San Diego State University maintains and promotes a policy of nondiscrimination and nonharassment on the basis of race, religion, national origin, sexual orientation, gender, marital status, age, disability or veteran status, including veterans of the Vietnam era.

The policy stands as a statement of this University's moral commitment to the right of all persons to equal opportunity in a nondiscriminating, harassment-free atmosphere. The Office of Diversity and Equity oversees that commitment to equal opportunity.

San Diego State University places high priority on that objective and expects all members of the University to support this policy fully.

Refer to San Diego State University Senate personnel guidelines. Part III-A-3, pertaining to nondiscrimination as well as California State University Executive Orders 340, 345, and 675.

Academic Calendar

2002-2003

SUMMER SESSIONS 2002

May 27	Holiday – Memorial Day. Faculty/staff holiday. Campus closed.
July 4	Holiday – Independence Day. Faculty/staff holiday. Campus closed.
May 28-August 23	13-weeks session.
May 28-July 5	6-weeks session.
July 15-August 23	6-weeks session.

SUMMER DEADLINES 2002

May 31	Last day to apply for August 2002 graduation with an advanced degree, Graduate Division.
July 1	Graduate admissions for fall semester 2002 closed.
July 10	Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in August 2002.
July 11-August 23	Theses may be submitted to the Graduate Division on an at-risk basis. However, August 2002 graduation is contingent upon completion of final processing by noon, August 21. Students missing this deadline will be required to reapply for graduation for the term in which they expect to graduate.
August 9	Last day for submission of Incomplete and RP grade removals (excluding thesis) for summer graduation with an advanced degree.
August 9	Last day for reporting results on comprehensive examinations to the Graduate Division by department or college.
August 21	Final day for depositing approved thesis at Aztec Shops Montezuma Publishing. (Noon deadline.)

FALL SEMESTER 2002

May 24	Graduate admissions for fall semester 2002 closed to foreign students.
July 1	Graduate admissions for fall semester 2002 closed.
August 1	Applications for admission or readmission to San Diego State University for the spring semester 2003 accepted from domestic and international (foreign) students.
August 26	Opening date of the semester for faculty.
August 28	Last day of registration before classes begin.
August 30	Last day to officially withdraw for fall semester 2002 and receive a full refund.
September 2	Holiday – Labor Day. Faculty/staff holiday. Campus closed.
September 3	First day of classes.

September 3-16	Late registration.
September 16	Last day to drop classes without penalty fee.
September 20	Last day to file petition for concurrent master's degree credit for fall semester 2002.
September 23	Last day to add classes without penalty fee or change grading basis.
September 23	Last day to withdraw officially from the University for fall semester 2002 without penalty fee.
September 23	Last day to apply for December 2002 graduation with an advanced degree, Graduate Division.
September 30	Census.
October 1	Graduate admissions for spring semester 2003 closed to international (foreign) students.
November 1	Applications for admission or readmission to San Diego State University for the fall semester 2003 accepted from domestic and international (foreign) students.
November 1	Graduate admissions for spring semester 2003 closed for domestic students.
November 1	Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in December 2002.
Nov. 4-Dec. 20	Theses may be submitted to the Graduate Division on an at-risk basis. However, December 2002 graduation is contingent upon completion of final processing by noon, December 18. Students missing this deadline will be required to reapply for graduation for the term in which they expect to graduate.
November 7	Last day to officially withdraw and receive a prorated refund (withdrawal after September 23 requires special approval and a penalty fee is assessed).
November 28-30	Holiday – Thanksgiving recess. Faculty/staff holiday. Campus closed.
December 6	Last day for submission of incomplete and RP grade removals (excluding thesis) for December 2002 graduation with an advanced degree.
December 6	Last day for reporting results on comprehensive examinations to the Graduate Division by department or college.
December 13	Last day of classes before final examinations.
December 14-21	Final examinations.
December 18	Final day for depositing approved thesis at Aztec Shops Montezuma Publishing. (Noon deadline.)
December 23	Winter recess begins.
December 23-27	Holiday – Winter recess. Faculty/staff holiday. Campus closed.

- December 30 Grades due from instructors. (4:00 p.m. deadline.)
- December 30 Last day to apply for a leave of absence for fall semester 2002.
- December 30 Last day of fall semester.
- January 1 Holiday – New Year’s. Faculty/staff holiday. Campus closed.

SPRING SEMESTER 2003

- January 13 Opening date of semester for faculty.
- January 15 Last day of registration before classes begin.
- January 17 Last day to officially withdraw for spring semester 2003 and receive a full refund.
- January 20 Holiday – Martin Luther King, Jr. Day. Faculty/staff holiday. Campus closed.
- January 21 First day of classes.
- Jan. 21-Feb. 3 Late registration.
- February 3 Last day to drop classes without penalty fee.
- February 10 Last day to file petition for concurrent master’s degree credit for spring semester 2003.
- February 10 Last day to add classes or change grading basis without penalty fee.
- February 10 Last day to withdraw officially from the University for spring semester 2003 without penalty fee.
- February 10 Last day to apply for May 2003 graduation with an advanced degree, Graduate Division.
- February 17 Census.
- March 25 Last day to officially withdraw and receive a prorated refund (withdrawal after February 10 requires special approval and a penalty fee is assessed).
- March 29 Last day of classes before spring recess.
- March 31 Holiday – Cesar Chavez Day. Faculty/staff holiday. Campus closed.
- April 1-4 Spring recess.
- April 7 Classes resume.
- April 7 Last day for submitting approved doctoral dissertations to the Graduate Division for May commencement.
- April 7 Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in May 2003.
- April 8-May 21 Theses maybe submitted to the Graduate Division after this date on an at-risk basis. However, May 2003 graduation is contingent upon completion of final processing by noon, May 19. Students missing this deadline will be required to reapply for graduation for the term in which they expect to graduate.

- May 1 Graduate admissions for fall semester 2003 closed for domestic and international (foreign) students.
- May 8 Last day of classes before final examinations.
- May 9 Study and consultation day until 4:00 p.m.
- May 9 Last day for submission of Incomplete and RP grade removals (excluding thesis) for May 2003 graduation with an advanced degree.
- May 9 Last day for reporting results on comprehensive examinations to the Graduate Division by department or college.
- May 9 (after 4:00 p.m.) thru May 16 Final examinations.
- May 17-18 Commencement days.
- May 19 Final day for depositing approved thesis at Aztec Shops Montezuma Publishing. (Noon deadline.)
- May 21 Grades due from instructors. (4:00 p.m. deadline.)
- May 21 Last day to apply for a leave of absence for spring semester 2003.
- May 21 Last day of spring semester.

SUMMER SESSIONS 2003

- May 26 Holiday – Memorial Day. Faculty/staff holiday. Campus closed.
- May 27-August 22 13 weeks with variable length sessions.
- May 30 Last day to apply for summer 2003 graduation with an advanced degree, Graduate Division.
- July 4 Holiday – Independence Day. Faculty/staff holiday. Campus closed.
- July 8 Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in August 2003.
- July 9-Aug. 22 Theses may be submitted to the Graduate Division on an at-risk basis. However, August 2003 graduation is contingent upon completion of final processing by noon, August 20. Students missing this deadline will be required to reapply for graduation for the term in which they expect to graduate.
- August 8 Last day for submission of Incomplete and RP grade removals (excluding thesis) for summer graduation with an advanced degree.
- August 8 Last day for reporting results on comprehensive examinations to the Graduate Division by department or college.
- August 20 Final day for depositing approved thesis at Aztec Shops Montezuma Publishing. (Noon deadline.)

(Please Note: This is not to be construed as an employee work calendar and is subject to change.)

College of Business Administration Michael L. Hergert
College of Education Lionel R. Meno
College of Engineering Gordon K. F. Lee (Interim)
College of Health and Human Services Dolores A. Wozniak
College of Professional Studies and Fine Arts Joyce M. Gattas
College of Sciences Thomas R. Scott
College of Extended Studies William E. Byxbee
Division of Undergraduate Studies Geoffrey Chase
Imperial Valley Campus Khosrow Fatemi

GRADUATE AND RESEARCH AFFAIRS

Associate Vice President for Research and
Dean of the Graduate Division
Assistant Vice President for Research and
Technology Lawrence B. Feinberg
Associate Dean for Policy and Curriculum Janis F. Andersen
Associate Dean for Student Services Skaidrite Krisans
Assistant Dean for Student Services Carolyn L. Walker

THE GRADUATE COUNCIL

The Graduate Council of San Diego State University consists of the Dean of the Graduate Division (chairman), the Provost for Academic Affairs, Dean of the Library and Information Access, the Associate and Assistant Deans of the Graduate Division, members of the faculty from the various schools and colleges, and two classified graduate students. For the academic 2001-02 year, the membership of the Council was as follows:

James W. Cobble Vice President for Research and
Dean of the Graduate Division
Nancy A. Marlin (*ex officio*) Provost

Connie Vinita Dowell (*ex officio*) Dean of the Library
and Information Access
Lawrence B. Feinberg (*ex officio*) Associate Vice President for
Research and Technology
Janis F. Andersen (*ex officio*) Associate Dean for Policy and
Curriculum
Skaidrite Krisans (*ex officio*) Associate Dean for Student Services
Carolyn L. Walker (*ex officio*) Assistant Dean for Student Services
Stuart C. Aitken Department of Geography
James R. Beatty Department of Information and
Decision Systems
Gerald J. Butler Department of English
and Comparative Literature
Roger W. Caves School of Public Administration and
Urban Studies
José Castillo Department of Mathematics and Statistics
Joel J. Davis School of Communication
Andrew Q. Do Department of Finance
Mirat D. Guroi Department of Civil and Environmental Engineering
Alma L. Koch Graduate School of Public Health
Gordon K. F. Lee College of Engineering
Cheryl L. Mason School of Teacher Education
Richard Neumann Imperial Valley Campus
Judy M. Price Department of Psychology
Behzad S. Samimi Graduate School of Public Health
Lembi Saarmann School of Nursing
Larry J. Shaw School of Teacher Education
. Associated Students
. Associated Students

(Membership for 2002-03 will be determined prior to the beginning of the academic year.)

UNIVERSITY RESEARCH COUNCIL

The University Research Council is the faculty policy-making body responsible for promoting, encouraging, and publicizing the research activities of the faculty consistent with the educational mission of the University. The Council is composed of no fewer than 15 faculty representing the various colleges and is chaired by the Associate Vice President for Research and Dean of the Graduate Division. Much of the work of the Council is carried out in its Standing Committees which include:

- Biosafety Committee
- Committee on the Protection of Human Subjects
- Copyrights and Patents Committee
- Faculty Grants Committee
- Graduate Research Lecture Committee
- Publications Committee
- Research Administration Policy Committee
- University Animal Subjects Committee

For the academic 2001-02 year, the membership of the Council was as follows:

James W. Cobble Vice President for Research and
Dean of the Graduate Division
Frea E. Sladek (*ex officio*) Chief Executive Officer
SDSU Foundation
Lawrence B. Feinberg (*ex officio*) Associate Vice President for
Research and Technology

Janis F. Andersen (*ex officio*) Associate Dean for Policy and Curriculum
Skaidrite Krisans (*ex officio*) Associate Dean for Student Services
Brockenbrough S. Allen Department of Educational Technology
John E. Alcaraz Graduate School of Public Health
J. Angelo Corlett Department of Philosophy
Arthur Getis Department of Geography
Dana L. Grisham School of Teacher Education
Gary M. Grudnitski School of Accountancy
Mirat D. Guroi Department of Civil and Environmental Engineering
Carlos R. Herrera Imperial Valley Campus
Louise K. Hoffherr Graduate School of Public Health

Mark J. Kern Department of Exercise and Nutritional Sciences
Kathleen L. McGuire Department of Biology
Jeanne F. Nichols-Bernhard Department of Exercise and Nutritional Sciences
Eugene A. Olevsky Department of Mechanical Engineering
Thomas W. Roberts Department of Child and Family Development
Stephen B.W. Roeder Department of Chemistry
William W. Sherrard Department of Information and Decision Systems
William G. Tong Department of Chemistry

(Membership for 2002-03 will be determined prior to the beginning of the academic year.)

Graduate Division

OFFICE: Centennial Hall 3320
TELEPHONE: (619) 594-5213
FAX: (619) 594-0189

As part of Graduate and Research Affairs, the Graduate Division is the administrative unit responsible for postbaccalaureate and graduate study at San Diego State University. The division is composed of the academic units that offer graduate study in the University. The faculties of these units provide programs in over 50 fields of study leading to advanced degrees in the arts and sciences and in professional areas at both the masters and doctoral levels as well as to a wide variety of programs leading to advanced certificates and basic and advanced credentials. The Graduate Council, on which sit representatives of the seven academic colleges of the University, has been delegated University-wide jurisdiction over graduate study. The council's responsibilities are broadly defined and include the development of policies on such matters as graduate programs and curricula, graduate student affairs, and graduate student scholarship.

The Associate Vice President for Research and Dean of the Graduate Division is the chief administrative officer of the division and serves as chair of the Graduate Council. Assisted by two associate deans, the Graduate Dean has general responsibility for implementing the policies of the Graduate Council and for the development, improvement, and administration of all postbaccalaureate study. The Associate Vice President for Research and Dean of the Graduate Division is also chair of the University Research Council and has a major role in the planning, policy development, and coordination of all research and research-related activities within the University; and in promoting and facilitating the research activities of both graduate students and faculty.

Graduate Study at San Diego State University

The year 2000 marked the fiftieth anniversary of the award of the first graduate degrees at San Diego State University. Those Master of Arts degrees were limited at first to fields such as Education, English, history, and philosophy and directly supported the historical mission of the institution to train teachers to serve the regional community. Although the number of degree fields in the arts and sciences increased significantly in the 1950s, most continued to be designed for students planning to enter the "teaching service." As the decade ended, however, the establishment of what was to become the California State University (CSU) prompted a notable departure from the earlier academic traditions.

In 1960, the California State Legislature organized a number of state colleges into an integrated system and, in an educational master plan for the State, defined the relationship of the new system to the University of California and to the state's network of community colleges. Although the new system was to continue its mission of training teachers and providing a broad range of undergraduate degree opportunities, each campus was invited to develop its own institutional characteristics within that framework. At what was then San Diego State College, the faculty embraced a model that emphasized the necessarily close relationship between teaching and faculty and student research. This orientation required the broadening of the focus and purpose of advanced study, and over the following decades, scholarly research and graduate education came to be one of the distinguishing characteristics of San Diego State within the CSU. Indeed, by the time San Diego State College was designated a University in 1971, graduate study over a wide range of academic and professional disciplines had become an integral part of the institution's central mission.

A growing and increasingly diverse student population helped to stimulate the rapid growth of graduate programs in the years after 1960. The number of advanced degree programs at the master's level quickly grew to cover more than fifty fields of study in the arts and sciences disciplines. Professional degrees appeared in areas such as business, city planning, social work, public administration and public health. The Master of Fine Arts along with the Master of Music provided a terminal degree for students interested in pursuing careers in those fields.

Equally important was the recognition that the master's degree in those years was becoming an entry-level requirement in many fields of employment. This not only stimulated the constant updating of traditional programs but also led to the design of new programs that sought to address specific professional and academic needs. A degree program in computational science emerged as a discrete field of study as did a program for students interested in the processes involved in the transfer of technology from the academy to the broader community. The development of concurrent degree programs was also a response to changing societal needs. The School of Social Work, for example, established a program that led to the award of degrees in both social work and law. The nursing program provided a Master of Science degree that also qualified the student for certification as a Nurse Practitioner. The increasingly global interest of students and faculty resulted in a program that combined a degree in Latin American Studies with the Master of Business Administration. A network of international exchange agreements provided both students and faculty with scholarly opportunities virtually around the world. Affiliation agreements gave graduate students access to some of the specialized educational resources of regional universities such as the University of California at San Diego.

The teacher-scholar model led inevitably perhaps to a faculty initiative to establish doctoral programs, and the first program leading to the degree Doctor of Philosophy began with Chemistry in 1965. By the 1990s ten Ph.D. programs serving several hundred students were in place. The latest additions appeared in the millennial year with the inauguration of the degree Doctor of Education in three fields of study. Some of these doctoral programs served traditional academic disciplines while others had a more professional orientation such as in public health, clinical psychology, and language and communicative disorders. And some of these programs were relatively unique. True to its historical tradition of emphasizing study in the discipline of education, the University now offered the Ph.D. in Mathematics and Science Education and the Ed.D. in the rapidly changing field of Educational Technology.

By many measures, San Diego State University has become a competitive national doctoral research university. During the decade of the 1990s, the faculty generated about one billion dollars from non-university sources in support of student and faculty research and professional activity. The University ranks thirty-third in the nation in the number of advanced degrees awarded. The Carnegie Foundation has classified San Diego State as a Doctoral/Research University-Intensive, a designation that describes the top 6.7 percent of institutions of higher education in the United States. Undoubtedly, SDSU in the future will continue to address issues of societal concern as those issues arise. No doubt, too, some programs and initiatives will disappear as circumstances and intellectual questions change. The result, however, is a dynamic curricular and intellectual world and one of enormous academic and professional opportunity.

Authorized Graduate Degrees

DOCTOR OF PHILOSOPHY

The Doctor of Philosophy degree is offered in the following fields:

Biology	Geography
Chemistry	Language and Communicative Disorders
Clinical Psychology	Mathematics and Science Education
Computational Science	Public Health
Ecology	
Education	
Engineering Sciences/ Applied Mechanics	

DOCTOR OF EDUCATION

The Doctor of Education degree is offered in the following fields:

Educational Technology
Teaching and Learning

MASTER OF FINE ARTS

The Master of Fine Arts degree is offered in the following fields:

Art
Creative Writing
Theatre Arts

MASTER OF ARTS

The Master of Arts degree is offered in the following fields:

Anthropology	Linguistics
Art	Mathematics
Asian Studies	Music
Biology	Philosophy
Chemistry	Physical Education
Communication	Physics
Communicative Disorders	Political Science
Economics	Psychology
Education	Rhetoric and Writing Studies
English	Sociology
French	Spanish
Geography	Television, Film and New Media Production
History	Theatre Arts
Interdisciplinary Studies	Women's Studies
Latin American Studies	
Liberal Arts and Sciences	

MASTER OF SCIENCE

The Master of Science degree is offered in the following fields:

Accountancy	Exercise Physiology
Aerospace Engineering	Geological Sciences
Applied Mathematics	Gerontology
Astronomy	Interdisciplinary Studies
Biology	Mechanical Engineering
Business Administration	Microbiology
Chemistry	Nursing
Child Development	Nutritional Sciences
Civil Engineering	Physics
Computational Science	Psychology
Computer Science	Public Health
Counseling	Radiological Health Physics
Criminal Justice and Criminology	Regulatory Affairs
Electrical Engineering	Rehabilitation Counseling
	Statistics

MASTER'S DEGREES

Master of Business Administration
 Master of City Planning
 Master of Engineering
 Master of Music
 Master of Public Administration
 Master of Public Health
 Master of Social Work

CONCURRENT DEGREES

Concurrent degrees are offered in the following fields:

Master of Business Administration and Juris Doctor
 Master of Business Administration and Master of Arts in Latin American Studies
 Master of Public Health and Master of Social Work
 Master of Science in Nutritional Science and Master of Science in Exercise Physiology
 Master of Social Work and Juris Doctor

Graduate Concentrations

A concentration is defined as an aggregate of courses within a degree major designed to give a student specialized knowledge, competence, or skill. Completion of a concentration is noted on the student's transcript.

Applied Mathematics (MS)

Concentration:

mathematical theory of communication systems

Art (MA)

Concentrations:

art history
 studio arts

Biology (MA or MS)

Concentrations:

ecology
 evolutionary biology
 molecular biology
 physiology

Business Administration (MS)

Concentrations:

entrepreneurship
 finance
 financial and tax planning
 human resource management
 information systems
 international business management
 marketing
 operations management
 real estate
 taxation
 total quality management

Civil Engineering (MS)

Concentration:

environmental engineering

Communicative Disorders (MA)

Concentrations:

speech-language pathology
 audiology
 education of the deaf
 communicative sciences

Education (MA)

Concentrations:

counseling
 educational leadership
 educational research
 educational technology
 elementary curriculum and instruction
 policy studies in language and cross-cultural education
 reading education
 secondary curriculum and instruction
 special education

Geography (MA)

Concentrations:

natural resources and environmental policy
transportation

Nursing (MS)

Concentrations:

advanced practice nursing of adults and the elderly
community health nursing
nursing systems administration

Psychology (MS)

Concentrations:

applied psychology
clinical psychology (included within the Ph.D. program;
not available separately)

Public Administration (MPA)

Concentrations:

city planning
criminal justice administration

Public Health

Concentrations (MPH):

biometry
environmental health
epidemiology
health promotion
health services administration

Concentrations (MS):

environmental health science
industrial hygiene
toxicology

Statistics (MS)

Concentration:

biostatistics

Theatre Arts (MFA)

Concentrations:

acting
design and technical theatre
musical theatre
Credentials Offered

Teaching Credentials

Adapted physical education

Multiple subject

Multiple subject cross-cultural language and academic
development (CLAD) emphasis

Multiple subject bilingual cross-cultural
language and academic development (B/CLAD)
emphasis: Spanish

Single subject

Single subject cross-cultural language and academic
development (CLAD) emphasis

Single subject bilingual cross-cultural language and academic
development (B/CLAD) emphasis: Spanish

Specialist Credentials

B/CLAD

Education specialist for the deaf and hard of hearing

Reading/language arts

Resource specialist certificate of competence

Special education:

Early childhood special education

Mild/moderate disabilities

Moderate/severe disabilities

Service Credentials

Administrative

Clinical-rehabilitative

Pupil personnel:

school counseling

school psychology

school social work

School nurse services

Graduate Certificate Programs (nondegree)

Certificate in applied linguistics and English as a second
language (ESL)

Certificate in bilingual cross-cultural language and academic
development (BCLAD)

Certificate in bilingual (Spanish) special education

Certificate in bilingual speech language pathology

Certificate in community college teaching

Certificate in distance education

Certificate in early childhood special education

Certificate in early intervention

Certificate in instructional software design

Certificate in instructional technology

Certificate in cross-cultural language and
academic development (CLAD)

Certificate in developing gifted potential

Certificate in preventive medicine residency

Certificate in rehabilitation administration

Certificate in rehabilitation technology

Certificate in supported employment and transition specialist

Certificate in teaching the emotionally disturbed/behaviorally
disordered

Certificate in workforce education and lifelong learning

Graduate Certificate Programs

The advanced certificate at the postbaccalaureate entry level provides a program of coursework leading to a specific applied goal. The general educational background of a bachelor's degree with a major in the appropriate field(s) of study is prerequisite to such a certificate.

The advanced certificate at the postmaster's entry level also provides a program of coursework and supplemental practical experience leading to a specific applied goal. The theoretical and methodological subject matter obtained from the master's or doctoral degree is prerequisite to such a certificate. A certificate at this level is an endorsement of the specialized competence beyond that obtained in the student's graduate degree program.

Graduate Study in the Summer Term

San Diego State University offers state supported as well as special session courses in the various terms that make up the summer term. Graduate students may earn residence credit that satisfies requirements for advanced degrees, credentials, or advanced certificates by successfully completing such courses during the summer. Enrollment in state supported courses requires that a student have been admitted to the University in an appropriate graduate category. Students who have not been admitted to the University may be eligible to enroll for such courses through Open University. Enrollment in special session courses does not require admission to the University. Not more than nine units combined of coursework taken in Open University or special sessions prior to admission to an advanced degree or certificate program will be acceptable subsequently on a program of study. For more information about the summer term, see the SDSU Summer Session Class Schedule.

Students planning to offer work taken in summer only to satisfy requirements for an advanced degree must apply for admission to the

University with classified standing. Students pursuing an advanced degree in summer only must attend for a minimum of three summers to complete a degree. No more than 12 units of coursework earned each summer may be included on a program of study for an advanced degree.

Graduate Study for Foreign Students

The facilities of San Diego State University for graduate study are available to qualified graduates of foreign universities on the same basis and under the same regulations as apply to graduates of colleges and universities in the United States.

Admission procedures for foreign graduate students are stated in the section on Admission of Graduate Students in this bulletin.

Veterans and Graduate Study

San Diego State University is approved to train veterans under the G.I. Bill. Veterans who are interested in graduate work should visit the campus Veterans Affairs Office located in Student Services, Room 1590, for information and counseling regarding veterans' benefits prior to the date of registration.

Financial Support for Graduate Students

Like other national universities, San Diego State University makes available to students admitted to advanced degree curricula a variety of financial support programs designed to substantially reduce or eliminate economic barriers to the pursuit of graduate study. The most widely known of these are the state and federal aid programs available to degree-seeking students who are citizens or permanent residents of the United States. Equally important are the University programs that address the unique financial needs of individual students across a broad range of economic and academic circumstances.

The on-campus programs for advanced degree students at San Diego State University include appointments as graduate teaching associates, graduate assistants, research assistants, and student assistants as well as tuition and fee payment assistance, fellowships, scholarships, grants, and forgivable loans.

Eligibility and dollar amounts often differ by discipline and experience, and some opportunities are available only to students admitted to doctoral programs. Nominations for almost all of these awards originate with the chair or director of the department or school of the degree program for Master's degree students or the coordinator of the doctoral program for students pursuing either the Ph.D. or Ed.D. degree. The Graduate Division administers most of these programs for the University. The Graduate Dean must approve most awards and appointments and determine whether the applicant is in good standing in the University. Continuing and prospective students interested in specific information about any of these on-campus programs are invited to write or visit the Graduate Division at San Diego State University, 5500 Campanile Drive, San Diego, CA 92182. The phone number is (619) 594-5213. The Graduate Division is located in Centennial Hall, Room 3320. Information is also available at www.sdsu.edu.

Financial Aid Office

Information about all state and federal aid programs as well as some of the institutional programs is available from the Financial Aid Office located in Student Services, Room 3605. The phone number is (619) 594-6323. The SDSU *Guide to Financial Aid* describes the available programs as well as the academic standards that a student must maintain in order to remain eligible for such aid. The *Guide to Financial Aid* can be accessed at www.sdsu.edu/financialaid.

Students interested in any of the aid programs administered by the Financial Aid Office should apply as soon after January 1 as possible by completing a *Free Application for Federal Student Aid (FAFSA)*. Applications are reviewed and aid awarded throughout the year based on available funding. January through May is considered the

optimum period to apply for aid to receive funding at the beginning of the fall semester.

The SDSU Financial Aid Office is now using e-mail and the Internet to communicate with aid applicants about documentation needed, holds, and awards. The Financial Aid Office home page and secure Web site, *AidLink*, have been enhanced to streamline the application and award process for SDSU students. Go to SDSU's Web site at www.sdsu.edu/e-services and select U-Mail to make sure there is a valid e-mail address on record for you with the Office of the Registrar. Use *AidLink* at www.sdsu.edu/financialaid to view your personal financial aid information, download and print documents you need to submit, activate your student loan, and more.

Graduate Teaching Associates

Appointments as graduate teaching associates, known more familiarly as a TAs, provide students the opportunity to participate directly in the teaching activities of the university. Indeed, faculty members in many programs consider such appointments an integral part of the academic curriculum for their graduate students. Under the supervision of senior faculty, TAs provide direct instruction to undergraduate students, primarily at the lower division level.

Appointments as graduate teaching associates may be obtained by qualified graduate students pursuing a master's degree in the areas of anthropology, art, astronomy, biological sciences, business administration, chemistry, child and family development, communication, communicative disorders, economics, educational technology, engineering, English, exercise and nutritional sciences, French, geography, geological sciences, history, linguistics, mathematical sciences, microbiology, music, physics, psychology, rhetoric and writing, sociology, Spanish, television, film, and new media production, and theatre arts. In addition, all doctoral programs offer such appointments.

Qualifications for appointment include admission to San Diego State University with classified or conditionally classified graduate standing for the purpose of obtaining an advanced degree. Appointment is for a period of either one semester or the academic year. Reappointment following an appointment of one semester or one academic year is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, departmental need for the continued service in the department, and upon satisfactory teaching performance.

The combined teaching assignment and coursework permitted during one semester is 15 units unless an excess of this amount is authorized by the Graduate Dean.

Information concerning an appointment as a graduate teaching associate may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the advanced degree. The Graduate Division publishes a *Handbook for Graduate Assistants and Graduate Teaching Associates*.

Graduate Assistants

Graduate assistants participate in the teaching program of the University by undertaking such classroom activities as reading examination papers, tutoring, and student advising. Alternatively, GAs may be assigned duties that directly support the research activities of the faculty.

Graduate assistants not involving teaching duties and permitting up to 20 hours of service per week for a full-time appointment are available in most of the departments and schools. Qualifications for graduate assistants include admission to San Diego State University with classified or conditionally classified graduate standing. Normally, graduate assistants must enroll in and complete each semester at least six units of coursework listed on the official program of study.

Appointment to a graduate assistantship is for a period of either one semester or the academic year. Reappointment or continuation of an appointment is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, satisfactory completion of assigned duties, and upon departmental need for the continued service in the department.

Information concerning an appointment as a graduate assistant may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the advanced degree. For further information consult *A Handbook for Graduate Assistants and Graduate Teaching Associates* available from the Graduate Division.

Student Assistants

Graduate students are eligible for employment as student assistants who perform a wide variety of tasks supporting faculty and staff across the University. Assistants are paid by the hour and are restricted to assignments not to exceed 20 hours per week. Students may apply for this employment through the department chairs or program directors. In addition, the Office of Career Services located in Student Services, Room 1200, maintains a listing of the positions available.

Research Assistants

The University offers some graduate students part-time employment as research assistants. Research assistants work directly with faculty in a laboratory or other research facility in the health, physical, and social sciences. Research assistants are employees of the SDSU Foundation, but they are generally hired through departmental faculty seeking assistance on research programs. Students may inquire about such appointments through the chair or director of the respective science department or through the Office of Human Resources of the SDSU Foundation. Those interested in adding their names to a list of candidates for current or future part-time openings may obtain application materials from the San Diego State University Foundation, Gateway Building, 5250 Campanile Drive, San Diego, CA 92182-1945. Further information is also available on the University Web site.

Tuition Assistance Program for Out-of-State and Foreign Students

In California, all students are required to pay a registration fee based on the number of units of enrollment. In addition to this fee, non-residents of California, including international students, pay tuition that currently amounts to \$246 per unit of enrollment. For graduate students of superior scholastic achievement participating in the teaching program, however, the University may provide assistance by waiving all or part of the cost of out-of-state tuition.

To be eligible for this program, an applicant must be a permanent resident or a citizen of the United States or a nonresident who is a citizen and resident of a foreign country. Assistance is provided on a semester-by-semester basis only for students who hold appointments as teaching associates, teaching related appointments as graduate assistants, or a combination of the two that requires a workload approximating 20 hours per week.

For more information and application forms, continuing and new students should contact the chair or director of the department or school of the Master's program to which they have been admitted. Students pursuing a Ph.D. should consult the program director. Departmental nominations should be submitted to the Graduate Division by April 1 of each year.

Fee Assistance Program

For most students pursuing the Ph.D. degree, the University has available some scholarship funds to offset in whole or in part the cost of the state-mandated registration fees. Currently, these fees approximate \$600 each semester for students enrolled in six units or less and about \$900 for students enrolled in more than six units. Like the tuition assistance program, awardees must be participating in the teaching program of the University. Information regarding this support is available from the directors of the doctoral programs.

Graduate Scholarships

A scholarship is a monetary award given to outstanding students in recognition of their academic excellence, leadership, achievements, and promise. They are provided by private donors, corporations, professional associations, and alumni.

Students apply on their own initiative. Occasionally, scholarships with requirements and deadlines other than those established for the general University scholarship program are designated for specific majors. Eligible students will be notified through a faculty announcement or, if time permits, by the Scholarship Office through the mail.

Competition is based on outstanding academic achievement, campus and extracurricular activities, employment, and an essay. Graduate and postbaccalaureate students must have a 3.50 overall graduate GPA for work completed after the bachelor's degree or in the absence of completed postbaccalaureate units, a 3.50 overall undergraduate GPA or a 3.70 in the last 30 units of university work.

Applications for the SDSU scholarship program are available from the Scholarship Office and from all department secretaries. Interested students may also write or call the SDSU Scholarship Office, 5500 Campanile Drive, San Diego, CA 92182-7438, (619) 594-6180.

Applications are available each year during one application period November through early-February. The SDSU scholarship application must be filed or postmarked not later than the established first Monday in February deadline. Students need to submit only one application for the general SDSU scholarship program. Individual results will be mailed to all applicants during June for the following academic year.

The average SDSU scholarship award is \$1000.00. There is no limit to the number of scholarships for which a student may be considered.

In addition to SDSU scholarships, the Marshall, Fulbright, Rhodes, and Rotary scholarships are prestigious international scholarships given annually to students pursuing educational goals outside the United States. Eligibility standards for these scholarships are closely related to those established for the SDSU scholarship program, but application forms and deadlines are separate from the program. Students may seek advisement regarding application at the SDSU Scholarship Office during the spring semester.

National Fellowships

The Scholarship Office receives annual announcements of the Fulbright, Marshall, Kent, Rotary, and other national fellowship programs. Since each campus is limited in the number of applications it may endorse, students interested in fellowships of this type are encouraged to discuss their applications with the Scholarship Director and with members of the University faculty members who have themselves held these fellowships. Since test scores from the Graduate Record Examinations General Test are required, students should take this examination well in advance of the deadline date for the submission of applications. The GRE may be scheduled through the University Test Office.

Graduate Equity Fellowship Program

The Graduate Equity Fellowship program provides support for economically disadvantaged graduate students, especially from groups who are underrepresented within their respective disciplines. Only legal residents of California who can demonstrate significant financial need are eligible. Recipients must be classified graduate students and must enroll for a minimum of nine units of coursework each semester they hold the fellowship. Fellowships range from \$500 to \$4,000 for an academic year depending on demonstrated need. Students may receive awards for a maximum of two academic years but they must apply each year. Interested students should complete a Graduate Division application and the Free Application for Federal Student Aid (FAFSA). The Graduate Division application must be submitted by the end of May.

Forgivable Loan/Doctoral Incentive Program

The California State University provides funds each year for the purpose of increasing the diversity of qualified applicants for instructional faculty positions at its various campuses. This program offers loans of up to \$10,000 per year to a total of \$30,000 while the student is enrolled full time in a doctoral program at an approved and accredited institution. Loans are subsequently forgiven at a rate of 20 percent for each year of full-time teaching in the CSU. Enrollment or employment in the CSU is not required of applicants for this program

Receipt of the award and successful completion of a doctoral program does not guarantee a faculty position in the CSU. In the event that the student does not or cannot obtain such a faculty position, the loan must be repaid at an interest rate comparable to that of other graduate student loans.

Applications are available at all CSU campuses, and each campus has a Forgivable Loan Program Coordinator and a selection committee. Applications are due in February and the selections are announced in early May of each year. On the SDSU campus, interested students are invited to contact the Graduate Division for more detailed information and to obtain an application.

**Graduate Assumption Program of Loans for Education
(Graduate APLE)**

This is a state-funded teacher incentive program administered by the California Student Aid Commission. It is designed to encourage graduate students to complete their advanced education and then serve as faculty at an accredited college or University in California.

Under the provisions of the program, the Commission may assume up to \$6,000 in student loan balances in return for the participant's service as a full-time faculty member at a college or university in California for three consecutive years after obtaining a graduate degree.

Applicants for this loan assumption program must be citizens or permanent residents of the United States as well as residents of the State of California. Participants must be nominated by the University and are selected on the basis of academic qualifications, interviews, and faculty evaluations as well as such other criteria as the nominating campus may determine. The deadline for submission to the Commission of applications of the campus nominees is normally the end of June for the following academic year. Application forms and complete information may be obtained from the Future Educators Center located in Education 107, (619) 594-6320.

Fees

Fees and tuition are subject to change without notice by the Trustees of The California State University.

For updated information regarding the fee structure for 2002-2003 refer to the fall Class Schedule.

Fees must be paid prior to calling RegLine or accessing WebLine. Checks accepted for exact amount of fees. Overpayments of \$5.00 or less are refunded only upon request. If your check for registration fees or tuition is returned by the bank for any reason, your registration may be canceled and you will be billed \$40.00 (*a dishonored payment charge of \$20.00 and late fee of \$20.00*). Payment of fees for registration should be made by check or money order. The University reserves the right to refuse payment by personal check from those individuals who have previously had items returned un-paid by their bank. Refunds may be applied against other amounts due the University. Checks to be made payable to SDSU. Do not enclose cash.

In cooperation with SDSU, CASHNet™SmartPay allows students to pay their registration fees and/or out of state tuition with MasterCard, Visa, Discover Card or American Express card. The CASH-Net™SmartPay URL is <http://www.CashnetSmartPay.com/SDSU>. Payments made via CASHNet™SmartPay are received by the University Cashiers Office no later than the next business day, so the registration process is not delayed. CASHNet™SmartPay assesses each customer a service charge based on the transaction amount. See the Web site for details.

ADMINISTRATIVE / FINANCIAL HOLDS

All administrative and financial holds must be cleared prior to submittal of payment for registration or other University services. See "Debts Owed to the Institution" below. Acceptance of payment by the University does not constitute completion of registration or guarantee of services if any kind of administrative or financial hold exists.

Payments to clear financial holds must be made by cash, money order, or certified check. Personal checks or charge cards will NOT be accepted.

REGISTRATION FEES – GRADUATE STUDENTS:

(On basis of units carried.)

Fee payment information and instructions are in the Class Schedule available at the Campus Store.

Auditors pay same fees as students carrying courses for credit. Nonresident (foreign and out-of-state) students pay additional fees – see information below. Thesis extension and other zero unit courses are charged as one unit for fee purposes.

Units Attempted	Registration Fee
0 units – 6.0 units	\$659.00
6.1 or more units	\$974.00

The above fee includes a Student Activity Fee of \$15.00, a Student Union Fee of \$71.00, a Health Facilities Fee of \$25.00, an Instructionally Related Activities Fee of \$15.00, a Health Services Fee of \$85.00, a Library Use Fee of \$10.00 (pending Chancellor's Office authorization), and a State University Fee of either \$438.00 or \$753.00, depending on unit load.

Imperial Valley Campus students pay a Student Union Fee of \$24.00 and a Health Services fee of \$10.00. See Imperial Valley Campus Bulletin for details.

The total fee paid per term will be determined by the number of units taken, including those in excess of fifteen.

Systemwide mandatory fees are waived for those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act, Education Code, Section 68120. Systemwide mandatory fees are waived for those individuals who qualify for such exemption under the provision of Education Code, Section 32320 (children of deceased disabled veterans).

Legal residents of California are not charged tuition.

INSTALLMENT PLAN

An installment plan is available for students who wish to pay their registration fees (and tuition, if applicable*) in payments. There is a \$33.00 charge for this service, paid at the time the initial registration payment is made. Additional information and instructions are available in the Class Schedule or may be obtained from the University Cashiers Office.

* Additional service charges apply to out-of-state and foreign tuition only. Service charge is equal to 15% of each installment payment of tuition.

TUITION FOR NONRESIDENT STUDENT (Foreign and Out-of-State)

Tuition will be charged for all units attempted.

Per unit..... \$246.00*

(Tuition is payable in addition to registration fees listed above. For fee-paying purposes, zero unit and half-unit courses are counted as one unit. See **Liability for Payment** section for additional important information.)

Health insurance (mandatory for foreign students)

Per year, approximately 500.00

* Pending Trustee approval, nonresident student tuition may be increased to \$282.00 per unit, effective Fall 2002.

PARKING FEES

Nonreserved parking space, per semester \$108.00

Car pool—see Cashiers Office.

Less than four-wheeled, self-propelled vehicle (motorcycle, moped) 27.00

Overnight parking surcharge, per semester 60.00 (employees and students living in residence halls are exempt)

Section 42201 of Title 5, California Code of Regulations, provides for the waiver of campus parking fees for students with disabilities who have been issued a DMV placard or license plate, and who meet low income requirements. For further information regarding eligibility contact the Disabled Student Services Office (Student Services, Room 1661).

MISCELLANEOUS FEES

(Fees payable when service is rendered.)

Application for admission or readmission (nonrefundable), payable by check or money order at time application is made \$55.00

Diversion Program Fee 75.00

Dual Admission, Pre-Enrollment Fee (pending Chancellor's Office authorization) 30.00

Late registration (nonrefundable) (Refer to Class Schedule for dates when this fee will be assessed.) 25.00

Late course forgiveness 20.00

Failure to meet administratively required appointment or time limit (late fee) 20.00

Registration installment plan service charge 33.00

Tuition (Foreign or Out-of-State) installment plan service charge..... Equal to 15% of each installment payment

Photo-identification card (One-time cost to both new undergraduate and graduate students at time of registration.) Non-refundable 5.00

Lost photo identification card Photo I.D. Card replacement..... 10.00

Transcript of record (official or unofficial)	4.00
Second through tenth transcript, prepared at the same time as the first	each 2.00
Additional copies over ten, prepared at the same time	each 1.00
AFROTC deposit (Unexpended portion is refundable.)	75.00
Check returned for any cause*	20.00
Loss of or damage to library materials	Replacement cost plus \$8.00 service charge
Graduation services fee	35.00
Latin diploma	22.00
Diploma replacement fee	12.00
Document copying fee	1.00
Credential application fee **	70.00
Credential evaluation fee	25.00
Musical instrument and audio/visual equipment fee	20.00
Lock and locker fee (optional)	1.00
Towel fee (optional)	4.00
Lost key fee (per key)	10.00
Miscellaneous instructional course charge	As established and approved

* Late fee also charged when applicable.

** Established by and payable to the Commission on Teacher Credentialing.

MISCELLANEOUS INSTRUCTIONAL COURSE CHARGES

Miscellaneous instructional course charges are payable for the following courses:

- Art* 225, 325, 425, 525, 526, 625, 627, 700D.
- Computer Engineering* 470.
- Educational Technology* 532, 540, 541, 544, 572, 644, 671, 775.
- Electrical Engineering* 330, 430.
- Nutrition* 205, 301, 302L, 405.

CREDIT CARDS

The University Cashiers Office does not accept credit cards for payment of registration fees or tuition (foreign or out-of-state) except as applicable under the terms of the Installment Plan. MasterCard, VISA, and Discover Card charge cards are accepted for other payments, such as housing, parking, health services, continuing education, installment payments, and miscellaneous over-the-counter payments. In cooperation with SDSU, CASHNet™SmartPay does afford students the choice to use a credit card to pay registration fees and/or tuition. Refer to fees section on page 18. Most ATM cards are also accepted for payment of miscellaneous charges. Additional information is available from the Cashier's Office.

LIABILITY FOR PAYMENT

Whether or not an invoice is received from the University, students are liable for payment of all registration fees related to **units held on or added after the close of business on the fourteenth day** following the commencement of instruction. Foreign and out-of-state students are liable for tuition related to all units held, except as provided for by the refund policy.

All continuing students participating in *RegLine* or *WebLine* must make registration payments by the deadline as instructed.

Nonresident (foreign and out-of-state) tuition must be paid prior to the first day of classes. With the exception of doctoral students and students enrolling for 799A or 799B only, **foreign** students must pay or sign an installment agreement for a minimum of 6 units at the time of registration. **Foreign** students wishing to pay fewer than 6 units must submit written approval to do so from the International Student Center or the Graduate Division, as applicable.

IT IS THE STUDENT'S RESPONSIBILITY TO BE AWARE OF TOTAL FEES AND TUITION DUE. Legal residents of California are not charged nonresident tuition. Additional fees that may become due as a result of units added during the semester must be paid at the Cashiers Office at the time the units are added. Note fee schedule above. **LATE PAYMENTS FOR FEES AND TUITION ARE SUBJECT TO AN ADDITIONAL LATE FEE AND APPLICABLE SERVICE CHARGES.**

DISHONORED CHECK

If your check is returned or not accepted by the bank for ANY REASON, you will be billed for the \$20.00 dishonored payment charge and the \$20.00 late fee when applicable. Non-payment of fees or tuition may result in cancellation of your registration and withholding of further services until all financial liabilities have been resolved.

The University reserves the right to refuse payment by personal check from those individuals who have previously had items returned unpaid by their bank.

REFUND OF FEES INCLUDING NON-RESIDENT TUITION

Details regarding which fees may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to follow in seeking refunds may be obtained by consulting the Class Schedule and Student Information Handbook. All policies and procedures are based upon the following sections of Title 5, *California Code of Regulations*: Section 42201 (parking fees), Section 42019 (residence hall charges), and 41802 (all other fees). Information concerning the refund policies of San Diego State University for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the University Cashiers Office or at www.sdsu.edu/cashiers.

Important Information Regarding Refunds

The CSU Board of Trustees recently approved significant changes to Title 5 of the California Code of Regulations that will affect both refund processes and withdrawal deadlines for the 2002-2003 academic year. These changes are posted below. This policy and SDSU procedures will be posted in the Fall 2002 Class Schedule and Student Information Handbook. Information will also be available at www.sdsu.edu/cashiers.

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide fees and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-support programs at the California State University (courses offered through extended education) are governed by a separate policy established by the University.

In order to receive a full refund of mandatory fees, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available from the Office of the Registrar, and in the Class Schedule and Student Information Handbook.

For state-supported semesters, quarters, and non-standard terms or courses of four weeks or more, a student who withdraws during the term in accordance with the University's established procedures will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 per cent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

For state-supported semesters, quarters, and non-standard terms or courses of less than four weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes prior to the first day in accordance with the University's established procedures and deadlines.

Students will also receive a refund of mandatory fees, including non-resident tuition under the following circumstances:

- The tuition and mandatory fees were assessed or collected in error;
- The course for which the tuition and mandatory fees were assessed or collected was cancelled by the University;
- The University makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the University for a refund demonstrating exceptional circumstances and the chief financial officer of the university or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the University.

Information concerning any aspect of the refund of fees may be obtained from the University Cashiers Office or at www.sdsu.edu/cashiers.

Refund of Institutional Charges to Title IV Financial Aid Recipients

The following refund policy is required by the Higher Education Amendments of 1998 (Public Law 105-244, enacted October 7, 1998).

When a student who has received Title IV financial aid withdraws, or otherwise fails to complete a period of enrollment for which he or she was charged, the institution is required to determine if a refund must be made to the student or if unearned aid must be returned to the federal accounts. Calculations will be based on the withdrawal date and the percentage of the period of enrollment completed. If Title IV funds have been disbursed during the enrollment period, aid will first be returned by the institution to the programs in the order listed below as required by law and determined by the University. If funds have been disbursed directly to the student, he or she may be required to repay any unearned aid. In some cases where eligibility for aid exceeds the amount disbursed, the regulations allow for a post-withdrawal disbursement. If eligible for a post-withdrawal disbursement, the University will notify you of the process required to receive the funds.

Title IV Financial Aid consists of the following programs:

- Unsubsidized William D. Ford Federal Direct Loan
- Subsidized William D. Ford Federal Direct Loan
- Federal Perkins Loan
- William D. Ford Federal Direct PLUS Loan
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)

Examples of refund calculations are available upon request at the University Cashiers Office.

Refund of Parking Fees

REFUNDS ARE NOT AUTOMATIC. This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins.

Nonreserved space per semester:

<i>Period</i>	<i>Amount of Refund</i>
First 3 days of class.....	100 percent of fee
Day 4 through Day 14 (Registration Fee Refund Deadline)	75 percent of fee
Day 15 through end of sixth week	50 percent of fee
Seventh week through tenth week	25 percent of fee
Eleventh week through end of term	None

Your parking permit or a receipt indicating that the permit was removed from the vehicle by a University Police Officer (information booth at the Chemical Sciences Laboratory) must be turned in to the

Cashiers Office at the time you file your refund application. Refund applications are available at the Cashiers Office. The amount of refund is rounded down to the nearest dollar. No refund is made for amounts of \$5.00 or less. Refunds may be applied against other amounts due to the University.

LATE REGISTRATION FEE

The Late Registration fee (\$25) pertains to those students who register during Late Registration. Newly admitted students **MAY** be exempted from this fee. See registration materials provided by the Office of the Registrar for details. The registration process is not complete until all fees due are paid and you are officially enrolled in classes through the Office of the Registrar.

CANCELLATION OF REGISTRATION OR WITHDRAWAL FROM THE UNIVERSITY

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the University's official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Office of the Registrar.

Students who receive financial aid funds must consult with the Financial Aid Office prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. If a recipient of student financial aid withdraws from the institution during an academic term or a payment period, the amount of grant or loan assistance may be subject to return and/or repayment provisions.

APPEALS PROCESS – UNIVERSITY CASHIERS OFFICE

An appeals process exists for students who believe that individual circumstances warrant exceptions from published policy. Students should file a "Petition for Special Consideration" obtainable at the University Cashiers Office. Petitions must be filed with the University Cashiers Office **prior to the end of the twelfth week of classes.**

Petitions for refunds outside the scope of published policy are approved only when applicants can demonstrate exceptional circumstances, and the chief financial officer or designee determines that the fees and tuition were not earned by the University.

SUMMER SESSION FEES

Refer to SDSU Summer Session Class Schedule for schedule of fees.
Parking fees (nonreserved spaces) (per week) \$8.00

EXTENSION COURSE FEES

Refer to Extended Studies Catalog for schedule of fees.

EXEMPTIONS

Students receiving vocational rehabilitation benefits (U.S. Code, Title 38, Chapter 31) or the eligible dependents of veterans with service-connected disability or death (California Education Code, Section 32320) will have eligible fees and tuition paid or waived under provisions of these respective programs. See Class Schedule for instructions regarding deadlines for submission of documents to the University Cashiers office.

OVER 60 FEE WAIVER PROGRAM

San Diego State University offers a fee waiver program for California residents 60 years of age and older. Both undergraduate and post-baccalaureate students may participate in the program. The program waives the \$55 admission application fee and regular registration fees (except for a nominal \$3 fee). Participants must apply for admission during the regular application filing period and be admitted under regular admission requirements. Participants register for classes on a space-available basis after regularly matriculated students have completed registration. For additional information, contact the Office of Admissions.

ALAN PATTEE SCHOLARSHIPS

Pursuant to the Alan Pattee Scholarship Act, Education Code Section 68120, children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, **California Education Code**, Section 68121. Students who may qualify for these benefits should contact the Office of the Registrar for an eligibility determination.

Procedure for the Establishment or Change of a Student Activity Fee

The law governing the California State University provides that fees defined as mandatory, such as a student activity association fee and a student activity center fee may be established. A student activity association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (**California Education Code**, Section 89300). A student activity center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (**California Education Code**, Section 89304). The student activity fee was established at San Diego State University by student referendum in 1955. The campus President may adjust the student activity association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (**California Education Code**, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10% of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student activity center fees is governed by provisions of the State University Revenue Bond Act of 1947: including, but not limited to, **California Education Code**, Sections 90012, 90027, and 90068. Student body fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee. A student referendum also is required. The campus president may use alternate consultation mechanisms if he determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The president may request the chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus fee advisory committee and the completion of a student referendum is delegated to the president.

Fees and Debts Owed to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, **California Code of Regulations**, Sections 42380 and 42381).

Prospective students who register for courses offered by the University are obligated for the payment of fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student fees including any tuition for the reservation of space in the course.

If a student believes that he or she does not owe all or part of an unpaid obligation, the student should contact the University Cashiers Office. The Cashiers Office, or another office on campus to which the student may be referred by the Cashiers Office, will review the pertinent information, including information provided by the student and will advise the student of its conclusions.

Availability of Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

1. Student financial assistance programs, including state grants, available to students who enroll at San Diego State University;
2. The procedures and forms by which application for student financial assistance is made;
3. The student eligibility requirements for financial assistance and the criteria used in determining how financial assistance is distributed among eligible applicants who enroll at San Diego State University; and
4. The rights and responsibilities of students receiving financial assistance including aid provided under federal Title IV student assistance programs.

Information concerning the cost of attending San Diego State University is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323, and includes fees and tuition; the estimated costs of books and supplies; estimates of typical student room and board costs and typical commuting costs; and, if requested, additional costs for specific programs.

Information concerning the refund policies of San Diego State University for the return of unearned tuition and fees or other refundable portions of institutional charges is available from the University Cashiers Office, Student Services, Room 2620, (619) 594-5253.

Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

Information regarding special facilities and services available to students with disabilities may be obtained from Disabled Student Services, Student Services, Room 1661, (619) 594-1991.

Information concerning San Diego State University policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning San Diego State University annual campus security report may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from Counseling and Psychological Services, (619) 594-5220.

Information regarding student retention and graduation rates of students enrolled at San Diego State University and, if available, the number and percentage of students completing the program in which the student is enrolled or expresses interest may be obtained from Institutional Research, Student Services, Room 3630, (619) 594-6846.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that San Diego State University dedicates to its men's and women's teams may be obtained from the Director of Intercollegiate Athletics, Athletics, Room 117, (619) 594-6357.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Ombudsmen, Student Services, Room 3635, (619) 594-6578.

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Fees

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at www.sss.gov.

Cost of Living

San Diego State University establishes standard student budgets in coordination with The California State University system that meet federal requirements. Student budgets, updated annually to account for inflation are currently:

Costs of Attendance for the 2002-2003 Academic Year

	Living off Campus	Living on Campus	Commuting from Home
Fees	\$ 1901	\$1901	\$1901
Books and supplies	1206	1206	1206
Room and board	8149	8307	2988
Transportation	909	709	731
Personal	2173	2085	2240
Total	\$14,338	\$14,208	\$9,066

In addition to the registration fee, non-resident (foreign and out-of-state) students pay tuition (see Schedule of Fees section). **All fees and costs are subject to change without notice.**

Admission to Postbaccalaureate and Graduate Study

Admission to San Diego State University for postbaccalaureate and graduate study is open to those applicants judged by the University to be fully qualified. The process is competitive and the requirements listed below are only the **minimum** required for admission to the University. Many programs have established additional requirements. Prospective applicants should refer to the departmental listings in this bulletin. Students are also advised to contact the departmental offices as soon as graduate work is contemplated for advice as to how to proceed. Some departments stop reviewing applications earlier than others because space is limited.

Importance of Filing Complete, Accurate, and Authentic Application Documents

San Diego State University advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Official transcripts are defined as transcripts sent directly from the issuing institution to either the student or the department in officially sealed envelopes. GRE and GMAT test scores should be requested from the Educational Testing Service. Failure to file complete, accurate, and authentic application documents by specified deadlines will result in denial of admission, and may result in cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, *California Code of Regulations*). This requirement is effective from initial contact with the University and throughout the period the academic record is maintained.

Requirement and Use of Social Security Account Number

Applicants are required to include their correct social security account numbers (taxpayer identification numbers) in designated places on applications for admission pursuant to the authority contained in Section 41201 of Title 5, *California Code of Regulations*, and Section 6109 of the *Internal Revenue Code*. The University uses the social security account number to identify records pertaining to the student as well as to identify students and their records for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student's social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Measles, Rubella, Hepatitis B, and Meningococcal Immunizations Health Screening Provisions

Refer to General Information —
Health Services section of this bulletin.

Application Procedures

Applicants for any type of graduate or postbaccalaureate status (advanced degree applicants, those seeking credentials or advanced certificates, and those interested in taking courses for personal or professional growth) must file a CSU Graduate Admission Application with Graduate Admissions within the appropriate filing period. Applicants who graduated from San Diego State University are also required to complete and submit an application and the \$55 non-refundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternative campuses or later changes of campus choice will be minimal. In the event that a postbaccalaureate applicant wishes to be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. All masters, doctoral, and credential students should consult the Web site for the specific department and/or program director for departmental application instructions. Applications are available on the Web site at <http://www.csumentor.edu/>.

Application and Admission Process

Students seeking admission with classified standing to graduate programs at San Diego State University must submit required documentation in a timely manner to ensure proper processing and evaluation by the school or department and the Graduate Division. Please consult the specific departmental listing for the admission requirements. Even though a student may meet the minimal general standards for admission to the University, each department reserves the right to recommend a denial or conditional acceptance based upon the evaluation of documentation supplied by the applicant as well as the standing of the applicant relative to others who have applied to the specific graduate program.

The recommendation of the department or school is sent to the Graduate Dean for an independent evaluation and decision to admit. Where a department's recommendation conflicts with the judgment of the Graduate Dean, consultation will ensue between the Dean and the department, but the final decision remains with the Graduate Dean.

General Admission Requirements

Applicants for any type of graduate or postbaccalaureate study at San Diego State University must: (a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Graduate Dean; (b) have attained a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree); (c) have been in good standing at the last institution attended; and (d) satisfactory scores on GRE or GMAT for degree seeking applicants (not required for credential or certificate applicants). Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Graduate Dean determines that there is other academic or professional evidence sufficient to warrant such action. Applicants from foreign countries see International (Foreign) Student Admission Requirements.

Admission to Postbaccalaureate and Graduate Study

Members of the faculty of San Diego State University holding appointments at or above the rank of instructor or lecturer may not be admitted to degree programs at this University. Faculty may register for courses as unclassified students.

Special Action Admissions

Determination of the admissibility of students by special action shall be governed by the following guidelines when applicable. All applicants for admission by special action must submit at least two letters of recommendation from faculty of the institution that awarded the baccalaureate degree.

1. Students holding baccalaureate degrees from accredited institutions that award credit primarily on a pass-fail basis may be considered for admission providing they meet one of the following criteria:
 - a. At least 60 semester units of letter-graded coursework with a minimal grade point average of 2.75 are included on the student transcripts. Half of these must be at the upper division level.
 - b. If the student transcripts include less than 60 semester units of letter-graded coursework as described above, the applicant may be considered for admission on the basis of the following two criteria: A satisfactory score on both the verbal and quantitative sections of the GRE or GMAT with a minimum mean score of not less than the 30th percentile in each category, and determination by the appropriate faculty unit at San Diego State that any written documentation of classroom performance the student submits reflects academic achievement equivalent to at least a grade point average of 2.75. Such documentation should include written coursework evaluations by the faculty of the institution awarding the degree and may include other documentation such as baccalaureate theses, etc. A relative weakness in one of these criteria may be offset by a strong performance in the other.
2. Students holding baccalaureate degrees from accredited institutions that award credit for prior experiential learning may be admitted providing that:
 - a. The student meets the 60-unit requirement as described in 1. above when general admission requirements are not met.
 - b. At least 24 semester units of credit in the major field are awarded for classroom and laboratory study during a period of matriculation at the degree-granting institution.
 - c. The student provides from the institution granting the credit full documentation showing how the experiential learning was evaluated and the basis on which such credit was awarded.
3. In some circumstances, students holding a baccalaureate degree from an institution with limited accreditation or students holding a degree that requires less than four years for completion may be admitted to postbaccalaureate standing provisionally for the purposes of validating the degree for equivalency. Students who expect to enter an advanced degree program must have completed all the prerequisites prior to admission to the program. Students in this category may not enroll in 600- or 700-numbered courses; no units completed prior to validation of the baccalaureate degree may be included subsequently on an advanced degree program.

Examination Requirements

The University requires that applicants for admission to most advanced degree programs and to many advanced certificate programs present satisfactory scores on the Graduate Record Examination (GRE) General Test. In addition, some programs require that applicants also submit satisfactory scores on the appropriate GRE subject matter test. Applicants should consult the program listings for specific information. Applicants for admission to the College of Business Administration will take the Graduate Management Admissions Test (GMAT); students applying for admission to the concentra-

tion in Health Services Administration in the Graduate School of Public Health may submit scores from either the GRE or the GMAT. For complete information on the availability of these tests, students or applicants are invited to contact the Test Office on campus.

Students who hold advanced degrees from institutions that are members of the Council of Graduate Schools are exempt from the GRE requirement. Individuals applying for admission to certain graduate programs may petition to waive the GRE General Test requirement if the applicant holds a professional doctoral degree from an institution whose professional program is accredited by an association that is recognized by the U.S. Department of Education. The waiver must be recommended by the graduate adviser and approved by the Graduate Dean. The petitioner must demonstrate that the professional degree is integrally related to the degree program to be pursued at San Diego State University. Normally, such waivers are not approved where the object is admission to an academic as opposed to a professional degree program.

TOEFL Requirement

All postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Individual degree programs may prescribe a higher minimum score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Applicants must also submit a score for the Test of Written English (TWE). Individual degree programs may use the score on the TWE as an admission criterion or as an advising tool to identify students who may need further training in English.

Admission Categories

Applicants seeking admission to postbaccalaureate study at San Diego State University must apply and be accepted in one of the following categories:

Postbaccalaureate Standing (Unclassified)

Under the University's enrollment management plan, only a limited number of students are admitted on a space available basis to the University in unclassified standing. Some students wishing to enroll in coursework for personal or professional reasons may be so admitted, as may students pursuing a second baccalaureate degree, providing they meet the criteria specified under General Admission Requirements. In rare instances, students may be admitted in this category for the purpose of removing their academic deficiencies. In such cases, however, the student must gain admission to an advanced degree, certificate, or credential program within one calendar year or become subject to dismissal from the University. Students with postbaccalaureate standing (unclassified) may not enroll in 600-, 700-, 800-, and 900-numbered courses except by special permission of the instructor and the graduate adviser of the department or school in which the course is offered.

Postbaccalaureate Standing (Classified)

A student wishing to be admitted to a program leading to a credential **only** or to an advanced certificate **only** (not an advanced degree) must meet the criteria specified under General Admission Requirements. A student must also meet the professional, personal, scholastic, and other standards prescribed by the appropriate department and the Graduate Council. The applicant should contact the department or school involved for information concerning specific admission requirements and should submit a departmental application during the appropriate filing period. Admission with postbaccalaureate standing (classified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula.

Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree must meet the criteria specified under General Admission Requirements and, in addition, must:

1. Achieve a satisfactory score on the GRE General Test or GMAT as required.
2. Have completed an undergraduate major appropriate to the field in which the student desires to earn an advanced degree.
3. Satisfy the special departmental or college requirements as stated in Part Three of the Bulletin of the Graduate Division under "Courses and Curricula."
4. Meet the professional, personal, and scholastic standards for graduate study established by the department and the Graduate Council.

Students admitted with graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600-, 700-, and 900-numbered courses. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

Conditional Graduate Standing (Classified)

A student wishing to be admitted to a program of study leading to an advanced degree who meets the criteria specified under General Admission Requirements but who has deficiencies in the criteria for graduate standing (classified) may be granted conditional graduate standing (classified), if the deficiencies can be met by specific additional preparation, including qualifying examinations. Not more than 15 semester units may be assigned to satisfy undergraduate deficiencies in the major and all course conditions must be met within five semesters from the time of initial enrollment. Students admitted with conditional graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Once the conditions established by the department, school, or college have been met, the student should request that the program graduate adviser file a change of status form with the Graduate Division.

Conditional Graduate Standing (Classified, Credential Only)

A student wishing to be admitted to a program of study leading to a credential in professional education who meets the criteria specified under General Admission Requirements but who has deficiencies for unconditional classified admission to the department's credential program may be granted conditional graduate standing (classified, credential only), if the deficiencies can be met by specific additional preparation, including qualifying examinations. No more than 18 semester units may be assigned to satisfy deficiencies in prerequisite education and subject matter competency coursework and all coursework must be met within one year (three academic terms: Fall, Spring, Summer) from the time of initial enrollment unless written documentation of specific subject matter deficiency can be provided by the designated campus adviser. Once the conditions established by the department, school, or college have been met, the student should confirm that a change of status has been updated through the sponsoring departmental office for cross-campus records.

Continuing Students

Students enrolled in the University with postbaccalaureate standing may request acceptance into an advanced degree curriculum with graduate standing (classified or conditionally classified). Applications for such continuing students are available in the Graduate Division. Except in special circumstances, reports of the scores of the GRE General Test or the GMAT where appropriate must be on file at the University before continuing students may apply for graduate standing (classified).

Second Bachelor's Degree

Second bachelor's degrees are not awarded by most departments. Admission to a second bachelor's degree program is based on

a review of the second bachelor's degree application, the applicant's academic record, approval of the major department, and the availability of space in the major or premajor. Applicants must be eligible for admission as a postbaccalaureate student, meet all undergraduate admission subject requirements, show strong promise of success in the new field, and have a clearly indicated change in educational objective. The number of students admitted for a second bachelor's degree is extremely limited.

Second bachelor degree applicants must apply for admission during the undergraduate filing period (unless already enrolled as a postbaccalaureate student). Upon receipt of the admission application, students will be sent a separate application for the second bachelor's degree.

Classified graduate students are not eligible to apply for a second bachelor's degree. Credit earned while a second bachelor's candidate may not be applied toward an advanced degree at a later date. Candidates for a second bachelor's degree are ineligible to enroll in 600-, 700-, 800-, and 900-numbered courses.

To receive a second bachelor's degree, the student must complete a minimum of 30 postbaccalaureate units in residence with a minimum grade point average of 2.00; at least 15 units must be upper division in the new major. Up to six upper division units from the previous major may be used in the new major, provided the student completed the same number of units above minimum requirements for the first degree. The student must also fulfill all current requirements for the bachelor's degree, including but not limited to General Education, major, upper division writing, and foreign language if required by the major. Students are subject to undergraduate policies and procedures, including rules governing deadlines, course forgiveness, and academic probation and disqualification.

The second bachelor's degree is not granted automatically. When eligible for graduation, the student must submit an application for graduation with the Office of Advising and Evaluations. The Class Schedule each semester specifies the exact dates for filing.

For additional information and second bachelor's degree applications, contact the Office of Graduate Admissions.

Filing of Transcripts

The applicant must arrange to have two sets of official transcripts from EACH college or university attended sent to the department with the student's supporting documents. Transcripts requested include all extension, correspondence, summer session, or evening courses.

A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to the department by the institution attended or sent to the student in a sealed and signed envelope. All records or transcripts received by the University become the property of the University and **will not be released nor will copies be made.**

Timely filing of official transcripts is essential. Failure to furnish such records will delay or preclude consideration for admission to postbaccalaureate and graduate study at the University.

Determination of Residence for Nonresident Tuition Purposes

The Office of Graduate Admissions is responsible for determining the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and, as necessary, other evidence furnished by the student are used in making this determination. Nonresident students who wish to be reclassified as residents must complete the Reclassification Request Form, which is available in the Office of the Registrar. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The

Admission to Postbaccalaureate and Graduate Study

law governing residence for tuition purposes at the California State University is *California Education Code* sections 68000-68084, 68120-68134, and 89705-89707.5, and *California Code of Regulations*, Title 5, sections 41900-41916. This material can be viewed on the Internet by accessing the California State University's Web site at www.cal-state.edu.

Generally, establishing California residence for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least one full year prior to the residence determination date for the term in which enrollment is contemplated, has been both physically present in the state and has evidence of intent to remain in California indefinitely, may establish California residence for tuition purposes. Evidence demonstrating intent can vary from case to case and may include, but is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining active California bank accounts, filing California income tax returns, owning residential property or occupying or renting an apartment where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Adult noncitizens establish residence in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. Unmarried minor noncitizens derive their residence in the same manner as unmarried minor citizens except that both parent and minor must have an immigration status consistent with establishing domicile in the United States.

Exceptions to the general residence requirements are contained in California Education Code sections 68070-68120 and Title 5 of the California Code of Regulations, sections 41900-41916, and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts, and students who have attended high school in California and graduated or attained the equivalent. Whether an exception applies to a particular student cannot be determined before the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal adviser.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire including questions concerning their financial dependence, which will be considered along with physical presence and intent in determining reclassification.

Residence determination dates are set each term. The residence determination dates are September 20 for fall, January 25 for spring, and June 1 for summer. The residence determination dates for the four stages of CalStateTEACH are September 20 (Stage 1), January 5 (Stage 2), June 1 (Stage 3), and September 20 (Stage 4).

A campus residence classification appeal must be in writing and submitted to:

The California State University
Office of General Counsel
400 Golden Shore
Long Beach, California 90802-4210

The appeal must be submitted within 120 calendar days of notification of the final campus decision. The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the *California Code of Regulations*.

Resident students who become nonresidents, or who no longer meet the criteria for an exception, must immediately notify the Office of Admissions.

Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residence for tuition

purposes in California between the time this catalog is published and the relevant residence determination date. Students are urged to review the statutes and regulations stated above.

International (Foreign) Student Admission Requirements

San Diego State University offers opportunities for advanced study to those foreign students whose academic preparation meets the standards for admission. "Foreign students" include those who hold US visas as students, exchange visitors, or are in other non-immigrant classifications. SDSU uses separate requirements and application filing dates in the admission of foreign students.

Applicants for any type of graduate or postbaccalaureate study at San Diego State University must: (a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Graduate Dean; (b) have attained a cumulative grade point average of at least 3.0; (c) have been in good standing at all universities attended; and (d) have satisfactory scores on the GRE or GMAT and the TOEFL (if required) as determined by the department. Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Graduate Dean determines that there is other academic or professional evidence sufficient to warrant such action.

Applicants for admission whose education has been in a foreign country must file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended. All documents, transcripts, and test scores must be received by the department no later than May 1 for the fall semester or November 1 for the spring semester of each year. If certificates and transcripts are not in English, they should be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to San Diego State University.

Applicants whose major education has been in a language other than English must score 550 or higher (using the paper version) or 213 or higher (using the computer version) on the Test of English as a Foreign Language (TOEFL) consult Part III of this Bulletin for specific program requirements. This test is administered in most foreign countries. The University must receive official test scores before admission can be granted. Information as to the time and place at which this test is given may be obtained by writing to the Educational Testing Service (TOEFL), Princeton, New Jersey 08540, USA.

Upon arrival at San Diego State University, further tests of English may be given for the purpose of placing students in an English language program commensurate with their linguistic ability in English and to assist advisers in planning an appropriate course of study. Depending upon their performance on the placement test and their academic background, students may be required to enroll in one or more English language course(s) during their first year. Foreign students admitted to the University will be subject to the same competency and placement examinations and standards that govern the rest of the student population.

Insurance Requirement: As a condition of receiving an I-20 or IAP-66 form, all F-1 and J-1 visa, applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAFSA; Association of International Educators. The campus President or designee shall determine which insurance policies meet these criteria. Further information may be obtained from the International Student Center.

American Language Institute: If English instruction is needed prior to admission to San Diego State University, students may enroll in the American Language Institute. The American Language Institute (ALI) offers preparation in the English language reading, writing, and listening skills necessary for university success. For those students enrolling in the American Language Institute, a conditional admission is available. Conditional admission is for those students who require

acceptance to a university in order to obtain a passport, a U.S. Visa, or government sponsorship. The program is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated, students may receive an official letter of conditional admission which states that the student has met all University requirements *except* English language proficiency and may enter the University after achieving appropriate TOEFL scores and training at the American Language Institute.

Housing and Scholarships: Arrangements for housing should be completed well in advance of the student's arrival on the campus. Detailed information regarding housing may be obtained from the Housing and Residential Life Office, San Diego State University. Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country. Further information regarding scholarships will be found in the section of this bulletin on Financial Aid.

Upon arrival at San Diego State University, the student should contact the International Student Center.

Limitation of Enrollment

Admission to the University is limited to the number of students for whom an adequate education can be provided by the staff and facilities available. San Diego State University may limit graduate enrollment on the basis of field and aptitude of the applicant.

Members of the faculty of San Diego State University holding appointments at or above rank of instructor or lecturer may not be candidates for degrees on this campus. Faculty may register for courses as unclassified students.

Registration

San Diego State University students register by the touch tone telephone registration system (RegLine) or by accessing WebLine, the Internet registration system. On campus registration is not conducted. The Class Schedule and Student Information Handbook, issued each semester and obtainable at the Campus Store before the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for enrollment. Students will not be permitted to register until fees are paid. Payment of fees by itself does not constitute registration. **A student is considered registered when: 1) fees have been paid, and 2) at least one course has been added prior to the first day of classes.**

Late registration is allowed during the first two weeks of the semester. Students wishing to register late must pay registration fees plus a \$25.00 late fee before the end of the second week of the semester. After receiving an add code from the instructor of the course the student wants to add, the student calls RegLine or accesses WebLine to officially register. **Students who have not added at least one class by the beginning of the fourth week of classes are not registered and may not add courses later in the semester.**

Improper Registration in Graduate Courses. Only undergraduate students who are completing their bachelor's degree and who have filed a formal request for permission to enroll for concurrent master's degree credit or for concurrent post baccalaureate credit may be authorized to enroll in 600 and higher numbered courses. Undergraduate students who have not received permission for concurrent enrollment may not enroll in 600 or higher numbered courses for any purpose without the prior permission of the Graduate Dean. Undergraduates who enroll in advanced courses without permission are subject to administrative disenrollment. The registration for graduate students who have not met the stated prerequisites for Course 799A, Thesis, at the time of registration may be canceled.

Changes in Class Schedule

Students are responsible for any change in their schedule of classes. Changes in the official study list are done using the touchtone registration system.

A change in schedule of classes includes the following: withdrawal from a class; adding a class; adding or reducing units to a class for which the student is already registered; changing sections of the same course, and changing from letter grade to credit/no credit or audit. Consult the current Class Schedule for deadline dates for change of schedule.

Concurrent Advanced Degree Credit

The bachelor's degree must be completed at the end of the semester or term in which the concurrent credit is earned.

A senior who has met all of the required competencies in writing and mathematics and who is within 12 units of completing requirements for the bachelor's degree and whose grade point average in the last 60 semester units attempted is 3.0 or above may petition the Graduate Council to take for concurrent advanced degree credit 500-numbered courses and certain 600- and 700-numbered courses approved by the department with the remaining requirements for the bachelor's degree. Petitions may be obtained from the Graduate Division and must be submitted to the Office of Advising and Evaluations by the end of the third week of classes of the semester or term in which the concurrent credit is earned. The student must have on file a current application for graduation with the bachelor's degree. The maximum number of units that may be earned as concurrent master's degree credit is determined by the difference between the number of units remaining for the bachelor's degree and 15.

Concurrent Postbaccalaureate Credit

Applicable to the "Fifth Year" Credential Requirement only

Concurrent postbaccalaureate credit may be earned during the final semester or summer term by seniors admitted to the College of Education who meet all of the following qualifications:

1. Have a minimum grade point average of 2.75 on the last 60 units attempted;
2. Complete coursework in excess of graduation requirements during the semester (or summer term) when graduation occurs;
3. Attempt no more than 21 units during the final undergraduate semester;
4. Request no more than a maximum of 12 units of 300-, 400-, 500-, or 900-numbered courses for postbaccalaureate credit;
5. Submit a petition before the end of the first week of classes of the final undergraduate semester (or term) when graduation occurs;
6. Petition the Assistant Dean of the College of Education;
7. Graduate at the end of the semester (or summer term) the petition is made.

Extension courses are not acceptable for concurrent postbaccalaureate credit. Concurrent postbaccalaureate credit will not be granted retroactively.

Petition forms are available in the Office of the Registrar, SS-1641.

Second Master's or Doctoral Degree

A student desiring to work for a second master's or doctoral degree must petition the Graduate Council for permission to enter a curriculum leading to the second degree. A student may be admitted into only one advanced degree program at a time, except in those specially designed concurrent programs described in this bulletin.

Regulations of the Graduate Division

Graduate students are individually responsible for complying with the procedures, regulations, and deadlines as set forth in the General Catalog of the University and in the Bulletin of the Graduate Division. Questions concerning graduate study at San Diego State University should be referred to the Graduate Division.

All students beginning graduate study at San Diego State University after August 2002 will be required to follow the procedures and regulations stated in the 2002-03 edition of the Bulletin of the Graduate Division. A student who was admitted to a graduate degree curriculum at this university prior to that date and who has been enrolled in one or more courses during each consecutive semester since first enrolling as a graduate student, or whose attendance has not been interrupted by more than two consecutive semesters, will be held responsible for the regulations in effect at the time the official master's degree program of study is approved.

Student Responsibility for Bulletin Information

Students are individually responsible for the information contained in this bulletin. Although the Graduate Division attempts to preserve requirements for students subject to this bulletin, information contained herein is subject to change from year to year as university rules, policies, and curricula change. Failure to keep informed of such annual changes will not exempt students from whatever consequences may result.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this bulletin, students and others who use this bulletin should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University, or by the President or designee of San Diego State University. It is not possible in this publication to include all of the rules, policies and other information that pertain to the student, San Diego State University, and The California State University. Additional information may be obtained from the appropriate department, school, or administrative office. Each semester, the Class Schedule and Student Information Handbook outlines changes in academic policy and procedure and current deadlines that are of importance to students.

Nothing in this bulletin shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of San Diego State University. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This bulletin does not constitute a contract or the terms and conditions of a contract between the student and San Diego State University or the California State University. The relationship of the student to this institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized representatives.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to student records maintained by the campus and the release of such records. The law provides that the campus must give students access to records directly related to the student and must also provide opportunity for a hearing to challenge such if the student claims they are inaccurate, records on the grounds that they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statutes and the regulations. Copies of these policies and procedures may be obtained at the Office of the Provost. Among the types of information included in the campus statement of policies and procedures are: (1) the types of student records maintained and the information they contain; (2) the official responsible for maintaining each type of record; (3) the location of access lists indicating persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) student access rights to their records; (6) the procedures for challenging the content of student records; (7) the cost to be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. The Department of Education has established an office and review board to investigate and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release "directory information" concerning students. The Office of the Registrar releases the following: student's name, major field of study, dates of attendance, and degrees and awards received. Although federal law allows for the release of address, telephone listing, electronic mail address, photograph, place and date of birth, and information related to participation in athletics, San Diego State University has a practice of not routinely releasing this information. The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying information the student requests not be released. Students are given an opportunity to restrict the release of "directory information" about themselves by calling the Office of the Registrar's touch-tone system, (619) 594-7800, or by accessing www.sdsu.edu/webline.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus' academic, administrative or service functions and who have reason for using student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to other persons or organizations under such conditions as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; to other institutions to which the student is transferring.

Nondiscrimination Policy

Race, Color, National Origin, and Disability

San Diego State University complies with the requirements of Title VII of the Civil Rights Act of 1964, as amended by the Americans with Disabilities Act and the regulations adopted thereunder. No person shall, on the basis of race, color, national origin, or disability, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination in any program of the California State University. The California State University does not discriminate on the basis of disability in admission or access to, or treatment or employment in, its programs and activities. Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder and the Americans with Disabilities Act prohibit such discrimination.

The Office of the Ombudsman, (619) 594-6578, has been designated to coordinate the efforts to comply with these Acts and their implementing regulations.

Sex

San Diego State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination on the basis of sex in education programs and activities. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities can be directed to the Director, Office of Diversity and Equity, (619) 594-6464 or to the Regional Director of the Office of Civil Rights, Region IX, 50 United Nations Plaza, Room 239, San Francisco, CA 94102.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

Sexual Orientation

San Diego State University does not discriminate on the basis of sexual orientation.

Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure.

Numbering of Courses

Courses numbered 80-99 are nonbaccalaureate level and are not acceptable for a bachelor's degree; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are graduate courses; and those numbered 800 through 899 are doctoral courses.

Courses numbered at the 900 level, except 997, are reserved for graduate courses in certain professional curricula as part of advanced certificate, credential, and licensure programs and are specifically intended for students admitted to the University with post-baccalaureate classified standing. Courses numbered at the 900 level are not applicable to other graduate programs.

Courses numbered 397 offered in regular sessions are professional advancement/training or tutorial/discussion classes that may

accompany other credit courses and are not acceptable towards an undergraduate or graduate degree.

Courses numbered X-01 through X-79 and X-397 are Extension professional development units offered only through Extension to meet specific academic needs of community groups and are not acceptable toward an undergraduate or graduate degree.

Grading System

Grades and grade points per unit used in reporting are as follows: Grade of **A** (outstanding achievement; available for the highest accomplishment), 4 points; **B** (average; awarded for satisfactory performance), 3 points; **C** (minimally passing), 2 points; **D** (unacceptable for graduate credit, course must be repeated), 1 point; **F** (failing), 0 points; **RP** (report in progress), not counted in the grade point average; **W** (withdrawal), not counted in the grade point average; **AU** (audit), no credit earned and not counted in the grade point average; **Cr** (credit), signifying units earned, but not counted in the grade point average; **NC** (no credit), no credit earned and not counted in the grade point average; **I** (authorized incomplete), no credit earned and not counted in the grade point average until one calendar year has expired at which time it will be changed to an **IC** (incomplete charged) and will count as an "F" for grade point average computation; **WU** (withdrawal unauthorized), will count as an "F" for grade point average computation.

Plus/Minus Grading

A plus/minus grading system is utilized at San Diego State University. Plus/minus grading is not mandatory but is utilized at the discretion of the individual instructor. The grades of A+, F+ and F- are not issued. The decimal values of plus and/or minus grades are utilized in the calculation of grade point averages as follows:

A = 4.0	C+ = 2.3	D- = 0.7
A- = 3.7	C = 2.0	F = 0
B+ = 3.3	C- = 1.7	WU = 0
B = 3.0	D+ = 1.3	I = 0
B- = 2.7	D = 1.0	IC = 0

Report in Progress Grade – "RP"

The "RP" symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Work is to be completed within a stipulated time period not to exceed one calendar year except for graduate thesis (799A), or dissertation (899). Failure to complete the assigned work within one calendar year except for courses 799A, 899 will result in the course being computed into the grade point average as an "F" (or a "NC" if the course was taken for a credit/no credit grade). Graduate courses for which the "RP" symbol is appropriate are specifically designated in the departmental listings of this bulletin.

Candidates for graduation whose record carries a grade of RP will be graduated provided they are otherwise eligible for graduation. However, the RP cannot be made up after the degree has been granted. If students do not wish to be graduated with the grade of RP on their record, they must officially cancel their application for graduation.

Withdrawal Grade – "W"

The symbol "W" indicates that the student was permitted to drop a course after the first four weeks of instruction because of a verified serious and compelling reason and had obtained the signature of the instructor and the approval of the dean or designee of the college in which the class is located. After the fourth week, the grade of "W" will appear on the student's permanent record for courses for which an official drop has been approved.

Regulations of the Graduate Division

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks of instruction is permissible only for verified serious and compelling reasons. Permission to drop a class during this period is granted only with the signature of the instructor, who indicates grade status in the class, and the approval of the college dean or designee. Approvals are made in writing on prescribed forms. Students are not permitted to drop a class during the final three weeks of instruction, except in cases such as accident or serious illness where the cause of dropping the class is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. All such requests must be accompanied by appropriate verification. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except that credit, or an Incomplete, may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. Consult the current Class Schedule for more detailed information.

Auditing – “AU”

Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Failure to meet required class attendance may result in an administrative drop of the course. To enroll as an auditor, obtain the *Change to Audit Grade* form from the Office of the Registrar. Obtain instructor approval and return the completed form on or before the fifteenth day of instruction to the Office of the Registrar. Once enrolled as an auditor, the student may not change to credit status unless such a change is requested prior to the end of the fifteenth day of instruction. If enrolled for credit the student may not change to audit after the end of the fifteenth day of instruction.

Credit/No Credit Courses “Cr/NC”

Students may enroll for credit/no credit only in those graduate courses specifically designated as credit/no credit only.

The symbol “Cr” is used to report the satisfactory completion of Courses 797, 798, 799A, and certain 500- 600- 700- and 800-numbered courses specifically designated in this bulletin and the Class Schedule. Failure to complete satisfactorily such courses will result in the assignment of “NC.” No other 600, 700-, or 800-numbered courses may be taken for credit/no credit. No 500-numbered courses graded credit/no credit, except those offered only for credit/no credit, are acceptable on an advanced degree program.

A grade of “Credit” in graduate level courses is awarded for work equivalent to all grades that earn 3.0 or more grade points (A through B). “No Credit” is awarded for work equivalent to all grades which earn less than 3.0 grade points (B– through F).

Some specified sections of graduate level topics courses may be offered for credit/no credit provided the following statement is included in the course description in the Bulletin of the Graduate Division: “Specified sections of this course may be offered for credit/no credit. Refer to the Class Schedule.”

Authorized Incomplete Grade “I”

The symbol “I” (incomplete authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the student's responsibility to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. The conditions for removal of the Incomplete shall be reduced to writing by the instructor and given to the student with a copy placed on file with the department chair until the Incomplete is removed or the time limit for removal has passed. A final grade is assigned when the work agreed upon has been completed and evaluated. An Incomplete shall not be assigned when the only way the student could make up the work would be to attend a major portion of the class when it is next offered. Contract forms for Incompletes are available at department offices.

An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work within one calendar year will result in an Incomplete being converted to an “IC” symbol, unless the faculty member assigns a specific letter grade at the time the Incomplete is assigned, which would replace the “I” in the student's record at the end of the calendar year deadline. An Incomplete may not be removed by reenrollment in the course.

Candidates for graduation whose record carries a grade of Incomplete will be graduated provided they are otherwise eligible for graduation. However, the Incomplete cannot be made up after the degree has been granted, and it will be counted as an “F” for grade point purposes at the time of graduation. If students do not wish to be graduated with the grade of Incomplete on their record, they must officially cancel their application for graduation.

Incomplete Charged Grade “IC”

The symbol “IC” (incomplete charged) may be used when a student who received an authorized incomplete “I” has not completed the required coursework within the allowed time limit. The “IC” replaces the “I” and is counted as a failing grade for grade point average and progress point computation.

Withdrawal Unauthorized Grade “WU”

The symbol “WU” indicates that the student enrolled in a course, did not withdraw from the course, but failed to complete course requirements. It is used when, in the opinion of the instructor, the number of completed assignments or course activities or both were insufficient to make possible a normal evaluation of academic performance. For purposes of grade point average computation this symbol is equivalent to an “F.” If the student attended a portion of a course and then, after receiving failing grades, stopped attending without officially withdrawing, a final grade of “F” not “WU” should be assigned.

Assignment of Grades and Grade Appeals

1. Faculty have the right and responsibility to provide evaluation and timely assignment of appropriate grades.
2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.
3. If the student believes that an appropriate grade has not been assigned, the student should first seek to resolve the matter with the instructor of record. If the matter cannot be resolved informally, the student may present the case to the appropriate campus entity, have it reviewed and, where justified, receive a grade correction.
4. It is the student's responsibility to attempt to resolve grade disputes in a timely manner, typically during the semester following the semester the questioned grade was received. If twelve or more months have elapsed since the grade was issued, or the student has graduated, no grade change will be considered.

Computation of Grade Point Average

To compute the grade point average, divide the total number of grade points earned by the total number of units attempted in courses in which letter grades are assigned. Units earned with a Cr (credit) are not included in the computation. A grade of “I” (authorized incomplete) is not counted in the grade point computation until one calendar year has expired, at which time it will be changed to an IC (incomplete charged) and will count as an “F”. For details see the section of this bulletin under Basic Requirements for the Master's Degree.

Uncompleted Theses

A student who registers for Course 799A, Thesis, but does not complete the thesis or project by the end of the semester or summer session in which the student registers for it, will receive an RP (report

in progress) grade if the thesis committee chair so recommends. This grade symbol will remain on the student's record until the thesis is completed. **A second registration in Course 799A, Thesis, is prohibited.**

A student who has been assigned the grade symbol RP for the thesis is required to register for Course 799B (0 units, Cr/NC) in any semester or term in which the student expects to use the facilities and resources of the University. The student must be registered in the course when the completed thesis is granted final approval.

Withdrawals

A graduate student who has been admitted to a graduate degree curriculum but has completed no courses at this University for two consecutive semesters is considered to have withdrawn from the curriculum. The student will be required to file application for readmission to the University upon resumption of graduate study. A student who withdraws from a graduate curriculum will be required to comply with regulations and requirements in effect at the time of readmission to the Graduate Division.

Official Withdrawal

Students who wish to withdraw from the University must initiate action formally through the Office of the Registrar. Failure to withdraw will result in a failing grade in all courses. A student who has not paid fees and is not enrolled in at least one class (other than for audit) at the end of the fourth week of instruction (census date) is considered to have withdrawn from the University for that semester. Refunds are obtainable only for the first 11 class days after the start of classes. In order to receive a refund, the student must file an official withdrawal form and refund request at the Office of the Registrar within the first 11 class days of the term.

Withdrawal from the University is permitted before the end of the fifteenth day of classes. No courses or "W" designations will appear on the permanent record.

Dropping a course or courses after the tenth day of classes and prior to the last day of classes is permissible only with the signature of each instructor and the approval of the appropriate official of the college or department. Withdrawal from the University between the sixteenth day of classes and the last day of classes is permissible for classified or conditionally classified students only with the signature of each instructor and approval of the department chair or designee of the student's major. Postbaccalaureate (unclassified) students and those in the Interdisciplinary Studies major who wish to withdraw from the University must have the signature of each instructor and approval of the Graduate Dean or designee. Ordinarily, withdrawals during the final three weeks of instruction involve total withdrawal from the University, except where sufficient work has been completed in a specific course or courses to permit an evaluation to be made. Changes made after the last day of instruction are considered retroactive. Graduate students wishing to petition for retroactive changes should contact the Graduate Division to obtain a petition for late change of program and further instructions.

To be permitted to withdraw from a course or courses or to withdraw from the University, the student must have serious and compelling reasons due to circumstances beyond the student's control. Documentation of those reasons must be provided. Poor academic performance is not an acceptable reason for dropping a course or for withdrawal from the University. See the Class Schedule for more detailed instructions.

Students who are receiving financial aid funds must consult with the Office of Financial Aid prior to withdrawing from the University regarding any required return or repayments of grant or loan assistance received for that academic term. If a recipient of financial assistance under federal Title IV financial aid programs withdraws from the institution during a payment period, the amount of grant or loan assistance received is subject to return and repayment provisions governed by federal law.

Withdraw Retroactively. After the last day of the semester, a graduate student who wishes to withdraw retroactively should request withdrawal from the full semester's work. Such requests may be granted only in verified cases such as accident or serious illness where the cause for substandard performance was due to circumstances clearly beyond the student's control. Ordinarily, requests for withdrawals from individual classes will not be accepted. Retroactive withdrawals must be approved by the Graduate Dean or designee.

Unofficial Withdrawal

Students withdrawing unofficially from classes or from the University will receive failing grades in all courses that they stop attending. An unofficial withdrawal is one in which a student stops attending classes without filing official withdrawal forms within the established deadlines.

Veterans unofficially withdrawing will have veteran's allowances immediately suspended and will be subject to full repayment of allowances received after date of unofficial withdrawal.

Leaves of Absence

One-Semester Stop Out

With certain exceptions, matriculated graduate students may stop out of the University one semester in a calendar year and maintain continuing student status. Continuing status includes the maintenance of bulletin requirements for graduation. Disqualified students, students absent for more than one semester without an approved leave of absence, and those who attend another institution must apply for readmission should they wish to return to San Diego State University. Students who are disqualified are not eligible for a one semester stop-out.

Educational Leave of Absence

Students are permitted to take up to four semesters of approved leave of absence. An educational leave of absence is appropriate in those cases where students will be engaged for the majority of the leave time in an activity, other than attending an accredited college or university, that is directly related to their formal academic careers or otherwise contributes to specific academic goals. Students must apply for the particular semester they wish to be absent from school. If they wish to extend a leave for additional semesters, a separate request must be filed previous to the deadline for submitting leaves as outlined in the Academic Calendar.

Requests for a leave may be made at the Office of the Registrar by calling (619) 594-7800. If students wish to cancel a leave they must do so prior to the first day of classes by calling (619) 594-7800. The Class Schedule and Student Information Handbook lists specific deadlines. For students participating in the CSU visitors' program, units completed at the visitor campus will be considered resident units; they will not, however, be calculated into the San Diego State University grade point average.

Approval for educational leaves of absence will be granted only to graduate students who have completed a minimum of one semester at San Diego State University, who are in good academic standing, and who are eligible to register. Leaves will not be granted to students on probation, students who are subject to disqualification or have been disqualified, students who qualify for a change from undergraduate to graduate status, or students who have a registration hold.

Readmission

If not disqualified, an enrolled student is eligible to stay out one semester without penalty. No reapplication is necessary and registration information will automatically be mailed to the last address on file.

A student who withdraws from the University for more than one semester must file an application for readmission before the stated closing deadline with a \$55 application fee. If the student was enrolled at another institution subsequent to the last attendance at San Diego State University, an official transcript showing work completed must

be sent by the transfer institution directly to Graduate Admissions before readmission can be completed. SDSU students in good academic standing will retain their original catalog status if they are absent from the University for no more than one semester.

Repeated Courses

Ordinarily, a graduate student may not repeat courses that have been taken as part of the official master's degree program. With prior permission of the graduate adviser, however, a graduate student may repeat one course on the official program of study in which a grade of C, D, F or U has been received. When a graduate student in any category of admission repeats a course in which a C, D, or F has been earned, both grades will remain on the student's permanent record and both grades will be calculated in the grade point average. If a student repeats a course in which a U has been earned, the original U grade will remain on the permanent record, but only the second grade will be used in computation of the grade point average. A course in which a U has been earned may be repeated only once. Repeated courses may not be taken for credit/no credit. Students who have successfully repeated a "U" graded course should notify the Graduate Division if they wish immediate adjustment of their grade point average.

Probation and Disqualification

Scholastic Probation

A graduate student in any admission category shall be placed on academic probation if the student fails to maintain a cumulative grade point average of at least 2.75 in all units attempted subsequent to admission to the university.

Students in a graduate degree program in conditional or classified standing should consult the section of this bulletin entitled "General Requirements for Doctoral Programs" and "Basic Requirements for the Master's Degree" for grade point average requirements for degree seeking students.

Scholastic Disqualification

A graduate student in any admission category shall be subject to disqualification from further attendance at the University if, while on academic probation, the student fails to earn sufficient grade points to warrant removal from probationary status.

In addition, graduate students who have been admitted to an advanced degree program and whose performance therein is judged to be unsatisfactory, with respect to scholastic or professional standards established by the Graduate Council, will be subject to academic dismissal from their program and may also be academically disqualified from further attendance at the University by the Graduate Dean in consultation with the department (examples: failure to fulfill conditions for fully classified admission within the time specified; denial of advancement to candidacy for a degree; failure in presentation of a thesis or comprehensive examination).

Departments or schools of the University may also recommend that the Graduate Dean dismiss from the University any graduate student whose performance in a degree, certificate, or credential program is judged unsatisfactory with respect to the scholastic or professional standards of the program.

Petition for Readmission

A graduate student disqualified from further attendance at the University for any academic or professional reason may request reinstatement by filing a petition and a letter of support from the graduate adviser or chair of department with the Graduate Division. A student who has not attended the University for one or more semesters after disqualification will also be required to apply for readmission during the specified filing period if the petition is approved. Petition forms are available at the Graduate Division.

Reinstated students who were disqualified for failure to meet the scholastic or professional standards in a particular program may not subsequently enroll in courses carrying graduate credit in that program without approval of the program graduate adviser and the consent of the Graduate Dean. If reinstated students enroll in such courses without prior approval, the corresponding academic credit may not be used to meet the curricular requirements of that program. Such students may also be administratively disenrolled.

Administrative Academic Probation and Disqualification

Administrative Academic Probation

The Graduate Dean may place a student on administrative academic probation for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms.
2. Repeated failure to progress toward the stated degree or objective or other program objective when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation that is routine for all students or a defined group of students (examples: failure to list all colleges attended on the application for admission, failure to take placement tests, failure to complete a required practicum).

Administrative Academic Disqualification

A student who has been placed on administrative academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative academic probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative academic probation.
3. The student becomes subject to administrative academic probation for same or similar reason for which the student has been placed on administrative academic probation previously, although not currently in such status.

Student Discipline and Grievances

Inappropriate conduct by students or by applicants for admission is subject to discipline on the San Diego State University campus. The Office of Judicial Procedures coordinates the discipline process and establishes standards and procedures in accordance with regulations contained in Sections 41301 through 41304 of Title 5, *California Code of Regulations*. These sections are as follows:

41301. Expulsion, Suspension and Probation of Students.

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

- (a) Cheating or plagiarism in connection with an academic program at a campus.
- (b) Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
- (c) Misrepresentation of oneself or of an organization to be an agent of the campus.
- (d) Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.

- (e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.
- (f) Theft of, or nonaccidental damage to, campus property, or property in the possession of, or owned by, a member of the campus community.
- (g) Unauthorized entry into, unauthorized use of, or misuse of campus property.
- (h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis.
- (i) Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president.
- (j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.
- (k) Abusive behavior directed toward, or hazing of, a member of the campus community.
- (l) Violation of any order of a campus President, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.
- (m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section.
- (n) For purposes of this Article, the following terms are defined:
 - (1) The term "member of the campus community" is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.
 - (2) The term "campus property" includes:
 - (a) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and
 - (b) all campus feeding, retail or residence facilities whether operated by a campus or by a campus auxiliary organization.
 - (3) The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, sling-shot, billy, sandclub, sandbag, metal knuckles; any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm; any knife having a blade longer than five inches; any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.
 - (4) The term "behavior" includes conduct and expression.
 - (5) The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger or physical or emotional harm to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
- (o) This Section is not adopted pursuant to Education Code Section 89031.
- (p) Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this Article as in effect immediately prior to such effective date.

41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission.

Notwithstanding any provision in this section to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who while a student, commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for the California State University.

The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board actions taken under this section.

Student Grievances

If a student believes that a professor's treatment is grossly unfair or that a professor's behavior is clearly unprofessional, the student may bring the complaint to the proper University authorities and official reviewing bodies by following the **Procedures for Handling Student Grievances Against Members of the Faculty**, adopted by the Faculty Senate. A copy of the procedures may be obtained from the Ombudsman's Office in the Student Services building.

Plagiarism

Plagiarism is formal work publicly misrepresented as original; it is any activity wherein one person knowingly, directly, and for lucre, status, recognition, or any public gain resorts to the published or unpublished work of another in order to represent it as one's own. Work shall be deemed plagiarism: (1) when prior work of another has been demonstrated as the accessible source; (2) when substantial or material parts of the source have been literally or evasively appropriated (substance denoting quantity; matter denoting qualitative format or style); and (3) when the work lacks sufficient or unequivocal citation so as to indicate or imply that the work was neither a copy nor an imitation. This definition comprises oral, written, and crafted pieces. In short, if one purports to present an original piece but copies ideas word for word or by paraphrase, those ideas should be duly noted.

Lindey, Alexander. *Plagiarism and Originality*, 1952.

San Diego State University is a publicly assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. The President and faculty of this University are therefore obligated not only to society at large but to the citizenry of the State of California to guarantee honest and substantive knowledge in those to whom they assign grades and whom they recommend for degrees. Wittingly or willfully to ignore or to allow students' ascription of others' work to themselves is to condone dishonesty, to deny the purpose of formal education, and to fail the public trust.

The objective of university endeavor is to advance humanity by increasing and refining knowledge and is, therefore, ill served by students who indulge in plagiarism. Accordingly, one who is suspected or accused of disregarding, concealing, aiding, or committing plagiarism must, because of the gravity of the offense, be assured of thorough, impartial, and conclusive investigation of any accusation. Likewise, one must be liable to an appropriate penalty, even severance from the University and in some cases revocation of an advanced degree, should the demonstrated plagiarism clearly call into question one's general competence or accomplishments.

Maintenance of Integrity in Research

San Diego State University expects the highest standards of ethical behavior of all members of the academic community involved in the conduct of research, including graduate students. Although instances of misconduct in research are rare, reports of possible scientific fraud concerning faculty, staff, and graduate students employed in research contracts and grants are dealt with in accordance with the university's assurance of compliance with the United States Public Health Service scientific misconduct regulations. The administrative process for handling allegations of scientific misconduct and for protecting the **rights and reputations of all persons involved is detailed in the Policy on Maintenance of Integrity in Research** and published in the *SDSU Policy File*. Reports and/or charges of misconduct in research at SDSU should be directed to the chair of the department or dean of the college in which the alleged misconduct has occurred. Such reports may also be directed to the Associate Vice President for Research in Graduate and Research Affairs for referral to the appropriate college dean.

Transcripts of Record

Students may obtain an official transcript by filing a transcript request form at the University Cashiers Office. A fee is charged for all transcripts and must be paid in advance. Five to seven working days should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this University and will not be released or copied.

Unofficial Transcripts

Students may obtain an unofficial SDSU transcript by accessing the Web site at www.sdsu.edu/e-services. You may also obtain a copy from the Office of the Registrar. These transcripts are available on an immediate basis. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made of the SDSU transcript.

Final Examinations

No final examination shall be given to individual students before the time specified in the Class Schedule. Any student who finds it impossible to take a final examination on the date scheduled must make arrangements with the instructor to have an incomplete grade reported and must take the deferred final examination within the time allowed for making up incomplete grades.

Transfer, Extension, and Foreign University Credit

For most master's degree programs, the maximum transfer and San Diego State University extension course credit acceptable is 9 units. Exceptions are the Master of Business Administration degree, which permits 12 units; Master of Science degree in Nursing, which permits 12 units (including a maximum of 12 units of extension credit); the Master of Fine Arts degree in Art and the Master of Fine Arts degree in Theatre Arts, which permits 30 units (including a maximum of 9 units of extension credit); the Master of Fine Arts in Creative Writing which permits 18 units (including a maximum of 9 units of extension credit); the Master of Social Work degree which permits 30 units (including a maximum of 9 units of extension credit); Master of Science degree in Rehabilitation Counseling which permits 30 units (including a maximum of 9 units of extension credit); and the Master of Science degree in Counseling which permits 24 units (including a maximum of 9 units of extension credit). All credit earned in other colleges and universities including foreign universities or in San Diego State University extension courses is subject to approval by the appropriate graduate adviser and the Graduate Dean. Credit earned by correspondence, by examination, or by extension at other institutions is not accepted as satisfying advanced degree requirements.

Open University, Summer Program, and Other Special Sessions

Open University and special session courses are available to qualified students who have completed individual course prerequisites and who meet the standards for regular enrollment in the University. These courses carry residence credit, and enrollment for students not seeking an advanced degree or certificate does not require formal admission to the University. Students enrolled in such courses, however, do not enjoy access to the full range of student services.

Open University allows students to enroll in on-campus courses offered in the regular semester on a space available basis with the approval of the course instructor and the department chair. Special session classes are offered in the summer program and at other times as authorized by the appropriate campus authority. Registration for courses in Open University or in any special session is through the College of Extended Studies (see Part Five of this Bulletin).

Not more than nine units combined of coursework in Open University and special sessions completed prior to admission to an advanced degree or an advanced certificate program will be acceptable on a program of study. Admission to an advanced program requires formal admission to the University and enrollment in at least one course offered in the regular semester or term for which the student was admitted, a recommendation of the graduate adviser of the particular program, and the approval of the Graduate Dean. Once so matriculated, students may take additional courses in Open University to meet degree or certificate requirements only with the prior permission of the Graduate Dean.

Study List Limits in the Graduate Division

Full time enrollment for graduate students is nine units of coursework numbered 500 through 999. Enrollment in Thesis (799A) is considered full time for master's degree candidates; enrollment in Doctoral Research (897), Doctoral Dissertation (899), or Clinical Internship (Psychology 894) is also considered full time for students admitted to a doctoral program.

Graduate students who are employed as graduate teaching associates at San Diego State University are limited to 15 units of combined teaching assignments and coursework unless a request for

excess load is approved by department chair and the Graduate Dean. Graduate teaching associates who enroll for more units than authorized will not receive credit on their official degree programs for the excess number of units completed.

Graduate students employed as graduate assistants are limited to 20 hours of work per week combined with a maximum of 8 units of coursework. Any excess load must be approved by the department chair and the Graduate Dean. Graduate assistants who enroll for more units than authorized will not receive credit on their official programs for the excess number of units completed.

General Requirements for Doctoral Degrees

Doctoral programs at San Diego State University are offered jointly with other doctoral-granting institutions in California. In developing each program, there has been a consistent effort to provide students with a unique educational experience that is not duplicated on either campus alone. The University currently offers the degree Doctor of Philosophy (Ph.D.) in ten disciplinary areas and the degree Doctor of Education (Ed.D.) in three.

The Ph.D. is offered jointly by San Diego State University and cooperating universities in biology, chemistry, clinical psychology, engineering sciences/applied mechanics, language and communicative disorders, mathematics and science education, and public health with the University of California, San Diego; in ecology with the University of California, Davis; in computational science and education with Claremont Graduate University; and in geography with the University of California, Santa Barbara. The general requirements in these programs are identical; however, each program has some specific requirements that will be found in Part Three of this bulletin under Biology, Chemistry, Communicative Disorders, Computational Science, Ecology, Education, Engineering, Geography, Mathematics and Science Education, Psychology, and Public Health.

The Ed.D. is offered jointly with the University of San Diego in educational technology and teaching and learning. The specific requirements for this program will be found in Part Three of this bulletin under Education.

Admission to Graduate Study

An applicant for admission to a doctoral program must be admitted to regular graduate standing in the appropriate campus of the University of California, the Claremont Graduate University or the University of San Diego and to San Diego State University. Fees and regulations governing the doctoral programs are found in the Bulletin of the Graduate Division of San Diego State University and in the Graduate Studies Bulletins of each of the cooperating campuses. Formal admission to the two universities with appropriate graduate standing occurs when the student is formally accepted by each of the two universities. Applicants are advised to consult the appropriate program director at San Diego State University for specific details on application procedures.

Residence Requirements

After formal admission to a doctoral program, the student must spend at least one year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the university cooperating with SDSU. At San Diego State University, the minimum of one year of full-time residence consists of registration in and completion of at least six semester units each semester of the required year's residence. Except for the Ph.D. program in education, students must be enrolled or pay a continuation fee at one campus or the other each semester or quarter in order to maintain good standing.

Financial Support

Ph.D. students are eligible to apply for financial aid through the Financial Aid Office at San Diego State University. Students pursuing the Ed.D. should apply for aid through the Financial Aid Office at the University of San Diego. The SDSU Foundation provides some scholarship funds to cover all or part of the fees and tuition required by each

institution for students in many of the doctoral programs. These funds are partially derived from the Richard G. Ahrens Memorial Scholarship and Reuben C. Marks Endowment Funds. In addition, most programs offer doctoral students financial support by providing appointments as research assistants, graduate assistants, or graduate teaching associates.

Procedures

Doctoral students are expected to make steady progress toward completion of requirements for the degree. The time required depends less on units of credit or semesters of attendance than it does on the mastery of the subject matter field and completion of a satisfactory dissertation. Doctoral students must maintain a 3.0 grade point average in all coursework attempted to remain in good standing. Some programs may have additional GPA requirements.

Information on records, transcripts, fees, details of registration, petitions, and rules and regulations governing graduate students enrolled in the doctoral program is available from each of the two cooperating institutions for each degree program.

Qualifying Examinations, Advancement to Candidacy, and the Dissertation

Although the procedural details of each doctoral program vary somewhat within the different programs, the general requirements are:

1. The student is examined by a committee representing the faculty of the cooperating institutions for knowledge of the field of study. This Qualifying Examination ordinarily consists of both written and oral parts. The purpose of this examination is to satisfy the faculty of the cooperating departments that the student is adequately prepared in the discipline to warrant continuation in the program.
2. After passing the Qualifying Examination the student applies to the graduate dean at the cooperating campus with which the student is associated for advancement to candidacy. After approval by both graduate deans, the student will be notified of advancement to candidacy by the graduate dean of the University of California campus, the Claremont Graduate University, or the University of San Diego.
3. A dissertation on a subject chosen by the candidate and approved by a committee appointed by the graduate deans of the cooperating institutions is required of every candidate. Approval of the dissertation by this committee affirms that the candidate has conducted an organized, independent investigation that has added significantly to the body of knowledge in the particular field and that has been reported in a satisfactory manner. Upon completion of the dissertation, the candidate must pass an oral examination conducted by a joint committee in which the student is required to show the relationship of the dissertation to the general field in which the subject lies and to answer specific questions concerning the investigations. In addition to meeting the requirements of the cooperating campus for filing the dissertation, Ph.D. students are required to provide one bound copy of the dissertation for deposit in the San Diego State University library. Binding must meet the ALA library standard. Ed.D. students will deposit their dissertation with the Thesis and Dissertation Review Service at San Diego State University.

- San Diego State University requires that the student be enrolled in 899 (Dissertation) in the term in which the dissertation is turned in. Students are also required to fill out the Survey of Earned Doctorates at both SDSU and the cooperating campus at the time the dissertation is submitted.

Dissertation Research Involving Human Subjects or Animal Subjects

Committee authorization must be obtained in advance of conducting research involving humans or animals. Failure to observe this requirement could result in the refusal of the University to accept the completed thesis.

Research in which information is obtained about an individual through the use of a survey, interview, observation or experimentation or which involves analysis of previously collected human tissues, records, samples or other existing or secondary data is subject to review and approval by the Committee on Protection of Human Subjects (CPHS) on each campus. CPHS review application materials and guidance on the SDSU campus may be obtained via the Internet at gra.sdsu.edu/cphs or through the Division of Research Administration.

Students planning to conduct research that involves the use of live, vertebrate animals must receive approval from the University Animal Subjects Committee (UASC).

Upon receipt of written authorization from the relevant committee, CPHS or UASC, students may initiate their research and register for dissertation if all other requirements are met.

Award of Degree

The degree Doctor of Philosophy in Biology, Chemistry, Clinical Psychology, Computational Science, Ecology, Education, Engineering Sciences/Applied Mechanics, Geography, Language and Communicative Disorders, Mathematics and Science Education, or Public Health will be awarded jointly by the Regents or Trustees of the cooperating institution and the Trustees of The California State University in the names of San Diego State University and the appropriate cooperating university campus. The degree of Doctor of Education will be awarded jointly by the Trustees of The California State University and the Trustees of the University of San Diego. Students are encouraged to participate in the commencement ceremonies of both institutions providing they have completed all degree requirements, including the submission of copies of the approved dissertation by the deadlines of the respective institutions. The deadline dates of the cooperating institutions will vary. Students who intend to participate in the commencement ceremonies at San Diego State University should consult the academic calendar for the last date to submit an approved copy of the dissertation to the Graduate Division. San Diego State University also requires that students apply for graduation in any term they intend to graduate. Consult the academic calendar for the deadline date.

Basic Requirements for Master's Degrees

To receive the master's degree at San Diego State University, the candidate must complete the following general requirements as well as the more specific requirements listed in the appropriate sections of Part Three of this bulletin.

Official Programs of Study

Official programs of study are to be submitted to the Graduate Division for approval after the student has been granted classified graduate standing. The program must be submitted prior to or concurrent with the time the student wishes to be considered for advancement to candidacy. The requirements governing the official program will be those specified in the bulletin in effect at the time the program is approved in the Graduate Division.

Official master's degree programs of study, as recommended by the graduate adviser and approved by the Graduate Dean, are binding unless the student withdraws from the University. Withdrawal is defined as having taken no courses during a calendar year.

A student who withdraws from the University and is later readmitted with classified graduate standing may, with the recommendation of the graduate adviser and the consent of the Graduate Dean, continue with the original official program of study or may be required to submit a new program that complies with the requirements of the current *Bulletin of the Graduate Division* in effect at the time of readmission.

When course requirements listed on an official master's degree program deviate from those prescribed in the *Bulletin of the Graduate Division*, the student must submit to the Graduate Dean a petition for adjustment of academic requirements.

It is the student's responsibility to complete the specific courses listed on the official program of study. No changes will be permitted unless recommended by the graduate adviser and approved by the Graduate Dean. No course can be deleted from an official program of study after the course has been completed. This includes a course for which a student has registered and received an "Incomplete" or "Report in Progress" grade.

Foreign Language Requirement

Some departments require students to pass a foreign language examination prior to advancement to candidacy, or in some cases, prior to graduation. See Part III of this Bulletin for details.

Advancement to Candidacy

A student who holds classified graduate standing and who meets the scholastic, professional, and personal standards of the University may be considered for advancement to candidacy for the master's degree at the point of submission of the official program of study and has been recommended by the graduate adviser and approved by the Graduate Dean. For the Master of Arts, the Master of Science, the Master of Business Administration, the Master of Music, the Master of Public Administration, and the Master of Public Health degrees, a student may be advanced to candidacy after completing at least 12 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the Master of City Planning, the Master of Science in Counseling, the Master of Science in Rehabilitation Counseling, and the Master of Social Work degrees, the student must have earned at least 24 units of coursework listed on the official

program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Art, or the degree of Master of Fine Arts in Theatre Arts, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Creative Writing, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.25.

In addition to having classified graduate standing and the grade point averages specified above, the student must (1) have maintained the required grade point averages with no grade of less than 2.0 (C) in a program course; (2) have completed all the undergraduate deficiencies and the special requirements of the department or school concerned; (3) have passed the foreign language examination if required; (4) have been recommended for advancement to candidacy by the department or school concerned; and (5) have been approved for advancement by the Graduate Dean. The Graduate Division will send the students written notification of advancement to candidacy.

A student may not enroll in 799A or take a Plan B comprehensive examination until advanced to candidacy. Further, a student may not be advanced to candidacy and awarded an advanced degree in the same term.

Unit Requirements

Credit earned by correspondence or by examination is not acceptable on advanced degree programs. Courses applied toward one advanced degree may not be used to fulfill the requirements of another advanced degree.

Master of Arts, Master of Music, Master of Science, and Master of Public Administration Degrees

Thirty units (36 units for the Master of Public Administration and the Master of Science degree in Psychology) of approved 500-, 600- and 700-numbered courses earned in graduate standing. At least half of the units required must be in 600- and 700-numbered courses. Not more than nine units in approved extension and transfer courses may be used to satisfy the minimum unit requirement for the degree. Courses required to remove undergraduate deficiencies are in addition to the minimum number of units required for the degree. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Business Administration Degree

Forty-nine units of 500-, 600-, and 700-level courses specified by the College of Business Administration. A maximum of six units of 500-level courses are acceptable. Up to 12 units of coursework may be accepted for transfer credit. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of City Planning Degree

Forty-eight units of approved 500-, 600- and 700-numbered courses earned in graduate standing, at least 39 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 48 units for the degree. **Not more than a total of nine units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Art Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Art at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **No more than a total of nine units in course 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Creative Writing Degree

Fifty-four units of 500-, 600- and 700-numbered courses specified by the Department of English and Comparative Literature, at least 36 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 54 units for the degree. **No more than a total of six units in course 798 will be accepted for credit toward the degree.**

Master of Fine Arts in Theatre Arts Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Theatre, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **Not more than a total of six units in course 798 will be accepted for credit toward the degree.**

Master of Public Health Degree

Forty-eight units (55 units for the health services administration concentration with a specialization in health services management; 34 units in the specialization in public health management) of approved 500- 600- and 700-numbered courses earned in graduate standing. Up to six units of coursework may be accepted for transfer credit. Courses required to remove undergraduate deficiencies are in addition to the minimum units required for the degree. Twelve additional units of field experience are required unless the student has previous equivalent experience as determined by the graduate adviser. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Science in Counseling Degree

Sixty to sixty-two units of 600- and 700- numbered courses specified by the Department of Counseling and School Psychology. Up to 24 units of coursework may be accepted for transfer credit. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Science in Nursing Degree

A minimum of 39 units of 500-, 600-, and 700- numbered courses specified by the School of Nursing. Some specializations require up to 11 additional units. Courses required to remove undergraduate deficiencies are in addition to the minimum number of units required in each specialization. Up to 12 units of coursework may be accepted for transfer credit. **Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.**

Master of Science in Rehabilitation Counseling Degree

Sixty units of 600- and 700-numbered courses specified by the rehabilitation counseling program, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. **Not more than a total of nine units in course 744 will be accepted; not more than a total of nine units in courses numbered 743 and 745 will be accepted.**

Master of Social Work Degree

Fifty-eight units of 500-, 600- and 700-numbered courses specified by the School of Social Work at least 28 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 58 units for the degree.

Grade Point Averages

Grade point averages of at least 3.0 (B) must be maintained in:

1. All courses listed on the official degree program required to complete undergraduate deficiencies.
2. All courses listed on the official degree program.
3. All courses, 300-level and above, taken at San Diego State University concurrently with or subsequently to the earliest course listed on the official degree program, including courses accepted for transfer credit.

No transfer or extension credit may be used to improve the grade point average of units completed at San Diego State University whether computed to determine the average on the official degree program or the overall average.

Grade Restrictions for Master's Degree Programs

No course in which a final grade below "C" (2.0) was earned may be used to satisfy the requirements for an advanced degree. No 500-numbered courses graded Credit/No Credit except those offered for Credit/No Credit only are acceptable on a master's degree program. No undergraduate courses graded Credit/No Credit may be assigned to the deficiencies listed on a master's degree program. At least 70 percent of the units used to fulfill the minimum requirements on a master's degree program shall be letter graded.

Units graded Credit/No Credit earned in practica, field experiences, and internships explicitly stated as specific requirements for a graduate degree will not be included in the determination of the number of non-lettergraded units allowable on the program of study.

Degree Time Limitations

In all masters' degree and advanced certificate curricula offered at San Diego State University, any course completed more than seven years prior to the date on which all requirements for the degree are completed cannot be used to satisfy unit requirements of the official program of study. This includes a course for which a student has registered and received an "Incomplete" or "RP" grade. On the recommendation of the department or school concerned, the Graduate Council may extend the time for students who pass an examination covering the content of each outdated course. With the approval of the graduate adviser and the Graduate Dean, an outdated course may be repeated, a more recently completed course substituted, or additional coursework of equal unit value assigned. Specifically required courses must either be repeated or validated by examination. In some instances, the graduate adviser and the Graduate Council may authorize students in Plan A to validate outdated courses by passing a comprehensive examination in the subject field of the degree.

Students validating by examination either individual courses or an entire program will be required to specify a date certain by which all requirements for the degree will be completed. Only in exceptional circumstances will this time limit exceed one calendar year from the date of validation. A course or program may be validated by examination only once.

A course completed prior to seven years of the date that the official master's degree program is approved cannot be listed on the program.

Thesis, Plan A and Non-Thesis, Plan B

Satisfactory completion of a thesis, project, or comprehensive examination, is defined as follows:

(a) A thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and the methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization, language, and format, high level of writing competency, and thorough documentation. Normally, an oral defense of the thesis is required.

(b) A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form, language use, and organization, and a rationale. It is described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

(c) A comprehensive examination is an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. The results of the examination evidence independent thinking, appropriate organization, high level of writing competency, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of The California State University.

Plan A, requiring a thesis or project, may be selected by a student seeking the master's degree provided the department or school concerned approves the listing of Course 799A, Thesis, on the official program of study. Three units of "Cr" are granted for the satisfactory completion of the thesis or project following its acceptance by the student's faculty thesis committee, the department or school concerned, and the Graduate Council. Assigning of "Cr" grade for the thesis or project is the responsibility of the Graduate Division. Registration in Course 799A, Thesis, is required; however, students will not be permitted to register for this course until they have received official notification of advancement to candidacy from the Graduate Division and have an officially approved thesis or project committee form on file in the Graduate Division. The student must obtain clearance for registration in Thesis from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment in 799A.

Two microfiche copies and one bound copy of all master's theses or projects are accessioned by the library of San Diego State University and are subject to the regulations of the library with respect to the circulation or duplication of its cataloged materials. Students should obtain a current edition of the *Master's Thesis and Project Manual*. The manual is available at Aztec Shops Campus Store.

Plan B, requiring a comprehensive written examination in lieu of a thesis, may be followed in certain graduate degree curricula as indicated in Part Three of this bulletin. Dates on which comprehensive examinations are given are determined by the department or school concerned. Results of comprehensive examinations must be reported to the Graduate Division by the department or school. Refer to the academic calendar in Part One of this bulletin for deadline dates. To be eligible to take the Plan B comprehensive examination, the student must have been advanced to candidacy.

Thesis Committee

In consultation with the graduate adviser, a student will select a chair for the thesis committee. The student, the graduate adviser, and the thesis committee chair select the other faculty members who will be asked to serve on the thesis committee. The student must obtain the signature of the thesis chair, the other committee members, and the graduate adviser on the Appointment of Thesis Committee Form and submit that form to the Graduate Division. Determination of whether the research will involve human or animal subjects must be

made at this point (see next section). If human or animal subjects will be used, appropriate authorization for such use must accompany the Thesis Committee Form when it is submitted to the Graduate Division. After the committee is approved, the student may enroll in Course 799A, Thesis, through the Graduate Division. Enrollment must occur during the normal registration period each semester. Dates are listed in the academic calendar each year.

Normally, the thesis committee is composed of three full-time faculty members. At least two of the members of the thesis committee, including the chair of the committee, must hold permanent faculty appointments. Two of the committee members should be members of the department or of the interdisciplinary faculty group in which the thesis is written. The third committee member should be from a department other than the department in which the thesis is written. For complete information on composition of a thesis committee, students should see Appendix C of the *Master's Thesis and Project Manual*.

Theses in Foreign Languages

As presentations of original research to the academic community, theses are ordinarily prepared for the University in the English language. In certain cases, however, a student's thesis in the history and literary analysis of non-English languages and literatures may be presented in the subject language. When the departmental graduate adviser and the prospective thesis committee deem this academically appropriate for the specific research topic, the appointment of the student's thesis committee and authorization of the thesis research by the Graduate Dean shall be based on the provisions that (1) an abstract of the thesis shall be presented in English; (2) all members of the thesis committee shall be fluent in the subject language; and (3) student competency in standard written English shall be demonstrated through satisfactory completion of a departmental procedure that has been approved by the Graduate Dean.

Submission of Theses

Final submittal of a thesis requires the formal approval of the officially appointed faculty thesis committee and acceptance of the thesis by the Graduate Dean for deposit in the University Library. The Dean will only accept thesis manuscripts that conform to the format and presentation requirements specified by the Graduate Council and the sponsoring department. The Council requirements are fully presented in the San Diego State University *Master's Thesis and Project Manual*.

The University requires that the student be enrolled in 799A, Thesis, or 799B, Thesis Extension, in the term in which the thesis is granted final approval by the faculty committee and submitted to the Graduate Division for format review. Unless the thesis manuscript is deemed unready for submission (see below), students will not be required to reregister for Thesis in any subsequent term if the thesis is submitted to the Thesis Review Service by the end of the last working day of the semester or summer term in which the student is enrolled in 799A or 799B. Consult the academic calendar in Part One of this bulletin for specific deadline dates. A "credit" grade will not be recorded or the degree awarded, however, unless the thesis has been approved by the Thesis Review Service and arrangements made to deposit the required copies in the University Library (this can be done most conveniently through Montezuma Publishing of the Aztec Shops. If this final process is not completed by the noon deadline date listed in the academic calendar, the student will be required to reapply for graduation in any subsequent term in which he or she expects to graduate.

Manuscripts deemed unready for submission, as determined by the Graduate Dean, will be rejected and returned to the student. Manuscripts will be rejected if there are gross deficiencies of format or presentation or if they are incomplete. Students who cannot meet the final deadline for submission because of such rejection will be required to reenroll in Thesis as well as to reapply for graduation.

Students are expected to make all required changes and submit the final revised manuscript within 30 days following the date of the initial review by the Thesis Review Service. Students who fail to complete the submission process within this period may be required to repeat the process in the term in which the thesis is completed.

Final Approval

The student's official program of study, as approved by the graduate adviser and the Graduate Dean, and all required examinations must be completed satisfactorily in order for the Graduate Council to recommend a student for an advanced degree.

Writing Competency

The University requires that all candidates for an advanced degree demonstrate writing competency in the English language. This requirement may be met by successful completion of the written comprehensive examination in Plan B or final approval of a thesis or project in Plan A.

In accordance with the Americans with Disabilities Act, individuals with a disability who are in need of an accommodation in order to fulfill this requirement should so notify their graduate adviser and appropriate accommodation(s) shall be made.

Application for Graduation

Graduation is not automatic on the completion of degree requirements. An application must be filed in the Graduate Division during the semester or term in which the student expects to be graduated. Refer to the academic calendar preceding Part One of this bulletin for deadline dates.

There is a \$35 graduation services fee. Students who do not graduate in the semester or term for which they have applied must reapply and pay the \$35 graduation services fee in the subsequent semester or term in which they expect to be graduated.

Award of Degrees

Upon the recommendation of the faculty of San Diego State University, the Board of Trustees of The California State University awards the appropriate degree to a student who has completed the prescribed course of study.

Diploma

The Graduate Division will mail the appropriate diploma to the student approximately eight to ten weeks after the date of graduation.

Courses and Curricula

This section contains the specific requirements for all graduate degrees authorized at San Diego State University by the Board of Trustees of The California State University. These specific requirements of departments or schools supplement and are in addition to the basic requirements for advanced degrees as stated in Part Two of this bulletin. All official master's degree programs must be prepared in conformity with the specific requirements for the degree in question.

In addition, courses acceptable for credit toward an advanced degree are listed under major fields and areas of concentration. Each course is listed by department number, title, and units. Not all courses are offered every semester or every academic year. Ordinarily each listed course will be offered not less than once during a two-year period. Refer to the *Class Schedule* or the *Summer Session Class Schedule* for a listing of course offerings.

San Diego State University reserves the right to withdraw any course listed in the class schedule for which the enrollment is not sufficient to warrant the organization of a class.

Postbaccalaureate (Unclassified) Enrollment

A postbaccalaureate student (unclassified) is not eligible to enroll in 600-, 700-, 800-, and 900-numbered courses except 997 by special permission of the instructor and the graduate adviser of the school or department in which the course is offered. All credit earned by a postbaccalaureate student (unclassified) is subject to evaluation as to its acceptance for graduate credit in a master's degree curriculum. Classified or conditionally classified students whose status is changed to postbaccalaureate (unclassified) for any reason may not enroll in any 600-, 700-, 800-, or 900-numbered course in the program in which they were previously classified without the consent of the graduate adviser of the program and the Graduate Dean. Students who enroll in such courses without consent may be administratively disenrolled or, if they complete any courses, those courses may not be used subsequently to meet degree requirements.

Prerequisites for Graduate Courses

Students must satisfy course prerequisites (or their equivalent) prior to beginning the course requiring the prerequisite. Faculty have the authority to enforce prerequisites listed in the bulletin, to evaluate equivalent preparation, and to require proof that such prerequisites/

preparation have been completed. Faculty may, during the first week of classes, request students without the prerequisites or equivalent preparation to take formal action to drop the course. Failure to comply will result in a failing grade.

Special Prerequisites for Registration in 798 and 799A

Registration in course 798, Special Study, must be arranged through the instructor, the major adviser, and the chair of the department concerned. Forms for this purpose are available in the departmental offices.

Only those students who have been advanced to candidacy and who have an officially appointed thesis committee are permitted to register for course 799A, Thesis. The student must obtain clearance for registration in this course from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment.

Special Prerequisite for Registration in 899

Registration in course 899, Doctoral Dissertation, is limited to those doctoral students who have been advanced to candidacy and who have an officially appointed dissertation committee.

Thesis Extension (799B)

This course is intended solely for those graduate students who have had prior registration in Thesis 799A with an assigned grade symbol of SP or RP. Students are required to register in 799B (0 units, Cr/NC) in any semester or term following assignment of RP in course 799A in which they expect to use the facilities and resources of the University. They must also be registered in the course when the completed thesis is submitted for review.

Unit or Credit Hour

In the listing of courses that follows, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester.

Anthropology

In the College of Arts and Letters

Faculty

Ronald S. Himes, Ph.D., Professor of Anthropology,
Chair of Department
Joseph W. Ball, Ph.D., Professor of Anthropology
Philip J. Greenfeld, Ph.D., Professor of Anthropology
Edward O. Henry, Ph.D., Professor of Anthropology
Larry L. Leach, Ph.D., Professor of Anthropology
Lois K. Lippold, Ph.D., Professor of Anthropology
Wade C. Pendleton, Ph.D., Professor of Anthropology
Mary Jane Moore, Ph.D., Associate Professor of Anthropology
(Graduate Adviser)
Lynn H. Gamble, Ph.D., Assistant Professor of Anthropology
Seth W. Mallios, Ph.D., Assistant Professor of Anthropology
Ramona L. Pérez, Ph.D., Assistant Professor of Anthropology

Associateships

Sources of financial assistance available to qualified graduate students in anthropology each academic year include two Norton Allen Scholarships, the Paul Ezell Internship in Archaeology and occasional graduate teaching associateships. Application forms and additional information may be obtained from the chair of the department.

General Information

The Department of Anthropology offers graduate study leading to the Master of Arts degree in anthropology. The Master of Arts degree in anthropology provides systematic training through two specializations; (1) general anthropology specialization, with a strong theoretical component, for students who anticipate additional work leading to the doctoral degree in anthropology, or direct placement in an academic setting; (2) an applied anthropology specialization primarily for those who plan to seek employment in the nonacademic sector. This specialization is concerned with the application of anthropological method and theory to practical problems in business, government, and other settings.

Research and special instructional facilities provided by the Department of Anthropology include laboratories for archaeology, ethnology, linguistics, physical anthropology, and world prehistory. Additional facilities available in the community include the Museum of Man, the San Diego Zoo, and various internship sites for applied research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in anthropology must have completed or complete at least 15 upper division units including Anthropology 301, 302, 303, and 304, or the equivalent to those required for an undergraduate major in anthropology at San Diego State University. Students receiving a bachelor's degree in anthropology from San Diego State University must have at least a B average (3.0 grade point average) in the four 300-level core courses (Anthropology 301, 302, 303, and 304). Applicants from other undergraduate programs must have a B average in the courses equivalent to Anthropology 301, 302, 303, and 304. The student must also have an overall 3.0 (B) grade point average in all undergraduate courses or consent of the department.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Anthropology:

- (1) Two sets of official transcripts (in sealed envelopes) from all post high school institutions;
- (2) GRE scores (official notification);
- (3) A copy of your University application;
- (4) Three letters of recommendation (in sealed and signed envelopes) from persons in a position to judge academic ability;
- (5) One typewritten example of academic writing (research term paper, etc.).

Materials should be submitted by October 1 for admission for the Spring semester and March 1 for the Fall semester.

Mail or deliver your complete admissions package to:

Department of Anthropology
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4443

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students completing the General Anthropology specialization must: (1) satisfactorily complete all four core seminars (601, 602, 603, and 604) with a minimum grade point average of 3.0, and no less than a B- grade in each of the four core seminars, and (2) according to the specific recommendation of the Department of Anthropology, pass either an examination demonstrating working knowledge of an appropriate foreign language, or complete a sequence of at least one lower division and one upper division course (with a grade point average of 2.0 or better) in either:

- (a) Foreign language recommended by the department, or
- (b) Anthropology 580 (Anthropological Data Analysis) or one of the following sequences in statistics: Biology 215 and 597A; Sociology 201 and 406 or 407; Statistics 250 and 350A.

In addition to the above, the student must meet a third requirement for advancement to candidacy: an approved thesis proposal.

Those students who choose the Applied Anthropology specialization must: (1) satisfactorily complete three core seminars (601, 602, 603, or 604) selected with the approval of the graduate coordinator with a minimum grade point average of 3.0, and no less than a B- grade in each of the three core seminars; (2) satisfactorily complete Anthropology 621; and (3) satisfactorily complete a lower division course in quantitative methods (Biology 215, Psychology 270, Sociology 201, or Statistics 250) and Anthropology 580 (Anthropological Data Analysis) with no less than a B- in each course. An approved thesis proposal is also required for advancement to candidacy for students who choose the applied anthropology specialization.

Specific Requirements for the Master of Arts Degree

(Major Code: 22021)

In addition to meeting the basic requirements for the Master of Arts degree as described in Part Two of this bulletin, students selecting the General Anthropology specialization must complete a graduate

program of at least 30 units of which at least 21 units must be in 600- and 700-numbered courses in anthropology, to include:

1. Anthropology 601, 602, 603, and 604 (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars); only classified students may enroll in these courses);
2. Anthropology 797, Research (3) (to be taken after advancement to candidacy);
3. Anthropology 799A, Thesis (3).

Students selecting the Applied Anthropology specialization must complete a graduate program of at least 30 units, of which at least 21 units must be in the 600- and 700-numbered courses in anthropology, or with the approval of the graduate coordinator, in related disciplines. The coursework for this specialization must include:

1. Nine units of core seminars chosen from Anthropology 601, 602, 603, or 604 with the approval of the graduate coordinator (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars);
2. Anthropology 580 (3) and Anthropology 621 (3) (courses to be taken prior to advancement to candidacy and prior to internship placement);
3. Anthropology 795 (6) (to be taken after advancement to candidacy);
4. Anthropology 799A, Thesis (3).

All graduate students must take a final oral examination on the general field of the thesis which must be passed as a requirement for the degree. Only Plan A, requiring the thesis, is permitted for the Master of Arts degree in anthropology.

Courses Acceptable on Master's Degree Program in Anthropology (ANTH)

UPPER DIVISION COURSES

500. Primate Social Behavior (3)

Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.

Analysis of modes of primate socialization and development of social behavior with emphases on communication, group structure, aggression, and sex. Various methods of analysis and observation practiced utilizing primate collection at the San Diego Zoo.

501. Paleoanthropology (3)

Prerequisite: Anthropology 101. Recommended: Anthropology 301.

Fossil evidence for human evolution. Comparative and functional anatomy of fossil human and infrahuman primates; geochronology, paleoecology, and cultural associations; taxonomic implications.

503. Human Variation (3)

Prerequisite: Anthropology 101.

Morphological, physiological and genetic aspects of human variability. Significance of this diversity in the biological adaptations of human populations.

505. Human Osteology (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 101. Recommended: Anthropology 301 and/or Biology 212.

Identification of individual bones and teeth; sex, age, and racial variation; stature reconstruction; continuous and discontinuous morphological variations; paleopathology. Training in observations, measurements, and analyses.

508. Medical Anthropology (3)

Prerequisite: Anthropology 101 or 102.

Evolution and ecology of disease, medical beliefs and practices in non-Western cultures, and complexities of health care delivery in pluralistic societies.

509. Culture and Biological Aging (3)

Prerequisite: Anthropology 101 or 102.

Do different populations age at different rates? Theories of biological aging, genetics of longevity and cultural influences on biological aging. Process of aging and role of the aged in various cultures.

520. Ethnographic Field Methods (3)

Prerequisite: Anthropology 102.

Problems and techniques of field work in ethnographic and social anthropological research; field work projects conducted using various qualitative and quantitative research techniques. Students work with informants in various settings.

529. Urban Anthropology (3)

Prerequisite: Anthropology 102.

Urban adaptations of past and present societies. Descriptive topics and applied concerns regarding urban origins, migrations, kinship, ethnicity, stratification, and change. Ethnographic examples drawn from Western and non-Western societies.

531. Applied Anthropology (3)

Prerequisite: Anthropology 102.

Application of anthropological concepts to solve human problems in a wide range of areas including research such as social impact assessment and evaluation, and interventions such as cultural brokerage and community development. Examples of applied work used from both western and non-western societies.

535. Sex, Gender, Kinship, and Marriage (3)

Prerequisite: Anthropology 102.

Anthropological theories and typologies relating to kinship and marriage systems, their history, their relationship to cultural practices, their implications for constraints on sexual practices, and their significance in definition of gender and gender hierarchies in world societies.

560. Advanced Archaeological Field Techniques (3)

Six hours of activity.

Prerequisite: Anthropology 312.

Advanced projects in excavation and stabilization of ruins, archaeological surveys, laboratory analysis, preparation of reports, and act as unit supervisor. Course may be repeated with consent of instructor. Maximum credit six units.

561. Archaeological Laboratory Methods (3)

Two lectures and three hours of laboratory.

Prerequisite: Anthropology 560.

Application of palynology, paleontology and relevant technologies. Individual laboratory research project required.

580. Anthropological Data Analysis (3)

Two lectures and three hours of laboratory.

Prerequisites: Anthropology 101 or 102 and a statistics course. Recommended: Psychology 270 or Sociology 201.

Computer oriented data analysis class utilizing anthropological data sets. Special section of the SPSS computer workshop is required.

582. Regional Anthropology (3)

Prerequisite: Anthropology 102.

Study of societies in a major geographical region of the world such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

583. Topical Anthropology (3)

Prerequisite: Anthropology 102.

Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, anthropological genetics, or environmental archaeology. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

GRADUATE COURSES

600. Seminar (3)

An intensive study in advanced anthropology. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

601. Seminar in Physical Anthropology (3)

Prerequisite: Classified graduate standing and 12 upper division units in anthropology.

History and theory in physical anthropology stressing the significant literature on such topics as functional anatomy, human paleontology, population genetics, and primatology.

602. Seminar in Archaeology (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory in archaeological data collection, analysis, and interpretation.

603. Seminar in Ethnology (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory in ethnology stressing the significant literature on such topics as cross-cultural comparison, structural-functional analysis and description, personality and culture, and sociocultural change.

604. Seminar in Linguistics (3)

Prerequisite: Twelve upper division units in anthropology.

History and theory of linguistics stressing the significant literature on such topics as cultural cognition, descriptive linguistics, lexicostatistics, and transformational analysis.

621. Seminar in Topical Anthropology (3)

Prerequisite: Twelve upper division units in anthropology.

Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, race and variation, or

environmental archaeology. Maximum credit six units applicable to a master's degree. May be repeated with new content. See Class Schedule for specific content.

795. Internship in Anthropology (3-9) Cr/NC

Prerequisites: Classified graduate standing and consent of instructor.

Students assigned to various government and private agencies in which anthropological theory can be applied. Supervision shared by department supervisor and on-the-job supervisor. Maximum credit nine units; three units applicable to a master's degree.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Independent investigation in the general field of the thesis.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study directed toward the preparation of a paper on a specific problem. May be repeated with variable content, with a maximum credit of three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis, 799A, with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Assistantships and Tuition Waivers

Graduate assistantship and teaching associate positions in art are available to a limited number of qualified students. Application forms and additional information may be secured from the director of the school. Tuition waivers for out-of-state and international students are also available on a limited basis. Applicants should contact the graduate coordinator for more information.

General Information

The School of Art, Design and Art History offers graduate study leading to the Master of Fine Arts degree in art and the Master of Arts degree in art. The objectives of the graduate program in all areas of

specialization are to provide the essential education, technical training and creative experience necessary for professional activity or college-level teaching in the visual arts.

The Master of Arts degree is a 30-unit graduate program requiring one to two years to complete. The M.A. concentration in studio arts is designed to prepare students for proficient and successful practice as professional artists and is offered in the following areas: ceramics, environmental design, furniture, graphic design, interior design, jewelry/metalsmithing, painting, printmaking, sculpture and textiles. The M.A. degree with a concentration in art history is designed to prepare students for professional positions in galleries and museums and for doctoral degree programs.

The Master of Fine Arts degree requires an additional 30 units in the area of specialization and professional seminars, with the expectation that the student will achieve a higher level of excellence and distinction in the chosen area of specialization. The M.F.A. degree requires 60 units and can be completed in three years. The degree is offered in ceramics, environmental design, furniture, graphic design, jewelry/metalsmithing, painting, printmaking, sculpture and textiles.

The Art building has expansive facilities offering the student excellent studio space and equipment. In addition, the San Diego Museum of Art, the San Diego Museum of Contemporary Art, the Putnam Foundation collection in the Timken Gallery, and the Museum of Man in Balboa Park offer valuable original materials as well as specialized libraries for research. There are also numerous community college galleries and commercial galleries with a wide variety of offerings.

Master of Fine Arts Degree in Art

Admission to Graduate Study

Admission to the Master of Fine Arts degree program is limited to the Fall semester. Applications and portfolios for the annual graduate review must be submitted to the graduate coordinator by February 1.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, the student must have completed a bachelor's degree in studio art or the equivalent from an accredited institution, including twelve units of art history, six units of which comprise a survey of the history of Western art. A grade point average of 3.25 or better in upper division art courses is required.

Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. This requirement will be measured by a formal presentation of a portfolio of work to the graduate faculty in the area of emphasis.

Students applying for admission to the M.F.A. degree should electronically submit the University application available at www.csumen-tor.edu by February 1.

The following materials should be submitted as a complete package directly to the Graduate Coordinator in the School of Art, Design and Art History by the February 1 deadline:

- (1) School of Art, Design and Art History application form. Contact the School of Art, Design and Art History to obtain application form and instructions or refer to www.sdsu.edu/art to download the information;
- (2) Two sets of official transcripts (in sealed envelopes) from all college/university-level institutions attended;

- (3) GRE and TOEFL scores sent directly to SDSU from the Educational Testing Service, www.ets.org, (SDSU code 4682);
- (4) Statement of purpose addressing your professional goals and reasons for selecting the School of Art, Design and Art History at SDSU for your pursuit of these goals;
- (5) Artist statement which describes the nature or content of the work shown in the portfolio;
- (6) Slide portfolio of 20 slides (unless other options are given in the instructions for a specific discipline); label all slides clearly with your name and slide number;
- (7) Typed slide information sheet with titles, dimensions, media and dates, numbered to match slides;
- (8) Two letters of recommendation from art instructors (or others) who are able to comment on your artistic potential in the area of specialization. Letters can be sent separately or included with your application in sealed and signed envelopes;
- (9) Any other materials required specifically in the instructions by your chosen discipline;
- (10) Return envelope with sufficient postage for the return of your portfolio.

Mail or deliver your complete admissions package to:

Graduate Coordinator
School of Art, Design and Art History
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4805

Advancement to Candidacy

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students must have (1) completed a minimum of 30 units on the official program with a minimum grade point average of 3.0 [B]; and (2) been reviewed by the graduate faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of emphasis.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10022)

Candidates for the M.F.A., in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a minimum of 45 units at the 600- and 700-level. Art 694, 760, 791, and 792 are required. Normally, a student will focus on one of the studio art fields (applied design, painting, environmental design, graphic design, sculpture, and printmaking). With approval of the Director and graduate coordinator a student may focus on a program of study combining two studio art fields. Six units must be included in art history, art criticism, and aesthetics courses. Nine units must be included on the program from studio electives outside the area of emphasis or electives in other departments. Art 799A, Thesis must be included on the program. In addition, there will be an oral examination of each candidate by the graduate faculty of the School of Art, Design and Art History. This examination will occur at the time of the candidate's master's exhibition, and will encompass an in-depth discussion of the candidate's thesis project.

No more than 15 units of graduate work may be transferred from another institution. Requests for more than six units must be approved by a committee of representatives from the area of emphasis. Applicants holding an M.A. degree in studio art from an accredited institution may transfer up to 30 units upon review and recommendation of the faculty in the area of emphasis, and approval of the graduate coordinator of the School of Art, Design and Art History. Candidates must be prepared to spend at least two semesters (24 units) in residence as full-time students. Coursework taken as a graduate student to fulfill undergraduate deficiencies may not be used to satisfy any unit

requirement for the M.F.A. degree program. A 3.0 grade point average must be maintained at all times. Continuation in the program will be determined by a review of each candidate by the graduate faculty in the emphasis area. This review will be held upon completion of 30 units in the M.F.A. program, or at any time upon request of the graduate coordinator.

Master of Arts Degree in Art Admission to Graduate Study

Studio Arts

Admission to the Master of Arts degree program in studio arts is limited to the Fall semester. Applications and portfolios for the annual graduate review must be submitted to the graduate coordinator by February 1. (Please note: Art history applicants should check the deadline dates in the next section.)

Students applying for admission to the M.A. degree in Studio Arts should electronically submit the University application available at www.csumentor.edu by February 1.

The following materials should be submitted as a complete package directly to the Graduate Coordinator in the School of Art, Design and Art History by the February 1 deadline:

- (1) School of Art, Design and Art History application form. Refer to www.sdsu.edu/art to download application form and instructions;
- (2) Two sets of official transcripts (in sealed envelopes) from all college/university-level institutions attended;
- (3) GRE and TOEFL scores sent directly to SDSU from the Educational Testing Service, www.ets.org, (SDSU code 4682);
- (4) Statement of purpose addressing your professional goals and reasons for selecting the School of Art, Design and Art History at SDSU for your pursuit of these goals;
- (5) Artist statement which describes the nature or content of the work shown in the portfolio;
- (6) Slide portfolio of 20 slides (unless other options are given in the instructions for a specific discipline); label all slides clearly with your name and slide number;
- (7) Typed slide information sheet with titles, dimensions, media and dates, numbered to match slides;
- (8) Two letters of recommendation from art instructors (or others) who are able to comment on your artistic potential in the area of specialization. Letters can be sent separately or included with your application in sealed and signed envelopes;
- (9) Any other materials required specifically in the instructions by your chosen discipline;
- (10) Return envelope with sufficient postage for the return of your portfolio.

Mail or deliver your complete admissions package to:

Graduate Coordinator

San Diego, CA 92182-4805

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, students must have completed an undergraduate major in art with a minimum of 24 upper division units, including two semesters of work in the general history of art, before they will be permitted to enter the graduate program. Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. In studio areas this requirement will be measured by a formal presentation (the Graduate Review) to the emphasis area faculty of a portfolio of examples of the candidate's undergraduate or postbaccalaureate work. The range should be great enough to give the committee a knowledge of the candidate's strengths and weaknesses. A statement of the candidate's

objectives in the graduate program should accompany this presentation. If it is determined that the student is capable of doing graduate art work, he/she may be permitted to begin such work even though he/she has not completed an appropriate undergraduate major in art. Those students whose work is insufficiently advanced for classified graduate standing may enroll for courses through Open University, in order to meet the standard requirements.

Art History

Art history applications, obtainable from the graduate coordinator, are due on March 1 for the fall semester or October 1 for the spring semester and should be accompanied by transcripts of all undergraduate or postbaccalaureate work.

Students applying for admission to the M.A. degree in Art History should electronically submit the University application available at www.csumentor.edu by March 1 for the fall semester or October 1 for the spring semester.

The following materials should be submitted as a complete package directly to the Art History Graduate Adviser in the School of Art, Design and Art History by the deadline:

- (1) School of Art, Design and Art History application form. Refer to www.sdsu.edu/art to download application form and instructions;
- (2) Two sets of official transcripts (in sealed envelopes) from all college/university-level institutions attended;
- (3) GRE and TOEFL scores sent directly to SDSU from the Educational Testing Service, www.ets.org, (SDSU code 4682);
- (4) Statement of purpose addressing your professional goals and reasons for selecting the School of Art, Design and Art History at SDSU for your pursuit of these goals, what you plan to accomplish at SDSU (in which areas do you plan to specialize), and what your long range career goals are;
- (5) A copy (it will not be returned) of your best term paper or seminar report, or reprint of a published article, accompanied by a statement explaining how you came to your topic, your method of research, and the facilities available;
- (6) Three letters of recommendation from instructors who can assess your academic performance (you may include one museum reference). Letters can be sent separately or included with your application in sealed and signed envelopes

Mail or deliver your complete admissions package to:

Art History Graduate Adviser
School of Art, Design and Art History
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4805

In addition to meeting the requirements for admission to the University, students wishing to be admitted to the art history graduate program with a classified graduate standing must complete the equivalent of the graduation requirements as specified in the current General Catalog (a minimum of 39 units of art history to include Art 593).

Students who do not meet the requirements for admission to the graduate program in art history but meet the requirements for graduate admission to the University, may, at the discretion of the art history faculty, be accepted with conditional standing.

Advancement to Candidacy

Studio Arts

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students will be required to pass a comprehensive examination covering the fields of history of art of western civilization, the principles of art appreciation, and the techniques and materials of the artist, or to have completed a year course in the history of art of Western civilization and six undergraduate units of art history.

Students with a concentration in studio arts must have: (1) completed at least 12 units listed on his/her official program with a minimum grade point of 3.0 (B); and (2) been reviewed by the tenured and tenure-track faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of specialization.

Art History

Classified graduate students working for the Master of Arts degree with a concentration in art history must pass a comprehensive examination in art history (Western and non-Western) no later than the second semester as classified graduate students before advancement to candidacy. Classified graduates should contact the graduate adviser to sign up for the comprehensive examination and to discuss their individual graduate programs before their third week of the first semester.

Before advancement to candidacy, classified graduate students working for the Master of Arts degree with a concentration in art history must pass a qualifying examination in art history. Classified graduate students must have completed three semesters of college level French or German or, on the advice of the art history faculty, the language necessary for thesis research. Alternately, with the consent of the art history faculty, students may demonstrate a reading knowledge of the appropriate language by passing the Graduate School Foreign Language Examination (the French MLA examination is given by the Test Office during the beginning of each semester; contact the School of Art, Design and Art History for permission to take the examination). The language requirement must be met before the add/drop date of the student's first semester as a classified graduate student, or the student must enroll for appropriate language courses.

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, all students must complete a graduate program of a minimum of 30 units which includes at least 24 units in art from courses listed below as acceptable on master's degree programs in art, of which at least 16 units must be in 600- and 700-numbered courses.

Studio Arts (Major Code: 10021)

Those electing studio arts must complete a minimum of 18 units in the area of specialization. Art 694, 760, and 799A are required. Not more than a total of six units in Art 798 will be accepted. A creative project accompanied by a written report is required as fulfillment of Art 799A. In conjunction with this project, each candidate for the degree must present an exhibition of representative graduate work.

Art History (Major Code: 10031)

Those electing art history must complete at least 18 units from the 600- and 700-numbered courses in art history to include Art 799A, selected in consultation with the art history adviser. Students may select up to 12 units of 500-level courses in art, nine units of which must be in art history and approved by the graduate adviser. The additional three units must be selected in consultation with the graduate adviser, to include Art 593 if this course is not already completed. A written thesis is required as fulfillment of Art 799A. Master's candidates in art history will also be required to give an open lecture on their thesis subject, to be scheduled with the approval of the thesis chair.

Thesis and Projects in Art

The thesis required for the Master of Arts degree in art history is a written document; the project required for the Master of Arts degree with a concentration in studio arts and the Master of Fine Arts degree is an original body of work of creative art accompanied by a written report. All theses and written reports accepted in satisfaction of a

requirement for the master's degree are cataloged and accessioned in the library. Color slides of the project must be provided by the candidate and are retained in the slide library. One copy of art history theses must be given to the School of Art, Design and Art History.

Courses Acceptable on Master's Degree Programs in Art (ART)

UPPER DIVISION COURSES

500. Advanced Drawing (3)

Six hours.
Prerequisites: One year of 400-level studio art coursework and consent of instructor.

Drawing emphasizing qualitative aspect of visual subject matter. Maximum credit six units.

502. Inter-Media (1-3) I, II

Two hours for each unit of credit.
Prerequisites: Art 102 and 103.
Process and materials in plane and space. Maximum credit six units. M.F.A. students: Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree.

503. Life Drawing and Painting (3)

Six hours.
Prerequisites: Art 204 and 403.
Drawing and painting from nude and costumed models. Maximum credit six units.

504. Advanced Painting (3) I, II

Six hours.
Prerequisite: Six units of Art 404.
Approaches to contemporary concepts in painting. Maximum credit six units.

506. Contemporary Issues for Studio Artists (3)

Prerequisites: Upper division or graduate standing in art and consent of instructor.
Theory, practice, and philosophy of being an artist. Independent research on current art concepts and issues. Material will encompass the past five years. Field trips.

510. Intaglio Printmaking in Color (3)

Six hours.
Prerequisite: Art 410.
Advanced creative intaglio printmaking in color, including zinc and copper plate; etching, drypoint, aquatint, engraving, embossing and color variations. Emphasis on fine print quality and technical development in the color process unique to this medium. Maximum credit six units.

511. Lithography Printmaking in Color (3) I, II

Six hours.
Prerequisite: Art 411.
Advanced creative lithography printmaking in color. Emphasis on fine print quality in color process and color technology unique to this medium. Maximum credit six units.

516. Advanced Sculpture (3) I, II

Six hours.
Prerequisite: Art 416.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Materials may include clay, metal, plastics, paper or wood. Maximum credit six units.

517. Figurative Sculpture (3)

Six hours.
Prerequisites: Art 216 and 217.
Figurative study with emphasis on individual exploration. Maximum credit six units.

523. Advanced Furniture Design and Woodworking (3) I, II

Six hours.
Prerequisite: Six units of Art 423.
Advanced individual design: Exploration of materials, process and function. Continued focus on development of personal design statements and specialized techniques. Maximum credit six units.

525. Advanced Ceramics (3) I, II

Six hours.
Prerequisite: Art 425.
Study of ceramic design through creative projects of clay forms. Maximum credit six units.

526. Clay and Glaze Technology in Ceramic Design (3)

Six hours.
Prerequisite: Art 425.
Experimentation and application of research concerning the use of ceramic materials and techniques as an integral part of the design process. Maximum credit six units.

531. Advanced Jewelry and Metalwork (3) I, II

Six hours.
Prerequisite: Art 431.
Problems involving fabrication processes already studied in order to increase technical competence while exploring personal design statements; specialized techniques such as photoetching and electroforming. Maximum credit six units.

532. Advanced Metalsmithing (3) I, II

Six hours.
Prerequisite: Art 432.
Advanced problems involving metal processes to increase technical competence while exploring personal design statements. Maximum credit six units.

534. Advanced Weaving (3) I, II

Six hours.
Prerequisite: Art 334.
Advanced individual problems in weaving. Maximum credit six units. Maximum combined credit of nine units in Art 234, 334, and 534.

535. Advanced Nonwoven Textile Construction (3) I, II

Six hours.
Prerequisite: Art 435.
Advanced study in nonloom techniques. Techniques to include: looping, braiding, plaiting, and special fabricating techniques. Experimentation with new man-made fibers and with synthetic commercial dyes. Maximum credit six units.

536. Advanced Textile Design (3) I, II

Six hours.
Prerequisite: Art 436.
Application of design for the textile surface, appropriate for both the individual designer and commercial reproduction. Maximum credit six units.

540. Advanced Photographic Imagery (3) II, S

Six hours.
Prerequisites: Grade of C (2.0) or better in Art 340, or Art 207 and 240.

Visual communication and expression using photographic media, including photomechanical and digital processes. Preparation for multimedia and digital prepress. Maximum credit six units with consent of instructor.

541. Advanced Graphic Design – Visual Communication Systems (3) I, II

Six hours.
Prerequisite: Grade of C (2.0) or better in Art 440 or 441. **Proof of completion of prerequisite required:** Copy of transcript.
Design of visual communication systems relating to visual, verbal, and corporate identification strategies. Maximum credit six units.

542. Design Studio (3) I, II

Six hours.

Prerequisites: Portfolio review and grade of C (2.0) or better in one 400 or 500-level graphic design course.

Solutions to design problems for clients in a studio environment including business procedures and production management. Development of a professional level portfolio. Maximum credit six units with consent of instructor.

543. Advanced Drawing and Illustration for Graphic Design (3)

Six hours.

Prerequisite: Art 443.

Refinement of visual imagery and advanced illustration problems.

544. Visual Communication: Emerging Technologies (3) II

Six hours.

Prerequisites: Grade of C (2.0) or better in Art 440 or 441 or 444; or Art 240 and a 500-level studio art course.

Advanced design studies in emerging electronic communications, including cyberstudios, Internet and multimedia. Exploration in collaborative, interdisciplinary, and international projects. Maximum credit six units with consent of instructor.

547. Environmental Theory (3) II

Prerequisite: Art 247 or 347.

Survey of alternative solutions to the problem of design of the physical environment.

550. Environmental Prototypes (3) I

Six hours.

Prerequisites: Art 247, 250, 450.

Research and development of creative architectural concepts with emphasis in space enclosure systems and cybernetics.

552. Interior Design IV (3) I

Six hours.

Prerequisites: Art 451, 453, and completion of portfolio requirement. **Proof of completion of prerequisites required:** Copy of transcript.

Projects in architectural interiors involving the use and perception of enclosed spaces. Space planning systems analysis. Maximum credit six units.

553. Interior Design V (3) II

Six hours.

Prerequisite: Art 552. **Proof of completion of prerequisite required:** Copy of transcript.

Projects in interiors involving space planning analysis, specification writing, materials selection and furnishing design appropriate to commercial needs. Maximum credit six units.

557. Art of the Nineteenth Century (3) I, II

Prerequisites: Art 258 and 259.

Development of painting, sculpture, and architecture from the French Revolution to 1900.

558. Twentieth Century European Art to 1945 (3) I, II

Prerequisite: Art 259.

Major developments in the visual arts and art criticism from 1880 to 1945 (Post-Impressionism through Surrealism).

559. Twentieth Century European and American Art Since 1945 (3) I, II

Prerequisites: Art 258 and 259. Recommended: Art 558.

Major developments in the visual arts and art criticism since 1945.

560. History of American Art (3)

Prerequisites: Art 258 and 259.

Development of painting, sculpture, and architecture from the Native American art and Colonial Period to the present.

561. Art of Pre-Hispanic America (3)

Prerequisite: Upper division standing.

Art of ancient Meso-America, Central America, Caribbean, and South America from earliest times until contact with Europe.

562. Art of Latin America (3)

Prerequisite: Upper division standing.

Art and architecture of Latin America from the colonial period to the present. Field trips included.

564. Art of China (3) II

Prerequisite: Art 263.

History of Chinese art from prehistoric times through the Ching Dynasty.

565. Art of Japan (3) II

Prerequisite: Art 263.

History of Japanese art from prehistoric times to the Meiji Restoration.

568. Art of Crete, Mycenae, Greece, and Rome (3)

Prerequisite: Art 258.

Development of painting, sculpture, architecture, and crafts from prehistoric times to the fifth century A.D.

569. Art of Sub-Saharan Africa (3)

Prerequisite: Upper division standing.

Form and content of the art of Sub-Saharan Africa viewed within its cultural context.

570. Art of the Pacific Islands (3)

Prerequisite: Art 158 or 258 or 259.

Visual arts of the Pacific Islands; recognition of styles and object types and their historical, social, and cultural contexts.

573A. Early Renaissance Art in Italy (3)

Prerequisites: Art 258 and 259.

Italian arts, architecture, artists, and patrons from fourteenth century Proto-Renaissance period through fifteenth century revival of classical humanism in city states of Florence, Siena, Bologna, Mantua, and Padua.

573B. Late Renaissance Art in Italy (3)

Prerequisites: Art 258 and 259.

High Renaissance in Florence and Rome, followed by disintegration of classical principles and domination of Mannerism in Central and Northern Italy and history of arts of Venice in sixteenth century.

575. Baroque and Rococo Art (3)

Prerequisites: Art 258 and 259.

Architecture, sculpture, and painting of the Baroque and Rococo periods.

577. History of Architecture (3)

Prerequisites: Art 258 and 259.

Architecture from primitive times to the present.

591. Gallery Exhibition Design (3) I, II

Six hours.

Prerequisite: Fifteen units of art.

Fundamental art elements and principles applied to the theories and techniques of gallery exhibition design.

592. Gallery Exhibition Design (3) I, II

Six hours.

Prerequisite: Art 591.

Advanced problems in the theories and techniques of gallery exhibition design.

593. History and Methodology of Art History (3) II

Prerequisites: Upper division standing; art history major or minor.

Readings and discussions on the historiography of art and on modern methodologies for art historical research.

596. Advanced Studies in Art and Art History (1-4)

Prerequisites: Twelve units of art and art history and consent of instructor.

Advanced topics in art and art history. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Drawing (3)

Six hours.

Prerequisite: Art 500.

Concepts and approaches to drawing. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

604. Painting (3)

Six hours.

Prerequisite: Art 504.

Issues and concepts relating to contemporary painting. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

609. Printmaking (1-3)

Two hours for each unit of credit.

Advanced creative work in selected printmaking media based upon the analysis of the history and philosophies of printmaking from its inception through contemporary concepts. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

616. Sculpture (3)

Six hours.

Prerequisite: Art 516.

Aesthetic organization of selected subject matter in the media of sculpture. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

623. Advanced Furniture Design (3)

Six hours.

Prerequisite: Art 523.

Problems in the design and construction of furniture. Projects determined by the individual students in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

625. Crafts (1-3)

Two hours for each unit of credit.

Prerequisite: Six units completed in upper division courses in sculpture or ceramics or printmaking or a combination of these courses.

Advanced creative work in selected craft media. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

627. Advanced Clay and Glaze Technology in Ceramic Design (3)

Six hours.

Prerequisite: Art 525 or 526.

Experimentation with use of ceramic material and techniques as an integral part of design process. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

631. Seminar in Jewelry and Metalwork (3)

Prerequisite: Art 531 or 532.

Problems in design and execution of works in precious metals. Projects will be determined by individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

634. Seminar in Textile Design (3)

Prerequisite: Art 534 or 536.

Problems in textile design and technology. Projects determined by individual student in consultation with instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

641. Graphic Communication (1-3)

Two hours for each unit of credit.

Prerequisite: Art 541.

Advanced individual study in graphic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

650. Creative Environmental Design (1-3)

Prerequisite: Six upper division units in interior design, architecture or city planning.

Creative work in interior design, architecture and civic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

694. Seminar in the Principles of Design in the Space Arts (3)

Prerequisite: A semester course in art appreciation.

An intensive study of the activity of creative expression and aesthetic appreciation in the area of visual experience. The aesthetic analysis of original works of art. Maximum credit six units applicable to the M.A. degree.

700. Studio Art Experience (3)

Six hours.

Independent research in specified areas, which may require the presentation of a paper with its oral defense.

Independent research in specified areas. Each letter designation may be taken for a maximum six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

A. Studio Art in Painting**B.** Studio Art in Sculpture**C.** Studio Art in Printmaking**D.** Studio Art in Ceramics**F.** Studio Art in Graphic

Design

G. Studio Art in Environmental Design**H.** Studio Art in Textiles**I.** Studio Art in Jewelry/

Metals

J. Studio Art in Furniture**716. Individual Research Problems in Sculpture (3)**

Prerequisite: Art 616 (six units).

Graduate research problems including independent research in sculpture. Projects will be determined by the individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

760. Seminar in Twentieth Century Art (3)

Prerequisites: Art 558 and 559.

Visual arts and art criticism since 1900.

791. Seminar in Professional Practices (3)

Reading and discussion about subjects of direct concern to the professional artist. Open only to classified graduate students in studio art. This is an art forum for the practicing artist.

792. Research in Professional Problems (3)

Reading and discussion pertinent to professional activities in specific media. Open only to classified graduate students.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of the staff; to be arranged with department chair and the instructor.

Individual study. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for a master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

General Information

The Master of Arts degree in Asian studies is an interdisciplinary degree offered by designated faculty members in the Departments of Anthropology, Art, Business Administration, Classics and Humanities, Comparative Literature, Economics, Education, English, Geography, History, Linguistics and Oriental Languages, Philosophy, Political Science, Religious Studies, and Sociology. It is administered by the Department of Asia Pacific Studies through a graduate committee consisting of the director, the graduate adviser, and representatives from the several departments.

The program is designed to offer systematic advanced training (a) for those planning to enter educational, business, government, or community service involving Asia Pacific studies; (b) for those in a specific academic discipline who have regional interest in Asia Pacific

studies and wish to promote more effective understanding of the cultures, societies, peoples, and social forces at work in the Asia Pacific world; and (c) for those who plan to pursue further graduate study in Asia Pacific studies beyond the Master of Arts degree.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present a Bachelor of Arts degree with a major in Asian studies or its equivalent, as approved by the graduate committee of the Department of Asia Pacific Studies. A student whose preparation is deemed inadequate by the graduate committee will be required to complete specific courses in addition to the minimum of 30 units required for the degree.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Graduate Adviser, Department of Asia Pacific Studies:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores;
- (3) Letters of reference;
- (4) Personal statement;
- (5) TOEFL SCORES (as appropriate);
- (6) Writing sample of recent academic work.

Mail or deliver your complete admissions package to:

Department of Asia Pacific Studies
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8147

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, all students must demonstrate a reading knowledge, at least at the intermediate level, of a relevant foreign language approved by the graduate committee of the Department of Asia Pacific Studies. If Chinese or Japanese is required, the requirement may be fulfilled by completing 16 units of coursework in the particular language, the last four units with a grade of C (2.0) or better.

Specific Requirements for the Master of Arts Degree

(Major Code: 03011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a minimum of 30 units from courses acceptable on master's degree programs, including Asian Studies 600 and 799A. The remaining 24 units to be selected, with departmental approval, from the following list of approved courses.

The total program may not include more than 12 units in 500-level courses.

Only Plan A, requiring the thesis, is offered for the Master of Arts degree in Asian studies. A final oral examination on the general field of the thesis must be passed as a requirement for the degree.

All programs will be approved by the graduate committee of the Department of Asia Pacific Studies.

Courses Acceptable on Master's Degree Program in Asian Studies (ASIAN)

UPPER DIVISION COURSES

(Also Acceptable for Advanced Degrees)

506. War and Memory in the Asia Pacific (3)

Prerequisite: Asian Studies 303.

Historiography of the Pacific War and problems associated with historical evidence, memory, authentication, and political uses of history.

530. Media and Popular Culture in the Asia Pacific (3)

Prerequisite: Asian Studies 261.

Media and popular culture in Asia as instruments of social control, agencies of emancipation, expressions of global western power, and a means through which local identities are revitalized.

531. Spiritual and Intellectual Traditions in the Contemporary Asia Pacific (3)

Prerequisite: Asian Studies 101.

Major thinkers or schools of Asian thought in modern times, reflecting East/West encounters and influences of global importance. Spiritual and intellectual aspects, cultural context, social/political/economic dimensions of the thinker or school and impact beyond the original culture.

533. Minorities and Human Rights in the Asia Pacific (3)

Prerequisite: Asian Studies 261.

Human rights regimes and status of minorities in parts of Asia Pacific. Examines notion of "universal rights" within and between countries of the region.

570. The Asia Pacific and Global Economies (3)

Prerequisites: Asian Studies 100 or 261.

Rise and development of Asia Pacific economies. Focus on intra-Asian commerce, role of technology, and Asia's relationship with the global economy.

596. Selected Studies in Asian Cultures (3)

Topics on various aspects of Asian studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Anthropology Course (ANTH)

582. Regional Anthropology (3)*

Comparative Literature Course (C LT)

530. Topics in Asian Literature (3)

Economics Courses (ECON)

561. International Trade (3)

592. International Monetary Theory and Policy (3)

Geography Courses (GEOG)

554. World Cities: Comparative Approaches to Urbanization (3)

596. Advanced Topics in Geography (1-3)*

History Courses (HIST)

561. Asia and the West (3)

563. Southeast Asia to 1800 (3)

564. Southeast Asia in the Modern World (3)

565. Revolution and Social Change in Asia (3)

566. Chinese Civilization: The Great Traditions (3)

567. China's Century of Modernization (3)

569. Japan from Classical Age to Early Modern Era (3)

570. Japan in the Modern World (3)

596. Selected Studies in History (1-4)*

Philosophy Course (PHIL)

575. A Major Philosopher (3)*

Political Science Course (POL S)

575. International Relations of the Pacific Rim (3)

Religious Studies Courses (REL S)

580. A Major Figure (3)*

581. Major Theme (3)*

583. Major Tradition (3)*

Sociology Course (SOC)

556. Topics in Comparative Societies (3)*

GRADUATE COURSES

Asian Studies Courses

600. Seminar in Interdisciplinary Methods (3)

Theory and practice of interdisciplinary studies. Bibliography, research tools and presentation of findings in Asia Pacific studies.

690. Seminar in Asian Studies (3)

Intensive study of an aspect of Asia Pacific studies. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Research in one of the aspects of Asia Pacific studies. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Thesis 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Course (ANTH)

600. Seminar (3)*

Economics Courses (ECON)

720. Seminar in Development and Planning (3)*

750. Seminar in Economic History and Institutions (3)*

Finance Course (FIN)

654. Seminar in International Business Finance (3)*

Geography Courses (GEOG)

701. Seminar in Development of Geographic Thought (3)*

720. Seminar in Regional Geography (3)*

740. Seminar in Human Geography (3)*

History Courses (HIST)

601. Seminar in Historical Methods (3)**

650. Directed Readings in Asian History (3)

655. Seminar in Asian History (3)

Information and Decision Systems Course (IDS)

744. Seminar in Quality and Productivity Management (3)

Linguistics Course (LING)

795. Seminar in Linguistics (3)*

Management Course (MGT)

723. Seminar in International Strategic Management (3)*

Marketing Course (MKTG)

769. Seminar in International Marketing (3)*

Philosophy Course (PHIL)

696. Seminar in Selected Topics (3)*

Political Science Courses (POL S)

655. Seminar in General Comparative Political Systems (3)*

658. Seminar in Post-Communist Political Systems (3)*

661. Seminar in the Political Systems of the Developing Nations (3)*

675. Seminar in International Relations (3)*

All 797 (Research) and 798 (Special Study) courses in named departments, when relevant, are also applicable upon approval by the graduate committee.

* Acceptable when of relevant content.

** Required of all students who offer history as Department A.

Astronomy

In the College of Sciences

Faculty

Paul B. Etzel, Ph.D., Professor of Astronomy, Chair of Department,
Director of Mount Laguna Observatory
Ronald J. Angione, Ph.D., Professor of Astronomy
Allen W. Shafter, Ph.D., Professor of Astronomy
(Graduate Adviser)
Freddie D. Talbert, Ph.D., Associate Professor of Astronomy
Eric L. Sandquist, Ph.D., Assistant Professor of Astronomy
William F. Welsh, Ph.D., Assistant Professor of Astronomy
Robert Leach, Ph.D., Resident Astronomer

Adjunct Faculty

K.P. Cheng, Ph.D., Astronomy
John M. Hood, Ph.D., Physics
William S. Kovach, Ph.D., Astronomy
Scott W. Teare, Ph.D., Physics
Gaghik H. Tovmassian, Ph.D., Astronomy
Jeff Veal, Ph.D., Astronomy
Janet H. Wood, Ph.D., Astronomy
Andrew T. Young, Ph.D., Astronomy

Associateships

Graduate teaching associateships in astronomy are available to a few qualified students. A limited number of graduate research assistantships are also available from the department or through faculty with funded research projects. Application for Teaching Associate or Graduate Research positions is done as part of the student's application for Admission to Graduate Study.

General Information

The Department of Astronomy offers graduate study leading to the Master of Science degree in astronomy. The degree is designed to prepare students either for further graduate work leading to the doctorate, or for a professional career in teaching or in industry.

San Diego State University operates the Mount Laguna Observatory, which is located 45 road miles east of the campus at an elevation of 6100 feet. The research telescopes at the observatory include three reflectors with apertures of 40, 24 and 16 inches. The 40-inch telescope is operated jointly with the University of Illinois. Auxiliary equipment for the telescopes includes CCD and Near-IR cameras for direct imaging, CCD spectrographs, and photoelectric photometers. A dormitory for observers and a shop-laboratory building complete the main research facilities at the observatory. Additionally, each dome has dedicated PCs and/or UNIX workstations for telescope control, data collection, and on-line data reduction. All buildings at the observatory are connected to a fiber-optics, local area network, which in turn is connected to a high speed (45 Mbps) wireless Internet service. Associated with the observatory is the Awona Harrington Visitor Center, which provides facilities for educational programs and for visiting astronomers. The 21-inch Buller reflecting telescope is employed exclusively for education and public outreach programs.

The Department of Astronomy operates its own computer facilities for image processing of astronomical data. Twenty departmental PCs and several UNIX workstations with various magnetic tape storage units and color and monochrome laser printers are connected to the Internet. The department has access to more extensive campus computing facilities and to the San Diego Supercomputer Center.

Campus facilities include a Clark 12-inch refractor, two permanently fixed 12-inch reflecting telescopes, ten portable 8-inch Meade LX200 reflectors, and 20 smaller assorted portable reflecting telescopes. Two CCD cameras, a CCD-equipped spectrograph, and photometer are also available. A Spitz AP3 planetarium is used for both student instruction and public outreach programs. The central campus library has a very extensive collection of astronomical texts and journals. In addition, the Special Collections section contains the world-renowned Zinner Collection of rare and historically important astronomical texts. The department also maintains a resource room of astronomical catalogs and charts, limited reference texts, and computers for access to Internet databases and bibliographic services.

A main research interest in the department is the study of the structure and evolution of stars derived from the investigation of eclipsing and interacting binary stars. These studies make use of both photometry and spectroscopy at the observatory. Stellar evolution is further studied with photometry of star clusters. The stellar content of nearby galaxies is probed through observations of novae and low-mass x-ray binaries contained within these systems. Galaxies are investigated through surface photometry using direct imaging. The department also has a strong CCD instrumentation program. Graduate students are extensively involved in many of these research programs. Students also may make use of observatory facilities in support of their own research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the university with classified graduate standing, as described in Part Two of this bulletin. In addition, the student must have an overall grade point average of at least 2.75 in the last 60 units of his undergraduate work and must have preparation in astronomy and related sciences substantially equivalent to that required for the bachelor's degree in astronomy at San Diego State University. Applicants transferring to San Diego State University must submit two letters of recommendation.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Astronomy:

- (1) One set of official transcript (in sealed envelope);
- (2) GRE scores (official notification);
- (3) Letters of reference (maximum of three);
- (4) Personal statement and resume;
- (5) Application for Teaching Associate position or Graduate Assistantship (if desired).

Mail or deliver your complete admissions package to:

Department of Astronomy
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1221

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as specified in Part Two of this bulletin. If the student's undergraduate preparation is deficient, he/she will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master's degree.

Specific Requirements for the Master of Science Degree

(Major Code: 19111)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must also meet the following departmental requirements in a 30-unit program:

1. Complete the 15-unit core course curriculum (Astronomy 620, 630, 640, 660, and 680).
2. Complete at least 12 additional units of graduate level or approved 500 level courses in astronomy or related fields as approved by departmental committee.
3. Complete Astronomy 799A (Thesis, 3 units) and pass a final oral examination on the thesis.
4. A reading knowledge of scientific French, German, or Russian is recommended. Facility with a scientific computing language is desirable.

Courses Acceptable on Master's Degree Program in Astronomy (ASTR)

UPPER DIVISION COURSE

596. Advanced Topics in Astronomy (2 or 3) I, II

Prerequisite: Consent of instructor.

Selected topics in theoretical astronomy or astrophysics. May be repeated with new content upon approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (2 or 3)

Prerequisite: Consent of instructor.

An intensive study in advanced astronomy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

610. Binary Stars (3)

Prerequisite: Astronomy 450.

Visual, spectroscopic, and eclipsing binary stars. Review of observational techniques. Methods of orbital analysis with applications emphasizing determination of fundamental stellar properties, such as mass, radius, temperature, and luminosity. Implications for stellar evolution.

620. Galactic Structure (3)

Prerequisite: Astronomy 450.

Survey of basic observational data for determining structure of Milky Way Galaxy. Includes luminosity functions, stellar distributions, solar motion, stellar populations, kinematics and dynamics of general and peculiar stellar motions.

630. Stellar Atmospheres and Interiors (3)

Prerequisite: Astronomy 450.

Gas thermodynamics and equations of state. Production of stellar continuum radiation and spectral lines. Theories of radiative and convective energy transport. Interior structure and evolution of stars.

640. Accretion Power and Radiation Processes (3)

Prerequisites: Astronomy 450 and Mathematics 342A.

Accretion processes in astrophysics; compact objects, spherical and disc accretion, interacting binary stars and active galactic nuclei. High energy radiation processes: bremsstrahlung, Compton and inverse Compton scattering and synchrotron emission.

660. Galaxies and Cosmology (3)

Prerequisite: Astronomy 450.

Morphology, photometric, and spectroscopic properties, dynamics, and evolution of normal galaxies. Current interpretations of peculiar galaxies and QSO's. The extragalactic distance scale. Observational cosmology.

680. Astronomical Techniques (3) I

Prerequisites: Astronomy 350 and 450.

Basic methods of data acquisition and analysis. Emphasis is given to CCD direct imaging, spectroscopy, and photometry. Direct experience with telescopes and instruments at Mount Laguna Observatory, as well as with the department computing and image processing facility.

797. Research (1-3) Cr/NC/RP

Prerequisite: Classified graduate standing.

Research in one of the fields of astronomy. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Robert W. Zeller, Ph.D., Assistant Professor of Biology

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships in biology are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate coordinator in biology.

General Information

The Department of Biology offers graduate study leading to the degrees of Master of Arts and Master of Science in biology and the Master of Science degree in microbiology. In addition, the Department of Biology offers a joint program leading to the Ph.D. with the University of California, San Diego, and the ecology group offers a joint program leading to the Ph.D. with the graduate group in ecology at the University of California, Davis.

A modern life science building provides facilities for graduate study in the biological sciences. Additional facilities available in the community include the San Diego Zoo hospital, the United States Department of Agriculture, Fish and Game Commission, the Hubbs-Sea World Research Institute, the San Diego Natural History Museum, and the Naval Underseas Center. San Diego State University also operates a marine laboratory on Mission Bay and has access to research sites in the Chihuahuah Valley, Fortuna Mountain, and Temecula (Riverside County).

Section I. Master's Degree Programs

The Master of Arts degree in biology, with its foreign language requirement, is considered to be essentially an academic degree that serves as a stepping stone to certain higher degree programs. The Master of Science degrees in biology and microbiology are also acceptable as preparation for more advanced degree programs. Studies for degrees in biology must be completed in one of the research programs listed below.

Admission to Graduate Study

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before he/she will be considered for recommendation to enter the masters program.

1. Meet the requirements deemed equivalent to a baccalaureate degree in biology or microbiology at San Diego State University.
2. Have a grade point average of 2.75 or better on work taken for the baccalaureate degree.
3. Have a grade point average of 3.0 or better in upper division courses (at least 24 units) acceptable for the major.

4. Meet biology departmental expectations on the GRE General Test.
5. Have a score above the 60th percentile rank on the GRE Subject (Advanced) Test in Biology or Biochemistry.
6. Be considered as capable of graduate work in the biological sciences by two letters of reference submitted to the biology graduate coordinator.
7. Be accepted by a research program and be sponsored by a faculty member of the area.

NOTE: Admission to a research program within the biology graduate program will be limited to the number of students for which adequate facilities and faculty sponsorship are available. Students should therefore be as specific as possible in their indication of research interests and career goals. Individual research programs will admit students solely on the basis of merit in relation to space and faculty availability.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the research program. Students so admitted will be advised as to the nature of their deficiency and the time to be allowed to achieve full classified graduate standing.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Biology:

- (1) Two sets of official transcripts (in sealed envelopes) from each issuing institution;
- (2) Personal statement;
- (3) Resume or curriculum vitae;
- (4) Three letters of recommendation in sealed and signed envelopes (form available online or may be obtained from department).

Mail or deliver your complete admissions package to:

Department of Biology
Graduate Coordinator
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4614

Biology

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the Master of Arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts Degree in Biology

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and graduate courses selected, with the approval of the graduate coordinator, from the biological sciences as listed below, or from closely related fields. At least 15 of the units selected must be in 600- and 700-numbered courses, including Biology 799A, Thesis. A maximum of six units of the required 30 units may be selected from acceptable courses offered in the College of Education. A reading knowledge of scientific French, German, Russian, or Spanish, and a final oral examination in the field of the thesis and its implications in the broad fields of biology are also required.

Specific Requirements for the Master of Science Degree in Biology

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and graduate courses selected, with the approval of the graduate coordinator, from the biological sciences as listed below, or from closely related fields. At least 15 of the units selected must be in 600- and 700-numbered courses, including Biology 799A, Thesis. A maximum of six units of the required 30 units may be selected from acceptable courses offered in the College of Education. A final oral examination in the field of the thesis and its implication in the broad fields of biology is also required.

The department expects students to complete all degree requirements within seven years. The graduate coordinator, in some circumstances, may permit a student to validate a course for recency only by repeating the outdated course or an equivalent course (see section of this Bulletin on "Degree Time Limitations").

Master's Degree Research Programs

Ecology (Major Code: 04201): The overall program emphasizes quantitative approaches to ecological research and the framing of problems within the general context of ecological theory. Faculty and student research currently falls into the areas of limnology, marine ecology, plant community ecology and primary productivity, physiological plant ecology, marine aquaculture and fisheries ecology, animal population ecology and energetics, ecological genetics, ecosystems management, and systems ecology. Program adviser, L. McClenaghan.

Evolutionary Biology (Major Code: 04071): This research program is broadly concerned with the biology and evolution of whole organisms. The student has a wide variety of research areas from which to choose, including morphology, systematics, paleontology, natural history, behavior, comparative physiology, developmental biology, population genetics, coevolution, and evolutionary theory. Many groups of organisms are studied, including marine and terrestrial invertebrates, vertebrates, and plants. Program adviser, Reeder.

In addition to the emphases described above, a number of faculty have active research programs in marine biology and accept graduate students in this area.

Microbiology (Major Code: 04111): A separate graduate degree is offered in microbiology. Program adviser, Breindl.

Molecular Biology (Major Code: 04161): The program area is concerned with biology at the molecular level, with particular emphases on the correlation of structure and function of macromolecules, catalysis and control, molecular genetics, regulation of gene expression, and the molecular basis of cellular architecture, cell movement, bioenergetics and membrane function (administered through Molecular Biology Institute). Program adviser, Sabbadini.

Physiology (Major Code: 04101): The major subareas of interest represented by the faculty in the physiology program area include comparative cellular physiology (especially osmoregulation, endocrinology and sensory physiology), photobiology, radiation biology, nerve and muscle physiology, and plant ecophysiology. Program adviser, Harris.

Microbiology

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Science Degree in Microbiology

(Major Code: 04111)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and graduate courses selected, with the approval of the graduate adviser, from the biological sciences and closely related fields. All students entering the Master of Science program in microbiology will be required to take an advanced course in molecular biology. Students who achieve a sufficiently high score on the molecular biology entrance examination given to all incoming microbiology M.S. students may be excused from this requirement.

Not less than 18 units must be selected from courses in the area of microbiology. Among the 600- and 700-numbered courses selected, the student's program must include Biology 799A, Thesis, and at least four units of seminar. A maximum of six units of the required 30 units may be selected from acceptable courses offered in other related areas, including the College of Education and the Graduate School of Public Health.

A final oral examination on the field of the thesis and its implication in the broad fields of microbiology is required.

Section II. Doctoral Programs

San Diego State University is in the process of securing approval for a joint Ph.D. program in Evolutionary Biology with the University of California, Berkeley. For further information, contact the Department of Biology.

Biology (Cell and Molecular)

(Major Code: 04011)

The cooperating faculties of the Departments of Biology at the University of California, San Diego and at San Diego State University offer a joint doctoral program in biology (cell and molecular). The research interests of the participating faculty members cover a wide range of biological problems.

At SDSU, the major areas of research at the graduate level and the participating faculty members include:

Biological structures: J. Love.

Cardiovascular molecular biology: R. Davis, C. Glembotski, S. Krisans, R. Sabbadini.

Cell and molecular immunology: K. McGuire, C. Tsoukas.

Gene expression: G. Harris, W. Stumph, R. Zeller, J. Zyskind.

DNA recombination and chromosome structure: A. Segall.

Membrane transport and energy transduction: T. Frey.

Molecular biology of RNA viruses and bacteriophage: M. Breindl, J. Perrault.

Substructure and function in motile cells: S. Bernstein, R. Bizzoco, P. Paolini.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program offered jointly by UCSD and SDSU must present evidence of adequate preparation and

capacity for advanced work in biology. There are no inflexible requirements for entrance to graduate study in this program, but a strong background in biology, mathematics, chemistry, and physics is recommended. The applicant must have a bachelor's degree or the equivalent from an accredited institution of higher learning with training comparable to that provided by the University of California's and San Diego State University's undergraduate programs. Admission to the program requires acceptance by each institution on recommendation of the participating departments at UCSD and SDSU. It is understood that acceptance of a student into the joint program by each of the departments will be conditioned by their respective standards for graduate admissions and also by available facilities.

Application

Students applying for admission to the joint doctoral program in biology should electronically submit the University application available at www.csumentor.edu.

Applicants must have the GRE results forwarded by the Educational Testing Service (official copy requested at time of test; SDSU code 4682). The general GRE is required. The TOEFL score is required if postsecondary instruction was in a language other than English.

The following materials should be submitted as a complete package directly to the Department of Biology:

- (1) Two sets of official transcripts (in sealed envelopes) of all previous academic work;
- (2) Statement of professional goals;
- (3) Resume or curriculum vitae;
- (4) Department application and residence form (www.bio.sdsu.edu/cmb/phd_app_proced.html, or may be obtained from the department);
- (5) Three letters of recommendation in sealed and signed envelopes (form available online or may be obtained from the department).

Mail or deliver your complete admissions package to:
Biology Joint Doctoral Program Coordinator
Department of Biology
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4614

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence at each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, San Diego, and San Diego State University.

Advising Committee

Upon admission to the program the joint doctoral graduate adviser will establish an advising committee for the student. This committee will consist of three faculty members. In consultation with the student, the committee will develop the student's course of study and will establish the student's joint qualifying committee.

Course Requirements

There is no specific number of courses required for the doctoral program in biology, except a one-year graduate course including genetics, cellular and molecular biology. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern biological principles. Usually students will be expected to complete a set of at least four laboratory rotations, and such rotations may be fulfilled on either campus.

Coursework may be selected from offerings at either UCSD or SDSU.

Qualifying Examinations

Qualifying Committee

The qualifying committee consists of five faculty members, at least two from UCSD (one of whom must be a full-time faculty member in the Biology Department). The dissertation adviser may be a member of the qualifying committee. The members of the qualifying committee will be selected by the advising committee in consultation with the student. In order to provide continuity between examinations, at least one member of the qualifying committee shall be a member of the SDSU Executive Committee. Final appointment of qualifying committee members will be made jointly by the Graduate Deans of SDSU and UCSD.

The qualifying committee will be responsible for carrying out the qualifying examination, and the chair of this committee will report the outcome of the examination and any related academic recommendations to the Executive Committee. The chair will also provide a written evaluation of the student's performance. The chair of the qualifying committee is responsible for notifying the members of the time and place of the examination, and the student is responsible for obtaining all required documents necessary for the examination four weeks before the scheduled examination time.

Qualifying Examination

The examination will be administered in one session and consists of two parts.

First Part: Oral presentation of thesis research results and proposed thesis plan (duration is 40-50 minutes, similar to a formal seminar presentation, slides, etc.). The student should come prepared to defend the overall experimental design, including possible outcomes and interpretations, and be thoroughly familiar with the literature in his or her chosen field. A major portion of this examination will be devoted to background information so that a student can demonstrate the context in which the proposed research project lies. A succinctly written version of the proposed thesis plan (maximum 14 double spaced pages) should be provided to committee members at least two weeks before the presentation. Prior written approval by all SDSU Qualifying Committee members stating that the written thesis proposal is sufficiently developed must be obtained before the oral presentation takes place.

Second Part: In consultation with the members of the Qualifying Committee, the student will select two subject areas broadly related to the thesis research. Two members of the Qualifying Committee with expertise in these areas will serve as primary mentors. The student will carry out literature research in each of the topics and select three to four research papers in each area to be discussed during the examination. Each of the papers to be discussed must meet the approval of the two primary mentors. The student will be expected to answer questions on the selected papers, relevant background, and potentially related topics. A major goal of this portion of the examination is to test the student's ability to extract information from the literature, to critically and objectively analyze this information, and to formulate a thorough knowledge base of the subject area.

The qualifying committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the office of Graduate Studies at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the graduate deans on both campuses, the office of Graduate Studies at UCSD will notify the student of advancement to candidacy.

Joint Dissertation Committee

After a student is admitted to candidacy, a dissertation committee consisting of at least five faculty members is nominated by the graduate advisers and appointed jointly by the Graduate Deans at SDSU and UCSD. The student's dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member must be a full-time faculty member from UCSD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCSD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in biology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students so that full time can be devoted to research, training, and study. During 2000-01, support package included tuition, a stipend (approximately \$16,000), health coverage, and funds for research supplies. All students are required to obtain teaching experience, which is normally accomplished by appointment as a graduate teaching associate.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program being available for direction of research and as members of joint doctoral committees.

San Diego State University:

Graduate Adviser S. Bernstein

Faculty: Bernstein, Bizzoco, Breindl, Davis, Frey, Glembotski, Harris, Krisans, Love (Chemistry), McGuire, Paolini, Perrault, Sabbadini, Scott (Psychology), Segall, Stumph (Chemistry), Tsoukas, Zeller, Zyskind.

University of California, San Diego:

Graduate Adviser: S. Brody

Faculty: All UCSD Biology Faculty

Ecology

(Major Code: 04201)

The cooperating faculties of the Department of Biology, San Diego State University and the Graduate Group in Ecology, University of California, Davis offer a joint program in ecology leading to the Ph.D. The research interests of the participating faculty members cover a wide range of problems and represent the interdisciplinary nature of modern biology.

At SDSU, the research projects are underway concerning:

Coastal and marine ecology: Study of estuarine wetland functions, food webs, effects of natural and human disturbance, and interaction of native and exotic species. Population dynamics of invertebrates (esp. echinoderms). Community ecology of coral reefs, eelgrass beds, rocky shores, sandy beaches, the Salton Sea and other saline lakes.

Physiological ecology: Effects of global change (elevated CO₂ and climate change) on the structure and functioning of terrestrial ecosystems, including local chaparral, deserts, Alaska's North Slope, and vegetation near CO₂-emitting springs. Comparative and ecological physiology of vertebrates.

Population ecology: Reproductive biology of marine plants (algae and seagrasses). Analysis of life history strategies in animal and plant populations. Responses of chaparral vegetation to fire. Study of insect population dynamics and insect-plant interactions in natural and disturbed habitats. Aquaculture of marine fish. Genetic variation in small mammals. Food choice and adequacy of diets of animals in captivity.

Restoration and conservation ecology: Application of ecological principles to conserve species, manage fire, restore disturbed habitats, and retain genetic diversity (esp. in marine plants). Development of methods for assessing, restoring and creating coastal wetland ecosystems. Evaluation of efforts to restore or create deserts, coastal sage scrub, vernal pool, and riparian ecosystems. Role of mycorrhizae and soil biology in restoring vegetation.

A complete list of SDSU faculty and their research interests can be obtained from the graduate adviser of the program.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program must present evidence of adequate preparation and capacity for advanced work in ecology. Preparation should include a strong background in biology, physics, chemistry, and mathematics. Applicants must have a bachelor's degree from an accredited college or university. Acceptance of a student into the joint program by each institution depends on meeting the standards of admission of the respective institutions and by available facilities for research and instruction.

Application

Application for admission must be made simultaneously to San Diego State University and the University of California, Davis. A complete application requires:

The appropriate application form.

Three letters of recommendation (send directly to Graduate Adviser, SDSU).

Transcripts of academic work already completed.

Results of the Graduate Record Examination, including the Advanced Biology Test score.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, Davis, and San Diego State University.

Advising Committee

Upon admission to the program, the doctoral graduate advisers of the two institutions will establish an advising committee for the student. This committee will consist of three faculty members chosen jointly from the two cooperating institutions. In consultation with the student, the committee will develop the student's course of study and will establish the student's joint qualifying committee. At least one member of the advising committee must be from SDSU and one from UCD.

Course Requirements

Upon arrival at SDSU the advising committee works with the student to develop a course of study, which involves coursework at both SDSU and UCD and core requirements at UCD (three quarters of Ecology 296, three Ecology 290 seminars, and Principles and Application of Ecological Theory [Ecology 200A, 200B]). Prior to taking the qualifying examination, students complete the course of study, including the three quarters at UCD, and develop a firm understanding of ecological principles and research methods.

There is a five-year limit for completion of the Ph.D. in Ecology following advancement to candidacy.

Qualifying Examinations

Qualifying Committee

A five-member committee, composed of appropriate numbers of faculty members from each of the cooperating institutions, will be recommended by the advising committee for each student and approved by the Graduate Deans from each institution. The student's dissertation adviser cannot be a member of the qualifying committee.

The qualifying committee will conduct an oral comprehensive qualifying examination, which will evaluate the student's understanding of modern biological principles. The examination will focus on

principles of ecology, research methods, and three areas related to the major research interest of the student. The purpose of this examination is to permit the student to demonstrate competence not only in the major research field but also in related areas of ecology.

The joint qualifying committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination, the student must make application to the Graduate Division at UCD for advancement to candidacy. Upon payment of the candidacy fee to UCD, and after approval by the graduate deans on both campuses, the Graduate Division at UCD will notify the student of advancement to candidacy.

Joint Dissertation Committee

After a student is admitted to candidacy, a dissertation committee consisting of at least three faculty members is nominated by the graduate advisers and appointed jointly by the graduate deans at SDSU and UCD. The student's dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member from UCD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in ecology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students so that full time can be devoted to research training and study. During 1997-98, the support included tuition, a stipend, and funds for research supplies. All students are required to obtain teaching experience, which is normally accomplished by appointment as a graduate teaching associate.

Faculty

Graduate Advisers:

San Diego State University: W. Oechel
University of California, Davis: H. Lieth

SDSU Faculty: Anderson, Chen, Deutschman,
Diffendorfer, Hanscom, Hentschel,
Hurlbert, McClenaghan, Oechel, K. Williams

Courses Acceptable on Master's and Doctoral Degree Programs in Biology (BIOL)

UPPER DIVISION COURSES

Writing Requirements: Completion of the English Placement Test and Writing Competency requirements is a prerequisite for all upper division biology courses numbered 350 and above.

507. Topics in Ecology (2-4)

Two or three lectures and 0 to 6 hours of laboratory.

Prerequisite: Biology 354 and as may be indicated in the Class Schedule.

Treatment of particular advanced aspects of ecology not covered in regular courses, including insect ecology, intertidal ecology, and ecology of the Colorado River Delta. See Class Schedule for specific content. Maximum credit six units.

508. Coevolution (3)

Prerequisites: Biology 352 and 354.

Coevolution in interspecific interactions, like herbivory, predation, parasitism, competition, pollination, and mimicry.

509. Evolutionary Biology (3)

Two lectures and two hours of activity.

Prerequisite: Biology 352.

Evolutionary biology including genetics of populations, speciation, systematic biology, adaptation, role of development in evolution, evolution of behavior, and comparative biology. Evolutionary biology as the central organizing principle of biology.

512. Evolution and Ecology of Marine Mammals (3)

Two lectures and three hours of laboratory.

Prerequisites: Biology 352 and 354.

Biology of marine mammals to include pinniped, cetacean and sirenian evolution, diet and foraging strategies, social organization, reproductive strategies, echolocation, diving physiology, and conservation.

513. Marine Microbiology (2)

Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.

Microbiological population of estuary and ocean waters; interrelationships with other organisms and the physical and chemical environment.

514. Marine Plant Biology (4)

Three lectures and three hours of laboratory.

Prerequisites: Biology 201 and six units of upper division coursework in the major.

Biology of algae and seagrasses, including identification, life histories, evolution, morphology, physiology, and ecology.

515. Marine Invertebrate Biology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Structure and function, ecology, behavior, physiology and phyletic relationships of marine invertebrate animals.

517. Marine Ecology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 354.

Ecological concepts as applied to pelagic and benthic marine organisms and their environment. Field and laboratory experience in oceanographic techniques, particularly the coastal environment.

519. Aquaculture (3)

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Principles and practices of the farming of aquatic organisms.

520. Ichthyology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Identification, systematics, evolution, structure, physiology, behavior and ecology of fishes.

521. Advanced General Microbiology (2)

Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.

Taxonomy, comparative physiology and ecology of representative microorganisms found in various natural environments.

521L. Advanced Microbiology Laboratory (3)

One lecture and six hours of laboratory.

Prerequisites: Biology 350, 366, 366L, and credit or concurrent registration in Biology 521 or 584. Strongly recommended: Credit or concurrent registration in an upper division writing course.

Procedures and methods for isolation, characterization and identification of prokaryotes from soil, water and humans; includes both pathogenic and non-pathogenic prokaryotes.

523. Herpetology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Recommended: Biology 352.

Evolution, systematics, distribution, and ecology of amphibians and reptiles of the world.

524. Ornithology (4)

Two lectures, six hours of laboratory or field excursions, and a field project.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Study and identification of birds, especially those of the Pacific Coast and the San Diego region.

525. Mammalogy (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Evolution, systematics, distribution and ecology of mammals of the world.

526. Terrestrial Arthropod Biology (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Biology 352 and completion of three to six upper division units in the major.

Structure, function, behavior, ecology, evolution, and relationships of major groups of terrestrial arthropods, including insects, arachnids, and myriapods. Identification and natural history of southern California diversity.

527. Animal Behavior (4)

Three lectures and three hours of laboratory.

Prerequisites: Biology 215; Biology 201 or Psychology 211 and 260 for psychology majors.

Biological bases of animal behavior with emphasis on the ethological approach, including the evolution and adaptive significance of behavior.

529. Molecular Methods in Ecology and Evolution (3)

Prerequisites: Biology 352 and Chemistry 365.

Molecular methods used in ecology and evolutionary biology with emphasis on types of questions addressed using such methods and data analysis.

530. Plant Systematics (4)

Two lectures and six hours of laboratory, field trips.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Plant description, identification, classification, and nomenclature with emphasis on evolutionary patterns, interdisciplinary data acquisition, and phylogenetic analysis.

531. Taxonomy of California Plants (4)

Two lectures and six hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Fundamentals of plant taxonomy with emphasis on identification of plants native and naturalized to California. Plant collecting techniques. Field trips are required.

533. Plant Structure and Function (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Relationships between plant structure and function. Morphology and anatomy of vascular plants considering specific function of plant organs. Approaches to solve plant morphological problems. Techniques of plant anatomy.

535. Plant Ecology (4)

Three lectures and three hours of laboratory.

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Plant adaptation and response to living and non-living environment including aspects of plant evolution, demography, ecophysiology community and ecosystem dynamics and soil-plant relationships. Terrestrial systems emphasized.

538. Environmental Policy and Regulations (3)

Prerequisite: Biology 354.

History of biological conservation and environmental laws; regulations governing biological resources; role of biologists; environmental impact analysis, operation of regulatory and resource agencies; biologists as expert witnesses; wetland protection and mitigation, state heritage programs, role of nongovernmental agencies.

540. Conservation Ecology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354.

Human impacts on ecosystems, the resultant endangerment and extinction of plant and animal species, and strategies for the protection and recovery of threatened forms.

541. Ecology of Fishes and Fisheries Biology (3)

Two lectures and two hours of activity/discussion.

Prerequisite: Biology 354. Recommended: Biology 520.

Ecology of fishes, including environmental constraints, habitats, feeding, behavior, growth, reproduction, biotic interactions, population dynamics and assemblage structure. Fisheries biology concepts, including stock recruitment models, climates and fisheries, density dependence and population regulation, and populations dynamics theory.

549. Microbial Genetics and Physiology (3)

Prerequisite: Biology 350 or 366.

Physiology of microbial growth, bacterial structure and function, genetics of bacteriophages and bacteria.

550. Eukaryotic and Prokaryotic Molecular Biology (4)

Prerequisites: Biology 352, 366, and Chemistry 365.

Gene structure, organization, and regulation in prokaryotes and eukaryotes. Mechanisms of RNA and protein synthesis. Dynamic aspects of the genome.

551. Recombinant DNA (3) I, II

Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.

Theory and practice of recombinant DNA techniques.

551L. Recombinant DNA Laboratory (2)

Six hours of laboratory.

Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.

A laboratory course in recombinant DNA techniques.

552. Advanced Cell and Molecular Biology Laboratory (3)

Nine hours of laboratory.

Prerequisite: Biology 366L. Credit in Chemistry 467L.

Laboratory experience for advanced undergraduates utilizing cell and molecular biological techniques. Independent research project guided by instructor.

554. Molecular Virology (3)

Prerequisites: Biology 366 and Chemistry 365. Credit or concurrent registration in Biology 467 or 549.

Molecular aspects of structure, genetics, and replication of viruses, virus-host interactions, pathogenesis of virus infections, diagnostic virology, and antiviral vaccines and drugs; emphasis on human pathogens.

555. Principles of Electron Microscopy (1)

Prerequisites: Biology 201 and Physics 180B.

Principles of scanning and transmission electron microscopy including theoretical basis of sample preparation.

556. Scanning Electron Microscopy Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 555.

Biological specimen preparation and operation of scanning electron microscope.

557. Transmission Electron Microscopy Laboratory (3)

One lecture and six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 555.

Biological sample preparation and operation of transmission electron microscope.

560. Animal Physiology (3)

Prerequisites: Biology 201 and 202; Chemistry 365; Physics 180B, 182A, and 182B.

Physiology of vertebrate and invertebrate animals with emphasis on diversity of solutions to physiological problems and on functional integration of organ systems.

561. Radiation Biology (3)

Prerequisites: Biology 100 or 201 and 202; Physics 180B, 182A, and 182B. Recommended: Biology 366.

Principles underlying radiological reactions of ionizing radiations. Effects of ionizing radiations at the biochemical, cell, organ, and organism levels.

561L. Radiation Biology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 561.

The laboratory determination of the effects of ionizing radiation on biological systems.

563. Plant Physiology (3)

Prerequisites: Biology 201 and Chemistry 365.

Activities of plants, including photosynthesis, ion transport, translocation, water relations, growth and development.

565. Human Genetics (3)

Prerequisites: Biology 352 and Chemistry 365. Recommended: Credit or concurrent registration in Biology 366.

Pedigree analysis, gene mapping, cytogenetic and molecular analysis of inherited disease and genetically controlled phenomena in humans.

569. Molecular Pharmacology (3)

Prerequisite: Biology 366.

Molecular mechanisms of drug action emphasizing pharmacokinetics, drug-receptor theory, signal transduction, physiological effects of drugs on nervous cardiovascular and endocrine systems. Includes discussion of molecular approaches to rational drug design, development, and testing in the pharmaceutical industry.

570. Neurobiology (3)

Prerequisite: Biology 366 or 590 or Psychology 260.

Structure and function of the nervous system to include cellular and molecular mechanisms underlying neuronal excitability and synaptic function, nervous system development, cellular and systems analysis of sensory, motor and higher brain functions. Emphasis on experimental approaches.

575. Molecular Basis of Heart Disease (3)

Prerequisite: Biology 366 or 590.

Current literature on the molecular basis of disordered physiology leading to heart disease.

577. Embryology (4)

Two lectures and six hours of laboratory.

Prerequisites: Biology 201 and 202. Strongly recommended: Completion of three to six upper division units in the major.

Studies in comparative gametogenesis, morphogenesis, and reproductive physiology.

580. Cell Biology of the Blood (3)

Prerequisites: Biology 366, 366L, Chemistry 365. Recommended: Concurrent registration in Biology 467 and Chemistry 467L.

Basic processes of cell development, inflammation, acquired immune response, and regulation of these processes by cytokines.

584. Medical Microbiology (2)

Prerequisites: Biology 336 and 350.

Discussion of major bacterial and viral pathogens; molecular mechanisms of pathogenesis, microbial toxins and antimicrobial agents; immune response to microbial infections; biochemical and molecular diagnostics.

585. Cellular and Molecular Immunology (3)

Prerequisites: Biology 366. Recommended: Credit or concurrent registration in Biology 467 and Chemistry 467L.

Cellular and molecular aspects of the immune response. Genetics of immunoglobulins, major histocompatibility complex, lymphocyte development and their manifestations on immune responsiveness, lymphokines immunopathologies including AIDS, and contemporary immunological techniques. Not open to students with credit in Biology 485.

588. Parasitology (2)

Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

Study of animal parasites with special reference to those of humans.

588L. Parasitology Laboratory (2)

Six hours of laboratory.

Prerequisite: Credit or concurrent registration in Biology 588.

Examination of animal parasites including identification of important human parasites; collection and preservation of local forms. (Formerly the laboratory portion of Biology 588.)

590. Physiology of Human Systems (4)

Three lectures and one hour of discussion.

Prerequisites: Chemistry 365, Physics 180B and 182B. Recommended: Biology 366.

Human physiology presented at both cellular and organ system levels; neurophysiology, muscle physiology, cardiovascular physiology and respiration, kidney function, hormone function and reproduction. For students majoring in a natural science or pre-professional studies.

592. Cell and Molecular Biology Laboratory (2)

Six hours of laboratory.

Prerequisite: Biology 350.

Laboratory course in advanced techniques in microbiology and cell and molecular biology.

594. Biotechnology Research Rounds (2)

Prerequisites: Biology 366 and credit or concurrent registration in Biology 467.

Latest research methods in the biotechnology community. Speakers from local biotechnology companies and research institutes will discuss the power and limitations of current research methods being applied to develop new therapeutics. Evaluation of approaches, results, and utility of these technologies.

595. Computers in Biomedical Research (3)

Prerequisite: Biology 366 or 590. Recommended: Computer Science 107.

Application of micro- and minicomputers to tasks encountered by biomedical scientists in research laboratories (data acquisition and reduction, experiment control) and by physicians in medical care delivery (noninvasive imaging, clinical laboratory automation, patient file processing).

596. Special Topics in Biology (1-4)

Prerequisite: Consent of instructor.

Advanced selected topics in modern biology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. Additional units acceptable with the approval of the graduate adviser.

597A. Univariate Statistical Methods in Biology (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 350 or 352 or 354 or 366.

Application of univariate statistical techniques in biological sciences.

598. Computational Biology (3)

Prerequisites: Computer Science 205 and consent of instructor.

Methods for analysis of biological systems at all levels of scale from macromolecules to ecosystems. Topics include macromolecular sequence analysis to determine structure and function and study phylogenetic relationships. Imaging in two to four dimensions. Mathematical modeling in biological sciences.

GRADUATE COURSES

600. Seminar (2-3)

Prerequisite: Consent of instructor.

An intensive study in advanced biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

602. Experimental Design (4)

Two lectures and six hours of laboratory.

Prerequisite: One semester of statistics.

Principles, terminology, and practice of experimental design both in biology and natural and social sciences.

604. Seminar in Aquatic Ecology (2)

Prerequisite: Biology 354.

Ecological concepts as applied to the fresh water and marine environment. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

624. Population Genetics (3)

Prerequisite: Biology 352.

Theoretical and applied population genetics, including genetic diversity in natural populations, random drift, mutation, gene flow, natural selection, nucleotide variation and quantitative genetics.

630. Signal Transduction (3)

Prerequisites: Biology 366 and Chemistry 365.

Intracellular transduction pathways that regulate growth and death in neuronal, endocrine, muscle, and immune cells.

645. Theory and Principles of Ecology (3)

Prerequisites: Admission to graduate program in biology and approval of ecology graduate adviser.

Major theoretical concepts in ecology, topics of current interest, and historical context of central ideas in ecology, with emphasis on use of primary literature.

680. Seminar in Population Genetics (2)

Prerequisite: Biology 352.

Topics in population genetics such as effective population size, population subdivision, gene flow and natural selection. Theoretical expectations, empirical data analysis and project design.

688. Seminar in Terrestrial Ecology (2)

Prerequisite: Biology 354.

Ecological concepts as applied to the terrestrial environment. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

694. Advanced Topics in Virology (1-4)

Prerequisite: Biology 554.

May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

696. Advanced Topics in Biology (1-3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

735. Seminar in Biogeography (2)

Prerequisite: Biology 354.

Concepts and principles of distributional history of plant and animal groups, and origins and dispersal of modern faunas and floras.

740. Phylogenetic Systematics (3)

Two lectures and three hours of laboratory.

Prerequisite: Biology 354.

Theory and methodology of phylogenetic systematics. Includes use of computer algorithms, survey of literature and preparation of a project in phylogenetic systematics. Not open to students with credit in Biology 740 (Seminar in Phylogenetic Systematics).

750. Molecular Biophysics (3)

Prerequisite: Chemistry 410A.

Description and analysis of biological processes and systems in terms of properties of molecules and of basic principles.

766. Advanced Topics in Population and Community Ecology (2-4)

Prerequisites: Biology 354 and consent of instructor.

Selected topics in population and community ecology. May be repeated with new content and consent of the graduate adviser in ecology. Maximum credit six units applicable to a master's degree.

770. Seminar in Systematics and Evolution (2-3)

Prerequisite: Consent of instructor.

Selected topics in systematics and evolution. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master's degree.

772. Seminar in Macroevolution (2)

Prerequisite: Biology 354.

Examination of evolutionary processes and patterns at and above the species level.

797. Research (1-3) Cr/NC/RP

Research in one of the fields of biology. Maximum credit six units of 797 and 798 applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units of 797 and 798 applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisite: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

General Information

The Molecular Biology Institute (MBI) administers the Master of Arts and Master of Science degrees in biology with an emphasis in molecular biology. The MBI is currently composed of members from the Departments of Biology, Chemistry, and the Graduate School of Public Health, and is designed to serve these departments in the coordination, support, and enhancement of research and training in the molecular biological sciences.

Graduate teaching associateships in biology and chemistry are available to qualified students. Application blanks and additional information may be obtained from the graduate coordinator of biology.

Admission to Graduate Study

Candidates for admission may come from a variety of disciplines in the biological and physical sciences. Ultimately, the research programs of individuals wishing to pursue master's degree work in molecular biology will be carried out under the supervision of MBI members.

In addition to the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, a student must satisfy the following admission requirements before being recommended for admission.

1. Possess a bachelor's degree with a major in a biological or physical science equivalent to that offered at San Diego State University.
2. Have a grade point average of 2.75 or better in work taken for the baccalaureate degree.
3. Meet biology departmental expectations on the GRE General Test.
4. Have a score in the 60th percentile or better on the GRE Subject test in biology or biochemistry, cell biology, and molecular biology. Subject examinations in other natural science disciplines will be considered.
5. Supply two letters of reference that describe the applicant's potential for graduate work.

Students who do not meet all of the above requirements for admission may be admitted with conditionally classified graduate standing upon the recommendation of the MBI faculty. Students so admitted will be advised as to the nature of their deficiency and the time allowed to achieve full classified graduate standing.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the master of arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts or Master of Science Degree

(Major Code: 04161)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of 500-level and above courses selected, with the approval of the MBI graduate adviser. A list of suggested courses is presented on the following page. All students entering the Master of Science program in molecular biology will be required to take an advanced course in molecular biology. Students who achieve a sufficiently high score on the molecular biology proficiency examination given to all incoming molecular biology M.S. students may be excused from this requirement. At least 15 units of the courses selected must be in 600- and 700-numbered courses including 799A, Thesis. The student must complete at least three units of Molecular Biology 601 and six units of Molecular Biology 610. With the approval of the graduate adviser of molecular biology, a student may substitute for Molecular Biology 610 another 600 or 700 numbered course. A final oral examination on the thesis will be administered by the thesis committee.

Courses Acceptable for the Emphasis in Molecular Biology

UPPER DIVISION COURSES

Biology (BIOL)

- 549. Microbial Genetics and Physiology (3)
- 551. Recombinant DNA (3)
- 551L. Recombinant DNA Laboratory (2)
- 554. Molecular Virology (2)
- 555. Principles of Electron Microscopy (1)
- 556. Scanning Electron Microscopy Laboratory (2)
- 557. Transmission Electron Microscopy Laboratory (3)
- 561. Radiation Biology (3)
- 563. Plant Physiology (3)
- 569. Molecular Pharmacology (3)
- 570. Neurobiology (3)
- 575. Molecular Basis of Heart Disease (3)
- 577. Embryology (4)
- 584. Medical Microbiology (2)
- 585. Cellular and Molecular Immunology (3)
- 590. Physiology of Human Systems (4)
- 592. Cell and Molecular Biology Laboratory (2)
- 595. Computers in Biomedical Research (3)
- 596. Special Topics in Biology (1-3)
- 597A. Univariate Statistical Methods in Biology (3)
- 598. Computational Biology (3)

Chemistry (CHEM)

- 510. Advanced Physical Chemistry (3)
- 550. Instrumental Methods of Chemical Analysis (2)
- 560A-560B. General Biochemistry (3-3)
- 567. Biochemistry Laboratory (3)
- 596. Advanced Special Topics in Chemistry (1-3)

GRADUATE COURSES

Biology (BIOL)

- 600. Seminar (2-3)
- 630. Signal Transduction (3)
- 694. Advanced Topics in Virology (1-4)
- 696. Advanced Topics in Biology (1-3)
- 750. Molecular Biophysics (3)
- 797. Research (1-3) Cr/NC/RP
- 798. Special Study (1-3) Cr/NC/RP

Chemistry (CHEM)

- 711. Chemical Thermodynamics (3)
- 712. Chemical Kinetics (3)
- 751. Separations Science (3)
- 760. Advanced Topics in Biochemistry (1-3)
- 762. Enzymology (2)
- 763. Cellular Regulation (2)
- 790. Seminar (1-3)
- 791. Research Seminar (1)
- 792. Bibliography (1)
- 797. Research (1-3) Cr/NC/RP
- 798. Special Study (1-3) Cr/NC/RP

GRADUATE COURSES IN MOLECULAR BIOLOGY (M BIO)

600. Seminar in Molecular Biology (1-3)

Prerequisite: Consent of instructor.

Evaluation of current literature in molecular biology. May be repeated with new content. Maximum credit six units applicable to a master's degree.

601. Colloquium in Molecular Biology Research (1) Cr/NC/RP

Recent research advances in selected areas of modern molecular biology presented by faculty of the Molecular Biology Institute and established outside investigators. May be repeated with new content. Open only to students admitted to the molecular biology program or by permission of the graduate adviser for molecular biology. Maximum credit six units, three of which are applicable to a master's degree.

610. Advanced Topics in Molecular and Cell Biology (1-4)

Prerequisite: Graduate standing in a life or physical science.

Intensive study in specific areas of molecular and cell biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

Biostatistics and Biometry

In the College of Sciences and the
College of Health and Human Services

Faculty Committee for Biostatistics and Biometry

Stuart H. Hurlbert, Ph.D., Professor of Biology
Kung-Jong Lui, Ph.D., Professor of Statistics
Donald J. Slymen, Ph.D., Professor of Public Health
Colleen Kelly, Ph.D., Associate Professor of Statistics
Duane L. Steffey, Ph.D., Associate Professor of Statistics
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Douglas H. Deutschman, Ph.D., Assistant Professor of Biology
Ming Ji, Ph.D., Assistant Professor of Public Health
Chii-Dean Lin, Ph.D., Assistant Professor of Statistics

General Information

San Diego State University provides preparation for biostatistically oriented careers by offering biostatistics related coursework, research opportunities and biostatistical consulting experience within regular degree programs in the Departments of Biology, Computer Science, Mathematics and Statistics, and the Graduate School of Public Health. A Master of Science degree in statistics with concentration in biostatistics may be earned in the Department of Mathematics and Statistics; and a Master of Public Health degree with concentration in biometry may be earned in the Graduate School of Public Health. Degrees in general biostatistics or biometry are not offered by the University. However, a Master of Science degree in biostatistics or biometry may be earned in Interdisciplinary Studies (see the appropriate section in this bulletin).

Specific courses in biostatistics and biometry (listed below) are offered with the cooperation of faculty from the participating departments. Biostatistics and biometry courses that specialize in applications to biology are offered in the Department of Biology; similarly, courses that specialize in applications to public health are offered in the Graduate School of Public Health. Courses that cover a variety of areas of application (including biology and public health) are offered by the Department of Mathematics and Statistics. In addition to these applied courses, the Department of Mathematics and Statistics offers some courses in statistics and biostatistics that are more mathematically oriented.

Courses

Biology Course (BIOL)

(Adviser: Deutschman, (619) 594-5391)

- 597A. Multivariate Statistical Methods in Biology (3)

Public Health Courses (P H)

(Adviser: Slymen, (619) 594-6439)

602. Biostatistics (3)
627. Advanced Statistical Methods in Public Health (3)
628. Applications of Multivariate Statistics in Public Health (3)
722. Seminar in Clinical Trials (3)

Statistics Courses (STAT)

(Adviser: Lui, (619) 594-7239)

550. Applied Probability (3)
551A. Mathematical Probability (3)
551B. Mathematical Statistics (3)
552. Sample Surveys (3)
553. Stochastic Processes (3)
554A. Computer Oriented Statistical Analysis (3)
554B. Advanced Computer Oriented Statistical Analysis (3)
670A-670B. Advanced Mathematical Statistics (3-3)
671. Statistical Computing (3)
672. Nonparametric Statistics (3)
674. Multivariate Analysis (3)
675. Linear Statistical Models (3)
676. Bayesian Statistics (3)
677. Design of Experiments (3)
678. Survival Analysis (3)
679. Analysis of Discrete Data (3)
680A-680B. Advanced Biostatistical Methods (3-3)

Business Administration

Accredited by AACSB International—The Association to Advance Collegiate Schools of Business

Associateships

Graduate teaching associateships and graduate nonteaching associateships in business administration are available to a limited number of qualified students. Application blanks and additional information may be secured from the departmental offices of the College of Business Administration.

General Information

The College of Business Administration offers graduate study leading to the Master of Business Administration degree, Master of Science degree in Business Administration and the Master of Science degree in Accountancy. The College also offers a joint program with the College of Arts and Letters leading to both a Master of Business Administration and a Master of Arts in Latin American Studies. The College of Business Administration M.B.A. and M.S. programs are accredited by AACSB International—The Association to Advance Collegiate Schools of Business.

The major goal of the Master of Business Administration degree is to prepare students with diverse academic backgrounds for entry into general management positions in business and not-for-profit enterprises. The primary purpose of the Master of Science degree in Business Administration is to provide a foundation for technical and executive careers in the management of specific functional and professional areas.

The objective of the Master of Science degree in Accountancy is to prepare students for careers as professional accountants in financial institutions, government, industry, nonprofit organizations, and public practice. The basic conceptual knowledge of accounting and business can be obtained through an undergraduate degree or by otherwise meeting the prerequisites for the M.S. degree in Accountancy. The program offers the opportunity for greater depth of education by allowing students to concentrate their education in courses of specialized study in accounting.

Close contacts with large and small firms, both local and national, enhance the business student's education. The generous cooperation of local business and government organizations provides opportunities for research and field study for graduate students. The continued professionalization of the business executives' responsibilities has created many opportunities for the student with an advanced degree in business administration.

All students considering graduate work in business are advised to seek further details from the Graduate School of Business in the College of Business Administration (619) 594-5217 prior to applying for admission.

Admission to Graduate Study

Admission to the College's graduate programs is competitive, that is, a number of factors are taken into consideration in the admission decision, and only the top applicants are accepted. These factors include the applicant's previous academic performance, the quality of the previous universities attended, the field of undergraduate study, scores on the Graduate Management Admissions Test (GMAT), management experience and the written application essay. References which validate experience may also be considered. A 570 TOEFL score is normally required when English is not the student's principal language.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Graduate School of Business:

- (1) Two sets of original and official transcripts of all previous academic work (in sealed envelopes): This would include all degree transcripts and a transcript from the last institution attended. Transcripts must reflect the last 60 semester (90 quarter) units attempted;
- Students with international coursework must submit all official transcripts and proof of degree. If certificates and transcripts are not in English, they should be accompanied by certified English translations;
- (2) A copy of your GMAT score report (official copy requested at time of test; SDSU code 4682);
- (3) Personal statement;
- (4) Resume;
- (5) Letters of reference (optional; maximum of three).

Mail or deliver your complete admissions package to:

Graduate School of Business
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8228

Master of Business Administration Degree

Admission to the Degree Curriculum

Regulations governing admission to the University and to the College of Business Administration are outlined above and in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Business Administration Degree

(Major Code: 05011)

The student must complete an approved program of study including 49 units of graduate coursework with a maximum of six units of 500-level courses. Up to 12 units of coursework may be accepted for transfer credit. Transfer credit will be accepted for graduate coursework completed at an accredited AACSB institution or with the approval of the Director of Graduate Programs.

At least 37 of the total units required must be completed in residence at San Diego State University, and at least nine units of program courses must be completed after advancement to candidacy.

Students entering the program should have completed coursework in basic statistics and macro- and micro-economics. They should be proficient in college-level mathematics including algebra and in the use of personal computers including spreadsheets and wordprocessing.

Business Administration

The requirements for the degree are as follows:

1. Complete the following core of eight courses. (19 units)

BA 650	Financial Accounting (2)
BA 651	Organizational Behavior (2)
BA 652	Statistical Analysis (3)
BA 653	Managerial Economics (2)
BA 655	Marketing (3)
BA 660	Managerial Accounting (2)
BA 662	Operations Management (2)
BA 665	Financial Management I (3)

A student who has earned 12 or more undergraduate units in a specific field (finance, management, etc.) may substitute an advanced course for a core course in the same field with permission from the Director of Graduate Business Programs.

2. Complete one course from each of the below listed themes. (12 units)

Interpersonal Skills Theme

IDS 705	Communication Strategies (3)
MGT 669	Human Resource Management (3)
MGT 720	Seminar in Behavioral Sciences for Management (3)
MGT 721	Seminar in Group Processes and Leadership (3)
MGT 741	Seminar in Organization Power and Politics (3)
MKTG 763	Seminar in Sales Management (3)

Legal, Ethical, Political, and Economic Environment Theme

ACCTG 681	Seminar in Regulatory and Management Controls (3)
FIN 604	Legal Environment for Executives (3)
FIN 659	Decision Making in the World Economy (3)
MGT 626	Competitive Analysis of Industries (3)
MGT 722	Seminar in Business Ethics and Social Institutions (3)
MGT 740	Seminar in Business Management and the Natural Environment (3)
MGT 742	Seminar in Business and the Good Society (3)
MKTG 765	Seminar in Marketing and Public Policy (3)

Management of Technology and Information Systems Theme

IDS 609	Management Information Systems (3)
IDS 680	Information Systems Hardware and Software (3)
IDS 688	Information Systems in Organizations (3)
MGT 731	Seminar in Strategic Management of Technology and Innovation (3)
MKTG 761	Product Innovation Management (3)
MKTG 768	Seminar in Internet Marketing and E-Business (3)

Globalization Theme

ACCTG 661	Seminar in International Accounting (3)
FIN 654	Seminar in International Business Finance (3)
IDS 744	Seminar in Quality and Productivity Management (3)
IDS 753	Global Supply Chain Management (3)
MGT 671	Seminar in Employee Involvement in Management(3)
MGT 710	Seminar in World Business Environment (3)
MGT 723	Seminar in International Strategic Management (3)
MKTG 769	Seminar in International Marketing (3)

3. Complete 15 units of electives. Not more than 12 units outside the College of Business Administration and not more than a total of six units in courses 780, Field Studies in Business, 797, Research, and 798, Special Study, will be accepted toward the degree. Courses taken outside of the College of Business Administration should be related to the MBA program and must be approved by the Director of Graduate Programs.

4. Among themes and electives listed above, a student must complete at least one course in each of three of the departments in the College of Business Administration.

5. Complete a culminating experience course. (3 units)
BA 795 Integrative Business Analysis (3)
BA 799A Thesis (3) Cr/NC/RP

A student may choose to specialize by completing 12 units of non-core courses from one of the following specializations:

Accountancy
Athletics and Fitness Management
Biomedical Regulatory Affairs Management
Electronic Business
Entrepreneurship
Finance
Health Services Administration
Information Systems
International Business Management
Marketing
Operations Management
Real Estate

Specialization courses may be either theme or elective courses.

Full and Half-Time Programs

Students enrolling in the M.B.A. program may be either full- or half-time students. Generally, in their first year, full-time students must take four courses at a time and half-time students must take two courses at a time. Students will be assigned to classes during their first year if they are full-time students and during the first two years if they are half-time students, based on a combination of personal and administrative factors. It is anticipated that half-time students will pursue their coursework in the evening and full-time students will take courses during the day.

Master of Business Administration for Executives

(Offered only through the College of Extended Studies)

Specific Requirements for the M.B.A. Degree for Executives

(Major Code: 05011)

The Master of Business Administration for Executives is operated by the Executive Management Office in the College of Business Administration, and is an alternative path for the Master of Business Administration degree. The program is one of about 150 in the nation designed especially to meet the needs of mid-career executives, and the only one of its kind in San Diego county. Students in the program have an average of 15 years of full-time professional work experience and eight years of managerial or equivalent experience, and bring a wealth of practical knowledge to the classroom discussion.

Students accepted for the M.B.A. for Executives are fully matriculated in the University and meet all University requirements as established by the Graduate Council. For the convenience of the students, however, courses are scheduled in a modular fashion on alternate Fridays and Saturdays rather than following the traditional semester time frame. The fee structure is also unique to the program and unrelated to the usual San Diego State University fee schedule. Students should contact the program office for a program calendar, class schedules, and fee summary.

In addition to meeting the requirements for classified graduate standing, and the basic requirements for the master's degree as described in Part Two of this bulletin, students must complete an approved program of studies containing 48 units of 600- and 700-numbered courses. These courses will be offered in a predetermined

pattern over 24 consecutive months. No transfer courses and no substitute courses are accepted.

The official programs of all students in any one cycle are identical. Advancement to candidacy requires completion of at least 24 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B).

Admission

In addition to meeting the criteria for admission to the University, as well as those listed under "Admission to the Graduate Program in the College of Business Administration," applicants must also demonstrate that they have had significant experience in management-level positions in business, government, or not-for-profit organizations

Students applying for admission to the MBA for Executives program should submit the application, fee, and materials described below to Candace Williams, Executive Management Program:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GMAT scores;
- (3) SDSU/EMBA department application;
- (4) Three letters of reference (forms are included in the application packet);
- (5) A one-page statement of career objectives;
- (6) Resume.

Complete directions are included in the MBA for Executives program application packet. Call (619) 594-6010.

Mail or deliver your complete admissions package to:

Candace Williams, Director
MBA for Executives Program
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8232

Master of Science Degree in Business Administration

Admission to the Degree Curriculum

In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed equivalents of the following courses:

BA 650	Financial Accounting (2)
BA 651	Organizational Behavior (2)
BA 652	Statistical Analysis (3)
BA 653	Managerial Economics (2)
BA 655	Marketing (3)
BA 660	Managerial Accounting (2)
BA 662	Operations Management (2)
BA 665	Financial Management I (3)

In addition, the student's adviser may request satisfactory completion of additional prerequisite courses in the student's proposed field of specialization.

Notice of admission to a curriculum with classified graduate standing will be sent to the student upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division.

For admission to the taxation concentration (05022) the student must be a certified public accountant (CPA) or have a juris doctor (JD) degree from an accredited law school and have completed Accountancy 201 and 202.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Students concurrently enrolled in deficiency coursework may be given permission to take the comprehensive examination in their concentration prior to actual completion of all coursework. However, comprehensive examinations will not be evaluated and results will not be reported to the Graduate Division until all deficiency coursework has been successfully completed. This may delay graduation.

Specific Requirements for the Master of Science Degree

In addition to meeting the requirements for classified graduate standing as described above and the general requirements for master's degrees as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 approved units including at least 21 units in 600- and 700-numbered courses. Up to nine units of coursework may be accepted as transfer credit. This program cannot include Finance 604; Information and Decision Systems 609; and Business Administration courses numbered 650-665, without specific permission of the Director, Graduate Business Programs. At least 24 units must be in business administration and economics. Not more than a total of six units in courses 797, Research, 798, Special Study, and Business Administration 780, Field Studies in Business, may be accepted for credit toward the degree.

Each of the concentrations in the Master of Science in Business Administration requires Plan A, Thesis; or Plan B, Directed Readings in Business Administration or a written comprehensive examination offered by the appropriate department. The program must be approved by the college and departmental adviser.

For regulations concerning grade point averages, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled "Basic Requirements for the Master's Degree," in Part Two of this Bulletin.

Concentrations	Major Code
Entrepreneurship	(05997)
Finance	(05041)
*Financial and Tax Planning	(05043)
Human Resource Management	(05151)
Information Systems	(07021)
International Business	(05131)
Management	(05061)
Marketing	(05091)
Operations Management	(05064)
**Real Estate	(05111)
Taxation	(05022)
***Total Quality Management	(05072)

Special Provision for Specific Concentrations

***Financial and Tax Planning.** For this concentration an optional Plan B, Comprehensive Examination, is available. Here students may substitute a comprehensive examination and three units of additional coursework for the thesis requirement. This examination will be administered while students are registered in Finance 657.

Additionally, this concentration requires the following prerequisites, rather than the list shown under "Admission to the Degree Curriculum:"

ACCTG 201	Financial Accounting Fundamentals (3)
ECON 101	Principles of Economics (3)
ECON 102	Principles of Economics (3)
ECON 201	Statistical Methods (3) OR
STAT 119	Elementary Statistics for Business (3)
ECON 320	Intermediate Macroeconomic Theory (3) OR
ECON 422	Business Cycles (3)
FIN 240	Legal Environment of Business (3)
FIN 323	Fundamentals of Finance (3)

****Real Estate.** This concentration requires the following prerequisites, rather than the list shown under "Admission to the Degree Curriculum:"

Business Administration

ACCTG 201	Financial Accounting Fundamentals (3)
ECON 101	Principles of Economics (3)
ECON 102	Principles of Economics (3)
ECON 201	Statistical Methods (3) OR
STAT 119	Elementary Statistics for Business (3)
FIN 240	Legal Environment for Business (3)
FIN 323	Fundamentals of Finance (3)
MKTG 370	Marketing (3)
MATH 120	Calculus for Business Analysis (3)

***Total Quality Management.

No new students are being admitted into this program.

This concentration requires the following prerequisites, rather than the list shown under "Admission to the Degree Curriculum:"

ACCTG 201	Financial Accounting Fundamentals (3)
ACCTG 202	Managerial Accounting Fundamentals (3)
ECON 101	Principles of Economics (3)
ECON 102	Principles of Economics (3)
FIN 240	Legal Environment of Business (3)
FIN 323	Fundamentals of Finance (3)
IDS 301	Statistical Analysis for Business (3)
IDS 302	Introduction to Operations Management (3)
IDS 609	Management Information Systems (3)
MGT 350	Management and Organizational Behavior (3)
MGT 405	International Business Strategy and Integration (3)
MKTG 370	Marketing (3)
MATH 120	Calculus for Business Analysis (3)

Master of Business Administration and Juris Doctor Degree

(Major Code: 05995)

General Information

The College of Business Administration and the California Western School of Law offer a four-year concurrent program and study leading to a Master of Business Administration and Juris Doctor degree in law. The objective of the concurrent degrees program is to prepare students who are competent in both of law and business administration for advanced practice in many areas where the fields converge.

Admission to Graduate Study

Regulations governing admission to the University and to the College of Business Administration are outlined in Part Two of this bulletin.

The concurrent degree program requires separate application to each institution and admission to each institution. Admission decisions are made independently by San Diego State University and California Western School of Law; admission to one institution does not imply admission to the other.

The coordinators for the concurrent degree program in business administration and law are the Director of the Graduate School of Business, San Diego State University, and the Associate Dean, California Western School of Law.

Specific Requirements for the MBA/JD Concurrent Degree

College of Business Administration (37 Units)

BA 650	Financial Accounting (2)
BA 651	Organizational Behavior (2)
BA 652	Statistical Analysis (3)
BA 653	Managerial Economics (2)
BA 655	Marketing (3)

BA 660	Managerial Accounting (2)
BA 662	Operations Management (2)
BA 665	Financial Management I (3)
BA 780	Field Studies in Business (3)
BA 795	Integrative Business Analysis (3)
Electives:	Three units

Interpersonal Skills Theme: 3 Units

IDS 705	Communication Strategies
MGT 669	Human Resource Management
MGT 720	Seminar in Behavioral Sciences for Management
MGT 721	Seminar in Group Processes and Leadership
MGT 741	Seminar in Organization Power and Politics
MKTG 769	Seminar in International Marketing

Globalization Theme: 3 Units

ACCTG 661	Seminar in International Accounting
FIN 654	Seminar in International Business Finance
IDS 744	Seminar in Quality and Productivity Management
IDS 753	Global Supply Chain Management
MGT 671	Seminar in Employee Involvement in Management
MGT 710	Seminar in World Business Environment
MGT 723	Seminar in International Strategic Management
MKTG 769	Seminar in International Marketing

Management of Technology Theme: 3 Units

IDS 609	Management Information Systems
IDS 680	Information Systems Hardware and Software
IDS 688	Information Systems in Organizations
MGT 731	Seminar in Strategic Management of Technology and Innovation
MKTG 761	Product Innovation Management
MKTG 768	Seminar in Internet Marketing and E-Business

California Western School of Law (77 Units)

Civil Procedures I and II (6)
Constitutional Law I (3)
Contracts I and II (6)
Criminal Law (3)
Criminal Procedure I (3)
Evidence (4)
Legal Process (0)
Legal Skills I, II, III (6)
Professional Responsibility (2)
Property I and II (6)
Torts I and II (6)
Internship (5)
Electives: 27 units

The specific sequence of courses over the four year period is listed in the admissions material. Students attend the schools in the following pattern:

Year 1	California Western School of Law only
Year 2	San Diego State University College of Business Administration only
Year 3	Both Schools
Year 4	Both Schools

Master of Business Administration and Master of Arts in Latin American Studies Degrees

General Information

The College of Business Administration and the Center for Latin American Studies offer a three-year concurrent program study leading to a Master of Business Administration and a Master of Arts in

Latin American Studies. The primary objective of the concurrent program is to offer preparation in the fields of business administration and Latin American studies for the purpose of providing the knowledge and skills necessary to promote and engage in business relationships within a Latin American historical, cultural, and linguistic milieu, in Latin America or in the United States.

For information, contact the Chair of the Latin American Studies Committee or the Associate Dean in the College of Business Administration.

Admission to Graduate Study

Since this program combines disparate disciplines, applicants are required to submit GMAT scores and should have substantial academic backgrounds in the humanities and social sciences. Applicants should also have a background in Spanish or Portuguese language and literature. Students in the concurrent degree program are expected to be full time so that all requirements will be satisfied in an acceptable time.

Specific Requirements for the MBA/MA Degree

(Major Code: 49061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study consisting of 70 units as outlined below.

- The college expects students entering the Master of Business Administration/MA in Latin American Studies program to be proficient in several areas. These include proficiency in statistics, mathematical skills, basic economics and in the use of personal computers, including spreadsheets and word processing. The students are responsible for insuring that they possess these skills before beginning the program.
- Complete the following core of eight courses (19 units):

BA 650	Financial Accounting (2)
BA 651	Organizational Behavior (2)
BA 652	Statistical Analysis (3)
BA 653	Managerial Economics (2)
BA 655	Marketing (3)
BA 660	Managerial Accounting (2)
BA 662	Operations Management (2)
BA 665	Financial Management I (3)

A student who has earned 12 or more undergraduate units in a specific field (finance, management, etc.) may substitute an advanced course for a core course in the same field with permission from the Director of Graduate Business Programs.

- Complete six units, one course from each of the themes listed below:

Interpersonal Skills Theme

IDS 705	Communication Strategies (3)
MGT 669	Human Resource Management (3)
MGT 720	Seminar in Behavioral Sciences for Management (3)
MGT 721	Seminar in Group Processes and Leadership (3)
MGT 741	Seminar in Organization Power and Politics (3)
MKTG 763	Seminar in Sales Management (3)

Environment Theme

FIN 604	Legal Environment for Executives (3)
MGT 626	Competitive Analysis of Industries (3)
MGT 722	Seminar in Business Ethics and Social Institutions (3)
MGT 740	Seminar in Business Management and the Natural Environment (3)
MGT 742	Seminar in Business and the Good Society (3)
MKTG 765	Seminar in Marketing and Public Policy (3)

- Complete 15 units in Business Administration to include:

FIN 654	Seminar in International Business Finance (3)
MGT 710	Seminar in World Business Environment (3)
MGT 723	Seminar in International Strategic Management (3)
MGT 731	Seminar in Strategic Management of Technology and Innovation (3)
MKTG 769	Seminar in International Marketing (3)
- Complete 24 units in courses of Latin American content, including the following required courses:

LATAM 696	Interdisciplinary Seminar (3)
LATAM 798	Special Study (3) Cr/NC/RP
HIST 640	Directed Readings in Latin American History (3)*
POL S 661	Seminar in the Political Systems of the Developing Nations (3)*
POL S 667	Seminar in Latin American Political Systems (3)*

The remaining nine units will be selected from the following list of courses, with at least one course from the California Western School of Law courses highly recommended:

Latin American Studies Courses

560.	Latin America After World War II (3)
576.	Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
798.	Special Study (3) Cr/NC/RP

Economics Course

565.	North American Economic Relations (3)
------	---------------------------------------

Geography Course

720.	Seminar in Regional Geography (3)**
------	-------------------------------------

History Courses

550.	Colonial Mexico (3)
551.	Modern Mexico (3)
552.	Brazil (3)
554.	The Andean Republics of South America (3)
555.	Modernization and Urbanization in Latin America (3)
556.	Guerrilla Movements in Latin America (3)
558.	Latin America in World Affairs (3)
559.	Central America (3)
640.	Directed Readings in Latin American History (3)
795.	Area Studies in History (3) Cr/NC**

Political Science Courses

566.	Political Change in Latin America (3)
567.	Political Systems of Latin America (3)
568.	Mexican Politics (3)
655.	Seminar in General Comparative Political Systems (3)**
675.	Seminar in International Relations (3)**
795.	Problem Analysis (3)**

California Western School of Law Courses***

452.	International Protection of Human Rights
498.	Mexican Law
610.	Immigration Law
625.	International Business Transactions
636.	International Organizations
643.	Private International Law
644.	Public International Law
703.	Latin American Law

* Repeatable with new content and approval of advisory committee

** Acceptable when of relevant content.

*** These courses are not required. Students must apply to enroll under the provisions of the affiliation agreement with the California Western School of Law.

6. In addition, the student must complete MGT 797 (Research) and BA 799A (Thesis). The thesis in Business Administration will treat a Latin American related topic and will be supervised by a business faculty with international business expertise and at least one faculty member from the Latin American studies program.

If a student after entering the concurrent MBA/MA program returns to a single degree program, all the requirements for the single degree program must be met.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, 1) the student will be required to complete Spanish 302 (or its equivalent), or Portuguese 401 (or its equivalent), and pass an oral and written examination administered by the Department of Spanish and Portuguese Languages and Literatures; 2) all core courses in business and Latin American studies must be completed prior to advancement with a minimum grade point average of 3.0 and no grade less than a C in any core course; 3) have been recommended for advancement by the combined advisory committee; 4) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Management 797 (Research) and BA 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MBA and MA degrees.

Courses Acceptable on Master's Degree Programs in Business Administration (B A)

GRADUATE COURSES

Classified graduate standing is a prerequisite for all 600- and 700-numbered courses.

650. Financial Accounting (2)

Prerequisite: Classified graduate standing.

Understanding of accounting procedures and judgments underlying corporate financial statements; ability to read and analyze these statements; make inferences from them about financial health, likelihood of success, and other important attributes of various business entities.

651. Organizational Behavior (2)

Prerequisite: Classified graduate standing.

Human behavior at individual, interpersonal, and group levels including effect on the structure of the organization on behavior.

652. Statistical Analysis (3)

Prerequisites: Classified graduate standing and basic statistics.

Understanding and applications of statistics for problem solving and managerial decision making.

653. Managerial Economics (2)

Prerequisite: Classified graduate standing.

Application of microeconomic theory to business decision making; optimal resource allocation, market structure and pricing from a business viewpoint.

655. Marketing (3)

Prerequisite: Classified graduate standing.

Role and function of marketing in the organization and society. Planning, implementation, and evaluation of marketing strategies and programs. Not open to students with credit in Marketing 370.

660. Managerial Accounting (2)

Prerequisite: Classified graduate standing.

Design and use of cost systems to establish and enhance an organization's competitive advantage in a global environment. Decision making, planning, control and business ethics in managerial decision making.

662. Operations Management (2)

Prerequisite: Classified graduate standing.

Decision making techniques for operations management in service, production, government, and non-profit organizations. Quantitative techniques for establishing the management decision criteria, constraints, and alternatives.

665. Financial Management I (3)

Prerequisites: Business Administration 650 and 652.

Role of finance in firm, financial planning and control, management of working capital, time value of money, valuation, risk analysis, basic capital budgeting, long-term financing, international aspects of financial decisions.

780. Field Studies in Business (1-3) Cr/NC

Prerequisite: Completion of MBA core.

Application of business concepts to real world organizations. Students work under supervision of a faculty member to perform a project utilizing theories and principles from previous business coursework. Maximum credit six units.

795. Integrative Business Analysis (3)

Prerequisite: Advancement to candidacy.

Strategic case analysis of business problems and preparation for comprehensive examination for students in M.B.A. program under Plan B. Problem definition analysis and prioritization of solution mechanisms.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Courses Acceptable on the Master of Business Administration Degree for Executives (B A)

Graduate Courses in Business Administration

600. Financial and Managerial Accounting (4)

Concepts and principles of financial accounting; understanding financial statements; measurement of business income. Nature of cost accounting information and how it is used to make managerial decisions that create competitive advantage.

601. Management of Organizations and Human Resources (3)

Role of the manager in designing organizations for effectiveness with emphasis on organization theory, organization behavior, and human resources management.

602. Quantitative Methods for Managers (3)

Statistics and production operations management. Data analysis, central tendency and variability, probability, distributions, sample inference, association analysis. Applications in engineering, manufacturing and service, and an overview of decision theory, queuing, total quality control, and project management.

605. Managerial Marketing (2)

The marketing function in an organization. Managerial activities of marketing including market analysis, target market selection and design of the organization's marketing program.

608. Managerial Communication (2)

Advanced communication concepts including the collection, analysis, and presentation of data. Written and oral communication strategies. (Formerly numbered Business Administration 609.)

615. Strategic Financial Management (3)

Provides a framework for financial decision making. Covers relevant modern theory and emphasizes role of finance in corporate strategy. Topics include financial analysis and planning, investment, capital structure and dividend decisions and valuation and corporate restructuring. Not open to students with credit in Business Administration 653 or Finance 615.

616. Competitive Analysis (3)

Competition in typical unregulated product or service markets. Competitive forces in such markets, and impact of these forces on economic profits, rates of return, and relative market-shares of competing firms. Not open to students with credit in Business Administration 665 or Finance 616.

620. Managing Quality and Productivity (2)

Application of quality control, just-in-time systems, and other operations research techniques to industrial problems. Comprehensive approach formulated by current techniques in field. Cases and examples from Japanese and American companies.

700. Business in the Global Environment (3)

Evolution of multinational corporations, management of organizations in global environment, and marketing and management implications of competition in international arena.

701. Entrepreneurship and New Venture Formation (2)

Entrepreneurial approach to business. Concepts, theories and techniques for organizing and managing an entrepreneurial venture.

702. Social Responsibility: Legal and Ethical Environment of Business (3)

Role of the manager in dealing in a socially responsible and ethical manner with internal and external constituencies.

703. Policy Formulation and Implementation (3)

Corporate and business level strategic decision making. Topics include industry and environmental analysis, strategy implementation, strategic planning systems. Case descriptions of actual company situations serve as basis for analysis and recommendations.

704. The Financial Environment (2)

Elements of financial institutions and financial markets which may impinge upon the business enterprise as it contemplates both its short and long term goals.

705. Marketing Strategy (2)

Development, implementation, and evaluation of marketing strategy and plans. Role of marketing planning, analysis and control; contributions and implications of marketing to corporate strategy. Strategies for attaining competitive advantage. Contemporary marketing planning tools and techniques.

708. International Financial Management (2)

International financial environment and multinational corporation. Topics include international trade and balance of payments; international monetary agreements and currency arrangements, international short term borrowing and investment; and international taxation. Reviews of global financial challenges and opportunities facing U.S. firms. (Formerly offered as a part of Business Administration 700.)

710. Leadership and Management of Change (3)

Theoretical and empirical literature pertaining to study and assessment of leadership skills. Process of organizational change and development.

790. Directed Readings in Business Administration (6) Cr/NC

Preparation for the comprehensive examination for students in the M.B.A. for Executives program (Plan B).

The Vern E. Odmark Chair in Accountancy

Established in recognition of Dr. Vern E. Odmark for his 25 years of teaching at SDSU, basic support is provided by contributions from friends, alumni, and corporations, including many major national accounting firms. The chair acknowledges the University's objective of continuing the high standards of teaching excellence and professionalism that characterized Odmark's career.

Dr. Chee W. Chow has held the position since its creation in 1984. He is widely recognized throughout the country for the breadth of his research and his technical thoroughness.

Master of Science Degree in Accountancy

General Information

The objective of the Master of Science degree program in Accountancy is to provide students with greater breadth and depth in accounting education than is possible in the baccalaureate degree. The program allows students to focus their accounting studies in an area of specialization within the field of accounting and to gain a greater breadth in their knowledge of business and accounting. In order to provide the opportunity for specializing one's accounting knowledge, the M.S. program provides three areas of specialization: corporate accounting, professional accounting, and taxation. Each area consists of a series of selected courses which students take upon the recommendation of their adviser. Specialization within the M.S. degree is intended to give students the necessary academic background and research experience to advance their careers in public accounting, private accounting or government.

Admission to the Degree Curriculum

In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed courses equivalent to the core courses in the MBA curriculum as described above and any other course deficiencies as required by a graduate adviser in the School of Accountancy.

Satisfactory completion means that the student's grade in each course must be "B" (3.0) or better and that the course must have been completed within seven years prior to the first course completed on the master's degree program. In addition, the student's adviser may request satisfactory completion of additional prerequisite courses.

Notice of admission to a curriculum with classified graduate standing will be sent to the student only upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division and Research.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Accountancy

(Major Code: 05021)

In addition to meeting the requirements for classified graduate standing as described above and the general requirements for master's degrees as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 approved units including at least 21 units in 600- and 700-numbered courses. Of the 30 units, at least 15 units must be in accountancy courses at San Diego State University which must include at least 12 units in accountancy courses numbered 650 and above. Under Plan A, Business Administration 799A, Thesis, is required. Under the optional Plan B, a comprehensive examination and three units of additional coursework may be substituted for the thesis requirement.

Accountancy 620, Financial and Managerial Accounting; Accountancy 625, Financial Reporting and Analysis; and Accountancy 626, Audit/Systems, are required unless the students have completed the equivalent course(s) as a part of their undergraduate preparation.

The program must include at least 24 units in business administration and economics. Not more than a total of six units in courses 797, Research, and 798, Special Study, may be accepted for credit toward the degree.

The following specializations are available for the Master of Science degree in Accountancy:

- Corporate Accounting
- Professional Accounting
- Taxation

For regulations concerning grade point average, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled "Basic Requirements for the Master's Degree," in Part Two of this bulletin.

Courses Acceptable on Master's Degree Program in Accountancy (ACCTG)

UPPER DIVISION COURSES (Also Acceptable for Advanced Degrees)

501. Advanced Accounting Problems (4) I, II

Prerequisites: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. **Proof of completion of prerequisites required:** Copy of transcript.

Problems involved in partnerships, consignments, consolidations, receiverships, foreign exchange, fund accounting, and other specialized areas.

502. Advanced Managerial Accounting (3)

Prerequisite: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. **Proof of completion of prerequisite required:** Copy of transcript.

Use of accounting information systems for managerial decision making. Introduction to decision-making situations which use accounting information for full or partial resolution. Consideration of uncertainty, decision theory and specific decision contexts.

503. Federal Taxation of Individuals (3) I, II, S

Prerequisites: Accountancy 201 and 202. Approved upper division business major, business minor, or other approved major. **Proof of completion of prerequisites required:** Copy of transcript.

Taxation of individuals, including income, deductions, credits, social security taxes, and property transactions.

504. Federal Taxation of Business Enterprises (3) I, II, S

Prerequisite: Credit or concurrent registration in Accountancy 421 or credit in Accountancy 503.

Taxation of corporations, partnerships, estates, and trusts. Gift and estate tax.

508. Accounting for Not-For-Profit Organizations (3)

Prerequisite: Minimum grade of C in Accountancy 322. **Proof of completion of prerequisite required:** Copy of transcript.

Principles of fund accounting useful in state and local governmental units, hospitals, colleges, and universities. Comparisons with commercial accounting emphasized. Includes study of budgetary accounting, appropriations, encumbrances, internal checks and auditing procedures.

596. Contemporary Topics in Accounting (1-3)

Prerequisites: Minimum grade of C in Accountancy 322, credit or concurrent registration in Accountancy 421. **Proof of completion of prerequisites required:** Copy of transcript.

Contemporary topics in modern accounting. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

620. Financial and Managerial Accounting (3)

Prerequisites: Business Administration 650 and 660.

Financial statement information related to current assets and current liabilities, long-lived assets, and revenue and expense recognition. Cost-volume-profit analysis, allocation of costs to products and profit-centers, operating and capital budgeting, and relevant cost analysis.

624. Tax for Managers (3)

Prerequisite: Business Administration 650.

Application of federal income tax laws on selected management decisions (e.g., buy/lease decisions, sell/trade decisions, current and deferred compensation planning). Recognition of tax hazards and tax savings.

625. Financial Reporting and Analysis (3)

Prerequisite: Accountancy 620.

Preparation and use of financial statement information relating to long-term debt, leases, pensions, deferred taxes, stockholders' equity and cash flow statements. Research of authoritative accounting literature.

626. Audit/Systems (4)

Prerequisites: Business Administration 650 and 660.

Design and internal control perspectives of accounting information systems. Systems analysis, decision support systems, and implementation are investigated. Duties, responsibilities, and ethics of the auditor; auditor's reports and procedures for verification of financial statements.

650. Tax Research and Planning (3)

Prerequisite: Accountancy 321 or 503.

Tax research with emphasis on solving tax planning problems. Introduction to statutory, administrative, and judicial sources of tax law.

651. Seminar in Corporate Tax (3)

Prerequisite: Credit or concurrent registration in Accountancy 650.

Corporate tax problems involving distributions, liquidations, reorganizations, redemptions, personal holding companies, accumulated earnings tax, and thin capitalization.

653. Seminar in Tax Practice (3)

Prerequisite: Credit or concurrent registration in Accountancy 650.

Tax practice procedures as they affect the practitioners' dealing with the IRS; statute of limitations, ethical problems, penalties, interest, tax fraud.

654. Seminar in Partnership Taxation (3) I, II

Prerequisite: Credit or concurrent registration in Accountancy 650.

Partnership tax problems involving partnership formation, operations, distributions and liquidations.

655. Tax Planning for Individuals (3)

Prerequisite: Credit or concurrent registration in Accountancy 650.

Selected complex tax laws related to individuals and sole proprietorship businesses, sales and exchanges of property, tax deferred transactions in property, accounting periods and methods, and personal deductions.

656. California and Multistate Taxation (3)

Prerequisite: Credit or concurrent registration in Accountancy 650.

California taxation of individuals, corporations, and other business entities. Treatment of multistate transactions of business organizations and out-of-state transactions of California residents.

659. Seminar in Taxation Topics (3)

Prerequisite: Credit or concurrent registration in Accountancy 650.

Theoretical treatment of selected topics in taxation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

660. Seminar in Accounting Theory (3)

Prerequisite: Accountancy 625.

Application of theories and concepts underlying financial accounting to specific cases. Research of authoritative pronouncements and financial data bases. Social and political environment of financial reporting by business enterprises.

661. Seminar in International Accounting (3)

Prerequisite: Business Administration 650.

Theories, practices, and concepts which underlie development of standards of financial reporting for enterprises engaged in international trade and business.

663. Financial Statement Analysis (3)

Prerequisite: Business Administration 650.

Illustrative cases and problems to analyze methods for communicating information about financing and operating activities of corporate firms, and techniques for evaluating the information.

Accountancy

670. Seminar in Auditing (3)

Prerequisite: Accountancy 322 or 626.
Selected conceptual issues in auditing.

671. Seminar in Compilation and Review Services (3)

Prerequisite: Accountancy 322 or 626.
Applications cases on engagements to compile or review financial statements of nonpublic entities under accounting and review services standards.

680. Seminar in Managerial Accounting (3)

Prerequisite: Business Administration 660.
Managerial cost accounting concepts and procedures, including budgetary planning, cost control, advisory functions, measurement of divisional profitability, product pricing, and investment decisions.

681. Seminar in Regulatory and Management Controls (3)

Prerequisites: Business Administration 650 and 660.
Social and behavioral science theories influencing design and operation of management control systems with emphasis on environmental and regulatory factors that influence, affect, motivate, and control managers and employees.

694. Seminar in Public Accounting Consulting (3)

Prerequisite: Business Administration 660.
Study through cases of the analytical approach and process applied by public accounting consultants to businesses. Current and proposed form of organization, finances, operations, systems, and controls.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of accountancy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

790. Directed Readings in Accountancy (3) Cr/NC

Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examination for the M.S. program.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.
Research in the area of accountancy. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

Courses Acceptable on Master's Degree Programs in Business Administration (FIN)

UPPER DIVISION COURSES

522. Individual Insurance Management (2) II

Prerequisites: Undergraduate: Completion of lower division requirements for the major. Graduate: Completion of prerequisite core. Economic, legal, social, and ethical considerations of individual, business and group insurance including life, health, property, and liability insurance. Risk exposure and policy analysis. (The combination of Finance 522 and 523 was formerly numbered Finance 521.)

523. Employee Benefit Planning (2) II

Prerequisites: Undergraduate: Completion of lower division requirements for the major. Graduate: Completion of prerequisite core. Employee benefit and pension planning, including regulation and taxation issues. (The combination of Finance 522 and 523 was formerly numbered Finance 521.)

589. Personal Financial Planning (3) I

Prerequisite: Finance 323.
Financial planning process including data gathering, cash flow and debt considerations, goal programming (including retirement and education funding), integration, plan formulation, and implementation. Practice management considerations including establishment of ethical and legal, client and professional relationships.

GRADUATE COURSES

604. Legal Environment for Executives (3)

Legal environment of business, government regulation, social and ethical considerations in the administration of justice, substantive law of contracts, property, agency, and business organizations.

617. Financial Management II (3)

Prerequisite: Business Administration 665.

Develops topics to include asset pricing, capital budgeting techniques, dividend policy and financing decisions, applications of options and futures, term structure of interest rates, regulation of financial markets, leasing decisions, corporate control.

641. Financing the Emerging Enterprise (3)

Prerequisite: Business Administration 665.

Financial considerations in emerging and growing enterprises to include internal financial management, external funding sources, and dealing with venture capitalists. Emphasis on integration of theory, computer analysis, and human judgment in financial decision making.

642. Financial Risk Management (3)

Prerequisite: Business Administration 665.

Measurement and management of foreign exchange, interest rate, equity, and commodity risks. Risk assessment models, implementation strategies, risk management, and capital allocation. Using derivatives for risk management.

651. Seminar in Investments (3)

Prerequisite: Business Administration 665.

Characteristics of financial markets and instruments. Contemporary as well as traditional approaches to problems of pricing individual securities; portfolio selection and analysis; techniques of analysis; measurement of risk; return, and investment values.

652. Seminar in Security Analysis and Portfolio Management (3)

Prerequisite: An upper division or graduate course in investments.

Security valuation, alternative instruments, portfolio theory, active and passive management techniques, asset allocation, performance measurement, use of derivative instruments in portfolio management, debt portfolio management techniques, ethical standards.

653. Case Studies in Financial Management (3)

Prerequisite: Business Administration 665.

Applies theory of finance to practice of financial decision-making. Includes valuation, mergers, and restructurings. Integrates theory and managerial judgment in a decision-making context. Case study format.

654. Seminar in International Business Finance (3)

Prerequisite: Business Administration 665.

International financial instruments, markets, and institutions; international trade and capital flows; foreign exchange risks and their management; direct and portfolio investment; implications for conduct of global business.

656. Seminar in Financial Institutions (3)

Prerequisite: Business Administration 665.

Change in financial institution management thought. Trends in asset management theory and liability management theory. Current events in financial institutions, changes likely to occur and proposed changes in laws and regulations.

657. Financial Counseling (3) Cr/NC

Prerequisites: Advancement to candidacy and Finance 651.

Decision-making process and theory of individual financial needs. Planning and implementation of financial strategies that aid in meeting family goals. Counseling. Ethics. Preparation of financial plans using cases and individuals.

658. Seminar in Options and Futures (3)

Prerequisite: Business Administration 665.

Applications of options and futures in corporate finance and investments. Analytical and numerical methods of option pricing. Compound options and options in dividend paying assets. Options with stochastic exercise prices and options to exchange one risky asset for another.

659. Decision Making in the World Economy (3)

Prerequisite: Classified graduate standing.

Application of macroeconomic theory to business decision making, study of economic environment and government macroeconomic policy from a business viewpoint.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of finance. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

705. Seminar in Estate Planning (3)

Prerequisite: Business Administration 665.

The scope and nature of estate planning. Identification and analysis of the environmental factors and those aspects of federal and state law affecting estate planning and taxation. Estate taxation and social policy.

780. Seminar in Land Markets and Urban Development Issues (3)

Prerequisite: Graduate standing.

Land use and policy issues affecting the spatial environments for enterprise decisions. Legal and institutional framework for basic land market functions and operations. Housing market demand and supply determinants. Development issues and models of urban land use.

783. Seminar in Real Estate Investment and Development (3)

Prerequisite: Graduate standing.

Analysis of real estate investment and development decisions by corporations, individuals and financial institutions. Market and feasibility analysis, taxation, financing and risk evaluation, portfolio considerations.

784. Seminar in Real Estate Finance and Valuation (3)

Prerequisite: Graduate standing.

Application of valuation theory to real property and related mortgage instruments in a market context. Market definition, data collection and analysis. Value determinants and new valuation technologies. Special valuation and financing issues and cases.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Research in the area of finance. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Murray Jennex, Ph.D., Assistant Professor of Information and Decision Systems
Bongsik Shin, Ph.D., Assistant Professor of Information and Decision Systems (Graduate Adviser)
Wesley Szu-Way Shu, Ph.D., Assistant Professor of Information and Decision Systems

Courses Acceptable on Master's Degree Programs in Business Administration (IDS)

UPPER DIVISION COURSES

515. Advanced Programming for Business (3) I,II

Prerequisite: Information and Decision Systems 315 or knowledge of one computer programming language.

Advanced programming for business applications in widely used programming languages. Advanced concepts of data structures used in business programming, control structures, and program structures. Selection of programming languages for particular purposes. Not open to students with credit in Information and Decision Systems 383 or 384.

520. Java Programming for Business Applications (3)

Prerequisite: A course in C/C++ programming.

Comprehensive coverage of both Java applications and applets with emphasis on business application programs using graphical user interfaces. Business applications include multimedia programs, network processing, and database connectivity.

GRADUATE COURSES

609. Management Information Systems (3)

Role of information in organizational management. Typical management information subsystems. Design and management of management information systems.

610. Electronic Business Technologies (3)

Prerequisite: Classified graduate standing.

Basic concepts of e-business technologies. Development tools, languages, processes, and methodologies for electronic business applications.

620. Electronic Business Infrastructures (3)

Prerequisite: Information and Decision Systems 610.

Advanced information technology concepts associated with e-business and e-commerce infrastructure and systems architecture.

630. IT Management Strategies for E-Business (3)

Prerequisite: Information and Decision Systems 620.

Analysis and application of strategic information technology management initiatives, designs, and architectures for attaining an organization's e-business goals.

680. Information Systems Hardware and Software (3)

Prerequisite: Information and Decision Systems 609.

Computer architecture, programming languages, programming systems, and operating systems.

683. Program, Data, and File Structures (3)

Prerequisite: Information and Decision Systems 609.

Program structures and data structures commonly used in business processing. File organization and processing strategies. Improving storage and processing efficiencies.

686. Database Management Systems (3)

Prerequisite: Information and Decision Systems 609.

Applications of database management systems in business. Design and administration of database processing systems applications.

687. Data Communications and Distributed Data Processing (3)

Prerequisite: Information and Decision Systems 680.

Applications of data communications hardware, software, and services in business data processing. Design and implementation of network applications and distributed processing systems.

688. Information Systems in Organizations (3)

Prerequisite: Classified graduate standing.

Evolutionary role of information systems: from support function to strategic entity, planning, organizing, and administering the information systems function. Information and its relationships to business decision making. Global and ethical aspects of information technology.

691. Decision Support Systems (3)

Prerequisite: Credit or concurrent registration in Information and Decision Systems 688.

Design, implementation, and integration of computerized decision support systems into business management. Problem representation, modeling, and simulation.

695. Information Systems Development I (3)

Prerequisite: Information and Decision Systems 609.

System development life cycle. Life cycle methodologies with emphasis on analysis of requirements using structured methodology and automated tools. Feasibility study, developmental strategies, needs management, and prototyping.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of information systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

697. Information Systems Development II (3)

Prerequisite: Information and Decision Systems 695.

Business information systems design, installation, and implementation as part of the systems development life cycle. Structured design, prototyping, controls, the make vs. buy decision, selection of hardware and software.

700. Artificial Intelligence Applications for Business (3)

Prerequisite: Information and Decision Systems 609.

Applications of artificial intelligence techniques to business. Strategies for representing knowledge. Knowledge engineering, knowledge base and inference. Use of consultation paradigms, languages, tools, and artificial intelligence environment. Developing expert systems for business.

705. Communication Strategies (3)

Prerequisite: Classified graduate standing.

Development of advanced written, oral, and interpersonal communication strategies for the business environment.

742. Seminar in Computer Simulation for Business (3)

Prerequisite: Business Administration 662.

Design and analysis of computerized business simulation models.

744. Seminar in Quality and Productivity Management (3)

Prerequisite: Business Administration 662.

Advanced concepts, methods, and implementations of quality and productivity management in the context of global economy. Total quality management, statistical process control, quality function deployment, Taguchi approach, Baldrige process, international quality standards and reengineering.

748. Seminar in Advanced Data Analysis (3)

Prerequisite: Business Administration 652.

Applications of various statistical techniques and design of experiments for business. Advanced ANOVA and Taguchi designs, multiple regression modeling methodologies, and multivariate techniques, such as factor analysis, judgement analysis, multiple discriminant analysis, multivariate analysis of variance, and canonical correlation.

749. Seminar in Applied Behavioral Measurement (3)

Prerequisite: Business Administration 652.

Measurement procedures useful in analyzing such areas as teamwork, leadership, job satisfaction, attitudes, motivation, total quality management, and customer satisfaction. Development and use of technologies including Likert, Thurstone, Guttman, paired-comparison, forced-choice, semantic-differential, C-E diagrams, and review of existing instruments used in business-related settings.

750. Project Management (3)

Prerequisite: Business Administration 662.

Managing projects. Includes network modeling, defining activities and events, cost estimating and reporting, single and multiple resource allocation and leveling. Computerized project management software will be used.

752. Seminar in Materials Requirement Planning (3)

Prerequisite: Business Administration 662.

Product structure, master scheduling and materials requirement planning (MRP).

753. Global Supply Chain Management (3)

Prerequisite: Classified graduate standing.

Advanced concepts, method, and implementation of global supply chain strategies and management; global sourcing and supplier development; global logistic network and management; information technology and e-business for supply chain; supply chain design and optimization; performance metrics and measurements.

754. Seminar in Operations Planning and Strategy (3)

Prerequisite: Business Administration 662.

Strategic issues in operations and their integration with other functional areas. Includes operations strategy, product and process planning, experience curves, productivity measurements, and information technology implementation.

790. Directed Readings in Information and Decision Systems (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for students.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Research in the area of information and decision systems. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Management

In the College of Business Administration

OFFICE: Student Services 3356
TELEPHONE: (619) 594-5306
FAX: (619) 594-3272

Faculty

David R. Hampton, Ph.D., Professor of Management, Chair of Department
Mark C. Butler, Ph.D., Professor of Management (Graduate Adviser)
Alex F. De Noble, Ph.D., Professor of Management
Michael L. Hergert, Ph.D., Professor of Management, Dean of the College of Business Administration
Kenneth E. Marino, Ph.D., Professor of Management, Associate Dean and Director, Graduate Program, College of Business Administration
Penny L. Wright, Ph.D., Professor of Management (Graduate Adviser)
Craig P. Dunn, Ph.D., Associate Professor of Management
Sanford B. Ehrlich, Ph.D., Associate Professor of Management, Executive Director, Entrepreneurial Management Center
Dong I. Jung, Ph.D., Associate Professor of Management
Lawrence C. Rhyne, Ph.D., Associate Professor of Management (Graduate Adviser)
Beth G. Chung, Ph.D., Assistant Professor of Management
Lena T. Rodriguez, Ph.D., Assistant Professor of Management
Lori V. Ryan, Ph.D., Assistant Professor of Management
Gangaram Singh, Ph.D., Assistant Professor of Management
Mindy S. West, Ph.D., Assistant Professor of Management (IVC)

Courses Acceptable on Master's Degree Programs in Business Administration (MGT)

UPPER DIVISION COURSE

596. Advanced Topics in Management (3)

Prerequisite: Six upper division units in management.

Advanced special topics in management. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

626. Competitive Analysis of Industries (3)

Prerequisite: Business Administration 651.

Concepts and tools for studying structure of industries and processes of structural change in industries. Implications of public policy decisions and competitive actions on strategy formulation are explored in several industry settings.

669. Human Resource Management (3)

Prerequisites: Business Administration 651.

Design of organizational systems for accomplishing work through individuals and groups. Strategic, legal, and ethical considerations in staffing, appraising, developing, and rewarding people at work.

670. Strategic Human Resources Planning and Staffing (3)

Prerequisite: Business Administration 651.

Estimating demand and supply of labor. Designing staffing systems for attaining strategic objectives and developing human resources. Study of legal, global, and other environmental influences in staffing decisions. International issues and comparisons of staffing practices.

671. Seminar in Employee Involvement in Management (3)

Prerequisite: Business Administration 651.

Patterns of employee participation in decision making. Comparative study of representative participation, gainsharing, employee ownership, empowerment, work teams, quality circles, and job enrichment in union and non-union settings in the U.S. and foreign countries.

696. Seminar in Selected Topics (3)

Intensive study in specific areas of management. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

701. Organizational Theory and Design (3)

Prerequisite: Business Administration 651.

Managerial perspectives on organization in domestic and multinational arenas. Emphasis on organizational environments, strategy, goals, control, culture, structure, and technology.

710. Seminar in World Business Environment (3)

Prerequisite: Business Administration 651.

Nature, dimensions and motives of international business. Impact of environmental factors. Nature of multinational corporation, importance of national and multilateral controls and policies for international business management.

720. Seminar in Behavioral Sciences for Management (3)

Prerequisite: Business Administration 651.

Applications of findings from behavioral sciences to management problems and decisions. Study of organization cultures and subcultures. Impact of human behavior on the enterprise.

721. Seminar in Group Processes and Leadership (3)

Prerequisite: Business Administration 651.

Perceptions and processes in work groups. Experience in interpersonal networks, influence and rewards, stereotypes; managing differences and conflicts.

722. Seminar in Business Ethics and Social Institutions (3)

Prerequisite: Business Administration 651.

Ethical and social aspects of current issues in business and society. Changing role of stakeholders including consumers, shareholders, and employees. Assessment of operation, functioning and regulation of the market system.

723. Seminar in International Strategic Management (3)

Prerequisite: Completion of MBA core or MS prerequisites.

Strategic decision making in managing international enterprises. General management problems in directing and controlling transnational companies, including entry, acquisitions and joint ventures. Cases and readings to acquaint students with worldwide business practices.

724. Entrepreneurship (3)

Prerequisite: Business Administration 651.

Examination of the entrepreneurial approach; concepts, theory and techniques of managerial innovation and implementation; analysis of entrepreneurial skills.

727. Seminar in Organizational Change and Development (3)

Prerequisite: Business Administration 651.

Process of developing human resources and organizations. Theories of organizational development; tools and techniques, analysis of manpower and organizational development programs.

729. Seminar in Organizational Issues (3)

Prerequisite: Business Administration 651.

Issues in organizations in modern society: organization design, environmental interface, and political processes. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

731. Seminar in Strategic Management of Technology and Innovation (3)

Prerequisite: Completion of MBA core or MS prerequisites.

Assessment of technological competencies and formulation of entry strategies for high-technology markets. Managing project teams and high-technology professionals.

740. Seminar in Business Management and the Natural Environment (3)

Prerequisite: Graduate standing.

Environmental issues relating to business management. Topics include social and ethical approaches to the environment, environmental crises, and environmental movement. Cases and projects help students develop a philosophy integrating business and environmental concerns.

741. Seminar in Organization Power and Politics (3)

Prerequisite: Business Administration 651.

Management of power and politics in organizations as they relate to resource allocation, decisions, personnel evaluation, and strategy and policy issues.

742. Seminar in Business and the Good Society (3)

Prerequisite: Graduate standing.

Role of the firm in creating the "good society" through in-depth study of social and philosophical principles underlying business

enterprise. Assumptions underlying capitalist economic thought are surfaced, and relationship between "market failure" and "government regulation" examined.

743. Seminar in Business Plan Development (3)

Prerequisite: Business Administration 651.

Principles and techniques for developing a business plan.

744. Seminar in Managing the Growing Firm (3)

Prerequisite: MBA core or admission to degree curriculum for M.S. degree business administration.

Problems and issues confronting entrepreneurs beyond start-up of a new venture. Focus on issues from both entrepreneur and investor perspectives.

790. Directed Readings in Management (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for those students in the MSBA program under Plan B.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Research in the area of management. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Marketing

In the College of Business Administration

OFFICE: Student Services 3356
TELEPHONE: (619) 594-5317
FAX: (619) 594-3272

Faculty

George E. Belch, Ph.D., Professor of Marketing,
Chair of Department
Michael A. Kartalija, Ph.D., Professor of Marketing
Kathleen A. Krentler, D.B.A., Professor of Marketing
Massoud M. Saghafi, Ph.D., Professor of Marketing
(Graduate Adviser, International Business)
Donald Scigliompaglia, D.B.A., Professor of Marketing
Ronald W. Stampfl, Ph.D., Professor of Marketing
Pradeep K. Tyagi, Ph.D., Professor of Marketing
(Graduate Adviser-MBA)
William E. Baker, Ph.D., Associate Professor of Marketing
Heather L. Honea, Ph.D., Assistant Professor of Marketing
Cristel A. Russell, Ph.D., Assistant Professor of Marketing

Courses Acceptable on Master's Degree Programs in Business Administration (MKTG)

GRADUATE COURSES

696. Seminar in Selected Topics (3)

Intensive study in specific areas of marketing. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree. (Formerly numbered Marketing 795.)

701. Seminar in Marketing Planning and Programs (3)

Prerequisite: Business Administration 655.

Analysis and planning of marketing programs. Emphasis on quantitative assessment, market measurement and forecasting, budgeting, organization and development of marketing strategy. Integration of marketing programs concerning product plans, pricing, promotion and distribution.

760. Seminar in Consumer Behavior (3)

Prerequisite: Business Administration 655.

The study of consumer behavior in relation to marketing strategy and the changing environment of business.

761. Product Innovation Management (3)

Prerequisite: Business Administration 655.

New product development and issues related to overall management of product innovation in context of entrepreneurial opportunity, start-up ventures and existing organizations. Focus on planning, design, and implementation of marketing strategy.

762. Seminar in Integrated Marketing Communication (3)

Prerequisite: Business Administration 655.

Theory and application of integrated marketing communication to advertising, promotions, public relations/publicity, personal selling and direct marketing (including Internet).

763. Seminar in Sales Management (3)

Prerequisite: Business Administration 655.

Sales management and personal selling decisions and strategies in business organizations.

765. Seminar in Marketing and Public Policy (3)

Prerequisite: Business Administration 655.

Relationship between marketing activities of business organizations and concerns or problems these activities generate from standpoint of public policy and public interest.

766. Seminar in Marketing Research (3)

Prerequisite: Business Administration 655.

Application of statistical and mathematical methods to market problems, consumer research, and product analysis.

767. Seminar in Business Marketing Management (3)

Prerequisite: Business Administration 655.

Management of marketing decisions particular to organizational customers and prospects. Emphasizes marketing to private, commercial, institutional, and governmental customers in both domestic and global markets.

768. Seminar in Internet Marketing and E-Business (3)

Prerequisite: Business Administration 655.

Theory and application of marketing utilizing the Internet and associated issues of electronic commerce.

769. Seminar in International Marketing (3)

Prerequisite: Business Administration 655.

The impact of cultural, social, political, economic, and other environmental variables on international marketing systems and the decision-making process of multinational marketing operations.

779. Advanced Marketing Strategy (3)

Prerequisites: Business Administration 655 and advancement to candidacy.

Development, implementation and evaluation of marketing strategy and planning. Role of marketing planning in overall corporate strategic planning process. Use of contemporary techniques and models in strategic planning process.

790. Directed Readings in Marketing (3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examination for those students in the MSBA program under Plan B.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Research in the area of marketing. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Associateships

Graduate teaching associateships and graduate nonteaching associateships in chemistry are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate adviser in the Department of Chemistry.

General Information

The Department of Chemistry offers graduate study leading to the Master of Arts, the Master of Science and the Doctor of Philosophy degrees in chemistry. The Ph.D. degree is offered jointly with the Department of Chemistry at the University of California, San Diego. Thesis research in all graduate programs is offered in the five traditional areas of chemistry, i.e., analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry.

The department provides a substantial inventory of modern chemical instrumentation for support of the many active research programs. Included are systems for the performance of nearly all major types of chemical separations; HPLC, IC, CE and GC-mass spectrometric systems; 200 and 500 MHz FT nuclear magnetic resonance spectrometers; CW and FT infrared spectrometers; ultraviolet-visible spectrometric instruments for both atomic and molecular emission and absorption studies; electrochemical instrumentation for potentiometric, voltammetric and coulometric measurements; radiochemical instrumentation; laser systems for spectroscopy and a variety of computer workstations and microcomputers.

Admission to Graduate Study

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Chemistry:

- (1) Two sets of official transcripts (in sealed envelopes) from each institution attended;
- (2) GRE General Test scores (for the Ph.D. program, also the chemistry test scores);

- (3) Three letters of reference from people who can comment on your academic and research abilities;
- (4) Personal statement, including your goals and motivation for graduate study;
- (5) Application for Teaching Associate position (if desired);
- (6) TOEFL examination report for international student applicants.

Mail or deliver your complete admissions package to:
Department of Chemistry
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1030

Section I. Master's Degree Programs

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, the student must pass orientation examinations in chemistry. These examinations should be taken during the first year in residence.

Specific Requirements for the Master of Arts Degree

(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master's degree programs. At least 15 of these units must be in 600- and 700-numbered courses. Chemistry 711 and 791 are required. This degree is offered under the non-thesis, Plan B option, as described in Part Two of this bulletin. A written comprehensive examination is required.

Specific Requirements for the Master of Science Degree

(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student must also complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master's degree programs. At least 15 of these units must be in 600- and 700-numbered courses. Chemistry 711*, 791, 792 and 799A are required. A student must pass a final oral examination on the thesis.

* Chemistry 762 may be substituted for Chemistry 711, with approval of the graduate adviser, by students whose thesis project is in the area of biochemistry.

Section II. Doctoral Program

General Information

(Major Code: 19051)

The cooperating faculties of the Departments of Chemistry at San Diego State University and at the University of California, San Diego possess complementary specialties that enable the doctoral student to gain familiarity with most areas in chemistry and to find research activity and direction in a great variety of specific problems.

The entering student will be required to have a mastery of the subjects usually presented in the undergraduate curriculum: physical, organic, analytical, and inorganic chemistry. All applicants will be expected to have taken the equivalent of one year of physics and of mathematics at least through integral calculus. Students should be prepared to take placement examinations which will be administered by a joint committee and will cover the fields of inorganic, organic and physical chemistry.

On admission to the program, the student is guided by Requirements for the Doctoral Degree Program given in Part Two of this bulletin. Students will normally spend their first year in the program completing their year of residency at the University of California, San Diego. It is desirable for the student to complete the qualifying examination by the end of the fifth semester and to be advanced to candidacy.

Faculty

The following faculty members of the Departments of Chemistry of the cooperating institutions participate in the joint doctoral program, being available for direction of research and as departmental members of joint doctoral committees.

San Diego State University:

Graduate Advisers: Karen Peterson and David Pullman
Graduate Admissions: Douglas Grotjahn
Committee Members: Bergdahl, Burkey, Chatfield, Cobble, Cole, Cooksy, Dahms, Grotjahn, Liang, Love, McAlpine, Metzger, Pullman, Roeder, Smith, Stumph, Sun, Tong

University of California, San Diego:

Graduate Adviser: Charles Perrin
Committee Members: Allison, Magde, Oesterreicher, Perrin, Sawrey

Courses Acceptable on Master's and Doctoral Degree Programs in Chemistry (CHEM)

UPPER DIVISION COURSES

510. Advanced Physical Chemistry (3)

Prerequisite: Chemistry 410B.

Problems in chemical thermodynamics, statistical mechanics, chemical kinetics, quantum chemistry and molecular structure and spectroscopy, with applications.

515. Computational Chemistry (3)

Prerequisites: Chemistry 410A and 410B.

Overview of modern computational chemistry. Use of computational chemistry tools and their application to problems of chemical interest.

520A-520B. Inorganic Chemistry (3-3) I, II

Prerequisite: Credit or concurrent registration in Chemistry 410A. Chemistry 520A is prerequisite to 520B.

Nature of chemical bond and an advanced systematic study of representative and transition elements and their compounds.

530. Physical Organic Chemistry (3)

Prerequisites: Chemistry 410A and 431. Recommended: Credit or concurrent registration in Chemistry 410B.

Electronic and physical properties of organic molecules; structure-reactivity correlations: Electronic structure of molecules (qualitative molecular orbital theory); stereochemistry; and linear free energy relationships.

531. Synthetic Organic Chemistry (3)

Prerequisite: Chemistry 431.

Modern methods, strategies, and mechanisms in advanced organic synthesis. Retrosynthetic analysis of and synthetic routes towards biologically important compounds.

537. Organic Qualitative Analysis (4)

Two lectures and six hours of laboratory.

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A. Recommended: Chemistry 417 and 457.

Chemical, physical, and spectral methods discussed and employed to determine structure of organic compounds. Purification and separation techniques stressed.

550. Instrumental Methods of Chemical Analysis (2) I

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410B; concurrent registration in Chemistry 457 for undergraduate students only.

Theory and application of those instrumental methods of chemical separation and analysis most frequently used in all subdisciplines of chemistry.

551. Advanced Analytical Chemistry (3) II

Prerequisite: Chemistry 550.

Expanded treatment of instrumental methods for separation and quantification not covered in Chemistry 550. Non-instrumental separations, quantitative organic microanalysis, sampling theory and techniques, reaction rate applications and interpretation of experimental data.

552. Chromatographic Separations (1)

Prerequisite: Chemistry 550.

Theory of chemical separations and solvent theory and their application to gas and liquid chromatographic media and capillary electrophoresis, emphasizing practiced methods of analysis.

553. Interpretation of Mass Spectra (1)

Prerequisite: Chemistry 550.

Methods of ionization used to produce mass spectra from atoms and molecules. Interpretation of electron impact mass spectra. Applications to modern methods of analysis of large organic molecules from gas, liquid, and capillary electrophoresis forms of chromatography.

560A-560B. General Biochemistry (3-3) I, II

Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A.

The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 361A-361B.

567. Biochemistry Laboratory (3) I, II

One lecture and six hours of laboratory.

Prerequisite: Chemistry 361A or 560A.

Theory and practice of procedures used in study of life at molecular level. Includes purification and characterization of enzymes, isolation of cell components, and use of radioactive tracer techniques.

571. Environmental Chemistry (3)

Prerequisites: Chemistry 231 and 251; consent of instructor for all other majors.

Fundamentals of chemistry applied to environmental problems. Chemistry of ecosystems; analysis of natural constituents and pollutants; sampling methods; transport of contaminants; regulations and public policy.

596. Advanced Special Topics in Chemistry (1-3)

Prerequisite: Consent of instructor.

Advanced selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

711. Chemical Thermodynamics (3)

Prerequisite: Chemistry 410B.

Chemical thermodynamics and an introduction to statistical thermodynamics.

712. Chemical Kinetics (3)

Prerequisite: Chemistry 410B.

Theory of rate processes; applications of kinetics to the study of reaction mechanisms.

713. Quantum Chemistry (3)

Prerequisite: Chemistry 410B.

Quantum mechanics of atomic and molecular systems; applications to chemical bonding theory.

730. Advanced Topics in Organic Chemistry (1-3)

Prerequisite: Chemistry 431.

Selected topics in organic chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

731. Mechanisms of Organic Reaction (3)

Prerequisites: Chemistry 410B and 431.

Reactivity and mechanism in organic reactions.

732. Advanced Organic Chemistry (3)

Prerequisite: Chemistry 431.

Applications and limitations of organic reactions from the viewpoint of synthesis.

750. Advanced Topics in Analytical Chemistry (1-3)

Prerequisite: Chemistry 550.

Selected topics from the field of analytical chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

751. Separations Science (3)

Prerequisites: Chemistry 550 and 711.

Theoretical bases for separation techniques important in analytical chemistry. Chemical and physical interactions between components of different classes of separation systems, including selection and optimization of operational parameters.

752. Mass Spectrometry (3)

Prerequisites: Chemistry 410B and 550.

Theory and practice in analysis of volatile and involatile organic and inorganic compounds, basic design principles, theory of ionization processes; interpretation of mass spectra.

753. Analytical Spectroscopy (3)

Prerequisite: Chemistry 550.

Theory and application of atomic and molecular absorption, emission and fluorescence methods. Modern optical instrumentation and methods of analysis. Nonlinear laser spectroscopic methods in chemical analysis.

754. Electroanalytical Chemistry (3)

Prerequisite: Chemistry 550.

Principles of electrochemistry. Theory and practice in use of electrochemical techniques to understand electrode reactions and for quantitative analysis. Other important applications of electrochemistry.

760. Advanced Topics in Biochemistry (1-3)

Prerequisite: Chemistry 560B.

Selected topics in biochemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

762. Enzymology (2)

Prerequisite: Credit or concurrent registration in Chemistry 410B.

Theory and techniques used in the study of the mechanism of action of enzymes.

763. Cellular Regulation (2)

Prerequisite: Chemistry 560B.

The biochemistry of cellular regulatory mechanisms in eucaryotic cells. The regulation of gene transcription, in mRNA translation and post-translational processes, including the mechanism and regulation of intracellular protein turnover.

764. Membrane Biochemistry (1-3)

Prerequisite: Chemistry 560B.

Membrane structure and function. Biophysical and biochemical properties of membranes from procaryotic and eucaryotic cells and animal cell viruses; biosynthesis and assembly of membrane components; molecular basis of solute transport, energy coupling, cell surface transformation, and cellular recognition, adhesion and fusion.

790. Seminar (1-3)

An intensive study in advanced chemistry. May not be substituted for Chemistry 791. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

791. Research Seminar (1)

Prerequisite: Consent of department chair.

Discussions on current research by students, faculty, and visiting scientists. Each student will make a presentation based on the current literature.

792. Bibliography (1)

Exercise in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master's project or thesis.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of instructor.

Research in one of the fields of chemistry. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

Faculty Committee for Child and Family Development

Stuart C. Aitken, Ph.D., Professor of Geography
James R. Beatty, Ph.D., Professor of Information and Decision Systems
Thereasa A. Cronan, Ph.D., Professor of Psychology
Shoshana A. Grossbard-Shechtman, Ph.D., Professor of Economics
*Charles F. Hohm, Ph.D., Professor of Sociology
Melbourne F. Hovell, Ph.D., Professor of Public Health
Margie K. Kitano, Ph.D., Professor of Special Education
John A. Landsverk, Ph.D., Professor of Social Work
Eleanor W. Lynch, Ph.D., Professor of Special Education
Margaret McKerrow, Ph.D., Professor of Theatre
Alberto M. Ochoa, Ed.D., Professor and Department Chair of Policy Studies in Language and Cross-Cultural Education
Judy S. Reilly, Ph.D., Professor of Psychology
Brian H. Spitzberg, Ph.D., Professor of Communication
Carolyn L. Walker, Ph.D., Professor of Nursing
Adelaida R. del Castillo, Ph.D., Associate Professor of Chicana and Chicano Studies
Gerald Monk, Ph.D., Associate Professor of Counseling and School Psychology
Joseph M. Price, Ph.D., Associate Professor of Psychology
Linda L. Terry-Guyer, Ed.D., Associate Professor of Counseling and School Psychology
Charlotte Webb, Ph.D., Associate Professor of Linguistics
André J. Branch, Ph.D., Assistant Professor of Teacher Education
Margaret Field, Ph.D., Assistant Professor of American Indian Studies

* Serves on the Faculty Governing Board which makes recommendations on admissions, curriculum, and thesis committee membership.

For information regarding graduate teaching associateships, coursework, and research experience leading to a Master of Science degree in child development, contact the adviser, Dr. Thomas W. Roberts.

General Information

The Department of Child and Family Development offers interdisciplinary graduate study leading to the Master of Science degree in child development. Graduate teaching associateships and graduate assistantships in child development may be available to a limited number of qualified students.

Master of Science Degree in Child Development

The Master of Science degree in child development is one of only two child development programs available in the CSU. With 106 community college child development programs, following the mandate of the Ryan Act, in California and 13 undergraduate programs within the CSU system, the M.S. program in child development plays a major role in training professionals for the State and region.¹ The Department of Child and Family Development plays a leadership role in integration of curricula for community colleges and the CSU.²

Child development is an interdisciplinary area of study. The Master of Science degree, administered by the Department of Child and Family Development, draws on the expertise of a multidisciplinary faculty who are committed to the study of children within the context of diverse families and communities and who are from the following areas: Chicana and Chicano Studies, Economics, Geography, Gerontology, Psychology, Public Administration and Urban Studies, Public Health, Special Education, Social Work, Sociology, and Women's Studies. Emphasis in the program is placed on the central issue of "Child and Family Development Interventions" and offered through 13 courses from eight different departments.

Research interests and areas of expertise of the faculty include: abuse prevention, child and family advocacy, AIDS, attachment/bonding, children's literature, cross-cultural studies, curriculum development and evaluation, demography, economic development, families of divorce, full-inclusion programs for early interventions, intergenerational relationships, marital adjustment, multiethnic families, parent-child relationships, parent training programs, peer relationships, political interventions, public policy, cross-cultural studies, stress management and coping strategies, and train the trainers models for service delivery to children and families.

Opportunities exist to participate in an ongoing multicultural project studying images of grandparents and the elderly in children's books from different cultures. To date languages include Arabic, French, Hebrew, English, Russian, and Spanish. If you are interested in this project please contact Dr. Shulamit Ritblatt.

In addition, the Interdisciplinary Training Program on Early Intervention offers students field practice with transdisciplinary teams in hospitals, schools, and agency settings. Other field experience programs offer students supervised work in community agencies and children's programs. The Child Study Center focuses on undergraduate and graduate training and research by operating a Campus Children's Center in collaboration with SDSU's Associated Students and San Diego City Schools. All children's programs are mainstreamed and a wide range of special needs and at-risk populations are served by a full inclusion program.

Graduates qualify for administrator, coordinator, or service provider positions in preschools, day care centers, schools, hospitals, hospice centers, clinics, residential institutions, counseling centers, mental health centers, public welfare agencies, family service agencies, family planning clinics, community programs, business and industry, and government agencies. Graduates also qualify as community college instructors and can continue their education for the doctoral degree in human development or a related field.

¹ Legislative linkages include Social Security Title IVA (Title XX) Title 5 and Title 22.

² In collaboration with the Grossmont-Cuyamaca District strategies for competency-based curricula across all levels of child development programs throughout the State are being designed.

Admission to Graduate Study

Students will be admitted to the graduate program in child development only after careful consideration of their qualification by the Child Development Faculty Governing Board. All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in child development must meet the following requirements:

1. A bachelor's degree in child development or related fields or consent of the Child Development Faculty Governing Board.
2. Satisfy the prerequisites of courses in the program of study. If students' undergraduate preparation is deemed insufficient, students will be required to complete specified courses in addition to the minimum of 30 units required for the master's degree in child development.
3. A grade point average of 3.0 in the last 60 semester units attempted.
4. Completion of the GRE General Test with no less than a score of 500 on the verbal section and no less than a score of 500 on the quantitative section.

To be considered for admission to the graduate program in child development, an applicant must submit the following for review by the Child Development Faculty Governing Board which is in addition to the common admissions form:

1. Applicant's letter of intent which includes reason for seeking the degree and career goals.
2. Three letters of recommendation, one of which must be from an academic reference and another from an occupational reference.
3. A written personal statement by the applicant discussing background, interests, experiences, abilities, and career goals as they apply to the applicant's desire for a graduate degree in child development.
4. Completion of a telephone or in person interview conducted by one or more members of the Child Development Faculty Governing Board.
5. Two sets of official transcripts.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin, have identified a thesis research adviser, taken CFD 790 with a grade of B or better, and have had their research topic approved by their thesis advisers.

Specific Requirements for the Master of Science Degree in Child Development

(Major Code: 08231)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, students must complete a graduate program of at least 30 units including at least 18 units of 600- and 700-numbered courses.

All students must complete:

1. A core sequence of four courses to include Child and Family Development 634, 670, 790, and Psychology 670A or Public Health 602.
2. A 15-unit specialization, chosen in conjunction with the program adviser, six units of which must be from a department other than Child and Family Development.
3. Child and Family Development 799A, Thesis.

Courses Acceptable on Master's Degree Program in Child Development (CFD)

UPPER DIVISION COURSES

536. Divorce and Remarriage (3) II

Prerequisites: Child and Family Development 335 and Sociology 101. **Proof of completion of prerequisites required:** Copy of transcript.

Integration of family theories and research findings. Emphasis on adjustment to divorce and remarriage throughout life cycles, across cultures, social classes, and ethnicities.

537. Child Abuse and Family Violence (3) I, II

Prerequisites: Child and Family Development 270 and 371; consent of instructor for graduate students. **Proof of completion of prerequisites required:** Copy of transcript.

Multidisciplinary approach to child abuse and family violence including maltreatment, mistreatment, neglect, sexual abuse.

570. Infant/Toddler Development (3) I

Prerequisite: Child and Family Development 275 or Psychology 230 with grade of C (2.0) or better. **Proof of completion of prerequisite required:** Copy of transcript.

Physiological, psychological, cognitive, social, and cultural development of the human organism from conception through three years of age.

575. Public Policy and Professional Ethics in Child and Family Development (3)

Prerequisites: Child and Family Development 375; 376A, 376B, or 376C; and 536 or 537 or 590. **Proof of completion of prerequisites required:** Copy of transcript.

Public policy and professional ethics as applied to child and family development, programs, and research.

577. Advanced Administration of Child Development Programs (3) II

Prerequisite: Child and Family Development 477. **Proof of completion of prerequisite required:** Copy of transcript.

Problem analysis and development of successful organizational strategies for child development program delivery. Leadership, effective communication, social and ethical issues from a multicultural perspective.

578. Parent-Child Relationships Across the Life Span (3) I

Prerequisites: Child and Family Development 335 and 370. **Proof of completion of prerequisites required:** Copy of transcript.

Multidisciplinary approach to the parent-child relationship as it continues and changes throughout the life of the dyad, including study of normative and nonnormative life events.

590. Developmental Dysfunctions (4) I, II

Three lectures and three hours of laboratory.

Prerequisite: Child and Family Development 270 or Psychology 230, and completion of 12 upper division units in child and family development with a grade of C (2.0) or better for majors; consent of instructor for graduate students. **Proof of completion of prerequisites required:** Copy of transcript.

Adaptive and maladaptive processes throughout life span with emphasis on emotional, psychological, and physical disorders. Etiology, development, and adjustment. Directed experience with special needs individuals and their families.

596. Advanced Studies in Child and Family Development (1-6)

Prerequisite: Nine upper division units in child and family development.

Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

597. Child and Family Development Field Experiences (1) I, II

Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375; 376A, 376B, or 376C; 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597L. **Proof of completion of prerequisites required:** Copy of transcript.

Developmental theories and techniques in child development.

597L. Child and Family Development Field Experiences Laboratory (2) Cr/NC I, II

Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375; 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597. **Proof of completion of prerequisites required:** Copy of transcript.

Directed experiences in practical application of developmental theories and techniques in various community agencies.

GRADUATE COURSES

634. Seminar in Family Processes (3)

Prerequisite: Child and Family Development 335.

Analysis of selected research in family structure, development, and crisis.

670. Seminar: Child Development and Guidance (3)

Prerequisite: Six upper division units in child and family development.

Emphasis on personality theories and on research and clinical findings relevant to systematic study of human development and the guidance of children.

671. Seminar in Human Development (3)

Prerequisite: Six upper division units in child and family development.

Analysis of selected research in human development. May be repeated with new content for maximum credit six units.

697. Advanced Field Experiences (3) Cr/NC

Prerequisite: Child and Family Development 670 or 671.

Advanced application of human developmental theories and techniques in various community settings.

790. Research Methods (3)

Prerequisite: Approval of graduate program adviser.

Analysis of research in the area of child and family development; criteria and procedures for conducting research.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with the chair and instructor and approval of graduate program adviser.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University, also student must be registered in the course when the completed thesis is granted final approval.

Associateships

Graduate students are employed in the School of Communication in teaching, research, and other areas. Graduate teaching associateships in communication are available to a limited number of qualified students. A limited number of graduate assistantships also are available in the School of Communication for those with academic or professional experience in various research and creative areas. Contact the Graduate Director or any of the graduate advisers for further information. Call (619) 594-5450 for an application.

General Information

The School of Communication offers graduate study leading to the Master of Arts degree in communication or the Master of Arts degree in television, film and new media production. The Master of Arts degree in communication prepares students either for additional graduate work leading to a doctoral degree or for various careers in industry. The Master of Arts degree in television, film and new media production prepares students for careers in creative areas of media design and production.

The School of Communication houses the Production Center for Documentary and Drama, which is integral to the technical and artistic training of senior students in film, video and the interface between these technologies, and in documentary production. In the Center, students participate in full-scale location and studio production and are mentored by the Filmmaker in Residence in the creation of their required course film and video projects.

Master of Arts Degree in Communication

The Master of Arts degree in communication provides advanced studies in two areas of specialization, to include mass communication and media studies, and communication studies. Each specialization prepares students for one of three career paths: 1) Rigorous theoretical and methodological studies prepare students for additional graduate work at the doctoral level. 2) Studies in specific content areas prepare students for leadership positions in key communication industries and professional areas. 3) Combining studies in communication with selected courses in the College of Education prepares students for teaching careers at the community college level. Placement of communication graduates in doctoral programs is excellent; communication professors recently rated this program as one of the top three master's programs in the nation. Other graduates occupy leadership positions in advertising, human resource development, media and telecommunications management, new media, organizational communication, organizational training, public relations, and telecommunications policy.

Research interests of faculty and students include conversation analysis, interpersonal communication, rhetorical criticism, relational communication, group communication, organizational communication, social influence processes, communication message and program strategies, instructional processes, media organizations and professionals, audience uses of media, media history, media production, media ethics, media law, new media studies and technologies, media criticism, media management, political communication, communication regulation and policy, international communication and intercultural communication.

Graduate students in the School of Communication have access to computer equipment to support research endeavors. Master's degree students are encouraged to work with faculty on research projects and to develop their own research programs. In addition, the School of Communication operates a large color television studio, a film and video production center, and a post production facility as instructional

and research facilities. The School collaborates with other departments in the College of Professional Studies and Fine Arts to operate the Multimedia Center and the Production Center for Documentary and Drama.

Admission to Graduate Study

Students will be admitted for the Fall and Spring semester. For Fall admission, application packages must be received and complete by the previous March 1. For Spring admission, application packages must be received and complete by October 1 (or August 31 for international students).

In addition to meeting the general requirements for admission to the University with classified graduate standing as outlined in Part Two of this bulletin, students applying for admission to the Master of Arts degree in communication are evaluated according to the following criteria:

1. Undergraduate major or minor in advertising, communication, film studies, journalism, radio-television, speech communication, public relations, or a related communication discipline. Those lacking adequate undergraduate preparation may be admitted conditionally to the program and are required to take one or more proficiency courses identified for each specialization, as determined by the graduate adviser for that specialization. Proficiency courses do not count toward the 30 units of a student's graduate program.
2. Minimum grade point average of 2.75 (when A equals 4.0) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree).
3. All applicants must post a Graduate Record Examination (GRE) verbal score of 450 or higher; a GRE quantitative score of 450 or higher; a combined GRE verbal and quantitative score of 950 or higher; and a GRE writing assessment (GRE-W) of level 4 or higher.
4. For international applicants for whom English is not their first language, TOEFL paper scores of 550 (or 213 online) or higher and a Certificate in Advanced English (CAE), indicating successful passage of the reading, writing, listening, and English usage test offered by the Cambridge English for Life (EFL) testing program.
5. Three letters of recommendation from academic or professional references that speak to the student's ability to succeed in graduate studies.
6. A personal statement of purpose composed by the applicant that: 1) identifies the degree specialization that provides the best fit with the applicant's objectives, 2) describes the applicant's undergraduate and/or professional preparation for graduate studies in the program and specialization, and 3) articulates the personal and/or career objectives that graduate studies in communication will help the applicant pursue.
7. Students seeking transfer from the Master of Arts degree in television, film and new media production into the Master of Arts degree in communication must meet the admission requirements above.

Advancement to Candidacy

In addition to meeting the general requirements for advancement to candidacy described in Part Two of this bulletin, students seeking the Master of Arts degree in communication must complete Communication 600A and 600B with a B grade or better prior to advancement.

Specific Requirements for the Master of Arts Degree

(Major Code: 06011)

In addition to meeting the requirements for the Master of Arts degree as described in Part Two of this bulletin and the requirements for one of the following two communication specializations, the student must complete a minimum of 30 units in courses acceptable in master's degree programs. Unless otherwise approved by the graduate adviser, all students must complete Communication 600A during their first semester of graduate study with a grade of B or better and must complete Communication 600B by the end of the second semester of graduate study with a grade of B or better. At least 18 units of the total program must be in courses numbered 600-799. Approval of the graduate adviser is required for all courses numbered 500-599. With the approval of the graduate adviser, students may take up to six units of graduate coursework in departments other than the School of Communication. Students may not repeat any course in their program of study without consent of the graduate adviser and instructor.

Specialization in Mass Communication and Media Studies

This specialization offers advanced studies for individuals seeking additional knowledge of advertising, public relations, journalistic practices, emerging communication technologies, or the impact of mass communication practices on individuals, groups and society as a whole. The program of study within this specialization is appropriate for individuals who seek a career in the applied communication fields (journalism, advertising, public relations), who wish to pursue careers involving new media communication industries, who wish to teach at the community college level or who wish to continue studies of mass communication and media at the doctoral level.

Proficiency Requirements. Individuals must demonstrate relevant undergraduate coursework for their desired area of focus within the specialization. Individuals without adequate preparation will be asked to take up to three proficiency courses. Specific proficiency courses will be determined in consultation with the graduate adviser after admission to the program.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. The remaining 27 units of the program must include completion of Communication 600A and 600B with a grade of B or better; six units selected from Communication 610, 620, 640, 660, 665; nine units selected from Communication 502, 503, 505, 506, 540, 555, 560, 574, 575, 580, 581, 585, 589, 591, 596, 696, 700, 701, 708, 750, 761, 764, 766, 771, 780, 785, 792, 798, Television, Film and New Media 562, 615, 660; and six units relevant to the specialization selected with the approval of the graduate adviser. No more than six units may be taken outside the School of Communication. No more than six units may be taken as special study (798).

Specialization in Communication Studies

This specialization provides advanced study of language, interaction and communication in relational, cultural, and societal contexts. Individuals in the specialization draw from international developments in critical and cultural studies to explore culture and communication; develop a deeper understanding of the intercultural and international dimensions of communication; and explore communication as an interactive process across diverse social relationships, activities and contexts. The program of study within the specialization prepares students for scholarly or applied careers in communication.

Proficiency Requirements. Individuals must demonstrate relevant undergraduate coursework for their desired area of focus within the specialization. Individuals without adequate preparation will be asked to take up to three proficiency courses. Specific proficiency courses will be determined in consultation with the graduate adviser after admission to the program.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. The remaining 27 units of the program must include completion of Communication 600A and 600B with a grade of B or better; six units selected from Communication 610, 620, 640, 660, 665; nine units selected from Communication 503, 580, 589, 591, 696, 700, 701, 706, 715, 721, 735, 740, 747, 750, 755, 766, 771, 792, 798, Television, Film and New Media 562, 615, 660; and six units relevant to the specialization selected with the approval of the graduate adviser. No more than six units may be taken outside the School of Communication. No more than six units may be taken as special study (798).

Master of Arts Degree in Television, Film and New Media Production

The School of Communication, in the College of Professional Studies and Fine Arts, offers graduate study leading to the Master of Arts degree in television, film and new media production. This degree is especially useful for those pursuing careers in film, television, radio, new media, or related production activities where sophisticated and disciplined ability to conceive, initiate and complete original media messages is required. Graduates of this program occupy leadership positions in the media industries. This degree offers advanced study in the history and criticism of broadcasting and film; scriptwriting; financing, preproduction, and postproduction; advanced audio, video, and film production; broadcast and film performance; international broadcasting and cinema; educational and instructional media; and development of production expertise in a wide range of emerging communication technologies. The Master of Arts degree in television, film and new media production emphasizes advanced media design and production. Admission to this degree program requires undergraduate preparation or equivalent professional experience, documented through submission of a portfolio of previous creative activity or other evidence of creativity. Postbaccalaureate students who are without previous media production education or experience and who wish to learn television and film production should consider pursuing a second bachelor's degree in media production or completing basic production courses elsewhere before enrolling in graduate study at San Diego State University. Students with an undergraduate major or minor in media may enroll in advanced production courses for graduate credit as part of their master's program.

The School of Communication operates a large color television studio and a radio complex as teaching facilities. KPBS-TV and KPBS-FM, public broadcasting stations for San Diego, are located on campus and encourage student involvement. San Diego State University operates a closed-circuit instructional television service for the entire campus, a student-operated radio station (KCR), computer facilities, the International Center for Communications, the Multimedia Center, and the Production Center for Documentary and Drama.

Admission to Graduate Study

Students will be admitted for the Fall and Spring semester. For Fall admission, application packages must be received and complete by the previous March 1. For Spring admission, application packages must be received and complete by October 1 (or August 31 for international students).

In addition to meeting the general requirements for admission to the University with classified graduate standing, as outlined in Part Two of this bulletin, students applying for admission to the Master of Arts degree in television, film and new media production are evaluated according to the following criteria:

1. Undergraduate major or minor in television, film, or a related communication discipline. Those lacking adequate undergraduate preparation or equivalent professional experience for the program will be required to complete one or more lower division and upper division proficiency courses as determined by the graduate adviser. Proficiency courses do not count toward the 30 units of a student's graduate program.
2. Minimum grade point average of 2.75 (when A equals 4.0) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree).
3. All applicants must post a Graduate Record Examination (GRE) verbal score of 450 or higher; a GRE quantitative score of 450 or higher; a combined GRE verbal and quantitative score of 950 or higher; and a GRE writing assessment (GRE-W) of level 4 or higher. For applicants deficient in the GRE quantitative, a score of 450 or higher on the GRE analytic may be substituted.
4. For international applicants for whom English is not their first language, TOEFL paper scores of 550 (or 213 online) or higher and a Certificate in Advanced English (CAE), indicating successful passage of the reading, writing, listening, and English usage test offered by the Cambridge English for Life (EFL) testing program.
5. Three letters of recommendation. At least one letter from an academic reference and at least one letter from a professor or professional acquainted with the applicant's creative activities.
6. A resume that includes any film and/or video production experience you have had. (Note: Candidates with no previous production experience will be required to take an intensive undergraduate film production course that does not count toward the graduate degree.)
7. The best evidence applicant can provide of creativity, technical skill level, and command of the medium. Generally, a sample reel is the most useful. The sample reel should be a film, videocassette (VHS) or DVD of work in which applicant held a key creative role (writer/director, cinematographer, editor, sound designer, production designer). Credits must be clearly indicated. Even though long work may be submitted, no more than 10 minutes of the work provided will be viewed, so cue, or specify appropriate cueing, of sample. In lieu of a sample reel, other examples might include a sample of original textual work (play, story, or screenplay for writers/directors) or visual material (drawings, storyboards, designs, or studio photography that may reflect lighting, framing, or composition skills).
8. A list, by author and title, of six books (novels, plays, essays) that have influenced applicant artistically.
9. A list of three films (narratives, documentaries, experimental), plays or television programs that applicant admires, devoting one paragraph to each work.
10. A list and description (in a sentence) of applicant's hobbies and interests outside of film, video, and theatre.
11. Personal Statement: A short essay describing your creative and career goals and how you think this program will benefit you. (Maximum two pages.)

Admission to the program is competitive, and satisfying these requirements does not guarantee admission. The decision to admit is based on consideration of the entire application file; promising applicants in unusual circumstances are encouraged to apply.

Students accepted for graduate study in the Master of Arts degree in television, film and new media production are initially admitted with conditional graduate standing (classified). Full classified standing is awarded only after the student has completed Television, Film and New Media 600 with a grade of B or better.

Advancement to Candidacy

In addition to meeting the general requirements for advancement to candidacy described in Part Two of this bulletin, students seeking the Master of Arts in television, film, and new media production must complete Television, Film and New Media 600 and 702 with a grade of B or better prior to advancement.

Specific Requirements for the Master of Arts Degree

(Major Code: 06031)

Candidates for the Master of Arts degree in television, film and new media production must complete 30 units of coursework and to include the following:

1. Communication 799A (Plan A, the thesis option, is required of all students in the program), Television, Film and New Media 600 (required for classified graduate standing), and 702.
2. With approval of the graduate adviser, 21 additional graduate units in Television, Film and New Media, Communication, and other departments, of which nine units must be at the 600-700 level.
3. No more than nine units of electives outside the School of Communication.

Courses Acceptable on Master's Degree Programs in Communication and Television, Film and New Media Production (COMM) (JOUR) (TFM)

Communication (COMM) UPPER DIVISION COURSES

500. Current Problems in Mass Communication (3)

Prerequisites: Communication 440, 460, or 480 or Journalism 300; and at least 12 units of upper division coursework in communication.

Problems and topics in mass communication. Ethics, social responsibility, professionalism, multi-cultural issues, international media systems and audiences, global markets, and technology.

501. Management of Telecommunications Systems (3) II

Prerequisite: Communication 375 or 440 or admission to the graduate program. **Proof of completion of prerequisite required:** Copy of transcript.

Organization and administration of telecommunications systems, with emphasis on structure, policy environment, and principal institutions affecting telecommunications industries.

502. Law of Mass Communication (3)

Prerequisites: Communication 200 or Political Science 102, and upper division standing.

Libel, invasion of privacy, censorship, contempt of court, pornography. Constitutional guarantees affecting print and broadcast media. Government restrictions.

503. Instructional Communication (3)

Prerequisites: Communication 160 and 305. **Proof of completion of prerequisites required:** Copy of transcript.

Communication messages and strategies as they apply to instructional contexts. Communication within traditional instructional contexts and focus on training programs, adult workshops, and other less traditional information dissemination situations.

505. Government and Telecommunications (3) II

Prerequisite: Twelve upper division units in communication.

Responsibilities of telecommunication organizations as prescribed by law, government policies and regulations, and significant court decisions.

506. Advertising and Society (3)

Prerequisites: Communication 300 and 350.

Theoretical and philosophical analysis of advertising in modern society.

530. Conversational Interaction (3)

Prerequisite: Completion of preparation for the general communication studies program or admission to the graduate program.

Sequential organization of naturally occurring conversational practices. Reliance on recordings and transcriptions for detailed examinations of interactants' methods for achieving social actions and organizing interactional occasions.

540. Media Management Research (3)

Two lectures and two hours of activity.

Prerequisites: Communication 310W and 440 with grades of C (2.0) or better. **Proof of completion of prerequisites required:** Copy of transcript. Limited to Media Management majors and minors, Major Code: 06032.

Applying research in cable, film, radio, television and telecommunications management. Designs, methodologies, analyses, applications of audience, programming, and advertising research.

541. Advanced Creative Production (3)

One lecture and four hours of activity.

Prerequisites: Communication 461 or 481; and consent of instructor.

Design and production of print and electronic advertising and public relations messages. Creative strategy and evaluation. Print, film and video techniques. Maximum credit six units.

545. Communication and Rhetorical Movements (3)

Prerequisite: Completion of preparation for the general communication studies program or admission to the graduate program.

Historical perspective of role of communication in social change in rhetorical movements and social change.

555. New Media Production (3)

Two lectures and three hours of activity.

Prerequisite: Upper division standing or admission to the graduate program.

Development of audio visual/communication products in new media formats. Multi-media laboratory use to be arranged.

560. Advertising Research (3) I

Prerequisites: Communication 310W and 460 with grades of C (2.0) or better. **Proof of completion of prerequisites required:** Copy of transcript. Limited to advertising majors and minors (Major Code 06041).

Systematic application of quantitative and qualitative research to planning, design, and management of advertising campaigns. Cases, practices, and problems in application of research to consumer, market analysis, positioning, creative selection, media planning, and campaign evaluation.

565. Advertising Campaigns (3) II

Prerequisites: Communication 461 and 560.

Planning and creation of advertising campaigns including situation analysis and strategy, advertising and marketing objectives, consumer analysis and target audience selection, creative development, media strategy and tactics, sales promotion, and campaign evaluation.

571. Intercultural Communication Theory (3)

Prerequisite: Completion of preparation for the general communication studies program and Communication 371, or admission to the graduate program.

Theories of cross-cultural and intercultural communication, including ethnic identity, communication competence, and cultural values.

574. International Advertising (3)

Prerequisites: Communication 300, 350, and six upper division units in School of Communication courses.

Comparative cultural, economic, legal, political, and social conditions relevant to international advertising. Not open to students with credit in Communication 474.

575. Technological Trends in Telecommunication (3)

Prerequisite: Limited to Major Codes: 06011, 06021, 06031, 06032, 06041, 05992, 06033, or admission to graduate program.

Developments and trends in telecommunication and related technology, with implications for the future. Practical experience with on-line computer activities.

580. Communication and Politics (3)

Prerequisites: Communication 160 and 305. **Proof of completion of prerequisites required:** Copy of transcript.

Contemporary political communication events and processes, with a focus on speeches, debates, and campaigns.

581. Public Relations Research (3)

Two lectures and two hours of activity.

Prerequisites: Communication 310W and 480 with grades of C (2.0) or better and 489. **Proof of completion of prerequisites required:** Copy of transcript. Limited to public relations majors and minors (Major Code 05992).

Qualitative and quantitative methods used in evaluation research to plan, track, and evaluate public relations programs. Computerized statistical analysis.

583. Medical Interaction (3)

Prerequisites: Communication 300 and 350.

Theoretical and applied approaches to health communication including interactional patterns among doctors, nurses, patients, family members, therapists, counselors, and clients. Not open to students with credit in Communication 584.

584. Legal Interaction (3)

Prerequisites: Communication 300 and 350.

Interactional patterns among judges, lawyers, witnesses, juries, and related legal personnel. Implications for understanding constraints on exchange within institutional interaction and social justice as a practical accomplishment.

585. Professional Practices in Public Relations (3) I

Prerequisites: Communication 581 and credit or concurrent registration in Communication 481.

Advanced cases in public relations management. Theory and practice of issues management, integration of the public relations function in strategic management in a variety of corporate, governmental, nonprofit, social, and cultural organizations.

589. Ethical Issues in Communication (3)

Prerequisites: Communication 160 and 305. **Proof of completion of prerequisites required:** Copy of transcript.

Classical and modern ethical concepts and issues in communication.

591. International Telecommunications (3) I

Prerequisite: Twelve upper division units in School of Communication or admission to the graduate program.

Comparative study of economic, social, political determinants of broadcasting, and telecommunication systems around the world.

592. Persuasion (3)

Prerequisite: Communication 103. Open to majors and nonmajors.

Key variables and theories in the persuasion process: persuasive sources, messages, receiver variables, propaganda, brainwashing, cognitive, behavioral, and social theories of persuasion. Not applicable to the M.A. degree in communication.

596. Selected Topics (1-4)

Prerequisite: Senior standing or above.

Specialized study in selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Communication (COMM)

GRADUATE COURSES

600A. Seminar: Introduction to Communication Graduate Studies (3)

Prerequisite: Classified or conditionally classified graduate standing in the School of Communication.

Contemporary and emergent communication theory. Extensive writing from exercises in bibliographical techniques, database searches, reference works, scholarly journals, and research proposal. Required for first semester of graduate work; prerequisite for advancement to candidacy. May not be repeated more than once.

600B. Seminar: Communication Research Methods (3)

Prerequisite: Classified or conditionally classified graduate standing in the School of Communication.

Methods and tools of inquiry in communication research. Survey/experimental methods, conversation analysis, ethnographic, theoretical, critical and rhetorical studies. Required for first semester of graduate work; prerequisite for advancement to candidacy. May not be repeated more than once.

610. Seminar: Advanced Communication Theory (3)

Prerequisite: Communication 600A.

Advanced methods of theory construction, explication, and evaluation in communication, including alternatives to traditional communication science.

620. Seminar: Quantitative Methods in Communication Research (3)

Prerequisites: Communication 540, 560, and 581 or Communication 600A and 600B.

Advanced applications of survey methodology; evaluation of experimental and quasi-experimental procedures; methods of statistical inference and research design; application of computer statistical package.

640. Seminar: Critical and Rhetorical Methods in Communication (3)

Prerequisites: Communication 600A and credit or concurrent registration in Communication 600B.

Methodologies for textual, rhetorical, semiotic, narrative, and reception research. Use of case studies, focus groups, and interpretive methods.

660. Seminar: Ethnographic Methods in Communication Research (3)

Prerequisites: Communication 600A and 600B.

Historical and contemporary assumptions of ethnographic inquiry, including research design, data collection, and analysis of field materials.

665. Seminar: Conversation Analysis in Communication Research (3)

Prerequisites: Communication 600A and 600B.

Assumptions and practices of conversation analysis. Repeated examinations of diverse recordings and transcriptions as resources for analyzing distinctive, methodological, and ordered nature of communication contexts.

696. Special Topics (1-3)

Prerequisite: Graduate standing.

Intensive study in specific areas of communication. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar: Telecommunication Management (3)

Prerequisites: Communication 600A and 600B.

Planning, organizing, and staffing in communications and media enterprises. Managing creative processes. Examining technologies and competitive environments.

701. Seminar: Mass Communication Problems (3)

Prerequisites: Communication 600A and 600B.
Reading, investigation, and research concerning current topics in problems of mass media. May be repeated with new content. Maximum credit six units.

706. Seminar: Organizational Communication (3)

Prerequisites: Communication 600A and 600B.
Functions, forms, and consequences of communicating in organizations in a changing work world. Topics such as culture groups, networks, leadership, conflict, and decision making.

708. Seminar: Mass Communication and Society (3)

Prerequisites: Communication 600A and 600B.
Rights, responsibilities, and characteristics of mass media and mass communication practitioners. Characteristics and responsibilities of audiences and society.

715. Seminar: Nonverbal Communication (3)

Prerequisites: Communication 600A and 600B.
Nonverbal human behavior, including body movements, gesture, gaze, touch, and integration of vocal and nonvocal activities in human interaction.

721. Seminar: Interaction and Health (3)

Prerequisites: Communication 600A and 600B.
Personal, interactional, cultural, and political dimensions of communication about health and illness. Assumptions, practices, and structures of discourse across boundaries of family, social, and institutional contexts. May be repeated with new content. Maximum credit six units.

735. Seminar: Relational Communication (3)

Prerequisites: Communication 600A and 600B.
Contemporary theory and research addressing interpersonal verbal and nonverbal communication in intimate and non-intimate relationships.

740. Seminar: Rhetorical Theory (3)

Prerequisites: Communication 600A and 600B.
Leading figures in rhetorical theory from Plato to contemporary theorists. Application of theory to public address.

747. Seminar in Argumentation (3)

Prerequisites: Communication 600A and 600B.
Process and theory of argumentation including argument fields, spheres, and evaluation of contexts such as conversation, history, public policy-making.

750. Seminar in Selected Topics: Communication Contexts (3)

Prerequisite: Communication 600A.
Intensive study in specific contextual forms of communication such as legal interaction, gender, group communication, international journalism, and the dark side of communication. See Class Schedule for specific content. May be repeated with new content. Maximum credit nine units applicable to a master's degree in communication.

755. Seminar: Public Address (3)

Prerequisites: Communication 600A and 600B.
Case studies of rhetorical events which illustrate rhetorical theory. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

761. Seminar: Selected Topics in Telecommunications (3)

Prerequisite: Communication 600A.
Intensive study in telecommunications issues and trends. See Class Schedule for specific content. May be repeated with new content. Maximum credit nine units applicable to a master's degree in communication.

764. Seminar: Telecommunication Technology and Policy (3)

Prerequisites: Communication 600A and 600B.
Contemporary trends in telecommunication and information technology, implications of trends for public policy and affected businesses. Interaction between technology, implications of trends for public policy and affected businesses. Interaction between technology and regulation.

765. Seminar: Conversational Interaction (3)

Prerequisites: Communication 600A and 600B.
Sequential organization of naturally occurring conversational practices. Reliance on recordings and transcriptions for detailed examinations of interactants' methods for achieving social actions and organizing interactional occasions. (Formerly numbered Communication 730.)

766. Seminar: Telecommunication Issues and Trends (3)

Prerequisites: Communication 600A and 600B.
Issues and trends important to coming decade, resulting from rapid evolution of telecommunications and related technologies, and their applications in society.

771. Seminar: Intercultural Communication (3) I, II

Prerequisites: Communication 571, 600A, and 600B.
Analysis of cultural influences on human communication acts. Emphasis on cultural values, perception, social organizations, language, and nonverbal codes.

780. Seminar: Public Relations Research (3)

Prerequisites: Communication 581, 600A, and 600B.
Analysis and critique of contemporary public relations programs and theory. Development of a comprehensive public relations project involving original research.

785. Seminar: Advertising Research (3)

Prerequisites: Communication 560, 600A, and 600B.
Advanced topics in theory, design, and utilization of advertising research.

792. Seminar: Persuasion (3) I, II

Prerequisites: Communication 600A and 600B.
Contemporary theories and models of persuasion, methods of assessing persuasive effect, and analysis of research literature.

798. Special Study (1-3) Cr/NC/RP

Contract required. Arranged with graduate coordinator in area of study. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.
Registration in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Journalism (JOUR)

UPPER DIVISION COURSES

529. Investigative Reporting (3)

One lecture and four hours of activity.
Prerequisites: Journalism 420 with minimum grade of C (2.0); upper division standing; and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.

Development of articles of substance and depth in specialized areas. Research, analysis and interpretation of complex issues in the news. Special problems of the sustained, reportorial effort. Field and laboratory practice.

530. Management of News Organizations (3)

Prerequisites: Senior standing and twelve upper division units in journalism.
Role of manager in journalism and journalism-related organizations. Interaction of news, entertainment, advertising, circulation, production, and promotion functions as related to economic demands.

550. News Production (3)

One lecture and four hours of activity.
Prerequisites: Journalism 420 with minimum grade of C (2.0); and a passing score on the Grammar, Spelling, and Punctuation (GSP) test.
News production principles and techniques. Field and laboratory practice.

Television, Film and New Media (TFM) UPPER DIVISION COURSES

510. Script Writing for Television and Film (3)

Prerequisites: Television, Film and New Media 110, 260 or 261; and satisfaction of the English Placement Test and Writing Competency requirements.

Scripting of dramatic original and adaptation forms, and the documentary. (Formerly numbered Television, Film and New Media 410.)

522. Film and Television Cinematography (3) I

Two lectures and three hours of laboratory.
Prerequisites: Television, Film and New Media 110, 122, and 123.
Proof of completion of prerequisites required: Copy of transcript.

Advanced theory and practice of cinematography for film and television production. Practicum in cinematography problems related to control of light and image for television and film, including use of specialized equipment, film and videotape stock, location and studio shooting, and complex blocking problems.

550. Art Direction for Television and Film (3) II

One lecture and four hours of activity.
Prerequisites: Television, Film and New Media 350, 260 or 261, and consent of instructor. **Proof of completion of prerequisites required:** Copy of transcript.

Aesthetic, technical, and administrative aspects of design for television and film. Experience in scenic design, construction, decoration, lighting, and special effects.

551. Production Design for Television and Film (3)

Prerequisites: Television, Film and New Media 350 and credit or concurrent registration in Television, Film and New Media 401.

Theory and analysis of production design concepts for television and film. Determination of stylistic and technical requirements for fictional and nonfictional productions.

560. Advanced Film (3)

Two lectures and more than three hours of activity.
Prerequisites: Television, Film and New Media 260, 261, and 510 with grade of B (3.0) or better in each and consent of instructor. **Proof of completion of prerequisites required:** Copy of transcript.

Practicum in direction and production of dramatic and non-dramatic film. Cameras, lighting, design, sound techniques, experience in University sponsored productions. Completion of a short film.

561. Advanced Television (3)

Two lectures and more than three hours of activity.
Prerequisites: Television, Film and New Media 260, 261, and 510 with grade of B (3.0) or better in each and consent of instructor.
Stylistic techniques, and individual projects in producing and directing. Documentary production.

562. Documentary and Propaganda Film/Television (3)

Prerequisite: Television, Film and New Media 160.
Analysis through viewing of persuasive concepts, techniques, and forms in international, documentary film and television programs, and special effects.

565. Animated Film and New Media Techniques (3) II

Two lectures and more than three hours of activity.
Animation production and practical experience in digital technologies.

569. Advanced Projects in Film and Video (3)

Two lectures and more than three hours of activity.
Prerequisites: Television, Film and New Media 510, and 560 or 561.
Original and creative work demonstrating significant achievement in film and video production. Maximum credit six units. (Formerly numbered Television, Film and New Media 469.)

596. Selected Topics in Television, Film and New Media (3)

Prerequisite: Twelve units in television, film and new media.
Specialized study of selected topics from the areas of television, film and new media. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Television, Film and New Media (TFM) GRADUATE COURSES

600. Seminar: Research and Bibliography in Media Production (3)

Methods of research, telecommunications policy, critical analysis, and writing in relation to creative work.

610. Seminar in Writing for Television and Film (3)

Prerequisite: Admission to creative specialization.
Non-dramatic and dramatic structures as they apply to non-fiction and fiction television programs and films. Writing full length script or scenario. Maximum credit six units applicable to a bachelor's degree.

615. Seminar in Criticism of Electronic Media and Cinema (3)

Prerequisite: The equivalent of an undergraduate major in television, film, and new media production.
Standards for objective appraisal of the ethical and artistic aspects of radio, television and film programs.

660. Seminar in Dramatic and Documentary Forms in Television and Film (3)

Prerequisite: Admission to creative specialization.
Techniques and stylistic contributions of major directors as seen in their television and film productions. Maximum credit six units applicable to a master's degree.

665. Seminar in Documentary Filmmaking (3)

Prerequisites: Television, Film and New Media 560, 562, and admission to creative specialization.
Documentary production, emphasizing conceptual and technical understanding, intellectual, artistic and emotional aspects of screen authorship, historical, and contemporary uses and practical experience in production of documentaries. Maximum credit six units applicable to a master's degree.

702. Seminar in Media Message Design (3)

Prerequisite: Television, Film and New Media 600.
Designated for students embarking on creative projects. Addresses selection, organization, and creative techniques of message design elements in the telecommunications and film media. Methods and approaches to planning creative projects. Development of proposals for projects as well as grant applications.

798. Special Study (1-3) Cr/NC/RP

Individual study. Contract required. Arranged with graduate coordinator in area of study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.
Following assignment of RP in Course 799A, registration in this course is required in any semester in which the student expects to use the facilities and resources of the University; also student must be registered in this course when the completed thesis or project is granted final approval.

General Information

The master's degree programs in Speech Pathology and Audiology are accredited by the American-Language-Hearing Association. The master's degree program in Education of the Deaf is accredited by the Council on Education of the Deaf.

The Department of Communicative Disorders offers graduate study leading to the Master of Arts degree in communicative disorders, and to the credentials described below. The cooperating faculties of San Diego State University and the University of California, San Diego, offer a joint program leading to a Ph.D. in language and communicative disorders. The master's degree program is accredited by the American Speech-Language-Hearing Association Council on Academic Accreditation in Audiology and Speech-Language Pathology, and the training program for teachers of the hearing impaired is accredited by the Council on Education of the Deaf. The department offers advanced study in communicative sciences, speech-language pathology, audiology, and education of the deaf. The Department of Communicative Disorders is committed to preparing speech-language-hearing professionals to meet the challenges of a culturally and linguistically diverse society.

The programs utilize the facilities of the Communications Clinic, which includes observation rooms, departmental reference collection, and speech and hearing science laboratories. In the laboratories, students use personal computers, microprocessor based diagnostic audiometers, spectral signal analyzer, acoustic immittance equipment, hearing aid analyzer, digital spectrograph, Visipitch, phonic mirror, state-of-the-art ENG and evoked potential equipment, miniphonators, audiometric response simulators, laryngoscopic manikin, and audio and video recording equipment with ongoing new acquisitions.

In addition, the department utilizes an off-campus multidisciplinary diagnostic and rehabilitation center. Students and faculty participate in providing direct delivery of clinical services to clients and participate in

the assistive devices assessment program, which evaluates and recommends augmentative or alternative means of communication for persons with severe communication impairment. Field experience is offered in the public schools and community agencies. Practicum and observation experiences are possible at various hospitals, schools, community agencies, convalescent homes, and rehabilitation agencies.

Section I. Master's Degree Programs

Admission to Graduate Study

Students will be admitted to the graduate programs only in the Fall Semester. Applications to the University must be submitted by February 1 for the master's degree programs in speech-language pathology, audiology, education of the deaf, and communicative sciences. For application information, see the department's Web site, www.rohan.sdsu.edu/dept/chhs/cd/cd.html, select "M.A. Application" from the index or call (619) 594-6774.

All students must satisfy the general admission and examination requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, the applicant must satisfy the following requirements before being considered for admission to classified graduate standing by the department's Admissions Review Committee.

Applicants must have a minimum grade point average of 3.2 (on a 4.0 scale) during the last 60 semester units of undergraduate college/university coursework.

Application Guidelines for the Master of Arts Program

(Note: Incomplete applications will not be reviewed)

A. DEADLINE FOR RECEIPT: February 1

1. University application submitted electronically available at www.csumentor.edu.
2. Department application submitted electronically available at www.rohan.sdsu.edu/dept/chhs/cd/cd.html.

B. DEADLINE FOR RECEIPT: February 1

1. GRE scores: GRE scores are required and must be received by February 1. Contact the Educational Testing Service (www.ets.org) to request scores be sent electronically to SDSU (SDSU code: 4682, department code: 0630).
2. TOEFL scores, if applicable. Contact the Educational Testing Service (www.ets.org) to request scores be sent electronically to SDSU (SDSU code: 4682).

C. DEADLINE FOR RECEIPT: February 1

The following materials should be submitted as a complete package directly to the Department of Communicative Disorders:

1. One applicant essay (guidelines available on department Web site);
2. Three recommendation forms in sealed and signed envelopes (forms available on department Web site);

3. Two sets of official transcripts (in sealed envelopes) from all institutions attended. (Note: Please have the institution send the official transcripts to you and include them [unopened] in the admissions packet.) If you are an SDSU graduate, include one unofficial transcript in your packet;
4. Optional resume of experiences applicable to this field.

Mail or deliver your complete admissions package to:
Department of Communicative Disorders
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1518

Once the above requirements have been satisfied, the applicant's file is considered complete and eligible for review by the department's Admissions Review Committee. Admission to the graduate programs is guided by careful consideration of all the above materials by a designated Admissions Review Committee. Applicants whose files are incomplete will not be eligible for admission to classified graduate standing. The number of new admissions is restricted and is determined by space availability; therefore, admission is based on consideration of all application materials and the relative merits of individual applicants among all eligible applicants.

In some cases, candidates who have not completed the above requirements may be admitted with a conditionally classified standing, subject to space availability after consideration of those who meet the requirements for classified graduate standing. Students admitted to conditionally classified graduate standing may petition for a change of classification to classified graduate standing after satisfying the conditions specified at the time of admission, and after completion of nine units of 500- or 600-level coursework with a 3.0 grade point average in those courses.

Students who receive special permission to enroll in department courses through the College of Extended Studies or who enter with postbaccalaureate unclassified standing are not admitted to the department and are not assured of consideration for admission to advanced degree curricula, master's degree, credentials, or certificate programs offered by the department. Admission to the University or enrollment in classes does not guarantee acceptance to the department.

Graduate faculty serve as graduate advisers and are assigned to students upon admission.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 12201)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 36 units. A student must complete Communicative Disorders 799A, Thesis for Plan A. The thesis option requires approval by the department and may not be appropriate for every student. If Plan B is elected, the student must pass a written comprehensive examination (which may be repeated only twice). No more than six units of coursework outside the department acceptable on the graduate level may be applied to the master's degree.

The Department of Communicative Disorders offers four concentrations leading to the Master of Arts degree. Each concentration requires completion of a specific pattern of graduate units described below:

- A. Concentration in Speech-Language Pathology.** This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Speech-Language Pathology from the American Speech-Language-Hearing Association and for licensure from the State of California. Students are required to complete coursework in all of the following areas:
 - a. Voice Disorders
 - b. Fluency Disorders
 - c. Articulation/Phonology Disorders
 - d. Adult Language Disorders
 - e. Child Language DisordersThe coursework may be taken during undergraduate or graduate preparation.
- Undergraduate Preparation.** Communicative Disorders 106, 205, 300, 320, 321, 322, 323, 340, 340L, 512, 513, 514, 517, 539; Physics 201; Psychology 270 or Sociology 201 (or equivalent).
- Graduate Program.** The following courses are required: Communicative Disorders 600 or 795, 601 or 654, 602, 607, 613 or 614, 630, 672 or 673, and one 700 level communicative disorders seminar course.

In addition, candidates following Plan A must complete Communicative Disorders 799A and nine units from the electives. Candidates following Plan B must complete 12 units from the electives. Electives may be selected from the following courses with the approval of the adviser: Communicative Disorders 503, 511, 570, 580, 603, 604, 608, 675, 797, 798; Linguistics 554; and any of the required course options that were not selected.

Students pursuing the Early Intervention/Multicultural Certificate from the Department of Communicative Disorders may substitute one of the following courses for one of the Speech-Language component of coursework with the approval of the faculty adviser: Child and Family Development 570; Social Work 781; Special Education 528.
- Students electing to pursue the Certificate of Clinical Competence in Speech-Language Pathology (ASHA), California licensure for Speech-Language Pathology, or the Clinical-Rehabilitative Services Credential (Language, Speech and Hearing or Special Day Class) for California Schools should complete, in addition to the required courses listed above, additional academic courses and clinic hours required by national and state organizations. It is department policy that all credential students maintain a 3.0 grade point average in all 600 level and above credential courses.**
- B. Concentration in Audiology.** This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Audiology from the American Speech-Language-Hearing Association and for licensure from the State of California.

Undergraduate Preparation. Communicative Disorders 106, 205, 300, 320, 321, 323, 340, 340L, 512, 513, 517; Physics 201; Psychology 270 or Sociology 201 (or equivalent).

Graduate Program. Required courses: 36 units to include Communicative Disorders 542, 600 or 795, 610, 611, 620, 640, 643, 644, 647, 648, 653; and Plan A (799A) or Plan B (comprehensive examination and three units of electives selected with the approval of the faculty adviser).Students electing to pursue the Certificate of Clinical Competence in Audiology (ASHA), California State licensure in Audiology, or the Clinical-Rehabilitative Services Credential (Audiology) for California schools should complete, in addition to the required courses listed above, additional academic courses and clinic hours required by national and state organizations
- C. Concentration in Education of the Deaf.** This concentration has a multicultural/educational focus and may be used to satisfy some of the academic and clinical preparation for certification by the Council on Education of the Deaf (CED), and for the California Education Specialist Credential for the Deaf and Hard-of-Hearing.

Undergraduate Preparation. Communicative Disorders 159, 205, 259, 289, 300, 320, 321, 340, 340L, 350, 357, 513; Physics 201; Psychology 101; Psychology 270 or Sociology 201 (or equivalent).

Graduate Program. Required courses: 36 units to include Communicative Disorders 550, 600, 655, 657, 658, 659, 668, 675; and Plan A (799A) or Plan B (comprehensive examination); and electives to include nine units (Plan A) or 12 units (Plan B) selected from Communicative Disorders 562, 613, 797, 798, or Policy Studies in Language and Cross-cultural Education 600, 601, 650 or 651 or Special Education 525, 528, 645. No more than nine units of coursework outside the department acceptable on the graduate level may be applied to the master's degree. Students pursuing a specialization in deafblindness are advised to select from the recommended special education courses.

Competency in communication with deaf persons must be demonstrated. A rating of intermediate or better ability in American Sign Language is required for admission to the program.

- D. **Concentration in Communicative Sciences.** This concentration has research and theoretical foci in the area of communicative disorders. Students interested in study with a research environment requiring a strong scientific foundation may avail themselves of this concentration.

Undergraduate Preparation. Communicative Disorders 106, 205, 300, 320, 321, 323, 340, 340L, 512, 539; Physics 201; Sociology 201.

Graduate Program. Required courses: 36 units to include Communicative Disorders 600 or 795; Plan A (799A) or Plan B (comprehensive examination); electives to include 27 units selected from 500, 600, and 700-level courses with consent of the faculty adviser; and up to six units of appropriate 500, 600, and 700-numbered courses from engineering, linguistics, physics, psychology, or other departments may be included in the 27 units of electives with the approval of the department graduate adviser.

**Section II.
Doctoral Program**

San Diego State University is in the process of securing approval for a joint Au.D. program in Audiology with the University of California, San Diego. For further information, contact the Department of Communicative Disorders.

General Information

(Major Code: 12201)

The cooperating faculties of San Diego State University and the University of California, San Diego, offer a joint doctoral program in language and communicative disorders. The program's focus is the interdisciplinary study of language and communicative disorders. A major emphasis of the program is to apply techniques developed in cognitive science and neuroscience to the study of language and language disorders. The program involves study and research in normal and abnormal language (including sign languages), and in the neural bases of language use and language loss.

Participating faculty have research interests in a wide range of issues in the processes of language development, language and aging, multilingualism, language disorders, assessment, and intervention. Graduates of the program will be qualified to serve as faculty in university programs in a variety of disciplines, and to provide leadership in research and health services.

The doctoral program faculty at SDSU are members of the Department of Communicative Disorders, Department of Linguistics, and the Department of Psychology. The doctoral program faculty at UCSD are also an interdisciplinary group from the Department of Cognitive Science, Department of Communications, Department of Linguistics, Department of Neurosciences, and the Department of Psychology. The program is coordinated by the doctoral program directors at each campus, in conjunction with an executive committee comprised of three faculty from each campus appointed by the graduate deans from each campus.

The program is innovative in that many of the requirements are designed to function as a model of professional preparation specifically incorporating activities in which a successful teacher and researcher must engage after obtaining the Ph.D. Students will be required to participate in interdisciplinary research throughout the program, learn about the nature and ethics of research, prepare grant proposals, write manuscripts, and will gain experience in oral presentations and teaching. Graduates from the program will be well-prepared for the rigors of an academic/research career.

Faculty

The following faculty participate in the doctoral program in language and communicative disorders and are available as advisers, for direction of research, and as members of dissertation committees.

San Diego State University: Barlow (Communicative Disorders), Cheng (Communicative Disorders), Choi (Linguistics), Christensen (Communicative Disorders), Fenson (Psychology), Friend (Psychology), Gutierrez-Clellen (Communicative Disorders), Reilly (Psychology), Robin (Communicative Disorders), Shapiro (Communicative Disorders), Thal (Communicative Disorders), Wulfeck (Communicative Disorders).

University of California, San Diego: Ackerman (Linguistics), Bates (Psychology, Cognitive Science), Bellugi (Salk Institute, Psychology), Elman (Cognitive Science), Ferreira (Psychology), Kritchevsky (Neurosciences), Kutas (Cognitive Science), Moore (Linguistics), Movellan (Cognitive Science), Padden (Communications), Swinney (Psychology).

Admission to Doctoral Study

The doctoral program in language and communicative disorders draws from a variety of disciplines including communicative disorders, psychology, cognitive science, linguistics, engineering, and other related sciences. Students should have adequate preparation in mathematics, statistics, and biological sciences. Backgrounds in neurosciences and/or language sciences, or language disorders is helpful, but not required for admission.

Applicants for admission to the doctoral program must meet the general requirements for admission to both universities, as specified in the current SDSU and UCSD catalogs. Applicants must meet the special requirements of this program which include (a) an acceptable baccalaureate or master's degree or equivalent from a regionally accredited institution; (b) a GPA of at least 3.25 on a 4.0 scale in the last 60 semester (or 90 quarter) credits of upper division and/or graduate courses (c) good standing in the last institution attended; (d) suitable scores on both the quantitative and verbal sections of the Graduate Record Examination; (e) submission of appropriate application form and supporting materials as outlined below.

Applicant files are reviewed as a group by an admissions committee, composed of doctoral program faculty from each campus. Other doctoral faculty may review applicant files and make recommendations to the admissions committee. Assuming that the above requirements are met, decisions will also be guided by an evaluation of the adequacy of the applicant's preparation in view of their stated needs and objectives. Given the limited number of spaces available (4 to 6 new admissions each year are anticipated, subject to available facilities), the admissions committee will select the best qualified applicants to fill the available spaces. No minimum set of qualifications will guarantee an applicant admission to the doctoral program. The admissions committee will make recommendations for admission to the graduate deans from each campus.

Application. Students seeking admission to the doctoral program should write directly to the Doctoral Program Coordinators (Mail Code 1518), San Diego State University, 5500 Campanile Drive, San Diego, CA 92182, in order to obtain an information packet explaining the application process and materials. A complete application requires the following:

- Appropriate application form.
- Applicant's statement of interest.
- Transcripts of academic work completed.
- Results of the Graduate Record Examination.
- Three letters of recommendation.

Students will be admitted to the doctoral program only in the fall semester/quarter. Applications must be received by January 20 to be considered for the doctoral program beginning in the following fall semester/quarter. All other supporting materials must be received by February 1.

Application Guidelines for the SDSU/UCSD Joint Doctoral Program in Language and Communicative Disorders

A. DEADLINE FOR RECEIPT: January 20

1. Doctoral Program Admission Application (brown form);
2. Residency questionnaire (brown form);
3. \$55.00 (US) fee.

Mail or deliver the admission materials to:

San Diego State University
Graduate Admissions
5500 Campanile Drive
San Diego, CA 92182-8225

B. DEADLINE FOR RECEIPT: January 20

Assemble one admission packet to include the following:

1. SDSU/UCSD Joint Doctoral Program Application;
2. Photocopy of Doctoral Program Admission Application (brown form);
3. Photocopy of residency questionnaire (brown form);
4. Statement of purpose;
5. Two sets of official transcripts (in sealed envelopes) from all institutions attended. (Note: Please have the institution send the official transcripts to you and include them [unopened] in the admissions packet.) If you are an SDSU graduate, include one unofficial transcript in your packet;
6. Three letters of recommendation from professors or others in a position to assess your potential for graduate work. (Note: Letters are to be returned to the applicant in a sealed envelope and signed across the sealed flap.);
7. Publication reprints or presentation abstracts (optional).

Enclose a self-addressed envelope stamped with sufficient postage if you wish to have papers returned.

Mail or deliver the admission packet to:

San Diego State University
SDSU/UCSD Joint Doctoral Program in
Language and Communicative Disorders
5500 Campanile Drive
San Diego, CA 92182-1518

C. DEADLINE FOR RECEIPT: February 1

1. GRE scores: GRE scores are required and must be received by February 1. Contact the Educational Testing Service (www.ets.org) to request scores be sent electronically to SDSU (SDSU code: 4682, department code: 0620).
2. TOEFL scores, if applicable. Contact the Educational Testing Service (www.ets.org) to request scores be sent electronically to SDSU (SDSU code: 4682).

Specific Requirements for the Doctor of Philosophy Degree

Faculty Adviser. Upon admission to the program, the executive committee will assign each student a faculty adviser. The faculty adviser will help the student select a program of study during the first year. The faculty adviser, in conjunction with the doctoral program coordinators, will help the student select a first laboratory rotation. Once the student has selected a major area of study (see below) the student will be reassigned an appropriate adviser.

Residency Requirements. Students will be required to complete credits equivalent to one year's full-time enrollment at each campus. The definition of residence must be in accord with the regulations of SDSU and UCSD. Students may be enrolled in courses at both institutions during any given semester/quarter.

Language Requirement. Students are required to have some experience in the acquisition of a second language. This may be satisfied through informal learning, immersion, or two or more years of formal coursework in a second language. Any recognized natural language will be acceptable to fulfill this requirement (including American Sign Language or other sign languages). Artificial languages, e.g., computer languages, will not satisfy this requirement. For students selecting the multilingualism concentration, proficiency must be demonstrated in English and at least one other language.

Major Area of Concentration. By the end of the first year, all students select a major field of emphasis by choosing one of three concentrations: Adult Language, Child Language, or Multilingualism. All students will be required to take some courses in each of the three concentrations.

The *Adult Language* concentration is intended to provide intensive education in communicative disorders in adults. Students in this concentration will also develop expertise in the study of language processing in normal adults.

The *Child Language* concentration is intended to provide specialized education in childhood (birth to adolescence) communicative disorders. Students in this concentration will also achieve competence in developmental psycholinguistics emphasizing language acquisition in normally-developing children.

The *Multilingualism* concentration is intended to provide education in cross-linguistic, ethnographic, and other comparative studies of communicative disorders in children and/or adults, including those associated with bilingualism and second language acquisition (including acquisition of sign language in deaf individuals).

Course Requirements. The program for each student will consist of a common core of courses designed to provide the basic tools for research and a foundation knowledge in the important issues in language and communicative disorders, together with specific electives appropriate to the student's chosen concentration.

The *Tools* requirement consists of two courses in statistics/research design, a course in neuroanatomy and physiology, a course in language structure and theory, and a professional survival skills course. Specific courses which can be used to satisfy this requirement are listed below.

The *Foundations* requirement consists of three courses on normal language and three courses on disorders of language. Specific courses which can be used to satisfy this requirement are listed below.

The *Electives* requirement consists of at least five courses, with a minimum of three courses related to the chosen concentration. These electives must be chosen from a broad list of approved options from anthropology, cognitive science, communicative disorders, computer science, linguistics, neurosciences, and psychology. Consult with adviser for approved elective courses. Other electives may be taken to satisfy this requirement with permission of the adviser. The five required electives must be approved by the student's adviser and the doctoral program coordinators. Students may select additional electives with approval of the adviser.

Laboratory Rotations. In order to obtain experience in different research methodologies, each student will be required to complete three laboratory rotations, each lasting a minimum of one semester or quarter. During each rotation, students will enroll in the associated laboratory course. The laboratory rotations must be approved by the student's adviser and the doctoral program faculty member who supervised that laboratory.

Projects. All students will be required to complete two research projects during their first two years of the program (first and second year projects). These projects are usually connected with the laboratory rotations and approved by the doctoral program faculty working in the laboratory. These projects will involve experiment design, data collection, analyses, preparation of a potentially publishable manuscript, and an oral presentation of the research findings at one of the laboratory seminars. Students will be encouraged to submit their projects for presentation at professional meetings and to submit them to an appropriate journal.

Methods Minor. All students will be required to develop basic expertise in experimental design and statistics, and all students will become familiar with standard techniques for behavioral assessment, e.g., intelligence testing, standardized tests of language ability, analyses of free speech, design and implementation of experimental measures of language and other related cognitive behaviors. In addition, by the end of the third year, all students will declare a methods minor from one of three options: behavioral dynamics, neural imaging, or neural modeling. It is expected that the student will gain experience in the chosen minor through at least one laboratory rotation and enrollment in applicable courses selected with adviser recommendation.

The *Behavioral Dynamics* minor is intended for students who want to specialize in computer-controlled methods for the study of language and cognitive processing in real-time.

The *Neural Imaging* minor is intended for students who want to complement behavioral studies with neuro-anatomical and neuro-physiological techniques, including event-related brain potentials and functional magnetic resonance imaging.

The *Neural Modeling* minor is intended for students who are interested in the simulation of normal and abnormal language and cognition in artificial neural networks. Students who elect this minor will be required to take Cognitive Science 201F or Computer Science and Engineering 258A as an elective.

Qualifying Examination. After successful completion of the first and second year projects, the student is eligible to take the qualifying examination. The qualifying examination consists of a *written component* which is to be in the form of a scholarly review of one or more issues related to the student's chosen area of research and an *oral component* which will be a formal presentation of the paper to be presented at the annual Fall doctoral colloquium or at a separate colloquium. Students will be encouraged to write their integrative paper in a form and quality which may be submitted to an appropriate journal.

Teaching. The teaching requirement may be satisfied under one of two options. *Model 1* requires that the doctoral student teach a full course and submit the course syllabus to the Executive Committee for review at the end of the semester/quarter. *Model 2* requires that the doctoral student serve as a TA (SDSU) and/or TA (UCSD) for two courses. The student will develop a syllabus in an area related to one of these courses and present a master lecture to the Executive Committee and an invited audience on a topic in the syllabus chosen by the Executive Committee.

Dissertation Committee. Prior to developing a dissertation proposal, the student must have a dissertation committee. The committee members are recommended by the doctoral program coordinators with consent of the executive committee, and then appointed by the graduate deans of both campuses. The dissertation committee will consist of at least five members, including four from the doctoral program faculty groups (with at least two members from each campus) and one faculty member from outside the doctoral program faculty groups.

Dissertation Proposal. The dissertation proposal will take the form of an NIH or NSF grant proposal. For model 1 dissertation (see below), the proposal will be based on completed research which become pilot studies for the grant proposal. The student may be encouraged to submit the grant proposal to support their future research, e.g. post doctoral studies, or a First Investigator Award. For model 2 dissertation, the proposal will become the basis for the dissertation research to be completed. The dissertation proposal must be approved by the student's dissertation committee.

Advancement of Candidacy. A student will be recommended for advancement after completing all requirements as described above, including the qualifying examination and the dissertation proposal. Students eligible for advancement to candidacy are recommended to the Graduate Deans of both institutions. When approved by both institutions, students will be notified by the Graduate Studies office at UCSD.

Dissertation. After advancement to candidacy, the remaining requirement will be the satisfactory completion of a dissertation. The dissertation may take one of the following two forms:

Model 1 dissertation. Students who have maintained continuity through their second year project, qualifying examination, and dissertation proposal, and who have successfully generated publishable research which has been submitted to respected journals, may use a minimum of three such interconnected manuscripts as their dissertation. The dissertation will contain an introduction and review of the literature which conceptually links the submitted studies, the studies themselves (exactly as they have been prepared for publication), and a conclusion which pulls the results together in a broader theoretical framework.

Model 2 dissertation. Students may choose to carry out a more traditional dissertation involving the appropriate written presentation of original research carried out by the student under the guidance of the student's dissertation committee chair.

Dissertation Defense. The dissertation defense will be the same for both dissertation models and will consist of an oral presentation of the dissertation material to the doctoral committee and a publicly invited audience.

Award of the Degree. The Doctor of Philosophy degree in language and communicative disorders will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

Financial Support. Funding for graduate students cannot be guaranteed, although every effort will be made to provide students with some form of support through faculty grants, graduate teaching associateships, research assistantships, or scholarships. The program endeavors to provide financial support that will enable all students to devote full time to study and research training. Financial support will be awarded consistent with the policies of the Graduate Divisions at each campus. Tuition and fees will be determined in accord with extant policies at the campus in which the student is matriculated in a given year.

Credentials

The Department of Communicative Disorders offers academic and practica coursework applicable to two credentials required for working in California public schools: The Clinical-Rehabilitative Services (C-RS) Credential (**Credential Code: 00900**) and the Education Specialist Credential for the Deaf and Hard of Hearing (**Credential Code: 00461**).

Applicants to a credential program are required to submit scores from the California Basic Education Skills Test (CBEST) as part of the application for admission to a credential program. Note that the CBEST is given only three or four times each year.

Credential candidates are required to have the Certificate of Clearance (finger printing) prior to beginning the school experience. Candidates should apply for the Certificate of Clearance several months

prior to submitting an application to the department for school practicum placement in order for the certificate to be processed in time for the placement.

Education Specialist Credential: Deaf and Hard-of-Hearing (Credential Code: 00461)

The Education Specialist Credential for the Deaf and Hard-of-Hearing is required for persons wishing to teach children and youth who are deaf, hard-of-hearing, or deaf with special needs. The coursework in this special sequence meets the standards of the California Commission on Teacher Credentialing and the National Council on Education of the Deaf.

Admission Requirements:

1. Formal application to the graduate program in the Department of Communicative Disorders. Applicants must satisfy the admission requirements for classified graduate standing with a concentration in education of learners who are deaf, hard-of-hearing, or deaf with special needs.
2. Interview with a faculty member in the Department of Communicative Disorders.
3. American Sign Language proficiency at the intermediate level or higher as assessed by an SDSU-ASL proficiency interview.
4. Passing scores on the MSAT, RICA, and CBEST.

Program Requirements:

1. Coursework selected from the Departments of Communicative Disorders, Policy Studies in Language and Cross-Cultural Education, and Special Education.
2. A minimum of 200 hours of supervised clinical practica.
3. A minimum of 300 hours of supervised student teaching in special day and residential school settings.

The credential program involves a total of 56 units. The following courses are required:

Core courses: Communicative Disorders 550; Policy Studies in Language and Cross-Cultural Education 600; Special Education 500, 501, 502.

Pedagogy courses: Communicative Disorders 655, 657, 668; Policy Studies in Language and Cross-Cultural Education 601, 650, 651.

Deaf and Hard-of-Hearing courses: Communicative Disorders 511, 556, 562, 656, 658, 659, 675, 953.

Clinical-Rehabilitative Services Credential (Credential Code: 00900)

The Clinical-Rehabilitative Services Credential has three options: Language, Speech and Hearing (LSH); Audiology; and Language, Speech and Hearing including the Special Class Authorization (SCA). Students desiring to work with pupils with speech, language, and hearing impairments on an itinerant or pull-out basis must complete the Clinical-Rehabilitative Services (C-RS) Credential for Language, Speech and Hearing (LSH). Students who wish to be school audiologists must complete the Clinical-Rehabilitative Services Credential for Audiology. Students who plan to teach in the classroom under the Special Day Class Authorization must complete a program of education courses and experiences in addition to completing the requirements for the LSH option.

A master's degree in communicative disorders is required of all candidates graduating with a C-RS credential.

Candidates for C-RS credential in Language, Speech and Hearing (LSH) or Audiology (A) must complete the requirements for the Certificate of Clinical Competence (CCC) from the American Speech-Language-Hearing Association and the requirements of California licensure in Language and Speech and/or Audiology. See sections on Certificates and Licensure.

Admission Requirements:

1. Formal application to San Diego State University and to the Department of Communicative Disorders. All applicants for the credential must satisfy the admission requirements of the university and of the department for classified graduate standing and be recommended by the department for admission to the credential program.
2. California Basic Education Skills Test (CBEST) results.
3. Interview with the coordinator of the specific credential option (Language, Speech, and Hearing; Audiology; Special Class Authorization).

Program Requirements:

The program of professional preparation for the C-RS Credential in Language and Speech or Audiology requires a minimum of 75 semester credit hours, including a minimum of 27 semester credit hours in basic sciences and a minimum of 36 semester credit hours in professional coursework. At least 30 of the 36 semester credit hours must be in courses for which graduate credit is received, and at least 21 of the 30 graduate semester credit hours must be in the professional area for which the credential is sought. The candidate must complete a minimum of 25 supervised observation hours and 350 clinical contact hours including 50 clock hours in each of three types of clinical setting. This credential also requires that a minimum of 100 clock hours be completed in the school setting. See the section on Certificates and the Credential Coordinator for additional information.

C-RS Language, Speech and Hearing

The following courses are required: Communicative Disorders 106, 205, 300, 320, 321, 322, 340, 340L, 503, 511, 512, 513, 514, 517, 524, 525, 526, 539, 541, 546, 613 or 614, 618, 521 (child screening) or 619 or 676, 601 or 654, 626 or 627, 630, 672 or 673, 675, 929 and 933A. Other required courses include Child and Family Development 270 and 270L, 570, 697, or appropriate experience; Communicative Disorders 323 or Physics 201; Psychology 101 or Sociology 101; Psychology 230, 260; Special Education 500.

C-RS Audiology

The following courses are required: Communicative Disorders 106, 159, 205, 300, 320, 321, 322, 323, 340, 340L, 511, 512, 513, 517, 521, 525, 541, 542, 545, 546, 610, 611, 620, 627, 630, 643, 644, 645, 646, 647, 648, 668 or 672 or 673, 929, 933 (audiology placement). Other required courses include Child and Family Development 270 and 270L or 697 or appropriate experience; Physics 201; Psychology 101 or Sociology 101; Psychology 230; and Special Education 500. Communicative Disorders 514 is recommended.

C-RS Language, Speech and Hearing including Special Class Authorization

Program Requirements:

1. A current Clinical Rehabilitative Services Credential in Language and Speech or an earlier California credential that authorizes the provision of itinerant speech-language services in public schools.
2. Verification of subject matter competence prior to advancement to fulltime daily teaching responsibilities.
3. Demonstration of knowledge of alternative methods of developing English language skills.
4. Satisfaction of the Level I core requirements for the Special Education Specialist credentials.
5. Completion of a minimum of 100 hours of teaching in a Communicatively Handicapped course.

The following courses are required: Communicative Disorders 655, 929, 933B, Special Education 501, Teacher Education 526, 610A, 630, 637, 910A, 930.

Certificates and Licensure

Preparation Leading to the Certificate of Clinical Competence from the American Speech-Language Hearing Association

Students may complete the academic and clinical practice requirements leading to the Certificate of Clinical Competence in Speech-Language Pathology (CCC-Sp) or to the Certificate of Clinical Competence in Audiology (CCC-A) given by the American Speech-Language-Hearing Association (ASHA). The certificate requires a master's degree and 75 semester units (at least 27 of the 75 semester units must be in basic science coursework, and at least 36 of the 75 semester units must be in professional coursework). At least 30 of the 36 professional coursework units must be in courses for which graduate credit was received. A minimum of 21 of the 30 units must be completed at the graduate level in the professional area for which the certificate is sought. The certificate requires 375 clock hours of supervised clinical observation (25 hours) and clinical practicum (350 hours), and at least 250 or the 350 clock hours must be in the professional area for which the certificate is sought while the applicant is engaged in graduate study. Clock hours must satisfy designated categories for age span, types of disorders, assessment and intervention. The applicant must pass a national examination in the area for which the certificate is sought and complete a Clinical Fellowship (following approval of academic coursework and clinical practica). Consult an adviser in the area in which certificate is desired.

Preparation Leading to the Professional Certificate from the Council on Education of the Deaf

Students may complete the academic and practica requirements leading to the Professional Certificate given by the Council on Education of the Deaf. The Professional Certificate requires a specific pattern of courses and teaching experiences. Consult an adviser in the Program for Education of the Deaf for more information.

Preparation Leading to State Licensure in Speech Pathology or Audiology

Students may complete the academic and clinical practicum requirements leading to California State Licensure in Speech Pathology or in Audiology, a legal requirement for all individuals professionally employed in non-public school settings and some public school settings. The Speech Pathology and Audiology Examining Committee which operates within the California State Board of Medical Quality Assurance requires a master's degree or equivalent in communicative disorders in the area (Speech Pathology or Audiology) in which the license is to be granted, 300 clock hours of supervised clinical experience, a national examination, and nine months of full-time supervised work experience (Required Professional Experience). Most Licensure and ASHA Certification requirements may be fulfilled concurrently. Consult an adviser in the area in which licensure is desired for specific information.

Liability Insurance

Students enrolled in Communicative Disorders 340L, 357, 525, 526, 541, 545, 546, 556, 626, 627, 645, 646, 656, 676, 933, 953 are required to purchase professional liability insurance.

Early Intervention Certificate

No new students are being admitted to this certificate program during the 2002-2003 academic year.

The Early Intervention Certificate is designed to prepare speech-language pathologists to work with infants, toddlers, preschoolers, and their families. The certificate program is appropriate for graduate students in communicative disorders who wish to specialize in early

intervention practice. The number of persons admitted to the program each year may be limited.

Candidates for the certificate must be enrolled in or have completed the communicative disorders graduate degree program with a concentration in speech-language pathology. To be admitted into the certificate program and to be eligible for a certificate of completion, the student must obtain an approved plan of study from the department's Early Intervention Certificate coordinator and apply to the Graduate Division. Upon completion of requirements for the certificate program, the student must submit to the Graduate Division a certificate completion form signed by the department chair.

The certificate program requires completion of 14 units, including 10 units of substantive coursework, one unit of independent study (CDIS 798) to obtain preclinic observation hours (25 hours), and three units of clinic courses (75 hours of patient contact). The practica hours obtained for the Early Intervention Certificate are applicable to the minimum needed for professional licensure and national certification.

- CFD 570 Infant/Toddler Development (3)
- SPED 528 Young Children with Disabilities and Their Families (3)
- Elective selected from 600-700 level courses with approval from Certificate Coordinator (3)
- CDIS 798 Observations of Speech-Language Pathologists Working with Infants, Toddlers, and Preschoolers (1)
- CDIS 521/526/626 or 619/627 (3) Clinic courses providing 75 hours of practica with infants, toddlers, and preschoolers.

The clinic courses require eligibility for clinic and approval by the Clinic Director of Speech-Language Pathology similar to all clinic assignments. The student must meet with the Clinic Director of Speech-Language Pathology to work out clinic assignments appropriate for the Early Intervention Certificate. With approval of the graduate adviser, a student may apply up to three units of communicative disorders coursework from the certificate program toward a master's degree in communicative disorders.

Bilingual Speech-Language Pathology Certificate

The Certificate in Bilingual Speech-Language Pathology is designed for students who plan to work with bilingual populations with communicative disorders.

To be a candidate for the certificate, the student must be actively seeking state licensure or a master's degree program in speech-language pathology since the certificate is coordinated with these endeavors. Candidates seeking admission to the certificate program must present acceptable GRE scores and schedule an interview with the departmental certificate coordinator to ascertain specific requirements and units. They must demonstrate a proficiency in two languages (English and one other) and satisfy admission requirements of the University and the department as listed in the Bulletin of the Graduate Division. The certificate is limited to those languages for which there is an available clinical population. Consult the certificate coordinator for approved languages.

The certificate program requires completion of 13 units including nine units of substantive coursework and four units of graduate practicum with the targeted bilingual population. The certificate is competency-based and up to three units of specific requirements may be waived upon demonstration of competency. Course requirements include Communicative Disorders 672, 673, 794 and/or 795 upon approval of the certificate coordinator. Students interested in a target language other than Spanish may take Communicative Disorders 798 with permission from the certificate coordinator.

With the approval of the department, a student may apply no more than three units of coursework from the certificate program toward the master's degree.

Courses Acceptable on Master's and Doctoral Degree Programs in the Department of Communicative Disorders (C DIS)

UPPER DIVISION COURSES

503. Low Incidence Communicative Disorders (3)

Prerequisites: Communicative Disorders 320 and 321.

Characteristics, etiologies, assessment, and intervention strategies for fluency, voice, and craniofacial/cleft palate disorders.

511. Pediatric Aural Rehabilitation (3)

Prerequisites: Communicative Disorders 320, 323, and 340. Recommended: Communicative Disorders 300, 357, and 513.

Theoretical, methodological, and technical issues related to facilitating receptive and expressive communication in individuals who are deaf or hard-of-hearing. Emphasizes multidisciplinary case management of children.

512. Phonological Development, Disorders, and Methods (3)

Prerequisite: Communicative Disorders 320.

Normal and disordered phonological development, characterization of phonological disorders, assessment frameworks and methods, and intervention strategies. Appeal to clinical case studies to illustrate methodologies, plan remediation, and facilitate critical thinking through problem-solving. Up to four hours clinical observation required.

513. Language Development, Disorders, and Methods: Infancy Through Preschool (3)

Prerequisites: Communicative Disorders 205, 300, 320, 321.

Language delay and disorders as they relate to developmental theory and clinical practice from birth through five years of age. Methods of assessment and intervention of language impairments and differences in hearing and deaf children. Four hours clinical observation required.

514. Language Development, Disorders, and Methods: School Age and Adolescence (3)

Prerequisites: Communicative Disorders 205, 300, 320, 321.

Language delay and disorders as they relate to developmental theory and clinical practice for school-age children ages 6 to 18 years. Methods of assessment and intervention of language impairments and differences in hearing and deaf children. Four hours clinical observation required.

517. Diagnostic Methods in Speech-Language Assessment (3)

Two lectures and two hours of educational activities.

Prerequisites: Credit or concurrent registration in Communicative Disorders 512 and Communicative Disorders 513 or 514.

Principles and procedures for culturally relevant assessment of communication disorders in children and adults. Ethnographic interviewing; formal, informal and unbiased testing; clinical reporting. Practice with selected methods and tools. Four to eight hours observation of diagnostic practicum required.

521. Speech-Language Screening of Children (1)

Three hours of laboratory screening per week.

Prerequisites: Communicative Disorders 512, 513, 517, and clinic clearance.

Screening speech and language of children in various community facilities and settings.

522. Speech-Language Screening of Adults (1) Cr/NC

Three hours of laboratory screenings per week.

Prerequisites: Communicative Disorders 517, 539, and clinic clearance.

Screening the speech and language of adults in various community facilities.

524. Clinical Methods in Speech-Language Pathology (3)

Prerequisites: Communicative Disorders 512 and Communicative Disorders 513 or 514.

Clinical issues, policies, and methods in speech-language pathology. Experience in writing lesson plans and clinical reports. Includes clinical observation to partially fulfill requirements for clinic clearance. May be taken concurrently with Communicative Disorders 525.

525. Introductory Clinical Practice (1)

Two hours of therapy, one hour of staffing per week, and grand rounds attendance once per month.

Prerequisites: Grade point average of 2.75 or better in Communicative Disorders 320, 321, 340, 340L, 512; 513 or 514; and credit or concurrent registration in 524.

Orientation to clinic, supervised observation, and practicum with representative speech and language problems.

526. Clinical Practice in Speech-Language Pathology (1-2)

Two hours of therapy, one hour of staffing per week, and grand rounds attendance once per month.

Prerequisite: Grade of C or better in Communicative Disorders 525.

Supervised practice with representative speech and language problems. Up to two units may be taken concurrently; maximum credit two units. Qualified transfer students must enroll in at least one unit of 526 prior to 626.

539. Neuropathologies of Speech and Language (3)

Prerequisites: Communicative Disorders 321 and 513.

Research and theory concerning nature, etiologies, and principles of disorders of speech and language resulting from pathologies of the nervous system.

540. Hearing Conservation and Audiometry for School Nurses (3)

Prerequisite: Registered nurse.

Builds on registered nurse's knowledge of anatomy, physiology, and medical-surgical treatment of disease as it relates to auditory mechanism. Designed to give background in hearing screening (pure tone and impedance) and awareness of ramifications of hearing loss in children necessary for referral and follow-up. Fulfills three-unit requirement for the School Nurse Credential and may be used toward the six-unit State Audiometric Certificate requirement. Not open to students with credit in Communicative Disorders 205, 340, 340L.

541. Hearing Screening of Children (1) Cr/NC

Three hours of laboratory screening per week.

Prerequisites: Communicative Disorders 340 and 340L.

Field experiences in audiometric and impedance screening of children to obtain contact hours in screening required by American Speech-Language-Hearing Association, California License, and Clinical-Rehabilitative Services credential.

542. Diagnostic Audiology (3)

Two lectures and two hours of activity.

Prerequisite: Communicative Disorders 340L.

Advanced audiometric procedures, including speech measures, masking, immittance, special tests, cerumen management, central assessment, and calibration. Practice with clinical report writing and clinical decisions.

545. Clinical Practice in Audiologic Assessment (1-3)

Two hours of evaluation and one hour of staffing.

Prerequisites: Communicative Disorders 340 and credit or concurrent registration in Communicative Disorders 542.

Supervised practicum with pure tone, speech, immittance, and special audiologic testing. One unit represents two hours of clinical contact and one hour of staffing per week. Maximum credit three units.

546. Clinical Practice with Aural Rehabilitation (1)

Two hours of therapy, one hour of staffing per week, and grand rounds attendance once per month.

Prerequisites: Grade of C or better in Communicative Disorders 511 and a minimum of two units in Communicative Disorders 525, 526, and/or 545.

Supervised practicum in aural rehabilitation. One unit represents two hours of clinical contact and one hour of staffing per week.

550. Education of Deaf Children and Youth (3)

Prerequisite: Communicative Disorders 350.

Educational programs, services and resources for learners who are deaf; historical background, philosophy, sociological and psychological problems.

556. Clinical Practice with Learners Who Are Deaf or Hard-of-Hearing (1)

Two hours of supervision, one hour of staffing per week, and grand rounds attendance once per month.

Prerequisites: Communicative Disorders 159, 357; credit in two of the following and concurrent registration in the third: Communicative Disorders 511, 513, 562. Admission to clinical practicum includes successful completion of competency examination.

Supervised therapy with representative challenges found in the deaf and hard-of-hearing population. Maximum one unit first semester; maximum credit two units.

562. Oral Communication for Children Who Are Deaf or Hard-of-Hearing (3)

Prerequisite: Communicative Disorders 550.

Current methods for developing oral/aural communication skills with learners who are deaf or hard-of-hearing and youth. Differential problems of acquisition of communicative competence. Assessment and intervention procedures for classroom and clinical settings.

570. Dysphagia (3)

Prerequisite: Communicative Disorders 539.

Measurement techniques and research in dysphagia. Assessment and treatment of dysphagia and swallowing problems in children and adults.

580. Communication Problems of the Aging (3)

Prerequisites: Twelve upper division units in an appropriate major.

Normal communication processes and aging, including memory and cognition for speech and language, and physiological changes; speech and language pathologies; hearing problems and rehabilitation, including hearing aids, psychosocial aspects of communication, including family dynamics; and resources available within the community. Open to majors and nonmajors.

595. Research Practicum (1-3)

Prerequisites: Consent of instructor and approval of department chair.

Participation in a specific research activity under faculty supervision. Maximum combined credit of six units of Communicative Disorders 595 and 795.

596. Selected Topics in Communicative Disorders and Science (1-4)

Prerequisite: Twelve units in communicative disorders and science courses.

Specialized study of selected topics from the area of speech-language pathology, audiology, education of the hearing impaired, and speech and hearing science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Research and Bibliography (3)

Prerequisites: Admission to one of the graduate programs in communicative disorders; Psychology 270 or another appropriate statistics course.

Scientific method, critical research evaluation and scientific writing, professional ethics and human subjects protocol. Modern bibliographic research techniques, including Internet.

601. Seminar in Speech and Hearing Science (3)

Prerequisite: Classified graduate standing.

Instrumentation and measurement techniques in communicative disorders and sciences. Techniques applied to the specific clinical and research areas of speech, hearing and language.

602. Adult Language Disorders (3)

Prerequisite: Communicative Disorders 539.

Research in diagnosis and therapy for adults with disorders of symbolization and syntax.

603. Seminar in Neurophysiologically Based Communication Disorders (3)

Prerequisites: Communicative Disorders 539 and 50 hours of clinical practicum. Recommended: Second year graduate level standing.

Diagnostic and treatment issues associated with persons with neurological disorders. Application of research to communication disorders across the life span.

604. Seminar in Craniofacial Disorders (3)

Prerequisites: Communicative Disorders 321, 340; and 50 hours of supervised practicum. Recommended: Concurrent registration in Communicative Disorders 626.

Review of research in diagnosis and therapy for persons with cleft palate and other craniofacial disorders.

607. Theoretical Issues in Phonological Disorders (3)

Theories of phonology and phonological development as applied to normal and disordered systems. Assessment and treatment of phonological disorders as based on theoretical predictions and treatment efficiency research. Application of language universals, learning data, and multilingual issues to clinical practice.

608. Motor Speech Disorders (3)

Prerequisite: Communicative Disorders 539.

Dysarthria and apraxia of speech. Techniques of differential diagnosis and treatment of these motor speech disorders.

610. Hearing Amplification (3) I

Prerequisites: Communicative Disorders 340 and 542.

Hearing aid components, functions, electroacoustic analyses, selection, verification techniques, orientation, follow-up, and troubleshooting.

611. Aural Rehabilitation (3)

Prerequisites: Communicative Disorders 542 and 610.

Theoretical, methodological, and technological issues related to aural rehabilitation and cochlear implants.

613. Seminar on Child Language Disorders (3)

Prerequisites: Communicative Disorders 513, 517, and 525 or 526.

Evaluation of major theories of language development and disorders with focus on specific language impairment, development of assessment and intervention procedures, and application of research to clinical practice.

614. School Age Children Language Development and Disorders (3)

Prerequisites: Communicative Disorders 514 and 526.

Contrastive study of normal and disordered language development in children five years through adolescence, including syntax, semantics, pragmatics, figurative language and metalinguistics. Integration of assessment and intervention for language disorders and associated speech and language based reading and writing disorders.

618. Diagnostic Practicum in Speech-Language Pathology (3)

Six hours of supervision, three hours of staffing, and Grand Rounds attendance once per month.

Prerequisites: Communicative Disorders 517, 525, and consent of instructor.

Supervised clinical practice in diagnostic methods.

619. Diagnostic Practicum in Communicative Disorders: Multi-disciplinary Assessment (2)

Four hours of supervision, two hours of staffing, and Grand Rounds attendance once per month.

Prerequisites: Grade of C or better in Communicative Disorders 517. Credit or concurrent registration in Communicative Disorders 526.

Participation in multidisciplinary assessment of infants and toddlers.

620. Seminar in Amplification Research and Technology (3)

Prerequisites: Graduate standing, Communicative Disorders 610, credit or concurrent registration in Communicative Disorders 645.

Critical evaluation of research in amplification, advances in hearing aid analysis techniques, hearing aid processing strategies, hearing aid selection and verification procedures, hearing aid outcome measures and programmable technology.

626. Advanced Clinical Practice in Speech-Language Pathology (1-3)

Two hours of supervision, one hour of staffing, and Grand Rounds attendance once per month.

Prerequisites: Communicative Disorders 340, 526, and departmental approval.

Supervised work with representative advanced speech and language disabilities. Twenty-six hours of practicum required per unit. Up to three units may be taken concurrently.

627. Advanced Field Clinical Practice in Speech-Language Pathology and Audiology (1-3) Cr/NC

Two hours of therapy, one hour of staffing, and Grand Rounds attendance once per month.

Prerequisites: Communicative Disorders 618, 626, and consent of instructor. Audiology students need only consent of instructor.

Supervised practice with speech-language-hearing problems in off-campus settings. One unit represents 26 hours of direct clinical practice. Up to three units may be taken concurrently.

630. Family Communication Dynamics (3)

Prerequisites: Communicative Disorders 322 and 526.

Communication environment in the home. Parent-child interaction in relation to origin and alleviation of functional and organic speech disorders.

640. Psychoacoustics (3)

Prerequisite: Communicative Disorders 542.

Psychophysical concepts underlying clinical audiology. Overview of psychoacoustic abilities in individuals with normal hearing and sensorineural hearing loss.

643. Auditory Physiology and Otoacoustic Emissions (3)

Prerequisite: Graduate standing.

Peripheral and central physiology of auditory system. Mechanisms underlying normal and clinical populations. Relation of physiology to measures of otoacoustic emissions. Practical experience in conducting and interpreting otoacoustic emissions.

644. Diagnostic Audiology II (3)

Prerequisites: Communicative Disorders 542, 545, and credit or concurrent registration in Communicative Disorders 627.

Advanced diagnostic methods and clinical evaluation strategies. Emphasis on aural pathologies and clinical problem solving.

645. Advanced Clinical Practice in Audiologic Assessment (1-2) Cr/NC

Prerequisites: Grade of B or better in Communicative Disorders 542 and 545.

Supervised practicum with pure tone, speech, immittance, and special audiologic testing. One unit represents two hours of clinical contact and one hour of staffing per week.

646. Advanced Clinical Practice in Aural Rehabilitation (1) Cr/NC

Two hours of therapy and one hour of methods.

Prerequisites: Minimum of two units in Communicative Disorders 525, 526, 545, 626 or 645. Recommended: Credit or concurrent registration in Communicative Disorders 610.

Supervised practicum with representative cases requiring advanced preparation in aural rehabilitation.

647. Auditory Evoked Potentials (3)

Prerequisite: Graduate standing.

Theoretical and clinical aspects of auditory evoked potentials, with emphasis on auditory brainstem response. Additional topics include electrocochleography, middle latency responses, cortical auditory evoked potentials (N1-P2), and auditory event-related potentials (MMN, P3).

648. Pediatric Audiology (3)

Prerequisite: Communicative Disorders 542.

Auditory assessment techniques for infants and young children. Embryology of auditory system; development of auditory behavior.

653. Vestibular Physiology, Assessment, and Rehabilitation (3)

Prerequisite: Graduate standing.

Physiology of peripheral and central pathways associated with balance. Mechanisms underlying normal and clinical populations. Methodology and interpretation of balance system assessment, including ENG, posturography, and rotational chair. Approaches to rehabilitation strategies for persons with balance disorders.

654. Seminar in Physiological Phonetics (3)

Prerequisite: Communicative Disorders 512.

Physiology underlying the production of continuous speech, including transitional movements, based on a syllabic concept.

655. Curriculum in Education of the Deaf and Hard-of-Hearing (3)

Prerequisites: Communicative Disorders 513 and 556.

Application of cognitive processing theory to development and evaluation of curriculum, materials, and procedures; selection of learning modalities and appropriate modification of curriculum.

656. Advanced Clinical Practice with Learners Who are Deaf or Hard-of-Hearing (1) Cr/NC

Three hours of laboratory.

Prerequisite: Communicative Disorders 556.

Supervised clinic practicum at an advanced level with representative deaf cases. Maximum two units per semester; maximum credit four units.

657. Assessment of Learners Who are Deaf or Hard-of-Hearing (3)

Prerequisite: Communicative Disorders 556.

Diagnosis of multiple-handicapped, hearing impaired children; including clinical teaching, critical overview of assessment methods, materials and equipment, prognosis, current philosophies and trends.

658. Seminar in Deafness (3)

Prerequisites: Communicative Disorders 550 and 556.

Problems of deafness, evaluation of research, interdisciplinary approach to aural habilitation. Offered every other year. See Class Schedule for specific content and semester offered.

659. Seminar in Education of Deaf-Blind Children and Youth (3)

Prerequisite: Communicative Disorders 656.

Interdisciplinary approach to education of deaf-blind children and youth. Development of communicative competence. Offered in alternate years. See Class Schedule for specific content and semester offered.

668. Multicultural Issues in Deafness (3)

Prerequisite: Communicative Disorders 350 or equivalent experience.

Review and analysis of research in multicultural lifespan communication processes in deaf individuals. Emphasis on communication needs in health care, education, and informal social settings.

670. Seminar in Professional Issues in Communicative Disorders (3)

Prerequisite: Graduate standing.

Ethical and legal issues, practice standards, employment and business consideration (including hearing aid dispensing), supervision, and private practice.

672. Assessment and Intervention of Bilingual Children with Communicative Disorders (3)

Assessment and intervention approaches for bilingual children with communicative disorders. Consideration of available cross-linguistic identification criteria and instruments. Factors influencing selection of procedures, planning, and program models.

673. Seminar in Communicative Disorders in Bilingual Spanish-English Children (3)

Prerequisites: Communicative Disorders 300 and demonstrated Spanish language competence.

Normal and atypical Spanish language development applied to assessment and treatment of communication disorders in bilingual and monolingual Spanish children. Alternative assessment and intervention methods.

675. Augmentative Communication (3)

Prerequisites: Communicative Disorders 300 and 526 or 546.

Alternative and augmentative approaches, strategies and technology for individuals with severe communication impairments. Assessment and intervention. Project required.

676. Assistive Device Assessment Program for Communicatively Handicapped (2)

Prerequisite: Communicative Disorders 618.

Assessment of communication skills of disabled individuals, environmental needs and appropriateness of augmentative communication aids. Remediation recommendations. Maximum credit four units.

696. Selected Topics in Communicative Disorders and Sciences (1-3)

Prerequisite: Graduate standing.

Intensive study in specific areas of audiology, education of hearing impaired, speech and hearing science, and speech-language pathology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

790. Seminar in Foundations of Language Science (3)

Prerequisite: Consent of instructor.

Current issues, theory, and research concerning language representation and processing. Emphasis on bringing evidence from linguistics, cognitive psychology, philosophy, psycholinguistics, neuropsychology, and speech-language pathology to bear on theories of human language processing.

792. Seminar in Disorders of Language and Cognition/Adult (3)

Prerequisite: Consent of instructor.

Current topics in cognitive sciences, psychology, psycholinguistics, communicative disorders, and neuropsychology, as they relate to theories of language and cognitive breakdown in aphasia and other neurological deficits in adults.

793. Seminar in Disorders of Language and Cognition/Children (3)

Prerequisite: Consent of instructor.

Language impairment in children, including primary versus secondary language impairment, modular versus processing explanations, relationships between language and cognition, as well as disassociations of development across different populations.

794. Seminar in Language Disorders in Multilingual Populations (3)

Prerequisite: Consent of instructor.

Language disorders in linguistically diverse populations. Disorders of phonological, morphological, syntactic, and semantic aspects of target languages and their clinical implications.

795. Advanced Research Practicum (3)

Prerequisites: Consent of instructor and approval of department chair.

Participation in a specific research activity under faculty supervision. Maximum combined credit of six units of Communicative Disorders 595 and 795.

797. Research (1-3) Cr/NC/RP

Prerequisites: Communicative Disorders 600 and consent of supervisor, to be arranged with department chair.

Research in speech-language pathology, deaf education or audiology. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisites: Communicative Disorders 600 and consent of staff, to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee, advancement to candidacy, and Communicative Disorders 795 or 798.

Preparation of a project or thesis for the master's degree. Participation in the department's professional development seminar is required unless waived by the coordinator of the graduate program.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval. Participation in the department's professional development seminar is required unless waived by the coordinator of the graduate program.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Individual investigation to the general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Individual study in the field of specialization. Maximum credit eight units applicable to the doctoral degree.

Communicative Disorders

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

929. Orientation to Public School Practicum (1)

Prerequisites: Communicative Disorders 517. Minimum of 100 hours of supervised clinical practicum and departmental approval. Concurrent registration in Communicative Disorders 933 or 953.

Goals, materials and procedures for organizing and administering speech, language and hearing programs in the school.

933. Clinical Practice in Public Schools (4 or 5) Cr/NC

Prerequisites: Communicative Disorders 614 (not audiology students). Credit or concurrent registration in Communicative Disorders 929; four units of practica; postbaccalaureate standing; California Basic Education Skills Test; Certificate of Clearance; departmental approval prior to admission.

Clinical practice in elementary or secondary schools or community colleges in speech-language pathology or audiology. Applies only toward the Clinical-Rehabilitative Services Credential (C-RS) or for the Certificate of Clinical Competency in Speech-Language Pathology

(ASHA). Enroll in Communicative Disorders 933A for the Language, Speech and Hearing Credential (LSH). Candidates seeking the Special Class Authorization or Severe Language Handicap (SLH) Credential must enroll in both sections Communicative Disorders 933A and 933B, sequentially or concurrently.

A. Clinical Practice in the Public Schools: Language, Speech and Hearing, 4 units (120 clock hours).

B. Clinical Practice in the Public Schools: Severe Language Handicaps, 5 units (150 clock hours).

953. Directed Internship: Education of the Deaf (1-5) Cr/NC

Prerequisites: Communicative Disorders 655, 657, 658, 668, and two units of 656. ASL fluency evaluation required prior to enrollment.

Supervised student teaching in schools and special day classes with learners who are deaf, hard-of-hearing, or deaf with special needs. Practicum meets standards of California Commission on Teacher Credentialing and National Council on Education Council on Education of the Deaf.

Joseph Katz, D.Sc., Professor of Aerospace Engineering and
Engineering Mechanics
Joseph M. Mahaffy, Ph.D., Professor of Mathematics
Paul J. Paolini, Jr., Ph.D., Professor of Biology
Allen Plotkin, Ph.D., Professor of Aerospace Engineering and
Engineering Mechanics
Robert S. Pozos, Ph.D., Professor of Biology
Peter Salamon, Ph.D., Professor of Mathematics
Herbert B. Shore, Ph.D., Professor of Physics
Kris Stewart, Ph.D., Professor of Computer Science
Marko I. Vuskovic, Ph.D., Professor of Computer Science

Massimo Boninsegni, Ph.D., Associate Professor of Physics
Andrew L. Cooksy, Ph.D., Associate Professor of Chemistry
Eric G. Frost, Ph.D., Associate Professor of Geological Sciences
Colleen Kelly, Ph.D., Associate Professor of Statistics
Anca Mara Segall, Ph.D., Associate Professor of Biology
Faramarz Valafar, Ph.D., Associate Professor of Computer Science
Andrew J. Bohonak, Ph.D., Assistant Professor of Biology
Arlette R.C. Baljon, Ph.D., Assistant Professor of Physics
Douglas H. Deutschman, Ph.D., Assistant Professor of Biology
Thomas J. Impelluso, Ph.D., Assistant Professor of Mechanical
Engineering
Calvin W. Johnson, Ph.D., Assistant Professor of Physics
John J. Love, Ph.D., Assistant Professor of Chemistry
Antonio Palacios, Ph.D., Assistant Professor of Mathematics
Eric L. Sandquist, Ph.D., Assistant Professor of Astronomy
Rozeanne Steckler, Adjunct Professor of Chemistry

Section I. Master's Degree Program

General Information

The computational science program offers a Master of Science degree. It is offered in collaboration with the Departments of Biology, Chemistry, Computer Science, Geological Science, Mathematical Science, and Physics, in the College of Sciences.

Graduates of this program will have a solid foundation in a field of science and the additional training and experience required of computational science professionals. Fundamental science, in one of the specializations, dominates the program. This is supplemented with additional courses in computational science. Real scientific problem-solving is emphasized, through a thesis that could be done in conjunction with a carefully managed extramural research program. A significant proportion of the students in this program will be employed in positions related to their area of studies, thereby providing opportunities for extramural support. Graduates will be prepared for positions in scientific research, scientific programming, and software engineering.

Associateships

Graduate teaching associateships and graduate nonteaching associateships may be available from the individual departments. See the appropriate department of this bulletin for more information.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. If the undergraduate preparation of the students in the desired specialization is deficient, they will be required to take courses for the removal of the deficiency. These courses, taken by students as a classified graduate student, are in addition to the minimum 30 units required for the master's degree. A complete student program must be approved by the computational science program director. The requirements for entering this program consist of one year of computer programming (e.g., C or Fortran), competence in linear algebra and calculus, and a background equivalent to a bachelor's degree in the area of interest.

In addition to submitting an application to the University, students interested in this program are required to 1) Arrange for a letter of recommendation to be sent to the Computational Science Program Director; 2) Submit to the Computational Science Program Director a personal statement, motivating their interest for the program and briefly describing their research interests and educational goals; 3) Two official transcripts (in sealed envelopes); and 4) GRE scores.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 07992)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student must also complete a graduate program of 30 units, of which at least 15 units must be in 600- and 700-level courses excluding 797, 798, and 799A to include:

1. Twelve units selected from:
 - Computer Science 503. Scientific Database Techniques (3)
 - Computer Science 505. Parallel Computing (3)
 - Computer Science 689. Scientific Visualization (3)
 - Mathematics 636. Mathematical Modeling (3)
 - Mathematics 693A. Advanced Numerical Analysis (3)
 - Mathematics 693B. Advanced Numerical Analysis (3)
2. Six units of approved 500-, 600-, or 700-level courses in disciplines related to the student's specialization but outside the Department of Computer Science and Department of Mathematics and Statistics.
3. Six units of approved 500-, 600-, or 700-level electives.
4. Six units of research including Thesis, 797 and 799.

A complete student program must be approved by the computational science program director. The requirements for entering this program consists of one year of computer programming in a programming language such as C or Fortran, competence in linear algebra and calculus, with background equivalent to a bachelor's degree in the area of interest.

Section II. Doctoral Program

General Information

San Diego State University and Claremont Graduate School, offer jointly a doctoral program in computational science. The cooperating faculties are from the Colleges of Engineering and Sciences at San Diego State University and participating units from Claremont Graduate University.

Admission to Doctoral Study

In order to be considered for admission into the program, applicants must fulfill the general requirements for admission with graduate standing to both institutions. Applicants must meet special requirements of this program which include (a) a baccalaureate degree from an accredited institution in a scientific discipline or engineering. Applications from outstanding candidates with degrees in other areas may be accepted conditionally; normally, these students will be expected to take during their first year of enrollment the necessary coursework to eliminate deficiencies; (b) an undergraduate minimum grade point average of 3.0 and minimum 3.50 in any previous graduate coursework; (c) suitable scores on both the quantitative and verbal sections of the Graduate Record Examination.

Application: A complete application requires the following:

Appropriate application form.

Transcripts of all post-secondary coursework.

Results of the Graduate Record Examination.

Applicant's statement of purpose, explaining their interest in the program.

Three letters of recommendation from former or current professors, supervisors, or other appropriate persons.

Faculty Advisers and Doctoral Committee: Upon admission to the program, the student will be assigned a faculty mentor from either institution. After completing the first year of study and receiving a progress evaluation, the student will select a doctoral adviser. The doctoral adviser will aid in the development of a suitable course of study for the student, administer the student's qualifying examination, monitor progress of student research and administer the defense of the doctoral dissertation.

Specific Requirements for the Doctor of Philosophy Degree

The program consists of 48 units of coursework, 24 of which must be completed at the graduate level at San Diego State University, and 24 completed at the graduate level at Claremont Graduate University. Up to 48 additional units of research, practicum, dissertation, and graduate seminar (COMP 800) may be taken at either institution. A student entering the program with a Bachelor of Science degree will satisfy the initial 24 unit requirement by completing a Master of Science degree in computational science at SDSU, then take 24 units of coursework at CGU. Students with an advanced degree other than computational science will complete appropriate courses and a research project to obtain the equivalent of an M.S. degree in computational science.

Claremont Graduate University Courses: Students are required to take 24 units at Claremont Graduate University. There is a core course requirement that must be satisfied with students selecting at least one course each from three of the following four categories:

Category 1: Mathematics 389, Discrete Modeling.

Category 2: Advanced Statistics with Computation: Examples of courses that would fulfill this requirement include Mathematics 351, Time Series; Mathematics 352, Nonparametric Statistics with Resampling Methods; Mathematics 353, Advanced Topics in Statistics Inference; Mathematics 355, Linear Statistical Models.

Category 3: Mathematics 368, Advanced Numerical Analysis or Mathematics 362, Numerical PDEs.

Category 4: Exotic Algorithms: Mathematics 469, Artificial Neural Networks; Mathematics 359 or 369, Monte Carlo Methods.

The additional units taken to make up the 24 unit requirement at Claremont Graduate University are electives to be selected with approval of the faculty adviser at SDSU and CGU. For example, students interested in computational problems in finance may elect to take Mathematics 358, Mathematical Finance, or other related electives. Students whose computational interests lie in signal processing and encryption may take Mathematics 335, Integral Transforms; Mathematics 374, Encoding and Encryption; and/or Mathematics 350, Kalman Filtering. The student's program of study beyond the core requirement will be tailored to the student's individual research interests.

Research Units at SDSU: Computational Science 797, 800, 810, 890, 895, 896, 897, 898, 899.

Qualifying Examination. The qualifying examination shall consist of a term research project supervised by a faculty mentor. The topic of the project will be approved by the program directors in consultation with the faculty mentor. The student will be required to prepare a written account of the research work performed and of its results, and offer an oral presentation before the members of the advisory committee. This level of evaluation will be equivalent and coincide with the computational science Master of Science degree final examination.

Practicum and Doctoral Research. Dissertation research will be carried out here at one of the two institutions, at an industry, or at a national laboratory. In the latter two cases, its denomination is practicum.

Dissertation Proposal. The dissertation proposal shall be submitted by the student to the advisory committee no later than upon completion of the student's third academic year in the program. The

dissertation proposal will take the form of a scientific grant proposal to a major funding agency. The proposal will describe the research project that the student intends to carry out, on which the doctoral dissertation will be based. The student will also be required to deliver an oral presentation before the computational science faculty. Upon successful completion of the presentation, the student will be recommended for advancement to candidacy for the doctoral degree.

Doctoral Dissertation. Upon completion of the dissertation research, the candidate will submit the dissertation to the advisory committee. The candidate will also present a public oral defense of the dissertation. Before the presentation, an account of the work performed will be submitted for publication to a peer-reviewed, international research journal. Upon successful completion of the presentation, the candidate's advisory committee will make a recommendation to the Graduate Deans.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program and are available for direction of research and as members of joint doctoral committees.

San Diego State University

Program Director: José E. Castillo

Committee Members: Baljon, Bhattacharjee, Bohonak, Boninsegni, Carretero, Castillo, Cooksy, Day, Deutschman, Frey, Greferath, Johnson, Kelley, Kelly, Love, Mahaffy, Mellors, O'Sullivan, Palacios, Paolini, Roch, Salamon, Sandquist, Segall, Shore, Smarandache, Swiniarski, Tarokh, Valafar, Vuskovic

Claremont Graduate University

Program Director: John Angus

Committee Members: Angus, Cumberbatch, Dewey, Landsberg, Nadim, dePillis, Liebesking-Hadas, Spanier, Wild, Williamson

Courses Acceptable on Master's and Doctoral Degree Programs in Computational Science (COMP)

UPPER DIVISION COURSE

596. Advanced Topics in Computational Science (1-4)

Prerequisite: Consent of instructor.

Advanced special topics in computational science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced computational science. May be repeated with new content. Topic to be announced in the Class Schedule. Maximum credit six units applicable to a master's degree.

696. Selected Topics in Computational Science (3)

Prerequisite: Graduate standing.

Intensive study in specific areas of computational science. See Class Schedule for specific content. Maximum combined credit of six units of 595 and 696 applicable to a 30-unit master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Six units of graduate level computational science courses.

Research in computational science. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with program director and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

800. Seminar (3)

Prerequisite: Admission to the doctoral program.

Topics in different areas of computational science.

810. Colloquium in Computational Science (1) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Discussions on advances in computational science research. Course to be taken every semester.

890. Supervised Research and Qualifying Examination (3-6) Cr/NC/RP

Prerequisites: Admission to the doctoral program and consent of instructor.

Research and preparation for qualifying examination.

895. Dissertation Proposal (3) Cr/NC/RP

Prerequisites: Successful completion of qualifying examination and consent of instructor.

Research and preparation of dissertation proposal to be presented in order to advance to candidacy.

896. Practicum (1-9) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in general area of field of dissertation. Conducted in industry or national laboratory under faculty supervision. Maximum credit 36 units.

897. Doctoral Research (1-9) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in general field of dissertation. Maximum credit 36 units.

898. Doctoral Special Study (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Individual study leading to study and research required for doctoral dissertation.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree.

Associateships

Graduate teaching associateships in computer science are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the Department of Computer Science.

General Information

The Department of Computer Science offers graduate study leading to the Master of Science degree in computer science. The areas in which courses are offered include software, systems, architecture, artificial intelligence, and computer science theory.

Master's level research projects are available in the following areas of computer science: distributed systems, multiprocessing, operating systems, graphics, neural networks, formal languages, numerical methods, robotics, signal processing, and computational complexity. Specialized laboratories exist for microprocessor architecture, graphics, and robotics and intelligent machines.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Students applying for admission should electronically submit the University application available at www.csmentor.edu.

The following materials should be submitted as a complete package directly to the Department of Computer Science:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE General Test score;
- (3) TOEFL score (if required).

Refer to section on Admission to Postbaccalaureate and Graduate Study in this bulletin for further details.

Mail or deliver your complete admissions package to:
Department of Computer Science
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7720

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in their area of research.

Specific Requirements for the Master of Science Degree in Computer Science

(Major Code: 07011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following departmental requirements:

1. Complete a minimum of 30 units of 500-, 600-, and 700-level courses selected with the approval of the adviser. One to three units of Computer Science 798 may be added to the 30 minimum units required, when used for an internship or practical training. All programs must include at least 24 units chosen from computer science and mathematics. Programs must also satisfy the following requirements:
 - a. At least 15 units of graduate (600-700) courses (excluding 797, 798, 799A).
 - b. At least one course from each of the following:
 - Programming and Formal Languages: Computer Science 520, 524, 532, 535, 620A, 620B, 632.
 - Operating Systems and Architecture: Computer Science 571, 572, 574, 576, 670, 672, 674.
 - Algorithms and Complexity: Computer Science 562, 564, 660, 662, 664.
 - Applications and Other Topics: Computer Science 514, 550, 551, 553, 555, 556, 557, 558, 559, 561, 566, 578, 580, 635, 650, 651, 656, 657, 700; Mathematics 525, 542, 626, 693A, 693B.
2. With departmental approval, students may select Plan A (thesis), and must complete 799A in accordance with departmental and University regulations. An oral examination on the subject of the thesis is required. Students selecting Plan B must pass written comprehensive examinations as determined by the department.

Courses Acceptable on Master's Degree Program in Computer Science (cs)

UPPER DIVISION COURSES

501. Computational Software (3)

Prerequisites: Computer Science 106 and 310.

Design and implementation of software for computational science. Makefiles in UNIX environment, efficient Fortran and 00 programming, use of common application libraries, file and source code management, software documentation, construction of libraries and applications. Designed for computational science students. Computer science majors must obtain adviser approval.

503. Scientific Database Techniques (3)

Prerequisites: Computer Science 205, 310, and Mathematics 245. Fundamental data models for handling scientific data, including flat file, indexed compressed files, relational databases, and object oriented databases, and their associated query technologies; e.g. file formats, input/output libraries, string searching, structured query language, object-oriented structured query language, hypertext markup language/common gateway interface, and other specialized interfaces. Designed for computational science students. Computer science majors must obtain adviser approval. See Computer Science 514.

505. Parallel Computing (3)

Prerequisite: Computer Science 310. Recommended: Computer Science 501.

Motivations and methods of high performance computing. Modern computer architecture characteristics, uniprocessor programming and tuning, shared and distributed memory programming techniques, benchmarking. Designed for computational science students. Computer science majors must obtain consent of adviser.

514. Database Theory and Implementation (3)

Prerequisites: Computer Science 310 and Mathematics 245.

Database systems architecture. Storage structures and access techniques. Relational model, relational algebra and calculus, normalization of relations, hierarchical and network models. Current database systems.

520. Advanced Programming Languages (3)

Prerequisites: Computer Science 237, 310, and 320.

Object oriented programming, concurrent programming, logic programming. Implementation issues.

524. Compiler Construction (3)

Prerequisites: Computer Science 237, 310, and 320.

Syntactical specification of languages. Scanners and parsers. Precedence grammars. Run-time storage organization. Code generation and optimization.

530. Systems Programming (3) I, II

Prerequisites: Computer Science 237 and 310.

Design and implementation of system software. Relationship between software design and machine architecture. Topics from assemblers, loaders and linkers, macro processors, compilers, debuggers, editors. Introduction to software engineering and review of programming fundamentals and object oriented concepts. Large project in object oriented programming is required. Not acceptable for the M.S. degree in computer science.

532. Software Engineering (3)

Prerequisites: Computer Science 320 and 530.

Theory and methodology of programming complex computer software. Analysis, design, and implementation of programs. Team projects required.

535. Object-Oriented Programming and Design (3)

Prerequisites: Computer Science 310 and 320.

Basic concepts of object-oriented programming; classes, objects, messages, data abstraction, inheritance, encapsulation. Object-oriented design methodology.

550. Artificial Intelligence (3)

Prerequisites: Computer Science 108 and either Mathematics 245 or 523.

Heuristic approaches to problem solving. Systematic methods of search of the problem state space. Theorem proving by machine. Resolution principle and its applications.

551. User Interface Environments (3)

Prerequisites: Computer Science 310 and 320.

Design of user-machine interfaces in interactive systems. Problems faced by user of an interactive system; basic issues and principles involved in design and implementation of good and friendly user-machine graphical interfaces.

553. Neural Networks (3)

Prerequisites: Computer Science 320 and Mathematics 254.

Principles of neural networks, their theory and applications.

555. Raster Computer Graphics (3)

Prerequisite: Computer Science 551.

Bit map graphics, algorithms to connect between different formats and enhancement of pictures.

556. Robotics: Mathematics, Programming, and Control (3)

Prerequisites: Computer Science 320, Mathematics 254, knowledge of the C programming language.

Robotic systems including manipulators, actuators, sensors, and controllers. Algebraic methods for spatial description of solid objects, manipulator kinematics and control. Robot programming languages and robot programming systems.

557. Computer Control Systems (3)

Prerequisites: Computer Science 310 and Mathematics 254.

Analysis and programming of real-time computer control systems, implementation of digital controllers including programming, intelligent control systems and fuzzy control.

558. Computer Simulation (3)

Prerequisites: Computer Science 310 and Statistics 550.

Methodology of simulation for discrete and continuous dynamic systems. State-of-the-art programming techniques and languages. Statistical aspects of simulation. Students will design, program, execute, and document a simulation of their choice.

559. Computer Vision (3)

Prerequisites: Computer Science 310 and Mathematics 254.

Algorithms and computer methods for processing of images. Visual perception as a computational problem, image formation, characterization of images, feature extraction, regional and edge detection, computer architectures for machine vision.

560. Algorithms and Their Analysis (3) I, II

Prerequisite: Computer Science 310.

Algorithms for solving frequently occurring problems. Analysis techniques and solutions to recurrence relations. Searching and sorting algorithms. Graph problems (shortest paths, minimal spanning trees, graph search, etc.). NP complete problems. Not acceptable for the M.S. degree in Computer Science.

561. Multimedia Systems (3)

Prerequisite: Computer Science 551.

System aspects of multimedia authoring, browsing, and database subsystem; digital representation for different media; audio and video; operating system support for continuous media applications; architectures; design and implementation of multimedia support systems; use of multimedia technology in software engineering.

562. Automata Theory (3)

Prerequisite: Mathematics 245 or 521A.

Definition of finite automata. Classification of finite automaton definable languages. Minimization of finite automata. Nondeterministic finite automata. Sequential machines with output. Regular sets and expressions. Introduction to grammars.

564. Introduction to Computability (3)

Prerequisite: Mathematics 245 or 523.

Definition of algorithm by abstract (Turing) machines. Universal Turing machines. Primitive recursive and recursive functions. The equivalence of the computational power of Turing machines and recursive functions. Limitations and capabilities of computing machines; the halting problem.

566. Queuing Theory (3)

Prerequisites: Computer Science 108 and Statistics 550.

Performance prediction of computer networks and other systems (e.g., inventory control, customer service lines) via queuing theory techniques. Operational analysis.

570. Operating Systems (3) I, II

Prerequisites: Computer Science 310, 370, and knowledge of the C programming language.

File systems, processes, CPU scheduling, concurrent programming, memory management, protection. Relationship between the operating system and underlying architecture. Not acceptable for the M.S. degree in Computer Science.

571. UNIX Network Administration (3)

Prerequisite: Computer Science 470.

Network administration for UNIX workstations and servers. File server, mail server, boot server, and Web server. TC/IP administration, routing, subnetting, and NIS plus data base.

572. Microprocessor Architecture (3)

Prerequisites: Computer Science 370 and knowledge of the C programming language.

Architecture of state-of-the-art microprocessor. Internal pipeline, internal cache, external cache, and memory management. Programming a uniprocessor. Communication among computers in a distributed environment. Architecture and programming of a multiprocessor system.

574. Computer Security (3)

Prerequisites: Computer Science 310; Mathematics 245; Statistics 550; and credit or concurrent registration in Computer Science 570.

Principles of computer security and application of principles to operating systems, database systems, and computer networks. Topics include encryption techniques, access controls, and information flow controls.

575. Supercomputing for the Sciences (3)

Prerequisite: Extensive programming background in Fortran or C.

Interdisciplinary course, intended for all science and engineering majors. Advanced computing techniques developed for supercomputers. Overview of architecture, software tools, scientific computing and communications. Hands-on experience with CRAY.

576. Computer Networks and Distributed Systems (3)

Prerequisite: Credit or concurrent registration in Computer Science 570.

Local area networks and wide area networks; mechanisms for interprocess communication; rules for distribution of data and program functions.

578. ATM Networking (3)

Prerequisite: Computer Science 576.

Asynchronous transfer mode communication networks, including fundamental concepts, technologies, architectures, infrastructures, and interoperability of legacy technologies. Review of basic communication and networking concepts, including transmission media, multiplexing, link control protocols, and wide area networks.

580. Client-Server Programming (3)

Prerequisites: Computer Science 570 and knowledge of an object-oriented programming language. Recommended: Computer Science 576.

Client-server model, networking protocols for client-server programs, algorithmic issues in client-server programs, client-server protocols, implementing client-server applications.

581. Computational Linguistics (3)

(Same course as Linguistics 581.)

Prerequisites: Computer Science 320 or Linguistics 571; Linguistics 570 or Mathematics 245.

Basic concepts in computational linguistics including regular expressions, finite-state automata, finite-state transducers, weighted finite-state automata, and n-gram language models. Applications to phonology, orthography, morphology, syntax. Probabilistic models. Statistical techniques for speech recognition.

596. Advanced Topics in Computer Science (1-4) I, II

Prerequisite: Consent of instructor.

Selected topics in computer science. May be repeated with the approval of the instructor. See Class Schedule for specific content.

Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

For additional courses useful to computer scientists, see:

Mathematics 541.	Introduction to Numerical Analysis and Computing
Mathematics 542.	Introduction to Numerical Solutions of Differential Equations
Mathematics 561.	Applied Graph Theory
Mathematics 579.	Combinatorics

GRADUATE COURSES

(Classified graduate standing is expected for all graduate courses.)

620A. Formal Languages and Syntactic Analysis I (3)

Prerequisites: Computer Science 310, 320 or 520, and 562.

Regular, context-free, context-sensitive, and general grammars. Corresponding machine model recognizers. Chomsky and Greibach normal forms. Closure, decidability and undecidability properties.

620B. Formal Languages and Syntactic Analysis II (3)

Prerequisite: Computer Science 620A.

Properties of deterministic context-free languages. Backtrack and matrix based general parsing techniques. LL(k) and LR(k) based parser generators. Precedence grammars.

632. Advanced Software Engineering (3)

Prerequisite: Computer Science 532.

Theoretical and practical concepts associated with the specification, design, testing, and maintenance of large software systems. Use of automated tools in engineering such systems.

635. Advanced Object-Oriented Design and Programming (3)

Prerequisites: Computer Science 535 and knowledge of an object-oriented programming language.

Advanced topics in object-oriented programming and design, code reuse, building class libraries, quality of objects, coupling, cohesion, design patterns, distributed objects.

650. Seminar in Artificial Intelligence (3)

Prerequisite: Computer Science 550.

General problem-solving programs, expert problem solving, game-playing programs, pattern recognition and natural language processing. Understanding vision, manipulation, computer decision. May be repeated with new content with approval of graduate adviser. Maximum credit six units applicable to a master's degree.

651. Advanced Multimedia Systems (3)

Prerequisite: Computer Science 561.

System aspects of multimedia authoring, browsing, and database subsystems. Formal models for hypermedia documents. Conversion of flat text into hypertext. Artificial intelligence in hypermedia systems. Architectures, design, and implementation of multimedia support systems. Use of multimedia technology in software engineering.

656. Advanced Robotics (3)

Prerequisite: Computer Science 556.

Computer-based techniques for low-, medium-, and high-level robot control including sequential and parallel schemes for robot dynamics, robot programming and robot task planning.

657. Intelligent Systems and Control (3)

Prerequisites: Computer Science 535 and 560 or Computer Science 530.

Genetic and evolutionary algorithms, genetic programming and applications, fuzzy logic and approximate reasoning, rule-based inference engines, intelligent path planning and applications to robotics, dynamic systems and their simulations using Simulink, conventional control and intelligent control, intelligent agents, autonomous and multi-agent systems.

660. Combinatorial Algorithms and Data Structures (3)

Prerequisite: Computer Science 560.

Algorithm design techniques. Network flow and matching. Complexity analysis. NP-completeness, reductions among NP-complete problems. Approximation algorithms for NP-complete problems such as the traveling salesman problem.

662. Theory of Parallel Algorithms (3)

Prerequisites: Computer Science 560 and Mathematics 254.

Models for parallel computation. Parallel algorithms for several common problems including sorting, searching, graph problems, and matrix problems. Complexity of parallel algorithms. Lower bounds on parallel complexity.

664. Theory of Computability (3)

Prerequisite: Computer Science 562 or 564.

Turing machines and other formal models of computation. Recursive function theory. The Ackermann function. Solvable and unsolvable problems.

670. Advanced Operating Systems (3)

Prerequisite: Computer Science 570.

Survey of advanced operating systems including distributed systems. Associated design issues. Case studies.

672. Microcomputer Software (3)

Prerequisite: Computer Science 572.

Design and implementation of a real time operating system for a state-of-the-art microprocessor. Applications of the operating system.

674. Advanced Computer Architecture (3)

Prerequisite: Computer Science 572.

Advanced computer architecture, including parallel and distributed architecture, and accompanying software and algorithmic issues.

683. Emerging Technologies (3)

Prerequisite: See Class Schedule for prerequisites.

Emerging technologies in computing. Issues and concepts underlying new technology. Hands on experience. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

689. Scientific Visualization (3)

Prerequisites: Computer Science 555 and Mathematics 254.

Cognitive principles governing effective design and analysis of data representations, design strategies for enhancing dimensionality and information density of visual portrayals of information; survey of and practice in use of available software tools for visualization.

696. Selected Topics in Computer Science (3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of computer science. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Applications of Computer Science (3)

Prerequisite: Classified graduate standing in mathematics or computer science.

Topic to be chosen from such applications as theorem proving, simulation, learning theory, graphics definition languages. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

790. Practicum in Teaching of Computer Science (1) Cr/NC

Prerequisite: Award of graduate teaching associateship in computer science.

Supervision in teaching computer science. Lecture writing, style of lecture presentation and alternatives, test and syllabus construction, and grading system. Not applicable to an advanced degree. Required for first semester GTA's. Maximum credit four units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Six units of graduate level computer science courses.

Research in computer science. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Charles F. Hohm, Ph.D., Professor of Sociology
Bohdan Kolody, Ph.D., Professor of Sociology
Louis M. Rea, Ph.D., Professor of Public Administration and Urban Studies, Director of School of Public Administration and Urban Studies
James L. Wood, Ph.D., Professor of Sociology
R. George Kirkpatrick, Ph.D., Associate Professor of Sociology
Ruth Xiaoru Liu, Ph.D., Associate Professor of Sociology
Kyle Farmbry, Ph.D., Assistant Professor of Public Administration
Jeffrey S. McIlwain, Ph.D., Assistant Professor of Public Administration and Urban Studies
M. Celeste Murphy, Ph.D., Assistant Professor of Public Administration and Urban Studies
Jana L. Pershing, Ph.D., Assistant Professor of Sociology
Evelyn Zellerer, Ph.D., Assistant Professor of Public Administration and Urban Studies

Associateships

Graduate teaching associateships and graduate assistantships are available to a limited number of qualified students. Please speak with program director for more information.

General Information

The School of Public Administration and Urban Studies in the College of Professional Studies and Fine Arts, in conjunction with the Department of Sociology in the College of Arts and Letters, offer graduate study leading to the Master of Science degree in criminal justice and criminology.

Students pursuing a Master of Science degree in criminal justice and criminology will master criminological theory and quantitative research methods and will learn to apply the theory and methods to real-world research and policy issues. Students will also examine criminal justice policy issues at the local, state, national, and international levels.

Research facilities include the Institute of Public and Urban Affairs and the Social Science Research Laboratory. The San Diego metropolitan region affords significant research and internship opportunities for the graduate student in federal, state, and local agencies as well as in community-based organizations.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students must also satisfy the following requirements: (1) a 3.0 grade point average in the undergraduate major and a 3.00 overall grade point average; (2) an acceptable score on the GRE General Test; (3) two letters of recommendation from individuals who

are familiar with the student's academic work and/or employment performance; and (4) a 500 word essay addressing professional and educational goals.

Students are expected to have undergraduate proficiency in the following four areas: (1) basic knowledge of the criminal justice system; (2) basic knowledge of criminological theory; (3) statistics; and (4) research methods.

Students whose preparation is deemed insufficient by the graduate adviser may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum required for this degree.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

In addition, the following materials should be submitted as a complete package directly to the School of Public Administration/Master of Criminal Justice and Criminology:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE General Test score;
- (3) Two letters of reference;
- (4) 500-word essay describing your professional and educational goals.

Mail or deliver your complete admissions package to:

School of Public Administration/
Master of Criminal Justice and Criminology
(Attention: Dr. Natalie R. Pearl)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4505

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 22091)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree in Part Two of this bulletin, students must complete an officially approved course of study as outlined below. Students must earn a minimum grade point average of B (3.0) in the master's program and no less than a B- grade in each core course. All students in this program will complete a thesis under the direction of a faculty adviser. All faculty listed are eligible to be thesis advisers.

Graduate Program (Core)

Twenty-four units of graduate level courses to include:

- Criminal Justice Administration 601. Seminar in the Administration of Criminal Justice (3)
- Criminal Justice Administration 602. Seminar in the Criminal Justice System as a Social Institution (3)
- Criminal Justice Administration 604. Seminar in Criminal Justice and Urban Administration (3)
- Sociology 602. Advanced Research Methods (3)

Sociology 743. Seminar in Criminology and Criminal Justice Theory (3)
Sociology 760. Seminar in Research Methods (3)

Criminal Justice Administration 797. Research in Criminal Justice Administration (3) Cr/NC/RP

OR

Sociology 797. Research (3) Cr/NC/RP
Criminal Justice Administration 799A. Thesis (3) Cr/NC/RP

OR

Sociology 799A. Thesis (3) Cr/NC/RP

Electives: A minimum of six additional units of 500, 600, or 700-level courses in criminal justice administration, public administration, sociology, or related fields selected in conjunction with the graduate adviser from the following:

Criminal Justice Administration 520. Prosecutorial Function in Administration of Justice (3)

Criminal Justice Administration 531. Probation and Parole (3)

Criminal Justice Administration 540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3)

Criminal Justice Administration 543. Community Resources in Criminal Justice Administration (3)

Criminal Justice Administration 791. Seminar in Readings in Criminal Justice Administration (3)
Political Science 577. Principles of International Law (3)
Public Administration 604. Methods of Analysis in Public and Urban Affairs (3)
Public Administration 606. Seminar in Quantitative Approaches to Public Administration (3)
Public Administration 660. Administration and Public Policy Development (3)
Sociology 601. Advanced Social Theory (3)
Sociology 700. Seminar in Social Theory (3)
Women's Studies 572. Women and Violence (3)

An internship (Criminal Justice Administration 796) of up to 12 units is required beyond the 30 units of coursework for students who have not had equivalent experience. The internship may be served in a criminal justice agency, community-based organization, or in field study approved by the graduate adviser.

Course descriptions for courses can be found in the section of this bulletin under the appropriate heading.

Economics

In the College of Arts & Letters

OFFICE: Nasatir Hall 305
TELEPHONE: (619) 594-1675
FAX: (619) 594-5062

Faculty

Mark A. Thayer, Ph.D., Professor of Economics,
Chair of Department
Renatte K. Adler, Ph.D., Professor of Economics
Raford D. Boddy, Ph.D., Professor of Economics
Roger S. Frantz, Ph.D., Professor of Economics
James B. Gerber, Ph.D., Professor of Economics
Louis C. Green, Ph.D., Professor of Economics
Shoshana A. Grossbard-Shechtman, Ph.D., Professor of Economics
Arthur E. Kartman, Ph.D., Professor of Economics
Dean O. Popp, Ph.D., Professor of Economics,
Associate Vice President for Faculty Affairs
John W. Hambleton, Ph.D., Associate Professor of Economics
Catalina Amuedo-Dorantes, Ph.D., Assistant Professor of Economics
Edmund M. Balso, Ph.D., Assistant Professor of Economics
Cynthia A. Bansak, Ph.D., Assistant Professor of Economics
Eric J. Brunner, Ph.D., Assistant Professor of Economics
(Graduate Adviser)
Jennifer Imazeki, Ph.D., Assistant Professor of Economics
Kusum Mundra, Ph.D., Assistant Professor of Economics

Associateships

A number of teaching and research associateships are available for qualified students. Appointments permitting up to 20 hours of service per week are available. In addition, students interested in pursuing teaching careers at the community college level may apply for a teaching apprenticeship position. Application forms and additional information may be obtained from the graduate student coordinator of the Department of Economics.

Scholarships

The Department of Economics administers two scholarship programs that are available to qualified students. Incoming students may apply for a Terhune scholarship. Terhune Scholarships are designed to cover tuition and fees for the first year of graduate study. The Center for Public Economics annually awards several scholarships ranging from \$300 to \$1,500 in the Spring semester. Application forms and additional information for these programs may be obtained from the graduate student coordinator of the Department of Economics.

General Information

The Department of Economics offers a Master of Arts degree in economics. The program provides students with advanced training in decision-making techniques and quantitative analysis by building on a core of applied microeconomic and econometric classes. Students learn to apply analytic methods to business and policy issues, use advanced econometric methods and computer software. An internship program provides students with valuable work experience. The program is designed to (1) prepare students for careers in consulting, domestic and multinational firms and government agencies, (2) provide students with university-level teaching experience and access to community college teaching positions, and (3) provide advanced training in economics for students planning on entering a Ph.D. program.

Admission to Graduate Study

Admission to the Master of Arts program in economics is a three-step process.

Step 1. Students applying for admission should electronically submit the University application available at www.csumentor.edu.

Step 2. The following materials should be submitted as a complete package directly to the Department of Economics:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) Two letters of recommendation;
- (3) A personal statement of no more than 750 words that describes why you wish to pursue graduate study in economics;

Mail or deliver your complete admissions package to:

Graduate Admissions Coordinator
Department of Economics
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4485

Step 3. Have GRE test scores sent to SDSU (SDSU code: 4682). If you are an international student whose postsecondary instruction is in a language other than English you must have TOEFL test score sent to SDSU. International students interested in applying should first contact the International Student Center.

Advancement to Candidacy

In addition to the general requirements for advancement to candidacy described in Part Two of this bulletin, the student must have completed Economics 630, 631, 640, and 641 with at least a 3.0 (B) average and no individual core course grade lower than a 2.7 (B-). Deficiencies may be addressed by retaking core courses.

Specific Requirements for the Master of Arts Degree

(Major Code: 22041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units. Each program must include Economics 630, 631, 640, 641, 740, and 795. No program may contain more than nine units of approved courses outside economics. In addition, no program may contain more than six units of 500-level courses.

A written comprehensive examination covering the core fields of microeconomics and econometrics is required for Plan B students. Students selecting Plan A must include Economics 799A in their program and complete a master's thesis.

As an alternative to electing a general program, the student may choose to specialize in Latin American Policy Studies or Urban and Regional Policy. The specialization in Latin American Policy Studies with its applied and interdisciplinary focus, is designed to provide students with advanced training in Latin American policy issues. The specialization in Urban and Regional Policy, with its applied and interdisciplinary focus, is designed to provide students with advanced training in urban and regional policy issues.

Specialization in Latin American Policy Studies

Economics 720. Seminar in Latin American Economies (3)
Latin American Studies 601. Seminar on Methodology of Latin American Studies (3)

One course selected from the following:

History 555. Modernization and Urbanization in Latin America (3)
History 558. Latin America in World Affairs (3)
Political Science 566. Political Change in Latin America (3)
Political Science 567. Political Systems of Latin America (3)

Specialization in Urban and Regional Policy

Economics 710. Seminar in Urban and Regional Economics (3)

At least one course selected from the following:

City Planning 620. Seminar in Urban Planning Methodologies (3)
City Planning 625. Quantitative Techniques in Urban Planning (6)
Geography 584. Geographic Information Systems Applications (3)
Geography 683. Advanced Geographic Information Systems (3)

One course selected from the following:

City Planning 650. Seminar in Urban Theory (3)
City Planning 665. Seminar in Urban and Regional Planning Analysis (3)
Geography 596. Advanced Topics in Urban and Regional Policy (3)
Geography 685. Advanced Quantitative Methods in Geography (3)
Geography 780. Seminar in Techniques of Spatial Analysis (3)

Courses Acceptable on Master's Degree Programs in Economics (ECON)

UPPER DIVISION COURSES

507. Mathematical Economics (3)

Prerequisite: Mathematics 121 or 150. Recommended: Economics 320 or 321.

Mathematical concepts as tools in understanding, developing, and illustrating economic theories. Applications of calculus and linear equations to constrained optimization, macro models, elasticity, general equilibrium, and input-output analysis. Not open to students with credit in Economics 307 or 610.

561. International Trade (3)

Prerequisites: Economics 320 and 321.

Theory and policy of international trade with examples drawn from current issues. Models of determinants of trade. Free trade and protectionism. Trade and economic development. Trading blocs, the European community, GATT and U.S. trade policy.

565. North American Economic Relations (3)

Prerequisites: Economics 101 and 102. Recommended: Economics 360.

Socioeconomic development of U.S., Mexico, and Canada since World War II. Issues affecting the three countries' relations, including

trade investment, technology, and international organizations and agreements.

592. International Monetary Theory and Policy (3)

Prerequisite: Economics 320 or 490.

International monetary spillovers from domestic macroeconomic policies. Foreign exchange markets and balance of payments. Fixed, flexible and managed exchange rates. Bretton Woods, international monetary fund, and world debt crisis.

596. Experimental Topics (3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of economics. Topics to be announced in the Class Schedule. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

603. Economic Analysis (3)

Prerequisite: Classified graduate standing.

Economic analysis of the firm in a market economy and the economics of national income determination. Not open to students with credit for Economics 320 or 321. Not applicable to a master's degree in economics.

630. Microeconomic Theory (3)

Prerequisite: Economics 321.

Theories of the consumer, the firm, and the market. Topics in welfare and general equilibrium. Duality and uncertainty.

631. Applied Microeconomic Methods (3)

Prerequisite: Economics 630.

Decision-making techniques in applied microeconomics including cost-benefit analysis, choice under uncertainty and applied game theory techniques.

640. Econometrics (3)

Prerequisites: Economics 321; Mathematics 120 or 121 or 150.

Measurement in economics. Use of economic models involving multiple regression analysis, simultaneous equation systems, and time series analysis.

641. Applied Research in Econometrics (3)

Prerequisite: Economics 640.

Econometric applications and techniques including discrete choice, panel data simultaneous equations and time series. Data analysis and statistical software training in STATA, SAS, and SPSS.

696. Experimental Topics (3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of economics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Microeconomic Applications (3)

Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.

Microeconomic applications to individual, firm, or government. Maximum credit six units of Economics 700 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:

Seminar in Industrial Organization and Firm Behavior
Seminar in Labor Economics
Seminar in Economic Issues in Demography
Seminar in Experimental Economics

710. Seminar in Public Economics (3)

Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.

Government in a market economy. Impact on individual and firm behavior. Maximum credit six units of Economics 710 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:

- Seminar in Environmental Issues
- Seminar in Public Expenditures
- Seminar in Urban and Regional
- Seminar in Regulation
- Seminar in Tax Policy

720. Seminar in Development and Planning (3)

Prerequisite: Consent of instructor.

Development process and policies. Planning techniques. Relations among developing and developed countries. Maximum credit six units of Economics 720 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:

- Seminar in Development Economics
- Seminar in Development Planning
- Seminar in International Trade and Commercial Policy

730. Seminar in Macroeconomic Policy (3)

Prerequisite: Consent of instructor.

Applications of macroeconomics to open economics. Maximum credit six units of Economics 730 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:

- Seminar in National Monetary Institutions
- Seminar in International Monetary Policy
- Seminar in Business Cycles
- Seminar in Macroeconomic Modeling and Prediction

740. Seminar in Applied Economic Research (3)

Prerequisites: Advancement to candidacy and consent of graduate adviser.

Advanced treatment of research design and methodology. Application of empirical techniques to selected problems. (Formerly numbered Economics 740A.)

750. Seminar in Economic History and Institutions (3)

Prerequisite: Consent of instructor.

Economic development in historical perspective. Maximum credit six units of Economics 750 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:

- Seminar in U.S. Economic History
- Seminar in Economic Growth in Historical Perspective
- Seminar in Contemporary Economic Systems

795. Internship in Economics (3) Cr/NC

Prerequisites: Economics 630, 640, and approval of graduate adviser.

Students will be assigned to various jobs in which economic theory can be applied to decision making. Supervision will be shared by the graduate adviser and on-the-job supervisor.

797. Research (3) Cr/NC/RP

Prerequisites: Classified graduate standing and consent of instructor.

Independent research project in an area of economics.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Education

In the College of Education

General Information

The College of Education offers graduate study leading to the Master of Arts degree in education with concentrations in the following: counseling, educational technology, elementary curriculum and instruction, postsecondary educational leadership and instruction, reading education, secondary curriculum and instruction, educational leadership, special education, educational research, and policy studies in language and cross-cultural education. Some of these concentrations are designed to permit concurrent completion of the requirements for the correspondingly named advanced credentials.

Graduate study is also offered leading to the Master of Science degree in counseling and the Master of Science degree in rehabilitation counseling.

The degree of Doctor of Philosophy (Ph.D.) in education with a multicultural emphasis is offered jointly with Claremont Graduate University. Inquiries concerning this program should be addressed to the Director of the SDSU/CGU Doctoral Program, College of Education. Informal inquiries may also be made through the program office at (619) 594-6544.

The degree of Doctor of Education (Ed.D.) is offered currently with the University of San Diego with concentrations in educational technology, and teaching and learning with an emphasis in literacy. Inquiries should be addressed to Director, SDSU/USD Doctoral Program, College of Education, San Diego State University, San Diego, CA 92182. The telephone number for the program office is (619) 594-0909.

The degree of Doctor of Philosophy (Ph.D.) in mathematics and science education is offered jointly with the University of California, San Diego. For specific information about this program, refer to the Mathematics and Science Education section of this bulletin.

Section I. Doctoral Programs

Doctor of Philosophy Degree in Education

(Major Code: 08011)

Admission to Doctoral Study

The doctoral program in Education offered by San Diego State University and Claremont Graduate University invites applications from individuals whose academic focus is on democratic schooling, social justice, equal educational outcomes for all students and the improvement of educational systems serving diverse communities.

To be considered for admission to the SDSU/CGU program, students must meet the general requirements for admission to both institutions with classified (full) graduate standing as outlined in the current respective bulletins. These include a master's degree in education or a related field from an accredited institution, good academic standing in the last institution attended, and an acceptable score on the Graduate Record Examination. Experience in the field is desirable. Students are admitted only in the fall of each academic year. Applicants must submit copies of all transcripts of previous college work, three letters of recommendation, a 1000-word personal statement, and results of the Graduate Record Examination. Personal interviews are conducted for the most promising applicants.

Specific Degree Requirements for the Ph.D. Degree in Education

A minimum of 48 semester units of residency, 24 at each institution, is required before a student is eligible to take qualifying examinations. In the interest of establishing an effective working relationship with faculty at both Claremont and San Diego State University, 12 of the student's first 24 units must be undertaken at Claremont Graduate University. In addition to these residency units, additional coursework may be needed before the student is competent to conduct dissertation research. The student must further demonstrate command of two research tools, including essential expertise in quantitative methods. After successful completion of four qualifying examinations and an oral defense of that work, the student is advanced to candidacy and enters the dissertation phase of the program.

Students seeking admission to the joint doctoral program in education should write directly to Alberto M. Ochoa, Director of the program, requesting application materials. Upon admission to the program, the student is guided by the requirements for the doctoral program given in Part Two of this bulletin and those listed under Education in the Claremont Graduate University Bulletin.

Faculty

The faculty bring diverse research and teaching interests to the study of democratic schooling, social justice, and diversity in education. Among the members of the faculty, the student will find rich resources of expertise in such areas as public policy, organizational theory and leadership, curriculum and instruction, higher education, counseling and school psychology, language development, qualitative and quantitative analysis, bilingual and cross-cultural education, educational technology, and special education.

San Diego State University

Director: Alberto M. Ochoa

Associate Director: Daniel J. Kitchen

Faculty: B. S. Allen, Atkins, Basom, Berg, Bezuk, Cegelka, Dodge, Espinosa, Evans, Farnan, Fisher, Flood, Frase, Gallego, Graves, Hoffman, Ingraham, Jacobs, Kelly, Kitano, Kuhlman, Lapp, Lewis, Lynch, Mason, Mathison, McFarlane, Ochoa, Pang, Philipp, Piland, Pohan, Ritchie, Rossett, Saba, Santa Cruz, Sax, Yerrick, Young

Claremont Graduate University

Director: David Drew

Faculty: Arguelles, Darder, Drew, Dreyer, Foster, Hale, Kerchner, Matsui, Poplin, Regan, Schuster, Smith, Weeres

Doctor of Education Degree

(Major Code: 08011)

Admission to Doctoral Study

Students are admitted to these degree programs in the fall term only, and applications for admission must be received by February 15. Application materials may be obtained from Marlowe Berg, program director at SDSU. The information can also be obtained on the program Web site at <http://edweb.sdsu.edu/SDSU-USD/home.htm>. Not all areas in which the degree is offered are available every year and

cohorts of students will be accepted for admission as one or more of the concentrations become available. For the specific degree offerings open for admission each year, contact the program director at SDSU.

To be considered for admission to the SDSU/USD program, students must meet the general requirements for admission to both San Diego State University and the University of San Diego. These include a master's degree in education or a related field from an accredited institution, good academic standing in the last institution attended, an acceptable score on the Graduate Record Examination, and experience in the field. Students are admitted only in the Fall semester of the academic year. Applicants must submit copies of all transcripts of previous college work, three letters of recommendation, a personal statement, a professional resume, and results of the Graduate Record Examination. Personal interviews are conducted for the most promising applicants.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should also be submitted as a complete package directly to the SDSU-USD program office:

- (1) Three sets of official transcripts (in sealed envelopes);
- (2) Unofficial GRE scores;
- (3) Department application (concurrent with University application);
- (4) Three letters of reference;
- (5) Personal statement;
- (6) Professional resume.

Mail or deliver your complete admissions package to:

SDSU-USD Doctoral Program in Education
(Attention: Caroline Balzer)
College of Education
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1112

Specific Degree Requirements for the Ed.D. Degree in Education

The faculties of the Colleges of Education at San Diego State University and at the University of San Diego jointly offer professional programs leading to the degree. This degree emphasizes the preparation of educational leaders and practitioners who can make significant contributions to solving problems in education and fostering the improvement of schools and other learning

environments. The programs draw primarily on the faculty expertise and resources of San Diego State University and the University of San Diego, but these resources may be augmented from time to time by participation of selected faculty members from the University of California, San Diego; California State University, San Marcos; and California State University, San Bernardino.

Each of the programs require a minimum of 60 units of graduate level coursework. At least 24 course credits and six units of dissertation must be completed on each campus. All students will complete 15 units of core courses as well as six units of coursework in advanced research. With the concurrence of the faculty adviser, students will develop an area of study directly related to their educational objective. Each of these programs may include an internship.

Upon completion of 12 units of study, each student will meet with an adviser and a joint faculty committee to assess progress in the program, to develop a program of study, to discuss possible internship experience, and to define a research focus. After 30 semester units have been completed, students are eligible to begin the qualifying examinations process. Students who successfully complete these examinations will be recommended for advancement to candidacy and will be eligible to begin the dissertation phase of the program. Once enrolled for dissertation units, students must maintain continuous registration in that course until the doctoral faculty approves the dissertation. Once enrolled for dissertation, students are ineligible to apply for an official leave of absence.

Faculty

The following members of the cooperating institutions participate in the joint Doctor of Education degree and are available for direction of research and as members of doctoral committees:

San Diego State University

Director: Marlowe J. Berg

Faculty: B. S. Allen, Atkins, Basom, Berg, Bezuk, Cegelka, Dodge, Espinosa, Evans, Farnan, Fisher, Flood, Frase, Gallego, Graves, Hoffman, Ingraham, Jacobs, Kelly, Kitano, Kuhlman, Lapp, Lewis, Lynch, Mason, Mathison, McFarlane, Ochoa, Pang, Philipp, Piland, Pohan, Ritchie, Rossett, Saba, Santa Cruz, Sax, Yerrick, Young

University of San Diego

Director: Cheryl Getz

Faculty: Ammer, Alexandrowicz, Barnes, Bishop-Smith, Collins, Cordeiro, DeRoche, Gelb, Hansen, Infantino, Ji, Mantle, Quezada, Romo, Rowell, M. Williams, Woggon, Zyglicynski

Section II. Master's Degree Programs

Master of Arts Degree in Education

Admission to Graduate Study

Applicants must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, applicants must have completed a minimum of 12 units in professional education courses and must either be admitted to the program of teacher education or hold a valid California credential, other than an emergency or provisional credential, before being recommended for classified graduate standing. (This is not applicable to students in the Departments of Administration, Rehabilitation and Postsecondary Education, Counseling and School Psychology, Educational Technology, Special Education, and Teacher Education.)

A student desiring a concentration in educational leadership must, in addition to the above, meet specific requirements for admission to the appropriate advanced credential program. A student desiring a master's degree concentration in counseling, policy studies, or in special education must also meet specific admission requirements. (For further information, refer to the College of Education, Office of Graduate Programs, Room Education 100K, or to the coordinators of the respective programs. Students in counseling and school psychology should go directly to the department for further information.)

Advancement to Candidacy

A student desiring a Master of Arts degree in education with a concentration in educational leadership and instruction, counseling, educational research, educational technology, elementary curriculum and instruction, reading education or secondary curriculum and instruction may be advanced to candidacy upon completion of the basic requirements as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for admission to the University with classified graduate standing and the credential requirements as applicable, the student must satisfy the basic requirements for the master's degree described in Part Two of this bulletin. In addition, the student must meet the requirements specified for one of the concentrations in education (described below). Courses common to all concentrations are Education 690 or Teacher Education 634, and Plan A, which requires Education 799A, or Plan B in which two options are available, Education 791A-791B-791C or Education 795A-795B. All candidates for the Master of Arts degree in education who elect Plan B must pass a comprehensive examination.

The Comprehensive Examination

This written examination, designed to evaluate the achievement in the specific area of the student's concentration, is required of all candidates for the master's degree in education. A student is eligible to take the comprehensive examination only after advancement to candidacy.

The examination is offered near the midpoint of each semester. A reservation must be made at least one week in advance of the examination. For information on exact dates, and for a reservation, check with the Office of Graduate Programs, College of Education, Room Education 100K, or with the coordinators of the respective programs.

Selection of Plan A or Plan B

In general, applicants will be programmed for Plan B, the seminar plan. After the student is approximately half way through the program, has secured an adviser and established a thesis plan, permission to transfer to Plan A may be requested. Plan A is designed for students who have a particular research problem they wish to investigate in some detail. Requests for transfer to Plan A must be prepared as an official change in program for the master's degree, countersigned by the faculty adviser, and submitted to the Office of Graduate Programs in the College of Education.

Both Plan B options provide students the opportunity (1) to have two experiences which emphasize research or evaluation and writing, (2) to participate actively in the projects of the other members of the seminar, and (3) to subject their own work to critical evaluation by the other seminar members. Both plans require the ability to formulate and define research or evaluation problems, to assemble data pertinent to the problem, to draw conclusions, and to present the study in acceptable written form. It is expected that the two seminars will be at least as demanding as the thesis with respect to the difficulty and quantity of work required. Selection of one of the Plan B options must be made with the approval of the departmental faculty adviser.

Course Requirements

Note: Students are requested to consult with the appropriate master's degree adviser prior to taking any coursework leading to the master's degree. Students are urged to take Education 690 (3 units) as early as possible in their first graduate year.

Concentrations

Counseling (Major Code: 08261)

The Master of Arts degree in education with a concentration in counseling provides a sequential and integrated program of study in the theories, research, and practice of counseling. The program, usually with Plan A, is designed to provide the student with the education and experiences necessary to prepare for doctoral studies in counseling. The program, usually with Plan B, is intended for individuals who seek to increase their understanding of human behavior and improve their interpersonal skills in their current profession or occupation. This program does *not* lead to credentials or licensure in counseling. Individuals seeking California credentials in school counseling or school psychology or licensure in marriage, family, and child counseling are referred to the description of the Master of Science in counseling program provided in the Counseling and School Psychology section of this bulletin. For further information, see the graduate adviser in the Department of Counseling and School Psychology.

1. Prerequisite: Admission to the Department of Counseling and School Psychology (see Counseling and School Psychology section of this bulletin).
2. Education 690 Procedures of Investigation and Report (3)
3. Core program (minimum of 15 units):
 - a. Common Core (3 units):
 - CSP 600 Counseling Communication Skills (2)
 - CSP 600L Counseling Prepracticum (1) Cr/NC
 - b. Foundations (minimum of 6 units):
 - CSP 600L Counseling Prepracticum (1) Cr/NC
 - CSP 610A Determinants of Human Behavior: Personality (3)
 - CSP 610B Determinants of Human Behavior: Social and Cultural (3)
 - CSP 610C Determinants of Human Behavior: Development (3)
 - CSP 610D Determinants of Human Behavior: School Learning (3)
 - CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

- c. Theory, Research, and Techniques (minimum of 6 units):
- CSP 640 Theory and Process of Appraisal (3)
 - CSP 660 Theory and Process of Counseling (3)
 - CSP 662 Counseling Interventions with Children and Adolescents (3)
 - CSP 670 Theory and Process of Group Counseling (3)
 - CSP 680 Theory and Process of Consultation (3)
 - CSP 685 Theories of Marriage and Family Therapy (3)
4. Electives (6-9 units).
5. Research (3-6 units).
- Ed 799A Thesis (3) or Ed 795A-795B Seminar (3-3) or Ed 791A Evaluation Techniques (3),
 - Ed 791B-791C Practicum: Evaluation (1-3)

**Educational Leadership:
Specialization in Postsecondary Education
(Major Code: 08271)**

The Master of Arts degree in education with a concentration in educational leadership and a specialization in postsecondary education is intended for students pursuing leadership positions in postsecondary education, foreign school administrators, administrators of educational programs in private industry, civil services, or the non-profit sector, administrators of technical and vocational programs or school-to-work programs, student services professionals, or those who have other administrative objectives in educational fields.

To apply for admission into the postsecondary education specialization, a student must complete an application for admission to both the University and the postsecondary education specialization program. All applications should include at least two letters of recommendation. All applicants should note that academic degree and experience required varies with the career goal of the student. Upon admission to the University and the department, all students will discuss the degree curriculum with the graduate adviser during the first semester in the program. Only students who show reasonable promise of success in postsecondary education as a career will be admitted to this program. In order to continue in the program, the student must demonstrate ongoing academic, professional and personal growth.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Administration, Rehabilitation and Postsecondary Education:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Department application;
- (4) Two letters of recommendation.

Mail or deliver your complete admissions package to:

Interwork Institute
(Attention: Graduate Adviser)
San Diego State University
3590 Camino del Rio North
San Diego, CA 92108-1716

Specific Requirements for the Master of Arts degree in Education with a Concentration in Educational Leadership and a Specialization in Postsecondary Education.

A minimum of 30 units to include:

1. Core program: Six to nine units selected from the following:
 - ARP 605 Postsecondary Education (3)
 - ARP 610 Educational Leadership (3)
 - ARP 747 Educational Leadership in a Diverse Society (3)
2. Six to nine units selected, with the approval of the graduate adviser, from the following:
 - ARP 611 Program Development and Evaluation in Postsecondary Education (3)
 - ARP 631 Seminar in Teaching in Postsecondary Education (3)

- ARP 680 Seminar in Administration, Rehabilitation and Postsecondary Education (3)
 - ARP 720 Educational Human Resource Development in Postsecondary Education (3)
 - ARP 727 Emerging Issues in Postsecondary Education Educational Leadership (3)
 - ARP 730 Seminar in Adult Learning (3)
 - ARP 740 Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
 - ARP 755 Governance and Policy Development in Postsecondary Education Learning Organizations (3)
3. Electives selected with the approval of the graduate adviser (6-9 units).
 4. ED 690 Procedures of Investigation and Report (3)
 5. Research: Three to six units selected from the following:
 - ED 791A Evaluation Techniques (3)
 - ED 791B-791C Practicum: Evaluation (1-3) or
 - ED 795A-795B Seminar (3-3) or
 - ED 799A Thesis (3)

**Educational Leadership: Specialization in PreK-12
(Major Code: 08271)**

The Master of Arts degree in education with a concentration in educational leadership and a specialization in preK-12 is intended for students pursuing administrative posts in preK-12 educational organizations, including school business managers. Students who intend to pursue administrative careers in California public schools, grades preK-12, need to obtain the Preliminary Administrative Services Credential and then the Professional Administrative Services Credential. Students in the preK-12 specialization may earn a degree without earning a California Preliminary Services Credential or in combination with the credential.

To apply for admission into the preK-12 specialization, a student must complete an application for admission to both the University and the Department of Educational Leadership. All applications should include two letters of recommendation from two supervisory administrators. All applicants should note that academic degree and experience required varies with the career goal of the student. Upon admission to the University and the program, all students will discuss the degree curriculum with the graduate adviser during the first semester in the program.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Educational Leadership:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) CBEST
- (3) GRE scores (official notification);
- (4) Department application;
- (5) Two letters of recommendation.

Mail or deliver your complete admissions package to:

Department of Educational Leadership
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1190

Specific Requirements for the Master of Arts degree in Education with a Concentration in Educational Leadership and a Specialization in PreK-12 Educational Leadership.

A minimum of 30 units to include:

1. Core program: Six units.
 - EDL 600 Principles of Educational Administration (3)
 - EDL 610 Educational Leadership in PreK-12 Educational Organizations (3)

2. Six to nine units selected, with the approval of the graduate adviser, from the following:
 - EDL 630 Curriculum Design and Management (3)
 - EDL 652 Seminar in Instructional Improvement and Evaluation (3)
 - EDL 655 Administering Educational Organizations (3)
 - EDL 680 Seminar in PreK-12 Educational Administration (3)
 - EDL 740 Advanced Seminar in PreK-12 Educational Leadership and Administration (3)
3. Electives selected with the approval of the graduate adviser (6-9 units).
4. ED 690 Procedures of Investigation and Report (3)
5. Research: Three to six units selected from the following:
 - ED 791A Evaluation Techniques (3)
 - ED 791B-791C Practicum: Evaluation (1-3) or
 - ED 795A-795B Seminar (3-3) or
 - ED 799A Thesis (3)

Specific Requirements for the Preliminary Administrative Services Credential

(Credential Code: 00501)

(Academic coursework and experience required vary with the career goal of the student - see adviser):

1. Prerequisites:
 - a. An application for admission to the Educational Leadership Department.
 - b. Basic skills examination (CBEST).
 - c. Two letters of recommendation from school district or agency where employed.
 - d. A counseling interview with a program area faculty.
 - e. Valid California credential for teaching, pupil personnel services, school nursing, speech pathology, or librarianship.
 - f. Three years of successful, full-time K-12 school experience.
 - g. Students must have completed at least 1 unit (or the equivalent) of coursework dealing with computers in education.
 - h. Completion of GRE Writing Assessment.
2. Possession of a master's degree in Educational Administration or another field related to educational practice.
3.

EDL 600 Principles of Educational Administration	3
EDL 610 Educational Leadership in PreK-12 Educational Organizations	3
EDL 630 Curriculum Design and Management	3
EDL 652 Seminar in Instructional Improvement and Evaluation	3
EDL 655 Administering Educational Organizations	3
EDL 660 Field Experience in Educational Leadership	4-10
Electives selected with approval of adviser	3
Total	22-28

4. All students must meet the state mandated requirement for competencies needed to serve individuals with disabilities. Consult with a program adviser in the Department of Special Education for coursework and waiver requirement.

The Master of Arts degree in Education with a concentration in Educational Leadership is also offered at the Imperial Valley Campus.
For course requirements consult the Imperial Valley Campus Bulletin.

Specific Requirements for the Professional Administrative Services Credential: (Credential Code: 00502)

Candidates pursuing the Professional Administrative Services Credential must be in a credentialed administrative position. The candidate must complete the credential program within five years of initial appointment to an administrative position.

The following are required for admission to the Professional Administrative Services Credential program:

1. An application for admission to the program.
2. Admission to postbaccalaureate status at San Diego State University.
3. Possession of a valid Preliminary Administrative Services Credential or a Clear Administrative Services Credential.
4. Possession of a master's degree in Educational Leadership or another field related to educational practice.
5. Two letters of recommendation from knowledgeable field references
6. Two recent performance evaluations.
7. A letter of formal commitment of participating school district to support internship requirement.
8. Minimum grade point average of 3.25 in graduate study.
9. A selection interview with program area faculty members.

Program

The program requirements for the Professional Administrative Services Credential are:

	Units
EDL 707 Educational Law and Finance	3
EDL 720 Human Resource Development in PreK-12 Educational Organizations	3
EDL 727 Emerging Issues in PreK-12 Educational Organizations	3
EDL 747 Leadership in Diverse PreK-12 Educational Organizations	3
EDL 760 Internship in PreK-12 Educational Organizations	4-12
Electives selected with approval of advise	0-6
Total	22-30

Issuance of the Professional Administrative Services Credential requires completion of two years of successful, fulltime, K-12 administrative experience earned while holding the Preliminary Administrative Services Credential.

Educational Research (Major Code: 08241)

The Master of Arts degree in education with a concentration in educational research is designed to prepare students having a basic background in education to conduct measurement, research, and evaluation activities at a professional level. Emphasis is upon preparation for research activities at the school district level.

1. Prerequisite: A basic background in education (a minimum of 12 units of professional education) including at least one course in tests and measurement
2. ED 690 Procedures of Investigation and Report (3 units)
3. Core program (9 units): Policy Studies in Language and Cross-Cultural Education 612, Educational Ethnography in Multicultural Settings (3 units); Teacher Education 646, Seminar in Educational Measurement (3 units); and 3 units of educational research design selected with the approval of the adviser
4. Electives (15 units) selected with adviser's approval
5. ED 799A, Thesis (3 units)

Educational Technology (Major Code: 08992)

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Educational Technology:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) GRE Writing Assessment Examination;
- (4) Department application;
- (5) Three letters of recommendation (in sealed envelopes);
- (6) Personal statement.

Mail or deliver your complete admissions package to:

Department of Educational Technology
San Diego State University
5500 Campanile Drive
San Diego, CA 92108-1182

The Master of Arts degree in education with a concentration in educational technology enables students to prepare for careers as instructional technologists, educational specialists, instructional designers, trainers, and experts in educational computing. State-of-the-art coursework and internships in companies, agencies and schools prepare candidates to analyze performance problems and design, develop and evaluate instructional strategies and products. Students graduate with a portfolio including educational computer software, video, multimedia, print and web-based materials. For further information, see the coordinator of educational technology. Course requirements follow:

1. Prerequisite: Varies with the career goal of the student. Students use educational technology skills in settings as diverse as the schools, museums, multimedia companies, and corporate training programs. For most students, Educational Technology 540 and 541 are prerequisites. See adviser.
2. ED 690 Procedures of Investigation and Report (3 units).
3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student's interests and goals. A minimum of nine units must be taken in courses at the 600 and 700 level.
4. Electives (6-9 units) selected with the approval of the adviser.
5. Research (3-6 units)
ED 791A Evaluation Techniques (3)
ED 791B-791C Practicum: Evaluation (1-3) or
ED 795A-795B Seminar (3-3 units) or
ED 799A Thesis (3 units)

Specialization in Educational Computing within Educational Technology Concentration: Students specializing in educational computing must include among their 15 core units Educational Technology 544 and 572. Recommended electives to be approved by the program adviser include Educational Technology 561, 596, 644, 670, 671, 684, 775, and Special Education 650. Specialization prerequisites are Educational Technology 540 and 541.

Specialization in Workforce Education and Lifelong Learning:

This specialization will allow students to prepare themselves as professionals who will focus on the development of education and training programs for youth and adults who are traditionally undereducated, non-college educated and who work in non-management jobs.

Students specializing in Workforce Education and Lifelong Learning pursue the following program: Prerequisites are Educational Technology 540 and 541. Required courses included in the 15 unit core are Educational Technology 544, and Administration, Rehabilitation and Postsecondary Education 565. Recommended electives to be approved by the program adviser may include:

Educational Technology 572, 640, 644, 650, 670, 684, 685; Administration, Rehabilitation and Postsecondary Education 605, 631, 730, 747; Policy Studies in Language and Cross-Cultural Education 601, 602, 612; Teacher Education 631, 639.

Elementary Curriculum and Instruction (Major Code: 08021)

The Master of Arts degree in education with a concentration in elementary curriculum and instruction is designed to increase professional competence in the form of more breadth, depth, and technical skill in curriculum and instruction, either generally or in selected areas of specialization.

1. Prerequisite: A basic background in education (minimum of 12 units) to include curriculum and methods, growth and development, educational psychology, and history and philosophy of education.

The School of Teacher Education will consider a letter of petition from individuals without professional units or a California teaching credential with equivalent experience related to the field of education.

2. Education 690, Procedures of Investigation and Report (3 units).
3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student's interests, professional needs and goals. The core program will include:
 - a. Teacher Education 600, Curriculum Development in Education (3 units); or related course with approval of adviser.
 - b. Teacher Education 626, Advanced Educational Psychology; or Teacher Education 655, Sociocultural Foundations of American Education; or Teacher Education 657, Philosophy of Education (3 units); or related course with approval of adviser.
 - c. Teacher Education 610A, Seminar in Mathematics Education - Elementary School; or Teacher Education 610C, Seminar in Science in Elementary Education; or Teacher Education 630, Seminar in Reading Education; or Teacher Education 631, Seminar in Language Arts; or related course with approval of the adviser (3 units).
 - d. 500/600/700-numbered courses in teacher education with the approval of the adviser (3-6 units).
 - e. 500/600/700-numbered courses in education or related fields selected with the approval of the adviser (up to 6 units).
4. Electives (6-9 units) selected with the approval of the adviser.
5. Special Study and Research (3-6 units): Education 791A-791B-791C, Evaluation (3-1-3 units); or Education 795A-795B, Seminar (3-3 units); or Education 799A, Thesis (3 units).

The program of study must include at least 15 units of 600- and 700-level courses.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the School of Teacher Education (ED 100K). The department application may be obtained by calling (619) 594-6544:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Department application.

Policy Studies in Language and Cross-Cultural Education (Major Code: 08994)

The Master of Arts degree in education with a concentration in policy studies in language and cross-cultural education is designed to provide special knowledge and training for two diverse audiences with different career goals. Plan 1, curriculum and critical pedagogy, is geared for the classroom teacher or resource specialist who will be working directly with language minority students. Plan 2 has been developed to allow students to specialize in areas outside of the Department of Policy Studies in Language and Cross-Cultural Education. The nine unit specializations may be in other College of Education departments or in departments across campus, with permission of the department adviser and the cooperating department. This allows for career options in a variety of settings with an emphasis in a noneducational discipline, to provide classroom teachers, researchers, and other specialists with a different orientation in examining policy research.

Students in each specialization will take a core of nine units in the Policy Studies in Language and Cross-Cultural Education Department. All students in Plan B will also take a comprehensive examination* covering coursework for the M.A. degree.

* It is recommended that students enroll in PLC 686 in preparation for the comprehensive examination.

Prerequisites:

PLC 600 Foundations of Democratic Schooling (3)
PLC 601 Language Policies and Practices (3)

Research: 6-9 units total.

ED 690 Procedures of Investigation and Report (3) AND
ED 795A-795B Seminar (6) OR
ED 799A Thesis (3) AND
ED 797 Research (1-3)

Electives: 3-6 units selected with approval of adviser.

Plan I: Curriculum and Critical Pedagogy Specialization Core:

PLC 612 Educational Ethnography in Multicultural Settings (3)
PLC 613 Organizational Strategies and Professional Development for the Multicultural School Community (3)
PLC 650 Bilingual/Cross-Cultural Curriculum Development and Practice (3)

Specialization: Select nine units from the following with consent of adviser.

PLC 553 Language Assessment and Evaluation in Multicultural Settings (3)
PLC 596 Special Topics in Bilingual and Multicultural Education (3)
PLC 602 Cross-Cultural Context of School Communities (3)
PLC 603 Community and Schools in a Diverse Society (3)
PLC 651 Multicultural Methods and Curriculum in Content Areas (1-3)
PLC 652 Multicultural Methods and Curriculum in Language Arts (3)
PLC 686 Seminar in Multicultural Education (1-6)
PLC 798 Special Study (1-6) Cr/NC/RP

Plan II: Outside Specialization

Core:

PLC 612 and six units selected from PLC 553, 602, 613, or 650 with approval of adviser.

Specialization: Nine units taken outside the Department of Policy Studies in Language and Cross-Cultural Education with consent of graduate adviser, and a cooperating department or program.

Reading Education (Major Code: 08301)

The Master of Arts degree in education with a concentration in reading education is designed to provide increased knowledge and skill for those who are or wish to become reading/language arts specialists in public or private schools and clinics. The program prepares candidates to teach, tutor, develop curriculum, offer in-service instruction and administer reading centers for students ranging from kindergarten through community college, university, and adult levels. This degree is often earned concurrently with a California Reading/Language Arts Specialist Credential, which has a number of common requirements.

1. Prerequisites: A valid California teaching credential, grades K-12, or completion of a minimum of 12 units of professional coursework in education, including a basic course in methods and materials for teaching reading and a course in children's/adolescent literature prior to or concurrent with enrollment in TE 637 Instructional Strategies for Reading/Language Arts.
2. Core program (24 units)
 - TE 631 Seminar in Language Arts (3)
 - TE 633 Leadership in Literacy Education (1)
 - TE 634 Seminar in Research Investigations in Reading and Language Arts (4)
 - TE 635 Assessment of Reading and Language Arts (3)
 - TE 636 Advanced Assessment of Reading and Language Arts (3)
 - TE 637 Instructional Strategies for Reading and Language Arts (4)
 - TE 638 Topics in Reading Education (minimum of 3)
 - TE 639 Literacy and Language (3)
3. ED 795A-795B Seminar (3-3) or ED 799A Thesis (3)
4. Electives (3)

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the program advisers:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Department application (paper only);
- (4) Personal statement;
- (5) Three letters of reference on official letterhead.

Secondary Curriculum and Instruction (Major Code: 08031)

The Master of Arts degree in education with a concentration in secondary curriculum and instruction, is designed as the base for applicants to increase professional competence in any of the fields typically taught in secondary schools, and for obtaining those competencies and technical skills in curriculum and instruction either generally, or in selected areas of specialization.

1. Prerequisite: A basic background in education (12 units).

The School of Teacher Education will consider a letter of petition from individuals without professional units or a California teaching credential with equivalent experience related to the field of education.

2. ED 690 Procedures of Investigation and Report (3 units)
3. Core program (6 units): to include TE 600, Curriculum Development in Education (3 units); three units from TE 604, Advanced Problems in Instruction; or TE 655, Sociocultural Foundations of American Education; or related courses with approval of adviser.
4. Electives (15 units) selected with the approval of the graduate adviser on the basis of the student's interests, goals and needs. A minimum of three units must be in 600- or 700-numbered courses. A maximum of six units may be selected from cognate fields outside the College of Education.
5. ED 791A Evaluation Techniques (3) and ED 791B-791C Practicum: Evaluation (1-3) or ED 795A-795B Seminar (3-3 units) or ED 799A Thesis (3 units)

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the School of Teacher Education (ED 100K). The department application may be obtained by calling (619) 594-6544:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Department application.

Special Education (Major Code: 08081)

The Master of Arts degree in education with a concentration in special education provides the professional educator with advanced knowledge and skills in special education. This degree has many requirements in common with the Level II Education Specialist Credentials in Special Education and may be earned concurrently with those credentials. The M.A. degree can include specializations in the following areas: early childhood, developing gifted potential, mild/moderate disabilities, moderate/severe disabilities, resource specialization, severely emotionally disturbed/behaviorally disordered, teaching low achieving students in the mainstream, and school to adult transition. All programs must be approved by the graduate adviser. Although the M.A. degree is usually linked to a teacher credential, it is open to individuals with undergraduate degrees in a wide range of disciplines in consultation with the graduate adviser.

Specialization in Developing Gifted Potential

Core (15 units): Special Education 508, 644, 649, 658, 771.

Related Fields (6-9 units 500-level or above) by advisement or Advanced Specialization (6 units): Special Education 650 and three units of electives selected with approval of adviser.

Research (6-9 units): Education 690* and Education 791A, 791B-791C; or 795A*-795B*; or 799A.

Specialization in Early Childhood

Prerequisites: Special Education 500, 501, 527, 528.

Core (12 units): Special Education 635, 643A, 643B; Education 690*.

Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 9-12 units selected from approved electives at 500-level or above.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

Specialization in Mild/Moderate Disabilities

Prerequisites: Special Education 500, 501, 524, 527.

Core (11 units): Special Education 634, 647, 648; Education 690*. Advanced Specialization (13-16 units): Special Education 681 (in section approved by adviser); 10-13 units selected from approved electives at 500-level or above.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

Specialization in Moderate/Severe Disabilities

Prerequisites: Special Education 500, 501, 525, 527.

Core (12 units): Special Education 635, 645 or 648, 647 or 664; Education 690*.

Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 9-12 units selected from approved electives at 500-level or above.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

Resource Specialization

Prerequisites: Special Education 500 and 501.

Core (9-12 units): Education 690* and 6-9 units selected from the following categories:

- 3-6 units from Special Education 647, 648;
- 3-6 units from Special Education 524, 525, 529;
- 3-6 units from Special Education 645, 664;
- 3-6 units from Special Education 662, 677;
- 3 units from Special Education 634, 635.

Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 3-6 units selected from Special Education 651, 652, 653; 6-9 units selected from approved electives at 500-level or above.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or 799A.

Specialization in Severely Emotionally Disturbed/ Behaviorally Disordered

Prerequisites: Special Education 500 and 501.

Core (14 units): Special Education 529, 634, 647, 677; Education 690*.

Advanced Specialization (10-13 units): Special Education 681 (in section approved by adviser); 7-10 units selected from approved electives at 500-level or above.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

Specialization in Teaching Low Achieving Students in the Mainstream

No new students are being admitted to this program during the 2002-2003 academic year. Contact Special Education Department.

Prerequisites: Special Education 501; Special Education 971 (4-6 units).

Core (15 units): Special Education 553, 647, 648, 650 (3); Education 690*.

Advanced Specialization (9-12 units): Special Education 527, 681 (in section approved by the adviser), 771 (1-3), 798, three units of approved electives at 600-level or above or Special Education 527.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

* In departmentally approved sections.

Specialization in Vocational Transition

Prerequisite: Special Education 501 or Administration, Rehabilitation and Postsecondary Education 684.

Core (15-18 units): Special Education 664; Education 690*; 6-9 units selected from (a) Special Education 524 or 525; (b) Special Education 645 or 648; (c) Special Education 771 or Administration, Rehabilitation and Postsecondary Education 744 or Counseling and School Psychology 730; Education 690*.

Advanced Specialization (9-12 units): Special Education 681 (in section approved by adviser); 6-9 units selected from Special Education 645, 650, 662, 798 (1-6), Administration, Rehabilitation and Postsecondary Education 645, 687, 3-6 units of approved electives at the 600 or 700 level.

Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

* In departmentally approved sections.

Master of Science Degree in Rehabilitation Counseling

General Information

The rehabilitation counseling program has the primary objective of preparing rehabilitation students to enter the field of rehabilitation and provide rehabilitation and case management services with consumers with physical, emotional, and/or cognitive disabilities. Expanded curriculum is highlighted in assistive technologies, rehabilitation of deaf and hard of hearing consumers, mental health, career assessment, administration of rehabilitation programs, disability management, diversity program development and work within the public and private sectors. The degree is accredited by the Commission on Rehabilitation Education (CORE). A limited number of graduate stipends from the Rehabilitation Services Administration are available to (1) students who are committed to entering rehabilitation in publicly supported programs after graduation, and (2) students with a financial need. Graduates qualify for CRC and CWAVES certification.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. The student must file an application for admission to San Diego State University with both the Office of Graduate Admissions and the Rehabilitation Counseling Program.

Students seeking admission to the graduate program which leads to a Master of Science degree in rehabilitation counseling should address their inquiries to the coordinator of the program. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. As there are specific requirements for the program, it is not sufficient to file only the general university admission application. Students are typically admitted in the fall semester each year.

Criteria for admission require that students submit evidence in written form and through interviews demonstrating personal, professional, and academic adequacy for the Master of Science degree in rehabilitation counseling. Only students who show reasonable promise of success in rehabilitation counseling as a career will be admitted to this program. In order to continue in the program, the student must demonstrate ongoing academic, professional and personal growth.

A student may transfer a maximum of 30 semester units from another CORE accredited graduate program in rehabilitation counseling. Evaluation of transfer credits will be made at the time of acceptance to the program. Approval of graduate transfer credit from other programs will be at the discretion of the coordinator and subject to final approval by the Graduate Division.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Administration, Rehabilitation and Postsecondary Education/Interwork Institute:

- (1) Department application;
- (2) Two sets of official transcripts (in sealed envelopes);
- (3) GRE scores;
- (4) Letters of reference;
- (5) Personal statement.

Mail or deliver your complete admissions package to:
Interwork Institute (Attention: Graduate Adviser)
San Diego State University
3590 Camino del Rio North
San Diego, CA 92108-1716

Advancement to Candidacy

To be eligible for advancement to candidacy the student must, in addition to holding classified graduate standing, have completed at least 24 units of the coursework listed on the official program, maintain good standing in the rehabilitation counseling program, and otherwise comply with the regulations of the Graduate Division as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Rehabilitation Counseling

(Major Code: 12221)

In addition to meeting the requirements for classified graduate standing, and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete a minimum of 60 graduate units of 500-, 600- and 700-numbered courses, to include:

Core program (24 units):

ARP 645A-645B	Assessment in Rehabilitation (3-3)
ARP 660	Theory and Process of Counseling (3)
ARP 684	Introduction to Rehabilitation Process (3)
ARP 685A-685B	Medical and Psychological Aspects of Disability (3-3)
ARP 687	Placement Practices with Individuals with Disabilities (3)
ED 690	Procedures of Investigation and Report (3)

15 units of required courses selected from the following:

ARP 607	Applications of Rehabilitation Technology (3)
ARP 610	Educational Leadership (3)
ARP 648	Group Dynamics in Rehabilitation (3)
ARP 680	Seminar in Administration, Rehabilitation and Postsecondary Education (3)
ARP 710A-710B	Seminar in Rehabilitation (3-3)
ARP 720	Educational Human Resource Development in Postsecondary Education (3)
ARP 740	Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
ARP 747	Educational Leadership in a Diverse Society (3)
ARP 755	Governance and Policy Development in Postsecondary Education Learning Organizations (3)
CSP 615	Seminar in Multicultural Dimensions in Counseling (3)

Education

A minimum of six units selected from the following:

ARP 743	Fieldwork in Rehabilitation (3-6) Cr/NC
ARP 744	Practicum in Rehabilitation (3-12) Cr/NC
ARP 745	Internship in Rehabilitation (3-9) Cr/NC

6-9 units of electives as determined by consent of the faculty adviser.

Comprehensive Examination

A written comprehensive examination is required. The student must demonstrate satisfactory performance on a written comprehensive examination, in lieu of thesis, prepared by the rehabilitation counseling program. Reservations for the examination must be made in advance in the Rehabilitation Counseling Program Office at 3590 Camino del Rio North, San Diego, CA 92108-1716.

Program Structure

The rehabilitation counseling program offers a 60 semester unit format that leads to the Master of Science in rehabilitation counseling. Students are accepted on a full-time and part-time basis.

Master of Science Degree in Counseling

General Information

The Department of Counseling and School Psychology offers graduate study leading to either the 30-unit Master of Arts degree in education with a concentration in counseling or the 60-unit Master of Science degree in counseling with specializations in three areas.

The Master of Science degree in counseling provides an integrated sequence of study in the theories, research, and practice of counseling. This program prepares the student for the profession of counseling as applied in the schools, human services agencies, and industry. The program offers a generic core of competencies and experiences with specialized study and experiences provided via defined specializations: Marriage, Family, and Child Counseling; School Counseling; and School Psychology.

The Department of Counseling and School Psychology offers courses which may be applied to either degree program. Course offerings are organized by professional specialization; the majority are sequenced in year-long blocks. Most students attend full time, although limited part-time study is offered; all students in the Community-Based Block must attend full time.

Courses in the Community-Based Block and School Psychology Program are scheduled primarily in the day. School counseling and MFCC offer most courses in the late afternoons or evenings to accommodate student's work or fieldwork placement schedules. With careful planning and possible summer session courses, full-time students can complete the Master of Science degree in counseling in any of the specializations in three years. Part-time students who take at least two courses a semester and in summer session may expect to double the time needed to complete the degree. Student planning must be done with the adviser.

The Community Based Block (CBB) is a special unit within the Department of Counseling and School Psychology. The CBB is community based in two senses of the word "community." The basic approach to learning is the development of a total, self-contained "learning community" - a group of approximately 30 full-time graduate students and at least three core faculty members committed to working and learning together. The word "community" also refers to the locale of the program (almost all of the program is off-campus) and to its special focus on the inner-city and people of difference. The CBB deliberately recruits an extremely diversified group of students. Although the CBB places special emphasis on working in innercity settings with multiethnic populations, admission to the program is not limited to students committed to working with these populations. The program is designed for students who intend to work in a variety of settings and includes appropriate fieldwork placements.

The following departmental courses are open to students who have not been accepted into a program and are interested in exploring departmental offerings: Counseling and School Psychology 400, 401, 596, 600, 600L, 610A, 610B, 620, and 621. Credit from 500 and 600 level courses may be applied towards graduation if admitted to a program. Students should consult with the coordinator of the particular program in which they are interested about the credit application policy within the program.

Financial Assistance

The department sponsors the Counseling and School Psychology Loan Fund honoring Professors Leonard Strom and John Schmidt which along with other university-wide programs, is administered by the Financial Aid Office. Other forms of financial assistance administered by the University are presented elsewhere in this bulletin.

Accreditation

The National Council for the Accreditation of Teacher Education (NCATE) has accredited the specializations in school counseling and, in conjunction with the National Association of School Psychologists (NASP), in school psychology. These national accreditations, however, do not guarantee certification or credentialing as school counselors or school psychologists outside of California. It is the student's responsibility to be aware of other states' requirements, and to arrange adjustment in the program accordingly if credentials are to be sought elsewhere.

Admission to Graduate Study

In seeking admission to graduate study in counseling, the student should write directly to the Department of Counseling and School Psychology, requesting appropriate application materials. Degree, program, and specialization information and detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. All application materials become the property of the department and will not be returned to the applicant.

NOTE: In addition to application with the Department of Counseling and School Psychology, the student must file an application for admission to San Diego State University with the Office of Graduate Admissions. Admission is for the fall semester only. There is no spring admission.

Applications to each program specialization are made separately. MFCC applications must be received by February 1 for consideration for Fall admission. School psychology, school counseling and community-based block applications received by February 1 are given high priority for Fall admission. Review begins on that date.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Counseling and School Psychology:

- (1) Completed program application form and personal statement;
 - (2) Three letters of recommendation;
 - (3) Two sets of official transcripts (in sealed envelopes) of all collegiate work (one set for graduate admissions and one set for department);
 - (4) Two sets of GRE scores (official notification).
- For school counseling and school psychology applicants:
- (5) Two personal statements;
 - (6) Vita;
 - (7) California Basic Educational Skills Test (CBEST) must be taken.

Mail or deliver your complete admissions package to:

Department of Counseling and School Psychology
(name of specialization)
College of Education
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1179

No minimum set of qualifications in any way guarantees admission. From the large number of applications typically received, applicants considered to have demonstrated high potential are interviewed. Interviews assist the faculty in determining pre-professional readiness and "fit" with the specializations.

Recommendations are made by the Admissions Committee to the department faculty and chair who make the final recommendation for admission to the University.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by the faculty. A student may be advanced to candidacy when the official program has been filed and after having earned a minimum grade point average of 3.0 in at least 24 units listed on the official program.

Specific Requirements for the Master of Science Degree in Counseling

(Major Code: 08261)

In addition to meeting the requirements for admission to the University with classified graduate standing, the student must satisfy the basic requirements for the master's degree described in Part Two of this bulletin. In addition, the student must meet the requirements specified below.

Selection of Plan A or Plan B

The selection of Plan A, the thesis or project or Plan B, the comprehensive examination plan, is made in consultation with the adviser at the time the official program of study is filed. Plan A thesis is designed for students who have a particular research problem they wish to investigate in some detail. The Plan A project is expected to be a rigorous application of research and theory in a professional endeavor, e.g., designing an elementary school counseling program. The comprehensive examination option for Plan B requires demonstration of the integration and application of theory, research, and techniques. It is expected that the student will take the comprehensive examination concurrently with or following enrollments in Counseling and School Psychology 710B. The examination is offered near the end of each semester. Information is available from the Counseling and School Psychology office.

Course Requirements

Students are expected to consult with their adviser prior to taking any coursework leading to the master's degree. Selections of courses have been designated for the specializations and must be reviewed with the adviser.

The student must complete a minimum of 60 units (62 units for the Specialization in School Psychology) of 500-, 600-, 700-numbered courses, including:

- Common Core (6 units):
 - ED 690 Procedures of Investigation and Report (3)
 - CSP 600 Counseling Communication Skills (2)
 - CSP 600L Counseling Prepracticum (1) Cr/NC
- Foundations (a minimum of 9 units):
 - CSP 610A Determinants of Human Behavior: Personality (3)
 - CSP 610B Determinants of Human Behavior: Social and Cultural (3)
 - CSP 610C Determinants of Human Behavior: Development (3)
 - CSP 610D Determinants of Human Behavior: School Learning (3)
 - CSP 615 Seminar in Multicultural Dimensions in Counseling (3)
- Theory, Research, and Techniques (a minimum of 12 units):

- CSP 640 Theory and Process of Appraisal (3)
- CSP 660 Theory and Process of Counseling (3)
- CSP 662 Counseling Interventions with Children and Adolescents (3)
- CSP 670 Theory and Process of Group Counseling (3)
- CSP 680 Theory and Process of Consultation (3)
- CSP 685 Theories of Marriage and Family Therapy (3)
- CSP 686 Seminar: Gender and Ethnicity in Family Therapy (3)

- Integration and Application of Theory, Research, and Techniques (a minimum of 6 units):
 - CSP 730 Fieldwork in Counseling (2-6) Cr/NC
 - CSP 740 Practicum: Individual Counseling (3) Cr/NC
 - CSP 741 Practicum: Group Counseling (3) Cr/NC
 - CSP 750 Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC
 - CSP 780 Internship (2-12) Cr/NC
- Research (a minimum of 3 units):
 - CSP 710A Professional Seminar (3) or
 - CSP 799A Thesis (3) Cr/NC/RP
- Electives: 24 units selected with adviser's approval.

Specialization in Marriage, Family, and Child Counseling

The Master of Science in counseling with a specialization in marriage, family, and child counseling, is designed to satisfy the coursework requirements for the California license for marriage and family therapists. The student must design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 60 units of 500-, 600-, and 700-numbered courses, including:

- Program prerequisite:
 - CSP 610A Determinants of Human Behavior: Personality (3)

Students may fulfill this requirement with completion of an equivalent upper division undergraduate course, with adviser approval.
- Common Core (6 units):
 - ED 690 Procedures of Investigation and Report (3)
 - CSP 600 Counseling Communication Skills (2)
 - CSP 600L Counseling Prepracticum (1) Cr/NC
- Foundations (minimum 6 units):
 - CSP 610C Determinants of Human Behavior: Development (3)

AND

- CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

OR

- CSP 610B Determinants of Human Behavior: Social and Cultural (3)

- Theory, Research, and Techniques (minimum 22 units):
 - CSP 640 Theory and Process of Appraisal (3)
 - CSP 660 Theory and Process of Counseling (3)
 - CSP 662 Counseling Interventions with Children and Adolescents (3)
 - CSP 670 Theory and Process of Group Counseling (3)
 - CSP 684 Family Life Cycle Development (3)
 - CSP 685 Theories of Marriage and Family Therapy (3)
 - CSP 686 Seminar: Gender and Ethnicity in Family Therapy (3)
 - CSP 689 Family Counseling in the Schools (1)
 - CSP 691 Violence in Couples' Relationships (1)
 - CSP 692 Seminar in Couples in Therapy (3)
- Integration and Application of Theory, Research, and Techniques (minimum 9 units).

Six units selected from:

 - CSP 740 Practicum: Individual Counseling MFCC (3) Cr/NC and/or

Education

CSP 750 Advanced Seminar and Practicum: Individual Counseling MFCC (3-6) Cr/NC

Minimum of three units selected from:

CSP 730 Fieldwork in Counseling: MFCC (2-6) Cr/NC

CSP 740 Practicum: Individual Counseling (3) Cr/NC

CSP 740 Practicum: Individual Counseling MFCC (3) Cr/NC

CSP 750 Advanced Seminar and Practicum: Individual Counseling MFCC (3-6) Cr/NC

CSP 780 Internship: MFCC (2-12) Cr/NC

Satisfactory completion of the clinical experience component of the program includes 500 hours of direct client contact, 250 of which must be relational hours with couples and families. Students must be supervised in both group and individual formats in the ratio of one hour of supervision for five hours of client contact.

6. Additional requirements for the specialization (11 units):

CSP 585A Human Sexuality for Counselors (3)

CSP 585B Dynamics of Adjustment Behavior (3)

CSP 605 Seminar in Ethical and Legal Issues for Counselors (3)

CSP 687 Family Treatment of Substance Abuse (1)

CSP 688 Family Systems Assessment of Child Abuse (1)

7. Research (3 units):

CSP 710A Professional Seminar (3) or

CSP 799A Thesis (3) Cr/NC/RP

8. Electives (3 units): Selected with approval of adviser.

Adherence to the Laws and Regulations Relating to the Practice of Marriage and Family Therapy issued by the Board of Behavioral Sciences, the Code of Ethics of the American Association for Marriage and Family Therapy, and the Code of Ethics of the California Association of Marriage and Family Therapists is mandatory. Students who knowingly or unknowingly violate any part of the laws or ethical code may be dismissed from the program without further qualification regardless of coursework completed or other academic achievement. Copies of the Laws and Regulations and Codes of Ethics accompany the MFCC Program and Clinical Training Manual that is distributed at Student Orientation.

In addition to the requirement of maintaining a 3.0 GPA, students are reviewed for readiness to begin the clinical training sequence of the program. Students are evaluated regularly for skill development and adherence to legal and ethical standards.

For additional information related to the marriage, family, and child counselor specialization and licensure, contact the Department of Counseling and School Psychology or the director of the specialization.

Specialization in School Counseling

Due to changing credential requirements, substantial revision of the requirements and/or courses listed below may be underway. Consult directly with the graduate program for most current requirements.

The Master of Science in counseling with a specialization in school counseling includes coursework and experiences designed to meet the competencies required for the California Pupil Personnel Services Credential (**Credential Code: 00802**). This credential authorizes the holder to function as a counselor in grades K through 12. Additional information may be obtained from the Department of Counseling and School Psychology or the director of the school counseling specialization. The sequence of the degree must be planned in consultation with the program director. The M.S. and credential has a minimum of 60 units of 500-, 600-, and 700- numbered courses, including:

1. Prerequisites:

Admission to the University and the Department of Counseling and School Psychology for specialized study in school counseling.

2. Common Core (6 units):

ED 690 Procedures of Investigation and Report (3)

CSP 600 Counseling Communication Skills (2)

CSP 600L Counseling Prepracticum (1) Cr/NC

3. Foundations (minimum 6 units):

CSP 610A Determinants of Human Behavior: Personality (3)

CSP 610B Determinants of Human Behavior: Social and Cultural (3)

CSP 610C Determinants of Human Behavior: Development (3)

CSP 610D Determinants of Human Behavior: School Learning (3)

CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (12 units):

CSP 645 Career Development and Assessment (3)

CSP 660 Theory and Process of Counseling (3)

CSP 662 Counseling Interventions with Children and Adolescents (3)

CSP 670 Theory and Process of Group Counseling (3)

CSP 680 Theory and Process of Consultation (3)

5. Integration and Application of Theory, Research, and Techniques (minimum 12 units):

CSP 730 Fieldwork in Counseling: School Counseling (2-6) Cr/NC

CSP 740 Practicum: Individual Counseling (1-6) Cr/NC

CSP 780 Internship: School Counseling (2-12) Cr/NC

6. Additional requirements for specialization (minimum 3 units):

CSP 620 Guidance Services in Public Education (3)

CSP 745 Program Development and Evaluation in Pupil Services (3)

7. Research (a minimum of 3 units):

CSP 710A Professional Seminar (3) or

CSP 799A Thesis (3) Cr/NC/RP

8. Electives (12 units):

Selected with approval of adviser.

Students must receive a grade of B or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the Pupil Personnel Services Credential. Students not meeting this requirement must immediately consult the department chair or the director of the school counseling specialization.

Adherence to the ethical principles of the American School Counselor Association is mandatory. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework or other academic achievement. A copy of the ethical principles is included in the student handbook distributed at orientation.

In addition to the required courses and experiences, the student must pass all components of the CBEST to be eligible for the credential. Students must have Certificate of Clearance *prior* to starting fieldwork (CSP 730), practicum (CSP 740), or internship (CSP 780). Students should contact the Credentials Office, ED-151, regarding the CBEST and Certificate of Clearance.

Students already holding a master's degree in counseling or in a related area may apply for non-degree credential preparation in school counseling. This option is offered by the department when space and funding are available. These students must follow the regular application procedures and requirements. An individualized program of study may be designed on approval of the school counseling committee. To pursue the non-degree credential preparation, contact the school counseling program director.

Specialization in School Psychology

The Master of Science in counseling with a specialization in school psychology (**Major Code: 08261**) includes coursework and experiences for the development of competencies required for the California

credential in school psychology (**Credential Code: 00804**). The credential authorizes the holder to function as a school psychologist from preschool through high school settings. Additional information may be obtained from the office of the Department of Counseling and School Psychology or the director of the school psychology specialization. The student should design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 62 units of 500-, 600-, and 700-numbered courses, including:

1. Prerequisites:
 - a. Admission to the University and the Department of Counseling and School Psychology for specialized study in school psychology.
 - b. Related undergraduate coursework in psychology, education, child development, and/or culture studies is strongly recommended.
 - c. California Basic Educational Skills Test (CBEST) scores must be reported to the department *prior* to beginning this sequence of study. A photocopy will suffice.
 - d. The student must apply for a Certificate of Clearance *prior* to beginning the sequence of study. Consult the Credentials Office, ED-151.
2. Common Core (6 units):

ED 690	Procedures of Investigation and Report (3)
CSP 600	Counseling Communication Skills (2)
CSP 600L	Counseling Prepracticum (1) Cr/NC
3. Foundations (a minimum of 9 units):

Required courses:

CSP 610C	Determinants of Human Behavior: Development (3)
CSP 610D	Determinants of Human Behavior: School Learning (3)

Three units from the following selected in consultation with the adviser:

CSP 610B	Determinants of Human Behavior: Social and Cultural (3)
CSP 615	Seminar in Multicultural Dimensions in Counseling (3)
4. Theory, Research, and Techniques (a minimum of 12 units).

Required courses:

CSP 640	Theory and Process of Appraisal (3)
CSP 662	Counseling Interventions with Children and Adolescents (3)
CSP 680	Theory and Process of Consultation (3)

Three units from the following selected in consultation with the adviser:

CSP 620	Guidance Services in Public Education (3)
CSP 660	Theory and Process of Counseling (3)
CSP 670	Theory and Process of Group Counseling (3)
CSP 685	Theories of Marriage and Family Therapy (3)

or other course(s) in the department or in a related field.
5. Integration and Application of Theory, Research, and Techniques (a minimum of 12 units selected in consultation with the adviser).

CSP 730	Fieldwork in Counseling: School Psychology (2-6) Cr/NC
CSP 740	Practicum: Individual Counseling (3) Cr/NC
CSP 752	Seminar and Practicum: School Psychology (3-6) Cr/NC
6. Additional requirements for specialization (a minimum of 11 units):

CSP 621	Introduction to School Psychology (3)
CSP 642A and 642B	Individualized Appraisal of Learning Characteristics (4-4)

7. Research (a minimum of 3 units selected in consultation with the adviser).

CSP 710A or 710B	Professional Seminar (3)
CSP 760	Advanced Seminar in School Psychology (3)
CSP 770	Advanced Seminar in Counseling (3)
CSP 799A	Thesis (3) Cr/NC/RP
8. Electives (a maximum of 9 units).

Electives must be chosen in consultation with the adviser to form a coherent cognate that complements the student's program in school psychology.

In addition to the courses required for the Master of Science in counseling with a specialization in school psychology, the following courses or equivalents are required for the California School Psychology Credential:

SPED 500	Human Exceptionality (3)
CSP 745	Program Development and Evaluation in Pupil Services (3)
CSP 780	Internship (2-12) Cr/NC

Students must maintain the university minimum 3.0 grade point average. Students must earn a grade of B- or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the school psychology credential. Students not meeting this requirement must immediately consult with the adviser or the director of the school psychology specialization. In addition, three grades of B- or lower (including NC) are grounds for dismissal from the program regardless of a student's overall GPA.

Adherence to the National Association of School Psychologists Principles for Professional Ethics is a mandatory requirement. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework or other academic achievement. A copy of the ethical principles is included in the program handbook which is distributed to students at orientation.

In addition to the required courses and experiences, the student must (a) receive the recommendation of the school psychology faculty and (b) pass all components of the CBEST for eligibility for the credential.

The school psychology program, including degree and credentials requirements, may be completed on three-, four-, or five-year plans. Students must maintain residency throughout their tenure in the program unless specifically granted a formal leave of absence. The final year, Counseling and School Psychology 780 (Internship) is a full-time experience.

Students already holding a master's or doctoral degree in counseling, psychology, or a related area may apply for non-degree credential preparation in school psychology. These students must follow the regular application procedures and requirements. After admission to the program, an individualized program of study may be designed on approval of the school psychology faculty.

After receiving the school psychology credential and completing two years of post-internship, full-time service as a school psychologist in the public schools, the school psychologist is eligible to take the standardized examination for licensure as an educational psychologist in California.

Selecting a Specialization

Students intending to pursue one of the three defined specializations should consult with the director of the specialization regarding application or declaration procedures. Students must declare their intent to specialize prior to filing the official program of study.

Section III. Teaching and Service Credentials

The College of Education offers programs which lead to teaching, specialist, and services credentials. Students who desire to seek a credential should consult with departmental advisers in order to determine their status and needed requirements. Information on these credentials is available in the Future Teachers Center, ED 107.

The College of Education has obtained approval for programs leading to the following credentials:

Approved Credential Program	School Service Authorized
1. Multiple Subject *	Teach in any self-contained classroom, kindergarten through twelfth grade.
2. Multiple Subject Cross-Cultural Language and Academic Development (CLAD) emphasis*	Teach in self-contained classrooms and provide Specially Designed Academic Instruction in English (SDAIE) and English Language Development (ELD), kindergarten through twelfth grade.
3. Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) emphasis: Spanish**	Teach in self-contained classrooms and in primary language and English, English Language Development (ELD), and Specially Designed Academic Instruction in English (SDAIE).
4. Single Subject*	Teach single subject area in grades kindergarten through twelve.
5. Single Subject Cross-Cultural Language and Academic Development (CLAD) emphasis*	Teach single subject area in grades K-12 and provide Specially Designed Academic Instruction in English (SDAIE) and English Language Development (ELD).
6. Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) emphasis: Spanish**	Teach single subject area in primary language and English in grades K-12 and provide Specially Designed Academic Instruction in English (SDAIE) and English Language Development (ELD).

* See School of Teacher Education, ED-100, (619) 594-6131 for more information.

** See Department of Policy Studies in Language and Cross-Cultural Development, ED-152, (619) 594-5155 for more information.

Specialist Credentials

Reading/Language Arts
Special Education:
Education Specialist Credential for the Deaf and Hard of Hearing (Department of Communicative Disorders)
Early Childhood Special Education
Mild/Moderate Disabilities
Moderate/Severe Disabilities
Physical and Health Impairments

Service Credentials

Administrative Services
Clinical – Rehabilitative Services (Department of Communicative Disorders)
Health – School Nurse Services (School of Nursing)
Pupil Personnel Services:
Child Welfare and Attendance (School Social Work)
School Counseling (Department of Counseling and School Psychology)
School Psychology (Department of Counseling and School Psychology)
School Social Work (School of Social Work)

Specialist Certificates

Bilingual Cross-Cultural Language and Academic Development (BCLAD)
Cross-Cultural Language and Academic Development (CLAD)
Developing Gifted Potential
Early Childhood Special Education
Resource Specialist of Competence
Supported Employment and Transition Specialist
Teaching the Emotionally Disturbed/Behaviorally Disoriented

Conditional Graduate Standing (Classified, Credential Only)

A student wishing to be admitted to a program of study leading to a credential in professional education who meets the criteria specified under General Admission Requirements but who has deficiencies for unconditional classified admission to the department's credential program may be granted conditional graduate standing (classified, credential only), if the deficiencies can be met by specific additional preparation, including qualifying examinations. No more than 18 semester units may be assigned to satisfy deficiencies in prerequisite education and subject matter competency coursework and all coursework must be met within one year (three academic terms: Fall, Spring, Summer) from the time of initial enrollment unless written documentation of specific subject matter deficiency can be provided by the designated campus adviser. Once the conditions established by the department, school, or college have been met, the student should confirm that a change of status has been updated through the sponsoring departmental office for cross-campus records.

Information Applicable to Both CLAD and B/CLAD Multiple Subject and Single Subject Credentials

Departmental admission to either the B/CLAD Multiple Subject or Single Subject credential program does not constitute admission to the university. Candidates who are entering the university for the first time, or who have graduated or who are graduating, and are planning to re-enroll for the credential program must file a separate application for admission to the university during the regular university application period.

Students Who Seek to Complete a Credential

Teachers with Preliminary B/CLAD Multiple Subject or Single Subject credentials who are working toward Professional Clear certification may have individual programs designed to meet their needs and interest areas. Arrangements for evaluation of college credit and program design can be made through the Credentials Office, ED-151, (619) 594-5964.

A student transferring into San Diego State University to complete requirements for either the Preliminary or Professional Clear B/CLAD Multiple Subject or Single Subject credential must complete a minimum of six units of professional education coursework in residence at SDSU in order to be recommended for certification regardless of the extent of education work completed at other institutions.

Evaluation of Credits

After an interval of five years, courses in education are reevaluated and subject to reduction in credit, in light of new requirements and changes in educational procedures. All courses taken either at this University or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

GPA Requirements For Continuation in B/CLAD Multiple Subject/Single Subject Credential Programs

A grade point average of 3.0 must be maintained each semester to permit a student to continue in the B/CLAD Multiple Subject and Single Subject credential programs.

Supplementary Authorizations

With completion of additional units in certain curriculum areas, both B/CLAD Single and Multiple Subject teachers can be granted supplementary authorizations to teach in generalized areas in middle and junior high schools (e.g., Introductory English). Single subject teaching credential candidates can also be granted supplementary authorizations to teach in specialized areas K-12 (e.g., psychology). Information on requirements for these supplementary authorizations is available through the Credentials Office, ED-151.

The College of Education basic teaching credential programs are being modified to meet new standards and regulations. Contact the individual department for revised program information.

Multiple Subject Credential (Elementary Education)

(Credential Code: 00200)

Multiple Subject–Professional Clear Credential

Persons interested in teaching in the traditional elementary school will typically pursue the Multiple Subject credential which authorizes teaching service in self-contained classrooms in preschools, grades K-12, and in classes organized primarily for adults (classrooms in which one teacher is responsible for all the subjects commonly taught). Recommendation for this credential requires:

1. A baccalaureate or higher degree.
2. Completion of an approved program of professional education, including student teaching and coursework in reading methods with a grade point average of 3.0 or higher.
3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).
4. Demonstrated subject matter competency through completion of an approved waiver program (Liberal Studies) or passing scores on the PRAXIS Multiple Subjects Assessment for Teachers (MSAT) (must have scores taken within five years prior to recommendation).
5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in General Catalog section on "Graduation Requirements," IV. American Institutions Requirement, B.2. United States Constitution.)
6. Knowledge of health education in California, including substance abuse and nutrition: Community Health Education 101 or 920, and verification of CPR competency.
7. Demonstrated knowledge of the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.
8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.
9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed *after* issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may apply if completed after the baccalaureate degree).

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Multiple Subject (Elementary)–Preliminary Credential

Candidates may be recommended for Preliminary Multiple Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 6, 7, 8, and 9 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

NOTE: *Undergraduate students in the Multiple Subject credential program may register for concurrent postbaccalaureate credit in their final semester prior to obtaining a baccalaureate degree as explained in the section of this catalog on "General Regulations."*

Admission Standards and Qualifications for the Multiple Subject Credential Program

Candidates for the Multiple Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED 100. Contact the School of Teacher Education for application dates.

Completed application packets will include items verifying satisfaction of the following:

1. **CBEST Examination.** Students must pass the California Basic Educational Skills Test (CBEST) **prior to admission** to the Multiple Subject credential program. Registration information and materials for the CBEST are available in the lobby of the Education building. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.
2. **Subject Matter Competency.** Students must verify completion of subject matter competency in diversified subjects commonly taught in self-contained classrooms prior to admission to the Multiple Subject Credential Program. This may be done through successful completion of the Liberal Studies major, Emphasis in Education or its equivalent at another California teacher-training institution or passing scores on the PRAXIS Multiple Subject Assessment for Teachers (MSAT). Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination and must be valid at the time of recommendation for the credential. Registration information and materials for the PRAXIS are available in the lobby of the Education building.
3. **Prerequisite Courses.** These courses or approved equivalents must be completed with grades of "C," "CR," or higher no more than five years prior to admission to the Multiple Subject Credential Program. The courses may be in progress at the time of program application.
 - a. **Education 451, "Introduction to Multicultural Education,"** This course provides an introduction to ethnicity, language, and culture in education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.
 - b. **Mathematics 210, "Number Systems in Elementary Mathematics."** This course covers pre-number concepts; development of whole numbers, integers, and their operations; number theory; geometric concepts of two and three-dimensional spaces; problem-solving strategies. With approval of the mathematics adviser, any of the following courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.

Candidates are required to submit unofficial transcripts from SDSU and official transcripts from all other colleges and universities attended including any current coursework-in-progress to verify completion of or enrollment in these courses.

4. **Grade Point Average.** Candidates must have attained a grade point average of at least 2.67 in all baccalaureate and postbaccalaureate coursework or a grade point average of at least 2.75 in the last 60 semester units attempted. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial transcripts for SDSU coursework for GPA calculations.
5. **Letters of Recommendation.** Candidates must submit two letters of recommendation from individuals who know the candidate well (but are not related by blood or marriage) and who can comment directly on factors such as the candidate's qualifications for a teaching career in a multicultural setting, work or educational experiences, experience teaching or supervising students or other groups of individuals, personal character, and/or potential for success as a teacher. The signed letters may be hand carried and do not need to be confidential or in sealed envelopes, but must be on letterhead stationery (name, address, and phone number of sender included.) If the letters are not on letterhead, the name, address, and phone number of the sender must be typed on the letter.
6. **TB Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO's, or public health agencies.
7. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.
8. **Early Field Experience.** Candidate must successfully complete a minimum of 30 hours of observation and participation in a "regular" classroom in public elementary schools. This documented through the Early Field Experience Guide – Multiple Subject available in the SDSU Bookstore in the book stacks under "Teacher Education" or for mail delivery by calling (619) 594-7535. The guide is also available for downloading from the School of Teacher Education Web site at:
<http://www.edweb.sdsu.edu/STE/teachcred.htm>.
 Either the original or a photocopy of the Early Field Experience Guide must be turned in as part of the application to the credential program.
9. **Personal Narrative.** The narrative should address the following items:
 - a. The candidate's interest in and motivation for a teaching career in a multicultural setting;
 - b. The candidate's personal background and experience in working with children in multicultural settings;
 - c. Other experiences personally considered important in the teacher preparation process;
 - d. Any abilities, knowledge, skills, or experience that will enhance the candidate's effectiveness as a teacher (e.g., ability to speak another language, play a musical instrument, use technologies, or experience working with individuals with disabilities or special needs).

Further information on the personal narrative is available in the School of Teacher Education, ED-100.

10. Appeals Process. Candidates who do not meet all the admissions requirements may petition the Multiple Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

In addition to the minimum admissions standards identified above, the Multiple Subject Admissions and Retention Committee also may consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. Due to the number of applicants, application to the program does not ensure admission.

NOTE: *Appointments for discussion of individual concerns relative to the credential program may be made with the Multiple Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100, (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.*

Multiple Subject Credential with a Cross-Cultural, Language and Academic Development Emphasis (CLAD)

(Credential Code: 00200)

The program of study leading to the Multiple Subject Credential with an emphasis in Cross-Cultural, Language, and Academic Development (CLAD) prepares candidates to teach in classrooms serving the increasing number of children in our schools in situations where bilingual teachers are not available. The CLAD program provides candidates with more training than basic credential candidates in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Multiple Subject Teaching Credential with a Cross-Cultural, Language and Academic Development Emphasis (CLAD) must meet all the requirements for the Multiple Subject Preliminary Credential and satisfy the admission standards and qualifications for the Multiple Subject Credential program listed above. In addition, they must complete the following requirements:

1. **Experience Learning a Second Language**
 Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.*
2. **Prerequisite Course**
 Education 4513 units
3. **Corequisite Courses**
 Education 516 1 unit
 Policy Studies in Language and Cross-Cultural
 Education 915A.....3 units
 OR
 Linguistics 550.....3 units

* Already required for Liberal Studies major and some Single Subject majors.

Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Emphasis Credential: Spanish

(Credential Code: 00200)

The Multiple Subject Bilingual Cross-Cultural Language and Academic Development credential (B/CLAD) Spanish emphasis is available to students interested in teaching in a bilingual credential elementary school classroom. This credential authorizes the holder to

teach in any self-contained bilingual or regular classroom in which one teacher is responsible for all the subjects commonly taught in the elementary schools.

With the passage of Proposition 227, requiring all students in public schools be taught in English unless a school has received a waiver, the Policy Studies Department and the College of Education remains committed to the training of teachers for the B/CLAD credentials. The B/CLAD credentials meet all of the requirements of the CLAD credential. The B/CLAD credential remains as the most desirable credential in California. Furthermore, the University is committed with developing leaders in cultural, economic, educational, scientific, social, and technical fields, as well as addressing the linguistic diversity of school communities. The University is primarily responsive to the people of California, as well as to the needs of the regional, national, and international communities it serves.

Candidates who will pursue this credential need to specify “**Multiple Subject B/CLAD/Spanish emphasis**” in the application for graduate admission to SDSU (Code: 00200). Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Policy Studies in Language and Cross-Cultural Education Department (department applications are available from the Campus Bookstore).

1. Two sets of official transcripts in sealed envelopes from each issuing institution;
2. Complete department application (copy of scores for CBEST/ Spanish Proficiency Examination/MSAT or Portfolio, TB test results, letters of recommendation, early field experience, character and identification clearance, autobiography/goals and philosophy).

Mail or deliver your complete department admissions package to:
 Policy Studies in Language and Cross-Cultural
 Education Department
 San Diego State University
 San Diego, CA 92182-1152

Standards for Admission

1. **CBEST.** Students must pass the California Basic Educational Skills Test prior to admission to the B/CLAD credential program. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on the CBEST.
2. **Major.** The Liberal Studies major, Emphasis in Education may be selected in preparation for the teaching credential. Students who have academic majors other than liberal studies are required to pass the commission-approved PRAXIS Multiple Subject Assessment for Teachers (MSAT). Candidates are urged to take this examination as early as possible. This is a prerequisite for admission into the B/CLAD Multiple Subject program. These scores must have been received within five years prior to recommendation. Information may be obtained through advisers in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152, and registration materials are available in the lobby of the Education building.

3. Prerequisite Courses.

Policy Studies in Language and	
Cross-Cultural Education 515	3 units
Education 451	3 units
Exercise and Nutritional Sciences 241A, 241B	2 units
Linguistics 420* or 520	3 units
Linguistics 452*	3 units
Linguistics 550 or Policy Studies in Language	
and Cross-Cultural Education 915A	3 units
Mathematics 210** or 211 or 313	3 units

Art 100 or 101 or 387; Music 102 or 343;
 Theatre 100 or 120 or 310 or 315 3 units

* Linguistics 420 and 452 are requirements for the Liberal Studies major.
 ** With approval of the mathematics adviser, any of the following mathematics courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.

4. **Grade Point Average.** Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.
5. **Letter of Recommendation.** Two professional references and one letter of recommendation must be submitted attesting to the applicants following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. At least one letter should be from an elementary school teacher the student has worked with and the others may be from faculty and administrators.
6. **Tuberculin Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.
7. **Early Field Experience.** Applicants must provide evidence of a minimum of 60 hours of experience with students in typical elementary classroom settings within the last five years. Evidence must be documented.
8. **Oral English and Written Statement of Professional Goals and Philosophy.** Have an interview with the admissions and retention committee of the PLC Department.
9. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a credential, candidates may submit their clearance application packets and fees to the Credentials Office, ED-151.
10. **Credential Advising Appointment.** Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Make appointment in ED-152, telephone (619) 594-5155.
11. **Language and Culture Examination.** All candidates must pass the PLC Department Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.
12. **Reading Instruction Competence Assessment (RICA).** California Education Code Section 44283 requires that candidates for the preliminary or clear credential multiple subject pass this RICA requirement. The purpose of this assessment is to ensure that the candidate possess the knowledge and skills important for the provision of effective reading instruction to students. The RICA requirement applies to candidates who did not complete all credential requirements prior to October 1, 1998. Candidates must have passed the RICA in order to be able to file for the credential.

13. Appeals Process. Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

14. Application. Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for Policy Studies application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.

Program*	Units
PLC 901 Professional Portfolio I (Cr/NC)	1
PLC 902 Professional Portfolio II (Cr/NC)	1

PLC 961 Student Teaching for Bilingual Elementary Students	8
PLC 962 Student Teaching for Elementary Bilingual Students II	8

* Credential requirements may change under SB 2042. Contact department for details.

Preliminary Credential Requirements

1. A bachelor's degree (or higher) with any major other than education.
2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information.)
3. Passage of PRAXIS Multiple Subject Assessment for Teachers (MSAT) or approved waiver program (Liberal Studies major, Emphasis in Education).
4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.
5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on "Graduation Requirements," IV. American Institutions Requirement, B.2. United States Constitution.
6. Passage of California Basic Educational Skills Test (CBEST).
7. Passage of Reading Instruction Competence Assessment (RICA) Test.

Clear Credential Requirements

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).

2. Coursework/fieldwork to satisfy the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.
3. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.
4. Knowledge of health education in California, including substance abuse and nutrition: Community Health Education 101 or 920, and verification of CPR competency.
5. Candidates are required to verify cardiopulmonary resuscitation.

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

**Single Subject Credential
(Secondary Education)**

(Credential Code: 00100)

Single Subject–Professional Clear Credential

Persons interested in teaching in the traditional secondary school will typically pursue the Single Subject credential which authorizes teaching service in departmentalized, subject matter classrooms in preschools, grades K-12, and in classes organized primarily for adults (classes where instruction is provided in only one subject). Candidates must verify subject matter competency in one of the following subject fields:

ACCEPTABLE SINGLE SUBJECT CREDENTIAL AREAS AND APPLICABLE MAJORS

English: Communication, Comparative Literature, English, Journalism, Linguistics, Theatre

Foreign Languages: Classics (Latin), Spanish

Science: Biology, Chemistry, Geological Sciences, Physics

Mathematics: Mathematics

Music: Music

Physical Education: Kinesiology (Specialization in Physical Education)

Social Science: Social Science

Recommendation for this credential requires:

1. A baccalaureate or higher degree.
2. Completion of an approved program of professional education, including student teaching with a grade point average of 3.0 or higher and coursework in reading methods. The required courses at SDSU are Teacher Education 903, 922, 933, 954, 963, 964 and Educational Technology 470.
3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).
4. Demonstrated subject matter competency through completion of an approved waiver program in one of the California Single Subject areas, through a combination of coursework and competency examinations, or through PRAXIS/SSAT examinations. Candidates should check with the School of Teacher Education, ED-100, to clarify the appropriate means for satisfaction of the subject matter competency requirement in their subject matter area(s). Competency must be verified and assessed by a designated departmental adviser regardless of the means of establishing knowledge proficiency.
5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in the section of this catalog on "Graduation Requirements," IV. American Institutions Requirement, C.2. United States Constitution.)

6. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 101 or 920, and verification of CPR competency.
7. Demonstrated knowledge of the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.
8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): EDTEC 470.
9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed *after* issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may apply if completed after the baccalaureate degree).

The Professional Clear Single Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Single Subject–Preliminary Credential

Candidates may be recommended for Preliminary Single Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 6, 7, 8, and 9 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year Preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

Admission Standards and Qualifications for the Single Subject Credential Program

Candidates for the Single Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED 100. Contact the School of Teacher Education for application dates.

Completed application packets will include items verifying satisfaction of the following:

1. **CBEST Examination.** Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Credential Program. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.
2. **Subject Matter Competency.** Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS/SSAT examinations, or a combination of coursework and examination scores. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in the General Catalog. Students who have completed approved waiver programs at other universities must still be assessed and verified by subject matter departments prior to admission to this university's credential program. Early submission of completed application packets is encouraged to facilitate enrollment and preference in block placement. Applicants submitting materials late in the term may be considered on a "space available basis" only. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for all current examinations are available at the School of Teacher Education, ED-100. Students who have completed approved waiver programs at other universities must still be assessed by SDSU subject matter departments prior to admission to this university's credential program.
3. **Prerequisite Course.** This course or approved equivalent must be completed with grades of "C," "Cr," or higher no more than five years prior to admission to the Single Subject Credential Program. This course may be in progress at the time of program application.

Education 451, "Introduction to Multicultural Education." This course provides an introduction to ethnicity, language, and culture in education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.
4. **Grade Point Average.** Candidates must have attained a grade point average of at least 2.67 in all baccalaureate and postbaccalaureate coursework or a grade point average of at least 2.75 in the last 60 semester units attempted. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial copies of transcripts for SDSU coursework for GPA calculations.
5. **Letters of Recommendation.** Candidates must submit two letters of recommendation from individuals who know the candidate well (but are not related by blood or marriage) and who can comment directly on factors such as the candidate's qualifications for a teaching career in a multicultural setting, work or educational experiences, experience teaching or supervising students or other groups of individuals, personal character, and/or potential for success as a teacher. The signed letters may be hand carried and do not need to be confidential or in sealed envelopes, but must be on letterhead stationery (name, address, and phone number of sender included.) If the letters are not on letterhead, the name, address, and phone number of the sender must be typed on the letter.
6. **TB Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO's, or public health agencies.
7. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.
8. **Early Field Experience.** Candidate must successfully complete a minimum of 30 hours of observation and participation in a "regular" classroom in public secondary schools. This documented through the Early Field Experience Guide – Single Subject available in the SDSU Bookstore in the book stacks under "Teacher Education" or for mail delivery by calling (619) 594-7535. The guide is also available for downloading from the School of Teacher Education Web site at:

<http://www.edweb.sdsu.edu/STE/teachcred.htm>.

 Either the original or a photocopy of the Early Field Experience Guide must be turned in as part of the application to the credential program.

- 9. Personal Narrative.** The narrative should address the following items:
- The candidate's personal background and experience working with children in multicultural settings;
 - The candidate's other experiences personally considered important in the teacher preparation process;
 - The candidate's interest in and motivation for a teaching career in a multicultural setting and;
 - Any abilities, knowledge, skills, or experience that will enhance the candidate's effectiveness as a teacher (e.g., ability to speak another language, use technologies, or experience working with individuals with disabilities or special needs).

Further information on the personal narrative is available in the School of Teacher Education, ED-100.

- 10. Appeals Process.** Candidates who do not meet all the admission requirements may petition the Single Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

In addition to the minimum admissions standards identified above, the Single Subject Admissions and Retention Committee may also consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. A personal interview may also be necessary. Due to the number of applicants, application to the program does not ensure admission.

NOTE: *Appointments for discussion of individual concerns relative to the credential program may be made with the Single Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100, (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.*

Single Subject Teaching Credential with a Cross-Cultural Language and Academic Development Emphasis (CLAD)

(Credential Code: 00100)

The program of study leading to the Single Subject Credential with an emphasis in Cross-Cultural, Language, and Academic Development (CLAD) prepares candidates to teach in classrooms serving the increasing number of children in our schools with limited English proficiency in situations where bilingual teachers are not available. The CLAD program provides candidates with training in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Single Subject Teaching Credential with a Cross-Cultural, Language, and Academic Development Emphasis (CLAD) must meet all the requirements for Single Subject Preliminary Credential and satisfy the admission standards and qualifications for the Single Subject Credential Program. In addition, they must complete the following prerequisites:

- Experience Learning a Second Language.** Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.
- Prerequisite Courses:**
ED 451 Introduction to Multicultural Education 3
- Single Subject CLAD Coursework:**
ED 516 Foundations of Bilingual Education 1

Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Emphasis Credential: Spanish

(Credential Code: 00100)

The Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Spanish Emphasis is available for students interested in teaching in a bilingual credential secondary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for teaching the given subject area.

Candidates who will pursue this credential need to specify "Single Subject B/CLAD/Spanish emphasis" in the application for graduate admission to SDSU (Code: 00100). Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Policy Studies in Language and Cross-Cultural Education Department (department applications are available from the Campus Bookstore).

- Two sets of official transcripts in sealed envelopes from each issuing institution;
- Complete department application (copy of scores for CBEST/Spanish Proficiency Examination/PRAXIS-SSAT or adviser's recommendation, TB test results, letters of recommendation, early field experience, character and identification clearance, autobiography/goals and philosophy).

Mail or deliver your complete department admissions package to:
Policy Studies in Language and Cross-Cultural Education Department
San Diego State University
San Diego, CA 92182-1152

Standards for Admission

- CBEST.** Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Bilingual Emphasis credential program. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on CBEST.
- Subject Matter Competency.** Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS examinations, or a combination of coursework and

examination scores. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in the General Catalog. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for the current PRAXIS/SSAT examinations are available in the lobby of the Education building.

3. Prerequisite Courses:

ED 451	Introduction to Multicultural Education	3 units
LING 420	Linguistics and English	3 units
PLC 400	The Secondary School and Bilingual Education	3 units
PLC 515	Bilingual Teaching Strategies	3 units

4. Grade Point Average. Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates' majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.

5. Letter of Recommendation. Two professional references and one letter of recommendation must be submitted attesting to the applicant's following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. Letter of recommendation should be from a school teacher with whom the student has worked and the others may be from faculty and administrators.

6. Tuberculin Clearance. Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.

7. Early Field Experience. Applicants must provide evidence of a minimum of 45 hours of experience with adolescent students in typical classroom settings within the last five years. Evidence must be documented.

8. Oral English and Written Statement of Professional Goals and Philosophy. Have an interview with the admissions and retention committee of the PLC Department.

9. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. Submit clearance application packet and fees to the Credentials Office, ED-151.

10. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Appointments can be made in ED-152, (619) 594-5155.

11. Language and Culture Examination. All candidates must pass the PLC Department Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.

12. Appeals Process. Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

13. Application. Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for PLC application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.

Program*		Units

* Credential requirements may change under SB 2042. Contact department for details.

Preliminary Credential Requirements

1. A bachelor's degree with one of the approved single subject majors listed in the School of Teacher Education single subject teaching credential catalog section. Credentials can be granted only in the designated single subject credential areas.
2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information about the approved programs.)
3. Major Adviser's Recommendation. Passage of subject matter examination(s) or waiver thereof through completion of one of the approved single subject credential majors listed below with a written recommendation from the Ryan major adviser.

Candidates applying for the Single Subject Credential program after August 31, 1995 who have not satisfied subject matter competency through coursework or PRAXIS examination(s), must take and pass a new set of examinations for the Single Subject Credential in seven areas: biology#, chemistry#, English, geoscience#, mathematics, physics#, and social science. Candidates for the science authorizations (noted with #) must also take and pass a general science examination. Candidates should check with the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152, to clarify the appropriate means for satisfaction of the subject matter competency requirement.

4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.
5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on "Graduation Requirements," IV. American Institutions Requirement, B.2. United States Constitution.
6. Passage of California Basic Educational Skills Test (CBEST).

NOTE: Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in the bulletin.

Clear Credential Requirements

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).
2. Coursework/fieldwork to satisfy the Individuals with Disabilities Act. Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): Special Education 500 or Teacher Education 526.
3. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.
4. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 101 or 920, and verification of current CPR competency.
5. Candidates are required to verify cardiopulmonary resuscitation.

The professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

B/CLAD Specialist Credential*

(Credential Code: 00440)

The B/CLAD Specialist Credential will prepare teachers to be mentors, curriculum, and staff developers. Teachers will acquire skills in being reflective practitioners, facilitators of critical inquiry and cultural mediators linked with the school community through action research. The credential leads to the Policy Studies in Language and Cross-Cultural Education M.A. Option 1.

* Pending approval of California Commission on Teacher Credentialing.

Prerequisites: CLAD or B/CLAD credential or certificate; minimum three years teaching experience; admission to program.

Program

24 units of coursework and a comprehensive examination to include:

ED 690 Procedures of Investigation and Report	3
PLC 553 Language Assessment and Evaluation in Multicultural Settings	3
PLC 600 Foundations of Democratic Schooling	3
PLC 603 Community and Schools in a Diverse Society	3
PLC 612 Educational Ethnography in Multicultural Settings	3
PLC 613 Organizational Strategies and Professional Development for the Multicultural School Community	3
PLC 650 Bilingual/Cross-Cultural Curriculum Development and Practice	3
PLC 686 Seminar in Multicultural Education	3

OR

three units of electives with consent of adviser.

* Pending approval of California Commission on Teacher Credentialing.

CLAD or B/CLAD Credential Program in Mexico

In consortium with seven other California State Universities and through the auspices of the CSU International Programs Office, SDSU offers a Multiple Subject B/CLAD credential that combines professional educational coursework conducted in California and Querétaro, Mexico, with the experience of cultural and linguistic immersion in the Mexican milieu. The program is designed and coordinated by the CSU International Teacher Education Council (ITEC), which provides oversight, direction, and institutional coordination of the program.

After a brief orientation at SDSU the end of June each year, candidates begin their opening session in Mexico with intensive language study. They complete a majority of their coursework and student teaching in Querétaro, including experiences in both public and indigenous schools. The final semester, beginning in April of each year, is completed in San Diego with coursework in California frameworks and student teaching in local bilingual schools.

Candidates must be admitted to the local CSU campus B/CLAD credential program in all areas except for language. Language proficiency can be at the low intermediate to fully proficient level at admission. Students are eligible for all financial aid that would be available were they to participate in an on-campus program. Cost of the program, including all university fees, room, and board is approximately \$12,000. Contact Cristina Alfaro (calfaro@mail.sdsu.edu) (619) 594-2916 or Natalie Kuhlman (nkuhlman@mail.sdsu.edu) (619) 594-1184 or the Policy Studies in Language and Cross-Cultural Education Department (PLC) office (619) 594-5155 for more information.

Reading/Language Arts Specialist Credential

(Credential Code: 00410)

San Diego State University offers a program leading to a Reading/Language Arts Specialist Credential. This credential authorizes the holder to function as a reading specialist in grades K through 12.

Requirements for Admission

1. A valid California teaching credential applicable within the range of grades Kindergarten to 12.
2. A minimum of one year of full-time K-12 teaching experience or the equivalent within the range of grades Kindergarten to 12.
3. Submission of GRE scores.
4. Admission and planning interviews with an adviser.

Core Program (30 Units)

	Units
TE 530 Children's/Adolescents' Literature	3
TE 631 Seminar in Language Arts	3
TE 633 Leadership in Literacy Education	1
TE 634 Seminar in Research Investigations in Reading and Language Arts	4
TE 635 Assessment of Reading and Language Arts	3
TE 636 Advanced Assessment of Reading and Language Arts	3
TE 637 Instructional Strategies for Reading and Language Arts	4
TE 638 Topics in Reading Education (or approved elective)	4
TE 639 Literacy and Language	3
TE 736 Field Experience as a Reading Specialist	2

Additional Requirements

1. To be eligible to apply for the credential, the candidate must have a minimum of three years of full-time K-12 teaching experience within the range of grades Kindergarten to 12.

- Satisfactory completion of a comprehensive examination covering the program coursework.

Admission Procedures

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the program advisers:

- Two sets of official transcripts (in sealed envelopes);
- GRE scores (official notification);
- Department application (paper only);
- Personal statement;
- Three letters of reference on official letterhead.

Mail or deliver your complete admissions package to:

School of Teacher Education
(Attention: Pamela J. Ross)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1153

Education Specialist Credentials in Special Education

San Diego State University offers programs leading to the following Education Specialist Credentials in Special Education authorized by the California Commission on Teacher Credentialing: Mild/Moderate Disabilities, Moderate/Severe Disabilities, Physical and Health Impairments, and Early Childhood Special Education. These credentials authorize the holders to teach students with designated disabilities in a variety of settings. These credentials require completion of Preliminary Level I requirements followed by completion of the Professional Level II requirements within five years of employment in an authorized setting. The Department also offers the Early Childhood Special Education Certificate which authorizes holders of other specialist credentials to work with children and their families from birth through pre-kindergarten. There are some common requirements between the Education Specialist credential programs and the Master of Arts degree. Once admitted, students must maintain a GPA of 3.0 and must successfully complete all practicum experiences. Only grades of C or better will count toward a degree, a credential, or a certificate.

Requirements for Admission

Candidates for any of the Education Specialist Credentials in Special Education must satisfy the standards and qualifications listed below and submit complete application packets to the Department of Special Education (NE 70) within designated application periods. Information about applications for Program Admission is available from the Future Educators Center (ED 107).

Completed application packets will include items verifying satisfaction of the following:

- CBEST Examination.** Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to any of the programs that lead to an Education Specialist Credential in Special Education. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.
- Subject Matter Competence.** Students must verify completion of subject matter competence for either the multiple subjects credential or for a single subjects credential. For multiple subjects, subject matter competency in diversified subjects commonly taught in self-contained classrooms may be verified through a) completion of the Liberal Studies major, Emphasis in Education or its equivalent at another California teacher-training institution, or b) a passing score on the PRAXIS Multiple Subject Assessment for Teachers (MSAT).

For single subjects, subject matter competence may be verified through a) completion of coursework for an approved

teaching major at SDSU or its equivalent at another California teacher training institution or b) a passing score on the appropriate PRAXIS/SSAT examination, or a combination of coursework and examination scores. Requirements for the various single subject majors are listed with the academic majors in the General Catalog.

Registration information and materials for the PRAXIS are available through the Future Educators Center (ED 107). Students whose primary language is not English should note that they may apply for an extended time accommodation in taking the PRAXIS. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination and must be valid at the time of recommendation for the credential.

For students applying for the Specialist Credential in Early Childhood Special Education, an appropriate major such as Child Development, Developmental Psychology, or Liberal Studies is required.

3. Prerequisite Courses.

- Education 451 or Special Education 527.
- Special Education 500, 501, 502, and courses applicable to the credential area selected from Special Education 524, 525, and 528.

- Grade Point Average.** Students must have a cumulative grade point average (GPA) of 2.75 or above in the last 60 semester (90 quarter) units attempted. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculation.

- Tuberculin Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.

- California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months for traditional finger printing. Therefore, applicants are advised to use Livescan. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a credential, candidates may submit their clearance application packets and fees to the Credentials Office, ED-151.

- Program Application.** Applicants must complete the departmental application form indicating the Specialist Credential program to which they are applying.

- Two letters of recommendation from people who know you well (not relatives), especially those who have knowledge of your work with children in school or related settings. These letters must attest to your aptitude and suitability for the teaching profession.

- A candidate statement (500 word maximum) that addresses your background of experiences that have contributed to your desire to be a special education teacher as well as the personal and professional factors that you consider to be most important if one is to become an effective and caring special educator.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

Mail or deliver your complete admissions package to:

Department of Special Education
San Diego State University
5500 Campanile Drive
San Diego, CA 92108-1170

Level I Specialist Credential Programs

1. Core courses: Special Education 505, 553, 560, 662, 970, 980.
2. Specialization courses:
 - a. **Mild/Moderate Disabilities:** Teacher Education 910A (2 units), 930 (3 units); Special Education 534, 570, 647, 648, 970A, 980A, and 470 (for part-time students).
 - b. **Moderate/Severe Disabilities:** Teacher Education 910A (2 units), 930 (3 units); Special Education 510, 526, 535, 570, 635, 645, 647, 970B, 980B, and 470 (for part-time students).
 - c. **Physical and Health Impairments:** Teacher Education 910A (2 units), 930 (3 units); Special Education 510, 526, 534, 570, 647, 648, 970C, 980C, and 470 (for part-time students).
 - d. **Early Childhood Special Education:** Special Education 510, 526, 532, 635, 643A, 643B, 970D, and 980D in an adviser-approved specialty, and 470 (for part-time students).

Level II Specialist Credential Programs Requirements for Admission

Candidates for any of the Level II Education Specialist Credentials in Special Education must meet the following requirements:

1. **University Standards.** Students must satisfy University standards and qualifications for admission to postbaccalaureate standing.
2. **Level I Credential.** Students must hold or be eligible for a Preliminary Level I Education Specialist Credential or hold a valid out-of-state credential in a special education category comparable to a California Commission-approved Preliminary Level I program authorizing special education service. Level I or out-of-state credentials must be in the area of study for which students are seeking a Level II credential.
3. **Employment.** Students must be employed as a special education teacher in an early childhood or K-12 setting and submit a Verification of Employment form from the district in which they are employed.
4. **Other.** Students must complete or have completed Educational Technology 470 and any other requirements for the Level II, Professional Credential.

Program

1. Prerequisite: Special Education 975. (1 unit)
2. Core courses: Special Education 605 (1 unit) and 650B (1 unit). (2 units)
3. Specialization courses:
 - a. **Mild/Moderate Disabilities:** Special Education 634, 651, 653, and special emphasis elective (3 units) in consultation with adviser. (11 units)

- b. **Moderate/Severe Disabilities:** Special Education 651, 654, and special emphasis electives (3-6 units) in consultation with adviser. (9-12 units)
- c. **Physical and Health Impairments:** Not currently offered.
- d. **Early Childhood Special Education:** Special Education 655, and special emphasis electives (3-6 units) in consultation with adviser. (6-9 units)

Reading Recovery® Teacher Leader

The Reading Recovery® Teacher Leader training program is to prepare qualified individuals to implement reading recovery in their own districts or regions. Teacher leader candidates are selected by their districts to participate in the year-long coursework that prepares them to provide reading recovery training to teachers in their districts, based on their potential as leaders and their educational backgrounds. Each teacher leader candidate must hold a master's degree which qualifies them to teach reading recovery courses in their districts for university credit. A faculty member in the College of Education is responsible for providing coursework and supervision of teacher leader candidates.

Courses required in the program include two semesters each of clinical work, theoretical foundations, and leadership courses. Teacher leaders learn how to assess young children's literacy progress and to use reading recovery teaching procedures to help the at-risk children learn to read and write. Teacher leaders examine the theoretical foundations of early literacy acquisition, reading recovery and early intervention, including theories specifically relevant to working with diverse children with reading difficulties. They study various aspects of the teacher leader role in the classroom and in established sites through apprenticeships with experienced teacher leaders in the field; explore issues of program implementation and systemic changes stemming from the implementation of reading recovery in districts and; consider implications of all of their knowledge and expertise as it directly relates to the effective training of reading recovery teachers.

Partnerships between San Diego State University and the districts that teacher leaders represent are established through the Reading Recovery® Teacher Leader training program. Subsequent to the training year, the program provides on-going support and professional development to teacher leaders they have trained.

The Reading Recovery® Teacher Leader training program at San Diego State University mirrors training at the other 25 university training centers in the United States. Reading recovery was first introduced at Ohio State University 15 years ago. Other universities that participate in the program include Purdue University, New York University, University of Connecticut, and Georgia State University. University trainers have a close network through which they meet on a regular basis to shape and update coursework based on current research.

Section IV. Certificate Programs

Community College Teaching Certificate

The purpose of this certificate program is to prepare students to teach in community colleges within the transfer, developmental, vocational, and adult education areas. The program provides students with experiences in curriculum development and evaluation, instructional techniques, methods to meet adult learning needs, and a practical internship in a local community college.

This is an advanced academic certificate at the postbaccalaureate level. Admission requirements are a bachelor's degree from a regionally accredited institution of higher education, with at least a 2.75 GPA in the last 60 units.

Students must complete the following courses with a minimum grade of B in each course and Cr in ARP 760. Courses in the certificate program may be applied to a master's degree if applicable.

ARP 611	Program Development and Evaluation in Postsecondary Education (3)
ARP 631	Seminar in Teaching in Postsecondary Education (3)
ARP 730	Seminar in Adult Learning (3)
ARP 760	Internship in Educational Leadership (3) Cr/NC/RP

For further information, contact Dr. William E. Piland, Department of Administration, Rehabilitation and Postsecondary Education.

Developing Gifted Potential Certificate

The purpose of this certificate program is to provide teachers and other education professionals with specialized preparation for supporting talent development and providing effective educational services to gifted and talented individuals in a diverse society. The certificate is designed to provide knowledge and skills to (a) encourage the development and expression of high potential, particularly among students currently underrepresented in formal programs for the gifted and (b) provide effective instruction to individuals formally identified as gifted and talented. Hence the program is designed for professionals working in regular and special classrooms settings.

Successful applicants must have completed a bachelor's degree from an accredited institution. A minimum grade point average of 3.0 must be maintained in certificate coursework with no less than a grade of "C" in any course.

Required courses (15 units): Special Education 508, 644, 649, 658, 771. All courses completed with a grade of "B" or better are applicable to the Master of Arts degree in Education with a Concentration in Special Education and a Specialization in Gifted. For further information, contact the Department of Special Education.

Distance Education Certificate

This certificate program will provide necessary skills to in-service managers, instructors, instructional designers, evaluators, local site coordinators, and other professionals working in distance education systems and programs in higher education, K-12, business, and government, including personnel in law enforcement, and the military. Students who complete the certificate program and meet all other criteria may apply to be admitted to the M.A. program in educational technology. For application or further information, see the program adviser in the Department of Educational Technology.

Prerequisites: A bachelor's degree from an accredited institution with a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the verbal and quantitative sections of the GRE General Test (combined score of 950). At least three years of experience in distance, open or extended education, training, HRD or a related field. Mastery in telecommuting and learning new information technology applications.

Required courses (12 units):

EDTEC 550	Introduction to Distance Education (3)
EDTEC 640	Psychology of Technology-Based Learning (3)
EDTEC 650	Distance Education (3)
EDTEC 684	Management of Educational Technology (3)
Electives: (3 units) to be selected from the following with approval of program adviser:	
EDTEC 544	Instructional Design (3)
EDTEC 653	Cyberculture and Learning Systems (3)
EDTEC 670	Exploratory Learning Through Simulation and Games (3)
EDTEC 671	Learning Environment Design (3)

Early Childhood Special Education Certificate Program

The Early Childhood Special Education Certificate is authorized by the California Commission on Teacher Credentialing. It is designed for individuals who have completed Level II coursework in Mild/Moderate or Moderate/Severe disabilities. Completion of the certificate extends their authorization from birth through 22. Individuals credentialed in other areas such as Deaf and Hard-of-Hearing, Physical and Health Impairments, and Visual Impairments are authorized to serve birth through 22, but may add the certificate for professional growth reasons if desired.

1. Prerequisite: Completion of Level II coursework in one of the Education Specialist credentials and background in early childhood development with focus on infants, toddlers, and preschoolers.
2. Certificate coursework: Special Education 526, 528, 532, 635, 643A, 643B, 970D. (21 units)

Resource Specialist Certificate of Competence

No new students are being admitted to this program during the 2002-2003 academic year. Contact Special Education Department.

The Department of Special Education offers coursework leading to the California Resource Specialist Certificate. This certificate authorizes the holder to function as a Resource Specialist in special education settings. To be recommended for this certificate by San Diego State University, the candidate must hold a valid Learning Handicapped, Severely Handicapped, or Physically Handicapped credential, have completed three years of teaching in regular and special education settings, and must have satisfied the competencies specified in the four Resource Specialist courses: Special Education 645 or 648, 651, 652, 653.

Rehabilitation Administration Certificate

The purpose of this certificate program is to provide the student with administrative knowledge and skills needed to develop and supervise rehabilitation programs and services, in collaboration with consumers, in a variety of organizational settings. This academic certificate is designed for individuals who currently function or aspire to function as program coordinators and administrators in state rehabilitation agencies, community rehabilitation programs, disability management programs, and other programs and/or organizations involved in serving consumers with disabilities.

This is an advanced academic certificate at the postbaccalaureate level. Admission requirements are a bachelor's degree in rehabilitation or a related field and relevant work experience in a rehabilitation organization or program. The certificate is intended to focus on diversity among consumer populations and service delivery systems within

the student's area of career interest. A focus on disability management is available. A master's degree in rehabilitation counseling, as well as leadership experience in rehabilitation is strongly encouraged. Relevant career or academic training experience may be substituted in lieu of the above admission criteria at the discretion of the program director. A bachelor's degree is required.

This 21-unit certificate includes the following courses:

- ARP 710A Seminar in Rehabilitation (3)
- ARP 745 Internship in Rehabilitation (3-9)

With the approval of the Program Adviser, 12 units selected from:

- ARP 610 Educational Leadership (3)
- ARP 680 Seminar in Administration, Rehabilitation and Postsecondary Education (2-6)
- ARP 710B Seminar in Rehabilitation (3)
- ARP 720 Educational Human Resource Development in Postsecondary Education (3)
- ARP 740 Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
- ARP 747 Educational Leadership in a Diverse Society (3)
- ARP 755 Governance and Policy Development in Postsecondary Education Learning Organizations (3)
- ARP 798 Special Study (1-6) Cr/NC/RP

Contact the Director of the Rehabilitation program at (619) 594-6406 (V/TTY) for further information.

Students must maintain a minimum grade point average of 3.0 in all certificate coursework with no less than a grade of "C" in any course. Only three units of coursework with a grade of "C" will count towards a certificate. Maximum of three units of coursework repeatable. Courses in the certificate program may be applied to a master's degree if applicable.

Bilingual (Spanish) Special Education Certificate

No new students are being admitted to this program during the 2002-2003 academic year. Contact Special Education Department.

This certificate program provides specialized preparation for teachers of learning handicapped children whose primary language is Spanish.

Prerequisites for admission include the following:

1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Learning Handicapped).
2. Special Education 527.
3. Spanish language proficiency at the S-3 (FSI 3) level.
4. Knowledge of the target culture and bilingual teaching strategies. Will satisfy prerequisites for Policy Studies in Language and Cross-Cultural Education 602. Proficiency may be demonstrated by passing the "Test of Culture and Teaching" used by the College of Education bilingual emphasis programs.

Certificate program requirements include the following: Policy Studies in Language and Cross-Cultural Education 553, 602, three units of special education selected with the approval of the department chair, and demonstration of competence in teaching learning handicapped students whose primary language is Spanish.

A grade point average of 3.0 must be obtained in the four courses. Contact the Department of Special Education for further information.

Cross-Cultural Language and Academic Development (CLAD) Certificate

The Cross-Cultural Language and Academic Development (CLAD) Certificate provides an interdisciplinary approach in linguistics and policy studies to prepare credentialed teachers in theory and application of English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE) methodology for linguistically diverse students in grades K-12.

- A. Prerequisites: Linguistics 420 or 520.
- B. Certificate Requirements:
 1. Twelve units including: Policy Studies in Language and Cross-Cultural Studies 601, 602; Linguistics 552; Policy Studies in Language and Cross-Cultural Studies 651 or Linguistics 550.
 2. Six units of foreign language at the college level or equivalent.
 3. Completion of program with a 3.0 grade point average.
- C. Candidates who hold valid basic K-12 teaching credentials will also be able to apply directly to the Commission on Teacher Credentialing for the state's CLAD Certificate for public school service.

Apply in the Policy Studies Department, ED-152 or call (619) 594-5155 for more information.

Bilingual Cross-Cultural Language and Academic Development (BCLAD) Certificate

This experimental certificate program meets California Commission on Teaching Credentialing (CTC) competencies for the BCLAD (Spanish/English) Certificate through 12 units of coursework conducted in California and Mexico. It addresses the following three domains:

1. Methodology for Primary Language Instruction
2. The Culture of Emphasis
3. The Language of Emphasis

Admission Criteria

Candidates must have an intermediate level of proficiency in Spanish and their CLAD credential/certificate to qualify, plus two letters of recommendation from school or district based personnel. Candidates will be administered a Spanish proficiency pre-and post-examination utilized by Long Beach State University and approved for their B/CLAD credential program.

Coursework

1. Methodology for Primary Language Instruction:
 PLC 652 Multicultural Methods and Curriculum in Language Arts 3 units
2. The Culture of Emphasis: Latin America:
 PLC 686 Seminar in Multicultural Education: Culture of Latin America 3 units
3. Practicum/Field Experience: Hands on experience with primary language teaching in Mexico and California:
 PLC 686 Seminar in Multicultural Education: Field Experience Seminar in Effective Bilingual Culture in California and Mexico 3 units
4. Spanish Language Development, Language of Emphasis:
 PLC 415 Fieldwork in Bilingual Community Context 3 units

Instructional Software Design Certificate

The purpose of this certificate is to prepare specialists who can develop or assist in the development of software to meet specific instructional, training or management needs. There are two competency areas incorporated in the certificate: instructional design and educational computing. Students must complete a minimum of 18 units with a 3.0 (B) grade point average and no less than a "C" in any course. For application or further information, see the director of the program in the Department of Educational Technology.

Prerequisites: A bachelor's degree from an accredited institution with a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the verbal and quantitative sections of the GRE General Test.

Required Courses (18 units):

EDTEC 540	Educational Technology (3)
EDTEC 541	Web-Based Multimedia Development (3)
EDTEC 544	Instructional Design (3)
EDTEC 561	Advanced Web-Based Multimedia Development (3)
EDTEC 671	Learning Environment Design (3)

Electives (3) To be selected with the approval of the program director.

Instructional Technology Certificate

Refer to General Catalog.

Supported Employment and Transition Specialist Certificate

The purpose of this certificate is to prepare specialists who can develop and implement programs in supported employment and adult community living for youth and young adults with disabilities. A student may elect to emphasize programs for people with either moderate and mild or severe and multiple disabilities. Students must complete a minimum of 21 units with a 3.0 (B) grade point average. Students are able to develop additional competencies in instructional interventions, living options, community networking, and assistive technologies.

Prerequisites: A bachelor's degree from an accredited institution with a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted. Introductory disability coursework and experience.

Required courses (9 units)

SPED 501	Typical and Atypical Learning Processes (3) or
SPED 664	Issues Affecting Employment of Individuals with Severe Handicaps (3) or
ARP 684	Introduction to Rehabilitation Process (3)
ARP 687	Placement Practices with Individuals with Disabilities (3)
SPED 771	Directed Internship: Special Education (3) Cr/NC or
ARP 743	Fieldwork in Rehabilitation (3) Cr/NC or
CSP 730	Fieldwork in Counseling (3) Cr/NC

Twelve units of adviser approved Special Education; Administration, Rehabilitation or Postsecondary Education; or Counseling and School Psychology coursework.

Dr. Caren L. Sax, the program adviser in the Department of Administration, Rehabilitation and Postsecondary Education, will meet with each certificate student to design an individualized program of study based on the student's educational background and professional experience. Students may enroll in certificate program and master's degree program concurrently.

Teaching the Emotionally Disturbed/Behaviorally Disordered Certificate

No new students are being admitted to this program during the 2002-2003 academic year. Contact Special Education Department.

This certificate provides specialized preparation for teachers of children with severe emotional disturbance who have been labeled as severely emotionally disturbed/behaviorally disordered in the school setting, including those children labeled as seriously emotionally disturbed.

Prerequisites to admission to the certificate program include the following:

1. Completion of the departmental program for the Specialist Credential in Special Education (Learning Handicapped or Severely Handicapped).
2. A graduate grade point average of 3.0.
3. Interview with program faculty.

Program requirements for the Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered include the following: Special Education 529, 634, 647, 648, 677, 771 (3 units, with approval of adviser), and demonstrated competence in teaching emotionally disturbed/behaviorally disordered students.

A grade point average of 3.0 is required for certificate coursework. Contact the Department of Special Education for further information.

Workforce Education and Lifelong Learning Certificate

The Workforce Education and Lifelong Learning Certificate offers advanced study and field-based research opportunities for educators interested in assuming leadership roles in the development of education and training programs for non-college bound youth and adults. Employment opportunities include positions as training specialists, instructional developers, program administrators, and instructors in community colleges, adult education programs, and job training programs.

Improving the knowledge and skills of families and workers is one of the most important challenges facing American education. Economists note that even if school reform could be rapidly accomplished, it would have minimal influence on productivity, literacy, or quality of life in the work place during the next 20 years because out-of-school youth and adults are not subject to school reform, and they will constitute the vast majority of the American workforce until well into the next century.

Successful applicants must have completed a bachelor's degree from an accredited institution and demonstrate a record of excellence in working with youth or adults in schools, agencies, or employer-sponsored education and training programs. A minimum grade point average of 3.0 must be maintained in certificate coursework.

Required courses (12 units):

EDTEC 544	Instructional Design (3)
ARP 565	Psychological Foundations of Adult and Vocational Education (3)
ARP 631	Seminar in Teaching in Postsecondary Education (3)
ARP 730	Seminar in Adult Learning (3)

Electives: Three units selected with approval of the certificate program director. For further information, please contact Dr. William Piland, the program director in the Department of Administration, Rehabilitation and Postsecondary Education.

Courses Acceptable on Master's and Doctoral Degree Programs in Education (ED)

UPPER DIVISION COURSE

516. Foundations of Bilingual Education (1)

Prerequisite: Credit or concurrent registration in Education 451.

Overview of models of bilingual education programs for language minority students.

GRADUATE COURSES

Students without classified graduate standing are not admitted to 600- and 700-numbered courses in Education.

Twelve units of professional education are prerequisite for enrollment in all graduate courses.

GENERAL

690. Procedures of Investigation and Report (3)

Research methods in education. Location, selection and analysis of professional literature. Methods of investigation, data analysis and reporting. Required of all applicants for advanced degrees in education.

696. Selected Topics in Community Influences on Learning and Curriculum Planning (1-3)

Prerequisite: Teaching experience.

Intensive study in specific areas of education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of any 596 or 696 offered by the College of Education applicable to a master's degree.

791A. Evaluation Techniques (3)

Prerequisites: Education 690 and advancement to candidacy for the master's degree.

Theory and practice of instructional program and product evaluation.

791B-791C. Practicum: Evaluation (1-3)

791B: One lecture. 791C: Independent study.

Prerequisites: Education 791A and advancement to candidacy for the Master of Arts degree in education. Concurrent registration in Education 791B and 791C.

Supervised experience in conducting a program or product evaluation, strategy selection, procedures, reporting methods, culminating in a written project.

795A-795B. Seminar (3-3)

Prerequisites: Education 690 and advancement to candidacy for the Master of Arts degree in education.

An intensive study in selected areas of education culminating in a written project. Limited to students following Plan B for the Master of Arts degree in education.

797. Research (1-3) Cr/NC/RP

Prerequisites: Education 690 and advancement to candidacy for the master's degree.

Research in one of the fields of education. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy for the master's degree.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

DOCTORAL COURSES

800. Professional Seminar (1)

Prerequisite: Admission to doctoral program.

Identification of professional goals and research interests. Includes exposure to major research activities in all areas of program and discussion of current problems and trends in these program areas.

801. Seminar on Social and Cultural Foundations of Multicultural Education (3-4)

Prerequisite: Admission to the doctoral program or consent of the graduate coordinator. Students are required to have a background in the social sciences or humanities relevant to such educational issues as social behavior and minority cultures.

Social and cultural parameters that have contributed to the shaping of American society and affected developments in education in the last two decades. Emphasis on the impact on multicultural education and human social behavior in pluralistic societies.

804. Bilingual Education: Models and Current Research Trends (3-4)

Prerequisites: Education 801, a background in sociolinguistics or social anthropology and admission to the doctoral program or consent of graduate coordinator.

Analysis of existing models of bilingual education based on previously identified needs of linguistic minority students. Demonstrated needs from current research in classrooms by ethnographers. Significance of linguistic/cultural competencies for academic performance and validity of existing impact studies.

806. Ethnically Diverse Learners: Public Policy and Classroom Practice (3-4)

Prerequisites: Education 801 and admission to the doctoral program or consent of the graduate coordinator. Background in psychological foundations of education and educational policy is required.

National, state, and school policy directed at providing the minority learner with equal educational opportunity. Discussion of legislation for desegregation, bilingual education, school implementation cases and classroom practices as these relate to equal educational opportunity.

810. Seminar in Curriculum and Technology (3)

Prerequisite: Admission to doctoral program.

Curriculum and learning technologies. Technologies for teaching, learning collaboration, and assessment for diverse population. Legislation, theory, and best practices associated with technology-based instruction and information; critical appraisal of independent learning products and emergent delivery systems.

811. Disability in Society: Issues in Practice and Policy (3-4)

Prerequisite: Admission to the doctoral program or consent of the graduate coordinator.

Issues relating to individuals with disabilities in society. Current and historical practices in education and treatment and impact of public policy on service systems. Maximum credit four units.

814. Seminar in Curricular Change Processes (3)

Prerequisite: Education 810.

Description and analysis of curricular change processes in educational organizations. Emphasis on process of planned change and elements necessary for implementing and managing curricular change.

820. Advanced Educational Statistics (3-4)

Prerequisites: Education 690, Teacher Education 646, or equivalent graduate level course and consent of graduate coordinator.

Theory and practice of statistical inference for research in education. Probability and sampling theory, data collection and organization, computer applications in educational research, statistical significance testing and prediction, use of statistical computer program libraries.

822. Seminar in Analysis and Issues in Race and Ethnic Relations (3)

Prerequisite: Education 801.

Analysis of race and ethnic relations in education from a theoretical, research and action based perspective. Conceptual framework of race, ethnicity and prejudice theory needed for policies and strategies of reform in education to address unequal race relations.

823. Seminar in Action Oriented Policy Research in Multicultural Contexts (3)

Prerequisite: Education 801.

Multidimensional ways to resolve social problems. Development of community based issues, analysis, research and implementation.

824. Seminar in Institutional Change in Multicultural Contexts (3)

Prerequisite: Education 801.

Sociocultural dynamics of urban context, approaches for assessing institutional effectiveness, and strategies for developing and implementing educational innovations. Conceptual understanding of educational and social innovations that address multicultural context of school communities.

825. Reading Research (3)

Prerequisites: Master of Arts degree in reading or related language area, and two years of teaching experience.

Analysis of existing literature in reading research and its application to the field. Exploration of areas of research need.

826. Seminar in Major Issues in Education (3)

Prerequisite: Admission to doctoral program.

Current issues and problems in education and development strategies for leadership in diverse educational settings.

827. Seminar in Communication and Cognition in Education (3)

Prerequisite: Admission to doctoral program.

Roots of communication in a diverse society. Relationship between cognition and communication including mass media, as well as cross-cultural, and personal modes.

830. Seminar: Emerging Trends in Educational Systems and Technology (3)

Prerequisite: Admission to doctoral program.

Emerging problems and opportunities related to technology-based learning and human performance in various social, organizational, and cultural settings including schools, corporate training, and international environments.

831. Seminar: Educational Technology Research and Development (3)

Prerequisite: Admission to doctoral program.

Literature in educational technology research and its application. Issues relating to research in design and advances in theoretical foundations. Individual or collaborative research related to student's job responsibilities and/or career interests.

832. Seminar in Leadership and Educational Technology (3)

Prerequisite: Admission to doctoral program.

Leadership and collaboration in educational technology at interpersonal, team, and organizational levels. Educational systems with emphasis on implementing appropriate organizational and cultural change.

833. Cognition and Interactive Learning (3)

One lecture and four hours of activity.

Prerequisites: Education 810 and 826.

Role of contemporary interactive media technologies in facilitating learning across varied populations. Interactions of mind and media as they enhance knowledge, perception, and action. Tools and environments for representing and transforming knowledge.

834. Design and Development of Technology-Based Learning Systems (3)

One lecture and four hours of activity.

Prerequisites: Education 810 and Educational Technology 644.

Theories, frameworks, and strategies for designing educational products and technology-based learning systems. Development, assessment, and implementation of proposals and specifications for technology-based learning and performance improvement across diverse settings and learners.

836. Technology and Learning Communities (3)

One lecture and four hours of activity.

Prerequisite: Education 810.

Use of distributed communications and computing networks such as the Internet and intranets to support learning communities in promoting global communication, democratic values, and positive systemic change.

837. Mentoring, Coaching, and Teaching Educational Technology (1-3)

Prerequisites: Education 810 and consent of graduate adviser.

Supervised development of curricula, courses, workshops, seminars, forums, coaching systems, or other ways to teach people in diverse settings and cultures to use educational technology and educational products to solve problems and improve learning.

840. Seminar in Literary Research (3)

Prerequisites: Completion of master's degree in education and admission to doctoral program.

Analytic investigation of issues in literacy. Faculty members will present research on contemporary issues in literacy. Topics to include basic processes of literacy, instruction and curriculum in literacy, assessment and policy in literacy.

850. Seminar in Inquiry and Research in Education (3)

Prerequisite: Completion of 48 units in doctoral program.

Inquiry and empirical research in educational settings within public schools, postsecondary institutions, and public and private sector educational organizations, culminating in a dissertation proposal.

851. Seminar in Qualitative Methods of Inquiry (3)

Prerequisites: A master's level course in research methods and admission to doctoral program.

Theory and methods of qualitative research and evaluation. Computer applications in qualitative research. Match methodology to research settings in education; design a research or evaluation proposal; collect and analyze data; and present results of qualitative.

870. Seminar in Emerging and Controversial Issues in Teaching and Learning (3)

Prerequisite: Admission to doctoral program.

Identification, review, and analysis of issues that have significant impact on education; emphasis on theoretical and research bases of these issues.

890. Advanced Seminar: Processes of Reading (3)

Prerequisite: Admission to doctoral program or consent of graduate coordinator and Education 825.

Linguistic, cognitive, and affective factors that influence a reader while processing texts. Models of reading process, discourse analysis of written text, and models of reading instruction.

895. Seminar (1-8)

Prerequisite: Admission to the doctoral program or consent of the graduate coordinator.

Investigation of a particular topic or issue, emphasis on empirical research in education. See Class Schedule for specific content. Maximum credit eight units applicable to an advanced degree.

Education

896. Doctoral Internship in Education (2-15) Cr/NC

Prerequisites: Thirty units of doctoral coursework.

Applications of coursework to problems in community-based settings or knowledge-intensive organizations under the supervision of an experienced site-based mentor.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral program. Enrollment is required during the term in which the dissertation is approved.

OFFERED ONLY IN EXTENSION

**997. Special Topics in Education (1-3)
(Offered only in Extension)**

Prerequisite: Consent of instructor.

Designed to meet the needs of teachers who wish to develop or continue the study of a current topic. May be repeated with new content.

Administration, Rehabilitation and Postsecondary Education

OFFICE: 3590 Camino del Rio North, San Diego, CA 92108-1716
TELEPHONE: (619) 594-6115

In the College of Education

Faculty

Fred R. McFarlane, Ph.D., Professor of Administration, Rehabilitation and Postsecondary Education, Chair of Department
Bobbie J. Atkins, Ph.D., Professor of Administration, Rehabilitation and Postsecondary Education
Ron Jacobs, Ph.D., Professor of Administration, Rehabilitation and Postsecondary Education
William E. Piland, Ed.D., Professor of Administration, Rehabilitation and Postsecondary Education
Caren L. Sax, Ed.D., Assistant Professor of Administration, Rehabilitation and Postsecondary Education

Courses Acceptable on Master's Degree Programs in Education (ARP)

UPPER DIVISION COURSES

565. Psychological Foundations of Adult and Vocational Education (3) I, II, S

Prerequisite: Administration, Rehabilitation and Postsecondary Education 380 or 381.

Learning processes of adult and vocational education students in relationship to theories of learning and methods of teaching.

596. Topics in Administration, Rehabilitation and Postsecondary Education (1-3)

Selected problems in administration, rehabilitation and postsecondary education. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

605. Postsecondary Education (3)

Philosophy, history, aims, scope, function, outcomes, principles and challenges of postsecondary education. Emphasizes teaching and leadership in postsecondary education. Fieldwork required.

607. Applications of Rehabilitation Technology (3)

Prerequisite: Admission to rehabilitation counseling program or consent of instructor.

Provide rehabilitation professionals with knowledge and skills to assess assistive technology needs of individuals with disabilities and match those needs with appropriate adaptations, equipment, and/or resources to expand employment and related quality of life opportunities. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 585.)

610. Educational Leadership (3)

Concepts and techniques of leadership, analysis of the factors and practice in the procedures of individual and group leadership as applied to educational environments.

611. Program Development and Evaluation in Postsecondary Education (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 605 or appropriate experience.

Process of program development, curriculum change, and improvement. Development and evaluation of curricula in postsecondary education and selection of appropriate instructional strategies to meet student learning.

631. Seminar in Teaching in Postsecondary Education (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 611 or appropriate experience.

Teaching process at postsecondary education level addressing lesson planning, individualization of instruction, use of technology and interactive instruction. Assessing learning through authentic evaluation techniques.

645A-645B. Assessment in Rehabilitation (3-3)

Four lectures and six hours of laboratory.

Prerequisite: Admission to graduate program in rehabilitation counseling.

Rehabilitation assessment, labor market information, and career planning implications. Current assessment approaches, counseling, and career theories related to individuals with disabilities. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 645.)

648. Group Dynamics in Rehabilitation (3)

Prerequisite: Admission to graduate program in rehabilitation counseling.

Theory, dynamics, process and leadership function as applied to group work in rehabilitation. Development and application of group leadership skills/techniques for adjustment, support, skill training, self-directed groups, organizational problem solving and team-building groups in rehabilitation.

660. Theory and Process of Counseling in Rehabilitation (3)

Counseling process theories, approaches to and techniques for counseling, and research concerning counseling effectiveness. Not open to students with credit in Counseling and School Psychology 660 and 667.

680. Seminar in Administration, Rehabilitation and Postsecondary Education (2-6)

Prerequisite: Consent of instructor.

Study of administration, rehabilitation, or postsecondary education in a specialized field, such as a postsecondary institution, and subject fields, or designated services. Field experience when appropriate. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

684. Introduction to Rehabilitation Process (3)

Background and legislation related to vocational rehabilitation, consumer services, role and function of rehabilitation counselor as a professional. Orientation to community rehabilitation agencies. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 584.)

685A-685B. Medical and Psychological Aspects of Disability (3-3)

Prerequisite: Open to rehabilitation graduate students and practitioners.

Interface of the individual and the environment covering disabilities from the perspective of each disability viewed in terms of functional capacities and rehabilitative services needed.

687. Placement Practices with Individuals with Disabilities (3)

Two lectures and three hours of laboratory.

Prerequisite: Admission to rehabilitation counseling program.

Determination of employment and community integration needs of individuals with disabilities. Theories and techniques are presented through case study methods. Strategies focus on continuous surveys and readings focus on employment needs and opportunities for individuals with disabilities.

696. Advanced Topics in Administration, Rehabilitation and Postsecondary Education (1-3)

Prerequisite: Twelve units in administration, rehabilitation and postsecondary education.

Intensive study in specific areas of administration, rehabilitation and postsecondary education. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

710A-710B. Seminar in Rehabilitation (3-3)

Prerequisite: Completion of at least 24 units leading to Master of Science in rehabilitation counseling or enrollment in Rehabilitation Administration Certificate.

Selected topics with emphasis in research in rehabilitation counseling. See Class Schedule for specific content.

720. Educational Human Resource Development in Postsecondary Education (3)

Prerequisite: Consent of instructor.

Human resource management including selection and evaluation of staff, contract management, and staff development. Personnel managerial styles, staff leadership, and motivation techniques as to morale and productivity. Analysis of educational personnel systems and employee programs.

727. Emerging Issues in Postsecondary Educational Leadership (3)

Prerequisite: Consent of instructor.

Identification and analysis of emerging local, national, and international issues impacting education.

730. Seminar in Adult Learning (3)

Prerequisite: Administration, Rehabilitation and Postsecondary Education 611.

Patterns and implications for adult life-long learning. Emphasizes adult learning principles and styles, effects of adult development changes on learning, and adult teaching styles.

740. Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)

Prerequisite: Consent of instructor.

Study of a selected area in administration, rehabilitation or postsecondary education, such as educational law, finance, supervision, personnel procedures, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units applicable to a master's degree.

743. Fieldwork in Rehabilitation (3-6) Cr/NC

Prerequisite: Admission to graduate program in rehabilitation counseling.

Orientation to the rehabilitation process including organizational goals, operating strategies, responsibilities and ethics, employee role expectations in partnership with consumers and service providers. Maximum credit six units applicable to a Master of Science degree in rehabilitation counseling.

744. Practicum in Rehabilitation (3-12) Cr/NC

Prerequisite: Admission to graduate program in rehabilitation counseling.

Clinical supervision within rehabilitation systems as it relates to outreach and referral, career development, counseling, and caseload management. Maximum credit 12 units applicable to a Master of Science degree in rehabilitation counseling.

745. Internship in Rehabilitation (3-9) Cr/NC

Prerequisite: Completion of at least 24 units leading to Master of Science in rehabilitation counseling.

Supervised internship in rehabilitation setting which involves application of rehabilitation counseling experiences. Maximum credit of nine units applicable to a Master of Science degree in rehabilitation counseling.

746. Seminar in Rehabilitation with Consumers Who Are Deaf and Hard of Hearing (3)

Prerequisite: Consent of instructor.

Characteristics and needs of deaf and hard of hearing consumers. Procedures for collaborating with consumers to develop effective rehabilitation plans, supported employment, independent living and cross-cultural counseling through American sign language.

747. Educational Leadership in a Diverse Society (3)

Prerequisite: Consent of instructor.

Current theory and practice in meeting needs of diverse learners. Leadership and administration of educational organizations as political, complex systems requiring consensus-building dynamics in a multicultural society.

755. Governance and Policy Development in Postsecondary Education Learning Organizations (3)

Prerequisite: Consent of instructor.

Development of educational policy and impact of politics in governance and administration; control functions of federal, state, and local agencies; influence of lay citizens and special interest groups; roles of judiciary, employee organizations and students.

760. Internship in Educational Leadership (2-6) Cr/NC/RP

Prerequisite: Consent of instructor.

Internship for prospective educational leaders. Released time may be required. May be repeated. Maximum credit 12 units applicable to the Professional Administrative Services Credential.

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of instructor; to be arranged with department chair and instructor. May involve fieldwork.

Individual study. Maximum credit six units applicable to a master's degree.

Courses Acceptable on Master's Degree Programs in Counseling (CSP)

UPPER DIVISION COURSES

585A. Human Sexuality for Counselors (3)

Prerequisite: Upper division course in human sexuality.
Dimensions of human sexuality that bear directly on role and function of helping professions. Human sexual development, sexual variations, sexual dysfunctions, intimate lifestyles, treatment modalities and sexual ethics. Fulfills MFCC licensure requirement.

585B. Dynamics of Adjustment Behavior (3)

Prerequisite: Upper division course in abnormal psychology.
Philosophies and dynamics of adjustment behavior, patterns and types of abnormal behavior, and treatment modalities. Fulfills MFCC licensure requirement.

596. Selected Studies (1-3)

Prerequisite: Consent of instructor.
A series of lecture and discussion sessions centering on current problems in counseling and guidance. Designed to serve the needs of any person desiring to keep informed of developments in this area. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Counseling Communication Skills (2)

Prerequisite: Concurrent registration in Counseling and School Psychology 600L.

Introduction to the discipline of counseling, fields utilizing this discipline, and concepts underlying effective counseling practice and interpersonal communication.

600L. Counseling Prepracticum (1) Cr/NC

Three hours of practicum.
Prerequisite: Credit or concurrent registration in Counseling and School Psychology 600.

Development of self-understanding. Communication skills needed for becoming an effective counselor.

605. Seminar in Ethical and Legal Issues for Counselors (3)

Prerequisite: Credit or concurrent registration in Counseling and School Psychology 600.

Ethical and value issues. Code of ethics and professional standards of major professional mental health associations from a case study perspective. Legal obligations, constraints, and privileges of marriage, family, and child counselors, school counselors, and psychologists.

610. Determinants of Human Behavior (3)

Implications of theory and research in behavioral sciences for the understanding of human behavior.

- | | |
|------------------------|--------------------|
| A. Personality | D. School Learning |
| B. Social and Cultural | E. Biological |
| C. Development | |

615. Seminar in Multicultural Dimensions in Counseling (3)

Issues, insights and techniques for improving effectiveness in working with culturally different populations.

620. Guidance Services in Public Education (3)

Historical, philosophical and legal bases of pupil personnel services; staff roles and relationships in a variety of organizational patterns.

621. Introduction to School Psychology (3)

Introduction to school psychology: roles (assessing, counseling, consulting); skills (innovative techniques, consultation); and issues (modifying the system, multicultural impact).

640. Theory and Process of Appraisal (3)

Prerequisite: Education 690.
Measurement theory and procedures, including interpretation of test results. Not open to students with credit in Counseling and School Psychology 645.

642A-642B. Individualized Appraisal of Learning Characteristics (4-4)

Three lectures and three hours of laboratory.
Prerequisite: Counseling and School Psychology 640. Counseling and School Psychology 642A is prerequisite to 642B.

Administration and interpretation of instruments and techniques for assessing learning characteristics of children from multicultural settings. 642A: Individualized intellectual assessment of school-aged children. 642B: Scholastic status, learning aptitudes, social maturity, interpersonal relations and behavioral adjustment.

645. Career Development and Assessment (3)

Prerequisites: Counseling and School Psychology 620 and admission to school counseling program.

Theories and methods in providing assessment models and career development programs in K-12 school settings. Role of counselor as developer and coordinator of activities, resources and school-to-work opportunities. Assessment models, methods, implications for diverse populations, and test bias.

660. Theory and Process of Counseling (3)

Prerequisites: Counseling and School Psychology 600 and 600L.

Counseling process theories, approaches to and techniques for counseling, and research concerning counseling effectiveness. Not open to students with credit in Counseling and School Psychology 667 or Administration, Rehabilitation and Postsecondary Education 660.

662. Counseling Interventions with Children and Adolescents (3)

Prerequisites: Counseling and School Psychology 610C and 660.

Counseling theories, processes and approaches appropriate to children and adolescents in multicultural school and community settings. Application of theories and research for individual, group, and systems interventions.

670. Theory and Process of Group Counseling (3)

Prerequisites: Counseling and School Psychology 600, 600L, and 610B.

Group process, theories of group interaction, and group leadership techniques with children, adolescents, adults, couples, and families. Not open to students with credit in Counseling and School Psychology 667.

680. Theory and Process of Consultation (3)

Prerequisites: Counseling and School Psychology 600 and 600L.

Consultation theory, process, and research for counselors and school psychologists. Emphasis on mental health and problem-solving consultation in multicultural education and mental health settings.

684. Family Life Cycle Development (3)

Prerequisite: Counseling and School Psychology 610C.

Family development examined within sociocultural and temporal contexts. Addresses predictable and crisis transitions and implications for family therapy treatment.

685. Theories of Marriage and Family Therapy (3)

Prerequisite: Counseling and School Psychology 660.

Counseling modalities, family intervention strategies and techniques of co-counseling in marriage and family therapy. Systems approaches and behavioral contracting. Fulfills MFCC licensure requirement.

686. Seminar: Gender and Ethnicity in Family Therapy (3)

Prerequisites: Counseling and School Psychology 685 and 740.

Integration of gender and cultural factors into family systems therapy theory and practice.

687. Family Treatment of Substance Abuse (1)

Prerequisite: Counseling and School Psychology 685.

Systemic models of intervention for families and couples presenting problems related to substance abuse. Includes treatment issues of interdependence, power, intimacy, generational patterns, addiction, and relapse. Fulfills MFCC licensure requirement.

688. Family Systems Assessment of Child Abuse (1)

Prerequisite: Counseling and School Psychology 685.

Examines child abuse assessment within individual, family socio-cultural, developmental and systemic frameworks. Treatment goals, issues and strategies derived from family systems therapies. Fulfills MFCC licensure requirement.

689. Family Counseling in the Schools (1)

Prerequisite: Counseling and School Psychology 685.

Roles and approaches of family counselor in working with schools for children's school-based problems. Family systems theory and practice applied to family-school interface, cultural interaction, specific symptomatology, and professional and ethical issues.

691. Violence in Couples' Relationships (1)

Prerequisite: Counseling and School Psychology 685.

Sociocultural, developmental, family and individual contexts of violence in couples' relationships. Assessment with a focus on systemic ideas and practices. Legal, ethical, and person-of-the-therapist influences on assessment.

692. Seminar in Couples in Therapy (3)

Prerequisite: Counseling and School Psychology 684 and 685.

Explores and applies theory and practice of therapy with couples in premarital, marital, non-marital, divorce, recoupling, and remarriage situations. Intra and intercultural issues and gender factors in coupling. Discussion of specific problems such as infidelity or depression.

696. Selected Topics in Counseling and School Psychology (1-3)

Prerequisite: Consent of instructor.

Intensive study in specific areas of counseling and school psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

710A-710B. Professional Seminar (3-3)

Prerequisites: Education 690. Six units from Counseling and School Psychology 640, 660, and 670. Counseling and School Psychology 710A and 740 are prerequisite to 710B.

Study of selected areas in counseling or school psychology culminating in a written project with emphasis on counseling as a profession. See Class Schedule for specific content. May be repeated with new content. Maximum credit nine units applicable to a master's degree.

730. Fieldwork in Counseling (2-6) Cr/NC

Prerequisite: Counseling and School Psychology 660 or 662 or 670.

Application of concepts and procedures of counseling or school psychology services in appropriate school or agency setting. Daily observation and practice. Weekly seminar sessions with university staff. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master's degree in counseling.

740. Practicum: Individual Counseling (1-6) Cr/NC

Prerequisite: Counseling and School Psychology 660.

Supervised experience in individual counseling and career planning. May be repeated with new content. Maximum credit nine units applicable to a master's degree in counseling.

741. Practicum: Group Counseling (3) Cr/NC

Prerequisite: Counseling and School Psychology 670.

Supervised experience in group counseling and career planning. May be repeated with new content. Maximum credit six units applicable to a master's degree.

745. Program Development and Evaluation in Pupil Services (3)

Prerequisites: Counseling and School Psychology 620, 730, and Education 690.

Development, management, and evaluation of pupil services in schools. Analysis of models and practice in planning.

750. Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC

Prerequisite: Counseling and School Psychology 740.

Supervised experience in individual counseling and study of problems, issues, and research. May be repeated. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree in counseling.

752. Seminar and Practicum: School Psychology (3-6) Cr/NC

Nine hours of practicum for three units.

Prerequisites: Counseling and School Psychology 730, credit or concurrent registration in Counseling and School Psychology 642A-642B.

School psychology in multicultural school settings; implications for standard and innovative school psychology practices.

760. Advanced Seminar in School Psychology (3)

Prerequisites: Counseling and School Psychology 621, 710A, and 752.

Study of selected areas in school psychology which culminates in a written project with emphases on research, problems and/or issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

770. Advanced Seminar in Counseling (3)

Prerequisite: Advancement to candidacy or counseling experience.

Selected areas in counseling culminating in a written project with emphasis on research, problems, and issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

780. Internship (2-12) Cr/NC

Prerequisite: Counseling and School Psychology 730.

Supervised internship experience in counseling or school psychology activities. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master's degree. Maximum credit 24 units applicable to the specialization in school psychology.

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree. May involve fieldwork.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the Master of Science degree in counseling.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Thesis 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Leadership
Carolyn J. Downey, Ph.D., Associate Professor of Educational
Leadership

Courses Acceptable on Master's Degree Programs in Education (EDL)

UPPER DIVISION COURSE

596. Topics in Educational Leadership (1-3)

Selected problems in educational leadership. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Principles of Educational Administration (3)

Educational administration and leadership as a profession. Related organizational concepts and management theories. Principles and competencies for leadership and administrative practice as each relates to the aspiring school administrator. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 600.)

610. Educational Leadership in PreK-12 Educational Organizations (3)

Concepts and techniques of leadership, analysis of factors and practice in procedures of individual and group leadership as applied to preK-12 educational environments. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 610.)

630. Curriculum Design and Management (3)

Prerequisites: Educational Leadership 610 and classified graduate standing.

Administrator's role in curriculum leadership and management in elementary, middle, and secondary school; emphasis on interrelationships within levels; supervision of curricular and supervisory personnel; use of research in curriculum development and implementation. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 630.)

652. Seminar in Instructional Improvement and Evaluation (3)

Prerequisites: Educational Leadership 630 and classified graduate standing.

Improvement of instruction through application of principles and practices in assessment of teaching competency; development of teaching profiles; leadership skills in working with teachers to improve performance. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 652.)

655. Administering Educational Organizations (3)

Prerequisite: Educational Leadership 610.

Principles and practices in the administration and leadership of elementary, middle, junior high, and secondary schools and other educational organizations. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 655.)

660. Field Experience in Educational Leadership (1-6) Cr/NC/RP

Prerequisites: Nine units of required coursework in educational leadership; classified graduate standing in the educational administration program.

Supervised field experience in schools or other educational settings. Monthly sessions with university faculty. Application to take this course must be made during preceding semester. Maximum credit 10 units of which 4 units are applicable to a master's degree. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 660.)

680. Seminar in PreK-12 Educational Administration (2-6)

Prerequisite: Consent of instructor.

Educational administration in preK-12 schools and school districts. Field experience when appropriate. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 680.)

696. Advanced Topics in Educational Leadership (1-3)

Prerequisite: Twelve units in educational leadership.

Intensive study in specific areas of educational leadership. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

707. Educational Law and Finance (3)

Prerequisites: Completion of a graduate degree and approval of department.

Legal and financial aspects of educational administration including implications for policy formulation in the areas of personnel, instruction, and resource management. (Formerly numbered Administration, Rehabilitation and Postsecondary Education 707.)

720. Human Resource Development in PreK-12 Educational Organizations (3)

Prerequisites: Completion of a graduate degree and approval of department.

Human resource management in preK-12 educational administration including selection and evaluation of staff, contract management, and staff development. Personnel managerial styles, staff leadership, and motivation techniques as to morale and productivity. Analysis of educational personnel systems and employee assistance programs. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 720.)

727. Emerging Issues in PreK-12 Educational Organizations (3)

Prerequisites: Completion of a graduate degree and approval of department.

Identification and analysis of emerging local, national, and international issues impacting preK-12 educational organizations. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 727.)

740. Advanced Seminar in PreK-12 Educational Leadership and Administration (3)

Prerequisite: Consent of instructor.

Study of a selected area in preK-12 administration in educational organizations, such as educational law, finance, supervision, personnel procedures, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units applicable to a master's degree. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 740.)

747. Leadership in Diverse PreK-12 Educational Organizations (3)

Prerequisites: Completion of a graduate degree and approval of department.

Current theory and practice in meeting needs of diverse learners. Leadership and administration of preK-12 educational organizations as political, complex systems requiring consensus-building dynamics in a multicultural society. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 747.)

755. Governance and Policy Development in PreK-12 Learning Organizations (3)

Prerequisites: Completion of a graduate degree and approval of department.

Development of preK-12 educational policy and impact of politics in governance and administration; control functions of federal, state,

and local agencies; influence of lay citizens and special interest groups; roles of judiciary, employee organizations and students. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 755.)

760. Internship in PreK-12 Educational Organizations (2-6) Cr/NC/RP

Prerequisite: Consent of instructor.

Internship for prospective preK-12 educational administrators. Application to take this course must be made in the preceding semester by preregistration with the credential program coordinator. Released time may be required. May be repeated. Maximum credit 12 units applicable to the Professional Administrative Services Credential. (Formerly offered as Administration, Rehabilitation and Postsecondary Education 760.)

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor. May involve fieldwork.

Individual study. Maximum credit six units applicable to a master's degree.

Courses Acceptable on Master's Degree Program in Education (EDTEC)

UPPER DIVISION COURSES

532. Production of Instructional Materials (3) I, II

Six hours of activity.

Instructional media production for professionals in organizational settings such as hospitals, law offices, accounting firms, publishing companies. Use of web pages, video, presentation software, and data analysis tools for training. Not open to students in educational technology degree and certificate programs or to students with credit in Educational Technology 541.

540. Educational Technology (3) I, II, S

Six hours of activity.

Rationale, foundations, theories, careers, trends, and issues in educational technology. Implications of educational technology for instruction and information in schools, government, and corporations.

541. Web-Based Multimedia Development (3) I, II, S

One lecture and six hours of laboratory.

Prerequisite: Basic computer literacy.

Systems, aesthetic, and learning theories applied to design of web-based educational multimedia. Planning and prototyping digital media. Not open to students with credit in Educational Technology 532.

544. Instructional Design (3) I, II

One lecture and six hours of laboratory.

Prerequisites: Educational Technology 540 and 541. Pass GRE Writing Assessment Test or complete Rhetoric and Writing Studies 503W with a grade of B+ or better.

Systematic design of products for education and training. Use of cognitive task analysis to determine instructional content. Development of instructional goals and product specifications. Rapid prototyping of instructional products.

550. Introduction to Distance Education (3)

Two lectures and three hours of laboratory.

Prerequisites: Educational Technology 540, 541, 544, or equivalent experience in the field.

Terminology, concepts, instructional strategies, and technologies of distance education. Designing, facilitating, and managing courses at a distance. Overview of social issues, historical perspectives, and current trends. Analyzing distant learner profiles, needs, and skills. Telecommunicating, instructing, and providing feedback.

561. Advanced Web-Based Multimedia Development (3) I, II, S

Six hours of activity.

Prerequisites: Educational Technology 540 and 541.

Two- and three-dimensional graphics, visualization, animation, digital video, sound, and virtual reality techniques. Research-based guidelines, design languages applied to development of interactive web-based learning systems.

570. Advanced Teaching with Technologies (3) I, II

Prerequisite: Educational Technology 470.

Design of constructivist lessons and units using Internet resources. Use of visual organizing tools and databases for instruction and assessment. Tools for professional knowledge base organization and electronic portfolios.

572. Technology for Course Delivery (3) I, II, S

One lecture and six hours of laboratory.

Prerequisites: Educational Technology 540 and 541.

Use of technology to support planning, presenting and managing instructor-led courses.

596. Topics in Educational Technology (1-3) I

Selected problems in educational technology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

640. Psychology of Technology-Based Learning (3)

Six hours of activity.

Prerequisite: Educational Technology 544.

Principles of human learning and cognition applied to design and use of technology-based learning systems. Development of research-based guidelines for designing educational products and services.

644. Advanced Instructional Design (3)

Two lectures and three hours of laboratory.

Prerequisites recommended: Educational Technology 540 and 544.

Roles and theories associated with instructional design. Problem solving on current design issues. Needs assessment and product development for community based clients.

650. Distance Education (3)

Two lectures and three hours of laboratory.

Prerequisites: Educational Technology 550 and 561. Recommended: Educational Technology 572.

Theories and models of tele-education at home, place of work and school. Design, development, and evaluation of instructor-led and learner-directed tele-lessons for integrated electronic dissemination systems. Social, economic and organizational context of learning at a distance.

653. Cyberculture and Learning Systems (3)

One lecture and six hours of laboratory.

Prerequisite: Educational Technology 561.

Narrative, dramatic, artistic, and musical structures in design and analysis of dynamic learning systems.

670. Exploratory Learning Through Simulation and Games (3)

One lecture and six hours of laboratory.

Prerequisites: Educational Technology 540 and 541.

Design, evaluation and use of simulations and games for education and training. Instructional applications of computer-based simulations, interactive fiction, board games and role play.

671. Learning Environment Design (3)

One lecture and six hours of laboratory.

Prerequisites: Educational Technology 544 and 561.

Advanced design of reusable learning objects; usability testing; learning management systems; interface design.

684. Management of Educational Technology (3)

Six hours of activity.

Prerequisite recommended: Educational Technology 544.

Research reviewed and findings related to current practices. Management of instructional design and training projects and programs. Role of educational technology and training in organizations. Recent trends evaluated.

685. Informational and Instructional Technologies for Organizations (3)

Six hours of workshop and activities.

Prerequisites: Educational Technology 540 and 541.

Organizational and informational systems that support instructional products and services. Individual, team, and organizational analyses. Incentives, feedback, coaching, job-aids, selection, knowledge management, and other performance improvement strategies.

700. Seminar in Educational Technology (1-3)

Prerequisite: Educational Technology 540.

Selected areas, topics in educational technology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

775. Directed Internship in Educational Technology (2-6) Cr/NC

Prerequisite recommended: Educational Technology 644.

Supervised internship in an educational or training setting. Application to take course must be made during preceding semester.

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

Ernesto Sanz, M.A., Clinical Professor of Policy Studies in Languages and Cross-Cultural Education

Courses Acceptable on Master's Degree Programs in Education (PLC)

UPPER DIVISION COURSES

515. Bilingual Teaching Strategies (3)

Legal and historical context for bilingual education; bilingual program models and teaching strategies; language and academic assessment methods for grouping and evaluating bilingual students. Fieldwork required.

553. Language Assessment and Evaluation in Multicultural Settings (3)

Theories and methods of assessment and evaluation of diverse student populations including authentic and traditional models. Procedures for identification, placement, and monitoring of linguistically diverse students. Theories, models, and methods for program evaluation, achievement, and decision making.

596. Special Topics in Bilingual and Multicultural Education (1-3)

Prerequisite: Consent of instructor.

Selected topics in bilingual, cross-cultural education and policy studies. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Foundations of Democratic Schooling (3)

Prerequisite: Consent of instructor.

Analysis of relationships among ideology, culture, and power in educational context; key concepts in critical pedagogy applied to programs, curricula, and school restructuring.

601. Language Policies and Practices (3)

Prerequisite: Consent of instructor.

Formal and informal policies related to education of linguistically diverse students at micro/macro level and in school contexts; analysis of bilingual and cross-cultural issues in cognition and literacy. (Formerly numbered Policy Studies in Language and Cross-Cultural Education 653.)

602. Cross-Cultural Context of School Communities (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.

Cultural competence values and behaviors; status equalization; and sociolinguistic repertoire within learning situations. How organizational policies and practices and diversity impact individuals and institutions.

603. Community and Schools in a Diverse Society (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.

Linguistic and cultural diversity of school and community. Development of community sociocultural scan; home and school collaboration; effects of home and school collaboration on achievement; responsibility of parent caretaker, stakeholder for student success.

612. Educational Ethnography in Multicultural Settings (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.

Theories, models, and techniques of ethnographic research as applied to classroom and community in multicultural settings, focusing on linguistic, paralinguistic, sociolinguistic and proxemic behaviors of teachers and students.

613. Organizational Strategies and Professional Development for the Multicultural School Community (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.

Leadership and change strategies for designing and implementing instructional programs, professional development approaches, effective organizational school climate that promotes a democratic society and schooling.

650. Bilingual/Cross-Cultural Curriculum Development and Practice (3)

Prerequisites: Policy Studies in Language and Cross-Cultural Education 600 and 601.

Theories of teaching models and curricula for multicultural contexts. Role of teachers as mediators of culture, language use and codes of power to promote biliteracy. Advanced concepts in critical pedagogy.

651. Multicultural Methods and Curriculum in Content Areas (1-3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.

Theories, methods, and curricular strategies for teaching content and cognition in and through English and other languages in multicultural settings. Meets CLAD certificate requirement.

652. Multicultural Methods and Curriculum in Language Arts (3)

Prerequisite: Policy Studies in Language and Cross-Cultural Education 650.

Theories, methods, and curricular strategies for teaching language arts and cognition in and through English and other languages in multicultural settings.

686. Seminar in Multicultural Education (1-6)

Prerequisite: Consent of instructor.

Topics dealing with current issues in multicultural education. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of instructor; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

901. Professional Portfolio I (1) Cr/NC

Prerequisite: Admission to B/CLAD multiple or single subject credential.

Development of classroom portfolios. Skills to capture "real life" experiences of students in school community to contextualize learning.

902. Professional Portfolio II (1) Cr/NC

Prerequisites: Policy Studies in Language and Cross-Cultural Education 901 and admission to B/CLAD multiple or single subject credential.

Continuation of portfolio development, including resume and cover letter, components on reflective teaching; and models for teaching approaches, strategies, and methodologies in all subject areas.

903. Bilingual Secondary Student Teacher Seminar (1-3) Cr/NC

Prerequisites: Policy Studies in Language and Cross-Cultural Education 924, 954, and concurrent registration in Policy Studies in Language and Cross-Cultural Education 964.

Planning and organizing instruction for Spanish/English bilingual and nonbilingual student teaching assignments. Focus on role of the bilingual teacher and discipline specific methods in English, ESL, mathematics, science, social science, and foreign language. Course taught in Spanish and/or English.

910. Teaching Mathematics to Bilingual Elementary Students (1-3)

Prerequisite: Admission to B/CLAD multiple subject credential program.

Underlying learning theories for teaching mathematical concepts, computation, and problem-solving skills to bilingual students. Taught in Spanish.

911. Teaching Social Studies to Bilingual Elementary Students (1-3)

Prerequisite: Admission to B/CLAD multiple subject credential program.

Conceptual approaches for teaching bilingual social studies curriculum, incorporating sociocultural characteristics of multicultural community, social concepts, and community social issues. Taught in Spanish.

912. Teaching Science to Bilingual Elementary Students (1-3)

Prerequisite: Natural Science 412A or 412B or 412C or 412D.

Strategies for development of process skills and concept acquisition. Methodology for teaching activity-oriented science class in English and Spanish. Taught in Spanish.

915. Teaching and Learning in the Content Area: English Language Development/SDAIE (1-3)

Prerequisites: Education 451, Policy Studies in Language and Cross-Cultural Education 515, and admission to B/CLAD or CLAD single subject credential program.

Teaching strategies in content specific fields from second language acquisition perspective taken concurrently with student teaching. See Class Schedule for specific content. May be repeated with new content. (Formerly numbered Policy Studies in Language and Cross-Cultural Education 914.)

A. Multiple Subjects

B. Single Subjects

923. Psychological Foundations of Education and Bilingual Students (3)

Prerequisite: Admission to B/CLAD multiple subject credential program.

Major theories of learning and cognition as applied to bilingual students and their relation to child development, first and second language acquisition, and approaches to teaching in bilingual classroom. Taught in Spanish and English.

924. Behavioral and Psychological Aspects of Teaching in the Bilingual Classroom (1-4)

Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 954 and 963; admission to the single subject bilingual emphasis program.

Bilingual learning theory as it affects adolescent growth, individualized instruction, classroom management and discipline, and methods of measuring and evaluating achievement. Taught in Spanish and English. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

931. Skills in Teaching Reading to Bilingual Elementary Students (1-3)

Prerequisite: Admission to B/CLAD multiple subject credential program.

Teaching reading in English, including methods, strategies, assessment, materials, and techniques of transition for implementing reading programs in the bilingual classroom.

932. Teaching Spanish Language Arts to Bilingual Elementary Students (3)

Prerequisite: Admission to B/CLAD multiple subject credential program.

Assessing language proficiency; selecting, designing, and evaluating learning experiences to develop Spanish and English language arts. Taught in Spanish.

933. Skills in Teaching Reading to Bilingual Secondary Students (3)

Prerequisites: Upper division standing. Admission to single subject bilingual emphasis program.

Methods of teaching and diagnosing reading skills in Spanish and English, including ESL methods and individualized instruction. Transition skills. Taught in Spanish.

953. Language Development in Bilingual Secondary Classrooms (3)

Prerequisite: Admission to B/CLAD single subject credential.

Political, sociocultural, and linguistic aspects of language development in bilingual secondary classrooms. Taught in English and Spanish.

954. Humanistic and Social Aspects of Teaching in the Bilingual Classroom (1-4)

Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 924 and 963; admission to the single subject bilingual emphasis program.

Interaction between school and society, including equity issues, values, sociocultural variables, achievement of Spanish/English bilingual students; models for appropriate curricula. Taught in Spanish and English. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

960. Student Teaching Seminar for Bilingual Elementary Students (1-3) Cr/NC

Prerequisites: Policy Studies in Language and Cross-Cultural Education 923 and admission to B/CLAD multiple subject credential program.

Bilingual instructional practices, classroom management, curricula discipline, micro-teaching in Spanish and English, legal liability, and daily problems encountered in the bilingual classroom. Taught in English and Spanish. Maximum credit six units.

961. Student Teaching for Bilingual Elementary Students (1-12) Cr/NC

Prerequisite: Admission to B/CLAD multiple subject credential program. Student must provide own transportation to student teaching site.

Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified time to comply with State requirements. Maximum credit 12 units.

962. Student Teaching for Elementary Bilingual Students II (1-12) Cr/NC

Prerequisite: Policy Studies in Language and Cross-Cultural Education 961.

Field experience in a multicultural setting or a bilingual elementary classroom. Maximum credit 12 units.

963. Student Teaching for Bilingual Secondary Students I (3-4) Cr/NC

Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 924 and 954; admission to the single subject bilingual emphasis program. Students must provide own transportation to student teaching site.

On-site, part-time experience to implement bilingual teacher competencies introduced in Policy Studies in Language and Cross-Cultural Education 515, 924, and 954.

964. Student Teaching for Bilingual Secondary Students II (9-12) Cr/NC

Prerequisites: Policy Studies in Language and Cross-Cultural Education 924 and 963; concurrent registration in Policy Studies in Language and Cross-Cultural Education 903. Students must provide own transportation to student teaching site.

On-site, full-day experience in State approved bilingual and nonbilingual classes to implement teacher competencies as developed in the total professional sequence. Maximum credit 12 units.

Eleanor W. Lynch, Ph.D., Professor of Special Education
Laura J. Hall, Ph.D., Associate Professor of Special Education
Eugene C. Valles, Ph.D., Associate Professor of Special Education
José Luis Alvarado, Ph.D., Assistant Professor of Special Education
John R. Johnson, Ph.D., Assistant Professor of Special Education
Angela S. McIntosh, M.A., Assistant Professor of Special Education

Courses Acceptable on Master's Degree Programs in Education (SPED)

UPPER DIVISION COURSES

500. Human Exceptionality (3) I, II, S

Historical, philosophical, and legal aspects of special education that affect identification and programming for diverse learners with exceptionalities. Characteristics of individuals with special needs and implications for adapting living and learning environments. Meets special education mainstreaming requirement for all basic teaching credentials.

501. Typical and Atypical Learning Processes (3)

Prerequisites: Credit or concurrent registration in Special Education 500; concurrent registration in Special Education 502.

Theory, research, and processes in learning in relation to individuals with disabilities. Foundations of learning, development, and intervention.

502. Field Experiences in General and Special Education (1)

Three hours of observation/ participation per week.

Prerequisites: Concurrent registration in Special Education 501.

Observation and participation in general and special education classrooms and related school activities for students with disabilities.

505. Educational Services for Students with Serious Emotional Disturbance (1)

Prerequisite: Admission to credential program.

Educational needs and services for students with serious emotional disturbance. Classroom interventions and procedures.

508. Characteristics and Identification of Students Who are Gifted and Talented (3)

Historical and theoretical foundations, alternative and critical perspectives, characteristics and needs, identification models for a diverse society.

510. Adapting Communication Systems for Students with Severe Disabilities (1)

Prerequisites: Admission to credential program.

Adaptations of communications and communication systems for students with disabilities. Educational strategies that special education teachers can use to augment classroom communications. Alternative approaches to communication for students with moderate/severe disabilities.

524. Characteristics of Students with Mild/Moderate Disabilities (3) I

Prerequisite: Special Education 500.

Historical and philosophical perspectives of programs related to students with mild/moderate disabilities. Research on educational programs, curricular approaches, and characteristics.

525. Characteristics of Students with Moderate/Severe Disabilities (3) I

Prerequisite: Special Education 500.

Historical and philosophical perspectives of programs related to students with moderate/severe disabilities. Research on educational programs, curricular approaches, and characteristics with emphasis on services in context of school reform.

526. Characteristics and Education of Students with Physical, Health, and Sensory Impairments (3)

Prerequisite: Special Education 500.

Historical and philosophical perspectives, characteristics, needs, and supports for individuals with physical, health, and sensory impairments in educational, home, and community settings. Implications of health concerns for programming.

527. Special Education in a Pluralistic Society (3)

Prerequisite: Credit or concurrent registration in Special Education 500.

Historical and philosophical perspectives of cultural pluralism in special education and programs related to diverse students with disabilities. Research on curricular approaches and instructional needs. Sociocultural aspects related to disability, race, ethnicity, gender, and language.

528. Young Children with Disabilities and Their Families (3)

Prerequisite: Special Education 500.

Characteristics, needs, and educational programs and services for infants, toddlers, and preschoolers with disabilities and their families. Legislative requirements, models of service delivery, recommended practices, and family diversity.

529. Characteristics and Education of Students with Serious Emotional Disturbances (3) I

Prerequisites: Special Education 500 and 501.

Historical and philosophical perspectives of programs for students with emotional disturbances and behavior disorders, including review of research on student characteristics, educational programs, and curricular approaches.

532. Service Coordination for Infants and Toddlers with Disabilities (2)

Prerequisite: Special Education 528.

Skills and strategies for educators who coordinate services for young children with disabilities and their families. Children with low incidence disabilities and coordination with their primary service providers.

534. Classroom Assessment of Students with Mild/Moderate Disabilities (3)

Prerequisite: Admission to credential program.

Classroom assessment in general and special education for students with mild/moderate disabilities. Curriculum-based data collection strategies. Influences of cultural and linguistic diversity, and implications for curricular and instructional adaptations.

535. Social Networks and Supports for Individuals with Moderate/Severe Disabilities (1)

Prerequisite: Special Education 525 and a minimum of nine units in a credential program.

Developing and maintaining social support networks in the classroom and community for individuals with moderate/severe disabilities. Theoretical, conceptual, and empirical bases for implementation models.

553. Behavioral Strategies and Supports for Students with Disabilities (3)

Prerequisites: Special Education 500 and 501.

Positive behavioral supports for students with disabilities in general and special education settings. Current theories and programs in functional assessment and behavioral change. Applications in educational and community environments with diverse students.

560. Applications of Technology for Individuals with Disabilities (3) I, II

Prerequisite: Special Education 500.

Educational applications of current technologies for learners with disabilities. Selection, modification, and classroom use of technologies to improve or bypass physical, sensory, communicative, learning, and social limitations.

570. Individualized Special Education Program Plans (1)

Prerequisite: Concurrent registration in Special Education 980.

Components of individualized education program plans, individualized family service plans, and individualized transition plans. Goals, objectives, and outcomes for program planning. Legal and ethical considerations.

596. Selected Topics in Special Education (1-4) I, II, S

Specialized study of selected topics in special education. May be offered as either a workshop or lecture/discussion. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

605. Advanced Behavioral and Health Supports (1)

Prerequisite: Admission to Level II credential or M.A. program in special education or related area.

Advanced approaches to dealing with behavioral crises and health issues in classroom, to include working with mental health specialists and school nurses.

634. Assessment: Students with Mild/Moderate Disabilities (2)

Prerequisites: Special Education 524 and 534.

Assessment for instructional decision making including alternative data collection strategies, models for analysis and synthesis of assessment information, influences of cultural and linguistic diversity, and implications for instruction.

635. Assessment: Early Childhood Special Education and Moderate/Severe Disabilities (3)

Prerequisite: Admission to credential program.

Models of assessment emphasizing observation and interviewing, performance-based approaches, transdisciplinary teaming, family-professional collaboration, and adaptations for specific disabilities, cultural, and linguistic diversity. Communicating and using assessment data for individualized program planning.

643. Educational Programs and Services for Young Children with Disabilities (3)

Prerequisite: Admission to credential program and concurrent registration in approved fieldwork.

Developing, implementing, and evaluating educational programs and services for young children with disabilities. Selecting and adapting curriculum and instructional approaches, collaborating with families from diverse cultural/linguistic backgrounds, and monitoring program effectiveness. Both Special Education 643A and 643B required. Maximum credit six units.

- A. Preschoolers
- B. Infants/Toddlers

644. Working with Gifted and Talented Students and Their Families (3)

Research-based instructional strategies to promote higher level and creative thinking; counseling approaches; services to families; issues in differentiating learning experiences.

645. Issues in Curriculum and Instruction for Students with Severe Handicaps (3)

Prerequisite: Special Education 525.

Design and implementation issues of instructional programs for students with severe handicaps; approaches which foster school and community integration and active family involvement will be analyzed.

646. Educational Adaptation for Ethnolinguistically Diverse Students with Mild/Moderate Disabilities (3)

Prerequisites: Special Education 527 and 634.

Data-based approaches to developing and selecting programs and establishing procedures for monitoring and evaluating progress of students with mild/moderate disabilities from diverse backgrounds.

647. Special Education Adaptations of Basic Skills Instruction (3)

Prerequisites: Admission to credential program and concurrent registration in Special Education 970.

Adaptations in curriculum and instruction in language development, reading, language arts, and mathematics for students with disabilities. Current research and practices related to linguistic, cultural, and ability differences.

648. Advanced Special Education Adaptations (3)

Prerequisites: Special Education 647 and concurrent registration in Special Education 980.

Advanced adaptations in curriculum and instruction in content areas, study skills, organizational strategies, and social and transition skills. English-as-a-second language approaches for students with disabilities. Research and practices related to linguistic, cultural, and ability differences.

649. Curriculum Models for Students Who Are Gifted and Talented (3)

Prerequisite: Credit or concurrent registration in Special Education 644.

Theory, research, and practice in curriculum design and program implementation for developing high potential.

650. Special Topics in Special Education (1-4)

Prerequisites: Special Education 500, 501.

Instructional sequences (mini-courses) focusing on a single topic or competency dealing with special education. Topics differ each semester to adjust to current literature in the field, training needs, and resource availability. Maximum combined credit of nine units for Special Education 650A, 650B, 650C, 650D applicable to a master's degree. Offered in four categories:

- | | |
|--|---|
| A. Consultant Skills/
Multidisciplinary Teams | C. Specialized Assessment
Techniques |
| B. Affective and Social
Development | D. Instructional Programming |

651. Legislation, Leadership, and Management for Special Education Services (3)

Prerequisite: Admission to Level II credential or M.A. program in special education or related area.

Implementation of laws, regulations, and compliance requirements in special education. Leadership approaches for managing school related services within a multidisciplinary context.

652. Parent Education and Staff Development in Special Education (3)

Prerequisites: Special Education 500 and 501, and 15 additional units of coursework in special education.

Issues relating to and development of skills for working with parents and school staff to develop skills and competencies needed to optimize the educational progress of students with handicaps.

653. Advanced Instruction, Collaboration, and Consultation in Special Education (3)

Prerequisites: Admission to Level II credential or M.A. program in special education or related area.

Advanced instruction, collaboration, consultation skills, and strategies for working with students, teachers, paraprofessionals, school personnel, other service providers, parents, and representatives from the community.

654. Adapting Curriculum for Community Involvement and Skill Generalization (3)

Prerequisite: Admission to Level II credential or M.A. program.

Designing and adapting curriculum to promote generalization of skills of individuals with moderate/severe disabilities for involvement across settings with a focus on community activities and organizations.

655. Leadership and Management in Early Childhood Special Education (3)

Prerequisite: Admission to Level II credential or M.A. program.

Program development and leadership in early childhood education with emphasis on recommended practices, legal and legislative issues, staff and parent development, funding, policy, and program evaluation.

658. Gifted Students from Diverse Backgrounds (3)

Designing programs that consider culture, ethnicity, economic background, language, gender, disability, sexual orientation, and underachievement.

662. Communication and Collaboration in Special Education (1)

Prerequisite: Admission to credential program and credit or concurrent registration in Special Education 980.

Communication and collaboration skills for working with teachers and other professionals, paraprofessionals, parents, and representatives from the community. Listening and questioning techniques, interpersonal processes, family systems and needs, conflict resolution, decision-making models, and team functions.

664. Issues Affecting Employment of Individuals with Severe Handicaps (3)

Prerequisite: Special Education 525.

Transition from school special education programs into supported employment and community living: research issues, applied practices, and innovative strategies for enhancing integrated adult options.

670. Seminar in Education of Exceptional Children (3)

Prerequisites: Special Education 524 or 525 or 526.

Principles, trends and research in the education of exceptional children.

677. Educational Management of Severe Behavior Disorders (3)

Prerequisite: Special Education 553.

Nature and educational treatment of severe behavioral problems in students with disabilities. Review of research on effectiveness of various interventions and development of skills needed to implement appropriate strategies to evaluate, manage and treat these behaviors.

681. Advanced Studies in Special Education (3)

Prerequisite: Special Education 524 or 525 or 528.

Educational theories, philosophies, research findings, issues and trends in area of exceptionality. Application of research to solution of educational problems. May be taken in each area of exceptionality:

- A. Mild/Moderate Disabilities
- B. Moderate/Severe Disabilities and Early Childhood
- C. Developing Gifted Potential

696. Advanced Topics in Special Education (3)

Prerequisite: Twelve units in special education.

Intensive study in specific areas of special education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

771. Directed Internship: Special Education (1-4) Cr/NC

Prerequisite: Permission of graduate adviser. Application to be made during previous semester.

Extensive daily participation or teaching in public schools and preparation for teaching of exceptional individuals. May be repeated with new content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-6) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

970. Practicum: Students with Disabilities in General and Special Education (2-4) Cr/NC

Fifteen hours of observation/participation per week.

Prerequisites: Special Education 502 and consent of credential adviser.

Participation in general and special education programs for students with disabilities; supervised by a special educator. Integration and application of skills and knowledge gained in credential coursework. May be repeated in other specialties. Maximum credit four units applicable to each credential program. May be taken only once for credit.

- A. Mild/Moderate Disabilities
- B. Moderate/Severe Disabilities
- C. Physical/Health Impairments
- D. ECSE: Infant/Preschool

971. Fieldwork in Special Education (2-3) Cr/NC

Supervised observation and participation in classroom and related school activities of students with disabilities. Maximum credit 12 units, of which no more than three units are applicable to a bachelor's degree.

975. Professional Development Planning in Special Education (1)

Prerequisite: Completion of Level I credential in special education.

Planning for professional development including demonstration of implementation of policies and practices appropriate for providing services to students with disabilities.

979. Fieldwork Seminar (1) Cr/NC

Prerequisites: Admission to credential program and concurrent registration in Special Education 980.

Analysis and critique teaching performances using such protocols as videotapes, case studies, and observational data. Not applicable to the M.A. degree.

980. Advanced Practicum in Special Education (1-12) Cr/NC

Prerequisite: Consent of credential adviser.

Culminating practicum for Education Specialist Credential (Level 1). Participation supervised by a special educator. May be repeated in other specialties.

- A. Mild/Moderate Disabilities
- B. Moderate/Severe Disabilities
- C. Physical/Health Impairments
- D. ECSE: Infant/Preschool

Alan McCormack, Ed.D., Professor of Teacher Education
Kathleen F. Mikitka, Ph.D., Professor of Teacher Education
Barbara Moss, Ph.D., Professor of Teacher Education
Valerie Ooka Pang, Ph.D., Professor of Teacher Education
Randolph A. Philipp, Ph.D., Professor of Teacher Education
Pamela J. Ross, Ph.D., Professor of Teacher Education
David W. Strom, Ed.D., Professor of Teacher Education
Gerald H. Treadway, Jr., Ed.D., Professor of Teacher Education

Debra Lynn Bayles Martin, Ph.D., Associate Professor of Teacher Education
Douglas Fisher, Ph.D., Associate Professor of Teacher Education
Margaret A. Gallego, Ph.D., Associate Professor of Teacher Education
Rich Gibson, Ph.D., Associate Professor of Teacher Education
Victoria R. Jacobs, Ph.D., Associate Professor of Teacher Education
Jaime L. Lujan, Ph.D., Associate Professor of Teacher Education
Dana Grisham, Ph.D., Associate Professor of Teacher Education
Jill K. Mora, Ed.D., Associate Professor of Teacher Education
Jesus Nieto, Ph.D., Associate Professor of Teacher Education
Cynthia Darche Park, Ph.D., Associate Professor of Teacher Education
Cathy A. Pohan, Ph.D., Associate Professor of Teacher Education
My Luong Tran, Ph.D., Associate Professor of Teacher Education
Randy K. Yerrick, Ph.D., Associate Professor of Teacher Education
Rebecca Ambrose, Ph.D., Assistant Professor of Teacher Education
André J. Branch, Ph.D., Assistant Professor of Teacher Education
Marva Cappello, Ph.D., Assistant Professor of Teacher Education
Alexander W. Chizhik, Ph.D., Assistant Professor of Teacher Education
Estella W. Chizhik, Ph.D., Assistant Professor of Teacher Education
Lisa L. Clement, Ph.D., Assistant Professor of Teacher Education
Jaye T. Darby, Ph.D., Assistant Professor of Teacher Education
Tan T. Phan, Ph.D., Assistant Professor of Teacher Education
Donna L. Ross, Ph.D., Assistant Professor of Teacher Education

Courses Acceptable on Master's Degree Programs in Education (TE)

UPPER DIVISION COURSES

511. Diagnosis and Remediation of Difficulties in Mathematics (3)

The assessment and remediation of underachievers in mathematics. Techniques in determining difficulties in mathematics and prescribing remedial work; for use by elementary and secondary classroom teachers and mathematics education specialists.

525. Discipline and Classroom Management (3) I, II

Prerequisite: Six upper division units in education, psychology or sociology.

Analysis of research and theories of classroom discipline, management, and teaching effectiveness, with practical application to the elementary and secondary classroom setting.

526. Teaching the Special Child in the Regular Classroom (2)

Prerequisite: Teaching credential or admission to multiple or single subject credential programs.

Knowledge, skills, and instructional programs for teaching handicapped students in the regular classroom. Meets the mainstreaming requirements for the California Multiple Subject credential (clear). Not open to students with credit in Special Education 550, Teaching the Special Child in the Regular Classroom.

530. Children's/Adolescents' Literature (3) I, II

Survey of children's/adolescents' literature and its incorporation into the classroom curriculum.

596. Topics in Teacher Education (1-3 or 6) RP* I, II

Designed to meet the needs of individuals or groups of teachers who wish to develop or continue the study of some problem. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum six units of 596 and 696 applicable to a 30-unit master's degree.

* Specified sections.

GRADUATE COURSES

600. Curriculum Development in Education (3)

Prerequisite: Consent of instructor.

Advanced study of the research in curriculum development, construction and evaluation.

604. Advanced Problems in Instruction (3)

Prerequisites: Teaching experience and consent of instructor.

Scientific research and philosophical principles which underlie school instruction.

605. Innovations in Instruction (1-3)

Prerequisite: Teaching experience.

Exploration of innovative instructional practice in the public and private schools, with emphasis on innovative teaching strategies. An evaluation of the motivational effect and structural validity of promising instructional practices. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree.

607. Seminar in Research in Curricular Problems (1-3)

Prerequisites: Consent of the Director of the School of Teacher Education and instructor.

Individual study by graduate students who have demonstrated exceptional ability. Maximum credit three units applicable to a master's degree.

610A. Seminar in Mathematics Education – Elementary School (3)

Prerequisite: Consent of instructor.

Factors affecting the elementary school mathematics curriculum; recent trends and current research in the teaching of elementary school mathematics.

610C. Seminar in Science in Elementary Education (3)

Prerequisite: Consent of instructor.

Advanced study of the problems of teaching science in the elementary school with emphasis on the literature of science education.

626. Advanced Educational Psychology (3)

Prerequisite: Teacher Education 923 or valid teaching credential.

Advanced study of the research in educational psychology and its application to learning and human growth.

630. Seminar in Reading Education (3)

Prerequisite: Education 690.

Advanced study of trends in reading instruction. Topics include developmental sequences in reading skills and abilities, reading in the content fields, individual differences and interests. Students will develop individual projects or problems.

631. Seminar in Language Arts (3)

Advanced study of problems in teaching language arts. The study of the scientific research and application in the field.

633. Leadership in Literacy Education (1)

Prerequisite: Concurrent registration in Teacher Education 736.

Planning, presenting, and evaluating professional development activities in literacy education for teachers at the K-12 level.

634. Seminar in Research Investigations in Reading and Language Arts (4)

Prerequisite: Consent of instructor.

Emphasis on interpreting, evaluating, conducting, and implementing findings of research and evaluation in reading and language arts.

635. Assessment of Reading and Language Arts (3)

Two lectures and two hours of activity.

Prerequisites: Valid teaching credential; course in methods and materials for teaching reading.

Theoretical knowledge and practical skill in assessing reading and language arts using both formal and informal measures focusing on grades K-3.

636. Advanced Assessment of Reading and Language Arts (3)

Prerequisites: Teacher Education 635; valid teaching credential; course in methods and materials for teaching reading.

Acquisition and assessment of personal literacy as supported throughout an individual's lifetime; supervised experience using assessment materials. Formal and informal literacy measures in grades 4-12.

637. Instructional Strategies for Reading and Language Arts (4)

Three lectures and two hours of activity.

Prerequisites: Teacher Education 635 and 636.

Supervised teaching experience utilizing instructional activities in individual and small group settings.

638. Topics in Reading Education (1-6)

Prerequisite: California Teaching Credential.

A variety of instructional sequences (mini-courses), each focusing on a single topic or competency dealing with reading instruction. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

639. Literacy and Language (3)

Prerequisite: Teacher Education 930 or 933.

Theories of literacy and methods for developing literacy in language, reading and writing. Instructional methods and assessment techniques for children and adults.

646. Seminar in Educational Measurement (3)

Problems in educational testing. Emphasis on construction, administration and validation of teacher-made tests.

652. Change in Education (3)

Prerequisite: Valid teaching credential.

Examination of the process of change in education, analysis of recent major changes and study of techniques for effecting change.

655. Sociocultural Foundations of American Education (2 or 3)

Prerequisite: Admission to teacher education.

Historical and philosophical nature of American schools as it relates to equity, pedagogy, and curriculum. Issues of equity, race, culture, gender, ethnicity, sexual preference, and social issues as they impact the classroom.

657. Philosophy of Education (3)

Advanced study of philosophical backgrounds of educational thought; a study of comparative philosophies, and an analysis of selected current trends and problems.

660. Early Literacy and Early Intervention in Reading Recovery® (3)

Prerequisites: Admission to reading recovery program and concurrent registration in Teacher Education 662 and 664.

Theoretical foundations underlying various aspects of reading and writing processes, early reading difficulties, oral language development and acquisition, early research and subsequent development of reading recovery.

661. Theoretical Foundations of Literacy, Language, and Learning in Reading Recovery® (3)

Prerequisites: Admission to reading recovery program and concurrent registration in Teacher Education 663 and 665.

Theories about teaching and learning, reading and writing process, language development, comprehension, issues of literacy and culture, phonemic and phonological awareness, and Clay's theory.

662. Clinical Foundations of Reading Recovery® I (3)

Prerequisites: Admission to reading recovery program and concurrent registration in Teacher Education 660 and 664.

Develop expertise assessing and observing children, develop expertise in teaching children at risk of reading failure, and examine teacher leader role as teacher of reading recovery teachers.

663. Clinical Foundations of Reading Recovery® II (3)

Prerequisites: Admission to reading recovery program, Teacher Education 662, and concurrent registration in Teacher Education 661 and 665.

Refinement of reading recovery teaching procedures based on theory and examination of teacher leader role as it pertains to teaching reading recovery teachers-in-training.

664. Practicum in Leadership for Reading Recovery® Teacher Leaders I (3)

Prerequisites: Admission to reading recovery program and concurrent registration in Teacher Education 660 and 662.

Reading recovery as a system intervention to include multiple roles of teacher leader, teacher education, organization and implementation, guidelines and rationales of reading recovery, and educational change.

665. Practicum in Leadership for Reading Recovery® Teacher Leaders II (3)

Prerequisites: Admission to reading recovery program, Teacher Education 664, and concurrent registration in Teacher Education 661, 663.

Reading recovery as a system intervention to include teacher education, organizational and implementation issues, guidelines and rationales of reading recovery, educational change, and role of teacher leader as researcher.

696. Selected Topics in Teacher Education (1-3)

Prerequisite: Valid teaching credential.

Intensive study in specific areas of teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of any 596 or 696 offered by the College of Education on a master's degree.

736. Field Experience as a Reading Specialist (2)

Prerequisites: Eighteen units of core courses. Concurrent registration in Teacher Education 633.

Individually designed practicum for the reading specialist.

790. Seminar in Teacher Education (3)

Prerequisite: Advancement to candidacy.

Intensive consideration of selected topics of current importance in teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-6) Cr/NC/FP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. May involve fieldwork. Maximum credit six units applicable to a master's degree.

902. Classroom Management Skills (1)

Prerequisite: Provisional or complete admission to multiple subject credential program.

Skills in interpreting the legal aspects of education, identifying various kinds of school and classroom organization, and using instructional media and verbal stimuli to facilitate learning.

903. Secondary School Student Teaching Seminar (1-3) Cr/NC

Prerequisites: Teacher Education 922, 933, 954, 963. To be taken concurrently with Teacher Education 964.

To plan and organize instruction in relation to all competencies acquired and to be implemented in an on-site, full-time student teaching assignment. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units.

910A. Teaching Mathematics in the Elementary School (1-3)

Prerequisite: Admission to multiple subject credential program, education specialist credential program, or possession of a teaching credential.

Instructional methods for development of children's conceptual understanding, computational, and problem-solving skills in mathematics, including use and development of materials and programs.

910B. Teaching Social Studies in the Elementary School (1-3)

Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.

Developing curriculum, principles and materials of instruction, including instructional media and participation in elementary social studies education.

910C. Teaching Science in the Elementary School (1-3)

Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.

Developing research-based science curriculum, principles and materials of instruction, including instructional media and participation in elementary science education.

914. Teaching and Learning in the Content Area: Major (3)

Prerequisite: Admission to teacher education credential program.

Teaching strategies in content specific fields of study taken concurrently with student teaching. May be repeated with new content. See Class Schedule for specific content.

922. Behavioral and Psychological Aspects of Teaching (1-4)

Prerequisite: Admission to single subject credential program. To be taken concurrently with Teacher Education 954 and 963.

Teacher competencies as they relate to learning theories, adolescent growth, self-assessment, measurement and evaluation. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

923. Psychological Foundations of Education (1-3)

Prerequisites: Psychology 101 and admission to multiple subject credential program.

Implementing learning process through interactive skills, using instructional principles to facilitate learning and changes in behavior and techniques used in assessing instruction and pupil growth.

930. Teaching Reading and Language Arts in the Elementary School (1-6)

Prerequisite: Admission to multiple subject credential program, education specialist credential program, or possession of a teaching credential.

Selecting, designing, and evaluating appropriate learning experiences to assure children's growth in reading and language arts. Includes nature of reading and language arts as a human behavior, various approaches, materials, and techniques used in teaching reading and language arts. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. (Formerly numbered Teacher Education 930A-930B.)

933. Teaching of Reading in the Secondary School (3)

Teacher competencies as they relate to the teaching of reading/writing and diagnosing needs in the content areas. For students completing a credential at SDSU, this course must be taken concurrently with enrollment in first or second semester single subject credential program.

950. Community Study Skills (1-2)

Two to four hours of activity.

Prerequisite: Provisional or complete admission to multiple subject credential program.

Skills in observing and interpreting professional values and the diversity of social, cultural, economic and educational values within elementary school communities.

954. Humanistic and Social Aspects of Teaching (1-4)

Prerequisite: Admission to single subject credential program and concurrent registration in Teacher Education 922 and 963.

Teacher competencies as they relate to values, awareness, self-concept, rights and responsibilities. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

960. Basic Student Teaching Seminar (1-2) Cr/NC

Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 965.

Discussion of immediate problems in student teaching with emphasis on children's growth and development.

961. Advanced Student Teaching Seminar (1-2) Cr/NC

Prerequisites: Satisfactory completion of Teacher Education 960, 965; and concurrent registration in Teacher Education 966.

Discussion of immediate problems in student teaching with emphasis on the influence of philosophical, social and cultural factors on learning.

962. Fieldwork in Community Service in Education (1-2)

Two to four hours of activity.

Working on a tutorial basis with children and youth. Maximum credit four units.

963. Secondary School Student Teaching I (1-6) Cr/NC/RP

Prerequisite: Admission to single subject credential program. To be taken concurrently with Teacher Education 922 and 954. Teacher Education 933 is highly recommended to be taken at this time. Student must provide own transportation to student teaching site.

On-site, part-time experience to implement teacher competencies developed in Teacher Education 922 and 954. Maximum credit six units.

964. Secondary School Student Teaching II (1-12) Cr/NC/RP

Prerequisites: Teacher Education 922, 933, 954, 963. To be taken concurrently with Teacher Education 903. Student must provide own transportation to student teaching site.

On-site, full-day experience to implement teacher competencies as developed from the total professional sequence. Maximum credit twelve units.

965. Basic Student Teaching in Elementary Schools (1-12) Cr/NC

Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 960.

Day-to-day teaching experiences including selected instructional activities for which a teacher in a classroom is normally responsible.

966. Advanced Student Teaching in Elementary Schools (1-12) Cr/NC

Prerequisites: Satisfactory completion of Teacher Education 960, 965, and concurrent registration in Teacher Education 961.

Teaching experiences including all the instructional activities for which a teacher in a classroom is normally responsible.

967. Elementary School Student Teaching (15) Cr/NC (Offered at IVC only)

Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 960 and 961.

On-site, full-day teaching experiences. Two consecutive eight week assignments at two different broad levels of schooling. Each eight week assignment will provide typical responsibilities of teachers through a graduated series of experiences, such as class preparation, instruction of students, maintaining accurate student records, attending faculty meetings and parent conferences.

968. Secondary School Student Teaching (15) Cr/NC (Offered at IVC only)

Prerequisites: Admission to single subject credential program and concurrent registration in Teacher Education 903.

On-site, full-day teaching experiences. Two consecutive eight week assignments in single subject content area; one in junior high school and one in senior high school. Each eight week assignment will provide typical responsibilities of teachers through a graduated series of experiences, such as class preparation, instruction of students, maintaining accurate student records, attending faculty meetings and parent conferences.

Associateships

Graduate teaching associateships and graduate assistantships in engineering are available to a limited number of qualified students. Application forms and additional information may be secured from the chair of the appropriate department.

General Information

The College of Engineering offers graduate study leading to the Ph.D. degree in engineering science/applied mechanics and Master of Science degrees in aerospace, civil, electrical, and mechanical engineering. The Ph.D. degree program is offered jointly with the University of California, San Diego. These curricula are designed to augment the student's undergraduate training by advanced study in one of the various fields of engineering. Recognizing the increasing importance in modern technology of the engineer-scientist team, San Diego State University has developed an academic program which offers to individuals holding a first degree in engineering, an opportunity to pursue advanced study in a specialized area of knowledge.

Section I. Master's Degree Programs

Master of Science Degree

Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing as described in Part Two of this bulletin. Candidates for admission to aerospace engineering, civil engineering, electrical engineering and mechanical engineering programs must have attained a grade point average of at least 2.75 (where A equals 4) in the last 60 semester (90 quarter) units of technical study attempted in the undergraduate degree program. In addition, applicants must have a bachelor's degree in a field of engineering appropriate to the field in which they desire to earn an advanced degree or in a field closely related thereto from an institution acceptable to the College of Engineering and the Graduate Division. If undergraduate preparation is deemed insufficient, the student will be required to take specified courses for the removal of the deficiency. Such courses may be in addition to the minimum of 30 units for the master's degree in engineering.

Students should contact their specific engineering department for GRE test requirements. Letters of recommendation for graduate study are helpful but optional. Such letters should accompany the completed application form.

In addition to submitting the University application available at www.csumentor.edu, the College of Engineering requires the following materials to be submitted as a complete package (refer to the appropriate department section for the address to submit the department admissions package as well as for additional information).

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores;
- (3) Personal statement of graduate program goals.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degrees

In addition to meeting the requirements for classified graduate standing as stated above, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. With the approval of the appropriate department, the student working toward the master of science degree may elect either Plan A, requiring a thesis and an oral defense, or Plan B, requiring a comprehensive written examination.

Students shall arrange their coursework, in conference with their graduate adviser, according to the following requirements for the specific degree.

Aerospace Engineering (Major Code: 09021)

General information: The Department of Aerospace Engineering and Engineering Mechanics offers graduate study leading to the Master of Science degree in aerospace engineering.

Students are encouraged to engage in thesis research or special study projects. Available areas of research include experimental, theoretical and computational aerodynamics and fluid mechanics, structural mechanics, fracture mechanics, composite structures, random vibrations, fluid-structure interactions, acoustics, and aircraft and spacecraft stability and control

Mail or deliver your complete admissions package to:

Professor A. Plotkin, Graduate Adviser
Department of Aerospace Engineering and
Engineering Mechanics
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1308

Specific requirements for the degree: The student's program prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Twenty-one units of 600- and 700-numbered courses in aerospace engineering and/or engineering mechanics. At least one course must be outside the student's area of specialization.
2. Nine additional units of 500-, 600- and 700-numbered courses approved by the graduate adviser.

Areas of Specialization in Aerospace Engineering and Engineering Mechanics

1. **Aerodynamics/Astronautics**
 - AE 601. Computational Fluid Mechanics (3)
 - AE 612. Compressible Fluid Flow (3)
 - AE 620. Incompressible Aerodynamics (3)
 - AE 643. Laminar Flow (3)
 - AE 644. Turbulent Flow (3)
2. **Structural Mechanics**
 - EM 600. Seminar (1-3)
 - EM 603. Theory of Vibrations (3)
 - EM 611. Vibration of Elastic Solids (3)

- EM 621. Theory of Elasticity (3)
- EM 711. Structural Acoustics (3)
- EM 724. Theory of Plates and Shells (3)
- EM 727. Theory of Elastic Stability (3)

Civil Engineering

General information: The Department of Civil and Environmental Engineering offers graduate study leading to the Master of Science degree in civil engineering. Available areas of study include a concentration in environmental engineering and specializations in geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. Programs of study may also include combinations of the above areas and related courses from other disciplines subject to the approval of the graduate adviser.

Applicants with a bachelor's degree in an approved non-engineering curriculum must make up the deficiencies in biology, calculus, chemistry, computer skills, differential equations, fluid mechanics and hydraulics, physics, statics and dynamics, statistics, and thermodynamics, as determined by the graduate adviser.

Mail or deliver your complete admissions package to:

Dr. B. Westermo, Graduate Adviser
 Department of Civil and Environmental Engineering
 San Diego State University
 5500 Campanile Drive
 San Diego, CA 92182-1324

**Concentration in Environmental Engineering
 (Major Code: 09221)**

Specific requirements for the concentration: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. A minimum of 21 units of coursework, and up to nine combined units of Research (ENV E 797), Thesis (ENV E 799A), and Special Topics (ENV E 798).
2. Eighteen units of 600- and 700-numbered courses in civil and environmental engineering.

Required courses:

- ENV E 554. Process Fundamentals of Environmental Systems (3)
- ENV E 645. Aquatic Chemistry for Environmental Engineers (3)
- ENV E 646. Microbiological Principles for Environmental Engineering (3)
- ENV E 647. Physical and Chemical Processes of Water Pollution Control (3)
- ENV E 648. Biological Processes and Bioremediation Engineering (3)

Electives:

- ENV E 553. Environmental Engineering Laboratory (3)
- ENV E 555. Water and Wastewater Engineering (3)
- ENV E 556. Air Quality Management (3)
- ENV E 558. Solid Waste Management (3)
- ENV E 560. Environmental Engineering Design (3)
- ENV E 637. Process Design for Industrial Waste Treatment (3)
- ENV E 797. Independent Research (1-3)
- ENV E 798. Special Study (1-3)
- ENV E 799A. Thesis or Project (3)
- ENV E 799B. Thesis or Project Extension (0)
- CIV E 632. Computational Hydraulics and Hydrology (3)
- CIV E 633. Environmental Hydrology (3)
- CIV E 634. Surface Water Hydrology (3)
- CIV E 638. Sedimentation and River Engineering (3)

Other electives may be arranged on an individual basis by the faculty adviser and the student.

A statistics course equivalent to Civil Engineering 160 and an introductory course in environmental engineering equivalent to Environmental Engineering 355 must be taken before or during the early stages of the program.

**Specializations in Civil Engineering
 (Major Code: 09081)**

Specific requirements for the specializations: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Eighteen units of 600- and 700-numbered courses in civil engineering. A total of no more than three units from courses numbered 797, 798, and 799 may be used to satisfy this requirement.
2. A minimum of four courses should be selected from one of the specialty areas listed below; in exceptional cases, this requirement may be waived at the discretion of the graduate adviser, provided the substitute course is in the College of Engineering and enhances a coherent program in a specific professional area.
3. At least twelve additional units of 500-, 600- or 700-numbered courses, approved by the graduate adviser.

Areas of Specialization in Civil Engineering

1. Geotechnical Engineering

- CIV E 640. Advanced Soil Mechanics (3)
- CIV E 641. Advanced Foundation Engineering (3)
- CIV E 642. Groundwater Seepage and Earth Dams (3)
- CIV E 644. Soil Dynamics (3)

2. Structural Engineering

- CIV E 605. Prestressed Concrete Structures (3)
- CIV E 607. Dynamics of Structures (3)
- CIV E 608. Earthquake Engineering (3)
- CIV E 610. Finite Element Analysis of Structures (3)
- CIV E 612. Advanced Concrete Materials (3)

3. Transportation Engineering

- CIV E 620. Traffic Flow and Control (3)
- CIV E 621. Transportation Demand Analysis (3)
- CIV E 622. Mass Transit Engineering (3)
- CIV E 781. Seminar in Transportation Engineering (2 or 3)

4. Water Resources Engineering

- CIV E 632. Computational Hydraulics and Hydrology (3)
- CIV E 633. Environmental Hydrology (3)
- CIV E 634. Surface Water Hydrology (3)
- CIV E 638. Sedimentation and River Engineering (3)

**Electrical Engineering
 (Major Code: 09091)**

General information: The Department of Electrical and Computer Engineering offers graduate study leading to a Master of Science degree in Electrical Engineering. The program provides balanced opportunities to study practical engineering design and do research. Research assistantships are available in the research areas of computer engineering, digital system design, VLSI design, digital signal processing and communications systems, electro-optic system design and instrumentation, applied electron and molecular spectroscopy, power systems, and biomedical/rehabilitation engineering.

Mail or deliver your complete admissions package to:

Graduate Adviser
 Department of Electrical and Computer Engineering
 San Diego State University
 5500 Campanile Drive
 San Diego, CA 92182-1309

Specific requirements for the degree: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Eighteen units of 600- and 700-numbered courses in electrical engineering.
2. At least six additional units of 500-, 600- or 700-numbered courses in the College of Engineering or, with the prior approval of the graduate adviser, in the College of Sciences.

3. Six elective units of 500-, 600- or 700-numbered courses approved by the graduate adviser.
4. Prerequisites for all courses taken for the degree must be completed with a grade of C or better.
5. As a breadth requirement, each classified graduate student is required to complete, with approval of the graduate adviser, at least one course from four of the following specialty areas: Communications, Computers, Electronics/Networks, Physical Electronics, Power/Control Systems. If the course content is appropriate, the graduate adviser may approve certain Electrical Engineering 596 courses to satisfy part of the breadth requirement.

Disciplines and related courses:

Communications: Computer Engineering 560, 565; Electrical Engineering 553, 556, 558, 650, 652, 653, 657, 658, 705.

Computers: Computer Engineering 561, 572; Electrical Engineering 672, 675, 676, 678, 679, 706.

Electronics: Electrical Engineering 502, 503, 530, 539, 570, 634.

Physical Electronics: Electrical Engineering 534, 540, 541, 546, 642, 644, 645.

Power/Control Systems: Electrical Engineering 520, 580, 581, 582, 583, 622, 680.

6. Students selecting Plan B must pass a written comprehensive examination. The examination tests the students' understanding and mastery of *fundamental principles* and their ability to apply them to engineering problems. Members of the ECE faculty will grade the comprehensive examination for technical correctness, completeness, and clarity of expression. After two unsuccessful attempts, the student may not take the examination again without written permission from the graduate adviser. The adviser may require the student to successfully complete certain additional courses before taking the comprehensive examination a third and final time.

Mechanical Engineering (Major Code: 09101)

General information: The Department of Mechanical Engineering offers graduate study leading to the Master of Science degree in mechanical engineering.

Available opportunities for thesis research and special study projects include heat transfer, thermodynamics, fluid mechanics, mechanical design which includes vibration, controls, CAD/CAM and robotics, materials, optimization and bioengineering.

Mail or deliver your complete admissions package to:

Dr. Subrata Bhattacharjee, Graduate Adviser
Department of Mechanical Engineering
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1323

Specific requirements for the degree: The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Twenty-one units of 600- and 700-numbered courses in mechanical engineering to include 12 units in one area of specialization (designated as Group A and Group B) and Mechanical Engineering 797 or alternative courses subject to approval of graduate adviser.
2. Nine additional units of 500-, 600- and 700-numbered courses approved by the graduate adviser.

Areas of Specialization in Mechanical Engineering

Group A: Thermal Sciences

- ME 651. Advanced Thermodynamics (3)
- ME 661. Gas Dynamics (3)
- ME 663. Boundary Layers in Internal Flows (3)

ME 671. Conduction of Heat and Mass Transfer (3)

ME 675. Radiation Heat Transfer (3)

Group B: Engineering Design

ME 610. Finite Element Methods in Mechanical Engineering (3)

ME 614. Engineering Design: Analytical Methods (3)

ME 621. Mechanical Vibrations (3)

ME 632. Advanced Topics in Automatic Controls (3)

ME 645. Mechanical Behavior of Engineering Materials (3)

Master of Engineering Degree

(Major Code: 09134)

General Information

The Master of Engineering degree in Manufacturing and Design is a practice-oriented, interdisciplinary degree designed to meet the needs of students who are interested in furthering a career in engineering with a business/management emphasis. The student will select his/her own program in consultation with the Department of Mechanical Engineering graduate adviser subject to the guidelines listed below. In addition to the course requirements, the student will be required to complete a design project and a final written report. This phase of the program will be used to initiate the student to the problems and solutions that a practicing engineer will face. The program is aimed at the industrial employee who is seeking a career enhancement and also to the new baccalaureate graduate who wants to continue to study to be able to enter the work force with well-defined professional skills.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing as described in Part Two of this bulletin. Candidates must have attained an undergraduate grade point average of at least 2.75 (4 point scale) in the last 60 semester (90 quarter hours) of technical study. In addition, applicants must have a bachelor's degree in mechanical engineering or a closely related discipline. If undergraduate preparation is deemed insufficient, the student will be required to take specified undergraduate courses to remove this deficiency. Such courses may be in addition to the 36 units required. Admission to the program will be limited to applicants who will have a background, interest, and expertise consistent with the demands of the design projects.

Specific Requirements for Master of Engineering Degree

The student's program, prepared with the approval of the graduate adviser, consists of 30 units of coursework, of which no more than six units may be in 500-level courses, and six units of design project. Eighteen units will be in manufacturing and design, 12 units will be from Business Administration: Finance, Information and Decision Systems, Management, and Marketing areas; and six manufacturing and design project units as indicated:

Graduate Courses in Mechanical Engineering (18 units)

ME 540. Nonmetallic Materials (3)

ME 542. Manufacturing with Nonmetallic Materials (3)

ME 544. Advanced Manufacturing Processes (3)

ME 546. Computer Aided Manufacturing (3)

ME 570. Thermal Systems Analysis and Design (3)

ME 610. Finite Element Methods in Mechanical Engineering (3)

ME 614. Engineering Design: Analytical Methods (3)

ME 621. Mechanical Vibrations (3)

ME 632. Advanced Topics in Automatic Controls (3)

ME 645. Mechanical Behavior of Engineering Materials (3)

ME 651. Advanced Thermodynamics (3)

ME 661. Gas Dynamics (3)

- ME 663. Boundary Layers in Internal Flows (3)
- ME 671. Conduction of Heat and Mass Transfer (3)
- ME 675. Radiation Heat Transfer (3)
- ME 696. Advanced Topics in Mechanical Engineering (2 or 3)
- EM 603. Theory of Vibrations (3)
- EM 611. Vibration of Elastic Solids (3)
- EM 621. Theory of Elasticity (3)
- EM 711. Structural Acoustics (3)
- EM 724. Theory of Plates and Shells (3)
- EM 727. Theory of Elastic Stability (3)

Graduate Courses in the College of Business Administration (12 units)

- BA 651. Organizational Behavior (2)
- BA 653. Managerial Economics (2)
- BA 655. Marketing (3)
- BA 662. Operations Management (2)
- BA 665. Financial Management I (3)
- FIN 617. Financial Management II (3)
- IDS 609. Management Information Systems (3)
- IDS 686. Database Management Systems (3)
- IDS 744. Seminar in Quality and Productivity Management
- IDS 750. Project Management (3)
- IDS 753. Global Supply Chain Management (3)
- MGT 721. Seminar in Group Processes and Leadership (3)
- MGT 724. Entrepreneurship (3)
- MKT 761. Product Innovation Management (3)

Project – Six units of a design project (ME 797 or 799) to be selected in cooperation with the graduate adviser in the area of interest. The project will be specifically designed to address both the technical and economic aspects in the solution of an engineering problem. A formal written report of project findings will be submitted to and approved by a committee of two engineering faculty members and one faculty member from business administration prior to graduation.

**Section II.
Doctoral Program**

Engineering Sciences/Applied Mechanics

(Major Code: 09012)

The cooperating faculties of the College of Engineering at San Diego State University and the Department of Mechanical and Aerospace Engineering at the University of California, San Diego offer a joint doctoral program in engineering sciences/applied mechanics. The Doctor of Philosophy degree is awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both cooperating institutions.

The Ph.D. degree is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. It is not awarded solely for the fulfillment of technical requirements such as academic residence and coursework. A typical student with an appropriate bachelor of science degree in engineering may complete the joint program in five to six years of full-time study and research. A student with advanced standing may complete the program in a shorter period of time.

The research interests of the participating faculty members cover a wide range of subjects including: acoustics, biomechanics, boundary layer separation, boundary layer stability, computational fluid mechanics, combustion, experimental fluid mechanics, finite element methods in structural analysis, flow field acoustic interaction, gas physics, hydrology, hypersonic flow field, low speed aerodynamics, material science, material processing, soil mechanics, structural fluid interaction, and two phase flows, and all aspects of environmental engineering, including development and application of air, water, and soil pollution control methods.

At SDSU, the major areas of research at the graduate level and the participating faculty members that constitute the Graduate Group in Applied Mechanics include:

- Acoustics:** M. Pierucci
- Aerodynamics:** J. Katz, A. Plotkin
- Bioengineering:** K. May-Newman, A. Szeto
- Combustion:** S. Bhattacharjee
- Computational Mechanics:** T. Impelluso, J. Katz, R. Kline, E. Olevsky, V. Ponce, N. Sharabi, K.C. Wang
- Environmental Engineering:** M. Guroi
- Experimental Mechanics:** Z. Bayasi, R. Kline
- Fluid Mechanics:** J. Katz, N. Nosseir, A. Plotkin, K.C. Wang
- Hydrology:** H. Chang, V. Ponce
- Material Engineering:** Z. Bayasi, J. Burns, B. Westermo
- Robotics and Controls:** G. Lee
- Soil Mechanics:** B. Westermo
- Structure and Fluid Interactions:** M. Pierucci, B. Westermo
- Structural Mechanics:** Z. Bayasi, M. Pierucci, N. Sharabi, B. Westermo
- Thermal Sciences:** S. Bhattacharjee

Financial Support

Students admitted to the program will be eligible for teaching associateships and graduate assistantships. It is the policy of SDSU College of Engineering to support doctoral students during their entire tenure as long as they are in good standing, are making satisfactory progress toward their degree, and are in residence at one of the two institutions.

For further information, the student should write to the Director of the Engineering Sciences/Applied Mechanics Joint Doctoral Program at the College of Engineering, San Diego State University, San Diego, CA 92182-1326.

PROGRAM

Preparation for Admission

Applicants must have an acceptable bachelor's degree or master's degree and must meet the requirements for admission to both SDSU and UCSD. A minimum grade point average of 3.0 in the major field for students with the B.S. degree or 3.4 for students with the M.S. degree is required. Students are expected to have engineering degrees in the classical engineering sciences/applied mechanics areas (i.e., aerospace, chemical, civil, environmental, mechanical). Students with degrees in one of the allied fields (i.e., physics, mathematics, electrical engineering, and engineering physics) will be required to remove any academic deficiencies by completing a series of courses normally required of the students who have academic degrees in the applied mechanics areas.

APPLICATIONS FOR THE PH.D. PROGRAM IN ENGINEERING SCIENCES/APPLIED MECHANICS MUST BE RECEIVED NO LATER THAN FEBRUARY 15.

Application

Students seeking admission to the joint doctoral program in engineering sciences/applied mechanics should write directly to the Doctoral Program Director requesting application materials. A complete application requires the following:

The appropriate completed application forms completed with application fees.

Three letters of recommendation.

An official transcript of academic work completed at all institutions attended.

Acceptable scores on both the qualitative and the quantitative sections of the Graduate Record Examination General Test (GRE).

The faculty of the joint doctoral program on each campus will rec-

ommend admission of acceptable applicants to the graduate deans at SDSU and UCSD. Entry occurs when the student is formally accepted by both graduate deans and the student is officially notified of the acceptance.

Residency Requirements

The student must spend at least one academic year in full-time residence at each of the two institutions. The definition of such residence must be in accord with the regulations of the Graduate Divisions of SDSU and UCSD.

Advising Committee

When a student is admitted to the joint doctoral program, the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program in engineering sciences/applied mechanics at SDSU will appoint a three-member advising committee consisting of at least one member from each institution. It is the responsibility of this committee to develop in consultation with the student a course of study and a plan of preparation for the doctoral qualifying examination, which should be taken as soon as possible after the two years of study at the two institutions. Students with advanced standing may be capable of taking the examination earlier. Upon the student's successful completion of the examination, the advising committee will recommend to the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU, the membership of the student's doctoral committee. Upon appointment, this committee will supersede the advising committee and be responsible for the student's program of study and dissertation research.

Course Requirements

The Doctor of Philosophy degree in engineering sciences/applied mechanics is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. Therefore, no specific course requirements for the joint doctoral program exist; however, the doctoral qualifying examination is based on a certain level of competence in the general areas of: (1) fluid mechanics, (2) solid mechanics, and (3) applied mathematics. Preparation for the examination is normally done through coursework in these areas.

Qualifying Examinations

Joint Qualifying Committee

The doctoral program qualifying examination is administered by the student's advising committee supplemented, if appropriate, by faculty appointed by the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. The examination will be oral, will cover at least four areas selected to ensure appropriate competence in the general area of applied mechanics, and will be at the level and content of the SDSU and UCSD graduate courses. The specific areas will be approved in advance by the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. One of the areas may be satisfied by completing a series of courses in the area with at least a B grade in each course.

Joint Doctoral Committee

Upon successful completion of the doctoral qualifying examination, a doctoral committee shall be appointed by the graduate deans of SDSU and UCSD upon the recommendation of the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. The doctoral committee shall supervise the continued study and research programs of the student. The chair of the committee is the primary adviser of the student's dissertation research. The dissertation committee will con-

sist of three members from each institution; one of the three will be from outside of the Department of Mechanical and Aerospace Engineering and one from outside the student's major area.

Senate Qualifying Examination

The major requirement for the doctorate is the completion of a dissertation based on original research, which contributes new knowledge to the fields. The Senate Qualifying Examination consists of a presentation of initial dissertation results and plans for future research. The chair of the doctoral committee will determine in consultation with the student when the Senate Qualifying Examination will be held. Approval of a student's dissertation topic by the doctoral committee implies that the committee believes that the work will contain the potential for one or more articles publishable in refereed journals.

Dissertation

The doctoral committee will administer the final examination, which will consist of the student's presentation and defense of the dissertation, with particular emphasis on the principal findings and areas of future research. The first part of this examination is open to the public; a concluding portion involves appropriate questioning of the student by the committee.

The detailed requirements concerning the preparation of the dissertation, the number of copies, the editorial style, etc., are set forth in the UCSD document entitled "Instructions for the Preparation and Submission of Doctoral Dissertations and Masters' Theses." Acceptance of the dissertation by the University Librarian at UCSD and the Graduate Division at SDSU represents the final step in completion of the student's degree requirements.

Satisfactory Progress

The students admitted to this program are expected to make continuous, satisfactory progress and to remain in good standing at both institutions.

Award of the Degree

The Doctor of Philosophy degree in engineering sciences/applied mechanics will be awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both cooperating institutions.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program in engineering sciences/applied mechanics and are available for direction of research and as members of joint doctoral committees.

San Diego State University:

Program Director: Gordon K. F. Lee

Committee Members:

J. Katz, N. Nosseir, M. Pierucci, A. Plotkin, K.C. Wang (Aerospace Engineering and Engineering Mechanics).
Z. Bayasi, H. Chang, M. Gurol, V. Ponce, N. Sharabi, B. Westermo (Civil and Environmental Engineering).
A. Szeto (Electrical and Computer Engineering).
J. Castillo, M. Tarokh (Computer Science).
S. Bhattacharjee, J. Burns, T. Impelluso, R. Kline, K. May-Newman, E. Olevsky (Mechanical Engineering).

University of California, San Diego:

Program Director: P. Linden

Committee Members:

R. Bitmead, J. Goddard, S. Krasheninnkov, P. Linden, X. Markenscoff, M. Meyers, C. Pozrikidis, J. Talbot, F. Williams (Mechanical and Aerospace Engineering).

Section III. Other Programs

Rehabilitation Technology Certificate

The purpose of this certificate is to train interested engineers and non-engineers in the field of rehabilitation technology using formal classroom instruction, project design and fabrication, and internship. Enrollment in this certificate program will provide interested engineering students exposure to rehabilitation technology. For non-engineering rehabilitation professionals (e.g., vocational rehabilitation counselors, special education teachers, transition and supported employment specialists), the certificate program will provide specialty training in the application of rehabilitation technology. Specifically, the certificate program will do the following:

1. Expose graduate engineering students to the problems and promises of rehabilitation engineering as a field of specialization.
2. Provide a number of interrelated training activities that will improve the professional competence of employed rehabilitation workers.
3. Provide opportunities for extensive training, in the form of extended internships with knowledgeable rehabilitation professionals whose backgrounds are in such specializations as communicative disorders, rehabilitation engineering, physical and occupational therapy, rehabilitation electronics, prosthetics and orthotics, rehabilitation counseling, special education, biomechanics, etc.
4. Offer both formal classroom instruction and guided problem solving opportunities in designing, building, customizing, and delivering rehabilitation technology for enhancing the integration of individuals with disabilities into school, residential, community, and employment settings.

This is an advanced trans-disciplinary academic certificate at the postbaccalaureate level. Admission requirements include a bachelor's degree in engineering, rehabilitation, or special education, or a related allied health field. Students admitted into the program must maintain a minimum grade point average of 3.0 in all certificate coursework with no less than a grade of "C" in all courses. Depending on the background and work experience, students may be required to remove deficiencies through additional coursework as part of the certificate requirements.

Students in the certificate program will complete 12 units of formal coursework and one semester of internships as described below unless alternative courses are approved by the program advisers.

Electrical Engineering 502 (*Electronic Devices for Rehabilitation—3 units*) will acquaint students with the design and application of electronic devices used in rehabilitation; explain the problems of the disabled; and present possible solutions for some of their needs. This is a non-traditional and practical electrical engineering course that requires student involvement in the collaborative assessment (with students in Communicative Disorders 676) of disabled persons for their cognitive, communicative, and physical abilities at the SDSU Communications Clinic.

Administration, Rehabilitation and Postsecondary Education 607 (*Applications of Rehabilitation Technology—3 units*) will provide an overview of assistive technology in the areas of assessment, accessibility, mobility, communication, employment, and more. Students will collaborate on transdisciplinary teams to design and construct an adaptation or modification which will enable a person with disabilities to participate more fully in school, work and/or community environments.

Administration, Rehabilitation and Postsecondary Education 685A or 685B (*Medical and Psychological Aspects of Disability—3 units*) will cover the impact of different disabilities (e.g. visual and sensory impairments, orthopedic impairments, burns, amputation, chronic pain, cancer, developmental and learning disabilities, traumatic brain injuries, and spinal cord injuries) in terms of functional limitations, rehabilitative services needed, and environmental adjustments required.

Electrical Engineering 798 (*Special Study in Rehabilitation Technology Design—3 units*) will provide students hands-on opportunities to work with rehabilitation professionals, occupational and physical therapists, and other non-engineers on technology teams in the design and fabrication of customized adaptations for persons with disabilities.

Internships (one semester) will provide guided field experience through placement with knowledgeable practicing rehabilitation professionals in such settings as the Sharp Rehabilitation Center, Assistive Device Assessment Program within SDSU's Communications Clinic, Access Center of San Diego, and San Diego schools.

For application and additional information, contact the program adviser Dr. Andrew Szeto in the Department of Electrical and Computer Engineering or Dr. Caren L. Sax in the Department of Administration, Rehabilitation, and Postsecondary Education.

Courses Acceptable on Master's Degree Programs in Engineering (ENGR)

UPPER DIVISION COURSE

510. Methods of Analysis (3) I, II

Prerequisite: Engineering 280 with minimum grade of C.

Selected topics from vector calculus, partial differential equations, and complex analysis, with engineering applications.

Courses Acceptable on Doctoral Degree Program in Engineering (ENGR)

In addition to the courses listed below, a number of other graduate level courses are acceptable for the doctoral degree. For a description of these courses, see individual department listings (e.g., aerospace, civil and environmental, or mechanical), and contact the director of the doctoral program.

GRADUATE COURSES

800. Seminar (1) Cr/NC

Prerequisite: Admission to the doctoral program.

Doctoral students are expected to attend a weekly seminar dealing with current topics in different areas of applied mechanics. Course is to be taken every semester.

810. Colloquium in Engineering Sciences (1) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Discussions on advances in research in engineering science/applied mechanics conducted by SDSU and UCSD faculty.

896. Doctoral Laboratory and Computer Research (1-3) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent research in laboratory and computer settings in the areas of applied mechanics. Content to be determined after consultation with adviser.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent research in general areas of applied mechanics. Content to be determined after consultation with adviser.

898. Doctoral Special Study (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Individual study leading to study and research required for doctoral dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/RP

Prerequisites: An officially constituted joint doctoral committee and successful completion of Senate Qualifying Examination.

Final research and preparation of dissertation for doctoral degree. Enrollment required during term in which dissertation is approved.

Aerospace Engineering and Engineering Mechanics

EMAIL: ae@engineering.sdsu.edu

Faculty

Joseph Katz, D.Sc., Professor of Aerospace Engineering and Engineering Mechanics, Chair of Department
Balbir S. Narang, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Nagy Nosseir, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Mauro Pierucci, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Allen Plotkin, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics (Graduate Adviser)

Courses Acceptable on Master's Degree Programs in Aerospace Engineering and Engineering Mechanics (A E) (E M)

UPPER DIVISION COURSES IN AEROSPACE ENGINEERING

- 520. Intermediate Aerospace Flight Mechanics (3)**
Prerequisite: Aerospace Engineering 320.
Rigid-body dynamics with applications in spacecraft attitude dynamics.
- 530. Rocket and Space Propulsion (3)**
Prerequisite: Aerospace Engineering 430.
Equilibrium combustion thermodynamics. Performance of rocket propelled vehicles. Rocket propulsion fundamentals. Topics in chemical (solid and liquid) and electrical propulsion systems.
- 540. Aircraft Stability and Control II (3)**
Prerequisite: Aerospace Engineering 440.
Dynamic stability and control of rigid aircraft; general equations of unsteady motion, stability derivatives, perturbed state thrust forces and moment, special problems in dynamic stability and response.
- 550. Viscous Flow (3)**
Prerequisites: Credit or concurrent registration in Engineering Mechanics 340, and Engineering 510.
Kinematics of fluid motion. Conservation of mass, momentum, and energy. Navier-Stokes equations; exact solutions. Boundary layer approximations, turbulent flow.
- 596. Advanced Aerospace Engineering Topics (3)**
Prerequisite: Consent of instructor.
Modern developments in aerospace engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Aerospace Engineering or Engineering Mechanics 496, 499, and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Aerospace Engineering or Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.

UPPER DIVISION COURSES IN ENGINEERING MECHANICS

- 510. Finite Element Methods in Aerospace Structures (3)**
Prerequisite: Aerospace Engineering 410.
Static and dynamic analysis of aerospace structures utilizing finite element methods.
- 530. Composite Structural Analysis (3)**
Prerequisites: Engineering 280 and Civil Engineering 301.
Strength of composite materials; lamination theory; strength analysis of laminates; bending, buckling, and vibration of composite plates.
- 596. Advanced Engineering Mechanics Topics (1-3)**
Prerequisite: Consent of instructor.
Modern developments in engineering mechanics. See Class Schedule for specific content. Maximum credit of six units for any combination of Engineering Mechanics 496, 499, and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Engineering Mechanics 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES IN AEROSPACE ENGINEERING

- 601. Computational Fluid Mechanics (3)**
Prerequisites: Credit or concurrent registration in Aerospace Engineering 302 and Engineering 510.
Finite difference method of solving general fluid mechanics problems. Study of stability, convergence, compatibility, dissipation, and dispersion. A project is required.
- 612. Compressible Fluid Flow (3)**
Prerequisites: Aerospace Engineering 302 and credit or concurrent registration in Engineering 510.
Theory of flow at supersonic speeds. Linearized theory, three-dimensional wings in steady flight, slender-body theory, methods of characteristics.
- 620. Incompressible Aerodynamics (3)**
Prerequisites: Aerospace Engineering 301 and Engineering 510.
Theory of incompressible aerodynamics; airfoil and wing theory; computational methods.
- 643. Laminar Flow (3)**
Prerequisites: Aerospace Engineering 302 and Engineering 510.
Fluid kinematics and dynamics. Governing equations in general coordinate systems. Navier-Stokes equations; exact solutions, approximations including boundary layer. Three-dimensional flows. Numerical methods. Vector and tensor notation will be used.
- 644. Turbulent Flow (3)**
Prerequisites: Engineering Mechanics 340 and Engineering 510.
Nature of turbulence based on simple flow observations and a theoretical basis for interpreting and predicting the behaviors of specialized turbulent flow problems.

696. Advanced Topics in Aerospace Engineering (2 or 3)

Intensive study in specific areas of aerospace engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

**GRADUATE COURSES IN
ENGINEERING MECHANICS**

600. Seminar (1-3)

Prerequisite: Consent of the graduate adviser and instructor.

Intensive study of one of the following topics: Nonlinear vibrations, random vibrations, continuum mechanics, anisotropic elasticity, energy methods, plasticity, and other areas of engineering mechanics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

603. Theory of Vibrations (3)

Prerequisites: Aerospace Engineering 410 and Engineering 510.

Linear and nonlinear periodic phenomena as applied to discrete systems and continuous media with application to physical problems.

611. Vibration of Elastic Solids (3)

Prerequisites: Engineering 510 and Aerospace Engineering 410 or Mechanical Engineering 520.

Vibrational characteristics of elastic media. Vibration of plates. Longitudinal and transverse wave motion in infinite, semi-infinite and finite thickness media.

621. Theory of Elasticity (3)

Prerequisites: Civil Engineering 301 and credit or concurrent registration in Engineering 510.

Analysis of stress and strain: stress-strain relations; the equations of elasticity; uniqueness theorem; compatibility conditions; flexure and torsion.

711. Structural Acoustics (3)

Prerequisites: Engineering 510 and Engineering Mechanics 611.

Acoustic radiation from different sources. Vibration of and acoustic radiation from beams, plates, and other solids. Effect of fluid loading.

724. Theory of Plates and Shells (3)

Prerequisite: Engineering Mechanics 621.

Bending and buckling of plates. Membrane and bending theory of shells of revolution. Discontinuity analysis of shells.

727. Theory of Elastic Stability (3)

Prerequisite: Engineering Mechanics 621.

Stability of elastic systems. Differential equations of stability by summation of forces and moments, and by the variational method. Applications.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Research in engineering. Maximum credit six units applicable to a master's degree.

Faculty

Janusz C. Supernak, Ph.D., Professor of Civil and Environmental Engineering, Chair of Department
James H. Banks, Ph.D., Professor of Civil and Environmental Engineering
Howard H. Chang, Ph.D., P.E., Professor of Civil and Environmental Engineering
Fang-Hui Chou, Ph.D., P.E., Professor of Civil and Environmental Engineering
Mirat D. Gurol, Ph.D., Professor of Civil and Environmental Engineering, The Blasker Chair in Environmental Engineering
Victor M. Ponce, Ph.D., Professor of Civil and Environmental Engineering
Bruce D. Westermo, Ph.D., Professor of Civil and Environmental Engineering (Graduate Adviser)
M. Ziad Bayasi, Ph.D., P.E., Associate Professor of Civil and Environmental Engineering
M. Nazmi Sharabi, Ph.D., Associate Professor of Civil and Environmental Engineering
Badri Badriyha, Ph.D., Assistant Professor of Civil and Environmental Engineering
Fatih Buyuksonmez, Ph.D., Assistant Professor of Civil and Environmental Engineering

Courses Acceptable on Master's Degree Programs in Civil and Environmental Engineering (CIV E) (ENV E)

UPPER DIVISION COURSES IN CIVIL ENGINEERING (CIV E)

521. Structural Analysis II (3) I

Prerequisite: Civil Engineering 321.

Analysis of statically indeterminate structures by virtual work. Advanced treatment of slope deflection, moment distribution. Arch analysis, secondary stresses in trusses. Advanced treatment of influence lines. Introduction to matrix analysis of structures. (Formerly numbered Civil and Environmental Engineering 521.)

525. Design of Steel Structures (3) I, II

Prerequisite: Civil Engineering 321.

Mechanical behavior of structural steel. Design of steel beams, girders, columns and members subjected to combined stresses. Design of various types of connections of steel structures; plate girders, continuous beams and rigid frames. (Formerly numbered Civil and Environmental Engineering 525.)

528. Masonry Structures Design (3) I

Prerequisites: Civil Engineering 301 and 321.

Analysis and design of masonry beams, retaining walls, shear walls, bearing walls, and columns. Use of allowable stress and strength design methods. Design project, including structural system analysis and lateral design of masonry buildings.

530. Open Channel Hydraulics (3) I, II

Prerequisite: Civil Engineering 444. **Proof of completion of prerequisite required:** Copy of transcript.

Principles of open channel flow; analysis and problems of critical, uniform, gradually-varied, and rapidly-varied flows, design and environmental problems; computer simulations and applications; and culvert hydraulics. (Formerly numbered Civil and Environmental Engineering 530.)

580. Traffic Engineering Design (3)

Prerequisite: Civil Engineering 481.

Sizing and configuration of highway facilities based on capacity analysis. Traffic signal design, impact and mitigation studies, parking, safety design. (Formerly numbered Civil and Environmental Engineering 580.)

596. Advanced Civil Engineering Topics (1-3) I, II

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.

Modern developments in civil engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Civil Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Civil Engineering 596 and 696 applicable to a 30-unit master's degree.

UPPER DIVISION COURSES IN ENVIRONMENTAL ENGINEERING (ENV E)

553. Environmental Engineering Laboratory (3)

Two lectures and three hours of laboratory.

Prerequisites: Chemistry 200 and Environmental Engineering 355.

Proof of completion of prerequisite required for Environmental Engineering 355: Copy of transcript.

Analysis of natural waters and wastewaters. Sampling and analysis of hazardous environmental pollutants. Techniques to analyze solid waste. (Formerly numbered Civil and Environmental Engineering 553.)

554. Process Fundamentals of Environmental Systems (3)

Prerequisites: Environmental Engineering 355 and Engineering Mechanics 340. **Proof of completion of prerequisites required:** Copy of transcript.

Equilibrium and kinetics of chemical and biological reactions of environmental systems. Considerations of mass-transfer and fluid dynamics in water quality management and air pollution control. (Formerly numbered Civil and Environmental Engineering 554.)

555. Water and Wastewater Engineering (3) I

Prerequisite: Environmental Engineering 355. **Proof of completion of prerequisite required:** Copy of transcript.

Water and wastewater. Physical, chemical and biological methods of treatment. Advanced waste treatment processes. Water reclamation. (Formerly numbered Civil and Environmental Engineering 555.)

556. Air Quality Management (3)

Prerequisite: Environmental Engineering 355. **Proof of completion of prerequisite required:** Copy of transcript.

Sources of air pollutants. Transportation, diffusion, and transformation of pollutants in the atmosphere. Measurement and control of air pollution. (Formerly numbered Civil and Environmental Engineering 556.)

558. Solid Waste Management (3) II

Prerequisite: Environmental Engineering 355. **Proof of completion of prerequisite required:** Copy of transcript.

Management of municipal solid waste from a civil engineering perspective, including waste minimization and recycling. Engineered volume reduction through composting, incineration, mechanical compaction, and other methods. Ultimate disposal, landfill design and legislative regulations. (Formerly numbered Civil and Environmental Engineering 558.)

560. Environmental Engineering Design (3)

Prerequisites: Environmental Engineering 555, 558 and Engineering 430.

Application of engineering principles and design techniques to design of environmental engineering projects. (Formerly numbered Civil and Environmental Engineering 560.)

596. Advanced Environmental Engineering Topics (1-3) I, II

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.

Modern developments in environmental engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Environmental Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Environmental Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES IN CIVIL ENGINEERING (CIV E)

605. Prestressed Concrete Structures (3)

Prerequisite: Civil Engineering 421 with minimum grade of C.

Fundamental concepts of prestressed concrete theory. Design applications to various types of structures. (Formerly numbered Civil and Environmental Engineering 605.)

607. Dynamics of Structures (3)

Prerequisite: Civil Engineering 521 with minimum grade of C.

Dynamic disturbances, structures with variable degelastic beams; continuous beams, rigid frames, floor systems. Energy methods in structural dynamics. (Formerly numbered Civil and Environmental Engineering 607.)

608. Earthquake Engineering (3)

Prerequisite: Civil Engineering 607.

Elements of seismology. Methods of analysis for earthquake loads. Procedures and code provisions for the design of earthquake-resistant structures. (Formerly numbered Civil and Environmental Engineering 608.)

610. Finite Element Analysis of Structures (3)

Prerequisites: Engineering 120 and Civil Engineering 321 with minimum grade of C.

General procedure, various types of finite elements; analysis and design of isotropic and orthotropic plates and shells, deep beams, and shear walls using finite element technique; use of digital computers for solutions. Application to civil engineering structures. (Formerly numbered Civil and Environmental Engineering 610.)

612. Advanced Concrete Materials (3)

Two lectures and three hours of laboratory.

Prerequisite: Civil Engineering 421.

Microstructure and cracking behavior of concrete. Theory and application of high strength and fiber reinforced concrete. Concrete durability additives and fiber reinforced plastic reinforcement for concrete. Innovative applications of advanced concrete materials. Includes a laboratory project. (Formerly numbered Civil and Environmental Engineering 612.)

620. Traffic Flow and Control (3)

Prerequisites: Civil Engineering 481 or City Planning 625 or Geography 559, with minimum grade of C.

Advanced treatment of traffic flow and control issues. Highway capacity and traffic flow characteristics, traffic flow modeling, intersection control, freeway control systems, intelligent transportation systems. (Formerly numbered Civil and Environmental Engineering 620.)

621. Transportation Demand Analysis (3)

Prerequisite: Civil Engineering 481 or Geography 559 or City Planning 625, with minimum grade of C.

Travel demand modeling with emphasis on application to growing metropolitan areas; four-step travel demand forecasting; disaggregate, behavioral, and activity-based approaches; recent methodological developments; transportation-land use interactions. (Formerly numbered Civil and Environmental Engineering 621.)

622. Mass Transit Engineering (3)

Prerequisites: Civil Engineering 481 or City Planning 625 or Geography 559, with minimum grade of C.

Transit system characteristics, analysis of demand for transit services, transit system planning, scheduling, analysis and design. (Formerly numbered Civil and Environmental Engineering 622.)

632. Computational Hydraulics and Hydrology (3)

Prerequisites: Civil Engineering 445 and 530.

Computational methods applied to hydraulics and hydrology. Explicit and implicit schemes for solving hyperbolic problems. Method of characteristics. One- and two-dimensional nonsteady open channel flow simulation. (Formerly numbered Civil and Environmental Engineering 632.)

633. Environmental Hydrology (3)

Prerequisite: Civil Engineering 445 and Environmental Engineering 355.

Hydrosphere function, hydroclimatology, hydrographic characteristics, desertification, hydroecology, salinity modeling and management, stream and lake restoration, and case studies. (Formerly numbered Civil and Environmental Engineering 633.)

634. Surface Water Hydrology (3)

Prerequisite: Civil Engineering 445.

Hydrologic systems. Physical hydrology. Kinematic wave theory. Diffusion and dynamic wave theories. Watershed and stream channel routing. Hydrologic simulation. (Formerly numbered Civil and Environmental Engineering 634.)

638. Sedimentation and River Engineering (3)

Prerequisite: Civil Engineering 444 with minimum grade of C.

Hydraulics of sediment transport; erosion and sedimentation problems; river mechanics and morphology; mathematical modeling of river hydraulics; sediment transport and river channel changes. Design and environmental problems; erosion control and river training. (Formerly numbered Civil and Environmental Engineering 638.)

640. Advanced Soil Mechanics (3)

Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.

Advanced theories of soil mechanics applied to geotechnical and environmental engineering. Classification of terrestrial and marine soils, compaction, consolidation, expansion, stress distribution, strength, permeability and seepage, site improvement, and remediation. (Formerly numbered Civil and Environmental Engineering 640.)

641. Advanced Foundation Engineering (3)

Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.

Advanced theories of soil bearing capacity, settlement, and stress distribution applied to design of shallow and deep foundations and earth retaining structures. Subsurface exploration and dewatering methods. (Formerly numbered Civil and Environmental Engineering 641.)

642. Groundwater Seepage and Earth Dams (3)

Prerequisites: Civil Engineering 462 and 463 with minimum grades of C.

Groundwater seepage and contaminant transport in saturated and unsaturated soils. Flow nets for homogeneous and layered soils. Design and stability analysis of embankments and earth dams. (Formerly numbered Civil and Environmental Engineering 642.)

Civil and Environmental Engineering

644. Soil Dynamics (3)

Prerequisite: Civil Engineering 462 and 463 with a minimum grade of C.

Behavior of soil and soil-structure systems under dynamic loading. Applications include dynamic earth bearing capacity and pressure, soil spring constants for machine foundation design, liquefaction analysis, site response spectra, and seismic stability of slopes. Case histories discussed. (Formerly numbered Civil and Environmental Engineering 644.)

696. Advanced Topics in Civil Engineering (2 or 3)

Intensive study in specific areas of civil engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Civil Engineering 596 and 696 applicable to a 30-unit master's degree.

781. Seminar in Transportation Engineering (2 or 3)

Prerequisites: Minimum grade point average of 3.0 and consent of instructor.

An intensive study in transportation engineering. Maximum credit six units applicable to a master's degree. (Formerly numbered Civil and Environmental Engineering 781.)

797. Independent Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Independent research in civil and environmental engineering. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval

GRADUATE COURSES IN ENVIRONMENTAL ENGINEERING (ENV E)

637. Process Design for Industrial Waste Treatment (3)

Prerequisite: Environmental Engineering 555 or 647 and 648.

Process design of physical, chemical, and biological treatment methods for in-plant treatment of industrial waste streams. (Formerly numbered Civil and Environmental Engineering 637.)

645. Aquatic Chemistry for Environmental Engineers (3)

Chemistry of natural and polluted water. Process chemistry for water and wastewater treatment. (Formerly numbered Civil and Environmental Engineering 645.)

646. Microbiological Principles of Environmental Engineering (3)

Prerequisite: Environmental Engineering 554.

Relationships and significance of microorganisms to organic matter decomposition, mineral transformations, and environmental quality. Applied study in natural (water, sediments, wetlands) and disturbed ecosystems (landfills, contaminated sediments, and groundwater). (Formerly numbered Civil and Environmental Engineering 646.)

647. Physical and Chemical Processes of Water Pollution Control (3)

Prerequisite: Environmental Engineering 645.

Engineering principles and design of physical and chemical processes used in water and wastewater treatment. (Formerly numbered Civil and Environmental Engineering 647.)

648. Biological Processes and Bioremediation Engineering (3)

Prerequisite: Environmental Engineering 646.

Engineering principles and design of biological processes used in wastewater and bioremediation treatment technologies. (Formerly numbered Civil and Environmental Engineering 648.)

696. Advanced Topics in Environmental Engineering (2 or 3)

Intensive study in specific areas of civil engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Civil Engineering 596 and Environmental Engineering 696 applicable to a 30-unit master's degree.

797. Independent Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Independent research in civil and environmental engineering. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Laura L. McPheters, Ph.D., Assistant Professor of Electrical and Computer Engineering

Jong-Min Park, Ph.D., Assistant Professor of Electrical and Computer Engineering

Rahul Singh, Ph.D., Assistant Professor of Electrical and Computer Engineering (Graduate Adviser)

Courses Acceptable on Master's Degree Program in Electrical and Computer Engineering (COMPE) (E E)

UPPER DIVISION COURSES IN ELECTRICAL ENGINEERING (E E)

NOTE: Prerequisites will be enforced in all 500-level courses. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted.

Any course at the 300 level or below must be passed with a grade of C- or better in order to be used as a prerequisite for any subsequent course.

502. Electronic Devices for Rehabilitation (3)

Two lectures and three hours of laboratory.

Prerequisite: Electrical Engineering 303 or 330.

Recent developments in electronic assistive devices and micro-computers for persons with various disabilities; assessment of disabled persons for suitable technological assistive devices.

503. Biomedical Instrumentation (3)

Prerequisites: Engineering 280; Electrical Engineering 410 and 430 (or for Mechanical Engineering majors, Electrical Engineering 303 and Mechanical Engineering 512).

Instrumentation systems to monitor, image, control, and record physiological functions. (Formerly numbered Electrical Engineering 403.)

520. Feedback Control Systems (3) I

Prerequisite: Electrical Engineering 410.

Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability; Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

530. Analog Integrated Circuit Design (3)

Prerequisite: Electrical Engineering 430 with minimum grade of C-.

Advanced treatment of transistor pairs, device mismatches, differential amplifiers, current mirrors, active loads, level shifting, and output stages. Parasitic and distributed device parameters. Economics of IC fabrication and impact on design.

534. Solid-State Devices (3)

Prerequisite: Electrical Engineering 434.

Conduction theory of solids. Characteristics of tunnel, backward, breakdown, multilayer and varactor diodes; silicon controlled rectifiers and switches, unijunction transistors, hot electron devices. Lasers and laser applications.

539. Instrumentation Circuits I (3)

Prerequisite: Electrical Engineering 430.

Design and analysis of hybrid analog/digital electronic sub-systems incorporated into modern instrument design. Emphasis on operational amplifier based circuit design and analog-to-digital and digital-to-analog conversion processes.

540. Microwave Devices and Systems (3)

Prerequisite: Electrical Engineering 340. Recommended: Engineering 510.

Applications of Maxwell's equations to wave propagation. Microwave network parameters; guided wave transmission and reflection. Design of filters, couplers, power dividers and amplifiers. Applications in radar and telecommunications systems.

540L. Microwave Design and Measurements Laboratory (1)

Three hours of laboratory.

Prerequisites: Credit or concurrent registration in Electrical Engineering 430L and 540.

Designs, computer simulations, fabrications, and testings of microwave matching networks, couplers, filters, and amplifiers.

541. Electro-Optics (3) II

Prerequisite: Electrical Engineering 434.

Optical/electronic devices and systems; wave beams; light-matter quantum interactions; incoherent and laser light sources; modulators and detectors. Applications in data transmission, measurement, and materials processing.

546. Optical Fiber Communications Systems (3)

Prerequisite: Electrical Engineering 434.

Optical fiber attenuation and dispersion, light-emitting diodes and laser diodes, PIN diodes and avalanche photodiodes, receiver designs, optical power budgets and rise time budgets, applications in digital and analog communication systems.

553. Stochastic Signals (3) I

Prerequisite: Electrical Engineering 410.

Random signals, correlation functions, power spectral densities, the Gaussian process, narrow band processes. Applications to communication systems.

556. Digital Signal Processing (3)

Prerequisite: Electrical Engineering 410 or Physics 516.

Digital signal processing. Discrete-time signals, transform techniques, and digital filters. Design of FIR and IIR filters, FFTs, and finite length effects on digital systems.

558. Communication Systems II (3) II

Prerequisite: Electrical Engineering 458.

Performance of analog and digital communication systems. Effects of noise and spectral characteristics.

558L. Communications and Digital Signal Processing Laboratory (1)

Prerequisite: Electrical Engineering 558.

Experiments in modulation techniques, effects of noise on system performance, digital filters, and signal processing.

570. Advanced Digital Circuits (3)

Prerequisite: Computer Engineering 470.

Digital applications of linear devices, the digital/analog interface, and ultra high speed logic devices.

580. Modern Power Systems I (3) I

Prerequisites: Engineering 280, Electrical Engineering 310 and 380.

Modern power system elements; calculation of load flow, fault currents, and system stability.

581. Modern Power Systems II (3) II

Prerequisite: Electrical Engineering 580.

Transient response of modern power system elements; positive, negative and zero sequence impedance; subharmonic effects.

582. Power Relay Systems (3) I

Prerequisite: Electrical Engineering 380.

Power relays including metering and control as used in modern power systems. Characteristics of operations and applications of equipment. Demonstrations on individual component relays. Basic relay calculations.

583. Power Electronics (3)

Prerequisites: Electrical Engineering 380 and 430.

Design and analysis of power electronic devices. Power semiconductor switches, switch-mode power supplies, dc-to-ac inverters, PM and PWM ac-to-ac converters. Power electronics applications.

596. Advanced Electrical Engineering Topics (1-3) I, II

Prerequisite: Consent of instructor.

Modern developments in electrical engineering. See Class Schedule for specific content. Maximum credit of nine units for any combination of Electrical Engineering 496 and 596 applicable to a bachelor's degree. Maximum credit of six units of Electrical Engineering 596 applicable to a 30-unit master's degree.

UPPER DIVISION COURSES IN COMPUTER ENGINEERING (COMPE)

NOTE: Prerequisites will be enforced in all 500-level courses. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted.

Any course at the 300 level or below must be passed with a grade of C- or better in order to be used as a prerequisite for any subsequent course.

560. Computer and Data Networks (3)

Two lectures and three hours of laboratory.

Prerequisites: Computer Engineering 271 and Electrical Engineering 410.

Wide area and local area networks. Multi-layered protocol models, telephone systems, modems, and network applications.

561. Advanced Windows Programming (3)

Prerequisite: Computer Engineering 361.

Win32 application programmers interface. Microsoft foundation classes. Memory management. Multitasking and multithreading. The clipboard. Dynamic data exchange. Dynamic link libraries. Object linking and embedding. Active template library. ActiveX controls. Internet programming. (Formerly numbered Computer Engineering 577 and 577L.)

565. Multimedia Communication Systems (3)

Prerequisite: Credit or concurrent registration in Computer Engineering 560.

Design and implementation of multimedia communication systems. Image compression, JPEG, VQ, cell-B standards. Video and audio compression standards, MPEG, MPEG-2, H.26X, G.72X. Data storage systems and multimedia requirements. Networking requirements and networks as multimedia carriers. Transport and network protocols for carrying multimedia over data networks. Multimedia system design, scheduling, congestion control, traffic shaping, buffer management.

572. VLSI Circuit Design (3) I

Prerequisites: Computer Engineering 271 and Electrical Engineering 330.

Design of digital integrated circuits based on CMOS technology; characterization of field effect transistors, transistor level design and simulation of logic gates and subsystems; chip layout, design rules, introduction to processing; ALU architecture.

596. Advanced Computer Engineering Topics (1-3) I, II

Prerequisite: Consent of instructor.

Modern developments in computer engineering. See Class Schedule for specific content. Maximum credit of nine units for any combination of Computer Engineering 496 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Computer Engineering 596 and 696 applicable to a 30-unit master's degree.

**GRADUATE COURSES IN
ELECTRICAL ENGINEERING (E E)**

All listed prerequisite courses or their equivalent for computer engineering and electrical engineering courses must be satisfied with a grade of C– or better.

622. Sampled-Data Systems (3)

Prerequisite: Electrical Engineering 520.

Analysis and synthesis of sampled-data and digital control systems; techniques for the design of time optimal sampled-data control systems; z-transform calculus and difference equation synthesis techniques for determining stability and system response.

634. Semiconductor RF Circuit Design (3)

Prerequisite: Electrical Engineering 540.

Wide band amplifiers, low level RF amplifiers and mixers, IF amplifiers, AGC, tuning and stability problems, unilateralization and mismatching techniques, harmonic oscillators, VHF power amplifiers including varactor multipliers.

642. Optical Communications (3)

Prerequisite: Electrical Engineering 541 or 546.

Advanced topics of interest in electro-optical communications, including lasers, background light sources, modulators, receivers, optical fiber and atmospheric channels, and adaptive techniques.

644. Optical Data Processing (3)

Prerequisites: Electrical Engineering 340 and 410.

Electro-optical systems for processing electronic data or images. Spatial frequency analysis, filtering, convolution, and correlation based on light diffraction. Film as a recording medium. Acousto-optic and electro-optic processing devices and their applications.

645. Antennas and Propagation (3)

Prerequisite: Electrical Engineering 540.

Impedance characteristics and radiation patterns of thin linear antenna elements; field intensity calculations. Tropospheric and ionospheric propagation; propagation anomalies.

650. Modern Communication Theory I (3)

Prerequisite: Electrical Engineering 553 or 558.

Probability theory, random variables, random processes, Gaussian process, random signals through linear systems, noise considerations, optimum receiver design, applications to digital and wave-form communication.

652. Principles and Applications of Information Theory (3)

Prerequisite: Electrical Engineering 650.

Measure of information; digital communication systems, Shannon theorems, channel coding for applications in interference, noise combatting and jamming; source encoding for data compression. Multi-channel and multi-user information theory with applications to diversity, multipath and other environments.

653. Coding Theory (3)

Prerequisite: Electrical Engineering 650.

The theory of coding to combat noise over communication channels. Redundancy added to messages to assure arbitrarily small error rates at a given information rate. Discussion of channels and capacity. Block codes, cyclic codes, BCH codes, convolutional code.

657. Digital Image Processing (3)

Prerequisite: Electrical Engineering 556.

Theory of two-dimensional signals and systems, image transforms, image enhancement, restoration and compression, image analysis and computer vision.

658. Advanced Applications of Digital Signal Processing (3)

Prerequisite: Electrical Engineering 556 or 657.

Concepts of spectral analysis. Applications of DSP to speech encoding. Image coding, fast algorithms applied to speech, image, radar, sonar and geophysical signal processing.

672. VLSI System Design (3)

Prerequisite: Computer Engineering 572.

Design of microprocessor data paths and controllers, memory management, pipelines, multipliers, Risc and multiprocessor systems and applications.

675. Advanced Microprocessors (3)

Prerequisite: Computer Engineering 475.

Program development, circuit design, direct-memory access, multiprocessing, co-processing, and standardized bus design for a 32-bit microprocessor.

676. Fault Tolerant Computing (3)

Prerequisite: Computer Engineering 470.

Redundancy in computer design. Reliability modelling for digital systems. State-of-the-art in fault tolerant computers. Testing and diagnostics of digital systems. Designing for testability.

678. Advanced Computer Design (3)

Prerequisite: Computer Engineering 475.

Design principles for high performance computers. State-of-the-art in parallel computer systems, including pipelined computers, array processors and multiprocessor systems.

679. Real-Time Software Engineering (3)

Prerequisite: Electrical Engineering 675.

Principles of real-time programming and software engineering for microprocessor systems. Concurrent programming and multitasking. Structured programming. Software validation. Team programming projects.

680. Computer Methods in Advanced Power System Analysis (3)

Prerequisite: Electrical Engineering 580.

Computer Modeling and analysis techniques applied to large power systems.

705. Seminar in Communications Systems (1-3)

Prerequisite: Consent of instructor.

An intensive study in communication theory and systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

706. Seminar in Computer Engineering (1-3)

Prerequisite: Consent of instructor.

Intensive study in computer engineering topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of department chair.

Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of department chair.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Mechanical Engineering

In the College of Engineering

OFFICE: Engineering 323L
TELEPHONE: (619) 594-6067
EMAIL: me@engineering.sdsu.edu

Faculty

Joseph Katz, D.Sc., Professor of Aerospace Engineering and Engineering Mechanics, Interim Chair of Department
Subrata Bhattacharjee, Ph.D., Professor of Mechanical Engineering (Graduate Adviser)
Halil M. Güven, Ph.D., Professor of Mechanical Engineering
Ronald A. Kline, Ph.D., Professor of Mechanical Engineering, Interim Associate Dean of the College of Engineering
James S. Burns, Ph.D., Associate Professor of Mechanical Engineering
Eugene A. Olevsky, Ph.D., Associate Professor of Mechanical Engineering
Thomas J. Impelluso, Ph.D., Assistant Professor of Mechanical Engineering
Michael A. Lambert, Ph.D., Assistant Professor of Mechanical Engineering
Karen D. May-Newman, Ph.D., Assistant Professor of Mechanical Engineering

Courses Acceptable on Master's Degree Programs in Mechanical Engineering (M E)

UPPER DIVISION COURSES

NOTE: Proof of Completion of prerequisites required for all Mechanical Engineering 300-, 400-, and 500-level courses: Copy of transcript. In addition, Mechanical Engineering 390, 450, 490A, and 530 require evidence of concurrent registration in appropriate courses.

510. Advanced Machine Design (3) I, II

Prerequisites: Mechanical Engineering 314 and 340.

Application of advanced mechanics of materials to the design and analysis of mechanical elements. Introduction to probabilistic design and to finite element methods and applications. Design projects involve extensive use of finite element programs.

512. Simulation of Engineering Systems (3) I, II

Two lectures and three hours of laboratory.

Prerequisites: Mechanical Engineering 314 and 395.

Modeling, simulation, analysis, and design of mechanical engineering dynamics, vibration, electromechanical systems, heat transfer, thermodynamics and control systems. Introduction to virtual instrumentation using software such as LABVIEW.

520. Introduction to Mechanical Vibrations (3)

Prerequisites: Mechanical Engineering 512 and Civil Engineering 301.

Analysis of mechanical vibration; single- and multi-degree of freedom systems; free and forced vibrations; vibration isolation; vibration absorbers. Theory of vibration measuring instruments.

530. Automatic Control Systems (3)

Prerequisites: Engineering 280 with a grade of C or better, and credit or concurrent registration in Mechanical Engineering 512.

Analysis of the dynamic characteristics of control components and systems. Stability and response of closed loop systems. Design of control systems.

540. Nonmetallic Materials (3)

Prerequisites: Mechanical Engineering 314 and 340.

Fundamentals of ceramics, polymers, and composite materials. Materials design and selection. Statistical methods of brittle materials design, appropriate for ceramic materials, and rheological modeling of polymeric materials. Stress and strain analysis using classical lamination theory of multi-ply composite laminates.

542. Manufacturing with Nonmetallic Materials (3)

Prerequisites: Mechanical Engineering 340 and Engineering 280 with a grade of C or better.

Engineering polymers and composites, processes, and manufacturing techniques. Polymer flow in extrusion, compression molding, RTM, and calendaring. Hands-on fabrication and test exercises included along with a capstone manufacturing project.

544. Advanced Manufacturing Processes (3)

Prerequisites: Mechanical Engineering 314, 340, 350; Engineering 280 with a grade of C or better; and Engineering 296 (Graphic Communication Virtual Reality).

Technical and business aspects of contemporary and emerging manufacturing. Emphasis on ethical and sustainable engineering in a global business setting. Includes TQM, SPC, cost modeling and ergonomics. Net-shape and non-net-shape manufacturing and mechanics.

546. Computer Aided Manufacturing (3)

Prerequisites: Mechanical Engineering 314, 340; Engineering 120 and 280, both with a grade of C or better; and Engineering 296 (Graphic Communication Virtual Reality).

Computer controlled manufacturing and assembly techniques and devices. Databases and special languages. Agile manufacturing software programs and technologies.

570. Thermal Systems Analysis and Design (3)

Prerequisite: Mechanical Engineering 470.

Analysis, design, and optimization of thermal systems using micro-computers. Modeling of thermal systems and components. Thermal system component characteristics and their effect on overall system performance. Relationship among thermal sciences in design process. Introduction to thermoeconomic optimization.

582. Heating, Ventilating, and Air-Conditioning (3)

Prerequisites: Mechanical Engineering 450 and 470.

Fundamentals of air conditioning processes, psychrometrics, and building cooling load calculations. Design and analysis of HVAC systems. Equipment selection. Design codes and standards. Computerized cooling load calculations.

586. Solar Energy Conversion (3)

Prerequisites: Engineering Mechanics 340, Mechanical Engineering 450 and 470.

Application of thermodynamics, fluid mechanics and heat transfer to the thermal design of solar energy conversion systems. Computer simulations utilized.

590. Biomechanics (3)

Prerequisites: Civil Engineering 301 and Engineering Mechanics 340.

Application of engineering methodologies for quantitative understanding of biological/physiological phenomena. Continuum mechanics principles. The cardiovascular system and its components viewed from a mechanistic standpoint.

596. Advanced Mechanical Engineering Topics (1-3) I, II

Prerequisite: Consent of instructor. **Proof of completion of prerequisite required:** Copy of transcript.

Modern developments in mechanical engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Mechanical Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES**610. Finite Element Methods in Mechanical Engineering (3)**

Prerequisites: Engineering 280 with a grade of C or better and Mechanical Engineering 510.

Development of finite elements and an introduction to solution methods. Problems from various fields of study in mechanical engineering such as stress analysis, vibrations and heat transfer. Introduction to finite element programs such as NASTRAN.

614. Engineering Design: Analytical Methods (3)

Prerequisites: Mechanical Engineering 512 and Engineering 510.

Classical optimization techniques, digital computer methods of optimization, design decision theory, reliability in design.

621. Mechanical Vibrations (3)

Prerequisites: Mechanical Engineering 512, 520 and Engineering 510.

Topics in vibration relating to mechanical design such as nonlinear vibrations, distributed mass systems, random vibrations, mobility analysis, isolator design.

632. Advanced Topics in Automatic Controls (3)

Prerequisite: Mechanical Engineering 530.

Analysis and synthesis of sample data systems. State space analysis of multivariable systems, optimal control systems.

645. Mechanical Behavior of Engineering Materials (3)

Prerequisites: Mechanical Engineering 314, 340, and 350.

Elastic and plastic deformation of monolithic engineering materials and composites. Dislocation theory and plasticity of crystalline solids. Linear elastic and elastic-plastic fracture mechanics. Failure analysis of engineering components. Design optimization based on materials and service environment variables.

651. Advanced Thermodynamics (3)

Prerequisites: Engineering 280 with a grade of C or better and Mechanical Engineering 450.

Advanced concepts of macroscopic thermodynamics are developed including entropy generation, irreversibility, effectiveness, availability, and chemical availability of fuels. Concepts applied to power and refrigeration cycles using computer software.

661. Gas Dynamics (3)

Prerequisites: Mechanical Engineering 450 and Engineering 510.

Thermodynamics of high velocity compressible fluid flow. Adiabatic and diabatic flow; shock phenomena; imperfect gases; multidimensional flow. Applications to the propulsive duct and turbomachinery.

663. Boundary Layers in Internal Flows (3)

Prerequisites: Mechanical Engineering 470 and Engineering 510. Conservation laws applied to boundary layers in viscous, heat conducting fluids; analysis of the boundary layer equations; applications to internal flows.

671. Conduction of Heat and Mass Transfer (3)

Prerequisites: Mechanical Engineering 470 and Engineering 510. Conduction heat transfer analysis of multi-dimensional and transient processes using both classical analysis and numerical methods. Analogous transport problems involving mass transfer by diffusion.

673. Convection Heat Transfer (3)

Prerequisites: Mechanical Engineering 470 and Engineering 510. Recommended: Concurrent registration in Mechanical Engineering 663.

Convection heat transfer processes under laminar and turbulent conditions. Mass transfer. Scaling arguments, analytical and numerical modeling.

675. Radiation Heat Transfer (3)

Prerequisites: Mechanical Engineering 470 and Engineering 510. Radiation heat transfer processes. Radiative properties of surfaces and gases. Absorption, emission, and scattering phenomena. Numerical modeling.

696. Advanced Topics in Mechanical Engineering (2 or 3)

Intensive study in specific areas of mechanical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisites: Consent of graduate adviser and advancement to candidacy.

Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Carey G. Wall, Ph.D., Professor of English
Laurel Amtower, Ph.D., Associate Professor of English
Alfred F. Boe, Ph.D., Associate Professor of English and Comparative Literature
Clare Colquitt, Ph.D., Associate Professor of English, Director of Graduate Studies, M.A. Program
Lynda L. Koolish, Ph.D., Associate Professor of English
David Matlin, Ph.D., Associate Professor of English
William A. Nericcio, Ph.D., Associate Professor of English and Comparative Literature
Barry G. Stampfl, Ph.D., Associate Professor of English
June Cummins-Lewis, Ph.D., Assistant Professor of English
Maria C. Sanchez, Ph.D., Assistant Professor of English
P. Ryan Schneider, Ph.D., Assistant Professor of English

Associateships and Scholarships

Graduate teaching associateships in English are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate director.

General Information

The Department of English and Comparative Literature offers graduate study leading to a Master of Arts in English and the Master of Fine Arts in creative writing. The M.A. student can choose one of four areas

of specialization: American literature, British literature, comparative literature, or rhetoric and writing. The M.A. is a 30-unit degree program particularly well-suited for students who anticipate further graduate work in a literature or rhetoric Ph.D. program or who intend to teach English in a community college or, after obtaining a credential, in a secondary school. The M.F.A. in creative writing is a 54-unit program which offers study in poetry or fiction with a balance between studio and academic, traditional and experimental, commercial and aesthetic approaches. The program has two stages – graduate seminars followed by intensive study with one or more professors in tutorials and thesis preparation. The M.F.A. is a professional program intended for full-time students who wish to receive a terminal degree in creative writing. Each year, in addition to the resident faculty, the department invites approximately twenty writers and editors to the campus for readings and residencies.

The department offers a wide range of courses and approaches to the study of literature and writing, many of which are outlined in English 600, Introduction to Graduate Study, required of all entering M.A. students. Faculty publications in literature and rhetoric are similarly diverse. They include major literary biographies, historical studies, critical analysis from various current perspectives, reviews of and interviews with contemporary writers, as well as a broad spectrum of original poetry and fiction. The department also sponsors the literary periodicals Fiction International, Poetry International, and The Pacific Review.

Master of Arts Degree in English

Admission to Graduate Study

Students will be admitted in both the fall and spring semesters. Submit applications by October 1 for the spring and by April 1 for the fall.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students may be admitted to the master's program in English in one of two categories:

1. Classified Graduate Standing
To be considered for admission, students must meet the following minimal requirements:
 - a. 24 units of upper division work in English. (Students choosing the comparative literature specialization may substitute foreign language literature or comparative literature courses.)
 - b. 2.75 overall on a 4.0 Grade Point Scale.
 - c. 3.0 grade point average in the English major. (Students choosing the comparative literature specialization in either foreign language literature or comparative literature courses must possess a 3.0 grade point average.)
 - d. The applicant normally must achieve a minimum score of 1050 on the Graduate Record Examination, with a minimum of 550 on the verbal section.
2. Conditional Classified Graduate Standing
 - a. Conditional acceptance may be granted if there is a deficiency in any of the above requirements. A student accepted conditionally must customarily achieve an average of 3.25 in nine units of English or comparative literature

courses with no grade less than B– before proceeding to further study and is limited to 12 units. Any units taken above this quota will not count toward the 30 units for the master's degree in English.

- b. English major unit deficiencies. Students who lack 24 units of credit in upper division courses in English or in foreign language literature or comparative literature courses will be considered for conditional standing if they meet the requirements of 2.75 overall and achieve a minimum score of 1050 on the Graduate Record Examination, with a minimum of 550 on the verbal section. After the completion of 24 units for the undergraduate major, students will be considered for classified graduate standing if they meet the other requirements. Students choosing a comparative literature specialization may substitute 24 units of upper division coursework in foreign language literature or comparative literature courses for part of this requirement.

Applicants are required to submit a 750-1000 word statement of purpose and a 10-page writing sample from a previous literature course, preferably an analytical essay involving research. These materials, along with two sets of official transcripts (in sealed envelopes), and three letters of recommendation, should be sent in one single packet directly to the graduate adviser in the Department of English and Comparative Literature.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement, as stated in Part Two of this bulletin. Each candidate, with the approval of the graduate director, may fulfill the foreign language requirement in one of several ways: (1) by passing a local examination administered by one of the University's foreign language departments, (2) by completing one three-unit upper division foreign language literature course with readings in the original language with a grade of C (2.0) or better, or (3) by passing an examination to be determined by the graduate adviser if the chosen language is one not taught in a department at San Diego State University.

Specific Requirements for the Master of Arts Degree

(Major Code: 15011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program, approved by the department's director of graduate studies, which includes a major consisting of 30 units, with at least 21 units of 600- and 700-numbered courses. The major includes a specialization in one of four program areas: American literature, British literature, comparative literature, or rhetoric and writing. Students specializing in literature may choose Plan A (thesis) or Plan B (written examination). Students specializing in rhetoric and writing may only select the thesis option (Plan A).

Specialization in American Literature

- Core Courses (9 units):
 English 600 Introduction to Graduate Study (3)
 English 601 Literary Study in a Multicultural World (3)
 English 602 Literary Theory and Critical Practice (3)

American Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:

- English 604A American Literary Period or Movement (3)
 English 606A American Literary Type (3)
 English 625 Literature of the United States (3)
 English 700 Seminar: A Major Author or Authors (3)
 English 725 Seminar: Issues in Literature of the United States (3)

(With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for **one** of the above courses.)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

- Plan A: (Thesis or Project) – 799A (3 units)
 Plan B: (Comprehensive Examination) – Additional 3 units of 700-level coursework in English.

Specialization in British Literature

- Core Courses (9 units):
 English 600 Introduction to Graduate Study (3)
 English 601 Literary Study in a Multicultural World (3)
 English 602 Literary Theory and Critical Practice (3)

British Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:

- English 604B British Literary Period or Movement (3)
 English 606B British Literary Type (3)
 English 624 British Literature (3)
 English 700 Seminar: A Major Author or Authors (3)
 English 724 Seminar: Issues in British Literature (3)

(With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for **one** of the above courses.)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

- Plan A: (Thesis or Project) – 799A (3 units)
 Plan B: (Comprehensive Examination) – Additional 3 units of 700-level coursework in English.

Specialization in Comparative Literature

- Core Courses (9 units):
 English 600 Introduction to Graduate Study (3)
 English 601 Literary Study in a Multicultural World (3)
 English 602 Literary Theory and Critical Practice (3)

Comparative Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:

Three units acceptable for graduate credit, in a foreign language literature read in the original language.

Six units from the following:

- English 604C Comparative Literature Literary Period or Movement (3)
 English 606C Comparative Literature Literary Type (3)
 English 626 Comparative Literature (3)
 English 700 Seminar: A Major Author or Authors (3)
 English 726 Seminar: Issues in Comparative Literature (3)

(With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for **one** of the above courses.)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

- Plan A: (Thesis or Project) – 799A (3 units)
 Plan B: (Comprehensive Examination) – Additional 3 units of 700-level coursework in English.

Specialization in Rhetoric and Writing

Core Courses (9 units):

- English 600 Introduction to Graduate Study (3)
- English 601 Literary Study in a Multicultural World (3)
- English 602 Literary Theory and Critical Practice (3)

Rhetoric and Writing Research Focus (9 units):

- RWS 601 History of Rhetoric (3)
- RWS 602 Modern Rhetoric and Composition Studies (3)

Three units selected from:

- RWS 744 Seminar: Issues in Rhetorical Theory and Practice (3)
- RWS 745 Advanced Seminar: Research Methods in Rhetoric and Writing (3)

Electives: Diversification in Literary and Writing Research.

With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:

- Plan A: (Thesis or Project) – 799A (3 units)

Master of Fine Arts Degree in Creative Writing

Admission to Graduate Study

STUDENTS WILL BE ADMITTED TO THE M.F.A. IN CREATIVE WRITING ONLY IN THE FALL SEMESTER AND COMPLETE APPLICATIONS MUST BE RECEIVED NO LATER THAN FEBRUARY 1.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

In addition to meeting the general requirements for admission to San Diego State University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for classified graduate standing.

1. The applicant must submit a sample of creative work (15 poems or 30 pages of prose) and three letters of recommendation, to enable the creative writing faculty to assess the candidate's suitability to pursue an M.F.A. in creative writing. The sample of creative writing and the letters of recommendation are to be sent directly to the director of the creative writing program, Department of English and Comparative Literature, San Diego State University.
2. The applicant must possess a baccalaureate degree in creative writing, or in English with a focus in creative writing, or an approved affiliated field, with a grade point average of not less than 3.0 overall in the last 60 units of study attempted, with a 3.25 undergraduate grade point average in the major, and a 3.5 average in those courses considered prerequisite for the M.F.A. focus the student elects. The applicant should send two sets of official transcripts (in sealed envelopes) directly to the graduate adviser in the Department of English and Comparative Literature.
3. If deficient, the applicant must complete undergraduate requirements commensurate with the proposed focus in the M.F.A. program.
4. The applicant normally must achieve a minimum score of 1050 on the Graduate Record Examination, with a minimum of 550 on the verbal section. The results of the GRE should be sent directly to the Office of Graduate Admissions, San Diego State University (SDSU code: 4682).

Students who submit especially compelling samples of creative work, but who have not met certain criteria or who demonstrate deficiencies in undergraduate preparation or basic skill development may

be granted conditional classified admission to the program. The graduate coordinator shall specify the conditions for such admission with the proviso that any prerequisite coursework assigned must be completed with a minimum grade point average of 3.0 and no grade less than a B-.

A student holding an M.A. degree in English with a specialization in creative writing from San Diego State University, or any other acceptable accredited institution of higher learning, must formally apply for admission to the M.F.A. program. Applicants holding an M.A. or pursuing an M.F.A. at an acceptable accredited institution may transfer up to 18 units upon review and recommendation by the creative writing faculty in the area of focus and the approval of the Dean of the Graduate Division. Students unable to satisfy the requirements for the M.F.A. degree will not automatically be considered for an M.A. degree.

Students already accepted into the M.F.A. program at San Diego State University who request a change of focus (poetry or fiction) at a later date will be required to reapply to the creative writing committee.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. degree must have completed 30 units within their official program of study, including transfer credit, with a minimum grade point average of 3.25 and have no grade less than B-. Students will be permitted to repeat only one course to achieve these levels.

In addition, the M.F.A. graduate committee must have recommended appointment of a thesis adviser from the student's area of focus (poetry, fiction) and the creative writing committee must have approved a thesis topic. Applicants for advancement should submit a portfolio of their creative work to the creative writing committee for a recommendation for advancement. Aspects to be reviewed include artistic achievement, ability to function in situations that writers and teachers usually encounter, and demonstration of skills in the focus area.

After advancement to candidacy, a student must enroll in and complete a minimum of 24 units from the official program to include English 797 and 799A.

Specific Requirements for the Master of Fine Arts Degree in Creative Writing

(Major Code: 15071)

In addition to meeting the requirements for classified graduate standing, candidates for the M.F.A. in creative writing must complete a 54-unit graduate program, 39 of which must be in courses numbered 600 and above as follows:

1. **Creative Writing Research Focus.** Student to select one 24-unit research focus as follows:
 - A. Fiction
18 units of English 750F.
Six units of English 750P, or 580, or 579 when poetry.
 - B. Poetry
18 units of English 750P.
Six units of English 750F, or 581W, or 583, or 584W, or 587, or 579 when fiction.
2. **Literature Research.** An 18-unit literature research component divided as follows:
 - A. Three units selected from the following:
English 630 Form and Theory of Poetry (3)
English 631 Form and Theory of Fiction (3)
 - B. Nine units in American, British, or comparative literature, or an appropriate modern language literature selected with the approval of the M.F.A. adviser.
 - C. Six units selected from the following:
English 700 Seminar: A Major Author or Authors (3)
English 724 Seminar: Issues in British Literature (3)

- English 725 Seminar: Issues in Literature of the United States (3)
 English 726 Seminar: Issues in Comparative Literature (3)
 English 730 Seminar: Perspectives in Critical Analysis (3)
 English 796 or 798 in literature with consent of adviser (3)
 RWS 601 History of Rhetoric (3)
 RWS 602 Modern Rhetoric and Composition Studies (3)
 RWS 744 Seminar: Issues in Rhetorical Theory and Practice (3)
 RWS 745 Advanced Seminar: Research Methods in Rhetoric and Writing (3)
3. Six units of electives selected with consent of adviser.
4. **Thesis.** Six units in preparation of the thesis; a book-length creative work.
 English 797 Thesis Research (3)
 English 799A Thesis (3)

Courses Acceptable on the Master's Degree Programs in Creative Writing and English (C LT) (ENGL)

UPPER DIVISION COURSES IN ENGLISH

Prerequisite for all 500-level courses: Six lower division units in courses in literature and/or creative writing.

501. Literature for Children (3) I, II

Critical analysis of literature intended for children. Study of texts and illustrations.

502. Adolescence in Literature (3)

Prerequisite: Six units in literature.
 Works centrally concerned with an adolescent protagonist. Includes both traditional novels of development (Bildungsroman) and contemporary young adult novels.

503. Topics in Children's Literature (3)

Topics in children's and adolescents' literatures such as regionalism, multiculturalism, fantasy, science fiction, non-fiction, illustrated books, nineteenth century classics, major works by twentieth century authors, British children's literature, the noir young adult novel, and the history of genre. Maximum credit six units.

508W. The Writing of Criticism (3) I, II

Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. **Proof of completion of prerequisites required:** Test scores or verification of exemption; copy of transcript.

Theory and practice of literary criticism. Emphasis on the work of important critics and on development of student's own critical writing.

510. Teaching Literature (3)

Prerequisite: Six units in 500-level literature courses.
 Theory and practice of teaching literature in high schools, colleges, and universities; various critical approaches (such as feminist, new historical, deconstruction, reader response) to literature and their implications for teaching and developing teaching styles.

519. Ethnic Literatures of the United States (3) I, II

Prerequisite: Six units in literature.
 Works from United States ethnic literatures, with emphasis on formerly excluded traditions as African-American, Hispanic and Chicano, Asian-American, and American Indian.

520. African-American Literary Tradition (3)

Prerequisite: Six units in literature.
 African-American literature from its eighteenth-century beginnings to the present. Early political and social concerns and concomitant utilitarian forms; aesthetic concerns and forms in nineteenth and twentieth centuries.

521. Early American Literature (3) I, II

Prerequisites: Six lower division units in literature.
 Representative works by American writers from the colonial period through the Revolution; to include works by Anne Bradstreet, Phillis Wheatley, Olaudah Equiano, Cotton Mather, Jonathan Edwards, Benjamin Franklin, Thomas Jefferson, various Native American speakers and writers, and others.

522. Literature of the United States, 1800-1860 (3) I, II

Representative works by United States writers from 1800 to 1860; likely to include works by Emerson, Hawthorne, Melville, Poe, Stowe, Thoreau, Whitman, and others.

523. Literature of the United States, 1860-1920 (3) I, II

Representative works by United States writers from 1860 to 1920; likely to include works by Charles Chesnutt, Kate Chopin, Stephen Crane, Emily Dickinson, Henry James, Mark Twain, Edith Wharton, and others.

524. Literature of the United States, 1920-1960 (3) I, II

Representative works by United States writers from 1920 to 1960; likely to include works by Willa Cather, T. S. Eliot, William Faulkner, F. Scott Fitzgerald, Ernest Hemingway, Zora Neale Hurston, Eugene O'Neill, Katherine Anne Porter, Ezra Pound, John Steinbeck, and others.

525. Literature of the United States, 1960 to Present (3) I, II

United States writers from 1960 to the present; likely to include works by Edward Albee, Saul Bellow, Allen Ginsberg, Joseph Heller, Maxine Hong Kingston, Norman Mailer, Toni Morrison, Sylvia Plath, Adrienne Rich, Kurt Vonnegut, Eudora Welty, and others.

526. Topics in Literature of the United States (3)

Topics in United States literature to include the literature of the South, Black writers in the U.S., the frontier and U.S. literature, the outcast in U.S. literature, the immigrant experience in U.S. literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

527. Genre Studies in Literature of the United States (3)

Study of a specific literary genre: overview of the genre's development in United States literature (the U.S. novel, the U.S. short story, U.S. poetry) or focus on a narrower period (the modern U.S. novel, the contemporary U.S. novel, U.S. autobiographies, others). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

528. Individual United States Authors (3)

Works of a major United States author or, if useful comparisons and juxtapositions warrant it, the works of two or three authors: Melville, Twain, James, Faulkner, Steinbeck, Cather, Morrison; or Pound and Eliot, Emerson and Thoreau, Vonnegut and Barth, Rich and Levertov, and others. See Class Schedule for specific content. May be repeated with new title and content. Maximum credit six units.

529. Medieval Literature (3)

English literature from its birth through high middle ages.

530. Chaucer (3)

Chaucer's works, with emphasis on *The Canterbury Tales* and *Troilus and Criseyde*.

531. Renaissance Literature (3)

English poetry and prose from 1485 to 1603.

533. Shakespeare (3) I, II

An introduction to the writings of Shakespeare. This course cannot be used in place of English 302 to satisfy General Education requirements.

534. Study of Shakespeare (3)

Prerequisite: English 533.
 Advanced study of Shakespeare's achievement as poet and playwright. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

536. Seventeenth Century Literature (3)

English poetry and prose from 1603 to 1660.

537. Milton (3)

Milton's writings, with emphasis on *Paradise Lost*.

538A-538B. Restoration and Eighteenth Century Literature (3-3)

English literature in the neoclassical era. Semester I: Dryden, Swift, Pope, and their contemporaries. Semester II: Writers of the middle and late eighteenth century.

540A-540B. English Fiction (3-3)

The development of English fiction from its beginnings to the end of the nineteenth century. Semester I: The eighteenth century. Semester II: The nineteenth century.

541A-541B. English Drama (3-3)

English dramatic literature from its beginnings to the nineteenth century. Semester I: The period from the beginning to 1642. Semester II: The period following reopening of the theatres in 1660.

542. Romantic Literature (3)

Representative British works from the 1790s to the 1830s by such writers as Wollstonecraft, Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Austen, and Scott.

543. Victorian Literature (3)

Representative British works from 1837 to 1890 by such writers as Carlyle, Tennyson, Ruskin, Browning, Dickens, Arnold, Eliot, and Pater.

544. British Literature, 1890-1918 (3)

Representative British works from 1890 to 1918 by such writers as Hardy, Gissing, Shaw, Conrad, Yeats, Wells, Forster, Mansfield, and the World War I poets.

547. British Literature, 1918-1950 (3)

Representative British works from 1918 to 1950 by such writers as Joyce, Woolf, Lawrence, T.S. Eliot, Mansfield, Huxley, Bowen, Greene, Auden, Orwell, and Thomas.

548. British Literature, 1950 to Present (3)

Representative British works from 1950 to the present by such writers as Golding, Amis, Murdoch, Lessing, Pinter, Hughes, Fowles, Stoppard, Drabble, and Ishiguro.

549. Topics in English Literature (3)

The works of Spenser, the metaphysical school of poetry, the English satirists, major movements in contemporary English fiction, and the like. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

560A. British Literature, Beginnings Through the Eighteenth Century (3) I, II

Survey of major British writers, with emphasis on reading of complete works. From the beginnings to the neoclassical period. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.

560B. British Literature, Romanticism to the Present (3) I, II

Survey of major British writers, with emphasis on reading of complete works. Begins with the Romantic writers. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.

570. Techniques of Poetry (3)

Prerequisite: English 280.

Techniques of poetry from the creative writer's point of view. Introduction to critical and theoretical literature on poetry. Includes a creative writing workshop.

571. Techniques of the Short Story (3)

Prerequisite: English 280.

Techniques of the short story from the writer's point of view. Introduction to critical and theoretical literature on the short story. Includes a creative writing workshop.

573. Techniques of the Novel (3)

Prerequisite: English 280.

Techniques of the novel from the writer's point of view. Introduction to critical and theoretical literature on the novel. Includes a creative writing workshop.

576. Literary Editing and Publishing (3)

Prerequisite: English 280.

Principles and practices of editing and literary publishing. Workshop on small press publishing. Includes editing and publishing workshop.

577. Techniques of Screenwriting (3)

Prerequisite: English 280 or Television, Film, and New Media 110 or 410 for television, film, and new media majors.

Techniques of screenwriting. Introduction to critical and theoretical literature on screenwriting. Includes a creative writing workshop.

579. Topics in Creative Writing (3)

Prerequisite: English 280.

Techniques of creative writing focusing on a specialized genre such as comedy, science fiction, and biography. Study of the critical and theoretical literature on the genre. Includes a creative writing workshop. See Class Schedule for specific content. Maximum credit six units.

580. Writing of Poetry (3) I, II

Prerequisite: English 570.

A creative writing workshop in poetry. Continuation of English 570. Maximum credit six units.

581W. Writing of Fiction (3) I, II

Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. **Proof of completion of prerequisites required:** Test scores or verification of exemption; copy of transcript.

A creative writing workshop in fiction. Continuation of English 571. Maximum credit six units.

583. Writing Long Narrative (3)

Prerequisite: English 573.

A creative writing workshop in long narrative, especially the novella or novel. Continuation of English 573. Maximum credit six units.

584W. Writing Informal Essays (3) I, II

Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. **Proof of completion of prerequisites required:** Test scores or verification of exemption; copy of transcript.

A creative writing workshop in nonfiction, especially the essay as an art form. Maximum credit six units.

587. Writing the Screenplay (3)

Prerequisite: English 577 or Television, Film, and New Media 110 or 510 for television, film, and new media majors.

A creative writing workshop in screenwriting with emphasis on the feature film. Continuation of English 577. Includes playwriting and revising a television script or short film. Maximum credit six units.

596. Selected Topics in English (1-3)

Selected topics in English. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

**UPPER DIVISION COURSES
IN COMPARATIVE LITERATURE**

Prerequisite for all 500-level courses: Six units in literature or three units in literature and three units in a related area appropriate to the course in question.

511. Continental Renaissance (3)

Representative selections from authors of the Renaissance period in continental Europe.

512. Seventeenth and Eighteenth Century European Literature (3)

Selected works by European writers prior to 1800.

513. Nineteenth Century European Literature (3)

Selected works by European writers between 1800 and 1900.

514. Modern European Literature (3)

Selected works by European writers of the twentieth century.

530. Topics in Asian Literature (3)

Specialized study of a selected topic in Asian literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

561. Fiction (3)

A comparative approach to themes and forms in fiction (novel and short story). Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

562. Drama (3)

Forms and themes in drama. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

563. Poetry (3)

A comparative approach to themes and forms in poetry. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

571. Literary Use of Legend (3)

Literary treatment of such legendary figures as Don Juan, Faust, and Ulysses, in a wide range of literature and genres. See Class Schedule for specific content.

577. Major Individual Authors (3)

In-depth study of the works of a major author, such as Dante, Murasaki, or Dostoyevsky. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

580. Concepts in Comparative Studies (3)

Basic concepts in comparative studies in literature (e.g., influence, movement, figure, genre, etc.); their validity, usefulness, and limitations. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

594. Topics in Literature and the Arts (3)

Prerequisite: Six upper division units in literature or any of the other arts.

Comparative study of literature and other arts such as painting, sculpture, architecture, music, dance, and film. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a bachelor's degree. Maximum credit six units applicable to the M.F.A. degree in creative writing.

595. Literature and Aesthetics (3)

Prerequisite: Six upper division units in literature or any of the other arts.

Theoretical and experiential investigation of relationships between literature and the other arts; literary works in context of an inquiry into aesthetics.

596. Topics in Comparative Literature (3)

An intensive study of a topic to be selected by the instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

GRADUATE COURSES IN ENGLISH

600. Introduction to Graduate Study (3)

Prerequisite: Twelve upper division units in English.

Introduction to research methods and critical approaches common in the graduate study of literature and expository writing, with attention to basic reference works, bibliographical techniques, analytical strategies, scholarly frames of reference, and pedagogy. Recommended for first-semester graduate students.

601. Literary Study in a Multicultural World (3)

Prerequisite: Credit or concurrent registration in English 600.

Relationship of literature to gender, race, class, and nationality. Changing conceptions of literary canons. Exploration, through literary texts, of values in literature and the constituents of literary value.

602. Literary Theory and Critical Practice (3)

Prerequisite: Credit or concurrent registration in English 600.

Major issues in the history of literary criticism as well as contemporary approaches. Study of criticism and theory accompanied by writing practicum. Students will write in several critical modes and build graduate level proficiency in analyzing literary issues. Prerequisite to 700-level seminars.

604. A Literary Period or Movement (3)

Prerequisites: An appropriate upper division or graduate level background course; credit or concurrent registration in English 600.

Advanced study, through its literature, of a literary period such as the Renaissance, or a movement such as American modernism. May be repeated with new content. Maximum credit six units.

A. American Literature

B. British Literature

C. Comparative Literature

606. A Literary Type (3)

Prerequisite: Credit or concurrent registration in English 600.

Advanced study of a specific literary genre, such as the novel, tragic drama, lyric poetry, the personal essay, autobiography. May be repeated with new content. Maximum credit six units.

A. American Literature

B. British Literature

C. Comparative Literature

624. British Literature (3)

Prerequisite: Twelve upper division units in English.

Selected works of an author, period, or subject in English literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

625. Literature of the United States (3)

Prerequisite: Twelve upper division units in English, with courses in American literature strongly recommended.

Selected works of an author, period, or subject in literature of the United States. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

626. Comparative Literature (3)

Prerequisite: Twelve upper division units in English, comparative literature, or a foreign language literature.

Comparative approaches to literature: study of a theme, geographical region, external relationship, or of selected authors. May be repeated with new content. Maximum credit six units.

630. Form and Theory of Poetry (3)

Prerequisite: Twelve upper division units in English.

Poetry as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in creative writing.

631. Form and Theory of Fiction (3)

Prerequisite: Twelve upper division units in English.

Fiction as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in creative writing.

696. Special Topics (3)

Prerequisite: Twelve upper division units in English.

Intensive study in specific areas of English. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 526, 549, or 696 applicable to a 30-unit master's degree.

700. Seminar: A Major Author or Authors (3)

Prerequisites: English 600 and 602.

Critical study of a major author or authors such as Shakespeare, Charles Dickens, Edith Wharton, Marcel Proust, Gabriel Garcia Marquez, and others. May be repeated with new content. Maximum credit six units.

724. Seminar: Issues in British Literature (3)

Prerequisites: English 600 and 602.

Advanced study of issues within the development of the novel in Great Britain, colonial literatures in English, the British lyrical tradition and others. May be repeated with new content. Maximum credit six units.

725. Seminar: Issues in Literature of the United States (3)

Prerequisites: English 600 and 602.

Advanced study of such issues as regionalism, ethnicity, the urban experience, gender, the political novel in literature of the United States. May be repeated with new content. Maximum credit six units.

726. Seminar: Issues in Comparative Literature (3)

Prerequisites: At least two courses selected from English 600, 601, and 602.

Advanced study of an issue such as translation, negritude, poetic language, or literature and censorship. May be repeated with new content. Maximum credit six units.

730. Seminar: Perspectives in Critical Analysis (3)

Prerequisites: English 600 and 602.

Advanced study of analytical perspectives such as contemporary literary theory, feminist poetics, canon and exclusion, literature and other arts, literature and other disciplines.

750F. M.F.A. Seminar: Fiction Writing (3)

Prerequisite: Open only to students admitted to M.F.A. in creative writing.

Advanced seminar in fiction writing. May include readings in contemporary fiction and narrative theory. Students in fiction focus must take course six times, generating new work each time with various instructors. Maximum credit 18 units.

750P. M.F.A. Seminar: Poetry Writing (3)

Prerequisite: Open only to students admitted to M.F.A. in creative writing.

Advanced seminar in poetry writing. May include readings in contemporary poetry and theory. Students in poetry focus must take course six times, generating new work each time with various instructors. Maximum credit 18 units.

784. Seminar in Creative Literary Criticism (3)

Prerequisite: Six units of graduate level creative writing courses.

Advanced approach to writing book reviews and short critical essays. Professional focuses necessary for these forms. Emphasis on writing, reading, research, and direct function of these processes.

790. M.A. Examination Preparation (3) Cr/NC

Prerequisites: Twenty-four units of graduate coursework that counts toward the M.A. in English. Student must be in final semester of study for the master's degree.

Survey of selected poetry, fiction, and drama in American, British, and comparative literature included in M.A. examination. Emphasis on texts (close readings) and contexts (critical, literary, historical, cultural). Strongly recommended for students taking M.A. examination.

796. Internship (3) Cr/NC

Prerequisites: Advancement to candidacy for the Master of Arts degree in English and comparative literature or admission to the Master of Fine Arts program and consent of the graduate adviser and supervising professor.

Work experience with a practicing professional or company in the community, such as working as editorial assistant or teacher intern.

797. Thesis Research (3)

Prerequisite: Advancement to candidacy in the M.F.A. degree in creative writing.

Independent work in general field of candidate's thesis project.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Exercise Physiology

OFFICE: Exercise and Nutritional Sciences 351
TELEPHONE: (619) 594-5541

In the Department of Exercise and Nutritional Sciences
In the College of Professional Studies and Fine Arts

Faculty

Kathryn J. LaMaster, Ph.D., Associate Professor of Exercise and Nutritional Sciences, Interim Chair of Department
Michael J. Buono, Ph.D., Professor of Exercise and Nutritional Sciences
Jeanne F. Nichols-Bernhard, Ph.D., Professor of Exercise and Nutritional Sciences
Larry S. Verity, Ph.D., Professor of Exercise and Nutritional Sciences (Graduate Adviser)
Fred W. Kolkhorst, Ph.D., Associate Professor of Exercise and Nutritional Sciences

Associateships

Graduate teaching associateships in exercise and nutritional sciences are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department or the graduate adviser.

General Information

The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Science degree in exercise physiology and a concurrent graduate program leading to a Master of Science degree in nutritional science and M.S. degree in exercise physiology. The major objective of the concurrent graduate program is to offer preparation in the interrelated fields of nutritional science and exercise physiology.

The Master of Science degree in exercise physiology has strong theoretical and practical components that provide a basis for students who anticipate employment in the field of rehabilitative and/or preventive exercise, as well as for those who intend to pursue a doctoral degree in exercise science. The faculty includes researchers who are professionally active in areas of study such as thermoregulation, nutrition and metabolism, exercise and aging, cardiac and metabolic pathophysiology, and environmental physiology. The department also has an adult fitness program which provides the students an opportunity to gain exercise-related experience with apparently healthy adults of all ages. Moreover, under the close supervision of faculty, graduate students learn pragmatic skills, such as comprehensive physiological testing, exercise training, and participant education in the field of preventive and clinical exercise programming.

Master of Science Degree in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in exercise physiology must meet the following requirements.

1. A bachelor's degree in kinesiology. Applicants who do not have an undergraduate major in kinesiology may be admitted to conditionally classified graduate standing on the recommendation of the departmental graduate adviser. Students will be required to complete or have equivalent preparation in Biology 212, 336, Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course in addition to the minimum 36 units required for the Master of Science degree.
2. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.
3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.

Students will be admitted ONLY in the fall semester. Submit applications no later than March 1.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Exercise and Nutritional Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Letter of intent: 1-2 pages describing applicant's background, research interests, and goals.

Mail or deliver your complete admissions package to:
Department of Exercise and Nutritional Sciences
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7251

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin. Nine units of coursework in the official program must remain after advancement to candidacy.

Specific Requirements for the Master of Science Degree

(Major Code: 08355)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree, described in Part Two of this bulletin. The 36-unit program includes a minimum of 30 units in Exercise and Nutritional Sciences. The remaining units must be selected from courses listed in this bulletin as acceptable on master's degree programs. At least 27 units of the 36-unit program must be in 600- and 700- numbered courses. A final oral examination on the field of the thesis and on the implications of the thesis research for the broader field of exercise physiology is also required.

Exercise Physiology

Students must develop and sign a formal plan of study which must be approved by both a faculty adviser and the graduate adviser. This official program of study is developed when the student has completed between 12 and 21 units of study, and must be filed with the Graduate Division as a prerequisite for advancement to candidacy.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Required courses (36 units):

ENS 601 Experimental Methods in Exercise and Nutritional Sciences (3)

ENS 602 Research Evaluation in Exercise and Nutritional Sciences (3)

ENS 632 Physiological Chemistry of Exercise (3)

ENS 659 Exercise Cardiology and Pathology (3)

ENS 661 Seminar in Advanced Physiology of Exercise (3)

ENS 662 Advanced Exercise Physiology Laboratory (3)

ENS 666 Adult Fitness: Exercise Prescription (3)

ENS 668 Adult Fitness: Exercise Leadership and Administration (3)

ENS 796 Exercise Specialist Internship (3) Cr/NC

ENS 799A Thesis (3) Cr/NC/RP

Electives (6 units): Electives to be selected with approval of graduate adviser.

Master of Science Degree in Nutritional Science and Master of Science Degree in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the concurrent program in nutritional science and exercise physiology must meet the following requirements.

1. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.
2. A bachelor's degree in foods and nutrition, exercise science, kinesiology, physical education, or related fields. Students will be required to complete or have equivalent preparation in Biology 212, 336, Chemistry 100, 130, 160, Nutrition 302, 302L, and either Nutrition 204 or 311, and Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course.
3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.
Students will be admitted ONLY in the fall semester. Submit applications no later than March 1.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Exercise and Nutritional Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Letter of intent: 1-2 pages describing applicant's background, research interests, and goals.

Mail or deliver your complete admissions package to:
Department of Exercise and Nutritional Sciences
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7251

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science in Nutritional Science and Master of Science in Exercise Physiology

(Major Code: 08356)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units as outlined below.

ENS 601 Experimental Methods in Exercise and Nutritional Sciences (3)

ENS 602 Research Evaluation in Exercise and Nutritional Sciences (3)

ENS 632 Physiological Chemistry of Exercise (3)

ENS 659 Exercise Cardiology and Pathology (3)

ENS 661 Seminar in Advanced Physiology of Exercise (3)

ENS 662 Advanced Exercise Physiology Laboratory (3)

ENS 666 Adult Fitness: Exercise Prescription (3)

ENS 668 Adult Fitness: Exercise Leadership and Administration (3)

ENS 796 Exercise Specialist Internship (3) Cr/NC

ENS 798 Special Study (2) Cr/NC/RP

NUTR 600 Seminar: Foods and Nutrition (3)

NUTR 607 Child Nutrition (3)

NUTR 608 Geriatric Nutrition (3)

NUTR 610 Nutrition and Energy (3)

NUTR 700 Seminar in Nutrition (3)

NUTR 798 Special Study (1) Cr/NC/RP

ENS 799A Thesis (3) Cr/NC/RP

OR

NUTR 799A

If a student, after entering the concurrent program leading to a Master of Science degree in nutritional science and a Master of Science degree in exercise physiology returns to a single degree program, all the requirements for the single degree program must then be met. A final oral examination in the field of the thesis and its implications to the broader fields of nutritional science and exercise physiology is also required.

The department expects the student to complete the degree requirements within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Courses Acceptable on Master's Degree Programs (ENS)

UPPER DIVISION COURSE Exercise and Nutritional Sciences Course

596. Selected Topics in Exercise and Nutritional Sciences (1-3) I, II

Selected topics in exercise and nutritional sciences. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

Exercise and Nutritional Sciences Courses

601. Experimental Methods in Exercise and Nutritional Sciences (3)

Prerequisite: Undergraduate statistics course.

Experimental methods in exercise and nutritional science. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

602. Research Evaluation in Exercise and Nutritional Sciences (3)

Prerequisite: Exercise and Nutritional Sciences 601.

Techniques in designing, conducting, and reporting research in exercise and nutritional science. Qualitative and quantitative paradigms examined. Ethical consideration of human research. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

632. Physiological Chemistry of Exercise (3)

Prerequisite: Exercise and Nutritional Sciences 661.

Biochemical and metabolic responses of the human body to acute and chronic exercise. Neuroendocrine control of fuel regulation during exercise. (Formerly numbered Physical Education 632.)

659. Exercise Cardiology and Pathology (3)

Prerequisites: Exercise and Nutritional Sciences 304 and 314.

Interpretation of resting and exercise electrocardiograms with cardiopulmonary pathologies that skew interpretations. (Formerly numbered Physical Education 659.)

661. Seminar in Advanced Physiology of Exercise (3)

Prerequisites: Exercise and Nutritional Sciences 303 and 304.

Advanced aspects of the physiology of exercise. Effects of exercise on human beings in relation to health, longevity, morphology and performance. (Formerly numbered Physical Education 661.)

662. Advanced Exercise Physiology Laboratory (3)

Nine hours of laboratory.

Prerequisites: Exercise and Nutritional Sciences 304, 314, and admission to program in Exercise Physiology.

Laboratory course designed to develop competency in respiratory metabolism pulmonary function, gas analysis, blood chemistry and ergometry. Experience in the application of exercise procedures with human subjects and analysis and interpretation of results. (Formerly numbered Physical Education 662.)

666. Adult Fitness: Exercise Prescription (3)

Prerequisites: Exercise and Nutritional Sciences 304 and 314.

Physical conditioning programs for the prevention, rehabilitation, and control of diseases associated with aging adults. Topics include disease etiology, health/disease evaluation, and exercise prescription for apparently healthy and diseased adults. (Formerly numbered Physical Education 666.)

668. Adult Fitness: Exercise Leadership and Administration (3)

One lecture and six hours of laboratory.

Prerequisite: Exercise and Nutritional Sciences 666.

Administration of and role of exercise programs in preventive medicine, corporate fitness, and Phase I, II, and III of cardiac rehabilitation, and other disease rehabilitation. Development of skills in exercise leadership in traditional and experimental exercise programs for the apparently healthy and diseased adult. (Formerly numbered Physical Education 668.)

796. Exercise Specialist Internship (1-3) Cr/NC

Three hours of laboratory per unit.

Prerequisites: Exercise and Nutritional Sciences 659, 662, 668.

Supervised application of exercise laboratory testing, test interpretation, exercise prescription and exercise leadership in adult fitness, corporate fitness, preventive medicine and/or hospital disease rehabilitation setting. (Formerly numbered Physical Education 796.)

For additional courses applicable to the Master of Science degree in exercise physiology see:

Exercise and Nutritional Sciences 696: Advanced Topics in Exercise and Nutritional Sciences

Exercise and Nutritional Sciences 798: Special Study

Exercise and Nutritional Sciences 799A: Thesis or Project

Exercise and Nutritional Sciences 799B: Thesis Extension

EMAIL: french.coord@mail.sdsu.edu

Faculty

James L. Schorr, Ph.D., Professor of French, Chair of Department
Edith J. Benkov, Ph.D., Professor of French
Laurie D. Edson, Ph.D., Professor of French
Steven J. Loughrin-Sacco, Ph.D., Professor of French
Mary Ann Lyman-Hager, Ph.D., Professor of French
JoAnne Cornwell, Ph.D., Associate Professor of French
Anne Donadey, Ph.D., Associate Professor of French
(Graduate Adviser)

Associateships

Graduate teaching associateships in French are available to a limited number of qualified students. Application forms and additional information may be secured from the Department of European Studies.

General Information

The Department of European Studies offers graduate study leading to the Master of Arts degree in French.

Research areas of the graduate faculty cover all periods of French literature as well as French linguistics and Francophone studies. The library collection provides up-to-date research resources – books, periodicals, microfilms and video materials in all of these areas. A foreign language multimedia center is available to both undergraduate and graduate students.

The graduate program in French offers opportunities for well-qualified M.A. candidates to complete up to 12 units of their 30 unit official program at French speaking universities. In addition to the MICEFA program at the Universities of Paris, graduate students may participate in the CSU International Programs in both Paris and Aix-en-Provence as well as several French speaking institutions in Quebec. The Office of the Executive Director for International Programs also has international student exchange agreements with a number of French-speaking universities.

Admission to Graduate Study

The student must satisfy the general requirements for admission to the University with classified standing, as described in Part Two of this bulletin. In addition, the student must satisfy the following requirements: (1) an undergraduate major in French, or its equivalent, including 30 upper division units, at least six units of which must be in a survey course in French literature; (2) a GPA of 3.0 (on a 4-point scale) in all upper division French courses; (3) three letters of recommendation from professors, at least two of which should be from professors of French at the institution where the degree was granted; (4) a minimum score of 500 on the verbal section and 450 on the quantitative section of the Graduate Record Examination (GRE) General Test.

Advancement to Candidacy

All students will be required to pass a qualifying examination in French given by the Department of European Studies. This examination will also satisfy the foreign language requirement as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 11021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units which includes a major consisting of at least 24 units in French, of which at least 18 units must be in 600- and 700-numbered courses in French, including French 799A, Thesis, for those following Plan A.

Students, with the consent of the graduate adviser, may elect Plan A, which includes French 799A, Thesis (minimum GPA 3.6), or Plan B, which includes written and oral examinations in lieu of the thesis.

Courses Acceptable on Master's Degree Program in French (FRENC)

Related courses (500 and graduate level) in other departments may be taken for a total of six units credit with prior approval of the graduate adviser.

UPPER DIVISION COURSES

501. Translation (3)

Prerequisite: French 302.

Stylistic comparison of French and English through translation of a variety of prose styles from English to French and from French to English.

520. French and Francophone Literary Studies (3)

Prerequisites: French 302 and 305A or 305B.

Specialized study of a century, genre, movement or theme in French and Francophone literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

530. French and Francophone Cultural Studies (3)

Prerequisites: French 302 and 421 or 422.

Specialized study of artistic and intellectual trends, customs, and politics in French and Francophone culture. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

561. Linguistics and the Teaching of French (4)

Three lectures and two hours of laboratory.

Prerequisite: French 302.

Applied linguistics, methodology, and technology for teachers of French. Not open to students with credit or concurrent registration in Spanish 561.

596. Topics in French Studies (1-4)

Prerequisite: French 302.

Topics in French literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

621. Critical Methods (3)

Prerequisite: Eighteen upper division units in French.

Methods and theories of critical analysis and their application to the works of a major French author or literary genre.

696. Topics in French Studies (3)

Prerequisite: Eighteen upper division units in French.

Intensive study in specific areas of French. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar: A Major French or Francophone Author (3)

Prerequisites: Eighteen upper division units in French.

In-depth study of works of a major French or Francophone author. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

710. Seminar in a Literary Genre (3)

Prerequisite: Eighteen upper division units in French.

Study of a specific literary genre, e.g. poetry, novel, theater. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

720. Seminar in French and Francophone Culture and Civilization (3)

Prerequisite: Eighteen upper division units in French.

Study of a specific topic in French and Francophone culture and civilization. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisites: Advancement to candidacy and approval of graduate adviser.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

The Stephen and Mary Birch Foundation Chair in Geographical Studies

The Stephen and Mary Birch Foundation Chair in Geographical Studies was created through the Birch Foundation's grant to the Geography Department to endow a chair and create a Center for Earth Systems Analysis Research. Dr. Arthur Getis, internationally recognized for his expertise in spatial pattern analysis, spatial statistics, urban structure, and spatial modelling, is the occupant of the Chair.

Associateships

Approximately 45 graduate teaching associateships and graduate research associateships in geography are available to highly qualified students. Applications and additional information may be secured from the department. The deadline for submitting applications for teaching associateships or research associateships is March 1 for the Master of Arts degree and February 1 for the Doctor of Philosophy degree. Applications for associateships must include transcripts, three letters of recommendation, and Graduate Record Examination (GRE) scores, and a statement of interests and goals.

General Information

The Department of Geography offers graduate study leading to the Master of Arts and Doctor of Philosophy degrees in geography. In addition to the general M.A. program, it is possible to pursue a concentration in either natural resources and environmental policy or transportation.

The Master of Arts degree is designed to provide advanced training for (a) students who plan to terminate their graduate studies at the master's level, and (b) those who anticipate additional work leading to the doctoral degree in geography or related fields.

The Doctor of Philosophy program, offered jointly with the University of California, Santa Barbara, provides advanced training for research and teaching at the highest academic level.

Research and instructional facilities provided by the Department of Geography include an excellent map library, the Stephen and Mary

Birch Center for Earth Systems Analysis Research (CESAR), a state-of-the-art image processing/GIS center, laboratories for physical geography, soils, cartography, meteorology, and remote sensing and aerial interpretation and equipment for field studies. The Social Science Research Laboratory provides specialized data collections in the social sciences and a well equipped data processing center.

Section I. Master's Degree Program

Admission to Graduate Study

All persons interested in admission to the master's program in geography should write directly to the M.A. Program Adviser, Department of Geography, for complete information on the program and its requirements.

Students will be considered for admission to the master's program in geography for the fall semester if they have submitted directly to the Department of Geography by May 1 the following materials:

1. Two sets of official transcripts from all colleges and universities attended.
2. GRE scores (official notification).
3. Three letters of recommendation from persons familiar with the academic performance or potential of the applicant.
4. A statement of the applicant's areas of interest and professional goals.

Concurrent with application to the department, the applicant must submit the University application available at www.csumentor.edu. That application must be received by the Office of Graduate Admissions by May 1 in order for the applicant to be considered for the fall semester.

The Geography Department does not encourage students to apply for admission for spring semester. Completed applications for spring admission must be submitted to the department and the Office of Graduate Admissions by September 15. Satisfaction of the minimum requirements of San Diego State University or the Department of Geography does not guarantee admission to the master's program for either the fall or spring semester. Department requirements are normally a minimum grade point average of 3.0 in the last 60 units taken as an undergraduate and a satisfactory score on the verbal and quantitative sections of the GRE.

Candidates whose preparation is deemed insufficient by the master's program committee will be required to complete specified courses in addition to the minimum 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 22061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected with the approval of the graduate advising committee. The student may choose from the General Program, the

Concentration in Natural Resources and Environmental Policy, or the Concentration in Transportation. The department requires students to complete all degree requirements within seven years of the semester that they entered the M.A. program.

General Program

The requirements for students electing the general program are as follows:

1. A minimum of 30 units of courses numbered 500 or above as approved by the geography department M.A. advising committee. At least 24 of these units must be from the geography department.
2. A minimum of 18 of the 30 units of coursework must be 600- or 700-level courses.
3. Geography 700 and 701, normally taken during the first two semesters.
4. Completion of Geography 799A (Thesis) under Plan A.

Concentration in Natural Resources and Environmental Policy

The requirements for students electing a concentration in natural resources and environmental policy are as follows:

1. A minimum of 30 units of which not more than six may be in disciplines other than geography.
2. A minimum of 18 units of 600- and 700-numbered courses, to include Geography 670, 700, 701, 770, 799A, and three units from courses numbered Geography 570-577.
3. A thesis in the area of natural resources or environmental quality management and policies.
4. Additional 500-, 600-, and 700-level coursework, as determined in consultation with the student's thesis committee, appropriate to successfully preparing the thesis.
5. Additionally, students in this concentration should take, or have already completed, three units from courses numbered Geography 581-588 or 683-688L.

Concentration in Transportation

The requirements for students electing a concentration in transportation are as follows:

1. A minimum of 30 units including 15 units of 600- and 700-numbered courses.
2. Geography 700, 701, and at least nine additional units to be taken from 500- and 600-level geography courses, as approved by the graduate advising committee.
3. At least six units selected from:
 - Civil Engineering 620
Traffic Flow and Control (3)
 - Civil Engineering 622
Mass Transit Engineering (3)
 - Civil Engineering 781
Seminar in Transportation Engineering (2 or 3)
 - City Planning 730
Seminar in Urban Transportation Planning (3)
 - Geography 798 Special Study (3) Cr/NC/RP

Graduate or 500-level courses in other departments that are not listed above may be taken if approved by the graduate advising committee.

4. Geography 595 Geographic Internship (3)
(Must be in approved transportation activity.)
5. Geography 799A Thesis (3) Cr/NC/RP
6. A student should have completed a quantitative methods course prior to initiating the program, or take Geography 585, Quantitative Methods in Geographic Research (3), concurrently.

Section II. Doctoral Program

General Information

(Major Code: 22061)

The cooperating faculties of the Department of Geography at San Diego State University and the University of California, Santa Barbara offer a joint doctoral program in geography. The research interests of the participating faculty members cover a range of geographic problems. The joint doctoral program offers work leading to the Ph.D. in the following systematic areas (Group A) with supporting development of skills in spatial techniques (Group B) as follows:

Systematic Areas – Group A

Human Geography

- Urban and regional modeling
- Comparative urbanization
- Urban structure
- Social theory

Environmental Geography

- Natural resources management and policy

Physical Geography

- Biogeography
- Geomorphology
- Physical climatology and hydroclimatology

Spatial Techniques – Group B

- Remote sensing and image processing
- Geographic information systems and computer cartography
- Spatial quantitative or qualitative techniques

Each student's program is designed around one of the areas selected from Group A and at least one of the technique emphases selected from Group B. The main regional foci are problems of Latin America, Western Europe, the Pacific Rim, Mexico-U.S. borderlands, arctic, and arid lands. Students must attain the requisite skills in programming, statistics, mathematics, and foreign language necessary to successfully pursue their research goals.

Admission to Doctoral Study

Applicants for admission to the doctoral program in geography offered jointly by SDSU and UCSB must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. There are no inflexible requirements for entrance to graduate study in this program, but a strong background in geography or a closely related field is essential. Admission to the program requires acceptance by the graduate deans and by the participating departments at UCSB and SDSU. Applications from outstanding students in other majors are encouraged, but such students should expect to take additional courses during their first year to improve their background. All students entering the program should have completed a lower and upper division statistics course and the appropriate mathematics and computer science courses for the specialty chosen.

Applications must be received by the Department of Geography not later than February 1 for the Ph.D. program.

Application. Students seeking admission to the joint doctoral program in geography should communicate directly with the Doctoral Program Coordinator, Department of Geography, SDSU, to request information and application materials. You may also obtain information and application materials at typhoon.sdsu.edu/gradprograms/index.htm.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Geography:

- (1) Application for admission to the Joint Doctoral Program in Geography;
- (2) Two sets of official transcripts (in sealed envelopes);
- (3) One copy of GRE scores;
- (4) One copy of TOEFL scores (for international students);
- (5) Three letters of reference;
- (4) Curriculum vitae or resume;
- (5) An essay describing the applicant's purpose in seeking the Ph.D.

Mail or deliver your complete admissions package to:

Department of Geography
(Attention: Doctoral Program Coordinator)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4493

Applications must be received by the Department of Geography no later than February 1 for the Ph.D. program.

A high undergraduate grade point average, normally 3.25 or higher for the last 60 units taken (90 quarter units), and/or a graduate grade point average of 3.50 or higher are required for admission. A minimum combined score of 1100 on the GRE is expected. Scores on both the verbal and quantitative sections of the GRE should exceed the 50th percentile.

Satisfaction of the minimum requirements at San Diego State University or the Department of Geography does not guarantee admission to the doctoral program.

Specific Requirements

Residency Requirements. After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of UCSB and SDSU. Usually, the first year is spent at SDSU, the second at UCSB, and subsequent years at SDSU.

Advising Committee. Upon admission to the program, the joint doctoral graduate advisers of the two institutions will establish an advising committee for each student. The committee will consist of four faculty members, normally two from each campus. In consultation with the student, the committee will develop a course of study, including identifying academic deficiencies and recommending remedies for them. The advising committee will be the official advising group for the student until a joint doctoral committee has been chosen and recommended to the Graduate Divisions by the advising committee.

Language Requirement. There is no specific foreign language requirement for this program, but knowledge of a foreign language may be deemed necessary by the advising committee to successfully pursue the student's research goal.

Course Requirements. Students admitted into the joint doctoral program are expected to take common core courses which include: Geography 700 (Seminar in Geographic Research Design) and Geography 701 (Seminar in Development of Geographic Thought). No specified number of courses beyond core courses is required for the doctoral degree. However, students are expected to have a broad understanding of modern geographic principles in addition to a specialist's competence in their own sub-field. In addition, all doctoral students must have computation skills and knowledge of spatial analysis.

Qualifying Examinations

Joint Doctoral Committee. When a doctoral student makes a definitive selection of the systematic area and technique emphasis as well as the general topic of their dissertation research, she/he will

select a dissertation supervisor (major professor), who can be from either department but who normally will be a member of the SDSU faculty, and the members of his/her joint doctoral committee. The joint doctoral committee shall be composed of at least four members (with the rank of Assistant Professor or above), two from the SDSU department and two from the UCSB department. The committee may be augmented as needed by an additional member from outside geography at UCSB or a member of the faculty at SDSU from outside of geography or, when authorized, another university. Chaired by the student's major professor, the joint doctoral committee shall be responsible for evaluating the dissertation proposal, administering and evaluating the qualifying examination, judging the dissertation, and administering and evaluating the dissertation defense.

Qualifying Examinations. The process of qualifying to write a Ph.D. dissertation has three steps. First, the student must take a written qualifying examination that normally consists of three portions devoted to: 1) the student's substantive area, 2) her or his technical field(s) of interest, and 3) general geographic thought and inquiry. Second, the student prepares a dissertation proposal that describes the dissertation topic, summarizes the relevant background literature, and presents a comprehensive research plan for the dissertation. Third, the student's doctoral committee will conduct an oral qualifying examination to ensure that the student possesses the full knowledge and competence required to carry out her or his dissertation research. The doctoral committee will assign a pass or fail grade for each examination. Passing the written examination allows the student to proceed to the preparation of the dissertation proposal. The doctoral committee must conditionally approve the dissertation proposal before the student takes the oral qualifying examination. Passing the oral examination signifies that the doctoral dissertation proposal is approved. A student may repeat each examination once.

Upon satisfactory completion of the oral examination and prescribed coursework, the student must apply to the Graduate Dean at UCSB for advancement to candidacy. Upon payment of the candidacy fee to UCSB, and after approval by the graduate deans of both campuses, students will be notified of their advancement to candidacy by the UCSB Graduate Dean.

Dissertation. Following the successful completion of all prescribed coursework and qualifying examinations, the major remaining requirement for the Ph.D. degree will be the satisfactory completion of a dissertation consisting of original research of publishable quality carried out under the guidance of the major professor. Approval of the completed dissertation by the joint doctoral committee implies that an organized investigation yielding substantial conclusions of interest which expand the frontiers of knowledge and understanding in the discipline has been carried out. Results must be reported in a manner demonstrating the ability of the candidate to effectively prosecute and report independent investigation.

The requirement for completing and filing the dissertation, including the number of copies required, will be decided jointly by the graduate deans and in accordance with regulations of the Graduate Divisions.

Final Examination. The final examination, organized and administered by the joint doctoral committee, shall consist of a dissertation defense, before the joint doctoral committee. A public lecture will be presented in addition to this defense with the committee.

Award of the Degree. The Doctor of Philosophy degree in geography will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

Financial Support. The Department of Geography at SDSU has a number of research and teaching associateships available to support students admitted to the joint doctoral program. All students applying to admission to the joint doctoral program will be considered for financial support.

Courses Acceptable on Master's and Doctoral Degree Programs in Geography (GEOG)

UPPER DIVISION COURSES

504. Coastal and Submarine Physiography (3)

Prerequisites: Geography 101 and Mathematics 121 or 150.

Analysis of marine waves, of their modification in shallow waters, of coastal currents and tides. Interpretation of coastal and submarine relief in relation to environmental processes and their modification by humans. Field trips may be arranged.

507. Geography of Natural Vegetation (3) I, II

Prerequisite: Geography 101.

The natural vegetation associations of the world, their distribution, classification and development, including relationship to human activities. Field trips may be arranged.

508. Environmental Climatology (3)

Prerequisites: Geography 103; Mathematics 121 or 150.

Interaction between the atmosphere and earth surface. Solar and thermal radiation, turbulent heat transfer, soil heat transfer. Change in the atmosphere due to natural variations and human activity. Impacts on the environment.

509. Regional Climatology (3)

Prerequisite: Geography 103.

The causes of climatic types as they occur throughout the world. Principles of several climatic classifications.

511. Hydroclimatology (3)

Prerequisites: Geography 101 or 103 and Mathematics 121 or 150.

Hydrologic cycle, energy and mass fluxes from the earth to the atmosphere and land-atmosphere interactions. Agricultural and hydrologic significance of spatial variability of energy and mass fluxes.

545. Arid Lands (3)

Prerequisites: Geography 101 and 370; Biology 100 or 201.

Physical geography and human use of arid lands. Traditional and modern land use systems in context of technological and economic development. Environmental and social impacts of development including desertification.

554. World Cities: Comparative Approaches to Urbanization (3) II

Prerequisite: Geography 354.

Worldwide trends in urbanization. Case studies of selected cities from various culture areas with focus on international variations in city structure and urban problems.

556. Location and Spatial Structure of Cities (3)

Prerequisite: Geography 354 or three units of upper division coursework in a related field.

Principles and characteristics of urban growth and settlement; the internal structure and functioning of urban centers; spatial models of urban land use; growth management, transportation problems, and sociopolitical urban problems. Field trips may be arranged.

559. Urban Transportation Geography (3)

Prerequisite: Three units of upper division urban or transportation coursework in geography or related field.

Urban transportation networks and their effects, past, present and future, on the economy and physical structure of the urban region. Field trips may be arranged.

570. Environmental Resource Conservation (3)

Prerequisite: Geography 370.

Management of environmental and natural resources. Effective programs and the institutional frameworks in which they occur.

572. Land Use Analysis (3) II

Prerequisite: Geography 370.

Problems of maintaining environmental quality in the process of land conversion from rural to urban uses with emphasis on land capability and suitability studies. Field trips may be arranged.

573. Population and the Environment (3)

Prerequisite: Geography 102.

Population distribution, growth, and characteristics as they relate to environmental degradation, both as causes and consequences. Roles of women, sustainable development, carrying capacity, optimum population, and policy initiatives in relationships between population and environment.

574. Water Resources (3)

Prerequisite: Geography 370.

Occurrence and utilization of water resources and the problems of water resource development. Field trips may be arranged.

575. Geography of Recreational Land Use (3) I

Prerequisite: Geography 101 or 102.

Importance of location and environment in the use, management, and quality of recreation areas. Field trips may be arranged.

577. Geography of the National Parks (3)

Prerequisite: Geography 370.

Human and land relationships in the national parks of the United States. Emphasis on problems arising from the preservation and use mandate under which parks are managed.

581. Cartographic Design (3)

Two lectures and three hours of laboratory.

Prerequisite: Geography 381.

Computer-assisted map production techniques with emphasis on map design and color use.

582. Automated Cartography (3)

Two lectures and three hours of laboratory.

Prerequisite: Geography 380, 381, or 484.

Computerized methods of graphically presenting and analyzing spatial data; examination of existing mapping software and digital data sources.

584. Geographic Information Systems Applications (3)

Two lectures and three hours of laboratory.

Prerequisite: Geography 484, 582, or 588.

Conceptualization, completion, and implementation of geographic information systems (GIS) at local, regional, national, and global levels. Spatial analysis and modeling with GIS. GIS in planning, management, and research.

585. Quantitative Methods in Geographic Research (3)

Prerequisite: Geography 385.

Application of statistical techniques to geographic research including simple regression and correlation, multiple regression, classification, factor analysis, and computer applications.

586. Qualitative Methods in Geographic Research (3) II

Prerequisite: Geography 102.

Application of qualitative techniques to geographic research including reflexive survey design and in-depth interviews, non-obtrusive methods, landscape interpretation, textual methods and discourse analysis, feminist criticism, and humanistic and historical materialist perspectives on measurement.

588. Intermediate Remote Sensing of Environment (4) II

Three lectures and three hours of laboratory.

Prerequisites: Geography 385 and 488.

Multispectral remote sensor systems and interpretation of imagery from nonphotographic systems. Computer-assisted image processing. Geographic analysis of selected terrestrial, oceanographic, and atmospheric processes.

595. Geographic Internship (3) I, II

Prerequisites: Six upper division units in geography and consent of instructor.

Students will be assigned to various government agencies and industry and will work under the joint supervision of agency heads and the course instructor. Maximum credit three units.

596. Advanced Topics in Geography (1-3)

Prerequisite: Six upper division units in geography.

Advanced special topics in geography. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

655. Urban Design and Preservation (3)

Prerequisite: Geography 354.

Major theories of urban form and aesthetics with emphasis on preservation and rehabilitation.

670. Environmental and Resource Conservation Theory (3)

Prerequisite: Graduate standing.

Theories and principles involved in natural and environmental resources management.

683. Advanced Geographic Information Systems (3)

Prerequisite: Geography 484.

Geographic information systems in geographic problem solving including data structures, project designs, and vector graphics.

683L. Geographic Information Systems Laboratory (1 or 2) II

Three to six hours of laboratory.

Prerequisite: Concurrent registration in Geography 683.

Data processing and analysis in geographic information systems. Applications of overlay functions in spatial analysis.

685. Advanced Quantitative Methods in Geography (3)I

Prerequisite: Geography 585.

Statistical techniques and quantitative models applied to spatial problems. Multiple regression, discriminant analysis, factor analysis and spatial modeling.

688. Advanced Remote Sensing (3)

Prerequisite: Geography 588.

Sensor systems, image interpretation and geographic applications in thermal infrared and microwave remote sensing. Principles of digital image processing.

688L. Advanced Remote Sensing Laboratory (1 or 2) II

Two or four hours of laboratory.

Prerequisite: Concurrent registration in Geography 688.

Processing and analysis of remotely sensed data. Laboratory training in sensor systems and digital image-processing methods including thermal infrared and microwave data analysis.

696. Advanced Special Topics in Geography (3)

Prerequisite: Consent of instructor.

Advanced special topics in geography. See Class Schedule for specific content. May be repeated with new content. Maximum combined credit of six units of 596 and 696 applicable to a graduate degree.

700. Seminar in Geographic Research Design (3)

Prerequisite: Graduate standing.

Definition of spatial problems, hypothesis formulation and testing, selection of appropriate methodology. Development of research proposals, conduct of research, written and oral presentations.

701. Seminar in Development of Geographic Thought (3)

Prerequisite: Graduate standing.

Evolution of concepts concerning the nature, scope, theories, and methodologies of geography.

710. Seminar in Physical Geography (3)

Prerequisite: Six units of upper division or graduate level courses in physical geography.

Intensive study of an aspect of physical geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

720. Seminar in Regional Geography (3)

Prerequisite: Six units of upper division or graduate level courses in the topical area under consideration.

Intensive study of a spatial system using the regional content or regionalization methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

740. Seminar in Human Geography (3)

Prerequisite: Six units of upper division or graduate level courses in human geography.

Intensive study of a spatial aspect of human geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

760. Seminar in Behavioral and Social Geography (3) II

Prerequisite: Six units of upper division or graduate level courses in behavioral or social geography.

Intensive study of a spatial aspect of behavioral or social geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Seminar in Environmental and Resource Conservation (3)

Prerequisites: Geography 670 and six units of upper division or graduate level courses in environmental or resource conservation.

Natural and environmental resource conservation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

780. Seminar in Techniques of Spatial Analysis (3)

Prerequisite: Six units of upper division or graduate level courses in spatial analytic techniques.

Spatial analytic techniques from image processing, remote sensing, geographic information systems, cartography or quantitative methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Research in one of the fields of geography. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

890. Independent Study for Doctoral Examination (1-9)

Prerequisite: Consent of instructor or graduate adviser.

Tutorial with student's major professor in preparation for qualifying examinations. No unit credit allowed toward advanced degree. Maximum credit nine units.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation. A written proposal must be approved by the joint doctoral advising committee. Maximum credit six units applicable to a doctoral degree.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisites: Advancement to candidacy and an officially constituted dissertation committee.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved. No unit credit allowed toward advanced degree.

The Rollin and Caroline Eckis Chair in Seismology

A gift from Rollin and Caroline Eckis, combined with matching funds from the Atlantic Richfield Company and contributions from SDSU faculty and staff, established The Rollin and Caroline Eckis Chair in Seismology at SDSU. The late Rollin Eckis was former president of Richfield Oil Company and vice chairman of the board of Atlantic Richfield Company.

The first appointee to the Chair, Dr. Steven M. Day, conducts research on the mechanics of earthquakes and earthquake hazards.

Associateships

Graduate teaching associateships in geological sciences are available to a limited number of qualified students. Application forms and additional information may be secured from the graduate adviser of the department.

General Information

The Department of Geological Sciences offers graduate study leading to the Master of Science degree in geological sciences. The program emphasizes research and an advanced set of courses. Faculty research activities comprise a broad spectrum of expertise, including both theoretical and applied interests. Opportunities exist for integrated field and laboratory research. The department is equipped to support research in geophysics, groundwater hydrology, oceanography and geochemistry as well as the classic areas of mineralogy, petrology, structural geology, stratigraphy and paleontology. Laboratories devoted to geochronology, isotopes, clay mineral analysis, soils, paleomagnetism, and whole rock analysis, as well as the Allison Center (paleontology), support the graduate research program.

The San Diego area enjoys a mild climate which permits year round field activity. An interesting and diverse geological environment provides many opportunities for research in the local area. Many graduate students are supported in their work by grants and contracts from government and industry.

Admission to Graduate Study

All students must satisfy the general requirements for admission to classified graduate standing as described in Part Two of this bulletin. In addition, all students should satisfy the following requirements in order to achieve classified standing and enroll in graduate courses.

1. Have preparation in geological sciences, mathematics, chemistry, and physics at least equivalent to the minimum required for the bachelor's degree in geological sciences at San Diego State University. Undergraduate grade point average should be at least 2.5, with a 2.75 in the last 60 units. Students with degrees in majors other than geological sciences may be admitted with postbaccalaureate standing while deficiencies are being remedied.
2. Have successfully completed all courses listed as deficiencies.
3. Have a minimum GRE General Test combined verbal and quantitative score of 1000, with no less than 450 in the verbal section and 520 in the quantitative section.
4. Have a minimum grade point average of 3.0 in any courses taken as a postbaccalaureate student at San Diego State University.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Geological Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Department application available at www.geology.sdsu.edu/gradprogram/applicants.htm.

Mail or deliver your complete admissions package to:
Department of Geological Sciences
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1020

All student applications are evaluated competitively and no fixed numerical standards automatically qualify or disqualify a student for

graduate study in the Department of Geological Sciences. Students will be admitted on the basis of merit in relation to space and faculty availability.

NOTE: Some students with bachelor's degrees in geological sciences may be admitted with postbaccalaureate standing for one semester only during which time they must take senior-level classes and earn at least a 3.0 grade point average and complete any missing qualifications for graduate study.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 19141)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student's graduate program must include 24 units of approved 600- and 700-numbered courses in Geological Sciences to include 797 (3 units Cr/NC/RP), and 799A, Thesis (3 units Cr/NC/RP), and six units of upper division or graduate electives approved by the departmental adviser. With approval of the graduate adviser, students specializing in geophysics or hydrogeology may include 18 units of approved 600-700 numbered courses and 12 units of upper division graduate electives, with no more than 6 units of upper division electives taken from courses in the Department of Geological Sciences. Geological Sciences 306 and 508 or their equivalent as approved by the graduate adviser, are required as prerequisite to the program if they were not a part of the student's undergraduate work. The student is required to pass a final oral examination on the thesis.

Courses Acceptable on Master's Degree Program in Geological Sciences (GEOL)

UPPER DIVISION COURSES

501. Geochronology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 224.

Survey of radiometric, chemical, stratigraphic, and paleomagnetic methods used to establish time in relationship to the history of the earth. Basis for correlation of geologic events and estimation of rates and periodicity of geologic processes.

502. Geology of North America (3) I

Prerequisite: Geological Sciences 105.

A regional analysis of North American geology, its structural, stratigraphic, and tectonic patterns, and hypotheses concerning their origin and evolution.

505. Photogeology and Remote Sensing (3) II

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 514.

Geologic interpretation of aerial and satellite photographs, elementary stereoscopy and stereometry applied to structural and stratigraphic problems, and compilation of geologic maps from annotated aerial and satellite photographs.

508. Advanced Field Geology (4 or 6) S

One lecture and three hours of laboratory plus 28 days in the field. For the option with six units: two additional weeks of field or laboratory work.

Prerequisite: Geological Sciences 306.

Investigation of individually assigned areas, preparation of geologic maps, geologic sections, and gathering other types of data, e.g., petrologic, geophysical, or paleontologic, as appropriate. Students are responsible for cost of food and transportation.

514. Process Geomorphology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 306.

Processes shaping and affecting the earth's surface, and application of resultant land forms in interpretation of geologic structure, stratigraphy, and neotectonics.

516. Micropaleontology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 537.

The morphology, classification, and geologic significance of various microfossil groups.

520. Ore Deposits (3) I

Prerequisite: Geological Sciences 306.

Geologic relations, origin, distribution, and economics of metallic and nonmetallic mineral deposits.

521. Petroleum Geology (3) II

Prerequisite: Geological Sciences 306.

History of petroleum exploration; statistics of energy use; principles of well logging; theories of petroleum generation, migration, and accumulation; exploration and production techniques; case studies of important oil fields.

525. Petrography (3) I

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 224.

A study of rocks with the polarizing microscope; identification of mineral constituents; interpretation of textures; classification of rocks; problems of genesis.

530. Geochemistry (2) I

Prerequisites: Geological Sciences 224; Chemistry 201; Mathematics 121 and 122, or 150.

Relationship of basic chemical principles and isotopic methods to geologic phenomena and environments. Applications to geologic exploration problems, contaminant transport, chemical weathering, and evolution of atmosphere and ocean chemistry.

530L. Geochemistry Laboratory (1) I

Three hours of laboratory.

Prerequisite: Credit or concurrent registration in Geological Sciences 530.

Laboratory methods for determination of chemical concentrations in waters, sediments, and rocks, as well as x-ray diffraction methods for mineralogy.

532. Environmental Geophysics (3) I

Two lectures and three hours of laboratory.

Prerequisites: Mathematics 150 and Statistics 250; two semesters of physics. Recommended: Geological Sciences 307 and 551.

Applications of geophysical methods to hydrologic investigations, including d.c. resistivity, electromagnetics, radar, seismology, and magnetics.

533. Geophysical Analysis (3)

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 307, Mathematics 252, Physics 197. Recommended: Physics 195L, 196L, 197L.

Analog and digital data collection, processing, modeling and error estimation. Computer-aided examples and field tests from seismics, gravity, magnetics, and electromagnetics including magnetotellurics.

536. Sedimentology and Lithostratigraphy (3) I

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 105 (not required but recommended for Emphases in Geochemistry and Geophysics) and 224.

Sedimentologic description and interpretation of the textures and structures of sediments and sedimentary rocks. Stratigraphic analysis of stratal succession, age relationships, and correlation on local and global scales.

537. Geobiology (3) II

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 105 and either Biology 100-100L or 101-101L, and Geological Sciences 536.

Principles of paleontology, including ecology and evolution. Tools of paleontology, including biomechanics, shape analysis, phylogeny, population analysis, study of biogeographic, temporal, and environmental distribution. Focus on using biology to solve geologic problems and vice versa.

540. Marine Geology (3)

Prerequisites: Geological Sciences 105, and either Geological Sciences 224, 502, 514, or 537.

Plate tectonic origin and history of the ocean basins. Formation and distribution of sediments in response to biologic, chemical, and geologic processes.

545. Descriptive Physical Oceanography (3)

Prerequisites: Mathematics 121 and 122, or 150; Physics 180A or 195.

Physical environment of oceans including heat, water, and salt budgets, physical properties of sea water, sea ice, air-sea relationships, effects of light and sound, distribution of temperature, salinity, density, surface current, deep circulation, water mass formation, instruments and methods of study.

550. Engineering Geology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 306.

Relationships between geologic processes and works of humans. Topics include rock and soil mechanics, ground water flow, slope stability, seismicity, land subsidence, and evaluation of geologic materials with respect to dam sites, tunnel alignments, and building foundations.

551. Hydrogeology (3) I

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 306 and Mathematics 150.

Theory of ground water flow. Exploration for and development of the ground water resource. Aquifer tests, water quality, and water resource management. Occurrence of water in alluvial, sedimentary, volcanic, plutonic, and metamorphic terrains.

552. Field and Laboratory Techniques in Hydrogeology (4) II

One lecture and nine hours of laboratory.

Prerequisites: Geological Sciences 551 and credit or concurrent registration in Geological Sciences 530.

Use and application of common field and laboratory techniques in hydrogeology. Exercises include drilling, coring, and sediment sampling, aquifer testing, unsaturated zone monitoring, fluid level measurement, tracer testing, laboratory measurement of permeability, capillarity, and analysis of inorganic and organic constituents in groundwater.

560. Earthquake Seismology (3)

Two lectures and three hours of laboratory.

Prerequisites: Mathematics 252, Physics 197. Recommended: Mathematics 342A.

Theory of seismic wave excitation, propagation, and recording. Methods of seismogram interpretation and analysis. Applications to tectonics and earthquake hazard analysis.

596. Advanced Topics in Geology (1-4)

Prerequisite: Consent of instructor.

Advanced special topics in the geological sciences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (1-3)

Refer to Class Schedule for lecture/laboratory format.

Prerequisite: Consent of instructor.

An intensive study in advanced geology. May be repeated with new content. Topic to be announced in the Class Schedule. Maximum credit six units applicable to a master's degree.

601. Investigations in Earth Science (3)

Prerequisites: Postbaccalaureate standing with B.S. or B.A. in geology or equivalent.

Review of major geologic concepts and processes. Relationships of research to advances in the understanding of modern earth processes and the geologic history of the earth.

605. Optical Mineralogy (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 224.

Use of petrographic microscope for identification and recognition of minerals. Oil immersion and thin section techniques. Relationships between mineral optics and crystallography.

609. Igneous Petrology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 525.

Investigation of problems in igneous petrology, using petrography, geochemistry, and experimental methods.

615. Geology of Clays (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 530 or 536.

Systematic mineralogy of clays and routine methods of identification. Geologic interpretation of clay minerals with respect to environmental conditions of origin, deposition and diagenesis.

625. Paleocology (3)

Two lectures and three hours of laboratory.

Prerequisites: Geological Sciences 537 and Biology 354.

Problems and methods in the study of relationships between fossil organisms and their environment: interpretation of paleoenvironment, paleoclimate, and biologic relationships among fossil organisms.

629. Seminar: Advanced Studies in Stratigraphy (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 537.

Regional stratigraphic patterns in North America and their historical implications.

630. Selected Topics in Geophysics (3)

Prerequisite: Consent of instructor.

Research topics in seismic, gravity, magnetic, electrical, and electromagnetic methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

633. Quaternary Geology (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 514.

Quaternary climate, geochronometric dating and soil stratigraphy.

635. Petrology of Terrigenous Rocks (3)

Two lectures and three hours of laboratory.

Prerequisite: Geological Sciences 536.

Thin-section and hand-specimen description and classification of sandstones, conglomerates, and mudrocks. Emphasis on mineralogy, provenance, diagenesis, and paleogeographic reconstructions.

640. Geotectonics (3)

Prerequisites: Geological Sciences 306; Physics 180B or 196.

Combination of plate tectonics, structural geology, and geophysics. Topics in continental genesis and evolution, orogeny, plate tectonics theory, and a survey of classic plate boundaries.

642. Neotectonics (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and 514.
Observation, interpretation and significance of late Quaternary crustal deformation.

643. Extensional Tectonics (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and senior or graduate standing.
Geometries, kinematics, and dynamics of extensional deformation worldwide with emphasis on role in basin formation and resource localization. Focus on crustal scale view. Seismic reflection profiles interpreted and processed on workstations.

644. Compressional Tectonics (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and senior or graduate standing.
Geometrics, kinematics, and dynamics of compressional tectonics with emphasis on role in basin formation and resource localization. Focus on crustal scale view. Seismic reflection profiles interpreted and processed on workstations.

645. Advanced Structural Geology (3)

Prerequisite: Geological Sciences 306.
Topics in advanced structural geology in the light of petrographic, geophysical, and experimental data, combined with classic field observations.

646. Sequence Stratigraphy (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306, 536, and senior or graduate standing.
Linkage between rock sequences and basin formation using seismic reflection profiles and outcrops. Profiles interpreted to determine sequences, boundaries, rock properties, and role in hydrocarbon localization.

647. Seismic Interpretation and 3-D Visualization (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 200, 306, 307, and 536.
Skills in modern workstation-aided seismic reflection interpretation with emphasis on modern petroleum geology.

648. Plate-Tectonic Development of California (3)

Prerequisite: Geological Sciences 306.
Analysis of sequential genesis of major tectonic terranes of California and adjacent states. Problem-oriented literature study will integrate structural, stratigraphic, and geochronologic development.

651. Numerical Modeling of Ground-Water Flow (3)

Prerequisites: Geological Sciences 551 and experience in computer programming.
Finite difference approximations of ground water and mass transport equations. Direct and iterative solutions to simultaneous equations. Calibration, verification and application of numerical models to analyze ground water hydrologic problems.

652. Multiphase Flow (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 551.
Movement of water through the unsaturated zone and nonaqueous phase liquids (NAPL) through subsurface. Topics include vadose zone characterization, monitoring, and modeling; light and dense NAPL movement, monitoring, and remediation.

653. Ground Water Aquifer Testing (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 551.
Theory and practice of conducting and analyzing constant-rate aquifer tests, step-drawdown tests, and slug injection tests. Analysis of results for confined, unconfined, leaky-confined, and fractured aquifers.

660. Isotope Geology (3)

Two lectures and three hours of laboratory.
A survey of isotopic and geochronologic topics with individual projects in isotopic analysis.

676. Solute Transport in Groundwater (3)

Prerequisite: Geological Sciences 551.
Theory of dissolved solute transport in groundwater. Applications to contaminant delineation, modeling and characterization of aquifer heterogeneities. Case studies of tracer tests and contaminant plumes.

677. Environmental Fate of Organic Contaminants (3)

Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 551 and 530, 530L, or chemistry background.
Physical and chemical properties and processes affecting distribution of organic contaminants in the environment. Focus on subsurface environments with applications to surface waters.

680. Sedimentary Geochemistry (3)

Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 530.
Topics in low temperature geochemistry.

687. Volcanology (3)

Prerequisite: Geological Sciences 224.
Chemical and physical properties of magma; generation, rise, and storage of magma. Eruptive mechanisms, volcano types, and a variety of volcanic phenomena associated with Hawaiian, Strombolian, Plinian, volcanian, and hydrovolcanic eruptions.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of the department.
Supervised research in an area of geology. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.
Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Mary M. Wauchope, Ph.D., Associate Professor of German

General Information

The Department of European Studies offers advanced coursework in German. Graduate courses in German may be used to fulfill requirements for advanced degrees in other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES (GERMN)

(Also Acceptable for Advanced Degrees)

501. Translation (3)

Prerequisite: German 301.
Translation of a variety of texts from German to English and English to German.

505. Applied German Linguistics (3)

Prerequisite: German 301.
Linguistic study of modern German; integration of modern linguistic theory with the language classroom.

520. Modern German Literature (3)

Prerequisite: German 310.
Major authors and genres since Enlightenment.

530. Topics in German Literature (3)

Prerequisite: German 310.
Study of a movement, theme or genre of German literature, such as Romanticism, literature and film, literature of the Holocaust, women's literature, literature of the German Democratic Republic in retrospect. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

596. Topics in German Studies (3)

Prerequisite: German 310 (for literary topics) or 505 (for linguistics topics). **Proof of completion of prerequisite required:** Copy of transcript.

Topics in German language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES (GERMN)

696. Topics in German Studies (1-3)

Prerequisite: Eighteen upper division units in German.
Intensive study in specific areas of German. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisites: Eighteen upper division units in German and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

Gerontology

In the College of Health and Human Services

OFFICE: Hepner Hall 203
TELEPHONE: (619) 594-6765
FAX: (619) 594-2811

Faculty

Carolyn K. Balkwell, Ph.D., Professor of Child and Family Development
Alma L. Koch, Ph.D., Professor of Public Health
Audrey A. Spindler, Ph.D., Professor of Exercise and Nutritional Sciences
Larry S. Verity, Ph.D., Professor of Exercise and Nutritional Sciences
John R. Weeks, Ph.D., Professor of Geography
Mary Jane Moore, Ph.D., Associate Professor of Anthropology
Barbara C. DuBois, Ph.D., Assistant Professor of Health and Human Services, General
Paula M. Usita, Ph.D., Assistant Professor of Health and Human Services, General

Adjunct Faculty

Joaquin Anguera, Ph.D., Health and Human Services, General
Jerry Goodman, Ph.D., Health and Human Services, General
Joe Ramsdell, M.D., University of California, San Diego
Diane Schneider, M.D., University of California, San Diego
Dolores A. Wozniak, Ed.D., Nursing
Anne Marie Yamada, Ph.D., Health and Human Services, General
Maria E. Zuniga, Ph.D., Social Work

Assistantships

Graduate teaching and research assistantships in gerontology are available to a limited number of qualified students. Information regarding the availability of funds and the process for application may be obtained from the main office of the University Center on Aging.

General Information

The Master of Science degree in gerontology is supported by faculty from several departments. The program is administered by the office of gerontology. The program is designed to provide systematic advanced education in gerontology for those planning to enter professions related to higher education, social services, health services, government, or business. The program will provide education for those interested in the area of policy, theory and its applications, health and aging, community services, program development, and biostatistical evaluation. Students will gain a better understanding of the roles of older people and their contributions to society. The program will also prepare students for entry to doctoral level education.

Admission to Graduate Study

The student must satisfy the general requirements for admission to the University with classified standing, as described in Part Two of this bulletin. Students whose preparation is deemed insufficient by the gerontology admissions committee may be admitted as conditionally classified and will be required to complete specific courses in addition to the minimum 36 units required for the degree. Students from other disciplines are encouraged to apply. In addition, students are required

to request three letters of reference in support of their application from academic referees, submit a personal statement outlining their goals, background, interests, and abilities, and have a satisfactory score on the Graduate Record Examination (GRE) for verbal and quantitative sections combined. Applicants should have a minimum undergraduate grade point average of 3.0 (on a 4.0 scale) during the last 60 semester units of undergraduate college/university coursework. The grade point average must be in concurrence with Graduate Division requirements for admission. Admission requirements are outlined in the graduate application package for an advanced degree in gerontology at San Diego State University.

Advancement to Candidacy

All students must pass the general requirements for advancement to candidacy as described in Part Two of this bulletin. Advancement to candidacy is contingent upon classified graduate status, completion of 12 semester units with a minimum grade point average of 3.0, satisfactory completion of an oral examination with a minimum grade of B and approval of the Graduate Council. Advancement to candidacy will be conferred prior to graduation.

Specific Requirements for the Master of Science Degree

(Major Code: 21043)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Science degree as described in Part Two of this bulletin, the student must complete a minimum of 36 units. The program consists of 30 units of required core courses and six units of electives.

Core Curriculum Requirements. A minimum of 30 units is required in the following core courses:

Gerontology 530 Research Methods and Evaluation	3 units
Gerontology 601 Theory in Gerontology	3 units
Gerontology 602 Policy Development, Analysis, and Evaluation	3 units
Gerontology 603 Healthy Aging	3 units
Gerontology 604 Program Planning and Development	3 units
Gerontology 605 Long-Term Care	3 units
Gerontology 700 Practicum (Cr/NC)	3 units
Gerontology 797 Research (Cr/NC/RP)	3 units
Gerontology 799A Thesis (Cr/NC/RP)	3 units
Public Health 602 Biostatistics	3 units

Electives. A minimum of six units of electives is required. Selected with the approval of the student's adviser, electives must include courses in gerontology or departments related to gerontology. Any gerontology graduate course or 500- to 700-level courses not taken for credit in the core curriculum qualify as electives. The breadth of courses available to supplement the core of required courses will be extensive, and draw on resources from across the University.

Thesis Option. The student will complete Plan A, Thesis option for the M.S. degree in gerontology.

Courses Acceptable on Master's Degree Program in Gerontology (GERO)

UPPER DIVISION COURSES

520. Analysis of Programs for the Aging (3)

Prerequisite: One upper division course in gerontology.

Major programs in aging that support daily functioning of elderly. Effectiveness of programs in serving today's elderly with attention to ethnic and cross-cultural variations.

522. International Issues on Aging (3)

Prerequisite: Three units in gerontology.

Socio-economic implications of rapidly growing number and proportion of older people around the world. Comparative study of aging populations in different countries, analysis and evaluation of related policies and programs.

530. Research Methods and Evaluation (3)

Prerequisites: Course in elementary statistics and satisfaction of the Entry-Level Mathematics requirement. Recommended: Sociology 201.

Research methodology, assessment, and evaluation in gerontology. Basic statistical techniques in evaluating gerontology databases. Methods, statistical procedures, hypothesis testing, evaluation, use of tables and graphs, and use of gerontology databases. SPSS using gerontology databases for instruction.

596. Advanced Special Topics in Gerontology (1-4) I, II

Advanced selected topics in gerontology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree

GRADUATE COURSES

601. Theory in Gerontology (3)

Prerequisite: Consent of instructor.

Concepts and theory in gerontology, theory construction, application of theory to research. Theoretical models and special topics.

602. Policy Development, Analysis, and Evaluation (3)

Prerequisites: Gerontology 601 and consent of instructor.

History, analysis, and assessment of current state and national policies and policy impacts on older people. Policy evaluation and recommendations from identification of gaps in policy that impact older people's access to programs and services. Conduct legislative visits and interact with policy-makers.

603. Healthy Aging (3)

Prerequisite: Consent of instructor.

Concepts of healthy aging. Analysis of approaches, methods, and applications from research about lifestyle, behavior change, prevention and health promotion, community health, work and productivity, belief systems, cognitive assessments. Emphasis on prevention and maintenance of health.

604. Program Planning and Development (3)

Prerequisite: Consent of instructor.

Design and development of aging programs. Needs assessment skills, program activities, evaluation methods, administrative and budget development in concert with selected agencies.

605. Long-Term Care (3)

Prerequisite: Consent of instructor.

Issues and problems in a changing long-term care delivery system for older people in a multi-cultural society. Emphasis on frailty of the elderly, demand for affordable long-term care, and analysis of federal and state policies shaping the industry.

696. Contemporary Topics in Gerontology and Geriatrics Seminar (3)

Prerequisite: A graduate level course in gerontology.

Areas of gerontology and geriatrics that make an immediate impact on the quality of life and lifestyles of the elderly. To include diverse life situations of older people.

700. Practicum (3) Cr/NC

Prerequisites: Gerontology 530 and 601.

Supervised field placement in public or private setting. Application of gerontological theory, policy, objectives, principles, and skills in service to individuals, families, groups, organizations, and communities.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of instructor.

Research in an area of gerontology. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of adviser.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

The Nasatir Professor of Modern Jewish History

The Nasatir Professorship was established in honor of the late Professor Abraham Nasatir, a specialist in European colonial history in North America. Nasatir taught history at SDSU for 46 years and was active in the community as an advocate of Jewish education. The Professorship is now held by a distinguished scholar of European intellectual history and Holocaust studies, Lawrence Baron, director of SDSU's Lipinsky Institute for Judaic Studies.

The Dwight E. Stanford Chair in American Foreign Relations

A gift from alumnus Dwight E. Stanford, who earned a bachelor's degree in American history in 1936 from San Diego State College (now SDSU), established The Dwight E. Stanford Chair in American Foreign Relations. The holder of the Chair is Elizabeth Cobbs Hoffman, a distinguished scholar-teacher who is an expert on economic and political relations between the United States and the Third World, and on the history of the Cold War.

Master of Arts Degree in History

Scholarships

The Kenneth and Dorothy Stott Scholarship is awarded each June to a student who has attended San Diego State University for at least two years and who is being graduated or who has been graduated by San Diego State University with a major in history. The recipient must

continue work at San Diego State University, or at any other accredited college or university, toward a higher degree or credential. The selection is made by the Department of History with approval of the committee on scholarships.

General Information

The Department of History offers graduate study leading to the Master of Arts degree in history.

The Master of Arts degree is designed to provide advanced training for (1) students who plan to terminate their graduate studies at the master's level, and (2) those who anticipate further study leading to a doctoral degree in history or related fields.

Research facilities include a substantial library of well over one million titles and an impressive periodical collection. The library is the depository for the documents of the United States and the state of California, and receives all publications of the United Nations and the Organization of American States. The library also houses 1,500 linear feet of manuscript materials as well as audiotapes, films, oral histories, and photographs of the greater San Diego area. The College of Arts and Letters houses the Social Science Research Laboratory which includes a well-equipped data processing center. The San Diego Historical Society and the San Diego Public Library contain many manuscript collections pertinent to local history. Located north of San Diego is the National Archives and Records Administration at Laguna Niguel.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. As an additional requirement, the student must have completed a bachelor's degree with an undergraduate major in history or have taken enough units in history and related fields that would demonstrate sufficient preparation for the program. The grade point average required for admission to the M.A. program in history is 2.75 for the last 60 units of the student's undergraduate work and 3.0 in the major (not necessarily history), plus a satisfactory score on the GRE General Test (minimum 500 verbal score). Candidates must also submit with their applications a statement of purpose of approximately 400 words and two official transcripts directly to the department as a complete package. A candidate who is deficient in any of the requirements above may be considered for conditional admission. A candidate whose course preparation is deemed deficient will be required to complete specified courses in addition to the minimum 30 units required for the degree. Deficiencies must be corrected within a time period specified by the departmental graduate committee. Conditional admission is possible pending the taking of the GRE General Test during the first semester of enrollment and the attainment of a satisfactory score.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin, as well as the specific requirements of the department. All students should consult the graduate adviser. Students may not be advanced to candidacy until they have met the foreign language requirement or an approved substitute.

Specific Requirements for the Master of Arts Degree in History

(Major Code: 22051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in history from courses listed below as acceptable on the master's degree programs, at least 18 units of which must be in 600- and 700-numbered courses. Students may elect either Plan A, the normal option, requiring a thesis, or, in special circumstances and with the prior approval of the graduate adviser and the student's major professor, Plan B, requiring a comprehensive written and oral examination in both a major and minor field of history chosen in consultation with the graduate adviser. Required courses are History 601; six units selected from History 620, 630, 640, 650, or 680; three units selected from History 655 and 665; History 797; and History 799A for those students electing Plan A. Students approved for Plan B shall meet the same course requirements as those enrolling in Plan A, except that they must enroll in History 795 (three units) and one additional three-unit history course numbered from 620 to 680 in lieu of History 797 and 799A.

Candidates for this degree must demonstrate knowledge of either a relevant foreign language or an approved substitute in computer language or statistical methods. Other substitutes may be approved where the skills involved are directly related to the student's research interests. Course selection and programs must be approved by the graduate adviser prior to the student's registration.

Courses Acceptable on Master's Degree Program in History (HIST)

Field (a). Thematic, Comparative, and Interdisciplinary History

UPPER DIVISION COURSES

526. Ideas and Attitudes of Modern Europe (3)

Selected problems in European intellectual history beginning with the seventeenth century, with attention to social and political thought. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

553. History of Genders in Latin America (3)

Prerequisite: History 115 or 116 or 415 or 416.

History of gender constructions throughout Latin America from pre-Columbian times to present, emphasizing definition of masculinity, femininity, and sexual orientations in the region through use of primary and secondary sources.

555. Modernization and Urbanization in Latin America (3)

Historical treatment of the phenomena of urbanization and modernization in Latin America with attention to pre-Colombian and Iberian traditions and influence of education, church, military, and foreign investment.

556. Guerrilla Movements in Latin America (3)

History of sociopolitical conditions which culminated in guerrilla movements in twentieth century Latin America. Use of guerrilla writings and accounts as well as recent Latin American films and U.S. Defense Department counterinsurgency training films.

560. Growing Up Latin American (3)

Prerequisite: History 115 or 116 or 415 or 416.

Historical analysis of life stories of men and women from majority and minority groups in Latin America.

565. Revolution and Social Change in Asia (3)

Comparative study of contemporary problems in Asia emphasizing how indigenous peoples responded to the challenges of nationalism, reform, revolution, modernization, and neo-colonialism. Topics include social structure, education, peasant movements, urbanization, search for cultural identity, and national integration.

596. Selected Studies in History (1-4)

Topics in various fields of history, such as biography, war, science, technology, urbanization, minority groups, immigration, and capitalism. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree

Field (b). The Ancient Through Early Modern World

UPPER DIVISION COURSES

501. History of Ancient Near Eastern Civilizations (3)

Major civilizations of Near East from the origin of civilization to Roman Conquest, including Egyptians, Babylonians, Hebrews and Persians. Social, political, and religious problems.

502. Ancient Greece (3)

Greek history from prehistoric period through Age of Alexander the Great. Emphasis on political, social, cultural and institutional developments and historiography. Secondary attention to military, economic, and religious topics. (Formerly numbered History 500A.)

503. Ancient Rome (3)

Roman history from origins of Rome to fall of the Empire. Emphasis on political, social, cultural and institutional developments and historiography. Secondary attention to military, economic, and religious topics. (Formerly numbered History 500B.)

504. The Early Middle Ages (3)

Europe and Mediterranean 300-1100 C.E. through various approaches: political, economic, social, and cultural. Collapse of Roman Empire, transformation of classical culture and regions that claimed its heritage: Christian kingdoms of western Europe, Byzantine, and Muslim Arab empires. (Formerly numbered History 503A.)

505. The Later Middle Ages (3)

Europe and the Mediterranean 1100-1450 C.E. through various approaches: political, economic, social, and cultural. Development of Christian kingdoms of western Europe and relationship to Byzantine empire, Muslim Arab and Turkish states. (Formerly numbered History 503B.)

506. The Renaissance (3)

Intellectual, artistic, social, and economic transformation in Europe from fourteenth to seventeenth centuries.

507. The Reformation (3)

Continental Europe, 1500-1648. Split of Christendom; political and intellectual dissent; social fabric of family life; relationship between gender, class, and power; cultural stratification of European society.

513A. Early Scandinavia (3)

The formation and development of the Scandinavian kingdoms from the Viking Age to the end of the Napoleonic Wars.

522. Tudor and Stuart England (3)

Struggle between monarchy, aristocracy, and gentry from Henry VII to Civil War. Reformation and Renaissance, cultural and colonial growth, the Glorious Revolution, parliamentary control, and political stability. (Formerly numbered History 522A-522B.)

528. Social History of Early Modern Europe (3)

Historical survey of European society emphasizing changes in the family, health, diet, standard of living, urbanism, crime, migration, and literacy, from 1350 to beginning of Industrial Revolution.

530. Colonial America (3)

Settlement and development of the English colonies in North America through the mid-eighteenth century. Contact of cultures, social structure, labor systems, religion, popular values, problems of imperial control, and political culture.

532. Topics in Early American History (3)

Prerequisites: Upper division standing and three units in history at the college level.

Variable topics in history of colonial America and the early republic. Possible topics include: Women and the Family; Race, Class and Labor; American Revolution; Religion and Politics; Immigrants' Experiences. See Class Schedule for topic. May be repeated with new content. Maximum credit six units.

550. Colonial Mexico (3)

Prerequisite: History 115, 116, 415, or 416.

Social history of Mexico from pre-contact through early national period using primary and secondary sources. Processes of social and cultural negotiation involving gender, religion, environment, medicine, and urban experience. (Formerly numbered History 551A.)

563. Southeast Asia to 1800 (3)

Cultural traditions of Southeast Asian people. Examines nature of the state, interstate relations, evolution of indigenous institutions, and influences of India, China, Islam, and the West to end of the eighteenth century. (Formerly numbered History 564A.)

566. Chinese Civilization: The Great Traditions (3)

China's institutional and cultural development from ancient to pre-modern times. Emphasis on traditional philosophy, religions, literature, and the arts.

569. Japan from Classical Age to Early Modern Era (3)

Historical examination of Japanese civilization as a social construction from creation myths to early modern era. Religion, philosophy, aesthetics, art, literature, and social relations. Customs, practices, myths, and historical precedents that created a shared sense of Japanese culture.

Field (c). The Modern World UPPER DIVISION COURSES

511A. The Age of European Revolution (3)

Major economic, social, intellectual, and political changes in Europe from 1789 to 1848. Effects of French Revolution, Industrial Revolution, and Romanticism on European history.

511B. The Age of Nationalism in Europe (3)

Economic, social, and intellectual developments in Europe from 1848 to 1890 that contributed to the age of nation building.

512A. The Great War: A Turning Point in European History (3)

Forces and events that shaped Europe in period prior to and during World War I, 1890-1919.

512B. The Age of Dictators and Contemporary Europe (3)

Europe in the age of dictatorship, world war, decline, and recovery.

513B. Modern Scandinavia (3)

Major political, social and economic developments in Scandinavia from 1814 to the present, with emphasis on contemporary society.

514. The French Revolution and Napoleonic Era (3) I

Prerequisites: History 105 and 106.

France on the eve of the Revolution; the Great Revolution, 1789-1799, the Napoleonic Era.

517. Modern Germany (3)

Political, social, and economic history of Germany from 1848 to present. (Formerly numbered History 517A-517B.)

518A-518B. Russia and the Soviet Union (3-3)

Semester I: Political, social and economic development of Russia in Europe and Asia from the earliest times to the close of the nineteenth century. Semester II: Emphasis on the twentieth century.

519. Modern Italy (3)

The development of Italy from 1815 to the present.

533A. The Jacksonian Era (3)

Territorial expansion, democratic politics, revivalism, and the slavery controversy.

533B. Civil War and Reconstruction (3)

The Civil War and Reconstruction, emphasizing political affairs and the role of Lincoln.

535. The Age of Roosevelt (3)

The United States in Depression, War, and Cold War. (Formerly numbered History 535B.)

536. The United States Since World War II (3) I, II,

Major foreign and domestic issues confronting the United States, and the government policies and popular movements generated in response.

539. Topics in the History of the American West (3)

Prerequisites: Upper division standing and three units of history at the college level.

Selected topics in history of American West such as Westward movement; Southwest borderlands; gender and the frontier; new western history. May be repeated with new content. Maximum credit six units.

540. Environmental History of the United States (3)

The relationship of Americans to their environment from colonial times to the present with emphasis on how attitudes and values have affected personal behavior and public policy toward the land.

543. American Involvement in Vietnam 1941-75 (3)

Prerequisites: Upper division standing and six units in history.

Causes and costs of America's longest war: the war's beginning, United States involvement, role of media and antiwar movement, American withdrawal, impact of war on Southeast Asia and the United States.

544A. Early American Foreign Relations (3)

Development of American foreign relations from Colonial Period to the Spanish-American-Filipino War.

544B. Modern American Foreign Relations (3)

Development of American foreign relations since 1900.

545A-545B. Constitutional History of the United States (3-3)

Development of American constitutional ideals and institutions. History 545A: Seventeenth century to 1861. History 545B: Since 1861.

547A-547B. Intellectual History of the American People (3-3)

American thought since colonial times, focusing on the ideas of individuals, groups and movements in religion, politics, society, the arts and reform. Emphasis on liberal and conservative impulses and their role in the making of the modern American mind. History 547A: To 1865. History 547B: Since 1865. This year course satisfies the graduation requirement in American Institutions.

548A-548B. Social History of the United States (3-3)

Historical survey of American society emphasizing demographic trends, the changing role of the family, social structure, immigration patterns, religious movements, developments in education, the economy, and entertainment.

549. History of San Diego (3)

Prerequisites: Upper division standing and six units in history.

Development of San Diego from European contact to the present.

551. Modern Mexico (3)

Prerequisite: History 115, 116, 415, or 416.

Social history of Mexico since early national period using primary and secondary sources. Processes of social and cultural negotiation involving gender, religion, environment, medicine, and urban experience. (Formerly numbered History 551B.)

552. Brazil (3)

Survey of history of Brazil from Portuguese backgrounds to present. Brazil as a tropical society. Recommended for students minoring in Portuguese.

554. The Andean Republics of South America (3)

The historical development of Chile, Bolivia, Peru and Ecuador with emphasis on race relations and social revolutions in the twentieth century.

558. Latin America in World Affairs (3)

History of Latin America's political and economic relations with Europe, the Soviet Union, the United States, and the Third World.

559. Central America (3)

Prerequisites: Upper division standing and six units in history.

Historical development of the republics of Central America with emphasis on twentieth century. Contemporary revolutionary movements and role of United States in Central American affairs.

561. Asia and the West (3)

History of twentieth century Asian-Western relations with emphasis on China and Japan.

564. Southeast Asia in the Modern World (3)

Southeast Asian history since 1800 with attention to colonialism, sociocultural change, Chinese diaspora, nationalism and independence, and economic development. Considers transnational comparisons among Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand, and Vietnam. (Formerly numbered History 564B.)

567. China's Century of Modernization (3)

China's modernization process from the early nineteenth-century Opium War through the People's Republic of China.

570. Japan in the Modern World (3)

Japan's emergence as a modern state since the nineteenth century, and ongoing struggle to redefine Japanese identity. Examines Japan's engagement with modernity as seen through changes in political discourse, gender relations, international relations, intellectual trends, and economic development.

574. Arab-Israeli Relations, Past and Present (3)

Arab-Israeli conflict and diplomacy over Palestine from perspectives of Zionism, Arab nationalism, and Great Power relations from nineteenth century to present.

GRADUATE COURSES

All graduate courses in the Department of History have a prerequisite of 12 units of upper division courses in history, or consent of the instructor.

601. Seminar in Historical Methods (3)

Historical methodologies, historiography, and critical analysis.

620. Directed Readings in European History (3)

Prerequisite: Consent of instructor.

Selected readings in historical literature and primary sources in a designated area of European history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

630. Directed Readings in United States History (3)

Prerequisite: Consent of instructor.

Selected readings in historical literature and primary sources in a designated area of United States history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

640. Directed Readings in Latin American History (3)

Prerequisite: Consent of instructor.

Selected readings in historical literature and primary sources in a designated area of Latin American history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

650. Directed Readings in Asian History (3)

Prerequisite: Consent of instructor.

Selected readings in historical literature and primary sources in a designated area of Asian history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

655. Seminar in Asian History (3)

Prerequisites: Six upper division units in Asian history; History 601; six units selected from History 620, 630, 640, 650, and 680, three units of which may be taken concurrently.

Directed research on topics selected from a designated area of Asian history. Maximum credit six units applicable to a master's degree.

665. Seminar in History (3)

Prerequisites: History 601; six units selected from History 620, 630, 640, or 680, three units of which may be taken concurrently; six additional units in history appropriate to student's program.

Directed research on topics selected from a designated area of history. Maximum credit six units applicable to a master's degree.

680. Directed Reading in Selected Topics (3)

Prerequisite: Consent of instructor.

Selected readings in comparative, interdisciplinary, and topical history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

795. Area Studies in History (1-3) Cr/NC

Prerequisite: Advancement to candidacy.

Preparation for the comprehensive examinations in the major and minor fields of history for those students taking the M.A. under Plan B. Maximum credit three units applicable to a master's degree.

797. Research (3) Cr/NC/RP

Prerequisite: Advancement to candidacy and written approval of the History Department graduate adviser.

Independent research in a specialized subject in history.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Interdisciplinary Studies

Administered by the Graduate Division

OFFICE: Centennial Hall 3320
TELEPHONE: (619) 594-5215
FAX: (619) 594-0189

General Information

When the existing advanced degree programs of the University do not adequately meet certain special needs and interests, a student may propose a Master of Arts or Master of Science degree in Interdisciplinary Studies. This degree program provides the unusually well-qualified student an opportunity for individualized graduate study composed of coursework in at least two but not more than three departments or schools at SDSU. The Graduate Division administers this program following procedures established by the Graduate Council.

The proposed program must not be substantially available in a current graduate program offered at the University, and it must have adequate focus and coherence in cognate disciplines. Prerequisite courses will be required to support the courses in the student's program of study.

A graduate supervisory committee and a field of study shall be chosen, subject to the approval of the Dean of the Graduate Division, in consultation with the Student Affairs Committee of the Graduate Council. The supervisory committee shall consist of not less than three full-time faculty representative of the areas in which the student intends to pursue the degree. The graduate dean or designee shall serve as an ex officio member of the committee.

Since the inception of this program in 1977, individual students have undertaken graduate programs in such subjects as paleobiology, folklore and mythology, molecular biology, museum studies, infant development, animal behavior, sports psychology, environmental resource management, environmental economics, primitive Christianity, gerontology, and learning interface design.

Admission to Graduate Study

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must (1) possess an academic background appropriate to the proposed program and have achieved an undergraduate grade point average of 3.0; and (2) complete the GRE General Test with a satisfactory score on the verbal and quantitative sections. Since an approved course of study is required for classified admission of this major, applicants may be admitted to the University in conditionally classified status pending formal approval of a program of study. Students admitted conditionally must meet with the Associate Dean of the Graduate Division as soon as possible after admission to the program. If the proposed curriculum is not approved, the student will have the option of applying for admission to an alternative advanced degree program.

Students applying for admission should electronically submit the University application available at www.csummentor.edu and the following documentation as a complete package:

- (1) Two sets of official transcripts (in sealed envelopes) from each university attended;

- (2) A statement of purpose describing proposed study plan.

Mail or deliver your complete admissions package to:

Assistant Dean, Graduate Division
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8020

Advancement to Candidacy

In addition to satisfying the general requirements of the University for advancement to candidacy, as stated in Part Two of this bulletin, the student must satisfy the special requirements for advancement defined by the supervisory committee in the official program of study.

Specific Requirements for the Master's Degree

(Major Code: 49993)

1. In addition to satisfying the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of courses acceptable for advanced degree credit.
2. The official program of study must reflect careful and deliberate planning. The selection and level of courses will be based on the best standards and practices of the disciplines involved. Normally no more than six units taken prior to approval of the official program of study may apply to the degree.
3. In consultation with the supervisory committee, the student will determine the subject of the research for a thesis that will be completed as the culminating experience in partial fulfillment of the requirements for the degree.

General Procedures for the Program

1. After meeting with the Associate Dean of the Graduate Division, a student interested in being formally considered for the Interdisciplinary Studies program should complete and follow the instructions on the form, "Request for Permission to Pursue an Interdisciplinary Studies Master's Degree," which is available in the Graduate Division. The applicant must initially seek out a potential faculty adviser and two additional faculty members who have the expertise and interest in advising and supporting the applicant in the proposed program of study.
2. When the student's portion of the form has been completed, the major adviser selected, and other potential supervisory committee members contacted, an appointment with the Associate Dean of the Graduate Division should be arranged. Both the applicant and the proposed major adviser should be present at this meeting. Other proposed committee members are welcome to participate in these discussions.

3. Following this meeting and after making any modifications to the proposed program eventuating from it, the student must present for approval the "Request for Permission to Pursue an Interdisciplinary Studies Master's Degree" to the chairs of departments in which courses are being proposed and to the deans of colleges responsible for these academic units.
4. The student will then present the "Request," endorsed with appropriate departmental and college recommendations, to the Graduate Division, where it will be reviewed by the Student Affairs Committee of the Graduate Council. Upon the recommendation of that committee, the "Request" will be forwarded to the Graduate Dean, whose final endorsement will certify that the "Request" has been approved as an official program of study, that the supervisory committee has been formally appointed, and that the student has been granted classified graduate standing for the purpose of pursuing the interdisciplinary major.
5. Virtually all other requirements for this major are the same as those for other master's degree programs, as specified in this bulletin. Special questions should be directed to the chair of the supervisory committee or to the Graduate Division.

GRADUATE COURSES (INT S)

797. Research (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy.
Independent research in a specialized subject. Maximum six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of instructor.
Independent study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.
Registration in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also the student must be registered in the course when the completed thesis or project is granted final approval.

Wayne Stromberg, Ph.D., Operations Director, Language Acquisition Resource Center

General Information

Since 1976 the Center for Latin American Studies has been designated a National Resource Center for Latin American Studies (one of only eleven in the nation) by the United States Department of Education and funded through a Title VI grant. The Master of Arts degree administered by the center is an interdisciplinary program drawing on the expertise of an outstanding Latin Americanist faculty from the following departments: Anthropology, Art, Comparative Literature, Economics, Geography, History, Political Science, Public Administration and Urban Studies, Sociology, Spanish and Portuguese Languages and Literatures, Women's Studies, and the College of Business Administration. Emphasis in the program is placed on the central issue of "Modernization and Urbanization" in Latin America and offered through nine courses from nine different departments.

Research interests and areas of expertise of the faculty include: demography, economic development, folk art, Indians and peasants, land tenure systems, the Latin American press, mental health and aging in Mexico, militarism and guerrilla warfare, Spanish American prose, poetry and criticism, theatre, U.S.-Latin American relations, and the U.S.-Mexico border.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present the Bachelor of Arts degree with not less than 18 units of courses of Latin American content in three areas. A student whose preparation is deemed insufficient by his graduate adviser or by the Latin American Studies committee will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Center for Latin American Studies:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Three letters of reference;
- (4) A personal statement.

Mail or deliver your complete admissions package to:

Center for Latin American Studies
(Attention: Graduate Coordinator)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4446

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy described in Part Two of this bulletin. Moreover, students must demonstrate an oral and reading proficiency in Spanish through either the satisfactory completion of an oral and a written examination, or: (1) satisfactory completion of Spanish 103 and 202, and a reading examination administered by the Department of Spanish and Portuguese Languages and Literatures, or (2) satisfactory completion of three units of 500-level or graduate coursework in Spanish. In addition, students must complete satisfactorily (with a grade of B or better) Portuguese 101. Coursework at or above the 500 level may be included as a part of the official program with the approval of the graduate coordinator.

Specific Requirements for the Master of Arts Degree

(Major Code: 03081)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete at least 30 units of upper division and graduate coursework, including Latin American Studies 601, with not less than 24 units in courses of Latin American content selected from those listed below and distributed as follows:

	600- and 700-numbered Courses	500-, 600- and 700-numbered Courses
Department A.....	6 units	6 units
Department B.....	3 units	3 units
Department C.....	3 units	3 units
	12 units	12 units

The total program shall include a minimum of 18 units in 600- and 700-numbered courses. Students may select either Plan A or Plan B in consultation with the graduate adviser. In addition to meeting the distribution requirements given above, students electing Plan A must complete the 799A (Thesis) course. Students electing Plan B must pass a comprehensive written and oral examination in lieu of the thesis.

All programs will be approved by the Latin American Studies committee.

Master of Business Administration and Master of Arts in Latin American Studies Degrees

General Information

The College of Business Administration and the Center for Latin American Studies offer a three-year concurrent graduate program leading to a Master of Business Administration and a Master of Arts in Latin American Studies. The primary objective of the concurrent program is to offer preparation in the fields of business administration and Latin American studies for the purpose of providing the knowledge and skills necessary to promote and engage in business relationships within a Latin American historical, cultural, and linguistic milieu, in Latin America or in the United States.

For information, contact the Chair of the Latin American Studies Committee or the Associate Dean in the College of Business Administration.

Admission to Graduate Study

Since this program combines disparate disciplines, applicants are required to submit GMAT scores and should have substantial academic backgrounds in the humanities and social sciences. Applicants

should also have a background in Spanish or Portuguese language and literature. It is expected that all students in the concurrent degree program will be full time, so that all requirements will be satisfied in an acceptable time period.

Specific Requirements for the MBA/MA Degree

(Major Code: 49061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study consisting of 70 units as outlined below.

- The college expects students entering the Master of Business Administration/MA in Latin American Studies program to be proficient in several areas. These include proficiency in statistics, mathematical skills, basic economics and in the use of personal computers, including spreadsheets and word processing. The students are responsible for insuring that they possess these skills before beginning the program.
- Complete the following core of eight courses (19 units):
 - BA 650 Financial Accounting (2)
 - BA 651 Organizational Behavior (2)
 - BA 652 Statistical Analysis (3)
 - BA 653 Managerial Economics (2)
 - BA 655 Marketing (3)
 - BA 660 Managerial Accounting (2)
 - BA 662 Operations Management (2)
 - BA 665 Financial Management I (3)

A student who has earned 12 or more undergraduate units in a specific field (finance, management, etc.) may substitute an advanced course for a core course in the same field with permission from the Director of Graduate Business Programs.

- Complete six units, one course from each of the themes listed below:

Interpersonal Skills Theme

- IDS 705 Communication Strategies (3)
- MGT 669 Human Resource Management (3)
- MGT 720 Seminar in Behavioral Sciences for Management (3)
- MGT 721 Seminar in Group Processes and Leadership (3)
- MGT 741 Seminar in Organization Power and Politics (3)
- MKTG 763 Seminar in Sales Management (3)

Environment Theme

- FIN 604 Legal Environment for Executives (3)
- MGT 626 Competitive Analysis of Industries (3)
- MGT 722 Seminar in Business Ethics and Social Institutions (3)
- MGT 740 Seminar in Business Management and the Natural Environment (3)
- MGT 742 Seminar in Business and the Good Society (3)
- MGT 765 Seminar in Marketing and Public Policy (3)

- Complete 15 units in Business Administration to include:
 - FIN 654 Seminar in International Business Finance (3)
 - MGT 710 Seminar in World Business Environment (3)
 - MGT 723 Seminar in International Strategic Management (3)
 - MGT 731 Seminar in Strategic Management of Technology and Innovation (3)
 - MKTG 769 Seminar in International Marketing (3)
- Complete 24 units in courses of Latin American content, including the following required courses:
 - LATAM 696 Interdisciplinary Seminar (3)
 - LATAM 798 Special Study (3) Cr/NC/RP

- HIST 640 Directed Readings in Latin American History (3)*
POL S 661 Seminar in the Political Systems of the Developing Nations (3)*
POL S 667 Seminar in Latin American Political Systems (3)*

The remaining nine units will be selected from the following list of courses, with at least one course from the California Western School of Law courses highly recommended:

Latin American Studies Courses

560. Latin America After World War II (3)
576. Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
798. Special Study (3) Cr/NC/RP

Economics Course

565. North American Economic Relations (3)

Geography Course

720. Seminar in Regional Geography (3)**

History Courses

550. Colonial Mexico (3)
551. Modern Mexico (3)
552. Brazil (3)
554. The Andean Republics of South America (3)
555. Modernization and Urbanization in Latin America (3)
556. Guerrilla Movements in Latin America (3)
558. Latin America in World Affairs (3)
559. Central America (3)
640. Directed Reading in Latin American History (3)
795. Area Studies in History (3) Cr/NC**

Political Science Courses

566. Political Change in Latin America (3)
567. Political Systems of Latin America (3)
568. Mexican Politics (3)
655. Seminar in General Comparative Political Systems (3)**
675. Seminar in International Relations (3)**
795. Problem Analysis (3)**

California Western School of Law Courses***

452. International Protection of Human Rights
498. Mexican Law
610. Immigration Law
625. International Business Transactions
636. International Organizations
643. Private International Law
644. Public International Law
703. Latin American Law
6. In addition, the student must complete MGT 797 (Research) and BA 799A (Thesis). The thesis in Business Administration will treat a Latin American related topic and will be supervised by a business faculty with international business expertise and at least one faculty member from the Latin American studies program.

If a student after entering the concurrent MBA/MA program returns to a single degree program, all the requirements for the single degree program must be met.

* Repeatable with new content and approval of advisory committee.

** Acceptable when of relevant content.

*** These courses are not required. Students must apply to enroll under the provisions of the affiliation agreement with the California Western School of Law.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, 1) the student will be required to complete Spanish 302 (or its equivalent), or Portuguese 401 (or its equivalent), and pass an oral and written examination administered by the Department of Spanish and Portuguese Languages and Literatures; 2) all core courses in business and Latin American studies must be completed prior to advancement with a minimum grade point average of 3.0 and no grade less than a B- in any core course; 3) have been recommended for advancement by the combined advisory committee; 4) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Management 797 (Research) and BA 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MBA and MA degrees.

Courses Acceptable on Master's Degree Programs in Latin American Studies (LATAM)

UPPER DIVISION COURSES Latin American Studies Courses

530. Civilization and Culture of Pre-Columbian America (3)

Prerequisite: Upper division standing.
Indigenous cultures of U.S./Mexico border region, Mexico, Central America from a multidisciplinary perspective. Geographical, religious, political, economic, and social realities.

531. Visual Representation of Latin American Culture (3)

Prerequisite: Upper division standing.
Latin American civilization and culture from the Encounter to present. Visual expressions of culture including rituals, ceremonies and festivals, examined from a multi-disciplinary perspective.

560. Latin America After World War II (3)

Prerequisites: Latin American Studies 101; History 115, 116; and either Political Science 566 or consent of instructor.
Major socioeconomic and political changes in Latin America since World War II and inter-American relations during the same period. Includes guest lecturers.

575. Art and Culture in the U.S./Mexico Border Region (3)

Prerequisite: Upper division standing.
Settlement and culture along the U.S./Mexican border seen through a multi-disciplinary study of art, architecture, artists, and patronage.

576. Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)

Prerequisite: Upper division standing.
Work and life of Frida Kahlo, her influence on artists and thinkers who shared her world, and influence she continues to have on art of Mexico and the U.S.

580. Special Topics (1-4)

Prerequisite: Six upper division units in Latin American content courses.

Interdisciplinary study of selected Latin American topics. Credit will vary depending on the scope and nature of the topic. Whenever appropriate, the course will be taught by a team of instructors representing two or more disciplines. May be repeated with different content. See Class Schedule for specific content. Maximum credit eight units

Anthropology Courses (ANTH)

- 508. Medical Anthropology (3)
- 509. Culture and Biological Aging (3)
- 582. Regional Anthropology (3)*
- 583. Topical Anthropology (3)*

Art Courses (ART)

- 557. Art of the Nineteenth Century (3)
- 577. History of Architecture (3)
- 596. Advanced Studies in Art and Art History (1-4)*

Communication Courses (COMM)

- 591. International Telecommunications (3)
- 596. Selected Topics (1-4)*

Comparative Literature Courses (C LT)

- 561. Fiction (3)
- 562. Drama (3)
- 563. Poetry (3)
- 571. Literary Use of Legend (3)
- 594. Topics in Literature and the Arts (3)
- 596. Topics in Comparative Literature (3)*

Economics Courses (ECON)

- 561. International Trade (3)
- 565. North American Economic Relations (3)
- 592. International Monetary Theory and Policy (3)
- 596. Experimental Topics (3)*

English Courses (ENGL)

- 501. Literature for Children (3)
- 502. Adolescence in Literature (3)

Geography Courses (GEOG)

- 507. Geography of Natural Vegetation (3)
- 509. Regional Climatology (3)
- 545. Arid Lands (3)
- 554. World Cities: Comparative Approaches to Urbanization (3)
- 596. Advanced Topics in Geography (1-3)*

History Courses (HIST)

- 444. California History Through Early Statehood (3)
- 550. Colonial Mexico (3)
- 551. Modern Mexico (3)
- 552. Brazil (3)
- 554. The Andean Republics of South America (3)
- 555. Modernization and Urbanization in Latin America (3)
- 556. Guerrilla Movements in Latin America (3)
- 558. Latin America in World Affairs (3)
- 559. Central America (3)
- 596. Selected Studies in History (1-4)*

Law

With the permission of the graduate adviser and the approval of the Graduate Division, classified graduate students may take a maximum of nine units of law at California Western School of Law through an affiliation agreement between the two institutions. San Diego State students must be enrolled for graduate courses at San Diego State University in the semester they are taking courses at California Western School of Law.

Please consult with the graduate adviser for a listing of the specific law courses offered.

Political Science Courses (POL S)

- 531. Interest Groups and Political Movements (3)
- 555. Comparative Political Systems (3)
- 560. Comparative Public Policy (3)
- 566. Political Change in Latin America (3)
- 567. Political Systems of Latin America (3)
- 568. Mexican Politics (3)
- 577. Principles of International Law (3)

Portuguese Course (PORT)

- 535. Brazilian Literature (3)

Public Administration Course (P A)

- 580. Comparative Public Administration (3)

Sociology Courses (SOC)

- 517. Life Crises and Coping: Sociological Perspectives (3)
- 522. The Family in Comparative and Cross-Cultural Perspectives (3)
- 527. Aging and Society (3)
- 596. Current Topics in Sociology (1-3)*

Spanish Courses (SPAN)

- 515. Mexican Literature (3)
- 520. Caribbean Area Countries Literature (3)
- 596. Selected Studies in Spanish (3)*

Television, Film and New Media Course (TFM)

- 562. Documentary and Propaganda Film/Television (3)

Women's Studies Courses (WMNST)

- 515. Women: Mythology and Ritual (3)
- 521. Life Cycles of Women (3)
- 553. Women Writers (3)*
- 565. Women, Health, and Medicine (3)
- 580. Women and International Development (3)
- 596. Topics in Women's Studies (3)*

* Acceptable when of relevant content.

GRADUATE COURSES

Latin American Studies Courses

601. Seminar on Methodology of Latin American Studies (3)

Prerequisite: Graduate standing.
Theories and methodologies of Latin American Studies.

696. Experimental Topics (3)

Prerequisite: Graduate standing.
Intensive study in specific areas of Latin American studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Current Issues in Latin American Politics (3)

Prerequisites: Graduate standing, Latin American Studies 601, and six upper division units in either history or political science.
Directed research on topics selected from a designated area of Latin American politics and history. May be repeated with new content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff, to be arranged with the director and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.
Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Courses (ANTH)

- 600. Seminar (3)*
- 603. Seminar in Ethnology (3)
- 621. Seminar in Topical Anthropology (3)
- 797. Research (3) Cr/NC/RP
- 798. Special Study (1-3) Cr/NC/RP
- 799A. Thesis (3) Cr/NC/RP
- 799B. Thesis Extension (0) Cr/NC

Art Courses (ART)

- 760. Seminar in Twentieth Century Art (3)
- 798. Special Study (1-3) Cr/NC/RP
- 799A. Thesis or Project (3) Cr/NC/RP
- 799B. Thesis or Project Extension (0) Cr/NC

Communication Course (COMM)

- 798. Special Study (1-3) Cr/NC/RP

Economics Courses (ECON)

- 696. Experimental Topics (3)*
- 700. Seminar in Microeconomic Applications (3)*
- 720. Seminar in Development and Planning (3)
- 730. Seminar in Macroeconomic Policy (3)
- 740. Seminar in Applied Economic Research (3)*
- 750. Seminar in Economic History and Institutions (3)*
- 797. Research (3) Cr/NC/RP
- 798. Special Study (1-3) Cr/NC/RP
- 799A. Thesis (3) Cr/NC/RP
- 799B. Thesis Extension (0) Cr/NC

English Courses (ENGL)

- 601. Literary Study in a Multicultural World (3)*
- 604. A Literary Period or Movement (3)*
- 606. A Literary Type (3)*
- 626. Comparative Literature (3)*
- 696. Special Topics (3)*
- 700. Seminar: A Major Author or Authors (3)*
- 726. Seminar: Issues in Comparative Literature (3)*
- 798. Special Study (1-3) Cr/NC/RP

Geography Courses (GEOG)

John R. Adams Professorship in Graduate Interdisciplinary Studies

The Adams Professorship was named in honor of the late John R. Adams, who came to San Diego State University in the 1920s as a professor of humanities. He served for many years as the Director of the Humanities Division, and then as the university archivist. The professorship is now held by Howard I. Kushner, a distinguished scholar in the history of medicine and professor in the Master of Arts in Liberal Arts and Sciences program.

Committee on Graduate Liberal Arts and Sciences

The Master of Arts degree in Liberal Arts and Sciences is administered by its director and advised by the Graduate Liberal Arts and Sciences Committee. Faculty assigned to teach courses in the program are drawn from departments throughout the University.

General Information

The College of Arts and Letters offers a graduate Liberal Arts and Sciences program that is one of two in the western United States. The Master of Arts degree in Liberal Arts and Sciences is an interdisciplinary program. Even though this approach to graduate education is over thirty years old in the United States, its interdisciplinary nature has kept it vital and flexible. Students are encouraged to customize their degree by selecting coursework relevant to their interests.

The Master of Arts in Liberal Arts and Sciences degree is an interdisciplinary program intended to provide an alternative approach to continued adult learning by offering a program that crosses disciplinary boundaries and aims for breadth and scope. It provides the unique combination of a highly individualized program of study centered around personal interests combined with a strong grounding in interdisciplinary methods for problem solving.

The student body is drawn from diverse backgrounds, thus adding to the unique character of the program.

Admission to Graduate Study

Applicants seeking admission to the program leading to the Master of Arts degree in Liberal Arts and Sciences should contact the director of the Graduate Liberal Arts and Sciences Committee requesting appropriate application materials. Detailed information concerning application procedures will be sent to the applicant along with the appropriate application forms.

In addition to satisfying the requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, the student seeking admission must: (1) have a grade point average of 3.0 or better on work completed during the last 60 units for the baccalaureate degree, (2) have a score of 1000 or better on the GRE General Test (combined verbal and quantitative), and (3) complete a statement of purpose essay. A personal interview with a member of the Graduate Liberal Arts and Sciences Committee is recommended.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditional classified graduate standing upon the recommendation of the MALAS director and Graduate Liberal Arts and Sciences Committee. Students so admitted will be advised as to the nature of their deficiency and the time to be allowed to achieve full classified graduate standing.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the students must (1) satisfactorily complete 12 units, with a minimum grade point average of 3.0, including 9 units of core seminars as stipulated (MALAS 600A, 600B, 600C, 600D) and (2) if selecting Plan A, have a thesis or project proposal which has received the approval of the Graduate Liberal Arts and Sciences Committee and its director.

Specific Requirements for the Master of Arts Degree in Liberal Arts and Sciences

(Major Code: 49017)

In addition to meeting the basic requirements for the Master of Arts degree in Liberal Arts and Sciences as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units in residence at San Diego State University in the MALAS program, of which at least 15 must be in 600- and 700-numbered courses. The total program must include:

1. Nine units of either MALAS 600A, 600B, 600C, or 600D.
2. Three units of MALAS 601.
3. A theme of study composed of 15 units of graduate course work, selected with the approval of the MALAS director which normally must be in at least two of the following areas: social sciences, humanities, natural sciences, and fine arts, with no more than six units in any given discipline. Some 500 level courses may be used in partial fulfillment of this requirement, if approved by the MALAS director. MALAS 798, where applicable, may be included as satisfying 3 of the 15 units for the thematic component. Under special circumstances, and with permission of the MALAS director, a student may compose a theme that deviates in structure from the criteria stipulated above. This theme may include up to a maximum of 12 units of 600A, 600B, 600C, and 600D, in any combination.

Students may select either Plan A or Plan B in consultation with the MALAS director. In addition to meeting the distribution requirements given above, students electing Plan A must complete MALAS 799A (Thesis or Project). Students electing Plan B must complete MALAS 795 (Studies in the Liberal Arts and Sciences) and pass a written comprehensive examination in lieu of the thesis.

All programs must be approved by the MALAS director in consultation with the Graduate Liberal Arts and Sciences Committee.

Courses Acceptable on Master's Degree Program in Liberal Arts and Sciences (MALAS)

GRADUATE COURSES

600A-600B-600C-600D. Interdisciplinary Study in Liberal Arts and Sciences (3-3-3-3)

Prerequisites: Admission to Master of Arts degree in Liberal Arts and Sciences program and consent of MALAS director.

Interdisciplinary seminars to explore issues that require integration of the perspective of various areas of the liberal arts and sciences.

Each course may be repeated with new content. See Class Schedule for specific content.

- A.** Social Sciences and Humanities
- B.** Social Sciences and Natural Sciences
- C.** Humanities and Natural Sciences
- D.** Fine Arts and Social Sciences, Humanities, or Natural Sciences

601. Seminar in Interdisciplinary Thinking (3)

Prerequisite: Admission to Master of Arts degree in Liberal Arts and Sciences program and approval of director.

Introduction to MALAS curriculum and interdisciplinary commitment, especially to connection between fine arts, humanities, sciences, and social sciences. See Class Schedule for specific content.

795. Studies in Liberal Arts and Sciences (1-3) Cr/NC

Prerequisite: An officially appointed examining committee and advancement to candidacy.

Individual preparation for comprehensive examination for students taking the Master of Liberal Arts and Sciences under Plan B. Maximum credit three units.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy and consent of MALAS director

Individual study on a given topic through interdisciplinary perspectives. Maximum credit three units.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for Master of Arts degree in Liberal Arts and Sciences.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in MALAS 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.

Associateships

Graduate teaching associateships in linguistics are offered each semester to a limited number of qualified students to teach the composition courses for international students. Those interested should send a letter of application to the graduate adviser.

General Information

The Department of Linguistics and Oriental Languages offers graduate study leading to the Master of Arts degree in linguistics. The interdisciplinary program provides broad educational opportunities through three specializations: 1) General Linguistics, for those planning to pursue a doctorate in theoretical areas (e.g., syntax or phonology) or for those who plan to work in a language-related field in industry or education; 2) ESL/Applied, for students planning to pursue a doctorate in applied linguistics, or intending to teach or design curriculum for ESL/EFL classrooms; 3) Computational Linguistics, for those planning a career in business or industry in computational linguistics, or a doctorate in this area. In addition to completing coursework for one of the specializations and demonstrating proficiency in a foreign language, students are required to submit a thesis (Plan A) or pass a comprehensive examination (Plan B).

All students who complete the required program will receive a Master of Arts degree in linguistics. If requested, the department will provide a letter designating a student's specialization for purposes of employment or application for further study. The specializations and language research interests of faculty members in this program are:

Zev Bar-Lev – ESL, discourse analysis, linguistics and computers; Hebrew, Arabic, and Russian.

Soonja Choi – Psycholinguistics, first and second language acquisition, cognition and language, ESL, materials development; Korean, French.

Thomas S. Donahue – American dialectology, sociolinguistics, historical linguistics; old English, middle English.

Ann M. Johns – ESL methodology, materials development, teaching second language reading and writing, discourse and genre analysis; Arabic and Chinese.

Jeffrey P. Kaplan – Syntax, semantics, pragmatics, discourse, language and law; Swahili.

Deborah Poole – Classroom interaction, discourse analysis, cross-cultural interaction, ESL methods and materials.

Gail L. Robinson – Second language methodology, second language and culture acquisition, psycholinguistics; Spanish.

Betty T. R. Samraj – Discourse analysis, writing in the disciplines, ESL methods and materials, systemic-functional linguistics.

Robert Underhill – Descriptive linguistics, phonology, syntax, discourse; Turkish, Native American languages, Southeast Asian languages.

Charlotte Webb – Phonology, second Language acquisition, sociolinguistics; Spanish, Chinese, Lapp.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must have a Bachelor of Arts degree in linguistics or a related field that would demonstrate adequate preparation for the program.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Linguistics:

- (1) Two sets of official transcripts (in sealed envelopes). The grade point average required for admission to the M.A. program in linguistics is 3.0 in the last 60 semester units attempted;
- (2) GRE scores (official notification). All students are required to have GRE scores of 1050 or better on the combined verbal/quantitative portions of the test (with a minimum of 500 on each part);
- (3) TOEFL scores: Students who have a B.A. from a university where English is not the primary medium of instruction are required to have TOEFL scores of 570 or better. The TWE (Test of Written English) is also required, and will primarily be used to advise students regarding their program of courses;
- (4) Candidates must also submit with the application a statement of purpose (250-500 words) which demonstrates an understanding of the SDSU program and which show interest in an area of research that is within the department's score of expertise;
- (5) Applicants should arrange two letters of recommendation be sent directly from the recommenders (who can evaluate the applicant's academic potential) to the Department of Linguistics graduate adviser.

A student who is deficient in any of the above requirements may be considered for conditional admission. A candidate may be required to complete specified courses within a specific time period in addition to completing the minimum 30 units required for the degree.

The Fall 2002 graduate application deadline for the Department of Linguistics is May 15, 2002; for Spring 2003 the deadline is November 1, 2002. In order to ensure consideration, you must have ALL application materials to both the Office of Graduate Admissions and the department by the deadline.

Mail or deliver your complete admissions package to:

Department of Linguistics (Business Administration 327)
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7727

For additional information, contact Yasmine Panahi at ypanahi@mail.sdsu.edu and request an M.A. information packet.

Advancement to Candidacy

All candidates must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition to the requirements listed, students must demonstrate reading or speaking knowledge of at least one foreign language prior to advancement to candidacy.

Specific Requirements for the Master of Arts Degree

(Major Code: 15051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of 500-, 600-, and 700-level courses including Linguistics 622 and 795. A minimum of 15 of the units taken must be from 600- or 700-level courses.

Students selecting the General Linguistics specialization must complete Linguistics 621 and six units from the following: Linguistics 610, 620, 640, 651, 654, and 660.

Students selecting the ESL/Applied specialization must complete either Linguistics 521 or 621, Linguistics 652, and at least six units from the following: Linguistics 623, 650, 653, and 655. An internship, Linguistics 740, is required of all students selecting this specialization who have not taught ESL previously.

Students selecting the Computational Linguistics specialization must complete Linguistics 571, 581, 582, 621, and nine units selected from Linguistics 596 (when offered with computational linguistics content), 620, 654, 681, 682, 696 (when offered with computational linguistics content); Computer Science 550, 560, 562, 596 (when offered with computational linguistics content), 620A, 650 (when offered with computational linguistics content), 696 (when offered with computational linguistics content). **A prerequisite to the Computational Linguistics specialization is completion of Linguistics 570 or equivalent.**

Students selecting one specialization may enroll in courses from the other specialization as electives.

With the approval of the graduate adviser, a maximum of six units selected from the following courses will be accepted for graduate credit in linguistics: Anthropology 604; Communication 530, 584, 765; Communicative Disorders 790, 792, 793; Rhetoric and Writing Studies 602; Russian 580; Spanish 561, 770.

Plan A or Plan B

With approval of the graduate adviser, a student may choose either Plan A, the normal option which requires a thesis, or in special circumstances and with the prior approval of the graduate adviser, Plan B, which requires a written comprehensive examination. Plan A students must select a committee of three faculty, two of whom are from the department, to supervise the thesis. In consultation with the graduate adviser, students select one of two options upon approval of an official program and advancement to candidacy.

Advanced Certificate in Applied Linguistics and English as a Second Language (ESL)

The Department of Linguistics and Oriental Languages offers a Basic and an Advanced Certificate in Applied Linguistics and English as a Second Language (ESL). The Advanced Certificate requires Linguistics 652; two courses from Linguistics 650, 653, 655, and 795 (when offered with applied linguistics content); and one course from Linguistics 530, 622, 623, 651, 654, and 795. The prerequisite to the Advanced Certificate is the Basic Certificate or its equivalent. A student's entire program comprising Basic and Advanced Certificates must include at least one course from Linguistics 530, 622, and 623. Under certain circumstances comparable courses taken at other institutions may count toward the Certificate. Such courses must be evaluated and approved by the certificate adviser. For information on the Basic Certificate, please see the *General Catalog*.

Courses Acceptable on Master's Degree Programs in Linguistics (LING)

UPPER DIVISION COURSES

520. Fundamentals of Linguistics (3)

Prerequisite: Upper division standing.

Principles of modern linguistics, with attention to English grammar (syntax, morphology, phonology). Language change, dialects, sociolinguistics, psycholinguistics, language acquisition.

521. Phonology (3)

Prerequisite: Linguistics 420 or 520.

Introduction to the theoretical principles of transformational-generative phonology.

522. Syntax (3)

Prerequisite: Linguistics 420 or 520.

Introduction to the theoretical principles of transformational-generative syntax.

524. American Dialectology (3)

Prerequisite: Upper division standing.

Development of American English. Regional, social, and ethnic differences in pronunciation, grammar, and vocabulary. Differences in men's and women's language. Black English.

525. Semantics and Pragmatics (3)

Prerequisite: Linguistics 420 or 520.

Advanced semantic theory; systematic analysis of the interaction of sequences of language with real world context in which they are used.

530. English Grammar (3)

Prerequisite: Six upper division units in linguistics.

English morphology, syntax, and discourse structure, including simple and complex sentence structure; lexical categories and sub-categories; discourse functions of selected constructions. Problems and solutions in teaching English grammar.

550. Theory and Practice of English as a Second Language (3)

Prerequisite: Linguistics 420 or 520.

The nature of language learning; evaluation of techniques and materials for the teaching of English as a second language.

551. Sociolinguistics (3)

Prerequisite: A course in introductory linguistics.

Investigation of the correlation of social structure and linguistic behavior.

552. Psycholinguistics (3)

Prerequisite: Linguistics 420 or 520.

Psychological and mental processes related to comprehension, production, perception, and acquisition of language in adults and children.

553. Bilingualism (3)

Prerequisite: Linguistics 420 or 520 or Communicative Disorders 300.

Bilingual societies; language choice by bilinguals; bilingual language acquisition; effects of bilingualism on language structure and use.

554. Child Language Acquisition (3)

Prerequisite: Linguistics 420 or 520.

Theories and research methods in child language acquisition; quantitative and qualitative analyses of data at various levels of grammar (phonology, morphology, lexicon, syntax, and discourse) using language and acquisition corpora.

555. Practical Issues in Teaching English as a Second Language (3)

Prerequisite: Linguistics 420 or 520; and credit or concurrent registration in Linguistics 550.

Practical approaches to applications of the theory of English as a Second Language (ESL) and methodology for speaking, reading, listening, writing; techniques for facilitating growth of communicative competence.

570. Mathematical Linguistics (3)

Prerequisites: Two linguistics courses.

Mathematical tools for linguistics: set theory; basic algebraic structures such as groups, lattices, and Boolean algebras; formal language theory; propositional and 1st-order logic. Some emphasis on proofs. Applications to linguistics.

571. Computational Corpus Linguistics (3)

Prerequisites: Two linguistics courses.

Practical introduction to computation with text corpora and introduction to Perl. Tokenizing, part-of-speech tagging, and lemmatizing (stemming) large corpora. Writing of Perl programs required.

581. Computational Linguistics (3)

(Same course as Computer Science 581.)

Prerequisites: Linguistics 570 or Mathematics 245; Linguistics 571 or Computer Science 320.

Basic concepts in computational linguistics including regular expressions, finite-state automata, finite-state transducers, weighted finite-state automata, and n-gram language models. Applications to phonology, orthography, morphology, syntax. Probabilistic models. Statistical techniques for speech recognition.

582. Computational Syntax and Semantics (3)

Prerequisites: Linguistics 522 and 581.

Review of finite-state and context free languages; unification grammars; problems of meaning and intention in computational systems. Example applications from information retrieval, dialogue, and machine translation systems.

596. Selected Topics in Linguistics (1-3)

Prerequisite: Upper division standing.

Advanced study of selected topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

610. Topics in Historical Linguistics (3)

Prerequisite: Three upper division units in linguistics, preferably Linguistics 410, 520, or 521.

Methods and principles used in historical study of language; processes of language change in phonology, syntax, and semantics; linguistics reconstruction; origin of language; language families; development of writing. Analysis of Indo-European, Old English, or Middle English. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

620. Advanced Formal Syntax (3)

Prerequisite: Linguistics 522.

Advanced study of formal syntactic theory.

621. Advanced English Phonology (3)

Prerequisite: Linguistics 521.

English phonetics, phonemics, and phonological rules. Phonological differences among American English dialects. Survey of contemporary approaches to phonology.

622. Discourse and Syntax (3)

Prerequisite: Linguistics 522.

Functional and discourse-oriented approaches to syntax and syntactic approaches to discourse.

623. Immigrant Languages (3)

Prerequisite: Linguistics 420 or 520.

Contrastive structure of selected languages representing significant immigrant populations in San Diego; emphasis on phonological, orthographic, morphological, lexical and syntactic features.

640. Field Methods in Linguistics (3)

Prerequisites: Linguistics 521 and credit or concurrent registration in Linguistics 622.

Principles and techniques of linguistic analysis working directly with native informants, including phonemic, grammatical, and syntactic analysis and text collection and interpretation.

650. Materials Development in Applied Linguistics (3)

Prerequisite: Linguistics 550.

Materials development and adaptation for teaching English as a second language and foreign language.

651. Sociology of Language (3)

Prerequisite: Linguistics 551.

Public and private reasons for planned language behavior. Creoles, personal speech interaction patterns, bilingualism, cultural diversity in language use, social-theoretical background, language planning, and social uses of sexism in language.

652. Second Language Acquisition (3)

Prerequisites: Linguistics 452 or 552; and 550.

Analyses of theories of second language acquisition; theoretical and empirical bases of current second language teaching methodologies.

653. ESL Reading and Writing (3)

Prerequisite: Linguistics 550.

Application of discourse and reading theory to the teaching and testing of ESL reading and writing. Issues of coherence, process-product, genre studies.

654. Language and Cognition (3)

Prerequisite: Linguistics 552.

Language production, comprehension, and acquisition, as these relate to human cognition.

655. English for Specific Purposes and Content-Based Instruction (3)

Prerequisites: Linguistics 420 or 520, and 550.

Theory, practice, and history of these two related approaches to ESL/EFL.

660. History of Linguistics (3)

Prerequisite: Two courses in linguistics or equivalent background.

Background and development of modern linguistic theory.

681. Statistical Methods in Computational Linguistics (3)

Prerequisite: Linguistics 581.

Statistical methods for computational linguistics. Markov chains, hidden Markov models, statistical estimators for n-gram models, finding collocation and subcategorization frames, collecting selectional preferences, part-of-speech tagging, word sense disambiguation, probabilistic context-free grammars.

682. Computational Sentence and Discourse Semantics (3)

Prerequisite: Linguistics 582.

Computational issues in logical representations of sentence and discourse semantics. Semantic components of unification-based natural language understanding systems: compositional rules, syntactic and semantic processing, contextual pragmatic resolution, translation to application semantics. Quantifier scope, anaphora, ellipsis, reference resolution, conjunction.

696. Advanced Topics in Linguistics (1-3)

Prerequisite: Consent of instructor.

Advanced study in specific areas of linguistics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of Linguistics 596 and 696 applicable to a 30-unit master's degree.

740. Internship in English as a Second Language and Foreign Language Teaching (3) Cr/NC

Prerequisite: Linguistics 550.

Internship in teaching English as a second language and English as a foreign language, offering work experience with practicing professionals.

750. Directed Language Study (3)

Prerequisite: Consent of instructor.

Directed independent study of a foreign language not offered at San Diego State University with aim of acquiring a developing competency in the language. May include speaking, listening, reading, writing, and grammar. May be repeated with approval of graduate adviser.

795. Seminar in Linguistics (3)

Prerequisite: Completion of three units of 600- and 700-numbered courses in the master's program for linguistics.

Research in linguistics, course content varying according to instructor. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair or instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Mathematics Education

Nicholas A. Branca, Ed.D., Professor of Mathematics
G. Brian Greer, Ph.D., Professor of Mathematics
Larry K. Sowder, Ph.D., Professor of Mathematics (Coordinator and M.A.T.S. Graduate Adviser)
Janet Sue Bowers, Ph.D., Associate Professor of Mathematics
Jennifer Chauvot, Ph.D., Assistant Professor of Mathematics
Joanne Lobato, Ph.D., Assistant Professor of Mathematics

Associateships

Graduate teaching associateships in mathematics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Mathematics and Statistics offers graduate study leading to the Master of Arts degree in mathematics, the Master of Arts degree for teaching service with a concentration in mathematics, the Master of Science degree in applied mathematics, the Master of Science degree in statistics (see the Statistics section of this bulletin for a description of the statistics program and courses), and the Master of Science degree in Applied Mathematics with a Concentration in Mathematical Theory of Communications Systems.

Faculty active in research direct theses and research projects in most general areas of the mathematical sciences: in complex analysis, differential equations, graph theory, group theory, matrix theory,

number theory, numerical analysis, operator theory; in cognitive science, computer education and problem solving within mathematics education; in control theory, mathematical physics, modeling and optimization, financial mathematics, mathematics of communication, and computational mathematics within applied mathematics.

Opportunities for research in mathematics education are available through research facilities in the Center for Research in Mathematics and Science Education.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Mathematics and Statistics:

- (1) Application;
- (2) Two sets of official transcripts (in sealed envelopes);
- (3) GRE scores (official notification: SDSU code 4682);
- (4) TOEFL test score (if postsecondary instruction is in a language other than English);

Mail or deliver your complete admissions package to:

Department of Mathematics and Statistics
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7720

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in some programs.

Specific Requirements for the Master of Arts Degree in Mathematics

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. Complete 30 units of approved 500, 600, and 700 level courses, of which at least 24 units must be in mathematics (including computer science). At least 21 units must be at the 600 level or above. Mathematics 600, 601, and 602 may not be part of this degree. No more than six units of Mathematics 797 and 798 will be accepted toward the degree.
2. Among the 30 units of coursework, students must include at least two courses in the area of algebra chosen from courses 623, 627A, 627B, and at least two courses in analysis chosen from courses 630A, 630B, 631A, 631B.

- Before entering the program, students should have completed the following courses or their equivalents: Mathematics 521B, 524, 532, 534B. If a student has not had these courses before entering the program, they must be taken during the first year. (A maximum of two of these courses may be applicable toward the degree course requirements.)
- With departmental approval, students may select Plan A and complete Mathematics 799A or Plan B requiring a written comprehensive examination based on materials to be selected by the department from among Mathematics 623, 627A, 627B, 630A, 630B, 631A, 631B.

Plan A is encouraged for most students since it provides an introduction to independent reading and is a natural pathway to independent research.

Specific Requirements for the Master of Science Degree in Applied Mathematics

(Major Code: 17031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree described in Part Two of this bulletin, the student must meet the following requirements:

- Have completed before entering the program, the following courses or their equivalents: Mathematics 524, 534A, 534B, 541; Statistics 551A; and programming proficiency in a computer language. Admission to the program as conditionally classified may be granted without some of the coursework above, contingent on the student removing any deficiencies by the end of the first year in the program. (These courses will not count toward the degree course requirements.)
- Complete a minimum of 30 units of approved 500-, 600- and 700-numbered courses. All programs must include at least 21 units in mathematical science (with the possible exception of a student who shows an interest in mathematical modeling) and at least 18 units selected from 600- and 700-numbered courses. No more than six units in Mathematics 797 and 798 will be accepted for credit toward the degree. A program of study must be approved by the graduate adviser.
- With departmental approval, the student may select Plan A, and complete Mathematics 799A, Thesis. The student must have an oral defense of their thesis or research, open to the public. If Plan B is elected, the student must complete three units of Mathematics 797, Research, and pass the written Comprehensive Examination in Applied Mathematics.

Concentration in Mathematical Theory of Communication Systems

This concentration focuses on the areas of mathematics relevant to the processing of information by digital or analog methods through electromagnetic or opto-acoustic channels. In addition to meeting the requirements for classified standing in the Master of Science program in applied mathematics, students pursuing this concentration will complete the following 18 units of core courses: Mathematics 522, 525, 623, 626, 667, 668. Nine units of electives must be chosen with the approval of the graduate adviser. Recommended electives are Mathematics 534B, 543, 627A-627B, 630A-630B, 631A-631B, 693A, and 693B. Depending on the student's academic background, the graduate adviser may approve elective courses in computer science, statistics, or electrical engineering. Courses outside mathematics that pertain to this concentration include Computer Science 574, Statistics 570, Electrical Engineering 558, 652, 653, and 658. Either Mathematics 797, Research, or 799A, Thesis, is required of all students in this degree program.

Courses Acceptable on Master's Degree Programs in Applied Mathematics, Mathematics, and Statistics (MATH)

General

UPPER DIVISION COURSES

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

509. Computers in Teaching Mathematics (3)

Two lectures and three hours of laboratory.

Prerequisite: Mathematics 252.

Solving mathematical tasks using an appropriate computer interface, and problem-based curricula. Intended for those interested in mathematics teaching.

510. Introduction to the Foundations of Geometry (3) I, II

Prerequisite: Mathematics 122 or 151.

The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

511. Projective Geometry (3)

Prerequisite: Mathematics 254.

Geometry emphasizing relationships between points, lines, and conics. Euclidean geometry and some non-Euclidean geometries as special cases of projective geometry.

512. Non-Euclidean Geometry (3)

Prerequisite: Mathematics 122 or 151.

History of attempts to prove the fifth postulate; emphasis on plane synthetic hyperbolic geometry; brief treatment of other types of non-Euclidean geometry.

521A. Abstract Algebra (3) I, II

Prerequisites: Mathematics 245 and 252.

Abstract algebra, including elementary number theory, groups, and rings.

521B. Abstract Algebra (3) II

Prerequisite: Mathematics 521A.

Continuation of Mathematics 521A. Rings, ideals, quotient rings, unique factorization, noncommutative rings, fields, quotient fields, and algebraic extensions.

522. Number Theory (3) I

Prerequisites: Mathematics 245 and 252.

Theory of numbers to include congruences, Diophantine equations, and a study of prime numbers; cryptography.

523. Mathematical Logic (3)

Prerequisite: Mathematics 245.

Propositional logic and predicate calculus. Rules of proof and models. Completeness and the undecidability of arithmetic. Not open to students with credit in Philosophy 521.

524. Linear Algebra (3) I, II

Prerequisites: Mathematics 245 and 254; or 342A.

Vector spaces, linear transformations, orthogonality, eigenvalues and eigenvectors, normal forms for complex matrices, positive definite matrices and congruence.

525. Algebraic Coding Theory (3) I

Prerequisite: Mathematics 254.

Linear codes, perfect and related codes, cyclic linear codes, BCH codes, burst error-correcting codes.

531. Partial Differential Equations (3) II

Prerequisites: Mathematics 252 and 337.

Boundary value problems for heat and wave equations; eigenfunction expansions, Sturm-Liouville theory and Fourier series. D'Alembert's solution to wave equation; characteristics. Laplace's equation, maximum principles, Bessel functions.

532. Functions of a Complex Variable (3) I

Prerequisite: Mathematics 252.

Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent series, calculus of residues, and applications.

533. Vector Calculus (3)

Prerequisite: Mathematics 254 or 342A.

Scalar and vector fields; gradient, divergence, curl, line and surface integrals: Green's, Stokes' and divergence theorems. Green's identities. Applications to potential theory or fluid mechanics or electromagnetism.

534A. Advanced Calculus I (3) I, II, S

Prerequisites: Mathematics 245 and 254; or 342A.

Completeness of the real numbers and its consequences, sequences of real numbers, continuity, differentiability and integrability of functions of one real variable.

534B. Advanced Calculus II (3) II

Prerequisite: Mathematics 534A.

Series and sequences of functions and their applications, functions of several variables and their continuity, differentiability and integrability properties.

535. Introduction to Topology (3) I

Prerequisite: Mathematics 344A.

Topological spaces. Functions, mappings, and homeomorphisms. Connectivity, compactness. Metric spaces.

537. Ordinary Differential Equations (3)

Prerequisite: Mathematics 337.

Theory of ordinary differential equations: existence and uniqueness, dependence on initial conditions and parameters, linear systems, stability and asymptotic behavior, plane autonomous systems, series solutions at regular singular points.

538. Dynamical Systems and Chaos (3) II

Prerequisite: Mathematics 337.

One- and two-dimensional iterated maps, equilibria and their stability, sensitive dependence on initial conditions, Lyapunov exponents, horseshoe maps, period doubling, chaotic attractors, Poincare maps, Lorenz systems, chaos in differential equations, stable manifolds and crises. Applications in biology, chemistry, physics, engineering, and other sciences. Bifurcation theory.

541. Introduction to Numerical Analysis and Computing (3) I, II, S

Prerequisites: Mathematics 254 or 342A; and Computer Science 106 or 107 or 205 or Engineering 120.

Solution of equations of one variable, direct methods in numerical linear algebra, least squares approximation, interpolation and uniform approximation, quadrature.

542. Introduction to Numerical Solutions of Differential Equations (3) II

Prerequisites: Mathematics 337 and 541.

Initial and boundary value problems for ordinary differential equations. Partial differential equations. Iterative methods, finite difference methods, and the method of lines.

543. Numerical Matrix Analysis (3)

Prerequisite: Mathematics 541.

Gaussian elimination, LU factorizations and pivoting strategies. Direct and iterative methods for linear systems. Iterative methods for diagonalization and eigensystem computation. Tridiagonal, Hessenberg, and Householder matrices. The QR algorithm.

544. Computational Finance (3)

Prerequisites: Mathematics 531 and Statistics 550.

Numerical procedures for evaluating financial derivatives. Discretization of partial differential equations. Monte Carlo simulation techniques.

561. Applied Graph Theory (3) I

Prerequisite: Mathematics 245 or 254.

Undirected and directed graphs, trees, Hamiltonian circuits, classical problems of graph theory including applications to linear systems.

562. Mathematical Methods of Operations Research (3) II

Prerequisites: Mathematics 252 and 254.

Theory and applications concerned with optimization of linear and non-linear functions of several variables subject to constraints, including simplex algorithms, duality, applications to game theory, and descent algorithms.

579. Combinatorics (3) II

Prerequisite: Mathematics 245.

Permutations, combinations, generating functions, recurrence relations, inclusion-exclusion counting. Polya's theory of counting, other topics and applications.

580. Risk Management: Stocks and Derivative Securities (3)

Prerequisite: Mathematics 337, Statistics 550, or 551A.

Theory of derivative securities with focus on evolution of stock prices and pricing of options.

581. Risk Management: Portfolio Selection and Other Features of Finance Markets (3)

Prerequisite: Mathematics 337, Statistics 550 or 551A, Mathematics 580.

Derivatives and term structures, method of principal components, theory of portfolio optimization, some numerical methods.

596. Advanced Topics in Mathematics (1-4) I, II

Prerequisite: Consent of instructor.

Selected topics in classical and modern mathematical sciences. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

General GRADUATE COURSES

623. Linear Algebra and Matrix Theory (3)

Prerequisite: Mathematics 524.

Characteristic and minimal polynomials, Cayley-Hamilton theorem, canonical forms, hermitian matrices, Sylvester's law, norms, singular values, stability, non-negative matrices.

626. Cryptography (3)

Prerequisite: Mathematics 521A or 522.

Design of secure cryptosystems with applications. Classical and public key cryptosystems. Primality testing, factoring, discrete log problem, and knapsack problem.

627A. Modern Algebra I (3)

Prerequisite: Mathematics 521B.

Group theory, including isomorphism theorems, permutation groups, and simplicity of A_n , finite abelian groups, and Sylow theorems. Rings, ideals, principal ideal domains, and unique factorization. (Formerly numbered Mathematics 621, 624.)

627B. Modern Algebra II (3)

Prerequisite: Mathematics 627A.

Modules and the Wedderburn-Artin theorem, field extensions, splitting fields, Galois theory, finite fields, the fundamental theorem of algebra. (Formerly numbered Mathematics 622, 624.)

630A-630B. Functions of a Real Variable (3-3)

Prerequisites: Mathematics 524 and 534B. Mathematics 630A is prerequisite to Mathematics 630B.

Lebesgue measure and integration, metric spaces, Banach spaces, Hilbert spaces, spectral theory.

631A-631B. Functions of a Complex Variable (3-3)

Prerequisites: Mathematics 532 and 534B. Mathematics 631A is prerequisite to 631B.

Theory of analytic functions. Elementary functions and power series, Cauchy's theorem and its consequences. Entire functions, conformal mappings, Riemann mapping theorem. Harmonic functions.

636. Mathematical Modeling (3)I

Prerequisites: Mathematics 254 and 337 or Mathematics 342A and 342B or Engineering 280.

Advanced models from the physical, natural, and social sciences. Emphasis on classes of models and corresponding mathematical structures. (Formerly numbered Mathematics 536.)

662. Advanced Optimization Theory (3)

Prerequisites: Mathematics 524 and 562.

Formulating the optimization problem and constructing proper models. Sequential optimization: linear programming, integer programming, dynamic programming, nonlinear programming. Duality theory and sensitivity analysis. Sample applications and numerical implementation.

663. Methods of Applied Analysis (3)

Prerequisite: Mathematics 534B.

Functional analysis with applications to applied mathematics. Metric and normed linear spaces, bounded and compact operators, inner product and Hilbert spaces, self-adjoint operators and orthogonal expansions.

667. Mathematical Aspects of Systems Theory (3)

Prerequisites: Mathematics 524 and 537.

Linear and nonlinear systems, nonlinear differential equations, equilibrium equations. Linearization, state transition matrix, stability theory, feedback control systems.

668. Applied Fourier Analysis (3)

Prerequisites: Mathematics 524, 534A; 532 or 534B.

Discrete and continuous Fourier transform methods with applications to statistics and communication systems.

693A. Advanced Numerical Analysis (3)

Prerequisites: Mathematics 524 and 542 or 543.

Numerical optimization, Newton's methods for nonlinear equations and unconstrained minimization. Global methods, nonlinear least squares, integral equations.

693B. Advanced Numerical Analysis (3)

Prerequisites: Mathematics 531, 537, and 693A.

Methods for differential equations. Elliptic and parabolic partial differential equations. Stiff ordinary differential equations.

696. Selected Topics in Mathematical Sciences (3)

Prerequisite: Graduate standing.

Intensive study in specific areas of mathematical sciences. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

720. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced mathematics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

790. Practicum in Teaching of Mathematics (1) Cr/NC

Prerequisite: Award of graduate teaching associateship in mathematics.

Supervision in teaching mathematics. Lecture writing, style of lecture presentation and alternatives, test and syllabus construction, and grading system. Not applicable to an advanced degree. Required for first semester GTA's. Maximum credit four units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Six units of graduate level mathematics.

Research in one of the fields of mathematics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Mathematics Education Program (MATH) GRADUATE COURSES

600. Geometrical Systems (3)

Prerequisites: Mathematics 521A and an upper division course in geometry.

Ordered and affine geometries, decompositions, dilations. Projectivities and projective space. Absolute geometry, isometries, groups generated by inversions.

601. Topics in Algebra (3)

Prerequisites: Mathematics 521A and 534A.

Unique factorization domains, rings and ideals, groups, algebraic field extensions. A course designed for secondary school teachers.

602. Topics in Analysis (3)

Prerequisites: Mathematics 521A and 534A.

Topics in analysis, including the real number system, convergence, continuity, differentiation, the Riemann-Stieltjes integral, complex analysis, designed to give the secondary teacher a broad understanding of the fundamental concepts.

Section I. Master's Degree Program

General Information

The Department of Mathematics and Statistics offers two specializations in its program of graduate study leading to a Master of Arts degree for teaching service. The specialization for community college teaching offers candidates a program designed to provide them with the mathematical breadth necessary to teach a wide variety of lower-division collegiate mathematics courses, while also providing them with a better understanding of the issues involved in teaching and learning mathematics. The specialization for secondary teaching offers coursework designed to strengthen the mathematical background of secondary teachers, to provide teachers with a deeper understanding of learning and teaching mathematics in grades 7-12, and to allow teachers the opportunity to analyze curriculum and evaluation efforts in a manner that can lead them to make reasoned judgments about curricular, testing, and instructional issues in grades 7-12 mathematics.

Courses described in this section may also be of interest to students seeking the Master of Arts degree in education with concentrations in elementary curriculum and instruction or secondary curriculum and instruction, offered by the School of Teacher Education.

Associateships

Graduate teaching associateships in mathematical sciences are available to qualified students. Support for qualified candidates may also be available through the School of Teacher Education, through the Center for Research in Mathematics and Science Education or through employment on faculty research grants. Applications are available from the appropriate campus offices.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree for teaching service in the Department of Mathematics and Statistics must have passed a qualifying examination in mathematics education.

Specific Requirements for the Master of Arts Degree for Teaching Service in the Department of Mathematics and Statistics

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the students must complete a graduate program of at least 30 units, 24 of which must be from the

Department of Mathematics and Statistics. At least 15 of the 24 must be 600- and 700-numbered courses. A student's program must be prepared in conference with and approved by the graduate adviser.

The two specializations leading to the Master of Arts for teaching service require completion of a specific pattern of graduate units described below.

Specialization in Mathematics for Community College Teaching. This specialization is designed to satisfy the requirements for teaching service at the community college level. Students must have completed a bachelor's degree in mathematics (or equivalent) before entering the program and must have completed six units selected from Mathematics 521A, 524, and 534A. The third course can be taken prior to entrance to the program or as part of the 30-unit degree requirements.

Plan A requires Mathematics 600, 601, 602, and Mathematics Education 603; six units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; nine units of electives selected with the approval of the adviser; and Mathematics 799A, Thesis.

Plan B requires Mathematics 600, 601, 602, and Mathematics Education 603; nine units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; and nine units of electives selected with the approval of the adviser. In addition, students must pass a comprehensive examination in mathematics education.

Specialization in Mathematics for Secondary Teaching. This specialization is designed to strengthen the mathematical background of secondary teachers, while providing coursework to better understand the learning and teaching of mathematics in grades 7-12. Students should have the equivalent of a bachelor's degree in mathematics before entering the program.

Plan A requires Mathematics 524; Mathematics Education 603; three units selected from Mathematics 510, 511, 512, or 600; three units selected from Mathematics 521A or 601; three units selected from Mathematics 534A or 602; six units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; six units of electives selected with the approval of the adviser; and Mathematics 799A, Thesis.

Plan B requires Mathematics 524; Mathematics Education 603; three units selected from Mathematics 510, 511, 512, or 600; three units selected from Mathematics 521A or 601; three units selected from Mathematics 534A or 602; nine units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; and six units of electives selected with the approval of the adviser. In addition, students must pass a comprehensive examination in mathematics education.

Section II. Doctoral Program

General Information

(Major Code: 08997)

San Diego State University and the University of California, San Diego, offer jointly a doctoral program in mathematics and science education. The program faculty at SDSU are members of the College of Sciences and the College of Education and are affiliated with the Center for Research in Mathematics and Science Education (CRMSE). They represent a number of different disciplines, including biology, geological sciences, mathematics, physics, psychology, and teacher education. The program faculty at UCSD, also an interdisciplinary group, are members of the Division of Natural Sciences (biology, chemistry, mathematics, and physics) or the Division of Social

Sciences (cognitive science, philosophy, and sociology). The program is administered under the College of Sciences at SDSU and under the Division of Natural Sciences at UCSD.

The research interests of the participating faculty members cover a wide range of issues in the learning and teaching of mathematics and the sciences. Graduates of the program will be qualified to take a variety of professional positions, including faculty appointments in universities, colleges, and community colleges; specialist positions in public school districts; and out-of-school employment in settings that require expertise in mathematics and science education.

Doctoral Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program, being available for direction of research and as departmental members of joint doctoral committees.

San Diego State University:

Coordinator: Stephen K. Reed

Graduate Adviser: Joanne Lobato

Doctoral Program Members: Ambrose, Bezuk, Bowers, Branca, Clement, Chizhik, Fisher, Goldberg, Greer, Jacobs, Lobato, Marshall, Mason, Philipp, Reed, Riggs, L. Sowder, Yerrick

University of California, San Diego:

Coordinator: Alfred Manaster

Graduate Adviser: Guershon Harel

Doctoral Program Members: Appelbaum, Batali, Case, Cole, Churchland, Harel, Jones, Magde, Manaster, Mehan, Rabin, Sawrey, Shenk, Smith, Wienhausen

Admission to Doctoral Study

Applicants for admission to the doctoral program in mathematics and science education must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. Applicants must also meet the special requirements of this program. These include: (a) either a strong baccalaureate degree in mathematics or science (or a related discipline) and a master's degree, or its equivalent, in biology, chemistry, physics, or mathematics; or a strong baccalaureate degree in biology, chemistry, physics, or mathematics and professional experience in that field as a K-12 teacher; (b) a GPA of at least 3.25 in the last 30 semester (or 45 quarter) units of upper division work and at least a 3.5 in the graduate work attempted; (c) good standing in the last institution attended; (d) suitable scores in both the quantitative and verbal sections of the Graduate Record Examinations.

Students applying for admission to the doctoral program should electronically submit the University application available at www.csu-mentor.edu.

The following materials should be submitted as a complete package directly to the office of Mathematics and Science Education:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) Application for doctoral program in mathematics and science education (www.sci.sdsu.edu/crmse/crmse_app02.pdf);
- (3) GRE scores (received within the past five years);
- (4) Mathematics and Science Education recommendation form as cover sheet (www.sci.sdsu.edu/crmse/rec_form.pdf);
- (5) At least three letters of recommendation.

Mail or deliver your complete admissions package to:
Mathematics and Science Education Ph.D. Program
CRMSE, San Diego State University
6475 Alvarado Road, Suite 206
San Diego, CA 92120-5013

Specific Requirements for the Doctor of Philosophy Degree

Residency Requirements. After formal admission to the doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of San Diego State University and the University of California, San Diego.

Language Requirement. There is no formal language requirement for the program.

Course Requirements. All students admitted into the doctoral program will fulfill the following requirements. Any alternative method of fulfilling these requirements must be approved by the graduate advisers.

- A. Two core courses on research orientation:
MSE 801
MSE 802
- B. Core courses in Mathematics or Science Education.
Select:
UCSD: MSED 296A, 296B, 296C and
SDSU: MTHED 603 *or* NSCI 600.
Mathematics Education students must select two of the following additional courses:
SDSU: MTHED 604, 605, 606.
- C. Three courses on statistics and research design.
Select one of the following sequences:
UCSD: PSYC 201A, 201B *or*
SDSU: PSY 670A, 670B *or* 770A, 770B, *and* one of the following courses:
SDSU: MSE 810 *or* UCSD: SOC/A 108A.
- D. Two courses in cognitive psychology:
SDSU: PSY 587 *or* UCSD: PSYCH 218A.
One upper division or graduate UCSD cognitive science course.
- E. Three research courses:
SDSU: MSE 820 *or* UCSD: MSED 298
SDSU: MSE 830
SDSU: MSE 899 *or* UCSD: MSED 299
- F. At least one of the following courses at UCSD:
PHIL 124, 145, 146, 147, 209A; SOC/G 168J, 270
- G. Two of the following practicum courses:
SDSU: MSE 805, 806, 807
UCSD: TEP 129A; Discipline 500

Beyond these requirements, no specified number of courses is required for the doctoral degree. It is expected, however, that all the doctoral students will supplement the requirements with electives that contribute to individual career objectives.

Examinations. Students in the doctoral program will be evaluated at the following levels:

- (1) **First Year Evaluation.** The student's ability to master graduate level course material may be assessed after completion of no more than 24 semester units of coursework. This evaluation may take place not later than the third semester of the student's enrollment in the program. The evaluation will be based on the student's performance in coursework and on indicated research competence, and it will be undertaken by the student's advisory committee together with instructors from the student's first year courses.
- (2) **Comprehensive Examinations.** At the end of the second year, the student will take a written comprehensive examination in general cognition and an oral examination on issues of learning pertinent to the student's area of specialization.
- (3) **Oral Examination.** During the third year in the program, the student will make an oral presentation to the dissertation committee to accompany a written proposal for the doctoral thesis.

The student will be questioned on both the topic of the investigation and on the proposed research methodology. Upon successful completion of this presentation, the student will be recommended for advancement to candidacy for the doctoral degree.

- (4) **Dissertation Defense.** After completion of the dissertation, the candidate will present a public defense of the doctoral dissertation. A copy of the dissertation must be made available to the doctoral faculty at both institutions four weeks prior to the defense. Copies of the abstract of the dissertation, along with the announcement of the defense, must be publicly available at least one week before the defense. The student's dissertation committee will make a recommendation to the graduate deans to pass or fail the student.

Faculty Advisers. Upon admission to the doctoral program, the program directors will assign each student a faculty adviser at both universities. The faculty advisers will serve as advisers until the student's dissertation committee is appointed.

Dissertation Committee. The dissertation committee will be composed of five members with at least two faculty members from each campus. The student will select members of the dissertation committee in consultation with program faculty and the graduate advisers.

Dissertation. Following the successful completion of all prescribed coursework and qualifying examinations, the major remaining requirement for the Ph.D. degree will be the satisfactory completion of a dissertation consisting of original research carried out under the guidance of the major professor. Approval of the completed dissertation attests that an organized investigation that expands the frontiers of knowledge and understanding in mathematics and science education has been carried out.

Award of the Degree. The Doctor of Philosophy degree in Mathematics and Science Education will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both cooperating institutions.

Financial Support

San Diego State University and the University of California, San Diego have a number of research and teaching associateships available to support students admitted to the Joint Doctoral Program. All students applying to the program will be considered for financial support.

Section III. Certificate Program

Mathematics Specialist Certificate

The mathematics specialist certificate program, offered through the College of Extended Studies, prepares credentialed teachers to become mathematics specialists in grades 4-6. These specialists will be prepared to teach mathematics in a department setting in grades 4-6, and/or to act as mathematics peer coaches in elementary schools, as needed within a school district. For application or further information, contact Dr. Judith T. Sowder (594-1587) or Dr. Nadine S. Bezuk (594-1370).

Prerequisites for admission include the following:

1. Applicants must have a teaching credential.
2. Applicants must have two years of classroom teaching experience.
3. Two letters of recommendation.

Requirements for the certificate program (12 units):

1. Six units of mathematics courses to include Mathematics 281A-281B, and two units from Mathematics 383, 384, 385, or 386, or courses with equivalent content.
2. Six units of education courses to include Teacher Education 604 and 605.

Students must pass all courses with Cr/NC grading or receive at least a C (2.0) in all courses taken for a letter grade. With consent of the adviser, six units of education coursework may be applied toward a master's degree in education.

Refer to the Mathematics section in the General Catalog for a listing of courses for the certificate program.

Courses Acceptable on the Master's Degree Program in Mathematics Education (MTHED)

UPPER DIVISION COURSE IN MATHEMATICS EDUCATION

502. Technology in Teaching and Learning Mathematics: Grades K-8 (3)

Prerequisites: Classified graduate standing; consent of instructor for undergraduates.

Research in use of technology in learning and teaching mathematics in grades K-8. Major focus devoted to use of applications. Other uses for technology addressed include simulations, communication, and calculational speed. (Formerly numbered Mathematics Education 602.)

GRADUATE COURSES IN MATHEMATICS EDUCATION

600. Teaching and Learning Mathematics in the Early Grades (Pre-K to 4) (3)

Prerequisites: Mathematics Education 603 or 604 or Teacher Education 610A and K-12 teaching experience.

Research in teaching and learning mathematics in preschool through grade four. Innovative early childhood mathematics curricula, promising instructional practices. Assessment techniques to guide instruction.

601. Teaching and Learning Mathematics in the Middle Grades (3)

Prerequisites: Mathematics Education 604 or Teacher Education 610A and K-12 teaching experience.

Research on teaching and learning mathematics in grades five through eight. Innovative middle grades mathematics curricula, promising instructional practices. Assessment techniques to guide instructions.

Courses Acceptable on the Master's and Doctoral Degree Programs in Mathematics and Science Education (MTHED)

603. Seminar on Research in Mathematics Learning and Instruction (3)

Prerequisite: Consent of instructor or graduate adviser.

The learning and teaching of mathematics, with emphasis on applications of current psychological theories to mathematics learning, and research on mathematics teaching.

604. Seminar on Curriculum and Evaluation Issues in Mathematics (3)

Prerequisite: Consent of instructor or graduate adviser.

Curriculum projects in mathematics, and evaluation as it pertains to mathematics curricula, to programs, and to mathematics students and teachers.

605. Algebra in the 7-14 Curriculum (3)

Prerequisite: Consent of instructor or graduate adviser.

Curricular change in algebra, with attention to experimental curricula, to research on learning of algebra, and to influences of technology. Implications for instruction.

606. Selected Topics in 7-14 Mathematics Curriculum (3)

Prerequisite: Consent of instructor or graduate adviser.

Curricular change in school mathematics, to include geometry, probability, and statistics, with attention to contemporary curricula, to research on learning and teaching in those areas, and to the influences of technology. Implications for instruction.

GRADUATE COURSES IN MATHEMATICS AND SCIENCE EDUCATION (MSE)

801. Faculty Research (1) Cr/NC

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

Issues of learning with reference to how they are addressed by doctoral faculty. Students will interview and write a one-page statement of research interests for each of eight doctoral faculty members.

802. Orientation Practicum (1-3) Cr/NC

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

Experience with research programs will introduce students to a variety of research questions and approaches. One research program per unit; minimum three units required in program.

805. Supervised Teaching of Teacher Preparation Courses (3) Cr/NC/RP

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

Students will plan and teach, under supervision, a course that prepares prospective teachers to teach mathematics or science at either the elementary or secondary level.

806. Supervised School Practicum (3) Cr/NC/RP

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

School-based project focusing on inservice of teachers or on curriculum development, or work with a school district administrator or mathematics or science.

807. Specially Designed Practicum (3) Cr/NC/RP

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

Practical experience to assist students in gaining experience in career they have selected.

810. Seminar in Research Design (3)

Prerequisite: Admission to doctoral program in Mathematics and Science Education; Psychology 670A, and consent of instructor.

Issues such as analysis of protocols, problems of measurement in evaluation of learning, development, and assessment of cognitive models in learning in mathematics and science.

820. Research Project (3-6) Cr/NC/RP

Prerequisite: Admission to doctoral program in Mathematics and Science Education.

Participation in an ongoing research project and development of a related study.

830. Research Seminar (3)

Prerequisite: Successful completion of qualifying examination.

Students and faculty present ongoing research for discussion and critique.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Mathematics and Science Education 820.

Independent investigation in general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/RP

Prerequisite: An officially constituted doctoral committee and advancement to candidacy.

Individual study in the field of specialization.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisite: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

For additional courses applicable to the Master of Arts degree for Teaching Service see:

Mathematics 600: Geometrical Systems

Mathematics 601: Topics in Algebra

Mathematics 602: Topics in Analysis

For additional courses related to mathematics education see:

Teacher Education 511: Diagnosis and Remediation of Difficulties in Mathematics

Teacher Education 610A: Seminar in Mathematics Education-Elementary School

Music

In the College of Professional Studies and Fine Arts

OFFICE: Music 112

Faculty

Martin J. Chambers, M.M., Professor of Music,
Director of School of Music and Dance
Frank W. Almond, Ph.D., Professor of Music
Brenton P. Dutton, M.M. Professor of Music
(Graduate Adviser)
Karen J. Follingstad, D.M.A., Professor of Music
Jane M. Kolar, Ph.D., Professor of Music
Marian Liebowitz, D.M.A., Professor of Music
Jack D. Logan, Ph.D., Professor of Music
Terry L. O'Donnell, D.M.A., Professor of Music
Lewis E. Peterman, Jr., Ph.D., Professor of Music
Thomas D. Stauffer, M.A., M.M., Professor of Music
David Ward-Steinman, D.M.A., Professor of Music
Bill Yeager, M.M., Professor of Music
Richard A. Helzer, M.F.A., Assistant Professor of Music
Richard Thompson, M.M., Assistant Professor of Music

Applied Music Instruction

Piano: Darby, Follingstad, Kolar
Harpichord: Paul
Organ: Plimpton
Voice: Chambers, Latour, MacKenzie, Nikkel, Tweed, Westbrook
Flute: Payne
Oboe: Reed
Clarinet: Liebowitz
Saxophone: Easton, Rekevics
Early Instruments: Peterman
Bassoon: Martchev, Simmons
French Horn: Lorge
Trumpet: Price
Trombone: Fellingner, Reusch, Yeager
Baritone Horn: Dutton
Tuba: Dutton
Percussion: Flood, Shea
Violin: Constantino, Nykter
Viola: Gerard
Cello: Stauffer
Contrabass: G. Biggs
Harp: Mashkovtseva
Classical Guitar: Benedetti, Romero, Svoboda, Wetzel
Composition: Dutton, Stauffer, Ward-Steinman, Waters
Non-Western Instruments: Specialists from specific cultures as available each semester
Jazz Studies: Helzer, Thompson, Yeager
Opera: Evans-O'Connor

Scholarships

Information on music scholarships may be obtained by writing to the Chair, Music Scholarship Committee, School of Music and Dance, San Diego State University.

General Information

The School of Music and Dance offers graduate study leading to the Master of Arts degree in music and the Master of Music degree.

With approval of the school, students electing to pursue the Master of Arts degree may specialize in one of the following fields: ethnomusicology; musicology; piano pedagogy and theory. Master of Music students may specialize in performance, composition, jazz or conducting.

Specializations of the music faculty include:

Composition and theory: Aesthetics; comprehensive musicianship; contemporary music; relationships among the arts.

Conducting: Literature and score analysis, hand techniques, rehearsal techniques, general preparation and performance in both the choral and instrumental areas.

Ethnomusicology: African, African-American, American folk, East Asian, European, South Asian, and Southeast Asian musics. Students may elect research in other areas with approval of the faculty adviser.

Musicology: With the approval of the faculty, students may select a topic in medieval, renaissance, baroque, classical, romantic, twentieth century music, or American music.

Performance: Performance studies are offered on all instruments and voice.

Piano pedagogy: Techniques in training the piano teacher for the child, adolescent and adult.

The 78,000 square-foot music building, completed 1970, includes a 200-seat recital hall, rehearsal rooms for instrumental and choral organizations, an electronic music studio, three class-piano rooms, a listening library with a collection of over 13,000 titles available for faculty/student study, 71 individual practice rooms, and approximately 160 pianos and 800 other musical instruments. The University library contains an extensive collection of over 75,000 music books and scores.

The School of Music and Dance has established a 24 station student computer laboratory. This lab provides facilities for computer assisted instruction in music theory and ear training, word processing programs for essays and term papers, programs for graphics and composing music, a program for a MIDI sequencer from an electric keyboard, and programs for printing music.

The electronic music studio has been completely renovated and includes the latest electronic music equipment available.

The School of Music and Dance houses numerous ethnic instruments including Balinese and Javanese Gamelans and numerous other musical instruments of the world. The school's holdings also include an extensive collection of early Western musical instruments.

The School of Music and Dance has the following scholarship funds and endowments: Nadine Bolles Piano, Elsie Hiland Fox Memorial, M. H. Golden Memorial, Lois Greeno Memorial, Joseph E. Johnson, Kiwanis Club, Lieber-Flower, Jan Lowenbach Musicology,

Music Fund, Bessie S. Purdy Memorial, Edith Savage Memorial, SDSU Opera Theatre, Sigma Alpha Iota Alumni, SPEBQSA, Christine Springston Memorial, Paul C. Stauffer Memorial, University Band, Marvin Yerkey Memorial.

Admission to Graduate Study in Music

- (1) Students applying for admission should electronically submit the University application available at www.csumentor.edu.
- (2) The following materials should be compiled in one envelope and sent directly to:
 Music Graduate Adviser
 School of Music and Dance
 San Diego State University
 5500 Campanile Drive
 San Diego, CA 92182-7902
 - (a) Two sets of official transcripts from each university/college attended (in sealed envelopes). For foreign applications, please include official English translations of transcripts;
 - (b) General GRE results (if not already submitted electronically to the University);
 - (c) TOEFL or the CBTOEFL scores for foreign students (if not already submitted electronically to the University);
 - (d) Two letters of reference;
 - (e) A one-page statement of personal aims and goals.

DO NOT SEND A PARTIAL PACKET. NO APPLICATIONS WILL BE REVIEWED UNTIL A COMPLETE PACKET HAS BEEN RECEIVED.

- (3) Applicants must have completed a bachelor's degree with a major in music including full preparation in performance, theory music history and literature, or hold a bachelor's degree from an accredited institution and present sufficient evidence of study and experience in music to demonstrate the equivalency of a bachelor's degree with a major in music.
- (4) All domestic students must demonstrate a minimum 2.75 GPA. All foreign students must demonstrate a minimum 3.0 GPA and in cases where the primary instruction was in a language other than English, a minimum TOEFL (Test of English as a Foreign Language) score of 550. Foreign applicants taking the Computer-Based Test of English as a Foreign Language (CBTOEFL) must achieve a minimum score of 213.
- (5) After taking placement examinations in Western music history, Western music theory, and performance studies (where applicable), applicants will be admitted to the program with conditional graduate standing. Normally, one semester will be allowed to remove deficiencies indicated by these placement examinations through no-credit remedial work in the form of undergraduate courses or other project and instruction.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin, and must have removed any deficiencies assigned on the basis of the placement examinations.

Admission to Master of Arts Degree in Music

In addition to meeting the admission requirements listed above, students who seek a specialization in piano pedagogy must pass an audition. The Master of Arts degree in music is available with the following specializations: ethnomusicology, musicology, music theory, and piano pedagogy.

Specific Requirements for the Master of Arts Degree

(Major Code: 10051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a 30-unit graduate program of which at least 18 must be in 600- and 700-numbered courses and which includes the following core: Music 613, 614 or 615, 652, 653 or 654, and 690.

Plan A is required of those students electing programs in theory and musicology. Students are required to enroll in Music 799A, Thesis or Project, and to pass a final oral comprehensive examination on the thesis.

Students whose field is ethnomusicology or piano pedagogy may choose either Plan A or Plan B. Students in Plan B are required to enroll in Music 766, Graduate Lecture Recital. A final oral comprehensive examination and written document are required of all students electing Plan B.

Master of Arts candidates in ethnomusicology and musicology must have a reading ability in an approved foreign language.

In addition to the requirements stated above, students must complete requirements in the selected specialization.

Ethnomusicology

Core: Music 615, 652, 690.

Program: Music 561 (6 units), 610, 651 (6 units); 766 (Plan B) or 799A (Plan A).

Electives: Two units.

Musicology

Core: Music 615, 652, 690.

Program: Music 611; three additional units from Music 652; nine units selected from Music 554, 590, 651 (1-4 units), 654, 670; 799A.

Electives: Three units.

Music Theory

Core: Music 613, 652, 690.

Program: Six additional units selected from Music 613 and 614; nine units selected from Music 569-589 (1-4 units), 590, 592, 615, 654; 799A.

Electives: Three units.

Piano Pedagogy

Core: Music 613, 652, 690.

Program: Music 541A, 542A, 554G, 554H, 641 or 642; 651 (4 units); 766 (Plan B) or 799A (Plan A).

Electives: Two units.

Refer to Music Graduate Student Handbook for further details.

Admission to Master of Music

In addition to meeting the admission requirements listed above, students who seek a performance specialization must pass an audition. Students seeking a composition specialization must submit musical scores of their original work. Those seeking a conducting specialization must submit evidence (programs, videotape) of their conducting expertise. The Master of Music is available with the following specializations: composition, conducting, performance and jazz studies. Please consult the School of Music and Dance for further information concerning admission.

Specific Requirements for the Master of Music Degree

(Major Code: 10041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a 30-unit graduate program, of which at least 18 must be in 600- and 700-numbered courses.

In order to be advanced to candidacy, students in Vocal Performance must satisfy either a music foreign language examination or attain a satisfactory grade in an introductory college level course in French, German and Italian. A final oral comprehensive examination is required for all Master of Music candidates.

In addition to the requirements stated above, students must complete requirements in the specific program selected:

Composition

Core: Music 613, 652, 690.

Program: Music 507; three additional units from Music 613; three additional units from Music 613, 614 or 615; 651 (9 units); 767.

Electives: Two units.

Conducting

Core: Music 613, 652, 690.

Program: Music 554, 569-589 (2 units), 651 (9 units); 767.

Electives: Five units.

Jazz Studies

Core: Music 614, 653, 690.

Program: Music 651 (9 units), six units selected from Music 507, 566A-566B, 570-589 (1-3 units), 590, 767.

Electives: Three units.

Performance

Core: Music 613, 652, 690.

Program: Music 554, 569-589 (3 units), 651 (9 units), 767.

Electives: Four units.

Refer to Music Graduate Student Handbook for further details.

Courses Acceptable on Master's Degree Programs in Music (MUSIC)

UPPER DIVISION COURSES

507. Composition Laboratory (1)

Three hours of laboratory.

Prerequisites: Music 207 with a grade of C (2.0) or better and consent of instructor.

Continuation of Music 207. Maximum credit two units.

515. Professional Orientation for Music Performers (2)

One lecture and two hours of activity.

Prerequisites: Twelve units of upper division or graduate standing in B.M. or M.M. degree. Others by consent of instructor.

Conditions met in professional music world as well as opportunities available. Auditions, contracts, legal and tax responsibilities, media and press promotion, grants, professional management, apprenticeships.

541. Performance Studies Pedagogy (3)

Two lectures and three hours of laboratory.

Prerequisite: Consent of instructor.

Teaching beginning and intermediate applied music. Survey and evaluation of teaching materials. Observation of individual or group lessons.

A. Piano

C. Voice

542. Performance Studies Laboratory (2)

One lecture and three hours of laboratory.

Prerequisites: For 542A: Music 541A with a grade of C (2.0) or better. For 542C: Music 541C with a grade of C (2.0) or better.

Practical experience in the teaching of individual or group lessons.

A. Piano

C. Voice

543. Diction (1)

Principles of pronunciation and enunciation. Application to song and opera in English, Italian, German, and French.

554. Music Literature (2) I, II

Prerequisite: Music 205B with a grade of C (2.0) or better.

Study of literature in areas listed. Analysis of scores and recordings. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

A. Chamber Music Literature

B. Orchestral Literature

C. Band Literature

D. Song Literature

E. Choral Literature

G. Keyboard Literature (Seventeenth Century through Beethoven)

H. Keyboard Literature (Schubert to the Present)

561. Area Studies: Ethnomusicology (3)

Prerequisite: Music 305B with a grade of C (2.0) or better.

Music of a specific culture. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

566A-566B. Jazz Arranging and Composition (2-2)

Prerequisite: Music 305B with a grade of C (2.0) or better.

Analysis of jazz compositions and arrangements; arranging and composing for large and small jazz ensembles.

569. Advanced Collegium Musicum (1) I, II

Prerequisite: Music 369.

Preparation and performance of representative works by a specific medieval or renaissance composer on historical instruments. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

570. Advanced Chamber Music (1) I, II

Three hours.

Prerequisite: Consent of instructor.

Study and public performance of established repertory as well as new compositions. Sections for string, woodwind, brass, piano, vocal, and mixed ensemble groups of three or more players. May be repeated with new course content. See Class Schedule for specific content. Maximum credit four units.

576. Wind Symphony (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

577. Symphonic Band (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

580. Symphony Orchestra (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

584. Opera Theatre (2)

Six or more hours per week.

Prerequisite: By audition.

Interpretation and characterization of light and grand opera. Specific work in coordination of opera ensemble. Maximum credit eight units of which six units are applicable to a master's degree.

585. Concert Choir (1) I, II

Five hours.

Prerequisite: Consent of instructor.

Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

586. Chamber Singers (1) I, II

Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal technique. Maximum credit four units.

589. Jazz Ensemble (1) I, II

Three hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

590. Advanced Practicum in Music (3)

Prerequisite: Consent of instructor in area of practicum.
Students will be assigned to appropriate class sections within selected undergraduate area as instructional assistants under staff supervision.

592. Analogs in Music, Art, and Literature (3)

Prerequisite: At least one survey course in music history or appreciation, art history, or comparative literature.
Cross-influences and correspondences in the arts from the standpoints of style, texture, rhythm, and form.

596. Special Topics in Music (1-3)

A specialized study of selected topics from the several areas of music. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

610. Seminar in Ethnomusicology (3)

Prerequisite: Completion of undergraduate comprehensive musicianship core.
Ethnomusicology with emphasis on its relationship to research, field work, transportation and analysis, classification of instruments and musical styles, and cultural context.

611. Seminar in Musicology (3)

Systematic study of music based upon application of scientific investigation, philosophical speculation, modern historiography, and related academic disciplines in humanities and social sciences.

613. Seminar in Music Theory (3)

Current advanced analytic techniques in various areas of music. Maximum credit nine units applicable to a master's degree. (Formerly numbered Music 613A, 613B, 613C.)

614. Seminar in Music Theory: Conceptual Analysis of the Jazz Idiom (3)

Current advanced analytic techniques in the jazz idiom. (Formerly numbered Music 613G.)

615. Seminar in Music Theory: Ancient and Modern Notational Systems of the World (3)

Current advanced analytic techniques in ancient and modern world music through the study of diverse notational systems. (Formerly numbered Music 613H.)

641. Piano Pedagogy: The Adolescent (3)

Two lectures and three hours of laboratory.
Prerequisite: Music 542A.
Study of music through the piano for the adolescent with analysis and application of appropriate teaching procedures and learning theories. Analysis of literature with corresponding techniques, musical skills and creativity. Supervised teaching.

642. Piano Pedagogy: The Adult (3)

Two lectures and three hours of laboratory.
Prerequisites: Music 541A and 542A.
Study of music for teaching the advanced teenager, college student or adult student. Analysis of solo and ensemble literature. Problem solving and practice. Supervised fieldwork.

651. Advanced Performance Studies (1-3)

Fifteen one-half hour private lessons (1 unit); fifteen one-hour private lessons (2 units); twenty-two hours private lessons (3 units).
Prerequisite: Audition before music faculty. Music 651B for one unit includes M.F.A. in drama students.

Advanced studies in technical, stylistic, and aesthetic elements of artistic performance culminating in a graduate recital. Maximum credit nine units, four to six of which are applicable to a master of arts degree. Music 651M will include regular ensemble conducting experience.

- | | |
|--------------------------|---|
| A. Keyboard | H. Harp |
| B. Voice | I. Jazz Instrument |
| C. Woodwind | J. Medieval/Renaissance Instrument |
| D. Brass | K. Non-Western Instrument |
| E. Percussion | L. Composition |
| F. Strings | M. Conducting |
| G. Classic Guitar | |

652. Seminar in Music History (3)

Intensive study of music history. Maximum credit nine units applicable to a master's degree. (Formerly numbered Music 652A, 652B, 652C, 652D, 652E.)

653. Seminar in Music History: Jazz (3)

Intensive historical study of the jazz idiom. (Formerly numbered Music 652G.)

654. Seminar in Music History: Interrelationships in World Music History (3)

Intensive historical study of the interrelationships of world cultures. (Formerly numbered Music 652H.)

670. Seminar: Interpretation of Early Music (3)

Prerequisites: Completion of Music 652 is recommended.
Performance practice in Medieval, Renaissance and Baroque music; projects in music editing; reports; performance on historical instruments. Participation in the Collegium Musicum required.

690. Seminar in Research Procedures in Music (3)

Reference materials, bibliography, investigation of current research in music, processes of thesis topic selection and techniques of scholarly writing.

696. Special Topics in Music (1-3)

Prerequisite: Graduate standing.
Intensive study in specific areas of music. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

766. Graduate Lecture Recital (3) Cr/NC

Prerequisites: Advancement to candidacy. Consent of school director.
For students in M.A. in Music, Plan B. Lecture and recital program for at least one hour in length based upon a written document dealing with a musical problem in history, theory, pedagogy or ethnomusicology showing evidence of original research. Public presentation and an examination before a graduate committee of music faculty.

Music

767. Graduate Recital (3) Cr/NC

Prerequisites: Advancement to candidacy. Consent of school director.

Selection of literature for recital program of at least one hour in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before a graduate committee of music department faculty. Conductors must conduct a public performance.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with school director and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for a master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.

Natural Science

In the College of Sciences

OFFICE: Physics 131
TELEPHONE: (619) 594-6240

Program Coordinator: Phoebe E. Roeder, Ph.D.

Faculty

Kathleen M. Fisher, Ph.D., Professor of Biology
Fred M. Goldberg, Ph.D., Professor of Physics
Eric M. Riggs, Ph.D., Assistant Professor of Geological Sciences

General Information

The natural science program offers advanced coursework in natural science and science education. Graduate courses in natural science and science education may be used to fulfill requirements for advanced degrees in other departments with the approval of the student's graduate adviser. For information on master's and doctoral programs see Mathematics and Science Education.

UPPER DIVISION COURSE (N SCI)

596. Special Topics in Natural Science (1-4) I, II, S

Prerequisite: Minimum ten units of natural science.

Selected topics in natural science for preservice and inservice elementary and secondary teachers and candidates for the M.A. in education. May be repeated with consent of instructor. See Class

Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES (N SCI)

600. Seminar in Science Education (3)

An intensive study in advanced science education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with coordinator and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

General Information

The School of Nursing offers a two-year graduate curriculum leading to the Master of Science degree in nursing.

Graduates of the program will be prepared to function as middle or executive-level nursing administrators, school nurses, nurse midwives clinical specialists, and/or nurse practitioners. There are three concentrations: Community Health Nursing, Advanced Practice Nursing of Adults and the Elderly, and Nursing Systems Administration. Students in the Community Health Nursing Concentration may specialize in Midwifery and OB/GYN Nurse Practitioner, Family Nurse Practitioner, or School Nursing. Students in Advanced Practice Nursing of Adults and the Elderly are prepared as adult/geriatric nurse practitioners and clinical nurse specialists and may specialize in Acute Care/Critical Care. The graduate program requires a minimum of 39 units. The program is designed for either full- or part-time study. All graduates of the program are prepared for beginning roles as nurse researchers and for further educational opportunities in doctoral studies.

A multitude of research opportunities are available to students in the program. The School of Nursing has clinical contracts with all of the leading research and clinical teaching health care agencies within the county. Furthermore, all graduate faculty are doctorally prepared, and students may have the opportunity to be involved in ongoing faculty research projects.

Application for Admission

Students applying for admission to the Master of Science degree in Nursing should submit an application to the School of Nursing and to the University. Applications for the School of Nursing and University are available at www.rohan.sdsu.edu/dept/chhs/nursing/index.html and www.csumentor.edu.

Detailed instructions, including application procedures, accompany the School of Nursing application form.

Students for the Family Nurse Practitioner and the Midwife and OB/GYN Nurse Practitioner, and Advanced Practice Nursing of Adults and Elderly programs are admitted for fall semester only and applications must be received by January 15 for fall admission.

Students for all other programs are admitted in the fall and spring semesters of each year. All applicants must file an Application for Admission to the San Diego State University Office of Graduate Admissions and to the School of Nursing.

Admission to Graduate Study

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for admission to a program with classified standing:

1. Have a baccalaureate degree with a major in nursing from a program accredited by the National League for Nursing or Commission on Collegiate Nursing Education. Graduates from baccalaureate programs not having an upper division major in nursing or who have deficiencies will be considered on an individual basis and may be required to enroll in designated undergraduate courses and graduate courses beyond the minimum units necessary for advanced degrees.
2. Have a minimum cumulative grade point average of 3.0 on a 4.0 scale in undergraduate upper division courses.
3. Must have satisfactory score on GRE General Test.
4. Have a California license to practice registered nursing.
5. Have a minimum of one year full-time nursing experience in a hospital, ambulatory care facility, or public health agency. For Midwife and OB/GYN Nurse Practitioner applicants, the experience must be in labor and delivery. For the Advanced Practice Nursing of Adults and Elderly, three years of related experience is highly recommended.
6. Have satisfactorily completed Nursing 500, Advanced Health Assessment and Health Promotion, or equivalent physical assessment in undergraduate program with a grade of C or better. (N.S.A. students are exempt from this requirement). Students in the School Nursing Specialization must also have satisfactorily completed Communicative Disorders 540, Hearing Conservation and Audiometry for School Nurses.
7. Have satisfactorily completed a course in statistics. (Statistics 250 or equivalent with a grade of C or better.)

8. Submit three letters of recommendation attesting to capability to do graduate work in nursing.
9. Submit a personal statement.

Conditional Admission

Students who do not satisfy all admission requirements to the School of Nursing may, with special consideration, be admitted in a conditionally classified graduate standing. At the deadline date specified on the conditional form (at time of acceptance), the faculty of the School of Nursing shall recommend to the graduate dean that the student:

1. Be disqualified from further study in the program, or
2. Be continued in conditionally classified status, or
3. Be granted full graduate classified standing.

Special Instructions

Students enrolled in the graduate program in nursing are required to provide their own professional liability insurance (minimum \$1,000,000) and transportation to off-campus health care agencies.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must satisfactorily complete all four core courses (Nursing 602, 604, 608, and 684) with a minimum grade point average of 3.0, and no less than a B- grade in each of the four core courses, and be recommended by the graduate faculty.

Specific Requirements for the Master of Science Degree

(Major Code: 12031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, the student must complete an officially approved 39-54.06 unit course of study. The program includes:

1. Twelve units of core courses to include Nursing 602, 604, 608, and 684.
2. A minimum of 18-45.06 units of graduate courses in the area of concentration or specialization.
3. Zero to six units of electives.
4. Nursing 799A, Thesis, OR Plan B Option, Comprehensive Examination, Nursing 798.

Students in all concentrations may choose between Plan A, Thesis or Project, or Plan B, Comprehensive Examination. The choice of Plan A or Plan B should be made early in the program. Students should consult with the graduate adviser and the concentration chair for current policies. Up to 12 semester units may be accepted in transfer from an accredited School of Nursing.

Community Health Nursing Concentration

Required courses for the Master of Science degree with a concentration in community health nursing are as follows:

Core Courses

	<i>Units</i>
NURS 602	Issues, Ethics, and Politics in Health Care 3
NURS 604	Theoretical and Research Bases of Nursing 3
NURS 608	Nursing in the Health Care System 3
NURS 684	Information Systems for Nursing 3
	12

Area of Concentration Courses

	<i>Units</i>
PH 501	Epidemiology 3
NURS 630	Community Health Nursing Theory 3
NURS 631	Community Health Nursing Practicum 3
NURS 730	Advanced Community Health Nursing 3
NURS 732	Advanced Community Health Nursing Practicum 3
NURS 736	Seminar in Community Health Problems 3
	18
Electives: 6
NURS 799A	Thesis OR NURS 798 3
	Total Units 39

Specialization as a Midwife and OB/GYN Nurse Practitioner

Required courses for the collaborative San Diego State University and University of California, San Diego, School of Medicine, program of studies leading to a Master of Science degree with a specialization as an OB/GYN Nurse Practitioner/Nurse Midwife. Graduates meet all criteria for certification (licensure by examination) by the California Board of Registered Nursing (OB/GYN Nurse Practitioner, Nurse Midwife), Nurses Association of the American College of Obstetrics and Gynecology (OB/GYN Nurse Practitioner), and the American College of Nurse Midwives (CNM).

Core Courses (SDSU)

	<i>Units</i>
NURS 602	Issues, Ethics, and Politics in Health Care 3
NURS 604	Theoretical and Research Bases of Nursing 3
NURS 608	Nursing in the Health Care System 3
NURS 684	Information Systems for Nursing 3
	12

Community Health Nursing Concentration Courses (SDSU)

	<i>Units</i>
NURS 630	Community Health Nursing Theory 3
NURS 634	Physiology of Pregnancy and Fetal Development 3
NURS 730	Advanced Community Health Nursing 3
PH 651A	Legislation and Policy Affecting Women and Children's Health 3
	12

Area of Specialization Courses (UCSD)

Quarter Units

Fall Quarter

N222A	Principles of Nurse Midwifery 4
N240AC	Family Primary Care 1C 3
N241A	Collaborative Role Development 1
N404	Clinical Residency 6

Winter Quarter

N222B	Nurse Midwifery Management 4
N232	Pharmacology 3
N258C	Psychosocial and Cultural Issues in Family Health 3
N404	Clinical Residency 6

Spring Quarter

N222C	Complex Problems 4
N241B	Collaborative Role Development 1
N404	Clinical Residency 6
	Quarter units converted to semester units 27.06
NURS 799A	Thesis OR NURS 798 3

Total Semester Units 54.06

Specific prerequisites for admission into the UCSD part of the program: N237 Health Assessment, equivalency or exhibited competencies. (Note: N237 is offered in the Summer Session prior to the beginning of other courses.)

Specialization as a Family Nurse Practitioner

Required courses for the collaborative San Diego State University and University of California, San Diego, program of studies leading to a Master of Science degree with a specialization as a family nurse practitioner from San Diego State University and a Certificate as a Family Nurse Practitioner from the University of California, San Diego, School of Medicine are as follows:

Core Courses (SDSU)

	<i>Units</i>
NURS 602 Issues, Ethics, and Politics in Health Care	3
NURS 604 Theoretical and Research Bases of Nursing	3
NURS 608 Nursing in the Health Care System	3
NURS 684 Information Systems for Nursing	3
	12

Community Health Nursing Concentration Courses (SDSU)

	<i>Units</i>
NURS 610 Pathophysiology in Adults and the Elderly	3
NURS 630 Community Health Nursing Theory	3
NURS 730 Advanced Community Health Nursing	3
	9

Area of Specialization Courses (UCSD)

	<i>Quarter Units</i>
N 232 Pharmacology	3
N 240AC Family Primary Care I-Core	3
N 240AS Family Primary Care I-FNP Spec	2
N 240B Family Primary Care II	4
N 240C Family Primary Care III	4
N 241A Collaborative Role Development A	1
N 241B Collaborative Role Development B	1
N 258C Psychosocial and Cultural Issues in Family Health	3
N 404 Clinical Residency	6
N 404 Clinical Residency	6
N 404 Clinical Residency	6

Quarter units converted to semester units 26.08

NURS 799A Thesis <i>OR</i> NURS 798	3
---	---

Total Semester Units 50.08

Applicants to the Family Nurse Practitioner Specialization shall have completed Nursing 500 and 610, or equivalent course prior to beginning the UCSD specialization courses. Students accepted into the specialization have the option of taking Nursing PR 237 Health Assessment at UCSD.

Specialization in School Nursing

Students admitted to the School Nursing Specialization within the Community Health Nursing Concentration will pursue a program of studies leading to a Master of Science in Nursing degree and a School Nurse Services Credential. In addition to the Master of Science degree curriculum, to receive the School Nurse Services Credential, students must complete Nursing 500 and Communicative Disorders 540. Required courses are as follows:

Core Courses

	<i>Units</i>
NURS 602 Issues, Ethics, and Politics in Health Care	3
NURS 604 Theoretical and Research Bases of Nursing	3
NURS 608 Nursing in the Health Care System	3
NURS 684 Information Systems for Nursing	3
	12

Community Health Concentration Courses

	<i>Units</i>
NURS 630 Community Health Nursing Theory	3
NURS 631 Community Health Nursing Practicum	3
NURS 736 Seminar in Community Health Problems	3
PH 601 Epidemiology	3
	12

Area of Specialization Courses

	<i>Units</i>
NURS 670 School Nursing Management Practices	3
NURS 672 Primary Health Care of the School Aged Child	3
NURS 674 Health Education for School Nurses	3
SPED 500 Human Exceptionality	3
	12

NURS 799A Thesis <i>OR</i> NURS 798	3
---	---

Total Units 39

Advanced Practice Nursing of Adults and the Elderly Concentration

(Nurse Practitioner and Clinical Nurse Specialist Preparation)

Specialization in Acute/Critical Care Nursing

All graduates meet requirements for nurse practitioner and clinical nurse specialist certification in California and are eligible to sit for select national certification examinations.

Required courses for the Master of Science degree with a concentration in advanced practice nursing of adults and the elderly and a specialization in acute/critical care nursing are as follows:

Core Courses

	<i>Units</i>
NURS 602 Issues, Ethics, and Politics in Health Care	3
NURS 604 Theoretical and Research Bases of Nursing	3
NURS 608 Nursing in the Health Care System	3
NURS 684 Information Systems for Nursing	3
	12

Advanced Practice Nursing of Adults and the Elderly Concentration Courses

	<i>Units</i>
NURS 500 Advanced Health Assessment and Health Promotion	4
NURS 610 Pathophysiology in Adults and the Elderly	3
NURS 654 Advanced Practice Nursing: Primary Care I	3
NURS 655 Advanced Practice Nursing: Primary Care Practicum I	6
NURS 656 Advanced Practice Nursing: Primary Care II	3
NURS 657 Advanced Practice Nursing: Primary Care Practicum II	6
NURS 658 Clinical Pharmacology for Advanced Practice Nursing	2
Prescribed Electives: Three units selected with the approval of the concentration chair	3
NURS 799A Thesis <i>OR</i> NURS 798	3
	33

Area of Specialization Courses

	<i>Units</i>
NURS 751 Advanced Practice Nursing: Acute/Critical Care Theory and Technology	3
NURS 753 Advanced Practice Nursing: Acute and Critical Care Practicum	3
	6

Total Units 51

Nursing Systems Administration Concentration

Required courses for the Master of Science degree with a concentration in nursing systems administration are as follows:

Core Courses

	<i>Units</i>
NURS 602	Issues, Ethics, and Politics in Health Care 3
NURS 604	Theoretical and Research Bases of Nursing 3
NURS 608	Nursing in the Health Care System 3
NURS 684	Information Systems for Nursing 3
	12

Area of Concentration Courses

	<i>Units</i>
NURS 620	Foundations of Nursing Administration Practice 3
NURS 622	Quality Improvement and Program Evaluation in Nursing Systems Organization 3
NURS 624	Nursing Care Systems and Personnel Management 3
NURS 724	Nursing Systems Administration Practicum 3
NURS 726	Advanced Nursing Systems Administration Practicum 3
NURS 797	Research 3
PH 645	Health Economics 3
PH 742B	Financing Health Systems and Services 3
	24
Electives 3
NURS 799A	Thesis OR NURS 798 3
	42

School Nurse Services Credential

(Credential Code: 00600)

San Diego State University offers curricula leading to the School Nurse Services Credential. This authorizes the holder to serve as a school nurse. For information concerning the credential, the student is referred to the School of Nursing office, HT-58.

The School Nurse Services Credential has been approved by the Commission on Teacher Credentialing.

All applicants seeking admission to the School Nurse Services Credential program must be admitted to the University and accepted as a classified postbaccalaureate student. Satisfactory completion of the program requires an overall GPA of 3.0 with individual course grades above 2.0.

Standards for Admission

1. Baccalaureate degree in nursing or related field (including community health nursing).
2. Current California Registered Nurse License.
3. Required admission and planning interview with program adviser.
4. Have a minimum cumulative grade point average of 3.0 on a 4.0 scale in undergraduate upper division courses.
5. One year experience as a registered nurse within five years of application.
6. Undergraduate community health nursing course.

Program

The following program elements are required of all health services credential candidates: (31 units).

	<i>Units</i>
NURS 500	Advanced Health Assessment and Health Promotion 4
NURS 670	School Nursing Management Practices 3

NURS 672	Primary Health Care of the School-Aged Child 3
NURS 674	Health Education for School Nurses 3
NURS 900	Current Concepts in Community Health Nursing 3
NURS 901	Family Health Theory and Nursing Practice 3
NURS 902	Primary Health Care School-Aged Child Practicum 3
C DIS 540	Hearing Conservation and Audiometry for School Nurses 3
SPED 500	Human Exceptionality 3
Electives:	Three units to be selected with approval of adviser.

Courses Acceptable on Master's Degree Programs in Nursing (NURS)

UPPER DIVISION COURSES

500. Advanced Health Assessment and Health Promotion (4)

Three lectures and three hours of laboratory. Prerequisite: Consent of graduate or credential adviser. Physical and psychosocial assessment techniques, health promotion strategies for select populations.

596. Special Topics in Nursing (1-3)

Prerequisites: Completion of 30 upper division units in nursing or graduate status; 3.0 grade point average. Selected topics in the practice of nursing. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

602. Issues, Ethics, and Politics in Health Care (3)

Current and evolving health care issues and policies. Ethical, political, and social forces underlying delivery of health care. Focus on professional nursing.

604. Theoretical and Research Bases of Nursing (3)

Integration of theory and research in nursing. Focus on theory, development, testing, and evaluation. Research process in nursing, including design, analysis, and utilization.

608. Nursing in the Health Care System (3)

Nursing in a changing health care delivery system. Organizational, economic, political, and professional concepts relevant to design and delivery of nursing care.

610. Pathophysiology in Adults and the Elderly (3)

Prerequisite: Consent of graduate adviser. Physiologic alterations associated with acute and chronic illness in adults and the elderly as a basis for primary prevention and medical and nursing interventions.

620. Foundations of Nursing Administration Practice (3)

Analysis of communication concepts appropriate to a variety of complex nursing and health care delivery systems.

622. Quality Improvement and Program Evaluation in Nursing Systems Organizations (3)

Evaluation theories and concepts within a nursing care delivery system and health care organization. Concepts of quality management, consistent with accreditation criteria and professional standards of practice.

624. Nursing Care Systems and Personnel Management (3)

Prerequisites: Credit or concurrent registration in Nursing 604 and 608. Issues related to personnel resources, staff development, staff utilization and collective bargaining in health care agencies and nursing care systems.

630. Community Health Nursing Theory (3)

Prerequisite: Nursing 604.

Family and systems theory, group dynamics, change process, application of ethnoscience to nursing process in the community setting.

631. Community Health Nursing Practicum (3)

Nine hours per week.

Prerequisite: Concurrent registration in Nursing 630.

Experience working with individuals and families of a selected community group applying theoretical knowledge within framework of nursing process.

634. Physiology of Pregnancy and Fetal Development (3)

Prerequisites: Nursing 602 and 604.

Analysis of physiologic alterations during pregnancy and fetal development as a basis for advanced health assessment and interventions in the childbearing population.

654. Advanced Practice Nursing: Primary Care I (3)

Prerequisites: Nursing 500, 602, 610, 658, 684. Credit or concurrent registration in Nursing 604, 608. Concurrent registration in Nursing 655.

Primary care management of adults and elderly with acute and chronic health problems. Role of advanced practice nursing in health promotion and treatment of illness in primary care and specialized settings.

655. Advanced Practice Nursing: Primary Care Practicum I (6)

Eighteen hours of laboratory per week.

Prerequisite: Concurrent registration in Nursing 654.

Supervised clinical experiences providing primary care to adults and elderly in diverse clinical settings.

656. Advanced Practice Nursing: Primary Care II (3)

Prerequisites: Nursing 654 and 655. Concurrent registration in Nursing 657.

Primary care management of adults and elderly with acute and chronic health problems. Contemporary role and psychosocial issues in advanced practice nursing of adults and elderly.

657. Advanced Practice Nursing: Primary Care Practicum II (6)

Eighteen hours of laboratory per week.

Prerequisites: Nursing 654 and 655. Concurrent registration in Nursing 656.

Supervised clinical experiences providing primary care to adults and elderly in diverse clinical settings.

658. Clinical Pharmacology for Advanced Practice Nursing (2)

Prerequisite: Consent of graduate adviser.

Pharmacologic knowledge and skills needed to manage drug therapy in various clinical settings. Emphasis on factors affecting drug selection; parameters to be monitored to determine drug effectiveness; rationale for continuing, modifying or discontinuing drug therapy.

670. School Nursing Management Practices (3)

Prerequisite: Admission to master's degree program in nursing or health services credential.

Management of school health services program; designed for school nurse with emphasis on professional and organizational systems.

672. Primary Health Care of the School Aged Child (3)

Prerequisite: Nursing 500.

Primary health care of the child and adolescent with emphasis on common health problems, chronic illness, drugs, behavioral problems, and the battered child.

674. Health Education for School Nurses (3)

Prerequisite: Nursing 672.

Prepares school nurse to be an active participant in school health education with emphasis on planning and presentation of health instructional material focused on disease prevention and health promotion.

684. Information Systems for Nursing (3)

Two lectures and three hours of laboratory.

Information systems and information management in all aspects of nursing practice including client care, administration, research and education. Ethics of computer use and influence of information technology on client care. User skills.

696. Seminar in Selected Topics in Nursing (1-3)

Intensive study in specific areas of nursing. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

724. Nursing Systems Administration Practicum (3)

Nine hours of laboratory.

Prerequisites: Nursing 622 and concurrent registration in Nursing 624.

Provides observation and guided administrative experience specific to the role and function of the first level nurse manager in a selected health care system. Needs and individual objectives of the student are integrated into the experience.

726. Advanced Nursing Systems Administration Practicum (3)

Nine hours of laboratory.

Prerequisite: Nursing 724.

Provides observation and guided administrative experience specific to the role and function of the executive level manager in a selected health care system. Individual needs and objectives of the student are integrated into the experience.

730. Advanced Community Health Nursing (3)

Prerequisite: Nursing 630.

Nursing assessment and analysis of community characteristics, including social, cultural and economic factors. Design of programs which meet the needs of particular ethnic groups and health aggregates for health promotion and disease prevention.

732. Advanced Community Health Nursing Practicum (3)

Prerequisite: Concurrent registration in Nursing 730.

Leadership role and planning function of a community health nurse specialist in a selected community setting.

736. Seminar in Community Health Problems (3)

Prerequisite: Advancement to candidacy in health related disciplines

Interdisciplinary analysis of community based health practice problems.

751. Advanced Practice Nursing: Acute/Critical Care Theory and Technology (3)

Prerequisites: Nursing 656 and 657. Concurrent registration in Nursing 753.

Role of advanced practice nurse in acute/critical care settings. Problems and interventions with acutely and critically ill adults and elderly. Emphasis on research-based interventions, psychosocial responses, standards of practice, expanding technologies, and continuation of care to the home.

753. Advanced Practice Nursing: Acute and Critical Care Practicum (3)

Nine hours of laboratory.

Prerequisite: Concurrent registration in Nursing 751.

Care management activities of acute and critical care advanced practice nurse: research-based care of select adult and elderly clients and families; consultation in coordination of client care; interdisciplinary collaboration; evaluation of care based on standards of practice.

797. Research (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Independent research in a specialized subject. Maximum six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of instructor.

Independent study. Maximum credit six units applicable to a master's degree. For students using Plan B, Comprehensive Examination is limited to three units.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A, in which the student expects to use the facilities and resources of the University. Also student must be registered in the course when the completed thesis is granted final approval.

900. Current Concepts in Community Health Nursing (3)

Prerequisite: Consent of instructor.

Contemporary roles of community health nurse. Appropriate use of community resources for program development, strategies for inter-agency communication, networking, ethnic issues, family and systems theory, and major stressors affecting school community and families of the school-aged child and adolescent.

901. Family Health Theory and Nursing Practice (3)

Prerequisite: Admission to health services credential program and Nursing 900.

Nursing interventions within the school setting for complex families with school-aged children and adolescents.

902. Primary Health Care of School-Aged Child Practicum (3)

Twelve hours of practicum.

Prerequisites: Nursing 500 and 672.

Application of theory to a select population of school-aged children and adolescents. Provides direct experience in clinical nursing management of common health problems and developmental disabilities.

Nutritional Sciences

In the College of Professional Studies and Fine Arts

OFFICE: Exercise and Nutritional Sciences 351
TELEPHONE: (619) 594-5541

Preprofessional Practice Program in Dietetics (AP4) is approved by the American Dietetic Association.

Faculty

Kathryn J. LaMaster, Ph.D., Associate Professor of Exercise and Nutritional Sciences, Interim Chair of Department (Graduate Adviser)

Audrey A. Spindler, Ph.D., R.D., Professor of Exercise and Nutritional Sciences

Donna L. Beshgetoor, Ph.D., Associate Professor of Exercise and Nutritional Sciences

Mark J. Kern, Ph.D., Associate Professor of Exercise and Nutritional Sciences

Kiran B. Misra, Ph.D., Assistant Professor of Exercise and Nutritional Sciences

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships in nutritional sciences are available to a limited number of qualified students by the Department of Exercise and Nutritional Sciences. The graduate assistants primarily aid instruction of the upper division, undergraduate laboratory courses, and facilitate faculty research efforts. Application forms and additional information may be obtained from the Department of Exercise and Nutritional Sciences.

General Information

The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Science degree in nutritional sciences and a concurrent graduate program leading to a Master of Science degree in nutritional science and M.S. degree in exercise physiology.

Master of Science Degree in Nutritional Sciences

General Information

For information regarding graduate coursework and research experience leading to a Master of Science degree in nutritional sciences, contact the adviser in the Department of Exercise and Nutritional Sciences. The general program of study may include coursework in nutrition or food science. Thesis research in nutrition may be conducted using human subjects or experimental animals. Research activity of the faculty currently includes: nutritional status of children, elders, and ethnic groups; metabolic studies on cholesterol and energy balance; and factors affecting human lactation, body composition and obesity, athletic performance and fitness, composition of human milk and composition and stability of foods. Laboratories, including animal facilities and equipment, at SDSU support research conducted under the direct supervision of the nutritional

sciences graduate faculty. In addition, students may conduct research at other facilities in the community in conjunction with collaborative studies pursued by nutritional sciences faculty and researchers at other institutions in San Diego.

Graduates with the M.S. degree in nutritional sciences are employed as clinical and administrative dietitians, administrators or service providers of community nutrition programs, food service supervisors, and community college educators, as well as, in administrative, research, or quality control positions within industry and government.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the university with classified graduate standing as described in Part Two of this bulletin. In addition, students must have bachelor's degrees in foods and nutrition or related fields and satisfy the prerequisites of the courses selected. A course in computer and data processing (e.g., NUTR 207 or equivalent) taken as a part of the student's undergraduate work or demonstrated proof of competency in computers and data processing, as approved by the graduate adviser, is required as a prerequisite to taking program coursework. If students' undergraduate preparation is deemed insufficient, students will be required to complete specified courses in addition to the minimum of 30 units required for the master's degree in nutritional sciences. Students must have a grade point average of 3.0 in the last 60 semester units attempted, and a minimum score of 950 and not less than 475 on either verbal or quantitative sections of the GRE General Test.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Exercise and Nutritional Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Letter of intent: 1-2 pages describing applicant's background and research interests and goals.

Mail or deliver your complete admissions package to:

Department of Exercise and Nutritional Sciences
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7251

Students will be admitted ONLY in the Fall semester. Submit applications no later than March 1.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin, have identified a thesis or project research adviser, taken Exercise and Nutritional Sciences 601 and 602, with a grade of B or better, and have had their research proposals approved by their committees.

Specific Requirements for the Master of Science Degree

(Major Code: 13061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units including at least 21 units from courses listed as acceptable to the master's degree program in nutritional sciences. At least 18 units must be in 600- and 700-numbered courses. A final oral examination on the field of the thesis and on the implications of the thesis research for the broader field of nutritional science is also required.

Required courses include six units selected from Nutrition 606, 607, 608, 610; either Nutrition 600 or 700; and Exercise and Nutritional Sciences 601 and 602. All course selections for the graduate program must be approved by the graduate adviser.

In Plan A, all students will include Nutrition 799A, Thesis.

The dietetic internship, a post-baccalaureate certificate program, administered by SDSU's College of Extended Studies in collaboration with the Department of Exercise and Nutritional Sciences, is accredited by the American Dietetic Association (ADA) and provides the supervised practice hours required to meet the performance criteria of entry-level dietitians. Those who successfully complete this program will be eligible to sit for the ADA Registration Examination – the third and final step towards becoming a Registered Dietitian, and an active member of ADA.

Students in the dietetic internship program may concurrently pursue the M.S. degree program in Nutritional Sciences at SDSU, but they must apply separately for admission to that degree program.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Master of Science Degree in Nutritional Science and Master of Science Degree in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the concurrent program in nutritional science and exercise physiology must meet the following requirements.

1. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.
2. A bachelor's degree in foods and nutrition, exercise science, kinesiology, physical education, or related fields. Students will be required to complete or have equivalent preparation in Biology 212, 336, Chemistry 100, 130, 160, Nutrition 302, 302L, and either Nutrition 204 or 311, and Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course.
3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Exercise and Nutritional Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);

(3) Two letters of reference;

(4) Letter of intent: 1-2 pages describing applicant's background and research interests and goals.

Mail or deliver your complete admissions package to:

Department of Exercise and Nutritional Sciences
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7251

Students will be admitted ONLY in the Fall semester. Submit applications no later than March 1.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science in Nutritional Science and Master of Science in Exercise Physiology

(Major Code: 08356)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units as outlined below.

ENS 601	Experimental Methods in Exercise and Nutritional Sciences (3)
ENS 602	Research Evaluation in Exercise and Nutritional Sciences (3)
ENS 632	Physiological Chemistry of Exercise (3)
ENS 659	Exercise Cardiology and Pathology (3)
ENS 661	Seminar in Advanced Physiology of Exercise (3)
ENS 662	Advanced Exercise Physiology Laboratory (3)
ENS 666	Adult Fitness: Exercise Prescription (3)
ENS 668	Adult Fitness: Exercise Leadership and Administration (3)
ENS 796	Exercise Specialist Internship (3) Cr/NC
ENS 798	Special Study (2) Cr/NC/RP
NUTR 600	Seminar: Foods and Nutrition (3)
NUTR 607	Child Nutrition (3)
NUTR 608	Geriatric Nutrition (3)
NUTR 610	Nutrition and Energy (3)
NUTR 700	Seminar in Nutrition (3)
NUTR 798	Special Study (1) Cr/NC/RP
ENS 799A	Thesis (3) Cr/NC/RP

OR

NUTR 799A Thesis (3) Cr/NC/RP

If a student, after entering the concurrent program leading to a Master of Science degree in nutritional science and a Master of Science degree in exercise physiology returns to a single degree program, all the requirements for the single degree program must then be met. A final oral examination in the field of the thesis and its implications to the broader fields of nutritional science and exercise physiology is also required.

The department expects the student to complete the degree requirements within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Courses Acceptable on Master's Degree Programs (NUTR)

**UPPER DIVISION COURSES
Nutrition Courses**

510. Nutrition and Community Health (3) I, II

Two lectures and three hours of activity.

Prerequisites: Grade of C or better in Nutrition 302, 302L, Nutrition 207, and consent of instructor.

Nutritional problems in the community with consideration of their resolution. Field placement experience required.

596. Advanced Studies in Nutrition (1-6)

Prerequisite: Nine upper division units in nutrition.

Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

**GRADUATE COURSES
Nutrition Courses**

600. Seminar: Foods and Nutrition (3)

Prerequisites: Nutrition 301 and 302.

Introductory seminar of research and research publications in foods and nutrition.

606. Physiological Bases of Diet Therapy (3)

Prerequisite: Nutrition 406. Recommended: Chemistry 361B or 560B.

Dietary modifications, adjunct to medical treatment, used to prevent and alleviate the biochemical and physiological symptoms of disease.

607. Child Nutrition (3)

Prerequisite: Nutrition 302.

Nutrition, health, and biochemical growth in children. Conditions leading to malnutrition, prevention, and correction.

608. Geriatric Nutrition (3)

Prerequisite: Nutrition 302.

Biomedical and psychosocial aspects of aging that affect food habits, nutritional status, and nutrient needs of elders.

610. Nutrition and Energy (3)

Prerequisites: Nutrition 302 and 309.

Methods for measurement of energy intake and expenditure assessment, factors which control food intake and energy expenditure, and examination of normal and specialized needs of energy requirements.

700. Seminar in Nutrition (3)

Prerequisite: Nutrition 302.

Reading and analyses of basic and applied research in nutrition.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with the instructor and approval of graduate program adviser.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University, also student must be registered in the course when the completed thesis is granted final approval.

Exercise and Nutritional Sciences Courses (ENS)

601. Experimental Methods in Exercise and Nutritional Sciences (3)

602. Research Evaluation in Exercise and Nutritional Sciences (3)

Oceanography and Marine Studies

OFFICE: Life Sciences Annex
TELEPHONE: (619) 594-5142
WEB SITE: www.geology.sdsu.edu

Administered by the Dean of the College of Sciences

Faculty Committee for Marine Studies

Richard M. Gersberg, Ph.D., Professor of Public Health,
Interim Director of Coastal and Marine Institute
Clive E. Dorman, Ph.D., Professor of Geological Sciences
Todd W. Anderson, Ph.D., Assistant Professor of Biology

General Information

San Diego State University provides preparation for ocean-oriented careers by offering marine-related coursework, research opportunities and oceanographic experience within regular degree programs in the Departments of Biology, Chemistry, Economics, Civil and Environmental Engineering, Mechanical Engineering, Geography, Geological Sciences, and the Graduate School of Public Health. Degrees in general oceanography or marine studies are not offered by the University. However, a Master of Arts or Master of Science degree may be earned as an Interdisciplinary Studies major (see the appropriate section in this bulletin).

Specific courses in oceanography (listed below) are offered with the cooperation of faculty from the participating departments. Advanced coursework and research in geological and physical oceanography are conducted in the Geological Sciences Department. Advanced courses and research in biological oceanography, marine biology, marine botany, and marine zoology are in the Department of Biology. The major areas of research under the joint doctoral program in ecology include coastal marine ecology, estuarine ecology and aquaculture. The Graduate School of Public Health also offers a Master of Science degree with a concentration in Environmental Health Science and a concentration in Toxicology with focus on water and soil contamination and management of hazardous wastes. Marine-related coursework and research are offered in the Departments of Economics, Geography and in the College of Engineering. Students who require advising in these areas should inquire at the Coastal and Marine Institute or the appropriate department.

The Coastal and Marine Institute coordinates work in the area of marine studies and provides special supporting services to the faculty, staff, and students which includes student advising, assistance in research and publication, and a boat operations and research diving program. The Director of the Coastal and Marine Institute reports to the Dean of the College of Sciences. The University also operates the Pacific Estuarine Research Laboratory for the study of estuarine and wetland ecology. (See the General Information section of this bulletin.)

UPPER DIVISION COURSES

Oceanography Courses (OCEAN)

541. Oceanography (3)

Prerequisites: Biology 201, 202; Mathematics 121 and 122 or 150; Physics 180A or 195.

Multidisciplinary examination of physical, chemical, biological and geological aspects of marine environment and relationship of humans with the sea. Intended for science majors only.

561. Deep Sea Oceanography (3)

Prerequisites: Biology 515 and Chemistry 365.

Concepts of deep sea oceanography including abyssal biology, physics and chemistry, instruments and methods of deep sea research, biogeochemistry of oceanic ridges, and high-pressure biochemistry.

Biology Courses (BIOL)

Adviser: Anderson

- 513. Marine Microbiology (2)
- 515. Marine Invertebrate Biology (4)
- 517. Marine Ecology (4)
- 519. Aquaculture (3)
- 520. Ichthyology (4)

Economics Courses (ECON)

Adviser: Adler

- 696. Experimental Topics (3)*

Civil Engineering Courses (CIV E)

Adviser: Noorany

- 632. Computational Hydraulics and Hydrology (3)
- 641. Advanced Foundation Engineering (3)

Geography Courses (GEOG)

Adviser: Stow

- 504. Coastal and Submarine Physiography (3)
- 508. Environmental Climatology (3)
- 588. Intermediate Remote Sensing of Environment (4)
- 670. Environmental and Resource Conservation Theory (3)
- 770. Seminar in Environmental and Resource Conservation (3)

Geological Sciences Courses (GEOL)

Adviser: Dorman

- 540. Marine Geology (3)
- 545. Descriptive Physical Oceanography (3)
- 615. Geology of Clays (3)
- 625. Paleocology (3)
- 640. Geotectonics (3)
- 680. Sedimentary Geochemistry (3)

Public Health Courses (P H)

Adviser: Gersberg

- 634. Environmental Protection (3)
- 637. Biological Mechanisms of Environmental Toxicants (3)
- 639. Water Quality Investigation (3)

* Acceptable when of relevant content.

Philosophy

In the College of Arts and Letters

OFFICE: Adams Humanities 4142
TELEPHONE: (619) 594-5263

Faculty

Leon Rosenstein, Ph.D., Professor of Philosophy,
Chair of Department

J. Angelo Corlett, Ph.D., Professor of Philosophy

Andrew L. Feenberg, Ph.D., Professor of Philosophy

Stephen L. Weber, Ph.D., Professor of Philosophy,
University President

Thomas S. Weston, Ph.D., Professor of Philosophy

Steven L. Barbone, Ph.D., Associate Professor of Philosophy,
(Graduate Adviser)

Deborah G. Chaffin, Ph.D., Associate Professor of Philosophy

Robert M. Francescotti, Ph.D., Associate Professor of Philosophy

Mark R. Wheeler, Ph.D., Associate Professor of Philosophy

John A. Berteaux, Ph.D., Assistant Professor of Philosophy

General Information

The Department of Philosophy offers a program of graduate studies leading to the Master of Arts degree in philosophy. This curriculum is designed to provide advanced study in the field of philosophy as a basis for further graduate work and to meet the needs of students who plan to teach in colleges or hold other positions of leadership.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. Students may be considered for admission to the graduate program in philosophy in one of two ways.

1. Admission with classified graduate standing requires:
 - a. An undergraduate major in philosophy or a minimum of 24 units of upper division work in philosophy.
 - b. A minimum grade point average of 3.0 in upper division work in philosophy.
2. Admission with conditional classified graduate standing requires:
 - a. Twelve units of upper division work in philosophy.
 - b. A minimum grade point average of 3.0 in upper division work in philosophy.

Students admitted with a grade point average below 2.0 acquire classified graduate standing by completing sufficient units of upper division work in philosophy to yield a total, with previous work, of at least 24 such units. Units earned to complete this undergraduate requirement do not fulfill unit requirements for the master's degree. A minimum grade point average of 3.0 is required for all units attempted after admission.

Units earned to satisfy requirements for a major do not fulfill unit requirements for the master's degree. Other units *may* fulfill such requirements if earned in courses acceptable on master's degree programs in philosophy.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Philosophy:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);

Mail or deliver your complete admissions package to:

Department of Philosophy
(Attention: Steven L. Barbone)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8142

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 15091)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a program of at least 30 units of upper division and graduate courses selected with the approval of the graduate adviser.

Students must complete a minimum of 24 units from courses in philosophy listed below as acceptable on master's degree programs. The 24 units shall include (1) either 796 or 799A and (2) a minimum of 12 units in 600-numbered courses which must include Philosophy 600 and 610 or 620.

Students in the program may elect one of two plans, A or B, to complete the requirements for the degree. Plan A requires the writing of a thesis under Philosophy 799A as part of the outlined course program. If Plan B is elected, the student must pass a comprehensive examination, consisting of two written and one oral, and complete three units in Philosophy 796.

The master's examination shall be conducted by a committee of at least three members selected by the graduate adviser after consultation with the student. Each of the written parts of the examination will be based on a bibliography drawn up by the committee administering the examination after consultation with the student. The oral part of the examination will be in a specific problem area or on a major philosopher. At least three weeks prior to the end of the semester preceding the semester of the examination, the student will consult with his or her committee to determine the bibliographies for the written exams and the subject matter for the oral exam. This consultation must be completed no later than three days after the official close of the semester. A student will not be permitted to enroll in Philosophy 796 if this consultation has not been completed. The master's examination may be repeated only once.

Courses Acceptable on Master's Degree Program in Philosophy (PHIL)

UPPER DIVISION COURSES

506. Twentieth Century Continental Philosophy (3)

Prerequisite: Six upper division units in philosophy.
Major figures and movements in European philosophy from Husserl to the present.

507. Twentieth Century Anglo-American Philosophy (3)

Prerequisite: Six upper division units in philosophy.
Major movements, issues, or figures of twentieth century Anglo-American philosophy. Course may be repeated with new content. Maximum credit six units.

508. Existentialism (3)

Prerequisite: Six units in philosophy.
The philosophical aspects of existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

510. Philosophy of Law (3)

Prerequisites: Three units from Philosophy 101, 102, or 103; and three units from philosophy or political science.

Nature of law and logic of legal reasoning. Review of certain key legal concepts such as causation, responsibility, personality, and property.

512. Political Philosophy (3)

Prerequisite: Philosophy 101, 102 or 103.
Selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

521. Deductive Logic (3)

Prerequisite: Philosophy 110 or 120. Recommended: Philosophy 120.

Principles of inference for symbolic deductive systems; connectives, quantifiers, relations and sets. Interpretations of deductive systems in mathematics, science and ordinary language. Not open to students with credit in Mathematics 523.

523. Theory of Knowledge (3)

Prerequisite: Six units in philosophy.
The major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

525. Metaphysics (3)

Prerequisite: Six units in philosophy.
Prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

528. Theory of Ethics (3)

Prerequisite: Six units in philosophy.
Significant and typical value theories and systems and the concrete problems such theories seek to explain. Emphasis will be on moral values.

531. Philosophy of Language (3)

Prerequisite: Six units in philosophy.
An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy and analyticity; related epistemological and ontological problems.

532. Philosophy of History (3)

Prerequisite: Six units of philosophy.
The nature of history and historical inquiry. As metaphysics: A study of theories of historical development. As methodology: History as science, truth and fact in history, historical objectivity, the purpose of history.

536. Philosophy of Mind (3)

Prerequisite: Three upper division units in philosophy.
Analysis of the concept of mind, intention, behavior, etc. Developments generated by works of such philosophers as Wittgenstein, Wisdom, and Ryle.

537. Philosophy of Science (3)

Prerequisite: Six units in philosophy.
The basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the universe as a whole.

541. History of Aesthetics (3)

Prerequisite: Philosophy 101, 102 or 103.
Major documents in the history of aesthetics.

542. Philosophy of Art (3)

Prerequisite: Six units in philosophy.
The nature of aesthetic experience. Principal contemporary theories of art in relation to actual artistic production and to the function of art in society.

543. Philosophy and Literary Theory (3)

Prerequisites: Three upper division units in philosophy and three upper division units in literature.
Relations between philosophy and literary discourse. Strategies of interpretation offered by major contemporary thinkers.

555. Philosophy of Technology (3)

Prerequisite: Six units in philosophy.
Philosophy of technology in leading thinkers such as Marx, Heidegger and Marcuse.

575. A Major Philosopher (3)

Prerequisite: Six upper division units in philosophy.
The writings of one major philosopher. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to the major. Maximum credit six units applicable to a master's degree.

596. Selected Topics (3)

Prerequisite: Six upper division units in philosophy.
A critical analysis of a major problem or movement in philosophy. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to the major in philosophy. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

599. Special Study (1-3)

Prerequisite: Upper division or graduate standing and consent of instructor.
Directed individual study in philosophy on a theme or topic chosen in consultation with the instructor. Maximum credit six units. Maximum combined credit six units of Philosophy 599 and 798 applicable to the M.A. degree in Philosophy.

GRADUATE COURSES

600. Seminar in the History of Philosophy (3)

Prerequisite: Twelve upper division units in philosophy.
A major philosopher, school, or problem. Their historical roots and subsequent historical significance. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

610. Seminar in Philosophical Problems: Values (3)

Prerequisite: Twelve upper division units in philosophy.
Problems in such fields as ethics, politics, aesthetics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

620. Seminar in Philosophical Problems: Knowledge and Reality (3)

Prerequisite: Twelve upper division units in philosophy.

A problem or group of problems in metaphysics, epistemology and logic. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

630. Seminar in Current Philosophical Issues (3)

Prerequisite: Twelve upper division units in philosophy.

Problems in current philosophical publications. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

696. Seminar in Selected Topics (3)

Prerequisite: Twelve upper division units in philosophy.

Intensive study in specific areas of philosophy. See Class Schedule for specific content. Maximum credit three units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

796. Studies in Philosophy (1-3) Cr/NC

Prerequisites: An officially appointed examining committee and advancement to candidacy.

Preparation for the comprehensive examination for students taking the M.A. under Plan B. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisites: Twelve upper division units in philosophy and consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Patricia Patterson, Ph.D., Professor of Exercise and Nutritional Sciences
Brent S. Rushall, Ph.D., Professor of Exercise and Nutritional Sciences
Roger Simmons, Ph.D., Professor of Exercise and Nutritional Sciences
Denise A. Wiksten, Ph.D., Associate Professor of Exercise and Nutritional Sciences
David Kahan, Ph.D., Assistant Professor of Exercise and Nutritional Sciences
Susan S. Levy, Ph.D., Assistant Professor of Exercise and Nutritional Sciences
James Yaggie, Ph.D., Assistant Professor of Exercise and Nutritional Sciences

Associateships

Graduate teaching associateships in exercise and nutritional sciences are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department or the graduate adviser.

General Information

The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Arts degree in physical education.

The Master of Arts degree permits the selection, under advisement, of a program of study which may be oriented either towards a generalist approach or with a specialization in one of two areas. The generalist approach encompasses theoretical foundations provided by various relevant disciplines and their application to professional aspects of contemporary physical education. This program is appropriate for individuals who require a broad theoretical foundation that might be applied to teaching, coaching, and administration in fields that involve the acquisition of gross motor skills and the enhancement of physical fitness. The two areas of specialization offered by the department are Biomechanics and Sports Psychology. Each specialization has a strong theoretical component that provides a basis for students who anticipate employment in the academic, public, or private sectors, or who intend to pursue a doctoral degree within the area of specialization.

The faculty includes researchers who are professionally active in each of the areas of specialization. The department also has several clinical facilities that provide the opportunity for students and faculty to

work with students, patients and subjects. In addition, newly renovated facilities for biomechanics, motor control, teaching and coaching, and kinanthropometry are available for teaching and for student and faculty research. A variety of other health and education-related projects are routinely conducted in conjunction with local educational and medical institutions.

Master of Arts Degree in Physical Education

Admission to Graduate Study

Students will be admitted to the graduate program in physical education only after careful consideration of their qualifications by the physical education graduate adviser.

Students will be admitted in BOTH fall and spring semesters. Submit applications no later than March 1 for the fall and no later than October 1 for spring.

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in physical education must meet the following requirements:

1. A bachelor's degree in kinesiology. Applicants who do not have an undergraduate major in kinesiology may be admitted to conditionally classified graduate standing on the recommendation of the departmental graduate adviser. They will be required to complete the minimum requirements for an undergraduate major in physical education (i.e. up to 18 units of upper division exercise and nutritional sciences coursework) in addition to the minimum of 30 units required for the master's degree.
2. A grade point average of not less than 3.0 in the last 60 units attempted.
3. A minimum score of 475 on each of the verbal and quantitative sections of the Graduate Record Examination (General Aptitude Test).

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Exercise and Nutritional Sciences:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Letter of intent: 1-2 pages describing applicant's background and research interests and goals.

Mail or deliver your complete admissions package to:

Department of Exercise and Nutritional Sciences

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 08351)

In addition to meeting the requirements for classified graduate standing the student must satisfy the basic requirements for the master's degree, described in Part Two of this bulletin. The 30-unit program includes a minimum of 21 units in exercise and nutritional sciences selected from courses listed in this bulletin as acceptable on master's degree programs, of which at least 18 units must be in 600- and 700-numbered courses. Exercise and Nutritional Sciences 601, 602, 684, and 799 are required. A final oral examination on the field of the thesis/project and on the implications of the thesis research for the broader field of physical education is also required.

Students seeking a Master of Arts degree in Physical Education are required to develop and sign a formal plan of study which must be approved by the graduate adviser before being forwarded to the Graduate Division. The approved plan of study should be developed in consultation with a faculty member who teaches graduate coursework of interest to the student.

The generalist program allows students to combine courses that best fit their interests. The department's graduate coordinator counsels students in the general degree program before suggesting a program adviser. Students are required to take mandated core courses as well as being able to select a number of electives. The offerings in a specialization allow a student to identify certain curricula and competencies that have been achieved once the degree has been completed.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Specialization in Biomechanics

Applications of the science of mechanics to the study of the human musculoskeletal system and to a wide variety of gross motor activities relevant to exercise, medical and industrial sciences.

Required courses (12 units):

ENS 630 Advanced Biomechanics: Kinematics (3)

ENS 631 Advanced Biomechanics: Kinetics (3)

ENS 660 Advanced Kinesiology (3)

ENS 673 Advanced Principles of Motor Control (3)

Electives: Six units to be chosen in consultation with a specialization adviser.

Specialization in Sport Psychology

Students may take coursework that will develop competence as a sports psychology consultant in sport and exercise settings. Students with previous experience in coaching will find the program of particular interest.

Required courses (12 units):

ENS 671 Seminar in Advanced Sport Psychology (3)

ENS 688 Applied Psychology of Effective Coaching (3)

ENS 689 Applied Psychology for Superior Performance (3)

ENS 793 Sport Psychology and Pedagogy

Internship (1-3) Cr/NC

Electives: Six units to be chosen in consultation with a specialization adviser.

Adapted Physical Education Credential

(Credential Code: 00980)

Admission Categories

Level I: Kinesiology major with an interest in adapted physical education, completion of a minimum of 45 units with a grade point average of 2.5 or better, and official application to the coordinator of Adapted Physical Education.

Level II: Kinesiology major with a minimum of 2.75 after 90 units including the completion of Exercise and Nutritional Sciences 301, 303, 304, 348, 363, and at least one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings and official application to the coordinator of Adapted Physical Education.

Level III: Certified. Completion of all courses required for physical education major in the single subject teaching credential major, all classes for the certification including completion of the entire student teaching experience. (Preliminary credential.) The student must have a 3.0 average and no grade lower than C in all the academic classes required to be certified. A required course in which a grade lower than C is earned may be repeated only with prior approval of the coordinator.

Pre-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.

1. **Adapted Program:** Minimum 16 units.
Exercise and Nutritional Sciences 398* (1 unit), 348, 363, 667, 672, and Special Education 501.
2. **Practical Experience and Student Teaching:**
The candidate must complete one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and a full-time student teaching experience in adapted physical education.

In-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.

1. **Adapted Program:** Minimum 16 units.
Exercise and Nutritional Sciences 398* (1 unit), 348, 363, 667, 672, 684.
2. **Practical Experience and Student Teaching:**
The candidate must complete one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and a full-time student teaching experience in adapted physical education or equivalent experience.

* Approved by Coordinator, Adapted Physical Education.

Courses Acceptable on Master's Degree Programs in Physical Education (ENS)

UPPER DIVISION COURSE

Exercise and Nutritional Sciences Course

596. Selected Topics in Exercise and Nutritional Sciences (1-3) I, II

Selected topics in exercise and nutritional sciences. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

Exercise and Nutritional Sciences Courses

601. Experimental Methods in Exercise and Nutritional Sciences (3)

Prerequisite: Undergraduate statistics course.

Experimental methods in exercise and nutritional science. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

602. Research Evaluation in Exercise and Nutritional Sciences (3)

Prerequisite: Exercise and Nutritional Sciences 601.

Techniques in designing, conducting, and reporting research in exercise and nutritional science. Qualitative and quantitative paradigms examined. Ethical consideration of human research. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

630. Advanced Biomechanics: Kinematics (3)

Prerequisites: Exercise and Nutritional Sciences 306.

Kinematic analysis of human movement using videography, together with automated data reduction procedures. (Formerly numbered Physical Education 630.)

631. Advanced Biomechanics: Kinetics (3)

Prerequisite: Exercise and Nutritional Sciences 306.

Two- and three-dimensional kinetics. Theoretical and practical aspects of force measurement techniques involving mechanical properties of components of musculoskeletal system, and kinetic aspects of gross motor activities and human-machine systems.

644. Scientific Basis of Therapeutic Exercise (3)

Prerequisite: Exercise and Nutritional Sciences 463.

Mechanical and neurophysiological principles related to application of therapeutic exercise techniques. (Formerly numbered Physical Education 644.)

660. Advanced Kinesiology (3)

Prerequisites: Exercise and Nutritional Sciences 303 and 306.

Tissue structure, neuromuscular function and performance. Electromyography and movement analysis. (Formerly numbered Physical Education 660.)

664. Seminar in Anthropometry and Motor Performance (3)

Prerequisites: Exercise and Nutritional Sciences 301 and 303.

Relationships between body structure and motor performance as compared through the techniques of anthropometry, somatotyping and body composition. (Formerly numbered Physical Education 664.)

665. Advanced Sports Medicine (3)

Prerequisite: Exercise and Nutritional Sciences 365 or a physical therapy major.

Clinical sports medicine. Relationship of biomechanics, nutrition, environment and conditioning to medical problems of athletes. (Formerly numbered Physical Education 665.)

667. Seminar in Adapted Physical Education (3)

Prerequisites: Exercise and Nutritional Sciences 348 and 363.

Trends, programs and crucial problem areas in adapted physical education as they relate to the organization, planning and implementation of these programs. (Formerly numbered Physical Education 667.)

671. Seminar in Advanced Sport Psychology (3)

Prerequisite: Exercise and Nutritional Sciences 461.

Research and theory of psychological behavior in sport and physical activity. Theoretical models, research issues, and applications. (Formerly numbered Physical Education 671.)

672. Perceptual Motor Learning (3)

Prerequisite: Exercise and Nutritional Sciences 307.

Basic psychological parameters underlying perceptual motor impairment. Emphasis on utilizing these concepts to evaluate and remediate perceptual motor problems in the young child. (Formerly numbered Physical Education 672.)

673. Advanced Principles of Motor Control (3)

Prerequisite: Exercise and Nutritional Sciences 307.

Investigation of the control of human movement using electromyography, biomechanics, and neurophysiology. (Formerly numbered Physical Education 673.)

684. Behavior Change in Sport and Physical Education (3)

Prerequisite: Exercise and Nutritional Sciences 307.

Principles and applications of operant psychology to the development and maintenance of behavior in physical education and sport environments. Behavioral techniques to manage and motivate learners in diverse physical activity settings. (Formerly numbered Physical Education 684.)

685. Seminar in Evaluating Teaching and Coaching Effectiveness (3)

Prerequisites: Exercise and Nutritional Sciences 347A and 347B.

Coaching and teaching in physical activity settings. Research and systematic observation techniques for analyzing leader effectiveness. Teaching and coaching behavior. (Formerly numbered Physical Education 685.)

688. Applied Psychology of Effective Coaching (3)

Controlling physical performance in training and competitions. Psychological procedures which improve sporting performances. (Formerly numbered Physical Education 688.)

689. Applied Psychology for Superior Performance (3)

Prerequisite: Exercise and Nutritional Sciences 688.

Psychological factors for preparing superior athletes to compete, with particular emphasis on the day of competition. (Formerly numbered Physical Education 689.)

696. Advanced Topics in Exercise and Nutritional Sciences (3)

Intensive study in specific areas of exercise and nutritional sciences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. (Formerly numbered Physical Education 696.)

793. Sport Psychology and Pedagogy Internship (1-3) Cr/NC

Three hours of supervision per unit.

Prerequisites: Exercise and Nutritional Sciences 671, 684, 689, and consent of instructor.

Supervised field work involving assessment and evaluation of psychological and pedagogical variables in sport, physical education, fitness, and health settings. Maximum credit six units, three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of department chair.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Associateships

Graduate teaching associateships in physics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Physics offers graduate study leading to the Master of Arts degree in physics, the Master of Science degree in physics, and the Master of Science degree in radiological health physics.

The Master of Arts degree emphasizes broad training and intensive coursework. This is a non-thesis program designed to lead the student to a comprehensive final examination. Specific courses, in both pure and applied physics, are chosen to complement the background of the individual student and achieve the desired educational goals.

The Master of Science degree emphasizes research experience in a chosen specialty. It is designed to augment the student's undergraduate training with a core curriculum of advanced courses, then followed by a period of research and preparation of a thesis. Thesis topics are encouraged in both pure and applied areas of physics.

Modern experimental laboratories are available for student and faculty research in the areas of acoustics, modern optics, holography, optical properties of solids, laser physics, solid-state physics, nuclear magnetic resonance, electron paramagnetic resonance, atomic physics, solar energy, nuclear, medical and health physics, microprocessor instrumentation, and image processing. Theoretical programs are available in condensed matter physics, electricity and magnetism, laser physics, gravitation, relativity, and mathematical physics.

The Master of Science degree in radiological health physics is designed to train physicists in the use of radioactive materials and radiation-producing devices such as those used in hospitals and related medical facilities, colleges and universities, industry, public

health services, nuclear power installations, the military, the Department of Energy, the Environmental Protection Agency, and the Nuclear Regulatory Commission. The program emphasizes techniques of radiation dosimetry, and instrumentation in addition to the fundamental physics of radiation production and protection.

Master of Arts and Master of Science Degrees in Physics

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, the undergraduate preparation in physics must have substantially satisfied the undergraduate requirements for the bachelor's degree in physics. (Refer to the General Catalog for a description of these majors.) If the student's undergraduate preparation is deficient, he/she will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master's degree.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Physics:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification) and Physics Subject Test;
- (3) At least one (preferably two) letters of recommendation;
- (4) A personal statement of interest.

Mail or deliver your complete admissions package to:

Department of Physics
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-1233

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin, and satisfactory completion of Physics 604A, 606, 608, and 610A.

Specific Requirements for the Master of Arts Degree in Physics

(Major Code: 19021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student's graduate program must include Physics 604A, 606, 608, and 610A. Eighteen additional units of 500-, 600- or 700-numbered electives must be selected with the approval of the Physics Department graduate adviser. The Master of Arts degree in physics requires the completion of Plan B, a comprehensive written examination.

Specific Requirements for the Master of Science Degree in Physics

(Major Code: 19021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin.

The student must complete a graduate program to include Physics 604A, 606, 608, 610A, 797 (3 units) and 799A. Twelve additional units of 500-, 600-, or 700-numbered electives must be selected with the approval of the Physics Department graduate adviser. The student is required to pass a final oral examination on the thesis.

Master of Science Degree in Radiological Health Physics

Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing, as described in Part Two of this bulletin under Admission to the Graduate Division. In addition, the undergraduate preparation in biology, chemistry, mathematics, and physics must have substantially satisfied the undergraduate requirements for a baccalaureate degree in the life sciences or the physical sciences so that satisfactory progress can be made toward the master's degree. If the student's undergraduate preparation is deficient, he will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master's degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Radiological Health Physics

(Major Code: 12251)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. The student must complete a graduate program to include Physics 560, 561, 564, 660, and Biology 561. Fifteen additional units must be selected with the approval of the Physics Department graduate adviser.
2. The thesis option (Plan A) requires the approval of the graduate adviser. Students in Plan A must include Physics 797 and Physics 799A in the 30-unit program, and are required to pass a final oral examination on the thesis.

Students in Plan B (non-thesis option) are required to pass a comprehensive written examination.

Courses Acceptable on Master's Degree Programs in Physics (PHYS)

UPPER DIVISION COURSES

513. Electronic Instrumentation (3)

One lecture and six hours of laboratory.

Prerequisites: Physics 311. Recommended: Credit or concurrent registration in Physics 516.

Computer data acquisition and control, modern signal detection and enhancement techniques; transducer principles and applications; noise and the enhancement of the signal-to-noise ratio.

516. Theory of Scientific Instrumentation (3)

Prerequisites: Physics 311 and 340B.

Fourier analysis with applications to scientific instrumentation, spectroscopy, and image processing; Z transforms and digital filtering; detection systems and their optimization of the signal-to-noise ratio.

532. Condensed Matter Physics (3)

Prerequisite: Physics 410.

Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the energy band theory of solids, with applications to semiconductors and metals.

533. Experimental Techniques in Condensed Matter Physics (3)

One lecture and six hours of laboratory.

Prerequisites: Physics 357 and credit or concurrent registration in Physics 532.

Experiments in various fields of condensed matter such as x-ray diffraction, Hall effect, superconductivity, and electron paramagnetic resonance.

534. Colloquium in Condensed Matter Physics (1) Cr/NC

Prerequisite: Credit or concurrent registration in Physics 532.

Student and faculty research project presentations. Maximum credit three units.

552. Modern Optics and Lasers (3)

Prerequisites: Physics 406 with minimum grade of C; credit or concurrent registration in Physics 400B.

Electromagnetic theory, matrix methods of optics, propagation of Gaussian beams, optical resonators, interaction of radiation and atomic systems, theory of laser oscillation, nonlinear optics, specific laser systems, optical detectors, applications of lasers in physics.

553. Modern Optics Laboratory (3)

One lecture and six hours of laboratory.

Prerequisites: Physics 357 with minimum grade of C; Physics 406 with minimum grade of C; credit or concurrent registration in Physics 552.

Experiments in various fields of modern optics such as holography, physics of lasers, Fourier transform spectroscopy, Raman spectroscopy, light modulation techniques, fiber optics, spatial filtering, diffraction grating spectroscopy, radiometry, and nonlinear optics.

554. Colloquium in Optics Research (1) Cr/NC

Prerequisites: Concurrent registration in Physics 498A or 498B or 797 and consent of instructor.

Student and faculty research project presentations. Maximum credit three units.

560. Radiological Physics and Dosimetry (3)

Prerequisite: Credit or concurrent registration in Physics 354.

Ionizing radiation fields, interactions of radiation with matter, cavity theory, external radiation dosimetry.

561. Nuclear Instrumentation (3)

One lecture and six hours of laboratory.

Prerequisites: Physics 311 and 560.

Radiation detection, measurement, and spectroscopy. Ionization chambers, GM and proportional counters, scintillation and semiconductor detectors, and thermoluminescent dosimetry.

564. Nuclear Physics (3)

Prerequisites: Physics 340B and 354.

Nuclear and elementary particle phenomena including nuclear structure, decay, and radioactivity. Nuclear reactions and devices. Experimental methods and applications.

570. Relativity (3)

Prerequisites: Physics 354 and 400B.

Relative coordinates, Lorentz transformation, covariant formulation of the laws of physics, applications of special relativity, introduction to curved space time, cosmology.

580. Computational Physics (3)

Prerequisites: Physics 354; Computer Engineering 160 or Computer Science 106; and credit or concurrent registration in Physics 400A.

Computer programming for numerical solution of problems in classical mechanics, electromagnetism, optics, and quantum mechanics. Use of Fortran and C programming languages and the UNIX operating system. Incorporation of standard subroutines for linear algebra and differential equations into student written programs.

585. Computer Simulation in Physical Sciences (3)

Prerequisites: Physics 340B, 350, and 360.

Complex physical systems such as solids, liquids, and macromolecules, by means of computer simulation. Prediction of experimentally measurable physical quantities. Mathematical models. Molecular dynamics and Monte Carlo methods. Interpretation of numerical results. Statistical errors.

596. Special Topics in Physics (1-4)

Prerequisite: Consent of instructor.

Selected topics in classical and modern physics. May be repeated with the consent of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced physics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

604A-604B. Electromagnetic Theory (3-3)

Prerequisite: 604A: Physics 400B. Physics 604A is prerequisite to 604B.

604A: Electrostatics, magnetic induction, and magnetostatics, Maxwell's equations, electromagnetic waves and radiation, fields in macroscopic media, special relativity.

604B: Wave guides, optical phenomena and diffraction, multipole expansions, radiation by moving charges, plasma physics, electromagnetism and quantum mechanics.

606. Statistical Mechanics (3)

Prerequisites: Physics 360 and 410.

Fundamentals of thermodynamics, statistical ensembles, photon gas, phonon gas, theory of phase transitions, Ising model, non-equilibrium systems.

608. Classical Mechanics (3)

Prerequisites: Physics 340B and 350.

Vector and tensor methods, motion of rigid bodies, vibration, coupled circuits, Lagrange's and Hamilton's equations, principle of least action.

610A-610B. Quantum Mechanics (3-3)

Prerequisites: 610A: Physics 410. Physics 610B: Physics 610A.

Physical and mathematical basis of quantum mechanics. Wave mechanics and the Schrodinger Equation, matrices and Hilbert space, angular momentum and spin, atomic structure, bound-state perturbation theory, many particle systems, transition rates and time-dependent perturbation theory, scattering, and relativistic quantum mechanics.

632. Condensed Matter Theory (3)

Prerequisite: Physics 532.

Electron gas, energy bands, semiconductors, device physics, optical properties of solids, magnetism, superconductivity.

654. Gravitation (3)

Prerequisite: Physics 570.

Differential geometry, metric geodesics. Equivalence principle, collapsed objects, black holes, gravitational waves, evolution of the universe.

660. Radiological Health Physics (3)

Prerequisite: Physics 560.

Radiation transport and shielding. Internal radiation dosimetry. and radiological risk assessment.

670A-670B. Medical Physics (3-3)

Prerequisites: Physics 560 and 561.

Radiological physics, dosimetry, imaging, and radiation protection in medical environments including diagnostic radiology, nuclear medicine, and radiation oncology. (Formerly numbered Physics 670.)

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Research in one of the fields of physics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis in physics for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

General Information

The political science graduate program emphasizes global diversity and the interdependence between American society and politics and other nations through its curriculum in the areas of international relations, comparative politics, American politics, and political theory and methods. The department offers courses that contribute to career development in various professions including teaching, research, and consulting. Students from nations throughout the world, students in other disciplines and majors, and students from diverse social and cultural backgrounds enroll in political science graduate courses.

This graduate program provides core courses and programs of study for three distinctive groups of students: (1) Academic career students intending to enter Ph.D. programs and to pursue careers as university or college faculty or as professional researchers. (2) Community career students pursuing a master's degree to obtain or enhance current employment including teaching, work in public agencies, business, military, law enforcement, and holding elected or appointed office. (3) Self-development students, often mature adults, pursuing a master's degree because they enjoy studying political science and politics. These students contribute breadth and sophistication of understanding and a wealth of diverse experience to graduate seminars.

Because of the diversity of student interests, the department offers three specializations in the M. A. program. The general political science specialization provides the fundamental theoretical and analytical skills for students seeking to expand their knowledge of politics as well as those intending to pursue doctoral degrees in political science or placement in an academic setting. The specialization in public policy prepares students for further advanced study in that field and provides the skills necessary for placement in non-academic careers in both the public and private sectors. It covers such areas of American public policy as immigration policy, urban policy, environmental policy, civil rights, and foreign policy. The public policy internship program places students in public and private sector positions that enhance applied and theoretical knowledge. The specialization in international relations/comparative politics supplies expertise to graduate students planning to obtain a Ph.D. degree in this field or intending to seek employment with an overseas focus.

One of the strengths of the advanced degree program in political science is the depth and breadth of resources available to the students. The department actively cooperates with the interdisciplinary degree programs in Latin American Studies and Asian Studies and shares faculty and expertise with the program in International Security and Conflict Resolution (ISCOR). The Social Science Research Laboratory (SSRL) provides technical support for students wishing to pursue quantitative or survey research. The department also holds an associate membership in the Inter-University Consortium for Political and Social Research (ICPSR) that provides students with ready access to national and international databases. The faculty includes teacher/scholars who are experts in their respective fields of study and who remain professionally active in and out of the classroom. The department is committed to ensuring that financial resources are made available to graduate students in the form of scholarships, research and graduate assistantships, and graduate teaching assistantships.

Admission to Graduate Study

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in political science must attain a satisfactory score on the GRE General Test (minimum of 500 on both the verbal and quantitative portions of the test). The department also requires that applicants submit two letters of recommendation from individuals familiar with the academic work or potential of the applicant along with a statement of purpose written by the applicant. Students must have completed 30 semester units of coursework in the social sciences, including at least 12 upper division units in political science, as approved by the department. The grade point average required for admission is 3.0 for the last 60 semester units of undergraduate work, a 3.0 grade point average in upper division courses in political science, and a 3.0 grade point average for all work taken in political science. An applicant who is deficient in any of these requirements may be considered for conditional admission. The application deadline for the Fall semester is April 1 for students seeking scholarships or other financial support, and July 1 for all others. Currently, the department accepts applications for admission in the spring semester. The application deadline is December 1.

The following materials should be submitted as a complete package directly to the graduate adviser in the Department of Political Science:

- (1) Official transcripts (in sealed envelopes) from all undergraduate and graduate institutions;
- (2) GRE scores (official notification);
- (3) Two letters of reference;
- (4) Personal statement.

Mail or deliver your complete admissions package to:

Department of Political Science
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4427

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, students must complete the Empirical Theory and Methods sequence by fulfilling one of the following options:

1. Political Science 515 and 516.
2. Political Science 515. Pass an examination in statistics at the graduate level.
3. Political Science 515. Pass a course in statistics equivalent to Political Science 516.
4. Political Science 515. Pass an examination in a language other than one's native language and other than English at a level approved by the department.

Specific Requirements for the Master of Arts Degree

(Major Code: 22071)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student will complete a program of study of 30 units of upper division and graduate courses as approved by the departmental graduate adviser. The program must include a minimum of 24 units in political science selected from courses listed below as acceptable on master's degree programs. Political Science 515 and 516 and at least 21 units in 600- and 700-numbered courses, including Political Science 601, are required. Students who have previously completed Political Science 515 or 516, or the equivalent as determined by the graduate adviser, will enroll in such additional courses in political science as approved by the graduate adviser.

Students may choose either Plan A or Plan B as the culminating experience for the degree. Plan A requires the writing of a thesis and enrollment in Political Science 799A, Thesis. Plan B requires the completion of a comprehensive written and oral examination. In consultation with the graduate adviser, a student electing the Plan B option will form an examining committee consisting of a chairperson and two additional members from the political science faculty. The examination committee will prepare, administer, and grade the written examination testing the student's general knowledge in the program of study. The oral portion of the examination will follow the committee's review of the written examination.

Specific requirements for students selecting the general political science specialization are:

1. Political Science 515. Research Design and Analysis in Political Science (3)

AND

Political Science 516. Statistics for Political Scientists (3), or its equivalent.
2. Political Science 601. Seminar in the Scope and Methods of Political Science (3)
3. Five graduate seminars chosen from among the following:
Political Science 603. Seminar in Theory and Method of Public Policy Analysis (3)
Political Science 605. Seminar in Political Theory (3)
Political Science 620. Seminar in American National Government (3)
Political Science 625. Seminar in Political Behavior (3)
Political Science 630. Seminar in Politics (3)
Political Science 635. Seminar in Politics of Public Policy (3)

Political Science 655. Seminar in General Comparative Political Systems (3)

Political Science 658. Seminar in Post-Communist Political Systems (3)

Political Science 661. Seminar in the Political Systems of the Developing Nations (3)

Political Science 667. Seminar in Latin American Political Systems (3)

Political Science 675. Seminar in International Relations (3)

Political Science 676. Seminar in International Political Economy (3)

Political Science 696. Seminar in Selected Topics in Political Science (3), with permission of the graduate adviser.

4. Plan A: Political Science 799A, Thesis, and three additional units of coursework at the 500 level or above that may include transfer courses or courses outside the department, with permission of the graduate adviser.

OR

5. Plan B: Comprehensive written and oral examination. One additional seminar chosen from those listed in item 3 above and three additional units coursework at the 500-level or above that may include transfer units or courses outside of the department, with permission of the graduate adviser.

Specific requirements for students selecting the specialization in public policy are:

1. Political Science 515. Research Design and Analysis in Political Science (3)

AND

Political Science 516. Statistics for Political Scientists (3), or its equivalent.

2. Political Science 601. Seminar in the Scope and Method of Political Science (3)
3. Political Science 603. Seminar in Theory and Method of Public Policy Analysis (3)
4. Political Science 796. Internship in Public Policy (3)
5. Three graduate seminars chosen from among the following:

Political Science 620. Seminar in American National Government (3)

Political Science 625. Seminar in Political Behavior (3)

Political Science 630. Seminar in Politics (3)

Political Science 635. Seminar in Politics of Public Policy (3)

Political Science 655. Seminar in General Comparative Political Systems (3)

Political Science 676. Seminar in International Political Economy (3)

Political Science 696. Seminar in Selected Topics in Political Science (3), with permission of the graduate adviser.

6. Plan A: Political Science 799A, Thesis, and three additional units of coursework at the 500 level or above that may include transfer courses or courses outside the department, with permission of the graduate adviser.

OR

7. Plan B: Comprehensive written and oral examination. One additional seminar chosen from those listed in item 5 above and three additional units coursework at the 500-level or above that may include transfer units or courses outside of the department, with permission of the graduate adviser.

Specific requirements for students selecting the international relations/comparative politics specialization are:

1. Political Science 515. Research Design and Analysis in Political Science (3)

AND

Political Science 516. Statistics for Political Scientists (3), or its equivalent.

2. Political Science 601. Seminar in the Scope and Method of Political Science (3)
3. Political Science 655. Seminar in General Comparative Political Systems (3)
4. Political Science 675. Seminar in International Relations (3)

5. Three graduate seminars chosen from among the following:

Political Science 658. Seminar in Post-Communist Political Systems (3)

Political Science 661. Seminar in the Political Systems of the Developing Nations (3)

Political Science 667. Seminar in Latin American Political Systems (3)

Political Science 676. Seminar in International Political Economy (3)

Political Science 696. Seminar in Selected Topics in Political Science (3), with permission of the graduate adviser.

6. Plan A: Political Science 799A, Thesis, and three additional units of coursework at the 500 level or above that may include transfer courses or courses outside the department, with permission of the graduate adviser.

OR

7. Plan B: Comprehensive written and oral examination. One additional seminar chosen from those listed in item 5 above and three additional units coursework at the 500-level or above that may include transfer units or courses outside of the department, with permission of the graduate adviser.

Courses Acceptable on Master's Degree Program in Political Science (POL S)

UPPER DIVISION COURSES

515. Research Design and Analysis in Political Science (3)

Prerequisite: Political Science 201.

Conceptual analysis, measurement, and scaling. Elementary statistical analysis of behavioral data using computers and data processing using one of the major statistical packages. (Formerly numbered Political Science 515A.)

516. Statistics for Political Scientists (3)

Prerequisite: Political Science 201.

Basic concepts, theories, and methods that are utilized by political and other social scientists using statistics and microcomputers. Serves as an intermediate level introduction to statistical methods in political science. (Formerly numbered Political Science 515B.)

530. Political Parties (3)

Prerequisite: Political Science 102 or 320.

The political party as a part of the process of government; party organization and activities; nominating and campaign methods; theories and functions of the party system; party responsibility. The functioning of political parties in the American political system. May include a substantial amount of material about foreign political systems.

531. Interest Groups and Political Movements (3)

Prerequisite: Political Science 101 or 102.

Pressure group activity, lobbies, mass movements; factors which explain origins and motivations of group behavior; votes, money, information, protest as political resources; theories of pluralism, power elite and mass society; class and ethnic politics. May include a substantial amount of material about foreign political systems.

555. Comparative Political Systems (3)

Prerequisite: Political Science 103.

An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences and general patterns and universals among political systems.

560. Comparative Public Policy (3)

Prerequisite: Political Science 103 or 335.

Ways that political and social factors shape policy choices, implementation strategies, and policy outcomes in selected countries, emphasis on industrialized nations. Policy areas chosen from: education, health, nutrition, crime, transportation, housing, energy, population control, poverty, unemployment, inflation.

563. Government and Politics of Asian Countries (3)

Prerequisite: Political Science 103 or 362 or Asian Studies 107 or History 566 or 567.

Domestic politics and foreign policies of select Asian countries such as China, India, South Korea, and Taiwan; to include political institutions and change, development politics and external relations in these countries. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

566. Political Change in Latin America (3)

Prerequisite: Political Science 101 or 103.

General pattern of politics and political development in Latin America with an emphasis on those features which condition domestic and foreign policy making.

567. Political Systems of Latin America (3)

Prerequisite: Political Science 566.

Domestic and international politics of selected Latin American states.

568. Mexican Politics (3)

Prerequisite: Political Science 101 or 103.

Principal factors in Mexican governmental decision making. Ideology, political groups, tactics of leaders and governmental structure.

575. International Relations of the Pacific Rim (3)

Prerequisite: Political Science 362 or 375 or 481.

Dynamics of conflict and cooperation among nations of the Pacific Rim. Stress on political and economics factors that shape interstate relations.

577. Principles of International Law (3)

The function of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

596. Topics in Political Science (1-3)

Prerequisite: Upper division or graduate standing.

Selected topics in political science. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master's degree. Maximum credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

601. Seminar in the Scope and Methods of Political Science (3)

The discipline of political science and systematic training in its methodology. Required of all applicants for advanced degrees in political science.

603. Seminar in Theory and Method of Public Policy Analysis (3)

Prerequisites: Political Science 601 and admission to the specialization in public policy.

Theoretical approaches used to explain and evaluate public policy performance. Focus on quantitative and qualitative methods of appraising the validity of theories.

605. Seminar in Political Theory (3)

Maximum credit six units applicable to a master's degree.

620. Seminar in American National Government (3)

Maximum credit six units applicable to a master's degree.

625. Seminar in Political Behavior (3)

Prerequisite: Political Science 601.

Political science literature focusing on major areas of political behavior including study of political attitudes, voting, and political communication.

630. Seminar in Politics (3)

Prerequisite: Six upper division units in political science, three units of which must come from political science courses 320 through 335; 422 through 436; 531.

Process by which individuals and groups make demands upon political decision makers; emphasis on the styles, structures, channels and consequences of interest articulation. Maximum credit six units applicable to a master's degree.

635. Seminar in Politics of Public Policy (3)

Prerequisite: Graduate standing.

Examination of public policies, e.g., energy, environment, protection, taxation, income maintenance, population, health care, education, housing. Use of research findings to analyze policy process, to estimate probable consequences of alternative decisions, and to appraise governmental programs.

651. Seminar in Migration and Border Politics (3)

Prerequisite: Graduate standing.

Migration and border politics within a global perspective. Transformations of sovereignty, territory, identity, and rights in an era of mass migration. May focus on U.S.-Mexican border region or other migration contexts internationally. May be repeated with different content.

655. Seminar in General Comparative Political Systems (3)

Prerequisites: Political Science 555, and three additional upper division units in political science.

The field of comparative politics, including historical developments, major theoretical approaches, substantive concerns, uses and limitations of the comparative method, methodological innovations in study of foreign political systems.

658. Seminar in Post-Communist Political Systems (3)

Prerequisite: Graduate standing.

Nature of Communist political systems and processes of transition to post-communist forms of government. Possibilities for development of democratic institutions examined theoretically and empirically.

661. Seminar in the Political Systems of the Developing Nations (3)

Prerequisite: Six upper division units in political science.

Theoretical analysis of political development, modernization and industrialization in the emerging nations. Search for valid generalizations about the non-Western political process. Political trends and developments in the developing nations.

667. Seminar in Latin American Political Systems (3)

Prerequisite: Political Science 555 or 566.

Political developments in selected Latin American nations. May be repeated with new content. Maximum credit six units applicable to a master's degree.

675. Seminar in International Relations (3)

Maximum credit six units applicable to a master's degree.

676. Seminar in International Political Economy (3)

Prerequisite: Six upper division political science units in international relations.

Major theoretical approaches applied to various interstate issues of the world economy.

696. Seminar in Selected Topics in Political Science (3)

Prerequisite: Graduate standing.

Selected topics in political science. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

790. Practicum in the Teaching of Political Science (3)

Prerequisites: Political Science 601, six additional units of political science graduate seminars, and consent of instructor.

Instruction in the teaching of political science, including conduct of discussion sections, presentation of lectures, preparation of syllabi, evaluation of students' performance, and use of computers and audiovisual materials. Not applicable to the master's degree.

795. Problem Analysis (3)

Analytical treatment of selected problems in political science. Review of methods for investigation and reporting of data. Consideration of problems in preparation of project or thesis.

796. Internship in Public Policy (3)

Prerequisites: Political Science 601, 603, and eighteen units on official program for M.A. degree in political science with a specialization in public policy.

A 160-hour internship approved by instructor in public or private agency. Grade based on instructor's evaluation of supervisor's report, student consultation with instructor reviewing experience and required readings, and extensive paper relating internship experience to theories of public policy.

797. Research in Political Science (3) Cr/NC/RP

Prerequisite: Consent of the department chair.

Research in political theory, political parties, comparative government, international relations, public law or American government.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Jennifer D. Thomas, Ph.D., Assistant Professor of Psychology
Jean M. Twenge, Ph.D., Assistant Professor of Psychology
May Yeh, Ph.D., Assistant Professor of Psychology

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships in psychology are available to a limited number of qualified students. Application forms and further information may be obtained from the master's program adviser, Department of Psychology.

General Information

A Master of Science degree program in applied psychology with a focus on industrial/organizational psychology or program evaluation is offered. A Master of Arts degree program with a concentration in pre-clinical, developmental, biopsychological, social/personality or learning and cognition is available for persons who expect subsequently to pursue a Ph.D. degree. For students currently enrolled in the Ph.D. program, an M.S. in clinical psychology is offered. In addition, the Department of Psychology, jointly with the Department of Psychiatry, University of California, San Diego, School of Medicine, offers an APA-accredited program of graduate study leading to the Doctor of Philosophy degree in clinical psychology with specialization in behavioral

medicine, neuropsychology, or experimental psychopathology. A scientist-practitioner training model serves as a guide for the experiences provided for doctoral students. It is expected that graduates of this program will be prepared to serve as scientists, innovators, and leaders in the field of clinical psychology.

The doctoral program requires that students spend a minimum of five calendar years in study and research. In the first four years, doctoral students must complete their prescribed coursework satisfactorily as well as engage in research and a series of clinical practica. In the last year of the program all students must complete a 12-month APA-accredited clinical internship.

The department has a strong scientific research orientation, and emphasizes the master's degree as preparation for doctoral work. Students in all programs must take an advanced statistics/experimental design course sequence and produce an empirical research thesis.

The department awards approximately 30 master's degrees annually. A substantial proportion of the graduates who apply go on to enroll in doctoral work at well-known universities.

The clinical psychology faculty staff a Psychology Clinic for graduate clinical training and service to the metropolitan San Diego community.

Section I. Master's Degree Programs

Admission to Graduate Study

In seeking admission to the M.A. or M.S. applied program in psychology, the student should write directly to the master's program adviser, Department of Psychology, 5500 Campanile Drive, San Diego, CA 92182-4611, requesting application materials. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms.

Students will be admitted to graduate programs in psychology only in the fall semester and applications must be received by the Department of Psychology not later than February 1 for master's degree programs.

Concurrent with application to the department available at www.psychology.sdsu.edu, the student must file an application for admission to San Diego State University. Students applying for admission should electronically submit the University application available at www.csumentor.edu. NOTE: Acceptance by the University does not guarantee acceptance to the psychology program.

To be considered for admission to the graduate programs in psychology, all students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin.

The following materials should be submitted as a complete package directly to the Department of Psychology:

- (1) The completed application for admission to the Department of Psychology master's program, and the completed application for an assistantship, if this type of financial support is desired. The department application may be obtained by contacting the Department of Psychology, or at www.psychology.sdsu.edu. Include a brief statement with your reasons for pursuing graduate study (VI. Statement of Purpose).
- (2) Two sets of official transcripts (in sealed envelopes) from each issuing institution. This includes all degree transcripts and a transcript from the last institution attended. The transcripts must reflect the last 60 semester (90 quarter) units attempted. Students with international coursework must submit all official transcripts and proof of degree. If certificates and transcripts are not in English, they should be accompanied by certified English translations;
- (3) Three letters of recommendation (in sealed and signed envelopes returned to the applicant) from persons familiar with his/her academic performance.

Mail or deliver your complete admissions package to:

Department of Psychology
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4611

The completed package must be received by the Department of Psychology by February 1.

NOTE: Students must also take the GRE General Test and the GRE Subject (Advanced) Test in Psychology. Examination scores should be sent to SDSU, not to the Department of Psychology (SDSU code: 4682).

The GRE should be taken by November to meet the Department of Psychology application deadline of February 1.

If the student's postsecondary instruction is in a language other than English, he/she must take the TOEFL; these scores should be sent to the University.

Students applying to both the SDSU/UCSD Joint Doctoral Program and the SDSU Master's Program are required to file only one University application and pay only one fee, which would cover both programs.

However, separate departmental applications, one for the masters program and one for the doctoral program, must be filed if the student wishes to be considered for both programs.

To qualify for admission to the master's programs in psychology, the student must have:

1. An undergraduate major in psychology (or coursework equivalent to the SDSU bachelor's degree) consisting of at least 24 upper division units with a grade point average of at least 3.0. The major must include work in general psychology, physiological psychology, statistical methods, psychological testing, abnormal psychology, and at least one laboratory course or the equivalent in psychology. At San Diego State University these specific course requirements are met by Psychology 101, 211, 260, 270, 350, 370, and 410.
2. A grade point average of not less than 3.0 in the last 60 semester units of the undergraduate program.
3. A minimum score above the 50th percentile rank on both the verbal and quantitative sections of the GRE General Test.
4. A score above the 50th percentile rank on the GRE Subject (Advanced) Test in Psychology. The student should take this test as well as the GRE General Test in sufficient time so that the results will be available prior to the application deadline. It should be requested by the student that the score reports for these tests be forwarded directly to the SDSU Office of Graduate Admissions (SDSU code: 4682).

Meeting all of the indicated criteria does not guarantee admission to the program, since admission is also dependent on the facilities and resources available in the department.

Advancement to Candidacy

The student must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. Having obtained three grades of C or lower in graduate courses automatically precludes advancement to candidacy.

In addition, students must have an approved thesis proposal prior to advancement to candidacy.

General Requirements for all Master's Degree Programs

In addition to meeting the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units (36-38 units for the Master of Science degree). Only classified graduate students are permitted to enroll in any 600-numbered (or higher) courses in psychology. The departmental graduate adviser must approve all programs of study except the Master of Science in clinical psychology. For the Master of Science in clinical psychology, departmental approval is done by the program director of the joint doctoral program.

Psychology 670A-670B or 770A-770B are required in all master's degree programs in the Department of Psychology. In addition, for all degrees other than the Master of Science in Clinical Psychology, Psychology 600 (Research Orientation), Psychology 799A (Thesis), and an oral examination on the thesis are also required.

Specific Requirements for the Master of Arts Degree

(Major Code: 20011)

The Master of Arts degree requires the completion of a minimum of 30 units in psychology to include Psychology 501, 670A-670B or 770A-770B, two units of 600, one unit of 797, and 799A. Students must also select at least one from each of the following pairs of core courses: Psychology 551 or 745, 587 or 632, 561 or 760, as well as two electives. In special cases, and by petition to the department's

graduate committee, students may take up to six units of the required 30 units in 500-level and above courses in other departments.

All new Master of Arts degree students are required to take one unit of Psychology 600 during their first semester and another unit during their second semester.

Specific Requirements for the Master of Science Degree

(Major Code: 20011)

The Master of Science degree may be obtained with the following concentrations:

1. **The Applied Psychology program has two specializations: Program Evaluation and Industrial and Organizational Psychology.**

Specific requirements for students selecting the Program Evaluation specialization are: A minimum of 38 units, 32 of which must be completed in psychology, to include Psychology 670A-670B or 770A-770B, 600 (Research Orientation, 2 units), 621 or 622, 630, 675, 730, 791 (Internship in Applied Psychology, 6 units), 799A (Thesis). Nine units of graduate electives are required, six of which may be from other departments with prior approval of the master's program adviser.

Specific requirements for students selecting the Industrial and Organizational specialization are: A minimum of 38 units, 32 of which must be completed in psychology, to include Psychology 670A-670B or 770A-770B, 600 (Research Orientation, 2 units), 621, 622, 630, 675, 721 or 722, 792 (Internship in Industrial and Organizational Psychology, 6 units), 799A (Thesis). Six units of graduate electives may be selected from psychology or from other departments with prior approval of the master's program adviser.

2. **Clinical Psychology (included within the Ph.D. program; not available separately).**

A minimum of 36 units in psychology, including Psychology 770A-770B, 801, 820, 840, 849, 850, 855, 856, 860, 896 (Clinical Practicum, minimum 3 units), and one course to be taken at the University of California, San Diego, SOMC 202E. Completion of the second year project and approval by a committee consisting of a minimum of three faculty members representing both SDSU and UCSD. For this degree only, all approvals and advancement to candidacy will be completed by the program director of the joint doctoral program.

Section II. Doctoral Program

Admission to Doctoral Study

(Major Code: 20031)

Applicants to the joint SDSU-UCSD doctoral program should write to SDSU-UCSD Joint Doctoral Program, 6363 Alvarado Court, Suite 103, San Diego, CA 92120-4913. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms.

To be considered for admission to the joint SDSU-UCSD doctoral program in clinical psychology, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the graduate deans of the two

institutions; (b) a minimum overall grade point average of 3.0; (c) a grade point average of at least 3.25 in the last 60 semester (90 quarter) units attempted; (d) good standing at the last institution attended; and (e) a minimum score of 550 verbal and 550 quantitative on the GRE Aptitude Test and a score above the 85th percentile on the GRE Advanced Test in Psychology. However, given the large number of applicants in the field of clinical psychology, the selection process is designed to identify the best from among many highly qualified applicants. Thus no minimum set of qualifications in any way guarantees admission. Personal interviews will be conducted with the most promising applicants. Admission of any candidate who deviates from the minimum standards can only be granted with special permission of both graduate deans. No faculty member has authority to make an offer of a position in the program to any applicant, implied or otherwise, without final recommendation of the program directors and approval of the graduate deans.

Applicants must submit a copy of all transcripts of previous college work, three letters of recommendation, and score reports for the Graduate Record Examination General Test and Graduate Record Examination Advanced Test in Psychology. Although an undergraduate psychology major is not mandatory for admission, applicants should have completed a minimum of 18 semester units (27 quarter units) in psychology including courses in physiological psychology, statistical methods, psychological testing, abnormal psychology, personality, social psychology, and an experimental laboratory in psychology. Advanced courses in perception and learning are desirable as are courses in biology, mathematics, linguistics, and other related areas (e.g., medical physics, computer sciences). The joint doctoral program is a year around program.

An option for Ph.D. students in clinical psychology is to concurrently pursue the Master of Public Health (MPH) degree in the Graduate School of Public Health. Students jointly enrolled will first be accepted into the psychology program and then apply for admission into public health. For the MPH degree, students must complete all required core classes as well as requirements for a particular specialization (health promotion, epidemiology, and health services administration and/or occupational/environmental health). Subsequent to coursework, MPH candidates generally conduct a research thesis as well. (For more information, see the section of this bulletin under "Public Health.")

Students will be admitted to graduate programs in psychology only in the fall semester. All application material must be received by the doctoral program office and the SDSU Office of Graduate Admissions not later than December 15 for the Ph.D. program.

Specific Degree Requirements for the Doctor of Philosophy Degree in Clinical Psychology

The student is guided by requirements for the doctoral degree program given in Part Two of this Bulletin. The core curriculum will normally be completed during the first two years. Completion of this core insures that students have a general background in empirical psychology (e.g., physiological, social, cognitive-affective, and individual bases of behavior); knowledge of conceptualizations of personality and psychopathology; an awareness and appreciation of professional ethics and conduct; awareness and appreciation of multicultural issues in an increasingly multicultural society; knowledge of the theory and techniques of psychological assessment; knowledge of therapeutic interventions, acquisition of therapeutic skills, and a minimum of 1,000 hours of supervised clinical experience; and competence in research methods. Specific courses providing this background at SDSU include Psychology 757, 770A-770B, 801, 840, 849, 850, 855, 856, 860, 896; Clinical Psychology 295 and 202E (Psychopathology) at UCSD.

During the second year, students will select a research topic for a second year project, which is similar to a master's thesis. Students are responsible for conducting all phases of this project under the supervision of their joint guidance committee. Students may also elect to

obtain a master's degree by completing requirements for the Master of Science degree.

After completing the basic two-year core, work in subsequent years will diverge for students in each of the three specialty areas: behavioral medicine, experimental psychopathology, and neuropsychology. All students must take the one-unit seminar in neuropsychology.

Students specializing in behavioral medicine are required to take Psychology 841, Seminar in Biobehavioral Foundations in Behavioral Medicine, Psychology 842, Behavioral Medicine Seminar: Assessment, in the fall and Psychology 843, Behavioral Medicine Seminar: Intervention, in the spring of the third year. Students taking experimental psychopathology are required to take Psychology 852, Seminar in Experimental Psychopathology Research, in the fall of the third or fourth year, and Psychology 853, Advanced Seminar in Experimental Psychopathology, in the spring of the third or fourth year. Students in neuropsychology are required to take Clinical Psychology 205, Neuroanatomy and Clinical Psychology 294, Seminar in Neuropsychology, offered at UCSD.

In the fourth year, students are expected to submit and defend a dissertation proposal. Many students will also collect the data for and begin writing the dissertation during this year.

The fifth year is reserved for the completion of a doctoral dissertation and a full-time clinical internship that is identified by the student and the joint guidance committee.

Students are expected to maintain the highest standards of academic performance. Students must maintain a minimum 3.0 grade point average. According to doctoral program policy, falling below a 3.0 GPA automatically places a student on academic probation. A student may not remain on academic probation for more than one year. In addition, three grades below a B (i.e., a B- or lower or No Credit) are grounds for dismissal from the program without further qualification regardless of a student's overall GPA.

In clinical psychology, adherence to the Ethical Principles of Psychologists (APA, Amended, 1992) is mandatory. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework, research, or other academic achievement. A copy of the ethical code is distributed to students at their initial orientation.

Prior to advancement to candidacy, students will be required to sign a statement of understanding that 1) the doctoral faculty will communicate with the clinical internship agency all information relevant to the student's academic and professional qualifications for placement and continuation in the internship and 2) the student understands that the clinical internship must be satisfactorily completed before graduation.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program in clinical psychology and are available for direction of research and as members of joint doctoral committees.

San Diego State University:

Program Director: Klonoff

Program Members: Atkins-Kaplan, Calfas, Cronan, Elder, Gallo, Hornbeck, Hovell, Klonoff, Landrine, Langlais, Litrownik, Malcarne, Marshall, Martin, Matt, Mattson, Mayer, Murphy, Joseph Price, Reilly, Riley, Saccuzzo, Sallis, Schulte, Spinetta, Thomas, Wilfley, Wulfeck, Yeh

University of California, San Diego:

Program Director: Heaton

Program Members: Akshoomoff, Ancoli-Israel, Appelbaum, Atkinson, Bates, Bellugi, Birchler, Bondi, Braff, Britton, G. Brown, S.A. Brown, S.J. Brown, Caligiuri, Clementz, Courchesne, Delis, Dimsdale, Dupont, Feifel, Filoteo, Garland, Geyer, Gillin, Granholm, Grant, Groves, Haist, Jernigan, Jeste, L. Judd, P. Judd, Kaplan, Kelsoe, Kripke, Kulik, Kutas, Lang, Levine, Marcotte, Matloff, Max, McQuaid, Miller, Mills, Myers, Nichols, Ostergaard, Palinkas, Parry, Patterson,

Peavy, Penn, Perry, Rapaport, Salmon, Schreiber, Schuckit, Schuchter, Segal, Sieber, Sparta, Squire, Stahl, Stein, Stiles, Swerdlow, Tapert, Townsend, Trauner, Varni, Wall, Zhu, Zisook

Courses Acceptable on Master's and Doctoral Degree Programs in Psychology (PSY)

UPPER DIVISION COURSES

501. History of Psychology (3)

Limited to graduate students or psychology majors with senior standing.

The historical background of modern psychology.

502. Philosophical Issues in Psychology (3)

Prerequisite: Six units of psychology.

Mind-brain relationship and other topics at the interface of psychology and philosophy.

547. Applied Social Psychology (3)

Prerequisite: Psychology 340.

Problems, methods, and ethical issues related to applied social psychology. Applications to various settings to include educational system, business and industry, health settings, legal system, mass communication, and the environment.

551. Clinical Psychology: Theory and Practice (3)

Prerequisite: Psychology 350. **Proof of completion of prerequisite required:** Copy of transcript.

Clinical assessment, theory and practice of behavior change, and professional ethics.

552. Psychology of Obesity and Weight Management (3)

Prerequisite: Senior or graduate standing in psychology or related fields.

Theory and current research issues on psychology of obesity, weight control, and eating disorders. Social, personality, cognitive, and physiological influences. Use of cognitive behavior modification for weight control.

561. Advanced Neuropsychology (3)

Prerequisite: Psychology 360 or 361 or grade of B or better in Psychology 260.

Biological bases of neuropsychological function and dysfunction, relationships between brain structure and function, neuropsychological assessment tools.

564. Seminar in Psychopharmacology and Behavioral Disorders (3)

Prerequisite: Grade of B or better in Psychology 260.

Drugs as cause and cure of behavioral problems. A review of drugs commonly used to change behavior in primary schools, psychiatric centers, in-home programs and mental hospitals. (Formerly numbered Psychology 764.)

587. Advanced Principles of Learning and Cognition (3)

Prerequisites: Psychology 211, 270, and 380.

Empirical data, basic principles and theoretical positions of major theorists in learning and cognitive psychology.

596. Selected Topics in Psychology (1-3)

Prerequisites: Psychology 101 and consent of instructor.

Intensive study in specific areas of psychology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

Graduate courses in psychology are not open to postbaccalaureate unclassified students.

Priority for enrollment in graduate courses in psychology is given to psychology students who have the courses as requirements in their respective programs.

600. Research Orientation (1) Cr/NC

Prerequisite: Admission to the master's degree program.

Research in psychology. All master's degree students are required to enroll in this course. Maximum credit two units.

605. Seminar in Theoretical Psychology (3)

Prerequisite: Consent of graduate adviser.

Basic nature of theories, their relationships to data, and the characteristics of various types of constructs used in psychological theories.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

621. Seminar in Personnel Psychology (3)

Prerequisites: Psychology 320 and consent of graduate adviser.

Problems and procedures in selection, classification, and performance appraisal, focusing on testing in industry, the interview, and other selection and assessment devices. Criterion development and measurement methods.

622. Seminar in Organizational Psychology (3)

Prerequisites: Psychology 321 and consent of graduate adviser.

Applications of psychological principles and methods of investigation to problems of industrial relations and motivation of employees; factors influencing morale and employee productivity; criteria of job proficiency; psychological aspects of worker-management relationships and leadership.

630. Seminar in Program Evaluation (3)

Prerequisite: Graduate standing in psychology.

Theory and practice of program evaluation. Surveys concepts, issues, and methods relevant to evaluating programs, services, and interventions in the public and private sectors.

632. Theories and Methods in Developmental Psychology (3)

Prerequisites: Psychology 230 and 331 or 332.

Philosophical and biological origins of developmental psychology. Examination of processes that shape perception, language acquisition, socialization, and cognition. (Formerly numbered Psychology 532.)

651. Seminar in Behavior Disorders of Childhood and Adolescence (3)

Prerequisites: Psychology 350 and consent of graduate adviser.

Contemporary approaches to emotional and behavioral problems of childhood and youth. Considers developmental, cognitive and social variables as well as theory and treatment.

652. Seminar in Behavior Disorders of Adults (3)

Prerequisites: Psychology 350 and consent of graduate adviser.

Contemporary approaches to emotional and behavioral problems of adulthood. Considers developmental, cognitive and social variables as well as theory and treatment.

670A-670B. Advanced Statistics in Psychology (3-3)

Two lectures and two hours of activity.

Prerequisites: Psychology 370, 410, a passing score on the departmental statistics placement test, and consent of graduate adviser.

Fundamentals of multiple regression and correlation. Principles of experimental design. Analysis of variance including factorial and repeated-measures designs and a priori and post hoc comparisons including trend analysis. Computer-based statistical packages in the analysis of data from psychological research.

675. Seminar in Psychological Measurement (3)

Prerequisites: Psychology 370 and consent of graduate adviser.

General principles, theory and methods underlying measurement in studies of group and individual differences in controlled experiments.

700. Seminar (3)

Prerequisite: Consent of graduate adviser.

An intensive study in advanced psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

721. Advanced Seminar in Personnel Psychology (3)

Prerequisites: Psychology 621 and consent of master's programs adviser.

Selected areas within personnel psychology including selection, classification, performance appraisal, test development, criterion development, measurement and scaling techniques. Course may be repeated with new content with permission of instructor and master's programs adviser. Maximum credit six units applicable to a master's degree.

722. Advanced Seminar in Organizational Psychology (3)

Prerequisites: Psychology 622 and consent of master's programs adviser.

Selected areas within organizational psychology including leadership, motivation, organizational development, and organizational effectiveness. Course may be repeated with new content with permission of instructor and master's program adviser. Maximum credit six units applicable to a master's degree.

730. Advanced Seminar in Program Evaluation (3)

Prerequisite: Psychology 630.

Examines intellectual foundations, current debates, and innovative methods in program evaluation and their impact on planning, conducting, and using evaluations.

732. Seminar in Developmental Psychology (3)

Prerequisite: Psychology 632.

In-depth examination of a selected aspect of development, such as cognition, social, perceptual or language development or the neural substrates of development.

745. Seminar in Social Psychology (3)

Prerequisite: Consent of graduate adviser. Recommended: Psychology 340 or 412.

Issues of contemporary importance in the field. See Class Schedule for specific content.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

746. Seminar in Attitudes and Persuasion (3)

Prerequisite: Undergraduate social psychology.

Formation and organization of attitudes. Social influence processes through which attitudes are changed. Relationship between attitudes and overt actions in various behavioral domains.

757. Seminar in Selected Topics in Clinical Psychology (1-3)

Prerequisite: Consent of graduate adviser.

Advanced study of such clinical topics as cognitive behavior therapy, forensic psychology, multiculturalism, ethics, and stress. Topics will vary on a semester basis.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

760. Seminar in Physiological Correlates of Behavior (3)

Prerequisites: Psychology 260 or six units of biology; and consent of graduate adviser.

An exploration of current research and theory in physiological psychology with emphasis on behavioral correlates and psychophysiology.

Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

761. Seminar in Ethology and Comparative Psychology (3)

Prerequisites: Psychology 417 or Biology 354, or Biology 527, and consent of graduate adviser.

Current problems in ethology and comparative animal behavior. Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. Maximum credit six units applicable to a master's degree.

770A-770B. Experimental Design and Data Analysis in Behavioral Research (3-3)

Two lectures and two hours of activity.

Prerequisites: Psychology 370, 410, a passing score on the departmental statistics placement test, and consent of graduate adviser.

Principles and methods of behavioral research stressing interdependence of experimental design and statistical evaluation of results. General linear model in its regression and ANOVA formulations. Advanced multiple regression and multiple correlation techniques using computer-based statistical packages.

775. Multivariate Statistics in Psychology (3)

Two lectures and two hours of activity.

Prerequisites: Psychology 670A-670B or 770A-770B and consent of instructor.

Introduction to multivariate techniques. Latent structure models with attention to relationship between latent constructs and observable data. Includes causal models, factor analysis (both exploratory and confirmatory), canonical correlation, path analysis, discriminant function analysis, and loglinear analysis.

790. Practicum in the Teaching of Psychology (1) Cr/NC

Prerequisite: Award of a graduate teaching associateship in psychology.

Supervision in the teaching of psychology, covering lecture writing, style of lecture presentation, in-class demonstration and exercise, test and syllabi construction, and grading system. Not applicable to an advanced degree.

791. Internship in Program Evaluation (1-6) Cr/NC/RP

Up to 20 hours of supervised work per week in a program approved internship setting.

Prerequisites: Psychology 630, and consent of instructor.

Supervised training in program evaluation in a program approved internship setting. Maximum credit six units.

792. Internship in Industrial and Organizational Psychology (1-6) Cr/NC/RP

Up to 20 hours of supervised work per week in a program approved internship setting.

Prerequisite: Consent of instructor. Credit or concurrent registration in Psychology 621 and 622.

Supervised training in industrial and organizational psychology in a program approved internship setting. Maximum credit six units.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Research in one of the fields of psychology. Maximum credit six units of 797 and 798 combined applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of graduate adviser.

Individual projects involving library or laboratory research in any area of psychological investigation or interest. Maximum credit of six units of 797 and 798 applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree. Credit is contingent upon acceptance of the completed thesis by the Department of Psychology.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

801. Seminar in History and Ethics in Psychology (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Historical background of modern psychology; in-depth examination of the American Psychological Association code of ethics and its application to the conduct of clinical psychologists.

820. Seminar in Cultural Psychology (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Cultural origins of human behavior; cultural limits of psychological knowledge.

833. Seminar in Developmental Psychopathology (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Research and theory in biological and social origins of psychopathology. Methods of assessing developmental change and stability, issues related to vulnerability and resiliency, developmental appropriateness of approaches to interventions, and role of culture as a developmental context.

840. Seminar in Personality and Social Psychology (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Research and theory in personality and social psychology. Theories of personality and individual differences, group processes, sex roles, social perception, and cross-cultural issues.

841. Seminar in Biobehavioral Foundations in Behavioral Medicine (3)

Prerequisite: Admission to doctoral program in clinical psychology or approval by instructor and program director.

Basic physiological and learning processes in health and disease to develop understanding related to clinical and research practice in field. Preparation for Psychology 842.

842. Behavioral Medicine Seminar: Assessment (3)

Prerequisites: Admission to the doctoral program, or approval by instructor and program director, and Psychology 841.

Assessment methods and issues in behavioral medicine. Development and implementation of assessment plans. Theoretical and practical aspects of psychological, behavioral, and physiological assessment methods for various health issues.

843. Behavioral Medicine Seminar: Intervention (3)

Prerequisites: Admission to the doctoral program and Psychology 842.

Design and implement interventions by stressing empirically supported approaches to improve health and change health behaviors. Strengths and weaknesses of clinical community interventions.

849. Seminar and Laboratory in Counseling and Psychotherapy (4)

Two lectures and six hours of laboratory.

Prerequisite: Consent of graduate adviser.

Supervised practice in application of psychotherapeutic and counseling techniques from selected cognitive, dynamic, interpersonal, and behavioral approaches. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 650.)

850. Seminar in Theory and Practice in Clinical Interventions (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Theory and application of clinical interventions, advanced study of interviewing techniques, behavioral interventions, cognitive/behavioral interventions, and family/child interventions.

852. Seminar in Experimental Psychopathology Research (4)

Prerequisites: Admission to the doctoral program in clinical psychology.

Analysis of experimental and theoretical literature as it pertains to research methodology for the study of disordered behavior.

853. Advanced Seminar in Experimental Psychopathology (4)

Prerequisite: Admission to the doctoral program in clinical psychology.

Research design paradigms and methodological considerations used in conducting research in psychologically disordered groups. Strategies in the assessment of disordered groups.

855. Seminar in Psychological Assessment I (4)

Two lectures and six hours of laboratory.

Prerequisites: Psychology 350, 370, and consent of graduate adviser.

Theory and practice in assessment of intelligence and special abilities. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 654.)

856. Seminar in Psychological Assessment II (4)

Two lectures and six hours of laboratory.

Prerequisites: Psychology 855 and consent of graduate adviser.

Theory and practice in assessment of special abilities, personality and behavior disorders. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 655.)

860. Seminar in Physiological Foundations of Behavior (3)

Prerequisite: Admission to doctoral program in clinical psychology.

Research and theory in physiological psychology. Advanced study of biological rhythms, sleep and waking, stress responses, the neurophysiology of learning and memory, and research methods in physiological psychology.

894. Clinical Internship (3-15)

Prerequisites: Completion of coursework, second year project, and advancement to candidacy.

Clinical training in an APA-approved internship setting.

895. Practicum in the Teaching of Psychology (1-6) Cr/NC

Prerequisite: Admission to doctoral program in clinical psychology.

Supervision in the teaching of psychology, covering lecture writing, style of lecture presentation, in-class demonstration and exercises, test and syllabi construction, and grading systems.

896. Clinical Practicum (1-15)

Prerequisite: Admission to the doctoral program.

Supervision of advanced intervention strategies applied to clinical populations.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Individual study in the field of specialization. Maximum credit eight units applicable to the doctoral degree.

899. Doctoral Dissertation (1-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

Public Administration and Urban Studies

In the College of Professional Studies and Fine Arts

Jeffrey S. McIlwain, Ph.D., Assistant Professor of Public Administration and Urban Studies

M. Celeste Murphy, Ph.D., Assistant Professor of Public Administration and Urban Studies

Evelyn Zellerer, Ph.D., Assistant Professor of Public Administration and Urban Studies

General Information

Public Administration and Urban Studies offers graduate study leading to the Master of Public Administration degree, and the Master of City Planning degree. Research facilities provided include the Institute of Public and Urban Affairs and the Public Administration Center.

The San Diego metropolitan community affords significant internship opportunities for the graduate student in federal, state, and local government agencies.

The Public Administration and Urban Studies' M.P.A. degree is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA) and listed on its annual roster of accredited programs found to be in conformity with standards established for professional master's degrees in public affairs and administration.

Master of Public Administration Degree

This degree permits the selection, under advisement, of a program of course and seminar work which may be oriented toward a generalist approach or with a research focus on organizational behavior and development, public policy, fiscal policy and administration, recreation administration, or urban administration. Also offered are concentrations in criminal justice administration and city planning, each consisting of 15 units within the required program for the Master of Public Administration. Since management responsibilities are shared by administrators in a number of professional areas in the public service,

the student is encouraged to supplement the study of government and administration with graduate courses in economics, sociology, psychology, business administration, and other related areas.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. The student must also satisfy the following requirements: (1) a 3.0 grade point average in the undergraduate major and a 2.75 overall average; (2) an acceptable score on the GRE General Test; and (3) satisfactory completion of Public Administration 450 or equivalent course, and at the discretion of the graduate adviser students should have suitable background in social science statistics.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the School of Public Administration and Urban Studies:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference from individuals who have known the student's academic work and/or employment performance;

Mail or deliver your complete admissions package to:

School of Public Administration and Urban Studies
(Attention: Dr. Darrell Pugh)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4505

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by the faculty. In order to be recommended for advancement, a student must have achieved a grade point average of 3.5 in Public Administration 600 and three additional courses from among Public Administration 604, 605 or 606, 630, 642, 650, 660, with no grade below B-.

Specific Requirements for the Master of Public Administration Degree

(Major Code: 21021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. Students must also complete as a part of their programs: (1) at least 27 units of 600- and 700-numbered courses including Public Administration 600, 604, 605 or 606, 630, 642, 650 and 660; (2) a minimum of nine additional units of 500 level or graduate courses in public administration or related fields selected under advisement. An internship of 12 units (one semester) beyond the 36 units of coursework is required of students who have not had equivalent experience. The internship normally will be served in a governmental agency where the intern will perform duties of an administrative nature. Placements typically will be made in the office of a city manager, a budget office, a personnel office or in the office of the head of a major operating department. Public Administration 799A, Thesis, must be included in the program unless Plan B with a comprehensive written examination in lieu of the thesis is selected by the student with the approval of a graduate adviser; and (3) Students who specialize in Public Personnel and Labor Relations must take Public Administration 530, 531, 632, 633, and 643.

Concentration in Criminal Justice Administration (Major Code: 21051)

Students must complete 15 units from the following courses as part of the M.P.A. degree:

- CJA 601 Seminar in the Administration of Criminal Justice (3)
- CJA 602 Seminar in the Criminal Justice System as a Social Institution (3)
- CJA 604 Seminar in Criminal Justice and Urban Administration (3)
- CJA 791 Seminar in Readings in Criminal Justice Administration (3)
- CJA 797 Research in Criminal Justice Administration (3) Cr/NC/RP

Concentration in City Planning (Major Code: 02061)

Students must complete the following courses as part of the M.P.A. degree:

- PA 525 The U.S. City Planning Process (3)
- CP 630 Seminar in Urban Planning Implementation (3)
- CP 640 Seminar in Urban Planning Theory (3)
- CP 670 History of Urban Planning (3)
- CP 690 Seminar in Land Use Planning Principles and Techniques (3)

Master of City Planning Degree

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. The student must possess a bachelor's or higher degree in sociology, geography, political science, economics, architecture, or landscape architecture, or any fields related to planning (students with degrees other than those listed may be allowed to enter

the program under appropriate conditions). In the event that deficiencies occur in a student's background and training, the graduate committee will examine the student's past record and recommend a program to make up the deficiencies.

Students seeking admission to the graduate program in urban planning which leads to the Master of City Planning degree should address their inquiries to the director of the program. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. As there are specific requirements for the program it is not sufficient merely to file the general university admission forms. Students are admitted to the program in the fall and spring semesters of each year.

Upon admission to the program, the student must meet with the graduate adviser to determine the number of units of internship needed to satisfy the degree requirements.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by faculty. In order to be recommended for advancement, a student must have (1) achieved a grade point average of 3.0 in 15 units of city planning courses, or (2) passed satisfactorily a written examination in areas of deficiency. The examination will be offered at the end of the spring semester for all students who have completed 12 or more units of study toward the master's degree.

Specific Requirements for the Master of City Planning Degree

(Major Code: 02061)

In addition to meeting the requirements for classified graduate standing for the purpose of pursuing the Master of City Planning degree, the student must complete an approved program of studies consisting of at least 48 units of approved 500-, 600-, and 700-numbered courses, with no more than nine units of 500-level courses, to include:

1. Public Administration 525. The U.S. City Planning Process (3)
City Planning 625. Quantitative Techniques in Urban Planning (6)
City Planning 630. Seminar in Urban Planning Implementation (3)
City Planning 640. Seminar in Urban Planning Theory (3)
City Planning 670. History of Urban Planning (3)
City Planning 690. Seminar in Land Use Planning Principles and Techniques (3)
City Planning 700. Urban Design and Land Use Planning Studio (6)
2. Nine units of 600- and 700-numbered courses in planning elective courses, readings and research.
3. City Planning 796. Internship in Urban Planning (3-6) Cr/NC
4. Public Administration 604. Methods of Analysis in Public and Urban Affairs (3)
5. Other electives to complete program selected with the approval of adviser.
6. Students in Plan B are required to pass comprehensive written examinations in general city planning and in three areas of study. Students who have approval of the graduate adviser to pursue Plan A must include on their programs City Planning 799A, Thesis.

At least 39 units must be completed in residence at San Diego State University, and at least 24 units of program courses shall be enrolled in and completed after advancement to candidacy.

Not more than a total of nine units in courses 797 and 798 will be accepted for credit toward the degree.

Courses Acceptable on Master's Degree Programs in Public Administration and Urban Studies (CJA) (C P) (P A)

**Criminal Justice Administration
UPPER DIVISION COURSES**

- 502. Juvenile Deviance and the Administration Process (3)**
Prerequisite: Criminal Justice Administration 321.
Problems of implementing and evaluating policies and programs for prevention of juvenile delinquency and treatment of juvenile offenders; an assessment of the proposed standards and goals for juvenile justice administration.
- 510. Contemporary Issues in Law Enforcement Administration (3)**
Prerequisite: Criminal Justice Administration 310.
Assessment of problems confronting administrators of law enforcement agencies and of recent efforts to enhance the capability of agencies to control criminal activity while guarding individual liberties.
- 520. Prosecutorial Function in Administration of Justice (3)**
Prerequisite: Criminal Justice Administration 301.
Analysis of prosecutor's function at local, state and federal levels and in selected foreign nations, including appraisal of proposed national standards and goals for prosecutors.
- 531. Probation and Parole (3)**
Prerequisite: Criminal Justice Administration 330.
Basic concepts, history, legislation, and practices used in work with juveniles and adults who have been placed on probation or parole; criteria of selection, methods of supervision, and elements of case reporting.
- 540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3) I, II**
Prerequisite: Criminal Justice Administration 301.
Application of planning, research and program development and evaluation principles to the field of criminal justice.
- 543. Community Resources in Criminal Justice Administration (3)**
Prerequisite: Criminal Justice Administration 301.
Exploration of present and probable roles of public and private agencies and volunteers in criminal justice administration.
- Public Administration
UPPER DIVISION COURSES**
- 510. Intergovernmental Relations in the United States (3) I**
Prerequisite: Public Administration 310 or 312 or 315.
Constitution, political and administrative characteristics of American federalism, including regionalism, interstate compacts, and grants-in-aid.
- 512. The Metropolitan Area (3)**
Prerequisite: Public Administration 310 or 312.
Problems of government and administration arising from population patterns and physical and social structures of metropolitan areas.
- 520. Decision Making in the Urban Community (3)**
Prerequisite: Public Administration 310.
Processes of decision making in the management of urban communities.
- 525. The U.S. City Planning Process (3) I**
Prerequisite: Public Administration 320 or graduate standing.
Description and critique of traditional city planning process; styles and roles of city planner; city planning values and ethics.

- 530. Negotiation and Bargaining in the Public Service (3)**
Prerequisite: Public Administration 301.
Specific issues such as strategies, the effects of threat, the physical setting, use of a third-party observer and theories of advocacy. Emphasis on analyzing simulations of the bargaining process and developing effective negotiation skills.
- 531. Governmental Employer-Employee Relations (3)**
Prerequisite: Public Administration 330.
Historical development, legal basis, and organizational implications of governmental employer-employee relations; emphasis on California local government.
- 540. Public Administrative Systems Analysis (3)**
Prerequisites: Public Administration 301 and a statistics course.
Systems and organization analysis; work standards and units; procedures analysis; administrative planning.
- 550. Budgetary and Financial Administration in the Public Sector (3) II**
Prerequisites: Public Administration 301 and 450.
Management trends in public sector financial administration; budgetary procedures and techniques; control and monitoring systems. Cash management, capital projects management, debt administration, disbursement, funds management, and auditing.
- 570. Administrative Law (3)**
Prerequisite: Public Administration 301.
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.
- 580. Comparative Public Administration (3)**
Prerequisite: Public Administration 301.
Administrative organization and process of selected foreign and American governments. Analysis of the cultural basis of administrative systems.

**Public Administration
GRADUATE COURSES**

- 600. Scope of Public Administration (3)**
The development of public administration as an academic discipline; a systematic evaluation of the rise and operations of large-scale public bureaucracies.
- 604. Methods of Analysis in Public and Urban Affairs (3)**
Prerequisite: Credit or concurrent registration in Public Administration 600.
Research design for problems and cases in public affairs; summarizing and organizing data; methods of projection; sampling theory and application; using census and other secondary data sources.
- 605. Seminar in Research Methods in Public Administration (3)**
Prerequisites: Public Administration 600 and 604.
Examination of basic research approaches, i.e., legal, historical, and small-group, etc.
- 606. Seminar in Quantitative Approaches to Public Administration (3)**
Prerequisites: Public Administration 600 and 604.
Advanced techniques for analyzing problems in public and urban affairs; emphasis on computer applications.
- 620. Seminar in Management of Urban Governments (3)**
Selected problems in the management of urban governments. Maximum credit six units applicable to a master's degree.
- 621. Seminar in the Metropolitan Area (3)**
Prerequisite: Public Administration 310, 512 or 520.
Selected problems in the government and administration of the world's major metropolitan areas.

630. Seminar in Public Personnel Administration (3)

Prerequisite: Public Administration 600.

Analysis of selected problems in personnel administration; special emphasis on organizational development and consultation skills as emerging personnel functions. Maximum credit six units applicable to a master's degree.

632. Seminar of Organization Development in the Public Sector (3)

Prerequisite: Public Administration 600.

Organization development theory and practice. Emphasis on organizational diagnosis, intervention theory, team building and process consultation skills as they apply to public sector organizations.

633. Collective Bargaining in the Public Sector (3)

Prerequisite: Public Administration 530 or 531.

Simulation of public sector collective bargaining. Students will participate in all facets of the bargaining process including data collection, proposal preparation, formal and informal negotiation, fact-finding and mediation. Videotape feedback will be used extensively.

640. Seminar in Public Administration (3)

Selected topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

642. Seminar in Administrative Theory (3)

Prerequisite: Public Administration 600.

Organization and management; the executive role, decision making; bureaucracy; authority and power; communication and control and organizational system; tactics and strategies in effective management.

643. Seminar in Administrative Behavior (3)

Prerequisite: Public Administration 340.

Intrapersonal, interpersonal and group development knowledge which enhances the administrator's effectiveness. Simulations and structured experiential designs examine behaviors encountered in public bureaucracies.

650. Seminar in Public Financial Management (3)

Prerequisite: Public Administration 450.

Economics and politics of the public sector. Theories of public expenditure analysis and revenue generation. Issues of ethics and efficiency in government financial policy.

660. Administration and Public Policy Development (3)

Prerequisite: Public Administration 600.

Social, political and administrative problems involved in governmental program development and change.

791. Readings in Public Administration (3) Cr/NC

Prerequisites: Public Administration 600 and advancement to candidacy.

Selected readings in the literature of public administration.

792. Problem Analysis (3)

Analytical treatment of selected problems in Public Administration. Review of methods for investigation and reporting of data. Consideration of problems in preparation of projects or thesis.

796. Internship in Public Administration (3-12) Cr/NC

Prerequisite: Consent of instructor.

Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Admission by consent of instructor. Maximum credit twelve units.

The 12 units of 796 will be exempt from the University's requirement that courses graded Cr/NC be limited to 30 percent of units for the master's degree.

797. Research in Public Administration (3) Cr/NC/RP

Prerequisite: Consent of director of public administration and urban studies.

Research in one of the areas of public administration. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff, to be arranged with the director and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

**City Planning
GRADUATE COURSES**

620. Seminar in Urban Planning Methodologies (3)

Procedures and analytical techniques for advanced urban planning analysis.

625. Quantitative Techniques in Urban Planning (6)

Three lectures and nine hours of laboratory.

Prerequisite: Public Administration 604.

Contemporary techniques and methodologies of planning analysis; a practicum emphasizing survey research, environmental impact techniques; case studies in demographic and economic analysis.

630. Seminar in Urban Planning Implementation (3)

Prerequisite recommended: City Planning 620.

Analysis of the content and function of zoning, subdivision regulation, codes, capital budgeting, urban renewal, model cities, and other implementation methods and programs.

635. Seminar in Housing and Housing Policy (3)

Study, definition and analysis of housing needs and problems. Public policies and programs addressed to housing issues. Alternative solutions and the role of the private and public sectors.

640. Seminar in Urban Planning Theory (3)

Prerequisite recommended: City Planning 630.

Alternative theories of planning and organization of the planning function. Emphasis on conceptual foundations, relationship to governmental structure, decision making, and ideological and ethical orientations.

650. Seminar in Urban Theory (3)

Study of the various empirically and normatively based theories of the city and urbanization process, with emphasis on communication and transaction and institutional approaches.

665. Seminar in Urban and Regional Planning Analysis (3)

Theories and techniques of urban and regional planning analysis.

670. History of Urban Planning (3)

History of urban development and of the field of urban planning.

680. Seminar in Readings in Urban Planning (3)

Selected topics in urban planning. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

690. Seminar in Land Use Planning Principles and Techniques (3)

Two lectures and three hours of laboratory.

Prerequisite: City Planning 630.

Land-use and physical planning principles and techniques at the regional, community, specific and subdivision planning levels.

700. Urban Design and Land Use Planning Studio (6)

One lecture and ten hours of laboratory.
Prerequisite: City Planning 690.
Preparation of land-use plans and planning reports at the regional, community and subdivision levels.

710. Seminar in Theories of Urban Design (3)

Perspectives and methodologies of contemporary urban design and its contribution toward improving the quality of the physical, social and economic environment.

720. Seminar in Land Use and Environmental Law (3)

Cases and studies in zoning, coastal planning, growth management and environmental assessment.

730. Seminar in Urban Transportation Planning (3)

Issues, techniques and practices in urban transportation planning with general emphasis on interrelations between transportation and land use planning.

796. Internship in Urban Planning (3-12) Cr/NC

Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit twelve units.

797. Research in Urban Planning (3) Cr/NC/RP

Prerequisite recommended: Consent of director of city planning program.

Research in one of the areas of urban planning. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite recommended: Consent of staff.

To be arranged with director of city planning and instructor. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

**Criminal Justice Administration
GRADUATE COURSES**

601. Seminar in the Administration of Criminal Justice (3)

Prerequisite: Criminal Justice Administration 301.

Administrative problems of criminal justice systems.

602. Seminar in the Criminal Justice System as a Social Institution (3)

Prerequisite: Criminal Justice Administration 301.

Examination of criminal justice system as both cause and consequence of social change; nature of institutional change with application to criminal justice system components.

604. Seminar in Criminal Justice and Urban Administration (3)

Prerequisite: Criminal Justice Administration 540.

Critical analysis of influences on crime control and the criminal justice process of actions by urban administrators, legislators and the private sector in areas such as housing, education, public health and transportation, and urban development policies.

696. Selected Topics in Criminal Justice Administration (3)

Prerequisite: Criminal Justice Administration 601 or 602.

Analysis of contemporary issues of major import to the administration of criminal justice. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

791. Seminar in Readings in Criminal Justice Administration (3)

Prerequisite: Six graduate units in criminal justice administration.

Selected readings in the literature of criminal justice administration.

796. Internship in Criminal Justice Administration (3-12) Cr/NC

Prerequisite: Consent of instructor.

Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit twelve units.

797. Research in Criminal Justice Administration (3) Cr/NC/RP

Prerequisite: Consent of coordinator of criminal justice administration.

Research in one of the areas of criminal justice administration. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with coordinator and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Public Health

In the College of Health and Human Services

Faculty

Office of the Director

Kenneth J. Bart, M.D., M.P.H., M.S.H.P.M., Professor of Public Health, Director
Albert Chang, M.D., M.P.H., Professor of Public Health
Winnie O. Willis, R.N., Sc.D., Professor of Public Health
Ofelia V. Dirige, Dr.P.H., Adjunct Professor of Public Health
Robert K. Ross, M.D., M.S., Distinguished Visiting Professor of Public Health
Philip Nader, M.D., Research Professor of Public Health
Robert Reese, M.D., Research Professor of Public Health
George Flores, M.D., M.P.H., Adjunct Professor of Public Health
Alvaro Garza, M.D., M.P.H., Adjunct Professor of Public Health

Epidemiology and Biostatistics

Stephanie K. Brodine, M.D., Professor of Public Health, Division Head
Stephen J. Bender, H.S.D., M.P.H., Professor of Public Health
Caroline A. Macera, Ph.D., Professor of Public Health
Donald J. Slymen, Ph.D., Professor of Public Health
Elena S. H. Yu, Ph.D., M.P.H., Professor of Public Health
Louise K. Hofherr, Ph.D., M.P.H., Associate Professor of Public Health
Richard A. Shaffer, Ph.D., M.P.H., Associate Professor of Public Health
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Ming Ji, Ph.D., Assistant Professor of Public Health
Jeanette J. McCarthy, Ph.D., Assistant Professor of Public Health
Louise S. Gresham, Ph.D., M.P.H., Research Associate Professor of Public Health
Laura Williams, M.D., M.P.H., Research Associate Professor of Public Health
Suzanne P. Lindsay, Ph.D., M.P.H., Research Assistant Professor of Public Health
Hoda Anton-Culver, Ph.D., Adjunct Professor of Public Health
Gail F. Cooper, Adjunct Professor of Public Health
Mary Kracun, Ph.D., Adjunct Professor of Public Health
Michael Pratt, M.D., M.P.H., Adjunct Professor of Public Health
Miguel Fraga, M.D., Adjunct Associate Professor of Public Health
Paul A. Sato, M.D., M.P.H., Adjunct Associate Professor of Public Health
Elizabeth K. Ledbetter, M.D., Adjunct Associate Professor of Public Health
Robert E. Vryheid, Ph.D., Adjunct Associate Professor of Public Health

Biostatistics and Biometry

Donald J. Slymen, Ph.D., Professor of Public Health
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Ming Ji, Ph.D., Assistant Professor of Public Health

Health Promotion

John P. Elder, Ph.D., M.P.H., Professor of Public Health, Division Head
Melbourne F. Hovell, Ph.D., M.P.H., Professor of Public Health
Joni A. Mayer, Ph.D., Professor of Public Health
Gregory A. Talavera, M.D., M.P.H., Assistant Professor of Public Health

Terry L. Conway, Ph.D., Research Professor of Public Health
Eva Teresa Lopez-Madurga, M.D., M.P.H., Research Assistant Professor of Public Health
Edward P. Riley, Ph.D., Professor of Psychology
Rafael Laniado-Laborin, M.D., M.P.H., Research Associate Professor of Public Health
Mary M. Mulvihill, Ph.D., Research Associate Professor of Public Health
Bruce Berg, Ph.D., Research Assistant Professor of Public Health
Bradley N. Collins, Ph.D., Research Assistant Professor of Public Health
Ana Martinez-Donate, Ph.D., Research Assistant Professor of Public Health
Joachim O. Reimann, Ph.D., Research Assistant Professor of Public Health
Susan I. Woodruff, Ph.D., Research Assistant Professor of Public Health
Robert Kaplan, Ph.D., Adjunct Professor of Public Health
Moshe Engelberg, Ph.D., Adjunct Associate Professor of Public Health
Mitchell Rauh, Ph.D., Adjunct Assistant Professor of Public Health

Health Services Administration

Stephen J. Williams, S.M., Sc.D., Professor of Public Health, Division Head
Alma L. Koch, Ph.D., M.P.H., Professor of Public Health
K. Michael Peddecord, Dr.P.H., Professor of Public Health
Dennis D. Pointer, Ph.D., Professor of Public Health,
The John J. Hanlon Chair in Health Services Research and Policy
William E. Sterk, Ph.D., M.B.A., Professor of Finance
Robert L. Seidman, Ph.D., Associate Professor of Public Health
Nancy Bowen, M.D., M.P.H., Adjunct Professor of Public Health
Michele M. Ginsberg, M.D., Adjunct Professor of Public Health
David V. Kraus, M.S.P.H., J.D., Adjunct Professor of Public Health
Paul S. Kurtin, M.D., Adjunct Professor of Public Health
Michael W. Murphy, B.S., Adjunct Professor of Public Health
James W. Ledwith, M.B.A., Adjunct Associate Professor of Public Health
Terry L. Schmidt, Dr.H.A., Adjunct Associate Professor of Public Health
Michael Seid, Ph.D., Adjunct Associate Professor of Public Health

Occupational and Environmental Health

Richard M. Gersberg, Ph.D., Professor of Public Health, Division Head

Environmental Health

Richard M. Gersberg, Ph.D., Professor of Public Health
P.J.E. (Jenny) Quintana, Ph.D., M.P.H., Associate Professor of Public Health
Ralph J. Delfino, M.D., Adjunct Professor of Public Health

Occupational Health

Behzad S. Samimi, M.S.P.H., Ph.D., C.I.H., Professor of Public Health
William G. Hughson, Ph.D., M.D., Adjunct Professor of Public Health
David A. Ingram, M.D., Adjunct Associate Professor of Public Health
Michelle Eisenberg, M.P.H., Adjunct Assistant Professor of Public Health

Toxicology

Ann De Peyster, Ph.D., Professor of Public Health
Stephen B. Harris, Ph.D., Research Associate Professor of Public Health
Anthony S. Manoguerra, Jr., Pharm.D., Adjunct Professor of Public Health
Gregory J. Stevens, Ph.D., Adjunct Professor of Public Health

Health Science/Community Health Education – Undergraduate Division

Karen L. Senn, Ed.D., M.P.H., Professor of Public Health, Division Head
Ana M. Navarro, Ph.D., Research Professor of Public Health
Lori J. McNicholas, M.A., Research Associate Professor of Public Health
Virginia S. Kreisworth, Ph.D., Adjunct Associate Professor of Public Health
Nick Macchione, M.P.H. Adjunct Associate Professor of Public Health
Diane Beach, M.P.H., Adjunct Assistant Professor of Public Health
Linda J. Glatte, M.D., M.P.H., Adjunct Assistant Professor of Public Health
Daniel G. Hopwood, M.P.H., Adjunct Assistant Professor of Public Health
Colmar De Von Figueroa-Moseley, Ph.D., Adjunct Assistant Professor of Public Health
Jane Young, M.P.H., Adjunct Assistant Professor of Health

Preventive Medicine Residency

Kevin M. Patrick, M.D., M.S., Adjunct Professor of Public Health, Director
Regina Fleming, M.D., M.P.H., Adjunct Associate Professor of Public Health, Associate Director
Robert Gunn, M.D., M.P.H., Adjunct Associate Professor of Public Health
Wilma Wooten, M.D., M.P.H., Adjunct Associate Professor of Public Health
Michael Wright, M.D., Adjunct Associate Professor of Public Health

Joint Doctoral Program

Stephanie K. Brodine, M.D., Director, Professor of Public Health
Deborah L. Wingard, Ph.D., Professor of Epidemiology, School of Medicine, UCSD, Research Professor of Public Health, Co-Director
Richard A. Shaffer, Ph.D., M.P.H., Associate Professor of Public Health, Coordinator
Kenneth J. Bart, M.D., Professor of Public Health
John P. Elder, Ph.D., M.P.H., Professor of Public Health
Peter R. Francis, Ph.D., Professor of Exercise and Nutritional Sciences
Paul Ganster, Ph.D., Director, Institute for Regional Studies of the Californias
Arthur Getis, Ph.D., Professor of Geography
Melbourne F. Hovell, Ph.D., M.P.H., Professor of Public Health
Alma L. Koch, Ph.D., M.P.H., Professor of Public Health
Caroline A. Macera, Ph.D., Professor of Public Health
Joni A. Mayer, Ph.D., Professor of Public Health
K. Michael Peddecord, Dr.P.H., Professor of Public Health
Dennis D. Pointer, Ph.D., Professor of Public Health
James F. Sallis, Jr., Ph.D., Professor of Psychology
Behzad S. Samimi, M.S.P.H., Ph.D., C.I.H., Professor of Public Health
Donald L. Slymen, Ph.D., Professor of Public Health
Stephen J. Williams, S.M., Sc.D., Professor of Public Health
Winnie O. Willis, R.N., Sc.D., Professor of Public Health
Elena S. H. Yu, Ph.D., M.P.H., Professor of Public Health

Louise K. Hofherr, Ph.D., M.P.H., Associate Professor of Public Health
Colleen Kelly, Ph.D., Associate Professor of Statistics
Robert L. Seidman, Ph.D., Associate Professor of Public Health
P.J.E. (Jenny) Quintana, Ph.D., M.P.H., Associate Professor of Public Health
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Ming Ji, Ph.D., Assistant Professor of Public Health
Jeanette J. McCarthy, Ph.D., Assistant Professor of Public Health
Gregory A. Talavera, M.D., M.P.H., Assistant Professor of Public Health
Suzanne P. Lindsay, Ph.D., M.P.H., Research Assistant Professor of Public Health
Kevin M. Patrick, M.D., M.S., Adjunct Professor of Public Health

Elizabeth Barrett-Connor, M.D. Professor and Chief, Division of Epidemiology, Department of Family and Preventive Medicine, School of Medicine, UCSD, Research Professor of Public Health
Michael H. Criqui, M.D., M.P.H., Professor of Epidemiology, Department of Family and Preventive Medicine, School of Medicine, UCSD
Theodore Ganiats, M.D., Professor, Department of Family and Preventive Medicine, School of Medicine, UCSD
Robert M. Kaplan, Ph.D., Professor and Chair, Department of Family and Preventive Medicine, School of Medicine, UCSD
Robert D. Langer, M.D., M.P.H., Professor in Residence, Department of Family and Preventive Medicine, School of Medicine, UCSD
J. Allen McCutchan, M.D., Professor in Residence, Department of Medicine, School of Medicine, UCSD
Philip R. Nader, M.D., Professor of Pediatrics, School of Medicine, UCSD, Research Professor of Public Health
Ronald Thomas, Ph.D., Professor and Chief, Division of Biostatistics, Department of Family and Preventive Medicine, School of Medicine, UCSD
Hillary S. Klonoff-Cohen, Ph.D., Associate Professor in Residence, Department of Family and Preventive Medicine, School of Medicine, UCSD
Charles C. Barry, Ph.D., Adjunct Professor, Biostatistics, Department of Family and Preventive Medicine, School of Medicine, UCSD
Cedric Garland, Ph.D., Adjunct Professor, Department of Family and Preventive Medicine, School of Medicine, UCSD
Frank Garland, Ph.D., Adjunct Professor, Department of Family and Preventive Medicine, School of Medicine, UCSD
Donna Kritz-Silverstein, Ph.D., Adjunct Associate Professor, Department of Family and Preventive Medicine, School of Medicine, UCSD
Deborah Goodman-Gruen, M.D., Ph.D., Adjunct Assistant Professor, Department of Family and Preventive Medicine, UCSD, Research Assistant Professor of Public Health

The John J. Hanlon Chair in Health Services Research and Policy

Alvarado Hospital Medical Center has joined with SDSU's faculty and staff to create The John J. Hanlon Chair in Health Services Research and Policy in the Graduate School of Public Health (GSPH). The chair is named in honor of the late Dr. John J. Hanlon, former assistant surgeon general for the U.S. Public Health Service. Dr. Hanlon coordinated the planning and development of SDSU's Graduate School of Public Health.

The first appointee to the Chair, Dr. Dennis Pointer, is a national authority on health care organization, governance, strategy, and management.

General Information

APPLICATION DEADLINES: Applicants for the MPH, MS, and MD/MPH programs are strongly encouraged to submit *all* application materials as early as possible, no later than May 15 for fall semester consideration, or October 15 for spring consideration (the latter is applicable *only* to those divisions or programs that accept spring applications; contact Coordinator for Admissions and Student Affairs if interested in spring semester admission). The final filing dates are July 1 for fall semester admission, or November 1 for spring semester admission. Although every effort is made to process all applications submitted by the final filing date, we may not have space to accommodate applications received or completed after May 15/October 15, regardless of applicant's qualifications. Students applying for the Ph.D. must submit all application materials (applications, transcripts, letters of recommendation, and GRE scores) by December 15, for fall admission only.

Students interested in the MSW/MPH should contact the School of Social Work. The completed application is due April 30.

The Graduate School of Public Health offers advanced study leading to the degrees of Doctor of Philosophy, Master of Public Health, Master of Science, and a program that allows students to earn the Master of Public Health and the Master of Social Work, and a Doctor of Medicine and Master of Public Health, concurrently. The Ph.D. is offered with a concentration in epidemiology with various specialization opportunities (see doctoral program); the M.P.H. with concentrations in the areas of biometry, environmental health, epidemiology, health promotion, and health services administration. The Division of Health Services Administration has two specializations. The specialization in public health management is designed for mid-career professionals and may be completed in one year. The concentrations in the M.S. degree are in the areas of environmental health science, industrial hygiene, and toxicology.

In addition to these advanced degree programs, the school offers a preventive medicine residency program that prepares qualified physicians to sit for the American Board of Preventive Medicine certification examination. Residents may receive the M.P.H. degree along with completion of this residency program. Finally, the public health faculty directs academic study leading to a Bachelor of Science degree in health science for those undergraduate students interested in community health education. For more information concerning this undergraduate program, see the General Catalog.

The Graduate School of Public Health is nationally accredited by the Council on Education for Public Health (CEPH). The graduate program in health services administration is accredited by the Accrediting Commission on Education for Health Services Administration (ACEHSA), and the preventive medicine residency program is accredited by the Accrediting Commission for Graduate Medical Education (ACGME). The graduate program in industrial hygiene is accredited by the Accreditation Board for Engineering and Technology (ABET).

The curriculum in the Graduate School of Public Health has been designed to prepare students as practitioners of public health as well as for careers in teaching and research and as leaders in both public and private sector agencies and organizations. To accomplish this mission effectively, the faculty of the Graduate School of Public Health is augmented by expert practitioners in specialized fields related to public health who contribute to both the academic and practical experiences of students pursuing public health degrees. These professionals, who hold research or adjunct professorships in the school, come from a variety of settings such as the County Health and Human Services Agency, military services, hospitals, HMOs, managed care agencies, industry, and other academic institutions.

The Graduate School of Public Health has established close cooperation between the GSPH at San Diego State University and the Department of Family and Preventive Medicine in the School of Medicine at the University of California, San Diego. The UCSD medical school faculty has joined the public health faculty at SDSU in offering the Ph.D. in public health as well as the preventive medicine residency program. Under a special affiliation agreement between the two institutions, medical students at UCSD may take public health courses at SDSU while pursuing their medical studies and, if they choose, earn the M.D. and M.P.H. degrees concurrently. Likewise, SDSU students pursuing advanced study in the GSPH may enroll for specialized courses in the medical school.

This broad network of individual practitioners and the institutions they serve provides a variety of health facilities in which students at the GSPH may meet field studies and practicum requirements. Many of these opportunities are available not only in the San Diego region, but also in Mexico. The school's proximity to the Mexican border has led to the development of strong professional ties between the faculty and students of the GSPH and their counterparts in Baja California. Special arrangements with Universidad Autonoma de Baja California enables students to take courses for credit at the Tijuana campus. This connection has produced a continuing series of jointly sponsored binational research and service projects designed to improve public health conditions and health services on both sides of the border.

Research

Faculty and student research in the broad interdisciplinary field of public health is conducted within the various specialized areas that are generally defined by the degree concentrations. The following descriptions illustrate the focus of research within each of these areas.

Biometry and Biostatistics: Development and application of statistical methods and models in the fields of public health, medicine, and biology. A concentration in biometry, and the scope of the academic and research opportunities in the University may be seen in the listing for the program in biostatistics and biometry presented earlier in this bulletin.

Environmental and Occupational Health Science: Isolation and identification of chemical and microbiological disease agents in air, water, soil, hazardous, and other solid wastes.

Epidemiology and Biostatistics: Identification of biological, environmental, social, and behavioral risk factors of human disease; determination of the distribution and etiology of disease in human populations, particularly infectious and chronic diseases.

Health Promotion: Behavioral science applied to health-related behavior for the identification of risk factors for physical and mental health "illnesses," and the experimental evaluation of interventions aimed at changing risk practices or promoting health enhancing behavior; emphasis is placed on vulnerable populations, such as low income, minority, women, and children.

Health Services Administration: Management of health care facilities, services, and organizations; planning and evaluation of public and private sector programs; administration and operations in specialty services, hospitals, ambulatory care, insurance companies, HMOs, and other health-related organizations.

Industrial Hygiene: Recognition, evaluation and control of chemical, physical, and biological hazards in the work place; current emphasis is on studies of airborne contaminants and respiratory protection.

Toxicology: Study of toxicity, biologic mechanisms of action, and the health risk of exposure to chemicals in the environment.

Affiliated Research Centers

In an effort to serve better the community at large, the Graduate School of Public Health sponsors the Institute of Public Health. The Institute serves as the school's bridge with the community, facilitating field practice opportunities, community-based research and program evaluations, and a venue for continuing education.

In addition, a number of research centers have been established to integrate the specialized research of its faculty and students. These are the Center for Injury Prevention Policy and Practice, the Center for Behavioral and Community Health Studies, the Center for Behavioral Epidemiology and Community Health, and the Center for Injury Prevention and Research. For more information on these centers, see Part Four of this bulletin.

Section I. Master's Degree Programs

Master of Public Health Degree

Admission to Graduate Study

Applicants seeking admission to public health concentration areas leading to either the Master of Public Health or Master of Science degree should contact the Graduate School of Public Health requesting appropriate descriptive materials. Application material and detailed application instructions can be obtained from our Web site (www-rohan.sdsu.edu/dept/gsph/) or ordered from the Campus Bookstore [call (619) 594-7535 to order the GSPH application/information packet].

In addition to satisfying the requirements for admission to the University with classified graduate standing, students applying for admission should electronically submit the University application available at www.csumentor.edu, as described in Part Two of this bulletin. The student seeking admission to the Graduate School of Public Health must also submit the following to the department: (1) GSPH Application Parts I and II (includes narrative statement); (2) two sets of official transcripts, sent directly to the GSPH by the colleges/universities the student attended; (3) GRE score report (SDSU code 4682, department code 0616), or GMAT score report (for applicants to the Health Services Administration program only); (4) three letters of recommendation (preferably academic); (5) additional evidence of promise of success in academic and professional activities; and (6) document competence or prior academic preparation in the biological sciences, social sciences, and quantitative methods. Applicants for the biometry concentration are required to have successfully completed undergraduate courses in single and multivariate calculus. Applicants for the concentration in health services administration with a specialization in public health management are required to have a graduate or professional degree in a health or health-related discipline or a minimum of five years of progressively responsible managerial experience in health care or a related field.

Students who do not fully meet the requirements for admission with classified graduate standing may be considered for conditionally classified graduate standing upon recommendation of the admissions committee and the graduate adviser.

Advancement to Candidacy

All students must: (1) meet the general requirements for advancement to candidacy as described in Part Two of this bulletin; (2) satisfactorily pass a faculty evaluation of the progress that they are making in their graduate course of study; (3) complete the core courses, Public Health 601, 602, 603, 604, 605 (students in health services administration will substitute Public Health 641 for Public Health 605, and students in health promotion will substitute Public Health 661 and 662 for Public Health 603); have a grade point average of at least

3.0 and no grade less than a B- in each core course completed; and (4) have completed at least 12 semester units of approved public health coursework.

In addition, the student must be recommended for advancement to candidacy by the faculty of the Graduate School of Public Health.

Specific Requirements for the Master of Public Health Degree

(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units (exceptions are 55 units for students in health services administration concentration with a specialization in health services management and 34 units for students in the health services administration concentration with a specialization in public health management) including: (1) Public Health 601, 602, 603, 604, and 605 (students in health services administration will substitute Public Health 641 for Public Health 605 and students in health promotion will substitute Public Health 661 and 662 for Public Health 603); (2) a minimum of 21 units of graduate courses in the area of concentration; (3) a maximum of twelve units of supervised field placement (if the student has not had equivalent field experience); and (4) electives selected with the approval of the graduate adviser. In addition, Public Health 799A, Thesis, must be included in the program except in the concentrations in biometry, health promotion, and health services administration, where the student may select the Plan B option, with a comprehensive examination in lieu of the thesis or project when approved by the graduate adviser.

In the environmental health concentrations, students registering for 799A may complete a major project or thesis; and six units of supervised field placement are required.

Up to six units of graduate credit may be accepted in transfer, with the approval of the graduate adviser.

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Biometry

Courses required for the concentration:

PH 623	Epidemiological Methods (3)
PH 627	Advanced Statistical Methods in Public Health (3)
PH 628	Applications of Multivariate Statistics in Public Health (3)
STAT 551A	Probability and Mathematical Statistics (3)
STAT 551B	Probability and Mathematical Statistics (3)
STAT 560	Sample Surveys (3)

Prescribed Electives: Three units selected from the following Public Health courses:

PH 622	Epidemiology of Chronic Diseases (3)
PH 649	Public Health Surveillance (3)
PH 700A	Seminar in Public Health: Epidemiology (3)

Prescribed Electives: Nine units selected with the approval of the adviser from the following Mathematics courses:

STAT 510	Applied Regression Analysis (3)
STAT 520	Applied Multivariate Analysis (3)
STAT 570	Stochastic Processes (3)
STAT 670A-670B	Advanced Mathematical Statistics (3-3)
STAT 671	Statistical Computing (3)
STAT 672	Nonparametric Statistics (3)
STAT 674	Multivariate Analysis (3)
STAT 677	Design of Experiments (3)
STAT 678	Survival Analysis (3)
STAT 679	Analysis of Discrete Data (3)
STAT 680A-680B	Advanced Biostatistical Methods (3-3)

Concentration in Environmental Health

Courses required for the concentration:

- PH 632 Air Quality (3)
- PH 634 Environmental Protection (3)
- PH 639 Water Quality Investigation (3)

Prescribed electives (a minimum of six additional units selected with the approval of the adviser from):

- PH 630 Environmental Health Risk Assessment (3)
- PH 635 Occupational Medicine (3)
- PH 636 Hazardous Waste Management (3)
- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 638A Principles of Toxicology (3)
- PH 700C Seminar in Public Health: Occupational and Environmental Health (3)
- PH 721 Environmental Epidemiology (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 732 Principles of Industrial Hygiene (4)
- PH 737A Chemical Agents, Recognition, Evaluation, and Assessment (3)
- PH 737B Physical and Biological Agents, Recognition, Evaluation and Assessment (2)
- PH 738 Topics in Toxicology (3)
- PH 798 Special Study (1-3) Cr/NC/RP

Electives (6 units): These electives may include any public health course or selected graduate level courses in other departments with the approval of the faculty adviser.

Concentration in Epidemiology

Courses required for the concentration:

- PH 621 Epidemiology of Infectious Diseases (3)
- PH 622 Epidemiology of Chronic Diseases (3)
- PH 623 Epidemiological Methods (3)
- PH 627 Advanced Statistical Methods in Public Health (3)

Prescribed electives in Epidemiology (two courses selected from):

- PH 625 Control of Infectious Diseases (3)
- PH 628 Applications of Multivariate Statistics in Public Health (3)
- PH 649 Public Health Surveillance (3)
- PH 700A Seminar in Public Health: Epidemiology (3)
- PH 720 Critical Readings in Epidemiology and Public Health (3)
- PH 721 Environmental Epidemiology (3)
- PH 722 Seminar in Clinical Trials (3)
- PH 724 Advanced Methods in Epidemiology (3)
- PH 726 HIV/AIDS Epidemiology and Public Health (3)
- PH 729 Ethics for Epidemiology (3)
- PH 823 Case-Control Studies (3)
- PH 824 Cohort Studies (3)
- PH 825 Grantwriting in Epidemiology and Public Health (1-3)

Electives (3 units selected with the approval of the concentration faculty): These electives may include any public health course or selections from the following:

- Biology 585, 588
- Nutrition 600, 606, 607, 700
- Statistics 510, 550, 551A, 560, 672, 674, 677

Concentration in Health Promotion

Courses required for the concentration:

- PH 607 Research Methods and Proposal Writing (3)
- PH 661 Theoretical Foundations of Health Promotion (3)
- PH 662 Motivating Health Behavior (3)
- PH 663 Health Promotion Communications Theory and Design (3)
- PH 666 Health Promotion Program Planning and Assessment (3)

Prescribed electives (choose two or more different courses from):

- PH 664 Health, Society and Human Behavior (3)
- PH 667 Prevention and Control of Chronic Diseases (3)
- PH 668 Seminar in Health Promotion Research (3)
- PH 669 Health Risk Appraisal (3)
- PH 700F Seminar in Public Health: Health Promotion (3)
- PH 761 Programming Health Promotion (3)
- PH 762 Behavioral Medicine (3)
- PH 797 Research (3) Cr/NC/RP

Electives (6 units to be chosen with the approval of the faculty from any public health course or Community Health Education 574).

Concentration in Health Services Administration**Graduate Program in Health Services Administration (ACEHSA Accredited)****Specialization in Health Services Management**

Courses prerequisite to this specialization are Public Health 640 and 700E or their equivalents as determined by the graduate adviser. If these courses or the equivalent have not been completed prior to admission, they should be included in the first semester course requirements.

- PH 640 Public Issues in Financing Health Care (3)
- PH 700E Funds Management in Public Health (3)

Courses required for the specialization:

- PH 641 Introduction to Health Services (3)
- PH 644A Health Services Organization (3)
- PH 644B Health Services Management (3)
- PH 645 Health Economics (3)
- PH 646 Legal and Ethical Aspects of Health Care (3)
- PH 647A Quantitative Methods and Health Data Analysis (3)
- PH 647B Health Quality and Information Management (3)
- PH 742A Health Services Financial Management (3)
- PH 742B Financing Health Systems and Services (3)
- PH 748 Health Services Competitive Strategy and Marketing (3)

Prescribed electives (six units selected with approval of adviser). In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

- PH 649 Public Health Surveillance (3)
- PH 700E Seminar in Public Health: Health Services Administration (3)
- PH 743 Hospitals and Health Systems (3)
- PH 744 Ambulatory and Group Practice Management (3)
- PH 746 Quality of Care Assessment and Assurance (3)
- PH 798 Special Study (1-3) Cr/NC/RP

The remaining elective units may be selected with the approval of the adviser.

Specialization in Public Health Management

Designed for mid-career professionals. May be completed in one year.

Courses required for the specialization:

- PH 641 Introduction to Health Services (3)
- PH 645 Health Economics (3)
- PH 647A Quantitative Methods and Health Data Analysis (3)
- PH 666 Health Promotion Program Planning and Assessment (3)
- PH 740 Financial Principles for Public Health Executives (3)
- PH 741 Public Health Services Organization and Management (3)
- PH 797 Research (3) Cr/NC/RP

Prescribed electives (three units selected with approval of adviser).

PH 647B	Health Quality and Information Management (3)
PH 649	Public Health Surveillance (3)
PH 700E	Seminar in Public Health: Health Services Administration (3)
PH 742B	Financing Health Systems and Services (3)
PH 798	Special Study (1-3) Cr/NC/RP

Master of Science Degree in Public Health

Admission to Graduate Study

The M.S. degree is offered in environmental health, industrial hygiene, and toxicology. In addition to satisfying the requirements for admission to the University with classified graduate standing, students applying for admission should electronically submit the University application available at www.csumentor.edu, as described in Part Two of this bulletin. The student seeking admission to the Graduate School of Public Health master of science programs must also submit the following to the department: (1) GSPH Application Parts I and II (includes narrative statement); (2) two sets of official transcripts, sent directly to the GSPH by the colleges/universities the student attended; (3) GRE score report (SDSU code 4682, department code 0616); (4) three letters of recommendation (preferably academic); (5) document competence or prior academic preparation in laboratory sciences.

Normally, to be considered for admission to these programs, a student must have successfully completed an undergraduate degree (BA or BS) in biology, chemistry, engineering, or other basic or applied natural science. For the industrial hygiene program, admitted students must hold an earned baccalaureate that prepares them to apply the basic principles of college level mathematics, inorganic and organic chemistry, physics, and biology. Exceptions may be admitted with an individually documented plan of study to compensate for any deficiencies. The Graduate School of Public Health should be consulted for specific course preparation recommended for each of the concentrations. In some cases, if an applicant is deficient in certain basic or applied science areas, some remedial coursework can be completed as an unclassified graduate student. However, credits earned by remedial courses cannot be applied toward the required number of units for the master's degree. Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the admissions committee and the graduate adviser. Students so admitted will be advised as to remedial steps to take to satisfy the requirement to achieve classified graduate standing. Courses prerequisite to the master of science degree concentrations are Public Health 601 and Public Health 602 or their equivalents as determined by the graduate adviser. If these courses or their equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students completing master of science degree concentrations must (1) have satisfactorily completed at least 12 units of coursework of the 36-unit official program including at least two courses chosen from the list of courses required for the student's concentration, with a minimum grade point average of 3.0 (B) and no grade less than a B-; (2) have a thesis proposal which has received the approval of the Graduate School of Public Health faculty.

General Requirements for the Master of Science Degree

(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 36 units in the area of concentration or related disciplines as listed below. Up to six units may be accepted in transfer, with the approval of the graduate adviser. Requirements vary depending on the area of concentration and are as shown below:

	Environmental Health	Industrial Hygiene	Toxicology
Required for all			
M.S. programs	12	12	12
Required for the concentration	12	14	12
Prescribed electives	12	7	12
Field Practice* (PH 650)	—	3	—
Total units:	36	36	36

* A 3-unit field practice is mandatory for industrial hygiene students and may be taken as an elective by students in the toxicology concentrations with approval of the academic adviser.

Specific Requirements for Master of Science Degree Programs

Courses required for all M.S. programs (12 units):

PH 636	Hazardous Waste Management (3)
PH 638A	Principles of Toxicology (3)
PH 797	Research (3)
PH 799A	Thesis (3)

Concentration in Environmental Health Science

Courses required for the concentration (12 units):

PH 630	Environmental Health Risk Assessment (3)
PH 632	Air Quality (3)
PH 634	Environmental Protection (3)
PH 639	Water Quality Investigation (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following with the approval of the faculty adviser):

PH 603	Behavioral and Social Science in Public Health (2)
PH 604	Environmental Determinants of Human Health (2)
PH 621	Epidemiology of Infectious Diseases (3)
PH 623	Epidemiological Methods (3)
PH 625	Control of Infectious Disease (3)
PH 637	Biological Mechanisms of Environmental Toxicants (3)
PH 650	Field Practice (3) Cr/NC
PH 700C	Seminar in Public Health: Occupational and Environmental Health (3)
PH 721	Environmental Epidemiology (3)
PH 731	Environmental and Occupational Health Policy (3)
PH 732	Principles of Industrial Hygiene (4)
PH 738	Topics in Toxicology (3)
PH 798	Special Study (1-3) Cr/NC/RP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Industrial Hygiene

Courses required for the concentration (14 units):

PH 732	Principles of Industrial Hygiene (4)
PH 735	Industrial Ventilation (3)
PH 736	Principles of Ergonomics (2)
PH 737A	Chemical Agents, Recognition, Evaluation, and Assessment (3)
PH 737B	Physical and Biological Agents, Recognition, Evaluation, and Assessment (2)

Prescribed electives (a minimum of seven units of coursework selected from the following list with the approval of the faculty adviser):

PH 603	Behavioral and Social Science in Public Health (2)
PH 604	Environmental Determinants of Human Health (2)
PH 632	Air Quality (3)
PH 634	Environmental Protection (3)
PH 635	Occupational Medicine (3)
PH 639	Water Quality Investigation (3)
PH 700C	Seminar in Public Health: Occupational and Environmental Health (3)
PH 731	Environmental and Occupational Health Policy (3)
PH 733	Principles of Industrial Safety (3)
PH 738	Topics in Toxicology (3)
PH 798	Special Study (1-3) Cr/NC/ RP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Toxicology

Courses required for the concentration (12 units):

PH 630	Environmental Health Risk Assessment (3)
PH 637	Biological Mechanisms of Environmental Toxicants (3)
PH 638B	Methods in Toxicity Testing (3)
PH 738	Topics in Toxicology (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following list with the approval of the faculty adviser):

BIOL 569	Molecular Pharmacology (3)
PH 603	Behavioral and Social Science in Public Health (2)
PH 604	Environmental Determinants of Human Health (2)
PH 627	Advanced Statistical Methods in Public Health (3)
PH 632	Air Quality (3)
PH 635	Occupational Medicine (3)
PH 639	Water Quality Investigation (3)
PH 650	Field Practice (3) Cr/NC
PH 700C	Seminar in Public Health: Occupational and Environmental Health (3)
PH 721	Environmental Epidemiology (3)
PH 731	Environmental and Occupational Health Policy (3)
PH 732	Principles of Industrial Hygiene (4)
PH 798	Special Study (1-3) Cr/NC/ RP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Master of Social Work and Master of Public Health Degrees

General Information

The Graduate School of Public Health and the School of Social Work offer a three year concurrent graduate program leading to a Master of Public Health and a Master of Social Work. The major objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community.

Admission to Graduate Study

To request application materials for the concurrent graduate program in Social Work and Public Health, applicants should write to the Director of the MSW/MPH Advisory Committee, Graduate School of Public Health, San Diego State University. All necessary application forms, instructions for filing them, and information about the program will be sent. In order to be considered for the concurrent MSW/MPH program, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a minimum 2.75 grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, social or behavioral sciences, or health science.
3. A satisfactory score on the GRE General Test. Applicants already holding another master's degree or higher degree from an acceptable accredited graduate school are exempt from the GRE.
4. Submit a narrative statement as described in Instructions for Applicants.
5. Submit three letters of recommendation.

A committee composed of faculty from Public Health and Social Work will make all admission recommendations to the Dean of the Graduate Division.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. All core courses in public health and social work must be completed prior to advancement. In addition, the student must: (1) have earned at least 24 units of graduate study within the concurrent program with a minimum grade point average of 3.0 and no grade less than a B- in each core course; (2) have been recommended for advancement by the combined faculty advisory committee; received credit (Cr) in field practicum; (3) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Public Health 797 (Research), Social Work 797 (Research), and Public Health 799A (Thesis) or Social Work 799A (Thesis). A thesis incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the M.S.W. and M.P.H. degrees.

Specific Requirements for the MSW/MPH Degree

(Major Code: 12991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 83 units.

Social Work/Public Health – Health Services Administration

Courses prerequisite to the program are Public Health 640 and Business Administration 650 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

BA 650	Financial Accounting (2)
PH 640	Public Issues in Financing Health Care (3)
SWORK 601	Seminar in Social Welfare Policy and Services (3)
SWORK 619	Human Behavior in the Social Environment (3)

SWORK 620B	Seminar in Human Behavior and Social Environment: Administration (3)
SWORK 630	Social Work Practice: A Generalist Perspective (3)
SWORK 631	Social Work Practice: Individuals, Families, and Groups (3)
SWORK 632	Social Work Practice: Organizations and Communities (3)
SWORK 650*	Field Practicum (7) Cr/NC
SWORK 690	Seminar in Social Work Research Methods (3)
SWORK 702C	Seminar in Social Welfare Policy and Services: Health and Aging (3)
SWORK 740	Advanced Seminar in Social Work Administration (3)
SWORK 745	Advanced Seminar in Selected Topics in Social Work Administration (3)
SWORK 750B*	Advanced Field Practicum: Social Work Administration (8) Cr/NC
SWORK 797	Research (3) Cr/NC/RP
PH 601	Epidemiology (3)
PH 602	Biostatistics (3)
PH 604	Environmental Determinants of Human Health (2)
PH 641	Introduction to Health Services (3)
PH 644A	Health Services Organizations (3)
PH 644B	Health Services Management (3)
PH 645	Health Economics (3)
PH 647A	Quantitative Methods and Health Data Analysis (3)
PH 742A	Health Services Financial Management (3)
PH 742B	Financing Health Systems and Services (3)
PH 797	Research (3) Cr/NC/RP
PH 799A or SWORK 799A	Thesis (3) Cr/NC/RP

* Social Work 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in social work.

Transfer units will not be accepted toward the concurrent MSW/MPH degree program. Graduate study or degrees obtained previously will not be accepted toward meeting the unit requirements of the concurrent MSW/MPH degree program.

If a student after entering the concurrent MSW/MPH program returns to a single degree program, all the requirements for the single degree program must then be met.

Section II. Doctoral Program

Ph.D. in Public Health with a Concentration in Epidemiology

(Major Code: 12141)

A Ph.D. in public health with a concentration in epidemiology is offered by the joint faculties of the Division of Epidemiology and Biostatistics, Graduate School of Public Health at San Diego State University, and the Department of Family and Preventive Medicine, School of Medicine at the University of California, San Diego (UCSD). Emphasis is on producing graduates with a mastery of the central concepts and analytic processes of epidemiology for application to a multitude of disciplines. Specializations are offered through both campuses, including infectious and chronic diseases, exercise science, medical geography, and behavioral epidemiology. Graduates of this program are competitive for a variety of research, teaching, and community service positions in areas such as academic institutions, local and state health departments, federal and international agencies, and both privately and publicly sponsored research institutes.

Admission to Doctoral Study

Applicants for admission to the doctoral program must present evidence of capacity for graduate study in public health. A multidisciplinary field such as public health draws from a wide variety of undergraduate majors, but the student is expected to have a strong grounding in the quantitative and biological sciences. A master's degree in epidemiology is preferred. Admission to the program requires acceptance by both institutions on recommendation of the participating units at SDSU and UCSD. It is understood that acceptance of a student into the joint program by each of the units will be conditioned by their respective standards for graduate admissions and also the available facilities.

Application for admission to the Ph.D. program must be received by the Graduate School of Public Health not later than December 15.

Application

A complete application to the joint doctoral program in public health requires the following information:

- The appropriate application form, Parts I and II.
- Doctoral Admissions Form.
- Three letters of recommendation.
- Transcripts of academic work already completed.
- Results of the Graduate Record Examination.

To be considered for admission to the joint SDSU-UCSD doctoral program in public health, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the deans of the two graduate divisions; (b) a GPA of at least 3.0 in the last 60 semester (90 quarter) units attempted; (c) good standing at the last institution attended; and (d) an acceptable score (verbal and quantitative) on the GRE General Test. Preference will be given to students with an M.P.H. or M.S. degree in epidemiology.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of San Diego State University and University of California, San Diego.

Advisory Committee

Upon admission to the program, the steering committee of the two institutions will establish an advisory committee for the student. This committee will consist of three faculty members chosen jointly from the two institutions. In consultation with the student, the committee will develop the student's course of study, prepare and guide a preliminary examination, and establish the student's joint qualifying committee. At least one member of the advisory committee must be from SDSU and one from UCSD.

Course Requirements

Core courses in epidemiology and biostatistics are offered at both SDSU and UCSD. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern principles of public health as well as knowledge and application of epidemiology and biostatistical methods. Elective coursework may be selected from offerings at both campuses.

Course Requirements for Students with an Existing M.P.H. or M.S. Degree in Epidemiology

Epidemiology: Public Health 623, 724, 800 (Doctoral Seminar in Epidemiology); six units in advanced study design selected from Public Health 722, 823, 824; and six-unit UCSD course series in applied epidemiology (FPM 259A, 259B, 259C).

Biostatistics: Public Health 628 and six units in advanced biostatistics.

Electives: 24 units in specialty area.

Graduate Assistantship in Epidemiology: 6 units

Dissertation Research and Proposal: 15 units

Students who do not possess an existing M.P.H. or M.S. degree in epidemiology are required to take the following additional courses: Public Health 601, 602, 621, 622, and 627. Once the student is matriculated at SDSU, the final curriculum will be determined by the doctoral advising committee.

Preliminary Examinations

The preliminary examinations will test knowledge and the application of epidemiology and biostatistical methods.

Doctoral Committee

A five-member committee, composed of faculty at SDSU and UCSD, will be recommended by the advisory committee for each student and approved by the graduate deans from both campuses. One member must be nonprogram faculty and there must be at least one tenured faculty member from each university. The student's dissertation adviser will chair the committee. At least two members must be from SDSU and two from UCSD.

The doctoral committee will conduct a written and oral comprehensive qualifying examination, which will evaluate the student's understanding and knowledge of his or her special area of epidemiologic interest. The purpose of this examination is for the student to demonstrate competence in the major research field.

The doctoral committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the Graduate Division at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the graduate deans on both campuses, the student will be notified of advancement to candidacy by the UCSD Graduate Division.

Faculty

Faculty members of the cooperating institutions participate in the joint doctoral program in Public Health Epidemiology and are available for direction of research and as members of joint doctoral committees.

Dissertation

Following successful completion of the qualifying examination and advancement to candidacy, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of the dissertation adviser, who may be from either SDSU or UCSD. The doctoral committee becomes the dissertation committee after the student's advancement to candidacy. Requirements currently in force at SDSU and UCSD must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree will be awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both institutions.

Financial Support

The Graduate School of Public Health at SDSU and the Department of Community and Family Medicine at UCSD endeavors to provide financial support that will enable all students to devote full time to research training and study.

Medical Students Interested in Obtaining the Master of Public Health (M.P.H.) Degree

San Diego State University, Graduate School of Public Health, and University of California, San Diego, School of Medicine, offer a collaborative education effort to enable UCSD medical students to also obtain the M.P.H. degree. The program is designed for those UCSD medical students who anticipate careers in one or more of the following fields: public health, preventive medicine, maternal and child health, epidemiology, occupational and/or environmental health, health promotion, health services administration, or aerospace medicine, and to those with special interest in such areas as nutrition, demography, international health, and behavioral medicine. In addition, it provides public health training for those planning careers in family practice, pediatrics, general internal medicine, and other aspects of primary care who wish to enhance their knowledge and skills in clinical preventive medicine and in the managerial aspects of health care. The M.P.H. degree or an equivalent academic experience is required for certification by the American Board of Preventive Medicine.

With approval, certain UCSD courses can be counted toward fulfilling the M.P.H. degree requirement at the SDSU Graduate School of Public Health.

Further information about these programs can be obtained from the Dean of Students, Maria Savoia, M.D., (858) 534-3703 or Michael Criqui, M.D., (858) 534-3723.

Section III. Other Programs

Preventive Medicine Residency Certificate

The purpose of the Preventive Medicine Residency Certificate is to train physicians to assure that they have adequate knowledge, attitudes, and skills germane to general preventive medicine and occupational medicine. The physician will be eligible to sit for the board certification examination administered by the American Board of Preventive Medicine.

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the preventive medicine residency must (1) fulfill the admission requirements given above, and (2) have completed a Doctor of Medicine degree from an accredited institution.

The student will be expected to complete a three year course of study which involves the completion of a clinical year provided by the University of California, San Diego, School of Medicine, the completion of an academic year leading to the Master of Public Health degree provided by the Graduate School of Public Health at San Diego State University, and appropriate practicum experiences under the supervision of faculty of one of the two cooperating institutions.

The student is expected to complete the number of units required for the Master of Public Health degree as well as those additional units which may be prescribed in order to complete the practicum year, i.e., Public Health 750.

The student is expected to have maintained a 3.0 average overall in the coursework at the Graduate School of Public Health and at the University of California, San Diego, School of Medicine.

Preventive Medicine Residency Faculty:

Regina Fleming, M.D., M.P.H., Director, Adjunct Associate Professor of Public Health

Kevin M. Patrick, M.D., Adjunct Professor of Public Health, Associate Director

Michael H. Criqui, M.D., M.P.H., Professor of Epidemiology, UCSD, Adjunct Professor of Public Health, Associate Director

Robert A. Gunn, M.D., Adjunct Associate Professor of Public Health

Fellowships

A variety of fellowships, scholarships, and traineeships are funded by the federal government and the Graduate School of Public Health.

Fellowship in Medical Toxicology

Residents in emergency medicine, preventive medicine, and other medical specialties are eligible for this fellowship. The Fellowship in Medical Toxicology within the Preventive Medicine Residency Program extends the certification in medical toxicology of qualified physicians through didactic courses and a practicum. These may be used in partial fulfillment of the requirements for the M.P.H. degree. Physicians interested in more information may contact Richard F. Clark, M.D., Medical Director, California Poison Control System, UCSD School of Medicine, (619) 543-6835 or Ann de Peyster, Ph.D., SDSU Graduate School of Public Health, (619) 594-3690 for information on coursework offered at SDSU.

Fellowships in Community Pediatrics, Family Medicine, or Internal Medicine

UCSD, School of Medicine Fellows in Pediatrics, Medicine or Internal Medicine will develop experiences in community practice through didactic courses and practicum leading to both completion of a fellowship and a Master of Public Health degree.

The Division of Community Pediatrics at UCSD and the Graduate School of Public Health at SDSU have developed opportunities and experiences for medical students, residents, and practitioners in community practice to provide physicians a population-based understanding of disease and its determinants.

Further information about this program can be obtained from Philip R. Nader, M.D., (619) 681-0688 or Kenneth J. Bart, M.D., (619) 594-1255.

Macy Foundation/Synergistic Education in Public Health and Health Care

Philip R. Nader, M.D., Professor of Pediatrics, UCSD, Research Professor of Public Health

Kenneth J. Bart, M.D., M.P.H., M.S.H.P.M., Professor of Public Health

National Research Service Award Fellowship in Community Health

Philip R. Nader, M.D., Professor of Pediatrics, UCSD, Research Professor of Public Health

Family Medicine Faculty Development Program

Ellen L. Beck, M.D., Director of Community Education, Associate Clinical Professor of Epidemiology, UCSD

William J. Wooten, M.D., M.P.H., Associate Clinical Professor of Epidemiology, UCSD

Stuart H. Gilbreath, Ph.D., Professor of Public Administration and Urban Studies

Fellowship in Applied Child Health Services

The Center for Child Health Outcomes at Children's Hospital is offering a one year fellowship in applied child health service research. The fellowship may be associated with the preventive medicine residency for fellows wishing Preventive Medicine Board Certification. Experiences will be developed through didactic courses or a practicum leading to both the completion of a fellowship and a Master of Public Health. Further information may be obtained by contacting Paul S. Kurtin at (858) 576-4047, Kevin M. Patrick at (619) 594-5332, or Kenneth J. Bart at (619) 594-1255.

Courses Acceptable on Master's and Doctoral Degree Programs (C H E) (P H)

Community Health Education

UPPER DIVISION COURSES

560. Introduction to Public Health (3) I, II

Prerequisite: Community Health Education 290.

Epidemiological methods, behavioral and biological determinants, modes of transmission, risk factors, prevention of common infectious and chronic disease. Evaluation of health information to develop health education programs.

561. Health and Medical Care (3) II

Prerequisite: Senior or graduate standing with a major or minor in health education or a closely related area.

Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences on health and medical care; professional contributions, relationships, and careers; national and international health programs.

574. Habit-Forming Substances (3) I

Tobacco, alcohol, and other drugs; their use, misuse and abuse.

596. Workshop in Health Education (1-3)

Selected problems in health science are used as a basis for workshop experiences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596; maximum credit of three units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Community Health Education

GRADUATE COURSE

920. Health Education for Teachers (3)

Prerequisite: For professional, multiple, or single subject clear credential teaching applicants.

Covers all topics designated in the health framework for California including nutrition, physiological, and sociological effects of substance abuse, consumer health, injury prevention, and child abuse.

Public Health

GRADUATE COURSES

601. Epidemiology (3)

Prerequisite: Consent of instructor.

Distribution and determinants of diseases; role of epidemiology in public health. Descriptive, analytic and experimental epidemiology.

602. Biostatistics (3)

Prerequisite: Consent of instructor.

Statistical reasoning applied to public health; probability, hypothesis testing, regression and correlation, analysis of variance, measurement theory and modeling.

603. Behavioral and Social Science in Public Health (2)

Prerequisites: Psychology 316, 340, and Sociology 436.

Role of psychological, social and environmental variables in health and illness. Multifactorial psychosocial model of disease susceptibility.

604. Environmental Determinants of Human Health (2)

Prerequisites: Biology 100, Chemistry 100.

Environmental determinants and their influence on human health. Biological, physical, and chemical factors which affect the health of a community.

605. Health Services Administration (2)

Overview of health services administration and delivery in U.S. Characteristics of utilization of health care, financing and system structure, types of providers, nonfinancial resources, and assessment and regulation.

607. Research Methods and Proposal Writing (3)

Two lectures and three hours of laboratory.

Prerequisites: Public Health 601, 661, and consent of instructor. Recommended: Public Health 602.

Direct observation measurement, group and intensive experimental designs. Laboratory exercises and proposal writing applicable to public health.

621. Epidemiology of Infectious Diseases (3)

Prerequisite: Public Health 601.

Utilizing selected infectious diseases and environmental settings, provides scientific background on which epidemiological investigations and control measures are based.

622. Epidemiology of Chronic Diseases (3)

Prerequisite: Public Health 601.

Epidemiology of selected chronic diseases.

623. Epidemiological Methods (3)

Prerequisites: Public Health 602, 621 or 622.

Topics include: analysis of descriptive data, design of studies, evaluation of data, development of biological models. Examples of both acute and chronic diseases.

625. Control of Infectious Diseases (3)

Prerequisite: Public Health 621.

Theoretical and practical experience in techniques available for control of infectious diseases.

627. Advanced Statistical Methods in Public Health (3)

Prerequisite: Public Health 602.

Applications of advanced statistical methods for analysis of public health and biomedical data. Topics include multiple linear regression, analysis of variance, logistic regression, and introduction to survival analysis.

628. Applications of Multivariate Statistics in Public Health (3)

Prerequisite: Public Health 627.

Statistical methods for multivariate problems in public health including regression diagnostics, cluster analysis, discriminant analysis, principal components, multivariate discrete analysis and Poisson regression. Computer applications included.

630. Environmental Health Risk Assessment (3)

Four major steps of risk assessment to include hazard identification, dose-response assessment, exposure assessment, and risk characterization. Will also include risk communication and risk management in environmental arena.

632. Air Quality (3)

Prerequisites: Biology 100, Chemistry 251, Physics 180A.

Properties of airborne gases, vapors, and particulate matter. Effects of air pollution on community. Mobile and stationary sources of air pollution. Meteorology and dispersion of air pollutants. Ambient air quality standards.

634. Environmental Protection (3)

Rationale and mechanisms for control of water supplies, liquid and solid waste disposal, lighting, heat, food and housing, pesticides and community noise.

635. Occupational Medicine (3)

Etiology, diagnosis of disease, and stress in the modern industrial environment.

636. Hazardous Waste Management (3)

Prerequisite: Chemistry 201.

Rationale, methods, and regulations governing the proper management of hazardous and toxic wastes.

637. Biological Mechanisms of Environmental Toxicants (3)

Two lectures and three hours of laboratory.

Prerequisites: Biology 261 and Chemistry 160.

Biologic effects and underlying mechanisms of action of harmful environmental agents on mammalian cells and tissues. Emphasis on toxic chemicals and applications of basic mechanisms research to public health situations.

638A. Principles of Toxicology (3)

Prerequisites: Biology 261 and Chemistry 160.

Dose-response and other principles for evaluating the effects of toxic chemicals on mammalian organ systems.

638B. Methods in Toxicity Testing (3)

One lecture and six hours of laboratory.

Prerequisite: Credit or concurrent registration in Public Health 638A.

Laboratory methods used in evaluating chemicals for potential human toxicity.

639. Water Quality Investigation (3)

Two lectures and three hours of laboratory.

Prerequisite: Public Health 604 or 634.

Human health problems associated with water usage and with various aquatic environments.

640. Public Issues in Financing Health Care (3)

Prerequisite: Open to Health Services Administration majors and students in related fields with consent of instructor.

Orientation to growing role of public intervention in health care sector, including equity versus efficiency aspects of taxation and health care financing, social insurance programs, and methods of evaluating public health activities.

641. Introduction to Health Services (3)

Health care systems in the U.S. Underlying needs, insurance and uninsurance, public programs, reimbursement, managed care, resources, providers, regulation outcome measurement and evaluation, and health policy issues.

644A. Health Services Organizations (3)

Prerequisite: Public Health 641.

Structure and functioning of organizations that provide and finance health services. Systems theory approach to environments, visions and goals, strategies, structure, and processes of healthcare organization.

644B. Health Services Management (3)

Prerequisite: Public Health 644A.

Functions of manager in healthcare organizations. Behavioral science perspective on interpersonal, informational, decision, ethical, and conflict resolution roles of manager.

645. Health Economics (3)

Prerequisite: Public Health 640.

Economics of health care, including supply and demand factors, efficiency, incentives facing physicians, hospitals, and health plans, economic evaluation of provider performance, health workforce issues, and cost-effectiveness analysis.

646. Legal and Ethical Aspects of Health Care (3)

Prerequisite: Public Health 641.

Legal topics in health care include tort law and reform, malpractice, risk management, patient consent, patient rights, contracts, anti-trust, managed care, and organizational restructuring. Ethical subjects include patient rights, procreation and abortion, and issues of death and dying.

647A. Quantitative Methods and Health Data Analysis (3)

Prerequisites: Public Health 602 and 641.

Quantitative methods and data analyses in health services administration. Topics include decision analysis, forecasting and regression, project management techniques, data analysis, and data and information management applications. (Formerly numbered Public Health 647.)

647B. Health Quality and Information Management (3)

Prerequisite: Public Health 647A.

Health quality measurement and improvement, focusing on managed care computer applications. Topics include outcomes and performance measurement; health and patient databases; types of databases and their management; hardware, software, and networks; systems analysis and design; and project control methods.

649. Public Health Surveillance (3)

Two lectures and three hours of laboratory.

Prerequisites: Public Health 601 and 602.

Public health data sources, including vital statistics, hospital discharge systems, the census, annual and special federal surveys through use of computer files. Methods of data quality control and analysis, communication of information, survey research, and public health surveillance.

650. Field Practice (3-6) Cr/NC

Field instruction in public health settings. Application of public health principles and skills to practical problems. Maximum credit six units of Public Health 650 applicable to a master's degree.

- | | |
|---|---|
| A. Epidemiology | E. Health Services Administration |
| C. Occupational Health | F. Health Promotion Administration |
| D. Environmental Health Administration | |

651A. Legislation and Policy Affecting Women and Children's Health (3)

Prerequisite: Open to graduate students in the College of Health and Human Services.

Health policies and legislation affecting programs and services for women, children, adolescents, and families.

655. Child and Adolescent Health (3)

Health problems of children and adolescents in the U.S. with identification of needs and services which address these problems.

658. Program and Data Management in Maternal and Child Health (3)

Planning and evaluation, program implementation, budgeting, personnel issues, quality assurance, and data management for services in maternal and child health programs.

661. Theoretical Foundations of Health Promotion (3)

Prerequisite: Community Health Education 290.

Psychological, sociological, economic, and political theories relevant to the mission and processes of health promotion. (Formerly numbered Community Health Education 621.)

662. Motivating Health Behavior (3)

Prerequisite: Community Health Education 401.

Application of behavioral change techniques and health education methodology to health promotion targeting individuals and whole communities. (Formerly numbered Community Health Education 606.)

663. Health Promotion Communications Theory and Design (3)

Prerequisite: Community Health Education 402.

Theory, design and implementation of health education communications in community contexts. Extensive use of student design, analysis, and projects.

664. Health, Society and Human Behavior (3)

Prerequisites: Psychology 101, Sociology 101.

Historical and contemporary examination of health problems of individuals and communities. Health needs, resources; impact of society on health and health on society.

666. Health Promotion Program Planning and Assessment (3)

Prerequisites: Public Health 661, 662.

Program planning and assessment, theories, systems and procedures relevant to health promotion and education.

667. Prevention and Control of Chronic Diseases (3)

Prerequisites: Public Health 601 and 602.

Health promotion strategies for modification of individual behaviors and social practices to lower risk of chronic disease.

668. Seminar in Health Promotion Research (3)

Prerequisite: Graduate standing in public health.

Philosophical, ethical and methodological issues in current health promotion research and services.

669. Health Risk Appraisal (3)

Prerequisites: Public Health 601, 602, 661, 662.

Techniques available for identifying personal health risk. Use of these methods for inducing change. Evaluation of effectiveness of methodologies.

696. Contemporary Topics in Public Health (1-3)

Intensive study in specific areas of public health and health services administration. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

700. Seminar in Public Health (1-3)

Prerequisites: Public Health 601, 602, and 603.

Investigation of current problems in one of the fields of public health. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units of Public Health 700 applicable to a master's degree. These units may be in a single concentration area or any of the public health concentration areas.

A. Epidemiology

C. Occupational and Environmental Health

Seminar: Environmental Health: Risk Assessment

Seminar: Research Design

Seminar: Exposure Assessment and Methods of Sampling and Analysis

E. Health Services Administration

Seminar: Funds Management in Public Health

F. Health Promotion

Seminar: Women's Health

G. Preventive Medicine

Seminar: Preventive Medicine

720. Critical Readings in Epidemiology and Public Health (3)

Prerequisites: Public Health 601 and 602. Recommended: Public Health 623, 627, 724.

Recurrent and emerging public health issues. Weighing evidence in epidemiologic studies by reading and critiquing classical and recent journal articles representing study designs and statistical methods.

721. Environmental Epidemiology (3)

Prerequisites: Public Health 601 and 602. Recommended: Public Health 623.

Uses of epidemiological methods in study of environmental hazards affecting community health and health of workers. Case studies.

722. Seminar in Clinical Trials (3)

Prerequisites: Public Health 601 and 602. Recommended: Public Health 627.

Public health perspective on current methodological issues in clinical trials to include study design, concepts of controls, masking, randomization, monitoring, data analysis procedures, and reporting of results.

724. Advanced Methods in Epidemiology (3)

Prerequisites: Public Health 601, 602, 623, and 627.

In-depth methodological issues in performance and interpretation of epidemiologic studies. Study design, cluster analysis, effect modification, accuracy and precision, adjustment of attributable risk, life tables, Kaplan-Meier, Cox proportional hazards modeling, and meta-analysis.

726. HIV/AIDS Epidemiology and Public Health (3)

Prerequisite: Public Health 601. Recommended: Public Health 621.

State-of-the-art review of HIV and AIDS within a public health framework. Biology, transmission, host susceptibility, screening and surveillance, domestic and international epidemiology, study design, intervention, and options for prevention (including community-based trials).

729. Ethics for Epidemiology (3)

Prerequisite: Consent of instructor.

Public health perspective on major ethical concepts and issues confronting researchers, including informed consent, human subjects, environment, justice, beneficence, autonomy, confidentiality, internal investigation, student issues, and mentorship.

731. Environmental and Occupational Health Policy (3)

Prerequisite: Credit or concurrent registration in Public Health 604.

Current issues in environmental and occupational health, including risk assessment, policy development, and program management.

732. Principles of Industrial Hygiene (4)

Three lectures and three hours of laboratory.

Prerequisites: Chemistry 251, 431, and Physics 180A.

Fundamental principles of recognition, evaluation, and control of hazardous chemical, physical, and biological agents in the work place.

733. Principles of Industrial Safety (3)

Prerequisite: Public Health 732.

Introduction to field of industrial safety including accident prevention as a function of training people in safe work behaviors and maintaining and monitoring the machine interface.

735. Industrial Ventilation (3)

Two lectures and three hours of laboratory.

Prerequisite: Public Health 732.

Techniques of general, dilution, and local exhaust ventilation. Ventilation system design. Techniques and strategies of ventilation survey and testing. OSHA ventilation regulations.

736. Principles of Ergonomics (2)

Prerequisite: Public Health 732.

Application of ergonomics and connection of ergonomics to occupational hygiene. Work-related musculoskeletal disorders, occupational risk factors, work method study and evaluation, risk factor assessment techniques, and tool selection.

737A. Chemical Agents, Recognition, Evaluation, and Assessment (3)

Two lectures and three hours of laboratory.

Prerequisite: Public Health 732.

Recognition and exposure assessment of hazardous chemical agents in the workplace. Emphasis on air sampling and analytical procedures. (Formerly numbered Public Health 737.)

737B. Physical and Biological Agents, Recognition, Evaluation, and Assessment (2)

One lecture and three hours of laboratory.

Recognition and exposure assessment of hazardous physical and biological agents in the workplace (Formerly numbered Public Health 737.)

738. Topics in Toxicology (3)

Prerequisite: Public Health 638A.

Topics in toxicology to include food toxicants, pesticides, soil and groundwater pollutants, industrial toxicology and quality assurance, toxicokinetics, genetic toxicology and toxicology in risk assessment.

740. Financial Principles for Public Health Executives (3)

Prerequisite: Registration in public health management specialization.

Advanced contemporary financial management in public and non-profit healthcare organizations, including financial statement analysis, budgeting concepts, capital management, long-term financing, and asset valuation.

741. Public Health Services Organization and Management (3)

Prerequisite: Public Health 641 and registration in public health management specialization.

Public health management and organizational theory for students with progressively responsible healthcare experience. Emphasis on systems modeling, organizational design, and management practices as applied to public health and nonprofit healthcare organizations and programs.

742A. Health Services Financial Management (3)

Prerequisites: Public Health 641 and Business Administration 650.

Activities in health care financial management. Topics include discounted cash flow analysis, long-term debt financing, equity valuation and financing, risk and return, capital budgeting, financial statements and analyses, financial forecasting, and short-term financing.

742B. Financing Health Systems and Services (3)

Prerequisite: Public Health 742A.

U.S. healthcare financial systems at macro-level. Principles of public programs and private health insurance, types of reimbursement for healthcare organizations and providers, issues of cost containment, effects of uninsurance and underinsurance, and financial practices of other advanced nations.

743. Hospitals and Health Systems (3)

Prerequisite: Public Health 644A.

Organization and management of hospitals and integrated healthcare systems. Emphasis on governance, management, operations, and clinical systems. Senior executives of regional healthcare organizations participate as guest faculty.

744. Ambulatory and Group Practice Management (3)

Prerequisite: Public Health 644A.

Organization and management of group practice and other ambulatory or outpatient facilities, services, programs, and plans. Includes managed care aspects of ambulatory health service delivery.

746. Quality of Care Assessment and Assurance (3)

Prerequisite: Public Health 647B.

Methods for development and evaluation of quality assurance programs in health service organizations. Alternative methods of assessment. Evaluation of consumer, professional, institutional, and governmental responsibilities.

748. Health Services Competitive Strategy and Marketing (3)

Prerequisite: Public Health 644A.

Ways in which healthcare organizations can gain and sustain competitive advantage. Both organization and service level competition and strategies/tactics examined.

750. Advanced Field Practice (3-6) Cr/NC

Prerequisite: Public Health 650.

Advanced field instruction in public health setting. Intensification and continuation of application of public health principles and skills to public health problems. Maximum credit six units of Public Health 750 applicable to a master's degree.

- | | |
|--------------------------------|--|
| A. Epidemiology | E. Health Services Administration |
| C. Occupational Health | |
| D. Environmental Health | F. Health Promotion |

751. Studies in Perinatal and Reproductive Health (3)

Perinatal mortality and morbidity. Review of methods and findings in studies of reproductive exposures and outcomes.

761. Programming Health Promotion (3)

Prerequisites: Public Health 661 and 663.

Current programs, practices, and problems in health promotion activities of hospitals, clinics, public health departments, and government. Issues necessitating health promotion programs. Formulation of effective promotion programming in various settings.

762. Behavioral Medicine (3)

Prerequisites: Public Health 661 and 662.

Behavioral management approaches to health care problems. Diseases and conditions that arise from physical, psychological and environmental causes; behavioral interventions that attenuate disease process and improve compliance.

797. Research (1-3) Cr/NC/RP

Prerequisite: Consent of instructor.

Research in one of the fields of public health. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff, to be arranged with the director and instructor.

Individual study. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

800. Seminar (1-9)

Prerequisite: Admission to the doctoral program.

Investigation of a particular topic or issue, emphasis on empirical research; topic to be announced in the Class Schedule. Maximum credit nine units applicable to a doctoral degree.

823. Case-Control Studies (3)

Prerequisites: Public Health 601, 602, 623, and 627. Recommended: Public Health 724.

Design, conduct, and analysis of case-control studies. Methodologic issues, control of biases and misclassification errors, proper use of interpretation of stratification and logistic regression in study of diseases of multifactorial etiology.

824. Cohort Studies (3)

Prerequisites: Public Health 601, 602, 623, and 627. Recommended: Public Health 724.

Design, analysis, and application of cohort studies. Cohort study designs, importance of time-varying exposures and outcomes, external and internal validity, and in-depth treatment of approaches to analysis based on cohort sampling methods.

825. Grantwriting in Epidemiology and Public Health (1-3)

Prerequisites: Public Health 601, 602, 623, 627, and 724.

Trains students to prepare NIH proposal. Students work with community-based organizations, faculty advisers, expert consultants, institutional review board, and SDSU Foundation personnel to complete research proposals and budgets.

897. Doctoral Research (1-15) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Independent investigation in the general field of the dissertation.

898. Doctoral Special Study (1-9) Cr/NC/RP

Prerequisite: Admission to the doctoral program.

Individual study in the field of specialization. Maximum credit nine units applicable to the doctoral degree.

899. Doctoral Dissertation (3-15) Cr/NC/RP

Prerequisites: An officially constituted dissertation committee and advancement to candidacy.

Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

Regulatory Affairs

In the Center for Bio/Pharmaceutical and Biodevice Development
and the College of Sciences

Faculty Members of the Center for Bio/Pharmaceutical and Biodevice Development

- *A. Stephen Dahms, Ph.D., Professor of Chemistry, Director, Center for Bio/Pharmaceutical and Biodevice Development
- *Larry E. Gundersen, Ph.D., Senior Staff Scientist (equivalent rank of Professor), Director, Regulatory Affairs Program
- *Robert Wang, Ph.D., Senior Staff Scientist (equivalent rank of Professor), Director, Corporate Affairs, Associate Director, Center for Bio/Pharmaceutical and Biodevice Development

* Serves on the Faculty Governing Board which makes recommendations on admissions and curriculum.

General Information

The Center for Bio/Pharmaceutical and Biodevice Development offers an interdisciplinary advanced degree program that focuses on training students in areas related to development, manufacturing, and marketing of biotechnological, biopharmaceutical, pharmaceutical, in vitro diagnostic and medical device products. As an administrative, instructional, and research entity, the Center integrates faculty and programs from various departments. The Center addresses research and workforce needs of companies as they make the transition from research and development to manufacturing and production, including the legal, ethical, and regulatory elements that both guide and restrict the industry.

Master of Science Degree in Regulatory Affairs

(Offered only through the College of Extended Studies)

The coursework in this curriculum is offered only in special sessions that generally are during the semester calendar. Students in special session courses enroll through the College of Extended Studies and follow a fee structure that is different from that for regularly matriculated students. For more information, contact the Director of the Center or call the College of Extended Studies.

This degree program will provide a comprehensive background in regulatory science with the additional training and experience required of regulatory affairs professionals to address federal and state regulatory statutes and laws with emphasis on the Food and Drug Administration. The degree is offered through the College of Sciences.

The degree offering focuses on laws and regulations imposed by the Federal government, especially the Food and Drug Administration,

related to drug discovery, development, testing, and manufacture of products for commercial distribution. Also included are requirements for ongoing post-marketing surveillance. The degree program will provide students with detailed knowledge and understanding of current regulations and their practical application to the development and commercialization of drug, biologics, and medical device products. Also incorporated into the degree program are business administration courses that will provide students with communication and management skills essential for the successful regulatory affairs professional in an industry work environment.

Admission to Graduate Study

All students must satisfy the general admission and examination requirements for admission to the University with classified graduate standing, as described in Part Two of the Bulletin of the Graduate Division. In addition, the applicant must satisfy the following requirements before being considered for admission to classified graduate standing by the admissions review committee of the Center:

1. Submit scores on the GRE General Test (verbal and quantitative portions only).
2. Have three letters of recommendation sent from persons who are knowledgeable about the candidate's potential for success in graduate study.
3. Submit an Applicant Essay that describes the applicant's purpose in pursuing graduate studies in regulatory affairs and relationship to personal and career objectives.
4. List any employment or volunteer experience relevant to the proposed new degree major program.

Candidates for admission will typically come from one of the disciplines offered in the life and physical sciences and engineering. In some cases, candidates who have not fully completed the undergraduate requirements may be admitted with conditionally classified standing, subject to space availability, after consideration of those who meet the requirements for classified graduate standing. Students so admitted will be advised as to the nature of their deficiency and the time allowed to achieve full classified graduate standing. If the student's undergraduate preparation is insufficient, the student will be required to take courses for removal of the deficiency. Courses taken to make up such deficiencies are in addition to the minimum units for the master's degree and may not be included on the student's program of study.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 49045)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program consisting of a minimum of 40 units as follows:

1. Complete 25 units of required courses.
 - RA 601 Pharmaceutical, Biotechnology and Medical Device Industries (3)
 - RA 602 Food and Drug Law (3)
 - RA 705 Project Planning for the Biomedical Industries (3)

- MGT 701 Organizational Theory and Design (3)
- MGT 721 Seminar in Group Processes and Leadership (3)
- MGT 741 Seminar in Organization Power and Politics (3)
- IDS 744 Seminar in Quality and Productivity Management (3)
- IDS 754 Seminar in Operations Planning and Strategy (3)

CATEGORY C

Selected courses at California Western School of Law.

Courses Acceptable on Master's Degree Program in Regulatory Affairs (R A)

GRADUATE COURSES

601. Pharmaceutical, Biotechnology, and Medical Device Industries (3)

Prerequisite: Chemistry 361A or 365.

Pharmaceutical, biotechnology, and medical device industries. Company organization and product development and commercialization associated activities, e.g., drug discovery, chemical synthesis, quality assurance, regulatory affairs, manufacturing, control and marketing. (Formerly numbered Regulatory Affairs 573.)

602. Food and Drug Law (3)

Prerequisite: Regulatory Affairs 601.

Laws governing drug, biological, and medical device products. Discussion of Federal Food, Drug, and Cosmetic Act, U.S. Public Health Service Act, Title 21 Code of Federal Regulations, and various amendments. (Formerly numbered Regulatory Affairs 575.)

696. Advanced Topics in Regulatory Affairs (1-4)

Prerequisite: Regulatory Affairs 602.

Selected topics in regulatory affairs. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

705. Project Planning for the Biomedical Industries (3)

Prerequisite: Regulatory Affairs 601.

Complexity of biomedical product development. Projects and strategies for effectively planning and managing them. Understanding and utilization of management and planning strategies as applied to these biomedical product development projects. Strategies for planning, scheduling, and effective management of regulatory affairs activities and related tasks associated with development of a biomedical product.

770. Current Good Manufacturing Practices — General Concepts (3)

Prerequisite: Regulatory Affairs 602.

Current Good Manufacturing Practice regulations to assure quality of marketed products. Application to manufacturer's organization, personnel, facilities, equipment, control systems, production, process controls, laboratory procedures and records.

771. Current Good Manufacturing Practices — Advanced Topics (3)

Prerequisite: Regulatory Affairs 770.

Expanded analysis of current Good Manufacturing Practice regulations to assure quality of marketed drug and biological products. Discussions of FDA methods of enforcement by inspections of manufacturing establishments.

772. Post-Approval Activities, Including FDA Advertising, Promotion, and Labeling (3)

Prerequisite: Regulatory Affairs 602.

FDA and FTC rules and regulations governing advertising, promotion, and labeling for prescription drugs, biologics, medical devices, and over-the-counter drugs.

773. Medical Device Regulations (3)

Prerequisite: Regulatory Affairs 602.

Laws and FDA regulations for medical devices, in vitro diagnostics, radiological devices, FDA jurisdiction, registration, listing labeling requirements, classification, Investigational Device Exemptions (IDE), premarket approval (PMA) and premarket notification (510(R)).

774. Investigational and Marketing Applications for Drugs, Biologics, and Medical Devices (3)

Prerequisite: Regulatory Affairs 602.

Development and informational content for investigational new drug applications (IND), investigational device exemptions (IDE), new drug applications (NDA), product license applications (PLA), and biologics license applications (BLA) for FDA review.

775. Clinical Trials: Issues in Design, Conduct, and Evaluation (3)

Prerequisite: Regulatory Affairs 602.

Issues and requirements in design, conduct, and evaluation of clinical trials for new drugs, biologics, and medical devices. Introduction to biostatistics.

776. Validation Aspects of Drugs, Biologics, and Device Product Development and Manufacturing, Including Computer Related Systems and Software (3)

Prerequisite: Regulatory Affairs 602.

Verification and validation of computer hardware, software, and peripherals for applications in pharmaceutical, biologic, and medical device industries.

778. Quality Control and Quality Assurance: Pharmaceuticals, Biologics, and Medical Devices (3)

Prerequisite: Regulatory Affairs 602.

Review requirements, procedures, controls, and documentation for quality control and assurance in manufacture and commercial distribution of drugs, biologics, and medical devices.

797. Research (1-3) Cr/NC/RP

Prerequisite: Advancement to candidacy.

Research in the area of regulatory sciences. Maximum credit six units to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of thesis or project for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC/RP

Prerequisite: Prior registration in Thesis 799A with an assigned grade of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also students must be registered in the course when the completed thesis or project is granted final approval.

Faculty

Linda D. Holler, Ph.D., Associate Professor of Religious Studies, Chair of Department

Risa Levitt Kohn, Ph.D., Associate Professor of Religious Studies

Rebecca E. Moore, Ph.D., Assistant Professor of Religious Studies

General Information

The department offers advanced coursework in religious studies which may be used toward fulfilling advanced degree requirements in Interdisciplinary Studies and in other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES (REL S)

580. Major Figure (3)

Prerequisite: Three units of religious studies.

Life, works and significance of one major figure in a religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

581. Major Theme (3)

Prerequisites: Three units of religious studies and upper division or graduate standing.

Advanced systematic study of a theme or motif selected from major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

582. Major Text (1-3)

Prerequisites: Three units of religious studies and upper division or graduate standing.

Advanced systematic study of a selected scripture or classic text(s) selected from one of the major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

583. Major Tradition (3)

Prerequisites: Three units of religious studies and upper division or graduate standing.

Advanced systematic study of the doctrines, practices, and development of a major religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Advanced Topics in Religious Studies (1-3)

Prerequisite: Consent of instructor.

Advanced selected topics in religious studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES (REL S)

696. Seminar in Selected Topics (3)

Prerequisite: Twelve upper division units in religious studies.

Directed research in a major problem or movement in religious studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30 unit master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisites: Twelve upper division units in religious studies and consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

Studies

Associateships

Graduate teaching associateships in rhetoric and writing studies are available to a limited number of qualified students from departments offering graduate degrees. With the guidance of department faculty, teaching associates teach in the lower division writing program. Application forms and additional information may be secured from the Department of Rhetoric and Writing Studies.

General Information

The Department of Rhetoric and Writing Studies, in the College of Arts and Letters, offers graduate study leading to the Master of Arts degree in rhetoric and writing studies. Rhetoric and composition is a field of theory, research, and teaching concerned broadly with literacy and written discourse. It emphasizes the centrality of discourse (primarily written discourse) to all processes of learning, knowledge formation, socialization into disciplinary and cultural communities, and professional work. The program builds on the diverse interests of faculty in the Department of Rhetoric and Writing Studies to bring together rhetorical theory, history of rhetoric, composition studies, literacy, writing pedagogy, discourse theory, technical and professional writing, and writing in the disciplines to provide a coherent platform for inquiry into the diverse ways in which literacy and writing are used in academic, professional, and cultural contexts.

The Master of Arts degree in rhetoric and writing studies is a 30-unit program that provides preparation for students wanting to pursue doctoral-level study in the area of rhetoric and writing studies or in related disciplines or for students who plan to terminate their studies at the M.A. level. In addition to a general program, the curriculum also offers specializations in the teaching of writing and in technical and professional writing.

The specialization in the teaching of writing prepares students to teach writing in colleges and furthers the professional development of secondary school teachers. The specialization in technical and professional writing prepares students for careers as professional writers in business, industry, public agencies, and government within the

broader disciplinary context of rhetoric and writing studies, as well as to teach technical and professional writing at colleges or in specific training settings.

The program includes a teaching internship for students in the teaching of writing specialization and a technical writing internship for students in the technical and professional writing specialization and, where appropriate, special study based on work experience.

Master of Arts Degree in Rhetoric and Writing Studies

Admission to Graduate Study

Students will be admitted in both the fall and spring semesters. Applications should be submitted by April 1 for the fall and by October 1 for the spring.

To be admitted into the program, students must satisfy the general requirements for admission to graduate study at the University with classified graduate standing, as described in Part Two of this bulletin. In addition applicants must have a GPA of at least 3.0 in the last 60 semester units (90 quarter units) attempted in their bachelor's degree studies.

Applicants should electronically submit the University application available at www.csumentor.edu.

In addition, applicants should submit the following materials directly to the Department of Rhetoric and Writing Studies:

- (1) Two sets of official transcripts from all academic institutions attended (in sealed envelopes);
- (2) GRE scores (official notification) (or TOEFL scores for international students);
- (3) Letter of application;
- (4) A 750-1000 word statement of purpose;
- (5) A writing sample (minimum 10 pages);
- (6) Three letters of recommendation.

These materials should be mailed to:
Department of Rhetoric and Writing Studies
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4452

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement, as stated in Part Two of this bulletin. With the approval of the graduate adviser, each candidate may fulfill the foreign language requirement in one of several ways: 1) by passing a local examination administered by one of the University's foreign language departments, 2) by completing one three-unit upper division foreign language or literature course with a grade of C or better, or 3) by passing an examination to be determined by the graduate adviser if the chosen language is not one taught in a department at San Diego State University.

Specific Requirements for the Master of Arts Degree in Rhetoric and Writing Studies

(Major Code: 15013)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, a student must complete a program of study approved by the department's graduate adviser. The program must consist of at least 30 units, with at least 18 units of 600- and 700-level courses.

General Program

Required courses (18 units):

RWS 600	Writing, Knowledge, and Culture (3)
RWS 601	History of Rhetoric (3)
RWS 602	Modern Rhetoric and Composition Studies (3)
RWS 744	Seminar: Issues in Rhetorical Theory and Practice (3)
RWS 745	Advanced Seminar: Research Methods in Rhetoric and Writing (3)
RWS 799A	Thesis or Project (3) Cr/NC/RP

Electives (12 units)

Twelve units of thematically focused electives selected with the approval of the Department of Rhetoric and Writing Studies graduate adviser.

Specialization in the Teaching of Writing

Required courses (24 units):

RWS 600	Writing, Knowledge, and Culture (3)
RWS 601	History of Rhetoric (3)
RWS 602	Modern Rhetoric and Composition Studies (3)
RWS 609	Seminar in Theory and Practice of Teaching Composition (3)
RWS 744	Seminar: Issues in Rhetorical Theory and Practice (3)
RWS 745	Advanced Seminar: Research Methods in Rhetoric and Writing (3)
RWS 796A	Teaching Internship (3) Cr/NC
	or
RWS 798	Special Study (based on work experience, where appropriate and with the approval of the Department of Rhetoric and Writing Studies graduate adviser) (3) Cr/NC/RP
RWS 799A	Thesis or Project (3) Cr/NC/RP

Electives (6 units)

Six units of thematically focused electives selected with the approval of the Department of Rhetoric and Writing Studies graduate adviser.

Specialization in Technical and Professional Writing

Required courses (24 units):

RWS 503W	Technical Writing (3)
RWS 504	Problems in Technical Communication (3)
RWS 600	Writing, Knowledge, and Culture (3)
RWS 601	History of Rhetoric (3)
RWS 602	Modern Rhetoric and Composition Studies (3)
RWS 745	Advanced Seminar: Research Methods in Rhetoric and Writing (3)
RWS 796B	Writing Internship (3)
	or
RWS 798	Special Study (based on work experience, where appropriate and with the approval of the Department of Rhetoric and Writing Studies graduate adviser) (3) Cr/NC/RP
RWS 799A	Thesis or Project (3) Cr/NC/RP

Electives (6 units)

Six units of thematically focused electives selected with the approval of the Department of Rhetoric and Writing Studies graduate adviser.

Advanced Certificate in Technical and Scientific Writing

The purpose of this certificate program is to prepare students for careers in technical and scientific writing, or for other careers where advanced writing and document design skills are desirable. The program is designed both for students working on degrees in technical or non-technical fields and for professionals seeking career advancement or change.

Applicants to the program must have completed a bachelor's degree from an accredited institution and must have excellent general writing skills (in specific cases, applicants may be required to take additional coursework to improve writing proficiency) and basic computer literacy.

Students in the program will complete 21 units of coursework approved by the director of the program. A minimum grade point average of 3.0 or better must be maintained in certificate coursework, with no less than a C grade in any course. All courses completed with a grade of B or better are applicable to the Master of Arts degree in rhetoric and writing studies with a specialization in technical and professional writing. For further information, contact the Department of Rhetoric and Writing Studies.

Required Courses: (9 units)

Rhetoric and Writing Studies 503W, Technical Writing
Rhetoric and Writing Studies 504, Problems in Technical Communication
Rhetoric and Writing Studies 605, Writing Project Management

Recommended Electives: (12 units)

Rhetoric and Writing Studies 500W, Advanced Composition
Rhetoric and Writing Studies 501, Editing
Rhetoric and Writing Studies 502, Tools for Technical Communicators
Rhetoric and Writing Studies 506, Writing Internship
Rhetoric and Writing Studies 507, Technical Communications in Nonprofit Organizations
Rhetoric and Writing Studies 508, Scientific Writing
Rhetoric and Writing Studies 511, Literacy, Rhetoric, and Technology
Rhetoric and Writing Studies 608, Scientific Writing

Other electives may be selected with the approval of the program director. A maximum of six units of transfer credit may be applied to the program. Students should consult with the program director before selecting any courses so that an individualized program of study can be developed.

Courses Acceptable on Master's Degree Program in Rhetoric and Writing Studies

(RWS)

UPPER DIVISION COURSES

500W. Advanced Composition (3) I, II

Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. **Proof of completion of prerequisites required:** Test scores or verification of exemption; copy of transcript.

The theory and practice of expository writing, including the contributions of semantics, rhetoric, and logic.

501. Editing (3) I

Prerequisites: Rhetoric and Writing Studies 305W or 500W.

Fundamentals of professional editing. Functions of an editor. Document development, style, and style guides. Editing tools and technologies. Preparing text for publication and production.

502. Tools for Technical Communicators (3) I, II

Prerequisite: Rhetoric and Writing Studies 503W.

Fundamental software tools for technical communicators. Electronic document style and format. Preparing text electronically for publication and production. Developing on-line and Internet documentation. Rhetorical issues in electronic writing technologies.

503W. Technical Writing (3) I, II, S

Prerequisites: Rhetoric and Writing Studies 200. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. **Proof of completion of prerequisites required:** Test scores or verification of exemption; copy of transcript.

Principles and practices of writing required in technical and scientific fields or professions, including technical writing style and rhetorical strategies of designing technical documents.

504. Problems in Technical Communication (3) II

Prerequisite: Rhetoric and Writing Studies 503W. Recommended: Graphics or drawing course.

Problems in technical writing, including graphics, printing, and reproduction of technical documents; types of technical communication, including reports, manuals, and proposals; manuscript editing and proofreading; audience analysis and readability; writing and recognition of clear technical prose.

506. Writing Internship (3) Cr/NC I, II, S

Prerequisites: Consent of instructor and successful completion of a 500-level writing course with a grade of B or better.

Intensive experience in writing and editing documents while student is under the joint supervision of an academic instructor and a professional coordinator.

507. Technical Communications in Nonprofit Organizations (3) II

Prerequisite: Rhetoric and Writing Studies 503W.

Developing specific technical communication skills for nonprofit organizations. Learning nonprofit documentation: proposals, mission statements, advertising, member surveys, capital campaigns. Promoting volunteerism. Interacting with nonprofit boards. Adhering to requisite state and federal regulations.

508. Scientific Writing (3)

Prerequisite: Upper Division Writing requirement for undergraduates. **Proof of completion of prerequisite required:** Test scores or verification of exemption; copy of transcript. Intended for those entering a career in scientific writing.

Developing specific writing skills for scientific research and communication. Learning scientific documentation: research paper, case report, review, abstract, promotional material. Adhering to standards and regulations.

509. Introduction to the Teaching of Composition (3) I, II

Prerequisite: Consent of instructor based on writing sample and/or test.

Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

511. Literacy, Rhetoric, and Technology (3)

Role that technologies of communication have played in concepts of language, literacy, and cognition. Histories and theories of literacy (with emphasis on rhetorical tradition), and their relevance to research on electronic text.

596. Special Topics in Rhetoric and Writing Studies (1-3)

Prerequisite: Consent of instructor.

Selected topics in rhetoric and writing studies. May be repeated with new content and consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six

units of 596 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Writing, Knowledge, and Culture (3)

Intersection of language, epistemology, and culture. Role of written language in the formation of community knowledge, identity, norms, and values.

601. History of Rhetoric (3)

Selected major works on rhetoric from antiquity through nineteenth century. How these works inform pedagogy and public life. Relationship of historical texts to contemporary rhetorical practices. (Formerly numbered Rhetoric and Writing Studies 741.)

602. Modern Rhetoric and Composition Studies (3)

Twentieth century rhetoric and composition theory, and their relationship to study and teaching of written discourse. (Formerly numbered Rhetoric and Writing Studies 742.)

605. Writing Project Management (3)

Prerequisites: Rhetoric and Writing Studies 503W and 504.

Managing technical documentation projects. Collaborative writing. Managing writing teams. Conducting task analysis, estimating cost and schedule, preparing document plans, gathering information, testing documents, and managing project documentation. (Formerly numbered Rhetoric and Writing Studies 505.)

608. Scientific Writing (3)

Prerequisite: Rhetoric and Writing Studies 503W. Intended for advanced students in the sciences.

Developing specific writing skills for a career in scientific and medical communication. Learning scientific documentation process: creating persuasive technical documents, building complex facts into coherent messages, adhering to standards and regulations, and contributing to the effective marketing of new products with promotional pieces that meet legal and ethical standards.

609. Seminar in Theory and Practice of Teaching Composition (3)

Research and theory in field of teaching composition. Links research to classroom practice. Prepares students to teach composition at SDSU and other post-secondary settings. Prerequisite for teaching associateships in Rhetoric and Writing Studies.

696. Topics in Rhetoric and Writing Studies (3)

Intensive study in specific areas of rhetoric and writing studies. May be repeated with new content and consent of instructor. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

744. Seminar: Issues in Rhetorical Theory and Practice (3)

Prerequisites: Rhetoric and Writing Studies 600, 601, 602.

Problems in teaching of rhetoric and writing, both practical and theoretical. Advanced study of topics such as teaching practices, genres, stylistics, or a major figure. May be repeated with new content. Maximum credit six units.

745. Advanced Seminar: Research Methods in Rhetoric and Writing (3)

Prerequisites: Rhetoric and Writing Studies 600, 601, 602.

Research methods and critical approaches common to advanced graduate study of rhetoric and writing, with attention to basic reference works, scholarly journals, bibliographical techniques. Recommended for students planning a thesis within the rhetoric and writing emphasis in English.

796A. Teaching Internship (3) Cr/NC

Prerequisite: Completion of Rhetoric and Writing Studies 609 and consent of graduate adviser.

Teaching experience while student is under joint supervision of college-level teacher and academic instructor. Maximum credit three units. (Formerly numbered Rhetoric and Writing Studies 796.)

Rhetoric and Writing Studies

796B. Writing Internship (3)

Prerequisites: Rhetoric and Writing Studies 501, 503W, 504, 600, 601, 602, and consent of graduate director.

Intensive experience in writing and editing documents while student is under joint supervision of an academic instructor and a professional coordinator. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

General Information

The Department of European Studies offers coursework in Russian which may be used toward fulfilling advanced degree requirements in Interdisciplinary Studies and other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES (RUSSN)

501. Translation (3)

Prerequisite: Russian 301.

Comparison of Russian and English through translation of a variety of texts from Russian to English and from English to Russian.

555. Russian Literature of the Nineteenth Century (3)

Prerequisite: Russian 200B.

Development of Russian novel, short story, drama and poetry of the nineteenth century.

563. Russian Literature of the Twentieth Century (3)

Prerequisite: Russian 200B.

Poetry, prose and drama of the twentieth century.

580. Russian Syntax and Stylistics (3)

Prerequisite: Russian 301. **Proof of completion of prerequisite required:** Copy of transcript.

The structure of contemporary Russian.

596. Topics in Russian Studies (3) I, II

Prerequisite: Russian 305B (for literary topics). **Proof of completion of prerequisite required:** Copy of transcript.

Topics in Russian language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES (RUSSN)

Master of Social Work Degree

General Information

The School of Social Work offers a two year full-time or three/four year part-time accredited graduate program leading to a Master of Social Work degree. The program qualifies students to apply for the Licensed Clinical Social Worker (LCSW) certification process by the Board of Behavioral Science Examiners of the State of California.

The goal of the Master of Social Work program is the education of advanced social work practitioners that enables them to provide services that assure people equal access to resources, programs, and opportunities; assist individuals in the accomplishment of life tasks, the alleviation of individual and social distress and the realization of aspirations as they relate to oneself, others and the society as a whole; and finally, because of its special geographic location in the Southern California border region, the school seeks to prepare professionals who will work with the predominate ethnic minority groups of the region in order to enhance the quality of life for economically disadvantaged groups. Special emphasis is currently given to those human needs that relate to the continuum of health care and well-being, families in transition, and social/environmental factors that create stress as it relates to individuals and groups in the home, workplace, and community.

The program is organized around student experience in a generalist social work foundation in their first year, a field of service focus area (Aging/Health, Mental Health or Children, Youth and Families), and a methods focus (direct practice or administration) in their second year. The school is extensively involved in local, state and national human service issues through individual faculty research and community intervention programs. In addition, the school has made commitments in the area of chemical dependency research and practice through the Center on Substance Abuse and policy research and intervention through the Social Policy Institute.

Admission to Graduate Study

The School of Social Work admits new students to the MSW program only in the Fall of each academic year. New students are not admitted to the program during the Spring semester. To be guaranteed a space in the two year program, new students must apply between November 1 and February 1 of the year before they desire entry. Applications received after the February 1 deadline but before April 30 will be considered on a space available basis. Students currently enrolled or on leave of absence from CSWE accredited schools of social work are considered transfer students and can apply to the program for either fall or spring admission.

All applicants must file two separate applications: one to the Office of Graduate Admissions and one to the School of Social Work. The School of Social Work will not consider any applicant who has not filed both required applications. Specific University admission requirements and procedures are outlined in Part Two of this bulletin. Specific School of Social Work requirements and procedures are outlined in the admissions packet as well as on the School of Social Work home page at www.sdsu.edu (click on S for social work in the alphabetical listing of departments).

Please be advised that the School does not accept life/work experience in lieu of any course requirements. The School does not accept transfer credit based on life/work experience. Students will have to retake any courses for which life/work experience was counted.

In addition to the regular application material, the University requires all applicants to take the Graduate Record Examination for admission. Scores must be reported to both the University and the School of Social Work. Applicants will not be reviewed by the School unless GRE scores are on file. Applicants must have taken and successfully passed one course in statistics or liberal arts foundation at the undergraduate or graduate level.

The School cannot accept any student into the program until the University has accepted them into graduate study. For this reason, we urge interested students to submit both applications as early as possible. Students who are qualified for admission but who submit applications after all students have been accepted are placed on a waiting list and can be admitted up until August 1.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must: (1) have earned at least 24 units of postbaccalaureate study with a minimum grade point average of 3.0 (B) and received

credit (Cr) in field practicum; (2) have no incomplete grades; (3) be recommended by the faculty of the School of Social Work; (4) be approved for advancement by the Graduate Division; (5) successfully pass a written qualifying examination given during the Spring semester in which the student will complete the 31 units of first year coursework.

Specific Requirements for the Master of Social Work Degree

(Major Code: 21041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree in Part Two of this bulletin, the student must complete an officially approved 60 unit course of study including: (1) six units in social policy and services (Social Work 601 and Social Work 702B, 702C, or 702D); (2) nine units in human behavior and the social environment (Social Work 619, 620A or 620B and 720); (3) 15 units of social work practice (Social Work 630, 631, 632, 739 or 740, and 744 or 745); (4) six units of research (Social Work 690 and 791A or 791B); (5) 15 units of practicum (Social Work 650 and 750A or 750B); (6) three units of computer applications in social work (Social Work 610); and (7) six units of electives (Plan B students); (three units of electives and Social Work 799A (Plan A students). Within the 60-unit official program, students must complete (1) 25 units in generalist/foundation courses (Social Work 601, 619, 630, 631, 632, 650, 690); (2) 12 units in a field of service (Social Work 702B, 702C, or 702D; Social Work 720, and two elective courses); students in the administration focus have the option to take the elective courses within a field of service or with the consent of the graduate adviser to take coursework related to their methods focus; (3) 20 units in a Social Work Methods Focus Area (Direct Practice or Administration).

Direct Practice

SWORK 620A (3)
SWORK 739 (3)
SWORK 744 (3)
SWORK 750A (8)
SWORK 791A (3)

Administration

SWORK 620B (3)
SWORK 740 (3)
SWORK 745 (3)
SWORK 750B (8)
SWORK 791B (3)

The above courses exclude Social Work 610, 799A, 799B.

In addition, students must complete either a Thesis (Plan A) or a comprehensive written examination (Plan B)

At least 30 units of the program must be completed in residence at San Diego State University. A maximum of 30 units is transferable from another accredited graduate program in social work.

Six units of elective credit may be taken from other schools or departments within the University with the permission of the graduate adviser. See Student Handbook for specific elective policies.

To receive the degree, students must earn a 3.0 (B) grade point average in academic courses and demonstrate professional competence for required practicum (Cr for all semesters).

In addition, students must adhere to the NASW Code of Ethics. This document is included in the student handbook and all students must adhere to its principles of professional conduct. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework, research, or other academic achievement.

Student Handbook

The School of Social Work has a student handbook for graduate students. The handbook contains policies and procedures not specified in this bulletin in addition to information to aid students in completing the MSW degree program. Students must purchase a revised handbook at the beginning of fall as long as they are in the program. Handbooks are on sale at the SDSU Bookstore under Social Work, and available on the social work Web site.

Program of Study

The program is organized in the first year around a generalist/foundations first semester and a mixed generalist, and methods focus area in the second semester. The second year program is organized around a field of service focus area and a methods focus area.

Students will select one methods focus area during their second semester in the program and one field of service focus area in their third semester in the program. The following field of service focus areas and methods focus areas are available in the program.

Methods Focus Areas

Direct Practice Social Work

Focus is on interpersonal conflicts and social functioning with emphasis on appropriate intervention methods used primarily with individuals, families, and groups. Emphasis is placed on a problem-solving framework that utilizes assessment/diagnosis, intervention/treatment and evaluative skills.

Social Work Administration

Focus is on intervention in inter- and intra-organizational functioning of social welfare agencies. Particular emphasis is placed on intervention in problems of organizational administration and development of voluntary and public social agencies. The skills emphasized include service delivery design, budgeting, team building and organizational decision making.

Fields of Service Focus Areas

Social Work in Mental Health

This focus area addresses human and institutional problems related to personal and family dysfunction reflected in acute life crises, and emotional/behavioral/mental disorders. The objective is social work knowledge and skill development in interdisciplinary community mental health planning, practice and research, with emphasis on roles and modalities of intervention which promote mental health, prevent mental disabilities, and treat personal and family dysfunctions.

Social Work in Health and Aging

This focus area addresses a range of emerging and established social work roles, modalities and strategies, applied collaboratively with other disciplines in health promotion, prevention and treatment of psychosocial components of illness in individuals (with emphasis on children and the aged), families and groups. Humanizing health care through consumer advocacy, policy and program development, planning and administration is emphasized. The focus area addresses the implications of changing demography, characteristics and needs of elderly, functional and dysfunctional elements in service systems, and personal/social significance of life cycle changes.

Social Work with Children, Youth, and Families

This focus area addresses social work professional roles in delivery of service to children, youth, and families in public and voluntary social agencies. The functional and dysfunctional aspects of socialization processes and institutional influences on children and families are reviewed with respect to interventive strategies, social policy issues, and program development.

Master of Social Work and Juris Doctor Degree

General Information

The School of Social Work and the California Western School of Law offer a four-year concurrent graduate program which allows students to earn simultaneously a Master of Social Work and a Juris Doctor (JD) degree in law. The objective of the concurrent degrees program is to prepare students who are competent in advanced practice where social work and law converge.

Admission to Graduate Study

To request application materials for the concurrent dual degrees program in social work and law, applicants should contact the Office of Admissions at the School of Social Work, San Diego State University, and the Office of Admissions at California Western School of Law. Two separate application processes must be followed. Please see the Admission to Graduate Study section in this bulletin under the Master of Social Work degree program. (The only difference is that students earning the two degrees simultaneously may substitute the results of the LSAT examination for the GRE examination.) Applicants should indicate on the appropriate section of each application that they are applying for the concurrent dual degrees MSW/JD program. Please contact the MSW/JD program coordinator at California Western School of Law at (619) 525-1463 for more specific information about admissions processes and requirements.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students must also meet all criteria outlined under the Advancement to Candidacy section for the Master of Social Work program.

Specific Requirements for the MSW/JD Concurrent Degree Program

(Major Code: 21045)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin and all requirements listed in the California Western School of Law catalog for the JD degree, the student must complete an officially approved course of study as outlined below.

School of Social Work (60 Units—Including six units transferred from California Western School of Law)

SWORK 601	Seminar in Social Welfare Policy and Services (3)
SWORK 619	Human Behavior in the Social Environment (3)
SWORK 620A or 620B	Seminar in Human Behavior and the Social Environment (3)
SWORK 630	Social Work Practice: A Generalist Perspective (3)
SWORK 631	Social Work Practice: Individuals, Families, and Groups (3)
SWORK 632	Social Work Practice: Organizations and Communities (3)
SWORK 650	Field Practicum (7) Cr/NC
SWORK 690	Seminar in Social Work Research Methods (3)
SWORK 702D	Seminar in Social Welfare Policy and Services: Children, Youth, and Families (3)
SWORK 720	Seminar in Selected Topics in Human Behavior and Social Environment (3)
SWORK 750	Advanced Field Practicum (8) Cr/NC
SWORK 797	Research (3) Cr/NC/RP
SWORK 799A	Thesis (3) Cr/NC/RP

Electives: Six units transferred from California Western School of Law courses and six units in a second year practice concentration.

Direct Practice	OR	Administration
SWORK 739 (3) SWORK 744 (3)		SWORK 740 (3) SWORK 745 (3)

California Western School of Law (89 Units—Including 12 units transferred from the School of Social Work)

- Civil Procedures I and II (6)
- Contracts I and II (6)
- Criminal Law I (3)
- Legal Skills I and II (4)
- Property I and II (6)
- Torts I and II (6)
- Constitutional Law II (3)
- Criminal Procedure I (3)
- Evidence (4)
- Professional Responsibility (2)
- Interdisciplinary Program for Child Abuse and Neglect (6)
- Independent Study (3)
- Internship (5)
- Electives: 32 units (includes 12 units from SDSU)

The specific sequence of courses over the four year period is listed in the admissions material. Students attend the schools in the following pattern:

- Year 1 California Western School of Law only
- Year 2 San Diego State University School of Social Work only
- Year 3 (Fall) Both Schools
- Year 3 (Spring) California Western School of Law only
- Year 4 Both Schools

Master of Social Work and Master of Public Health Degrees

General Information

The School of Social Work and the Graduate School of Public Health offer a three year concurrent graduate program leading to a Master of Social Work and a Master of Public Health. The objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community.

Admission to Graduate Study

For additional admission information refer to Admission to Graduate Study for the MSW. In order to be considered for the concurrent MSW/MPH program, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a minimum 2.75 grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, social or behavioral sciences, or health science.
3. A satisfactory score on the GRE General Test. Applicants already holding another master's degree or higher degree from an acceptable accredited graduate school are exempt from the GRE.
4. Submit a narrative statement as described in Instructions for Applicants.
5. Submit three letters of recommendation.

A committee composed of faculty from Social Work and Public Health will make all admission recommendations to the Dean of the Graduate Division.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. All core courses in social work and public health must be completed prior to advancement. In addition, the student must: (1) have earned at least 24 units of graduate study within the concurrent program with a minimum grade point average of 3.0 and no grade less than a B- in each core course (applies to Public Health courses only); (2) have been recommended for advancement by the combined faculty advisory committee; received credit (Cr) in field practicum; (3) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Social Work 797 (Research), Public Health 797 (Research), and Social Work 799A (Thesis) or Public Health 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MSW and MPH degrees.

Specific Requirements for the MSW/MPH Degree

(Major Code: 12991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 83 units as outlined below.

Social Work/Public Health-Health Services Administration

Courses prerequisite to the program are Public Health 640 and Business Administration 650 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

BA 650	Financial Accounting (3)
PH 640	Public Issues in Financing Health Care (3)
SWORK 601	Seminar in Social Welfare Policy and Services (3)
SWORK 619	Human Behavior in the Social Environment (3)
SWORK 620B	Seminar in Human Behavior and Social Environment: Administration (3)
SWORK 630	Social Work Practice: A Generalist Perspective (3)
SWORK 631	Social Work Practice: Individuals, Families, and Groups (3)
SWORK 632	Social Work Practice: Organizations and Communities (3)
SWORK 650*	Field Practicum (7) Cr/NC
SWORK 690	Seminar in Social Work Research Methods (3)
SWORK 702C	Seminar in Social Welfare Policy and Services: Health and Aging (3)
SWORK 740	Advanced Seminar in Social Work Administration (3)
SWORK 745	Advanced Seminar in Selected Topics in Social Work Administration (3)
SWORK 750B*	Advanced Field Practicum: Social Work Administration (8) Cr/NC
SWORK 797	Research (3) Cr/NC/RP
PH 601	Epidemiology (3)
PH 602	Biostatistics (3)
PH 604	Environmental Determinants of Human Health (2)

PH 641	Introduction to Health Services (3)
PH 644A	Health Services Organizations (3)
PH 644B	Health Services Management (3)
PH 645	Health Economics (3)
PH 647A	Quantitative Methods and Health Data Analysis (3)
PH 742A	Health Services Financial Management (3)
PH 742B	Financing Health Systems and Services (3)
PH 797	Research (3) Cr/NC/RP
PH 799A or SWORK 799A	Thesis (3) Cr/NC/RP

* Social Work 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in social work.

Transfer units will not be accepted toward the concurrent MSW/MPH degree program. Graduate study or degrees obtained previously will not be accepted toward meeting the unit requirements of the concurrent MSW/MPH degree program.

If a student after entering the concurrent MSW/MPH program returns to a single degree program, all the requirements for the single degree program must then be met.

Pupil Personnel Services Credential

The School of Social Work is accredited by the State of California Department of Education to offer the Pupil Personnel Services Credential in School Social Work and the Pupil Personnel Services Credential in Child Welfare and Attendance. The credentials can be awarded under two conditions:

1. As part of the regular MSW program being completed during the second year coursework. Students would be assigned to a second year SWORK 750A (Direct Practice/Children, Youth and Families) internship in an approved and supervised school placement. In addition, students must take SWORK 758 (School Social Work) as their Fall elective course, and SWORK 758 (Practice in the Educational Arena) as their Spring elective course.
2. As a post MSW student through the College of Extended Studies. Interested professionals must contact the PPS coordinator and apply for the program which consists of 14 units taken over two semesters beginning in the Fall of each year. The program includes SWORK 758 (School Social Work—3 units), SWORK 758 (Practice in the Educational Arena—3 units), and SWORK 750A (4 units) each semester. SWORK 750A is a 20-hour per week internship required to accumulate the necessary time for the credentials.

Admission

Current students interested in the PPS credential need only file the regular SWORK 750A application during the Spring semester prior to enrollment. Unless demand is high, students will generally be admitted to the credential program.

Post MSW students must obtain the information packet for SWORK 750 in February of the year they wish to begin the program. Post MSW students must then file the necessary application to the Coordinator of Field Education by the deadline date established for all students. In entering the program, admission is based upon available internship sites. Preference is given to current students. Official acceptance does not occur until late Spring when all current students have been placed.

For further information contact Dr. Daniel J. Finnegan, PPS Coordinator, (619) 594-6850, or email: dfinnega@mail.sdsu.edu.

Courses Acceptable on Master's Degree Programs in Social Work (SWORK)

UPPER DIVISION COURSE

596. Experimental Topics (1-4)

Selected topics in social work. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

601. Seminar in Social Welfare Policy and Services (3)

Social welfare as a social institution; philosophical, historical, and comparative analysis of the welfare functions, issues and problems in both policy and program development, implementation, and evaluation.

610. Computer Application in Social Work Practice (3)

Prerequisites: Social Work 631 and 632.

Computer technology in social work practice with emphasis on clinical and administrative applications, program monitoring, and support of service provision and delivery.

619. Human Behavior in the Social Environment (3)

Conceptual framework to view and interpret behavior and to understand functioning of individuals, families, groups, organizations, and communities within ecological systems.

620. Seminar in Human Behavior and Social Environment (3)

Prerequisite: Social Work 619.

Human behavior theories and concepts appropriate to a methods concentration.

- A. Direct Practice
- B. Administration

630. Social Work Practice: A Generalist Perspective (3)

Overview of generalist social work practice as a method and process. Generalist social work presented as a basic helping approach used to assist individuals, groups, families, organizations, and communities to achieve personal and social change.

631. Social Work Practice: Individuals, Families, and Groups (3)

Prerequisite: Social Work 630.

Preparation for direct intervention with individuals, families, and groups. (Formerly numbered Social Work 631A, 631B, 631C, 631D.)

632. Social Work Practice: Organizations and Communities (3)

Prerequisite: Social Work 630.

Theoretical knowledge of elementary organizational and interorganizational decision making in human service programs.

650. Field Practicum (3-8) Cr/NC

Prerequisite: Concurrent registration in Social Work 631 and 632.

Field instruction in public or voluntary social work setting. Seven units required. Maximum credit seven units. Experiences emphasize application of social work objectives, principles, and skills in service to individuals, families, groups, organizations, and communities.

690. Seminar in Social Work Research Methods (3)

Definition and purpose of research in social work. Techniques and methods used in collecting, organizing, and interpreting social welfare and related data; steps involved in planning a research project and selecting a research design.

696. Seminar on Selected Topics (3)

Intensive study in specific areas of social work. May be repeated with new content. See Class Schedule for specific content. Maximum credit of nine units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

702B. Seminar in Social Welfare Policy and Services: Mental Health (3)

Prerequisite: Social Work 601.

Policy and programs within the mental health field.

702C. Seminar in Social Welfare Policy and Services: Health and Aging (3)

Prerequisite: Social Work 601.

Policies and programs within the field of health and aging.

702D. Seminar in Social Welfare Policy and Services: Children, Youth, and Families (3)

Prerequisite: Social Work 601.

Policy and programs within children, youth, and families.

720. Seminar in Selected Topics in Human Behavior and Social Environment (3)

Prerequisite: Social Work 620A or 620B.

Selected topics related to current theories of natural and induced change in human behavior which have utility for social work practice within fields of service. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

739. Advanced Seminar in Social Work Practice with Families (3)

Prerequisites: Social Work 631, 632, and concurrent registration in Social Work 750A.

Family dynamics and social work practice related to family change.

740. Advanced Seminar in Social Work Administration (3)

Prerequisite: Social Work 631, 632, and concurrent registration in Social Work 750B.

Problems and roles of administrators in social agencies; administrative and organizational theories; executive functions of planning, budgeting, directing, reporting and staffing; multilevel relationships and communications.

744. Advanced Seminar in Selected Topics in Direct Practice Social Work (3)

Prerequisites: Social Work 739 and concurrent registration in Social Work 750A.

Study of a selected aspect of direct practice social work. Topics include treatment methodology, theoretical approaches, levels of practice, specific client groups, or special problem areas. See Class Schedule for specific content.

745. Advanced Seminar in Selected Topics in Social Work Administration (3)

Prerequisite: Social Work 740 and concurrent registration in Social Work 750B.

Study of a selected aspect of social work management in human services. Topics may cover such foci as program development, program evaluation, grant writing, resource development, financial management or management of nontraditional programs/projects. See Class Schedule for specific content.

750. Advanced Field Practicum (4-8) Cr/NC

Prerequisites: Social Work 650 and concurrent registration in Social Work 739 or 740 and 744 or 745.

Advanced field instruction in public or voluntary social work setting. Eight units required. Continuation and intensification of experiences in application of social work objectives, principles and skills in service to individuals, families, groups and communities related to:

- A. Direct Practice Social Work
- B. Social Work Administration

758. Seminar in Social Work and Selected Fields of Practice (1-3)

Traditional and emerging fields of practice and related social work responsibilities and roles. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

780. Seminar in Social Work and Selected Populations-at-Risk (3)

Social work practice with selected populations-at-risk such as one-parent families, children in institutions, ethnic minority immigrants, Native-Americans in the urban scene, and foreign-born brides of U.S. servicemen. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

781. Seminar on Selected Populations-at-Risk (3)

Knowledge about and analysis of selected populations-at-risk, social work responsibilities in emerging service demands by diverse and needful, high risk segments of the population in a complex society, and implications for social work practice. Population-at-risk for study to be announced in Class Schedule. May be repeated with new content. Maximum credit six units applicable to a master's degree.

791. Applied Social Work Practice Research Seminar (3)

Prerequisite: Social Work 690.

Preparation for practitioner-researcher role through application of social work research concepts and procedures in practice situations (in class and field) of interventions with individuals, families and groups or in community practice and management. Maximum credit three units of Social Work 791 applicable to a master's degree.

- A. Direct Practice Social Work
- B. Social Work Administration

797. Research (3) Cr/NC/RP

Prerequisite: Consent of Instructor.

Research in one of the areas of social work. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with director and instructor.

Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships in sociology are available to a limited number of qualified students. Application blanks and further information may be obtained from the department office.

General Information

The Department of Sociology offers graduate work leading to the Master of Arts degree in Sociology. Research facilities provided by the Department of Sociology include a well-equipped Social Science Research Laboratory for use by the faculty and graduate students. Faculty in the Department of Sociology are involved in a wide range of research activities with a focus on applied sociological research. Regular opportunities exist for participation in these projects by graduate students within the department.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. The graduate advisory committee may consider conditionally classified standing for students whose preparation is deemed insufficient. They will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to:

Department of Sociology
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-4423

- (1) GRE scores (official notification);
- (2) Three letters of recommendation;
- (3) A personal statement;

(4) A writing sample (preferably an academic paper). If this is not available, send an extended, three to five page personal statement. See application information on the Department of Sociology home page at <http://www.rohan.sdsu.edu/dept/sdsusoci/sociology.html>.

Applicants should obtain a current information brochure from the department office for detailed information.

Meeting all the indicated criteria does not guarantee admission to the program, since admission is also dependent on the facilities and resources available in the department.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must take at least three of the four 600-level core courses (Sociology 601, 602, 603, and 604) and must achieve a minimum "B" (3.0) grade average by the end of the first year in the master's program and no less than a B- grade in each core course. A student may seek exemption from a maximum of two core courses by passing an examination in the respective areas.

Specific Requirements for the Master of Arts Degree

(Major Code: 22081)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree, as described in Part Two of this bulletin, students must complete an approved graduate program including a total of at least 30 units. While six units of electives may be taken in other departments, these courses must be acceptable for master's degree credit in the particular departments in which they are offered and be approved by the graduate adviser. Students must include in their graduate program at least 18 units of sociology courses from the list of 600- and 700-numbered courses. Sociology 799A (Thesis) and an oral examination on the thesis are required. The student will be expected to relate the narrower concerns of the thesis to a more comprehensive treatment of theoretical and methodological issues. Before the student proceeds with the thesis, approval must be obtained based upon a detailed thesis proposal, usually undertaken through Sociology 797.

There is no foreign language requirement, but students who wish to pursue a doctorate at another university are advised to acquire a reading knowledge of one or two foreign languages.

The Master of Arts degree in sociology may be obtained with a specialization in one of the following areas:

General Sociology. Students master theory and methods with an emphasis on surveying the discipline in preparation for teaching or more advanced graduate study.

Courses required for the general sociology specialization: 30 units to include 12 units of core courses, Sociology 601, 602, 603, and 604; a minimum of six additional units in sociology courses from the list of 700-level seminar courses; Sociology 799A (Thesis); and a minimum of nine additional units, chosen from 500-, 600-, and 700-numbered courses (a maximum of six units may be selected from other departments, with approval of the graduate adviser).

Applied Sociology. Students master theory and methods, but with an emphasis on applying social theory and methods to specific real-world research problems, in preparation for employment as applied researchers in academic and non-academic settings.

Courses required for the applied sociology specialization: 30 units to include Sociology 505; nine units of core courses, Sociology 601, 602, and either 603 or 604; a minimum of nine additional units, selected from Sociology 500-, 600-, and 700-numbered courses (a maximum of six units may be selected from other departments, with approval of the graduate adviser); Sociology 760 (Seminar in Research Methods); Sociology 796 (Field Practicum); and 799A (Thesis).

Courses Acceptable on Master's Degree Program in Sociology (soc)

UPPER DIVISION COURSES

505. Applied Sociological Research (3)

Prerequisites: Sociology 250 and Sociology 407 or 408.

Types and methods of applied sociological research; and an overview of their application in substantive areas. Practical research skills.

517. Life Crises and Coping: Sociological Perspectives (3)

Prerequisite: Sociology 101.

Social variation in the occurrence of life crises, personal and social coping strategies, and psychosocial outcomes.

522. The Family in Comparative and Cross-Cultural Perspectives (3)

Prerequisite: Sociology 101. Recommended: Sociology 421.

Comparative study of selected family systems in the past and present. Comparative analysis of major social and demographic changes in marriage and family in post-industrial nations and less developed countries. Cross-cultural comparisons of family arrangements in contemporary America by social classes and racial-ethnic groups.

527. Aging and Society (3)

Prerequisite: Sociology 101.

Status and roles of men and women in the second half of the life cycle. Ethnic, sex and class variables in aging. Cross-cultural comparisons of occupational, educational, familial, recreational and political opportunities for the aging.

528. Death and Dying (3)

Prerequisite: Sociology 101.

Sociological concepts and theories of the process of dying. Comparative study of death and dying with emphasis on social, psychological and social organization approaches. Consideration of contemporary social-ethical issues surrounding dying in our society.

531. Working and Society (3)

Prerequisite: Sociology 101.

Structure and change in labor force, nationally and internationally. Social drama of work: self, roles, conflict, subcultures. Includes exploration of student work experiences, workers in the community, literacy, and film depictions of work worlds.

532. Workers, Managers, and Bureaucracy (3)

Prerequisite: Sociology 101.

Sociology of work in formal organizations. From classic theories on division of labor, industrial capitalism, and bureaucracy, to transformation of work in the twentieth century. Experiences of workers and managers in the U.S. and other societies.

537. Political Sociology (3)

Prerequisite: Sociology 101.

Social organization of political processes. Power and authority, social class, primary groups, collective behavior, social change, and other sociological factors considered in their relationships to political processes.

539. Sociology of Education (3)

Prerequisite: Sociology 101.

Social organization of education in the United States and other societies. Structure and functions of educational institutions. Formal and informal education. Class, ethnic, and other social factors affecting the educational process. Implications of educational decision making and testing.

543. Police, Courts, and Corrections: The Sociology of Crime and Punishment (3)

Prerequisite: Sociology 101.

Historical sociology of the American criminal justice system. Development and functions of police, criminal courts, prisons, parole, and probation. Theories and ideologies of punishment and rehabilitation. Review of contemporary research.

555. Immigrants and Refugees in Contemporary American Society (3)

Prerequisite: Sociology 101.

Contemporary migration to the United States, especially from Latin America and Asia. Political and economic migration. Immigrant and refugee adaptation. Theoretical controversies, research applications, and policy implications.

556. Topics in Comparative Societies (3)

Prerequisite: Sociology 101.

Social structures, social problems, and social change in selected areas of the world in comparative and historical perspectives. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Current Topics in Sociology (1-3)

Prerequisite: Sociology 101.

Selected specialized, controversial or currently relevant topics in sociology. Maximum opportunity provided for student initiative in determining course content and procedures. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

597. Investigation and Report (3) I, II

Prerequisites: Fifteen units in sociology and consent of instructor.

Analysis of special topics in sociology. Maximum credit six units.

GRADUATE COURSES

601. Advanced Social Theory: Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 401.

Systematic treatment of the original European and American classic sociological writing and an overview of the major developments in contemporary social theory.

602. Advanced Research Methods: Core Course (3)

Prerequisites: Conditional graduate standing; Sociology 406, 407, or 408.

Problems and techniques in social research with stress on philosophy of science, theory building, research design, measurement, and data analysis including fundamental critiques and alternatives.

603. Advanced Social Psychology (Sociological Approaches): Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 410.

Investigation and analysis of original works in classical social psychological theory focusing on implications for research on topics such as socialization, motivation, perception, role, self, interaction and symbolic processes.

604. Advanced Social Organization: Core Course (3)

Prerequisites: Conditional graduate standing, Sociology 430.

Concepts, theories and findings concerning structure and change in society, institutions, formal organizations, the community and small groups. Special attention given key concepts of culture, stratification, division of labor, power, bureaucracy, role relationships and interaction.

695. Topics in Directed Readings (3)

Prerequisite: Credit or concurrent registration in at least one core course or one seminar.

Selected reading providing coverage of social theory, social disorganization, social organization, social institutions, social psychology (sociological approaches), community research methods, population and demography, or special topics. Maximum credit six units applicable to a master's degree.

696. Experimental Topics (3)

Prerequisite: Graduate standing.

Intensive study in specific areas of sociology. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

700. Seminar in Social Theory (3)

Prerequisites: Sociology 401 and 407.

Classics of sociology, American social theory, theory construction, application of theory to research, theoretical models, sociology of knowledge, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

730. Seminar in Social Institutions (3)

Prerequisites: Sociology 407 and 430.

The family and kinship, political organization, economic organization, religion, education, industry, occupations and professions, social stratification, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master's degree.

740. Seminar in Social Psychology: Sociological Approaches (3)

Prerequisites: Sociology 407 and 410.

Socialization, role theory, motivation, perception, self, social context of personality, attitude theory, interaction, language and symbolic process, social types, collective behavior, small groups, special topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

743. Seminar in Criminology and Criminal Justice Theory (3)

Prerequisites: Graduate standing, 12 graduate units, Sociology 401.

History of criminological theory and review of leading contemporary theories of crime and criminal justice with focus on interconnection among social context, theory, and policy making.

760. Seminar in Research Methods (3)

Prerequisites: Sociology 401 and 407.

Analysis of methods used in current sociological research, including evaluation of reported findings. Discussion of research designs appropriate to particular types of projects. Evaluation of research in progress by members of the seminar. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

796. Field Practicum (3) Cr/NC

Prerequisites: Sociology 601, 602, and either 603 or 604.

Supervised field placement in community agency. Application of sociological theories and methods to policy and research needs of agency. Maximum credit six units applicable to a master's degree.

797. Research (3) Cr/NC/RP

Prerequisite: Sociology 407.

Independent investigation of special topics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff, to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Maria Irene Moyna, Ph.D., Assistant Professor of Spanish
Darlene Múzquiz-Guerreiro, Ph.D., Assistant Professor of Spanish
Nora Strejilevich, Ph.D., Assistant Professor of Spanish
Sergio G. Waisman, Ph.D., Assistant Professor of Spanish
Francisco Zabaleta, Ph.D., Assistant Professor of Spanish

Associateships

Graduate teaching associateships in Spanish are available to a limited number of qualified students. New teaching associates are required to enroll in Spanish 770 during their first semester as teaching associates. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Spanish and Portuguese Languages and Literatures offers graduate study leading to the Master of Arts degree in Spanish.

The staff in charge of the graduate program in Spanish is composed of professors whose native tongue is Spanish, or who have studied and traveled extensively in Spain or in Spanish America, enabling them to represent authoritatively the Spanish language and culture. Library facilities include rich resources in Spanish literature and linguistics, including books, periodicals and newspapers. A Language Acquisition Resource Center with modern equipment is available to both graduate and undergraduate students.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. An undergraduate major in Spanish, including 24 upper division units, must have been completed, at least six units of which must have been in a survey course in Spanish literature.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the graduate adviser in the Department of Spanish and Portuguese:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);

- (3) Three letters of reference;
- (4) Statement of purpose.

Mail or deliver your complete admissions package to:
Department of Spanish and Portuguese
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-7703

Advancement to Candidacy

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, students may be required to pass a qualifying examination in Spanish given by the Department of Spanish and Portuguese Languages and Literatures.

Specific Requirements for the Master of Arts Degree

(Major Code: 11051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units. Each program must include Spanish 601, 620, 770, and 780.

Candidates for the master's degree in Spanish may select one of the following areas of specialization:

1. **Spanish Linguistics:** Spanish 601, 620, 770, 780; six additional units in Spanish linguistics selected from 600- or 700-level courses; three units from any 500-level Spanish linguistics course; six units in Spanish or Spanish American literature selected from 600- or 700-level courses; three elective units with linguistic content selected from 500-, 600-, 700-level Spanish courses, or Spanish 799A.
2. **Spanish American Literature:** Spanish 601, 620, 770, 780; 15 units in Spanish with Spanish American literature content selected from 500-, 600- or 700-level courses; Spanish 799A or three units of electives in Spanish American or Spanish literature content.
3. **Spanish Literature:** Spanish 601, 620, 770, 780; 12 units in Spanish with Spanish literature content selected from 500-, 600-, or 700-level Spanish courses; three units in Spanish with Spanish American literature content selected from 500-, 600-, or 700-level courses; Spanish 799A or three units of electives in Spanish or Spanish American literature content.

In addition, all candidates must demonstrate a knowledge of Portuguese by passing an examination administered by the department or by completing Portuguese 101 or 201.

Students may elect either Plan A, requiring a thesis, Spanish 799A; or Plan B, requiring a comprehensive written and oral examination in lieu of the thesis in consultation with the graduate adviser.

Courses Acceptable on Master's Degree Programs in Spanish (PORT) (SPAN)

Spanish

UPPER DIVISION COURSES

501. Genre Studies in Spanish Literature (3)

Prerequisites: Spanish 405A-405B.

A specific literary genre: overview of the genre's development in Spanish literature (Spanish novel, short story, theatre) or focus on a narrower period (contemporary narrative, modern poetry). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

502. Genre Studies in Spanish American Literature (3)

Prerequisites: Spanish 406A-406B.

A specific literary genre: overview of the genre's development in Spanish American literature (the Spanish American novel, short story, theatre) or focus on a narrower period (vanguardista poetry, the "Boom"). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

515. Mexican Literature (3)

Prerequisites: Spanish 406A-406B.

Mexican literature from the Romantic period to the present. Special emphasis placed on contemporary era.

520. Caribbean Area Countries Literature (3)

Prerequisites: Spanish 406A-406B.

Literature of Caribbean Islands, Central America, Colombia and Venezuela, from colonial period to present. Special emphasis on contemporary era.

556. Translation of Literary Works: A Critical Comparison (3)

Prerequisite: Spanish 493.

Techniques and methods of translating literary texts from English to Spanish and Spanish to English; textual and stylistic problems in different periods, genres, and dialects, with emphasis on contemporary literature.

561. Methods in Teaching Spanish as a Second Language (3)

Prerequisite: Spanish 350 or 448.

Teaching of Spanish as a second language: contemporary theory and methods. Not open to students with credit or concurrent enrollment in French 561.

572. Spanish American Theatre (3) (Offered only at IVC)

Prerequisites: Spanish 406A-406B.

Principal Spanish American dramatists and movements. Special emphasis on contemporary era.

581. Mexican Sociolinguistics (3)

Prerequisites: Spanish 350; and Spanish 448 or 449.

Sociolinguistic phenomena occurring in Mexico from pre-Columbian times to the present. Language diversity before 1521 and throughout the colony; language contact and bilingualism; language policy and loss of indigenous languages. Emergence of Spanish as the national standard code in the nineteenth century. Regional dialects of Mexican Spanish.

582. Sociolinguistics of U.S. Spanish (3)

Prerequisites: Spanish 350; and Spanish 448 or 449.

Contact of Spanish and English in the U.S. Southwest from 1848 to the present. Spanish language loss in the nineteenth century. Bilingualism in urban and rural communities; language maintenance and shift in the twentieth century. Language attitudes and bilingual education. Varieties of Spanish in the Southwest, the Northeast, and Florida.

596. Selected Studies in Spanish (3)

Prerequisite: Spanish 302 or 381.

Topics in Spanish or Spanish American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Portuguese

UPPER DIVISION COURSES

534. Portuguese Literature (3)

Prerequisite: Portuguese 401.

Important movements, authors and works in the literature of Portugal from its beginnings to the present.

535. Brazilian Literature (3)

Prerequisite: Portuguese 401.

Important movements, authors and works of the literature of Brazil from the colonial period to modern times.

GRADUATE COURSES IN SPANISH

All graduate courses in the Department of Spanish and Portuguese Languages and Literatures have a prerequisite of 12 upper division units in Spanish or consent of instructor.

601. Seminar in Hispanic Literary Theory (3)

Prerequisite: Two upper division literature courses in Spanish.

Critical issues in Hispanic literary theory from medieval to modern times. Emphasis on contemporary theory: formalism, hermeneutics, phenomenology, structuralism, and post-structuralism, including semiotics and deconstructionism.

610. Seminar in Medieval Spanish (3)

Prerequisite: Credit or concurrent enrollment in Spanish 448 or 449.

History of Castilian language from Latin to medieval Spanish with readings from medieval Spanish literature, especially *El poema de Mio Cid* and *Berceo*.

620. Cervantes (3)

The principal prose works of Cervantes: The *Novelas ejemplares* and *Don Quixote*.

630. Golden Age Drama (3)

The works of Lope de Vega and Calderón among others.

650. The Gaucho Epic (3)

The *Poesía gauchesca*, with particular emphasis on *Martín Fierro*, *Fausto*, and *Santos Vega*.

660. Modernism (3)

The *Modernista* movement in Spanish America, with special attention to representative poets.

670. The Generation of 1898 (3)

Prerequisite: Two upper division courses in Spanish literature.

Major authors and works of the generation of 1898 in Spain: novel, drama, poetry, and essay.

675. Contemporary Spanish Prose Fiction (3)

Prerequisite: Two upper division courses in Spanish literature.

Development of Spanish prose fiction since the Spanish Civil War.

681. Spanish/Spanish American Dialectology (3)

Prerequisite: Spanish 448 or 449 or Linguistics 420 or a 500-level linguistics or Spanish linguistics course.

Dialects of Spain and Latin America; emphasis on differences in pronunciation, syntax, and lexicon.

695. Contemporary Spanish American Prose Fiction (3)

The principal writers of prose fiction in Spanish America from the mid-thirties to today.

696. Selected Topics (3)

Prerequisites: Twelve upper division units in Spanish.
 Intensive study in specific areas of Spanish. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 696 applicable to a master's degree.

750. Seminar in Spanish American Literature (3)

A genre or movement of Spanish America. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

755. Seminar in Spanish American Culture and Thought (3)

Works of representative authors of Spanish America. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Applied Spanish Linguistics for Teachers (3)

Prerequisite: Spanish 448 or 449.
 The application of linguistic theory to the teaching of Spanish at the secondary and college levels.

780. Multimedia Methods for Teaching Spanish (3)

Prerequisite: Spanish 770.
 Theory and applications of teaching Spanish through multimedia and interactive technologies. Research and development of interactive multimedia programs for use in the classroom and in the language laboratory.

790. Seminar in Spanish Syntax and Morphology (3)

Prerequisites: Spanish 350 and Linguistics 522.
 Advanced study of the grammatical structures of Spanish.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff, to be arranged with department chair and instructor.
 Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.
 Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.
 Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Statistics

In the Department of Mathematics and Statistics
In the College of Sciences

OFFICE: Business Administration/Mathematics 203
TELEPHONE: (619) 594-6191

Faculty

F. David Lesley, Ph.D., Professor of Mathematics, Chair of Department
Kung-Jong Lui, Ph.D., Professor of Statistics (Graduate Adviser for the
M.S. in Statistics)

Colleen Kelly, Ph.D., Associate Professor of Statistics (Graduate
Adviser for the M.S. in Statistics with Concentration in Biostatistics)

Duane L. Steffey, Ph.D., Associate Professor of Statistics (Statistics
Coordinator)

Chii-Dean Lin, Ph.D., Assistant Professor of Statistics

Associateships

Graduate teaching associateships in statistics and biostatistics are available and are awarded on a competitive basis by the Department of Mathematics and Statistics. Application forms and additional information may be secured from the office of the Department of Mathematics and Statistics.

General Information

The Department of Mathematics and Statistics offers graduate study leading to the Master of Science degree in statistics. Students may pursue either the general degree or a concentration in biostatistics that emphasizes statistical methods and applications in the biological, health, and medical sciences.

Statisticians and biostatisticians are engaged in the acquisition and use of knowledge through the collection, analysis, and interpretation of data. Today, almost all disciplines – from economics to engineering, from social science to medicine – employ statistical methods. Such methods are essential in studying relationships, predicting results, and making informed decisions in many different contexts. This diversity of application of this field has stimulated the current demand for well-trained statisticians and biostatisticians at all degree levels.

The Master of Science degree provides advanced training, with emphasis on statistical methodology, and prepares students for careers in industry and government as applied statisticians or biostatisticians, or for entry into a doctoral program in statistics or biostatistics.

As part of the degree requirements, graduate students conduct theses or research projects under the guidance of faculty with active research interests in most general areas of probability, statistics, and biostatistics. These research areas include biostatistical methods, survival analysis, mathematical demography, data analysis, inference, stochastic processes, time series, Bayesian statistics, categorical data analysis, statistical computing, nonparametric statistics, sample surveys, multivariate analysis, linear models, experimental design, and clinical trials.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Statistics

(Major Code: 17021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the students must meet the following program requirements:

The student should have completed before entering the program the following undergraduate coursework: three semesters of calculus; and one semester each of linear algebra and probability theory. The student should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 30 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in statistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in statistics.

1. Complete Statistics 560, 670A, 670B with no grade less than B in each course. These are core statistics courses.
2. Complete nine units of courses in statistics and biostatistics, selected from the following with the approval of the graduate adviser in statistics: Statistics 570, 671, 672, 674, 676, 677, 678, 679, 680A, 680B.
3. Complete three additional units of 600- and 700-numbered courses offered by the Department of Mathematics and Statistics, except that Mathematics 600, 601, 602, and Statistics 799A may not be used to fulfill these units required.
4. Complete three additional units of graduate level or approved 500-level courses offered by the Department of Mathematics and Statistics, not including Statistics 799A.
5. Complete three units of approved electives.
6. Enrollment in Thesis, Statistics 799A, requires approval of the graduate adviser and the statistics division faculty member who will chair the committee. Students must include Statistics 799A in the 30-unit program and are required to pass a final oral examination on the thesis, open to the public.

Specific Requirements for the Master of Science Degree in Statistics with Concentration in Biostatistics

(Major Code: 17021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following program requirements:

The student should have completed before entering the program the following undergraduate coursework: three semesters of calculus and one semester each of linear algebra and probability theory. The student should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 30 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in biostatistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in biostatistics.

1. Complete Statistics 560, 670A, 670B with no grade less than B in each course. These are core statistics courses.
2. Complete Statistics 680A and 680B with no grade less than B in each course. These are biostatistics concentration courses.
3. Complete at least six units of courses in biostatistics and statistics, selected from the following with the approval of the graduate adviser in biostatistics: Statistics 510, 520, 570, 596, 671, 672, 674, 676, 677, 678, 679, 696, 720, and 798.
4. Complete at least six units of 500-level or graduate courses from a science of application of biostatistics (e.g., bioscience, health science, or medical science), selected with the approval of the graduate adviser in biostatistics. If the student has an undergraduate degree in an area of application of biostatistics, 500-level or graduate mathematical sciences courses may be substituted with the approval of the graduate adviser in biostatistics.
5. With approval of the graduate adviser and the faculty member who will chair the thesis committee, the student must enroll and complete three units of Statistics 799A. The chair of the thesis committee must be a faculty member from the division of statistics in the Department of Mathematics and Statistics. One of the other two members of the thesis committee must be a faculty member from a science of application of biostatistics (i.e., bioscience, health science, or medical science). The student must pass an oral defense of the thesis, open to the public.

Courses Acceptable on Master's Degree Programs in Statistics (STAT)

UPPER DIVISION COURSES

(Note: Statistics 550, 551A, or 551B are not acceptable on the Master of Science degree in Statistics.)

(Note: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.)

510. Applied Regression Analysis (3) I

Prerequisite: Statistics 250 or comparable course in statistics.

Methods for simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, and matrix forms for multiple regression. Applications of these methods will be illustrated with SAS, SPSS, and/or S-Plus computer packages. (Formerly numbered Statistics 554A.)

520. Applied Multivariate Analysis (3) II

Prerequisite: Statistics 350A or comparable course in statistics.

Multivariate normal distribution, multivariate analysis of variance, principal components, factor analysis, discriminant function analysis, classification, and clustering. Statistical packages will be adapted for data analysis. (Formerly numbered Statistics 554B.)

550. Applied Probability (3) I, II, S

Prerequisites: Mathematics 151 and 254.

Computation of probabilities via enumeration and simulation, discrete and continuous distributions, moments of random variables. Markov chains, counting and queuing processes, and selected topics.

551A. Probability and Mathematical Statistics (3) I

Prerequisite: Mathematics 252.

Discrete and continuous random variables, probability mass functions and density functions, conditional probability and Bayes' theorem, moments, properties of expectation and variance, joint and marginal distributions, functions of random variables, moment generating functions. Special distributions and sampling distributions.

551B. Probability and Mathematical Statistics (3) II

Prerequisite: Statistics 551A.

Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields.

560. Sample Surveys (3) I

Prerequisite: Statistics 550 or 551A.

Methods for design and analysis of sample surveys with applications to social and biological sciences. Simple random sampling, stratification and clustering, ratio and regression estimators, subsampling, selected topics in survey methodology. (Formerly numbered Statistics 552.)

570. Stochastic Processes (3)

Prerequisite: Statistics 550 or 551A.

Introduction to stochastic processes with selected applications. (Formerly numbered Statistics 553.)

575. Actuarial Modeling (3)

Prerequisite: Statistics 550 or 551A.

Actuarial models and applications of probability and statistics to insurance and other financial risks. Utility theory; risk models, compound processes; survival distributions and life tables; life insurance, annuities and benefits.

596. Advanced Topics in Statistics (1-4) I, II

Prerequisite: Consent of instructor.

Selected topics in statistics. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

670A-670B. Advanced Mathematical Statistics (3-3)

Prerequisite: Statistics 550 or 551A. Statistics 670A is prerequisite to 670B.

Distribution of random variables, characteristic functions, limiting distributions, sampling distributions, hypothesis testing and estimation, optimality considerations, applications of the linear hypothesis, invariance and unbiasedness to analysis of variance and regression problems, sequential techniques, decision theory.

671. Statistical Computing (3)

Prerequisite: Statistics 551B or 670B.

Machine computation in the development, application, and evaluation of advanced statistical techniques. Floating point arithmetic and algorithm stability; numerical methods for parameter estimation (including maximum likelihood) and multivariate probability integration; Monte Carlo simulation and other computer-intensive statistical techniques.

672. Nonparametric Statistics (3)

Prerequisite: Statistics 551B or 670B.

Theory and application of commonly used distribution-free test statistics, including sign and Wilcoxon tests, and corresponding non-parametric point and interval estimators. Kruskal-Wallis and Friedman tests for analysis of variance, nonparametric regression methods, and other selected topics.

674. Multivariate Analysis (3)

Prerequisites: Mathematics 524 and Statistics 551B or 670B.

Multivariate normal distributions, multivariate analysis of variance, factor analysis, canonical correlation.

676. Bayesian Statistics (3)

Prerequisite: Statistics 551B or 670B.

Bayes' theorem; conjugate priors; likelihood principle; posterior probability intervals; Bayes factors; prior elicitation; reference priors; computational techniques; hierarchical models; empirical and approximate Bayesian inference; posterior sensitivity analysis; decision theory.

677. Design of Experiments (3)

Prerequisite: Statistics 550 or 551A.

Methods for design and analysis of experiments with applications to industry, agriculture, and medicine. Concepts of randomization, blocking, and replication. Incomplete block designs, fractional factorial experiments, response surface methods, selected topics.

678. Survival Analysis (3)

Prerequisites: Statistics 551B or 670B.

Survival distributions; inference in parametric survival models; life tables; proportional hazards model; time-dependent covariates; accelerated time model and inference based on ranks; multivariate time data and competing risks.

679. Analysis of Discrete Data (3)

Prerequisite: Statistics 551B or 670B.

Discrete sampling models; goodness-of-fit testing; methods for binary data with covariates, including logistic regression and probit analysis; loglinear modeling of multidimensional contingency tables; ordered categories; incomplete tables; Bayesian methods; hierarchical models.

680A-680B. Advanced Biostatistical Methods (3-3)

Prerequisites: Statistics 550 or 551A. Statistics 680A is prerequisite to 680B.

Design, conduct, and analysis of experimental and observational studies. Cohort studies. Multifactor screening. Survival studies. Case-control studies. Biological assays. Selected current topics.

696. Selected Topics in Statistics (3)

Prerequisite: Graduate Standing.

Intensive study in specific areas of statistics. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

720. Seminar (1-3)

Prerequisite: Consent of instructor.

An intensive study in advanced statistics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

790. Practicum in Teaching of Statistics (1) Cr/NC

Prerequisite: Award of graduate teaching associateship in statistics.

Supervision in teaching statistics. Lecture writing, style of lecture presentation and alternatives, test and syllabus construction, and grading system. Not applicable to an advanced degree. Required for first semester GTAs. Maximum credit four units applicable to a master's degree.

797. Research (1-3) Cr/NC/RP

Prerequisite: Six units of graduate level statistics.

Research in one of the fields of statistics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

William N. Reid, M.F.A., Associate Professor of Theatre,
Acting Chair of Department

Ralph Funicello, B.F.A., The Don W. Powell Chair in Scene Design

Anne-Charlotte Harvey, Ph.D., Professor of Theatre,
Graduate Coordinator

Peter F. Larlham, Ph.D., Professor of Theatre

Margaret McKerrow, Ph.D., Professor of Theatre

Terry L. O'Donnell, D.M.A., Professor of Theatre

Beeb Salzer, M.F.A., Professor of Theatre

R. Craig Wolf, M.F.A., Professor of Theatre

Paula Kalustian, M.F.A., Associate Professor of Theatre

Randy Reinholz, M.F.A., Associate Professor of Theatre

Loren P. Schreiber, M.F.A., Associate Professor of Theatre

Holly Poe Durbin, M.F.A., Assistant Professor of Theatre

Margaret C. Larlham, M.A., Assistant Professor of Theatre

Jeff Morrison, M.F.A., Assistant Professor of Theatre

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships are available to a limited number of qualified students. Application forms and further information may be obtained from the department.

The Don W. Powell Chair in Scene Design

The Don W. Powell Chair in Scene Design was established through a trust provided by the late professor emeritus. Always concerned about students, Powell, who retired after 30 years with the theatre department, created the trust in order to enhance theatre education at S.D.S.U. The first holder of The Don W. Powell Scene Design Chair is the nationally acclaimed designer Ralph Funicello.

General Information

The Department of Theatre offers graduate study leading to the Master of Arts degree and the Master of Fine Arts degree. The Master of Fine Arts degree is offered in the areas of acting, design/technical theatre, and musical theatre. The M.A. is a 30-unit program; the M.F.A. a 60-unit program. Both programs of study limit the number of students accepted in order to offer individual attention and extensive opportunity to participate in theatre production. The Dramatic Arts building contains the proscenium-style Don Powell Theatre seating 500, with state-of-the-art computer lighting and sound control, and the flexible Experimental Theatre seating 200, rehearsal and recording areas, a design studio and CADD laboratory, paint shop, wagon house, scene shop, and fully equipped costume laboratory. The Department of Theatre is a member of the National Association of Schools of Theatre (N.A.S.T.).

Master of Arts Degree in Theatre Arts

Admission to Graduate Study

General requirements for admission to the University with classified graduate standing are described in Part Two of this bulletin. In addition, the student's area adviser will judge the applicant capable of graduate work in theatre arts. The judgment will be based on (1) the applicant's transcripts of prior academic work; (2) three current and relevant letters of recommendation from individuals familiar with the applicant's academic ability; (3) the applicant's scores on the GRE General Test; (4) the applicant's scores on the GRE Writing Assessment Test; and (5) an interview, when appropriate, revealing the applicant's ability to succeed in the chosen area. NOTE: M.A. applications are accepted for Fall admission only. Application deadline is April 15 for the following Fall semester.

Advancement to Candidacy

All students in the Master of Arts program must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Theatre Arts (regardless of area of specialization) are required to have completed Theatre 600A, and to have removed any deficiencies assigned. It is recommended that all graduate students take Theatre 600A during their first semester.

Specific Requirements for the Master of Arts Degree

(Major Code: 10071)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of a minimum of 30 units to include Theatre 600A, 600B, 610, 621, 647A or 647B or 649, and 799A. Eighteen of the 30 units must be in 600- and 700-numbered drama courses and the remaining 12 units may be selected from 500-, 600-, or 700-numbered courses. A maximum of 9 units may be elected outside the Theatre Department. PLEASE NOTE: Theatre 600A, 600B, 610, 621, 647A or 647B or 649, and 799A are required courses for all Master of Arts candidates.

Master of Fine Arts Degree in Theatre Arts

Admission to Graduate Study

In addition to meeting the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for classified graduate standing:

1. Achieve a score of not less than 1000 on the GRE General Test (combined verbal and quantitative).
2. Possess a baccalaureate degree in theatre or an approved affiliated field with a grade point average of not less than 2.5 overall in the last 60 units of study attempted, with a 3.0 undergraduate average in the major, and a 3.5 average in those theatre classes considered prerequisites for the M.F.A. concentration in design/technical theatre or musical theatre.
3. Complete undergraduate requirements commensurate with the proposed concentration in the M.F.A. program.
4. Complete a minimum of six units of theatre history.
5. Satisfy additional concentration requirements listed below.

Students who have not met certain criteria or demonstrate deficiencies in undergraduate preparation or basic skill development, may be granted conditional admission with the understanding that **remedial** coursework will be completed prior to advancement to classified standing. Remedial coursework cannot be applied to the 60-unit minimum requirement for the degree. Students who do not satisfy the requirements for an M.F.A. degree will not automatically be considered for an M.A. degree. A student holding an M.A. degree in theatre arts from San Diego State University or any other institution of higher learning must formally apply for the M.F.A. degree. PLEASE NOTE: Applicants holding an M.A. or M.F.A. degree from an accredited institution may transfer up to 30 units upon review and recommendation of the faculty in the area of specialization, and the graduate coordinator of the Theatre Department, and the approval of the graduate dean.

Students already accepted into the program who request a change of specific concentration at a later date, will be required to meet the admission requirements for the new concentration.

Concentration in Acting

No students admitted to program at this time.

In addition to meeting the admission requirements listed above, a student must demonstrate exceptional artistic talent in the acting area by providing:

1. A resume of acting accomplishments.
2. An audition, either in person or via videotape (VHS), which would include two contrasting works: one contemporary piece and one classical piece from Shakespearean drama (total time not to exceed 12 minutes).
3. Three letters of recommendation attesting to the candidate's academic qualifications and level of competence in acting.

For specific audition dates and locations, write to the Director, Graduate Acting Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Concentration in Design and Technical Theatre

In addition to meeting the admission requirements listed above, a student must demonstrate outstanding abilities in a particular area of design/technical theatre by submitting the following items.

1. Those students primarily interested in design must submit a design portfolio which contains sketches, renderings, graphics, floor plans, elevations, plots, color/fabric swatches, and photographs of productions, revealing the applicant's creative ability in the chosen area or areas of design.
2. Those students primarily interested in technical theatre must submit a portfolio which contains evidence of technical direction and management experiences in scenic, lighting, or costume technology and design.
3. A resume which contains documentation of participation in not less than five full-length theatrical productions.
4. Three letters of recommendation attesting to the candidate's academic, professional and personal qualifications from academic or professional theatre sources.

For specific interview dates and locations, write to the Director, Design Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Concentration in Musical Theatre

This program admits new students every other year only.

In addition to meeting the admission requirements listed above, a student must demonstrate professional potential in musical theatre by providing:

1. A resumé of musical theatre accomplishments.
2. An audition, either in person or via videotape, to include two contrasting vocal selections, two contrasting monologues, and a dance/movement piece.
3. Three letters of recommendation attesting to the candidate's academic qualifications and level of competence in musical theatre performance in the areas of acting, singing, and dancing.

For specific audition dates and locations, write to the Director, Musical Theatre Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. must have completed 30 units within their official program with a minimum grade point average of 3.0. A minimum of 24 units in the official program must be enrolled in and completed concurrently with or after advancement to candidacy. Students in each concentration must have successfully completed Theatre 600A and removed any deficiencies noted by the faculty.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10072)

Forty-five of the sixty units required must be completed in courses numbered 600 or above. The remaining units may be selected from 500-, 600-, or 700-numbered courses in theatre or outside departments.

At least 30 units of the student's program must be completed in residence at San Diego State University, and the student must be in residence not less than two semesters. No more than six units in 798 will be accepted for credit toward the degree.

Concentration in Acting

No students admitted to program at this time.

Candidates for the M.F.A. with a concentration in acting, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program consisting of the following courses: Theatre 600A, 600B, 607* (must be taken four times for a total credit of 12 units), 610, 621, 624*, 630 (maximum 2 units), 631*, 632*, 633*, 634*, 746, 795, 799A.

Twelve additional units are to be selected from courses acceptable for graduate credit in the following areas: theatre, art, communication, education, English and comparative literature, exercise and nutritional sciences, history, linguistics, music, television, film, and new media. It is recommended that students include at least 3 units from Theatre 532, 533A, 533B, 551 among the 12 units of electives. In special circumstances, additional courses acceptable for graduate credit in other departments may be selected with the approval of the student's adviser.

* Courses not currently offered at SDSU.

Students in the concentration in acting will be reviewed by a faculty panel each semester to determine if their progress warrants continuation in the program. In conjunction with the completion of Theatre 746 and 799A, students must complete an adjudicated performance thesis project established and approved by their thesis committee. This project will be supported by a written thesis project report (analysis/apologia).

Concentration in Design and Technical Theatre

Candidates for the M.F.A. with a concentration in design and technical theatre, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program to include 32 units of core courses as follows: 1) during the first year of study, Theatre 530 and three units selected from Theatre 540, 547, or 552, depending on student's area of specialization; 2) Theatre 539, 600A, 600B, 610, 621, 645; and 3) four semesters (12 units) of Theatre 643. The student must also complete 14 units of practicum, internship, and thesis/project consisting of Theatre 642 (must be taken for a total of four units), 746, 795 (must be taken for a total of four units) and 799A.

Fourteen units of electives selected by student and adviser from graduate level courses in the following areas: theatre, art, education, English and comparative literature, history, linguistics, and television, film, and new media. In special circumstances courses acceptable for graduate credit in other departments may be selected with the approval of the student's adviser.

Candidates must prepare a production thesis project approved by their thesis committee. This project must be supported by a written thesis project report (analysis/apologia).

Concentration in Musical Theatre

Candidates for the M.F.A. with a concentration in musical theatre, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a core of courses totaling 23 units as follows: Theatre 520A, 520B, 555, 600A, 600B, 610, 623, 650, and 659. The student must also complete 29 units of studio, voice, internship, practicum, and thesis/project consisting of Theatre 627 (taken four times for a total of 16 units), Theatre 630 (taken four times for a total of four units), 746, 795, and 799A.

Eight additional units are to be selected from courses acceptable for graduate credit in the following areas: theatre, art, communication, education, English and comparative literature, history, linguistics, music, and television, film, and new media. In special circumstances additional courses acceptable for graduate credit in other departments may be selected with the approval of the student's adviser.

Candidates will prepare an adjudicated performance thesis project established and approved by their thesis committee. This project will be supported by a written thesis project report (analysis/apologia).

Courses Acceptable on Master's Degree Programs in Theatre Arts (THEA)

UPPER DIVISION COURSES

(Unless otherwise noted, all Drama courses are now listed as Theatre courses.)

510. Creative Drama and Language Arts (3) I

Prerequisite: Theatre 310.

Advanced techniques in using creative drama to teach literature and language. Emphasis on use of drama in teaching of reading and world literature. Practical experience through fieldwork in elementary or middle school classrooms.

520A-520B. History of Musical Theatre (3-3) I

Prerequisite: Upper division standing.

Chronological survey of representative works from musical theatre history including major productions, personalities, styles, and genres. (Formerly numbered Theatre 520.)

A. Nineteenth Century Viennese Operetta through 1950

B. 1950 to Present

523. Stage Combat (2) II

Four hours of activity.

Prerequisites: Theatre 332 and by audition.

Skills and choreography of armed and unarmed stage combat. Performance application to selected scenes from world drama.

530. Period Dress and Decor (3) II

Prerequisite: Theatre 240B or graduate standing.

Visual survey of relationships and cultural significance of period dress, architecture, and decorative arts as applied to theatrical productions. Emphasis on significant historic periods in dramatic literature.

532. Advanced Acting and Directing (3) I

Prerequisites: Theatre 332 and by audition.

Problems in characterization in contemporary drama, and in plays of Ibsen, Strindberg, Chekhov, and Shaw.

533A-533B. Theory and Styles in Acting and Directing I and II (3-3)

Prerequisites: Theatre 332 and by audition.

Acting and directing problems in theory and style related to the production of plays from great periods in theatre history, with attention to characterization, dramatic values, creative directing and production approaches.

539. Theatre Rendering (2) II

Four hours of activity.

Prerequisite: Theatre 240B.

Rendering for scenic, costume, and lighting designer. Techniques, media, and portfolio preparation. Maximum credit four units.

540. Scene Design II (3) I

Prerequisites: Theatre 440 and 530.

History of scene design and application of contemporary styles to various types of dramatic production.

541. Scene Painting (2) II

Four hours of activity.

Prerequisite: Theatre 530.

Theories and techniques of scene painting, including both historical backgrounds and modern procedures. Full-scale projects executed in scenery studio.

543. Stage Property Design (2) I

One lecture and two hours of activity.

Prerequisite: Theatre 530.

Theories and techniques of property design for the theatre: script analysis, research methods, planning and budgeting procedures, construction techniques and materials. Projects in property design for selected scripts.

545. Mechanical Drawing for the Theatre (2) I

Four hours of activity.

Prerequisite: Theatre 240A or admission to MFA in Design.

Theatre drafting standards and techniques. Floor plans, sections, elevations, perspective drawings, and light plots.

546. CADD for the Theatre (2) II

Four hours of activity.

Prerequisite: Theatre 545.

Computer aided drafting applications for theatre designer.

547. Lighting Design II (3) I

Two lectures and three hours of laboratory.

Prerequisite: Theatre 447.

Advanced design theories and lighting practice for theatre and dance. Laboratory and production related activities.

548. Sound Design for the Theatre (3) I

Two lectures and two hours of activity.

Prerequisites: Theatre 240C and 325.

Theories and techniques of sound design and reinforcement for theatrical performance. Laboratory experience in sound production.

549. Lighting and Sound Technology (2) II

One lecture and three hours of laboratory.
Prerequisite: Theatre 447.
Use of electrics for the stage. Lighting, sound, computer. Practical applications emphasized.

550. Software for Theatrical Design (2) I

Four hours of activity.
Prerequisites: Theatre 440, 447, 452, or 546.
Application of computer software for theatre, including scenery, costume, lighting, and sound design.

551. Costume, Movement, and Manners (3) I

Prerequisite: Upper division standing or admission to the graduate program.
Interrelationship of period costumes and the movement and manners of selected historical periods; application to staging of plays from pre-modern theatre.

552. Costume Design II (3) I

Prerequisites: Theatre 452 and 530.
Advanced studies in costume design. Emphasis on theatrical style, rendering layout, design problems, materials, and budget.

554A. Costume Design Technology I (2) I

Four hours of activity.
Prerequisite: Theatre 240B.
Current materials and practices of costume technology: advanced construction techniques, fabric selection and use, period pattern drafting, draping and cutting.

554B. Costume Design Technology II (2) II

Four hours of activity.
Prerequisite: Theatre 240B.
Advanced costume craft construction techniques and management procedures for costume production: millinery, fabric dyeing and painting, jewelry, and related crafts.

555. Movement for the Theatre II (2) I

Four hours of activity.
Prerequisite: Theatre 130 or admission to the M.F.A. program.
Movement techniques for theatre. Movement patterns, phrase development, and musical theatre movement styles. Maximum credit four units applicable to a bachelor's degree; maximum credit eight units applicable to the M.F.A. degree in theatre arts.

570A-570B. Practicum in Theatrical Production (1-3) (1-3)

Prerequisite: Theatre 440, 447, or 452; or admission to MFA in Design.
Design projects in areas of scenery, costume, lighting, sound, or makeup. Maximum credit six units for 570A and six units for 570B.

A. Independent Study

B. Design for Department Public Performances

580. Theatre in the Classroom (3)

Prerequisites: Theatre 310 and 315.
Methods of teaching theatre in elementary, middle, and secondary schools. Emphasis on pedagogy, organization of curriculum, play selection, and principles of producing plays in the classroom. (Formerly numbered Theatre 480.)

596. Selected Topics in Theatre (1-3) I, II

Prerequisite: Twelve units in theatre.
A specialized study of selected topics from the areas of theatre. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a 30-unit master's degree.

GRADUATE COURSES

600A. Research and Bibliography (2)

Basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research as it relates to the various areas of theatre. Recommended for first semester of graduate work, and prerequisite to advancement to candidacy.

600B. Thesis Preparation (1)

Prerequisite: Theatre 600A.
Development and presentation of thesis with focus on writing and formal parameters.

610. Seminar in Aesthetics for the Stage (3)

Prerequisites: Theatre 600A and admission to M.A. or M.F.A. program in drama.
Aesthetic theories influencing contemporary theatre.

621. Seminar in Theories of the Theatre (3)

Prerequisites: Minimum three units of upper division theatre history; credit or concurrent registration in Theatre 600A.
Theories of dramatic literature and performance, reflecting major stylistic movements and aesthetic philosophies of the stage from the classical Greeks to today (e.g., Aristotle, Lessing, Appia, Brecht, and Grotowski).

623. Seminar in Musical Theatre Script and Score Analysis (3)

Prerequisite: Admission to M.F.A. musical theatre program.
Representative works from the musical theatre spectrum analyzed in terms of dramatic and musical content, environment, action, character and style.

627. Musical Theatre Studio (4)

Eight hours of activity.
Prerequisite: Admission to M.F.A. musical theatre program.
Acting, singing, and dancing skills in relation to musical theatre performance, direction, choreography, and composition.

630. Individual Vocal Instruction (1)

Prerequisite: Admission to M.F.A., concentration in acting or musical theatre.
Individual vocal instruction/coaching devoted to diagnosis and correction of problems for students in M.F.A. concentration in acting or musical theatre. Maximum two units applicable to acting. Musical theatre students must take one unit each semester for a maximum of four units.

642. Theatre Practicum Skills (1) Cr/NC

Prerequisite: Admission to M.F.A. concentration in design and technical theatre.
Design projects for department productions. To be arranged with area adviser. Should be repeated each semester during the first two years of study for maximum credit four units.

643. Collaborative Studies in Design (3)

Two lectures and two hours of activity.
Prerequisite: Admission to M.F.A. program in design/technical theatre. This course must be repeated each semester by the M.F.A. design student for a maximum of 12 units.
Design of theatrical productions with emphasis on artistic collaboration and integration of scenery, costumes and lights. Attention to graphic presentation techniques as well as designs produced.

645. Seminar in Theatrical Lighting (3)

Prerequisite: Theatre 643.
Aesthetics of stage lighting as it applies to the areas of scenery and costume design. Exploration of literature in the field of theatrical lighting. Investigation of commercial and architectural lighting. Projects involving use of color and distribution of light.

646. Seminar in Design for Stage and Television (3)

The principles of design in the theatre with an emphasis on the historical development of theatrical costume or scenic environment. The investigation of recent tendencies in styles and their evolution. Each section may be taken once for credit.

- A. Costume Design – Prerequisite: Theatre 452 or 552.
- B. Scenery Design – Prerequisite: Theatre 540 or 545.

647. Seminar in History of Theatre and Drama (3)

Prerequisites: Theatre 325, 460A and 460B or admission to M.A. or M.F.A. program in theatre arts.

- A. British and Continental Theatre
- B. American Theatre

649. Topics in World Theatre (1-3)

Prerequisite: Admission to M.A. or M.F.A. program in theatre arts. Intensive study in specific areas of world theatre. Forms, technologies, genres, cultural expressions, and contemporary developments. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to the M.A. or M.F.A. degree in theatre arts.

650. Seminar in Musical Theatre Dance History (3)

Prerequisite: Admission to M.F.A. musical theatre program. Intensive study of the various choreographic styles of the musical theatre from the viewpoint of the choreographer and director.

659. Musical Theatre Stage Direction (3)

Prerequisite: Admission to M.F.A. musical theatre program. Special problems in directing for the musical theatre.

746. Theatre Internship (3) Cr/NC

Prerequisites: Theatre 600A and consent of graduate coordinator and program director.

Professional field experience in areas of design/technical theatre, acting, directing musical theatre, and theatre for young audiences. (Formerly numbered Drama 746B.)

795. Practicum in Theatre Arts (1-6)

Prerequisite: Theatre 600A.

Faculty supervised projects in design/technical theatre, performance or direction leading to public presentation. Maximum credit six units.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Project/assignment to be arranged with area adviser. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/RP

Prerequisites: An officially appointed thesis committee and advancement to candidacy. Theatre 795 (Practicum in Theatre Arts) is a prerequisite if the student elects the preparation of a project.

Preparation of a project report or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Associateships and Assistantships

Graduate teaching associateships and graduate assistantships in women's studies are available to a limited number of qualified students. Application forms and additional information may be obtained from the graduate adviser in the Department of Women's Studies.

General Information

The Department of Women's Studies offers graduate study leading to the Master of Arts degree in women's studies.

The department, recognized as the nation's first (1970) and among the strongest, has a distinguished faculty in the humanities and social sciences. Discipline-specific expertise as well as feminist theoretical paradigms are available to satisfy students' multi-faceted interests.

The Master of Arts degree is designed to provide advanced training for (1) students who plan to terminate their graduate studies at the master's level, and (2) those who anticipate further study leading to a doctoral degree in women's studies or related fields. It will also provide a foundation for further graduate work in professional degree programs such as counseling, social work, law, and public health. The M.A. will enhance students' ability to participate professionally in a range of organizations and businesses in the public and private sector, particularly those addressing women's issues.

Admission to Graduate Study

The application deadline for Fall admission of new students in the Department of Women's Studies is February 15. All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. As an additional requirement, students must demonstrate sufficient preparation for the program. This preparation can include possession of a bachelor's degree in women's studies from an accredited institution or completion of sufficient units in women's studies and related fields. Evaluation of a student's transcript will be made on an individual basis by the admissions committee to determine whether evidence of sufficient preparation can be demonstrated. A student whose preparation is deemed insufficient by the Graduate Admissions Committee may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

The grade point average required for admission to the M.A. program in women's studies is 3.0 for the last 60 units of the student's undergraduate work, plus satisfactory scores on the verbal and quantitative sections of the GRE. Conditional admission is possible pending the taking of the GRE General Test during the first semester of enrollment and the attainment of a satisfactory score.

Students applying for admission should electronically submit the University application available at www.csumentor.edu.

The following materials should be submitted as a complete package directly to the Department of Women's Studies:

- (1) Two sets of official transcripts (in sealed envelopes);
- (2) GRE scores (official notification);
- (3) Two letters of reference from individuals with direct knowledge of the applicant's scholarly ability;
- (4) A personal statement of background, intentions, and goals, including experience in women's studies and with women's issues, rationale for pursuing the M.A. degree, and relation of the M.A. degree in women's studies to prior academic work and to career objectives.

Mail or deliver your complete admissions package to:

Department of Women's Studies
(Attention: Graduate Adviser)
San Diego State University
5500 Campanile Drive
San Diego, CA 92182-8138

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

(Major Code: 49991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units with at least 21 units in women's studies including Women's Studies 601; 12 units selected from Women's Studies 602, 603, 604, 605, 606, 607; Women's Studies 797 and 799A (for Plan A Thesis); and a theme of study composed of nine units of graduate electives, selected with the approval of the student's adviser. The theme may include courses in departments other than women's studies. Normally, students will be expected to pursue Plan A, which requires presentation of an acceptable thesis. In certain special circumstances and with the prior approval of the graduate adviser, a student may be permitted to pursue Plan B, comprehensive examination. When Plan B is chosen, three additional graduate units in women's studies shall be selected in lieu of 799A. Candidates for this degree must demonstrate knowledge of either a relevant foreign language or an approved substitute in computer language or statistical methods. Other substitutes may be approved where the skills involved are directly related to the student's research interests. Course selection and programs must be approved by the graduate adviser.

Courses Acceptable on Master's Degree Program in Women's Studies (WMNST)

UPPER DIVISION COURSES

512. Women of Latin America (3)

Prerequisite: Three upper division units in women's studies.

How social and other factors impact the lives of Latin American women. Theoretical frameworks illuminate their situation. Sociocultural perspectives are offered on Latin American women's life narratives.

515. Women: Mythology and Ritual (3)

Prerequisite: Three upper division units in women's studies.

Meanings and functions of myths and rituals in their sacred and secular aspects, emphasizing their impact on women's lives and relationships in differing cultural contexts, past and present.

521. Life Cycles of Women (3)

Prerequisite: Three upper division units in women's studies.

Women's developmental processes across the life cycle; their impact on women, men, and the family, including life passages related to adolescence, marriage, motherhood, divorce, widowhood, "second careers," and aging in varying socioeconomic and cultural contexts.

522. Women: Madness and Sanity (3)

Prerequisite: Three upper division units in women's studies.

Concepts of mental health and mental illness as applied to women. Theory of psychotherapy, both traditional and feminist. Alternative approaches to mental health.

530. International Women's Movements (3)

Prerequisite: Three upper division units in women's studies.

Comparative study of women's movements worldwide in past and present, to include discussion of issues such as female bonding, leadership, and women's goals and strategies to achieve them within local, national, and global contexts.

535. Lesbian Lives and Cultures (3)

Historical, cultural, and social exploration of lesbianism. Topics include myths and stereotypes, history and literature, social and political movements, theoretical explanations, and current conditions.

536. Women, Race, and Class (3)

Prerequisite: Three upper division units in women's studies.

Major issues and themes in the history, culture, and contemporary lives of women of color in the U.S. Analysis of theories explaining similarities and differences in opportunities and life choices. Roles within social and political movements.

553. Women Writers (3)

Prerequisite: Three upper division units in women's studies.

Literary, historical, and social consideration of women writers; may focus on one author, era, or theme. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. Limit of three units applicable to the major in women's studies.

565. Women, Health, and Medicine (3)

Prerequisite: Three upper division units in women's studies.

Historical and contemporary relationship of women to alternative and traditional healing systems. Illness labeling, folk-healing beliefs, sectarian medicine, reproduction, birth control, life-cycle events, roles as practitioners and patients, ethical controversies, and aging.

572. Women and Violence (3)

Prerequisite: Three upper division units in women's studies.

Forms of violence against and by women. Processes which shape women's resistance to, and collusion in, social, economic, political, and sexual violence.

580. Women and International Development (3)

Prerequisite: Three upper division units in women's studies.

Women's roles as agents and recipients of change worldwide, focusing on such issues as self-determination, education, family and work, food and hunger, and reproduction.

582. Science and Technology in Women's Lives (3)

Prerequisite: Three upper division units in women's studies.

Role of science and technology in women's lives to include historical participation, contemporary opportunities and barriers; public policies; feminist critiques and alternative strategies for thinking about and doing science.

590. Feminist Thought (3) I

Prerequisite: Six upper division units in women's studies.

Readings in feminist theory and contemporary theoretical perspectives on core concepts and issues in feminist scholarship. Focus on understanding from a feminist perspective and on the significance of analyzing female experiences.

595. Seminar in Women's Studies (3) II

Prerequisites: Six upper division units in women's studies and consent of instructor.

Directed research in women's studies. Field of investigation will vary with instructor. Methods of investigation, development of bibliography, presentation of paper based on original research. See Class Schedule for specific content.

596. Topics in Women's Studies (3)

Prerequisite: Consent of instructor.

Advanced topics in women's studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

597. Research Project (3) I, II

Prerequisites: Six upper division units in women's studies and consent of adviser.

Individual research project. May be taken in place of Women's Studies 595, Seminar in Women's Studies.

598. Women's Studies Internship (3) II Cr/NC

Prerequisite: Three upper division units in women's studies and consent of instructor.

Application of women's studies theories and scholarship to community service and activism through combination of classroom discussion and field internship. Internship includes 80 hours of work in local public and private agencies dealing primarily with women and girls. Maximum credit six units. (Formerly numbered Women's Studies 498.)

GRADUATE COURSES

601. Foundations of Feminist Scholarship (3)

Prerequisite: Graduate standing.

Theories, issues, and major paradigms underlying feminist scholarship. Development of women's studies as a discipline. Emphasis on multicultural approaches and perspectives.

602. Seminar: Methods of Inquiry in Women's Studies (3)

Prerequisites: Six upper division units in women's studies.

Examination and critique of traditional research methods; methods of critical feminist investigation; designs of research proposals.

603. Seminar: Advanced Feminist Theory (3)

Prerequisite: Six upper division units in women's studies.

Analysis of categories of contemporary feminist theory including concepts of identity and difference; theories of subjectivity; feminist discourses, strategies, and practices.

604. Seminar: Gender, Culture, and Representation (3)

Prerequisite: Six upper division units in women's studies.

Representations of women and femininity in cultural systems. Women as images in and creators of literature, art, music, and other cultural endeavors. Interconnection between representations of gender and of race, ethnicity, class, and sexualities.

605. Seminar: Women, Relationships, and Social Policy (3)

Prerequisites: Six upper division units in women's studies.

Theories of women's friendships and family relationships; relationship development in historical and cross-cultural context; effects of social policies on women's relationships.

606. Seminar: Narrating Women's Lives (3)

Prerequisites: Six upper division units in women's studies.

Exploration of women's biographies and autobiographies. Theories of narration, identity construction, and oral and written life histories. Interconnection between self-presentation and social, historical, and multicultural institutions and discourses.

607. Seminar: Privilege and Oppression (3)

Prerequisite: Graduate standing or two upper division women's studies courses.

How gender, culture, ethnicity, class, religion, and physical challenges define interplay of privilege and oppression. Theoretical and practical implications discussed.

696. Selected Topics in Women's Studies (3-6)

Prerequisite: Classified graduate standing.

Intensive study in specific areas of women's studies, with emphasis on theoretical and methodological issues. May be repeated with new content. Maximum credit of six units of 696 applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

701. Seminar in Women's Studies (3)

Prerequisite: Six upper division units in women's studies.

Interdisciplinary seminar integrating research in various areas of women's studies in humanities, social sciences, arts and/or sciences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

797. Research (1-3) Cr/NC

Prerequisite: Advancement to candidacy and written approval of the Women's Studies department graduate adviser.

Independent research in a specialized subject in women's studies.

798. Special Study (1-3) Cr/NC/RP

Prerequisite: Consent of staff; to be arranged with department chair and instructor.

Independent study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/RP

Prerequisite: An officially appointed thesis committee and advancement to candidacy.

Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC

Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of RP.

Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Upper Division and Graduate Topics Courses

(Also Acceptable for Advanced Degrees)

The following courses are acceptable on selected advanced degree programs.

AMERICAN STUDIES COURSE (AM ST)

580. Topics in American Studies (1-3) I, II

Topics dealing with cultural images and myths, social protest, folklore; themes focusing upon fear, alienation and nationalism; problems around racism, minorities and counter-cultures. See Class Schedule for specific content. May be repeated once with new content; and with the approval of the adviser, more than once by American studies majors. Maximum credit six units applicable to a master's degree in American studies.

CHICANA AND CHICANO STUDIES COURSE (CCS)

596. Topics in Mexican American Studies (1-3)

Prerequisite: Consent of instructor.

Advanced topics in Mexican American studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

CLASSICS COURSES (CLASS)

599. Special Study (1-3) I, II

Prerequisites: Consent of major or graduate adviser; to be arranged by department chair and instructor. For 599C: Classics 304L or 304G. For 599G: 304G. For 599L: 304L.

Individual study. Maximum credit six units.

C. Special Study in Classics.

G. Special Study in Greek.

L. Special Study in Latin.

HUMANITIES COURSES (HUM)

596. Topics in Humanities (1-3)

Prerequisite: Upper division standing and consent of instructor.

Special topics on selected aspects of civilization from an interdisciplinary humanities perspective. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

599. Special Study (1-3)

Prerequisites: Humanities or European studies major or minor with upper division standing, twelve units in courses acceptable for major or minor, and consent of instructor and program chair; or graduate standing and consent of instructor and program chair.

Directed individual study. Maximum credit six units.

INTERNATIONAL BUSINESS COURSE (I B)

596. Topics in International Business (1-3)

Prerequisite: Upper division standing.

Selected topics in international business. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit six units.

RECREATION COURSES (REC)

560. Legal and Fiscal Aspects of Park and Recreation Management (3)

Prerequisite: Recreation 464.

Legal obligations and basic principles of fiscal management pertinent to delivery of leisure services. Budgeting, record keeping, liability, open space acquisition and preservation, constitutional guarantees, administrative regulations, contracts, criminal law, and legal research.

565. Recreation Systems Administration and Research (3)

Prerequisite: Recreation 464.

Organizational behavior, planning, policy development, and future trends of recreation systems. Methods of investigation, data analysis, and reporting in relation to research needs in recreation, parks, and tourism.

575. Designing Recreation and Park Areas and Facilities (3) I, II

Prerequisite: Recreation 101.

Design principles and concepts applied to planning and development of park and recreation areas and facilities.

580. Leisure, Recreation Therapy, and the Aging Process (3) II

Concepts of the relationship between leisure and gerontology are examined. Influence of leisure and recreation on work and life satisfaction of older adults in relationship to recreation therapy services.

Division of Research Administration and Technology

Research Administration and Technology

The Division of Research Administration and Technology is responsible for the institutional approval of all funded grant proposals and contracts relating to sponsored research, instruction, and service agreements; administration of research regulatory and intellectual property services; administration of faculty grants-in-aid, fellowships and other institutional research support programs; administration of university cost-sharing; administration of computing and information services for the Office of Graduate and Research Affairs; coordination of SDSU Foundation/University liaison.

The Associate Vice President for Research is the chief administrator of the Division of Research Administration and Technology which is supervised by the Assistant Vice President for Research. The Associate Vice President for Research is responsible for the development, improvement, and administration of research activities at the University.

The importance of research in graduate instruction is recognized by the faculty, and all graduate programs provide for research on the part of the graduate student. Graduate students involved in thesis or other research at the University must comply with all applicable university research policies, including those related to the use of human and animal subjects in research.

University Research Facilities and Organizations

Among the facilities for research that students may utilize are those provided in organized bureaus, centers and institutes located on the campus; specialized off-campus research facilities and field stations; inter-institutional, consortia and other cooperative research facilities.

Specialized Research Facilities

Mount Laguna Observatory

Paul B. Etzel, Director

San Diego State University operates the Mount Laguna Observatory, which is located 45 road miles east of the campus at an elevation of 6100 feet. The research telescopes at the observatory include three reflectors with apertures of 40, 24 and 16 inches. The 40-inch telescope is operated jointly with the University of Illinois. Auxiliary equipment for the telescopes includes CCD and Near-IR cameras for direct imaging, CCD spectrographs, and photoelectric photometers. A dormitory for observers and a shop-laboratory building complete the main dedicated PCs and/or UNIX workstations for telescope control, data collection, and on-line data reduction. All buildings at the observatory are connected to a fiber-optics local area network which in turn is connected to a high speed (45 Mbps) wireless Internet service. Associated with the observatory is the Awona Harrington Visitor Center, which provides facilities for educational programs and for visiting astronomers. The 21-inch Buller reflecting telescope is employed exclusively for education and public outreach programs.

Social Science Research Laboratory

Douglas S. Coe, Director

The Social Science Research Laboratory (SSRL) was founded in 1974 to support academic computing and social research within the College of Arts and Letters (CAL), the University, and the regional community. SSRL is organized into six units: Instructional Services, Research Services, Systems Support Group, CAL Help Desk, Data Resources, and South Coastal Information Center (SCIC). The department employs 12 full-time staff and over 50 part-time employees classified as lecturers, graduate teaching associates, laboratory consultants, research assistants and data collection specialists.

Instructional Services works closely with faculty to assimilate technological resources into the curriculum and to support academic computing among students and faculty. This is accomplished through four programs: (1) one-unit Social Science courses on the use of statistical, database, spreadsheet, and presentation software and on utilizing academic Internet resources; (2) workshops on the use of selected software applications; (3) class presentations requested by faculty to support computer-related instructional assignments; and (4) individual consultation for students using SSRL's open-access computing classrooms.

Research Services offers a complete range of public opinion polling and survey research services, including sample design, data collection, data reduction, graphic presentation of data, statistical analysis and data archiving. The section maintains computer systems to support faculty research. Undergraduate internships and research assistant positions are available. Typical research clients include units of government, community groups, and research projects conducted by faculty and SDSU administrators.

Data Resources assists faculty and students in searching for and using archived datasets. Principal sources of archived and electronically accessible information include the Inter-University Consortium for Political and Social Research (ICPSR), the Social Science Database Archive (SSDBA), the U.S. Census, Field Institute California Polls, the Roper Center for Public Opinion Research and Lexis/Nexis Academic Universe. Assistance is provided for locating, downloading, installing, and subsetting datasets for instructional or research applications.

Systems Support Group provides technical support for College of Arts and Letters computing systems. Services include managing computer classrooms, network administration, installing operating systems, software applications and hardware, virus recovery, and procurement advice.

CAL Help Desk serves as the initial point of entry and triage for College of Arts and Letters faculty and staff who need assistance with computer related problems. Work order requests for hardware and software problems are entered into an on-line system that schedules technical services. The Help Desk also conducts an extensive individualized software coaching program for individual faculty and staff in their office.

The SSRL is located in Professional Studies and Fine Arts 140.

Field Station Programs

Sedra S. Shapiro, Executive Director

The Field Station Programs provide opportunities for a broad community of students and faculty to explore the natural ecosystems of southern California. In addition, the field stations serve SDSU by functioning as a liaison to broader public community, highlighting SDSU's expertise regionally, nationally, and internationally. The Field Station Programs manage over 9,000 acres of San Diego and Riverside county land for university teaching and research.

SDSU currently has four field stations: the Sky Oaks Field Station, 1,600 acres of high elevation redshank chaparral habitat in the Chihuahu Valley east of Temecula Valley; the Santa Margarita Ecological Reserve (SMER), a 4,334 acre reserve located along the upper Santa Margarita River inland from Camp Pendleton in San Diego and Riverside Counties; Fortuna Mountain, 500 acres close to the SDSU campus located within Mission Trails Regional Park; and the Tijuana River National Estuarine Research Reserve, a 2,513-acre reserve which serves as an auxiliary field station for SDSU.

Providing research and education opportunities for the future requires detailed knowledge of how changes in the environment outside the boundaries of a certain area affect ecosystem dynamics within that area. As habitat continues to be lost to development, areas such as the SDSU field stations will increase in importance as sites for studying natural ecosystems.

The proximity of sensitive habitats to a rapidly urbanizing landscape makes this region a recognized biodiversity "hot spot." San Diego State University has an extremely dynamic group of scientists (faculty, researchers, and students) working to understand these unique and threatened ecosystems. Research ranges from the global scale examining global warming and the impacts of increased carbon dioxide on native vegetation to the meso- and micro-scales of chaparral ecosystems dynamics, as well as plant, vertebrate, insect, and fungal diversity. Researchers at SDSU are also increasingly using sophisticated computer modeling and molecular techniques for analyzing environmental change. Natural sciences are the core users of the SDSU field stations. Biology, geography, geological sciences, hydrogeology, and other field sciences are consistent areas of study. There are growing opportunities for interdisciplinary work as well as for nontraditional study in the fields ranging from public health, civil and environmental engineering, recreation, business, and art, to education.

Persons interested in conducting research, instructional use, or access to the SDSU field stations should contact the academic programs of the SDSU Field Station Programs at (619) 594-0580. Inquiries can also be made through the SDSU Field Station Web site at www.sci.sdsu.edu/BFS/

Facility for Applied Manufacturing Enterprise (FAME)

James S. Burns, Director

The centerpiece of San Diego State University's manufacturing endeavors is the Facility for Applied Manufacturing Enterprise. FAME was planned as an interdisciplinary center-of-excellence dedicated to science and technology in the area of manufacturing. Its mission is to provide students with a complete and immersive product development environment in which to augment their job experiences with next-century tools and strategies. This facility evolved from the Computer Integrated Manufacturing (CIM) center founded in 1988. Since then, it has grown considerably in physical size and scope. FAME resources include 3000 square feet of dedicated floor space in the Engineering and Engineering Laboratory Buildings and another 2000 square feet for student projects. Manufacturing-related equipment includes plastic injection, compression, extrusion, pultrusion, resin transfer molding and vacuum forming equipment, a composite repair station, ultrasonic scanning equipment, platen presses, mechanical testing machines, ovens, CNC lathe and mill, automated parts bin, and four multi-axis robots. A 3" diameter by 15" long, high-pressure and temperature autoclave facility is currently under construction.

Donald I. Eidemiller Weather Station

Edward Aguado, Director

The Donald I. Eidemiller Weather Station serves as a teaching and research resource. The station also archives monthly and annual data published by the National Climatic Data Center and has been observing and recording local weather information for more than 40 years.

Microchemical Core Facility

Long T. Wen, Director

The Microchemical Core Facility (MCF) is a component of the California State University Program for Education and Research in Biotechnology (CSUPERB). The MCF is a full-service, state-of-the-art facility that provides DNA synthesis, sequencing, and purification services for cell and molecular biologists associated with any of the 22 CSU campuses. In addition, the MCF provides for CSU faculty access to the most recent advances in computer-assisted analyses of molecular structure. Located in the Biology Department at SDSU, the MCF provides state-of-the-art molecular analyses and characterization to CSU scientists for the lowest possible cost, as well as fostering the training of university faculty at all levels in the most recent techniques available in the molecular life sciences. Funding for the establishment and maintenance of the SDSU MCF is derived from the National Science Foundation with matching funds provided by the State of California. Call (619) 594-1669 for more information.

Communications Clinic for Speech, Language, Hearing Disorders and Deafness

Administered by the Department of Communicative Disorders, the Clinic provides assessment and remediation services for SDSU students, staff, faculty, and the community. Comprehensive diagnostic and treatment programs are available for children and adults, who may present such communicative difficulties as delayed speech/language development, voice, fluency or articulation disorders, aphasia, cleft palate, cerebral palsy, loss of communication function, augmentative communication needs, hearing loss and deafness. Also provided are services for bilingual/multicultural clients and speakers of English as a second language. Audiologic services provided by the Clinic include hearing assessment, hearing aid evaluation and selection, assistive listening device evaluations, earmolds, ear protectors, hearing conservation and speech reading/aural rehabilitation therapy. The clinic is located at 6330 Alvarado Court, Suite 100, San Diego, CA 92120-4917, (619) 594-6477.

National and Regional Research Resource Centers

Latin American Studies

The Center for Latin American Studies seeks to encourage teaching and research related to Latin America. It has primary responsibility for the administration of the Latin American undergraduate and graduate degrees. It also participates in joint degree programs in International Business, Business Administration, and Public Health. Since 1976, the Center for Latin American Studies has been designated a National Resource Center for Latin American Studies (one of only 21 in the nation) by the United States Department of Education and funded through a Title VI grant, in consortium with the Center for Iberian and Latin American Studies at the University of California, San Diego. CLAS, along with CIBER and LARC, is one of three Title VI funded centers on the San Diego State University campus. In conjunction with this award, the Center administers programs that are interdisciplinary, drawing on the expertise of an outstanding Latin Americanist faculty from the following departments: Anthropology; Art, Design, and Art History; English and Comparative Literature; Economics; Geography; History; Political Science; Public Administration and Urban Studies; Sociology; Spanish and Portuguese Languages and Literatures; Women's Studies; and the College of Business Administration. In addition, the Center is involved with the development of innovative methods of instruction in Spanish, Portuguese, and Mixtec; the provision of informative and in-service training programs for elementary and secondary school teachers; and the provision of services for the general public through the sponsorship of conferences, workshops, lectures, and films. The Center also assists in the development of the University library's Latin American holdings. The Center has cooperative agreements for research, faculty, and student exchanges with several Latin American universities, particularly in Mexico, Chile, and Costa Rica.

National Language Resource Center/Language Acquisition Resource Center (LARC)

Mary Ann Lyman-Hager and Paul J. Strand, Co-Directors
Wayne Stromberg, Associate Director for Operations and
John Vitaglione, Associate Director for Multimedia
Maria Ortega, Program Coordinator

SDSU created the Language Acquisition Resource Center (LARC) in 1989 to improve its capacity to teach foreign languages more effectively. In 1990, LARC at SDSU became one of the first three national Language Resource Centers (LRCs), with funding from the U.S. Department of Education to conduct research in second language performance testing, cross-cultural competence, and technology for language learning. Currently the Department of Education funds nine LRC national centers located at campuses around the country. SDSU's LARC has one of the nation's finest multimedia collections, more than 80 high-end multimedia computers, digitizing and desktop video conferencing capabilities, a research library, faculty offices, several smart classrooms, and faculty offices. The laboratories serve foreign language students and faculty in the Departments of European Studies, Linguistics and Oriental Languages, and Spanish and Portuguese Languages and Literatures.

LARC is enhancing its basic infrastructure and increasing Internet capabilities of its current space. New models of distributed and/or distance learning reflect the changing demographics of SDSU students. The new models will require new curricula and outreach capabilities to match the demographics and learning preferences of these students. In addition to a solid infrastructure equipped to handle new models of distributed learning, LARC has a dedicated professional language faculty and staff to create and manage the proposed projects and bring them to completion. A major focus of the national center is on wide dissemination of authentic and pedagogical materials created by LARC and by collaborators worldwide.

Center for International Business Education and Research (CIBER)

Steven J. Loughrin-Sacco and Kenneth E. Marino,
Co-Directors
David P. Earwicker, Managing Director,
Tamara Dunn, Assistant Director

The Center for International Business Education and Research (CIBER), one of 27 such centers of excellence in the United States, was established in 1989 under the auspices of a grant from the U.S. Department of Education and is administered by the Colleges of Arts and Letters and Business Administration.

CIBER promotes (1) interdisciplinary programs that incorporate foreign language and international studies training into business, finance, management, communications systems, and other professional curricula; (2) interdisciplinary programs which provide business, finance, management, communications systems, and other professional training for foreign language and international studies faculty and advanced degree candidates; (3) evening or summer programs, such as intensive language programs, available to members of the business community and other professionals, which are designed to develop or enhance their international skills, awareness, and expertise; (4) collaborative programs, activities, or research involving other institutions of higher education, local educational agencies, professional associations, businesses, firms or combinations thereof, to promote the development of international skills, awareness, and expertise among current and prospective members of the business community and other professionals; (5) research designed to strengthen and improve the international aspects of business and professional education and to promote integrated curricula; and (6) research designed to promote the international competitiveness of American businesses and firms, including those not currently active in international trade.

CIBER is located in Business Administration 428; (619) 594-3075; FAX (619) 594-7738; ciber@mail.sdsu.edu; www.sdsu.edu/ciber.

Consortia and Other Cooperative Research Facilities

The Center for Bio/Pharmaceutical and Biodevice Development

A. Stephen Dahms, Director;
Robert Wang, Associate Director

The Center is a new interdisciplinary organization focusing on the research, development, manufacturing, production, processing, and marketing of biotechnological, biopharmaceutical, pharmaceutical, in vitro diagnostic and medical device products. As an administrative, instructional, and research entity, it incorporates faculty and programs from the Colleges of Sciences, Engineering, Business Administration, Health and Human Services, Professional Studies and Fine Arts, Education, and Arts and Letters. The Center addresses research and workforce needs of companies in their transition from research and development into manufacturing and production, with an additional focus on the overarching legal, ethical, and regulatory elements that both guide and restrict the industry. The Center has a management structure similar to a bioscience company, with section directors for regulatory affairs, biopharmaceutical marketing, bioprocessing/manufacturing, QA/QC, etc., each with research and capstone professional graduate degrees overlaying a cluster of specific certificate programs, and degree emphases, as well as continuing education programs for existing corporate employees. Activities under the Center also include regional economic development, workforce development, the acquisition of new training and research facilities, in some cases, fermentation, cell culture, small molecule synthetic, and pilot plant scale facilities, as well as biotechnology business incubation. The Center employs long-distance telecommunications to corporate, government, and other university sites within California, between its academic partners, and with several international partners. The Center interfaces intensively with the California State University Program for Education and Research in Biotechnology (CSUPERB) providing novel capstone training experiences for CSU biotechnology students.

CSU Program for Education and Research in Biotechnology (CSUPERB)

A. Stephen Dahms, Executive Director

The California State University Program for Education and Research in Biotechnology (CSUPERB) is based at San Diego State University. It exists to provide a coordinated and amplified development of biotechnology research and education within the university system; to foster competitiveness both on the state and national levels; to facilitate training of a sufficient number of biotechnology technicians and scientists; to catalyze technology transfer and enhance intellectual property protection; and to facilitate the acquisition and long-term maintenance of state-of-the-art biotechnology resource facilities across the university, such as the Microchemical Core Facility and the Macromolecular Structural Analysis Resource Center, both localized at SDSU. It facilitates interdisciplinary cooperative activities between the Colleges of Sciences and Engineering, and key departments on all campuses, as well as between faculty and from a number of allied academic and research units such as bioengineering, agricultural biotechnology, environmental and natural resources, molecular ecology, and marine biotechnology. It also operates a grants program of over \$1 million annually for programmatic development and for joint corporate research ventures with industry. It also serves as the official liaison between the CSU and industry, government, the Congressional Biotechnology Caucus, and the public arena in biotechnological matters. CSUPERB operates through an Executive Director, two Associate Directors, a Director of Operations and Workforce Development, a Strategic Planning Council composed of five corporate CEO's, five CSU Deans of Sciences, and ten faculty from the system. CSUPERB is overseen by the Presidents' Commission composed of five CSU campus Presidents from San Diego State University, San Jose State University, Cal Poly Pomona, CSU Los

Angeles, and Cal Poly San Luis Obispo. Faculty input into the organization and its multiple activities is through a 55 member Biotechnology Faculty Consensus Group

Southwest Center for Environmental Research and Policy (SCERP)

D. Rick Van Schoik, Director and Paul Ganster, Chair of Management Committee

SCERP was established and funded by Congress in 1990 to address environmental issues of the U.S.-Mexico border region. The Center includes five U.S. and four Mexican higher education institutions. The five American universities are Arizona State, New Mexico State, SDSU, University of Texas at El Paso, and University of Utah. The research implemented by SCERP includes environmental areas in air quality, water quality and use, hazardous materials, and waste management. SCERP also sponsors the Border Institute, an annual think tank-style forum of key border decision-makers.

Organized Research Centers and Institutes

Africana Center for Cultural Literacy and Research

JoAnne Cornwell and Francis Nesbitt, Co-Directors

The Africana Center for Cultural Literacy and Research provides independent and collaborative projects (across a broad spectrum of academic disciplines) that create professional development opportunities with an Africana cultural focus for students, faculty and staff; research opportunities for students and faculty; and culturally enhanced teaching opportunities for SDSU faculty. The Center's programs also provide venues for community service which focus on Africana cultural groups.

The Africana Center is housed in the Department of Africana Studies and can be reached by calling the department office at (619) 594-6531.

University Center on Aging

E. Percil Stanford, Director

The University Center on Aging offers the B.A. and M.S. in Gerontology. The Center is involved with such activities as supporting interdisciplinary educational and curriculum efforts; undertaking research, demonstration and evaluation activities; providing technical assistance and agency consultation for the community; coordinating workshops and seminars; and providing opportunities for student involvement in aging activities. The Center is also responsible for the coordination of a certificate program in conjunction with the College of Extended Studies and administers an undergraduate major in gerontology. The Center serves as a central point for the development and dissemination of data related to diversity and aging and long-term care and is administratively responsible for the National Resource Center on Aging and Injury.

The Edwin C. Allison Center for the Study of Paleontological and Geological Sciences

Richard H. Miller, Curator

The Allison Center has supported research in paleontology, geology, and related sciences since 1972. The Center maintains a research library containing journals, reprints, textbooks, maps, and copies of master's theses and senior theses completed in the Geological Sciences. The library is open to faculty and students. In addition, the Center houses a collection of fossil and recent vertebrates, invertebrates, and plants. Research space is available for students, faculty, and visiting scholars.

Center for Behavioral and Community Health Studies

John P. Elder, Director

The Center for Behavioral and Community Health Studies is housed at 9245 SkyPark Court, Suite 231, San Diego, CA 92113. The Center, formerly known as The Center for Behavioral Medicine, was established in 1982 for the purpose of promoting research and academic programs relevant to the applications of behavioral science principles to medicine and health care. Administratively, the Center has three co-directors who report to the deans of the College of Sciences and the College of Health and Human Services. The interdisciplinary center encourages participation from all colleges and departments of the University. Currently, active investigators come from the Departments of Exercise and Nutritional Sciences, Psychology, and the Graduate School of Public Health. Current Center projects involve collaboration between scientists and physicians from a variety of specialties as well as a variety of other institutions, including the County of San Diego and University of California, San Diego. Funding for the Center comes from federal and private foundation grants including several National Institutes of Health agencies. Current sponsors include the American Heart Association, Department of Defense, National Cancer Institute, National Heart, Lung and Blood Institute, the State of California Department of Health Services, and the University of California Tobacco Related Disease Research Program.

The Center provides important research experience to students who intend to pursue related careers and offers opportunities for project staff and graduate students to participate in community interventions.

Center for Behavioral Epidemiology and Community Health

Melbourne F. Hovell, Director

Administered through the Graduate School of Public Health, the Center was established for the purpose of promoting research to study behavior that prevents or contributes to the cause of disease and injury. Both non-intervention and empirical studies are conducted to determine the factors most responsible for lifestyle practices related to morbidity and mortality. The Center focuses on health related behavior – either protective practices or risk practices – and has been concerned with a wide range of public health and medical concerns such as: tobacco prevention in youth; environmental tobacco exposure reduction in children; STDs, AIDS, pregnancy prevention in adolescents, and prevention in women and divorced adults; violence and anger prevention. C-BEACH conducts scientific investigations into the following broad areas: behavioral epidemiology, measurement, and interventions (clinical and community-based).

Center for Behavioral Teratology

Edward P. Riley, Director

Teratology is the study of birth defects. The faculty and students at the Center for Behavioral Teratology (CBT) are interested in how prenatal exposure to various drugs influences both brain and behavioral development. The CBT is truly an interdisciplinary research organization, with a broad range of basic and clinical research interests. While the primary purpose of the CBT is to promote research in teratology, personnel in the Center also act as a resource to the University and the community. The staff provides in-service talks at local hospitals, schools, and drug treatment facilities, as well as lectures to various classes at the University. The CBT staff has active collaborations with faculty from UCSD, the VA Hospital, Children's Hospital, and the Scripps Research Institute. Faculty in the Center have grants from the National Institutes of Health, March of Dimes, Tobacco-Related Disease Research Program, and the State of California.

Institute for Built Environment and Comparative Urban Research (BECUR)

Lawrence A. Herzog, Director

The purpose of the Institute for Built Environment and Comparative Urban Research (BECUR) is to: (1) study the impact of culture on the design and shape of the urban built environment; and (2) understand how cities in different cultural settings are being transformed by global processes. BECUR provides a forum for research and dialogue among SDSU faculty and students on the cross-cultural nature of urban space and urban place. The Institute is administered by the College of Professional Studies and Fine Arts. Among its activities, the Institute promotes public lectures and conferences, research projects, and networking among urbanists, social science, planning, design and architectural scholars both in the region, as well as in other parts of the world. The Institute is located in Professional Studies and Fine Arts 177, (619) 594-6964.

The June Burnett Institute for Children, Youth, and Families

**6310 Alvarado Court, San Diego, CA 92120, (619) 594-4756,
FAX (619) 287-6756**

The June Burnett Institute was created in 1985 at the San Diego State University Foundation from a \$1.5 million bequest from the estate of June Estelle Burnett. The mission of the Institute is to develop innovative programs for children, youth, and families that blend service, training, and research. It is dedicated to developing the potential of all children, youth, and parents in a manner that is sensitive and responsive to cultural, social, and economic differences and needs. The Institute fosters cooperation and collaboration through interdisciplinary/interprofessional approaches that promote the well-being of children, youth, and families through prevention, intervention, and volunteer-based services. An advisory board composed of SDSU faculty and community members directs the activities of the Institute in cooperation with its director and a staff of approximately 100. The Institute has two major program divisions that include the San Diego Choice Program and the California PARENT Center.

San Diego Choice Program – The Institute, in cooperation with the San Diego Juvenile Court and the County of San Diego, coordinates the San Diego Choice Program which serves approximately 700 court-involved delinquent youth annually that are referred by the County Probation Departments and the County Health and Human Services Agency. The San Diego Choice Program is modeled after the Choice Program developed by the Shriver Center at the University of Maryland. The program currently maintains offices that serve all areas of San Diego County emphasizing intensive case contact services and services for children re-entering the foster care system.

The California PARENT Center serves as a hub for strong outreach to parents through contacts with parent groups, parent centers, parent advocates, and educators across the state. The Center's "Cyber Center" provides easily accessible resources through an extensive Web site at <http://parent.sdsu.edu> and toll free Parent Warm Line (619) 594-3349; in other areas of California (877) 9PARENT. Staffed daily from Noon to 2:00 p.m., the Warm Line makes available a group of multi-lingual parents who can provide specific "how-to's" for parents or educators who wish to build effective parent programs at the pre-school, elementary, middle school or high school levels. The Center currently combines the efforts of skilled service staff, community-based agencies, and volunteers to promote three "best practice" parent training models: Families and Schools Together (FAST), the Home/School Partnership, and the HIPPIY program (Home Instruction for Parents of Preschool Youngsters). A statewide training program for parent advocates is being developed through an agreement with three collaborative, direct service parent programs. It is being expanded to new sites through subcontracts with the Home's Youth Foundation, Chicano Federation, the Parent Teacher Association, Union of Pan Asian Communities, San Diego Urban League, Parent Institute for Quality Education, San Diego Unified School District, the San Diego Unified PTA council, and the Alliance for Children and Families.

The Burnett Institute Faculty Fellows Program, in conjunction with the Provost and each fellow's college dean, sponsors between three and six faculty members annually who wish to assist the Institute strengthen service, training or evaluation efforts at the University and in the community.

California Center for Childhood Injury Prevention

David W. Lawrence, Director

Administered through the Graduate School of Public Health, the California Center for Childhood Injury Prevention serves as a resource center on child and adolescent injury prevention strategies. The primary mission of the Center is to reduce the frequency, severity and cost of child and adolescent injuries by assisting public health agencies and programs to incorporate injury prevention strategies into their ongoing efforts to improve the health and safety of young people. Center staff can provide data on child and adolescent injuries; technical assistance with the development, implementation and evaluation of child and adolescent injury prevention programs; and linkages with agencies, researchers, advocates and injury professionals as well as access to a variety of educational materials. The Center also houses one of the four national sites of the Children's Safety Network.

China Studies Institute

William G. Tong, Director

The China Studies Institute coordinates and supports on-campus teaching and research related to China. The Institute develops and fosters faculty and student exchange programs with Chinese universities and institutions of higher learning. Various cultural programs on China and activities on campus and in the community promote cultural awareness and understanding. The development of Chinese publications, audio-visual materials, periodicals, newspapers, and other resources on campus fosters relationships between San Diego State University and the Chinese community, as well as nurtures friendship between the Chinese and American peoples.

Coastal and Marine Institute

Richard M. Gersberg, Director

The Coastal and Marine Institute provides a focus for oceanography and marine studies at SDSU. The Institute assists departments within the University in the development of instructional, research, and public service aspects of coastal and ocean-oriented programs and provides special supporting services including advising students, assistance to faculty and students in research, preparation of manuscripts, operation of the SDSU Marine Laboratories and boats at Mission Bay, and liaison with other institutions and the community. The Institute is operated as a special unit of the College of Sciences and is administered by a director and an advisory council consisting of faculty members elected from participating departments. Additional information about marine studies is available from the Coastal and Marine Institute office, or from the Office of the Dean of the College of Sciences.

Communications Systems and Signal Processing Institute

Madhu Gupta, Director

This Institute is engaged in educational, research, and service activities in communication systems with an emphasis on radio frequency and digital signal processing aspects. Faculty, students, and industrial partners collaborate to advance the state-of-the-art in the institute's core areas of expertise, such as R-F circuitry, modems, receivers, transmitters, synthesizers, A-D and D-A converters, digital signal processing algorithms and hardware, antenna, and communication networks. Specific activities include research and design projects; development of products, software, algorithms, and techniques; and training programs including short courses.

Center for Community Economic Development (CCED)

Harold K. Brown, Associate Dean and Director

Community economic development (CED) is an innovative and practical approach to helping communities and neighborhoods prosper through the use of business, economic, and leadership skills. CED is a systematic and planned intervention that is intended to promote economic self-reliance for communities and their residents.

The Center for Community Economic Development (CCED) was established in 2000 and culminated the offering of a certificate program in community economic development that began in 1995. The CED program is one of a few in the United States that offers a comprehensive and practical curriculum in community economic development.

The Center offers a non credit certificate program in community economic development which consists of ten business courses: Introduction to CED, Accounting, Consensus Community Organizing, Financial Management, Legal Structures, Marketing Strategies, Organizational Management, Alternative Sources of Capital, Real Estate and Land Development, and Small Business Development; a series of class related seminars; and a community project. Classes are held on alternate Saturdays from 10 a.m. to 4 p.m. The Center also offers consulting and technical assistance to educational institutions, businesses, local government, and community and civic organizations, in addition to a variety of seminars and workshops on topics related to community development and to community economic development.

The mission of the certificate program is to produce technically competent and community minded economic development professionals, and to produce graduates committed to the principle that residents of neighborhoods and communities should play a major role in the development of their areas.

Center for Computer Simulation

William A. Root, Director

The Center for Computer Simulation pursues research opportunities involving the creation of complex simulations, particularly those addressing challenges in the public sector. The diversity of fields in which computer simulation now plays a role allows the Center to provide research opportunities for undergraduate and graduate students in a wide variety of academic majors.

The Center supports an extensive collection of simulation software under site license, and maintains cooperative relationships with prominent public and private sector simulation software developers to ensure that the Center's capabilities keep pace with the state-of-the-art.

Currently the Center includes members from the faculties of Applied Mathematics, Computer Science, Engineering, and Statistics. The Center is administered by a director appointed by the Dean of the College of Sciences, and resides in facilities provided by the Department of Mathematics and Statistics. For information, call the Center for Computer Simulation office at (619) 594-6837.

Consensus Organizing Center

Michael Eichler, Coordinator

The Consensus Organizing Center is administered through the School of Social Work. The Center's mission is to educate and train a new generation of social workers in community building techniques in order to make them effective catalysts for civic engagement and social change. Through school based programs and community interventions, the Center has created an environment for the teaching of consensus organizing skills to social workers, high school students, and community leaders. Specific activities include developing a fellowship program for high school students and provide employment opportunities for undergraduate and graduate students. The Web site for the Center is www-rohan.sdsu.edu/~consensu. The Center telephone number is (619) 594-2381.

Concrete Research Institute

M. Ziad Bayasi, Director

The Concrete Research Institute supports educational needs in the civil engineering curriculum and concrete research performed for sponsors from industry and governments. The Institute encompasses a wide range of topics. The emphasis is currently on concrete materials and structures. Civil and environmental engineering faculty members are involved with finding optimum design solutions in bridges, seismic resistant structures, residential buildings, and retaining walls.

Corporate Governance Institute (CGI)

Mark C. Butler and Craig P. Dunn, Co-Directors

The Corporate Governance Institute (CGI) is an education and research center dedicated to the study and application of corporate governance principles. Founded in 1998 as a joint venture between the College of Business Administration (CBA) and the International Forum for Corporate Directors (IFCD), the mission of the CGI is to enhance the skills of organizational directors and senior executives in the private, public, and not-for-profit sectors through creating and delivering initiatives related to a) Director and executive development, b) research, and c) curriculum innovation. CGI programs focus on identifying "best practices" in all aspects of corporate governance. All CGI initiatives are guided by the principle that corporate leaders hold a primary duty to insure the financial viability of the organizations they manage, while at the same time taking adequate account of the emerging reality that all institutions, including corporations, are imbedded within communities that justifiably deserve their attention.

The CGI conference room is located in Student Services 3375-A. CGI staff can be reached by telephone at (619) 594-0823, or by e-mail at corporate.governance@sdsu.edu. The CGI Web site can be accessed at www.sdsu.edu/corporate.governance.

Center for Counseling and School Psychology

Valerie Cook-Morales, Director

The Center for Counseling and School Psychology is a unit within the College of Education designed to provide support for activities such as (1) securing and administering grants and other support for research and development in counseling and school psychology, (2) encouraging cooperation with faculty members from other relevant disciplines such as anthropology, economics, psychology, social work, sociology, and Counseling and Psychological Services, and (3) conducting programs or rendering services designed to promote counseling and school psychology at San Diego State University. The Center is administered by the Department of Counseling and School Psychology; fiscal matters are coordinated through the San Diego State University Foundation.

Institute of Druze Studies

Samy S. Swayd, Director

The Institute of Druze Studies (IDS) is an academic non-profit organization dedicated to research and discourse on the Druzes and related topics. The Druzes are a Middle Eastern minority group that live predominantly in the mountainous regions of today's Lebanon, Syria, Jordan, Israel, and with smaller numbers elsewhere around the world. More than 25,000 Druzes live in the United States with California as the main Center of the American Druze Society (ADS). The Druze sect began in Cairo and has survived for almost one thousand years.

The IDS aims to 1) provide information on Druze history, society, and faith; 2) encourage research and studies on historical and contemporary Druze communities; and 3) promote academic discourse about the Druzes and other immigrant religious communities. The IDS pursues these objectives through an international annual multidisciplinary conference, a publication series, an academic journal, and a newsletter. The IDS participates in professional conferences and provides guest lectures to interested organizations.

For more information, call the IDS office at (619) 594-1880, the Department of Religious Studies at (619) 594-5185, FAX (619) 594-1004, or www.druzestudies.org.

Energy Engineering Institute

Asfaw Beyene, Director

The Energy Engineering Institute has supported educational and research activities in energy related areas since 1985. Undergraduate and graduate students and faculty from the mechanical engineering and electrical and computer engineering departments are involved in obtaining solutions to problems presented by industrial sponsors. Institute research projects cover a wide range of areas from optimizing energy resources to international energy studies.

Center for Energy Studies

Alan R. Sweedler, Director

The San Diego State University Center for Energy Studies (CES) facilitates, promotes and supports research and academic programs relating to energy, with particular emphasis on energy matters of concern to the San Diego and local southwest region including the international border with Mexico. The Center encourages interdisciplinary research and instructional programs in the broad areas of energy modeling, technology assessment of energy systems, local energy policy planning and data collection relating to energy usage in the San Diego region. SDSU offers through the Center an interdisciplinary minor in energy studies. Completion of the minor will give the student a broad understanding of the technical, economic, social and political aspects of energy issues. For more information call the Center at (619) 594-6240 or (619) 594-6155. The Center works closely with local and state agencies concerned with energy policy and planning, and serves as a community resource in matters concerning local energy issues and the impact of energy use of the environment.

Entrepreneurial Management Center (EMC)

**Sanford B. Ehrlich, QUALCOMM Executive Director,
Richard D. Brooks, Director, Community Relations,
Alex F. DeNoble, Director of Academic Programs**

The Entrepreneurial Management Center (EMC) serves the emerging growth sector of the regional business community. The growth, development, and success of new business ventures is essential to the future of the San Diego region. The mission of the EMC is to assist this sector of the economy through educational programs focused on the application of the underlying principles and perspectives of entrepreneurship offered to students, organizations, and individuals.

The range of entrepreneurial programs offered includes: (1) support for the M.S. and M.B.A. programs specialization in entrepreneurship; (2) individual knowledge and skill development; and (3) organizational consulting. The entrepreneurial topics presented include the outcomes of the entrepreneurial process: the creation of wealth, new enterprises, innovation, organizational change, increased firm value, and organizational growth. The EMC focuses program development on both the entrepreneur and the entrepreneurial process which results in a variety of outcomes essential to economic development.

The EMC sponsors an annual international student business plan competition that provides students with an opportunity to present their business ideas to a distinguished panel of judges. The competition currently involves students from colleges around the world. The EMC is located in Gateway 1502, (619) 594-2781, FAX (619) 594-8879; www.sdsu.edu/emc.

Center for European Studies

James L. Schorr, Director

The Center for European Studies, through its associated faculty and students, is committed to the multidisciplinary study of Europe and its dynamic and evolving calculus of nations, cultures, languages, and perspectives. The Center is a vehicle for fostering appreciation of Europe, the societies and cultures within its geographical boundaries, and the ideas that make up various European realities.

The Center will develop grant funded programs (e.g. colloquia, symposia, etc.), collaborative teaching and research opportunities, faculty exchanges, internship leads for partner programs, workshops, and related activities.

For more information regarding the Center for European Studies, contact James L. Schorr, Chair, Department of European Studies, (619) 594-5111 or 594-5671; jschorr@mail.sdsu.edu.

Heart Institute

Christopher C. Glembotski, Director

The Heart Institute is sponsored by the College of Health and Human Services and the College of Sciences. The goals of the Institute are to enhance basic and clinical research in the cardiovascular sciences, to foster undergraduate and graduate education in cardiovascular physiology and medicine, and to provide a community outreach service focused at heightening the awareness of cardiovascular disease and its prevention in the San Diego region surrounding SDSU. The Institute is comprised of faculty members representing four different colleges at SDSU, as well as physicians and scientists from local hospitals and clinical research centers. Importantly, the Institute also sponsors SDSU undergraduate and graduate student memberships, which strengthens the involvement of students in all aspects of Heart Institute activities. The unusual blend of talent and expertise that comprise the Institute membership results in an interdisciplinary approach to cardiovascular research, education and community outreach that is unique to the Heart Institute. The Institute sponsors special seminars, on- and off campus, which cover a wide range of topics in the field, and provides funding for the support of graduate students who are involved in cardiovascular research at SDSU. Areas of focus for the Institute include studies of the molecular basis of cardiovascular disease, establishment of unique approaches for the early detection and prevention of cardiovascular disease, and the promotion of cardiovascular health in San Diego area K-12 schools. An important feature of these efforts that distinguishes the Heart Institute is the central role that SDSU students play in each of these areas. Funding for Heart Institute activities comes from a variety of sources, including the National Institutes of Health, the American Heart Association, the Muscular Dystrophy Association, the Rees-Stealy Research Foundation, and several San Diego-based biotechnology companies. For more information contact the Heart Institute office at (619) 594-5504.

Center for Hospitality and Tourism Management

Carl Winston, Director

The Center for Hospitality and Tourism Management represents a joint venture equally supported by the Colleges of Business Administration and Professional Studies and Fine Arts. The Center is an education and research center dedicated to the study and application of business and professional principles in the broad field of hospitality and tourism. The mission of the Center is to enhance the skills and knowledge of professionals and students in the field of hospitality and tourism management through the creation and delivery of initiatives in executive development, research, and curriculum innovation.

Programs associated with the Center focus on identifying "best practices" in all aspects of hospitality and tourism such as hotel operations, restaurant operations, global tourism, and attractions, events, and convention management. The Center's mission is pursued in multiple venues, including private, public, and not-for-profit agencies. Our vision is to become the leading center for hospitality and tourism management education in Southern California and a prominent national and international resource for questions related to education in hospitality and tourism. The Center actively seeks to support SDSU, the College of Business Administration, the College of Professional Studies and Fine Arts, and members of the local and national community in matters related to hospitality and tourism. The Center is located in PSFA 430, (619) 594-4964; www.sdsu.edu/business/htm.

International Institute for Health and Human Services Development

Dolores A. Wozniak, Director

Administered through the Office of the Dean of the College of Health and Human Services, the purpose of this International Institute is to respond to the urgent global need for human resources, particularly in the fields of health and human services. Specific activities include the development of education and training programs; promoting relevant research and model demonstration programs and projects; encouraging technical cooperation with developing countries; promoting exchange of information and experience at the international level; and engaging in the convening of conferences. The Institute also provides a comprehensive, centralized source of data and information on human resource development, linking it to internationally recognized networks, and serving as a repository and a clearinghouse for information.

Center for Injury Prevention and Research

Dolores A. Wozniak, Director

Administered through the College of Health and Human Services, the purpose of the Center is to prevent intentional and unintentional injury among all segments of the community and in all age ranges, from birth to old age. The Center will accomplish this purpose through seven essential functions: 1) Establishing and coordinating a multidisciplinary group of professionals dedicated to injury control and prevention including traffic safety; 2) Assisting in the coordination of existing local and state resources for injury intervention and prevention; 3) Conducting ongoing injury data surveillance; 4) Supporting appropriate injury related intervention and prevention strategies aimed at individual and community change; 5) Stimulating injury intervention and prevention based research and program development; 6) Disseminating the results of injury intervention and prevention research activity generated by the Center; and 7) Providing technical assistance, training, and continuing education to appropriate target audiences in California and outside of California, as requested. Specifically, the Center will identify injury problems and gain extensive community information which will be used to develop strategic plans to control and prevent injuries. In addition, the Center will define the changes required to reach desired solutions. A systems approach will be used to address these issues as such an approach also recognizes the comprehensive nature of injury problems and the need to develop equally comprehensive solution sets.

Center for Inland Waters

Stuart H. Hurlbert, Director

The Center for Inland Waters is an interdisciplinary academic unit consisting of faculty members from four SDSU colleges (Arts and Letters, Engineering, Health and Human Services, Sciences). Its purpose is to foster basic and applied collaborative research among SDSU scientists and scholars on inland water resources and ecosystems, the application of their expertise to the solution of water-related problems in southern California and adjoining regions, and the coordination and development of courses, curricula, and physical facilities for water-related instruction and research. Inland water resources include the water supply for domestic, agricultural and industrial uses, the growing system of aqueducts, reservoirs, and aquifers in which this supply is transported and stored, and the rivers, lakes, and wetlands important as habitat for wildlife, as maintainers of environmental health, and as recreation areas. Of special interest to the Center are social, economic, hydrological, public health, and ecological issues concerning the Colorado River and its delta, the Salton Sea, and the new Tijuana and Santa Margarita Rivers and their watersheds. The Center is operated as a special unit of the College of Sciences and is administered by a Director and an elected Executive Committee. Information on the Center and regional water resources is available at www.sci.sdsu.edu/salton/.

Center for Innovation in Computer Science Education

William A. Root, Director

The Center for Innovation in Computer Science Education serves the University by promoting the integration of computer science education at SDSU into the business, social and educational fabric of the San Diego community at large. The Center's mission focuses on three complementary and interdependent areas: industry partnerships, university curriculum innovation, and community outreach.

The Center works to broaden and intensify the relationship between SDSU and local industry in the computer science area, by promoting and administering significantly expanded formal internship programs, faculty consulting, and participation of local industry professionals in team-teaching advanced-technology computer courses at SDSU. The Center aims to foster innovation in SDSU's computer science curriculum by undertaking research in computer science pedagogy. Finally, the Center seeks to improve the number and quality of SDSU's incoming computer science students by actively promoting and administering cooperative programs linking SDSU, private sector technology firms, and San Diego area K-12 schools. The goal of these programs is to ensure that promising students in local schools are exposed early to the excitement of computer science, and are well prepared to make a seamless transition from secondary school to a challenging first-year university computer science curriculum.

The Center is comprised of an interdisciplinary group of faculty who have interest and technical expertise in computer science, and, particularly, in computer science education. Currently, the Center includes members from the faculties of Computer Science, Mathematics, and Physics. For information, call the Center for Innovation in Computer Science Education at (619) 594-6837.

International Center for Communications

John M. Eger, Director

The International Center for Communications draws upon the resources of the University, the community, and the communications industry to provide the nation's international focal point in the Pacific in which academic study, innovative research and practical experience among the private and public sectors are joined to help solve critical issues confronting the Pacific region. The Center serves two major purposes: 1) to initiate dialogues leading to new understanding among the diverse cultural and community interests of the region; and 2) to link communications and community in the new relationships essential to fulfilling the promise of the Pacific world.

The goals of the International Center are to establish an institutional approach to learning, problem-solving and practical work focusing on the critical issues of communication and information; to create a new and dynamic partnership in San Diego between business and industry, government and academia, redefining and building a sense of community; and to develop a forum and agenda for research, discussion and collaboration with other organizations in the Pacific leading toward the establishment of a permanent "Pacific Dialogue on the Media."

The Center also houses the California Institute for Smart Communities founded to assist communities understand the use of technology as a catalyst for economic and social development.

Center for the Study of International Education

Donn C. Ritchie, Director

The Center for the Study of International Education is a unit of the College of Education. It promotes faculty and graduate student research, explores study abroad and exchange possibilities for faculty and students, and disseminates information about international education to interested persons in the San Diego area. It also seeks to complement regular course offerings through sponsorship of lectures, conferences, and the development of bibliographic resources.

The Center seeks to foster not only a network of interested faculty within the College of Education but also encourages faculty involvement from other colleges on campus as well as from other organizations and universities in the San Diego region.

Center for International Media and Communication Education

Donald R. Martin, Director

The Center for International Media and Communication Education is an effort of the School of Communication and the College of Professional Studies and Fine Arts, in collaboration with the KPBS stations. The Center was established to develop and provide international educational programs in communication as well as professional training for foreign educational institutions and media organizations.

The Center utilizes the academic and professional expertise of the faculty and KPBS personnel to develop international educational and training programs. It develops international linkages between the School of Communication and similar academic programs at foreign universities, and establishes international exchange programs in communication fields for undergraduate and graduate students, faculty members, and media professionals. It administers a variety of service programs that provide consulting and training for international media organizations.

International Population Center

John R. Weeks, Director

The International Population Center (InterPop) promotes applied demographic research and the provision of technical assistance and consulting, especially focusing on population issues and policy within the San Diego/Tijuana region and the Middle East.

Although it is located in the Department of Geography, InterPop is a multidisciplinary facility, linking Center faculty from several departments on campus with Center associates from other organizations and universities in the San Diego region. The telephone number for the center is (619) 594-8040.

Institute for International Security and Conflict Resolution

Alan R. Sweedler and Dipak Gupta, Co-Directors

The SDSU Institute for International Security and Conflict Resolution (IISCOR) encourages and facilitates teaching and research in the multidisciplinary area of international security and conflict resolution. Topics such as nuclear armaments, international and intranational conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Arts and Letters, Professional Studies and Fine Arts, and Sciences. IISCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. SDSU offers, through IISCOR, a multidisciplinary Bachelor of Arts degree in International Security and Conflict Resolution. More information is available by calling the IISCOR office at (619) 594-6240.

International Technology and Trade Network

The International Technology and Trade Network (ITTN), an institute of San Diego State University's Center for International Business Education and Research (CIBER), is a collaborative offering of the College of Business Administration and the College of Arts and Letters. The objective of the ITTN is to promote methods for creating a stable economic environment for transnational business, trade, and research. The Institute will seek ways to use business as a catalyst for regional peace and cross-border economic development. This effort will focus on networking together business assistance organizations, academic institutions, and research centers in regions of conflict and emerging economies. We will establish a virtual business assistance

network that will take advantage of the latest Internet, information, and telecommunications technologies to provide business-to-business and organizational links. We will use these technologies to share information as well as provide educational, training and distance learning opportunities to participating members of the network. For more information, contact David Earwicker with the SDSU CIBER at (619) 594-6023 or david.earwicker@sdsu.edu.

Interwork Institute

Fred R. McFarlane and Ian R. Pumpian, Co-Directors

The Institute's efforts focus on promoting the integration of individuals, including those with disabilities into all aspects of school, work, family, and community life. The Institute conducts research, training, and education using a variety of strategies including distance learning technologies. Educational and research efforts involve organizations and individuals in the states, the Pacific Basin, Asia, and Europe. Faculty and staff associated with the Institute are uniquely prepared to promote the meaningful participation and productivity of each member of the community. The Institute's mission is supported through local, state, federal, and international organizations. The Institute's facilities are located at 3890 Camino del Rio North in Mission Valley.

Center for Islamic and Arabic Studies

Paul J. Strand, Acting Director

The Center for Islamic and Arabic Studies is charged with teaching and research focused on Islam and the lives of Islamic and Arabic-speaking peoples past and present. It sees Islam, rooted in the Arabic language and experience, as a system of beliefs and a way of life, richly cosmopolitan and of world-historical significance.

The Center includes in its scope of study the Arabic language; Islamic religion and law; the history of the Muslim peoples across Eurasia and Africa; the role of Muslim peoples and nations in world politics, economics, and social issues; political life in Muslim nations; and Muslim communities in the United States.

Its ambition is to become a leading center in North America for the study of Islamic history, religion, society, economy, and culture as a global phenomenon.

Center for Learning, Instruction, and Performance Technologies

Brock S. Allen, Director

The Center's faculty and staff conducts research on the design and use of technology-based systems for enhancing human learning and performance, monitors trends in advanced applications of educational technology and allied disciplines, and evaluates the effectiveness and usability of educational products and services.

The Center consults with corporations, agencies, and SDSU affiliates on the design of products for education and training, arranges for on-site and electronic delivery of professional development courses and seminars by the nationally recognized faculty of SDSU Department of Educational Technology, and coordinates fieldwork and internship opportunities for advanced graduate students.

The Center also offers the services and capabilities of the College of Education's Educational Design Research Laboratory to clients who are interested in rapid prototyping and formative evaluation of educational products and services. A principle focus of the EDRL is the use of high technology video and computer systems to capture and analyze data about the usability and learnability of prototype products.

Institute for Leisure Behavior

Gene G. Lamke, Director

The Institute for Leisure Behavior is the research and community service unit within the Department of Recreation, Parks and Tourism at San Diego State University. It is primarily concerned with conducting leisure related research, promoting professional development, disseminating specialized publications, organizing conferences, seminars, lectures and workshops.

The Institute is governed by a Board of Directors which, in turn, is advised by a group of thirteen individuals from park and recreation and related fields. The Advisory Council has been instrumental in providing valuable information to the Board concerning the needs and direction of the leisure services field.

The Institute administers a variety of service programs within San Diego County. Camp Able at Coronado, an aquatic based camp for disabled children and adults, operates ten weeks during the summer at Silver Strand State Beach. The Spring Valley R.E.A.C.H. Program, funded by Social Advocates for Youth, provides recreational and educational activities for children and youth. Additionally, the Institute conducts research for local tourism, park and recreation entities as well as the California Department of Parks and Recreation and the United States Forest Service.

The Institute publishes monographs focusing on important issues relative to leisure services delivery. These are available to the public as well as park and recreation practitioners. Research projects under the direction of the Institute focus on local, state, national, and international problems related to leisure and park/recreation/tourism services.

Lipinsky Institute for Judaic Studies

Lawrence Baron, Director

The Lipinsky Institute for Judaic Studies, located in the College of Arts and Letters, serves to coordinate the Judaic Studies minor at SDSU. Established with contributions from the San Diego community, the Lipinsky Institute provides financial support for an annual visiting professor from Israel, the annual Galinson-Glickman symposium on contemporary Israeli issues, the Robert Siegel Memorial Lecture, and the Jewish heritage video collection housed in the library's Media Center. It also complements regular course offerings by sponsoring lectures, acting as a community resource on Jewish studies, and housing the Jewish Historical Society of San Diego archives in the Snyder Judaic Studies reading room (LL 363).

Center for Research in Mathematics and Science Education

Kathleen M. Fisher, Director

The Center for Research in Mathematics and Science Education (CRMSE) is an interdisciplinary consortium of faculty interested in research on substantive questions related to the learning and teaching of science and mathematics. The Center currently has members from the faculties of Biology, Geological Sciences, Mathematics and Statistics, Physics, Psychology, and Teacher Education. It is administered by a director appointed by the dean of the College of Sciences and an associate director appointed by the dean of the College of Education. Through its activities, CRMSE initiates, encourages, and supports the scholarly pursuit of important theoretical and applied problems in mathematics and science education. CRMSE supports faculty in their current research projects and in the preparation of manuscripts for publication and grant proposals for continued research. The Center also administers the Doctoral Program in Mathematics and Science Education that is offered jointly by SDSU and the University of California, San Diego and the Professional Development Collaborative to serve area teachers. The Center is located at 6475 Alvarado Road, Suite 206, San Diego, CA 92120-5013; (619) 594-5090; campus mail code 1862.

Center for Microbial Sciences

Stanley R. Maloy, Director
Anca M. Segall, Associate Director

The Center for Microbial Sciences is a non-profit research center dedicated to the study of microorganisms. The Center's mission is to provide a productive, stimulating, and interactive research environment that will lead to rapid progress in the fields of microbial biology. The Center integrates multiple scientific approaches to elucidate basic biological principles that helps in combating human health problems caused by microorganisms and stimulates applications of microorganisms in the biotechnology industry.

The Center encourages multidisciplinary scientific research by bringing together a group of creative, cooperative investigators with different scientific backgrounds to attack major questions in microbial biology using a variety of experimental approaches. The Center also trains scientists to attack important but neglected problems in microbial biology. The close proximity of the Center for Microbial Sciences is a nucleus of biotechnology companies facilitates interactions with industry. The Center also collaborates with neighboring institutions with expertise in other biological areas (UCSD, Scripps Research Institute, Salk Institute, Scripps Institution of Oceanography, and others) providing additional intellectual and physical resources.

The primary goals of the Center are:

- *Research* – To attract a group of imaginative, interactive investigators and provide a stimulating environment for productive, innovative research in microbial biology;
- *Training* – To train a new generation of scientists to solve important problems in microbial biology using innovative experimental approaches;
- *Outreach* – to provide expertise and facilities for visiting scientists from academia and industry to learn new technologies.

Molecular Biology Institute

Greg L. Harris, Director

The Molecular Biology Institute was established to serve interested departments of the biological and physical sciences in the coordination, support and enhancement of research and instruction in the molecular biological sciences. Interests and activities of the MBI encompass all approaches which aim to explain biology at the molecular level. The MBI sponsors a weekly seminar series that facilitates faculty and student interaction with scientists from other institutions. Currently, full members of the Institute are drawn from the departments of Biology and Chemistry, and the Graduate School of Public Health, and participate in the respective Ph.D. programs. Associate members are drawn from a variety of disciplines that are cognate with the molecular biological sciences. The Institute is also constituted as the university unit authorized to administer the master's program with an emphasis in Molecular Biology. The research programs of the MBI members are supported by a variety of agencies including the National Institutes of Health, the National Science Foundation, NASA, the American Heart Association, the American Diabetes Association, the Muscular Dystrophy Association, the Department of Energy, the U.S. Department of Agriculture, and the California Metabolic Research Foundation. Additional information is available from the MBI office; (619) 594-7429.

Institute for Nursing Research

Catherine E. Loveridge, Director

Administered through the School of Nursing, the purpose of the Institute is to promote collaboration in the conduct, dissemination, and utilization of nursing research which will contribute to the quality of patient care and service. The Institute provides a forum for research interests and activities, and also fosters collaborative research efforts among Institute nurse clinicians and SDSU nursing faculty. This includes identifying research priorities for individual and multi-site research projects, and providing consultation for design, method, analysis, computer services, instrumentation, and manuscript preparation. The Institute also facilitates the dissemination of research findings. Web site for the Institute is at www-rohan.sdsu.edu/dept/chhs/nursing/inr.html.

Production Center for Documentary and Drama

Jack Ofield, Director

The Production Center for Documentary and Drama sponsors and creates professional films and television programs and series and symposia with high artistic and technical standards, documentary accuracy, and creative originality. Within the School of Communication, Production Center projects are integral to the training of senior

and graduate students in the telecommunications and film disciplines. Students work in tandem with industry professionals to gain practical experience in location and studio production. Located in Communication 124, 125, 126, the Production Center mentors graduate students and alumni in the creation of projects that are an expression of their artistic and technical growth. The Center serves local, national, and international non-profit entities such as museums, libraries, performing and visual arts groups and public service, research, philanthropic and government agencies in the development of audio-visual programs, and assists other SDSU departments in documenting important projects and programs. Production Center projects are distributed world-wide and funded from grants and contracts with industry, government, philanthropy, education and business.

Institute of Public and Urban Affairs

Louis M. Rea, Director

The Institute of Public and Urban Affairs is located in the School of Public Administration and Urban Studies. The Institute was established to conduct research in community and governmental affairs and to sponsor conferences, colloquia and symposia related to issues in public administration and affairs including urban planning, management and criminal justice administration. The Institute also publishes occasional working papers and research monographs. Selected students and faculty of San Diego State University staff the Institute. An integral part of the Institute is the Public Administration Center which contains a specialized and growing collection of research materials emphasizing issues in public affairs particular to San Diego and California.

Institute for Public Health

K. Michael Peddecord, Interim Director

Administered through the Graduate School of Public Health, the mission of the Institute is to serve as a vehicle for the development and support of functional linkages between the SDSU Graduate School of Public Health, local public health agencies, and private organizations in the San Diego community and neighboring areas, including Mexico. These linkages expand the availability of University-based public health expertise, research and information in the areas of biostatistics, environmental health, epidemiology, health services administration, health promotion, industrial hygiene, maternal and child health, occupational health, and toxicology. Specific activities include collaborative research, technical assistance, program evaluation, consultation, continuing education and professional development, student field placement, faculty/practitioner exchange, information dissemination, and various service activities. The Institute serves to bridge public health academics and practice by facilitating meaningful partnerships between faculty, students, and local practitioners. The Institute offices are located at 6505 Alvarado Road, Suite 115, (619) 594-2632.

Real Estate and Land Use Institute (RELUI)

Established in 1983, the Real Estate and Land Use Institute (RELUI) is the first systemwide research-oriented institute of its kind in the 23-campus California State University system. The San Diego regional office of RELUI is located in the College of Business Administration.

RELUI's mission is to promote education and research in real estate and land use. In support of this mission, RELUI seeks to (1) support, coordinate, and manage systemwide and inter-campus research activities; (2) obtain funding sources for education and research activities; (3) promote the general well-being of undergraduate and graduate study within the CSU system; and (4) maintain liaison with government agencies, private industry, and associated organizations with interest in public policy.

RELUI maintains a research and reference center in the College of Business Administration where specialized real estate and land use related materials are available for use by students and faculty.

RELUI also sponsors an internship program for placement of qualified students with local firms to provide a combined working and learning experience. Additional benefits accrue to interns in the form of academic credits and stipends. For more information, call (619) 594-2301. E-mail address: relui@mail.sdsu.edu

Institute for Regional Studies of the Californias

Paul Ganster, Director

The Institute for Regional Studies of the Californias (IRSC) provides San Diego State University with a forum for the investigation, discussion, and dissemination of information about the United States-Mexican border region. The Institute focuses on the border region of California and Baja California Sur and is also concerned with important issues of the United States-Mexican interface and monitors border regions elsewhere in the world.

Created in 1983, the Institute has undertaken multidisciplinary applied research projects on important regional concerns including transborder environmental issues, policy perspectives of the California-Mexico relationship, quality of life, and sustainable development. IRSC also plays an active role in Mexico-related professional organizations and is frequently consulted on transborder issues by the media, nongovernmental organizations, the public sector, and other border stakeholders.

Other Institute activities include conducting binational symposia; improving communication between public and private sector representatives on both sides of the border; serving as a clearinghouse for information on transborder events, issues, and institutions; and encouraging the effective use of educational resources among the region's universities. The Institute serves as a major link between SDSU and Mexican institutions.

IRSC has an ongoing publications program that includes books, monographs, and shorter items. Many titles are co-published with SDSU Press. IRSC serves as co-editor of the Journal of Borderlands Studies that is published by the SDSU Press.

IRSC has under way applied research projects on border environmental issues and public policy, regional economic issues, and transborder planning issues. IRSC serves as the SDSU link to the Southwest Center for Environmental Research and Policy, a congressionally established consortium of Mexican and U.S. universities for research and policy studies on environmental issues of the border.

Dr. Sanford I. Berman Institute for Effective Communication and General Semantics

The Dr. Sanford I. Berman Institute for Effective Communication and General Semantics within the School of Communication is dedicated to the study of language and behavior in social context. Contemporary trends no longer seem to answer to the call of the individual's command of language in everyday experience. It is therefore imperative that the connections between communication and the practical realms of polity, family, and society be re-established. To do so requires scholarly attention to and an understanding of the relations among our symbolic activities, society, and the mind. The Dr. Sanford I. Berman Institute serves in this vanguard role. The Institute measures its stature by the success of those it trains to lead a more enriching existence through communication.

Computational Science Research Center

José E. Castillo, Director

Associate Directors: Massimo Boninsegni and Donald R. Short

The Computational Science Research Center (CSRC) promotes the development and advancement of the interdisciplinary subject of computational science. This is accomplished by fostering research, developing educational programs, and promoting industrial interaction, outreach, and partnership activities.

The Center provides an environment for scientific research at San Diego State University. It facilitates the interaction between applied mathematics, computer science, and other disciplines by providing

the necessary infrastructure for productive research efforts. Real world applications are the focus of faculty and student projects. These projects provide an educational opportunity for students to hone industrially relevant computational skills.

The goals of the Center are to encourage and facilitate research in computation, simulation, visualization, and numerical modeling in all disciplines (business and finance, biology and bioinformatics, engineering, physical sciences, and geography); to interact with other centers, laboratories, universities, and local industry; reduce lag time between algorithm development/analysis and applications; to participate in programs with other countries, including international programs sponsored by the National Science Foundation; to arrange visits by professors, including foreign visitors on sabbaticals and professional staff on industrial sabbaticals; to arrange part time and adjunct appointments for consulting activities by professional staff from local research laboratories; to provide employment, experience, and contacts for students; to sponsor conferences, workshops, and courses; to facilitate collaboration with government laboratories with private sector; to provide bridges to regional industry; and to direct the computational science program at San Diego State University.

Interested students and faculty may obtain more information by calling the CSRC office at (619) 594-7205, www.sci.sdsu.edu/csarc.

Center for Social Equity Technical Assistance

Ruben W. Espinosa and Alberto M. Ochoa, Co-Directors

The Center conducts training and research on issues of social equity and bilingual/multicultural policy, and provides technical assistance to districts throughout southern California. The Center conducts research in public equity and school finance. The Center houses projects funded by federal, state, and private sources. Current projects include the Parent Leadership and the Social Equity project. The Center functions within the Department of Policy Studies in Language and Cross-Cultural Education at San Diego State University.

Social Policy Institute

Terry Carrillo, Coordinator

Administered through the School of Social Work, the mission of this Institute is to assist local and state, public and private sector leaders in the development of policies and programs that better meet the needs of the people of San Diego County and the State of California. The Institute is dedicated to helping create quality human service programs through the integration of policy development, state-of-the-art practice models and relevant research. The Institute provides expert technical assistance and consultation to public and private sector leaders in the development of progressive social policy, strategic planning and quality management. The Institute is engaged in examining health and human service issues and problems through conducting research and evaluations, in reviewing existing studies and reports at the local, state, and national levels; and in preparing recommendations for dissemination to elected officials, special commissions, task forces, business executives, community leaders, and administrators of major institutions. Results, findings, and information are communicated through published professional monographs and journal articles, professional meetings and conferences, op-ed newspaper essays, testimony to political bodies, such as the County Board of Supervisors and State Legislators, a computer web site, news conferences, and interviews with electronic media representatives. Scholars from several departments within the University individually and in collaboration lend their expertise to the analysis of regional health and human services problems. Issues of focus include children, youth, and family concerns, aging and the elderly, mental health, health care delivery, welfare reform, family violence, immigration, community economic development, diversity and discrimination, and homelessness. The Web site for the Institute is www.sdsu-spi.org.

Strategic Technologies and Research (STAR) Center for Electronic Business

Annette Easton and George Easton, Co-Directors

The Internet is reshaping business and the future of business is electronic business (e-Business). The Strategic Technologies and Research (STAR) Center for Electronic Business is dedicated to exploring the strategies, technologies, and business models associated with conducting business electronically.

The interdisciplinary STAR Center engages in activities that focus on information technologies, management strategies, markets and operational issues of electronic business. The goals of the Center include creation and implementation of educational programs in electronic business; creation of research and professional development opportunities with an electronic business focus; creation of opportunities for professional and community service that focus on electronic business; creation of effective development strategies to ensure long term viability; and creation of effective methods of information sharing and outreach. The STAR Center provides the framework for the College of Business Administration to manage the curriculum, grow the research programs, and harvest opportunities provided by this new discipline.

The STAR Center is located in the College of Business Administration's electronic boardroom (SS-2601). STAR Center staff can be reached at (619) 594-2759, via e-mail at starcenter@sdsu.edu or at starcenter.sdsu.edu.

Center on Substance Abuse

Anita S. Harbert, Director

Annette R. Smith, Coordinator

Administered through the School of Social Work, the Center was established in 1985 with a primary mission of facilitating the development of knowledge and skills for the prevention and treatment of alcohol and drug problems. Goals include developing and supporting projects in substance abuse research, curriculum, and community service. The Center is actively engaged in conducting alcohol and other drug research and evaluation projects. Over the past decade, the Center has received numerous federal, state, and county grants. Ongoing projects of the Center include the Community-Collegiate Alcohol Prevention Partnership (C-CAPP) and the Student-to-Student Project. C-CAPP is funded by the National Institute for Alcoholism and Alcohol Abuse and the U.S. Department of Education. Both C-CAPP and Student-to-Student have the goal of reducing alcohol and other drug problems among college students. Other recent research projects include a study of California's publicly-funded substance abuse treatment system and an evaluation of the Pacific Southwest Addiction Technology Transfer Center. In addition, the Center provides services such as the Central District Driving Under the Influence Program, providing education and counseling for court-ordered offenders in the central judicial district of San Diego County. It has also been involved in the training of several hundred community professionals in substance abuse intervention, and participates in the San Diego Intercollegiate Consortium for Alcohol and Drug Abuse Prevention, and on the Professional Development Committee of the California Addiction Training and Resource Center at UCSD.

The Center is located at 9245 Sky Park Court, Suite 125, (858) 715-0860. The Student-to-Student office is located on-campus, (619) 594-5803. The DUIP program is located at Sky Park Court, Suite 101, (858) 467-6810.

California Institute of Transportation Safety

Sheila Sarkar, Director

The California Institute of Transportation Safety (CITS) was created to conduct research, administer programs, and teach courses in transportation safety. Several renowned professionals in engineering, public health, and psychology are affiliated with the Institute, and GIS is

used for engineering design work. CITS offers courses for traffic engineers as well as opportunity for students in transportation engineering to work as interns. Current programs include Workplace Traffic Safety initiatives, Southern California Local Traffic Safety Program, and Aggressive Driving and Road Rage behavior modification program.

Center for the Visual and Performing Arts

The Center for the Visual and Performing Arts serves as a focal point for the arts on campus and in the San Diego region. The Center's primary activities involve enhancing, coordinating, and publicizing the College's visual and performing arts programs, forming alliances and partnerships with San Diego arts agencies, and initiating new programs to expand the impact of the arts on the campus and in the community.

The Center promotes the integration of the arts on campus through curriculum initiatives by designing collaborative courses that integrate the arts into other discipline areas. The Center enhances art on campus through the "Masters of the Living Arts Program," which brings internationally known artists to perform and exhibit, to conduct master classes and workshops, and to present lectures for students, faculty, and the San Diego arts community. The Center promotes the arts throughout the community by initiating outreach programs from the campus in the visual and performing arts. The Center also serves the campus and the San Diego artistic community by exploring important issues and themes relative to the arts through educational opportunities, public forums, research, and multidisciplinary and multicultural exhibits and performances.

Research Lecture Series

Distinguished Graduate Research Lecture Series

The Distinguished Graduate Research Lecture Series is sponsored by the Office of the Associate Vice President for Research and Dean of the Graduate Division and the University Research Council and is supported in part through Instructionally Related Activities funds. The Series was established for the purpose of bringing to the campus scholars of national and international preeminence to present a public lecture on a general subject related to research and graduate education. In addition to this public lecture, the distinguished lecturer provides an unusual educational opportunity for graduate students by conducting a graduate research colloquium. Each of the lecturers in the Series is published to assure increased availability to students, faculty, and the university community at large.

Past Distinguished Research Lecturers have included Dr. Owen Gingerich, Professor of Astronomy and History of Science, Harvard University and Senior Astronomer, Smithsonian Astrophysical Observatory; Dr. Noam Chomsky, Institute Professor of Linguistics, Massachusetts Institute of Technology; Dr. Arthur Kornberg, Professor of Biochemistry, Stanford University; Dr. Nathan Glazer, Professor of Education and Sociology, Harvard University; Dr. Jane Goodall, Director, Gombe Stream Research Centre; Dr. Jonathan Miller, well-known author, stage producer and director; Dr. Stephen Jay Gould, Professor of Geology, Harvard University; Dr. Frank Sherwood Rowland, Professor of Chemistry, U.C. Irvine Nobel Laureate, and theorist on origins of ozone depletion; Ms. Susan Sontag, one of America's best known writers; and Dr. Michael J. Novacek and Dr. Mark A. Norell, Curator and Associate Curator respectively of Vertebrate Paleontology of the American Museum of Natural History; and Dr. Miguel Leon-Portilla, Professor Emeritus, National Autonomous University of Mexico.

Albert W. Johnson University Research Lecture

A project sponsored by the University Research Council and the Office of the Associate Vice President for Research and Dean of the Graduate Division, the Albert W. Johnson University Research Lectureship is awarded to an SDSU faculty member for outstanding achievement in research and scholarship. The purpose of the University Research Lectureship is to recognize such achievement, to foster its continuance, and to enable a distinguished resident faculty scholar to share knowledge more broadly with the academic community and the community-at-large.

One SDSU faculty member may be designated annually as the Albert W. Johnson University Research Lecturer for the academic year. Each of the lectures in the Series will be published to assure its increased availability to the students and faculty of the university and to the community at large.

Past lecturers have included Dr. Joseph Ball, Professor of Anthropology; Dr. Alvin Coox, Professor of History; Drs. James Flood and Diane Lapp, Professors of Education; Dr. Maurice Friedman, Professor of Religious Studies; Dr. Arthur Getis, The Stephen and Mary Birch Foundation Chair in Geographical Study; Dr. Dipak K. Gupta, Professor of Public Administration and Urban Studies; Dr. Robert Kaplan, Professor of Psychology; Dr. E. Percil Stanford, Professor of Social Work; Dr. Donna J. Thal, Professor of Communicative Disorders; Dr. Helen Wallace, Professor of Public Health; Dr. David Ward-Steinman, Professor of Music; and Dr. Catherine Yi-yu Cho Woo, Professor of Chinese.

Research and Technology Services

Office of the Committee on Protection of Human Subjects

The Committee on Protection of Human Subjects (CPHS) reviews research when procedures are proposed to obtain information about a living individual through the use of a survey, interview, observation, experimentation, or the analysis of human tissues, records, samples, or other data previously collected from human subjects. All research involving human subjects, within the jurisdiction of SDSU's federal assurance, must be reviewed and approved by the CPHS in advance of study initiation. The Human Subjects Program Office is responsible for providing administrative support to the CPHS and for establishing and maintaining a program in support of ethical and responsible research conducted under the auspices of SDSU. Call (619) 594-6622 for more information.

Office of the Institutional Animal Care and Use Committee

The University Animal Subjects Committee (UASC) is the Institutional Animal Care and Use Committee at SDSU and functions in accordance with Federal and State regulations and institutional policy. The Office of the Institutional Animal Care and Use Committee provides administrative support to this committee for implementing University policy for research, testing, or education involving the use of animals. Call (619) 594-0905 for more information.

Technology Transfer Office

The Technology Transfer Office (TTO) provides a central location where faculty, students, and staff may receive advice and assistance in the commercialization of their inventions, copyrights, and other scholarly work. In addition, the TTO assists in setting up new spin-off companies and obtaining venture capital for future development. This office also reports to the SDSU Foundation. Call (619) 594-0516 for more information.

General Information

Accreditation

San Diego State University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges, 985 Atlantic Avenue, Suite 100, Alameda CA 94501, (510) 748-9001; FAX (510) 748-9797; EMAIL: wascsr@wascsenior.org; www.wascweb.org. It is also approved to train veterans under the G.I. Bill.

San Diego State University's programmatic accreditation is through membership in the following associations:

In addition, San Diego State University is accredited by the following agencies:

The College of Business Administration and the School of Accountancy are accredited by the AACSB International—The Association to Advance Collegiate Schools of Business—at both the undergraduate and graduate levels. Several College of Business Administration programs are registered with the Certified Financial Planner Board of Standards, 1700 Broadway, Suite 2100, Denver, CO 80290-2101, (303) 830-7500.

The College of Engineering undergraduate programs in aerospace, civil, electrical and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.

The School of Nursing is accredited by the California Board of Registered Nursing, State of California, Department of Consumer Affairs, 400 R Street, Suite 4030, Sacramento, CA 95814, (916) 322-3350.

Concentrations in Environmental Health and Occupational Health in the Graduate School of Public Health are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.

The Didactic Program in Dietetics and the Preprofessional Practice Program in Dietetics in the Department of Exercise and Nutritional Sciences are approved by the American Dietetic Association, P.O. Box 97215, Chicago, IL 60678-7215, (312) 899-0040.

Undergraduate programs in Athletic Training and Kinesiotherapy, in the Department of Exercise and Nutritional Sciences are accredited by the Commission on Accreditation of Allied Health Education Programs, 335 East Wacker Drive, Suite 1970, Chicago, IL, (312) 553-9355, caahep@mis.net.

Library and Information Access

The Library supports the curricular and research needs of the University community through the development of collections and the provision of services designed to facilitate access to information. Service desks are located in these units: Circulation, General Reference, Government Publications and Maps, Media Center, Current Periodicals and Microforms Center, Reserve Book Room, Science, and Special Collections. The Library also has a comprehensive instruction program, which includes course-related instruction, and tours.

The Infodome (<http://infodome.sdsu.edu/>) provides access, within the library and remotely, to the library's catalogs, electronic books, journals, and more than 50 databases. Interlibrary loan services are provided to obtain materials not held in the library. In addition, students and faculty can place unmediated requests for books from San Diego and selected California academic libraries through Circuit and Link+. The Information Systems and Technology group provides computer accounts to all students, as well as hosting WorldWideWeb pages for students, the University, and the Library. It also operates a student computing facility with over 350 PCs and the student computing help desk which assists students with a variety of computer questions.

The Library's holdings include 1,300,460 monographs and bound periodicals; 644,028 government documents; 4,153,642 microforms; 177,892 maps; 9,993 sound recordings; and 5,283 linear feet of archival papers. The Library receives 4,804 periodical and serial titles, including government publications. It is a depository for United States and California government publications, and receives selected United Nations publications.

Academic Computing

The SDSU computing environment provides access to scores of software products including World Wide Web browsers, programming languages, word-processing, spreadsheets, presentation packages, relational databases, statistical software, and large databases such as IMF and CRSP. The University provides access to a Sun F4800 Server (running SOLARIS) and a 1152 Processor IBM RS/6000 SP Supercomputer. Both the Sun F4800 Server and the IBM RS/6000 SP computers are available to the university community via the campus Internet which also links students to specialty computing centers located at other California State Universities.

The University has over 2,000 microcomputers as well as a significant number of X-Terminals located in 80 departmental/college computer laboratories. There are also three large computer labs open to all students; all machines in those labs are connected to the Internet. The open computer labs are (1) the Love Library Student Computer Center located in Love Library 200 which has PCs, Macintoshes, X-Terminals, and laser printing; (2) the Social Science Research Lab located in PSFA 140 has PCs, Macintoshes, and laser printing; and (3) the Terminal Labs in BA-110 and BA-113 have diskless PCs and laser printing.

The Baseline Access, Training and Support (BATS) program offers free hands-on computer training to the SDSU community. Workshops cover the Microsoft Office Suite (Word, Excel, Powerpoint, and Access), Adobe PageMaker, Adobe Photoshop, Web Page Creation, Introduction to Computers and the Windows and Macintosh Operating Systems, and more.

Student computing and e-mail accounts are available through a student account system. This system allows enrolled SDSU students to create their own accounts via the Internet from a computer or terminal on campus or via the Web from off campus.

A Web site is available at www.sdsu.edu.

Instructional Technology Services

Instructional Technology Services provides support to faculty in the design, selection, production, and distribution of instructional technology. Service and support are provided in three key areas: Instructional Resources and Technology Systems, Instructional Development, and Multimedia Production.

Instructional Resources provides support in the selection, use, and distribution of instructional materials and equipment. Services include consultation on selection and use of media and equipment for instruction; check-out of media and equipment for classroom use; acquisition of new videotapes, DVD's and CD-ROM's for instructional use; on-line access to an instructional media collection containing more than 7,000 titles; and maintenance and repair of audiovisual equipment. **Technology Systems** provides support in the design, installation, operation, and maintenance of instructional systems in classrooms. Services include the design, installation, and maintenance of Smart Classroom systems and basic audiovisual systems; operation of the campus closed-circuit television system; operation of videoconferencing systems for instructional and administrative use; satellite downlink and off-air recording services; and operation of a presentation room for high-quality video and data projection.

The **Instructional Development** program offers professional assistance in instructional design, course design, teaching techniques, and assessment. Services include: assistance in development of instructional materials; assessing and selecting instructional methods; facilitating course design; assistance to faculty who wish to analyze their instruction; workshops on teaching skills and techniques; and a facility for faculty to produce their own instructional media and to learn about new technologies. The B.A.T.S. initiative (Baseline Access, Training and Support) provides instruction to faculty, staff, and students in the use of computer hardware and software through a full schedule of workshops held in hands-on computer labs and through Help Desks staffed by instructional computing consultants. In addition, a courseware development specialist is available to assist faculty with the Blackboard web-based course delivery system.

General Information

Multimedia Production assists in the design and production of instructional and research materials, as well as other University-related materials. Services include development and production of instructional videotapes; graphic and photographic support of instruction, research and publication; and assistance in development of multimedia materials including CD-ROM's, DVD's, and instructional Web sites.

San Diego State University Foundation

The San Diego State University Foundation was incorporated in 1943 as an auxiliary organization authorized by the Education Code of the State of California. It is a nonprofit corporation, self-financed, and chartered to augment the educational, research, and community services objectives of the University. San Diego State University Foundation serves the University in the following major areas:

- Working with faculty and staff to develop and administer grants and contracts and community-service programs;
- Developing and administering major centers, institutes, community partnerships, and programs;
- Administering a technology transfer program;
- Administering student scholarship, loan funds, and financially managing and investing gifts, trusts and endowments, most on behalf of the University's philanthropic foundation;
- Acquiring, developing, and managing real property to support sponsored programs;
- Assisting in the management functions of KPBS radio and television stations;
- Providing resources for University programs, such as faculty research grants-in-aid; graduate students, equipment, and other research support needs; and community relations.

San Diego State University Foundation, as a nonprofit corporation, is governed by a board of directors in accordance with its articles of incorporation and bylaws. The principal function of the directors is to establish policies and guide the corporation in achieving its objectives.

San Diego State University Press

As the scholarly press for San Diego State University, San Diego State University Press publishes works of original research, as well as other meritorious academic and creative works that will further the intellectual mission of the University. The current focus of the Press is in these areas: Latin America and the United States-Mexico border; regional studies of the Pacific Southwest; and postmodernism. In addition to books, the Press also publishes under its imprint the journals, *Fiction International*, *Poetry International*, and *Nineteenth Century Prose*.

San Diego State University Press imprint is controlled by an editorial committee of scholars, appointed by the Provost and Vice President for Academic Affairs and the Senate. Financial accounting and coordination are provided by the San Diego State University Foundation.

Office of International Programs

In recognition of the rapidly expanding number and importance of international activities on the San Diego State University campus, the Office of International Programs has specific responsibility for coordinating and facilitating the development of the diverse international programs and activities of the University. The Office of International Programs is the primary contact for international programs and represents the University on international matters to external agencies and institutions. The Office of International Programs coordinates all international faculty and student programs and serves as an information clearinghouse regarding international projects, funding opportunities, and academic programs and services that have an international component.

International Faculty Exchanges

In order to enhance the international character of instruction and research, San Diego State University has developed a continuing program of faculty exchange with partner universities worldwide. Currently, the University has formal arrangements to exchange faculty periodically with universities across the globe. Over 100 international scholars visit the San Diego State University campus each year to pursue scholarly research, participate in academic or professional programs, and share their international perspectives with the University community.

International Student Exchanges

In addition to the CSU International Programs, San Diego State University also sponsors semester abroad and travel-study programs. SDSU has entered into special institutional arrangements with selected universities that provide both undergraduate and graduate students the opportunity for study, research, and internships abroad. Currently San Diego State University has student agreements with many international partners. SDSU's International Student Center assists students who wish to participate in an exchange or other SDSU program. For detailed information, contact the International Student Center at (619) 594-1982.

For more information about the University's international programs, contact the Office of International Programs, (619) 594-1354. EMAIL: oi@sdsu.edu or visit our Web site at <http://oiip.sdsu.edu>.

Alumni Association

The SDSU Alumni Association is a non-profit organization dedicated to connecting SDSU alumni to the University and each other. Membership in the San Diego State University Alumni Association is open to those individuals who have an abiding interest in and commitment to the growth and future of SDSU and the community it serves.

The Alumni Association is a dynamic, exciting organization whose purpose is to serve and support the University and its graduates. It offers a number of programs and services designed to meet the variety of needs and interests of its alumni, including library privileges, reduced admission to many cultural activities and sporting events, discounts on purchases at the Aztec Store and More, access to SDSU's Career Services for a nominal fee, and a subscription to SDSU Magazine, a monthly electronic newsletter, and Aztec update: publications for alumni and friends of the University.

In addition, the Alumni Association sponsors The Montys (annual awards event honoring alumni and faculty of the University), provides scholarships for students, organizes Homecoming, sponsors Career Panels, provides input regarding University programs and policies, and provides excellent networking opportunities through a myriad of events.

For further information, a Web site is available at www.sdsualumni.org or phone the Alumni Office at (619) 594-2586.

Associated Students of San Diego State University

The Associated Students of San Diego State University (A.S.) is a unique, full-service organization. The A.S. provides a variety of programs, services and activities for SDSU students, as well as faculty, staff, alumni, and the public. Directed by elected student executives, the Associated Students offers programs ranging from recreation to entertainment and child care. An independent, not-for-profit corporation, it is funded by the student activities fee and revenues collected from programs and services. Associated Students can be reached by calling (619) 594-6555, or on the Web site at as.sdsu.edu.

Student Government. The Associated Students sponsors extensive student leadership programs designed to encourage active student participation in the decision-making policies of the university. The A.S. Council is the voice of the SDSU student body. Composed of one representative per 1500 students, four executive officers, and representatives of some student organizations, the Council is

responsible for the (A.S.) \$12 million annual budget and for formulating policy. Elections held each year allow for the selection of individuals to fill one-year terms on the Council. Meetings of the A.S. Council are weekly, open sessions.

Other student government activities include monitoring academic policies programs and services; appointments to educational or campus-related committees; lobbying to provide student input to city, county, state and federal governments; and representing SDSU's interests with the California State Student Association. Call (619) 594-6487 for more details about student government programs.

Aztec Center. The hub of student activity at SDSU, Aztec Center is the headquarters of the Associated Students and its staff. Aztec Center features study lounges, meeting and conference rooms, the Campus Information Center, the Ticket Office and businesses that include Pak Mail, Council Travel, Enterprise Rent-A-Car, Postal Annex, and USE Credit Union. The Center also houses Monty's Den, a popular campus eatery and meeting place for students that offers many food selections. For more information, call (619) 594-6551.

Cox Arena at Aztec Bowl. This facility features seating for over 12,000 people and hosts SDSU basketball and volleyball games in addition to community events, concerts, graduation ceremonies, conferences, sports shows, and more. It features state-of-the-art staging and sound systems, along with deluxe dressing rooms. VIP lounges and meeting rooms are also available for rental. On site is a full-service box office and TicketMaster location for events throughout California. The Cox Arena is adjacent to the Aztec Recreation Center in the heart of the SDSU campus with nearby parking for 2,000 vehicles. Call (619) 594-0234.

Recreation Programs. Associated Students manages most of SDSU's recreation and leisure programs. Offered at affordable prices, they are also open to the public, as well as students, faculty, staff, and alumni.

Aztec Recreation Center (ARC). The ARC features four full-size gyms; a 30-foot climbing wall; 21,000 square feet of cardio, aerobic, dance, and weight rooms; outdoor equipment rentals; a 52" TV and lounge area; plus locker rooms with full towel service and saunas. Membership includes unlimited access to recreation facilities, aerobics, cardio and weight rooms, racquetball, wallyball, intramural sports, and bowling. Additional programming is offered at minimal fees with a wide variety of recreation classes such as the arts, dance and music, food and beverage, health and fitness, martial arts, horseback riding, tennis and rock climbing. Economical membership fees start at only \$13.00 per month for students. Call (619) 594-6424 or 594-PLAY for complete schedules and membership information.

Aztec Center Bowling and Games. One of the most affordable places on campus. This facility includes AMF computer-automated scoring, over 40 video games, billiards, table tennis, and leagues. Also available for parties. Call (619) 594-6561.

Mission Bay Aquatic Center. The world's largest instructional waterfront facility, located at 1001 Santa Clara Point in Mission Bay Park, offers classes and recreational opportunities in surfing, sailing, windsurfing, waterskiing, rowing, wake boarding, and more. Equipment rentals and facilities for group meetings or barbecues are also available. Bus transportation from SDSU available on Transit Route 81. Call (619) 488-1036.

Aztec Adventures. Located in the Aztec Recreation Center complex, this outdoor adventure program offers camping, backpacking, rock climbing, canoeing, sea kayaking, and skiing outings. Also features excursions such as Baja whale watching, surfing safaris, and nature awareness weekends. Trips are always led by experienced guides or instructors. Most outings include transportation, food, group equipment, and all permits or fees. Outdoor rental equipment services are also available. Call (619) 594-6222 for more information and trip schedules.

Recreational Sports. An extension of the Aztec Recreation Center (ARC), Recreational Sports offers free racquetball and wallyball to ARC members. The golf driving range, batting cage, and equipment rentals are also available for minimal fees. Non-ARC members can participate in all programs at slightly higher prices. Recreational Sports is located at SDSU on the west end of Peterson Gym. For more information, call (619) 594-6424 or 594-PLAY.

Sports Clubs. Sports Clubs are organized, funded, and managed by SDSU students. The collective efforts and organization of the students comprising each team determine each club's success. Sports Clubs practice weekly, from two to five times per week, in preparation for organized intercollegiate competitions at local, state, regional, and national levels. Both new and experienced athletes are actively recruited. In fact, many of our athletes are new to their sports. Sport Club teams are an excellent setting for the development of athletic skills, student leadership skills, and social opportunities. Groups interested in starting a new club or want information on an existing club should call the ARC at (619) 594-0200.

Child Care Programs. Associated Students provides child care and preschool learning programs through two facilities: the Campus Children's Center and the Faculty/Staff Children's Center. Programs range from part-time to full-time care for children ages six months to five years, with all programming provided by expertly trained teachers and staff members. For more information, call (619) 594-7941 or 594-6359.

Open Air Theatre and Entertainment. A.S. offers multiple programs that provide fun and versatile entertainment. The 5,100 seat Open Air Theatre features regular performances to sellout crowds including concerts, lectures, and symphony performances. Call Aztec Center Ticket Office, (619) 594-6947 for performance schedules.

Athletics

San Diego State University sponsors a broad array of varsity intercollegiate athletics for women and men. SDSU's commitment to gender equity in athletics includes twelve sports for women (basketball, crew, cross country, golf, soccer, softball, swimming, tennis, indoor/outdoor track and field, volleyball, and water polo) and six for men (baseball, basketball, football, golf, soccer and tennis). As a National Collegiate Athletic Association (NCAA) Division I program, Aztec athletic teams compete at the highest level of intercollegiate competition. All of the teams except soccer compete in the 8-member Mountain West Conference. Men's soccer is a member of the Mountain Pacific Sports Federation.

Athletics serves a number of important roles on campus and within the larger San Diego community. In addition to encouraging student-athletes to expand their competitive capabilities to the fullest, San Diego State teams provide a catalyst which helps generate pride and a shared *esprit de corps* among students, faculty, staff, and alumni. This also helps link these groups from generation to generation. Similarly, with nearly a hundred-thousand alumni and former students and tens of thousands of supporters in the county with no other direct connection to the University, Aztec teams frequently carry the aspirations of San Diego in the forum of NCAA Division I Athletics. On-campus athletic events attract both students and members of the community to campus and this reinforces many mutually beneficial town-gown relationships.

Aztec Shops, Ltd.

(Campus Stores, Dining Services)

Aztec Shops, Ltd. is a non-profit auxiliary that was established to serve the San Diego State University community in 1931. It operates on-campus services such as the SDSU Bookstore and all food service operations, and off-campus it operates University Towers, a residence hall, and Aztec Store and More in Fashion Valley Center. It also

General Information

operates stores at SDSU/IVC and CSU San Marcos. It is governed by a Board of Directors composed of faculty, students, and staff of SDSU. Aztec Shops is not funded by the State of California or the University.

The SDSU Bookstore houses more than 5,000 required textbook titles each semester (which includes the largest selection of used textbooks in the state), as well as assigned class materials, reference works, school supplies, computer supplies, software and hardware (most at educational prices), SDSU items, and a selection of over 35,000 general interest books. A large selection of art supplies may be found at Art Etc., which is located in the Art Building on campus.

Aztec Shops Dining Services operates over 17 restaurants on the SDSU campus. This includes a newly-renovated East Commons building that houses Aunt Mary's Corner Bakery, a coffee and pastry bar; Sub Connection, offering freshly-made deli sandwiches; Rickshaw Express, an Asian restaurant; College Ave. Diner, down-home food; Vinnie's, an Italian deli; Krispy Kreme Doughnuts, and McDonald's. Also available on campus are Sub Connection, KFC, and Taco Bell in West End Plaza, and Betty's Hotdogger near the Art Building. Aztec Shops leases space to Sbarro, Daphne's Greek to Go, and self-operates Steak Escape in Aztec Center. The residential dining program is housed at Cuicacalli Suites and features an all-you-care-to-eat program. Questions on this program can be directed to the Meal Plan Office on the lower floor of the East Commons building.

In addition to the varied restaurant options, the SDSU campus has five convenience stores, including a 3,000-square foot "mega-store" in East Commons. All stores carry a wide variety of grab-n-go sandwiches and salads; the Aztec Grill at Cuicacalli and convenience store at Chupultepec also feature grill items.

Aztec Shops is dedicated to providing quality services to the campus community. Questions or concerns may be directed to the corporate offices on the second floor of the East Commons building.

Childrens Centers

The Associated Students' Campus Children's Center and Faculty Staff Children's Centers provide child care for children of SDSU students, faculty, and staff. The Campus Children's Center is a parent participation program and gives priority to children of students. Other factors that determine priority are financial need and application date. The Campus Center serves children six months through six years of age, who are in good health. The Faculty Staff Children's Center is open year-round and serves children 18 months to six years of age and gives priority to children of faculty and staff. All applications are considered regardless of race, religion, creed, sex, national origin, or handicap.

Tuition for children enrolled during the academic year is determined on a sliding fee scale based on family size and income. The year round program fees are a set fee.

The program is designed so that a variety of activities are offered that will foster the child's social, emotional, intellectual, and physical development and help the child view himself/herself and the environment positively.

The programs are staffed by professional and student employees, volunteers and Child Development majors. Parents of children enrolled in the Campus Children's Center make a weekly contribution of time as teachers in the classroom and serve on a fundraising/publicity committee. Parent participation is not required in the Faculty/Staff Children's Center. Parents have the opportunity to serve on the Children's Center Board, which is composed of parents and other campus representatives.

The hours of operation are: Campus Preschool 7:30 a.m. to 5:30 p.m., Monday through Thursday, 7:30 a.m. to 4:00 p.m. Friday; Toddler Classroom 8:00 a.m. to 4:00 p.m. The Infant Classroom is open Monday through Friday 8:00 a.m. to 2:00 p.m. The Faculty/Staff Preschool is open 7:00 a.m. to 6:00 p.m. Monday through Friday. Call (619) 594-6359 for more information.

Career Placement

Career Services may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University system. Information is available at www.career.sdsu.edu.

Career Services

Student Services, Room 1200, (619) 594-6851, <http://career.sdsu.edu>

Career counselors assist students in the exploration of their skills, interests and values as they choose a major and develop a career plan. A variety of computerized instruments are used in the career counseling and job search process. An extensive Career Library contains occupational/career information, employer reference materials, directories, video and audio tapes, interactive computer assisted programs, and Internet resources for the job search.

A centralized listing of career positions, part-time jobs, campus jobs, volunteer positions, and internships is available electronically and posted also in the career Library Resource Room.

Career fairs are scheduled each semester allowing students to meet employers in an informal setting. A comprehensive career fair is scheduled in September followed by a graduate and professional school day. In the spring semester, a series of specialty fairs are scheduled, including one for summer jobs. Access to a bank of SDSU alumni (through our Career Consultants Network) helps students explore numerous career possibilities.

The on-campus interviewing program brings prospective employers and students together for career employment and internship interviews. Career Services' Web-based program, Aztec Career Connection, <http://career.sdsu.edu>, allows students and alumni access to these interviews, plus additional on-line services and information. Students are assisted in preparing for these interviews and all other aspects of the job quest through workshops and individual career counseling.

The American Humanics Program is designed to prepare students for careers in the non-profit sector. A specialized program, Workability IV, is also available for students with disabilities.

The Center for Community-Based Service Learning (CCBSL) offers programs and resources to SDSU students, faculty, staff, and community members interested in participating in community service and service-learning.

Placement files are maintained for students primarily in education, social service, nursing, and graduate schools.

Various services are offered to alumni for a nominal fee.

Career Services is open 8:00 a.m. to 4:30 p.m., Monday through Friday, and the Career Resource Room is open until 6:00 p.m. on Thursdays during fall and spring semesters while classes are in session.

Catalog, Bulletin, and Class Schedule

The *General Catalog* is published annually in May and can be purchased at The Campus Store. The catalog carries information on admissions, fees and tuition, programs and degrees, courses, scholarships, residence halls, student services and activities, and a faculty directory.

The *Bulletin of the Graduate Division* is published annually in May and can be purchased at The Campus Store.

The *Class Schedule* with instructions for registration for Fall, Spring, and Summer is published prior to the opening of each semester or term and available at The Campus Store.

The catalog, bulletin, and class schedule are available on the SDSU Web site, www.sdsu.edu, as well as information on mail-orders, www.aztecshops.com.

The College of Extended Studies also publishes three catalogs each year, in Spring, Summer, and Fall, listing extension, certificate, and professional development programs and courses available to the general public. The catalog is free and can be mailed to interested students by calling the College at (619) 594-5152.

Center for Community-Based Service Learning (CCBSL)

The mission of the Center for Community-Based Service Learning is to enhance learning and civic responsibility through community engagement. The Center serves faculty, students, and community organizations by providing a link to integrate community service programs with classwork, giving students unparalleled insight into community needs. The CCBSL is a supportive and collaborative force for the campus and the community to come together for shared endeavors and goals.

Community-based learning, also known as service learning, is a form of experiential education combined with the ethic of giving back to the community. The goals of the CCBSL include assisting and supporting faculty as they make community service part of their classwork, and helping individual students and student organizations identify places where they can directly address community needs.

The CCBSL serves as a central location on campus for students, their clubs, faculty and staff to plan and implement community projects. To aid in those efforts, the CCBSL has developed several resources and services to include:

- Relational databases of faculty and courses involved in community-based learning;

- A listing of community activities meeting student volunteer or service needs;

- A bank of community projects suitable for faculty to include in their courses;

- A listing of grants related to community-based and experiential learning;

- A resource library for research, assessment, grant writing, course design, focusing upon experiential and community-based learning;

- A place for faculty and staff to meet to discuss service-learning curriculum;

- Assessment tools such as campus-wide surveys of faculty interest and learning; outcomes of individual courses.

The CCBSL is located in the Office of Student Life and Development. For more information, contact the CCBSL at (619) 594-0807 or www.sa.sdsu.edu/ccbl.

Counseling & Psychological Services

**Student Services, Room 2109,
(619) 594-5220, www.sdsu.edu/cps**

Social science research confirms what you already know from your own experience. You I.Q. and the facts you learn account for less than 25 percent of your ability to be successful and happy with your life. People who have Emotional Intelligence (a high EQ) understand and manage strong feelings, persist in the face of frustration and trauma, build strong relationships, listen well, and lead others. The higher your EQ, the more likely you are to be both happy and successful in your life.

Counseling & Psychological Services (CP&S) offers individual and group counseling for the typical college student who wants assistance in coping with, and successfully resolving, the problems they face in everyday life. Issues relating to intimate relationships, self-esteem, personal independence, conflict, anxieties, self-confidence and academic performance are difficult and common obstacles for most college students.

Individual counseling services are designed for students who can benefit from short term counseling. If a student's situation requires longer term therapy, referrals can be made to off-campus resources.

CP&S has a stress management program and Personal Growth Resource Library equipped with over 200 video and audio tapes and a variety of free brochures on topics to assist students in their academic performance and personal growth.

Enrolled SDSU students who want help from the CP&S staff in locating off-campus community services can call (619) 594-5220.

Counseling psychologists at CP&S offer help in:

- Learning to reduce stress. Stress can interfere with concentration, memory, and mental processing.

- Dealing with relationship loss, feelings of helplessness or hopelessness, which may lead to a lack of motivation or prolonged depression.

- Developing communication skills and problem solving techniques to improve important relationships.

- Building self-esteem and improving coping skills.

- Clarifying values and career decisions.

Counseling & Psychological Services is open from 8:00 a.m. to 4:00 p.m., Monday through Friday.

Disabled Student Services (DSS)

**Student Services, Room 1661,
(619) 594-6473; TDD: 594-2929; www.sdsu.edu/dss**

Disabled Student Services provides support services for students with mobility limitations, learning disabilities, hearing or visual impairments, psychological disabilities, attention deficit disorder, and other disabilities. Counselors are available to help students plan an SDSU experience to meet their individual needs. They assist students in making personal, academic, and vocational choices, and show how best to utilize campus facilities. Prior to receiving assistance, appropriate medical documentation must be submitted to Disabled Student Services.

Services available to all DSS students include a writing center/assistive computer technology lab (the High Tech Center) where students may use standard or assistive computer technology for assignments and may receive tutoring assistance with their writing. Other services available when appropriate include priority registration for students with special needs; close-in parking; transportation on campus and information about off-campus transportation; government benefits counseling; accessibility information, maps, and library study rooms; reader services and assistance with books on tape; sign language interpreters for deaf students; accommodated testing assistance; loan of educational support equipment (tape recorders, amplification equipment, wheelchairs, etc.); tutoring and notetaking services, referral to off-campus agencies for mobility orientation, financial benefits; and other services.

In addition, DSS offers special sections of classes aimed at helping students achieve academic success and fulfill university requirements. Rhetoric and Writing Studies 92A and 92B are designed to help students develop their writing skills and meet the lower division writing requirement. General Mathematics Studies 90A and 90B are review classes designed to help students meet university mathematics competency requirements. Rhetoric and Writing Studies 98A is designed to teach students effective test preparation, notetaking, and other strategies to help them improve their academic performance.

Faculty Office Hours

All faculty members are required to hold regularly scheduled office hours during the week to allow for student consultation. A schedule of those hours is posted outside each faculty member's office door.

Health Services

Corner, Campanile Drive and Hardy Avenue,
(619) 594-5281, shs.sdsu.edu

All regularly enrolled SDSU students have prepaid a health fee which entitles them to basic medical services. Some services, including annual Pap smears and pharmacy, require a minimal fee. Charges associated with these services are usually dramatically lower than those found elsewhere. This care is provided at Student Health Services, an on-campus center where health care providers offer a wide range of programs and services. Services include:

Medical care by physicians board certified in family practice, internal medicine, orthopedics, psychiatry, dermatology, and preventive medicine, and by primary care nurse practitioners; nursing, x-ray, and laboratory services; a pharmacy which dispenses prescriptions and over-the-counter items at cost; health-related counseling and campuswide health education programming offered by the Health Promotion Department.

REQUIRED: Proof of Immunity Against Measles, Rubella, and Hepatitis B

New or readmitted students born on or after January 1, 1957 must present proof of immunity to measles and rubella (German Measles) during their first semester at SDSU. The **minimum** requirement is proof of at least one immunization for measles and rubella given after the first birthday and after 1968. (All students are encouraged to consider a second measles immunization.)

Students may fulfill the immunization requirement by bringing or sending medical documentation as proof of either previous illness or immunization to Student Health Services. (School records may not be acceptable proof unless signed by a physician or a nurse.) Students may also receive free immunization at Student Health Services. For more information, call (619) 594-5281.

Important: Students who have not complied with this California State University mandate prior to the registration deadline will not be able to register for their second semester.

Hepatitis B

All first-time enrollees who are 18 years of age or younger are required to present proof of immunity against hepatitis B during their first semester at SDSU. Hepatitis B vaccination consists of a three-dose series of injections that require four to six months to complete. (All students are encouraged to consider immunization against Hepatitis B.)

Students may fulfill the immunization requirement by bringing or sending medical documentation as proof of either previous illness or immunization to Student Health Services. (School records may not be acceptable proof unless signed by a physician or a nurse.) Students may also receive immunization at Student Health Services. For more information, call (619) 594-5281.

Important: Students who have not complied with this California State University mandate during their first semester at SDSU will **not** be allowed to register for a second semester until they provide proof of immunity or begin the immunization series. Students who have not completed the immunization series by the end of their third semester will no longer be able to attend SDSU.

Immunization documentation should be mailed or brought to SDSU Student Health Services, Immunization Program, 5500 Campanile Drive, San Diego, CA 92182-4701.

In addition to demonstrating immunity to measles and rubella at Student Health Services, some students may be further required to present documentation to other campus officials. Students subject to this additional screening include:

Students who reside in campus residence halls;

Students who obtained their primary and secondary schooling outside the United States;

Students enrolled in dietetics, medical technology, nursing, physical therapy, and any practicum, student teaching, or fieldwork involving preschool-age children and/or school-age children or taking place in a hospital or health care setting.

Meningococcal Disease

Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent one from contracting the disease and whether or not he or she has chosen to receive the vaccination.

Although immunization against this infection is not a requirement, all entering freshmen, particularly those living in residence halls, are urged to consider vaccination. The current vaccine is fairly effective against the majority of the strains of this bacterium, but unfortunately its immunity effect declines over a few years. Luckily, the risk of becoming infected with meningococcus also declines with age. Consequently, there is less of a reason to immunize older students, although they may do so if they desire. The meningococcal vaccine is available at Student Health Services at low cost.

Strongly Recommended Health Screening

Immunization from the following diseases may also protect students against potentially severe infections: tetanus, diphtheria, polio, mumps, meningitis, and Hepatitis B. Like measles, these too can be particularly harmful in the college-age group. The chicken pox vaccine is available for students who have not had the disease. These immunizations are available at reduced cost in Student Health Services. Flu shots are available annually, as well.

Entering students are also strongly encouraged to have a screening test for tuberculosis (TB). The TB skin test is offered free at Student Health Services.

Appointments

Students without acute or urgent problems are encouraged to make an appointment. Those with problems requiring immediate medical attention should walk in. Student Health Services is open twelve months of the year. During the fall and spring semesters, the clinic is open from 8:00 a.m. until 4:30 p.m., Monday through Friday (call for extended hours of operation). During the summer, clinic hours vary. It is best to call for hours of service and to ask about the availability of services, (619) 594-5281. All medical care provided at Student Health Services is **strictly confidential**. No one, on or off campus, other than Student Health Services staff has access to medical record information without written permission from the student.

Student Health Advisory Board

Students can participate in the clinic activities and offer important feedback about services through membership on the Student Health Advisory Board (SHAB) sponsored by SDSU Associated Students. Members not only work with clinic staff on a variety of health education projects, but also act as liaison between the SDSU student body and Student Health Services. SHAB keeps Student Health Services staff focused and current on major student health issues. Membership from all academic majors is encouraged.

Accidents and Student Insurance Coverage

First aid or urgent medical care is also provided to faculty, staff, and campus guests for accidents and injuries occurring on campus. Accidents requiring treatment and/or transportation to Student Health Services or a local hospital should be reported immediately to the SDSU University Police, (619) 594-1991.

SDSU students are regarded by the University as adults. Accordingly, students are responsible for their own safety and health in connection with participation in campus activities and should exercise good judgment and due care at all times.

Specific questions regarding insurance coverage for campus programs, institutional safety regulations, and potential risks inherent in academic programs and student activities should be directed to the responsible faculty or staff member in charge of the activity.

Students participating in required or elective academic programs such as internships or practica may be covered under the University's Worker's Compensation program provided an internship agreement between the University and the facility has been executed by an

authorized representative of the University. If the facility requires interns to provide and maintain professional liability insurance, it is the student's responsibility to secure professional liability insurance at their own expense. The University does not cover students' liabilities. This coverage is available through various companies, accreditation agencies, and memberships in professional organizations. Students should confirm the facility's requirement for this insurance and maintain acceptable limits in full force during the term of placement. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

The University does not provide liability, accident or health coverage to students. Through the Associated Students, a supplemental health insurance policy is available and recommended to students having no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased per semester or yearly basis. An open enrollment period is available the beginning of each semester, and the policy may be purchased at the Aztec Center Ticket Office. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

Housing and Residential Life

**6050 Montezuma Road, (619) 594-5742,
www.sdsu.edu/housing**

There are seven residence halls/complexes at San Diego State University including the Villa Alvarado apartments. Graduate students also have the option of living in the Piedra del Sol apartments, a 66-unit complex that offers entirely independent apartment living in two-, three-, and four-bedroom unfurnished units. These apartments are leased on a 12-month basis with priority given to upper division and graduate students.

The Villa Alvarado apartments are available for the academic year by license agreement. These furnished two bedroom apartments offer double accommodations for four residents. A full-time professional Residence Hall Coordinator and six part-time Resident Advisers live on-site and offer a residence life program in support of community living. Early application and contracting is highly recommended.

Graduate students may also choose traditional, double residence hall housing in Chapultepec, Templo del Sol, Tenochca or Zura, or Cuicacalli Suites. Students needing housing over the breaks may select Zura Hall which remains open over Thanksgiving, Winter and Spring breaks. These undergraduate halls house students for the academic year. Early application and contracting is highly recommended. Space is reserved on a first-come, first-served space available basis. You can obtain an Application for a License Agreement by visiting www.sdsu.edu/housing or by calling HRLO at (619) 594-5742.

Off-Campus Housing

Since family housing is not available on campus, off-campus housing serves the needs of families and others. The Housing and Residential Life Office maintains an Off-Campus Housing Web site with current listings of off-campus rental units. To view listings posted on the Web site, visit the Housing main page at www.sdsu.edu/housing. Listings are also posted outside the Housing and Residential Life Office, located at 6050 Montezuma Road.

International Student Center

**International Student Center, (619) 594-1982
www.sa.sdsu.edu/isc**

The International Student Center (ISC) advances San Diego State University as a global university by serving as a resource crossroads for international students seeking educational opportunities at SDSU, and for SDSU students seeking educational opportunities in other countries. The ISC offers a full range of programs and services to a

variety of communities on and off campus in an effort to foster student success, global perspectives, intercultural awareness, and international goodwill.

International Students

Working closely with over 1,400 international students from more than 90 countries spanning the globe, the ISC provides support services that meet the logistical, regulatory, cultural, academic, and personal development needs unique to SDSU's most diverse student community.

The International Student Center coordinates a variety of activities designed to foster intercultural goodwill, understanding, and friendship. One such activity is provided by the Intercultural Ambassadors Program through which selected international students make home-country presentations in San Diego schools. The InterNational Partners Program provides service-learning opportunities for international students in the San Diego community by linking students and local community service organizations. In addition, the ISC invites faculty, staff, and the community to become American Friends to international students new to SDSU and to participate in the many events listed in the ISC Calendar of Intercultural Activities. These include the International Coffee Hour, International Peace Village and Festival, International Exchange Camps, and International Film Festivals.

Study Abroad Students

The International Student Center provides services to all students who want to study abroad as part of their educational experience at SDSU. The ISC serves as SDSU's study abroad resource center and it acts as a window to the world for students beginning the journey. When students have questions about how to study abroad, what opportunities are available, or how to prepare for their time abroad, the ISC becomes their one-stop shop.

The ISC administers SDSU's reciprocal student exchange programs, providing various support services for participants in the 108 agreements SDSU has signed with institutions around the world.

The ISC serves as SDSU's liaison with the CSU International Programs Office (see below) which offers CSU students the traditional year of study abroad experience. The ISC coordinates all promotion, recruitment, selection, processing, and orientation for the participants from SDSU.

The ISC also coordinates SDSU's Risk Management Program for all SDSU students who study or travel in other countries. The focus of the program is to ensure that all participants are adequately insured and prepared for maintaining optimal health and safety abroad, and for planning how to respond to a wide range of possible emergencies.

As with increasing inbound international enrollment, the ISC plays a central role in SDSU's efforts to dramatically increase study abroad enrollment. In the last four years, the number of SDSU students studying abroad has increased 275 per cent (from 167 to 627 students).

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 16 countries, the International Programs also offers a wide selection of study locales and learning environments.

Australia – The University of Western Sydney

Canada – The universities of the Province of Quebec including: Université de Montréal, Concordia University, Université Laval, McGill University, Université du Québec system, Bishop's University

General Information

Chile – Pontificia Universidad Católica de Chile (Santiago)

Denmark – Denmark's International Study Program (the international education affiliate of the University of Copenhagen)

France – Institut des Etudes Francaises pour Étudiants Étrangers, Université de Droit, d'Économie et des Sciences d'Aix-Marseille (Aix-en-Provence); Mission interuniversitaire de coordination des échanges Franco-Américains, Universitiés de Paris III, IV, V, VI, VII, VIII, IX, X, XI, XII, XIII, Institute of Oriental Languages and Civilizations, and Evry.

Spain – Universidad Complutense de Madrid, Universidad de Granada

Sweden – Uppsala Universitet

Taiwan – National Chengchi University (Taipei)

United Kingdom – Bradford University, Bristol University, Hull University, Kingston University, Sheffield University, University of Wales, Swansea

Zimbabwe – University of Zimbabwe (Harare)

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community college if they can meet these requirements. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Information and application materials may be obtained from the International Student Center or by writing to the California State University International Programs, 401 Golden Shore, Sixth Floor, Long Beach, California 90802-4210. Visit the Web site at www.gateway.cal-state.edu/csuienet/.

Ombudsmen

Student Services, Room 3635, (619) 594-6578

Becoming a student at SDSU also means becoming a member of a special community which includes students, faculty, staff, and administrators. As a member of this community, students are responsible for knowing and complying with established rules and regulations.

The Ombudsmen are independent and impartial agents who help individuals and groups seeking the resolution and correction of complaints. The Ombudsmen act as liaisons between students and the University, assisting students through formal grievance procedures and functioning to mediate and reinforce other means of redress when possible. This office does not supplant existing avenues of redress. It exists to encourage appropriate and timely access to those existing processes which may best resolve the problem.

Examples of student complaints which have been resolved through this process include disputes over grades, faculty or staff conduct, academic disputes, appeals or waivers, administrative policies, and institutional compliance with federal and state nondiscrimination laws. Should a complaint not be resolved at the referral level, the Ombudsmen may act as mediators and suggest compromise solutions between parties. If the problem is still unresolved, the student may file a grievance with the student grievance committee. No student grievance can be filed with this committee later than the last day of the semester (excluding summer session) after the semester during which the student was allegedly aggrieved.

Parking and Transportation

Where possible, carpooling or use of alternate modes of transportation is recommended. For carpool registration, contact School Pool (1-800-COMMUTE). For additional carpool information call (619) 594-5224.

San Diego Transit has six bus routes connecting the metropolitan area with service to the University Transit Center. These are routes 11, 13, 55, 81, 115, and 936. Semester and monthly bus passes can be purchased at the Aztec Center Ticket Office. San Diego Transit information at 1-800-COMMUTE will provide further information concerning bus routes, fares, and services, or use the free online transit information service at www.sdcommute.com.

On-campus parking is by permit only. Purchase or possession of a parking permit does not guarantee a parking space. Parking structures are located on the perimeters of the campus in addition to surface parking lots. A free shuttle bus service to remote parking lots operates weekdays during the academic year. Major events at Cox Arena may require parking location adjustment. Visitor parking is available in several pay parking lots. Visitors are directed to the Information Booth at the College Avenue entrance to the campus for directions to appropriate pay parking areas. For further information on parking at the San Diego campus, contact the Department of Public Safety, (619) 594-6671. For visitor parking at the Imperial Valley Campus, call (760) 768-5500.

Student Rights and Responsibilities

Student Services, Room 1604, (619) 594-3069, www.sa.sdsu.edu/srr

The Center for Student Rights and Responsibilities incorporates compliance and judicial procedures, two distinct components. The center serves to clarify for students their role as members of the campus community, setting forth what is expected of them in terms of behavior and contributions to the success of the University. This center also serves to further San Diego State University's commitment to maintaining a campus environment free from harassment and promoting a policy of non-discrimination.

The center is charged with investigating complaints filed by students alleging discrimination or sexual harassment, providing sexual harassment prevention workshops, reviewing University policy, monitoring campus disputes, and serving as a resource to the administration on issues of regulatory law, constitutional law, and risk management.

The judicial component is responsible for acting on behalf of the University president regarding all aspects of student discipline. The office receives reports of alleged student misconduct relative to Title 5, *California Code of Regulations*, and investigates complaints in order to determine whether University Disciplinary action is to be pursued. University disciplinary action may run concurrently with civil or criminal action initiated by the court system. Campus related violations include both academic and non-academic misconduct.

To review SDSU's statement of student rights and responsibilities, visit www.sdsu.edu/srr/statement.

Test Office

**Student Services, Room 2549,
(619) 594-5216, FAX: (619) 594-5036
www.sa.sdsu.edu/testoffice**

The Test Office is an important resource for the entire University community, serving both students and faculty by administering paper and pencil and computer based tests for the purpose of admission, class placement, competency for graduation, licenses, credentials, counseling, and career planning. Test scoring and analysis services are provided for classroom tests.

Test dates for San Diego State University competency and placement tests are listed in the Test Information section of the current *Class Schedule* and on our Web site. Advance reservations as well as fee payments are required for most tests. The Test Office will provide students with test dates and registration procedures for major national examinations in the form of a bulletin of information or with the address of the testing service. Reservations for computer based tests can be made at the Test Office (619-594-0968). Students who are interested in assessments for counseling or career planning must contact Counseling & Psychological Services or Career Services. Special

arrangements for disabled students are made through Disabled Student Services.

Although competency test requirements are monitored by various offices on campus, the Test Office will attempt to assist students in signing up for the required examinations or refer them to the proper agency.

Veterans Affairs

**Student Services, Room 1641
(619) 594-5813**

Students who are eligible for veterans, dependents, or reservists V.A. education benefits should visit SDSU's Veterans Affairs Office (VAO). Services available through the VAO include assistance in applying for education benefits, coordinating the V.A. work/study program, and processing tutorial assistance paperwork.

Students planning to attend SDSU should contact the Veterans Affairs Office two months before the beginning of their first semester to be advised on how to file for benefits. For additional information about the VAO or the services provided, please telephone or visit the office.

College of Extended Studies

Section I. Continuing Education

Functions

The California State University regards the credit-bearing programs offered through Extended Education as integral parts of the institution. These programs are viewed as extensions of the institution's educational services and are in concert with the institution's overall mission and purpose. The programs and courses in Extended Education are expected to meet the standards of quality that the institution sets for its other programs and courses with regard to resources, faculty, level of instruction, evaluation, and support services.

The College of Extended Studies at San Diego State University serves as the principal University liaison with the adult community and provides a wide variety of traditional and nontraditional, credit and noncredit educational experiences designed to fit the life-style and expectations of lifelong learners. In addition, it provides a range of academic and special programs for students and groups during the summer months, in the evenings, and between semesters. Under the direction of the Dean of the College, programs are developed and carried out within four divisions: Special Sessions and Extension, Professional Development, American Language Institute, and Administrative Services. The majority of the programs are operated on a self-support basis since state funds are not provided for Continuing Education activities.

Open University

Most regular on-campus courses are open to students through enrollment in Open University. Open University courses earn matriculated resident credit, and enrollment for students not seeking an advanced degree or advanced certificate does not require formal admission to the University. Enrollment in courses through Open University is on a space available basis with the consent of the instructor and approval of the chair of the department in which the course is offered. Students pay College of Extended Studies fees for these units. The course repeat policy applies to courses repeated through Open University. Consult the College of Extended Studies or the current Class Schedule for complete details on Open University qualifications and registration procedures.

Open University classes may not be taken by the following:

1. Nonmatriculated foreign students (nonresidents from non-English-speaking countries) with a score of less than 550 on the Test of English as a Foreign Language (TOEFL) or its equivalent.
2. Foreign students with I-20 visas from another university.
3. SDSU matriculated students.

Limitations on Open University and Special Sessions Credit

Not more than nine units of combined coursework in Open University and special sessions completed prior to admission to an advanced degree or an advanced certificate program will be acceptable on a program of study. Admission to an advanced program

requires formal admission to the University and enrollment in at least one course offered in the regular semester for which the student was admitted, a recommendation of the graduate adviser of the particular program, and the approval of the Dean of the Graduate Division. Once so matriculated, students may take additional courses in Open University to meet degree or certificate requirements only with the prior permission of the Dean of the Graduate Division.

American Language Institute (ALI)

The American Language Institute offers noncredit intensive (20-25 hours per week) English programs throughout the year to students and professionals interested in improving their English proficiency. By enrolling in the ALI, students may take advantage of a program called conditional acceptance. Conditional acceptance is available to those students who require admission or proof of eligibility to a university in order to obtain a passport, a US visa, or government sponsorship. It is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated by SDSU staff, students may receive an official letter of conditional admission which states that the student has met all University requirements **except** English language proficiency and may enter the University after training at the American Language Institute and achieving appropriate TOEFL scores.

Programs offered by ALI are as follows:

English for Academic Purposes – An 11- to 17-week course for students planning to enter San Diego State or other colleges or universities. Classes are offered in reading, writing, grammar, academic listening/note-taking and academic speaking, as well as in special areas, including TOEFL, GMAT, and GRE test preparation and business topics. In addition, students may choose from over 30 elective course offerings, and TOEFL, GMAT and GRE preparation. Students may also specialize in Pre-MBA preparation.

Highly advanced students may register for three to twelve units of SDSU courses in addition to their English classes.

Intensive English Communications – A 3- to 19-week course emphasizing oral skills and cultural experiences. Classes include eight hours of oral communication in addition to 12 hours of reading, writing, structure and listening per week. Elective courses are offered, and directed activities at SDSU and in the community provide experiences for real language use. Professionals in IEC may specialize in Intensive English for Managers. Regular field trips to places of educational and recreational interest are an integral part of the program.

Specific Purposes Programs – Programs for students and professionals with specific needs, including Management and Business English, Business Seminar for International Executives, Seminar for International Teachers of English, Certificate in Business Administration Program, and Pre-MBA Preparation are offered.

Summer and Winter Special Programs – A number of special short-term programs are offered by the ALI each summer (e.g., Management and Business English, Business Seminar for International Executives, Seminar for International Teachers of English, English Language Study Tours). These can be arranged for groups or individuals.

Services – All students at the Institute are offered housing assistance, counseling for university entrance, health services, and orientation to university life.

Information about and applications for the ALI can be obtained from the Director, American Language Institute. The Web site address is www.americanlanguage.org.

Travel Study Programs

The College offers students and the general public the opportunity to study language and culture in foreign countries while earning SDSU credit. In addition, travel study programs include non-credit wilderness trips which enable the public to explore the historical sites and natural wonders of California, Alaska, Arizona, and Mexico.

For further information contact the Coordinator of Travel Study Programs.

Certificate Programs

Certificate programs provide educational services to a wide variety of groups and professional organizations. A listing of graduate certificate programs available is described in Part I of this bulletin.

Extension

In order to meet the needs of the adult community as well as matriculated students, the College provides a variety of extension courses, workshops, and open university programs. For the convenience of adult students most courses are scheduled in the evenings or on weekends, on campus or at convenient learning extension centers throughout the service area.

Extension Courses

Extension courses are offered each semester in a number of areas including education, business administration, public administration, and the arts and sciences. Many courses and programs are developed in cooperation with off-campus organizations and groups who have identified specific needs. Many one-unit weekend workshops are also offered throughout the year. These courses are listed in a special Extended Studies Catalog published three times a year.

There is no limit on the total number of extension units for which a student may enroll; however, the maximum extension credit which may be used toward advanced degree requirements at San Diego State University is six to nine units. Extension work is considered the same as transfer credit and is not included in the student's San Diego State University scholastic average.

Retired Adults Education Program

SDSU's College of Extended Studies' program for lifelong learners is located in Rancho Bernardo. A wide variety of classes, special events and travel study opportunities are offered throughout the year. Anyone age 18 or older is welcome to participate in the Continuing Education Center at Rancho Bernardo's adventures in learning. Please call (858) 487-0464 for a brochure.

Professional Development

The Division of Professional Development provides business and industry with programs that are responsive to the training and development needs of their employees. Through the Division's activities, participants are kept abreast of the latest business and leadership techniques that ensure they will add to the productivity and profitability of their organizations.

Custom On-Site Training

SDSU's Professional Development Division of the College of Extended Studies specializes in developing and implementing on-site training programs that meet specific needs of the San Diego business community.

The programs serve medium as well as large businesses and organizations with topics ranging from team building and communication skills to supervision, leadership, process improvement, and executive programs.

Program leaders and training consultants are drawn from the academic and business worlds and have extensive practical experience.

The programs offer significant value for the time invested and are designed with quality and adaptability in mind.

Professional Development On-Line (PDOL)

Meeting the needs of our students, the College of Extended Studies has developed a wide offering of professional development courses that can be completed on the Internet. Programs are available in almost every typical business area from broader categories such as leadership, finance, and managing teams, to more specific skill acquisition programs such as implementing ISO 9000:2000 and creating powerful presentations. These on-line programs typically consist of five to ten courses, and can be completed at the student's own pace.

Seminars and Workshops

The Division coordinates practical one- to five-day seminars and workshops aimed at increasing the skills of the business professional. These seminars are taught by local and national seminar leaders chosen from the business and academic worlds for their expertise and outstanding teaching ability. Topics addressed cover a wide range of business subjects, such as leadership, finance, marketing, manufacturing, quality and production issues, and customer service issues related to global competitiveness.

Corporate Partnerships:

Professional Development

Professional Development offers membership benefits to companies joining at the Presidential, Director, and Associate levels. Representatives from member companies sit on advisory boards and play an active role in designing and selecting training courses and instructors. In addition, the annual membership enables the company to get more training for its training dollars. A third benefit to members is the networking opportunities that develop through association with other companies with similar training needs.

Section II. University Degree Programs

From time to time, the University offers specialized advanced degree programs through the College of Extended Studies designed to serve discrete groups of students and the special needs of the community. These programs conform to the standards and requirements established by the Graduate Council for all graduate degree curricula. Students enrolling in these programs are fully matriculated and are expected to fulfill all of the academic requirements as described in this Bulletin, including formal admission to the University and to the individual program.

Because of the special nature of these programs, scheduling of courses may not follow the traditional semester schedule. This allows maximum flexibility in the modes, timing, and place of instruction that will best serve the needs of the participating groups. These programs are not supported by the state; correspondingly, the fee structure is different from that listed in this Bulletin. Once accepted into the program, students register for classes and pay fees through the College of Extended Studies. Since these fees cover only the cost of instruction, students who desire access to such services of the associated students as health and placement will be required to pay additional fees on campus.

The following programs described in detail in Part Three of this Bulletin are currently offered through special arrangements with the College of Extended Studies. Persons interested in further information are invited to contact the program coordinator.

Master of Business Administration for Executives (M.B.A.)

A two year program designed for mid-career business executives who have substantial work and managerial experience. Classes meet on alternate Fridays and Saturdays. Approximate cost: \$27,600.

Master of Arts in Education with a Concentration in Educational Leadership

A two year program designed for employed teachers, administrators, and supervisory personnel who have substantial experience. Preference is given to international students. Courses are offered at various times during the academic year. There is extensive use of mediated technologies and specialized sessions. Approximate cost, excluding books: \$8,500.

Master of Science in Regulatory Affairs

A 40 unit interdisciplinary program offered under the auspices of the Center for Bio/Pharmaceutical and Biodevice Development. The curriculum is designed for regulatory affairs professionals and focuses on the laws and regulations imposed by the Federal government, especially the Food and Drug Administration. Particular concerns are related to drug discovery, development, testing, and manufacture of products for commercial distribution. Approximate cost: \$18,000.

Master of Science in Rehabilitation Counseling

A three year, 60 semester hour program, designed for currently employed rehabilitation personnel who are counselors and service providers. Courses are offered throughout the calendar year. There is extensive use of mediated technologies. Approximate cost, excluding books: \$13,000.

Imperial Valley Campus

Dean

Khosrow Fatemi

Faculty

Emeritus: Ayala, Baldwin, Ballesteros, Erzen, Franklin, Harmon, Hill, King, Polich, Spencer, Varela-Ibarra

Professors: Dunn, Elizondo, Fatemi, Medeiros, Merino, Reyes, Ryan, Shumaker

Associate Professors: Castañeda, Garrison, Neumann, Sabath, Stampfl

Assistant Professors: Amaral, Bass, Camara, Champion, Coates, Herrera, Hughes, Mendez, Verzi, West

General Information

The Imperial Valley Campus is a two-year upper-division campus of San Diego State University serving the desert area of southeastern California. It is accredited as an integral division of SDSU and operates under the same academic calendar. Established in 1959 by an act of the State legislature, the campus is located in the Imperial Valley on the Mexican border in the city of Calexico. Offering the last two years of undergraduate education, graduate programs, and fifth year credential programs for teacher preparation, the campus accepts students who have at least 56 transferable units from community colleges or other accredited institutions. The Imperial Valley Campus offers students the advantages of smaller classes and individual contact with the faculty. The Imperial Valley Campus faculty are multinational in their classroom orientation and background. Interactive television provides students in Calexico the opportunity to participate in various classes broadcast live from the campus in San Diego. The Imperial Valley Campus schedules its classes to meet once a week in three-hour blocks so that students who work full time can earn 9-12 units a semester by attending classes once or twice a week. Occasional classes are also offered on the weekends.

The Imperial Valley Campus is located in Imperial County which has a population of approximately 140,000 people. Calexico is 120 miles east of San Diego, 60 miles west of Yuma, Arizona and 120 miles south of Palm Springs. Interstate 8 and State Highways 111 and 86 connect the County to the rest of the country and state. The campus location, six blocks from the Mexican border, provides the opportunity for involvement in a bicultural environment. Just across the border is Mexicali, a city of more than one million people.

The over 900 students at Imperial Valley Campus have the opportunity to be involved in a rich campus life. Student clubs, student government, lectures, art exhibits, quad musical events, library and computer center special programs enhance the students' education at SDSU – Imperial Valley Campus.

Curricula Offered

Graduate Degrees

Master of Arts degree in Education
Concentration in Educational Leadership

In cooperation with academic units and the Graduate Division on the San Diego campus, the Imperial Valley Campus also offers the following graduate programs leading to advanced degrees:

Master of Arts degree in Education
Concentration in Elementary Curriculum and Instruction
Concentration in Secondary Curriculum and Instruction
Master of Public Administration
Master of Science degree in Business Administration
Concentration in International Business
Master of Social Work

Certificate Programs

Business Administration, Court Interpreting, Public Administration, Translation Studies

Teaching Credentials

Basic: Multiple Subject Cross-Cultural Language and Academic Development (CLAD) emphasis, Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) emphasis: Spanish, Single Subject

Specialist: Administrative Services
(Both in conjunction with the College of Education)

For further information on any of these degrees, see the SDSU – Imperial Valley Campus Bulletin.

Study Abroad

Graduate students at San Diego State University, Imperial Valley Campus can enhance their education and cultural awareness by taking part in several of the many opportunities available to study abroad. The campus has active exchange agreements with universities in Argentina, Croatia, Finland, France, Germany, Mexico, Morocco, Paraguay, and Turkey. Several other agreements are in the process of negotiation with different academic institutions around the world, including England and Spain.

In addition to IVC's own international programs, students may participate in any international programs at SDSU, including the California State University International Programs; the SDSU spring semester programs in London, Paris, and Spain; or the International Student Exchange Program (ISEP) Consortia.

Research Centers and Institutes

Institute for Agribusiness Entrepreneurship (IAE)

Providing entrepreneurial development, training and data, the Institute for Agribusiness Entrepreneurship will furnish agribusiness executives with the information and resources needed to make proper business decisions. The Institute will be especially helpful to small- and medium-sized companies by encouraging entrepreneurial activities. The activities of the IAE will include: outreach and training for business leaders, sponsoring special studies and practical research on the agricultural sector, data collection and dissemination for both the Imperial Valley region, as well as potential markets, seminars and conferences on new technologies and the economics of agribusiness; and will maintain a directory of existing agribusiness firms.

The Institute will be a needed resource for the Imperial Valley as it plans future economic development and smart growth by providing technical and leadership training to community members and business leaders to enhance their interest in further developing agribusiness in the region.

California Center for Border and Regional Economic Studies (CCBRES)

The California Center for Border and Regional Economic Studies (CCBRES) specializes in research and database development in the two areas of U.S.-Mexican trade relations and the Imperial Valley. The Center collects and compiles statistics on trade between California and Mexico, encourages research in this area, publishes a monthly bulletin of in-house and sponsored analyses of the issues involved in bilateral trade. CCBRES also hosts conferences and workshops on border issues, ranging from trade and economics to environmental and educational issues. The Center's goal is to become a national resource center for California-Mexican trade relations.

Imperial Valley Campus

As related to the economic situation in the Imperial Valley, CCBRES has and is maintaining a current economic profile of the Imperial Valley. The data includes economic indicators such as demographic information, quality of life, environmental, labor and agricultural statistics, and macro economic indicators. The Center is providing the community with tools to plan for the future of this binational region.

The Imperial Valley Campus has been designated by the U.S. Department of Agriculture as one of eight national centers of excellence in the United States.

California Desert Farming Institute

The California Desert Farming Institute at the Imperial Valley Campus of San Diego State University has two distinct components. First, a research unit will explore desert farming and its potential for improving the competitiveness of California and U.S. agriculture. A second unit of the Institute is the Center for the Study of International Trade in Agriculture, with the objective of studying international trade in agriculture and making the results available to California farmers.

Center for International Environmental Studies

The Center for International Environmental Studies is a significant addition to the educational landscape of desert Southern California. It is a home for researchers interested in a greater understanding of environmental management issues with a uniquely international and binational focus. The Center meets an important gap in the environment-related educational opportunities in the country.

As the Center develops, it plans to propose a Master of Science in International Environmental Management. When this program is developed, it will provide the United States-Mexico region, the State of California, and the nation with culturally sensitive professionals who have sound training in resource and environmental management – to meet the challenges and opportunities of addressing environmental issues, managing economic development and participating in global trade in the years ahead.

Facilities

The campus is located on an eight-acre city block in the heart of Calexico's civic center along the Mexican border. The campus facilities create a pleasing architectural harmony of old and new structures surrounding a spacious central lawn area, the Rollie Carrillo Quad. Adjoining the quad, the expanded library, Rodney Auditorium, and John Stepling Art Gallery provide academic and cultural resources for the entire community. Other buildings include classroom buildings, the administration building, faculty offices, a computer lab, a bookstore, and the Student Union.

The library is designed to facilitate research and to provide a pleasant atmosphere for study. The collection is expanding and has more than 110,000 volumes, periodicals, and newspapers which support the curricula offered on the Imperial Valley Campus. Services provided include reference assistance, CD ROM databases, personal computers for word processing, full text database, Internet access, interlibrary loans, and photocopying facilities.

Computer assistance is available in the computer lab. Both Macintosh and IBM compatible systems and Internet access are also available on campus.

Admission and Registration

To apply for admission to the Imperial Valley Campus, students must file a complete application and transcripts as outlined in Part Two of this bulletin. Both completed application forms and transcripts should be sent to the Admissions Office, San Diego State University, Imperial Valley Campus, 720 Heber Avenue, Calexico, California 92231. Please telephone (760) 768-5509 for further information. Students can register by the touchtone registration system (RegLine), but only after fees are paid. Late registration is allowed during the first two weeks of the semester. Students wishing to late register must pay registration fees plus a \$25.00 late fee.

Commencement

The Imperial Valley Campus holds its own commencement exercises each spring in the Rollie Carrillo Quad area prior to the commencement exercises on the San Diego campus.

BUILDING LEGEND

1. North Classroom Building (N-101, N-102, N-106, N-108)
2. Administration Building (Administration/ Academic Affairs/Business Office)

6. Physical Plant
7. Computer Building
9. Faculty Offices: Building East (Classrooms)
10. Faculty Offices: Building West
20. Student Center
21. Student Affairs
22. CLAT – Classrooms

The California State University

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became the California State University and Colleges and in 1982 the system became The California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academic, a specialized campus.

The oldest campus – San José State University – was founded in 1857 and became the first institution of public higher education in California. The most recently opened campus – California State University, Monterey Bay, began admitting students in the fall of 1995. The 23rd campus – CSU Channel Islands – will open in fall 2002, with freshmen arriving in fall 2003.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by the California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All the campuses require for graduation a basic program of "General Education Requirements," regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,600 bachelor's and master's degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 2000 totaled nearly 368,252 students, who were taught by more than 21,225 faculty. The system awards more than half of the bachelor's degrees and 30 percent of the master's degrees granted in California. Some 1.94 million persons have been graduated from CSU campuses since 1960.

Average Annual Cost of Education and Sources of Funds per Full-time Equivalent Student

The 23 campuses and the Chancellor's Office of the California State University are financed primarily through funding provided by the taxpayers of California. The systemwide cost of education is defined as total support expenditures (State University Fee revenue and General Fund support appropriations) divided by the number of full-time equivalent students. The total 2001/2002 state General Fund appropriation to the CSU (not including capital outlay funding) in the amount of \$225,000,000 is \$2,607,425,000 and campus budgeted State University Fee Revenue is \$509,417,000 for a total of \$3,116,842,000. The \$3,116,842,000, total cost of education for CSU must provide support for a projected 305,854 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student's academic load).

The 2001/2002 systemwide cost of education per full-time equivalent student is \$10,191. Of this amount, the average student fee support per FTE is \$1,876. (The State University Fee and campus fees that must be paid to apply to, to enroll in, or attend the University are included in the average costs paid by the students. Individual students may pay less or more than \$1,876, depending on the campus and whether student is attending part-time/-full-time, or is resident/, nonresident student. Also, other campus fees may be charged that are not required of all enrolled students, which include user and penalty/deposit fee types.)

<i>2001/2002</i>	<i>Amount</i>	<i>Average Cost Per FTE Student</i>	<i>Percentage</i>
Total Cost of Education	\$3,116,842,000	\$10,191	100.0
–State Appropriation	2,607,425,000	8,525	84
–Student Fee Support	509,417,000	1,666	16
