

Syllabus Design

**Policy adopted by the Senate, April 27, 2004; Revised
April 8, 2014**

Senate Policy on syllabi requires that all course syllabi include a description of expected student learning outcomes and that departments retain and make accessible the most recent versions of course syllabi.

1. Course Syllabi: The syllabus for each course shall describe the course's purpose, scope and student learning outcomes. In addition, each syllabus shall include office hours and contact information for the instructor, refer to the current procedure for accommodating students with disabilities (refer to Student Ability Success Center), and describe the course design, required materials, schedule, and grading policies, which may vary by section. A syllabus shall not bind the instructor to specific details, and the instructor shall retain the right to adjust the course design. Major departures from the syllabus, however, especially with regard to student learning outcomes, major assignment due dates and exam dates, and grading policies, shall be made only for compelling reasons.
2. Instructors shall provide students with access to their course syllabus at or before the first class meeting. In addition, instructors shall post their syllabus on the official and available course site of the learning management system as well as any other course web site routinely accessed by the course students. Any major changes to the course syllabus shall be announced in class, communicated to all students electronically, and incorporated into an updated and posted version of the syllabus.
3. Departments shall, by the end of each semester, upload that semester's course syllabi in an accessible electronic format to the SDSU Syllabus Collection. Faculty may elect to complete and provide to their department a completed course information template (available from the SDSU Syllabus Collection) in lieu of the official course syllabus.
