects of physical activities on the physiological functions of the body.

562. Cardiopulmonary Laboratory (2) I, II

One lecture and three hours of laboratory.
Prerequisites: Physical Education 362 and 561.
Cardiopulmonary evaluation of human subjects for rehabilitative and preventive cardiology including electrocardiography, blood chemistry, ergometry, central and peripheral vascular assessment, body composition, and lifestyle change.

563. Biomechanics of Human Movement (3) I, II

Prerequisites: Biology 150 and Physics 107.
Mechanical principles as applied to movement; analysis and application to selected motor skills.

564. Mechanisms of Sports Injuries (3) I, II

Prerequisites: Physical Education 265, 560, and 561.
Pathomechanics and pathophysiology of soft tissue and bone injury as it relates to the identification and management of sports related injuries.

565. Clinical Evaluation of Sports Injuries (3) I, II

Two lectures and three hours of laboratory.
Prerequisite: Physical Education 564.
Theoretical and practical experiences in the clinical evaluation of sports injuries with emphasis on techniques and procedures.

567. Corrective and Orthopedic Physical Education (3) I, II, S

Prerequisites: Physical Education 560 and 561.
Etiology, characteristics, and programs for children with corrective and/or physically handicapping conditions will be discussed. This will include evaluating and implementing prescribed activities for individuals with these types of conditions.

568. Special Physical Education (2) I, II, S

Prerequisites: Psychology 101 and Physical Education 371.
Etiologies, characteristics, and education programs for mentally retarded, emotionally disturbed, learning disabled, blind and hearing impaired individuals. Specific programs and activities are discussed relevant to each of disabled groups mentioned.

569. Exercise, Sport and Aging (3) II

Prerequisite: Physical Education 371 or 561.
Relationships between exercise, sport and human aging including physiological, psychological, sociological, health and program considerations. Aging is viewed developmentally with emphasis on the middle and later years.

570. Psychological Bases of Physical Education (3) I, II

Prerequisite: Psychology 101.
Psychological parameters related to physical performance and the acquisition of motor skills.

571. Sport Psychology (3) I, II

Prerequisite: Physical Education 570.
Psychological factors underlying behavior in sport and physical activity. Emphasis on personality and motivational factors.

574. Therapeutic Modalities for Sports Injuries (3) I

Prerequisite: Physical Education 564.
Theories and techniques for the design, implementation, evaluation, and application of rehabilitation modalities.

575. Principles and Techniques in Therapeutic Exercise (3) II

Two lectures and three hours of laboratory.
Prerequisite: Physical Education 565.
Design and application of therapeutic exercise programs for athletic injuries.

596. Selected Topics in Physical Education (1-3) I, II

Selected topics in physical education. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**630. Advanced Biomechanics: Human Motion Analysis (3)**

Prerequisites: Physical Education 560 and 563.
Kinematic analysis of human movement using photo-optical systems including high speed cinematography and videography, together with automated data reduction procedures.

631. Advanced Biomechanics: Kinetics of Human Movement (3)

Prerequisites: Physical Education 560 and 563.
Kinetic analysis of human movement. Forces exerted on human body during execution of gross motor skills.

632. Physiological Chemistry of Exercise (3)

Prerequisites: Physical Education 661 and Chemistry 160.
Biochemical and metabolic responses of the human body to acute and chronic exercise. Neuroendocrine control of fuel regulation during exercise.

640. Clinical Practices in Adapted Physical Education (3)

Two lectures and two hours of activity.
Prerequisites: Physical Education 567 and at least one unit in Physical Education 368 in a clinical setting.
Theory and practical skills in adapted and corrective exercises for individuals with physical disabilities. Assessment and exercise prescription.

644. Scientific Basis of Therapeutic Exercise (3)

Prerequisite: Physical Education 575.
Mechanical and neurophysiological principles related to application of therapeutic exercise techniques.

645. Injury Prevention for Sports and Physical Education (3)

Prerequisite: Physical Education 564.
Theories of injury prevention in physical activities through risk measurement, decision making, and implications of injury prevention programs in area of litigation.

660. Advanced Kinesiology (3)

Prerequisites: Physical Education 560, 563. Recommended: Physical Education 364, Biology 580.
Tissue structure, neuromuscular function and performance. Electromyography and movement analysis.

661. Seminar in Advanced Physiology of Exercise (3)

Prerequisites: Physical Education 560 and 561.
Advanced aspects of the physiology of exercise. Effects of exercise on human beings in relation to health, longevity, morphology and performance.

662. Advanced Exercise Physiology Laboratory (3)

Nine hours of laboratory.
Prerequisites: Physical Education 362 and 561.
A laboratory course designed to develop competency in respiratory metabolism pulmonary function, gas analysis, blood chemistry and ergometry. Experience in the application of exercise procedures with human subjects and analysis and interpretation of results.

663. Seminar in Exercise Electrocardiography (3)

Principles of resting and exercise electrocardiography with emphasis on ergometric methods and application to exercise physiology.

664. Seminar in Anthropometry and Motor Performance (3)

Prerequisites: Physical Education 371 and 560.
Relationships between body structure and motor performance as compared through the techniques of anthropometry, somatotyping and body composition.

665. Advanced Sports Medicine (3)

Prerequisite: Physical Education 564 or a physical therapy major.
Clinical sports medicine. Relationship of biomechanics, nutrition, environment and conditioning to medical problems of athletes.

666. Adult Fitness: Exercise Prescription (3)

Prerequisites: Physical Education 562, Biology 590.
Physical conditioning programs for the prevention, rehabilitation, and control of diseases associated with aging adults. Topics include disease etiology, health/disease evaluation, and exercise prescription for apparently healthy and diseased adults.

667. Seminar in Adapted Physical Education (3)

Prerequisites: Physical Education 567 and 568.
Trends, programs and crucial problem areas in adapted physical education as they relate to the organization, planning and implementation of these programs.

668. Adult Fitness: Exercise Leadership and Administration (3)

One lecture and six hours of laboratory.
Prerequisite: Physical Education 666.
Administration of and role of exercise programs in preventive medicine, corporate fitness, and Phase I, II, and III of cardiac rehabilitation, and other disease rehabilitation. Development of skills in exercise leadership in traditional and experimental exercise programs for the apparently healthy and diseased adult.

669. Cardiopulmonary Physiology, Pathology and Exercise (3)

Prerequisite: Physical Education 561 or upper division course in human physiology.
Selected cardiovascular and pulmonary disease problems, their etiology, symptoms, physical limitations, and physiology as affected by exercise in therapy and rehabilitation.

670. Seminar in Motor Learning and Motor Performance (3)

Prerequisite: Physical Education 570.
A review of research in physical education and related fields plus experimental laboratory experiences in motor learning.

671. Seminar in Advanced Sport Psychology (3)

Prerequisite: Physical Education 571.
Research and theory of psychological behavior in sport and physical activity. Theoretical models, research issues, and applications.

672. Perceptual Motor Learning (3)

Prerequisite: Physical Education 570.
Basic psychological parameters underlying perceptual motor impairment. Emphasis on utilizing these concepts to evaluate and remediate perceptual motor problems in the young child.

673. Advanced Principles of Motor Control (3)

Prerequisite: Physical Education 570.
Investigation of the control of human movement using electromyography, biomechanics, and neurophysiology.

674. Philosophy of Sport and Physical Education (3)

Major philosophies and their application in sport and physical education.

676. Seminar in Current Trends and Issues in Physical Education (3)

A critical appraisal of contemporary trends and issues. Investigation and analysis of professional literature.

684. Behavior Change in Sport and Physical Education (3)

Prerequisite: Physical Education 570.
Principles and applications of operant psychology to the development and maintenance of behavior in physical education and sport environments. Behavioral techniques to manage and motivate learners in diverse physical activity settings. (Formerly numbered Physical Education 683.)

685. Seminar in Evaluating Teaching and Coaching Effectiveness (3)

Prerequisite: Physical Education 347.
Coaching and teaching in physical activity settings. Research and systematic observation techniques for analyzing leader effectiveness. Teaching and coaching behavior. (Formerly numbered Physical Education 681.)

686. Contemporary Coaching (3)

Prerequisite: Admission to specialization in teaching and coaching effectiveness.
Procedures for coaching skills, physical capacities, and mental approaches in sports. Individual, small group and team sports compared.

687. Coaching Models for Superior Performers (3)

Prerequisite: Physical Education 686.
Athlete development models of successful nations and individuals compared to North American approaches to coaching.

688. Applied Psychology of Effective Coaching (3)

Prerequisite: Admission to specialization in teaching and coaching effectiveness.
Controlling physical performance in training and competitions. Psychological procedures which improve sporting performances.

689. Applied Psychology for Superior Performance (3)

Prerequisite: Physical Education 688.
Psychological factors for preparing superior athletes to compete, with particular emphasis on the day of competition.

690. Principles of Movement Instruction for Children (3)

Current issues and models in movement education.

691. Application of Movement Instruction for Children (3)

Two lectures and three hours of laboratory.
Prerequisite: Physical Education 690.
Application of the movement education approach to teaching children's physical education.

696. Advanced Topics in Physical Education (3)

Intensive study in specific areas of physical education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

791. Seminar in Research Techniques (3)

Prerequisites: Major in physical education and Physical Education 385.
Principles and methods of planning and carrying out the investigation of problems related to physical education. The development of research designs and practice in formulating and testing hypotheses as well as the interpretation of results. Prerequisite to thesis.

796. Exercise Specialist Internship (1-3) Cr/NC

Three hours of laboratory per unit.
Prerequisites: Physical Education 661, 662, 663, 666, 669 and consent of instructor.
Supervised application of exercise laboratory testing, test interpretation, exercise prescription and exercise leadership in adult fitness, corporate fitness, preventative medicine and/or hospital disease rehabilitation setting. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of department chair.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Assistantships

Graduate teaching assistantships in physics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Physics, in the College of Sciences, offers graduate study leading to the Master of Arts degree in Physics, the Master of Science degree in Physics, and the Master of Science degree in Radiological Health Physics. Two specialty programs in modern optics and scientific instrumentation, in addition to the traditional curricula, are offered under the M.A. and M.S. programs.

The Master of Arts degree emphasizes broad training and intensive coursework. This is a non-thesis program designed to lead the student to a comprehensive final examination. Specific courses, in both pure and applied physics, are chosen to complement the background of the individual student and achieve the desired educational goals.

The Master of Science degree emphasizes research experience in a chosen specialty. It is designed to augment the student's undergraduate training with a core curriculum of advanced courses, then followed by a period of research and preparation of a thesis. Thesis topics are encouraged in both pure and applied areas of physics. A non-thesis option is available for those students with significant research experience outside the university.

Modern experimental laboratories are available for student and faculty research in the areas of acoustics, modern optics, holography, optical properties of solids, laser physics, solid-state physics, nuclear magnetic resonance, electron paramagnetic resonance, atomic physics, solar energy, nuclear, medical, and health physics, microprocessor instrumentation, and image processing. Theoretical programs are available in condensed matter physics, electricity and magnetism, laser physics, gravitation, relativity, and mathematical physics.

The Master of Science degree in Radiological Health Physics is designed to train health physicists in the use of radioactive materials and radiation-producing devices such as those used in hospitals and related

OFFICE: Physics 132
 TELEPHONE: (619) 594-6240

medical facilities, colleges and universities, industry, public health services, nuclear power installations, the military, the Department of Energy, the Environmental Protection Agency, and the Nuclear Regulatory Commission. The program emphasizes techniques of radiation dosimetry, and instrumentation in addition to the fundamental physics of radiation production and protection.

Master of Arts and Master of Science Degrees in Physics

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, the undergraduate preparation in physics must have substantially satisfied the undergraduate requirements for the bachelor's degree in physics. (Refer to the General Catalog for a description of these majors.) If the student's undergraduate preparation is deficient, he/she will be required to take courses for the removal of the deficiency. These courses, taken by the student as an unclassified graduate, are in addition to the minimum of 30 units for the master's degree. The results of the advanced test in physics are used as part of the evaluation of deficiencies.

Attention is called to the status of an unclassified student as described in Part Two of this bulletin under Unclassified Student Enrollment.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree in Physics

(Major Code: 19021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student's graduate program must include Physics 602A, 604A-604B, 608, and 610A-610B. Twelve additional units of 500-, 600- or 700-numbered electives must be selected with the approval of the Physics Department Graduate Adviser. Physics 606 is recommended. The Master of Arts degree in Physics requires the completion of Plan B, a comprehensive written examination. This degree program is recommended for those students who plan to continue the study of physics beyond the master's level.

Specific Requirements for the Master of Science Degree in Physics

(Major Code: 19021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. Normally, Plan A, Thesis will be required, but those students who have demonstrated research

experience may elect, with the approval of the graduate adviser, Plan B with a written comprehensive examination.

For Plan A, the student must complete a graduate program to include Physics 602A, 604A-604B, 797 (3 units) and 799A. The remaining 15 units must be approved by the graduate adviser. The student is required to pass a final oral examination on the thesis.

For Plan B, the student must complete a graduate program to include Physics 602A-602B, 604A-604B, 608, and 610A. The remaining 12 units must be approved by the graduate adviser. The student is required to pass a comprehensive written examination.

Master of Science Degree in Radiological Health Physics

Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing, as described in Part Two of this bulletin under Admission to the Graduate Division. In addition, the undergraduate preparation in biology, chemistry, mathematics, and physics must have substantially satisfied the undergraduate requirements for a baccalaureate degree in the life sciences or the physical sciences so that satisfactory progress can be made toward the master's degree. If the student's undergraduate preparation is deficient, he will be required to take courses for the removal of the deficiency. These courses, taken by the student as an unclassified graduate, are in addition to the minimum of 30 units for the master's degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Radiological Health Physics

(Major Code: 12251)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. Have completed an approved program of 30 units which includes the following:

	Units
Biology 561, Radiation Biology	3
Biology 561L, Radiation Biology Laboratory	2
Physics 560, Radiological Health Physics	3
Physics 561, Radiological Instrumentation	2
Physics 660, Advanced Radiological Health Physics	3
Physics 661, Advanced Radiological Instrumentation	2
Physics 662, Colloquium in Radiological Sciences	1

Total units 16
 The remaining fourteen units must be selected from 500-, 600- or 700-numbered courses (including Physics 696 when appropriate) with the approval of the Graduate Adviser.

2. The thesis option (Plan A) requires the approval of the Graduate Adviser. Students in Plan A must include Physics 797 and Physics 799A in the 30-unit program, and are required to pass a final oral examination on the thesis. Students in Plan B (non-thesis option) are required to pass a comprehensive written examination.

Courses Acceptable on Master's Degree Programs in Physics

UPPER DIVISION COURSES

510. Quantum Mechanics (3)

Prerequisites: Physics 350A, 354B; credit or concurrent registration in Mathematics 342C.

The mathematical and physical foundations of the quantum theory in terms of Schrodinger's wave mechanics. Applications to the properties of atoms, quantum chemistry, and nuclei.

513. Electronic Instrumentation (3) I

One lecture and six hours of laboratory.

Prerequisite: Physics 313 with minimum grade of C.

Transducer principles and applications; theory and design of active filters, modern signal detection and enhancement techniques, instrumentation design.

516A-516B. Theory of Scientific Instrumentation (3-3)

Prerequisites: Physics 313; Mathematics 342A. Physics 516A is prerequisite to 516B.

Linear system analysis using Fourier techniques. Introduction to the stochastic treatment of signals and noise, using concepts from probability and statistics. Optimization of detection systems with respect to signal-to-noise ratio. Applications to spectroscopy.

520. Microprocessor Instrumentation (3)

Two lectures and three hours of laboratory.

Prerequisite: Credit or concurrent registration in Physics 513.

The electronics of microprocessor-based computer and control systems. Assembly language programming. Interfacing of analog inputs and outputs. The microcomputer as a multipurpose signal processing instrument.

524. Physical Principles of Remote Sensing (3) I

Prerequisites: Physics 197, 197L, and 311.

Physical principles of electromagnetic techniques in remote sensing. Topics include electromagnetic scattering, optical and radar image acquisition problems.

525. Colloquium in Nuclear Magnetic Resonance (1) Cr/NC

Prerequisite: Credit or concurrent registration in Physics 516A.

Student and faculty research project presentations. Maximum credit three units.

532. Solid State Physics (3) II

Prerequisites: Physics 350A, 354B; credit or concurrent registration in Mathematics 342C.

Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the energy band theory of solids, with applications to semiconductors and metals.

533. Experimental Techniques in Condensed Matter Physics (3)

One lecture and six hours of laboratory.

Prerequisite: Credit or concurrent registration in Physics 532.

Experiments in various fields of condensed matter such as x-ray diffraction, Hall effect, superconductivity, and electron paramagnetic resonance.

534. Colloquium in Condensed Matter Physics (1) Cr/NC

Prerequisite: Credit or concurrent registration in Physics 532.

Student and faculty research project presentations. Maximum credit three units.

542. Acoustics (3)

Prerequisites: Physics 350A and Mathematics 342B.

Wave motion, production, reception, transmission and analysis of sound. Special applications such as environmental noise, underwater and seismic waves.

552. Modern Optics and Lasers (3)

Prerequisites: Physics 406 with minimum grade of C; credit or concurrent registration in Physics 400B; Mathematics 342C.

Electromagnetic theory, matrix methods of optics, propagation of Gaussian beams, optical resonators, interaction of radiation and atomic systems, theory of laser oscillation, nonlinear optics, specific laser systems, optical detectors, applications of lasers in physics.

553. Modern Optics Laboratory (3)

One lecture and six hours of laboratory.

Prerequisites: Physics 357 with minimum grade of C; Physics 406 with minimum grade of C; credit or concurrent registration in Physics 552.

Experiments in various fields of modern optics such as holography, physics of lasers, Fourier transform spectroscopy, Raman spectroscopy, light modulation techniques, fiber optics, spatial filtering, diffraction grating spectroscopy, radiometry, and nonlinear optics.

554. Colloquium in Optics Research (1) Cr/NC I, II

Prerequisites: Concurrent registration in Physics 498A or 498B or 797 and consent of instructor.

Student and faculty research project presentations. Maximum credit three units.

560. Radiological Health Physics (3)

Prerequisites: Physics 180B or 197; senior standing in a physical or biological science, mathematics or engineering major.

Atomic and nuclear structure, radioactivity, interactions of radiation in matter, radiation dosimetry. (Formerly numbered Physics 660A.)

561. Radiological Instrumentation (2)

Six hours of laboratory.

Prerequisites: Credit or concurrent registration in Physics 560.

Electronics of nuclear instrumentation. Radiation detection and measurement using ionization chambers, GM and proportional counters, and scintillation dosimetry. Practices of current use in the radiation protection field. (Formerly numbered Physics 661A.)

564. Nuclear and Elementary Particle Physics (3)

Prerequisite: Physics 354B.

Nuclear and elementary particle phenomena including nuclear structure of reactions, nuclear devices, elementary particle symmetry and structure, and experimental methods.

570. Relativity (3)

Prerequisites: Physics 354A, 400B and credit or concurrent registration in Mathematics 342C.

Relative coordinates, Lorentz transformation, covariant formulation of the laws of physics, applications of special relativity, introduction to curved space time, cosmology.

596. Special Topics in Physics (1-4) I, II

Prerequisite: Consent of instructor.

Selected topics in classical and modern physics. May be repeated with the consent of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**600. Seminar (1-3)**

Prerequisite: Consent of instructor.

An intensive study in advanced physics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

602A-602B. Mathematics of Physics (3-3)

Prerequisite: Mathematics 342C. Physics 602A is prerequisite to 602B.

Topics from matrix theory, vector and tensor analysis, orthogonal function theory, calculus of variations and probability theory with particular emphasis on applications to physical theory.

604A-604B. Electromagnetic Theory (3-3)

Prerequisite: Physics 400B. Physics 604A is prerequisite to 604B.

Boundary value problems; time varying electric and magnetic fields; propagation of radiation; antennas, wave guides.

606. Statistical Mechanics (3)

Prerequisites: Physics 460 and 510.

Classical and quantum statistics, kinetic theory, low-pressure phenomena, Boltzmann transport equation, irreversible processes.

608. Classical Mechanics (3)

Prerequisite: Physics 350A.

Vector and tensor methods, motion of rigid bodies, vibration, coupled circuits, Lagrange's and Hamilton's equations, principle of least action.

610A-610B. Quantum Mechanics (3-3)

Prerequisite: Physics 510.

Physical and mathematical basis of quantum mechanics. Wave mechanics and the Schrodinger Equation, matrices and Hilbert space, angular momentum and spin, atomic structure, bound-state perturbation theory, many particle systems, transition rates and time-dependent perturbation theory, scattering, and relativistic quantum mechanics.

632. Theory of the Solid State (3)

Prerequisites: Physics 510 and 532.

The band theory of solids, with applications to the electrical and optical properties of dielectrics, semiconductors and metals.

652. Advanced Optics (3)

Prerequisite: Physics 552.

Selected topics in advanced optics such as rigorous diffraction theory, optical spectra, lasers, nonlinear optics and applications of Fourier analysis to optical systems and information processing.

654. Gravitation (3)

Prerequisite: Physics 570.

Differential geometry, metric geodesics. Equivalence Principle, collapsed objects, black holes, gravitational waves, evolution of the universe.

660. Advanced Radiological Health Physics (3)

Prerequisite: Physics 560.

Continuation of Physics 560. Radiation protection guides, external and internal radiation protection and dosimetry. (Formerly numbered Physics 660B.)

661. Advanced Radiological Instrumentation (2)

Six hours of laboratory.

Prerequisite: Physics 561.

Continuation of Physics 561. Radiation detection and measurement using scintillation and thermoluminescence dosimetry, semiconductor detectors, and neutron dosimetry. Practices of current use in the radiation protection field. (Formerly numbered Physics 661B.)

662. Colloquium in Radiological Sciences (1) Cr/NC

Prerequisite: Consent of instructor.

Joint critical study by students and faculty of the fields of knowledge pertaining to radiological sciences. Periodic contributions are made by visiting scientists. Research in progress is discussed. May be repeated with new content. Maximum credit two units applicable to a master's degree.

670. Medical Health Physics (3)

Two lectures and three hours of laboratory.

Prerequisites: Physics 660 and 661.

Radiation protection and dosimetry in medical environments including diagnostic radiology, nuclear medicine, and radiation oncology. (Formerly numbered Physics 670A-670B.)

680. Reactor Health Physics (3)

Prerequisites: Physics 660 and 661.

Nuclear reactor systems, core physics, operating theory, and basic power plant systems. Reactor components affecting health physics practice, monitoring and regulations. (Formerly numbered Physics 680A-680B.)

696. Special Topics in Radiological Sciences (1-3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of radiological sciences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

796. Internship in Radiological Sciences (3) Cr/NC

Prerequisite: Consent of instructor.

Field instruction and practice in radiological science.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.

Research in one of the fields of physics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis in physics for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Faculty

Dwight G. Anderson, Ph.D., Professor of Political Science
Charles F. Andrain, Ph.D., Professor of Political Science (Graduate Adviser)
James J. Conniff, Ph.D., Professor of Political Science
Ivo K. Feierabend, Ph.D., Professor of Political Science
Edward V. Heck, Ph.D., Professor of Political Science
C. Richard Hofstetter, Ph.D., Professor of Political Science
David H. Johns, Ph.D., Professor of Political Science
Woodrow Jones, Ph.D., Professor of Political Science
Tae Jin Kahng, Ph.D., Professor of Political Science
D. Richard Little, Ph.D., Professor of Political Science
Brian E. Loveman, Ph.D., Professor of Political Science
E. Walter Miles, Ph.D., Professor of Political Science
L. Vincent Padgett, Ph.D., Professor of Political Science
William A. Schultze, Ph.D., Professor of Political Science
Louis M. Terrell, Ph.D., Professor of Political Science, Chair of Department
Charles H. Cutter, Ph.D., Associate Professor of Political Science
Lyndelle D. Fairlie, Ph.D., Associate Professor of Political Science
John A. Hobbs, Ph.D., Associate Professor of Political Science
K. Robert Keiser, Ph.D., Associate Professor of Political Science
Harlan J. Lewin, Ph.D., Associate Professor of Political Science
John W. Soule, Ph.D., Associate Professor of Political Science
Lucinda R. Callender, Ph.D., Assistant Professor of Political Science
Curtis N. Johnson, Ph.D., Assistant Professor of Political Science

General Information

The Master of Arts degree in Political Science is designed to meet several objectives: (1) The general master's degree provides the fundamental theoretical and analytical skills for those students planning to continue on for a doctoral degree in political science or placement in an academic setting. (2) The specialization in public policy also prepares students for further graduate work toward a doctoral degree, as well as trains students with skills for placement in nonacademic careers in both the public and private sectors. Areas covered in the public policy specialization include American public policy, U.S. foreign policy, and national security policy. Research facilities available to the Political Science Department are the Social Science Research Laboratory, and the Social Science Statistics Laboratory. The Department of Political Science is an associate member of the Inter-University Consortium for Political and Social Research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Political Science must have completed 30 units of social science, including at least 12 upper division units in political science, as approved by the department and must have earned a grade point average of 2.75 for the last 60 units of undergraduate work, and a 3.0 grade point average for upper division courses in political science as well as a 3.0 grade point average for all work taken in political science.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, students must have received credit for a three-unit course in statistics.

Specific Requirements for the Master of Arts Degree

(Major Code: 22071)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses approved by the graduate adviser.

Students must complete a minimum of 24 units in political science from courses listed below as acceptable on master's degree programs. At least 21 units must be in 600- and 700-numbered courses including Political Science 601 (Seminar in the Scope and Method of Political Science) and five other graduate seminars in political science.

To fulfill the requirements for the Master of Arts degree in Political Science, students must select Plan A which requires the writing of a thesis under Political Science 799A and the taking of a final oral examination on the general field of the thesis.

Specific requirements for students selecting the specialization in public policy are:

1. Political Science 560. Comparative Public Policy (3)
2. Political Science 601. Seminar in the Scope and Method of Political Science (3)
3. Political Science 603. Theory and Method of Public Policy Analysis (3)
4. Political Science 635. Seminar in Politics of Public Policy (3)
5. Two graduate seminars chosen from among the following:
Political Science 605. Seminar in Political Theory (3)
Political Science 620. Seminar in American National Government (3)
Political Science 625. Seminar in Political Behavior (3)
Political Science 630. Seminar in Politics (3)
Political Science 646. Seminar in Public Law (3)
Political Science 655. Seminar in General Comparative Political Systems (3)
Political Science 675. Seminar in International Relations (3)
6. A three unit course in political science research methods, preferably Political Science 515A. Research Methods in Political Science (3).
7. Political Science 796. Internship in Public Policy (6)
8. Political Science 799A. Thesis (3) Cr/NC/SP. Thesis must be in the public policy area.

Courses Acceptable on Master's Degree Programs in Political Science

UPPER DIVISION COURSES

515A-515B. Research Methods in Political Science (3-3)
Prerequisite: Political Science 201. Political Science 515A is prerequisite to 515B.

The research process, from research design through data processing, analysis and interpretation. Problems of application to election statistics, census data, roll call records, sample survey data and biographical information.

522. Urban Politics (3)

Prerequisite: Political Science 101 or 102.

The processes by which social conflicts in American urban areas are represented and regulated. Urban political culture; ecology; group development and activity; power structures; and reform movements are surveyed. The character of the urban political "problem" and proposed solutions are evaluated. Meets graduation requirement in California state and local government. When taken with Political Science 305 or 320, will also meet all requirements in American Institutions.

523. Community Political Analysis (3)

Prerequisite: Political Science 101 or 102.

Community power structures. Analysis of policy alternatives; strategies of community development and approach to social planning and organization. Examples are primarily from the American experience, but some comparative materials may be discussed.

530. Political Parties (3)

Prerequisite: Political Science 102 or 320.

The political party as a part of the process of government; party organization and activities; nominating and campaign methods; theories and functions of the party system; party responsibility. The functioning of political parties in the American political system. May include a substantial amount of material about foreign political systems.

531. Interest Groups and Political Movements (3)

Prerequisite: Political Science 101 or 102.

Pressure group activity, lobbies, mass movements; factors which explain origins and motivations of group behavior; votes, money, information, protest as political resources; theories of pluralism, power elite and mass society; class and ethnic politics. May include a substantial amount of material about foreign political systems.

536. The American Presidency (3)

Prerequisites: Political Science 101 and 102.

Analysis of principal institutions, functions and problems of the presidency and federal executive branch. Attention given to presidential leadership, staffing, executive-legislative relations and policy formation.

537. The Politics of Bureaucracy (3)

Prerequisites: Political Science 101 and 102.

An analysis of the bureaucracy as an actor in the political system. May include a substantial amount of material about foreign political systems.

555. Comparative Political Systems (3)

Prerequisite: Political Science 103.

An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences and general patterns and universals among political systems.

560. Comparative Public Policy (3)

Prerequisite: Political Science 103 or 335.

Ways that political and social factors shape policy choices, implementation strategies, and policy outcomes in selected countries, emphasis on industrialized nations. Policy areas chosen from: education, health, nutrition, crime, transportation, housing, energy, population control, poverty, unemployment, inflation.

562. Government and Politics of Japan (3)

Prerequisite: Political Science 103 or 362.

Governmental structures, political processes and public policies of Japanese political system. Recent political history and cultural factors which shape Japanese politics. Japanese foreign policies, especially the Japan-United States relationship.

566. Political Change in Latin America (3)

Prerequisite: Political Science 101 or 103.

General pattern of politics and political development in Latin America with an emphasis on those features which condition domestic and foreign policy making.

567. Political Systems of Latin America (3)

Prerequisite: Political Science 566.

Domestic and international politics of selected Latin American states.

568. The Mexican Political System (3)

Prerequisite: Political Science 101 or 103.

Principal factors in Mexican governmental decision making. Ideology, political groups, tactics of leaders and governmental structure.

577. Principles of International Law (3)

The function of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

GRADUATE COURSES

601. Seminar in the Scope and Method of Political Science (3)

The discipline of political science and systematic training in its methodology. Required of all applicants for advanced degrees in political science.

603. Seminar in Theory and Method of Public Policy Analysis (3)

Prerequisites: Political Science 601 and admission to the specialization in public policy.

Theoretical approaches used to explain and evaluate public policy performance. Focus on quantitative and qualitative methods of appraising the validity of theories.

605. Seminar in Political Theory (3)

Maximum credit six units applicable to a master's degree.

620. Seminar in American National Government (3)

Maximum credit six units applicable to a master's degree.

625. Seminar in Political Behavior (3)

Prerequisite: Political Science 601.

Political science literature focusing on major areas of political behavior including study of political attitudes, voting, and political communication.

630. Seminar in Politics (3)

Prerequisite: Six upper division units in political science, three units of which must come from Political Science courses 320 through 338, 522 through 537.

Process by which individuals and groups make demands upon political decision makers; emphasis on the styles, structures, channels and consequences of interest articulation. Maximum credit six units applicable to a master's degree.

635. Seminar in Politics of Public Policy (3)

Prerequisite: Political Science 601.

Examination of public policies, e.g., energy, environment, protection, taxation, income maintenance, population, health care, education, housing. Use of research findings to analyze policy process, to estimate probable consequences of alternative decisions, and to appraise governmental programs.

646. Seminar in Public Law (3)

Maximum credit six units applicable to a master's degree.

655. Seminar in General Comparative Political Systems (3)

Prerequisites: Political Science 555, and three additional upper division units in political science.

The field of comparative politics, including historical developments, major theoretical approaches, substantive concerns, uses and limitations of the comparative method, methodological innovations in study of foreign political systems.

658. Seminar in Communist Political Systems (3)

Prerequisite: Six upper division units in political science.

The differences and similarities among Communist nations in Europe and Asia, with particular reference to instruments of power and ideology. A comparison of Communist ruling techniques and processes.

661. Seminar in the Political Systems of the Developing Nations (3)

Prerequisite: Six upper division units in political science.
Theoretical analysis of political development, modernization and industrialization in the emerging nations. Search for valid generalizations about the non-Western political process. Political trends and developments in the developing nations.

667. Seminar in Latin American Political Systems (3)

Prerequisite: Political Science 555 or 566.
Political developments in selected Latin American nations. May be repeated with new content. Maximum credit six units applicable to a master's degree.

675. Seminar in International Relations (3)

Maximum credit six units applicable to a master's degree.

795. Problem Analysis (3)

Analytical treatment of selected problems in political science. Review of methods for investigation and reporting of data. Consideration of problems in preparation of project or thesis.

796. Internship in Public Policy (6)

Prerequisites: Political Science 601, 603, and eighteen units on official program for M.A. degree in Political Science with a specialization in Public Policy.

A 320-hour internship approved by instructor in public or private agency. Grade based on instructor's evaluation of supervisor's report,

student consultation with instructor reviewing experience and required readings, and extensive paper relating internship experience to theories of public policy.

797. Research in Political Science (3) Cr/NC/SP

Prerequisite: Consent of the department chair.
Research in political theory, political parties, comparative government, international relations, public law or American government.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Assistantships

Graduate teaching assistantships and graduate nonteaching assistantships in psychology are available to a limited number of qualified students. Application forms and further information may be obtained from the Chair, Graduate Assistantships Committee, Department of Psychology.

General Information

A Master of Science degree with concentrations in Clinical Psychology and Industrial and Organizational Psychology is offered, as well as the Master of Arts degree in General Psychology. While only Ph.D. students are eligible for the Master of Science degree with a concentration in Clinical Psychology, others with clinical interests may choose appropriate electives in the Master of Arts preclinical program. In addition, the Department of Psychology, jointly with the Department of Psychiatry, University of California, San Diego, School of Medicine, offers a program of graduate study leading to the Doctor of Philosophy degree in Clinical Psychology with specialization in Behavioral Medicine, Neuropsychology, or Experimental Psychopathology. A scientist-practitioner training model, identified by the American Psychological Association, serves as a guide for the experiences provided for doctoral students. It is expected that graduates of this program will be prepared to serve as scientists, innovators, and leaders in the field of clinical psychology.

The doctoral program requires that students spend a minimum of five calendar years in study and research. In the first four years, doctoral students must complete their prescribed coursework satisfactorily as well as engaging in research and a series of clinical practica during the summer months. In the last year of the program all students must complete a 12-month clinical internship.

The department has a strong scientific research orientation, and emphasizes the master's degree as preparation for doctoral work. Students in all programs must take an advanced statistics/experimental design course sequence and produce an empirical research thesis.

The department awards approximately 30 master's degrees annually. More than 90 percent of the graduates who apply go on to enroll in doctoral work at well-known universities. However, it is very unusual for one of our master's students to be admitted to the joint SDSU/UCSD Ph.D. program.

The clinical psychology faculty staff a Psychology Clinic for graduate clinical training and service to the metropolitan San Diego community. The Center for Behavioral Medicine, with federal grant support, sponsors research projects, provides training and consultation and an opportunity for interdisciplinary dialogue. Practical experience in industrial and organizational psychology is available at nearby military research and personnel-processing units as well as at local industries. Some small-animal research is conducted on campus where animals are housed in a modern vivarium staffed by a veterinarian. There are research facilities for the study of more exotic species at the San Diego Zoo and Sea World.

Both master's and doctoral students play a large role in faculty research. The department has more than \$1,000,000 per year in extramural grant support. Current research includes studies of fetal alcohol syndrome, facial expressions and affect in normal, deaf, and brain-damaged infants, animal and human models of memory disorders (e.g., Korsakoff's), child health promotion, intervention strategies in diabetes and arthritis, interdisciplinary approaches to child abuse treatment, biochemical substrates of anxiety, ethological studies of cetacean behavior, and therapeutic interventions in postpartum depression. Approximately one-half of the first year master's students receive assistantships.

Research space, equipment, and supplies are available in the department for student experiments. The College of Sciences maintains two

completely equipped electronics shops and a wood and metal shop, all staffed with full-time technicians. In addition to the University's large modern computer facilities and excellent support services, there are a large number and variety of microprocessor and minicomputer systems in the Department of Psychology and throughout the College of Sciences.

Section I. Master's Degree Programs

Admission to Graduate Study

In seeking admission to the graduate program in psychology, the student should write directly to the Graduate Studies Adviser, Department of Psychology, requesting application materials. Applicants to the joint UCSD-SDSU doctoral program should write to UCSD-SDSU Joint Doctoral Program, P.A.R.T., 6363 Alvarado Court, Suite 103, San Diego, CA 92182-0551. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms.

STUDENTS WILL BE ADMITTED TO GRADUATE PROGRAMS IN PSYCHOLOGY ONLY IN THE FALL SEMESTER AND APPLICATIONS MUST BE RECEIVED BY THE DEPARTMENT OF PSYCHOLOGY NOT LATER THAN FEBRUARY 1 FOR MASTER'S DEGREE PROGRAMS.

Concurrent with application to the department, the student must file an application for admission to San Diego State University with the Office of Graduate Admissions. Acceptance by the University does not guarantee acceptance to the psychology program.

To be considered for admission to the graduate programs in psychology, all students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, applicants must submit a copy of all transcripts of previous college work, three letters of recommendation from persons familiar with their academic performance, and score reports for the GRE General Test and the GRE Subject (Advanced) Test in Psychology. **These materials must be submitted to the Department of Psychology by February 1 and are in addition to any materials requested by the Graduate Division or the Admissions Office.**

Students are advised to take the necessary examinations by December of the year prior to the year in which they are seeking enrollment.

To qualify for admission to the master's programs in psychology, the student must have:

1. An undergraduate major in psychology consisting of at least 24 upper division units with a grade point average of at least 3.0. The major must include work in general psychology, physiological psychology, statistical methods, psychological testing, abnormal psychology, and at least two laboratory courses or their equivalent in psychology. At San Diego State University these specific course requirements are met by Psychology 101, 211, 260, 270, 350, 410, 470 and one course from 412, 413, 415, 416, 417, 418 or 419.
2. A grade point average of not less than 3.0 in the last 60 semester units of the undergraduate program.
3. A total scale score of 950 or above on the GRE General Test (verbal and quantitative portions only).
4. A score above the 50th percentile rank on the GRE Subject (Advanced) Test in Psychology. The student should take this test as well as the GRE General Test in sufficient time so that the results will be available prior to admission or as soon as possible thereafter. It should be requested by the student that the score reports for these tests be forwarded directly to the SDSU Admissions Office and the Department of Psychology.

Meeting all of the indicated criteria does not guarantee admission to the program, since admission is also dependent on the facilities and resources available in the department.

Advancement to Candidacy

The student must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. Having obtained three grades of C or lower in graduate courses automatically precludes advancement to candidacy.

In addition, students must have an approved thesis proposal prior to advancement to candidacy.

General Requirements for all Master's Degree Programs

In addition to meeting the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units (36 units for the Master of Science degree) approved by the departmental graduate coordinator. Only classified graduate students are permitted to enroll in any 600-numbered (or higher) courses in psychology.

Psychology 570, 571 (or 670, 671), 600 (Research Orientation), 601 (Colloquium), and 799A (Thesis), and an oral examination on the thesis, are required in all master's degree programs in the Department of Psychology. A maximum of two units credit in Psychology 601 can apply toward completion of the program.

Specific Requirements for the Master of Arts Degree

(Major Code: 20011)

The Master of Arts degree requires the completion of a minimum of 30 units in psychology to include Psychology 501 or 587 (unless taken as an undergraduate), 570, 571 (or 670, 671), 2 units of 600 (Research Orientation), 2 units of 601 (Colloquium), 605, 745 or 760 or 761 or 764, 1 unit of 797 (Research), and 799A (Thesis). In special cases and by petition to the Graduate Committee, students may take up to six units of the required 30 units in 500 and above level courses in other departments. Although the Master of Arts degree provides training in general psychology, students with an interest in clinical psychology may select elective courses in this area (e.g., Psychology 551, 651, 652, 757), and complete a clinical thesis.

All new Master of Arts degree students are required to take one unit of 600 (Research Orientation) during their first semester and another unit during their second semester.

Specific Requirements for the Master of Science Degree

(Major Code: 20011)

Within the 36-unit general requirement set forth above, the Master of Science degree may be obtained with the following concentrations:

1. **Clinical Psychology (included within the Ph.D. program; not available separately):** A minimum of 36 units in psychology, including Psychology 600 (Research Orientation, 2 units), Psychology 601 (Colloquium, 2 units), 650, 651 or 652, 654, 655, 670, 671, 796 (Clinical Practicum, 6 units), and 799A (Thesis). Registration for six units of Psychology 796 (Clinical Practicum) is contingent upon prior cooperative arrangement by the student and the Department of Psychology Practicum Committee, and is exempt from the University's requirement that courses graded C/NC be limited to 30 percent of units for the master's degree.
2. **Industrial and Organizational Psychology:** A minimum of 36 units, 30 of which must be in psychology, to include Psychology 570, 571 (or 670, 671), 600 (Research Orientation, 2 units), 601 (Colloquium, 2 units), 621, 622, 675, 721, 722, 797 (Research, 2 units), and 799A (Thesis). Six units of graduate electives may be selected from other departments with prior approval of the Industrial/Organizational Coordinator.

Section II. Doctoral Program

Admission to Doctoral Study

To be considered for admission to the joint UCSD-SDSU doctoral program in clinical psychology, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the Deans of the Graduate Divisions; (b) a grade point average

of at least 3.25 in the last 60 semester (90 quarter) units attempted; (c) good standing at the last institution attended; and (d) a minimum total score of 1100 on the GRE Aptitude Test and a score above the 85th percentile on the GRE Advanced Test in Psychology. However, given the large number of applicants in the field of clinical psychology, the selection process is designed to identify the best from among many highly qualified applicants. Thus no minimum set of qualifications in any way guarantees admission. Personal interviews will be conducted with the most promising applicants.

Applicants must submit a copy of all transcripts of previous college work, three letters of recommendation, and score reports for the Graduate Record Examination General Test and Graduate Record Examination Advanced Test in Psychology. Although an undergraduate psychology major is not mandatory for admission, applicants should have completed a minimum of 18 semester units (27 quarter units) in psychology including courses in physiological psychology, statistical methods, psychological testing, abnormal psychology, personality, social psychology, and an experimental laboratory in psychology. Advanced courses in perception and learning are desirable as are courses in biology, mathematics, linguistics, and other related areas (e.g., medical physics, computer sciences). The joint doctoral program is a 12-month program.

STUDENTS WILL BE ADMITTED TO GRADUATE PROGRAMS IN PSYCHOLOGY ONLY IN THE FALL SEMESTER AND APPLICATIONS MUST BE RECEIVED BY THE DEPARTMENT OF PSYCHOLOGY NOT LATER THAN JANUARY 15 FOR THE PH.D. PROGRAM.

Specific Degree Requirements for the Doctor of Philosophy Degree in Clinical Psychology

(Major Code: 20031)

The student is guided by requirements for the doctoral degree program given in Part Two of this Bulletin. The core curriculum will normally be completed during the first two years. Completion of this core insures that students have a general background in empirical psychology (e.g., physiological, social, cognitive-affective, and individual bases of behavior); knowledge of conceptualizations of personality and psychopathology; an awareness and appreciation of professional ethics and conduct; knowledge of the theory and techniques of psychological assessment; knowledge of therapeutic interventions, acquisition of therapeutic skills, and a minimum of 300 hours of supervised clinical experience; and competence in research methods. Specific courses providing this background at SDSU include Psychology 650, 651, 654, 655, 670, 671, 810, 840, 850, 860, 896, and Clinical Psychology 295 at UCSD.

During the second year, students will select a research topic for a Second Year Project, which is similar to a master's thesis. Students are responsible for conducting all phases of this project under the supervision of their Joint Guidance Committee.

After completing the basic two-year core, work in subsequent years will diverge for students in each of the three specialty areas - Behavioral Medicine, Experimental Psychopathology, and Neuropsychology. All students must take three one-unit seminars (Psychology 800) covering each of the specializations.

Students specializing in Behavioral Medicine are required to take Psychology 800, Seminar in Behavioral Medicine, in the fall and spring of the third year. Students taking Experimental Psychopathology are required to take Psychology 852, Seminar in Experimental Psychopathology in the fall of the third year, and Psychology 853, Advanced Seminar in Experimental Psychopathology, in the spring of the third year. Students in Neuropsychology are required to take Clinical Psychology 205, Neuroanatomy, Clinical Psychology 294, Seminar in Neuropsychology, and School of Medicine 202E, Psychopathology, offered at UCSD.

In the fourth year, students are expected to submit and defend a dissertation proposal. Many students will also collect the data for and begin writing the dissertation during this year.

The fifth year is reserved for the completion of a doctoral dissertation and a full-time clinical internship that is identified by the student and the Joint Guidance Committee.

Faculty

The following faculty members of the cooperating institutions participate in the Joint Doctoral Program in Clinical Psychology and are available for direction of research and as members of joint doctoral committees.

San Diego State University:

Program Director: Saccuzzo

Committee Members: R. Bryson, Franzini, Gotlib, Grossberg, Harari, Hillix, Ingram, Litrownik, Marshall, Martin, Murphy, Rosenbaum, Sallis, Sattler, Schulte, Spinetta

University of California, San Diego:

Program Director: Heaton

Committee Members: Ancoli-Israel, Atkinson, Birchler, Braff, Britton, Brown, Butters, Courchesne, Darko, Delis, Dimsdale, Gillin, Grant, Groves, Irwin, Jernigan, Jeste, Kaplan, Kripke, Mandell, Matloff, Patterson, Penn, Ruff, Schreiman, Schuckit, Segal, Shuchter, Slater, Squire, Storms, Zisook

Courses Acceptable on Master's and Doctoral Degree Programs in Psychology

UPPER DIVISION COURSES

501. History of Psychology (3)

Limited to psychology majors with senior standing or graduate students.

The historical background of modern psychology. (Formerly numbered Psychology 580.)

551. Clinical Psychology: Theory and Practice (4) I, II

Two lectures and six hours of laboratory.

Prerequisite: Psychology 350.

Clinical assessment, theory and practice of behavior change, and professional ethics.

570. Advanced Statistics (3) I

Two lectures and two hours of activity.

Prerequisite: Psychology 270.

Principles of experimental design. Comprehensive treatment of analysis of variance, including factorial designs, repeated measures and trend analysis. Case studies from psychological research.

571. Advanced Statistics (3)

Two lectures and two hours of activity.

Prerequisite: Psychology 270.

Quantitative methods in psychology, with emphasis on methods of correlation and regression, including multiple regression and canonical regression. Case studies from psychological research.

587. Advanced Principles of Learning and Cognition (3)

Prerequisites: Psychology 211 and 270.

Empirical data, basic principles and theoretical positions of major theorists in learning and cognitive psychology.

596. Selected Topics in Psychology (3)

Prerequisites: Psychology 101 and consent of instructor.

Intensive study in specific areas of psychology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

Graduate courses in psychology are not open to postbaccalaureate unclassified students.

Priority for enrollment in graduate courses in psychology is given to psychology students who have the courses as requirements in their respective programs.

600. Research Orientation (1) Cr/NC

Prerequisite: Admission to the master's program.

Faculty presentations, followed by individual meetings with students, and initiation of supervised independent research. All new Master of Arts and students are required to enroll for one unit during their first semester and one unit during their second semester; no more than two units are applicable toward the degree.

601. Colloquium (1) Cr/NC

Prerequisite: Admission to an advanced degree program in psychology.

Recent research advances in selected areas of psychology, presented by department faculty and established outside investigators. Master's level students are required to enroll for two semesters; no more than two units are applicable toward the degree.

605. Seminar in Theoretical Psychology (3)

Prerequisite: Consent of graduate adviser.

Basic nature of theories, their relationships to data, and the characteristics of various types of constructs used in psychological theories.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

621. Seminar in Personnel Psychology (3)

Prerequisites: Psychology 320 and consent of graduate adviser.

Problems and procedures in selection, classification, and performance appraisal, focusing on testing in industry, the interview, and other selection and assessment devices. Criterion development and measurement methods.

622. Seminar in Organizational Psychology (3)

Prerequisites: Psychology 321 and consent of graduate adviser.

Applications of psychological principles and methods of investigation to problems of industrial relations and motivation of employees; factors influencing morale and employee productivity; criteria of job proficiency; psychological aspects of worker-management relationships and leadership.

650. Seminar and Laboratory in Counseling and Psychotherapy (4)

Two lectures and six hours of laboratory.

Prerequisite: Consent of graduate adviser.

Supervised practice in the application of psychotherapeutic and counseling techniques from selected cognitive, dynamic, interpersonal, and behavioral approaches.

This course is open only to students accepted in the Clinical Psychology Concentration.

651. Seminar in Behavior Disorders of Childhood and Adolescence (3)

Prerequisites: Psychology 350 and consent of graduate adviser.

Contemporary approaches to emotional and behavioral problems of childhood and youth. Considers developmental, cognitive and social variables as well as theory and treatment.

652. Seminar in Behavior Disorders of Adults (3)

Prerequisites: Psychology 350 and consent of graduate adviser.

Contemporary approaches to emotional and behavioral problems of adulthood. Considers developmental, cognitive and social variables as well as theory and treatment.

654. Seminar in Psychological Assessment I (4)

Two lectures and six hours of laboratory.

Prerequisites: Psychology 350, 470, and consent of graduate adviser.

Theory and practice in assessment of intelligence and special abilities.

655. Seminar in Psychological Assessment II (4)

Two lectures and six hours of laboratory.

Prerequisites: Psychology 654 and consent of graduate adviser.

Theory and practice in assessment of special abilities, personality and behavior disorders.

670. Experimental Design (3)

Two lectures and two hours of activity.

Prerequisites: Psychology 410, a passing score on the departmental statistics aptitude test and consent of graduate adviser.

Principles and methods of planning and carrying out systematic investigations to answer questions concerning human behavior with stress on the interdependence of experimental design and statistical evaluation of results. Practice in formulation of testable hypotheses, techniques of equating groups, solution of sampling problems, and interpretation of results.

671. Correlational and Multivariate Analysis in Psychology (3)

Two lectures and two hours of activity.

Prerequisites: Psychology 670 and consent of graduate adviser.

Application of multiple regression and multiple correlation techniques to behavioral data. Multivariate analyses in psychology using computer-based statistical packages. Analysis and interpretation of representative data from psychological science and practice.

675. Seminar in Psychological Measurement (3)

Prerequisites: Psychology 470 and consent of graduate adviser. Recommended: Psychology 670 and 671.

General principles, theory and methods underlying measurement in studies of group and individual differences in controlled experiments.

700. Seminar (3)

Prerequisite: Consent of graduate adviser.

An intensive study in advanced psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

721. Advanced Seminar in Personnel Psychology (3)

Prerequisites: Psychology 621 and consent of master's programs coordinator.

Selected areas within personnel psychology including selection, classification, performance appraisal, test development, criterion development, measurement and scaling techniques. Course may be repeated with new content with permission of instructor and master's programs coordinator. Maximum credit six units applicable to a master's degree.

722. Advanced Seminar in Organizational Psychology (3)

Prerequisites: Psychology 622 and consent of master's programs coordinator.

Selected areas within organizational psychology including leadership, motivation, organizational development, and organizational effectiveness. Course may be repeated with new content with permission of instructor and master's program coordinator. Maximum credit six units applicable to a master's degree.

745. Seminar in Social Psychology (3)

Prerequisite: Consent of graduate adviser. Recommended: Psychology 340 or 412.

Issues of contemporary importance in the field. See Class Schedule for specific content.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

757. Seminar in Selected Topics in Clinical Psychology (3)

Prerequisite: Consent of graduate adviser.

Advanced study of such clinical topics as cognitive behavior therapy, forensic psychology, ethics, and stress. Topics will vary on a semester basis.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

760. Seminar in Physiological Correlates of Behavior (3)

Prerequisites: Psychology 260 or six units of biology; and consent of graduate adviser.

An exploration of current research and theory in physiological psychology with emphasis on behavioral correlates and psychophysiology.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

761. Seminar in Ethology and Comparative Psychology (3)

Prerequisites: Psychology 417 or Biology 354, or Biology 527, and consent of graduate adviser.

Current problems in ethology and comparative animal behavior. Maximum credit six units applicable to a master's degree.

764. Seminar in Psychopharmacology and Behavioral Disorders (3)

Prerequisites: Psychology 260 and consent of graduate adviser.

Drugs as cause and cure of behavioral problems. A review of drugs commonly used to change behavior in primary schools, psychiatric centers, in-home programs and mental hospitals.

796. Clinical Practicum (3 or 6) Cr/NC/SP

Prerequisites: Psychology 650 and 654 and consent of the Department of Psychology Practicum Committee.

The students must arrange their practicum setting in cooperation with the chair of the Psychology Department Practicum Committee and with the express approval of that committee during the semester prior to enrolling for credit in this course. Maximum credit six units applicable to a master's degree.

This course is open only to students accepted in the Clinical Psychology Concentration.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.

Research in one of the fields of psychology. Maximum credit six units of 797 and 798 combined applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of graduate adviser.

Individual projects involving library or laboratory research in any area of psychological investigation or interest. Maximum credit of six units of 797 and 798 applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree. Credit is contingent upon acceptance of the completed thesis by the Department of Psychology.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

800. Seminar (1-8)

Prerequisite: Admission to the doctoral program.

Investigation of a particular topic or issue, emphasis on empirical research. See Class Schedule for specific content. Maximum credit eight units applicable to a doctoral degree.

801. Seminar in History and Ethics in Psychology (3)

Prerequisite: Admission to doctoral program in Clinical Psychology.

Historical background of modern psychology; in-depth examination of the American Psychological Association code of ethics and its application to the conduct of clinical psychologists.

810. Seminar in Cognitive Psychology (3)

Prerequisite: Admission to doctoral program in Clinical Psychology.

Research and theory in cognitive psychology, advanced study of attention, memory, schemas, scripts, categorization, language production, and comprehension, problem solving and decision making.

840. Seminar in Personality and Social Psychology (3)

Prerequisite: Admission to doctoral program in Clinical Psychology.

Research and theory in personality and social psychology. Theories of personality and individual differences, group processes, sex roles, social perception, and cross-cultural issues.

850. Seminar in Theory and Practice in Clinical Interventions (3)

Prerequisite: Admission to doctoral program in Clinical Psychology.

Theory and application of clinical interventions, advanced study of interviewing techniques, behavioral interventions, cognitive/behavioral interventions, and family/child interventions.

851. Seminar in Experimental Psychopathology (1)

Prerequisites: Admission to the doctoral program in Clinical Psychology and second year status.

Major theoretical and methodological concepts in experimental psychopathology.

852. Seminar in Experimental Psychopathology Research (4)

Prerequisites: Admission to the doctoral program in Clinical Psychology.

Analysis of experimental and theoretical literature as it pertains to research methodology for the study of disordered behavior.

853. Advanced Seminar in Experimental Psychology (4)

Prerequisite: Admission to the doctoral program in Clinical Psychology.

Research design paradigms and methodological considerations used in conducting research in psychologically disordered groups. Strategies in the assessment of disordered groups.

860. Seminar in Physiological Foundations of Behavior (3)

Prerequisite: Admission to doctoral program in Clinical Psychology.

Research and theory in physiological psychology. Advanced study of biological rhythms, sleep and waking, stress responses, the neurophysiology of learning and memory, and research methods in physiological psychology.

895. Practicum in the Teaching of Psychology (1-6) Cr/NC

Prerequisite: Admission to doctoral program in Clinical Psychology.

Supervision in the teaching of psychology, covering lecture writing, style of lecture presentation, in-class demonstration and exercises, test and syllabi construction, and grading systems.

896. Clinical Practicum (1-12) Cr/NC/SP

Prerequisites: Admission to the doctoral program; Psychology 796.

Supervision of advanced intervention strategies applied to clinical populations.

897. Doctoral Research (1-8) Cr/NC/SP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/SP

Prerequisite: Admission to the doctoral program.

Individual study in the field of specialization. Maximum credit eight units applicable to the doctoral degree.

899. Doctoral Dissertation (3-6) Cr/NC/SP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

510. Contemporary Issues in Law Enforcement Administration (3)

Prerequisite: Criminal Justice Administration 310.
Assessment of problems confronting administrators of law enforcement agencies and of recent efforts to enhance the capability of agencies to control criminal activity while guarding individual liberties.

520. Prosecutorial Function in Administration of Justice (3)

Prerequisite: Criminal Justice Administration 301.
Analysis of prosecutor's function at local, state and federal levels and in selected foreign nations, including appraisal of proposed national standards and goals for prosecutors.

531. Probation and Parole (3)

Prerequisite: Criminal Justice Administration 330.
Basic concepts, history, legislation, and practices used in work with juveniles and adults who have been placed on probation or parole; criteria of selection, methods of supervision, and elements of case reporting.

540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3) I, II

Prerequisite: Criminal Justice Administration 301.
Application of planning, research and program development and evaluation principles to the field of criminal justice.

543. Community Resources in Criminal Justice Administration (3)

Prerequisite: Criminal Justice Administration 301.
Exploration of present and probable roles of public and private agencies and volunteers in criminal justice administration.

UPPER DIVISION COURSES IN PUBLIC ADMINISTRATION

510. Intergovernmental Relations in the United States (3) I

Prerequisite: Public Administration 310 or 312 or 315.
Constitution, political and administrative characteristics of American federalism, including regionalism, interstate compacts, and grants-in-aid.

512. The Metropolitan Area (3)

Prerequisite: Public Administration 310 or 312.
Problems of government and administration arising from population patterns and physical and social structures of metropolitan areas.

520. Decision Making in the Urban Community (3)

Prerequisite: Public Administration 310.
Processes of decision making in the management of urban communities.

525. The U.S. City Planning Process (3) I

Prerequisite: Public Administration 320 or graduate standing.
Description and critique of traditional city planning process; styles and roles of city planner; city planning values and ethics.

530. Negotiation and Bargaining in the Public Service (3)

Prerequisite: Public Administration 301.
Specific issues such as strategies, the effects of threat, the physical setting, use of a third-party observer and theories of advocacy. Emphasis on analyzing simulations of the bargaining process and developing effective negotiation skills.

531. Governmental Employer-Employee Relations (3)

Prerequisite: Public Administration 330.
Historical development, legal basis and organizational implications of governmental employer-employee relations; emphasis on California local government.

540. Public Administrative Systems Analysis (3)

Prerequisites: Public Administration 301 and a statistics course.
Systems and organization analysis; work standards and units; procedures analysis; administrative planning.

550. Budgetary and Financial Administration in the Public Sector (3) II

Prerequisites: Public Administration 301 and 450.
Management trends in public sector financial administration; budgetary procedures and techniques; control and monitoring systems. Cash management, capital projects management, debt administration, disbursement, funds management, and auditing.

570. Administrative Law (3)

Prerequisite: Public Administration 301.
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.

580. Comparative Public Administration (3)

Prerequisite: Public Administration 301.
Administrative organization and process of selected foreign and American governments. Analysis of the cultural basis of administrative systems.

GRADUATE COURSES IN PUBLIC ADMINISTRATION

600. Scope of Public Administration (3)

Prerequisite: Six upper division units in public administration.
The development of public administration as an academic discipline; a systematic evaluation of the rise and operations of large-scale public bureaucracies.

604. Methods of Analysis in Public and Urban Affairs (3)

Prerequisite: Credit or concurrent registration in Public Administration 600.

Research design for problems and cases in public affairs; summarizing and organizing data; methods of projection; sampling theory and application; using census and other secondary data sources.

605. Seminar in Research Methods in Public Administration (3)

Prerequisites: Public Administration 600 and 604.
Examination of basic research approaches, i.e., legal, historical, and small-group, etc.

606. Seminar in Quantitative Approaches to Public Administration (3)

Prerequisites: Public Administration 600 and 604.
Advanced techniques for analyzing problems in public and urban affairs; emphasis on computer applications.

620. Seminar in Management of Urban Governments (3)

Selected problems in the management of urban governments. Maximum credit six units applicable to a master's degree.

621. Seminar in the Metropolitan Area (3)

Prerequisite: Public Administration 310, 512 or 520.
Selected problems in the government and administration of the world's major metropolitan areas.

630. Seminar in Public Personnel Administration (3)

Prerequisite: Public Administration 600.
Analysis of selected problems in personnel administration; special emphasis on organizational development and consultation skills as emerging personnel functions. Maximum credit six units applicable to a master's degree.

632. Seminar of Organization Development in the Public Sector (3)

Prerequisite: Public Administration 600.
Organization development theory and practice. Emphasis on organizational diagnosis, intervention theory, team building and process consultation skills as they apply to public sector organizations.

633. Collective Bargaining in the Public Sector (3)

Prerequisite: Public Administration 530 or 531.
Simulation of public sector collective bargaining. Students will participate in all facets of the bargaining process including data collection, proposal preparation, formal and informal negotiation, fact-finding and mediation. Videotape feedback will be used extensively.

640. Seminar in Public Administration (3)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

642. Seminar in Administrative Theory (3)

Prerequisite: Public Administration 600.
Organization and management; the executive role, decision making; bureaucracy; authority and power; communication and control and organizational system; tactics and strategies in effective management.

643. Seminar in Administrative Behavior (3)

Prerequisite: Public Administration 340.
Intrapersonal, interpersonal and group development knowledge which enhances the administrator's effectiveness. Simulations and structured experiential designs examine behaviors encountered in public bureaucracies.

650. Seminar in Public Financial Management (3)

Prerequisite: Public Administration 450.
Economics and politics of the public sector. Theories of public expenditure analysis and revenue generation. Issues of ethics and efficiency in government financial policy.

660. Administration and Public Policy Development (3)

Prerequisite: Public Administration 600.
Social, political and administrative problems involved in governmental program development and change.

670. Seminar in Administrative Law (3)

Prerequisite: Public Administration 570.
Legal aspects and problems of administration at the federal, state, and local levels.

791. Readings in Public Administration (3) Cr/NC

Prerequisites: Public Administration 600 and advancement to candidacy.
Selected readings in the literature of public administration.

792. Problem Analysis (3)

Analytical treatment of selected problems in Public Administration. Review of methods for investigation and reporting of data. Consideration of problems in preparation of projects or thesis.

796. Internship in Public Administration (3-12) Cr/NC

Prerequisite: Consent of instructor.
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Admission by consent of instructor. Maximum credit twelve units.
The 12 units of 796 will be exempt from the University's requirement that courses graded Cr/NC be limited to 30 percent of units for the master's degree.

797. Research in Public Administration (3) Cr/NC/SP

Prerequisite: Consent of Director of Public Administration and Urban Studies.
Research in one of the areas of public administration. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff, to be arranged with the Director and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

GRADUATE COURSES IN CITY PLANNING

615. Graphics and Presentation Techniques in City Planning (3)

One lecture and six hours of laboratory.
Prerequisite: Graduate standing.
Maps, scales, representational and graphic communication techniques and materials, computer mapping. How to organize effective planning and design presentations.

620. Seminar in Urban Planning Methodologies (3)

Procedures and analytical techniques for advanced urban planning analysis.

625. Quantitative Techniques in Urban Planning (6)

Three lectures and nine hours of laboratory.
Prerequisite: Public Administration 604.
Contemporary techniques and methodologies of planning analysis; a practicum emphasizing survey research, environmental impact techniques; case studies in demographic and economic analysis.

630. Seminar in Urban Planning Implementation (3)

Prerequisite recommended: City Planning 620.
Analysis of the content and function of zoning, subdivision regulation, codes, capital budgeting, urban renewal, model cities, and other implementation methods and programs.

635. Seminar in Housing and Housing Policy (3)

Study, definition and analysis of housing needs and problems. Public policies and programs addressed to housing issues. Alternative solutions and the role of the private and public sectors.

640. Seminar in Urban Planning Theory (3)

Prerequisite recommended: City Planning 630.
Alternative theories of planning and organization of the planning function. Emphasis on conceptual foundations, relationship to governmental structure, decision making, and ideological and ethical orientations.

650. Seminar in Urban Theory (3)

Study of the various empirically and normatively based theories of the city and urbanization process, with emphasis on communication and transaction and institutional approaches.

665. Seminar in Urban and Regional Planning Analysis (3)

Theories and techniques of urban and regional planning analysis.

670. History of Urban Planning (3)

History of urban development and of the field of urban planning.

680. Seminar in Readings in Urban Planning (3)

Selected topics in urban planning. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

690. Seminar in Land Use Planning Principles and Techniques (3)

Two lectures and three hours of laboratory.
Prerequisite: City Planning 630.
Land-use and physical planning principles and techniques at the regional, community, specific and subdivision planning levels.

700. Urban Design and Land Use Planning Studio (6)

One lecture and ten hours of laboratory.
Prerequisite: City Planning 690.
Preparation of land-use plans and planning reports at the regional, community and subdivision levels.

710. Seminar in Theories of Urban Design (3)

Perspectives and methodologies of contemporary urban design and its contribution toward improving the quality of the physical, social and economic environment.

720. Seminar in Land Use and Environmental Law (3)

Cases and studies in zoning, coastal planning, growth management and environmental assessment.

730. Seminar in Urban Transportation Planning (3)

Issues, techniques and practices in urban transportation planning with general emphasis on interrelations between transportation and land use planning.

796. Internship in Urban Planning (6-12) Cr/NC

Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit twelve units.

797. Research in Urban Planning (3) Cr/NC/SP

Prerequisite recommended: Consent of Director of City Planning Program.

Research in one of the areas of urban planning. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite recommended: Consent of staff.

To be arranged with Director of City Planning and instructor. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

GRADUATE COURSES IN CRIMINAL JUSTICE ADMINISTRATION

601. Seminar in the Administration of Criminal Justice (3)

Prerequisite: Criminal Justice Administration 301.

Administrative problems of criminal justice systems.

602. Seminar in the Criminal Justice System as a Social Institution (3)

Prerequisite: Criminal Justice Administration 301.

Examination of criminal justice system as both cause and consequence of social change; nature of institutional change with application to criminal justice system components.

604. Seminar in Criminal Justice and Urban Administration (3)

Prerequisite: Criminal Justice Administration 540.

Critical analysis of influences on crime control and the criminal justice process of actions by urban administrators, legislators and the private sector in areas such as housing, education, public health and transportation, and urban development policies.

696. Selected Topics in Criminal Justice Administration (3)

Prerequisite: Criminal Justice Administration 601 or 602.

Analysis of contemporary issues of major import to the administration of criminal justice. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

791. Seminar in Readings in Criminal Justice Administration (3)

Prerequisite: Six graduate units in criminal justice administration.

Selected readings in the literature of criminal justice administration.

797. Research in Criminal Justice Administration (3) Cr/NC/SP

Prerequisite: Consent of Coordinator of Criminal Justice Administration.

Research in one of the areas of criminal justice administration. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with Coordinator and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

OFFICE: Hardy Tower 119

TELEPHONE: (619) 594-6317

Faculty

Peter A. Dual, Ph.D., M.P.H., Professor of Public Health, Dean of the College of Health and Human Services

F. Douglas Scutchfield, M.D., Professor of Public Health, Director of the Graduate School of Public Health

Kevin M. Patrick, M.D., M.S., Director of Health Services and Director of the General Preventive Medicine Residency Program, Adjunct Faculty in Public Health

Epidemiology and Biostatistics

Elena S. H. Yu, Ph.D., Professor of Public Health

Craig A. Molgaard, Ph.D., M.P.H., Associate Professor of Public Health

Donald J. Slymen, Ph.D., Assistant Professor of Public Health

Abram S. Benenson, M.D., Lecturer in Public Health, Division Head

Louise K. Hofherr, M.P.H., Ph.D., Lecturer in Public Health

Health Promotion

Melbourne F. Hovell, Ph.D., M.P.H., Professor of Public Health

David A. Sleet, Ph.D., Professor of Health Science and Adjunct Professor of Public Health

Felipe G. Castro, M.S.W., Ph.D., Associate Professor of Public Health

John P. Elder, Ph.D., M.P.H., Associate Professor of Public Health, Acting Division Head

Joni A. Mayer, Ph.D., Associate Professor of Public Health

General Information

The Graduate School of Public Health in the College of Health and Human Services offers graduate study leading to the Master of Public Health degree. The Master of Science degree offered for certain concentrations emphasizes specialization in laboratory science areas and is offered for students who have undergraduate degrees in appropriate science fields. The curriculum enables students to prepare for professional careers with responsibility for health services in public and private agencies and organizations.

Students may specialize in one of six concentrations. The following general description of faculty and student research currently being conducted in each of the six concentrations helps to illustrate the role of each specialty area within the broad, interdisciplinary field of public health:

Environmental Health and Toxicology: isolation and identification of chemical and microbiological disease agents in air, water, and soil; toxicity and mechanism studies of pesticides, food contaminants, diesel exhaust and other environmental chemicals, with emphasis on pulmonary and reproductive system toxicants.

Epidemiology and Biostatistics: identification of biological, environmental, social and behavioral risk factors for human disease; determination of the distribution and etiology of disease in human populations, particularly infectious and chronic diseases; development and application of statistical methods and models in the fields of health, medicine and biology.

Health Promotion: health education and behavior modification approaches to reducing the incidence of chronic diseases, injury, and other major health problems; particular emphasis on minority, disadvantaged, and aged populations.

Public Health

Health Services Administration

William E. Sterk, M.B.A., Ph.D., Professor of Finance and Adjunct Professor of Public Health

Stephen J. Williams, S.M., Sc.D., Professor of Public Health, Division Head

Alma L. Koch, Ph.D., M.P.H., Associate Professor of Public Health

K. Michael Peddecord, Dr.P.H., Associate Professor of Public Health

Robert L. Seidman, Ph.D., Assistant Professor of Public Health and Economics

Donald J. Slymen, Ph.D., Assistant Professor of Public Health

Sheryl T. Dacso, M.P.H., J.D., Dr.P.H., Lecturer in Public Health

Daniel P. McLean, M.S.A., Lecturer in Public Health

Maternal and Child Health

Allan C. Oglesby, M.D., M.P.H., Professor of Public Health, Division Head

Winnie Willis, R.N., Sc.D., Associate Professor of Public Health

Carl Coffelt, M.D., M.P.H., Adjunct Faculty in Public Health

Ofelia V. Dirige, R.D., Dr.P.H., Adjunct Faculty in Public Health

Betty Z. Bassoff, D.S.W., Lecturer in Public Health

Occupational and Environmental Health

John B. Conway, M.P.H., Ph.D., Professor of Public Health

Behzad S. Samimi, M.S.P.H., Ph.D., C.I.H., Professor of Public Health, Division Head

Ann de Peyster, Ph.D., Associate Professor of Public Health, Associate Director of the Graduate School of Public Health (Graduate Adviser)

Richard M. Gersberg, Ph.D., Assistant Professor of Public Health

Health Services Administration: management and operation of health care systems and organizations including all aspects of line and staff functions, evaluation of services, and strategic planning and policy development; applies to direct providers as well as insurers, government, and other organizations.

Maternal and Child Health: health services delivery to mothers and children, with emphasis on family planning, perinatal care, handicapped children, identification of needs and program planning and evaluation in maternal and child health services.

Occupational Health and Industrial Hygiene: recognition, evaluation and control of chemical, physical, and biological hazards in the work place; current emphasis on studies of airborne contaminants and respiratory protection.

Beginning 1990-91, the Master of Science degree concentrations in Environmental Health Science, Industrial Hygiene, and Toxicology will be offered. At the same time, the existing MPH focus areas in industrial hygiene and toxicology will begin to be phased out and new applications for the graduate industrial hygiene and toxicology programs will be considered only for the M.S. degree. Continuing students in the current industrial hygiene and toxicology MPH programs (including those admitted for academic year 1990-91) may complete the requirements for the M.P.H. degree but must be advanced to candidacy prior to the end of the 1990-91 academic year. Continuing students in industrial hygiene and toxicology who have not yet been advanced to candidacy in the M.P.H. program by the end of the 1990-91 academic year will be required to transfer to the M.S. programs and complete program requirements in these areas of study.

The Graduate School of Public Health and the Department of Community and Family Medicine of the University of California, San Diego, offer a Ph.D. degree in Public Health with a Concentration in Epidemiology.

In addition, the school offers a Master of Public Health specialization in Occupational Health Promotion which integrates studies in Occupational Health and Health Promotion, a concurrent Master of Public Health/Master of Social Work dual degree program, and a Preventive Medicine Residency Certificate.

A significant number of expert practitioners in specialized fields of public health are involved in the academic and practical components of the program, to provide breadth and depth of opportunity for the student. Many of the health facilities within San Diego are available for field study and practicum requirements. In addition, modern computer facilities and laboratories are available on the San Diego State University campus.

The school's proximity to the Mexican border has promoted the development of strong professional ties between the Graduate School of Public Health faculty and students and their counterparts in Baja California. A number of jointly sponsored binational research and service projects are aimed at improving public health conditions and health services on both sides of the U.S.-Mexico border.

Section I. Master's Degree Programs

Master of Public Health Degree

Admission to Graduate Study

Applicants seeking admission to the program leading to the Master of Public Health degree should contact the Graduate School of Public Health requesting appropriate application materials. Detailed information concerning application procedures will be sent to the applicant along with appropriate application forms.

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the Graduate School of Public Health must: (1) submit a narrative statement as described in Instructions for Applicants; (2) submit three letters of recommendation; (3) present additional evidence of promise of success in academic and professional activities; and (4) document competence or prior academic preparation in the biological sciences, social sciences, and quantitative methods. A personal interview is desired when feasible.

Advancement to Candidacy

All students must: (1) meet the general requirements for advancement to candidacy as described in Part Two of this bulletin; (2) satisfactorily pass a faculty evaluation of the progress that they are making in their graduate course of study; (3) complete the core courses, Public Health 601, 602, 603, 604, 605 (students in Health Services Administration will substitute Public Health 641 and 644 for Public Health 605 and students in Health Promotion will substitute Public Health 661 and 662 for Public Health 603) with a grade point average of at least 3.0 and no grade less than a B- in each core course completed; and (4) have completed at least 12 semester units of approved public health coursework.

In addition, the student must be recommended for advancement to candidacy by the faculty of the Graduate School of Public Health.

Specific Requirements for the Master of Public Health Degree

(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units (55 units for students in Health Services Administration Concentration) including: (1) twelve units of core

courses, Public Health 601, 602, 603**, 604, and 605*; (2) a minimum of 21 units of graduate courses in the area of concentration; (3) a maximum of twelve units of supervised field placement (if the student has not had equivalent field experience); and (4) electives selected with the approval of the graduate adviser. In addition, Public Health 799A, Thesis, must be included in the program except in the Maternal and Child Health, Health Services Administration, and Health Promotion concentrations where the student may select the Plan B option, with a comprehensive written examination in lieu of the thesis when approved by the graduate adviser. Up to six units of graduate credit may be accepted in transfer, with the approval of the graduate adviser.

* Students in Health Services Administration will take Public Health 641 and Public Health 644 in lieu of Public Health 605.

** Students in Health Promotion will take Public Health 661 and 662 in lieu of Public Health 603.

Concentration in Environmental Health

Courses required for the concentration:

- PH 632 Air Quality (3)
- PH 634 Environmental Protection (3)
- PH 639 Water Quality Investigation (3)

or for students wanting to focus on toxicology*:

- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 638A Principles of Toxicology (3)
- PH 638B Methods in Toxicity Testing (3)
- PH 739 Quality Assurance in Toxicity Testing (3)

Prescribed electives (a minimum of six additional units selected with the approval of the adviser from):

- PH 635 Occupational Medicine (3)
- PH 636 Hazardous Waste Management (3)
- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 638A Principles of Toxicology (3)
- PH 700 Seminar in Public Health (1-3)
- PH 721 Environmental Epidemiology (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 732 Principles of Industrial Hygiene (4)
- PH 734 Noise in the Work Place (3)
- PH 737 Advanced Industrial Hygiene (4)
- PH 738 Topics in Toxicology (3)
- PH 798 Special Study (1-3) Cr/NC/SP

Electives (6 units): These electives may include any public health course or selected graduate level courses in other departments with the approval of the faculty adviser.

* The M.P.H. focus area in toxicology will be offered for the last time in 1990-91. Please see requirements for the new M.S. degree program in toxicology.

Concentration in Epidemiology

Courses required for the concentration:

- PH 621 Epidemiology of Infectious Diseases (3)
- PH 622 Epidemiology of Chronic Diseases (3)
- PH 623 Epidemiological Methods (3)
- PH 627 Advanced Statistical Methods in Public Health (3)

Prescribed electives in Epidemiology (two courses selected from):

- PH 625 Control of Infectious Diseases (3)
- PH 649 Public Health Data Organization and Management (3)
- PH 700A Seminar in Public Health (3)
- PH 721 Environmental Epidemiology (3)

Electives (3 units selected with the approval of the concentration faculty): These electives may include any public health course or selections from the following:

- Biology 552, 585, 586, 587, 588, 589, 644
- Family Studies and Consumer Sciences 600, 606, 607, 609, 700
- Mathematics 550, 551A, 554A, 672, 673, 674, 677
- Sociology 770

Specialization in Epidemiology-Biostatistics

Courses required for the specialization:

- PH 622 Epidemiology of Chronic Diseases (3)
- PH 627 Advanced Statistical Methods in Public Health (3)
- PH 650 Field Practice (3-6) Cr/NC
- MATH 551A, 551B Mathematical Statistics (3-3)
- MATH 554A Computer Oriented Statistical Analysis (3)
- MATH 673 Sample Surveys (3)
- MATH 677 Design of Experiments (3)

Prescribed electives (3 courses selected with approval of adviser):

- PH 623 Epidemiological Methods (3)
- PH 647 Quantitative Methods (3)
- MATH 553 Stochastic Processes (3)
- MATH 672 Nonparametric Statistics (3)

Approved public health or graduate biology course (3)

Concentration in Health Promotion

Courses required for the concentration:

- PH 607 Research Methods and Proposal Writing (3)
- PH 661 Theoretical Foundations of Health Promotion (3)
- PH 662 Motivating Health Behavior (3)
- PH 663 Health Promotion Communications Theory and Design (3)
- PH 666 Health Promotion Program Planning and Assessment (3)

Prescribed electives (choose two or more different courses from):

- PH 664 Health, Society and Human Behavior (3)
- PH 665 Health Promotion in Clinical Settings (3)
- PH 667 Prevention and Control of Chronic Diseases (3)
- PH 668 Seminar in Health Promotion Research (3)
- PH 669 Health Risk Appraisal (3)
- PH 671 Health Promotion in Work Settings (3)
- PH 700 Seminar in Public Health (1-3)
- PH 761 Programming Health Promotion (3)
- PH 762 Behavioral Medicine (3)
- PH 763 Injury Control (3)
- PH 765 Stress and Disease (3)
- PH 797 Research (3) Cr/NC/SP

Electives (6 units to be chosen with the approval of the faculty from any Public Health course or Health Science 573, 574).

Concentration in Health Services Administration

Courses prerequisite to this concentration are Accountancy 600 and Economics 603 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

- ACCTG 600 Financial Accounting (3) or equivalent
- ECON 603 Economic Analysis (3) or equivalent

Courses required for the concentration:

- PH 641 Health Care Delivery Systems (3)
- PH 642A Professional Development of the Health Services Administrator (2)
- PH 642B Professional Development of the Health Services Administrator (1)
- PH 643 Strategic and Program Planning in Health Services (3)
- PH 644 Health Services Management (3)
- PH 645 Health Services Economics (3)
- PH 647 Quantitative Methods (3)
- PH 742A Health Services Financial Management (3)
- PH 742B Health Services Financial Management (3)

Setting electives (at least one):

- PH 743 Organization and Management of Health Services (3)
 - A. Hospitals
 - C. Ambulatory Care

Skill electives (9 units selected with approval of the faculty).

Concentration in Maternal and Child Health

Courses required for the concentration:

- PH 651A Problems and Programs in Maternal and Child Health (3)
- PH 651B Seminar in Problems and Programs in Maternal and Child Health (3)
- PH 652 Maternal Health (3)
- PH 653 Family Planning (3)
- PH 655 Child Health (3)
- PH 747 Program Evaluation in Health Services (3)

Electives (6 units): At least three units must be selected from the following MCH courses. The remaining elective units may be selected from any public health courses or graduate level courses offered in other departments with the approval of the faculty adviser.

- PH 654 Maternal and Child Health Legislation (3)
- PH 656 Seminar in International Maternal and Child Health (3)
- PH 700 Seminar in Public Health (1-3)
- PH 751 Perinatal Health Care Services (3)
- PH 752 Health Care of Children of School Age (3)
- PH 754 Handicapped Children and Youth (3)
- PH 756 Seminar in Genetics: Public Health Application (3)
- PH 757 Seminar in Nutrition in Maternal and Child Health (3)
- PH 758 Issues of Women in Public Health (3)

Concentration in Occupational Health

Courses required for the concentration:

- PH 635 Occupational Medicine (3)
- PH 638A Principles of Toxicology (3)
- PH 732 Principles of Industrial Hygiene (4)

or for students wanting to focus on industrial hygiene*:

- PH 732 Principles of Industrial Hygiene (4)
- PH 734 Noise in the Work Place (3)
- PH 737 Advanced Industrial Hygiene (4)

Electives (17 units for occupational health, 16 units for industrial hygiene focus): At least three courses must be selected from the following list. The remaining elective units may be selected with the approval of the academic adviser from any public health course or graduate level courses offered by other departments.

- PH 632 Air Quality (3)
- PH 634 Environmental Protection (3)
- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 638A Principles of Toxicology (3)
- PH 639 Water Quality Investigation (3)
- PH 700 Seminar in Public Health (1-3)
- PH 721 Environmental Epidemiology (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 734 Noise in the Work Place (3)
- PH 735 Industrial Ventilation (3)
- PH 736 Occupational Health Program Management (3)
- PH 737 Advanced Industrial Hygiene (4)

* The M.P.H. focus area in industrial hygiene will be offered for the last time in 1990-91. Please see requirements for the new M.S. degree program in industrial hygiene.

Specialization in Occupational Health Promotion

Courses required for the specialization:

- PH 607 Research Methods and Proposal Writing (3)
- PH 635 Occupational Medicine (3)
- PH 650 Field Practice (3) Cr/NC
- PH 662 Motivating Health Behavior (3)
- PH 671 Health Promotion in Work Settings (3)
- PH 732 Principles of Industrial Hygiene (4)
- PH 736 Occupational Health Program Management (3)

Prescribed electives (6 units selected from Group A and 6 units selected from Group B for a total of 12 units):

Group A:	
PH 661	Theoretical Foundations of Health Promotion (3)
PH 663	Health Promotion Communications Theory and Design (3)
PH 665	Health Promotion in Clinical Settings (3)
PH 666	Health Promotion Program Planning and Assessment (3)
PH 669	Health Risk Appraisal (3)
PH 762	Behavioral Medicine (3)
PH 763	Injury Control (3)
Group B:	
PH 637	Biological Mechanisms of Environmental Toxicants (3)
PH 638A	Principles of Toxicology (3)
PH 721	Environmental Epidemiology (3)
PH 734	Noise in the Work Place (3)

Students must enroll in Public Health 799A (Thesis, 3 units), and complete a quantitative analysis concerning Occupational Health Promotion. The student's thesis committee must include one faculty member from the Division of Health Promotion and one from the Division of Occupational and Environmental Health.

Master of Science Degree in Public Health Admission to Graduate Study

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the Graduate School of Public Health master of science programs must (1) submit a narrative statement as described in Instructions to Applicants; (2) provide three letters of recommendation preferably academic; (3) document competence or prior academic preparation in laboratory sciences. Normally, to be considered for admission to these programs, a student must have successfully completed lecture and laboratory course requirements for an undergraduate degree (BA or BS) in biology, chemistry, engineering, or other basic or applied natural science. The Graduate School of Public Health should be consulted for specific course preparation recommended for each of the concentrations. In some cases, if an applicant is deficient in certain basic or applied science areas, some remedial coursework can be completed as an unclassified graduate student. However, credits earned by remedial courses cannot be applied toward the required number of units for the master's degree. The student must also have successfully completed PH601 and PH602 or their equivalents with a minimum grade of B- in both courses in order to become fully classified in the programs. (PH601 and PH602 will not count toward the 36 unit master of science degree requirements.) Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the Admissions Committee and the graduate adviser. Students so admitted will be advised as to remedial steps to take to satisfy the requirement to achieve full classified graduate standing.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students completing master of science degree concentrations must (1) have satisfactorily completed at least 12 units of coursework of the 36-unit official program including at least two courses chosen from the list of courses required for the student's concentration, with a minimum grade point average of 3.0 (B) and no grade less than a B-; (2) have a thesis proposal which has received the approval of the Graduate School of Public Health faculty.

General Requirements for the Master of Science Degree

(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved

course of study of not less than 36 units in the area of concentration or related disciplines as listed below. Up to six units may be accepted in transfer, with the approval of the graduate adviser. Requirements vary depending on the area of concentration and are as shown below:

	Environmental Health Science	Industrial Hygiene	Toxicology
Required	18	20	18
Prescribed Electives	12	7	12
Research/Thesis (PH 797, 799A)	6	6	6
Field Practice* (PH 650)	—	3	—
Total units:	36	36	36

* A 3-unit field practice is mandatory for industrial hygiene students and may be taken as an elective by students in the Environmental Health Science and Toxicology concentrations with approval of the academic adviser.

Specific Requirements for Master of Science Degree Programs

Concentration in Environmental Health Science

Courses required for the concentration (18 units):

PH 632	Air Quality (3)
PH 634	Environmental Protection (3)
PH 636	Hazardous Waste Management (3)
PH 638A	Principles of Toxicology (3)
PH 639	Water Quality Investigation (3)
PH 700	Seminar in Public Health (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following with the approval of the faculty adviser):

BIOL 545	Limnology (4)
GEOL 551	Hydrogeology (3)
PH 623	Epidemiological Methods (3)
CE 635	Water Quality Engineering (3)
CE 636	Water Quality Processes (3)
PH 637	Biological Mechanisms of Environmental Toxicants (3)
PH 650	Field Practice (3) Cr/NC
PH 721	Environmental Epidemiology (3)
PH 731	Environmental and Occupational Health Policy (3)
PH 738	Topics in Toxicology (3)
PH 798	Special Study (1-3) Cr/NC/SP

Concentration in Industrial Hygiene

Courses required for the concentration (20 units):

PH 636	Hazardous Waste Management (3)
PH 638A	Principles of Toxicology (3)
PH 700	Seminar in Public Health (3)
PH 732	Principles of Industrial Hygiene (4)
PH 735	Industrial Ventilation (3)
PH 737	Advanced Industrial Hygiene (4)

Prescribed electives (a minimum of seven units of coursework selected from the following list with the approval of the faculty adviser):

PH 604	Environmental Determinants of Human Health (2)
PH 632	Air Quality (3)
PH 634	Environmental Medicine (3)
PH 635	Occupational Medicine (3)
PH 639	Water Quality Investigation (3)
PH 731	Environmental and Occupational Health Policy (3)
PH 734	Noise in the Work Place (3)
PH 736	Occupational Health Program Management (3)
PH 798	Special Study (1-3) Cr/NC/SP

Concentration in Toxicology

Courses required for the concentration (18 units):

PH 636	Hazardous Waste Management (3)
PH 637	Biological Mechanisms of Environmental Toxicants (3)
PH 638A	Principles of Toxicology (3)
PH 638B	Methods in Toxicity Testing (3)
PH 700	Seminar in Public Health (3)
PH 738	Topics in Toxicology (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following list with the approval of the faculty adviser):

BIOL 561	Radiation Biology (3)
BIOL 561L	Radiation Biology Laboratory (2)
BIOL 569	Molecular Pharmacology (3)
CHEM 550	Instrumental Methods of Chemical Analysis (2)
PH 627	Advanced Statistical Methods in Public Health (3)
PH 632	Air Quality (3)
PH 635	Occupational Medicine (3)
PH 639	Water Quality Investigation (3)
PH 650	Field Practice (3) Cr/NC
PH 721	Environmental Epidemiology (3)
PH 731	Environmental and Occupational Health Policy (3)

Master of Social Work and Master of Public Health Degrees

The Graduate School of Public Health and the School of Social Work offer a three year concurrent graduate program leading to a Master of Public Health and a Master of Social Work. The major objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community. The student will select one of two practice contexts: Social Work with a concentration in Health, and the Maternal and Child Health Concentration of Public Health; or Social Work with a concentration in Health and the Health Services Administration concentration of Public Health.

For a listing of degree requirements refer to the section of this bulletin on Social Work.

Section II. Doctoral Program

(Major Code: 12141)

The programmatic aspects of the Ph.D. in Public Health have been approved by the University of California and The California State University. The universities are awaiting State action on the 1990-91 budget. Students cannot be admitted until funding has been provided. Students interested in enrolling in the program should contact the school.

The cooperating faculties of the Graduate School of Public Health at San Diego State University and the Department of Community and Family Medicine at the University of California, San Diego offer a joint doctoral program leading to a Ph.D. in public health, with a concentration in epidemiology. The research interests of the participating faculty members cover a wide range of public health problems which represent the interdisciplinary nature of modern public health.

Admission to Doctoral Study

Applicants for admission to the doctoral program must present evidence of capacity for graduate study in public health. A multidisciplinary field such as public health draws from a wide variety of undergraduate majors, but the student is expected to have a strong grounding in the quantitative and biological sciences. The applicant must have a bachelor's degree or the equivalent from an acceptable accredited institution of higher learning with training comparable to that provided by The Califor-

nia State University or University of California undergraduate programs. Admission to the program requires acceptance by both institutions on recommendation of the participating units at SDSU and UCSD. It is understood that acceptance of a student into the joint program by each of the units will be conditioned by their respective standards for graduate admissions and also the available facilities.

APPLICATIONS MUST BE RECEIVED BY THE GRADUATE SCHOOL OF PUBLIC HEALTH NOT LATER THAN FEBRUARY 1 FOR THE PH.D. PROGRAM.

Application

Preliminary application for admission must be made to the steering committee, in care of the Graduate School of Public Health, SDSU. A complete application to the joint doctoral program in public health requires the following information:

The appropriate application form.

Three letters of recommendation (sent directly to the Doctoral Program Coordinator, Graduate School of Public Health, SDSU).

Transcripts of academic work already completed.

Results of the Graduate Record Examination.

To be considered for admission to the joint SDSU-UCSD doctoral program in public health, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the deans of the two graduate divisions; (b) a GPA of at least 3.0 in the last 60 semester (90 quarter) units attempted; (c) good standing at the last institution attended; and (d) an acceptable score (verbal and quantitative) on the GRE General Test. Given the large number of applicants in the field of public health, and the limited number of spaces in the program, the selection process is designed to identify the best from among many highly qualified applicants. Thus no minimum set of qualifications in any way guarantees admission.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of San Diego State University and University of California, San Diego.

Advisory Committee

Upon admission to the program, the steering committee of the two institutions will establish an advisory committee for the student. This committee will consist of three faculty members chosen jointly from the two institutions. In consultation with the student, the committee will develop the student's course of study, prepare and guide a preliminary examination, and establish the student's joint qualifying committee. At least one member of the advisory committee must be from SDSU and one from UCSD.

Course Requirements

Core courses required for the doctoral degree in public health include Public Health 601, 602, 621, 622, 627, and Mathematics 551A, 551B. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern principles of public health and the student's area of epidemiologic interest.

Elective coursework may be selected from offerings at either SDSU or UCSD.

Preliminary Examination

The advisory committee has the responsibility for the preparation of a written preliminary examination that will test broad public health principles and knowledge of epidemiologic methods and their application.

Doctoral Committee

A five-member committee, composed of faculty at SDSU and UCSD, will be recommended by the advisory committee for each student and approved by the graduate deans from both campuses. Two members

must be nonprogram faculty and at least one of those outside members must be a tenured member of each university. The student's dissertation adviser will chair the committee. At least two members must be from SDSU and two from UCSD.

The doctoral committee will conduct a written and oral comprehensive qualifying examination, which will evaluate the student's understanding and knowledge of his or her special area of epidemiologic interest. The purpose of this examination is for the student to demonstrate competence in the major research field.

The doctoral committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the Graduate Division at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the graduate deans on both campuses, the student will be notified of advancement to candidacy by the UCSD Graduate Division.

Dissertation

Following successful completion of the qualifying examination and advancement to candidacy, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of the dissertation adviser, who may be from either SDSU or UCSD. The doctoral committee becomes the dissertation committee after the student's advancement to candidacy. Requirements currently in force at SDSU and UCSD must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree will be awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both institutions.

Financial Support

The Graduate School of Public Health at SDSU and the Department of Community and Family Medicine at UCSD endeavors to provide financial support that will enable all students to devote full time to research training and study.

Section III. Other Programs

Preventive Medicine Residency Certificate

The purpose of the Preventive Medicine Residency Certificate is to train physicians to assure that they have adequate knowledge, attitudes, and skills germane to general preventive medicine and occupational medicine. The physician will be eligible to sit for the Board certification examination administered by the American Board of Preventive Medicine.

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the preventive medicine residency must (1) fulfill the admission requirements given above, and (2) have completed a Doctor of Medicine degree from an accredited institution.

The student will be expected to complete a three year course of study which involves the completion of a clinical year provided by the University of California, San Diego, School of Medicine, the completion of an academic year leading to the Master of Public Health degree provided by the Graduate School of Public Health at San Diego State University, and appropriate practicum experiences under the supervision of faculty of one of the two cooperating institutions.

The student is expected to complete the number of units required for the Master of Public Health degree as well as those additional units which may be prescribed in order to complete the practicum year, i.e., Public Health 750.

The student is expected to have maintained a 3.0 average overall in the coursework at the Graduate School of Public Health and at the University of California, San Diego, School of Medicine.

Program Adviser:

General Preventive Medicine
Kevin M. Patrick, M.D., Director
Graduate School of Public Health

Courses Acceptable on Master's Degree Programs in Public Health

GRADUATE COURSES

601. Epidemiology (3)

Prerequisite: Consent of instructor.

Distribution and determinants of diseases; role of epidemiology in public health. Descriptive, analytic and experimental epidemiology.

602. Biostatistics (3)

Prerequisite: Successful completion of an elementary statistics course within three years or satisfactory score on departmental competency examination on basic statistical methods.

Statistical reasoning applied to public health; probability, hypothesis testing, regression and correlation, analysis of variance, measurement theory and modeling.

603. Behavioral and Social Science in Public Health (2)

Prerequisites: Anthropology 526; Psychology 316, 340; Sociology 436.

Role of psychological, social and environmental variables in health and illness. Multifactorial psychosocial model of disease susceptibility.

604. Environmental Determinants of Human Health (2)

Prerequisites: Biology 100, Chemistry 100.

Environmental determinants and their influence on human health. Biological, physical, and chemical factors which affect the health of a community.

605. Planning, Policy Analysis and Administration of Health Programs (2)

Prerequisite: Sociology 101.

United States health care system with focus on resources planning, policy, and management. Includes health consumer issues, health organizational problems, and elements of public health administration.

606. Seminar in Pathophysiology (3)

Prerequisite: Consent of instructor.

Deviations from normal structure and function in human disease. Morbid anatomic and pathophysiologic basis for diagnosis and treatment of human disease.

607. Research Methods and Proposal Writing (3)

Two lectures and three hours of laboratory.

Prerequisites: Public Health 601, 661, and consent of instructor. Recommended: Public Health 602.

Direct observation measurement, group and intensive experimental designs. Laboratory exercises and proposal writing applicable to public health.

621. Epidemiology of Infectious Diseases (3)

Prerequisite: Public Health 601.

Utilizing selected infectious diseases and environmental settings, provides scientific background on which epidemiological investigations and control measures are based.

622. Epidemiology of Chronic Diseases (3)

Prerequisite: Public Health 601.

Epidemiology of selected chronic diseases.

623. Epidemiological Methods (3)

Prerequisites: Public Health 602, 621 or 622.

Topics include: analysis of descriptive data, design of studies, evaluation of data, development of biological models. Examples of both acute and chronic diseases.

625. Control of Infectious Diseases (3)

Prerequisite: Public Health 621.

Theoretical and practical experience in techniques available for control of infectious diseases.

627. Advanced Statistical Methods in Public Health (3)

Prerequisite: Public Health 602.

Applications of advanced statistical methods for analysis of public health and biomedical data. Topics include multiple linear regression, analysis of variance, logistic regression, and introduction to survival analysis.

632. Air Quality (3)

Prerequisites: Biology 100, Chemistry 251, Physics 180A.

Properties of airborne gases, vapors, and particulate matter. Effects of air pollution on community. Mobile and stationary sources of air pollution. Meteorology and dispersion of air pollutants. Ambient air quality standards.

634. Environmental Protection (3)

Rationale and mechanisms for control of water supplies, liquid and solid waste disposal, lighting, heat, food and housing, pesticides and community noise.

635. Occupational Medicine (3)

Etiology, diagnosis of disease, and stress in the modern industrial environment.

636. Hazardous Waste Management (3)

Prerequisite: Chemistry 201.

Rationale, methods, and regulations governing the proper management of hazardous and toxic wastes.

637. Biological Mechanisms of Environmental Toxicants (3)

Two lectures and three hours of laboratory.

Prerequisites: Biology 261, Chemistry 160, and 230.

Biologic effects and underlying mechanisms of action of harmful environmental agents on mammalian cells and tissues. Emphasis on toxic chemicals and applications of basic mechanisms research to public health situations.

638A. Principles of Toxicology (3)

Prerequisites: Biology 261, Chemistry 160 and 230.

Dose-response and other principles for evaluating the effects of toxic chemicals on mammalian organ systems.

638B. Methods in Toxicity Testing (3)

One lecture and six hours of laboratory.

Prerequisite: Credit or concurrent registration in Public Health 638A.

Laboratory methods used in evaluating chemicals for potential human toxicity.

639. Water Quality Investigation (3)

Two lectures and three hours of laboratory.

Prerequisite: Public Health 604 or 634.

Human health problems associated with water usage and with various aquatic environments.

641. Health Care Delivery Systems (3)

National health care system; topics include health personnel, facilities, organization, and funding of health care.

642A. Professional Development of the Health Services Administrator (2)

Career opportunities and job functions for health services administrator or planner. Introduces future health services administrator to the field of practice from the perspective of various functional roles that could be entered into upon graduation. Limited to health services administration students.

642B. Professional Development of the Health Services Administrator (1)

Legal, moral, and ethical issues in health services administration and issues related to personal and professional growth. Professionals, the characteristics of professionals, and functions of professional organizations. Interaction between administrator and other professionals. Limited to health services administration students.

643. Strategic and Program Planning in Health Services (3)

Prerequisites: Public Health 602 and 641.

Strategic analysis, policy formulation, and program implementation for health services institutions and programs. Use of internal and external organizational data sources, market research, forecasting techniques, and implementation methods in health planning. (Formerly numbered Public Health 643A-643B.)

644. Health Services Management (3)

Prerequisite: Public Health 641.

Decision making, change implementation, and control processes in health care organizations. Emphasizes behavioral, organizational, and

situational factors affecting the management role in hospitals, and management strategies for analyzing problems and implementing changes to improve institutional performance.

645. Health Services Economics (3)

Prerequisite: Economics 603.

Topics related to economics of health care, including supply and demand factors, financing of care, efficiency and cost of delivery, and allied areas.

646. Legal and Ethical Aspects of Health Care (3)

Prerequisite: Public Health 641.

Structure of American legal and judicial systems in relation to health, medical care, and related public policy. Ethical and legal considerations of resource allocation, termination of treatment, and experimentation.

647. Quantitative Methods (3)

Prerequisites: Public Health 602 and 641.

Health services applications of quantitative methods to management decision making. Includes subjects applicable to management of hospitals, clinics, and other health care organizations.

649. Public Health Data Organization and Management (3)

Two lectures and three hours of laboratory.

Prerequisites: Public Health 601 and 602.

Sources of morbidity, mortality, demographic, and health services utilization data. Systematic approaches to analysis, collection, processing, and storage of data of health significance. Statistical packages for application of health services and epidemiologic techniques.

650. Field Practice (3-6) Cr/NC

Field instruction in public health settings. Application of public health principles and skills to practical problems. Maximum credit six units of Public Health 650 applicable to a master's degree.

- | | |
|------------------------------|-----------------------------------|
| A. Epidemiology | D. Environmental Health |
| B. Maternal and Child Health | E. Health Services Administration |
| C. Occupational Health | F. Health Promotion |

651A. Problems and Programs in Maternal and Child Health (3)

Major problems in health and social care of mothers and children; programs and services designed to meet major needs.

651B. Seminar in Problems and Programs in Maternal and Child Health (3)

Prerequisite: Public Health 651A.

Health and social needs of mothers, children and youth. Planning, implementation, analysis, and evaluation of programs and services for mothers, children and youth.

652. Maternal Health (3)

Prerequisite: Concurrent registration in Public Health 651A.

Major health problems and needs in health care of women in the childbearing age; preconceptional, prenatal, postpartum, interconceptional care and services; maternal mortality; antecedents of infant and perinatal mortality; nutrition; nurse midwifery.

653. Family Planning (3)

Prerequisite: Public Health 651A.

Physiology of menstruation, pregnancy and lactation; methods of contraception, effectiveness, safety, acceptance and cost; abortion; sterilization; family planning services and programs.

654. Maternal and Child Health Legislation (3)

Present and proposed status and trends of legislation for the health care of mothers and children. Organization of health care for mothers and children at national, state and local levels.

655. Child Health (3)

Prerequisite: Graduate standing.

Child health needs, problems, and programs.

656. Seminar in International Maternal and Child Health (3)

Prerequisite: Public Health 651A.

Major health needs and problems of mothers, infants, children, and youth around the world, with emphasis on developing countries. New trends in World Health Organization such as primary health care, training of personnel in health services for mothers, infants, children and youth.

661. Theoretical Foundations of Health Promotion (3)

Prerequisite: Health Science 290.
History and philosophy of health education. Psychological, sociological, economic, and political theories relevant to the mission and processes of health education with special reference to schools and colleges. (Formerly numbered Health Science 621.)

662. Motivating Health Behavior (3)

Prerequisite: Health Science 401.
Application of behavioral change techniques and health education methodology in health promotion activities within the school-community setting. (Formerly numbered Health Science 606.)

663. Health Promotion Communications Theory and Design (3)

Prerequisite: Health Science 402.
Theory, design and implementation of health education communications in school and community contexts. Extensive use of student design, analysis, and projects.

664. Health, Society and Human Behavior (3)

Prerequisites: Psychology 101, Sociology 101.
Historical and contemporary examination of health problems of individuals and communities. Health needs, resources; impact of society on health and health on society.

665. Health Promotion in Clinical Settings (3)

Two lectures and three hours of activity.
Prerequisites: Public Health 661 and 662.
Planning, organization, implementation, conduct and evaluation of programs of health education and patient health counseling within medical care settings.

666. Health Promotion Program Planning and Assessment (3)

Prerequisites: Public Health 661, 662.
Program planning and assessment, theories, systems and procedures relevant to health promotion and education.

667. Prevention and Control of Chronic Diseases (3)

Prerequisites: Public Health 601 and 602.
Health promotion strategies for modification of individual behaviors and social practices to lower risk of chronic disease.

668. Seminar in Health Promotion Research (3)

Prerequisite: Graduate standing in public health.
Philosophical, ethical and methodological issues in current research and professional publications in public health and health promotion.

669. Health Risk Appraisal (3)

Prerequisites: Public Health 601, 602, 661, 662.
Techniques available for identifying personal health risk. Use of these methods for inducing change. Evaluation of effectiveness of methodologies.

671. Health Promotion in Work Settings (3)

Prerequisite: Public Health 666.
Health promotion programs pertinent to business and industrial settings. Environmental, occupational and lifestyle issues.

696. Contemporary Topics in Public Health (1-3)

Intensive study in specific areas of public health and health services administration. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

700. Seminar in Public Health (1-3)

Prerequisites: Public Health 601, 602, and 603.
Investigation of current problems in one of the fields of public health. Maximum credit nine units of Public Health 700 applicable to a master's degree. These units may be in a single concentration area or any of the public health concentration areas.

- | | |
|------------------------------|-----------------------------------|
| A. Epidemiology | E. Health Services Administration |
| B. Maternal and Child Health | F. Health Promotion |
| C. Occupational Health | G. Preventive Medicine |
| D. Environmental Health | |

706. Seminar in Critical Care Pathophysiology (3)

Prerequisite: Consent of instructor.
Pathophysiologic anatomy as a basis for prevention, detection, and intervention in human disease in critical care settings.

721. Environmental Epidemiology (3)

Prerequisites: Public Health 601 and 602. Recommended: Public Health 623.
Uses of epidemiological methods in study of environmental hazards affecting community health and health of workers. Case studies.

731. Environmental and Occupational Health Policy (3)

Prerequisite: Credit or concurrent registration in Public Health 604.
Current issues in environmental and occupational health, including risk assessment, policy development, and program management.

732. Principles of Industrial Hygiene (4)

Three lectures and three hours of laboratory.
Prerequisites: Chemistry 251, 431, and Physics 180A.
Fundamental principles of recognition, evaluation, and control of hazardous chemical, physical, and biological agents in the work place.

734. Noise in the Work Place (3)

Prerequisites: Biology 100 and Physics 180A.
Physics of sound; physiology and effects of noise on hearing; noise assessment and control in the work place.

735. Industrial Ventilation (3)

Two lectures and three hours of laboratory.
Prerequisite: Public Health 732.
Techniques of general, dilution, and local exhaust ventilation. Ventilation system design. Techniques and strategies of ventilation survey and testing. OSHA ventilation regulations.

736. Occupational Health Program Management (3)

Prerequisite: Public Health 732.
Governmental regulations and needs of private industry in determining delivery of occupational health services. Designing, implementing and managing occupational health programs.

737. Advanced Industrial Hygiene (4)

Two lectures and six hours of laboratory.
Prerequisite: Public Health 732.
Techniques and strategies for investigation and control of potential health hazards in occupational environment.

738. Topics in Toxicology (3)

Prerequisite: Public Health 638A.
Topics in toxicology to include food toxicants, pesticides, soil and groundwater pollutants, industrial toxicology and quality assurance, toxicokinetics, genetic toxicology and toxicology in risk assessment.

739. Quality Assurance in Toxicity Testing (3)

Two lectures and three hours of laboratory.
Prerequisite: Public Health 638B.
Protocol and research objectives; proper data collection, analysis and recordkeeping, quality control in animal studies; contractual and legal responsibility; statistical considerations; laboratory management and personnel safety.

741. Health Policy and Politics (3)

Prerequisite: Public Health 641.
Mechanisms for establishing health policy; political processes; examination of current California and national health policy and policy options for the future.

742A. Health Services Financial Management (3)

Prerequisite: Accountancy 600.
Financing and accounting principles applied to health services facilities and organizations; financial goals, statement analysis, cost control, budgeting, working capital management, capital financing and structure.

742B. Health Services Financial Management (3)

Prerequisite: Public Health 742A.
Continuation of Public Health 742A. Hospital chart of accounts, Medicare and state reporting, rate setting methods, diagnosis related groups, cost based reimbursement, physician reimbursement and negotiations.

743. Organization and Management of Health Services (3)

Prerequisite: Public Health 644.
Organization and management of different settings in which health care services are provided. May be repeated with new content. Maximum credit nine units of Public Health 743 applicable to a master's degree.
A. Hospitals
C. Ambulatory Care

745. Seminar in Health Economics (3)

Prerequisite: Public Health 645.
Operation and interaction of markets for medical care and health insurance. Development of analytical skills appropriate for examining current policy issues in health.

746. Quality of Care Assessment and Assurance (3)

Prerequisite: Public Health 641.
Methods for development and evaluation of quality assurance programs in health service organizations. Alternative methods of assessment. Evaluation of consumer, professional, institutional, and governmental responsibilities.

747. Program Evaluation in Health Services (3)

Prerequisites: Public Health 602, 641 and 647.
Evaluation of programs with topics covering population health care needs assessment, establishment of program goals, evaluation design, data collection, as applicable to ongoing programs, statistical analysis, and feedback mechanisms to relate evaluation to program activities.

750. Advanced Field Practice (3-6) Cr/NC

Prerequisite: Public Health 650.
Advanced field instruction in public health setting. Intensification and continuation of application of public health principles and skills to public health problems. Maximum credit six units of Public Health 750 applicable to a master's degree.
A. Epidemiology
B. Maternal and Child Health
C. Occupational Health
D. Environmental Health
E. Health Services Administration
F. Health Promotion

751. Perinatal Health Care Services (3)

Prerequisite: Public Health 651A.
Perinatal mortality and morbidity; recent efforts at prevention, planning and providing services; results; regionalization of care; follow-up programs and results.

752. Health Care of Children of School Age (3)

Prerequisite: Public Health 651A.
Major health problems of children of school age; preschool and school health programs; school-age children with special health care needs. Use of school nurse practitioners.

754. Handicapped Children and Youth (3)

Prerequisite: Public Health 651A.
Principles and management of handicapped infants, children and adolescents (case finding; diagnosis, treatment, rehabilitation; special education; vocational assistance; residential care; prevention); legislative base; funding; common types of developmental disabilities.

756. Seminar in Genetics: Public Health Application (3)

Prerequisite: Public Health 651A.
Current genetics information and its clinical application in public health programs with emphasis in maternal and child health; management of genetic disorders and analysis of family and community impacts.

757. Seminar in Nutrition in Maternal and Child Health (3)

Prerequisite: Consent of instructor.
Nutritional needs and problems of women, infants, and children. Analysis of nutrition programs to meet these needs at the international, national and local levels, including site visits.

758. Seminar in Issues of Women in Public Health (3)

Critical areas of health and human services for professional women in public health are addressed through a planning and program development context.

761. Programming Health Promotion (3)

Prerequisites: Public Health 661 and 663.
Current programs, practices, and problems in health promotion activities of hospitals, clinics, public health departments, and government.

Issues necessitating health promotion programs. Formulation of effective promotion programming in various settings.

762. Behavioral Medicine (3)

Prerequisites: Public Health 661 and 662.
Behavioral management approaches to health care problems. Diseases and conditions that arise from physical, psychological and environmental causes; behavioral interventions that attenuate disease process and improve compliance.

763. Injury Control (3)

Prerequisites: Public Health 601, 602, 661, and 662.
Factors in injury causation. Approaches to injury prevention and control including design and application of health promotion strategies to reduce injury.

765. Stress and Disease (3)

Prerequisites: Public Health 601, 602, 661, 662.
Psychosocial stressors and their causative macrovariables in society and environment. Application of behavioral techniques to cope with stressors of life.

797. Research (1-3) Cr/NC/SP

Prerequisite: Consent of instructor.
Research in one of the fields of public health. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff, to be arranged with the director and instructor.
Individual study. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

800. Seminar (1-9)

Prerequisite: Admission to the doctoral program.
Investigation of a particular topic or issue, emphasis on empirical research; topic to be announced in the Class Schedule. Maximum credit nine units applicable to a doctoral degree.

897. Doctoral Research (1-9) Cr/NC/SP

Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

898. Doctoral Special Study (1-9) Cr/NC/SP

Prerequisite: Admission to the doctoral program.
Individual study in the field of specialization. Maximum credit nine units applicable to the doctoral degree.

899. Doctoral Dissertation (6-9) Cr/NC/SP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

Recreation

In the College of Professional Studies and Fine Arts

OFFICE: Professional Studies and Fine Arts 431
TELEPHONE: (619) 594-5110

Faculty

Jesse T. Dixon, Ph.D., Professor of Recreation
Mary R. Duncan, Ph.D., Professor of Recreation
Daniel L. Dustin, Ph.D., Professor of Recreation (Graduate Adviser)
Joyce M. Gattas, Ph.D., Professor of Recreation, Dean, College of Professional Studies and Fine Arts
Bruno Hans Geba, Ph.D., Professor of Recreation
Gene G. Lamke, M.A., Professor of Recreation, Chair of Department
Donald W. Peterson, Ph.D., Associate Professor of Recreation
Janna S. Rankin, J.D., Associate Professor of Recreation
Lawrence A. Beck, Ph.D., Assistant Professor of Recreation
Richard K. Namba, M.S., Assistant Professor of Recreation

General Information

The Department offers advanced coursework in recreation which may be used toward fulfilling the requirements for master's degrees in other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES

- 548. Aquatic Administration (3)**
Management of swimming pools, beaches, lakes and marinas; safety factors; legal requirements; health standards; facilities and programming.
- 549. Camp Administration (3)**
Prerequisite: Recreation 101.
Operation of resident, day and travel camps. Staff management, health and safety, finances, food services, maintenance, planning and publicity.
- 560. Legal and Fiscal Aspects of Parks and Recreation Management (3)**
Prerequisite: Recreation 464.
Legal obligations and basic principles of fiscal management pertinent to delivery of leisure services. Budgeting, record keeping, liability, open

space acquisition and preservation, constitutional guarantees, administrative regulations, contracts, criminal law, and legal research.

565. Recreation Systems Administration and Research (3) I, II

Prerequisite: Recreation 464.

Organizational behavior, planning, policy development, and future trends of recreation systems. Methods of investigation, data analysis, and reporting in relation to research needs in recreation, parks, and tourism.

575. Designing Recreation and Park Areas and Facilities (3) I, II

Prerequisite: Recreation 101.

Design principles and concepts applied to planning and development of park and recreation areas and facilities.

580. Leisure and the Aging Process (3) II

Concepts of the relationship between leisure and gerontology are examined. Influence of leisure and recreation on work and life satisfaction of older adults.

GRADUATE COURSES

- 604. Seminar in Problems in Recreation (3) Alternate Years**
A survey of current problems facing the recreation, parks, and tourism profession; a review of literature, discussion of trends, and the analysis and evaluation of actual problems. Written reports are required.
- 760. Recreation Administration and Supervision (3) Alternate Years**
Prerequisite: Recreation 565.
Methods, techniques and evaluation systems used by chief administrators, department heads and supervisors in public and private recreation, parks, and tourism agencies.

OFFICE: Adams Humanities 4231
TELEPHONE: (619) 594-5185

Faculty

Christine R. Downing, Ph.D., Professor of Religious Studies, Chair of Department
Maurice Stanley Friedman, Ph.D., Professor of Religious Studies, Philosophy and Comparative Literature
Irving Alan Sparks, Ph.D., Professor of Religious Studies
Marcia K. Hermansen, Ph.D., Associate Professor of Religious Studies
Linda D. Holler, Ph.D., Associate Professor of Religious Studies
Willard L. Johnson, Ph.D., Associate Professor of Religious Studies
Issa J. Khalil, Ph.D., Associate Professor of Religious Studies
Irving Geffer, Ph.D., Assistant Professor of Religious Studies

General Information

The Department offers advanced coursework in religious studies which may be used toward fulfilling advanced degree requirements in the Special Major and other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES

- 506. Spiritual Traditions of India (3)**
Prerequisite: Three units of religious studies.
India's religious and philosophical modes of thought; reading and analysis of primary texts in translation.
- 522. Religion in America (3)**
Prerequisite: Three units of religious studies.
Selected topics in religion in America, such as Deism, transcendentalism, pragmatism, church-state relations, Jewish identity, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

Religious Studies

In the College of Arts and Letters

580. A Major Figure (3) I, II

Prerequisite: Three units of religious studies.

Life, works and significance of one major figure in a religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

581. A Metaphysical Doctrine (3) I, II

Prerequisite: Three units of religious studies.

Systematic study of a selected theme or problem basic to the teachings of one of the major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Advanced Topics in Religious Studies (1-3)

Prerequisite: Consent of instructor.

Advanced selected topics in religious studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

696. Seminar in Selected Topics (3)

Prerequisite: Twelve upper division units in religious studies.

Directed research in a major problem or movement in religious studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30 unit master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Twelve upper division units in religious studies and consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Russian

In the College of Arts and Letters

OFFICE: Library East 468B
TELEPHONE: (619) 594-6313

Faculty

Leland A. Fetzer, Ph.D., Professor of Russian (Graduate Adviser)
Ludek A. Kozlik, Ph.D., Professor of Russian
Julian H. Wulbern, Ph.D., Professor of German, Chair of Department
Veronica Shapovalov, Ph.D., Lecturer in Russian

General Information

The Department of German and Russian Languages and Literatures, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Russian.

The Master of Arts degree provides advanced training for students who plan to terminate their graduate studies at the master's level, and for those who plan to proceed to a doctoral degree in Russian or in Slavic linguistics.

A diversified graduate program is offered in both Russian literature and Slavic linguistics. Teaching and research interests of the faculty cover a wide spectrum, providing students with opportunities to concentrate in their area of preference. The library collection is geared to supporting graduate research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. An undergraduate major in Russian, including 24 upper division units, must have been completed, at least six units of which must have been in a survey course in Russian literature.

Advancement to Candidacy

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, students may be required to pass a qualifying examination in Russian given by the Department of German and Russian Languages and Literatures.

Specific Requirements for the Master of Arts Degree

(Major Code: 11061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units which includes a major consisting of at least 24 units in Russian, including at least 18 units in 600- and 700-numbered courses, including Russian 799A, Thesis. If Plan B is followed, the student must pass a comprehensive written examination in lieu of Russian 799A.

Courses Acceptable on Master's Degree Programs in Russian

UPPER DIVISION COURSES

501. Translation (3)

Prerequisite: Russian 302.

Comparison of Russian and English through translation of a variety of texts from Russian to English and from English to Russian.

555. Russian Short Story, Drama and Poetry of the Nineteenth Century (3)

Prerequisites: Russian 200B and 212.

Development of the Russian short story, drama and poetry of the nineteenth century.

561. Russian Novel of the Nineteenth Century (3)

Prerequisites: Russian 200B and 212.

Development of the Russian novel of the nineteenth century.

563. Russian Literature of the Twentieth Century (3)

Prerequisites: Russian 200B and 212.

Poetry, prose and drama of the twentieth century.

580. Russian Syntax and Stylistics (3)

Prerequisites: Russian 301 and 302. **Proof of completion of prerequisite required:** Grade report or copy of transcript.

The structure of contemporary Russian.

581. Russian Phonetics and Morphology (3)

Prerequisites: Russian 200B and 212. **Proof of completion of prerequisite required:** Grade report or copy of transcript.

The sounds and forms of contemporary Russian.

596. Topics in Russian Studies (3) I, II

Prerequisite: Russian 302 (for linguistic topics) or Russian 305B (for literary topics).

Topics in Russian language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Research and Criticism (3)

Prerequisite: Twelve upper division units in Russian.

Purposes and methods of research in Slavic linguistics and in the literatures; theories and practice of literary criticism.

610. History of the Russian Language (3)

Prerequisite: Twelve upper division units in Russian.

The historical development of the Russian language.

650A-650B. Old Church Slavic (3-3)

Prerequisite: Twelve upper division units in Russian.

Structure of Old Church Slavic with readings and analysis of medieval Slavic texts.

680. Seminar in Slavic Linguistics (3)

Prerequisite: Twelve upper division units in Russian.

Selected topics in historical and comparative Slavic linguistics.

696. Topics in Russian Studies (3)

Prerequisite: Russian 600.

Intensive study in specific areas of Russian. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Russian 760.)

741. Seminar in Nineteenth Century Russian Literature (3)

Prerequisite: Twelve upper division units in Russian.

Directed research in the works of a representative author, genre or movement. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Russian 750.)

751. Seminar in Twentieth Century Russian Literature (3)

Prerequisite: Twelve upper division units in Russian.

Directed research in the works of a representative author, genre, or movement of the twentieth century. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Russian 700A-700B.)

798. Special Study (1-3) Cr/NC/SP

Prerequisites: Eighteen upper division units in Russian and consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Master of Social Work Degree

General Information

The School of Social Work within the College of Health and Human Services offers a two year full-time or three year part-time accredited graduate program leading to a Master of Social Work degree. The program qualifies students to apply for the Licensed Clinical Social Worker (LCSW) certification process by the Board of Behavioral Science Examiners of the State of California.

The goal of the Master of Social Work program is the education of advanced social work practitioners that enables them to provide services which assure people equal access to resources, programs, and opportunities; assist individuals in the accomplishment of life tasks, the alleviation of individual and social distress and the realization of aspirations as they relate to oneself, others and the society as a whole; and finally because of its special geographic location in the Southern California Pacific basin the school seeks to prepare professionals who will work with the predominate ethnic minority groups of the region in order to enhance the quality of life for economically disadvantaged groups. Special emphasis is currently given to those human needs which relate to the continuum of health care and well-being, families in transition, and social/environmental factors which create stress as it relates to individuals and groups in the home, workplace and community.

The specific program is organized around student experience in a field of service concentration during their first year (Aging, Health, Mental Health or Children, Youth and Families) and a methods concentration (clinical or administration) in their second year. The school is extensively involved in local, state and national human service issues through individual faculty research and community intervention programs. In addition the school has made commitments in the area of chemical dependency research and practice through the Center on Substance Abuse and policy research and intervention through the Human Service Institute of Southern California.

Admission to Graduate Study

To request application materials for the graduate program in Social Work, applicants should write to the Chair of Admissions, School of Social Work, San Diego State University. All necessary application forms, instructions for filing them, and information about the program will be sent.

In order to be considered for the graduate program in Social Work, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a 2.75 or better grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, other human service areas such as health science or special education, social or behavioral science, or liberal arts.
3. Have a combined score of 950 (combined verbal and quantitative) or above on the aptitude section of the Graduate Record Examination General Test. (The School may admit an applicant with less than the 950 GRE score in a conditional status, providing other factors are highly positive.) Applicants already holding another master's or higher degree from an accredited graduate school are exempt from the GRE.
4. Submit a personal statement and references as described in the application instructions. The references and personal statement will be used to help evaluate character and personal fitness for the profession.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must: (1) have earned at least 24 units of postbaccalaureate study with a minimum grade point average of 3.0 (B) and received credit (Cr) in field practicum; (2) be recommended by the faculty of the School of Social Work; (3) be approved for advancement by the Graduate Division.

Specific Requirements for the Master of Social Work Degree

(Major Code: 21041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree in Part Two of this bulletin, the student must complete an officially approved 56-unit course of study including: (1) three units in social policy and services; (2) six units in human behavior and the social environment; (3) sixteen units of social work practice; (4) nine units of research; (5) sixteen units of practicum; and (6) six units of electives. Within the 56-unit official program, students must complete 27 units in a Field of Service Concentration and 17 units in a Social Work Methods Concentration, excluding electives and Social Work 720 and 792 or 799. In addition, students must complete either a Thesis (Plan A) or a comprehensive written examination (Plan B).

At least 28 units of the program must be completed in residence at San Diego State University. A maximum of 28 units is transferable from another accredited graduate program in social work. Six units of elective credit may be taken from other schools or departments with the permission of the graduate adviser prior to registration.

To receive the degree, students must earn a 3.0 (B) grade point average in academic courses and demonstrate professional competence for required practicum (Cr for all semesters).

FULL TIME				
	Fall 1	Spring 2	Fall 3	Spring 4
Policy and Services (3 units)		SW 600A, SW600B, SW600C, or SW600D (3)		
Human Behavior (6 units)	SW620A, SW620B SW620C, or SW620D (3)	SW720 (3)

Research (9 units)	SW690A, SW690B, SW690C, or SW690D (3)		SW791A or SW791B (3)	SW792 (3) or 799A (3)
Practicum (16 units)	SW650A, SW650B, SW650C, or SW650D (4)	SW650A, SW650B, SW650C, or SW650D (4)	SW750A or SW750B (4)	SW750A or SW750B (4)
Electives (6 units)			Elective (3)	Elective (3)
Total Units: 56	16	14	13	13

PART TIME						
	Fall 1	Spring 2	Fall 3	Spring 4	Fall 5	Spring 6
Policy and Services (3 units)		SW600A, SW600B, SW600C, or SW600D (3)				
Human Behavior (6 units)	SW620A, SW620B, SW620C, or SW620D (3)	SW720				
Practice (16 units)			SW631A, SW631B, SW631C, or SW631D (3)	SW733A, SW733B, SW733C, or SW733D (2)	SW739 (3) or SW740 (3)	SW744 (3) or SW745 (3)
Research (9 units)	SW690A, SW690B, SW690C, or SW690D (3)				SW791A or SW791B (3)	SW792 (3) or SW799A (3)
Practicum (3 units)			SW650A, SW650B, SW650C, or SW650D (4)	SW650A, SW650B, SW650C, or SW650D (4)	SW750A or SW750B (4)	SW750A or SW750B (4)
Electives (6 units)*					Elective (3)	Elective (3)
Total Units: 56	6	6	10	8	13	13

* Approved Social Work electives: 540, 596, 700, 741, 758, 766, 780, 781, 798, and/or up to 6 units of approved out-of-department electives 596, 758, 780 and 781 for up to 6 units.

Program of Study

The tables of course requirements represent the full-time and part-time program of study for MSW candidates. Students are required to follow the sequence of courses exactly as presented in the table. Variations are permitted only with special circumstances and the approval of the graduate adviser.

Students will select two areas of concentrated study for their official program. In the first year, one of the following Field of Service Concentrations is selected:

A. Social Work in Aging

The concentration addresses implications of a changing demography, characteristics and needs of the elderly, functional and dysfunctional elements in service systems, and personal/social significance of life-cycle changes. Policy and program implications of theories on social, psychological, and biological aging research are also considered. Students will explore interventive skills and strategies for serving older clients.

B. Social Work in Mental Health

The concentration addresses human and institutional problems related to personal and family dysfunction reflected in acute life crises, and emotional/behavioral/mental disorders. The objective is social work knowledge and skill development in interdisciplinary community mental health planning, practice and research, with emphasis on roles and modalities of intervention which promote mental health, prevent mental disabilities, and treat personal and family dysfunctions.

C. Social Work in Health

The concentration addresses a range of emerging and established social work roles, modalities and strategies, applied collaboratively with other disciplines in health promotion, prevention and treatment of psychosocial components of illness in individuals, families and groups. Humanizing health care through consumer advocacy, policy and program development, planning and administration is emphasized.

D. Social Work with Children, Youth and Families

The concentration addresses social work professional roles in delivery of service to children, youth and families in public and voluntary social agencies. The functional and dysfunctional aspects of socialization processes and institutional influences on children and families are reviewed with respect to interventive strategies, social policy issues, and program development.

In the second year one of the following Social Work Method Concentrations is selected:

A. Clinical Social Work

Focus is on interpersonal conflicts and social functioning with emphasis on appropriate interventive methods used primarily with individuals, families and groups. Emphasis is placed on a problem-solving framework that utilizes assessment/diagnosis, intervention/treatment and evaluative skills.

B. Social Work Administration

Focus is on intervention in inter- and intraorganizational functioning of social welfare agencies. Particular emphasis is placed on intervention in problems of organizational administration and development of voluntary and public social agencies. The skills emphasized include service delivery design, budgeting, team building and organizational decision making.

Master of Social Work and Master of Public Health Degrees General Information

The School of Social Work and the Graduate School of Public Health offer a three year concurrent graduate program leading to a Master of Social Work and a Master of Public Health. The major objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community. The student will select one

of two practice contexts: Social Work with a concentration in Health, and the Maternal and Child Health concentration of Public Health; or Social Work with a concentration in Health and the Health Services Administration concentration of Public Health.

Admission to Graduate Study

To request application materials for the concurrent graduate program in Social Work and Public Health, applicants should write to the Director of the MSW/MPH Advisory Committee, Graduate School of Public Health, San Diego State University. All necessary application forms, instructions for filling them, and information about the program will be sent. In order to be considered for the concurrent MSW/MPH program, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a minimum 2.75 grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, social or behavioral sciences, or health science.
3. Have a combined score of 950 or above on the Graduate Record Examination (GRE) General Test. Applicants already holding another master's degree or higher degree from an acceptable accredited graduate school are exempt from the GRE.
4. Submit a narrative statement as described in Instructions for Applicants.
5. Submit three letters of recommendation.

A committee composed of faculty from Social Work and Public Health will make all admission recommendations to the Dean of the Graduate Division and Research.

Specific Requirements for the MSW/MPH Concurrent Program

(Major Code: 12991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 82 units as outlined below.

Option A: Social Work/Public Health—Maternal and Child Health

- SW 600C Seminar in Social Welfare Policy and Services: Health (3)
- SW 620C Seminar in Human Behavior and Social Environment: Health (3)
- SW 631C Social Work Practice with Individuals, Families, and Groups, I: Health (3)
- SW 632C Social Work Practice with Organizations and Communities, I: Health (3)
- SW 650C* Field Practicum: Health (8) Cr/NC
- SW 720 Seminar in Human Behavior and Social Environment (3)
- SW 733C Social Work Practice with Individuals, Families and Groups, II: Health (2)
- SW 734C Social Work Practice with Organizations and Communities, II: Health (2)
- SW 740 Advanced Seminar in Social Work Administration (3)
- SW 745 Advanced Seminar in Selected Topics in Social Work Administration (3)
- SW 791B Applied Social Work Practice Research Seminar (3)
- SW 750B* Advanced Field Practicum: Social Work Administration (8)
- SW 797 Research (3) Cr/NC/SP
- PH 601 Epidemiology (3)
- PH 602 Biostatistics (3)
- PH 604 Environmental Determinants of Human Health (2)

* SW 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in Social Work.

- PH 651A Problems and Programs in Maternal and Child Health (3)
- PH 651B Seminar in Problems and Programs in Maternal and Child Health (3)
- PH 652 Maternal Health (3)
- PH 653 Family Planning (3)
- PH 655 Child Health (3)
- PH 747 Program Evaluation in Health Services (3)
- PH 797 Research (3) Cr/NC/SP
- PH 799A Thesis (3) Cr/NC/SP

Option B: Social Work/Public Health – Health Services Administration

- SW 600C Seminar in Social Welfare Policy and Services: Health (3)
- SW 620C Seminar in Human Behavior and Social Environment: Health (3)
- SW 631C Social Work Practice with Individuals, Families, and Groups, I: Health (3)
- SW 632C Social Work Practice with Organizations and Communities, I: Health (3)
- SW 650C* Field Practicum: Health (8) Cr/NC
- SW 720 Seminar in Human Behavior and Social Environment (3)
- SW 733C Social Work Practice with Individuals, Families and Groups, II: Health (2)
- SW 734C Social Work Practice with Organizations and Communities, II: Health (2)
- SW 740 Advanced Seminar in Social Work Administration (3)
- SW 745 Advanced Seminar in Selected Topics in Social Work Administration (3)
- SW 750B* Advanced Field Practicum: Social Work Administration (8) Cr/NC
- SW 791B Applied Social Work Practice Research Seminar (3)
- SW 797 Research (3) Cr/NC/SP
- PH 601 Epidemiology (3)
- PH 602 Biostatistics (3)
- PH 604 Environmental Determinants of Human Health (2)
- PH 641 Health Care Delivery Systems (3)
- PH 643 Strategic and Program Planning in Health Services (3)
- PH 644 Health Services Management (3)
- PH 645 Health Services Economics (3)
- PH 647 Quantitative Methods (3)
- PH 742A Health Services Financial Management (3)
- PH 742B Health Services Financial Management (3)
- PH 797 Research (3) Cr/NC/SP
- Ph 799A Thesis (3) Cr/NC/SP

Transfer units will not be accepted toward the concurrent MSW/MPH degree program. Graduate study or degrees obtained previously will not be accepted toward meeting the unit requirements of the concurrent MSW/MPH degree program.

If a student after entering the concurrent MSW/MPH program returns to a single degree program, all the requirements for the single degree program must then be met.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. All core courses in social work and public health must be completed prior to advancement. In addition, the student must: (1) have earned at least 24 units of graduate study within the concurrent program with a minimum grade point average of 3.0 and no grade less than a B- in each core course; (2) have been recommended for advancement by the combined faculty advisory committee; received credit (Cr) in field practicum; (3) have a thesis proposal approved by the combined faculty advisory committee.

* Social Work 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in Social Work.

Upon advancement to candidacy, the student will enroll in Social Work 797 (Research), 799A (Thesis), Public Health 797 (Research), and 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MSW and MPH degrees.

Courses Acceptable on Master's Degree Program in Social Work

UPPER DIVISION COURSES

540. Seminar in Social Effects of the Legal Process (3)

Prerequisite: Upper division, undergraduate social work major; or classified graduate standing in the School of Social Work; or classified graduate standing or unclassified standing with consent of the director.

Structure and functions of law as it bears upon such groups as defendants in criminal prosecutions, recipients of welfare programs, conservatees in mental health hearings, children in juvenile court dependency proceedings. The legal conflicts social workers may encounter between their ethics and their duties to clients, and agency.

596. Experimental Topics (1-4)

Selected topics in social work. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar in Social Welfare Policy and Services (3)

Social welfare as a social institution; philosophical, historical and comparative analysis of the welfare functions, issues and problems, plus conceptual analysis of social welfare programs in general and related to areas of concentration. Sectioned by:

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

620. Seminar in Human Behavior and Social Environment (3)

Theoretical perspectives on the human condition based on biological, psychological, interpersonal and social assumptions, with emphasis on examining unusual behavior from several perspectives for social work practice. Sectioned by:

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

631. Social Work Practice with Individuals, Families and Groups, I (3)

Preparation for direct intervention with individuals, families and groups within context of specific concentrations.

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

632. Social Work Practice with Organizations and Communities, I (3)

Theoretical knowledge of elementary organizational and interorganizational decision making in human service programs which serve specific populations-at-risk.

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

650. Field Practicum (4-8) Cr/NC

Prerequisite: Concurrent registration in Social Work 733 and 734 in same concentration.

Field instruction in public or voluntary social work setting. Eight units required. Maximum credit eight units. Experiences emphasize application of social work objectives, principles and skills in service to individuals, families, groups and communities related to:

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

690. Seminar in Social Work Research Methods (3)

Definition and purpose of research in social work. Techniques and methods used in collecting, organizing and interpreting social welfare and related data; steps involved in planning a research project and selecting a research design, related to:

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

696. Seminar on Selected Topics (3)

Intensive study in specific areas of social work. May be repeated with new content. See Class Schedule for specific content. Maximum credit of nine units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Social Welfare Policy and Services (3)

Problems and issues in emerging social welfare programs, including analysis of the structure of social services and of social work as a profession.

720. Seminar in Human Behavior and Social Environment (3)

Theories of natural and induced change in human behavior which have utility for social work practice.

733. Social Work Practice with Individuals, Families and Groups, II (2)

Prerequisite: Social Work 631A or 631B or 631C or 631D. Assessment and intervention modalities. Evaluative aspect of interventions with individuals, families and groups within context of specific concentrations.

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

734. Social Work Practice with Organizations and Communities, II (2)

Prerequisite: Social Work 632A or 632B or 632C or 632D. Elementary methods and techniques for organizational decision making and planning in human service organizations which serve specific populations-at-risk.

- A. Aging
- B. Mental Health
- C. Health
- D. Children, Youth and Families

739. Advanced Seminar in Social Work Practice with Families and Groups (3)

Prerequisite: Social Work 733A or 733B or 733C or 733D. Family and group dynamics and social work practice approaches related to family and group change.

740. Advanced Seminar in Social Work Administration (3)

Prerequisite: Social Work 734A or 734B or 734C or 734D. Problems and roles of administrators in social agencies; administrative and organizational theories; executive functions of planning, budgeting, directing, reporting and staffing; multilevel relationships and communications.

741. Facilitative and Educational Roles in Human Service Organizations (3)

Facilitative and educational roles of practitioner in human service organizations emphasizing supervision, consultation, staff development and evaluative processes. Theories in adult learning and educational assessment to enhance performance of staff including paraprofessional, volunteers and consumers will be explored.

744. Advanced Seminar in Selected Topics in Clinical Social Work Practice (3)

Prerequisite: Social Work 739. Study of a selected aspect of clinical social work. Topics include treatment methodology, theoretical approaches, levels of practice, specific client groups, or special problem areas. See Class Schedule for specific content.

745. Advanced Seminar in Selected Topics in Social Work Administration (3)

Prerequisite: Social Work 740. Study of a selected aspect of social work management in human services. Topics may cover such foci as program development, program evaluation, grant writing, resource development, financial management or management of nontraditional programs/projects. See Class Schedule for specific content.

750. Advanced Field Practicum (4-8) Cr/NC

Prerequisites: Social Work 650 and concurrent registration in Social Work 739 or 740.

Advanced field instruction in public or voluntary social work setting. Eight units required. Continuation and intensification of experiences in application of social work objectives, principles and skills in service to individuals, families, groups and communities related to:

- A. Clinical Social Work
- B. Social Work Administration

758. Seminar in Social Work and Selected Fields of Practice (3)

Traditional and emerging fields of practice and related social work responsibilities and roles. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

766. Seminar on Aging (3)

Survey and analysis of selected areas in aging which depict the contemporary trends in the social aspects of aging. Special attention given to developing social policy and the relationship between social work practice modifications in the field of aging.

780. Seminar in Social Work and Selected Populations-at-Risk (3)

Social work practice with selected populations-at-risk such as one-parent families, children in institutions, ethnic minority immigrants, Native-Americans in the urban scene, and foreign-born brides of U.S. servicemen. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

781. Seminar on Selected Populations-at-Risk (3)

Knowledge about and analysis of selected populations-at-risk, social work responsibilities in emerging service demands by diverse and needful, high risk segments of the population in a complex society, and implications for social work practice. Population-at-risk for study to be announced in Class Schedule. May be repeated with new content. Maximum credit six units applicable to a master's degree.

791. Applied Social Work Practice Research Seminar (3)

Prerequisite: Social Work 690. Preparation for practitioner-researcher role through application of social work research concepts and procedures in practice situations (in class and field) of interventions with individuals, families and groups or in community practice and management. Maximum credit three units of Social Work 791 applicable to a master's degree.

- A. Clinical Social Work
- B. Social Work Administration

792. Advanced Research Seminar in Selected Social Work Topics (3)

Prerequisite: Social Work 791. Research in such topical areas as specific direct and/or indirect social work intervention models; psychosocial functioning or client populations; organization/management systems; and research paradigms.

797. Research (3) Cr/NC/SP

Prerequisite: Consent of Instructor. Research in one of the areas of social work. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with Director and instructor. Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Phillip T. Gay, Ph.D., Associate Professor of Sociology
Kenji Ima, Ph.D., Associate Professor of Sociology
Will C. Kennedy, Ph.D., Associate Professor of Sociology
R. George Kirkpatrick, Ph.D., Associate Professor of Sociology
Dennis C. Scheck, Ph.D., Associate Professor of Sociology
Joan T. Werner, Ph.D., Associate Professor of Sociology

Assistantships

Graduate assistantships and graduate teaching assistantships in sociology are available to a limited number of qualified students. Application blanks and further information may be obtained from the chair of the department.

General Information

The Department of Sociology, in the College of Arts and Letters, offers graduate work leading to the Master of Arts degree in Sociology. Research facilities provided by the Department of Sociology include a well-equipped Social Science Research Laboratory for use by the faculty and graduate students. Faculty in the Department of Sociology are involved in a wide range of research activities with a focus on applied sociological research. Regular opportunities exist for participation in these projects by graduate students within the department.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students whose preparation is deemed insufficient by the graduate advising committee may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must take at least three of the four 600-level core courses (Sociology 601, 602, 603, and 604) and must achieve a minimum "B" (3.0) grade average by the end of the first year in the master's program and no less than a B- grade in each core course. A student may seek exemption from a maximum of two core courses by passing an examination in the respective areas.

Specific Requirements for the Master of Arts Degree

(Major Code: 22081)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, students must complete an approved graduate program including a total of at least 30 units. While six units of electives may be taken in other departments, these courses must be acceptable for master's degree credit in the particular departments in which they are offered. Students must include in their graduate program at least 18 units of sociology courses from the list of 600- and 700-numbered courses. Sociology 799A (Thesis) and an oral examination on the thesis are required. The student will be expected to relate the narrower concerns of the thesis to a more comprehensive treatment of theoretical and methodological issues. Before the student proceeds with the thesis, approval must be obtained based upon a detailed thesis proposal, usually undertaken through Sociology 797.

There is no foreign language requirement but students who wish to pursue a doctorate at another university are advised to acquire a reading knowledge of one or two foreign languages.

The Master of Arts degree in Sociology may be obtained with a specialization in one of the following areas:

General Sociology. Students master theory and methods with an emphasis on surveying the discipline in preparation for teaching or more advanced graduate study.

Courses required for the General Sociology specialization: 30 units to include 12 units of core courses, Sociology 601, 602, 603, and 604; a minimum of six additional units in sociology courses from the list of 700-level seminar courses; Sociology 799A (Thesis); and a minimum of nine additional units, chosen from 500-, 600-, and 700-numbered courses (six units of which may be taken in other departments).

Applied Sociology. Students master theory and methods, but with an emphasis on applying social theory and method to specific real-world research problems, in preparation for employment as applied researchers in non-academic settings.

Courses required for the Applied Sociology specialization: 30 units to include Sociology 505; nine units of core courses, Sociology 601, 602, and either 603 or 604; a minimum of nine additional units, selected from Sociology 500-, 600-, and 700-numbered courses (a maximum of six units may be selected from another department, with approval of the graduate adviser); Sociology 760 (Seminar in Research Methods); Sociology 796 (Field Practicum); and 799A (Thesis).

Courses Acceptable on Master's Degree Programs in Sociology

UPPER DIVISION COURSES

505. Applied Sociological Research (3) I, II

Prerequisite: Sociology 407 or 408.
Types and methods of applied sociological research, and an overview of their application in substantive areas. Practical research skills. (Formerly numbered Sociology 560.)

517. Life Crises and Coping: Sociological Perspectives (3) II

Prerequisite: Sociology 101.
Social variation in the occurrence of life crises, personal and social coping strategies, and psychosocial outcomes. (Formerly numbered Sociology 525.)

522. The Family in Comparative and Historical Perspective (3) II

Prerequisite: Sociology 101. Recommended: Sociology 421.
Comparative study of selected family systems in the past and present. Family and parafamily forms in intentional communities of the nineteenth century compared with contemporary communal experiments. Ethnic and class differences in family organization. (Formerly numbered Sociology 536.)

527. Aging and Society (3)

Prerequisite: Sociology 101.
Status and roles of men and women in the second half of the life cycle. Ethnic, sex and class variables in aging. Cross-cultural comparisons of occupational, educational, familial, recreational and political opportunities for the aging.

528. Death and Dying (3)

Prerequisite: Sociology 101.
Sociological concepts and theories of the process of dying. Comparative study of death and dying with emphasis on social, psychological and social organization approaches. Consideration of contemporary social-ethical issues surrounding dying in our society.

531. Working and Society (3) II

Prerequisite: Sociology 101.
Work and occupations in the division of labor. Paid and unpaid labor; work at home and in the marketplace. The social drama of work: identity, role conflict, and change. Power, pay, and status ranking of occupations: the professionalization of work. (Formerly numbered Sociology 521.)

537. Political Sociology (3)

Prerequisite: Sociology 101.
Social organization of political processes. Power and authority, social class, primary groups, collective behavior, social change and other sociological factors considered in their relationships to political processes.

539. Sociology of Education (3) I, II

Prerequisite: Sociology 101.
Social organization of education in the United States and other societies. Structure and functions of educational institutions. Formal and informal education. Class, ethnic and other social factors affecting the educational process. Implications of educational decision making and testing.

543. Police, Courts, and Corrections: The Sociology of Crime and Punishment (3) I

Prerequisite: Sociology 101.
Historical sociology of the American criminal justice system. Development and functions of police, criminal courts, prisons, parole, and probation. Theories and ideologies of punishment and rehabilitation. Review of contemporary research. (Formerly numbered Sociology 516.)

555. Immigrants and Refugees in Contemporary American Society (3) I

Prerequisite: Sociology 101.
Contemporary migration to the United States, especially from Latin America and Asia. Political and economic migration. Immigrant and refugee adaptation. Theoretical controversies, research applications, and policy implications.

556. Topics in Comparative Societies (3) II

Prerequisite: Sociology 101.
Social structures, social problems, and social change in selected areas of the world in comparative and historical perspectives. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. (Formerly numbered Sociology 519.)

557. Urban Sociology (3) I, II

Prerequisite: Sociology 101.
The structure and function of the modern city; types of neighborhoods; forms of recreation; social forces in a metropolitan area; types of urban personalities and groups; rural-urban conflicts of culture. Practical field studies required.

596. Current Topics in Sociology (1-3) I, II

Prerequisite: Sociology 101.
Selected specialized, controversial or currently relevant topics in sociology. Maximum opportunity provided for student initiative in determining course content and procedures. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Sociology 511.)

597. Investigation and Report (3) I, II

Prerequisites: Fifteen units in sociology and consent of instructor.
Analysis of special topics in sociology. Maximum credit six units.

GRADUATE COURSES

601. Advanced Social Theory: Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 401.
Systematic treatment of the original European and American classic sociological writing and an overview of the major developments in contemporary social theory.

602. Advanced Research Methods: Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 407.
Problems and techniques in social research with stress on philosophy of science, theory building, research design, measurement, and data analysis including fundamental critiques and alternatives.

603. Advanced Social Psychology (Sociological Approaches): Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 410.
Investigation and analysis of original works in classical social psychological theory focusing on implications for research on topics such as socialization, motivation, perception, role, self, interaction and symbolic processes.

604. Advanced Social Organization: Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 430.
Concepts, theories and findings concerning structure and change in society, institutions, formal organizations, the community and small groups. Special attention given key concepts of culture, stratification, division of labor, power, bureaucracy, role relationships and interaction.

695. Topics in Directed Readings (3)

Prerequisite: Credit or concurrent registration in at least one core course or one seminar.
Selected reading providing coverage of social theory, social disorganization, social organization, social institutions, social psychology (sociological approaches), community research methods, population and demography, or special topics. Maximum credit six units applicable to a master's degree.

696. Experimental Topics (3)

Prerequisite: Graduate standing.
Intensive study in specific areas of sociology. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Social Theory (3)

Prerequisites: Sociology 401 and 407.
Classics of sociology, American social theory, theory construction, application of theory to research, theoretical models, sociology of knowledge, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

730. Seminar in Social Institutions (3)

Prerequisites: Sociology 407 and 430.
The family and kinship, political organization, economic organization, religion, education, industry, occupations and professions, social stratification, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

740. Seminar in Social Psychology: Sociological Approaches (3)

Prerequisites: Sociology 407 and 410.
Socialization, role theory, motivation, perception, self, social context of personality, attitude theory, interaction, language and symbolic process, social types, collective behavior, small groups, special topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

750. Seminar in the Community (3)

Prerequisites: Sociology 407 and 557.
Ecological structure and process; community institutions and structure; community deterioration, planning and renewal; urbanization; suburbia; megalopolis; special topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

760. Seminar in Research Methods (3)

Prerequisites: Sociology 401 and 407.
Analysis of methods used in current sociological research, including evaluation of reported findings. Discussion of research designs appropriate to particular types of projects. Evaluation of research in progress by members of the seminar. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Seminar in Population and Demography (3)

Prerequisites: Sociology 350 and 407.
Demographic theories, fertility, mortality, migration, construction and application of demographic indices, demographic prediction, world population trends, special topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

796. Field Practicum (3) Cr/NC

Prerequisites: Sociology 601, 602, and either 603 or 604.
Supervised field placement in community agency. Application of sociological theories and methods to policy and research needs of agency. Maximum credit six units applicable to a master's degree.

797. Research (3) Cr/NC/SP

Prerequisite: Sociology 407.
Independent investigation of special topics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff, to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Assistantships

Graduate teaching assistantships in Spanish are available to a limited number of qualified students. New teaching assistants are required to enroll in Spanish 770 during their first semester as teaching assistants. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Spanish and Portuguese Languages and Literatures, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in Spanish.

The staff in charge of the graduate program in Spanish is composed of professors whose native tongue is Spanish, or who have studied and traveled extensively in Spain or in Spanish America, enabling them to represent authoritatively the Spanish language and culture. Library facilities include rich resources in Spanish literature and linguistics, including books, periodicals and newspapers. A foreign language laboratory with modern equipment is available to both graduate and undergraduate students.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. An undergraduate major in Spanish, including 24 upper division units, must have been completed, at least six units of which must have been in a survey course in Spanish literature.

A language competency examination, both written and oral, will be required of all incoming graduate students. The examination will be held prior to each semester.

If an incoming graduate student does unsatisfactory work on the examination, he/she will be required to make up the deficiency before he/she will be allowed to enroll in graduate courses.

Advancement to Candidacy

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, students may be required to pass a qualifying examination in Spanish given by the Department of Spanish and Portuguese Languages and Literatures.

Spanish

In the College of Arts and Letters

Specific Requirements for the Master of Arts Degree

(Major Code: 11051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units and demonstrate a knowledge of Portuguese either by passing an examination administered by the department or by completing Portuguese 101. Each program must include Spanish 601, 770, 790; nine units of Spanish American literature, at least six of which must be from 600- and 700-numbered courses; nine units of Spanish peninsular literature, at least six of which must be from 600- and 700-numbered courses; and 799A or three units of electives in Spanish. Students may elect either Plan A, requiring a thesis (Spanish 799A), or Plan B, requiring a comprehensive written and oral examination in lieu of the thesis in consultation with the graduate adviser.

Courses Acceptable on Master's Degree Programs in Spanish**UPPER DIVISION COURSES IN SPANISH****510A-510B. Modern Spanish Drama (3-3)**

Prerequisites: Spanish 305A-305B.
Semester I: Development of Spanish theater from 1800 to Spanish Civil War. Major literary movements and themes analyzed through study of works of representative dramatists of the period. Semester II: Spanish theater from the Civil War to the present. Theater of the absurd, theater of social justice, underground theater, and new directions in today's Spanish drama.

515A-515B. Mexican Literature (3-3)

Prerequisites: Spanish 306A-306B.
Aspects of Mexican culture. Semester I: A rapid survey of Mexican literature from the colonial period to the twentieth century. Semester II: The twentieth century, with emphasis on the contemporary Mexican novel and theater.

520. Caribbean Area Countries Literature (3)

Prerequisites: Spanish 306A-306B.
Literature of Caribbean Islands, Central America, Colombia and Venezuela, from colonial period to present. Special emphasis on contemporary era.

522. Andean Countries Literature (3)

Prerequisites: Spanish 306A-306B.
Literature of Ecuador, Peru, Bolivia and Chile from the period immediately preceding the Spanish conquest to the present.

524. Contemporary Argentine Literature (3)

Prerequisites: Spanish 306A-306B.
Literature of contemporary Argentina. Leading prose writers to include Borges, Cortázar, Mallea, Sábato.

530. Nineteenth Century Spanish Novel and Short Story (3)

Prerequisites: Spanish 305A-305B.
The development of the novel and short story in Spain in the nineteenth century.

532. Twentieth Century Spanish Novel and Short Story (3)

Prerequisites: Spanish 305A-305B.
The development of the novel and short story in Spain to 1936, with emphasis on the novel of the generation of 1898.

533. Contemporary Spanish Novel (3)

Prerequisites: Spanish 305A-305B.

The development of the Novel and short story in Spain since 1936.

556. Translation of Literary Works: A Critical Comparison (3)

Prerequisite: Spanish 493.

Techniques and methods of translating literary texts from English to Spanish and Spanish to English; textual and stylistic problems in different periods, genres, and dialects, with emphasis on contemporary literature.

557. Spanish/Spanish American Dialectology (3)

Prerequisites: Spanish 450; one English composition course and one linguistics course.

Phonological, morphological, syntactic and lexical characteristics of the principal dialects of Spanish.

560. Golden Age Literature (3) I, II, S

Prerequisites: Spanish 305A-305B.

Major writers and works, concentrating on prose and lyric poetry. (Formerly numbered Spanish 460 and 550.)

561. Methods in Teaching Spanish as a Second Language (3)

Prerequisite: Spanish 448 or 450.

Teaching of Spanish as a second language: contemporary theory and methods. Not open to students with credit or concurrent enrollment in French 561.

570. Spanish American Poetry (3) I, II, S

Prerequisites: Spanish 306A-306B.

Spanish American poetry of the nineteenth and twentieth centuries. (Formerly numbered Spanish 470.)

571. Spanish American Short Story (3) I, II, S

Prerequisites: Spanish 306A-306B.

Principal Spanish American short story writers. (Formerly numbered Spanish 471.)

572. Spanish American Theater (3) I, II, S

Prerequisites: Spanish 306A-306B.

Principal Spanish American dramatists and movements. Use of dialogue as a dramatic expression in modern Spanish American theater with examples from novels. (Formerly numbered Spanish 472.)

596. Selected Studies in Spanish (3)

Prerequisite: Spanish 302.

Topics in Spanish or Spanish American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

UPPER DIVISION COURSES IN PORTUGUESE

534. Portuguese Literature (3)

A study of important movements, authors and works in the literature of Portugal from its beginnings to the present.

535. Brazilian Literature (3)

A study of the important movements, authors and works of the literature of Brazil from the colonial period to modern times.

Related Fields: Related courses in the fields of anthropology, geography, history, political science, comparative literature, and others, may be selected with the approval of the graduate adviser.

GRADUATE COURSES IN SPANISH

All graduate courses in the Department of Spanish and Portuguese Languages and Literatures have a prerequisite of 12 upper division units in Spanish, or consent of instructor.

601. Seminar in Hispanic Literary Theory (3)

Prerequisite: Two upper division literature courses in Spanish.

Critical issues in Hispanic literary theory from medieval to modern times. Emphasis on contemporary theory: formalism, hermeneutics, phenomenology, structuralism, and post-structuralism, including semiotics and deconstructionism.

610. Seminar in Medieval Spanish (3)

Prerequisite: Credit or concurrent enrollment in Spanish 448 or 449.

History of Castilian language from Latin to medieval Spanish with readings from medieval Spanish literature, especially *El poema de Mio Cid* and *Berceo*.

620. Cervantes (3)

The principal prose works of Cervantes: The *Novelas ejemplares* and *Don Quixote*.

630. Golden Age Drama (3)

The works of Lope de Vega and Calderon among others.

640. The Spanish American Novel (3)

The Spanish American novel to 1935.

650. The Gaucho Epic (3)

The *Poesía gauchesca*, with particular emphasis on *Martín Fierro*, *Fausto*, and *Santos Vega*.

660. Modernism (3)

The *Modernista* movement in Spanish America, with special attention to representative poets.

670. The Generation of 1898 (3)

Prerequisite: Two upper division courses in Spanish literature.

Major authors and works of the generation of 1898 in Spain: novel, drama, poetry, and essay.

675. Contemporary Spanish Prose Fiction (3)

Prerequisite: Two upper division courses in Spanish literature.

Development of Spanish prose fiction since the Spanish Civil War.

680. The Modern Spanish Essay (3)

The thinkers, essayists, and philosophers of Spain from the generation of 1898 to the present.

690. The Spanish American Essay (3)

Principal Spanish American essayists of the nineteenth and twentieth centuries.

695. Contemporary Spanish American Prose Fiction (3)

The principal writers of prose fiction in Spanish America from the thirties to today.

696. Selected Topics (3)

Prerequisites: Twelve upper division units in Spanish.

Intensive study in specific areas of Spanish. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 696 applicable to a master's degree.

710. Images of Women in Spanish American Literature (3)

Prerequisites: Two upper division courses in Spanish American literature.

Women as literary figures in works by Spanish American women writers.

730. Seminar in Nineteenth Century Spanish Literature (3)

A representative author, a genre or movement of the nineteenth century in Spain. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

740. Seminar in Twentieth Century Spanish Literature (3)

Representative author, a genre or movement of the twentieth century in Spain. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

750. Seminar in Spanish American Literature (3)

A genre or movement of Spanish America. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

755. Seminar in Spanish American Culture and Thought (3)

Works of representative authors of Spanish America. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Applied Spanish Linguistics for Teachers (3)

Prerequisite: Spanish 448 or 449.

The application of linguistic theory to the teaching of Spanish at the secondary and college levels.

790. Seminar in Spanish Syntax and Morphology (3)

Prerequisites: Spanish 450, and Linguistics 522.

Advanced study of the grammatical structures of Spanish.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff, to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Special Major

General Information

When special needs and interests cannot be met adequately by any of the existing advanced degree programs, a student may propose a Master of Arts or Master of Science degree in Special Major. This degree provides the unusually well qualified student an opportunity for highly individualized graduate studies composed of coursework in two or more departments or colleges. The degree is administered by the Graduate Division and Research and follows procedures established by that office.

The proposed program must be approved by the department chairs and deans concerned. It must not be substantially available in a current graduate program offered at this University, and it must have adequate focus and coherence in cognate disciplines. Prerequisite courses will be required to support the courses in the student's program of study.

A graduate supervisory committee and the field of study shall be chosen, subject to the approval of the dean of the Graduate Division and Research, in consultation with the Student Affairs Committee of the Graduate Council. The supervisory committee shall consist of not less than three full-time faculty representative of the areas in which the student intends to pursue the degree. The graduate dean, or his designee, shall serve on the committee as an ex officio member.

Since the inception of the Special Major in 1977, individual students have undertaken graduate programs in such subjects as Paleobiology, Folklore and Mythology, Molecular Biology, Museum Studies, Infant Development, Animal Behavior, Sports Psychology, Environmental Resource Management, and Primitive Christianity.

Admission to Graduate Study

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must (1) possess an appropriate academic background for the proposed program and have achieved an undergraduate grade point average of 3.0; and (2) complete the GRE General Test with a minimum score of 1100 (verbal and quantitative combined). Normally, students applying to the University for the first time are not admitted directly into the Special Major. Contact the Graduate Division and Research for further information.

Advancement to Candidacy

In addition to satisfying the general requirements of the University for advancement to candidacy, as stated in Part Two of this bulletin, the student must satisfy the special requirements for advancement defined by the supervisory committee in the official program of study. These requirements will include demonstrated proficiency in at least one appropriate research tool, ordinarily the reading knowledge of a foreign language.

Specific Requirements for the Master's Degree

(Major Code: 49993)

1. In addition to satisfying the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of courses acceptable for advanced degree credit.
2. The official program of study must reflect careful and deliberate planning. The selection and level of courses will be based on the best standards and practices of the disciplines involved. Normally no more than six units which have been taken prior to approval of the official program of study may apply on the degree.

3. In consultation with the supervisory committee, the student will determine the subject of the research for a thesis that will be completed as the culminating experience in partial fulfillment of the requirements for the degree. Satisfactory completion of the thesis will be determined by the supervisory committee.

General Procedures for the Program

1. A prospective applicant interested in being considered for the Special Major program should complete and follow the instructions on the form, "Request for Permission to Pursue a Special Major Master's Degree Program," which is available in the Graduate Division and Research. The applicant must initially seek out a potential faculty adviser and two additional faculty members who have the expertise and interest in advising and supporting the applicant in the proposed program of study.
2. When the student's portion of the form has been completed, the major adviser selected, and other potential supervisory committee members contacted, an appointment with the assistant dean of the Graduate Division and Research should be arranged. Both the applicant and the proposed major adviser should be present at this meeting. Other proposed committee members are welcome to participate in these discussions.
3. Following this meeting and after making any modifications to the proposed program eventuating from it, the student must present for approval the "Request for Permission to Pursue a Special Major" to the chairs of departments in which courses are being proposed and to the deans of colleges responsible for these academic units.
4. The student will then present the "Request," endorsed with appropriate departmental and college approvals, to the Graduate Division and Research, where it will be reviewed by the Student Affairs Committee of the Graduate Council. Upon the recommendation of that committee, the "Request" will be forwarded to the graduate dean, whose final endorsement will certify that the "Request" has been approved as an official program of study, that the supervisory committee has been formally appointed, and that the student has been granted classified graduate standing for the purpose of pursuing the special major.
5. Virtually all other requirements for the special major are the same as those for other master's degree programs, as specified in this bulletin. Special questions should be directed to the approved graduate major adviser or the Graduate Division and Research.

GRADUATE COURSES

General Studies Courses

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Speech Communication

OFFICE: Speech and Telecommunications 201
TELEPHONE: (619) 594-6051

In the College of Professional Studies and Fine Arts

Faculty

Janis F. Andersen, Ed.D., Professor of Speech Communication, Chair of Department
Peter A. Andersen, Ph.D., Professor of Speech Communication (Graduate Adviser)
Susan A. Hellweg, Ph.D., Professor of Speech Communication
Myron W. Lustig, Ph.D., Professor of Speech Communication
Jerry E. Mandel, Ph.D., Professor of Speech Communication
Larry A. Samovar, Ph.D., Professor of Speech Communication
Al R. Weitzel, Ph.D., Professor of Speech Communication
Wayne A. Beach, Ph.D., Associate Professor of Speech Communication
Brian H. Spitzberg, Ph.D., Associate Professor of Speech Communication
George N. Dionisopoulos, Ph.D., Assistant Professor of Speech Communication

Assistantships

Graduate teaching assistantships in speech communication are available to a limited number of qualified students. Application blanks and further information may be obtained from the department chair.

General Information

The Department of Speech Communication, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in Speech Communication. This degree is designed to facilitate one of three career paths: (1) The master's program has a strong theoretical and research component for students who anticipate additional graduate work leading to a doctoral degree. Our placement of students in doctoral programs is excellent and the program recently has been rated by speech communication professors as one of the top five master's programs in the nation. (2) In addition to the theoretical component, students are encouraged to develop their communication training skills and leadership skills such that the degree and its related experiences lead to professional careers in organizational communication, organizational training and human resource development. (3) Community college teaching is a third viable career path for many of our students.

The Department and its students have access to computer equipment and video technology to facilitate research endeavors. Master's students are encouraged to work with faculty on research projects and to develop their own research programs. Faculty research interests include interpersonal communication, relational communication, organizational communication, conversation analysis, rhetorical criticism, social influence processes, political communication, instructional processes, group communication, intercultural communication and argumentation/forensics.

Admission to Graduate Study

To be considered for classified graduate standing, the student must meet the following minimum criteria: (1) a 2.9 overall undergraduate grade point average, or a grade point average of 3.4 in the student's last 60 units attempted as an undergraduate; (2) a GRE score of 950 (combined verbal and quantitative).

The department may recommend conditionally classified standing for students who do not meet these criteria.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Speech Communication are required

to have completed Speech Communication 700 (with a grade of "B" or better prior to advancement).

Specific Requirements for the Master of Arts Degree

(Major Code: 15061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program which includes at least 30 units selected with the approval of the graduate adviser.

Specialization in Communication and Rhetorical Theory

Speech Communication 700, 735, 750, 751 or 790, and 799A. Thesis or Project, are required courses for those electing Plan A. If Plan B is followed three additional units in 600- and 700-numbered courses in speech communication must be taken, and a comprehensive examination must be passed, in lieu of the thesis.

Specialization in Professional Communication

Speech Communication 700, 706, 735, 750, 790 and 799A. Thesis or Project, are required courses for those electing Plan A. Electives are to be selected with the approval of the Graduate Adviser. Recommended electives include Speech Communication 580, 751, 775, 791, 792. If Plan B is followed, a comprehensive examination must be passed, in lieu of thesis.

Courses Acceptable on Master's Degree Programs in Speech Communication

UPPER DIVISION COURSES

503. Instructional Communication (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. Proof of completion of prerequisites required: Signed department verification card.

Communication messages and strategies as they apply to instructional contexts. Communication within traditional instructional contexts and focus on training programs, adult workshops, and other less traditional information dissemination situations.

530. Language Analysis (3)

Prerequisites: Speech Communication 105, 135, 160, 190, and 335. Proof of completion of prerequisites required: Signed department verification card.

Examines language from a variety of perspectives, including conversation analysis, psycholinguistics, sociolinguistics, and ethnomethodology. Focuses on language development, semantics, verbal competence, and everyday language as an interactional achievement.

535. Theories of Human Communication (3) I, II

Prerequisites: Speech Communication 105, 135, 160, and 190. Proof of completion of prerequisites required: Signed department verification card.

Theoretical approaches for the study of human communications; relationship of meaning, message, and behavior in the communication process; special issues in communication theory.

580. Communication and Politics (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. **Proof of completion of prerequisites required:** Signed department verification card.

Contemporary political communication events and processes, with a focus on speeches, debates, and campaigns.

584. Communication in Law and Medicine (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. **Proof of completion of prerequisites required:** Signed department verification card.

Courtroom interrogation and testimony and medical diagnostic interactions studied as unique types of everyday conversation. Communication practices and constraints in institutional contexts.

589. Ethical Issues in Communication (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. **Proof of completion of prerequisites required:** Signed department verification card.

Classical and modern ethical concepts and issues in communication.

590. Quantitative Methods in Communication (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. **Proof of completion of prerequisites required:** Signed department verification card.

Philosophy of social science, research design, and statistical applications to communication problems. (Formerly numbered Speech Communication 537.)

592. Persuasion (3) I, II

Prerequisite: Speech Communication 103. Open to majors and nonmajors.

Key variables and theories in the persuasion process; persuasive sources, messages, receiver variables, propaganda, brainwashing, and cognitive, behavioral, and social theories of persuasion. Not applicable to the M.A. degree in Speech Communication.

593. Qualitative Methods in Communication Research (3)

Prerequisites: Speech Communication 105, 135, 160, and 190. **Proof of completion of prerequisites required:** Signed department verification card.

Observation of interaction and analysis of data gathered in everyday communication settings. Historical and contemporary assumptions, methods, and theoretical implication of employing recordings, transcriptions, interviews, and texts as tools for the discovery of communication patterns.

596. Selected Topics in Speech Communication (1-3)

Prerequisite: Senior standing or above.

Specialized study. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**696. Special Topics in Speech Communication (1-3)**

Prerequisite: Graduate standing.

Intensive study in specific areas of speech communication. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Research and Bibliography (3)

Basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research as it relates to speech communication. Recommended for first semester of graduate work, and prerequisite to advancement to candidacy.

706. Seminar in Organizational Communication (3)

Prerequisite: Speech Communication 406.

Oral communication processes in large organizations. Topics to include information flow, communication networks, communication relations, and the design and management of communication systems.

708. Seminar in Oral Interpretation and Forensics (3)

Analysis of thought and emotional content, and aesthetic form. Advanced problems of delivery in individual and forensic settings.

715. Seminar in Nonverbal Communication (3)

Prerequisites: Graduate standing; Speech Communication 415.

Contemporary theory of and research on nonlinguistic communication. Intimacy, power, compliance, information, deception, culture, and anxiety in interpersonal contexts.

730. Seminar in the Analysis of Language (3)

Prerequisite: Speech Communication 530.

Special problems in language theory which may be integrated into the larger bodies of rhetorical and communication theory.

735. Seminar in Communication Theory (3)

Prerequisite recommended: Speech Communication 535.

Methods of theory construction in study of human communication. Existing theories and models of the communication process.

745. Seminar in Relational Communication (3)

Contemporary theory and research addressing interpersonal verbal and nonverbal communication in intimate and non-intimate relationships.

750. Seminar in Rhetorical Theory (3)

Leading figures in rhetorical theory from Plato to contemporary theorists. Special attention given to the application of theory to public address.

751. Seminar in Rhetorical Criticism (3)

Methods of assessing rhetorical events.

775. Seminar in Intercultural Communication (3) I, II

Prerequisite: Speech Communication 475.

Analysis of cultural influences on human communication acts. Emphasis on cultural values, perception, social organizations, language and nonverbal codes.

780. Seminar in Public Address (3)

Case studies of rhetorical events which illustrate rhetorical theory. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

790. Seminar in Experimental Procedures in Speech Communication (3)

Prerequisites: Speech Communication 590 and 700.

Examination and evaluation of appropriate experimental procedures and traditional methods; special problems in research design.

791. Seminar in Group Communication (3)

Prerequisite: Speech Communication 491.

A study of descriptive and experimental literature on group discussion covering such topics as interaction, leadership, and means of evaluation.

792. Seminar in Persuasion (3) I, II

Prerequisite: Speech Communication 592.

Contemporary theories and models of persuasion, methods of assessing persuasive effect, and analysis of research literature.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff, to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

OFFICE: Business Administration/Mathematics 203
TELEPHONE: (619) 594-6191

Faculty

Charles B. Bell, Ph.D., Professor of Mathematical Sciences
John D. Elwin, Ph.D., Professor of Mathematical Sciences, Chair of Mathematical Sciences
Joseph M. Moser, Ph.D., Professor of Mathematical Sciences
Chong Jin Park, Ph.D., Professor of Mathematical Sciences (M.S. Statistics Graduate Adviser)
David L. Burdick, Ph.D., Associate Professor of Mathematical Sciences
Amanda L. Golbeck, Ph.D., Associate Professor of Mathematical Sciences (Statistics Coordinator and M.S. Biostatistics Graduate Adviser)
David W. Macky, Ph.D., Associate Professor of Mathematical Sciences
Duane L. Steffey, Ph.D., Assistant Professor of Mathematical Sciences

Adjunct Faculty

Boyd D. Collier, Ph.D., Professor of Biology
Craig A. Molgaard, Ph.D., Associate Professor of Public Health

Assistantships

Graduate teaching assistantships in statistics and biostatistics are available and are awarded on a competitive basis by the Department of Mathematical Sciences. Application forms and additional information may be secured from the office of the Department of Mathematical Sciences.

General Information

The Department of Mathematical Sciences in the College of Sciences, offers graduate study leading to the Master of Science degree in Statistics. Students may pursue either the general degree or a Concentration in Biostatistics that emphasizes statistical methods and applications in the biological, health, and medical sciences.

Statisticians and biostatisticians are engaged in the acquisition and use of knowledge through the collection, analysis, and interpretation of data. Today, almost all disciplines – from economics to engineering, from social science to medicine – employ statistical methods. Such methods are essential in studying relationships, predicting results, and making informed decisions in many different contexts. This diversity of application is an exciting aspect of the field and has stimulated the current demand of well-trained statisticians and biostatisticians at all degree levels.

The Master of Science degree provides advanced training, with emphasis on statistical methodology, and prepares students for careers in industry and government as applied statisticians or biostatisticians, or for entry into a doctoral program in Statistics or Biostatistics.

As part of the degree requirements, graduate students conduct theses or research projects under the guidance of faculty with active research interests in most general areas of probability, statistics, and biostatistics. These research areas include biostatistical methods, survival analysis, mathematical demography, data analysis, inference, stochastic process, time series, Bayesian statistics, categorical data analysis, statistical computing, nonparametric statistics, sample surveys, multivariate analysis, linear models, and experimental design.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part two of this bulletin.

Statistics

In the Department of Mathematical Sciences
In the College of Sciences

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Statistics

(Major Code: 17021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the students must meet the following program requirements:

The student should have completed before entering the program the following undergraduate coursework: three semesters of calculus; and should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 33 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in Statistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in Statistics.

1. Complete Mathematics 670A, 670B, and 553. These are core statistics courses.
2. Complete six units of courses in statistics and biostatistics, to be selected from the following with the approval of the graduate adviser in Statistics: Mathematics 671, 672, 673, 674, 675, 677, 678, 680A, 680B.
3. Complete six additional units of 600- and 700-numbered courses offered by the Department of Mathematical Sciences, except that Mathematics 600, 602, and 799A may not be used to fulfill these units required.
4. Complete three additional units of graduate level or approved upper division courses offered by the Department of Mathematical Sciences, not including Mathematics 799A.
5. Complete six units of approved electives.
6. Pass the departmental qualifying examinations in mathematical statistics. Policy and procedures for these examinations are documented and available from the office of the Department of Mathematical Sciences.
7. With the approval of the Department of Mathematical Sciences, a student may select Plan A and complete Mathematics 799A, Thesis or Project. In other cases, Plan B will be followed, and the student must complete three units of Mathematics 797.

Specific Requirements for the Master of Science Degree in Statistics with Concentration in Biostatistics

(Major Code: 17021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following program requirements:

The student should have completed before entering the program the following undergraduate coursework: three semesters of calculus; one semester each of linear algebra and probability theory; and two semesters

of bioscience (e.g., biology, ecology, physiology, zoology). The student should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 33 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in Biostatistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in Biostatistics.

1. Complete Mathematics 670A, and 670B, and 553. These are core statistics courses.
2. Complete Mathematics 680A and 680B. These are biostatistics concentration courses.
3. Complete at least six units of courses in biostatistics and statistics, to be selected from the following with the approval of the graduate adviser in Biostatistics: Mathematics 554A, 554B, 555, 596, 671, 672, 673, 674, 675, 677, 678, 696, 720, and 798.
4. Complete at least six units of upper division or graduate courses from a science of application biostatistics (e.g., bioscience, health science, or medical science) selected with the approval of the graduate adviser in Biostatistics. If the student has an undergraduate degree in an area of application of biostatistics, upper division or graduate mathematical sciences courses may be substituted with the approval of the graduate adviser in Biostatistics.
5. Complete at least six units of research, including Mathematics 797 and 799A.
6. Plan A will be followed. The student must pass an oral defense of the thesis, open to the public. The chair of the thesis committee must be a faculty member from the Division of Statistics in the Department of Mathematical Sciences. One of the other two members of the thesis committee must be a faculty member from a science of application of biostatistics (i.e., bioscience, health science, or medical science).

Courses Acceptable on the Master's Degree Program in Statistics

UPPER DIVISION COURSES IN MATHEMATICS

550. Probability (3) I, II, S

Prerequisite: Mathematics 151.

Computation of probability by enumeration of cases, discrete and continuous random variables, density functions, moments, limit theorems, selected distributions. Markov chains, random walks, selected topics.

551A. Mathematical Statistics (3) I, II

Prerequisite: Mathematics 252.

Probability models in the theory of statistics, sampling distributions with applications in statistical inference.

551B. Mathematical Statistics (3) II

Prerequisite: Mathematics 551A.

Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields.

553. Stochastic Processes (3) I, II

Prerequisite: Mathematics 550 or 551A.

Introduction to stochastic processes with selected applications.

554A. Computer Oriented Statistical Analysis (3) I, II

Prerequisite: Mathematics 350A.

Using statistical computer packages such as BMDP and SAS to analyze problems in univariate ANOVA, multiple regression, contingency tables, nonparametric methods and discriminate analysis. (Formerly numbered Mathematics 554.)

554B. Advanced Computer Oriented Statistical Analysis (3) II

Prerequisite: Mathematics 554A.

Analyze problems in multivariate ANOVA, factor analysis, repeated measures, logistic regression, loglinear models, cluster analysis. Using statistical computer packages.

555. Multivariate Statistical Methods in Biology (3)

(Same course as Biology 597B.)

Two lectures and three hours of laboratory.

Prerequisite: Mathematics 350A.

Application of multivariate statistical methods in the biological sciences.

GRADUATE COURSES IN MATHEMATICS

670A-670B. Advanced Mathematics Statistics (3-3)

Prerequisites: Mathematics 534A and 550 or 551A. Mathematics 670A is prerequisite to 670B.

Distribution of random variables, characteristic functions, limiting distributions, sampling distributions, Hypothesis testing and estimation: optimality considerations, applications of the linear hypothesis, invariance and unbiasedness to analysis of variance and regression problems; sequential techniques, decision theory.

671. Statistical Computing (3)

Prerequisite: Mathematics 551B or 670B.

Machine computation of various entities related to development, application, and evaluation of advanced statistical techniques. Multivariate probability integrals; power functions; multiway contingency tables; advanced nonparametric statistics simulation; random number generation; Monte Carlo methods.

672. Nonparametric Statistics (3)

Prerequisite: Mathematics 551B or 670B.

Tolerance regions, randomness problems, most powerful rank tests, the invariance methods, consistency and efficiency of tests.

673. Sample Surveys (3)

Prerequisite: Mathematics 550 or 551A.

The methods and applications of sample surveys, stratification and sampling, subsamples of clusters.

674. Multivariate Analysis (3)

Prerequisites: Mathematics 524 and 551B or 670B.

Multivariate normal distributions, multivariate analysis of variance, factor analysis, canonical correlation.

675. Linear Statistical Hypothesis Testing (3)

Prerequisites: Mathematics 524 and 550 or 551A.

The multivariate normal distribution; distribution of quadratic forms; linear and curvilinear models; general linear hypothesis of full rank, regression models.

677. Design of Experiments (3)

Prerequisites: Mathematics 524 and 550 or 551A.

Experimental design models, a basic approach as well as a matrix algebra approach.

678. Survival Analysis (3)

Prerequisite: Mathematics 551B.

Survival distributions; inference in parametric survival model; life tables; proportional hazards model; time-dependent covariates; accelerated time model and inference based on ranks; multivariate time data and competing risks.

680A-680B. Advanced Biostatistical Methods (3-3)

Prerequisites: Mathematics 550 or 551A. Mathematics 680A is prerequisite to 680B.

Design, conduct, and analysis of experimental and observational studies, at a mathematically sophisticated level. Cohort studies. Multifactor screening. Survival studies. Case-control studies. Biological assays. Selected current topics.

For additional courses applicable to the Master of Science degree in Statistics see:

Mathematics 799B:	Thesis or Project Extension

Telecommunications and Film

OFFICE: Professional Studies and Fine Arts 222
TELEPHONE: (619) 594-6575

In the College of Professional Studies and Fine Arts

Faculty

Hayes L. Anderson, Ph.D., Professor of Telecommunications and Film (Graduate Adviser)
Elizabeth J. Heighton, M.S., Professor of Telecommunications and Film
K. Charles Jameson, Ph.D., Professor of Telecommunications and Film
Joseph S. Johnson, Ph.D., Professor of Telecommunications and Film
Roy P. Madsen, Ph.D., Professor of Telecommunications and Film
Michael R. Real, Ph.D., Professor of Telecommunications and Film, Chair of Department
John P. Witherspoon, M.A., Professor of Telecommunications and Film
Donald G. Wylie, Ph.D., Professor of Telecommunications and Film
Gregory C. Durbin, M.F.A., Associate Professor of Telecommunications and Film
Thomas C. Meador, M.A., Associate Professor of Telecommunications and Film
Carroll Parrott Blue, M.F.A., Assistant Professor of Telecommunications and Film
Sig Mickelson, M.A., The Van Deerlin Professor of Communication
Jack Ofield, Filmmaker in Residence in Telecommunications and Film

General Information

The Department of Telecommunications and Film, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in Radio and Television. This degree permits advanced study in the areas of media research and theory; interaction of mass communication and society; history and criticism of broadcasting and film; scriptwriting; broadcast management and policy; business aspects of media; financing, preproduction, and postproduction; government and media regulation; advanced audio, video, and film production; broadcast and film performance; international broadcasting and cinema; educational and instructional media; public broadcasting; technological trends: cable, satellites, computers, integrated telecommunications systems.

Graduate students in Radio and Television may select a specialization in Analysis or Creation.

I. An "Analytic" specialization focuses on advanced media research and criticism. It is especially useful for careers planned in teaching, management, planning, innovative technologies, and other areas where advanced ability to understand, organize and complete media-related functions is essential. This analytic specialization requires completion of Telecommunications and Film 701, Seminar in the Research Process, as well as general requirements listed below. Other courses suggested for the analytic specialization are concerned with media history, criticism, management, policy, regulation, instruction, developing technologies and related issues and trends. An undergraduate degree in media studies is recommended but not required for the analytic specialization.

II. A "Creative" specialization emphasizes advanced media design and production. This specialization is especially useful for careers planned in film, television, radio or related production activities where sophisticated and disciplined ability to conceive, initiate and complete original telecommunication and/or film media messages is required. This creative specialization requires completion of Telecommunications and Film 702, Seminar in Media Message Design and Production, as well as general requirements listed below. Other courses suggested for the creative specialization are scripting, criticism, production planning and organization, advanced video, audio, and film techniques, and related issues and activities. Admission to the creative specialization will normally require undergraduate preparation or equivalent professional experience and submission of a portfolio of previous creative activity. The Master of Arts in Radio and Television assumes a scholarly interest in advanced theoretical and applied problems relating to media. Postbac-

caloreate students who are without previous media production education or experience and who wish to learn television and film production should consider pursuing a second bachelor's degree in media production or completing basic production courses elsewhere before enrolling in graduate study at San Diego State University. Students with an undergraduate major or minor in media may enroll in advanced production courses for graduate credit as part of their master's program.

The Department of Telecommunications and Film operates as teaching facilities a large color television studio, a film production center, and radio complex. Also located on campus and available to student involvement are KPBS-TV and KPBS-FM, the public broadcasting stations for the entire San Diego, a closed-circuit instructional television service for the entire campus, an automated color studio for off-campus instruction and programming (ITFS), a student-operated radio station (KCR), computer facilities, and the research-oriented Center for Communications.

Interdisciplinary Mass Communication Master of Science: San Diego State University also offers an interdisciplinary Master of Science degree in Mass Communication administered jointly by the Departments of Journalism, Sociology, Speech Communication, and Telecommunications and Film. Refer to the section on Mass Communication for specific requirements for this degree.

Concentration in Public Telecommunications Administration: Refer to the section on Public Administration for specific requirements.

Admission to Graduate Study

Applications should be submitted prior to March 1 for the fall semester (and October 1 for the spring semester) in order to ensure consideration by the Graduate Admissions Committee of the Department of Telecommunications and Film. Fall admissions are preferred.

STUDENTS WILL BE ADMITTED TO GRADUATE PROGRAM IN TELECOMMUNICATIONS AND FILM ONLY IN THE FALL SEMESTER AND APPLICATIONS MUST BE RECEIVED BY THE DEPARTMENT OF TELECOMMUNICATIONS AND FILM NOT LATER THAN MARCH 1.

In addition to meeting the general requirements for admission to the University with classified graduate standing, as outlined in Part Two of this bulletin, a student applying for admission to the graduate program in the Department of Telecommunications and Film must meet the following requirements:

1. Undergraduate major or minor in radio and television, film, or a related communications discipline. Those lacking adequate undergraduate preparation or equivalent professional experience for the graduate program will be required to complete one or more courses (such as Telecommunications and Film 100 and 315) as determined by the graduate adviser which will not apply toward the units required for the degree.
2. Undergraduate grade point average not less than 2.75 overall, and 3.0 in the last 60 units attempted.
3. A minimum combined score (verbal and quantitative) on the GRE General Test of 950.
4. Three letters of recommendation.
5. A personal statement in which the student discusses his or her background, interests and abilities as they apply to the desire for an advanced degree, and in particular, a graduate degree in radio and television at San Diego State University.

Students accepted for graduate study in the Department of Telecommunications and Film will first be given Conditional Graduate Standing (classified). Full classified standing will be given only after the student has completed Telecommunications and Film 600 with a grade of B or better. In addition to the above, all students must meet the requirements for classified standing described in Part Two of this bulletin.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, which are described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 06031)

Candidates for the Master of Arts in Radio and Television must complete 30 units of coursework and must include the following in their programs.

1. Telecommunications and Film 600 (required for Classified Graduate Standing).
2. Either Telecommunications and Film 701 (Seminar in the Research Process) for those pursuing an analytic specialization, or Telecommunications and Film 702 (Seminar in Media Message Design and Production) for those pursuing a creative specialization.
3. Either Telecommunications and Film 799A (Thesis, Plan A) or Telecommunications and Film 795 (Project and Comprehensive Examination, Plan B).
4. At least 21 additional units from the courses listed below as acceptable for graduate credit.
5. At least 18 units in the total graduate program (including Telecommunications and Film 600, 701 or 702, and 795 or 799A) must be graduate level (600 or 700) courses.
6. No more than nine units taken in other departments. These courses may be included in the program providing they are courses acceptable for graduate credit in the department which

offers them and are approved by the graduate adviser in the Department of Telecommunications and Film.

Selection of Plan A or Plan B

The culminating experience in the master's degree program is completion of either a master's thesis (Plan A) or a master's project and comprehensive written examination (Plan B). Both plans require the ability to define, initiate, and complete a major advanced project with either an analytic or creative focus. Both plans require presentation to the faculty of a report written in acceptable form and evaluated as serious scholarly activity.

Before beginning either Telecommunications and Film 795 (Project Seminar) or Telecommunications and Film 799A (Thesis), a student must have completed a project or thesis proposal, have had it signed by a project or thesis adviser and have submitted it to the graduate adviser and, for Telecommunications and Film 795, to the course instructor.

Assistantships

Graduate assistantships are available in the Department of Telecommunications and Film for students working on, or interested in working on, a Master of Arts degree. Candidates must be college graduates who meet graduate admissions requirements at San Diego State University and have academic or professional experience in one of the following: television production, film production, audio production, media criticism, interactive media, or research. Graduate assistants are needed for both teaching and research. From four to ten positions are available for each semester.

Interested parties should contact Dr. Hayes Anderson, graduate adviser, or Dr. Michael Real, department chair, for application forms and further information.

Courses Acceptable on Advanced Degree Programs in Telecommunications and Film

UPPER DIVISION COURSES

500. Broadcast Management (3) I, II

Prerequisite: Telecommunications and Film 100.

Administration and organization of radio and television, including radio and television as advertising media, broadcasting research, station organization, promotion and sales, and current developments in radio and television as mass media.

505. Government and Broadcasting (3) I, II

Prerequisite: Telecommunications and Film 100.

Responsibilities of broadcasters as prescribed by law, governmental policies and regulations, and significant court decisions.

510. Script Writing for Broadcasting and Film (3) I, II

Prerequisites: Telecommunications and Film 260 or 280, and satisfaction of the English Placement Test and Writing Competency requirements. Proof of completion of prerequisites required: Test scores or verification of exemption; grade report or copy of transcript.

Development of a single program and series ideas. Scripting of dramatic original and adaptation forms, and the documentary.

520. Directing Television and Film Drama (3) I, II

Two lectures and three hours of activity.

Prerequisite: Telecommunications and Film 260 or 280.

Planned for prospective directors of plays for television and film. The student will become acquainted with principles, procedures and methods. Practical experience in University-sponsored productions.

530. Radio Programming (3) II

Two lectures and three hours of scheduled activity.

Prerequisites: Telecommunications and Film 100 and 121.

Formats, policies, production practices, and research in modern programming. Student work is broadcast on KPBS-FM.

535. Television Programming (3) I

Prerequisite: Telecommunications and Film 100.

Structure of television programming. Problems such as ratings, advertisers and scheduling. Social effects and criticism of television programming.

540. Broadcast Advertising (3) I, II

Prerequisites: Two courses in broadcasting, journalism or marketing.

Theory, procedures, and the role of broadcast advertising, including marketing and media research, campaign planning, media strategy, time purchasing, and evaluation.

550. Art Direction for Television and Film (3) I, II

One lecture and four hours of activity.

Prerequisites: Telecommunications and Film 260 or 280 or 325 and consent of instructor.

Aesthetic, technical, and administrative aspects of design for television and film. Experience in scenic design, construction, decoration, lighting, and special effects. Practical experience in University-sponsored productions. (Formerly numbered Telecommunications and Film 550B.)

551. Production Design for Television and Film (3) I, II

Prerequisite: Credit or concurrent registration in Telecommunications and Film 401.

Theory and analysis of production design concepts for television and film. Determination of stylistic and technical requirements for fictional and nonfictional productions. (Formerly numbered Telecommunications and Film 550A.)

560. Advanced Film Production (3) I, II

One lecture and more than six hours of activity.

Prerequisites: Telecommunications and Film 260, 510 and consent of instructor.

Practicum in direction and production of 16mm dramatic and nondramatic films. Cameras, lighting, design, sound techniques. Experience in University-sponsored productions. Maximum credit six units. (Formerly numbered Telecommunications and Film 560A-560B.)

562. Documentary and Propaganda Film/Television (3) I, II

Prerequisite: Telecommunications and Film 160.

Analysis through viewing of persuasive concepts, techniques and forms in international and documentary film and television programs.

565. Animated Film Techniques (3) II

Two lectures and more than three hours of activity.

Screening of representative examples and production of a filmograph or animated motion picture. Practical experience in University-sponsored productions.

575. Technological Trends in Telecommunication (3) I

Prerequisite: Twelve units in telecommunications and film.

Developments and trends in telecommunication and related technology, with their implications for the future.

580. Advanced Television Producing and Directing (3) I, II

One lecture and more than six hours of activity.

Prerequisites: Telecommunications and Film 280, 510 and consent of instructor. Program development, presentational techniques, and individual projects in the producing, direction and production of television programs. Practical experience in University-sponsored productions. Maximum credit six units. (Formerly numbered Telecommunications and Film 580A-580B.)

590. International Broadcasting (3)

Prerequisite: Telecommunications and Film 100 or 315, or Journalism

200.

Comparative study of broadcasting in various world areas; economic, social and political determinants of broadcasting patterns.

596. Selected Topics in Telecommunications and Film (1-3) I, II

Prerequisite: Twelve units in telecommunications and film.

Specialized study of selected topics from the areas of telecommunications and film. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar in Research and Bibliography (3)

Basic reference works, scholarly and critical journals; bibliographical techniques; exercises and problems in methods and exposition of research as it relates to the various areas of telecommunications and film.

610. Seminar in Writing for Broadcast and Film (3)

Prerequisite: Telecommunications and Film 510.

Dramatic structures as they apply to broadcasting and cinema. Writing a full-length script or scenario.

615. Seminar in Criticism of Broadcasting and Cinema (3)

Prerequisite: The equivalent of an undergraduate major in telecommunications and film.

Standards for objective appraisal of the ethical and artistic aspects of radio, television and film programs.

620. Seminar in the Development of Telecommunications Systems (3)

Prerequisite: The equivalent of an undergraduate major in telecommunications and film.

Development of telecommunications and broadcasting in their social, legislative and economic settings.

640. Seminar in Broadcast Advertising Problems (3)

Prerequisite: Telecommunications and Film 540.

Analysis of social, economic, and cultural context of advertising in commercial broadcasting; criticism and evaluation of the function of the advertiser; survey of broadcast advertising theory and research.

660. Seminar in Dramatic and Documentary Forms in Mass Media (3)

Prerequisite: Admission to the Creative Specialization.

Techniques and stylistic contributions of major directors as seen in their film and television productions. Production of a short film or videotape embodying concepts learned.

670. Seminar in Public Telecommunications (3)

Prerequisite: The equivalent of an undergraduate major in telecommunications and film.

Educational uses of electronic media. Use of telecommunications in classrooms and school systems. Relationship of noncommercial radio and television (public broadcasting) to commercial broadcast media and education.

675. Seminar in Telecommunication Technology and Policy (3)

Prerequisite: Telecommunications and Film 575.

Contemporary trends in telecommunication and information technology, implications of trends for public policy and affected businesses. Interaction between technology and regulation.

680. Seminar in Programming and Production (3)

Prerequisite: Admission to the Creative Specialization.

Theory and analysis of programming and production in broadcasting and film. Production of a short film or videotape embodying concepts learned.

696. Advanced Research Topics (1-3)

Prerequisite: Graduate standing.

Intensive study in specific areas of telecommunications and film. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Telecommunications Management (3)

Prerequisite: The equivalent of an undergraduate major in telecommunications and film.

Legal and regulatory milieu of telecommunications from perspective of managers of telecommunications and broadcasting.

701. Seminar in the Research Process (3)

Prerequisite: Telecommunications and Film 600.

Literature, methods, and designs for research. Different methodological and conceptual approaches to mass communication research.

Emphasis on (1) selection of topic for thesis or project, (2) development of detailed research plan, and (3) research activities preliminary to Telecommunications and Film 795 or 799.

702. Seminar in Media Message Design and Production (3)

Prerequisite: Telecommunications and Film 600.

Effects of various types of media formats, methods of presentation, and creative production approaches on individuals and groups. Selection, organization and creative techniques of message design elements in the telecommunications and film media. (Formerly numbered Telecommunications and Film 603.)

705. Seminar in Telecommunications Policy and Regulation (3)

Prerequisite: Telecommunications and Film 505 or Journalism 502.

Analysis of legal concepts and issues as applied to commercial and noncommercial broadcasting; relationship of local, state and federal government to broadcast media.

750. Seminar in Contemporary Telecommunications Issues and Trends (3)

Prerequisite: The equivalent of an undergraduate major in telecommunications and film.

Issues and trends important to coming decade, resulting from the rapid evolution of telecommunications and related technologies, and their applications in society.

795. Project Seminar (3) Cr/NC/SP

Prerequisites: Telecommunications and Film 701 or 702, consent of instructor, and advancement to candidacy.

Project in some aspect of the telecommunications and film media, culminating in a written report. Limited to students following Plan B for the Master of Arts degree in Radio and Television. Admission limited to students who have completed an approved proposal for a project in a previous course or special study.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Following assignment of SP in Course 799A, registration in this course is required in any semester in which the student expects to use the facilities and resources of the University; also student must be registered in this course when the completed thesis or project is granted final approval.

OFFICE: Adams Humanities 3138

TELEPHONE: (619) 594-6524

Faculty

Maria-Barbara Watson, Ph.D., Professor of Women's Studies

Bonnie S. Zimmerman, Ph.D., Professor of Women's Studies, Chair of Department

Susan E. Cayleff, Ph.D., Associate Professor of Women's Studies

Patricia Huckle, Ph.D., Associate Professor of Women's Studies, Dean of North County Center

Kathleen B. Jones, Ph.D., Associate Professor of Women's Studies

Janet A. Kohen, Ph.D., Associate Professor of Women's Studies

General Information

The Department offers advanced coursework in women's studies which may be used toward fulfilling the advanced degree requirements in other departments with the approval of the student's graduate adviser. Interested students can also include women's studies courses as part of a Master of Arts degree in Special Major or a Master of Arts degree in Liberal Arts.

UPPER DIVISION COURSES

515. Women: Mythology and Ritual (3)

Prerequisite: Three upper division units in women's studies.

Meanings and functions of myths and rituals in their sacred and secular aspects, emphasizing their impact on women's lives and relationships in differing cultural contexts, past and present. (Formerly numbered Women's Studies 415.)

521. Life Cycles of Women (3)

Prerequisite: Three upper division units in women's studies.

Women's developmental processes across the life cycle; their impact on women, men, and the family, including life passages related to adolescence, marriage, motherhood, divorce, widowhood, "second careers," and aging in varying socioeconomic and cultural contexts. (Formerly numbered Women's Studies 421.)

522. Women: Madness and Sanity (3)

Prerequisite: Three upper division units in women's studies.

Concepts of mental health and mental illness as applied to women. Theory of psychotherapy, both traditional and feminist. Alternative approaches to mental health. (Formerly numbered Women's Studies 422.)

536. Women, Race, and Class (3)

Prerequisite: Three upper division units in women's studies.

Major issues and themes in the history, culture, and contemporary lives of women of color in the U.S. Analysis of theories explaining similarities and differences in opportunities and life choices. Roles within social and political movements.

553. Women Writers (3)

Prerequisite: Three upper division units in women's studies.

Literary, historical and social consideration of women writers; may focus on one author, era, or theme. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. Limit of three units applicable to a major in women's studies. (Formerly numbered Women's Studies 453.)

Women's Studies

In the College of Arts and Letters

565. Women, Health and Medicine (3)

Prerequisite: Three upper division units in women's studies.

Historical and contemporary relationship of women to alternative and traditional healing systems. Illness-labeling, folk-healing beliefs, sectarian medicine, reproduction, birth control, life-cycle events, roles as practitioners and patients, ethical controversies, and aging. (Formerly numbered Women's Studies 365.)

580. Women: Comparative National Development and Politics (3)

Prerequisite: Three upper division units in women's studies.

Comparative analysis of the place of women in selected political and economic systems, and processes which determine political power. Role of women as agents and recipients in development programs. Theoretical and methodological research issues. (Formerly numbered Women's Studies 480.)

590. Feminist Thought (3) I

Prerequisite: Six upper division units in women's studies.

Readings in feminist theory and contemporary theoretical perspectives on core concepts and issues in feminist scholarship. Focus on understanding from a feminist perspective and on the significance of analyzing female experiences.

595. Seminar in Women's Studies (3) II

Prerequisites: Six upper division units in women's studies and consent of instructor.

Directed research in women's studies. Field of investigation will vary with instructor. Methods of investigation, development of bibliography, presentation of paper based on original research. See Class Schedule for specific content.

596. Topics in Women's Studies (3)

Prerequisite: Consent of instructor.

Advanced topics in women's studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

597. Research Project (3) I, II

Prerequisites: Six upper division units in women's studies and consent of adviser.

Individual research project. May be taken in place of Women's Studies 595, Seminar in Women's Studies.

GRADUATE COURSES

696. Selected Topics in Women's Studies (3-6)

Prerequisite: Classified graduate standing.

Intensive study in specific areas of Women's Studies, with emphasis on theoretical and methodological issues. May be repeated with new content. Maximum credit of six units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

798. Special Study (1-3) I, II Cr/NC/SP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Independent study. Maximum credit six units applicable to a master's degree.

Upper Division Courses

(Also Acceptable for Advanced Degrees)

The following courses are acceptable on selected advanced degree programs.

AMERICAN INDIAN STUDIES COURSE

533. Problems in American Indian Education (3) II

Prerequisite: Three units of American Indian Studies.
Survey of education system imposed on Indian America from the close of the Indian-White military conflict period to the present. Philosophies, government policy and public school accommodation will be central to the topic. Studies, recommendations and resultant programs that affect the overall educational process will be assessed.

CLASSICS COURSES

599. Special Study (1-3) I, II

Prerequisites: Consent of major or graduate adviser; to be arranged by department chair and instructor. For 599C: Classics 304G or 304L; for 599G: 304G; for 599L: 304L.

- C. Special Study in Classics
- G. Special Study in Greek
- L. Special Study in Latin

GENERAL STUDIES COURSE

550. Interdisciplinary Topics (1-4)

General Studies 550 is an interdisciplinary selected topic courses. Questions about individual courses should be directed to the department or departments listed immediately after the General Studies number in the Class Schedule.

HUMANITIES COURSES

580. Seminar: Topics (3)

Special topics appropriate to the interdisciplinary study of civilization. Reading, observation, and evaluation of scholarly literature of topic under consideration. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Topics in Humanities (1-3)

Prerequisites: Upper division standing and six units in courses listed in Humanities section of General Education.

Special topics focusing upon selected aspects of civilization and studied from an interdisciplinary perspective in the humanities. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. No more than six units may be applied toward either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

599. Special Study (1-3)

Prerequisites: Twelve upper division units in humanities or in humanities disciplines and consent of instructor and program chair.

Directed individual study. Maximum credit six units.

JUDAIC STUDIES COURSE

580. Special Topics in Judaic Studies (1-3)

Prerequisite: Upper division standing.

Special topics appropriate to the interdisciplinary study of the modern Jewish experience. Credit will vary depending on the scope and nature of the topic. May be repeated with different content. Maximum credit six units.

MEXICAN AMERICAN STUDIES COURSE

596. Topics in Mexican American Studies (1-3)

Prerequisite: Consent of instructor.

Advanced topics in Mexican American Studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496 or 596 courses applicable to a bachelor's degree.

PART FOUR

General Information

General Information
College of Extended Studies
Imperial Valley Campus
North County Center

General Information

Note: Due to new construction on campus, many of the Student Services offices will be relocated in 1990. For current locations, please refer to the Class Schedule or go to the Aztec Center Information Booth.

University Library

The University Library supports the curricular and research needs of the University community through the development of pertinent collections and the provision of services designed to facilitate access to information. The Library provides assistance to faculty and students in several areas: Circulation, General Reference, Government Publications, Maps, Media Center, Microforms and Newspaper Center, Periodicals Reading Room, Reserve Book Room, Science Reference, and Special Collections.

The Library has automated acquisitions, cataloging, circulation, and serials control systems. Computer based bibliographic search services are offered in over 100 data bases. The Library provides for interlibrary loan through a direct link with several thousand other libraries using the computer and telecommunications facilities of the OCLC bibliographic utility. Instruction in the use of library resources is offered in conjunction with specific courses, clinics, and a comprehensive workbook program.

The Library's holdings include 982,401 volumes (monographs and bound periodicals); 553,000 government documents; 3.1 million microforms; 58,500 reels of microfilm; 156,000 maps; 5,300 phonograph records; 23,718 curriculum items; and 300 linear feet of archival papers. The Library receives 10,100 periodical and serial titles, excluding government publications, and receives all United Nations and California government publications, and receives all United Nations and Organization of American States publications. The Library is designed to eventually accommodate three thousand reader stations and to provide shelving for one million volumes.

Research

The importance of research in graduate instruction is recognized by the faculty and all graduate programs contain provisions for research experience on the part of the graduate student. Among the facilities for research that students may utilize are those provided in organized bureaus, centers, and institutes located on the campus.

University Center on Aging E. Percil Stanford, Director

The University Center on Aging is a multidisciplinary organization located in the College of Health and Human Services. The Center is active in such areas of aging as (1) supporting interdisciplinary educational and curriculum efforts; (2) undertaking research, demonstration, and evaluation activities; (3) providing technical assistance and agency consultation for the community; (4) coordinating workshops and seminars for faculty, students, and community members; and (5) providing opportunities for student involvement in aging activities on campus and the community. The Center has a commitment to include ethnic minority content in each area described.

The B.A. degree in Gerontology is offered through the Center under the guidance of a multidisciplinary steering committee.

Efforts are made to work with a variety of disciplines to give students an opportunity to focus on gerontology. Courses pertaining to aging are being offered within Anthropology, Biology, Communicative Disorders, Family Studies and Consumer Sciences, Health Science, Nursing, Physical Education, Psychology, Public Health, Recreation, Social Work, and Sociology. Students wishing to organize a series of courses to meet their needs in the area of gerontology are encouraged to contact the Center Director or staff for more specific information on course offerings.

The Center is responsible for the coordination of a certificate program in conjunction with the College of Extended Studies. This program is geared toward individuals who are likely to be currently working in gerontologically related professions. In addition, the Center administers an undergraduate minor in gerontology.

Other major activities of the Center are conducting major research on health and functional status of the elderly, administering a National Insti-

tute on Minority Aging, a national resource center for special aging populations, a geriatric education center (with UCSD), a summer Elder-hostel program, and RAVE-Retired Active Volunteers in Education. It serves as a central point for the development and dissemination of minority aging data nationally.

The Edwin C. Allison Center for the Study of Paleontological and Geological Sciences

Ian M. Johnston, Director

The Allison Center has supported research in paleontology, geology and related sciences since 1972. The Center maintains a research library containing journals, reprints, textbooks, and copies of master's theses and senior theses completed in the Geological Sciences. In addition, the Center houses a collection of fossil and recent vertebrates, invertebrates, and plants. Research space is available for students, faculty, and visiting scholars. Small grants, other funds and equipment are available to students and faculty for research projects. The Center also publishes reports of various types containing geological information related to the southern California and northern Baja regions.

Asian/Pacific American Studies Consortium

Ray T. Smith, Director

The Asian/Pacific American Studies Consortium is an association of faculty, staff, and students. The purpose of the Consortium is to develop Asian/Pacific American research collections on campus and to carry on programs of research, seminars, colloquia, and other public activities of benefit to Asian and Pacific American communities in the San Diego area.

The Consortium has acquired organizational records in particular from the Union of Pan Asian Communities (UPAC) of San Diego. These and other Asian and Pacific American materials are maintained in the University Library. Inquiries about their use can be made through the Institute of Public and Community History sponsored by the Dean, College of Arts and Letters, or through the Director of the Asian/Pacific American Studies Consortium.

The Consortium maintains connections with campus organizations including the Center for Asian Studies, Asian American Student Alliance, and San Diego State University Foundation. General liaison is maintained with the University Library.

Asian Studies

Dan Whitney, Director

The Center for Asian Studies is an interdisciplinary organization in the College of Arts and Letters. Drawing upon faculty members from many fields, campuswide, it performs such services as (1) securing and administering grants and other support for research and development in Asian studies; (2) coordinating and publicizing the activities of faculty engaged in Asian-centered studies; (3) developing and administering the Asian studies program and relevant curricula at the undergraduate and graduate levels; (4) responding to campus and community requests for information and services; (5) fostering campus and community interest in Asian studies. The Center's reading room and study facility, located in AH-3172, contains Asian periodicals, books, pamphlets, dictionaries and maps.

Center for Behavioral and Community Health Studies

John P. Elder and Alan J. Litrownik, Co-Director

The Center for Behavioral and Community Health Studies is housed at 6363 Alvarado Court. The Center, formerly known as The Center for Behavioral Medicine was established in 1982 for the purpose of promoting research and academic programs relevant to the applications of

behavioral science principles to medicine and health care. Administratively, the Center has two co-directors who report to the Deans for the College of Sciences and the College of Health and Human Services. The interdisciplinary center encourages participation from all of the University colleges and departments. Currently, active investigators come from the Departments of Health Science, Physical Education, Psychology, and the Graduate School of Public Health. Current Center projects involve collaboration between scientists and physicians from a variety of specialties as well as a variety of other institutions, including Scripps Clinic and Research Foundation, the University of California, San Diego Medical Center, and the Children's Hospital and Health Center. Funding for the Center comes from federal and private foundation grants including several National Institutes of Health agencies. Current sponsors include the National Heart, Lung and Blood Institute, the National Institutes on Aging, the National Institutes on Arthritis, Musculoskeletal and Skin Disorders, the National Cancer Institute, the Henry J. Kaiser Family Foundation, the Arthritis Foundation, the State of California Department of Health Services, and the National Science Foundation.

The Center has a commitment to provide important research experience to students who intend to pursue related careers and offers opportunities for project staff and graduate students involved in several training programs to participate in community interventions. Recently, the Center was designated by the Centers for Disease Control as a specialized center for health promotion and disease prevention (one of thirteen in the U.S.).

Biological Field Stations

John D. Tenhunen, Director

SDSU operates three field sites to facilitate research and teaching in the chaparral and related ecosystems of San Diego County. These field sites, administered by the College of Sciences, support interdisciplinary research and educational activities in ecology and other areas of biology, soils, hydrology, geology, physics, geography and anthropology.

The field sites are the 4460-acre Santa Margarita Ecological Reserve near Temecula, the 4400-acre Sky Oaks Biological Research Station in Chihuahua Valley north of Warner Springs, and the 500-acre Fortuna Mountain Ecological Reserve north of Mission Gorge Road in San Diego.

The Santa Margarita Ecological Reserve, currently the focus of a major masterplanning effort, maintains laboratory and dormitory facilities, experimental plantings, and weather stations. The site provides a mosaic of riparian vegetation, oak woodlands, grasslands, coastal sage scrub, chamise chaparral and mixed chaparral. While stands of older chaparral exist, much of the chaparral vegetation is young having been burned in the 1969 Walker Basin fire. Abundant wildlife exists and the Santa Margarita River, a perennial stream, offers stream and riparian habitat for study.

The Sky Oaks Biological Research Station is adjacent to the Anza Borrego State Park, Cleveland National Forest, BLM lands, and private land. The proximity of these lands provides many more research and teaching opportunities. This site offers a diversity of community types, including red shank-chamise chaparral, mixed chaparral, oak woodlands, grasslands, riparian communities, and pines. Most of the chaparral is old, having been burned in the 1927 fire, but aged communities of 2 and 85 years also exist on the property.

Students and faculty wishing to conduct research at one of the biological field sites or to use these areas for instructional purposes should contact the director through the campus Biological Field Stations office at 594-2862. Reports describing the ecology and development of the Santa Margarita and Sky Oaks sites are available.

Business and Economic Research

The Bureau of Business and Economic Research is an organized research facility located in the College of Business Administration. The Bureau facilitates research activities of the faculty of the College of Business Administration and coordinates other campus resources for multidisciplinary projects. The Bureau is a full service member of the National Association of University Business and Economic Research and maintains a national survey research network. The principal objectives of the Bureau are to (1) secure and administer grants and other support for conducting research in the areas of economics and business; (2) facilitate research in these areas by the faculty

and students; (3) seek cooperative arrangements with outside individuals and organizations for conducting specific research projects; (4) respond to campus and community requests for information and services; (5) publish the results of its investigations and faculty in publication of their research. Graduate students and faculty are encouraged to make use of Bureau facilities.

China Studies Institute Paochin Chu, Director

The China Studies Institute coordinates and supports on-campus teaching and research related to China. The Institute develops and fosters faculty and student exchange programs with Chinese universities and institutions of higher learning. Various cultural programs on China and activities on campus and in the community promote cultural awareness and understanding. The development of Chinese publications, audio-visual materials, periodicals, newspapers, and other resources on campus fosters relationships between San Diego State University and the Chinese community, as well as nurtures friendship between the Chinese and American peoples.

Center for Communications John P. Witherspoon, Director

The Center for Communications was established to develop and administer interdisciplinary research and planning projects concerned with the field of communication and with telecommunication technology, issues, and applications. Center projects are funded from grants and contracts with industry, government, education, and philanthropy. The Center seeks to stimulate recommendations for research from faculty members in participating departments; to conduct studies and planning projects relating to developments in the communications field, problems in communications, and applications of communications technology; to conduct conferences and seminars related to these areas; to examine methods by which the University can extend its reach by use of communications technology; and to develop cooperative enterprises in the communications field with other institutions in the San Diego area.

Computer Integrated Manufacturing (CIM) Center George A. Mansfield, Jr., Director

Evolved from the Computer Aided Manufacturing Center established in 1987, the CIM Center is now involved with the entire range of activities in the manufacturing enterprise. Working with the College of Business Administration and the College of Professional Studies and Fine Arts, Mechanical Engineering faculty and students apply CIM concepts in more than 20 courses and do research on projects ranging from shop floor operations through engineering design to plant operations management. The CIM Center is supported by a large complement of donated IBM mainframe computers and workstations which augment existing SDSU CIM equipment. SDSU is thus a partner in a nationwide alliance of over 60 IBM-supported schools who provide training, education, demonstration, and research in computer integrated manufacturing.

Counselor Education

The Center for the Study of Counselor Education is a unit within the College of Education designed to provide support for activities such as (1) securing and administering grants and other support for research and development in counselor education, (2) encouraging cooperation with faculty members from other relevant disciplines such as anthropology, economics, psychology, social work, sociology, and the University Counseling Center, and (3) conducting programs or rendering services designed to promote counselor education at San Diego State University. The Center is administered by the Department of Counselor Education; fiscal matters are coordinated through the San Diego State University Foundation.

Center for Research in Economic Development Yiannis P. Venieris, Director

The Center for Research in Economic Development (CRED) is part of the Economics Department's effort to assist and encourage teaching and

research related to the problems and processes of economic development. CRED provides information and limited assistance to students and faculty. CRED's printed data holdings are located in the Social Science Research Laboratory.

Center for Economic Education **Kathleen Mikitka, Director**

The Center for Economic Education is a unit within the College of Education. The center is affiliated with the California Council on Economic Education and the Joint Council on Economic Education and has the mission to provide the following services and functions: (1) inservice training for teachers at both the elementary and secondary levels; (2) curriculum development and consultation with school district personnel; (3) development and distribution of media and materials on economic education; (4) research in economic education; (5) consultation with other university faculty as requested; and (6) workshops, speakers, and materials on economic education for adult constituencies from business, labor, social, and professional organizations. The service area for the center encompasses both San Diego and Imperial counties.

Center for Effective Organizations **Robert Penn, Director**

The Center for Effective Organizations was established to conduct applied research and development studies having the primary goal of improving human performance in public and private sector organizations. The Center focuses on the processes and strategies that enhance productivity and organizational effectiveness. In this context, organizational failures as well as successes are studied.

The Center also conducts evaluations of existing and planned programs and interventions designed to improve organizational performance.

The Center organizes symposia and conferences aimed at apprising the industrial, business and governmental communities of the most recent developments pertinent to its mission.

The Center offers graduate students opportunities to participate in the research efforts as well as gaining important experiences that should be career enhancing. Additional information is available by calling 594-6680.

Donald I. Eidemiller Weather Station **Edward Aguado, Director**

The Donald I. Eidemiller Weather Station serves as a teaching and research resource. It cooperates closely with the National Weather Service (NWS) through the mutual exchange of information. The station receives surface, upper-air and forecast weather maps via satellite from the NWS along with pertinent teletype information. The daily weather maps are permanently stored or copied onto microfiche. The station also archives monthly and annual data published by the National Climatic Data Center and has been observing and recording local weather information for more than thirty years.

Energy Engineering Institute **Halil M. Güven, Director**

The Energy Engineering Institute has supported educational and research activities in energy related areas since 1985. Undergraduate and graduate students and faculty from the mechanical engineering and electrical and computer engineering departments are involved in obtaining solutions to problems presented by industrial sponsors. Institute research projects cover a wide range of areas from optimizing energy resources to international energy studies.

Center for Energy Studies **Alan R. Sweedler, Director**

The San Diego State University Center for Energy Studies (CES) facilitates, promotes and supports research and academic programs relating to energy, with particular emphasis on energy matters of concern to the San Diego and local southwest region. The Center encourages interdisciplinary research and instructional programs in the broad areas of energy modeling, technology assessment of energy systems, local energy

policy planning and data collection relating to energy usage in the San Diego area. Research in specific energy technologies is also carried out by various faculty who are members of the Center. SDSU offers through the Center an interdisciplinary minor in Energy Studies. Completion of the minor will give the student a broad understanding of the technical, economic, social and political aspects of energy issues. For more information call the Center at 594-6240 or 594-6155. The Center works closely with local and state agencies concerned with energy policy and planning, and serves as a community resource in matters concerning local energy issues. The Center is located in the College of Sciences and administered by an executive committee consisting of faculty from the Colleges of Sciences, Arts and Letters, Engineering, and Professional Studies and Fine Arts.

Entrepreneurial Management Center (EMC)

The Entrepreneurial Management Center (EMC) is a privately funded activity of the College of Business Administration. It is guided by a Board of Governors made up of community business leaders.

The purpose of the EMC is to encourage and promote the concepts of entrepreneurship and entrepreneurial management both in the University and in the community. Its principal objectives are to (1) plan, design, and staff courses in entrepreneurship; (2) assist students and faculty in entrepreneur-related projects and research studies; (3) involve faculty in a variety of community activities and projects that encourage and assist emerging growth firms.

The EMC sponsors an annual Student Business Plan Competition which awards students for excellence in venture capital or seed business planning. Winners then compete in the Intercollegiate Regional Student Business Plan Competition, which includes entries from colleges throughout the Western states.

Each semester the EMC sponsors an Entrepreneur-in-Residence, an individual selected from the business community for his entrepreneurial experience. This person devotes 20 hours in interaction with students and faculty - in classes, seminars, and informal exchange.

European Studies Center **Leon Rosenstein, Director**

The European Studies Center coordinates and supports teaching and research related to the European area. It supervises the major and the minor in European studies for the B.A. degree. It sponsors the annual San Diego State University Summer Seminar and Travel Study Tours to Europe at various times in the year. It administers the European Studies Center Laboratory in AH-3110 which contains books, pamphlets, English and foreign language periodicals, and a slide collection on European art and geography.

Interdisciplinary Center for Health and Human Services **Maria Roberts-DeGennaro, Director**

The Interdisciplinary Center for Health and Human Services is a multidisciplinary training, research and service facility. It is located in the College of Health and Human Services, and its activities involve departments from all parts of the University. The Center promotes interdisciplinary educational and research opportunities for SDSU faculty and students.

Students from Communicative Disorders, Nursing, Psychology, Reading/Learning and Social Work participate in the Center's Central Intake program. They learn the skills of interdisciplinary collaboration as well as those specific to their respective disciplines as they assess the behavioral, cognitive, communicative, educational and physical/mental health problems being experienced by clients of all ages. Central Intake is offered as a low-fee service to the San Diego community. In this, as well as all other Interdisciplinary Center for Health and Human Services programs, a high priority is placed on serving the needs of the ethnic minority and economically disadvantaged individuals and families.

The Assistive Device Assessment Program of the Interdisciplinary Center for Health and Human Services provides language and cognitive assessments related to augmentative/assistive devices and systems. The Assistive Device Assessment Program is a multidisciplinary service which is oriented to the communicative, educational, physical, social, environmental and vocational needs of individuals who have physical disabilities.

These and other Interdisciplinary Center for Health and Human Services programs are used as vehicles for both experiential and didactic teaching. Lower division, upper division, and graduate students observe the clinical activities directly and/or on videotape as part of their preparation for professional practice.

Additional information about the Interdisciplinary Center for Health and Human Services programs is available at 594-6121.

Center for Instructional Technology Research and Training **Allison Rossett, Director**

The purpose of the Center is to (1) secure grants and contracts for research and development in instructional technology; (2) conduct workshops, seminars and conferences relating to applications of instructional technology to teaching, training and management; (3) respond to campus and community requests for information and assistance; (4) assist in conducting needs assessments, task analyses, instructional program design and evaluations of instructional products or programs; and (5) disseminate information reflecting model use of instructional technologies. The Center uses instructional technology to address education and training problems in health, school, military, business and social service settings. The Center functions within the Department of Educational Technology of the College of Education at San Diego State University.

Center for International Business Education and Research (CIBER)

Allan R. Bailey and Paul J. Strand, Executive Co-Directors
Alvord G. Branan and Michael L. Hergert, Project Co-Directors

The Center for International Business Education and Research (CIBER), one of six such centers in the United States, was established in 1989 under the auspices of a grant from the U.S. Department of Education and is administered by the Colleges of Arts and Letters and Business Administration. The grant was awarded as a partnership between UCLA and SDSU.

The Centers at UCLA and SDSU share in the promotion of (1) interdisciplinary programs which incorporate foreign language and international training into accounting, finance, information systems, management, and marketing curricula and which provide business training for foreign language and international studies faculty and advanced degree candidates; (2) evening or summer programs, including intensive language programs for members of the business community and other professionals that are designed to develop or enhance their international skills, awareness, and expertise; (3) collaborative programs, activities, or research involving academic and business communities that develop international skills, awareness, and expertise among current and prospective members of the business community; (4) research designed to strengthen and improve the international aspects of business education and to promote integrated curricula and the international competitiveness of American businesses, including those not currently active in international trade. The Center operates under the jurisdiction of the College of Arts and Letters and the College of Business Administration and is located in Business Administration 310A, 594-2955.

Center for the Study of International Education **Larry J. Shaw, Director**

The Center for the Study of International Education is a unit of the College of Education. It promotes faculty and graduate student research, explores study abroad and exchange possibilities for faculty and students, and disseminates information about international education to interested persons in the San Diego area. It also seeks to complement regular course offerings through sponsorship of lectures, conferences, and the development of bibliographic resources.

The Center seeks to foster not only a network of interested faculty within the College of Education but also encourages faculty involvement from other colleges on campus as well as from other organizations and universities in the San Diego region.

International Population Center **John R. Weeks, Director**

The International Population Center (InterPop) was created to promote the implementation of effective population policy through the conduct and application of population research, the short-term training of program personnel, the graduate training of potential population researchers and administrators, and the provision of technical assistance to population-related agencies and organizations. The activities of InterPop focus geographically on Africa, the Middle East, and Mexico, but one of the goals of the Center is to relate country or regional demographics to global population issues, trends, and activities.

InterPop provides a variety of services including (1) the preparation, submission, and administration of research proposals for population-related research; (2) the dissemination of preliminary research findings in a Working Papers series; (3) the short-term training of personnel who are associated with population-related programs; (4) the provision of population technical assistance to such programs; and (5) the coordination of graduate programs for students interested in pursuing a master's degree in a population-related area.

Although it is located in the College of Arts and Letters, InterPop is a multidisciplinary facility, linking Center faculty from several departments on campus with Center associates from other organizations and universities in the San Diego region.

Institute for International Security and Conflict Resolution

Alan R. Sweedler and Dipak Gupta, Co-Directors

The SDSU Institute for International Security and Conflict Resolution (IISCOR) encourages and facilitates teaching and research in the interdisciplinary area of international security and conflict resolution. Topics such as superpower confrontation, nuclear armaments, international conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Sciences, Arts and Letters, and Professional Studies and Fine Arts. IISCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. Students and faculty can obtain more information by calling the IISCOR office at 594-4352.

Japan Studies Institute **Alvin D. Coox, Director**

The Japan Studies Institute coordinates and encourages research and instructional programs on campus concerning various aspects of Japan and nurtures ties between the University and organizations and individuals in the greater San Diego region interested in Japan and United States-Japan relations. It develops and fosters student internships and student and faculty exchanges between San Diego State University and Japanese institutions of higher learning; tuition-free exchange arrangements exist at present with six public and private universities located throughout Japan. The Institute works closely with Japanese and American business, industrial, and banking establishments in San Diego, addressing research of mutual interest and drawing support for relevant Japan-focused courses, seminars, cultural events, lectures, forums, and workshops offered by the University. Since 1987 the Institute has offered a National Summer Program for incorporating Japanese studies into the undergraduate curriculum, cosponsored with the Japan-US Friendship Commission and the American Association of State Colleges and Universities. The Institute also oversees the Liberal Studies Major Option I with a focus on Japan Studies. The Institute supports the development of Japanese holdings in the University Library and Media Technology Services. The Institute operates under the jurisdiction of the College of Arts and Letters, but it draws faculty from across the campus.

Institute of Labor Economics

Walter H. Vogt, Director

The Institute of Labor Economics is a facility of the Department of Economics which encourages research by students and faculty in all phases of labor problems, collective bargaining, labor legislation and social security. The Institute is designed to complement the curricular and degree programs in the Department of Economics and to be of service to related disciplines. Publications are exchanged with 75 similar institutes at other universities. Research materials, both printed and machine readable, in the area of labor economics are maintained in the Center for Public Economics, located at Montezuma School, ACE Rooms 124 and 126.

Latin American Studies

Thomas M. Davies, Jr., Director

The Center for Latin American Studies seeks to encourage teaching and research related to Latin America. It has primary responsibility for the administration of the Latin American undergraduate and graduate degrees. The U.S. Office of Education has designated the center as one of the nation's eleven Latin American language and area centers, and is funding the Center as one of eleven "National Resource Centers for Latin America," in consortium with the Center for Iberian and Latin American Studies at the University of California, San Diego. In conjunction with this award, the Center administers programs that focus on: (1) the initiation of a problem-oriented approach to Latin American studies through the creation of courses dealing with urbanization and modernization of the area; (2) the development of innovative methods of instruction in Spanish and Portuguese; (3) the provision of informative and in-service training programs for elementary and secondary school teachers; and (4) the provision of services for the general public through the sponsorship of conferences, workshops, lectures and films. The Center also assists in the development of the University library's Latin American holdings and has created a special collection of Latin American materials which is available in the Center's reading room, SH-146.

Institute for Leisure Behavior

Gene G. Lamke, Director

The Institute for Leisure Behavior is the research and community service unit within the department of recreation at San Diego State University. It is primarily concerned with conducting leisure related research, promoting professional development, disseminating specialized publications, organizing conferences, seminars, lectures and workshops. The Institute is governed by a Board of Directors which, in turn, is advised by a group of thirteen individuals from park and recreation and related fields. The Advisory Council has been instrumental in providing valuable information to the Board concerning the needs and direction of the leisure services field.

The Institute administers a variety of service programs within San Diego County. Camp Able, an aquatic based camp for disabled children and adults, operates ten weeks during the summer at Silver Strand State Beach. Camp Aztec, a full-service resident summer camp for children 9 to 14, operates near Lake Cuyamaca at Camp Wolahi. The City of Santee contracts with the Institute for a non-fee based program at school sites for children 6-16. And, the Spring Valley Park and Recreation District (San Diego County) contracts for recreation services from the Institute for all its residents.

The Institute continues to publish monographs focusing on important issues relative to leisure services delivery. These are available to the public as well as park and recreation practitioners. Research projects under the direction of the Institute focus on local, state, national, and international problems related to leisure and park/recreation services.

Lipinsky Institute for Judaic Studies

Lawrence Baron, Director

The Lipinsky Institute for Judaic Studies, located in the College of Arts and Letters, serves to coordinate and support teaching and research in modern Jewish history and contemporary Jewish and Israeli affairs.

Established with contributions from the San Diego community, the Lipinsky Institute provides financial support for an annual visiting professor from Israel, the annual Galinson-Glickman symposium on contemporary Israeli issues, and the Robert Siegel Memorial Lecture. It also complements regular course offerings by sponsoring lectures, developing library resources, fostering research and conducting other activities that will promote the advancement of Judaic studies in the University and in the San Diego community.

Center for Marine Studies

James H. Mathewson, Director

The Center for Marine Studies provides a focus for oceanography and marine studies at SDSU. The Center assists departments within the University in the development of instructional, research, and public service aspects of ocean oriented programs and provides special supporting services including advising students, assistance to faculty and students in research, preparation of manuscripts, operation of the SDSU Marine Laboratories and boats at Mission Bay and at Carlsbad, and liaison with other institutions and the community. The Center is operated as a special unit of the College of Sciences and is administered by a director and an executive committee consisting of faculty members elected from participating departments. Additional information about marine studies is available from the Center for Marine Studies office at CG-403, or from the Office of the Dean of the College of Sciences.

Center for Research in Mathematics and Science Education

Sandra P. Marshall, Director

The Center for Research in Mathematics and Science Education (CRMSE) is an interdisciplinary consortium of faculty interested in the research on substantive questions related to the learning and teaching of science and mathematics. The Center currently has members from the faculties of Mathematical Sciences, Natural Science, Psychology, Teacher Education, and Physics. It is administered by a Director appointed by the Dean of the College of Sciences and an Associate Director appointed by the Dean of the College of Education. Through its activities CRMSE initiates, encourages, and supports the scholarly pursuit of important theoretical and applied problems in mathematics and science education. CRMSE supports faculty in their current research projects and in the preparation of manuscripts for publication and grant proposals for continued research. The Center also provides information and guidance to students intending to pursue graduate degrees or careers in mathematics or science education. CRMSE works closely with local, state, and national groups concerned with these issues. The Center is located at 6475 Alvarado Road, Suite 206; 594-5090.

Molecular Biology Institute

A. Stephen Dahms, Director
Sanford I. Bernstein, Associate Director

The Molecular Biology Institute was established to serve interested departments of the biological and physical sciences in the coordination, support and enhancement of research and instruction in the molecular biological sciences. Interests and activities of the MBI encompass all approaches which aim to explain biology at the molecular level. Currently, full members of the Institute are drawn from the departments of Biology and Chemistry, and participate in the respective Ph.D. programs. Associate members are drawn from a variety of disciplines that are cognate with the molecular biological sciences. The Institute is also constituted as the university unit authorized to administer the master's program with an emphasis in Molecular Biology. The research programs of the MBI members are supported by a variety of agencies including the National Institutes of Health, the National Science Foundation, NASA, the American Heart Association, the American Diabetes Association, the Muscular Dystrophy Association, Sea Grant (NOAA), the Department of Energy, the U.S. Department of Agriculture, and the California Metabolic Research Foundation. Additional information is available from the MBI office: CG 403, 594-2822.

Paleobiology Council

Richard D. Estes, Director

The Paleobiology Council is an interdisciplinary research and teaching group concerned with exploration of the fossil record. It is composed of faculty members from the departments of Biology and Geological Sciences, and the San Diego Natural History Museum. Students interested in pursuing an interdisciplinary Special Major leading to an M.A. in Paleobiology may do so under the direction of the committee.

Center for Policy Studies in Education

Alberto M. Ochoa, Director

The Center for Policy Studies in Language and Cross-Cultural Education is a unit within the College of Education. The Center houses projects funded by federal, state and private sources. Current projects include the Parent Institute, the Multifunctional Resource Center, and the Social Equity Technical Assistance Center. These centers focus on issues of social equity; conduct research on questions related to educational policy; and provide technical assistance to districts throughout Southern California.

Institute of Public and Urban Affairs

Louis M. Rea, Director

The Institute of Public and Urban Affairs is located in the School of Public Administration and Urban Studies. The Institute was established to conduct research in community and governmental affairs and to sponsor conferences, colloquia and symposia related to issues in public administration and affairs including urban planning, management, and criminal justice administration. The Institute also publishes occasional working papers and research monographs. Selected students and faculty of San Diego State University staff the Institute. An integral part of the Institute is the Public Administration Center which contains a specialized and growing collection of research materials emphasizing issues in public affairs particular to San Diego and California.

Center for Public Economics

George Babilot, Director

The Center for Public Economics is a facility of the Department of Economics to encourage research by students and faculty in all phases of nonmarket economic decision making, encompassing the following areas: (1) the functioning of federal, state and local fiscal systems, including the provision for and financing of public goods at each level; (2) the economic factors involved in environmental changes, in particular, their bearing on urban and local economic problems; (3) the economic dimensions of social decision making. The Center is designed to complement the curricular and degree programs in the Department of Economics and to be of service to related disciplines. It maintains research materials and facilities to assist research and publications in the area of public economics. The Center maintains a computer assessed San Diego Regional Data bank and subscribes to national and regional economic data services. Fiscal matters are coordinated through the San Diego State University Foundation. Financial support in the form of student assistance is available for faculty research projects on subjects in public economics. The Center funds a number of student scholarships which are administered through the Scholarship Office. The Center is located in ACE Room 126.

Real Estate and Land Use Institute (RELUI)

Established in 1983, the Real Estate and Land Use Institute (RELUI) is the first systemwide research-oriented institute of its kind in the 20-campus California State University system. One of the two statewide offices is located in the College of Business Administration.

As it relates to real estate and land use, the purpose of RELUI is to (1) support, coordinate, and manage systemwide and intercampus research activities; (2) assist in the development, coordination, and administration of statewide continuing education programs; (3) seek funding sources for education and research activities; (4) promote the general well-being of undergraduate and graduate study within the CSU system; and (5) maintain liaison with government agencies, private industry, and associated organizations with interest in public policy.

RELUI maintains in the College of Business Administration a research and reference center where specialized real estate and land use related materials are available for use by students and faculty.

RELUI also sponsors an internship program for placement of qualified students with local firms to provide a combined working and learning experience. Additional benefits accrue to interns in the form of academic credits and stipends.

Institute for Regional Studies of the Californias

Paul Ganster, Director

The Institute for Regional Studies of the Californias (IRSC) provides the University with a neutral forum for the investigation, discussion, and dissemination of information about the United States-Mexico border region. The Institute focuses on the three-state region of California, Baja California, and Baja California Sur and is also concerned with Mexico and important issues in the United States-Mexican relationship. Created in 1963, the Institute has undertaken multidisciplinary research projects on common regional concerns including transborder environmental issues, policy perspectives on the California-Mexico relationship, and the maquiladora industry. The Institute maintains a research collection on the border region and takes an active role in Mexico-related professional organizations. IRSC publishes the *Mexico Policy News* for PROFMEX (The Consortium of U.S. Research Programs for Mexico) as well as papers and monographs on border-related issues and topics.

Other Institute activities include conducting binational symposia, improving communication between public and private sector representatives on both sides of the border, serving as a clearinghouse for information on transborder events, issues, and institutions, and encouraging the effective use of educational resources among the region's universities. The Institute serves as a major link between SDSU and Mexican institutions and currently directs a faculty exchange program with El Colegio de Mexico in Mexico City.

IRSC has underway, a project on border business that includes seminars and workshops for the private sector. The Institute is located in Nasatir Hall, Room 103.

Center for Rehabilitation, Public Policy and Disability

Fred R. McFarlane, Director

The Center coordinates and supports training and research activities in the field of vocational rehabilitation. This Center operates within the College of Education and works directly with faculty interested in this area. The Center administers projects funded by local, state and federal agencies. The Center's facilities are located in the Alvarado area in proximity to the campus.

Social Science Research Laboratory

Doug Coe, Interim Director

The Social Science Research Laboratory (SSRL) was founded in 1974 to facilitate faculty research and to support a diverse set of instructional programs throughout the social sciences. Emphasizing public opinion polling and computer applications to social research, SSRL offers a wide range of services to University faculty, staff, and students, as well as to the broader San Diego community. Services and operations are organized along the following lines:

Research Services offers a complete range of public opinion polling and survey research services, including sample design and execution, polling fieldwork, coding and data reduction, and data archiving and retrieval. The section maintains a VAX 750 computer system to support faculty research.

Instructional Services offers consultation in computer applications to social research, including a full range of statistical analysis programs. The Section also provides a range of specialized workshops and demonstrations about computer uses and applications, data management, and analysis. Graduate assistantships, undergraduate internships and research assistant positions are available to qualified students.

The SSRL is located in the Professional Studies and Fine Arts building, room 140.

Survey Research

Oscar Kaplan, Director

The Center for Survey Research was established to encourage nonprofit research in the sample survey field. The Center is prepared to undertake surveys requested by government or nongovernment organizations, and to do fieldwork on a local, state or national basis. Faculty members who wish to submit applications for off-campus support in survey research in the name of the Center may do so, upon approval of the project by the center's advisory committee. The Center is administered by a director.

Systems Ecology Research Group

James R. Reynolds, Director

The Systems Ecology Research Group (SERG) is an interdisciplinary research group established by the College of Sciences to conduct basic research and promote graduate education in ecosystem science. Members include faculty from the Departments of Biology, Mathematical Sciences, and Geography. Group expertise exists in plant and animal ecology, landscape ecology, micrometeorology, microbial ecology, soil science, community and statistical ecology, image processing and remote sensing, geographical information systems, computer science, applied mathematics, and simulation modeling. At present, major emphasis is on integrated research projects in desert, arctic tundra, and chaparral ecosystems with research on numerous aspects of soil ecology, ecosystem disturbance and reclamation, and ecosystem response to global climate change. Studies include plant production and water relations, phenology and population dynamics, herbivory, nutrient cycling, movement of genetically engineered microorganisms, and the effects of global increases in atmospheric carbon dioxide on plants and terrestrial ecosystems. Funding for research support is provided by both national and state agencies such as the National Science Foundation, U.S. Department of Agriculture, U.S. Environmental Protection Agency, U.S. Forest Service, U.S. Department of Energy, and the California Department of Transportation.

Additional information may be obtained at the SERG office, second floor, Physical Sciences, or by calling 594-5976.

Distinguished Graduate Research Lecture Series

The Distinguished Graduate Research Lecture Series is sponsored by the Graduate Division and Research and the University Research Council and is supported in part through Instructionally Related Activities funds. The Series was established for the purpose of bringing to the campus scholars of national and international preeminence to present a public lecture on a general subject related to research and graduate education. In addition to this public lecture, the distinguished lecturer provides an unusual educational opportunity for graduate students by conducting a graduate research colloquium. Each of the lecturers in the Series is published under the auspices of the Publications Committee of the University Research Council and made available to graduate students, faculty, and other interested persons.

Past Distinguished Research Lecturers have included Dr. Noam Chomsky, Institute Professor of Linguistics, Massachusetts Institute of Technology; Dr. Arthur Kornberg, Professor of Biochemistry, Stanford University; Dr. Nathan Glazer, Professor of Education and Sociology, Harvard University; Dr. Jane Goodall, Director, Gombe Stream Research Centre, Dr. Jonathan Miller, well-known author, stage producer and director, and Dr. Stephen Jay Gould, Professor of Geology, Harvard University.

Media Technology Services

Media Technology Services provides support to faculty and staff in acquisition and distribution of instructional media, in distribution and maintenance of audiovisual equipment, and in design of instruction. The center consists of three units: Distribution, Production, and Instructional Development. The director provides leadership to the University in identifying new approaches in the use of instructional technology.

Distribution provides support in the selection and use of instructional materials and the distribution and maintenance of audiovisual equipment. Services include booking and scheduling of films and videotapes for classroom use. Films and videotapes may be shown by means of classroom projection or over the campus 26-channel closed circuit system. A viewing room with high quality computer and video projection is available. The acquisition of new videotapes, films and videodiscs related to instruction and maintenance of these libraries is a part of this service.

Production aids in design and production of instructional materials. Original videotape programming and slide-tape presentations required for specific instructional purposes are developed and produced by media production staff. A color studio and videotape feedback laboratory are operated and maintained. Graphic design for instruction and for research reports is provided. Photography for instructional materials development and for reporting of research is available to all faculty.

The Instructional Development program offers professional assistance in instructional design, course design, teaching techniques and assessment. Specific services include (1) providing assistance in instructional materials development, (2) assessing and selecting instructional methods, (3) facilitating course design, (4) providing faculty with opportunities to analyze their instruction, (5) conducting workshops on skills and techniques of teaching and testing, and (6) providing a facility for faculty to produce their own media and learn about new technology.

University Computing Services

University Computing Services provides equipment, communication facilities, software, and technical services to meet the instructional, research, and administrative computing needs of the campus community.

The central computer center maintains a VAX 6320 and an ELXSI 6400 parallel processor. The VMS and UNIX operating systems are among those available. Several academic departments have computers, work stations, and specialized equipment to satisfy their computing needs. A CRAY Y-MP/864 Supercomputer located at the San Diego Supercomputer Center is available for assigned coursework and research projects. SDSUNET is a high speed communications network based on Ethernet technology. It allows microcomputer access to computing resources. The California State University Network, CSUNET, links the campus to additional central computers and to specialty computing centers on other campuses.

This computing environment provides access to hundreds of software products including programming languages (ADA, APL, BASIC, C, COBOL, FORTRAN, LISP, PASCAL), mathematical and statistical programs (BMDP, SAS, IMSL, MINITAB, NELSON, SPSS*, TSP), large research data base systems (APSA, CENSUS, COMPUSTAT, FDIC, ICPSR, IMF), and interactive graphics tools (DISSPLA, MENUgraph, SPSSgraph, and SASgraph).

Instructional microcomputer users are supported by Apple IIC, Macintosh, and IBM PC systems located in laboratories throughout the campus. These systems are configured to run popular software.

Computing Services staff provide consulting services for faculty and staff. Lab assistants assigned to the terminal labs provide consulting services for students.

San Diego State University Foundation

The San Diego State University Foundation was incorporated in 1943 as an auxiliary organization authorized by the Education Code of the State of California. It is a nonprofit corporation, self-financed, and chartered to provide and augment programs that are an integral part of the educational mission of San Diego State University. Originally, the Foundation handled, accounted for, and invested scholarship and loan funds donated to the University. Commencing in 1954, the Foundation began serving as the agency for the University to accept and administer sponsored research and educational projects. The Foundation is the largest of the auxiliaries in The California State University.

The Foundation serves the University in the following major areas: Development and administration of grants and contracts for faculty and staff research and educational projects;

Administration of funds for more than 1,000 special programs including KPBS educational television and radio stations, the College of Extended Studies, and the Alumni and Development Office;

Financial administration of gifts and donations;

Investment of endowment and other funds;

Financial administration of student scholarship and loan funds;

Management of a real property program whereby the Foundation acquires and provides space for grant and contract activity, and leases property to the University and other campus auxiliaries;

Development of property adjacent to the campus;

Provides funds for the support of the University programs, such as the Summer Faculty Fellowship Program and the Grant-in-Aid for Research Program for faculty;

Administration of activities such as the June Burnett Institute for Children, Youth and Families, and The Fred J. Hansen Institute for World Peace.

The Foundation, as a nonprofit corporation, is governed by a Board of Directors in accordance with its Articles of Incorporation and Bylaws. The principal function of the directors is to establish policies and guide the corporation in achieving its objectives.

San Diego State University Press

As the scholarly press for San Diego State University, the San Diego State University Press publishes works of original research, as well as other meritorious academic works that will further the intellectual mission of the University. Although high quality, nonfiction manuscripts from any source will be considered, the current focus of the Press is in these areas: Latin America and the United States-Mexico Border; regional studies of the Pacific Southwest; and postmodernism. In addition to books, the Press also publishes under its imprint two journals, the *Review of Latin American Studies* and *Fiction International*, as well as monographs by the SDSU Graduate Division.

The San Diego State University Press imprint is controlled by an editorial committee of San Diego State University faculty scholars, appointed by the Vice President for Academic Affairs and the Senate. Financial support for Press activities is provided almost entirely by sales of books. Financial accounting and coordination is provided by the San Diego State University Foundation.

CSU International Programs

Now in its 26th year of continuous operation, The California State University (CSU) International Programs offers students the opportunity to continue their studies overseas for a full academic year while they remain enrolled at their home CSU campus. The International Programs' primary purposes are to enable selected students to gain a firsthand understanding of other areas of the world and to advance their knowledge and skills within specific academic disciplines in pursuit of established degree objectives. Since its inception, the International Programs has enrolled nearly 9,500 CSU students.

A wide variety of academic majors may be accommodated by the 34 foreign universities cooperating with the International Programs in 16 countries around the globe. The affiliated institutions are: the University of Queensland (Australia); the University of São Paulo (Brazil); the universities of the Province of Quebec (Canada); the University of Copenhagen (Denmark); the University of Heidelberg (Germany); the University of Provence (France); the Universities of Jerusalem (Israel); the University of Waseda (Japan); the Iberoamericana University (Mexico); Massey University and Lincoln University College (New Zealand); the Catholic University of Lima (Peru); National Chengchi University (Republic of China/Taiwan); the Universities of Granada and Zeeland (Spain); the University of Uppsala (Sweden); Bradford, Bristol, University (Republic of China/Taiwan); the Universities of Sheffield, Sheffield, and Swansea universities and Kingston Polytechnic (the United Kingdom). Information on academic course offerings available at these locations may be found in the International Programs Bulletin which may be obtained from the International Programs representative on campus. To be selected to participate, students must have upper division or graduate standing at a CSU campus by the time of departure, who

possess a cumulative grade point average of 2.75 or 3.0, depending on the program, for all college level work completed at the time of application (some programs require a 3.0 cumulative grade point average), and who will have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicants academic record.

Final selection is made by the Office of International Programs in consultation with a statewide faculty selection committee.

The International Program pays all tuition and administrative costs overseas for each of its participants to the same extent that such funds would be expended to support similar costs in California. Students assume responsibility for all personal costs, such as transportation, room and board, and living expenses, as well as for home campus fees. Because they remain enrolled at their home CSU campus while studying overseas, International Programs students can earn full resident credit for all academic work completed while abroad and remain eligible to receive any form of financial aid (other than work-study) for which they can individually qualify.

Information and application materials may be obtained from the Division of Undergraduate Studies (AD 223) or by writing to The California State University International Programs, 400 Golden Shore, Long Beach, California 90802-4275. Applications for the 1991-92 academic year overseas must be submitted by February 1, 1991.

Office of the Executive Director for International Programs

In recognition of the rapidly expanding number and importance of international activities on the San Diego State University campus, the University has recently created the Office of the Executive Director for International Programs with specific responsibility for coordinating and facilitating the development of the diverse international programs and mission of the University. The executive director serves as the University's primary contact person for international programs and represents the University on international matters to external agencies and institutions. In addition to coordinating all international faculty and student exchange programs, the Office for International Programs serves as an information clearinghouse regarding international projects, funding opportunities, and academic programs and services that have an international component.

International Faculty Exchanges

In order to enhance the international character of instruction and research, San Diego State University has developed a continuing program of faculty exchange with foreign universities. Currently, the University has formal arrangements to exchange professors periodically with universities in Europe, East Asia, Latin America, and the Middle East. Over 100 international scholars visit the San Diego State University campus each year to pursue scholarly research, participate in academic or professional programs, and share their international perspectives with the university community.

International Student Exchanges

In addition to the CSU International Programs, San Diego State University has entered into special institutional arrangements with selected foreign universities that provide both undergraduate and graduate students the opportunity for study abroad. Currently San Diego State University has student exchange agreements with universities in Australia, Brazil, France, Japan, Mexico, the People's Republic of China, Spain, Taiwan, the United Kingdom, and West Germany.

For more information about the University's international programs and international faculty and student exchanges, contact the Office of the Executive Director for International Programs, Administration Building 221, (619) 594-1354.

Alumni & Associates

Administration 201, (619) 594-2586

Membership in the Alumni & Associates is open to those persons who have an abiding interest in and commitment to the growth and future of SDSU and the community it serves.

The Alumni & Associates is a dynamic, moving organization whose purpose is to promote the welfare of the University. It offers a number of programs and services designed to meet the variety of needs and interests of its alumni, including library privileges, reduced admission to many cultural activities, and Extended Studies mini-courses, workshops, and conferences.

The Alumni & Associates also supports the University's annual fund drive to raise private funds for innovative educational programs beyond the basic curriculum and to meet numerous needs of the University community.

In addition, the Alumni & Associates sponsors an Annual Awards Program every spring honoring alumni and friends of the University, provides scholarships for students, and serves as a sounding board regarding University programs and policies.

The Alumni & Associates' publication for alumni and friends of the University is the quarterly *SDSU Report*.

Associated Students of San Diego State University

The Associated Students of San Diego State University (AS), the official organization for student government, is an independent, not-for-profit corporation which provides a myriad of student programs, services and activities to enhance the collegiate experience. The AS is funded by the student activities fee and revenues collected from events. The AS also provides a wide variety of job opportunities for students.

Aztec Center, the focal point of AS activities, is a model student union facility. It houses conference rooms, lounges, shops and service centers for use by students, faculty and staff, as well as the offices of AS staff and the student government. A student union fee funds both Aztec Center and the new Student Activity Center, the construction of which will begin in Fall 1990.

The AS operates, in conjunction with other universities in the area, the world's largest instructional waterfront facility. Mission Bay Aquatic Center offers physical education courses and recreational instruction in aquatic sports.

The Leisure Connection provides leisure and craft instruction, studio space and recreational equipment rental. TLC also organizes recreational sports and outings and coordinates a campus games program.

Other programs include the Open Air Theatre, child care, and cultural activities. For more information, call 594-6551.

Audiology Diagnostic Center

Communications Clinic 126, (619) 594-6477

The Audiology Diagnostic Center in the College of Health and Human Services is a service of the Department of Communicative Disorders. The center provides diagnostic information regarding hearing loss, hearing aid evaluations, earmolds and earprotectors for faculty, students, staff and the community, including Hispanic and Asian clients and their families. A minimal fee is charged for audiological services. The center operates throughout the school year. Referrals may be made through health professionals, agencies, school districts or as self-referrals.

Aztec Shops, Ltd. (Campus Store, Food Services, Copy Services)

Aztec Shops, Ltd. is a California not-for-profit corporation which has existed since 1931 to serve San Diego State University. It owns and operates services such as the Campus Store, Food Services, and copy centers. Aztec Shops is not supported financially by the State of California but is governed by a board of directors comprising faculty, students, and staff of SDSU.

The Campus Store provides required textbooks, assigned class materials, reference works, supplies, computer sales, imprinted items and a selection of over 30,000 general book titles. A good selection of art supplies may be found at Art Etc., located in the Art Building. The Copy Center, located behind the Campus Store, provides Xerox copying, binding, supplemental class materials, and typewriter and computer rentals. The Campus Store is open on weekdays and Saturdays when classes are in session. Aztec Shops also operates Campus Stores on the Imperial Valley and North County campuses.

Food Services includes Commons East, West Commons, Café 90, Little Pete, Courtyard Café, the Faculty/Staff Centre, Betty's Hotdogger, Catering, Aunt Mary's, and Bagelateria. Specialized food items are available at these locations, offering wide menu varieties to the campus community. East Commons and Aunt Mary's are open weekends to accommodate those on campus.

Meal Cards are available to any enrolled student. Options include 14- and 10-meal plans. Meal tickets enable the holder to dine at Courtyard Café, West Commons, Commons East, and Café 90.

Aztec Shops is dedicated to providing quality services to the students, faculty, and staff of SDSU. Questions may be directed to the corporate office, second floor, Commons East.

Campus Children's Center

The Associated Students Campus Children's Center, a parent participation program, provides child care for SDSU students' children, six months through five years of age, who are in good health. Priority is given to families with the greatest financial need and to earliest applicants regardless of race, religion, creed, sex, national origin, or handicap. Faculty/staff children are accepted as space permits.

Tuition for children is determined on a sliding fee scale based on family size and income.

The program is staffed by professional and student employees, volunteers, parent participants, and Child Development majors. Parents make a weekly contribution of time as teachers in the classroom, plus attend a weekly parent class their first semester in the program, or serve on a fundraising/publicity committee. They also have the opportunity to serve on the Campus Children's Center Board, which is composed of parents and other campus representatives.

The program is designed so that a variety of activities are offered that will foster the child's social, emotional, intellectual, and physical development and help the child view himself/herself and the environment positively.

The hours of operation are 7:15 a.m. to 6:00 p.m., Monday through Friday. Kindergartners are not accepted for after school care.

Career Placement

Career Services may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in The California State University.

Career Services

Student Services Building, Room 1200 (west of the Business Administration Bldg.), (619) 594-6851.

Students at SDSU may need to make career decisions which will shape and determine their future. Support and assistance in responding to these challenges are available without charge at Career Services. Assistance is provided by an experienced staff who are prepared to deal with a broad range of student concerns from self-identity and life direction to career decisionmaking, obtaining student employment while attending the University, and making the transition to work after graduation.

Guidance through all stages of the self-assessment and career planning process is available. Students are encouraged to come in at the beginning of their college experience for help in self-assessment and goal setting. Assistance is offered in both individual and group counseling sessions.

Cooperative Education and Career Experience programs offer work experience in selected fields for part-time and summer employment. Students will also find the University's central listing for part-time student employment at Career Services.

The on-campus interview program brings prospective employers to the SDSU campus to conduct job interviews for career positions and graduate schools. Career Services helps students prepare for these interviews and all other aspects of the job quest through a variety of services.

These services include counseling, alumni career network for students, workshops in self-assessment and career planning, resume writing, interviewing techniques, job search strategies, and researching employers. Career fairs are offered for students to meet employers in an informal setting.

An extensive library is available for career research as well as to provide information on potential employers. Various services are offered to alumni for a nominal fee.

All career services are available from 8:00-4:30 p.m., Monday through Friday (closed from 12:00-1:00), and until 8:00 p.m. on Thursdays during the semester. Special appointments may be made for students whose schedules conflict with these hours.

Catalogs and Bulletins

The *General Catalog*, published annually in May, may be obtained from the Aztec Shops Bookstore on the campus. The catalog carries information on admissions, fees and tuition, programs and degrees, courses, scholarships, residence halls, student services and activities, and a faculty directory.

The *Graduate Bulletin*, published annually in May, may be obtained from the Aztec Shops Bookstore on the campus.

The *Summer Sessions Bulletin*, issued each April, includes an application form, information on admissions and registration, fees, living accommodations, courses, institutes, workshops, and study tours. It may be obtained free upon request to the Summer Sessions Office.

The *Class Schedule* with instructions for registration is published prior to the opening of each semester and may be purchased at the Aztec Shops Bookstore on the campus.

Counseling & Psychological Services

Student Services Building, Room 2109

At Counseling & Psychological Services a staff of experienced professional counselors offer support for students in an atmosphere of understanding and confidentiality.

The primary purpose of Counseling & Psychological Services is to assist students with developmental issues, value formation, and the resolution of personal and academic problems which may impede the learning process.

Services include individual and group counseling, life planning and career development, crisis intervention, short term psychotherapy, testing and evaluation, prevention education, self help learning, and study skills instruction.

Counseling & Psychological Services is open from 8:00-4:30 p.m., Monday through Friday. Special services may be arranged for groups or students whose schedules conflict with these hours.

Consultation with parents, faculty and staff is also available to help better understand, work with, and respond to students with personal problems.

Disabled Student Services (DSS)

(619) 594-6473; TDD: 229-2929

Disabled Student Services provides support services for students with mobility limitations, learning disabilities, hearing or visual impairments, and for students interested in programs for the disabled. Counselors are available to help students plan an SDSU experience to meet their individual needs. They assist students in making personal, academic, and vocational choices, and show how best to utilize campus facilities. Prior to receiving this assistance, appropriate medical documentation must be submitted to Disabled Student Services. Services offered include:

Orientation for students — Information on attendants and accessible housing in the campus area — Government benefits counseling — Priority registration for students with special needs — Close-in parking — Transportation on campus and information about off-campus transportation — Accessibility information, maps, and library study rooms — Reader services and assistance with books on tape; sign language interpreters for deaf students — Testing assistance for visually impaired, learning disabled, and dexterity

limited students — Loan of educational support equipment (tape recorders, amplification equipment, wheelchairs, etc.); a high technology computer lab — Specialists who evaluate and provide support services for learning disabled students — Tutoring and notetaking services — Referral to off-campus agencies for mobility orientation, financial benefits, and other services.

Faculty Office Hours

All faculty members are required to hold regularly scheduled office hours during the week to allow for student consultation. A schedule of those hours is posted outside each faculty member's office door.

Health Services

Corner, Campanile Drive and Hardy Avenue, (619) 594-5281

One of the benefits provided to regularly registered SDSU students is quality medical care at little or no cost. Fees have been prepaid through regular registration fees. Some services, for example annual Pap smears and pharmacy, require a minimal fee. Charges associated with these services are usually dramatically lower than those found elsewhere. This care is provided at Student Health Services, an on-campus center where over 75 health care providers offer a wide range of programs and services. Services include:

Care by physicians board certified in family practice, gynecology, pediatrics, dermatology, internal medicine, orthopedics, psychiatry, and radiology — Primary care nurse practitioners — Nursing, x-ray, and laboratory staff — Choice of a designated family practitioner to monitor health care needs — A pharmacy which dispenses at reduced cost most of the medications prescribed by Health Services staff — Workshops in family planning, sexuality, weight control, nutrition, and other health-related topics, as well as individual counseling and campuswide programming offered by the Division of Health Promotion.

REQUIRED: Proof of Measles and Rubella Immunizations or Immunity

New or readmitted students, born on or after January 1, 1957, must demonstrate proof of immunity to measles and rubella (German Measles) by the beginning of their second term of enrollment at SDSU. Students who have not complied with this California State University mandate prior to the registration deadline will not be assigned classes for the upcoming second semester.

Measles and rubella immunization is now required because both of these diseases continue to cause disability and sometimes death in college-age individuals. Epidemics have occurred on many college campuses during the past few years because a sizeable percentage of students lack immunity to measles and rubella.

The minimum requirement for admission is proof of at least one immunization for measles given after the first birthday. All students are encouraged to consider a second immunization for measles prior to enrollment.

Students may fulfill the immunization requirement by bringing or sending documentation as proof of either previous illness or immunization to Student Health Services. Students may also receive free measles and rubella immunizations in Student Health Services. For more information, call (619) 594-5281.

Strongly Recommended Health Screening

Immunization from the following diseases may also protect students against potentially severe infections: tetanus, diphtheria, polio, mumps. Like measles, these too can be particularly harmful in the college-age group. These immunizations are available at little or no cost in Student Health Services.

Entering students are also strongly encouraged to have a screening test for tuberculosis (TB). The TB skin test is offered free at Student Health Services.

Appointments

Students may visit Student Health Services on a future or same day appointment basis. Those in need of urgent care can walk into Student Health Services for immediate attention by the designated emergency staff. Those without acute or urgent problems are encouraged to make an appointment. Student Health Services is open twelve months of the year. During the fall and spring semesters, the clinic is open from 8:00 a.m. until 5:00 p.m., Monday through Friday. During intersession and summer, the clinic closes at 4:15 p.m. All medical care provided at Student Health Services is **strictly confidential**. No one, on or off campus, has access to medical record information without written permission from the student.

Student Health Advisory Board

Students can participate in the clinic activities and offer important feedback about services through membership on the Student Health Advisory Board (SHAB) sponsored by SDSU Associated Students. Members not only work with clinic staff on a variety of health education projects, but also act as liaison between the SDSU student body and Student Health Services. SHAB keeps Student Health Services staff focused and current on major student health issues. Membership from all academic majors is encouraged.

Accidents and Student Insurance Coverage

Under Trustee policy, first aid or emergency medical care is provided to students, faculty, staff, and campus guests for accidents and injuries occurring on or near the University. Accidents requiring emergency treatment and/or transportation to Health Services, 5300 Campanile Drive, or a local hospital should be reported immediately to the SDSU Department of Public Safety, 594-5955.

SDSU students are treated by the University as adults. Accordingly, students are responsible for their own safety and health in connection with participation in campus activities, and should exercise good judgment and due care at all times. **The University does not provide accident, health, or liability insurance coverage for students participating in extracurricular activities, intramural sports, and required or elective academic programs, such as laboratory courses, workshops, theatrical productions, internships, or practica.** Specific questions regarding insurance coverage for campus programs, institutional safety regulations, and potential risks inherent in academic programs and student activities should be directed to the responsible faculty or staff member in charge of the activity.

In addition, through the Associated Students, a **health insurance policy** is available and recommended to students having no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased by semester or on a yearly basis. An open enrollment period is available the first thirty days of each semester, and the policy may be purchased at the Aztec Center ticket office.

Housing and Residential Life

6050 Montezuma Road, (619) 594-5742

Students who live on campus have a 10 to 15 percent better chance of doing well in college according to research done by the American Council on Education. Each of the various housing situations available to SDSU students offers unique advantages. Residence halls are conveniently close to campus facilities; fraternity and sorority houses provide a network of friends and social opportunities; off-campus housing leads to personal independence and growth in assuming new responsibilities. For assistance in finding housing most appropriate for each student, the Housing and Residential Life office is the campus resource.

Residence Halls

There are eight coeducational residence halls on campus offering students various living situations and meal plans. Zura Hall is a nine-story highrise with 594 residents, and Tenochca Hall has eight floors for 424

students. Five other halls are three-story, red-brick buildings accommodating 223 students each. These halls provide sleeping and study facilities on a two-students-per-room basis, with a small number of single rooms available in Zura Hall. Villa Alvarado is an apartment-type facility housing 354 students in furnished two-bedroom suites. Three food service plans are available for residents. Student government within the residence halls provides residents an opportunity to run their own programs, and maintain standards of behavior.

For the 1989-90 year, the cost for room and board was \$3,890 (14-meal plan, double occupancy). Fees for Villa Alvarado, which does not include board or utilities, were \$2,908 for the academic year. Rates for all halls are reviewed and adjusted annually to meet cost-of-living increases.

TO REQUEST AN APPLICATION FOR HOUSING, STUDENTS SHOULD CALL OR WRITE TO THE HOUSING AND RESIDENTIAL LIFE OFFICE AT THE UNIVERSITY PRIOR TO ADMITTANCE TO SDSU.

Housing applications are available in November and thereafter for the fall term of the upcoming academic year. For the spring semester, applications are available in September and thereafter. Confirmation of a room reservation is made after the following requirements have been met: (a) the student has been admitted to the University; (b) the contract has been returned to the Housing and Residential Life office; and (c) the first payment has been received as specified, and the contract is returned. Though consideration will be given to a student's request for an individual hall and roommate, a specific assignment cannot be guaranteed.

During the Summer Sessions, rooms are available on a receipt-of-check date priority. Full payment must accompany the application. Students should contact the Housing and Residential Life office in mid-April for information concerning summer session housing.

REMEMBER: IT IS THE RESPONSIBILITY OF EACH STUDENT TO CONTACT THE HOUSING AND RESIDENTIAL LIFE OFFICE TO OBTAIN ON-CAMPUS HOUSING.

Off-Campus Housing

Off-campus housing accommodations in the San Diego area include apartments, houses, rooms in private homes, and privately owned residence halls near campus. Listings of available dwellings and also of students seeking roommates are located next to the Housing and Residential Life Office.

Students should begin their housing search at least one month before the first day of classes. The Housing and Residential Life office organizes programs to assist in locating off-campus housing and to provide information about tenant rights and responsibilities. Assistance is also available for students signing leases or involved in landlord-tenant conflicts. For additional information please write: Off-Campus Housing, Housing and Residential Life Office, San Diego State University, San Diego, CA 92182.

Residential Greek Letter Organizations

Fraternities and sororities offer students opportunities for friendship, social and recreational activities, community service projects, and development of leadership skills. At SDSU there are 12 residential sororities and 17 residential fraternities from which to choose. Chapter houses provide accommodations for about 25 percent of their members. New members should not plan on living in chapter houses until at least their second year for sororities, second semester for fraternities.

The national sororities at SDSU provide housing accommodations for approximately 340 women, with costs for room, board, and dues averaging about \$350 per month. Formal rush is held in August while informal rush continues throughout the entire year. For further information, contact Panhellenic, c/o Housing and Residential Life Office, San Diego State University, San Diego, CA 92182.

The national fraternities offer housing for about 375 men, with room expenses averaging about \$175 per month. Dues average about \$250 per semester. Most fraternities do not have meal programs, but all have kitchens equipped for members' use. Members may also take advantage of the campus meal ticket program. Fraternities invite new members at the beginning of each semester. Interested students may obtain further information by writing to the Interfraternity Council, c/o Housing and

Residential Life Office, San Diego State University, San Diego, CA 92182.

Information about nonresidential fraternities and sororities is available from the Student Resource Center.

International Student Services

Scrapps Cottage Porch, (619) 594-5258

More than 650 international students and scholars from 75 countries attend SDSU. Through the support provided by International Student Services, these students and scholars can find assistance in reaching their educational goals. Services include prearrival advising, orientation to campus life, academic and immigration advising, and a housing referral service.

International Student Services also coordinates a variety of activities designed to foster intercultural goodwill, understanding, and friendship. One such activity is provided by the Intercultural Ambassadors, through which selected international students make home-country presentations in San Diego schools. In addition, the ISS invites faculty, staff, and the community to become American Friends to international students new to the SDSU community and to participate in the many events listed in the ISS Calendar of Intercultural Activities. These include the International Coffee Hour, the Whole Earth Dialogue Series, the International Festival, and the Intercultural Exchange Camp.

Ombudsmen

Aztec Center 168, (619) 594-6578

Becoming a student at SDSU also means becoming a member of a special community which includes students, faculty, staff, and administrators. As a member of this community, students are responsible for knowing and complying with established rules and regulations.

The Ombudsmen are independent and impartial agents who help individuals and groups seeking the resolution and correction of complaints. The Ombudsmen act as liaisons between students and the University, assisting students through formal grievance procedures and mediating to mediate and reinforce other means of redress when possible. This office does not supplant existing avenues of redress. It exists to encourage appropriate and timely access to those existing processes which may best resolve the problem.

Examples of student complaints which have been resolved through this process include disputes over grades, faculty or staff conduct, academic disputes, appeals or waivers, administrative policies, and institutional compliance with federal and state nondiscrimination laws. Should a complaint not be resolved at the referral level, the Ombudsmen may act as mediators and suggest compromise solutions between parties. If the problem is still unresolved, the student may file a grievance with the student grievance committee. No student grievance can be filed with this committee later than the last day of the semester (excluding summer session) after the semester during which the student was allegedly aggrieved.

Parking and Transportation

Where possible, carpooling or use of alternate modes of transportation is recommended.

San Diego Transit has seven bus routes connecting the metropolitan area with service to the University Transit Center. These are routes 11, 13, 36, 43, 81, 105, and 115. Bus schedule racks are located on campus at the Aztec Center Information Desk. The San Diego Transit office at 233-3004 will provide further information concerning bus routes, fares, and services.

On-campus parking is by permit only. Parking structures are located on the east and west perimeters of the campus, in addition to student and faculty/staff parking lots. Visitors are directed to the Information Kiosk on Campanile Drive for directions to appropriate parking areas. For further information on parking at the San Diego campus, the Imperial Valley campus, or the North County Center, contact the Department of Public Safety, 594-6671.

Speech, Language, and Hearing Clinics

Communications Clinic 126, (619) 594-6477

The Communications Clinic in the College of Health and Human Services is staffed by students and supervised by faculty of the Department of Communicative Disorders. It provides assessment and remediation services for SDSU students, staff, and faculty for minimal fees. Fees charged for services to individuals from the community may be adjusted in cases of financial need. Comprehensive diagnostic and treatment programs are available for children and adults who may present such communicative difficulties as delayed speech/language development, voice, fluency or articulation disorders, aphasia, cleft palate, cerebral palsy, or hearing impairment. Bilingual/multicultural services are available for Hispanic and Asian clients and their families. Because of staff limitations not all who apply can be admitted. Referrals may be made through agencies, hospitals, school programs, health professionals, or as self-referrals.

Student Government

(Associated Students of SDSU)

The Associated Students of San Diego State University provides many opportunities for students to participate in student government.

The AS Council is the voice of the SDSU student body. Composed of one representative per 1500 students and three executive officers, the Council is responsible for the AS' \$7 million annual budget and for formulating policy. Elections held each semester allow for the selection of individuals to fill one-year terms on the Council. Meetings of the AS Council are weekly open sessions.

Other student government activities include monitoring academic policies; appointments to educational or campus-related committees; lobbying to provide student input to city, county, state and federal governments; and representing SDSU's interests with the California State Student Association.

Test Office

Library East 406, (619) 594-5216

The Test Office is an important resource for the entire University community, serving both students and faculty through administering tests for the purpose of admission, class placement, competency for graduation, licenses, credentials, and career planning. A library of many different tests is maintained for use by faculty and students in testing classes, and test scoring and analysis services are provided for classroom tests.

Test dates for San Diego State University competency and placement tests are listed in the Special Tests section of the current Class Schedule and advance reservations as well as fee payments are required for most tests. The Test Office will provide students with test dates and registration procedures for major national examinations in the form of a bulletin of information or with the address of the testing service. Students who are interested in assessments, assisting with the counseling process, and career planning must contact Career Services or Counseling and Psychological Services. Special competency and national testing arrangements for disabled students are made through the Disabled Student Services office.

Although competency test requirements are monitored by various offices on campus, the Test Office will attempt to assist students in signing up for the required examinations or refer them to the proper agency.

Veterans Affairs

Administration 121, (619) 594-5813

Students who are eligible for veterans, dependents, or reservists V.A. education benefits should visit SDSU's Veterans Affairs Office (VAO). Services available through the VAO include assistance in applying for education benefits, coordinating the V.A. work/study program, and processing tutorial assistance paperwork.

Students planning to attend SDSU should contact the Veterans Affairs office two months before the beginning of their first semester; they may be eligible for an advance payment of the first V.A. education check. For additional information, about the VAO or the services provided, please telephone or visit the office.

College of Extended Studies Continuing Education

Functions

The California State University regards its Extended Education credit-bearing programs as integral parts of the institution. These programs are viewed as extensions of the institution's educational services and are in concert with the institution's overall mission and purpose. The programs and courses in Extended Education are expected to meet the standards of quality which the institution sets for its other programs and courses, in terms of resources, faculty, level of instruction, evaluation and support services.

The College of Extended Studies serves as the principal University liaison with the adult community and provides a wide variety of traditional and nontraditional, credit and noncredit, quality educational experiences designed to fit the life-style and expectations of mature adults. In addition, it provides a range of academic and special programs for students and groups during the summer months, in the evenings, and between semesters. Under the direction of the Dean of the College, programs are developed and carried out within five divisions — Special Sessions and Extension, Professional Development, American Language Institute, Pacific Region Training Center, and Administrative Services. The majority of the programs are operated on a self-support basis since state funds are not provided for Continuing Education activities.

Summer Programs

The College of Extended Studies administers a comprehensive summer program for San Diego State University. Approximately 600 courses, workshops, short courses, interdisciplinary and experimental offerings, and special programs are available for matriculated students, students from other institutions and special groups. Credit earned during the summer is applicable to graduation and residence requirements; however, admission to the University is not required for summer attendance.

Several major sessions are scheduled each summer; two 3-week terms; one major 6-week term and a variety of other terms. However, not more than 12 units of credit earned in each summer may be included on a program of study for an advanced degree. The summer program is offered from approximately the first of June through the middle of August each year.

A graduate student may earn credit in residence which may be used to satisfy the requirements for an advanced degree or for credentials. If a student plans to offer work taken in a summer session to satisfy the requirements for an advanced degree, the student must make early application for admission to the University with classified graduate standing at the Office of Admissions and Records.

Students planning to attend the University during the fall semester must be cleared for admission through the Office of Admissions and Records.

The *Summer Sessions Bulletin*, which includes the registration form and all necessary information about the summer sessions, is available in March.

Winter Session

The College of Extended Studies administers a special academic program during the winter recess period titled "The Winter Session." This special session provides students an opportunity to earn resident academic credit through participation in concentrated and interesting coursework. Credit earned during Winter Session is applicable to graduation and residence requirements. Admission to the University is not required for Winter Session attendance.

American Language Institute (ALI)

The American Language Institute offers noncredit intensive (20-25 hours per week) English programs throughout the year to students and professionals interested in improving their English proficiency. By enrolling in ALI, students may take advantage of a program called conditional acceptance. Conditional acceptance is available to those students who require admission or proof of eligibility to a university in order to obtain a passport, a US visa, or government sponsorship. It is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated by SDSU staff, students may receive an official letter of conditional admission which states that the student has met all University requirements *except* English language proficiency and may enter the University after training at the American Language Institute and achieving appropriate TOEFL scores.

Programs offered by ALI are as follows:

English for Academic Purposes — A 16-week course for students planning to enter San Diego State or other colleges or universities. Classes are offered in reading, writing, grammar, English for specific purposes (e.g., English for Business and Economics, English for Science and Technology, English for Computers, and study skills). In addition, students may choose from over 30 elective course offerings, and TOEFL, GMAT and GRE preparation.

Advanced students may register for three to nine units in the Open University in addition to their English classes.

Intensive English Communications — A 6- to 19-week course focusing upon oral skills and cultural experiences. Classes include eight hours of oral communication in addition to 12 hours of reading, writing, structure and listening per week. Elective courses are offered and directed activities at SDSU and in the community provide experiences for real language use. Regular field trips to places of educational and recreational interest are an integral part of the program.

Specific Purposes Programs — Programs for students and professionals with specific needs, including Management and Business English, Seminar for International Teachers of English, GMAT/GRE and TOEFL preparation, as well as advanced academic skills (statistics review, graduate report writing, research library skills, etc.), are arranged.

Summer Special Programs — A number of special short-term language programs are offered by the ALI each summer (e.g., Management and Business English). These can be arranged for groups or individuals.

Services — All students at the Institute are offered housing assistance, counseling for university entrance, health services, and orientation to university life.

Information about and applications for the ALI can be obtained from the Director, American Language Institute.

Travel Study Programs

The College offers a variety of domestic and foreign travel study programs which are designed to give students and community members an opportunity to travel and earn extension units of credit. Programs range from one to five weeks in length, with a maximum of six units of credit offered for the longer programs. Units of credit earned through travel/study may be used to satisfy the undergraduate Human Experience section of the General Education requirements. However, participants need not be regularly matriculated students at SDSU. Independent study credit is available for study abroad. Students must select an instructor and prepare a plan of study to satisfy the requirements for units earned. For further information contact the Coordinator of Travel Study Programs.

Open University

Most regular, on-campus classes are open to qualified extension students by special permission of the department and the instructor. Students who take advantage of "Open University" are required to pay regular extension fees. They are permitted to enroll only after matriculated students have completed their registration. Consult the College of Extended Studies or the current Class Schedule for complete details on Open University qualifications and registration procedures. For the convenience of first-time graduate students who have missed the deadline for admission to the University, credit earned through one semester of Open University enrollment may be considered as residence credit for students who matriculate the following semester at the University in an advanced degree program; any subsequent credit earned through Open University enrollment may not be applied toward an advanced degree. The course repeat policy does not apply to courses repeated through Open University.

Open University classes may not be taken by the following:

1. Nonmatriculated foreign students (nonresidents from non-English-speaking countries) with a score of less than 450 on the Test of English as a Foreign Language (TOEFL) or its equivalent.
2. Foreign students with I-20 visas from another university.
3. SDSU matriculated students.

Extension

In order to meet the needs of the adult community, as well as matriculated students, the College provides a variety of extension courses, workshops and open university programs. For the convenience of adult students most courses are scheduled in the evenings or on weekends, on campus or at convenient learning extension centers throughout the service area.

Extension Courses

Extension courses are offered each semester in a number of areas including education, business administration, public administration, and the arts and sciences. Many courses and programs are developed in cooperation with off-campus organizations and groups who have identified specific needs. Many one-unit weekend workshops are also offered throughout the year. These courses are listed in a special Extended Studies Program Bulletin published four times a year.

There is no limit on the total number of extension units for which a student may enroll; however, the maximum extension credit which may be used toward advanced degree requirements at San Diego State University is six to nine units. Extension work is considered the same as transfer credit and is therefore not included in the student's San Diego State University scholastic average.

External Degree Programs

In addition to its role of administering external degree programs for the civilian population, Extended Studies serves as the liaison with the military installations in the University service area for the purpose of developing higher educational opportunities for military personnel. The College of Extended Studies, which the Department of Defense has designated as a Servicemembers Opportunity College, offers external degree and certificate programs designed specifically for mature military and civilian personnel. Classes are held at times and locations convenient for students.

For additional information contact the Extended Studies Office.

PROFNET/Distant Learning Programs

PROFNET, a Distant Learning Program, delivers full-credit graduate courses from San Diego State University to leading corporations and government agencies. Using the telecommunications facilities of KPBS Television, PROFNET televises classes for live transmission to the work-site. Students employed by PROFNET member companies view their classes on television and interact with their professor during class via an audio link.

In addition to graduate courses, PROFNET offers satellite teleconferences, technical updates, and professional colloquia to the campus and corporate community.

No more than nine units of PROFNET coursework taken prior to formal admission to the University and to an advanced degree curriculum may be included subsequently on the official program of study. With the approval of the graduate adviser, there is no limit to the number of units of PROFNET coursework that can be taken after formal admission to the University.

Professional Development

The Division of Professional Development provides business, industry, and human service and other organizations with programs that are responsive to the training and development needs of their employees. Through the Division's activities, participants are kept abreast of the latest business, managerial and technical techniques that ensure they will add to the productivity and profitability of their organizations.

Certificate Programs

Professional certificate programs are coordinated by the Division of Special Sessions and Extension. Educational services are provided for a wide variety of groups and professional organizations. Credit certificate programs are offered in the following areas: Applied Gerontology, Construction Practices, Fire Protection Administration, Government Contract Management, Materials Management, Personnel and Industrial Relations, and Accounting.

The Division also offers Noncredit Certificate Programs in special interest areas.

Custom On-Site Training

SDSU's Professional Development Division of the College of Extended Studies specializes in developing and implementing on-site training programs and consulting projects which meet specific needs of the San Diego business community.

The programs serve small as well as large businesses with topics ranging from computer, team building, and communication skills to supervision and management.

Program leaders and training consultants are drawn from the academic and business worlds and have extensive practical experience.

Programs are cost effective and designed with quality and adaptability.

Seminars and Workshops

The Division coordinates practical two- and three-day seminars and workshops aimed at increasing the skills of the business professional. These seminars are taught by local and national seminar leaders chosen from the business and academic worlds for their expertise and outstanding teaching ability. Topics addressed cover a wide range of business and

engineering subjects, such as management, finance, marketing, engineering, construction, manufacturing, purchasing, and computer literacy.

Center for Study of Data Processing and Management Development Center

The Centers offer a series of practical, intensive noncredit training in the fields of data processing and management. The Division has established these programs in cooperation with the San Diego corporate community. The purpose of these unique cooperative programs is to provide quality, cost-effective continuing education for business, industry and government personnel in specific fields. The corporate members form a fellowship in which all participate in applying proven solutions to their education and training needs.

Institute for Quality and Productivity

The Division, in association with the University of San Diego and the business community, developed this Institute which strives to improve the quality for work performed through the implementation of Total Quality Management (TQM). The committee of industry representatives and faculty members from USD and SDSU have designed an intensive program which includes several levels of training for upper level management (Executive Session), mid-level managers (TQM Overview for Managers), supervisors and technical professionals (Basic Advanced TQM/Statistical Process Control). In addition, the Institute provides custom training for companies.

Pacific Region Training Center

The Pacific Region Training Center addresses the new opportunities in professional development, training, and technical services created by the increasing business and economic interdependence between the US and Mexico and other key exporting countries in the Pacific region. The mission of the Center is to (1) Serve as an information clearinghouse and "neutral ground" where business leaders and public officials from various Pacific region countries can explore the practical aspects of multinational investment and production sharing; (2) Enhance the capability of the regional business community to engage in multinational ventures; and facilitate communication between foreign entities and city, county, state, and federal agencies in the US and Mexico; (3) Facilitate communication between city, county, state and federal agencies in the U.S., Mexico and other Pacific Rim nations, by cosponsoring special programs to serve them, with the appropriate academic Colleges.

Drawing on the academic resources of SDSU and the telecommunications and language training programs of the College of Extended Studies, the Center is developing a wide variety of activities. Programs include INTERNET, a Distant Learning Program, is the first formally approved interactive distant education network using microwave and satellite communications infrastructure for transmission across U.S. borders. Televised academic courses and technological and professional training are being transmitted into Mexico, and eventually Central and South America and other Pacific Rim countries. Other Center programs include seminars and institutes such as the annual Summer Institute on U.S.-Mexico Issues from Mexico's Perspective and the Teacher Training Institute for the Pacific Region. Research/data assistance on international economic, political and human resource topics are also provided by the Center.

Retired Adults Education Program

Programs for retired adults are sponsored by the College of Extended Studies at San Diego State University and operate out of two locations - downtown San Diego (Educational Growth Opportunities - EGO) and Rancho Bernardo (The Continuing Education Center at Rancho Bernardo).

These programs are planned and instructed by senior adults who are interested in furthering lifelong learning.

For further information, contact the Director of Retired Adult Education Programs.

M.B.A. for Executives (Offered only through the College of Extended Studies)

Specific Requirements for the Master of Business Administration Degree for Executives

(Major Code: 05011)

An alternative path for the Master of Business Administration degree is the Master of Business Administration for Executives. Students accepted for the M.B.A. for Executives must complete an approved program of studies containing 48 units of 600- and 700-numbered courses. These courses will be offered in a predetermined pattern over 24 consecutive months. Courses will be scheduled in a modular fashion, not related to the traditional semester time frame, on alternate Fridays and Saturdays. No transfer courses and no substitute courses will be accepted. The official programs of all students in any one cycle will be identical.

Admission: In addition to the criteria for admission listed under "Admission to the Graduate Program in the College of Business Administration," applicants must demonstrate that they have had significant experience in a management position in business, government, or not-for-profit organizations.

Those interested in the program should contact the Executive Management Office, College of Business Administration, San Diego State University, San Diego, CA 92182-0414 or telephone 594-6061 to receive the special application and additional information.

Courses Acceptable on the M.B.A. for Executives

Graduate Courses

600. Financial and Managerial Accounting (3)

Concepts and principles of financial accounting; understanding financial statements; measurement of business income. Nature of cost accounting information and how it is used to make managerial decisions that create competitive advantage.

601. Management of Organizations of Human Resources (3)

Role of the manager in designing organizations for effectiveness with emphasis on organization theory, organization behavior, and human resources management.

602. Quantitative Methods for Managers (3)

Statistics and production operations management. Data analysis, central tendency and variability, probability, distributions, sample inference, association analysis. Applications in engineering, manufacturing and service, and an overview of decision theory, queuing, total quality control, and project management.

604. The Legal Environment of Business (1)

The business legal system, sources of law, judicial and administrative systems, contracts, torts, bankruptcy, agency, business organizations, security regulations, regulation of property, and protection of intellectual property interests.

605. Managerial Marketing (2)

The marketing function in an organization. Managerial activities of marketing including market analysis, target market selection and design of the organization's marketing program.

609. Managerial Communication and Information Systems (3)

Advanced communication concepts including collection, organization, analysis, and presentation of data. Major components of automated information systems, including management information systems, database, data communications, and systems development.

620. Managerial Research Methods (2)

Application of quantitative techniques to business problems. Critical analysis of business research. Use of common research methods with emphasis on techniques related to data collection, data management, analysis, and interpretation of results.

633. Taxation for Managers (1)

Federal income tax concepts that impact management decisions. Topics include: income concepts, taxable entities, forms of business organization, capital gains and losses, compensation, fixed assets, nontaxable transactions, and reorganizations.

638. Accounting Control Systems (1)

Nature and use of accounting control systems including budgets, measuring and rewarding performance, coordination, controllability, and culture.

700. Business in the Global Environment (3)

Management of organizations in the global environment. Financial, marketing, and management implications of competition in the international arena. Topics include: market selection, sourcing strategies, financial policies, organization design, and strategic planning for multinational corporations.

701. Corporate Entrepreneurship (3)

Corporate adaptation and innovation. Strategic management in context of industrial change, characteristics of entrepreneurs, technological patterns, and organization design for creativity.

703. Policy Formulation and Implementation (2)

Corporate and business level strategic decision making. Topics include industry and environmental analysis, strategy implementation, strategic planning systems. Case descriptions of actual company situations serve as basis for analysis and recommendations.

Imperial Valley Campus, Calexico

Faculty

Emeritus: Baldwin, Erzen, Franklin, Harmon, King, Lovely, Rodney, Smith, Spencer, Wilson

Professors: Ayala, Polkinhorn

Associate Professors: Balch, Dunn, Livingston, Polich, Reyes, Ryan, Shenan, Simon, Varela-Ibarra

Assistant Professors: Cuellar, Hill, Stampfl

Offered by the Imperial Valley Campus

Occasionally the Imperial Valley Campus, in cooperation with academic units and the Graduate Division of the San Diego Campus, offers selected graduate programs leading to advanced degrees, credentials, and certificates. Such programs, scheduled on a part-time basis for working professionals, have been offered for the Master of Arts degree in Education with a concentration in Multicultural Education, Administration and Supervision, or Counseling. These have been provided through cooperative arrangements with the College of Education.

General Information

The Imperial Valley Campus is a two-year upper-division campus of San Diego State University serving the desert area of southeastern California. It is accredited as an integral division of SDSU and operates under the same academic calendar. Established in 1959 by an act of the State legislature, the campus is located in the Imperial Valley on the Mexican Border in the city of Calexico. Offering only the last two years of undergraduate education as well as a fifth year credential program for teacher preparation and occasional M.A. programs, the campus accepts transfer students, from community colleges or other colleges, who have at least 56 units. As a small campus with a low student/faculty ratio, the Imperial Valley Campus offers students the advantages of small classes and individual contact with the faculty. Instructional television (ITFS) provides students in Calexico the opportunity to participate in some classes broadcast live from the main campus in San Diego. The Imperial Valley Campus schedules its classes to meet once a week in three-hour blocks so that students who work full time can earn 9-12 units a semester by attending classes once or twice a week. Classes are also offered on the weekends.

The location on the Mexican border provides the opportunity for involvement in a bicultural environment. There are many opportunities to participate in the cultural life of Mexicali, just across the border, a city of more than 800,000 people. There are also many opportunities on the U.S. side of the border to be involved in a bilingual/cross-cultural setting. There is an exchange program for students between the Imperial Valley Campus and the Universidad Autonoma de Baja California which allows students to take classes at either of the participating universities and receive credit at their home institution. Among the faculty are professors with Latin American emphases in history, geography, sociology, and Spanish. The faculty is also augmented with other Latin American specialists from Mexico and from the San Diego campus.

The Imperial Valley is one of the richest agricultural centers in the country. It has a desert climate with mild winters and little rainfall. Because of this, the area has a great potential for the development of alternative energy sources. Geothermal energy is already being produced in the area and solar and wind energy are both potentially important sources for future development. The desert also offers the opportunity to study a fragile ecological environment. Highly significant archaeological discoveries have been made in the area and there is continuing archaeological fieldwork.

Facilities

The campus is located on an eight-acre city block in the heart of Calexico's Civic Center, across from Rockwood Plaza. This was originally the site of Calexico's first high school, and some of the campus buildings, including Rodney Auditorium, are part of the original school structures. In 1980 the Legislature approved funding to construct a new classroom building and a library media center which was dedicated in February 1983.

The library, located in the center of campus, is designed to facilitate research and to provide a pleasant atmosphere for study. It features open stacks and a variety of study areas including carrels, large tables, and comfortable, upholstered chairs. The collection of over 50,000 volumes supports the curricula offered on the Imperial Valley Campus and includes a large bicultural collection. The library receives over 500 periodical and serial titles as well as a significant collection of microfilm and microfiche resources. Among the services provided library patrons are reference assistance, photocopying machines for print and microforms, typing rooms, interlibrary and intercampus loans, and computerized information retrieval.

The Media Center provides assistance to the faculty in the use of educational technology. It has a wide range of equipment for use in the classroom. A modern language laboratory, computer laboratory, and tutoring center are available to the campus community.

A student union, bookstore, administration, student services, faculty office and shop buildings complete the facilities on the campus.

Admission, Registration, and Commencement

To apply for admission to the Imperial Valley Campus, students must file a complete application and transcripts as outlined in Part Two of this bulletin. Both completed application forms and transcripts should be sent to the Admissions Office, San Diego State University, Imperial Valley Campus, 720 Heber Avenue, Calexico, California 92231. Please telephone (619) 357-5500 for further information. Applications for admission to the campus are accepted through registration week for both the fall and spring semesters. Because of the size of the campus, the registration process is easily accomplished in a short period of time with little chance of classes closing.

The Imperial Valley Campus holds its own commencement exercises each spring, the day before commencement exercises on the San Diego campus.

North County Center

Graduation and academic requirements for degree programs offered at the North County Center are identical to main campus requirements.

Faculty teaching at the North County Center are regular full-time SDSU faculty and part-time faculty selected by departments on the basis of their academic preparation and teaching experience.

Degree, Credential and Certificate Programs Offered at North County

Master of Arts degree in education with a concentration in educational administration and/or administrative services credential.

Master of Arts degree in education with a concentration in educational technology; specialization in educational computing.

Multiple Subject Teaching Credential.

Single Subject Teaching Credential.

Certificate in Instructional Technology.

Coursework pursuant to Master of Arts degrees in education with concentrations in elementary curriculum and instruction, secondary curriculum and instruction, multicultural education, reading education, and special education is also available.

General Information

San Diego State University, North County Center was established to assist individuals living in northern San Diego, southern Orange and Riverside counties in meeting their academic objectives. Establishment of the campus was approved by the State Legislature and Governor in the summer of 1979. The first North County classes were offered in September 1979.

The last classes at the North County Center will be offered in Spring

1992. SDSU students needing further courses to complete a degree may enroll at the main campus.

Courses are at the upper division and graduate levels. Lower division academic work will be provided by local community colleges.

San Diego State University, North County Center is located at 800 West Los Vallecitos Boulevard, San Marcos, California.

Admission and Registration

To attend classes at San Diego State University, North County, students must file a complete application and transcripts as outlined in Part Two of this bulletin and be admitted to San Diego State University. Upon admission to the University, students may register for classes at SDSU, at North County, or both.

Students may register for North County classes by using the mail registration procedures or by registering in person at North County prior to the start of classes. See the current Class Schedule for registration dates.

Student Services

In addition to on-site registration and payment of fees, student services provided at North County include academic advising, career counseling, veterans benefit information, financial aid information, testing, health services, library services, student activities, organizations, disabled student services, and a bookstore.

Fees

Fees for courses offered at North County are the same as those charged on the main campus. For specific information, see the Schedule of Fees in this bulletin.

Appendix

The California State University

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became The California State University and Colleges and in 1982 the system became The California State University. Today, all twenty campuses have the title "University."

The oldest campus—San Jose State University—was founded as a Normal School in 1857 and became the first institution of public higher education in California. The newest campus—California State University, San Marcos—will begin admitting students in fall 1990.

Responsibility for The California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers on the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multi-purpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All of the campuses require for graduation a basic program of "General Education—Breadth Requirements" regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,500 bachelor's and master's degree programs in some 200 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private universities in California.

System enrollments total more than 360,000 students, who are taught by some 20,500 faculty. Last year the system awarded over 50 percent of the bachelor's degrees and 30 percent of the master's degrees granted in California. More than 1.2 million persons have been graduated from the nineteen campuses since 1960.

Average Annual Cost of Education and Sources of Funds per Full-time Equivalent* Student in The California State University

The 20 campuses and the Chancellor's Office of The California State University are financed primarily through funding provided by the taxpayers of California. The total State appropriation to the CSU for 1989/90, including capital outlay and employee compensation increases, is \$1,831,731,000. The total cost of education for CSU, however, is \$2,023,455,068 which provides support for a projected 267,380 full-time equivalent (FTE)* students.

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to students in the form

of financial aid and all fully reimbursed programs contained in state appropriations, but excluding capital outlay appropriations. The average cost of education is determined by dividing the total cost by the total FTEs. The average cost is further differentiated into three categories: State Support (the State appropriation, excluding capital outlay), Student Fee Support, and Support from Other Sources (including Federal Funds).

Thus, excluding costs which relate to capital outlay (i.e., building amortization), the average cost of education per FTE student is \$7,568. Of this amount, the average student fee support per FTE is \$1,106. The calculation for this latter amount includes the amount paid by nonresident students.

Source of Funds and Average Costs for 1989/90 CSU Budget

(Projected Enrollment: 267,380 FTE)

	Amount	Average Cost Per Student (FTE)*	Percent
Total Cost of Education	\$2,023,455,068**	\$7,568	100.0
—State Appropriation	1,644,823,000***	6,152	81.0
—Student Fee Support	295,759,156	1,106****	15.0
—Support from Other Sources	82,872,912	310	4.0

* For budgetary purposes, full-time equivalent (FTE) translates total head count into total academic student load equivalent to 15 units per term. Some students enroll for more than 15 units; some students enroll for fewer than 15 units.

** The total cost of education does not include the amount related to lottery and the capital investment of the CSU. The estimated replacement cost of all the system's permanent facilities and equipment on the 20 campuses is currently valued at \$6.5 billion, excluding the cost of land.

*** This figure does not include the capital outlay appropriation of \$186,908,000.

**** The average costs paid by a student include the State University Fee, Application Fee, and Nonresident Tuition. Individual students may pay less than \$1,106 depending on whether they are part-time, full-time, resident, or nonresident students.

Trustees of The California State University

Ex Officio Trustees

The Hon. George Deukmejian	State Capitol Governor of California	Sacramento 95814
The Hon. Leo T. McCarthy	State Capitol Lieutenant Governor of California	Sacramento 95814

Thesis Review Service

General Information

Location: Room 509, Fifth Floor, University Library
Hours: Call for hours
Telephone: 594-4165 Thesis Review Service
594-5213 Graduate Division and Research

Theses and projects written by students enrolled in course 799A or 799B are reviewed for organization and style by the Thesis Review Service. This formal review is one of the steps in the approval process required by the Graduate Division and Research.

Students in the process of preparing a thesis or project who have questions about the proper format are also encouraged to consult the Thesis Review Service.

Whenever the Thesis Review Service is closed or the reviewer is out, the phone line will be call-forwarded to the Graduate Division and Research. Messages and theses may be left for the Thesis Review Service in the Graduate Division and Research, AD 220, from 9:00 a.m.–4:30 p.m., Monday through Friday.

Manual of Instructions

The *SDSU Master's Theses and Projects: A Manual of Instructions* covers the requirements for the preparation and submission of the thesis or project. It is available at Aztec Shops Bookstore.

Typists

Students are encouraged to employ a professional typist, most of whom now use word processors and own up-to-date software and printers. A list of typists is available in the Graduate Division and Research and the Thesis Review Service. SDSU does not guarantee the quality of work of any typist.

Thesis Review Process

After the final copy of the thesis/project has been prepared and the committee has given final approval by signing the Thesis Signature Page (committee chair must also sign the Abstract Signature Page), the student submits the thesis to the Graduate Division and Research. The Graduate Division and Research will issue a Thesis Clearance Sheet to be submitted with the thesis to the Thesis Review Service.

All theses/projects are reviewed in the order in which they are received. The amount of time required for a review depends upon the backlog of theses at the Thesis Review Service at the time of submission. A student who submits a thesis early in the semester may find that the review process takes only a few days; a thesis submitted on the deadline day may require two weeks or more to be reviewed.

Most of the time, some corrections will need to be made. After those corrections have been made, the student will be asked to bring the thesis back for final approval. Normally, this second review takes place either while the student waits or within 24 hours. No marks will be made on the submitted thesis; corrections needed will be indicated on the Thesis Clearance Sheet.

Copy Center

After picking up the approved thesis/project from the Thesis Review Service, the student takes it to the Aztec Shops Copy Center for preparation of a photocopy and two microfiche copies, all of which are to be deposited in the University Library. Prior to submitting the thesis to the Aztec Shops Copy Center, the student should make an appointment by calling 594-7552.

Upon receipt of a fee for processing the thesis, Aztec Shops Copy Center will forward the Thesis Clearance Sheet and receipt to the Graduate Division and Research. The Aztec Shops Copy Center returns the original, as well as any additional copies, to the student via United Parcel Service. The required photocopy and two microfiche copies of the thesis will be forwarded to the University Library by the Aztec Shops Copy Center.

Procedural Steps Toward Earning a Master's Degree at San Diego State University

1. Apply for Admission to the University

- Applications are available in the Office of Admissions and Records.
- Be sure to meet departmental application procedures and deadlines.
- See *Admission to Postbaccalaureate and Graduate Study* in the Graduate Bulletin.

2. Obtain a Graduate Bulletin and Consult Your Departmental Graduate Adviser

- Graduate Bulletins may be purchased in the Aztec Shops Bookstore.
- Read the following sections of the Bulletin very carefully: *Regulations of the Graduate Division, Basic Requirements for the Master's Degree*, and the *Specific Requirements* of your major department.

3. Attain Classified Graduate Standing

- You must submit a satisfactory score on the GRE General Test, or the GMAT, if applying to the College of Business Administration, before you can be granted classified graduate standing. Some departments require the GRE Advanced Test in addition to the General Test.
- If you were given classified status at the time of your admission, skip to Step 4.
- If you were admitted with postbaccalaureate unclassified status, file an Application for Classified Graduate Standing in the Graduate Division when you are eligible for classification.
- If you were admitted with conditional classified status, ask your graduate adviser to submit a Change of Status Form to the Graduate Admissions Unit when you have fulfilled the conditions specified at the time of your admission.

4. Submit an Official Program for the Master's Degree

- Program forms should be filled out in consultation with your graduate adviser and submitted to the Graduate Division for approval.
- Any deviation from the specific master's degree requirements listed in the Graduate Bulletin should be requested on a Petition for Adjustment of Academic Requirements.
- Any change made in the official program after its approval must be made on a Change in Program Form.

5. Attain Advancement to Candidacy

- Your eligibility for advancement to candidacy will be reviewed at the time your official program is approved. If eligible, a form will be sent to your graduate adviser requesting a departmental recommendation.
- If not eligible for advancement at the time your official program is approved, your file will be reviewed for advancement by the Graduate Division at the end of each semester.
- You must be advanced to candidacy before you will be allowed to form your thesis committee officially or sit for the comprehensive examination.

6. Submit a Thesis Committee Form (for Plan A students only)

- Obtain the Thesis Committee Form from the Graduate Division, secure the required signatures, then return it to the Graduate Division for approval.
- You will not be allowed to register in Thesis until you have an approved Thesis Committee Form on file.
- You must be registered in Thesis during the semester you plan to submit your thesis.

7. Pass Required Final Examination

- If you are in Plan A, Thesis, a final examination on the thesis may be required.
- If you are in Plan B, a comprehensive examination will be required.

8. File an Application for Graduation

- Graduation is not automatic upon the completion of degree requirements. The appropriate fee must be paid to the Cashiers Office and an application filed in the Graduate Division by the designated deadline of the term in which you expect to graduate. Consult the current Class Schedule for the filing deadline date.
- If you do not graduate in the term for which you applied, you must reapply in the subsequent term in which you expect to graduate.

Thesis Manuscript Checklist

This checklist has been prepared by the Thesis Review Service. It is not intended as a substitute for the *SDSU Master's Theses and Projects: A Manual of Instructions*, which contains all necessary instructions and guidelines needed for the preparation of the thesis or project (available at Aztec Shops Bookstore). The following checklist, presented in question format, covers the most common oversights found in thesis clearance, procedure, and preparation. Numbers refer to relevant pages in the SDSU Manual.

PROCEDURAL

- Are you currently enrolled in Thesis 799A or Thesis Extension 799B?
- Have you formally filed for graduation with the Graduate Division and Research?

PAPER (21-24)

- Is the thesis typed on at least a good quality 20-weight bond paper?
- If using a printer, is the paper "clean tear" or "knife edge"?
- If submitting a copy, is the paper a good quality copier paper?

PRINTERS (21)

- Is the printer either laser or daisy-wheel?
- Has "0" been used for the number zero? (not "O")

TYPING (20-23)

- Is the typeface standard (e.g., Pica, Elite, Courier, Letter Gothic, Times Roman) with 10-12 characters per inch?
- If using a word processor, is the point size 10-12 (type height)?
- Is the intensity of type consistent throughout the thesis with no bold face?

MARGINS (25)

- Are thesis margins 1½ inches for the left and 1¼ inches for the top, bottom, and right?
- For oversized material, are the margins ¾ inches for the left, ½ inches for the right, and ¾ inches for the top and bottom?

SPACING (26)

- Is the thesis typed double-spaced between the lines of the text as well as between paragraphs?
- Are the Table of Contents and Lists of Tables/Figures typed double-spaced?

INDENTATION (27)

- Is the first line of every paragraph indented either five or eight spaces consistently with whichever form is first used?

PAGINATION (27-28)

- Does every page have a number *except* the Thesis Title Page, Thesis Signature Page, Abstract Signature Page, and extra copy of the abstract?
- Are the preliminary pages (e.g., Acknowledgements, Table of Contents, Lists, etc.) numbered with small Roman numerals beginning with the number "iii"?
- Is the remainder of the thesis numbered with Arabic numerals beginning with the number "1"?
- Are page numbers typed so that the bottom of the number is one inch from the top of the page and even with the right margin?

TITLE PAGE, SIGNATURE PAGE, ABSTRACT SIGNATURE PAGE (11-12, 19, 44-46)

- Is the thesis/project title typed double-spaced and in all capital letters?
- Are these pages prepared in proper format as indicated on pages 44-46 of the *Manual*?
- On the title page, is the degree entered the *official degree* given by SDSU as stated in the *Graduate Bulletin*?
- Are all faculty signatures in black ink?

ABSTRACT (18-19)

- Is the abstract a concise summary of the thesis/project and limited to 500 words or less?
- Is the abstract written in a narrative style?
- Is the thesis copy of the abstract preceded by a cover sheet?
- Is the extra copy of the abstract unnumbered and does it accompany the Abstract Signature Page?

COVER SHEETS (16-17)

- Do cover sheets precede the references, appendices, and text copy of the abstract with the appropriate word centered on the page?
- Are page numbers typed on your cover sheets?
- Is the page number on the cover sheet the one entered in your Table of Contents for your references, appendices, and abstract entries?

CHAPTER TITLES (48)

- Have the chapter titles been capitalized in the text and Table of Contents?
- Have large Roman numerals been used for chapter numbers (e.g., CHAPTER IV)?

HEADING FORMAT (26-27, 47)

- Are all headings of the *same level* typed in the same format for all chapters?
- Are your first-level headings centered and underlined with the first letter of each major word capitalized?
- Are your second-level headings typed flush left and underlined with the first letter of each major word underlined?
- Are your third-level headings indented and underlined with only the *first letter of the first word* capitalized?
- Are the headings consistent between the thesis text and the Table of Contents?

ILLUSTRATIVE MATERIALS (28-33, 49)

- Are all tables and figures included also mentioned in the text?
- Is the table title typed at the *top* of the table?
- Is the figure caption typed at the *bottom* of the figure?
- If a table or figure has been placed lengthwise on the page, is the top of the illustration facing the left margin (spine of the bound thesis)?
- Do you have a List of Tables and/or List of Figures?
- Do table titles and figure captions match those in the lists?

DOCUMENTATION (2, 16-17)

- Are you using your departmentally approved format for documentation of sources?
- Do citations in the text and the reference entries agree both in spelling and in date?
- Are quotations which exceed four typed lines placed in a block-quotation format?

NOTE: It is the student's responsibility to proofread the manuscript and correct any errors prior to submitting the thesis. The manuscript must be neat and free of strikeouts and obvious erasures. There must be no errors in punctuation, capitalization, pagination, spelling, or sentence structure. Use of correction fluid or correction tape is acceptable, if used sparingly, as it will not show on the photocopy.

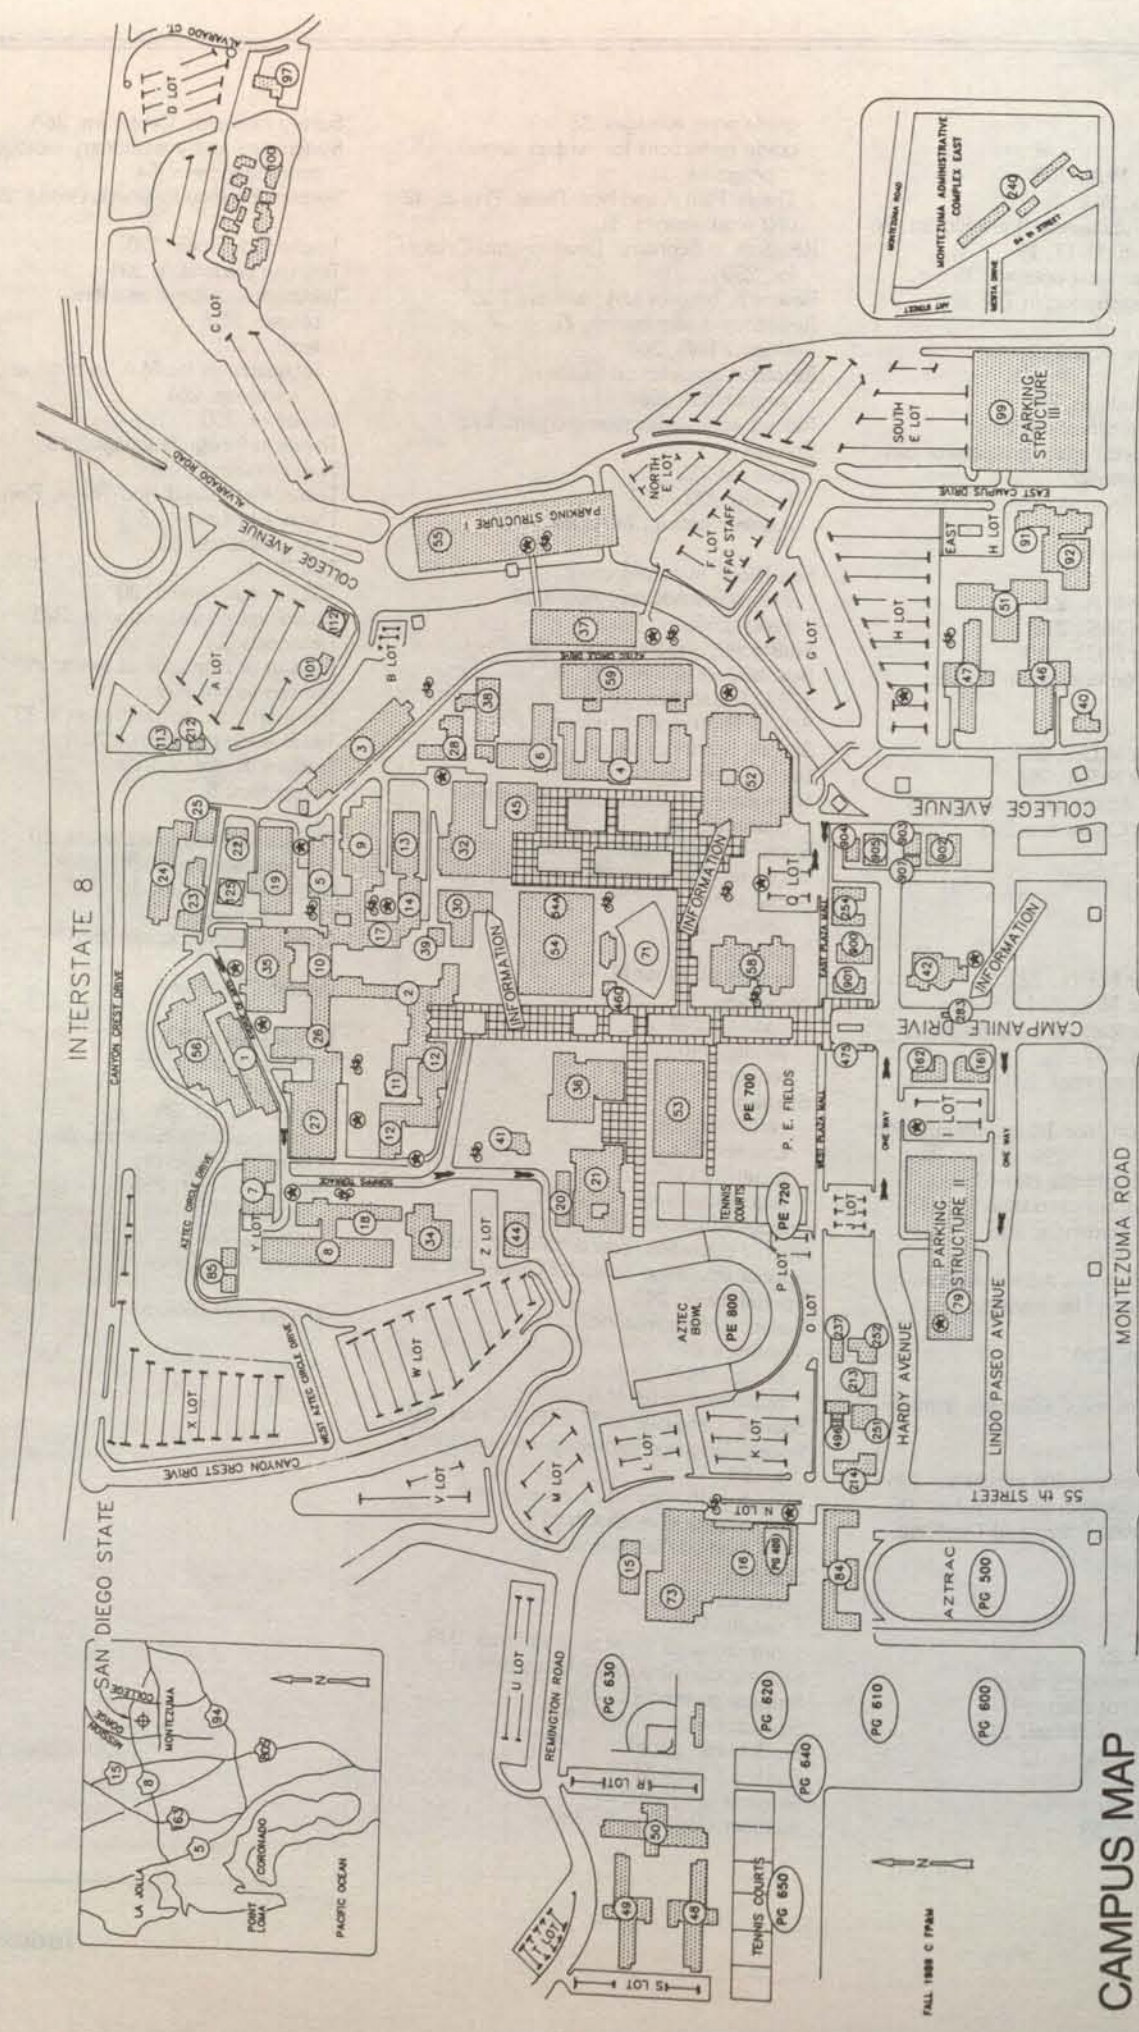

Before clearing a thesis or project, the Thesis Review Service will check the following:

- Abstracts
- Title and Signature Pages
- Table of Contents
- Lists of Tables/Figures
- Pagination
- Typing or Word Processing (clarity, size, consistency)
- Tables, Figures, Illustrative Materials
- Text (format, headings)
- Notes, References, or Bibliography Format
- Appendix/Appendices

*Hepner Hall
 was the first building of
 San Diego State University.
 Built in a graceful California
 mission style with arched
 ceilings, a spanish tile roof,
 decorative tile embellishments,
 richly molded wooden doors
 and ornamental wrought iron
 fixtures, it is a beautiful
 symbol of this university.*
